Man of Strength

The kind of strength Texas and the nation need in the U. S. Senate must come from the heart of a man of great conviction and purpose, a broad knowledge of conditions in the world today, a dauntless courage and calmness under pressure from high places, and unquestioned dedication to our American constitutional government and the cause of freedom. Fortunately, Texas has such a man in the person of Robert Morris, who has announced he will seek election to the Senate.

In these critical times, the whole of our Texas and Amer-

ican heritage is in dire peril. The great issue before us all is whether we will survive as a nation under God and under freedom, or whether we will permit our spiritual foundation to be uprooted and our system of private enterprise destroyed. It is not enough that a man simply want an office — we as patriotic citizens must insist that he be able to bear the heavy responsibilities and perform the high duties of the office without tiring of the fight and giving in to pressure. It is required of all of us, therefore, that we look carefully and inquire diligently into the life and record of all candidates.

Robert Morris is a nationally known attorney and former president of the University of Dallas. He writes a nationally circulated weekly newspaper column and is the author of two books on American foreign policy, "No Wonder We Are Losing," and "Disarmament: Weapon of Conquest." In this connection, he recently wrote: "One of the issues of this senatorial campaign will involve the ill-advised policy of our State Department that proposes to strip our nation of

The Leaky Trough

her defenses by putting the military under United Nations Command."

A former chief counsel of the Senate Internal Security Subcommittee and a war veteran with numerous decorations, Morris has devoted most of his 49 years to many of the important political and ideological battles of our times. He was officer-in-charge of the Advance Section of Psychological Warfare for Admiral Chester W. Nimitz on Guam and Saipan, and earlier was officer-in-charge of the big Third Naval District's counter-intelligence unit opposing Soviet penetration of U. S. Defense strategy.

When the great national security battle of 1950 shattered U. S. complacency during the time of the Tidings Committee hearings, the Senate leadership chose Morris as counsel and he served Senators Bourke Hickenlooper and Henry Cabot Lodge on the Foreign Relations Committee where that security battle was launched. Sen. Pat McCarran of the Senate Judiciary Committee in 1951 asked Morris to lead the investigation of Communist penetration of the Institute of Pacific Relations and its influence upon State Department molders of U. S. policy toward China. Morris' effective interrogation of Owen Lattimore and several score of other witnesses contributed to disclosure of the Institute's activities.

When Sen. William Jenner in 1953 asked Morris to stay on as chief counsel, Morris became a leading figure in such important security hearings as the Harry Dexter White case. Morris in 1956 returned to the Senate Internal Security Subcommittee where he was known for his fairness and zealous protection of the civil liberties of witnesses. In 1958 he defended Hungarian escapees who had picketed the residence of the Soviet Ambassador to the United Nations and other Soviet outposts.

As a civil liberties attorney

for the past two years Robert Morris has defended individual citizens in our complex society. He has defended farmers who were fined and jailed by the federal government because they overplanted wheat on their farms, has represented persons who were denied counsel by authorities, and has been a defender of citizens who were sent to mental prisons without fair hearings.

The record of Robert Morris reveals his keen knowledge of the forces of freedom which have shaped our nation and his broad experience in effectively countering the godless foreign isms which threaten to weaken and destroy our way of life.

His convictions are admirable and strong. He stands four square for individual rights against governmental force. He stands unalterably for national sovereignty and independence of action against those who would surrender our rights and armed forces to international control with the overwhelming majority vote in foreign hands. He is a staunch advocate of national defensive strength second to none, and a veteran fighter of the internal and external forces which would change our way of life to the Marxist-Communist-Socialist pattern.

On the basis of our careful and thorough study of the life and work of Robert Morris, we have come to hold him in high regard for his ability, his courage, and his dedication to the God-Given freedom and way of life we here in Texas hold so dear.

Here is a Texan of whom all of us can be proud. Here is a man who will bring powerful new strength and support to the quality and vitality of our nation's purpose and will. We firmly believe Texans could make no wiser choice than to nominate Robert Morris in the forthcoming primaries and elect him next November to the U. S. Senate.

CIVIL RIGHTS BILL AND THE FAILURE OF PROHIBITION

There are those who believe that passage of the civil rights bill now in Congress will solve the racial trouble in the United States.

It was the belief that the liquor problem would be solved when the Prohibition Amendment became effective in January of 1920. After 13 years of unsuccessful effort by the federal government to enforce the law it was repealed in December 1933.

During the years that the sale of liquor was illegal the federal government was unable to enforce prohibition and violations became so common that the Congress and Legislatures of the states found that it was impossible of enforcement and it was repealed.

The proposed civil rights legislation probably would face the same fate. It is easier to enact an unpopular law than it is to enforce it, especially in those areas where there is serious opposition to such a law.

The Negro had been making progress in the nation and in the South until efforts began to force him on the people who wanted to be free to use their own judgment as to whom they would associate with.

To require certain businesses to employ a certain percentage of any race whether a sufficient number of workers of the type needed are available or not would reduce the effectiveness of that particular operation. Unions require those seeking to join some particular craft to put in a certain time as apprentices before they can become journeymen, but the proposed civil rights promoters want a certain number of employees whether they are capable of performing the work or not.

'64 Corvair Monza by Chevrolet

It's got a frisky new engine

'64 Corvair Monza Club Coupe

(that puts superior traction under you)

Some cars do best on the highway. Others seem tailor-made for city driving.

Then there's Corvair—that gets along just great most anywhere. Swishing along a highway. Scurrying around in traffic. Or wading through a soggy trail.

Take highway driving. Corvair's got a bigger new engine with horsepower up nearly 19% in the standard version. But in case figures don't impress you, just wait until you head a Corvair for some far-away places. You'll get the message.

Take city driving. Corvair's trim size, light steering (because the engine weight's in the rear)

and flat cornering make anything from rush-hour driving to parking a cinch.

Take back-road driving. The weight of Corvair's engine bearing down on the rear wheels gives them remarkable gripping power on most any surface, whether it's loose, solid, dry, wet—or even snow covered.

Something else you can take note of, too: There's no radiator to overheat or run dry. No hoses to check or replace. No need for antifreeze. The engine's air cooled.

Beginning to sound like a car you can really warm up to? Then there's only one thing left to take: a ride in one at your Chevrolet dealer's.

What will you do about 593 million times during your life, but think about it hardly at all? Breathe. Each breath, say medical equipment specialists of National Cylinder Gas, Chicago, ventilates your lungs, transferring oxygen from the air to your blood stream which carries it to cells throughout your body. Hospitals and doctors are placing greater emphasis than ever before on inhalation therapy since just a single failure in the breathing sequence described above causes death.

BEWITCHING TREE—This craggy arboreal fixture on the Pacific coastline near Carmel, Calif., has earned the nickname "witch tree" by dreamers who use its natural design as a springboard for their thoughts. The tree does present a bewitching sight, however, in contrast to its rocky surroundings. Sole figure on ground sets the mood.

Baseball Returns To Muenster High Athletic Program

Baseball is back on the athletic program of Muenster High School after an absence of several years. Coach James Polk said the Hornets will play in the regular district schedule even though they will have little if any time for practice. First attention of the boys is going to track, he said.

Games scheduled are with the other members of the district: Lindsay, Saint Jo, Era, Valley View and Callisburg. In track the Hornets have had their first action. They participated with Saint Jo and Decatur in a three way meet in Saint Jo, and Coach Polk was encouraged by the early showing of his boys. Dale Klement won the half mile, Tommy Swirczynski was second in the 100 and 220 dashes, Louis Hellman was third in the mile, Weldon Vogel tied for third and Roy Wimmer was fourth in the 100, and the Hornet sprint relay team ran second.

Another test with more rugged competition awaits the Hornets at Iowa Park Saturday. Entered there are about 25 schools of B, A and 2-A rating.

Still another meet in sight is the one coming soon at Gainesville. And Polk is expecting other competition before the district meet, which is the important event of the season.

Presentation of Charter Features Boy Scout Meeting

At Monday's meeting of Muenster Boy Scout troop, members had roll call inspection followed by presentation of a new charter.

Presenting the charter were Terry Smith, executive commissioner, and Wilfred Favors, executive adviser, both of Gainesville.

Present for the ceremony were 37 troop members, Scoutmaster Ed Schneider and the 13 local committeemen.

A social hour afterwards included refreshments. Scout Mothers Mmes. Ed Schneider, L. B. Bruns, W. J. Miller and Andy Schoech served coffee, hot chocolate and doughnuts.

Mr. and Mrs. Leo Felderhoff of Gainesville visited her brother and family, the Joe Pelzels, in Denton Sunday.

Record Number of Voters Predicted

Although the official compilation of poll tax payments and exemption certificates is not due from State Comptroller Robert Calvert until the first of April, many county tax assessor-collectors have stated they expect the number of qualified voters to exceed 1960's 2,594,000.

This prediction does not take into account registrations of those voters who cast ballots in federal races only. Registration for federal certificates seems to be going slow, but poll-tax registration also ran slow until the last week in January.

A statement by Pat O'Keefe, executive director of the State Democratic Committee, indicated that interest in voter registration seems lightest in rural areas.

Republican party officials have not hazarded a guess on the score, but are hoping to get 300,000 Texans to cast ballots in their May 2 primary. Total of 1962 GOP primary participants was 135,000.

Spirit Chills at First Practice of Tiger Baseball

Adam Wolf and his Sacred Heart Tigers have officially started their baseball season, but their enthusiasm is slowed down considerably by the weather. First practices last Monday and Tuesday were too cold for comfort, and Wednesday's session was cancelled for the same reason.

But the boys still have about two weeks to get ready for their first game. Wolf said Pilot Point will be here on the 10th and will host the Tigers on the 20th. Other games now on schedule are with Lindsay on April 10 and 14 and a double header with St. John's of Ennis here on April 26. Other games are promised but dates are not set, says Wolf.

Team membership this season will include practically all of last year's starters. Francis Fuhrmann is back as pitcher and showing lots of improvement. Also Willie Wimmer and Leon Endres have nice prospects as rookie pitchers. Other positions on the first string will likely be held down by Quentin Hess, Dan

Hoenig, David Hess, Dale Bayer, David Bayer, Dennis Hess, Tony Schmitt and Melvin Koelzer.

Reserves are Danny Wilde, Sammy Endres, Dale Hofbauer, Dwayne Pagel, Joe Bayer, Ted Endres, Ray Stewart and Douglas Martin.

Game Party Will Benefit County's Crippled Children

All who enjoy table games will be interested in a game party to be sponsored by the Opti-Mrs. Club of Gainesville on Saturday this week, Feb. 29, at Gainesville Community Center starting at 7:30 p.m.

It will be a benefit for Cooke County Society for Crippled Children and Adults. Tickets are available in advance from the Charm Shop in Muenster and from Gainesville business places. Tickets may also be purchased at the door on the night of the party.

Admission of \$1.50 includes a full night of play, valuable prizes for winners and refreshments. There will also be a door prize. Muenster and Gainesville merchants are providing the prizes.

Sponsors of the benefit emphasize that all of the money from the game party stays in the county to benefit directly Cooke County handicapped children and adults. They also point out that 77 per cent of the fund drive which starts March 2 remains in Cooke County.

Everyone is against poverty, but we have learned through many social experiments that subsidizing laziness is not a cure.

WHEAT PROFIT

Each 80 pound bag of **JOHN DEERE 45** contains 36 pounds of solid nitrogen. That's 36 pounds of profit-power for your wheat. No wonder wheat farmers like to top-dress with 45! You store 1/3 less bags . . . You carry 1/3 less bags . . . cover 1/3 more acres. The extra "N" in **JOHN DEERE 45** means more work saved, more money saved . . . more profit for you. **JOHN DEERE 45** is non-corrosive . . . won't harm expensive equipment. **JOHN DEERE 45** is non-leaching . . . it stays put! And, it dissolves fast, even in dew, and gets right down to the root zone.

TOP-DRESSING WITH **JOHN DEERE 45** IS A MOVE TO MORE WHEAT PROFIT. GET ALL THE FACTS FROM YOUR LOCAL JOHN DEERE FERTILIZER DEALER . . . HE'S A NEIGHBOR.

It's the four-mile loop in Gillespie County leading from U. S. 290 to the ranch home of President Lyndon Johnson. Lost Purse Comes Home by Mail

People are honest. At least some of them are and Mrs. Julius Hess will vouch for it. While in Fort Worth a week ago she lost her purse but didn't miss it. Thinks it must have dropped out of the car. She was surprised when the handbag was returned to her by mail. Nothing was missing. Money, driver's license, credit cards, etc. were all there.

The finder in Fort Worth dropped the purse in a mail box. The post office there wrapped it and mailed it to Lindsay Postmaster Ewald Hoelker, who had to open the package to see what it was. He delivered it to Mrs. Hess, postage free.
