

MUENSTER ENTERPRISE

VOLUME VIII

MUENSTER, TEXAS, COOKE COUNTY, FRIDAY, APRIL 7, 1944

NUMBER 20

Oklahoma had plenty reason last week to recall the sage comment of the immortal philosopher of Claremore. "If you don't like the weather, wait a minute." Actually, some of the changes came that fast, and the variety was complete. From balmy, shirt-sleeve weather to a freezing, howling norther in less than 24 hours, with considerable fluctuation in the bargain. During that time there were several spells each of rain, snow, hail and sleet. Another 12 hours and all was calm again, the mercury approaching its usual spring level. Apparently it was Old Man Winter's final convulsive effort to hang on.

An increasingly popular post war ambition has already been realized by one of the fellows here at Hill. He has a jeep of his own, purchased from a group of early models recently thrown on the market by the army. Too much worn to meet military specifications, the little buggy is still good for thousands of miles of private service.

In keeping with current army custom he has given it a name: Retired. That and the regular civilian license plate make it quite an oddity on a military post.

Of all the things this war developed, nothing compares with the jeep for popularity. Combining the features of a tractor and a sport roadster, it is a welcome companion in work or play.

Dozens of post war uses have been planned for the little machine. For a farmer it will haul light loads all over the place, travel roads impassible to regular cars and even pinch hit as a source of power for light field work. It will take the sportsman to the heart of the woods or the bank of a stream. It will enable the city messenger or delivery man to dart through traffic and snuggle into half size parking space. It's going to have a big career. Popular demand will see to that.

A well known news analyst predicts that from here on there will be false alarms, feints and dress rehearsals by the Anglo-American high command and phony reports and rumors by the Germans until the smartest deceptionists on both sides of the channel have exhausted their bag of tricks in the greatest battle of nerves preceding the greatest amphibious assault in history. He bases his impressions principally on Churchill's recent broadcast. Who knows but what that command and the prime minister's speech are not in themselves a bit of the clever deception referred to? Reminded of all those tricks, a person's first impression is that the big show is still a long way off. Churchill's listless attitude likewise suggests that nothing important is imminent. It could be a deliberately created calm out of which to spring the big storm.

Certainly a lot of people are hoping so. Having come to regard the invasion as the beginning of the end, they're anxious to see it under way. Then there'll be more point in counting the days. Maybe this column itself will venture another guess, in spite of its awful record.

Not yet, however. For the present it is content to express satisfaction over other predictions. Such as Henry Ford's. How pleasing it would be to discover that he is correct! But how hard to believe now! Even more pleasing to imagine and harder to believe is that dream of peace by Easter. In fact, at this stage it seems completely impossible.

The trouble with most predictions is that they are based too much on wishful thinking. (After a couple of years Con ought to know.) Like the statistician who finds figures to support a ridiculous claim, the optimist can always invent circumstances to bolster his hopes. But we fail to reckon with optimists on the other side. The guys who direct axis strategy have dreams to support their hopes too.

An amusing case of that complex is with us around this headquarters. A colored civilian orderly gives us an analysis of the situation every day, and he never fails to quote somebody else's optimistic views. At the same time he has a knack of picking flaws in any expert's prediction of a long war. Unintentionally he explained his attitude a few days ago. He's been reclassified and he's hoping the war will be over before the draft hits him.

Maybe that explains my attitude too. I'm as anxious to get back to regular living as the colored boy is reluctant to quit it.

NO PORK SHORTAGE
There will be no meat shortage for at least one Muenster family. Not since "Chessie" a two year old Chester White sow belonging to Meinrad Hesse turned up with a litter of 21 piglets. They arrived last week and 14 of them and the mother are "doing fine."

OUR BOYS WITH THE COLORS

S. Sgt. Herr Home After 33 Months in Alaska

Home for the first time in four years S. Sgt. Robert W. Herr, son of Fred Herr, arrived Saturday, to spend a 20-day furlough.

Sgt. Herr, member of an infantry division, spent the past 33 months at Dutch Harbor, Adak, and other Aleutian islands. He wears three decorations, that representing a pre-Pearl Harbor enlistment, Asiatic-Pacific campaign and a good conduct.

He doesn't talk much about his experiences, but mentioned that he went through 13 bombings and 3 shelling by the Japs, and tells of the wind and blizzards referred to as "williwaws" which are frequent and are recorded as reaching 100 miles per hour.

He arrived with a group of other men from his company, last week at Seattle, and upon completion of his furlough will report to Camp White, Oregon. He enlisted in the army in September, 1940, trained at Fort Warren, Wyo., and Portland, Oregon, going overseas in July 1941.

Now At Pearl Harbor
Giles Lehnerz, FCIC, who serves on board an aircraft carrier, has written his parents that he is now at Pearl Harbor.

15-Day Furlough
Home on a 15-day furlough since Saturday is Cpl. Louise Schmitz, a member of the WAC on duty at the Pueblo, Colorado, army air base. She is the guest of her parents, Mr. and Mrs. H. M. Schmitz.

Stationed in Hawaii
Word has been received by his wife and parents that Seabee Sidney J. Otto, MMBC, arrived in Hawaii on March 18, that he is well and is enjoying his new surroundings. He has a change of address which his friends may get from his parents, Mr. and Mrs. Tony Otto.

Souvenirs From India
The Frank Yosten family has received a box of souvenirs from India, sent by their son and brother, S. Sgt. Ferd Yosten. Included is a handsome black velvet table scarf elaborately embroidered and studded. The design depicts a tiger, clawing the flax which bear the swastika and the rising sun while around the temple the flags of the United Nations wave. Other items included are jewelry from that country, a book containing pressed flowers from the Holy Land and a book on India.

To Report Tuesday
P. A. Kathman, Joe Walter and Hugh Lee Tugzie will leave next Tuesday, the 11th, to report for induction in the army. Kathman is operator at the local moving picture theatre and also manages a radio repair shop. The other two men, formerly of this city, are residents of Gainesville.

Has Operation
Earl Swinkler, CMSC, a patient at the naval hospital in Shoemaker, Calif., underwent an operation Monday to correct a back injury. His mother, Mrs. Joe Swinkler, was with him, and in a telegram to the family here Tuesday evening reported that Earl's condition was as good as could be expected.

Souvenirs From Hawaii
Lt. Norman Luke sent his family here a box of souvenirs from Hawaii recently and in an accompanying letter stated, "You won't be hearing from me for while but don't worry." Apparently he has been transferred to another station. The lieutenant is a naval aviator. Included in the box of gifts were perfume, a white silk bandana, a bed spread and books on Hawaii.

Holy Name Society Organizes Ball Team
The Holy Name Society, at its regular meeting Monday evening made plans for the organization of a soft ball team and named "Fat" Swirczynski captain. Leo Becker and Justin Hess were chosen to assist him with arrangements and the first practice session has been called for the afternoon of April 16.

Urban Endres, president, presided during the session, and Spiritual Director Father Thomas addressed the assemblage.

Following routine business an hour of games was enjoyed at the club room.

Mrs. Leon Hellman spent the weekend in Houston visiting her mother and other relatives.

BEZNER BROTHERS IN BLUE AND KHAKI

—Pfc. Aloys J. Bezner, 30, eldest of this trio of brothers serving Uncle Sam, is stationed at Mexia, Texas, with a military police company. He entered the army in December, 1942, trained at Camp Adair, Oregon, with a signal corps went on maneuvers in Arizona and then attended M.P. school at Fort Custer, Mich., before being assigned to his present post. His wife, the former Miss Eunice Bonanon, resides with him at Mexia.

—Sgt. Joseph J. Bezner, 25, as a member of the famous 36th division of the 5th army, has taken part in battles that have made history in Italy. Serving in a medical detachment he was also with the 36th in Africa, and the landing at Salerno. He entered the service by enlistment in the National Guard at Gainesville in Oct. 1940, trained at Camp Bowie, at Camp Edwards, Mass., before going overseas in April, 1943.

—Aviation Student Hubert P. Bezner, 18, entered the Navy Air Corps in November, 1943, and qualified for training as a naval aviator. He is stationed at Arlington, Texas. These brothers are sons of Mrs. Joe Bezner and the late Joe Bezner of Lindsay. In addition to this trio Mrs. Bezner has three sons-in-law in the service: Lt. Robert C. Young, army pilot, at Hobbs, N.M.; Mess Sgt. J. L. Kelley, Stoney Field, S. C.; and Pvt. Bruno Zimmerer, infantry, mechanical instructor, Camp White, Oregon.

Mayor Asks Observance Of Good Friday

In a proclamation issued this week, Mayor J.M. Weinzapfel designated Good Friday March 7, as a day of special reverence and called on all residents of Muenster to observe it fittingly by suspending business and attending services.

The proclamation requests that all business houses close between the hours of noon and three o'clock.

In the past Muenster business houses close their doors, that workers lay down their tools, that activity on the streets be held down to a minimum.

ARTHUR ENDRES IS GRAND KNIGHT OF MUENSTER COUNCIL

Arthur Endres was elected grand knight of the Muenster council Knights of Columbus at a special meeting of the organization Tuesday evening. He will complete the unexpired term of Nick Miller, whose resignation was handed in to council officers Sunday.

Endres took over Tuesday and presided at the session. He will have the honor of being in full charge of the coming major degree exemplification to be held here on April 23 when Muenster will be host to North Texas councils and their candidates for initiation rites. A letter has been received from the Supreme Council of New Haven, Conn., confirming that a duly authorized representative will be in this city to confer the degree upon candidates receiving the honors that day.

Other business of the session consisted of appointment of delegates to attend the annual state convention, to be held in Austin the latter part of May. Grand Knight Endres and J.W. Fisher were chosen.

MORE GIFTS SEND RED CROSS TOTAL 12% OVER QUOTA

Additional Red Cross donations bring Muenster's figure to \$1,247 this week. This amount is more than 12 percent over the assigned quota of \$1,100.

Additional donors, and a continuation from last week's list, follow:

A.E. Thompson \$5.00
(Continued on Page 5)

FINAL COTTON REPORT

The final cotton census report released by E. J. Huffaker, special agent for the department of commerce, bureau of the census, shows that 6,572 bales of cotton were ginned in Cooke county in 1943, as compared with 6,578 bales for the crop of 1942.

Rev. Father Frowin Sends Friends Here Easter Message

I cannot let this joyous Easter season pass without sending my blessings and wishes to all of you with whom I spent so many happy and blessed Easters. God give you the joy of the feast and the warmth and the love that came from the tomb that first Easter morn.

The joy of Christians and their love for one another cannot be shut up at Easter time. So my wishes and prayers come to rejoice with you in the Risen Saviour.

Easter will not be the same this year with so many of the young men of the parish gone off to war. Many of them will celebrate this Easter in distant places. Some will celebrate the feast close to the lands made holy by the foot-prints and the tears and blood of the Saviour. Some have gone home from this earthly visit and will sing Alleluia with the Lamb who died for His people. Of these last we can truly say: They are not here, they are risen. Let us rejoice for their sakes. Let us all be strong in the Strength that is stronger than death. Let this Easter be different because it is holier.

I want to send my heartfelt thanks for the many expressions of remembrance and prayer I received on my Namesday. I want to thank all who wrote. I want to thank your good pastor, Father Thomas, and the kind Sisters. I want to thank especially the children for their many feast-day greetings. It is to the children that we look for the carrying on of the work we have begun. The future is theirs. Our work and our hopes will stand or fall at their hands. God bless the children. Train them, treasure them, teach them the law of God and they will know the dignity of man.

My thoughts often return to the many years I spent with you in Muenster. Your interests are mine. My prayers are for you. It is a great consolation for me that I am able to have as my constant companion, Father Paul Hoedebeck, a son of the parish. Your paper, the Muenster Enterprise gives me the greatest pleasure. No I have not forgotten you. I remember each and every one of you. I remember your many kindnesses. I remember the hard times we went through together. I also remember the success that crowned our working together. Be sure that we will be rewarded together.

God has decreed that my working days are over. God's will be done. My health does not improve. My sight is no better and I find it difficult to get around. But I am among my friends and my brothers in religion and that is a great blessing. God has blessed me with these last days of retirement to pray and prepare, and I am grateful. The monastery is a precious home and God has been good to me. Thanks be to God.

When, in a few days, the brightness of dawn announces the glad tidings of another Easter, be sure that I will be thinking of you and yours. My prayers will be that your hearts may be warmed and gladdened by the grace of the feast. God bless and reward all of you, and keep you.

Your Friend in the Risen Christ,
Father Frowin Koerdt, O.S.B.

Vote Favors Muenster And Bailey Merger

Saturday's attempt to consolidate the Bailey school district and Muenster was successful. It carried 100 percent at Bailey where 13 votes were cast and polled 27 for and 3 against at Muenster. Apparently little interest prevailed, since more than 500 persons are eligible to vote in the two districts.

Muenster's voting took place in connection with the annual trustee election. By the merger some 20 students were added to the local consolidated district, most of whom are now attending Sacred Heart school. Previously the student per capita tax went to the Saint Jo School.

An attempt to consolidate the Muenster-Bailey districts failed in 1940 because at that time no transportation facilities were available.

Herr Motor Loses About \$160 Cash In Saturday Robbery

Herr Motor Company lost about \$160 in cash and a quantity of gasoline ration coupons, along with a cash register, in a burglary here Saturday night. Apparently the thief was only interested in money, because tires, tubes, and other items were not bothered. Checking up on his stock this week, Adolph Herr, owner, could find nothing else missing.

The first indication that anything was out of the ordinary was discovered by Postmaster Arthur Endres when he came in early Sunday morning to dispatch mail and noticed the back door of the garage standing open. He mentioned the matter to Mr. Herr, who went to investigate and immediately found the cash register missing.

Local and county officers were notified and during the day found the battered and broken cash register at the abandoned Rock Station, east of the city. That the robber is an amateur was noted. The cash register was not locked, merely pushed shut, and could have been opened easily by pressing a key. In the condition it was left it is a total loss, beyond repair. It was valued at about \$150.

Saturday night was an ideal time for a burglary. It was raining hard, and cars all along the highway had pulled under shelter to wait for the rain to stop. Lightning was bright enough to furnish illumination. Also, no finger prints were available, the rain probably having washed away all evidence in that regard after the register was abandoned in the driveway of the Rock Station.

However, one clue may lead to the arrest of the culprit. The mud left perfect tire markings at the Rock Station. Officers are busy on that angle.

Mr. and Mrs. Louis Nieball of Dallas are the parents of a daughter, Patsy Lou, born last week. Mr. and Mrs. Paul Nieball and sons spent Sunday in Dallas visiting the new arrival. She is the first grandchild of the Nieballs.

Post-War Survey For County Is In Progress

University Of Texas Faculty Members Are Directing Program

Texas University professors who will set up the organization of Cooke county's post war planning program arrived in Gainesville Wednesday and that evening spoke to a large assemblage of county citizens. Doctor Homer Rainey and seven members of the staff were introduced and gave addresses. Muenster was well represented at the meeting.

Thursday, the group, in company of several business men from Gainesville and this city, met at 12:00 noon at the Main Hotel for luncheon and a meeting here with Mayor J.M. Weinzapfel who is also a director of the Gainesville Chamber of Commerce, presiding at the meeting.

Thursday evening the group was taken to Valley View to be guests at dinner in the high school with Jimmy Nichols, Chamber of Commerce director, presiding.

Experts setting up the post-war program, in addition to Dr. Rainey are: Dr. R. L. Sutherland, professor of sociology of the Hong Foundation; Dr. C.A. Wiley, professor of economics; Dr. A.B. Cox, director of the Bureau of Business Research; Dr. S.A. MacCorkle, professor of government and director of the Bureau of Municipal Research; Dr. John Frederick, professor of transportation and president of the Austin Chamber of Commerce; Dean T.H. Shelby, professor of educational administration and dean of the Division of Extension; and Prof. W.T. Rolfe, chairman of the department of Architecture and Planning.

Cooke County Is Assigned Plasma Quota

Red Cross Will Need 1,250 Pints Blood For Plasma To Meet Goal

Cooke county Red Cross chapter has been assigned a quota in blood plasma gathering. That quota is 1,250 pints of blood during a 5-day visit of a mobile-unit in Gainesville in the near future.

To meet this quota, a campaign to obtain blood donors was started on April 1. One out of every 20 persons in the county must respond if this quota is to be met. Actually, however, one out of a much smaller number of persons must respond because there are many who cannot qualify. Persons over 59 may not give blood, nor may those under 21, except those 18 to 21, who have a written parental consent.

In Muenster, Joe Fisher is soliciting donors and has on hand blanks to fill out for those wishing to give blood. Local persons are asked to leave their names with him.

All persons who are healthy should not hesitate one moment to sign up for blood donations. Blood donors will save the lives of fighting men. The one who gives blood is doing a greater service than the one who merely donates dollars.

The Army and Navy need great quantities of blood plasma to save the lives of men on the battlefronts all over the world.

Cooke county has met various war fund quotas in an admirable manner during these three years of war. Now this new and critical appeal is to be met, just as admirably. Muenster citizens will want to do their share. Names should be submitted to Joe Fisher at once. Transportation facilities to Gainesville will be arranged during the time the plasma gathering takes place, it was stated.

SMALL VOTE RETURNS PIERCE AND LAWSON TO SCHOOL BOARD

A quiet school trustee election, with only 31 votes, out of a possible 500, was the result of Saturday's balloting.

E.S. Lawson and Herman Pierce were re-elected as trustees, winning over Ben Seyler, and there were no write-in votes.

Likewise J.G. Biffle was re-elected for the county school board seat. He was unopposed.

Election judges were Frank Hess, Fred Herr and Miss Dorothy Trachta.

LOCAL NEWS BRIEFS

Short Items of Interest About Folks You Know

Mrs. T.S. Myrick visited in Fort Worth Wednesday.

Cpl. Joe Sylvester of Camp Howze was a Sunday guest of the Joe Lehnertz family.

Mrs. Henry Fette and Mrs. Richard Fette were Fort Worth visitors Monday.

Mrs. Bert Fisch returned to her home in Fort Worth Sunday after spending several days here with her mother, Mrs. Mary Lehnertz.

Mrs. Anthony Klement had her tonsils removed at the local clinic last week and has recovered nicely.

Little Jewelme Ann Burger of Pilot Point is visiting with her uncle and aunt, Mr. and Mrs. Carl Herr.

Mrs. John Beard had as her guest for the past week her daughter, Mrs. E.E. Herrin of Manhattan, Kansas.

Miss Josephine Hirschy of Dallas spent the weekend with her mother, Mrs. Joe Hirschy and sister, Miss Theresa Hirschy.

Mr. and Mrs. Paul Hutcherson of Route 1 are the parents of a son born at the local clinic Tuesday.

Mr. and Mrs. Frank Schilling and daughters, John Schilling and Albert Schilling visited relatives in Pilot Point Monday.

The John Schmitz home has been torn down and is being replaced by a new structure now going up.

Mr. and Mrs. Henry Luebbert and two daughters and her mother, Mrs. Anna Havis of Fort Worth were guests of Mr. and Mrs. Bill Stelzer last Sunday.

Mrs. Elmer Martin is back at home, recovered from a nose infection that confined her to a Gainesville hospital for several days.

Members of the Mission Sewing Circle are reminded of a regular afternoon of sewing and quilting in the school auditorium next Thursday, April 13.

Mr. and Mrs. Herman Pierce and daughter left here Monday after receiving a message that his father had died at Davis, Okla. The funeral was held Tuesday.

Three local men will take their army physicals in Dallas this Friday. They are Lawrence Wimmer, Albert Knabe, Jr. and Melnard Stoffels. All three are employees of the FMA cheese plant.

Mrs. Kenneth Newton of Winthrop, N.Y. has sent in her renewal for the Muenster Enterprise for another year and asks that her best regards be extended to all her friends here. She is the former Miss Irene Lutkenhaus.

Mr. and Mrs. Johnny Fisher had as their guest for the weekend her brother, Cpl. Pete McDonnell who is with the army, stationed in Florida. He was on furlough, part of which was spent with relatives at Madill, Okla.

Members of the Get-Together Club are reminded of a meeting next Wednesday, April 12. Mrs. Joe Horn will be hostess in her home. This will be the club's first social since before the Lenten season.

Political Announcements

The following persons have authorized The Enterprise to announce their candidacies for political offices, subject to the Democratic primary election, July 22, 1944.

For Congress, 13th District: **GEORGE MOFFETT**, Hardeman County.

For District Judge: **BEN W. BOYD** (Re-election)

For District Clerk: **MARTIN G. DAVIS** (Re-election)

For County Judge: **CARROLL F. SULLIVANT** (Re-election)

For Commissioner Prec. 4: **J. E. (Earl) ROBISON** (Re-election)

For Commissioner Prec. 3: **J. R. (Robert) LITTLE** (Re-election)

For Sheriff: **O. B. WINTERS** (Re-election)

For County Treasurer: **MRS. EVA G. TOWNSLEY** (Re-election)

PLANE TALK

BY Rowland Burnstan

Jet Propulsion

A letter has arrived from one of the readers of this column asking if we would answer specific questions pertaining to the field of aeronautics. Within the limitations of the space provided we will be glad to handle all such questions if the subject matter is of general interest and the replies do not involve matters of public security. The letter referred to asked questions about jet propulsion and if this in some way resembles "Buck Rogers Rocket Ship." There is a great similarity between the rocket ship and jet propulsion. The rocket, speaking precisely, is propelled by one heavy impulse or succession of impulses. This principle may be used on aircraft for quick starting from a runway or some temporary additional power under some unusual condition.

Jet propulsion, which has been in the news recently, employs the same basic principle, but there is an even flow of power from the propulsion unit, as in contrast with the intermittent impulses from the rocket. Jet propulsion employs no propeller or air screw. It involves a rushing discharge from the rear of the plane in the form of a jet of air or gas which moves the aircraft forward. This is not a new idea and planes have been flown for some time in Europe on this principle. Scientists claim the real attraction of jet propulsion units is that it will provide a powerful forward movement in proportion to its weight, making possible higher speeds than presently obtained. Questions to Dr. Rowland Burnstan should be addressed to: SC Pictures, 314 N. Michigan Ave., Chicago 1, Illinois.

Ray Otto and Willie Fuhrmann left Monday for the state of Washington where they will engage in farming. They are former employees of the Muenster Mill and the FMA Cheese Plant, respectively.

Mr. and Mrs. Jim Cook had as their guests from Tuesday to Thursday of last week her two sisters, Mmes. Joe Harrison of Bisbane, Okla. and W.S. Ray of Healdton, Okla. and Mrs. Henry Lowe, also of Healdton.

Mr. and Mrs. Joe Walter and children of Gainesville were Sunday guests of Mr. and Mrs. Leo Henschel and in the evening were honored with a family reunion party at the home of Mr. and Mrs. Oscar Walter. Joe is leaving next Tuesday for the army.

St. Sgt. Elmer Steffens, formerly of Camp Howze, now at Camp Claiborne, La., spent the weekend

Cover Girl

Lovely Leslie Brooks, currently appearing in "Cover Girl," passes on two tips for keeping cosy on less fuel. The smartly tailored suit with appealing lingerie touches which she wears, is an excellent choice for chilly spring evenings. And drawing the window shades at night is a sure way to keep warm air inside the house. The layer of air trapped between the shade and the glass can cut heat loss through window panes by as much as one-third.

in Gainesville with friends and accompanied by Miss Anselma Pangel of that city was here Sunday. They were dinner guests of her parents, Mr. and Mrs. Jake Pangel.

Central Truck Line's depot was moved Monday from the Magnolia Station to Joe Trachta's building, formerly known as the M.J. Endres store. The depot is occupying the back and side of the building facing Third street. Buddy Bernauer continues as local trucker for the company.

Willie Fuhrmann, who left Monday for Washington to be employed was given a farewell party Sunday by a group of friends at the home of his parents, Mr. and Mrs. H.J. Fuhrmann. The young people enjoyed kodaking in the afternoon, along with other informal diversion after which dinner was served by the honoree's parents.

TRADITIONAL HOLY WEEK SERVICES HELD IN MUESTER CHURCH

Traditional services that have been followed by the Church since the middle ages and a schedule that has been followed by this community since its early days, are observing Holy Week in Sacred Heart Parish. Palm Sunday, with the blessing and distribution of palms and a

No Thumbs Here

DETROIT, MICH. — The scales register exactly 18 pounds as Helen Liptow, inspector at the Graham-Paige Motors plant, here, makes the final tests on a master connecting rod for an airplane that will soon see battle action. Highly skilled technicians perform 103 precision operations in reducing the casting blank from its original weight of 72 pounds.

procession ushered in the final week of Lent for Muenster Catholics Sunday. It was the beginning of ceremonies that precede Easter, the greatest day of the Christian year.

Services on Holy Thursday commemorated four events of moment: the washing of the feet of the 12 apostles by Christ; the institution of the Eucharist; the agony of Christ in Gethsemane and the betrayal and arrest of Christ. Mass and all-day adoration of the Blessed Sacrament, marked the day at Sacred Heart Church.

The Good Friday services, mourning the death of Christ, begin with private adoration from 7 to 9 a.m. at which time the sermon will be preached, followed by veneration of the crucifix and mass of the presanctified. The period between 12 noon and 3 o'clock has been set aside for silent prayers and meditation, and at 2:30 the Way of the Cross will

be recited. At 8 o'clock in the evening is held the last of the three tenebrae services.

The Holy Saturday schedule begins at 7 o'clock with the blessing of the paschal candle, Easter water and fire, followed by Mass, and ends with solemn resurrection ceremonies at 7 p.m.

Masses on Easter Sunday will be at 7, 9 and 11, that of 9 being a solemn high mass. Benediction will be given after the 11 o'clock service.

CARD OF THANKS

We gratefully acknowledge the help of neighbors and friends who came to our assistance so quickly last week when our wash house burned, and thank one and all for the services rendered for this saved our home and other buildings from igniting.

Melnrad Hesse Family

Beauty Treatment. At the first sign of rust on refrigerator shelves, home economists advise this treatment: Wash shelves with a mild scouring powder and hot water; dry well with a soft, clean cloth and, using another soft clean cloth apply a thin protective coating of hot melted paraffin. Although primarily a beauty treatment, this

helps retard the harmful spread of rust at its starting point in the joints and seams of the shelves.

Mr. and Mrs. J.P. Flusche entertained with a dinner party last Sunday honoring her brothers, Ray and Earl Otto. The former left Monday to be employed in Washington and the latter will leave soon for Navy duty. The delicious turkey menu was served to Mr. and Mrs. Tony Otto and son, Thomas, Mrs. Sidney Otto and daughter, Patsy, Messrs and Mmes. A.J. Hoening and Johnny Otto and families, the honorees and hosts.

FARM NEWS

from **FOOD FOR FREEDOM**
YOUR COUNTY AGENT FOR TEXAS EXTENSION SERVICE

FEED PROGRAM FOR DAIRY HERDS

One of the most important undertakings for Texas dairymen is to plan a feed production program for their farms. Plans should be made now to utilize every acre to the best advantage in producing feed for their herds. Texas' 1944 milk production goal is somewhat larger than in 1943.

Albert Briant, county agent, lists the feed requirements for the average milk cow for one year as one ton of hay; three tons of silage; one ton of concentrates; and one to two acres of temporary and permanent pasture. At least five hundred pounds of the concentrates should be protein concentrate. If no silage is available, two tons of hay should be provided.

The first consideration should be to provide as much pasture and good quality hay and silage as possible. Briant says, if a dairyman cannot grow all the feed his herd needs, he should plan to produce the pasture and roughage and buy the grain.

Briant recommends planning pastures so that rotation grazing can be practiced. Control weeds and arrange so that cows do not have to walk too far for water. Cross fences to allow rotation grazing will increase the amount and quality of grazing on temporary pastures.

He recommends further planting hay and silage crops which will give the greatest amount of nutrients per acre. Legume hays are best where they are adapted. But in a large part of the state sweet sorghums, grain sorghums and other feeds yield so largely that it is not profitable to grow legumes.

Silage is the best substitute for pasture. Red top cane, hepari, fescue and other sorghums are the best silage crops for the major part of Texas. Tonnage and feed value considered. Every dairyman who possibly can should provide silage for his herd, along with clean, fresh water in a shaded trough during the summer.

Perrin Asks Farmers To Help In Recovery Of Lost Plane Parts

PERRIN FIELD, TEX.—Farmers in the territory over which basic trainer planes from this Army Air Forces Training Command station pass in training flights were requested today to cooperate in the recovery of lost airplane parts and flying equipment.

According to Lieut. Col. John C. Evers, director of supply and maintenance, pieces of equipment are lost occasionally from the planes while they are being put through training maneuvers.

"It is probable that some of this equipment has been found by farmers in the surrounding area, but they have either not been able to identify it or have not known where to return it," Col. Evers said.

Among the items lost are ring crowlings, headsets, and the em-

PLANE TALK

BY Rowland Burnston

Automatic Pilots

Automatic pilots are used in airplanes to perform in a variety of ways. The title may be misleading. There is no such thing as a completely automatic pilot. Any device which is used as a substitute for work on the part of the human pilot can function only so far as the human pilot desires. It is only a mechanism which responds to his wishes. The degree to which the instrument functions depends upon the use to which it is put.

The most exacting work required is in its employment of precision bombing. In this instance the automatic pilot must keep the plane on straight and level flight so that when a bomb is dropped the platform from which it falls, in this case the plane, maintains its relative position to the ground on a basis of changes that are constant enough so that the bombardier may take them into consideration and allow for them in his sighting.

In the case of commercial transport planes no such accuracy is required. The auto pilot required for this type of work is used as a fatigue relief for the human pilot. It is not necessary to keep a commercial plane on a hair-line course, and therefore, a less exacting device will do the work.

Smaller planes that are used by sportman pilots and other private individuals have rarely been equipped with automatic pilots. There are in the course of development at the present time smaller devices which could serve on private planes. When installed these would greatly enhance the possibilities for this type of aircraft and contribute greatly to the popularity of private aviation.

Emergency release portions of plane canopies.

Col. Evers urges that anyone finding objects which they know or believe may be airplane parts or flight equipment write him, as director of supply and maintenance, at Perrin Field.

Oil Field Notes

R. W. Bourland has begun a lime test on R. W. Trew, 2 1/2 miles southeast of the Dangimayr production.

Phillips Petroleum No. 2 Dangle, on 200 acres of Dangimayr tract was drilling below 1900 feet Tuesday. This tract, designated as Dangle, is south of the 260 acres of Dangimayr land, designated as Dangimayr, where three wells have been completed by Bourland.

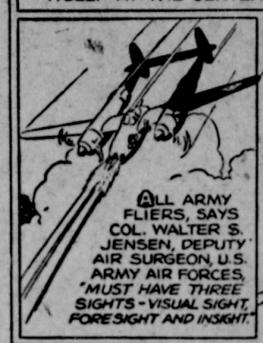

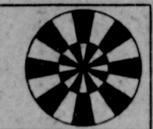

Seeing is Believing

STRONG, SHARP, ALERT EYES ARE REQUIRED TO SAFELY CONVOY THE VARIED SUPPLIES TO OUR MANY FIGHTING FRONTS. THE MEN AND WOMEN PRODUCING SUCH SUPPLIES ALSO NEED GOOD VISION FOR EFFECTIVE PRODUCTION.

OPTICAL ILLUSION...

A STEADY FIXATION ON THIS FIGURE SEEMS TO PRODUCE A CIRCULAR MOTION, REVERSING ITSELF AT THE CENTER.

ALL ARMY FLIERS, SAYS COL. WALTER S. JENSEN, DEPUTY AIR SURGEON, U.S. ARMY AIR FORCES, "MUST HAVE THREE SIGHTS—VISUAL SIGHT, FORESIGHT AND INSIGHT."

SALT RATION... TEARS, WHICH LUBRICATE THE EYES, CONTAIN ABOUT ONE PER CENT OF SALT, ACCORDING TO THE BETTER VISION INSTITUTE.

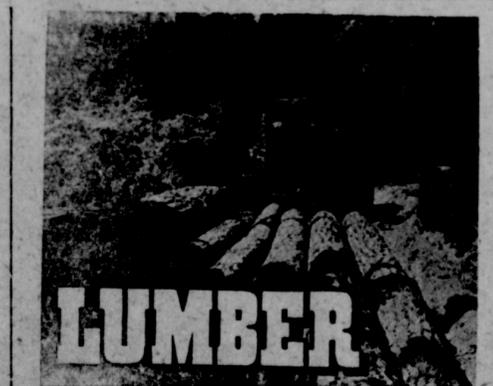

Can You Boil Water Properly?

Several sands have been passed in this well but none had saturation. Lime is expected around 1800 to 2000 feet. Hess Brothers, contractors of this city, are drilling this test.

Kingsery Brothers have cemented two wells on the Henry Fleitman tract north of the city, showing in good and plugs will be drilled this weekend. The wells are for Benson and Benson. Meanwhile Craig and Robertson are having 5 slush pits dug for wells to begin shortly on the same tract in progress on the lease by Benson and Benson.

Drilling Contractor Ralph Richards, who sustained a broken leg some time ago, is improving and is able to get around with the aid of crutches.

Cooke county pipe line runs for the past week totaled 10,723 barrels a day, which keeps the county in third place of 14 producing counties in the Wichita Falls area.

Mrs. Fred Herr Honored On 74th Birthday Sunday

Mrs. Fred Herr, Sr., was honored Sunday with a family reunion and covered dish supper in observance of her 74th birthday. The affair was given at the home of her son, John Herr, and was attended by children and grandchildren of this community who planned the gathering as a surprise for the honoree, and presented her with a shower of gifts and a decorated cake.

Personnel included Messrs. and Mmes. Ben Luke, Roy Endres, Carl Frank and John Herr and their families, Misses Lena Elizabeth and Katie Herr, all children of the honor guest, and Roy Endres, Jr., and family and Miss Clara Henschel.

Mrs. Herr has resided in this community for 53 years. She is a native of Germany where she

was born on April 3, 1870, and came to the United States at the age of 11 years. She was Miss Catherine Aeckhoff before her marriage to Mr. Herr in 1891 at Westphalia, Kansas, and the couple came to Muenster to reside the same year. He died April 12, 1936.

In addition to the children mentioned above there is one other son, Emil Herr of Hereford, who was unable to attend the reunion. Six of Mrs. Herr's grandsons are serving Uncle Sam in the armed forces.

THIS ADVERTISEMENT, ONE OF A SERIES TO HELP ACQUAINT THE GENERAL PUBLIC WITH THE DAIRY FARMER'S CONTRIBUTION TO THE WAR EFFORT, appears in full-page size in *The Saturday Evening Post* April 8th and in *Collier's* April 22nd issue

Thousands "got back in the harness"

FARM BOYS are apt to be husky fellows—good pilots and sailors and soldiers. Service stars hang in the windows of most farm homes.

That complicates the problem of producing more food, particularly on dairy farms. Milk isn't reaped in a single harvest. Cows need individual care every morning, every night, every day of the week. So what has happened in the dairy regions all over the land?

Men and women, little boys and girls, are working harder. Thousands of old-timers, who thought their working days were over, have "got

back in the harness".

In spite of difficulties, the Government's dairy goals must be met. More milk! And nutritious products of milk, such as cheese. Nearly 450 million pounds of cheese for our fighting men and fighting allies! Over 500 million more pounds for you and other civilians to eat! More than twice as much cheese as the nation could produce at the last war's end is needed now.

America's dairy farmers shoulder a tremendous load. Fortunately for the U. S. A. and for the world, they have the spirit to carry it.

Because of the tremendous demand, both military and civilian, you may not be able to get as much Kraft Cheese as you would like, or get your favorite varieties—Kraft American, "Old English", "Philadelphia", Brand Cream Cheese, Velveeta, and so on. But you may be sure, as always, that any cheese or cheese food which bears the Kraft name represents the very highest standard of quality.

April 7, 1939
Ben Seyler wins in race for City mayor; write-in campaign for Pete Rollman fails. Sewer application gets approval of WPA at Fort Worth. Next week designated as annual cleanup week in city. No. 3 Voth gusher regarded as better than No. 2 discovery. Civic League chooses Dorothy Fette for duchess at Gainesville Circus Round-up. Muenster observes Holy Week with traditional services. Quiet trustee election returns Albert Henschel to school board. Mrs. Wm. Gehrig recovers from operation performed at Ft. Worth hospital. Mrs. Al Schad recovering from major operation at Gainesville. John Tempel is up following six-week's seige of sciatic rheumatism. Messrs. and Mmes. John Hoberer, Jr., and Henry Kuhn of Lindsay announce births of sons. Muenster public school wins Class B trophy in County One Act Play contest, and has three first places in Interscholastic meet.

MOSAICS

of Sacred Heart High

EDITOR: Della Rose Endres
ASSOCIATE EDITOR: Imelda Felderhoff

He Is Risen

Only a few days now until the triumph—the triumph of Christ. As in the days of Advent the people waited for the coming of the Messiah now in these days of Lent, the children of the church are doing penance, longing for Easter and the triumph of the crucified Christ.

Christ's Resurrection is the time of man's resurrection also, because in Christ man can now regain heaven. So this time of Easter is a time of renewal—a time to prepare with renewed vigor for the second coming of Christ as judge at the end of the world.

During Lent the church has been in mourning for the sins of mankind and during the time of

Passion and Holy Week the church has been in mourning. But with the coming of Holy Saturday the Alleluia will be the voice of mankind—joyful in the pledge of their future resurrection. Let us sing in the liturgy of the church on Easter morning. "This is the day which the Lord hath made: let us rejoice and be glad in it."

Note: Our readers may be wondering why the Mosiacs have not been printed in the past issues. The fault does not lie with the editors, for we have tried to be faithful in keeping up with our column. Let's all be patriotic. We have to realize that the printing office at the Enterprise does not have the help it would have during normal times.

Sweater Display
Fifty two sweaters that the school children have knitted for the Red Cross were put on display at the parish hall on Monday evening March 27. They were admired by a large crowd that attended the Red Cross Film shown by Mr. Kiel. After the entertainment, the sweaters were taken to the Red Cross office in Gainesville from where they will be sent to places where needed. There are still over two dozen sweaters being made and these will be turned in at a later date.

Softball Game With Public School
Last Wednesday afternoon our team met the Public School in the second game of the season. We were victorious with a score of 22-8. We hope our team will continue to play so well.

National Latin Test
On Tuesday afternoon members of the Latin classes participated in the annual competitive Latin examination sponsored by the National Organization, the Association for Promotion of Study of Latin. The results of the examination will not be known until the end of May. So until then the contestants will live in hope that at least one of them will win some distinction.

Students Celebrate Sister Geraldine's Feast Day
The students wanted to celebrate Sister Geraldine's feast day. Then they discovered that it was during Holy Week. So they anticipated the feast by celebrating it the week before. Wednesday morning the students offered Mass and Holy Communion for her intentions and that afternoon they presented a program in the school auditorium. After greetings were

extended, Juanita played Sister's favorite piano selection "Song of India". This was followed by an expert performance of the "DE Vomanless Vedding" by the Freshmen and Sophomore boys. A.J. Felderhoff and Gerald Bayer furnished a musical setting with accordion selections. The dramatization was true to the title for it was a wedding with all the maids of honor, the flower girls, train bearers, friends and relatives present for an ideal wedding but there were no women in the cast. The boys were furnished with dresses and accessories by girls of the Freshman and Sophomore classes. After the wedding march and just before the ring ceremony, the musicians played "Just Before the Battle Mother." After the ceremony Earl Koelser caused many a laugh when he told what he saw and heard at the wedding.

And, so that Sister might remember her feast day, the students presented to her a leather covered copy of "Reflections for the Religious."

Snoopers
Some of the students have been visiting different cities during the last two weeks. We found Gladys and Laura Lee in Dallas Monday. Della Rose seems to be well satisfied after spending a day in Denton. Johann has been telling us about the "cutest" pair of sandals since her visit in Dallas. "We've heard some one say, 'Gee wouldn't Edwin make a pretty girl?'" We think he would too. The Biology class has been making a study of the blood circulation in the heart. One junior girl was heard asking: "Wonder what part of your heart is usually hurt when you're in love." Well, we haven't found the answer, have you?

We noticed that a large number of the students have been making visits to the church after school. A good example for some of us.

ALARM CLOCK SALE JUST ABOUT WRECKS STORE IN CHICAGO

CHICAGO—They were cleaning up a Chicago department store Tuesday which looked as if it had been the particular target of a lusty cyclone.

The demolition was occasioned when a crowd of 2,500 women and a few stout-hearted men stormed the place in response to an advertisement for the purchase of 1,500 alarm clocks "while they last."

Three women fainted, four showcase windows were shattered, several clerks were trampled, more than a dozen women were pulled over counters to safety by sympathetic clerks, several hundred were imprisoned in the center of the jam and never got near their counters and finally police were called to straighten out the tangle.

School Daze

MUENSTER PUBLIC SCHOOL.

EDITED BY: LaVetta Martin, Billy Jean Pierce, Joan Roberg

Hi-folks! We are glad to be back supporting the School Daze after a litters vacation. In the future it shall be written by Mrs. Burchfield's class.

HAVE YOU HEARD?
About a ring which seems to be making progress here. It started in Nocona, and on its way to Muenster, stopped off at Saint Jo for a few weeks. The progress is mostly in the "freshman girls". We wonder how many fingers it has been on.

What is in Denison that attracts the boys. If there is any information, please give it to the girls of the Muenster Public School. There is a \$5.00 reward. Thanks!

Why Emmett likes the song "It's Love, Love, Love."
Why Lorine K. is falling in love with Frank Sinatra. Maybe she isn't the only one.

About Millie looking straight at the fence and then walking in to it.
About Pola? What a surprise it was to know after all the talk we heard, it turned out to be Betty's dog.

There is a joke on Billie. It seems she had a sore throat last week and she asked Joan what to do for it. Joan replied "How about a sharp knife?"

You Can't Look YOUR BEST— Unless Your Clothes Look Their Best.

HONOR LIST FOR THIS WEEK
"A" Students
Millie Yeakley, Ruth Ann Johnson, Mary Janell Kline, Pat Ezell, Kenneth Chapman, Margaret Koehler, Samantha Wilson, Anna Lee Mitchell, Jo Burchfield, Rawena Felder, Dwaayna Sue Kline, Sue Ann Teague.

"B" Students
LaVetta Martin, Dorothy Sicking, Harold Reeves, Murlin Joe Evans, Maynard Williams, Mary Alice Hollars, Jo Jones, Jack Henderson, Bobbie Robertson, Klough Edeken, Lorine Knabe, Dorothy Nell Fletcher.

Mrs. Burchfield's class had a picnic last Friday. We went to the field next to Felderhoff's place. We played baseball after having dinner. Everyone was trying to play and eat pickles at the same time. Lavetta ate a half bottle of dill pickles, now we know why she is so sour. After coming back we had a coke party at Jimmy's place.

Your Health

BY GEO. W. COX, M. D.

Sleep is a necessity of life and health, according to Dr. Geo. W. Cox, State Health Officer, and habitual loss of sleep will tend to retard the body's recovery from the fatigue of the day's activities.

"We may be able to go without sleep for a night or two, but too little sleep for a prolonged length of time will undermine the health of a rugged person and turn a cheerful individual into a cross-irritable one," Dr. Cox said. "When good health can be maintained to such a large degree by merely sleeping and thus allowing over-taxed bodies and minds to regain a proper balance, it is hard to understand why so many persons are heedless of this necessary requirement of a balanced program of life."

Some individuals need more sleep than others, the Doctor said, and the most valuable experiments in this line are the ones each person makes on himself. We must take into consideration in this experiment, however, that how well we sleep is as important as how long we sleep. A "good night's rest" means a sufficient number of hours spent in sleep to enable each individual to feel well, do efficient work, and keep in a cheerful humor the next day.

"Some exercise out of doors each day will help us to sleep soundly at night. We must also have fresh air in our sleeping quarters. Give as much consideration as possible to the comfort of your bed and bedclothing. Do not mull over your problems and ideas after you have gone to bed. Make your plans early in the evening for a good night's rest by slowing down from physical and mental work of your daily life. When you arise each morning rested and with a feeling of general well-being,

ing, you will be amply repaid for your thought in planning a good night's sleep."

Al Walterscheid Makes Machine Shop Repairs

A series of repairs and improvements have been completed at Al Walterscheid's Machine Shop, adding to the general appearance of the place and tending to make work more efficient and speedy. A concrete floor has been laid throughout the building, new

work benches have been installed, shelves built in and the inside repainted. All machinery has been repaired and repainted and Al says there's no job too large and none too small to be handled and every piece of work gets his own personal attention.

Our boys must keep on fighting—we must keep on buying WAR BONDS until victory is won. Keep on BACKING THE ATTACK.

COMPARATIVE PRICE TRENDS DURING TWO WORLD WARS

Source: U. S. Bureau of Labor Statistics. Indices for average living costs in typical American cities adjusted to 1913 basis. Copyright 1943—Public Utilities Reports, Inc.

Your electric service is still low in cost... still at its pre-war price! And this is certainly helpful these days, at a time when other items in the cost of living are skyrocketing! It is an interesting and comforting fact that, during the past 30 years... during two world wars and the years between... the cost of electricity has always been low, with a price trend downward, while the costs of clothing, household furnishings, food and rent have fluctuated widely and mainly upward.

THE COST OF ELECTRIC SERVICE HAS STAYED DOWN!

DOG TALES

by *Kellie*

ONLY in rare instances do we hear stories of animal father love. Here is a particularly appealing anecdote, submitted by Mrs. N. J. Rust, Bellingham, Wash.

Nip was a chocolate-colored cocker living in Washington State. After playing the gay dog, and flirting with the feminine eligibles on the block, he settled down with Skippy, a charming fox terrier down the street. In due time Skippy presented Nip with four lovely puppies.

Nip was very proud of his young family and trotted down to see them every day. Sometimes he stayed there for hours, apparently missing his meals at home. But his mistress noticed that Nip's food was disappearing regularly, and she began to suspect that other dogs were eating his meals which were placed on the back porch. Then she began feeding him in the kitchen.

One day Nip finished his meal and immediately scratched at the back door. Suddenly his mistress realized that Nip's chops were puffed out, and suspecting that he wanted to bury his food, she let him out into the yard. To her surprise he trotted purposefully away through the neighboring back yards.

Astonished, his mistress left the house and followed him. Her amazement grew as she watched Nip run up the back steps of Skippy's home. There on the porch were Skippy, the four pups, and Nip, dealing out the food which he had carried all the way in his mouth. As Nip's mistress approached, six tails wagged happily, and Nip looked up with a smile in his eyes which plainly said, "See what a good provider I am?"

No need to worry about puppies' food, even in wartime. Unrationed, nutritious dog food is available at your grocer's. Don't forget that young puppies should be fed 4 or 5 times daily.

Kellie will pay \$5.00 for every original true dog story accepted for publication. Send them to Grand Central Post Office, Box 429, New York City. Unaccepted manuscripts will not be returned. All manuscripts submitted will become Kellie's property.

KELLIE—his mark

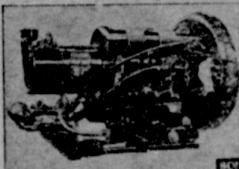

PLANE TALK

BY Rowland Earnstan

Aeroelectric Power For Modern Planes

Electricity and electronics are taking over the control problems of the modern airplane. This is particularly true of the larger aircraft such as bombers and commercial transports, but it will be applicable to every type of future plane.

The very nature of an airplane makes remote control a necessity. The operator cannot leave his seat to move out on the wings or back on the tail to adjust the control surfaces that will change the course of his flight. This has to be done from one central location. First mechanical means were employed. Later hydraulic mechanisms were introduced to add strength to the muscles of the pilot.

This Aeroelectric plant, weighing only 110 lbs., delivers 7 1/2 kw., which is equal to the normal requirements of ten ordinary houses.

The increased size of present aircraft has necessitated the use of the electronic control devices for instantaneous response and accuracy. As more electrical equipment is added, aeroelectric generator plants, designed to meet aircraft specifications, supply the power. They have the weight advantage over batteries and the ability to supply power over a long period of time.

This power is available continuously, and is delivered at a constant voltage. It has now reached a point where large planes carry an aeroelectric power unit whose primary purpose is to provide electric power for control mechanisms and in addition electricity for heating, cooking and refrigeration.

Lindsay News

Joe Rauschuber, local octogenarian, is improved this week following an illness.

Miss Gertrude Beyer of Garland and Andrew Beyer of this city had their tonsils removed last week and are getting along nicely.

Mr. and Mrs. Tony Voth and children spent Sunday in Muenster with her parents, Mr. and Mrs. Tony Trubenbach.

Pvt. Lambert Beyer has completed maneuvers in Louisiana and is now stationed at Fort Sam Houston, Texas, he has written his mother, Mrs. Adam Beyer.

Pfc. Paul Arendt, Jr., who went overseas recently, writes that he is stationed in England, that he is well, and to tell all his friends hello. The letter was written Mar. 22.

John Bengfort was returned to the school board here at the annual trustee election Saturday. Voting took place in the commun-

Mrs. Joe Hundt is slightly improved from an illness that has confined her to bed for the past two weeks. Her son-in-law and daughter, Mr. and Mrs. Al Hess and children of Muenster visited with her Sunday.

LINDSAY PARISH HAS TRADITIONAL SERVICES MARKING HOLY WEEK

Traditional services are marking the observance of Holy Week in Saint Peter's parish at Lindsay. Mass and ceremonies take place each morning at 8 o'clock with Pastor Father Conrad officiating.

On Good Friday, the period between 12 noon and 3 o'clock has been set aside for silent prayers and meditation, and at 8 o'clock in the evening will be held the last of the tenebrae services.

Solemn resurrection services will take place Saturday evening at 8, and on Easter Sunday masses will be at 8 and 10 a.m. The 10 o'clock high mass will be followed by Sacramental Benediction.

LINDSAY SCHOOL TATLER

JUNIORS TAKE OVER TATLER COLUMN

During the next six weeks the Juniors will take over the Tatler Column to give each Senior his and her pedigree. The membership of the Senior Class of 1944 numbers six: William Arend, Johnny Arendt, Leonard Bengfort, Hubert Neu, Alice Sandmann, Marcella Schmitz.

Introducing William Arend

If you were to come to Lindsay High School and see a stary eyed boy usually staring into space with a blank expression on his face and his mouth wide open you would probably then and there claim him as being sort of a nitwit — but he's not. When his mouth is closed you can see he has blue eyes with long lashes and very, very curly black hair. He weighs one hundred and fifty pounds and is five feet nine inches although he doesn't look it. He loves foot-ball, marbles and pool but says he's allergic to girls and

can't seem to find his voice when they talk to him. William doesn't like to study all the time but says when he is in the mood he finds algebra very interesting. He knows all about History. If you were to ask him: what were the causes of the Spanish-American War he could give you the remote and immediate causes of it. He likes Literature and reads everything ahead of everybody else and when we have them in class he has forgotten them already. He dislikes farming intensely and says when he is 18 he will join the Army Air Corps and learn to fly — if he passes the tests. William the Juniors wish you luck in anything you do, and know if you do learn to fly and go across, that you'll not be dreamy or stary eyed but, will have grim determination to finish what you started until the very end.

TRADITIONAL EASTER SOCIAL TO BE HELD ON TUESDAY THIS YEAR

A tradition of long standing in this community will be broken this year by the failure to observe Easter Monday with a social and dance. The affair is to be held on Tuesday instead.

Saint Anne's Society, the sponsor group, was unable to obtain an orchestra for Monday and so postponed the event one day.

The Doran Orchestra from Wichita Falls will furnish the music and while the dance is in progress on the main floor, card games, cold drinks and sandwiches will be featured in the basement.

Contrary to the general rule, there will be no bazaar attractions this year and the party is to be held only at night, the usual afternoon's entertainment having been dispensed with.

The society in charge predicts that, a gala time is in store for all on Tuesday night and an invitation is extended to all to attend.

SCHOLASTIC CENSUS SHOWS 376 CHILDREN

Muenster's scholastic census, completed during the weekend by Mrs. Joe Luke, shows a gain of six school children for the Muenster district over last year's count. The total number this year is 376.

FARMERS ASSURED OF PRICE SUPPORT PROGRAM BY AAA

Assurance to Cooke County farmers that they can go ahead with an all-out production program this year without fear of a collapse in prices was given this week by J.T. Biffle, Jr., chairman of the county A.A.A. committee, who reviewed price schedules which were made effective by Congress provision for carrying out the support price program.

A brief summary of the support program for principle farm products grown in Cooke County is given below. Complete information on methods to be used for supporting prices on the various commodities may be obtained at the County A.A.A. office or from community A.A.A. committeemen.

WHEAT Non-recourse loans at 85 percent of the parity price as of July 1, 1944 on wheat stored or in warehouses.

COTTON Non-recourse loans at 90 percent of the parity price as of August 1, 1944 on cotton stored on the farm or in warehouse.

PEANUTS The War Food Administration will be the only authorized buyer of 1944 crop peanuts and will enter contracts with shellers, crushers and producer cooperative associations under which they will agree to purchase peanuts from producers for the accounts of the Administration at \$160 per ton for Spanish, Virginia types and \$145 per ton for runner types.

HOGS The W.F.A. will support until September 30, 1944, the price on good to choice hogs weighing 200 to 270 pounds at \$13.75, Chicago basis, and from October 1, 1944 through March 31, 1945 hogs weighing 200 to 240 at \$12.50 Good to choice hogs weighing 270 to 330 pounds will be supported for a limited period at \$13.75 Chicago basis.

CITY'S FINANCIAL CONDITION IMPROVED; STREETS TO BE WORKED

The financial condition of the City of Muenster is improving. It was disclosed during a regular meeting of the city council Monday evening. Overdrafts in the general fund will be absorbed by the end of the year, it was stated.

Tar and gravel are on hand to repair main street and this work will be done as soon as the weather permits. Repairs and the making of permanent improvements on other city streets is a possibility of the near future, as an order is in for a black top mixture.

Other business during the session consisted of making a donation of \$100 from the city funds to the Muenster Youth Band to encourage this venture. One half of the amount is to be used for the instrument fund, and the other half for attendance prizes and entertainment. It was mentioned that the congregation will also make a contribution to the band.

McNelly, Schoech Are Aldermen As Result Of Quiet City Election

R.L. McNelly and I.A. Schoech went into office as city aldermen as the result of Tuesday's election. It was one of the quietest elections in the city's history.

Only the two names appeared on the ballot, only 17 persons voted, and not a ballot was marked. Schoech was reelected to position No. 2, and McNelly replaces Nick Miller for position No. 1.

Misses Olivia Stock and Dorothy Trachta were election judges.

Garden Club To Meet On Friday, April 14

"Staging the Flower Show" will be the topic discussed at the monthly meeting of the Civic League and Garden Club at its regular meeting next Friday, April 14. Mrs. Frank Kaiser, chairman, will announce plans for the affair. A hortiquiz on Easter will be

conducted by Mrs. Tony Gremminger and members are reminded to bring pencils to the meeting. Mrs. Jake Pagel will be in charge of the floral arrangements for the month.

A number of important business matters will be brought up for discussion and a full attendance is urged. The time is 3:15 and the place is the public school.

Saint Anne's Society Enrolls New Members

Saint Anne's Society held reception ceremonies for 9 new mem-

bers on the feast of the Assumption, March 25. Rev. Thomas Buegler, pastor, and spiritual director of the organization, officiated at the high mass and at the reception rites, which followed. New members are Mesdames Henry Wolf, Jr., E. P. Buckley, Al Schad, John Grewing, Buddy Reiter, Katy Roberg, Albert Stoffels, Joe Horn and Ted Gremminger.

At a business meeting of the organization, members completed plans for the Easter Tuesday social and elected Mrs. Alois Trubenbach secretary of the organization.
