What Wuz It?

Many a neck muscle was strained here Tuesday when Clarendon residents sighted a silvery, transparent-looking object high in the sky. The object was first noticed around 9:30 in the morning and was visible until around 2 p. m. when clouds moved in shutting off the view.

The phone at the Leader office began buzzing soon after the object was first sighted and the whole town has been buzzing ever since. There have been hundreds of ideas as to what the object was but nothing even close to definite has been submitted to date. The general opinion of local residents has been that it was some type of balloon.

Soon after the object was sighted, the Fort Worth Star-Telegram started an intensive investigation of their own and the following is part of what they had to say about it in Wednesday morning's issue:

Various reports as cigar shaped and spherical, the seemingly stationary object was seen by CAA observers, Air Force and civilian pilots, and ground watchers.

A CAA official here said CAA stations at Wichita Falls, Childress and Clarendon plotted the location and altitude at 60,000 feet directly above Memphis.

The object first became visible about 9:30 a. m., disappeared in early afternoon, and reappeared about 3 p. m.

A spokesman at Sheppard Air Force Base, Wichita Falls, told the Star-Telegram by telephone that a special Air Force storm weather unit from Oklahoma City began operating at Sheppard several days ago and released two rawinsonde balloons Tuesday.

These balloons are 12 feet in diameter on the ground but inflate as they rise. One was released at 9 a. m., the other at 1 p. m.

Radio instruments carried by the balloons indicated to the ground station that the first, by mid-afternoon, was traveling at a velocity of 55 miles an hour, west of Wichita Falls, and the second was moving at 49 miles an hour, at a height of 25,000 feet.

The Panhandle object first became visible about 9:30 a. m. when it was spotted by W. J. Hightower, CAA communicator at Clarendon. He said it was southeasterly, in the direction of Childress.

Hightower said a pilot flying at 8,500 feet en route from Amarillo to Fort Sill, was heard to report by radio that he had seen the unusual object at an estimated height of 60,000 feet.

The pilot of a F-61 "Black Widow," who gave the last three digits of his plane number as

357 but failed to give his name, reported to CAA that he climbed to 29,000 feet and the strange object still was high above him.

Too, the mysterious craft reportedly was sighted by a Braniff Airlines pilot, Capt. Carl G. Gray, who saw it in the vicinity of Memphis as he flew from Wichita Falls to Amarillo.

From Denver, Gray told the Star-Telegram:

"We were asked by CAA to be on the outlook north of Memphis. They thought it was around 60,000 feet. We started climbing as soon as we left Wichita Falls and had reached 12,000 feet due north of Childress when we sighted it.

"There were high cirrus clouds at 30,000 to 35,000 feet which blocked out the object every once in a while. There was no telling how high it was.

"When I first sighted it at a 45 degree angle through my windshield, it looked more like a ball. As I came up under it, it looked more like a plate or a disc. It sort of bobbed. It was not stationary but it was not moving in any one direction.

"It was silvery or white and when I was directly underneath, what looked like a real bright streak went right through the center of it.

"From the time we sighted it until we were directly underneath took seven minutes. We were doing 180 miles per hour, so we traveled in the vicinity of 20 miles to get under it. The object was pretty good size.

"I've never seen anything like it before. It looked like it could have been a balloon but I don't think it was."

It has been understood that the board will meet tonight to elect instructors for the various positions in the local school system.

Record Breaking Crowds Expected At First Baptist Church

The attendance has been good at each of the services of the meeting now in progress at the First Baptist Church. Many are doing the things that God is leading them to do and are being saved and uniting with the church, stated Rev. L. A. Sartain, local pastor. Attendance goals for Sunday are 400 in Sunday School and 250 in Training Union. The workers in each class and union are doing their best to have every member of that group present.

"God is moving in the hearts of His people and great things are coming to pass for the spiritual welfare of the community," said Rev. Sartain. "We extend a warm welcome to every person who is Baptist or of Baptist choice to be present for these services, and for all the services of our church."

Breedlove Attends Field Day Meeting On Mesquite Control

County Agent H. M. Breedlove attended a field day at the Spur Experiment station on Tuesday, April 18th, on mesquite control. Mr. Charlie Fisher, in charge of the research work at the station was in charge of the field day.

Mr. Fisher discussed the work being done with the county agents and then the entire afternoon was devoted to looking over the demonstrations on pasture land showing the results of mesquite control. The method used at the station was spraying with 2-4-5-T at the rate of three fourths pound per acre, mixed with three gallons of water and one gallon of diesel oil. The top kill on mesquites was ninety five to one hundred percent kill with the root kill running around thirty percent. This was done at a cost of around three dollars and twenty-five cents per acre compared to twelve dollars per acre with a dozier. The weeds were killed and control will be good for a period of from five to eight years before spraying will be necessary again.

The station is conducting around two thousand demonstrations on mesquite control and the goal is for complete eradication and with the research work being done it is hoped that in the near future this can be accomplished. This type program is giving first hand information to county agents so that they can keep the farmers and ranchers in their respective counties informed on the progress of brush eradication.

The years of 1950 to 1960 are to be proclaimed years of pasture and soil improvement by the governors of at least six southern states. This move was started by the Houston Chamber of Commerce, and Mr. W. S. Whaley, local manager of the chamber of commerce in Clarendon contacted County Agent H. M. Breedlove who has agreed to help make the program a success in Donley County.

Breedlove says that all agencies will go into the program for soil conservation and pasture improvement for the next ten years in a concentrated program. The SCS, PMA, FHA, Extension Service and the soil conservation district will all work hand in hand to help put over the program.

Pasture And Soil Improvement To Be Practiced Here In Donley County

This type of work has been going on in Donley County since 1934 but all types of unified efforts to push the program is good for the improvement of our soil and pasture development.

The governor of Texas is expected to sign this resolution in the next few days and all agencies will make it an objective for the next ten years to do the utmost work in pasture improvement and soil and water conservation. Educational work on this type of conservation will be handled by the county agent and technical assistance by the SCS. The PMA will make the payments to assist farmers to carry out the practices.

TO PREACH HERE SUNDAY

Rev. W. R. Elswick of Council Grove, Kansas will be the visiting preacher at the First Christian Church here this coming Sunday. He will preach at both the morning and evening services. A cordial welcome is extended to everyone to come and hear him.

Our first book gift for the week is "The Tangled Skein" by Seymour. This book is for teen agers with the setting in Norway just after the war. "Cornelli" by Spyrri was given by Caroline Thomas for the smaller girls. She frequently gives one of her books, in fact quite a few boys and girls give books and magazines. The youngsters read much more than the grown ups and seem grateful that books are readily obtained.

Another junior addition is "Pocketful of Feathers"—Myers. The girls will find this quite wholesome reading. To our adult section the recent books are: "Mingo Dabney" by James Street and moves to a thunderous climax in 1896. It is a vigorous tale of swash buckling, of men who lived and loved for the hour, knowing that the next might bring disaster. A friend gave us "Rowan Head" by Ogilvie. The Maine coast is the setting for this swift and moving story. It is portrayed with fine authenticity and a remarkable feeling for atmosphere—the setting is as vivid and vital as her warmly alive characters. "The Mature Mind" by H. A.

Overstreet was a memorial gift in memory of Mrs. Ralph Porter. This book has been desired for our readers for sometime. Edward Weeks, of "The Atlantic" states: "It will invite that kind of self-examination which is so widely needed among us at this time."

The last of the week Billy Waymon Noblet gave us a generous gift—49 books. These are all popular editions and in their original jackets. The Library is very fortunate in having such liberal patrons and friends. You remember that last month T. E. Bugbee III gave us approximately this many boy's books. Until one has worked here and realizes the impossibility of supplying the demand for reading material on limited cash—they cannot estimate the true value of these gifts. From this list the following are catalogued for issuing:

Rockwood—"Bomba the Jungle Boy at the Giant Cataract," "Bomba the Jungle Boy in the Abandoned City," "Bomba the Jungle Boy Among the Slaves," "Bomba the Jungle Boy Among the Pygmies," "The Winning Basket"—Yarnell, "On the Forty Yard Line," Wright—"Fighting Coach," Scholz—"Tom Harmon and the Great Gridiron Plot"—Dender, "Starbuck Valley Winter"—Brown—"Buddy & the Secret Cove," Garis, "Gray Wolf"—Montgomery, "The Trail of the Seneca," Braden—"The Flying Reporter"—Theiss. These are the ones I've recorded, and there are eleven Bobbey Turns, which we needed so very much as these we have are terribly worn. Other books will be listed next week. Numerous patrons bring books once a month, and magazines twice a month in order to supply current issues. This interest and prompt return of issued books is greatly appreciated. Our shelves are practically full, but more shelving can be built.

Don't I Help Pay for Telephone Expansion?

Telephone companies are not allowed to charge enough to pay for expansion. Funds for this purpose must come from investors—everyday folks who put their money in telephone stocks and bonds.

Our revenue from telephone rates allows us only enough to pay operating expenses like wages and taxes, and to give investors a reasonable return. Thus, today's efficient service and tomorrow's expansion demands a business operation which must be both progressive and financially sound.

ARE YOU GOING TO TAKE THE VETO OF THE KERR BILL LYING DOWN?

EVERY Democratic Congressman from Texas and both our Democratic Senators pleaded with the President not to veto the Kerr Bill. The Kerr Bill represented economic security for every single citizen of the Panhandle. The Kerr Bill would have prevented the Socialists in Washington from plundering our natural gas reserves and setting prices however they wanted them.

BUT the big bosses of the crooked northern political machines ordered the President to veto the Kerr Bill—or else. The Socialists said the folks in the Panhandle would continue to be suckers and vote Democratic no matter what was done to them. So the President obeyed the order of the gangster-ridden political machines and stabbed the decent citizens in the back. He vetoed the Kerr Bill.

WHAT ARE YOU GOING TO DO ABOUT IT?

IF YOU were to elect another Democrat to Congress on May 6—no matter how able he or she might be—you would be telling the Socialists that the people of the Panhandle would continue to come back for more no matter how much they were kicked in the teeth.

BUT IF YOU ELECT BEN GUILL, THE REPUBLICAN CANDIDATE, TO CONGRESS YOU WILL BE SERVING NOTICE ON THE SOCIALISTS WHO HAVE STOLEN THE DEMOCRATIC PARTY AWAY FROM YOU THAT THE PEOPLE OF THE PANHANDLE CAN NEVER AGAIN BE INSULTED AND BETRAYED WITH SAFETY.

BEN GUILL has promised to bring the treacherous veto of the Kerr Bill to the floor of the House. He will be given the complete and unanimous support of every Republican leader in Washington to redress the wrongs of the Panhandle. No such assistance would be given to a Democratic Congressman from the Panhandle. He wouldn't get to first base.

THE ONLY WAY THE DEFRAUDED CITIZENS OF THE PANHANDLE CAN GET ANY CONSIDERATION IS TO SHOW THEIR INDEPENDENCE AND PROVE THAT HERE, AT LEAST, THE PEOPLE ARE STILL BOSS. THE ONLY WAY THEY CAN DO THIS IS TO ELECT

BEN GUILL

The REPUBLICAN Candidate

Texas Ranchers Fight Cancer Eye In Cattle

HOUSTON—Cattlemen in the Southwest have a special reason for joining the annual "Crusade" to control cancer, the American Cancer Society, Texas Division, said today.

"During an 11-month period in Texas, 549 cattle were condemned by Federal inspectors, because of cancer eye," the Texas cancer group, pointed out. "Cancer eye, an unexplained growth in the eyes of white-faced Herefords, is presenting ranchers of the state with a dollar-and-cents problem, because it's cause, like that of human cancer, is as yet unknown."

Cancer Eye is not usually noticed until the animals get to the stockyards. When the condition is discovered the animal afflicted is totally condemned.

"Texans are now conducting their annual educational and fund-raising drive against cancer," the Cancer Society concluded. "Cancer control volunteers urge the ranchers of Texas to join this fight now. It is significant that all agencies of the nation last year spent \$13-million dollars for cancer research, and yet more than three times that much went to fight the foot and mouth disease in Mexico, even though human lives are also involved in cancer."

YOU NEED RONALD DAVIS IN CONGRESS a YOUNG man OLD in Experience!

In the Problems of

- AGRICULTURE
- LABOR
- VETERANS
- BUSINESS
- EDUCATION

Send a Man to Congress who Is CAPABLE of Representing ALL of you ALL of the time

Ronald Davis is a young man, born in Texas in 1911, 39 years old, raised on a farm in the 18th Congressional District of Texas. He worked his way through school at Childress, Texas; worked his way through West Texas State College in Canyon, Texas; received his degree in Agriculture and was president of the Senior class in 1936. He worked on his Master's Degree from Texas Tech and Colorado A & M. Holds the Smith-Hughes Certificate in Agriculture from both Texas Tech and Colorado A & M.

YOU CAN DEPEND ON DAVIS

For 12 years Ronald Davis has been a farmer and has taught Agriculture in the principal farming areas of the 18th Congressional District. He is schooled in the problems of this district. He is an active church and civic worker. Has served as Sunday School teacher and superintendent and as school board member. Married a West Texas girl, has two sons, Lindley Ronald 14 and Cagle Dean 9. Both sons are Boy Scouts and Mrs. Davis is a Cub Scout Den Mother and active church worker.

DAVIS IS EXPERIENCED

- IN FARMING**
 Since agriculture has been acclaimed the basic industry of the 18th congressional district, Ronald Davis is the best qualified man to represent the people in agriculture as your representative in Congress. This fact is based on five years college training in agriculture, being raised on a farm, and having spent the past 10 years as an active farmer.
 Ronald Davis believes in Soil Conservation of a Permanent Type. He favors the Canadian River Dam and will do everything in his power to help complete it. He believes in a continuation of farm price support and at the same time taking steps to put agriculture on a firm and profitable self-supporting basis.
- IN LABOR**
 Ronald Davis believes in less curtailment of the right of labor to have their share of the income and freedom of the nation, and in more control of labor when and if they take undue advantage of more than their share of the income and freedom of the nation.
- IN VETERANS AFFAIRS**
 Ronald Davis believes in keeping faith with the Veterans as prescribed by our state and national legislation, keeping their educational program in compliance with the principles of sound education. He is opposed to the red tape that causes many veterans undue hardships, and believes in the rights of veterans to purchase land under the veterans bill with less favoritism shown in administering the law.
- IN BUSINESS**
 Ronald Davis is a business man. He has been actively engaged in farming for 10 years. He has bought and sold on the markets. He knows the problems of the smaller businessman and believes there should be less bureaucratic and socialistic encroachment from government and more encouragement of self initiative—which has been the builder of this great nation.

FARM NEWS

From the County PMA Committee

APPLICATIONS FOR ADDITIONAL COTTON ALLOTMENTS:

Those producers in the county wanting an increase in their cotton allotment should be sure and come to the county office by April 28th to sign their applications. The new law will not help everyone concerned, but there will be quite a few producers in the county who will receive some increase in their allotment. DON'T FORGET! April 28 is the last day to sign up.

PERFORMANCE REPORTS:

We have had good response from all the producers that we sent notices to report their practices. There are still some who have not reported yet, and we want to remind everyone not to forget to make a report. If you need an extension on your practice, please come to the county office and ask for it.

BUDGET REPORT:

To date we still aren't able to help anyone carrying out practices because our budget is so very low. However, we hope to have some additional funds after all the producers make their reports the 28th. Our waiting list is still very long, and it will really take some "tall stretching" to help everyone having in an application for assistance.

APPEAL CASES FOR MORE COTTON:

Any producer who receives an additional revised allotment as a result of the new cotton law, and should actually have more, due to true figures of his farm's cotton history, which were adjusted downward for the Bureau of Agricultural Economics, should come to the office as soon

as he receives his revised allotment and not later than April 28th and sign an appeal for an increase in acres.

OFFICE NOTES:

Clyde Neel and James Lumpkin, ex-PMA hands in Donley County, and now Administrative Officers in Foard and Briscoe Counties visited in Donley County last week.

Latest members on our waiting list, for assistance in carrying out practices, are: John Heathington, Drainage Ditch; W. H. Martin, Josephine Hutton and W. S. Montgomery, wells for livestock water; Bill Harris, Walter Hagler, O. D. Koontz, Drs. Witt & London, and Clay Inmon, Earthen Dams & Damless tanks; W. E. Hodges, William R. Christal, for Mesquite elimination and Forest Sawyer for control of Sagebrush. Luther Petty and William R. Harris for grass seed plantings. L. R. Foster for control of bindweeds. Dr. H. R. Beck has his ing & control of sage. Oscar Wilname on the list for deferred grazing and David E. Stevenson have an application in for Strip Cropping.

THIS IS YOUR OFFICE!!!! USE IT!!!!

A Common Paper for Common People

PLOWIN' Out the CORNERS by Uncle Zeb

Enjoyed my visit to Lelia Lake last Friday night. Herbert Hunt, along with M. H. Cyrus of Amarillo, and your humble servant tried as best we could to judge a talent show. The show was good, the talent was good, but it was so hard to judge. It is so hard not

to give them all a place. Anyway, this contest was sponsored by the Donley County Farm Bureau, and seemed to hold the interest of all the folks. More power and watermelons to the folks around Lelia Lake, and to all the young people in the show, and to the Farm Bureau, and Mr. Holly Wood, and Mr. Shaller, and Mr. Breedlove, the county agent for a good show. I hope all the ones that didn't win will write me saying that they are not mad at me. It would help. I must quit getting mixed up with judging contests.

Also on the program at Lelia Lake was Mrs. Altavene Clark, who is a candidate for Congress.

She is willing to apologize for referring to my column as Sweepin' Out The Corners, and for saying that she expected me to have a long white beard and a cane. Mrs. Clark says that ever 300 of the over 500 lawmakers in Washington are lawyers. Seems to us that more different groups should be represented. Anyway, Mrs. Clark said that if I mentioned her name at all to try, in spite of all she had said about me to say something nice about her. If she was a regular reader of my column she would know that if I can't say something good about anyone I never mention them at all. Of course, with the possible exception of that singin' weather-prophet, Uncle Jay, or Mrs. Lam-

bert, or Uncle Bob, or either of my Brother-in-laws. However, I have retired from having anything to do with anything that seems like politics except to vote, and we ought to vote. If you are a Democrat and don't vote, you will have no right to fuss if a Republican goes in, not that their candidate is not alright, as is all the rest of the candidates, as far as I know. But someday, if we go to sleep on our right to vote, we will wake up with something in office that we won't be proud of. Anyway, just to let Mrs. Clark know that I can say nice things about folks, I will go this far without taking any sides in the election; she talks like a smart girl; she acts like a smart lady, and she looks nice, and wise, and good looking.

send in a suggestion, and hurry for the time is short, the time is up, maybe even too late. Anyway, send in your suggestions. And if the future mother accepts any of the names we will send a small prize to the sender. All the clue I have is that they want a short name for the one it is called by, possibly a longer name that can be shortened. Maybe even a three letter word. Wonder whether when I quit writing about politics, I jumped from "The fryin' pan into the skillet", so to speak, in trying to help with the naming of babies. I mustn't neglect my Aint Smoking Society, and before Jim Hooker thinks of it first I could sign up the newcomers in the club. Anyhow, send in your suggestions. Let's help out this frantic Mama and Pama. It must be a short name, I think.

COED TRIES NEW PLAN—UNCLE SAM WON'T APPROVE
LUBBOCK—A nameless coed at Texas Tech has caused veteran postal clerk C. H. Peek to admit she has ingenuity—but no one cent stamps.

Peek, postal clerk at the Tech sub-station, said the coed's attempt to get around buying one cent stamps "proves something new happens every day." The coed wanted to mail letters which required three cents postage, but apparently only two

cent stamps were available. So she attached one whole stamp to each envelope, then tore the extra stamps in two parts and attached a half to "make up" the remaining one cent.

"It won't work," Peek said as he stamped "postage due" on the envelopes.

They have the bed and the basket all ready, all decorated with blue and pink, ready for any turn of events or both. But as they pace the floor, they have one unsolved problem already, no name. "Honest Uncle Zeb", says the mother "I am frantic. Just can't think of one." And she said she would be glad to have us help out. Why that is the next thing to having a little baby named after us. OLD PATHS

By DOYLE WILLIAMS Minister of Christ

Since no power less than a power that makes a law can change it, we must conclude that the law of Christianity can not be changed by man. But the law of Christianity is the gospel of Jesus Christ; for that is God's power unto salvation unto all the world. Rom. 1: 16. We would, therefore, conclude that the gospel of Christ cannot be changed, but by the powers of heaven and earth.

Peter could say: "According as his divine power hath granted unto us all things that pertain to life and godliness, through the knowledge of him that hath called us to the glory and virtue; whereby are given unto us exceeding great and precious promises: that by these ye might be partakers of the divine nature, having escaped the corruption that is in the world through lust." 2 Pet I: 3, 4.

This gospel, which makes this possible, has been given by the power of heaven; for said Jesus: "All power is given unto me in heaven and in earth, go ye therefore, and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Spirit; teaching them to observe all things whatsoever I have commanded you: and lo, I am with you always, even unto the end of the world." Mtt 28: 18, 19.

This is the gospel which Paul said that he preached unto the Galatian Christians; and he promised the Anathema of the Almighty upon either man or angel who preaches any other gospel; but some men were troubling them, and were perverting the Gospel of Christ. Gal I: 7, 12.

Any message in religion that can be changed by the councils on men, is certainly not the mes-

sage from Heaven; for that message can not be changed, except by the power of heaven. Jesus who gave the gospel said that all power both in heaven and in earth had been given unto him. Therefore, the power of the Gospel is the power of heaven and earth; and no power less than that can change the Gospel of Christ, it remains that the law of the Church of our Lord can not be changed by man.

Texas Water Code Committee To Meet At Houston On April 24-25th

"Water and its conservation and control has become so important to the people of Texas the Legislative Committee, known as the Texas Water Code Committee, has been compelled to extend its next Regional Meeting in Houston over a two day period", Senator Rogers Kelley, Committee Chairman announced in Austin today.

"Public demand for the hearings in East Texas caused the Committee to change its plan for a one day meeting and instead

hold a two day meeting in Houston" Senator Kelley said.

The hearings will be held in the Rice Hotel on April 24th and 25th, and all interested persons and organizations will be given an opportunity to express themselves fully.

"Our Committee has held hearings in South Texas, in far West Texas, and in Northwest Texas. We will conclude our Regional hearings with the Houston meeting", the Senator added.

Many controversial issues have been uncovered through these sectional meetings, according to Senator Kelley. The riparian owners have a somewhat different point of view from the ap-

propriators. The farmers of the High Plains oppose control of underground waters by any state agency. The municipalities of West Texas want to preserve the priority rights of appropriation of water by cities and towns. The irrigators think their rights of appropriation should be paramount to industrial uses.

The "first in time, first in right" doctrine of water appropriation has come in for considerable criticism.

"However", the Senator concluded, "most of the witnesses have expressed approval of the proposed Bell amendment to the Constitution which would set up a revolving fund for dam and

reservoir construction, and most of them have favored broader powers for the State Board of Water Engineers in the regulation and control of surface waters".

After the Houston meeting, the Committee will begin drafting its Report and Recommendations. During the progress of this work it is contemplated that several state-wide hearings will be held in Austin in order that the people

may express themselves fully as to the solution of each controversial issue which arises in the course of the drafting of the proposed legislation.

All persons and organizations who desire to be heard at the Houston meeting are requested to notify the Executive Secretary, L. Hamilton Lowe, P. O. Box 2331, Capitol Station, Austin, Texas, before April 20th.

The Lady And Her Tax Bill

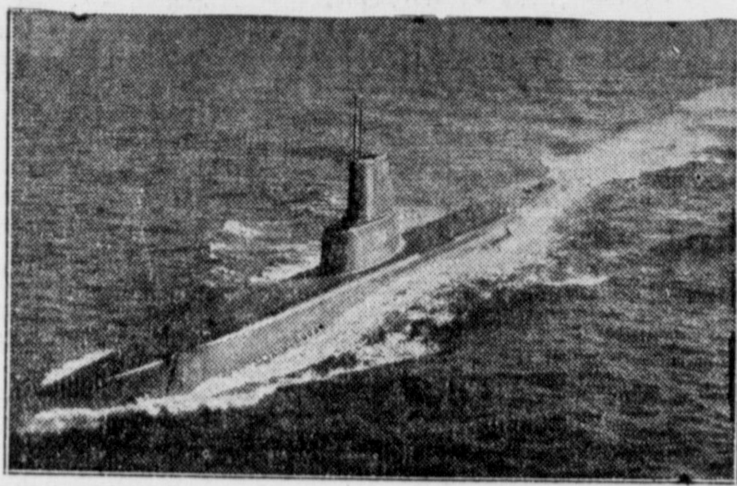

The average American woman is the most perfect taxpayer the world has ever known. Year by year she pays more and more but, if she fully realized the facts and the position she occupies, she might not be so complacent and long-suffering.

Let us observe a few simple matters that might awaken and startle our lady taxpayers. Women own, or are their children's trustees for, approximately seventy per cent of the wealth of the United States. Yes, women own and control seventy per cent of the cash, stocks, bonds, insurance, and real estate which constitutes our real and personal property. When John L. Lewis, Philip Murray, or some other labor leader demands pensions paid by your company, or that your company

pay more taxes, you, dear ladies, pay seventy per cent of the costs when our interest and dividends are reduced or your cost of living is thereby increased. Have you ladies thought of this?

The record further shows that women buy eighty-four per cent of all merchandise. Consequently, when the price of food, clothing, cosmetics, etc. is raised by higher taxes and you and your children must take less for your family needs, you realize that you are caught in a vicious circle and you must reduce your standard of living accordingly. This year each family will pay more than \$700 in hidden taxes on items daily purchased.

Further, there are more than three widows for every widower. Most insurance is carried by a man for the benefit of his wife and minor children. The insurance dollar which you invested fifteen

USS CORPORAL (SS 346), A CONVERTED U.S. FLEET TYPE SUBMARINE—Conversion of this submarine to a Guppy-type was accomplished by superstructure stream-lining and increasing battery capacity to give greater submerged speeds. The name "Guppy" stems from the name of the conversion program—Greater Underwater Proposed Propulsion. Approximately 24 U.S. fleet type submarines have been converted to the Guppy class.

and twenty years ago to provide security when a husband died, today has a value of fifty-nine cents on the pre-war dollar, and next year it may be worth less. Yes, the security the average woman wants and needs is being substantially reduced by taxes, direct and indirect.

Now let us consider the so-called luxury taxes. Every man expects his wife to be charming and attractive but practically every item that the ladies need in this important enterprise is taxed at a high rate. A man can buy his suit, overcoat, and shaving cream, without the luxury taxes of twenty per cent but when a woman buys a jar of beauty cream, a fur coat, costume jewelry, lipstick, powder, nail polish,

or many other modern day necessities, the twenty per cent tax applies.

Let us go a little further and see what a high income tax can do. As previously shown, women own and control seventy per cent of our national wealth, so it follows that they and their property must pay seventy per cent of the taxes.

When the earnings of different companies are cut down the interest and dividends on bonds and stocks may be reduced or even stopped, so the income of the woman is directly affected. When taxes on real estate become excessive the net rental on houses or business property are lowered. As the interest rate on loans or investment falls, the revenues for the woman and her minor children is taken away materially.

Well, by now maybe the average woman begins to realize that she has a personal interest in the taxes she pays. But, there is an important item that should not be overlooked. There are two per cent more women voters than men, as recently pointed out by President Truman. Does this not give you ladies an idea? It has been said that in recent years ours has become a government of organized minorities. It appears that

there is considerable truth in that statement. If so, why don't the good women who pay seventy per cent of the taxes directly and indirectly, organize their majority group into a tax forum, study these matters carefully, then step into politics in a most active and aggressive manner. I feel your voice would be promptly heard and your requests for sound and economical government quickly granted. It has been said that a politician looks from one election to the next election. Under these conditions I am certain you would get his eye and attention.

Recently former President Herbert Hoover pointed out that the average man contributed each year about sixty-one days out of 235 days of his working time to pay taxes. Yes, the average family is paying more than one-fourth of its income for taxes. England turned socialistic when the tax rate took thirty-eight per cent of the average worker's pay, so we are closer to the turning point than we realize.

If the women of America do not alert themselves to the tax danger, and act, then they have only themselves to blame.

Yes, it may be later than we think!—April issue of the Texas Tax Journal.

FARM CASH INCOME

AUSTIN—Texas farm cash income for November 1949 totaled \$345,712,000, rising 27 per cent from October, the University of Texas Bureau of Business Research reported.

Cotton was the greatest source of income, bringing Texas farmers \$229,232,000 during November. Income from cotton consumption totaled \$34,891,000; and cattle, \$19,758,000.

In comparison with November 1948, farm cash income for November 1949 increased 79 per cent. After adjustment for seasonal variation, the Bureau's index of farm cash income rose to 701 per cent of the prewar 1935-39 base period in November from 457 in October and 395 in November 1948.

October to November increases were turned in by the Lower Rio Grande Valley, 330 per cent; Southern High Plains, 99 per cent; Red Bed Plains, 48 per cent; Western Cross Timbers and Northern High Plains, 9 per cent; Coastal Prairies, 4 per cent; and the Trans-Pecos district, up fractionally.

Monthly declines were registered in the Edwards Plateau, 17 per cent; Southern Texas Prairies, 16 per cent; Black and Grand Prairies, 11 per cent; East Texas Timbered Plains, 6 per cent; and South Texas Plains, 5 per cent.

With the exception of a 5 per cent dip in the South Texas Plains all crop reporting districts turned in gains in farm cash income from November 1948 to November 1949. The yearly increases ranged from a fractional gain in Edwards Plateau to a 128-per cent advance in Red Bed Plains.

AND STILL GOING STRONG!

VOLUNTARY INSURANCE against costs of hospitalization was an immediate success, and is growing like wildfire. It originated in 1929, when a group of Dallas, Texas, school teachers contracted with Baylor Hospital for such service.

According to late figures, there are more than 60,000,000 persons insured against hospital costs, some 15,000,000 insured against medical and surgical costs, through plans sponsored by the American Hospital Association, American Medical Association

and various medical groups. Untold other millions are protected through pre-paid hospital and medical insurance, sponsored by employers and insurance companies.

One insurance executive estimates that more than half the people of the United States are insured against hospitalization, surgical or medical care. Doctors, hospitals, industry and insurance companies are all working toward further extension of such services—the VOLUNTARY American way.
