Dusters to Open Baseball Season Here Against Wheeler Sunday Afternoon

The Clarendon Dusters will play their season opener here Sunday afternoon at Duster Park. Their opponent will be Wheeler, a new team in the Caprock League. Two former Duster players, B. F. and Don Dorman, are playing with the Wheeler team this year.

This will be a good game for local fans to see as there has been quite a change up in players and you can get an idea of what they have to offer this season. The Dusters have a good line-up of players that should make it interesting for any competition they meet.

The Dusters will be playing more local men this year and are looking forward to better local backing than they received last season; in fact, after buying bats, balls, etc., they finished up the season last year \$100 in the hole. G. W. Bradshaw reported that he and Billy Roy Blackman have their names on a \$100 note that will be due April 27th. This money was borrowed to pay off indebtedness at the end of the season. "If anyone would like to help pay off this note so the Dusters can start the season with a clean slate, you can contact either of us with any amount you wish to donate", Bradshaw stated.

The Dusters were winners of the Caprock League last year and already have their hopes set on doing the same thing again this year. Your support of this local ball club will certainly be appreciated by the players, who receive no pay or travel expense. All they receive is the pleasure of playing and making this entertainment possible for baseball lovers of this area.

Week end visitors in the home of Bro. and Mrs. Ernest Phillips were Mr. and Mrs. Billy Mix Phillips and Maria Gail of Amarillo; Mrs. O. D. Hearn of Colorado Springs, Colo.; Mr. and Mrs. Tommy Phillips, Dianne and Mike and Mrs. Brooksie Tomlinson, all of Pampa.

American Cancer Fund-Raising Crusade Started April 17th In Donley County

Mrs. W. J. Lewis, Jr., Chairman of the American Cancer Society's 1955 educational and fund-raising crusade in Donley County, announced that the Crusade started here last Sunday, April 17th, and that volunteer workers will be at the local banks and the postoffice on Friday and Saturday, April 22nd and 23rd to receive your donations.

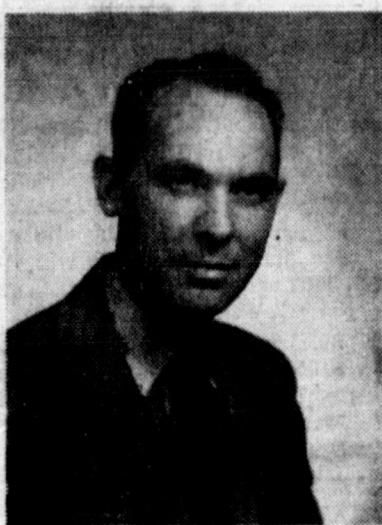

The St. Agnes Altar Guild of St. John the Baptist's Episcopal Church started the crusade with a very generous donation, and we wish to thank them at this time, and hope that many of you will follow their example, Mrs. Lewis stated.

"Urgency of the cancer fund appeal and the educational program in conjunction with it cannot be overemphasized," Mrs. Lewis declared in accepting the job of sparking this year's drive.

"We are living today," she pointed out, "in an era of fear of surprise atomic or hydrogen bomb attack on the United States. To guard against this threat, our government is spending billions of dollars annually for national defense. This civilization-shattering attack may, we hope, never materialize.

"But our country is faced with another deadly attack this is not just a threat. It is grim reality. Last year cancer killed 230,000 men, women, and children in the United States.

"Surgery and radiation, the chief weapons against that disease, saved only about 75,000 patients in 1954, and some 75,000 more could have been saved by prompt and adequate treatment. "A nation-wide educational

Two Local Trackmen Qualify For Regional At Lubbock Saturday

After the District 3-A track meet was completed at White Deer last Saturday, only two of the twelve man team from Clarendon qualified to enter the Regional meet at Lubbock this coming Saturday.

Bill Noblet won second in the 100 yard dash with a time of 10.3.5. Mills of White Deer won first with a time of 10.3. Bill also won first in the 220 yard dash with a time of 23.6 and second in the broad jump with a leap of 19' 4 4/5". He was also high point man of the meet with 11 points.

Frank White III won first place in the 440 yard dash with a time of 51.8 which may be a new district record. A complete check of past records had not been completed.

Other boys to place in the district meet, but did not qualify to go to regional were Bill Dale Hill who won fourth in the 100 yard dash with a time of 10.4.5 and Robert Mills who won fourth in the broad jump with a leap of 19 feet and fourth in the high jump with a jump of 5'5".

campaign is being conducted by the Cancer Society to teach the public cancer's seven danger signals and to urge the necessity of regular physical check-ups to detect other symptoms that can be recognized only by a physician.

"Research, under Cancer Society grants, is seeking to solve the baffling mysteries which may provide the key to eventual victory over this world public enemy.

The ACS defense program against cancer is financed by voluntary contributions of millions of Americans during its annual fund-raising drive.

"This year the nation-wide goal is \$24,000,000," Mrs. Lewis explained. "To attain our local quota, we will need the support of everyone in this community."

The following Chairmen have been appointed for the different communities in Donley County: Hedley, Mrs. Clyde Bridges; Jericho, Miss Ann Reeves; Ash-tola and Martin, Mrs. H. S. Mahaffey, and Lelia Lake, Mr. J. C. Stepp.

With such enthusiastic and conscientious volunteers to carry the facts about cancer peril to the people of Donley County, they will give their share of the money needed to provide weapons and ammunition for the battle that must go on unceasingly until this merciless foe is conquered.

"I would also like to thank everyone in Donley County who took part in the Telethon on KGNC-TV Sunday and called in a donation, as this county will get credit for this on our quota," Mrs. Lewis concluded.

L. L. Wallace Named President Of School Board

At the regular monthly meeting of the Clarendon Board of Education held Wednesday night, April 13, new trustees were sworn into office and the board re-organized for the ensuing year.

Bob Moss and Dr. J. Gordon Stewart were sworn into office to serve a three year term. Moss is a new member of the board, taking the place of C. L. Benson, who did not offer for re-election. Dr. Stewart was re-elected for his second term.

In the election of officers, L. L. Wallace was elected president; J. Alfred McMurtry, vice-president and Walter B. Knorpp, secretary.

Homer Estlack is the past president of the board, having served in that capacity the past three years. During his term of office, the local school district has emerged from the red side of the ledger to the black and numerous improvements have been made in the local school system. "To fully appreciate the job which the school board is confronted, I think every man should have the opportunity to serve as president of the board. It consumes much time and effort on the part of every board member and it is the idea of having and seeing better school facilities, offering more for our youngsters, that repays board members for their efforts", Estlack stated.

The new president, L. L. Wallace, has served two years on the board and is fully capable of guiding the affairs of our schools. He is owner of the Wallace Monument Co. and is a successful and progressive businessman. Since being elected to the board, he has taken much active interest in school affairs and devoted many hours to the betterment of all-around conditions. He will need the cooperation of everyone in the district to do a first class job, and he will appreciate your helpful suggestions and assistance in any way.

J. L. NAYLOR TO JOIN AMARILLO AIR BASE

City And County Has Opportunity To Open Hospital or Lose It Entirely

DR. J. GORDON STEWART

A meeting was held last Thursday of the Board of Directors of the Adair Hospital Corporation with two alternatives coming out of the session in addition to the announcement of the appointment of three new directors to the board. The newly appointed directors are Carl Allmond, John Head and Frank White Jr. The old members of the board are J. R. Porter, Odos Caraway, J. T. Patman, W. W. Taylor and Lee Bell.

The board decided upon two plans concerning the Adair Hospital which will be up to the citizens of Clarendon and Donley County.

The first plan which will be discussed further in this article, was for the Board to tender a deed and bill of sale to the real and personal property of said hospital to the City of Clarendon and the County of Donley for the consideration of one dollar.

The second plan was: If the City of Clarendon and the County of Donley do not accept this offer, the board will turn the Adair Hospital property back to the heirs of the Adair estate for their own disposal.

The Adair hospital was built by Mrs. Cornelia Adair in 1910 at a cost of \$35,000. At the present time, the hospital and equipment has been valued at \$42,000. At the present time the Adair hospital corporation has \$18,000 in U. S. Series G. Bonds and around \$1,200 cash which the board will spend, if the first plan is accepted, to repair, modernize and equip the hospital.

We wish to quote the action of the Adair, Board in its entirety as follows:

"It was moved by Director Carl Allmond, and seconded by Director, Odos Caraway, that the Adair Hospital, acting by and through its Board of Directors tender to Donley County and the City of Clarendon, a deed and bill of sale to the real and personal property of said Hospital for the consideration of \$1.00 when Donley County and the City of Clarendon comply with the law of the State of Texas, relating to joint establishment and operation of hospitals by counties and cities, by each, Donley County and the City of Clarendon fully complying with such law in reference to levying and collecting a tax not to exceed ten cents per \$100.00 valuation on the property subject to taxation therein for the purpose of operating and maintaining said Hospital; and that after both Donley County and the City of Clarendon through their respective Commissioner's Court and City Commission have properly accepted such offer and have levied and assessed such taxes then the Adair Hospital will

spend its available funds in improving the physical properties belonging to such Hospital and for equipment and supplies and deliver the same by deed and bill of sale so reconconditioning, equipment and supplies, with a reverter for non use.

After a thorough discussion, a full understanding, and a calling for the question all members present voted "AYE" and none voted "NO" and the chairman declared said motion unanimously carried."

In reference to the 10 cent tax per \$100 valuation by the city and county: This would not effect the taxpayers of the county or city to any great degree. County voters voted this tax several years ago and will not have to call an election. The tax has been collected each year since and has been going into the general fund. The city would have to vote the tax but it would not change the amount of money already being paid very much. City property owners would pay on city tax valuation only and would not pay the same tax again to the county. The difference in valuation would be the only possible up in taxes as everyone is already paying on the county valuation. The hospital tax will not cost those county tax-payers living outside of the city limits of Clarendon, any more money, for they are already paying the tax limit now and have been for several years. You will pay the tax only one time, either to the city or to the county. The money derived from this tax will be used for upkeep and operation of the hospital.

Watch following issues of the Leader for further information regarding the hospital. We will do our best to keep everyone informed in the interest of everyone concerned.

ATTEND STATE FHA MEETING ON COAST

Miss June Christian, Hom Economics teacher in Clarendon High School, her mother, Mr. C. C. Christian of Farwell, Jack Estlack, and Glenda Borden Wednesday morning for Galveston where they will attend State Future Homemakers meeting.

Glenda Borden will represent the local FHA Chapter as vote delegate at the convention. Jackie Estlack is president of the Clarendon Chapter and Parliamentarian for Area I. Future Homemakers of America. She will be a member of the committee planning and presenting the "Living is Fun" program at the convention. The group will return home Sunday.

How aerial pictures of 52 farms in the area surrounding Clarendon were taken recently, is demonstrated in the above photo. Gunner Nielson, photographer, and Alvin Rusenberg, pilot, for the Zeckan-Robbins Company of Harlan, Iowa took the series of farm photos for the Donley County Leader using war-surplus aerial cameras as shown above. Nobody knows whose farms were photographed, not even the pilot and photographer, until readers of this newspaper identify the farms when they are published in the Leader. Identifying the farms will be an interesting game, and publication of the photos will be a means of recognizing farming as the big business it is in this community. In taking the pictures the photo-plane flew back and forth over the area near Clarendon, covering about 300 miles while selecting the farms at random.

SENIOR CLASS To PRESENT PLAY "YOU'RE TELLING ME" APRIL 28-29—8:00 p. m.

"You're Telling Me," a comedy in three acts, under the direction of Miss Naomi Allison, will be presented by the senior class April 28-29, in the college auditorium at 8:00 in the evening.

The plot of "You're Telling Me" centers around a small town boy, who has become famous as a Big League baseball player, and his high school sweetheart, who became disappointed in him when he chose baseball instead of a profession that is "more useful for civilization." Other interesting characters include the kid brother, whose sole aim and ambition is to become a Big Leaguer, the kid sister, who is running over with ideas that keep her in trouble, and the father, whose main interest lies in astronomy

and oftentimes is so absent-minded that he fails to comprehend all of the action that is taking place in his household. The housekeeper, too, furnishes plenty of laughs as she grumbles about her work and is constantly reminding the family that she could have secured a job in an airplane factory or in the movies.

The entire comedy is one of quick action, containing clever lines that will provide an evening of laughs and humor. The cast have been well-chosen and are working diligently to render a performance worthy of their talents.

Price of admission will be 50c for adults and 25c for all students. Watch this space for further announcements.

"Village Smithy" Is True Scot

If the village blacksmith in Olney, Maryland, resembles the Scotsman on the Savings Bond poster above, it's more than just a coincidence. They're one and the same. When Artist Gib Crockett selected the thrift theme for his Savings Bond poster, he chose as his model 70-year-old Samuel Josiah Finneyfrock, a true Scotsman who plies his trade in the little Maryland town just 18 miles north of the White House. A blacksmith who hasn't shod a horse in 16 years, Mr. Finneyfrock nevertheless keeps busy at his forge making chimney initials and other ornaments for homeowners, repairing machinery, and otherwise serving as handyman for the neighborhood. One of the few old-time "village smithies" left in the United States, he observes: "No, I don't have a spreading chestnut tree to work under. A blight killed them all around here 40 years ago." Mr. Finneyfrock not only has contributed his smiling countenance to the nation-wide promotion of Savings Bonds, but he also is a regular purchaser of what he calls his "good, safe investment." The poster is now being widely displayed all over the country.

Health Notes

AUSTIN—"A hundred years ago nobody worried about bursitis because nobody had it," said Dr. Henry A. Hoile, State Health Officer. It wasn't until about forty years ago that there was enough of it around for it to be given a name. Today an estimated two and a half million Americans suffer from the hurting joints caused by bursitis.

The reason for the big increase seems to be found in modern living. So many of the things people do—typing, working adding machines, driving, handling compressed-air tools, exercising strenuously on week-ends—are the very things that cause attacks of bursitis. Too, people live longer nowadays and bursitis most often attacks after forty when age weakens tendons.

Between the moving parts of muscles, tendons and bones there are cushions—tiny, flat sacs filled with an oily substance. These are the bursae. As the parts move, the two inside surfaces of the

sacs glide against each other providing satin-smooth action.

The body has more than 140 of these little sacs. Most important is the subdeltoid bursae in the shoulder, which helps the major shoulder muscle operate. It is the most important because the human shoulder wasn't designed for the work it has to do. The result is that though bursitis can occur in any of the 140 bursae and often does affect elbows, hips, ankles and joints, 80 per cent of the time it is in the shoulder.

If an attack of bursitis occurs,

a physician should be consulted. He can control bursitis but he can't control the results of neglect. Curing bursitis takes time and patience.

Early New England houses were built of thick sawn planks, not logs.

Annual Junior-Senior Banquet Held

The annual Junior-Senior banquet was held amidst an atmosphere of gaiety and color at Lions Club Hall Friday evening, April 15th. The Hawaiian theme was carried out in both the program and decoration.

Streamers of crepe paper and balloons in all colors marked the entertaining room. Catching the eye to the center of the floor was a miniature grass hut standing approximately three feet high. Placed on a mat of green, the hut was surrounded with miniature palm trees and was sprinkled with pink, yellow, and blue daisies.

Tables were laid with white cloths. The Hawaiian theme was further accentuated in the centerpiece at the speakers' table where Tulips and Iris were arranged about a figurine of a Hawaiian girl. China nut cups, lace mats and favors of miniature palm trees with small monkeys holding individual place cards added to the charm of each place setting. Completing the decor, napkins and programs in red and white were ornamented with a typical Hawaiian scene. Each guest was invited to enter into the fun for the evening when the traditional "lei" was presented on arrival.

The menu consisted of Tropical Dream (cocktail), Wild Pig (ham), Golden Dreams (candied yams), Diced Bamboo (green peas), Lili-koi & Papa (tossed salad), Taro Cake (bread), Beach Pebbles in

Clam Shells (cocoanut pie), and Jungle Drink (tea). Food was prepared and served by F.H.A. girls under the supervision of Miss June Christian. The girls wore costumes, five being grass skirts and five being sarongs.

Allen Homer Estlack, Junior Class president, was toastmaster, and following the invocation given by R. E. Drennan, he gave the traditional Welcome. Don Landers, senior class president, gave the response. After the meal, Judy Thompson and Lee Ellen Bell, clad in grass skirts, entertained with a Hawaiian Ballet. "The Waltz", a reading, was given by Lucy Richardson. Everyone enjoyed the Hawaiian Bop presented in the style of Pat Knox, in her grass skirt, and Glenn Wallace. Concluding the program, two Hawaiian Ballads were sung by girls in costume—Pat Knox, Charlotte Wilson, Tan McCully, Jeanie McAnear and Margaret Cushing.

Immediately following the banquet, an all school "Prom" was held at the Legion Hall with music by the Sandie Swingsters of Amarillo. The orchestra's platform was decorated with potted palms and the small grass hut used at the banquet was moved to center the dancing floor. The formal dress of students gave an air of added festivity to the evening.

Eighty-seven were present for the banquet with an estimated 150 to 175 attending the Prom. Junior Class sponsors are Miss June Christian and T. H. Seay; Senior sponsors: Mrs. L. N. Cox and Miss Naomi Allison.

THE LION'S TALE

By Carl Allmond

More than one hundred Clarendon men came to the Lion's Club Tuesday, to be present for the discussion concerning the reopening of the Adair hospital.

Judge Porter, president of the hospital board, was in charge of the meeting. He was well prepared to give us the State regulations regarding this problem. Porter read the motion concerning the boards' offer to the City and County.

Dr. Ben Humphrey was present, and was asked to give his views—which he did. The doctor, who should know, advised us that, "all that glitters is not gold". The problems of opening the hospital are many, and serious consideration should be taken before going "off the deep end".

A suggestion, that we build a new hospital nearer town, was offered. Full details of the boards' plans can be found in another section of this paper. Please look for and read.

However, we would like to state that we are for opening our present plant, and for using the money now on hand to remodel and re-stock. The building was planned to be a hospital; this cannot be said of most hospitals within a radius of fifty miles of Clarendon. As far as getting a hospital open, we are several thousand dollars ahead of any other community.

It is our belief that the hos-

pital will never be self-supporting. However, the maximum expense to citizens of Donley County and the City of Clarendon cannot exceed \$9000 per year. At the present time, we are paying \$6000 per year for a non-operating hospital, thus making an increase of \$3000 in cost to the City.

If the response we have received in the last 24 hours is any indication, we are late now in opening the hospital.

No one individual, no one organization can get the job done; it will take the cooperation of everyone, thinking, talking, and shouting from the house tops. This is it—it's up to us! This county was built by people who supported churches, schools, and hospitals; we can offer every thing except a hospital. Do you want one? If so, start talking. We are late now. A community that does not support a hospital is a community without interest in human welfare.

Visitors for luncheon Tuesday were: Byron Bryant of Stamford, Jess Finley, commissioner of precinct 4, Ed Mooring, commissioner of precinct 2, County Judge Jack Gray, J. E. Byers, and T. W. Goar.

Truett Behrens was introduced as a re-instated member-at-large.

Boss Lion McCully announced that we failed to win the membership drive by three members. This is an outstanding achievement, considering the fact that we were competing against 11,000 clubs in the international contest.

Notary Public Notice To All Aspirants

Secretary of State A. M. Muldrow has announced that he will reappoint all persons who now hold Notary Public Commissions and that all such persons must qualify by filing an oath and bond with the County Clerk of their residence between June 1, 1955 and June 10, 1955. The law specifically requires County Clerks to approve Notary bonds and individuals should not send money or requests for commissions direct to the Secretary of State. All Notary matters can only be received by the Secretary of State after the County Clerk acts thereon.

Any person who has not heretofore been a Notary Public should apply to his County Clerk between May 1, 1955 and May 23, 1955, if he desires to have this application given prompt attention in the State Department, as the rush of reappointing all old Notaries may slow up the ordinary process of making new appointments and issuing commissions.

Secretary of State Muldrow said, "Each person applying for a commission as a Notary Public must be at least 21 years of age and a resident of the County for which he is appointed; exact names and permanent addresses should be given to the County Clerk in applying for a commission, as location of the Notary

may be necessary long after he has notarized a particular instrument."

SOCIAL SECURITY NEWS

People who continue to work after becoming eligible for old-age and survivors insurance payments will find two provisions of the 1954 amendments to the social security law of vital importance to them. Both of the new provisions are effective for 1955 and later years.

The first of these new provisions exempts beneficiaries who have attained the age of 72 from the "retirement test" in the law. This means that persons eligible for payments who are 72 or older need not retire in order to receive regular monthly social security checks.

The other new provision in the law affects those under 72 years of age. For this group the "retirement test" provision still applies; however, it has been modified.

The new law puts both wage earners and self-employed persons on the same annual basis and increases the amount that can be earned without loss of benefit payments from \$900 to \$1200. If the total of a person's earnings (including all wages and self-employment income whether covered or not) is \$1200 or less in a year, he is entitled to 12 months benefits. One month's benefit will be withheld for each \$80 (or part thereof) in excess of \$1200, but no benefit will be withheld for any month in which the individual neither earned wages of more than \$80 nor rendered substantial services as a self-employed person in his trade or business. For example, a beneficiary may work four months during the year at \$300 a month and lose no benefits.

A representative from the Amarillo office of the Social Security Administration will be in Clarendon, on Monday, at 9:30 A. M., April 11, at the Court-house.

from the County ASC Committee

CLOSING DATE FOR APPLICATIONS FOR 1956 "NEW" FARM WHEAT ALLOTMENTS

The State Committee has set July 15, 1955 as a State closing date for applications for 1956 "new" farm wheat allotments.

Farmers on land on which no wheat was seeded for grazing in 1953, 1954, or 1955 may apply for a 1956 wheat acreage allotment.

Blank application forms are available at the county ASC Office for use in filing requests for allotments.

EMERGENCY FEED PROGRAM

ANY PRODUCER STILL HOLDING A FARMERS PURCHASE ORDER FOR LIVESTOCK FEED AS OF THE 15th of April should turn them in to County ASC office, because they have been cancelled. Any producer who needs and would like to make application for more feed may make application at the Farmers Home Administration Office until April 29, 1955. The program was extended for only two weeks. REMEMBER THE OLD PURCHASE ORDERS ARE NO GOOD IF STILL IN THE HANDS OF THE PRODUCER.

GRAIN SORGHUM PRICE SUPPORT RATES

The 1955 final county price support rate established for grain sorghum grading U. S. No. 2 or better is \$1.69 per cwt. for Donley County. In 1954 the support

Clarendon College To Hold Girls Basketball Tryouts April 28-30

Clarendon Jr. College will hold girls basketball tryouts for the college team on April 28, 29, 30.

Mr. H. W. Truitt, President of the college, has had inquiries from some forty girls and coaches about the school, the basketball team, and the plans for the future athletic program for girls.

Inquiries have come from all parts of Texas. Letters have also come from Oklahoma, Missouri, Iowa, and New Jersey.

C. R. Brown was invited to Plainview, Texas, Saturday, April 16, to watch the tryouts for the Wayland College team.

Girls from Idalou, Shallowater, Floydada, East Lamar, Grape-land, Texas, Savannah, Missouri, Noble, Oklahoma, and Union City, New Jersey asked to be considered for the Clarendon team.

There should be approximately thirty or forty girls here for the tryouts. Some of the girls will be here for one day and some of them will be here all three days.

As Clarendon College has no dormitory facilities, places in homes must be secured for the girls to spend the nights.

Anyone wishing to keep some of the girls should contact Mrs. H. W. Truitt or C. R. Brown at the College.

This is an excellent opportunity to help our college and everything will be appreciated that the people of Clarendon can do to make the girls visit here a pleasant one.

The public is invited to the tryouts. If possible, a game will be played Friday afternoon, April 29.

Over 100 Dogs Tagged And Vaccinated

Over 100 dogs were vaccinated and tagged last Wednesday and Thursday afternoons when Dr. Chas. Deyhle and the City had a combination offer on the two, at the court house lawn. Business was rushing and city officials were well pleased with the turnout. The only displeased parties were the dogs that were on the wrong end of the needle. The combined deal cost dog owners \$2.00, whereas it will cost those who did not take advantage of the special offer \$3.50. All dogs must be vaccinated for rabies and tagged or they will be subject to being picked up and disposed of.

ENJOY FISHING TRIP

Mr. and Mrs. W. M. Pickering and Mr. and Mrs. Ed Hodges returned home Saturday night after spending a week fishing at Mustang Island near Aransas Pass. They report having had a wonderful time and catching lots of fish. Others in the party were Mr. and Mrs. Walter Hodges, Mr. and Mrs. William Robertson and J. N. Bergan, all of Hereford.

PLOWIN' Out the CORNERS

by Uncle Zeb

Some of our fellow columnists seem to get terribly perturbed because of the publicity that this section of the country sometimes receives about the sandstorms. One stated recently that at one time we had a crusade to make this the country of roses, but all the roses died. Then, later for want of something better to do a group decided to call it the Golden Spread. I still say they made a mistake, a mistake that

is if they meant to get offended at any reference to our dusty weather. Actually there is something about Golden Sandstorms or Golden Spread that just naturally reminds folks of a good live wire duster; makes you wonder how we get by on as little publicity as we do. However, we doubt that the stories really hurt. Folks just naturally expect everything to be big and bad out here in West Texas and no one would even venture out this way that didn't have an itch for adventure.

We may refuse to face the facts, but no matter there will be certain facts that will still face us.

Speaking of our fellow writers of so-called columns a couple or so of them really got in bad about Johnny's reading ability. Sure glad we kept quiet on the sub-

ject. Seriously, speaking for myself, it doesn't seem such a calamity what Johnny can or cannot do; the real trouble to me seems in what he will or won't do.

I am a little thing with a big meaning. I help everybody. I unlock doors, open hearts, do away with prejudices. I create friendship and goodwill. I inspire respect and admiration. Everybody loves me. I bore nobody. I violate no law. I cost nothing. Many have praised me, none have condemned me. I am pleasing to everyone. I am useful every moment of the day—I AM COURTESY.

We were reading something this week that just sort of warmed our heart all the way. It was something about Roy Rogers and his wife Dale Evans. It had to do mostly with some quotes from her new book My Spiritual Diary, which deals with deep sad, but life enriching experiences from the life of this famous movie couple.

Living in a day when one of our sources of bad influence seems to stem from the movies and from the divorce crowded lives of the movie stars, these two fine Christian people stand out like stars on a dark night. In one quote Dale was telling

about the loss of her child; "I never knew my Saviour until I came to my life's deepest pit. He gave me a little blonde angel and I almost worshipped her—in a frightening intensity, maybe because of her helplessness. She was so pure, so angelic, so defenseless. Then in His wisdom he took her. My heart cracked—but thank God He was there to glue it back together again."

"You see," continued Dale, "When she was gone, I turned in the direction whence she had gone."

Another comment that struck me with a lot of force was this statement sort of summing up their experiences with grief. "Tears are sent to wash our eyes so as to make the sight of Christ clearer."

Most of us remember this fine couple for another thing right here in our own panhandle. Each Christmas each and every boy at Boys Ranch gets a new pair of Roy Rogers Boots from this great Christian man. We can thank our God for men and women such as these two.

Pity the fellow who is long on dollars and short on common sense.

Wildlife Conservation

By Donavon Houdashell

Birds of Prey

The habits of the "birds of prey" are peculiar in some ways, but we must remember that all wild creatures must find food on which to live. The hawk and the owl are considered the two most undesirable birds that destroy poultry flocks. However, when a hawk is usually circling over a meadow, it is looking for field mice or some other rodent. Some people believe that the hawk is looking for game or song birds;

the hawk at times will take game or song birds, but the number is very small. Those birds they take are usually dead, injured, weak, or diseased. Here is an example of Nature's plan for keeping a desirable balance of wildlife; the undesirable birds are removed from flocks so that a stronger and healthier production of birds will be insured.

It is true that a hawk will gradually decrease a farmer's poultry flock; when this occurs, it is then time to kill that individual hawk, but do not kill the whole hawk family. If the hawk family is destroyed, the farmer will soon find his fields over-run with rodents. The content of food of the red-tailed hawk consists

of thirty-seven per cent of snakes, frogs and other animals; thirty per cent of mice; twenty-five per cent of poultry and other birds; and eight per cent of insects. As conservationists, we should kill those hawks that destroy poultry flocks, but we should conserve those hawks which are ridding the fields of rodents.

When you press the pedal as you normally would, you move ahead in velvety smoothness, getting plenty of miles from each gallon of gas...

Because twenty propeller-like blades inside the Dynaflo unit, spinning in oil, have an angle of "pitch" for top economy—like the modern

plane's propellers when cruising in the air.

But comes the need for emergency acceleration, and—like a pilot does for quick take-off and climb—you switch the pitch of those Dynaflo propellers for action, just by pressing the pedal all the way down.

Instantly, you get full-power response for split-second getaway, or for a sudden safety-surge to get out of a tight spot on the highway.

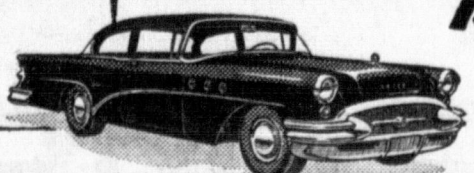

It's a response thrilling beyond all previous experience—because there's never been anything like it before in any car.

And we'd like you to try it—along with the walloping new V8 power, the cruiser-steady ride, the fine handling ease, and the true big-car roominess that are all part and parcel of every Buick.

Can you come in today—this week, for sure—and test pilot the hottest Buick yet built?

Why Trop-Artic Oil Can Double Engine Life

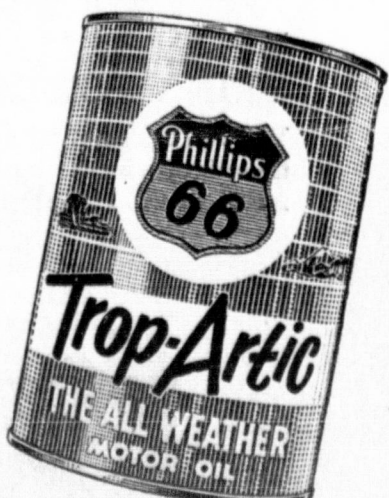

IT'S PERFORMANCE THAT COUNTS!

Some motor oils give good protection at low temperatures. Other oils are effective at high temperatures. But new TROP-ARTIC All-Weather motor oil gives protection at all temperatures, from below zero to extremely high heat.

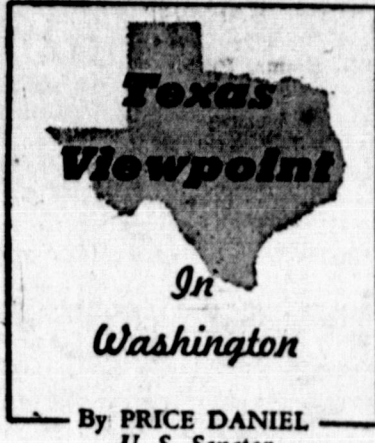

So it's easy to see why TROP-ARTIC is so much better than ordinary motor oils at preventing engine wear... so much better that it can even double engine life. TROP-ARTIC lets you start easier... saves you gasoline... and can save 15% to 45% on oil consumption.

Phillips 66 TROP-ARTIC is the first all-weather oil to meet the highest standard ever established for automobile motor oils... the Mil-0-2104 Supplement 1 Test.

Get new TROP-ARTIC Motor Oil from your Phillips 66 Dealer. Remember, it's performance that counts!

Easter Vacation

Both houses of Congress took Easter vacations for the first time in several years. The House of Representatives usually recesses for several days during the week of Easter, but the Senate has been taking only the week end. This time both houses decided to give as much attention to this religious holiday as is given to some of the other holidays during the year. It may be a result of the general revival in spiritual and religious interests here in Washington and throughout the coun-

try. Both religious and political leaders agree that there is more emphasis on the spiritual side of life in the nation's capital than heretofore witnessed in modern times.

town. The two young ladies who started this organization, Sallie and Nadine Woods of Liberty, both suffering from muscular dystrophy, originated the idea of the national organization in 1950. They have worked over the years to bring the plight of the sufferers of this dread disease to the attention of the public and the medical profession. The results of their labors have been evident in the amount of research work that has been accomplished. The work presently being done will not help those who have had the disease for any length of time, but the main object is to provide

relief for persons who might have a similar resolution in the House, but in view of the prompt Senate action, he has kindly offered to cooperate with our committee to accomplish the work and results so necessary in this field. Our Judiciary Committee has already developed conclusive evidence that Communist China is the principal source of heroin, and that the leaders of Red China are encouraging the manufacture and export of narcotics both for financial gain and demoralization of countries in the Free World.

Farm Bulletins

There are many farm bulletins and other publications of interest to farm families available for distribution by members of Congress. These cover a variety of subjects from "Home-made Jellies, Jams and Preserves" to "Farm-house Plans for Minimum Budgets." Some of them appear to contain useful information, while others seem to be a waste of the taxpayers' money. You can be the judge if you will write me for a list of the publications. Simply write me that you read about this in your local newspaper, and I will send a list of the publications from which you may order any that you may desire. They are already printed and can be mailed without any additional cost to you or the government. Some of these publications will be of spec-

ial interest to Texas farm families. Also, two other publications of which we still have a small supply are "Infant Care" published by the Department of Health, Education, and Welfare, and a recipe bulletin entitled "Family Fare". As long as they last, we will send copies to those who might think them useful.

GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

This week we received our shipment of replacement books for the girls and children's shelf that were given by Mr. and Mrs. C. C. Powell in memory of Mrs. Lowe. These books are: four of the Nancy Drew series, "The Secret of the Wooden Lady," "The Quest of the Missing Map," "The Haunted Bridge," "The Clue In the Jewel Box," and a replacement of our copy of Barrie's "Peter Pan." Quite a few pages were missing from our shelf copy. The fiction purchase is Margaret Culkin Banning's "The Dowry" — This Dowry is the

wife's earning ability, and it does not bring her happiness. The heroine is caught in one of the most controversial dilemmas of modern American life.

We are lacking in material for themes on modern subjects as psychiatry, penicillium, and other such subjects. These are not easy to obtain.

Please don't be negligent about returning your books promptly as there is no phone here and it takes thirty or more minutes every evening to call those who have neglected to return their books on time. I'm responsible for books misplaced, and find it very necessary to get the books back when due.

CARD OF THANKS

We offer our heartfelt thanks for every kind expression of sympathy and each token of love, in the passing of our loved one. We are so deeply grateful for everything done and may God bless each of you.

Narcotics Investigation
Under appointment by Senator Kilgore of West Virginia, Chairman of the Senate Judiciary Committee, the writer will serve as chairman of a subcommittee to investigate the narcotics racket in the United States. The Senate recently ordered the investigation by adoption of a resolution which I introduced earlier in the session. Other members of the subcommittee are Senator Joseph C. O'Mahoney of Wyoming and Senator Herman Welker of Idaho. We will conduct hearings in those states where the narcotics problem has been most acute and will then recommend to the Senate appropriate legislation which might help end or reduce this vicious traffic in dope and human misery. Highlights and Sidelights FROM YOUR State CAPITOL

By VERN SANFORD
Texas Press Association

AUSTIN—Easter bunny brought the golden egg! That, in an egg-shell, describes developments in the Capital City over the week-end.

House members returned to Austin from the Easter holiday to discover that members of the revenue and taxation committee who remained on the job, had brought out a compromise tax bill. It promised \$45,000,000 in new money.

Chairman Stanton Stone and House Speaker Jim Lindsey regard it as their number one project for the week.

Although the committee side-tracked Gov. Allan Shivers' single-shot bills and adopted Chairman Stone's omnibus bill, Governor Shivers said it was a workable basis for providing what is needed.

Actually the bill gives Governor

Shivers more than half of his announced desires. He praised the committee and asked that the balance of his "program" be restored somewhere along the way.

Approved by the committee was the one-cent per pack tax increase on cigarettes, asked by the governor. Also included was a one-cent per gallon gasoline tax, which was held what the governor suggested. An increase in beer operators license fees was injected into the bill as a concession to strong House sentiment to include beer in the new-money scheme. A fourth tax item was diesel fuel at 1.5 cents per gallon.

Under the proposed levies, \$25,000,000 would be added to highway improvements annually, and \$20,000,000 would go into the general fund.

House Speaker Jim Lindsey took a strong stand for the compromise plan. Governor Shivers complimented him for the progress made over the long week-end.

Waiting for nearly \$60,000,000 in new money, before it can reach

the governor, is the \$1,500,000 biennial appropriation now in conference committee.

Governor Shivers regretfully left the scene of action. He went with Mrs. Shivers to Chicago where she will receive treatment for an ear ailment. She had a mastoid operation last year.

Before leaving Texas, the governor stated that he left the current 120-day session, due to end May 10, might run two weeks beyond the four-month mark. Legislators, now drawing \$25 per day, draw no pay after 120 days, unless a new session is called. Shivers has expressed his dislike for special sessions.

Charges Pile Up
Charges continued to mount against Bascom Giles, former commissioner of the general land office.

Latest were four felony theft charges placed against Giles by District Attorney Les Procter of Travis County. It brought the total charges to date to \$1,065,688. Also charged on four felony theft counts was J. Paul Little, Crystal City attorney.

Giles and Little were each accused separately of theft from the state in four veterans land transactions last year in Zavala County. The total amount involved was \$377,344.

Byrd Cattle Company refunded \$25,068 to the state on one land deal.

Meanwhile, a Travis County grand jury continued its investigation of veterans land deals.

Giles' trial in the first of the felony indictments against him, to be heard in San Antonio District Court, was postponed until May 23. His attorney told the

court that Giles was too busy with new charges and new civil suits to go to trial.

Giles Is Defended
Stanley L. Fry, a Reeves County landowner, testified before the Senate investigating committee that Giles was a "hard trader for the state."

"Giles," said Fry, "argued and sweated over land prices and traded just as hard as if it was his own personal money."

Sen. Jimmy Phillips, chairman of the committee, asked Fry: "Did you pay Giles anything, or any employee of the board?"

"Not a dime," was the witness' answer.

Land Program's Future
Despite a "no" vote by Attorney General John Ben Shepperd, the veterans land program may be extended to veterans of World War I and Korea.

Other members of the land board—Governor Shivers and Land Commissioner J. Earl Rudder—voted to urge the legislature to offer the people a constitutional amendment on the question.

Shepperd said that while he favored the philosophy of veterans land benefits, he would withhold his approval of any new program until the legislature enacts "clear and strict regulations" as to its administration.

Meanwhile, veterans organizations were to decide whether to ask the program's continuation. A hearing is set for April 18 on Sen. George Moffett's bill designed to add another \$100,000,000 to the veterans land program, via a constitutional amendment.

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

THE DUST STORMS

The dust storms in the Southwest are again getting front page billing in the Eastern Press. Some are carrying pictures showing a scene that appears to be taken at midnight. The caption under the picture is "Mid-day in Pampa, Texas, Looking Down Main Street." This is somewhat misleading, because there isn't a Main Street in Pampa. I sometimes wonder how so many mistakes are made. One picture was taken in Amarillo and captioned, "Looking from the Herring to the Capitol in Amarillo." Now, this is the sort of thing that causes confusion. People say to me: "I didn't know the Capitol of Texas was at Amarillo." Well, I then have to explain that the paper should have said, "Looking from

the Herring Hotel to the Capitol Hotel." Then they say: "Well, is it true that a fellow named Thompson owns the Herring Hotel?" I say, "Now I have heard that, but I'm not sure about it." Then they say: "If his name is Thompson, why does he call it the Herring?" I tell them to write General Thompson, he has the full answer to that.

The next question is: "Why isn't the Capitol at Amarillo?" I have to explain to them that Texas is so big that by the time our Chamber of Commerce had heard that they were considering choosing a capitol site and our delegation had gotten to the convention, they already had the building built and occupied. The roads were pretty bad back then, but I don't mention that, just let size take care of it. They usually try to corner me by asking why we don't move it. I tell them that size has us stymied on that one, too, because we can't get an appropriation approved for that much.

Then comes the payoff ques-

tion. One of the group always says: "By the way, do you all ever have any dust storms out there?" It just goes to show how much confusion can be caused by one little misleading picture.

INTERESTING NOTES

I picked up a large city daily the other day, and on the front page was a picture of a person involved in a scandal. I opened the paper, and on page three was a picture of Winston Churchill and a write-up about his retirement. The thought struck me that the headline should have been: "Historic Figure Replaced on Page One by Cheap Scandal." How tragic. What is our yardstick of importance?

Watch for some interesting developments on the small business front. There is a gigantic struggle going on behind the scenes between forces of monopoly and independents. This could turn into the "Battle of the Century."

- Six powerful new "high-voltage" engines!** With a modern 12-volt electrical system for increased generator capacity—plus many other new advances.
- The last word in cab comfort and safety!** New Sweep-Sight windshield for increased visibility. A new concealed Safety Step that stays clear of snow or mud.
- New capacity—up to 18,000 lb. G.V.W.** Offered in 2-ton models! This means you can do a lot more work on heavy hauling jobs with real savings.
- New more durable, standard-width frames!** New frames are of 34-inch width to accommodate special body installations. And they're more rigid!
- All models available with new Power Steering!** New Chevrolet Power Steering cuts turning effort up to 80 per cent... cushions road shock. Optional at extra cost.
- You can have new Overdrive or Hydra-Matic!** Overdrive is optional on 1/2-ton models; truck Hydra-Matic on 1/2-, 3/4- and 1-ton models at extra cost.
- Power Brakes standard on 2-ton models!** This great power helper is yours at no extra cost on 2-ton models! Optional at extra cost on all other models.
- Tubeless tires standard on 1/2-ton models!** New tubeless tires give you greater protection against a blowout... deflate more slowly when punctured!
