**Series of Services To Begin August 4th At Church of Christ**  
 Evangelist Claude C. Smith of Weatherford, Texas will be the speaker in a series of services at the Church of Christ, beginning August 4 and continuing through August 13.  
 Evangelist Smith needs no introduction to the people of Clarendon, as he worked with the Church here in the past, and is well known here.  
 Everyone is invited to attend any and all services, which will be at 10:00 A. M. and 8:30 P. M. daily.

**Donley Farm Bureau Chicken Barbecue Friday, Aug. 11**  
 The Donley County Farm Bureau is holding its annual chicken barbecue, Friday, August 11 at the Lelia Lake School House at 5:00 P. M. H. M. Breedlove, county agent, will barbecue the chicken.

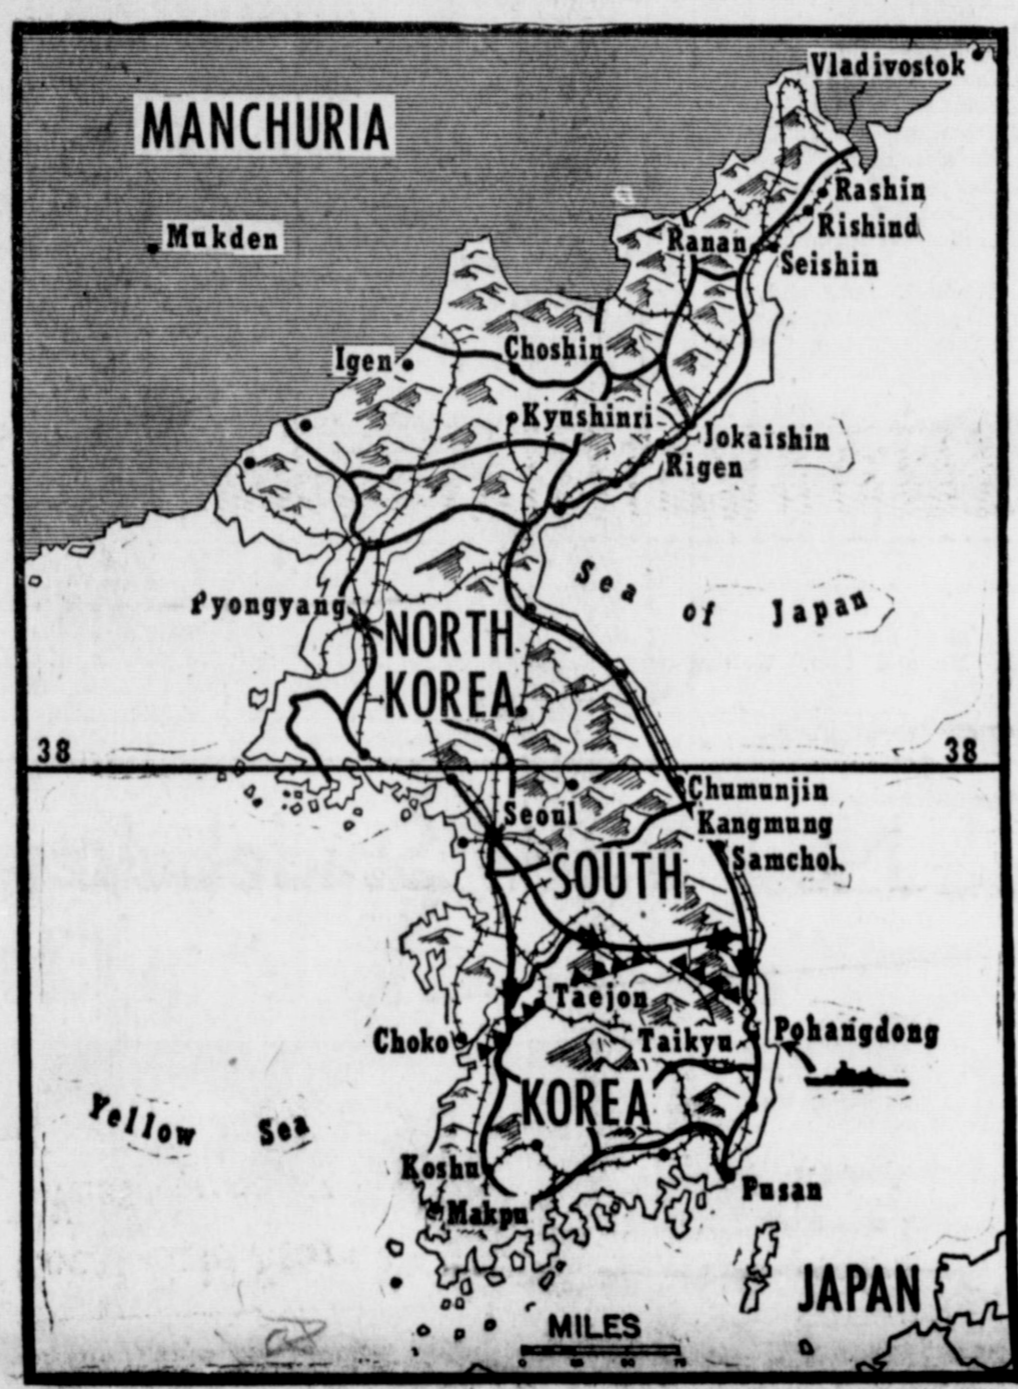

Since we did not have a rodeo and old settlers picnic, this is a grand opportunity for a big get-together. Arrangements have been made to have Senator Grady Hazelwood and Uncle Jay. Please don't forget to leave your one-half chicken per person at the Consumer Locker Plant in Clarendon or the Moreman Locker Plant in Hedley, not later than Thursday, Aug. 10th, 6:00 P. M.  
 "It is next to impossible to estimate the number of people that are planning to attend," stated Lee Shaller, Vice-Pres. of the Donley Farm Bureau. "Therefore by asking those who plan to attend to leave 1/2 chicken per person at one of the above mentioned places the day before, we can arrive at a fair estimate, the possibility of waste or not having enough. The Farm Bureau will furnish all the trimmings."  
 "Let's make this the biggest and best that we have ever had," Mr. Shaller said. "The Farm Bureau sent Troy Hamblen to College Station for a short course this week. We are expecting a good report from him at our meeting. Let us see you there. Everyone is invited."

Rev. and Mrs. M. M. Miller and family of Biloxi, Mississippi visited the past week with their daughter, Mr. and Mrs. Homer Charles Speed and boys.

**Fire Department To Hold Open House Here Sunday**

Fire Chief Carl Bennett announced yesterday that the Clarendon Volunteer Fire Department would hold open house at the Fire Station this coming Sunday afternoon between 4 and 6 o'clock.  
 They are inviting the public to drop by and see the new fire truck, other fire fighting and associated equipment and the departments recreation room. The department is now equipped to do a much better job of fighting any type of fire and we want the people of Clarendon to come by and see what we now have to work with, Mr. Bennett stated.  
 Free coffee and Cokes will be served during the time of the open house and members of the fire department will play a game of water polo for your entertainment. This is quite an exciting game and if you have never watched one you will certainly get a big kick out of it.

**Baptist Revival to Begin August 4th**

The Summer Revival begins at the First Baptist Church Friday evening at 8:00 o'clock. The visiting preacher will be Dr. A. J. Quinn, Missionary of District Ten of the Baptist General Convention of Texas. Dr. Quinn is a man of great power and ability as a preacher and soul-winner and is known and loved by the people of Clarendon. He conducted a meeting in the First Baptist Church in the spring of 1947 and

DR. A. J. QUINN

God gave a rich harvest of souls. "We are looking forward to his coming and invite all our friends to come and work with us in this campaign," stated pastor L. A. Sartain.  
 Marvin Hillis, music director of the church choir, will have charge of the singing during the revival, which will last through Sunday, August 13th.

**Sheriff Returns Prisoner For Trial Here**

Sheriff Guy Wright and family combined business with pleasure this past week when they visited with the J. E. Hollingsworth family at Turnersville and Mrs. Thompson Wright and daughter at Mexia. Their young daughters Frances and Priscella remained there for a visit, also a visit to Houston. On their return trip Sheriff and Mrs. Wright stopped at Gatesville and picked up Manuel Romas at the State School, returning him to the local jail to await trial for the burglary of the Rexall Store on Oct. 8, 1949.

Romas was one of the four connected with the robbery. Manual Martinez was not billed. Auther Martinez drew a 3 year suspended sentence, Ed Chavez was sent to Gove Reformatory School at Inglewood, Colo. and Romas, under 17 years of age, was sent to the state school at Gatesville. He is also being held for questioning in connection with another break-in. All four latin-Americans were from Amarillo.

**Work Conference On Safety Education At University of Texas**

A. W. Breeland, President of the Texas Safety Association announced today that a Work Conference on Safety Education will be held during the second summer term at the University of Texas. Breeland said, "safety education, being a relatively new subject as well as a very popular one demands a continuous revision of materials and teaching techniques in order that the children of Texas may receive the fullest benefit of safety education and driver education as taught in our schools throughout the State."  
Some twenty-five teachers from all over Texas will arrive in Austin this week to combine their efforts and experience in revising the State Department of Education bulletins on Safety Education and Driver Education and to make advanced studies in problems relating to safe living.  
The workshop, directed by Dr. D. K. Brace, Chairman, Department of Physical and Health Education, the University of Texas, is a joint undertaking of the University of Texas, the Texas Education Agency, and the Texas Safety Association. The underwriting of this workshop is one of the major activities of the year for the School and College Division of the Texas Safety Association.

Other participating organizations will be the Texas Department of Public Safety, The Texas Highway Department, the Texas Motor Transportation Association, the American Red Cross, and the Texas Insurance Commission.

**University of Texas Scientists Testing Radical New Mirror Optical Systems For Cameras**

AUSTIN—University of Texas scientists are testing radical new mirror optical systems for cameras, microscopes, and similar instruments.  
The new systems, called "objectives," take the place of lenses in optical equipment. The mirrors focus light waves by reflection in contrast to transparent glass lenses which refract or bend light into focus.  
"Objectives may make optical instruments much cheaper and lighter," Dr. Howard S. Coleman, Optical Research Laboratory director, said. "A student-type mirror microscope should cost about \$50. That instrument with a lens now sells for approximately \$150."  
"Similar price reductions can be expected in mirror cameras, telescopes, and other optical systems."

**Taxpayers Pay Difference**  
The U. S. Interior Department published, at a total cost of \$61,242, a 23-volume series on the Columbia River Basin. The printing cost per set was \$36.06, but the publications were put on sale at \$6.90 per set. Many sets were distributed free.

**State Accepts Two Top-Notch National 4-H Award Programs**

Two highly important national 4-H awards programs—Meat Animal, and Soil and Water Conservation—have been accepted for the current year by the Texas State Club office.

This will be the 21st consecutive year that Thos. E. Wilson, meat packer and chairman of the National Committee on Boys and Girls Club Work, has provided incentives to help encourage 4-H boys and girls in livestock club work. Awards in the Meat Animal activity include gold-filled medals, gold watches, Chicago 4-H Club Congress trips and \$300 college scholarships, on county, state, sectional and national levels, respectively.

The Soil and Water Conservation program is now set up for two age groups—one for boys and girls 15 to 21 years old, and the other for those 10 to 14, inclusive. The older group is required to complete a more comprehensive project.

Medals for county winners, and gold watches and \$25 Savings Bonds for State champions are provided by Firestone Tire & Rubber Company. Sectional winners get Chicago Club Congress trips. National awards are \$300 college scholarships. This revised program is the result of combined planning by representatives of the Cooperative Extension Service, Soil Conservation Service, Firestone and the National Committee.

Bennie John Gallagher, of Clarkwood, Nueces county, was last year's national and State champion in the Meat Animal program. Carroll Fowler, of Lakeview, Hall county, won sectional and State honors in Soil Conservation.

Complete information on these programs may be obtained from County Extension agents.

At the Boston Tea Party 342 chests of tea were cut open and emptied into Boston Harbor.

## ATTENDING COOPERATIVE WORKSHOP AT AUSTIN

Miss Ruth M. Richerson, county superintendent of Donley County, and Miss Lucile Polk, Clarendon College history teacher, are in Austin this week attending a cooperative workshop on teacher certification and professional standards.

Purpose of the workshop, being held at the new educational building of the University Methodist Church, is to turn out a set of comprehensive proposals for revising the Texas program of teacher certification and teacher education. It is hoped that these

proposals will bring about greater competency of teachers in Texas public schools, and the raising of teaching to full professional status.

State Commissioner of Education J. W. Edgar, under authorization and direction of the State Board of Education, called on four agencies to assist in the workshop. These are the Texas State Teachers Association, the Texas Council on Teacher Education, the Texas Vocational Association, and the Texas Education Agency, administrative body of the State Board of Education.

One hundred and fifty participants from every division and strata of the Texas educational system are attending the workshop.

Mr. and Mrs. Clint Martin and family of Dumas visited Mrs. W. D. Martin last week.

## TO THE VOTERS OF DONLEY COUNTY

I take this means of expressing to each and every one of you my sincere appreciation for the splendid vote given me in the July primary election. Notwithstanding the fact that I had no opponent it is very gratifying to know that you gave me an almost unanimous vote. I feel like it was a vote of confidence and as such I appreciate it very much indeed, and I want to assure you that I will continue to serve you and Donley County to the very best of my knowledge and ability. I am here to serve you. Again thanking you I am,

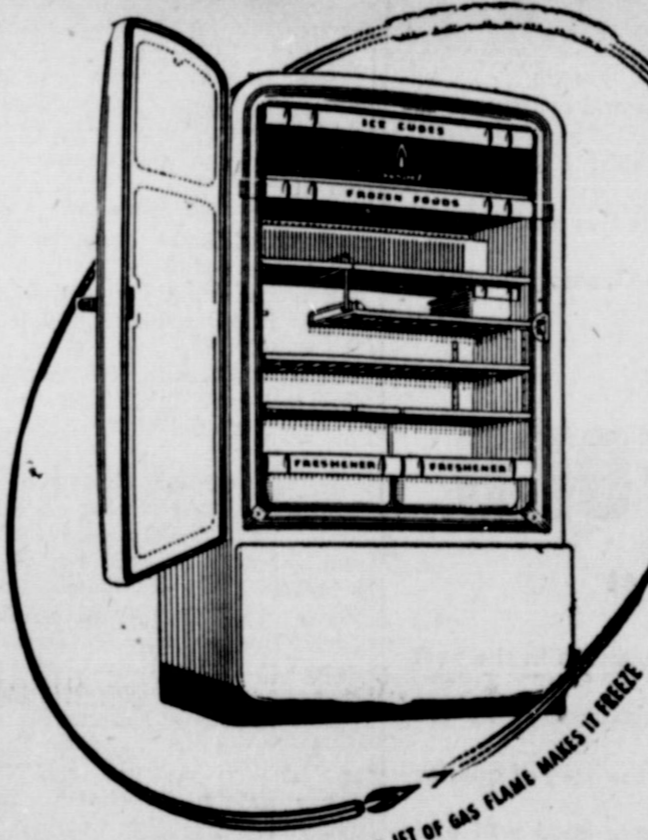

Very sincerely and respectfully yours,  
 W. J. Williams  
 County Judge,  
 Donley County.

**The Lion's Roar**  
By Jack Gray

The Lions Club held its regular meeting at the club hall Tuesday, August 1. In addition to the regular members, there were two guests and visitors present for this meeting.

The program consisted of a talk by Boss Lion O. D. Lowry about his recent trip to the Lions International Convention in Chicago. This was a very interesting pro-

gram and Lion Phelan has our thanks for arranging this program.

Mrs. Olace Hicks and children spent the week-end in Pampa where Mr. Hicks is employed. They attended Calvary Baptist Church and visited with friends and relatives in Borger and Sanford Sunday afternoon.

Mr. and Mrs. Elwyn Anderson of Milan, Illinois are visiting relatives here this week.

**MORE SUNSHINE NEEDED FOR GROWING CROPS**

Donley County is fast becoming a swampy country and local farmers are wondering whether they miscued by not planting a rice crop. In general, crops are looking very well and will look much better and really grow if we continue to have more sunshine. Several farmers in the hail belt have stated that some of the cotton stubs are putting out again but plenty of sunshine will be needed for it to go ahead and make.

The month of July has been on the wet side with approximately 6.35 inches falling during the month, and this total would have been higher if the month had lasted six hours longer, for we received another inch early Tuesday morning. Some parts of the county has received much more than this count; in fact, the hail belt received this much or more in just one afternoon.

The weekly moisture total here in town according to Joe Goldston's rain gauge was 1.31 inches. This brings the year's total to 13.22 inches.

Rev. and Mrs. John English and son Jerry returned the latter part of the week from Mt. Sequoyah, at Fayetteville, Ark. Rev. English and Jerry attended class in "Understanding Nursery Children" at the Jurisdictional Leadership School held there through a 10 day period.

Mrs. Emory Morris of Pampa visited Thursday night with her parents, Mr. and Mrs. Bert Ayers of Hedley and Friday with her sister, Mrs. Winnie Stogner and children.

**FARM NEWS**  
From the County PMA Committee

**COTTON MEASUREMENT:**

At this time we are pleased to tell you that we are over half through with our cotton measurement. This rain has really been a handicap to our crews measuring out in the county. However, when they do get a chance, the crews work very fast. In order to cut down on expenses we were forced to let all our chairmen go. Now, more than ever, we are depending on the farmer to cooperate with us to help us get this job done.

**BUDGET:**

We still don't have any money. Our conservation program is at a stand still as far as carrying out practices is concerned. We are getting a few approvals back in the office that have been out for some time, but we sure aren't issuing approvals. If you do have a practice you want to carry out, please come by the office and place your application, and we will help you when we can.

**WHEAT ALLOTMENTS:**

We have had several calls and inquiries from wheat producers wanting to know if we had their wheat allotment figured out. As yet we haven't received the County Allotment from the State Office, but as soon as we do receive it, we will let all those concerned know what their allotment is.

**COTTON HISTORY:**

Those producers in the county who are worried about their cotton that has been hailed or rained out this year will be pleased to know that for history purposes they will receive the amount of acreage up to their allotment. This will help in the future years for the purpose of establishing allotments.

**AGRICULTURAL SHORTS:**

"During the time that the Agricultural Conservation Program has been in operation, farmers have applied 3 times as much lime as the total applied to American soil before then."

"World population is now estimated to be approximately 2.2 billion people. The estimated area of cropland of the world is 2.4 billion acres. This is slightly more than 1 acre per person."

"According to the June report on Farm Labor by the U. S. Department of Agriculture, farm operators were putting in 11.7 hours per day at farm work around the first of June. Hired farm workers were working 9.7 hours per day."

**Boy's Ranch Rodeo Set For Sept. 3rd**

September 3rd, the Sunday before Labor Day, has been selected as the date for the Sixth Annual Boys' Ranch Rodeo and Barbecue. This annual event will be held at the Ranch and the boys are inviting everyone to attend.

With the exception of last year, when Roy Rogers appeared for Boys' Ranch, the Rodeo has been held at the Ranch. Arrangements are already being made to accommodate an expected three thousand people.

The entire rodeo is put on by the boys and they have been practicing hard for several weeks. Every day there is some sort of practice going on and even some of the little fellows are going to try their hand at calf riding. Other acts planned are bronc and steer riding, trick riding and roping, ribbon roping and jumping.

This is the one time in the year that the boys have a chance to show off and they're planning a rip-snorting show. Charlie Lowe of Amarillo will handle the barbecue and there will be plenty for chow for everyone.

Mr. and Mrs. Joe Jones left Friday to vacation in Chicago. While away they plan to attend the program "Welcome Travelers" on August 3rd.

Mr. and Mrs. Leslie Stephens and Margaret of Amarillo and Mrs. Macie Lukas of Vernon visited Sunday afternoon in the U. T. Fowler home.

Visit Mexico City  
Mr. and Mrs. Rufus White left Wednesday for a vacation in Mexico City.

R. L. Gibson of San Angelo arrived Monday to visit his sister, Mrs. W. D. Martin.

Mrs. J. G. McAnear and children visited her parents, Mr. and Mrs. D. T. Smallwood at Brice Sunday.

I was talking to a lady the other day and the subject of the "Hoarders" came up. "I just can't do it", she says, "the very thoughts of taking home an extra anything just sort of gags me. All I want to hoard right now is my

eighteen year old boy." I mentioned this to several others and the ones with young boys about ready to go seem very well agreed on this subject. I wonder if the Joe's and the munitions makers and political war promoters have any sons to give for their cause. I wonder also are we becoming more popular around the world? The other day a prominent doctor in a nearby town who had just returned from Europe told me that even in the countries that we have spent the most money and lives in we rate just about zero. We must find the correct answer to this problem sometime.

Picked up a paper down in Oklahoma and noticed a letter to the Household Hints Dept. of a local paper asking what to do for mil-dew spots that came on her dozen sheets that were stored away in her basement for safe-keeping. Anyway, the editor told her to wrap herself in the sheets and stay down in the cellar until she mil-dew-ed.

Mama and I really enjoyed our little visit with her friends and relatives down Oklahoma way again this year. Oklahoma is all right, I guess. If I had not been born in Texas and could have had my "Druthers" for a next best place I would have picked Okla-

homa or New Mexico. Of course I would have wanted it to have been in a little nook somewhere right up close to the Texas state line.

Down in Oklahoma they have just had a knock down and drag out fight in the race for governor. And the race ended almost in a tie and the courts will probably have to settle it. Anyhow, one of the favorite political stories going the rounds down there is about a politician who retired from politics and went into the hog business. He bought 12 of the finest hogs that he could buy in the countryside. With patience he fed and cared for them for

a year and he still had only 12 hogs. He called in a neighbor farmer and demanded an explanation. They were barrows. Reckon folks this dumb do get into public office?

Mrs. Cassie Nelson sends us a card that St. Peter took them in. St. Peter seems to be a town and a tourist camp in Minn. Also just about the cutest card from just about the cutest little girl comes from little Marilyn Nelson who was stopping over in Kansas on her way to Minn. with her folks. She had visited the Dalton Bros. Hideout; the worlds deepest well, and had seen a meteor. Thanks to all the others that sent greetings to us on our birthday this week. Don't think I'll have any more birthdays. Will all of you please forget when it is. Maybe we could have about one every ten years. Thanks anyway.

Heard some one talking about a cloud, "Oh, I don't think it will rain out of that. Looks like "All fuzzi and no feathers to me." This was a new Old Time Saying to me. If you think of one that has not been used in print lately please send it to us. You couldn't say this about the clouds that we have been having around these parts lately. Thanks everyone for everything.

**GET OIL WITHOUT ORDERING**  
By means of its special degree-day system, the oil industry now provides automatic fuel delivery to more than 70 per cent of the nation's oil-heated homes. The degree-day system enables local dealers to keep close tabs on the amount of oil in a consumer's tank at all times, and to schedule deliveries accordingly. The system is only one of the many services provided by the nation's oil men for the general public.

**Absent At The Wrong Time**  
Less than half of the 435 members of the U. S. House of Representatives were present to vote on the large majority of motions connected with the 1951 General Appropriation Bill when it was before the House this Spring. Sometimes as few as one-seventh of the members voted. One amendment to increase a pork-barrel item carried by a vote of 32 to 29. A motion to cut the RFC

appropriation lost 69 to 65. Of 35 motions to cut appropriations, only 10 carried. A majority of the remaining 25 lost out by less than 20 votes.

power plant at his toe's command, by the obvious levelness of the ride he enjoys, the swift ease with which Dynaflo Drive solves his traffic problems.

What is not so plain from what you see is that here also is a man very wise in what today's dollar should buy!

For this man has all that a fine-car owner can ask for—brilliant performance, a ride without equal for gentle softness, finger-easy handling, abundant room all around him, styling that is easily the most distinguished on the highway.

Yet he paid considerably less than comparable merit costs elsewhere.

He found fewer extra charges in his delivered price, with such things as Dynaflo Drive, foam rubber cushions, windshield washers, electric clock, even non-glare rear-view mirror included in the price.

If you know fine cars, it won't take fifteen minutes behind a ROADMASTER wheel to see that here is one of the finest.

If you have inquired about prices, a single glance at the delivered figures establishes this as the big buy of the field.

Why not make both checks—especially since your Buick dealer will be glad to arrange a trial run in a ROADMASTER any time you care to call on him?

## Ben Guill Reports To The People

(Congressman 18th District)

This news report is of vital importance to every farmer in the entire district. Read it carefully and call the attention of your friends to the following words and discuss it at length.

There was some dissatisfaction with the meeting held in Amarillo two weeks ago. I think you must be coming to the conclusion that any time your crops are supported you must have some kind of control. Now, what I want to say is this; I am not arguing either in favor of controls or

against them, but under supports and controls the farmer has apparently prospered. We don't want 25c wheat again, nor do we want 4c and 5c cotton. I am not the one to say that we shall have no controls and until I can get a complete report from the people will I ever vote to withdraw any price supports, but remember, with supports there must be controls.

As I have stated, there was dissatisfaction over the meeting held in Amarillo, but since that meeting the Department of Agriculture has announced a new wheat allotment for the coming year and with the raising of that allotment the biggest problem of both summer fallow farmers and fence to fence farmers will be

partially settled.

Now, here is the most important item of what I have to report to you. Under the proposed formula that will be set up by the Department of Agriculture, which will be called the 95%-105% Formula, the Panhandle of Texas will receive a greater wheat allotment than they did in 1950. To quickly explain the 95%-105% Formula: It means that no county shall get less than 95% or more than 105% of its 1950 allotment. It looks today, from reports of the wheat subcommittee of the House Agriculture Committee, that the Panhandle and Texas will receive 103% of its 1950 allotment. How, note this carefully, the 1951 acreage allotment in each county must be worked out by the PMA Committee on the fairest basis possible. The 1951 acreage allotment of each independent farmer in every county must have the closest attention because 1951 will be used as a base for

future allotments instead of going back and using past history. The PMA Committee, in working out the 1951 individual farmer allotment, must try to have it as perfect as possible because 1952 acreage will be based on the 1951 allotted acreage and not past history. This proposed formula has some advantage because each year the farmer will know approximately the exact amount he will plant the next year, for without any formula he can adjust his acreage up or down as compared to the national allotment. For example, if in 1951 you have 100 acres allotted to you as an individual farmer, if the national allotment in 1952 is cut 10% or is raised 10% you know immediately that your 1952 allotment will either be 90 or 110 acres. This is the proposed formula of the Agriculture Department and I feel sure that it will be adopted. I understand that the farmers are getting impatient because it is getting to be seeding time again and I hope the Agriculture Department will announce the plan in the next day

or two. In the meantime, if you have any questions please advise me.

## Federal Aid Bills Flooding Congress Found To Total 307

Uncle Sam has a bargain basement sale in the making with a total of 307 attractive offers of financial aid to state and local governments. All the Federal Government wants in return is a bigger say in running hometown affairs.

In a special study released today State Chambers of Commerce added the bills for Federal aid before this 81st Congress and came up with the total of 307.

If all of them were passed, they would add approximately \$3,200,000,000 to present Federal spending the first year and well over \$6,000,000,000 a year by the sixth. None of the bills even hinted that the people in the states would pay in full, by Federal taxes, for the very "aid" they were offered.

These proposals cover 41 different types of grants-in-aid. They include such measures as spending \$8 million for the Federal Government to enter the character training field and another \$50 million to promote the health and soundness of youth.

Federal grants-in-aid to state and local governments have grown steadily since the end of World War II, both in total dollar expenditures and in the number and variety of services subsidized. Federal aid outlays for the fiscal year 1950 amounted to approximately \$2 1/2 billion. This is \$800 million more than the total sum paid out in the fiscal year 1948—just two years ago.

The amazing thing about this flood of grant-in-aid measures is that few, if any, State Governors have come to Congress asking for such legislation. Many State Legislatures have adopted resolu-

tions roundly criticizing Federal grants-in-aid as a growing and costly evil. For instance, the Indiana Legislature said,

"Indiana needs no guardian and intends to have none. We Hoosiers were fooled for quite a spell with the magician's trick that a dollar taxed out of our pockets and sent to Washington, will be bigger when it comes back to us. We have taken a good look at said dollar. We find that it lost weight in its journey to Washington and back. The political brokerage of the bureaucrats has been deducted. We have decided that there is no such thing as 'Federal' aid. We know that there is no wealth to tax that is not already within the boundaries of the 48 states."

Conservation of the soil and forests is largely a matter of using the land in accordance with the dictates of Nature.

### Texas Lions League For Crippled Children Building \$500,000 Camp Near Kerrville

KERRVILLE, Texas—Clusters of ranch-style bunk houses, filled with the laughter of physically handicapped youngsters should dot the neighboring hills by the summer of 1951 if present plans of the Texas Lions League for Crippled Children materialize.

Jack Wiech, president of the League which was organized to raise funds for the construction and operation of the Melvin Jones camp for crippled children, said Wednesday he has hopes that the \$500,000 camp will be in full operation by next summer.

Among the committees which he has appointed are the membership development committee,

camp improvements, advisory and camp awards.

The membership development committee, under the chairmanship of J. I. Moore of Kerrville is charged with contacting individuals for the purpose of raising funds for the construction, maintenance and support of the buildings and property at the proposed camp.

The camp will be open to crippled boys and girls, from the ages of 7 through 16.

"No fee shall ever be charged or collected for the admission or maintenance of any children at the Melvin Jones camp," Wiech explained.

"Any person or organization interested in the welfare of any particular crippled child or children," he added, "shall have the privilege of making a contribution to the work of the League".

The camp will be constructed

on a 504-acre tract of land, three miles from Kerrville, which was donated to the League by the federal government.

Children at the camp would come from various parts of Texas, selected by local Lions clubs.

Occupational therapy will be available for the youngsters, as well as regular school.

Pony carts, horses and burros will be available for treks over the neighboring hills and through the nearby Texas State Park along the Guadalupe river.

Wiech said children will be selected on the basis of their personal need for such rehabilitation, regardless of the financial ability of their parents.

The physical plant will include a large administration building, craft shops, a swimming pool, six bunk houses and an auditorium with a seating capacity of 360.

### So You Think You Have Problems

Not too far from Amarillo a young man was caught in a whirlwind blast while making repairs on a farm windmill. Two days later he learned that he would never recover from a broken back he suffered in the fall. Nor would he die. He would just lie there in bed, paralyzed from the waist down, no chance of ever returning to the active work of the wheat fields and cattle country.

Some twenty years ago a baby girl was born in the high north plains. Unlike other girls, she had to learn to live with a severe spastic condition. Walking was difficult, speech was hard, and writing almost impossible.

Football season was just beginning last year when a sixteen-year-old boy left a plains hospital carried in his father's arms. He was being carried because polio has left him so that he cannot walk.

cannot correct their condition. Their disability is not fatal. It only keeps them from living ordinary active lives. Their problem is to remember that it's not what they lost, but what they have left, that counts. They must learn to do what they can do to make a living and to make their grade in a competitive, hard-boiled society.

But they can get some help. The State of Texas under its Office of Vocational Rehabilitation, Texas Education Agency, tries to help handicapped civilians solve their problems.

In the words of J. J. Brown, "We find a man or woman, anyone over 16, who is disabled in any way. If he needs surgical and medical correction we can help him get it. After he's in as good physical shape as possible, we still try to improve his working ability by providing artificial limbs, hearing aids, or whatever he needs. Then we teach him a trade he can do, something that's suited to his likes and his abilities. Then we help him find a job, and once in a while we drop in to see that he's getting along okay."

Mr. J. J. Brown, State Director for more than twenty years, has been actively responsible for the development and success of Rehabilitation not only in Texas, but also on a nation-wide level. Mr. Brown is President of the National Rehabilitation Association and Vice-President of the American Vocational Association.

The State Rehabilitation office

located at 212 Mays Building, Amarillo. With the counsel and guidance of this small program, the man with a broken back was able to learn to do skilled repair work so that now he is paying his own way in the world. The girl with cerebral palsy was able to enter into a small business of her own where she cannot be fired and where she is able to do interesting, profitable work. The boy with polio is still in school, training to do skilled desk work so that he can become a worthwhile worker to some sympathetic employer.

Sometimes, through careful use of medical services, aptitude tests and counseling, vocational training, selective placement, and close cooperation from others, State Rehabilitation is able to help make little problems out of problems that seemed once impossible.

ernment keeps a record of each worker's earnings in jobs subject to the law. So far accounts have been set up for about 80 million individuals who have wage credits, with the entire job of establishing and maintaining these millions of accounts costing about 3/4 of one percent of the taxes collected. The overall cost of the complete program, including collection of taxes, record keeping, and payment of claims, is now approximately 3 percent of tax income and is declining steadily. This record has been achieved by the use of the most modern machine bookkeeping methods. Constant improvement in bookkeeping methods results in 60 employees doing the work now that required 100 in 1941.

As an example of his agency's speedy action, Sanderson mentioned the furnishing of wage statements. In spite of the fact that requests are received at the rate of about 3,000 every day, each individual's account is located among the millions in file, a summary of his earnings is prepared, and the statement is in the mail within 72 hours from the time the request is received.

### SOCIAL SECURITY NEWS

It costs less than 13 cents to keep track of a worker's earnings under social security for an entire year, according to John R. Sanderson, manager of the Amarillo office of the Social Security Administration.

As explained by Sanderson, the old-age and survivors insurance system is based upon individual wage accounts in which the gov-

Care for Veterans

See how quick  
and easy it is  
to change from  
turkey. Or to  
use a whole  
case of colts  
for a party.

**NO MOTOR TO WEAR!  
NO MACHINERY TO GROW NOISY!**

Different from all others, you'll find the new 1950 Gas Refrigerator is your biggest refrigerator value. For Servel alone has a freezing system without a single moving part. Nothing to wear or cause noise. So Servel alone stays silent, lasts longer.

We have new 1950 Servels now on display. Before you choose any refrigerator, stop in and see them.
