

WIDER RANGE OF 250 EXPECTED AT INSTITUTE

Two hundred and fifty teachers of Brownwood city schools and of Brown county schools and visitors are expected to be present for registration at the opening of the Brownwood-Brown County Teachers Institute which opens at the Brownwood High School at 8:30 o'clock tomorrow morning, Friday, September 5th, according to J. J. Woodward, superintendent of the Brownwood city schools, who has charge of the program for the meeting. Over one hundred city school teachers are expected, about one hundred and forty county school teachers and several visitors are expected.

The institute opens Friday morning at 8:30 o'clock and will continue until 2:30 o'clock Saturday afternoon. An extensive program covering nearly all phases of school work has been completed with some of Texas' most prominent educators scheduled to talk.

Two general assemblies will be held daily with music furnished by the fine arts departments of Howard Payne and Daniel Baker colleges and Brownwood High School Glee Club. Devotional services will be conducted at these assemblies. Addresses by some of the prominent speakers are also to be heard during these general meetings.

Sectional meetings will be held during the two days meeting. Elementary section, Mrs. W. L. Turner, chairman, and High School section, C. F. Wesner, chairman, will be held for the teachers taking the different classes of work. Appropriate talks and addresses are scheduled for each sectional meeting, states Mr. Woodward.

Mr. Woodward says that he is well pleased with the scheduled program and that word from most of the speakers state that they will be present for the opening of the meeting has been received.

Following the closing of the institute, Mr. Woodward will preside at a special faculty meeting for Brownwood schools at the Junior High School building. J. Oscar Swindie, county superintendent, will preside at a special meeting for members of faculties of Brown county schools in the High School auditorium.

U. S. NAVAL ACADEMY STUDENT ON VISIT BROWNWOOD PARENTS

Vernon C. Turner, son of Mr. and Mrs. W. L. Turner, is home on a three weeks vacation from Annapolis where he has been a student in the United States Naval Academy the past year. Mr. Turner will return to Annapolis this month to resume his work.

During the months of June, July and August, Mr. Turner was away on a Northern European tour. This tour was made on three U. S. battleships, the Florida, Arkansas and Utah, and about 900 midshipmen from the Naval Academy served as crew. The tour included stops in France, a trip to Paris, at Kiel, Germany with trips to Berlin and Hamburg, a stop at Oslo, Norway and at Edinburgh, Scotland with trips to London and other English cities.

4-H Club Members To Hold Meeting Saturday Morning

Brown county 4-H club members will hold their regular monthly meeting at the court house at 9:30 o'clock Saturday morning, September 6.

The meeting was not held last month on account of the short course and there is no prepared program for the meeting Saturday. It is thought that plans for the coming year will be discussed and various phases of club work will be discussed.

Cotton Arriving At Texas City

TEXAS CITY, Texas, Sept. 4.—(AP)—First of the season's cotton has begun arriving here for storage in the warehouses of the Texas City Terminal Railway Company, pending export shipment later in the season.

Some of the cotton was being handled here by truck but the greater part of it by rail. Export shipments may begin during September or the first of October.

D. B. C. DORMITORY IN SPLENDID CONDITION FOR COMING SESSION

Under the direction of the Daniel Baker Auxiliary the Daniel Baker dormitory for girls is being refurnished, rearranged and put in splendid condition. The ladies have a group of young men, who will attend school, at work both on the building and on the grounds and everything will be in excellent shape for the opening of the school.

The dormitory is equipped to house forty people and is a splendid building, containing dining room with seating capacity for sixty, and bedrooms all with running water in each room. All floors and woodwork at the dormitory is being refinished, the walls redecorated and the entire building thoroughly cleaned and furnished.

Mrs. H. I. Hunter, the newly employed matron and social director, is here and is rapidly getting everything into shape for the opening of school. A new dietitian will be in charge of the preparation of food and all dining room help has been arranged for, it is stated.

"In all, the dormitory is a splendid place for young ladies to live," said a member of the Daniel Baker board today, "and the board of trustees believe they have secured as matron a very competent person to look after the girls and to see that they have the right foods and the best of attention."

A well equipped hospital ward has been fitted up and the parents' guest apartment put in splendid order.

The visiting committee from the ladies auxiliary will keep in touch with the affairs of the dormitory during the year, it is announced, and have pledged to Mrs. Hunter their support in all matters where they can be of assistance to her.

Dr. Chandler, Daniel Baker president, will have all posted rules governing the dormitory girls ready when school opens and the registrar, Miss Craig, is now enrolling for the first term. As a whole prospects for the coming year are much brighter, is the word that comes from the school.

THIRD OF INCH OF RAIN HERE

One-third of an inch of rain fell in Brownwood this morning, starting at 12:30 o'clock and continuing until 1:45 o'clock. This was the first shower in Brownwood since August 23 when six one-hundredths of an inch rain was received. Records show that there has not been an inch rain in Brownwood since June 5, ninety-one days ago, when one and two-fifths inch fell. The largest rain since then was a sixty-one one-hundredths inch here on June 18. The largest rain of the spring and summer was an almost two inch rain falling here on May 19.

Farmers say that the rain today, although small, will help in adding moisture to the land so that they can start breaking for next year's crop. The amount of land breaking has been small as yet because the ground has been too dry to break, they say. When a good rain is received farmers of the county intend to break their land and get it in readiness for planting and sowing.

The rain will be of some benefit in reviving the grass for fall pasturage and will in some cases help the water supply in parts of the county.

Bangs reports a good shower, and Comanche, Banger and Mullin report light showers of rain to the Southwest State Telephone Company this afternoon. Reports from other towns said that no rain had been received, but prospects of rain were good.

Arm Is Fractured In Cranking Car

David Jones, Jr., son of Mr. and Mrs. D. A. Jones who live about seven miles from Brownwood on the Brockton road, sustained the fracture of both bones of his right arm above the wrist at 1:30 o'clock Wednesday afternoon when he was cranking an automobile. The engine back-fired and the crank was pulled from his hand and struck him on the wrist.

Local doctors dressed and set the arm and the boy is reported as resting nicely at his home today.

Troop 5 to Meet Friday Evening

The Bulletin has received the following announcement:

A very important meeting will be held tomorrow, Friday, night, by Troop 5 of the Boy Scouts. This meeting is for the discussion of the proposed changing of the troop of a Sea Scout troop. The meeting will be held in the basement of the First Presbyterian Church, at 7:00 o'clock. All members are urged to be there and all boys interested in Sea Scouting.

LEE, Scriber.

STATE FIRE LOSS

AUSTIN, Texas, Sept. 4.—(AP)—"Estimate-making" was the largest financial cause of the losses in Texas during July, which totaled \$1,000,000, according to a statement by J. W. DeWitt, state fire marshal, said today.

FINE PROGRESS BEING MADE AT SITE OF LAKE

Construction work at the dam site of the proposed Lake Brownwood is progressing rapidly and all preliminary work prior to the letting of a contract will be completed in the near future. The construction of a six-wire fence around the property which is to be used by the district has been completed and the grading along the road right-of-way has also been finished. The building of the road from the Cross Cut road to the damsite is finished and other roads around the property, including the dam, the spillway, the canals and other places are ready for traffic.

Engineers are now able to cover the entire territory in automobiles and are doing much topography work at the site.

The drilling of the test holes along the apex of the dam is progressing rapidly and many of the holes are already completed. There will be a total of more than 20 holes drilled into the river bed and into the site for the spillway. The drilling is being done by Jack Williams.

The holes are being drilled about 40 or 50 feet into the shale and at intervals the samples are taken from the hole and placed in containers for the use of the contractors.

Makes Ideal Base
D. W. Ross, engineer for the work, said that the bed of the stream is directly on the shale and that it extends to a depth of more than 50 feet into the ground. The shale is hard and firm and makes an ideal base for the dam. The drilling in the river bed will soon be completed and the drill then moved to the spillway site.

The following article, taken from the "Daily Construction Bulletin," published by the Manufacturers Record explains the requirements for the construction work. These bulletins are published daily and mailed to contractors in all sections of the country. Several engineering companies have had representatives here recently inspecting the dam site and making rough estimates, as to the price which they might make for the construction. Mr. Ross said that he had received many inquiries by mail asking for data on the project and seeking information as to the time of the letting of the contract.

Article follows:
Tex., Brownwood—Brown County Water Improvement Dist. No. 1, D. W. Ross, Engr., plans receiving bids within 60 days for dam 8 miles above city to provide water for city and for industrial and irrigation purposes. 770,000 cu. yd. semi-hydraulic fill, canals to be taken from spillway which will have channel 450 ft. wide at bottom, with maximum depth of 45 ft., dam to be 1600 ft. long on top and 85 ft. average height; place 26,000 cu. yd. rip rap with gravel blanket on upper face of dam and loose rock fill containing about 4000 cu. yd. concrete to be deposited on lower toe part of drainage system; approximately 20,000 cu. yd. earth to be excavated for cut-off trench on axis of dam and 21,000 sq. ft. steel sheet piling will be driven in same; place two 12-ft. diameter conduits with self-closing gates in base of dam, conduits to gather with gate wells and gate house to involve placing about 6,000 cu. yd. concrete, mostly heavily reinforced; structure containing about 2500 cu. yd. mass concrete to be placed near lower end of open spillway channel; reservoir basin to have capacity of 125,000 acre ft. at spillway level; water to be contained in concrete lined canal 11.5 miles long to furnish city and to irrigate about 12,000 acres; \$2,500,000 available; R. A. Thompson Consult. Engineer, Dallas.

Effort To End Indian Troubles Complete Failure

BOMBAY, Sept. 4.—(AP)—Peace negotiations in India between the government and the civil disobedience leaders, including Mahatma Gandhi and the Nehrus, officially broke down today.

Sir Tej Bahadur Sapru and M. Jayakar have been trying to compromise the difficulties between the British government and the nationalist leaders in India. They paid several visits to Mahatma Gandhi and the Nehrus and their prisons.

NEW BRIDGE IN ARKANSAS IS DYNAMITED

GARLAND CITY, Ark., Sept. 3.—(AP)—Three blasts caused by nitroglycerine about 3:15 a. m. today wrecked the middle steel span of the new \$500,000 state highway bridge under construction over Red River here and damaged other spans so that they must be rebuilt. The blasts were heard for a radius of about 25 miles and shattered throughout Garland City. No one was reported injured.

One charge was set off on the Lafayette county side and two on the Miller county end of the middle span causing it to crash into the river.

A ferry which has been used for years at this point was also damaged by the blasts, thus severing highway communication between Texas and Arkansas and interrupting the highway to Greenville and Victoria.

Mr. Spence, who was in the miller county end of the bridge, said that he was not hurt, but that he was badly shaken.

ARMY TO CONTINUE PROBE, AVERS

CHICAGO, Sept. 4.—(AP)—Senator Gerald P. Nye's answer to the challenge of Congressman Ruth Hanna McCormick: "What are you going to do about my employment of detectives to investigate you and the United States Senate investigating committee?" is that he is going to keep right on investigating.

"The committee," said the North Dakota Senator in a statement last night, "will not be diverted from its clearly defined duty by any smoke screen laid down through a will to threaten, intimidate and influence."

The Senator said he had been amazed to read the statement of this candidate in which guilt of employment (of detectives) was admitted.

Senator Nye and Porter H. Dale of Vermont, the two committee members who have been hearing witnesses here the past two days, adjourned sessions late yesterday night Sept. 3, at which time the other committee members are expected to be in session tomorrow.

STORM DAMAGE

PIRELLVILLE, Tex., Sept. 4.—(AP)—Considerable damage was done by a small tropical storm which struck this community late Wednesday. Several houses were uninhabited, trees were uprooted and crops were badly beaten.

Brownwood Boy Is Fatally Shot While Hunting

D. J. Butler, 18, was accidentally shot and killed this morning about 14 miles from Brownwood, while dove hunting. The accident occurred at about 9:40.

H. M. Nixon, an employe of the Sunbeam Creamery, was with Butler at the time of the tragedy. The two left Brownwood early this morning to hunt doves and were near Owens, 16 miles north of Brownwood, when they saw two doves sitting in a tree at the roadside. Nixon, who was driving, stopped the coupe in which they were riding and Butler took their two guns from behind the seat of the automobile.

As the guns were dragged from the automobile by Butler the muzzles of the two twelve gauge double barreled shotguns were pointed toward him and both were discharged. The two barrels of one gun shot into the ground without doing any damage either to the man or to the automobile. Both barrels of the other gun took effect in Butler's body, tearing a hole more than three inches in diameter in the stomach of the youth. The two shots entered the left side just below the ribs and into his stomach. He died almost instantly.

Butler was an employe of the Blackwell Service Station at the corner of Chandler and Park streets, working there and going to school. He was a student in Daniel Baker college, entering that institution last fall and continuing his studies during the summer term. He was a member of the freshman football team last year and was a prospect for the 1930 football season.

Butler came here from Weatherford where he had lived in the Pythian Home, and where one of his brothers is an official. He was being aided in school by the local Knights of Pythias lodge. He is survived by several brothers and sisters and his mother, Mrs. Neal, who lives at Corsicana.

This is the first hunting fatality of the season in Brown county since the opening of dove season Monday. An ambulance from the McInnis Funeral Home went to the scene last night and the remains of the boy were brought to the city and placed in a casket for burial.

BROWN COUNTY PIONEER LIVES IN SAME COMMUNITY HALF CENTURY

BY W. R. CHAMBERS
John W. Spence was born in Tennessee, August 31st, 1845, the second son of a family of seven children. He came to May, Brown county, Texas, in 1874, and has lived here since.

On January 4th, 1880, he was married to Miss Almira Lester. He now lives within one-half mile of where he was married. One of the very early schools of Brown county was taught by him, this school being taught in 1875. The log house in which the school was taught was located on Hog creek, not far from where Dr. J. F. McGee now lives.

Mr. Spence was a Confederate soldier, Captain Webb and Colonel Palmer being his commanders. He was taken prisoner at the fall of Fort Donalson and remained a prisoner until the exchange at Vicksburg, so far as can be learned, he is the last survivor of his company.

In the early days of Brown county, Mr. Spence did his full part, and more, in law enforcement. His service on grand and petit juries has been extensive, and highly commendable.

Personally, Mr. Spence has never been a party to a law suit of any kind. His first vote was cast in Brown county, in 1876, when he voted for the adoption of our present state Constitution. From that day to this he has never failed to cast his ballot in every election, and for the best interest of his county as he saw it. He is, and has always been, in theory and practice, a prohibitionist. In politics he is a Democrat and like most men of his generation he believes in the policy, both public and private, of "pay as you go." In his private life he has rigorously observed this policy. In school matters, he has been the most liberal contributor in this part of the county. In every public enterprise in this community he has done his full part. In building the churches in his community he was the heaviest contributor.

As road overseer in 1880 Mr. Spence opened up the road from San curver north through May, part of his survey now being Highway No. 149. He helped to bury the first person, Bob Taylor, in the West Valley cemetery. Taylor is thought a pioneer of the grave and the first buried here.

Mr. Spence, now 85 years of age, is still a hale and hearty man.

CHICKENS GO TO BED IN SAN ANGELO, WAKE UP IN BROWNWOOD

A Brownwood piano dealer has a chicken story to tell that would be more appropriate for Ripley's "Believe It or Not" column than for the columns devoted to the chronicling of "spot" news. But be that as it may, his story is retold here.

It seems that this dealer had taken in a truck as part payment on a piano he sold Friday near San Angelo. Following the transaction, this piano dealer started to Brownwood early Friday night with the truck. Closely following the dealer was an assistant in the dealer's car.

The Brownwood-bound pair were making fairly good progress on their homeward trek when the driver of the dealer's car noticed something moving underneath the truck. He pulled up beside the truck and told the driver to stop and upon investigation the two found that perched underneath the truck were nine chickens. These fowls had evidently gone to roost under the truck and had managed to stay with their Pullman berths.

The chickens were taken from under the truck and given a better place to roost inside the truck bed. The journey continued without mishap but when the piano dealer reached Brownwood early this morning, he found that he had only three of the nine chickens, a half dozen having forsaken their moving bedroom for better or for worse. And one of these three went A. W. O. L. after arriving in Brownwood.

Oh well, two chickens are better than no chickens at all.

YOUTH KILLED
SWEETWATER, Tex., Sept. 4.—(AP)—Public funds were being raised here today to send to his mother the body of Sylvester Mitten, twenty-year-old youth of McAlester, Okla., who fell to his death under the wheels of an oil tank car in the Texas & Pacific freight yards here Wednesday afternoon.

Last night's reports gave the victim's name as T. J. Kilgore, but a message from his mother, Mrs. T. J. Kilgore, from McAlester, said he was Sylvester Mitten. She wired she did not have funds for sending her son's body home.

JURY PLACES BAUGH LANDS AT \$42,460

A total amount of \$42,460 was awarded George Baugh by a jury of county court today as damages to more than 800 acres of land in the reservoir site at the proposed water conservation project north of Brownwood. The jury received the case at about 4 o'clock Wednesday afternoon and their verdict was returned just before the noon recess today.

A total of \$41,315 was awarded as damages to 824 acres of land below spillway level and in the reservoir itself, or an average of slightly over \$50 per acre. A total of \$600 was awarded for 30 acres which was in another tract of land and which will be divided by the reservoir, this amount averages \$20 per acre, the remaining \$454 was awarded as minor damages to other parts of the property.

The special commission appointed by Judge E. M. Davis to investigate and fix prices on all the land returned a total amount of damages which was \$26,048 for 424 acres, 255 of which is in cultivation.

The trial of the case of Brown County Water Improvement District No. 1 vs. S. P. McInnis et al was started this morning and taking testimony was progressing after the lunch recess today. This is the seventh of the series of eight trials scheduled in county court and an attempt is being made to complete it by noon Friday or by Friday afternoon at any case so that trial of J. C. Tunstall for violation of the Sunday law may be started either Friday afternoon or Saturday morning.

SENATOR NYE TO CONTINUE PROBE, AVERS

WASHINGTON, Sept. 4.—(AP)—The early resignation of Edmund Platt as vice governor of the Federal Reserve Board is expected by the administration and Eugene Meyer of New York will be appointed by President Hoover as governor of the board.

The recent resignation of Roy A. Young left the governorship of the board vacant. President Hoover has been unable to name Mr. Meyer in his place because Mr. Platt represents the board from the New York district.

Administration officials were revealed today as understanding that Mr. Platt has about decided to accept a position in the business world. This would clear the way for appointment of Mr. Meyer, who served for years as chairman of the war finance corporation and later was commissioner of the Federal Farm Loan Board.

The resignation of Mr. Platt would leave two vacancies on the board. With Meyer assuming the chairmanship, the other appointed would have to come from the Minneapolis district, which had been represented by Young.

The Federal Reserve act stipulates that no more than one member of the Federal Reserve Board shall be from the same Federal Reserve district.

FOOTBALL IS UNDER WAY AT BROWNWOOD HS

Brownwood High School athletics are under the personal supervision of J. T. (Dutch) Woodward, athletic director, head football and track coach the past two years. Coach Woodward is assisted this year, as last, by L. C. (Chill) Adams, who serves as assistant grid mentor and head basketball coach.

The 1930 football season has already begun at Brownwood High School, that is the annual practice grid has been launched. The 1930 grid squad reported to Coaches Woodward and Adams Monday, August 25. The opening practice game of the current season will be played Friday, Sept. 12 when the Lions meet Santa Anna High School in Brownwood.

The Lions of 1930 face one of the toughest schedules ever attempted by a Brownwood High School team. Nine games will be played with members of the oil belt, the toughest football district in Texas or any other state. A district that annually boasts three or four teams that might easily annex the state title were they able to copy their own district title.

Brownwood High School athletics are handicapped by lack of football field suitable for staging home games, all of which makes it necessary for the Lions to play their Brownwood games at Daniel Baker or Howard Payne. Likewise, the Lions do not have a suitable basketball court for this sport, nor do they have a field suitable for track purposes.

EXPECT SUNDAY SHOW TRIAL TO BE HEARD IN COUNTY COURT FRIDAY

County Attorney T. C. Wilkinson, Jr., said this morning that in all probability the trial of J. C. Tunstall, on charge of violation of the Sunday law on August 24, would be held in county court Friday afternoon. Judge E. M. Davis stated that he believed that the water trials now before the court would be completed by that time and that it would be possible to bring the motion picture trial before his court. A jury has already been called for the week and part of them are now on the water trials so this detail will be out of the way before the calling of the trial.

The coming trial in county court is regarded in some measure as a test case and is of much interest in that respect. The reason given for this is that the past trials in city and justice court which have been appealed to the county court will be awaiting a hearing. The ruling of the court on the present trial will greatly affect the future trial of the Sunday law violation cases. It was stated.

The coming trial will start Friday afternoon and either be completed that afternoon or Saturday, it is thought at present. The date of the trial is still tentative and will not be definite until disposition of the water cases develops further.

MOODY TO HOLD DROUGHT AID CONFAB

AUSTIN, Sept. 4.—(AP)—Feasibility of a proposed trip to Washington to ask for federal aid for drought areas in Texas will be discussed here tomorrow at a conference of O. B. Martin, director of the extension department of A. and M. college, D. A. Barden, manager of the West Texas Chamber of Commerce, with Governor Dan Moody, the governor said today.

The governor reiterated his previous statement that in his opinion the only hope Texas had of getting federal aid was through cooperatives organized under the Federal Farm Board. He pointed out again that no appropriation had been made which was available for the purpose of drought relief.

Railroad rate reductions which Martin and Barden were scheduled to ask of the railroad commission, according to advices from Quannah, were granted here yesterday by the commission, although less than the rates asked by the drought committee.

E. MEYER WILL HEAD FEDERAL RESERVE BOARD

GALVESTON, Tex., Sept. 4.—(AP)—The Farmers Marketing Association of Dallas has selected Galveston for one of its chief concentration points for cotton, M. H. Wolfe, general manager of the association, announced here yesterday. He said he had completed arrangements for storage of cotton belonging to members of the association and for credit facilities.

4 ADDRESSES BY HOOVER OF GREAT IMPORT

WASHINGTON, Sept. 4.—(AP)—Viewed generally as the opening of President Hoover's campaign for return of his party to power in congress in the fall and his own re-election two years hence, his acceptance of invitations to make four addresses early in October was widely speculated upon today in the capital.

Marking as it does a sharp departure from the policy followed by his predecessor in which the program of four major speeches in six days, which was announced late yesterday also will be one of the most ambitious efforts of Mr. Hoover upon the platform.

Not only will the quartet of addresses take him to three widely separated states, but it will permit him to gain contact with the people of several others as he passes through. Also the speeches will take the Chief Executive before three of the most powerful civil groups in the nation.

It has been generally accepted that all of his addresses are to be appropriate to the occasion which might mean that before the American Bankers' Association at Cleveland on October 2 he would talk on finance and business, and before the American Federation of Labor in Boston on the afternoon of October 3 he would discuss unemployment. These two invitations were the latest accepted.

Both would give him an excellent opportunity. A held today in political circles, of "selling" his administration in a way that would not be inappropriate for a president.

WASHINGTON, Sept. 4.—(AP)—The early resignation of Edmund Platt as vice governor of the Federal Reserve Board is expected by the administration and Eugene Meyer of New York will be appointed by President Hoover as governor of the board.

The recent resignation of Roy A. Young left the governorship of the board vacant. President Hoover has been unable to name Mr. Meyer in his place because Mr. Platt represents the board from the New York district.

Administration officials were revealed today as understanding that Mr. Platt has about decided to accept a position in the business world. This would clear the way for appointment of Mr. Meyer, who served for years as chairman of the war finance corporation and later was commissioner of the Federal Farm Loan Board.

The resignation of Mr. Platt would leave two vacancies on the board. With Meyer assuming the chairmanship, the other appointed would have to come from the Minneapolis district, which had been represented by Young.

The Federal Reserve act stipulates that no more than one member of the Federal Reserve Board shall be from the same Federal Reserve district.

GRIFFIN TALKS WITH FARMERS ON PROBLEMS

Forty farmers of the Brooksmith community, representing about thirty farms in that district, met at the school house at Brooksmith Monday night to hear explanations on the nature of the Texas Cotton Cooperative Association and to discuss the question of drought relief according to O. P. Griffin, county farm agent, who attended the meeting. C. S. Thaxton, representative of Mistletoe Creameries, accompanied Mr. Griffin to the meeting and told of the new plans of his company.

Mr. Griffin told the farmers about the Texas Cotton Cooperative Association, giving information on how the organization works how the cotton is shipped, the advance made to farmers when they turn the cotton over to the association and how the cotton is graded.

Mr. Thaxton in talking of the creamery business said that the new plan of the company was for the farmers to ship the products direct to the plant instead of through the creamery stations.

L. A. Nunn, president Brown county Farmers' Association, made a short talk on conditions in the community.

The question of drought relief was discussed by those present, and Mr. Griffin reports that the majority of farmers thought that something should be done and if federal relief would relieve the situation it should be asked by the county. According to Mr. Griffin the farmers said at the meeting that no more credit can be received by the farmers from the banks and that many of them do not have enough money to make another crop and some relief must be had. They think that if federal relief will help them to continue that they should have it.

Many Must Buy Feed

Out of the thirty farms represented only six reported that they had enough feed to last through the year and the other twenty-four will have to buy more or less feed to make another crop. This existing situation farmers think, calls for relief of some kind. The majority of the farmers do not want to ask for relief unless it is absolutely necessary, but are willing to ask

it in order to get money to last while another crop is planted and harvested.

In discussing seed for another crop, Mr. Griffin urged that all who had seed save them for planting instead of selling them for a low price. He said that farmers who have good seed should plant them for another crop instead of selling them now and buying more seed later. He stressed the fact of the mistaken idea on whether seed were good or not. Mr. Griffin declared that seed taken from cotton where the yield was small was often better than when the small yield was large. The seed from the small yield per acre can be graded and the defective seed removed and is often of very good variety. Many people he says, think that the seed are not good if they are taken from a small yield but this is contrary to facts and the farmers will save money if they will have their seed graded and save them to plant next year. He further stated that the majority of cotton in the Brooksmith community is of a very good variety and adapted to that section and the seed should be saved and planted next year.

Pleased With Interest

Mr. Griffin said that he was very well pleased with the interest that the farmers took in the meeting and the number that attended. He said that the meeting showed that the farmers were interested in helping to relieve the situation and cooperate with each other in getting through the present period of depression.

Meetings are to be held at Salt Branch tonight and at Mount Zion Wednesday night. Mr. Griffin urges all the farmers of the communities to attend.

Gas Forces Water Over Derrick At Well Near Bangs

The Windsor Cunningham and Jackson well which is being drilled south of Bangs made a flow of water Tuesday afternoon, according to reports today. The well has been causing quite a bit of interest among the oil men here for several days, it is said. Oil showings have been found at several different depths and a large amount of gas. When the water was struck yesterday the gas blew it over the derrick for several minutes.

The well is still drilling and the sand is about fifty feet below where the water was struck, it is said.

FABULATION OF VOTE IS MADE BY COMMITTEE

The official tabulation of the votes from the 30 boxes in Brown County was made Saturday afternoon at 2 o'clock by the Brown County Democratic Executive committee. The tabulations of each election judge were checked to find any errors which might exist. The official check of the ballots showing the state and district winners will be forwarded to the state executive committee and the county returns given to the county election board for the permanent record. T. H. Taylor, county chairman, said that there were only a few changes from the unofficial reports issued immediately following the election last Saturday.

The official count of both state and county offices is given below with a comparative figure of unofficial returns in all county offices.

The official returns:

For Governor:
R. S. Sterling of Harris County 3314

Miriam A. Ferguson of Travis County 2428

For Lieutenant Governor:
Edgar Witt of McLennan County 2994

Sterling P. Strong of Dallas County 2271

For Attorney General:
Robert Lee Bobbitt of Webb County 1924

James V. Alford of Wichita County 3453

For State Treasurer:
John E. Davis of Dallas County received 1731

Charley Lockhart of Travis County received 3463

For Commissioner of Agriculture:
J. E. McDonald of Ellis County 2811

A. H. King of Throckmorton County 2263

For State Railroad Commissioner:
Pat M. Neff of McLennan County 3224

W. Gregory Hatcher of Dallas County 2137

For County Judge: Courtney Gray received 2947 votes and was nominated. W. A. Butler received 2848 votes. The unofficial returns tabulated by The Bulletin on election night gave Gray 2953 votes and Butler 2838 votes.

For District Clerk: Allen D. Forsythe received 3473 votes and was nominated; Mrs. Neva Ashmore received 2284 votes. The unofficial returns as given by The Bulletin gave Forsythe the 3454 votes and Mrs. Ashmore 2289 votes.

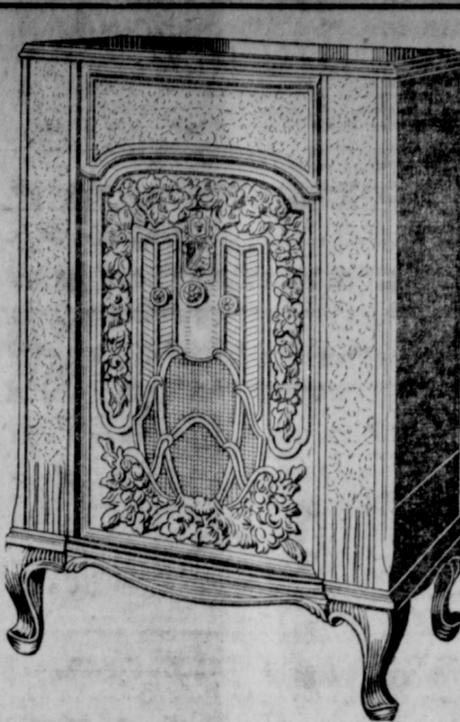

For Tax Assessor: Mrs. J. L. Karr received 3232 votes and was nominated. Tom E. Hill received 2557 votes. The unofficial returns of The Bulletin gave Mrs. Karr 3277 votes and Mr. Hill 2594 votes.

For County Treasurer: I. C. Mullins received 3178 votes and was nominated. J. B. Lewis received 2472 votes. The Bulletin unofficial returns showed Mullins' votes as 3173 and for Lewis, 2469.

For Commissioner, Precinct Two: James W. Phillips received 774 votes and was nominated. C. D. Morrison received 639 votes. The Bulletin's reports showed Phillips to receive 767 votes and Morrison 633 votes.

Commissioner, Precinct Three: L. F. Bird received 972 votes and was nominated. W. F. Timmins received 651 votes. The Bulletin's unofficial reports were the same as the official tabulation.

For Commissioner, Precinct Four: W. M. Medical received 738 votes and was nominated. Chas. B. Palmer received 716 votes. The unofficial returns given by The Bulletin were the same.

Alamo ICE CREAM

"None Better"

We use products produced in Brown County, thereby establishing a market for the Farmers.

Alamo Ice Cream, made in all popular flavors.

ART KID DULA BEATS BERNAL

According to a telegram received Wednesday morning by Frank Dula from his brother, Art (Kid) Dula, the Kid stepped out Tuesday night and stopped Kid Bernal of San Antonio in the second round of their scheduled eight round glove slinging exhibition. It was a good fight while it lasted but Dula was too much for the San Antonio battler.

Dula plans on spending the weekend in Brownwood and while here will likely come to some agreement with Skinny Hood and Taylor McGarrity in regards to a bout here with Duke Tramel at an early date.

Brookesmith Boy Bitten by Rattler

Buster Shieles, nine year old son of Mr. and Mrs. E. V. Shieles of Brooksmith, was bitten by a rattlesnake on the right hand at about 8 o'clock this morning as he was walking through a cotton field near his home. Immediately after he was bitten the boy's arm was corded between the wrist and elbow so that the poison could not get into his blood. Doctors say that this probably saved his life. It was thirty or forty minutes before he could be gotten to Brownwood to a doctor and in that length of time the poison would have been through the entire body, doctors say.

Local doctors injected the snake bite serum and lacerated the hand so that the poison blood could be taken out and then dressed the wounds.

The boy was walking through the field on his way to pick cotton, it is stated, and the snake struck him on the hand as he was walking along. He heard the rattle but before he could get out of reach the snake bit him.

The New and Better DELCO

... for a complete modernization of rural and suburban HOMES, CHURCHES, SCHOOL HOUSES and BUSINESS HOUSES.

A new and better Delco Lighting plant is now being offered to those of the rural districts who want modern CONVENIENCE at a very small cost. We will be glad to have you call by today and let us explain the wonderful advantages of the NEW DELCO, or we will give you a demonstration at your own place.

Proration By Agreement

THIS QUESTION is raised in The "San Angelo Morning Times" "Now that they are prorating oil to avoid waste" or over-production against an unsatisfactory market, some of the people who fought to limit cotton production are asking why it is that their proposal was ruled to be unconstitutional, illegal and void, if the state can do the same thing with oil.

The answer is that proration of oil production is being accomplished primarily by agreement on the part of producers, who recognize the urgent necessity of protecting their own interests by maintaining production at a level somewhere near that of the active demand.

The state enters into the program for proration of oil chiefly in the role of agent for the producers, and as such acts with an authority that has not been seriously challenged, although from a legal standpoint it seems to be a somewhat doubtful authority. The successful operation of the recently enacted pipeline law depends upon proration of production, and authority to maintain proration is given the Railroad Commission under that law. This phase of the pipeline law is thought by many to be unconstitutional, and the courts of last resort may be asked to decide that issue some day, but under the conditions now prevailing in the petroleum markets it is not to the advantage of any producer to complain against the principle of proration so long as it is equitably applied; and in working out its proration programs the Railroad Commission has advised with the producers and has left much of the detail of the work in their hands.

If by any chance the major companies should refuse to obey the proration schedules fixed by the Railroad Commission, then the independents would also revolt; or if independents should attempt to violate the proration program, then the majors would throw open the gushers they control and rush all their oil to the markets. But such a step on the part of either would be so decidedly foolish under present conditions that there seems to be no likelihood that it will be taken.

Cotton producers have not displayed the wisdom of the oil producers, principally because there are thousands of cotton producers for each oil producer and it is impossible to bring all of them into agreement for their mutual protection. Another reason for the failure of plans to restrict cotton production is that the yield per acre and not the total acreage is the basis of production; and the yield per acre is influenced by many agencies which are not under the control of the farmer. Hence, even if all the farmers should agree to acreage reduction, there might be an overproduction of crude oil.

No matter how one looks at this case, the farmer's position looks less favorable than does that of any other industrialist.

Federalizing Number Ten

Highway No. 10, from Fort Worth through Brownwood to Del Rio, is being sought by highway organizations and chambers of commerce along the route, and it is said there is a fair prospect for the success of this proposal. The Brownwood Chamber of Commerce, through its highway committee, is actively assisting similar organizations in pointing out the many advantages of federal designation, finding encouragement in the recent federalizing of that portion of the highway north of Fort Worth to Denton. Designation of the southern end of the highway, through Brownwood, would add to the federal system of highways a cross-Texas road connecting with the Mexican border, and while no grant of federal funds for construction purposes is of necessity included in the designation it would result in routing a great deal of long-distance tourist travel through the city.

"Del Rio, where State Highway No. 10 terminates, is the most important border point between Laredo and El Paso," the Fort Worth Star-Telegram points out. "Cul-dad Porfirio Diaz, the Mexican city across the river, is a railroad and highway point, affording connections with the interior of Mexico which can not be obtained from other points without circuitous travel. The project for federal designation of the great American highway leading to this point, therefore, not only is recommended by our own interests but as a recognition of Mexican interests.

"The advantages of federal designation," the Star-Telegram continues, "do not stop with eligibility to share in federal funds to defray construction costs. The federal highway system guides traffic from other states. The new highway, as an alternate route for international travel across Texas, would take its place as one of the most popular and productive of Texas highways."

"This is only one of the important highways coming through Brownwood now, and the designation of other state and national roads is being aggressively sought by the Brownwood Chamber of Commerce, with the co-operation and support of the County Commissioners Court. Brownwood delayed its highway program for several years after most Texas cities had begun work, but is making rapid progress now that the work is being actively promoted.

West Texas Protests

THAT WEST TEXAS is being greatly damaged by untrue statements appearing in geographical and other school textbooks widely used throughout the United States is the claim of the publicity committee of the West Texas Chamber of Commerce, which is vigorously protesting against descriptive passages in the textbooks which say West Texas is an arid waste, thinly populated, producing no worthwhile crops and generally worthless from an industrial standpoint. If the directors of the West Texas Chamber can be induced to endorse the plan, a million dollar suit against the textbook publishers may be filed, with the hope that litigation might have the effect not only of encouraging corrections of the untrue and damaging statements, but of calling national attention to the tremendous progress both developed and undeveloped in the western half of the state. A referendum on the question of instituting the suit has been sent to all the directors of regional organizations.

One of the instigators to the suit is Mr. and Mrs. C. L. Stewart, 1801 Avenue E, announce the birth of a son, Robert Lee, who arrived Tuesday morning at the Bellvue hospital.

West Texans are that the whole course of the Rio Grande is through arid country, that the winters of the west and northwestern portions of the state are often long and on chiefly west of the 100th meridian, which runs through Abilene and Ballinger; that in east Texas there is heavy rainfall and an abundant cotton yield, while in the other half there can be found nothing but ranches; that oil production in Texas is chiefly in the coastal regions, and many other similarly untrue statements.

As a matter of fact, West Texas last year produced forty per cent of the state's cotton, and every year the same territory produces one-seventh of the American supply of crude oil, to say nothing of its production of food and feed crops, livestock and everything else that is produced anywhere. And as a further matter of fact, the greatest population increase in Texas during the past ten years has been in the western half of the state, with the result that the center of population has moved far westward and seems destined to reach the geographical center of the state within another ten years.

It is a bit unfortunate, perhaps, that the protest against untrue descriptions of West Texas in the textbooks must be made at a time when thirty-eight West Texas counties are appealing for federal aid, but the very fact that the drought has damaged that section is prima facie evidence of the importance of agriculture in the area affected by the protracted period of dry weather. West Texas, and every other section of Texas, is entitled to a fair deal in the public school textbooks. The old idea that the western part of the state was bad lands country, inhabited by rattlesnakes and two-gun cowboys and producing nothing but sage brush should be corrected, and the country as a whole should be informed of the marvelous development that has occurred there. It is hoped that the West Texas Chamber of Commerce, through the activities of its publicity committee and otherwise may succeed in its effort to secure textbook corrections.

Chief of Police Bert Hise completed his regular monthly report for the city council Tuesday and it was given into the hands of the council Tuesday afternoon to be included with other reports for the month. The report was prepared by Sergeant Arthur Sally.

The report for the month is as follows:

Arrests, 52.
 Fines assessed, 51.
 Acquittals, 1.
 Fines paid in full, 36.
 Fines being paid on the installment plan, 7.

One escaped convict captured and given into hands of federal authorities for return to Leavenworth.

One caught in act of committing arson and turned over to county authorities.

Two thieves apprehended and the goods returned to owners.

Eighteen raids made during month, 700 bottles of beer, 1,000 empty bottles and 12 large jars confiscated.

Two arrests made for violation of Sunday law.

Eleven traffic violators fined.
 Ten arrested for affray.
 Twelve for gaming.
 Three for disturbing the peace.
 Three fined for vagrancy, manufacture of beer.

Nine fined for drunkenness.
 Two habitual criminals released from city jail on promise to leave city, not to return.

Two released from jail because of physical and other conditions.

Two runaway boys caught and returned to parents.
 One stolen automobile recovered and returned to owner.
 Five stolen articles found and returned to owners.
 Pilots furnished for eight funerals.

One assistance in inquest and investigation of death on Frisco railroad by passenger train. Mrs. M. B. Harris, 1313 S. 10th St., Brownwood, Texas, where she attended various fashion shows and style revues. She reports a wonderful voyage on the ocean on both trips across and says that the whole trip was much enjoyed. Mrs. Jennings says as much as the entertainment she enjoyed the style exhibitions she attended.

Mrs. Jennings, her daughter, Mrs. Robert Hayes of Oklahoma City, and Miss Roxie Grove of Brownwood left Brownwood June 9 and sailed for Europe on June 11. Miss Grove did not return to the United States until she attended the annual convention of the American Legion and Auxiliary held Tuesday morning at Austin, according to a news story in the Dallas Morning News.

Activities of the Women's Auxiliary was started at this meeting and reports were heard from many of the auxiliaries from over all the state. Tuesday afternoon was devoted to transaction of Auxiliary business, but with meetings also held by the Legion.

Mrs. Armstrong Speaker Auxiliary And Legion Meet

Mrs. W. D. Armstrong, national chairman of the committee on trophies, awards and emblems, delivered the principal address at the joint session of the American Legion and Auxiliary held Tuesday morning at the state Legion convention at Austin, according to a news story in the Dallas Morning News.

Activities of the Women's Auxiliary was started at this meeting and reports were heard from many of the auxiliaries from over all the state. Tuesday afternoon was devoted to transaction of Auxiliary business, but with meetings also held by the Legion.

House Destroyed On Main Boulevard

Fanned by a strong south wind, a vacant house at 1415 Main Boulevard owned by Lon T. Stewart and Pat Green was practically destroyed by fire at 2 p. m. o'clock Tuesday. Mr. Green and Mr. Stewart were working in the house at the time the fire was discovered.

They were repairing and repainting the interior of the building at the time. Mr. Stewart said that the fire seemed to originate in the ceiling and when they heard a noise and went outside to look they discovered the flames. It is thought that a hot water heater which had been recently lighted in order to obtain water to scrub floors was the cause of the fire.

Firemen from Central station answered the alarm, but because of the wind were unable to save the structure. The house was covered by insurance.

The house, although vacant at present, was formerly occupied by C. R. Tubbs, well known here because of court charges against him.

MCKINNEY FAMILY MEET IS HELD SUNDAY

All of the members of the W. G. McKinney family of Coleman, who were former residents of Brownwood, met at Stephenville Sunday in their third annual family reunion. Dinner was served picnic style in the municipal park and the time was spent informally.

Attending the event were Mr. and Mrs. W. G. McKinney of Coleman. Mr. and Mrs. S. P. McKinney and children, Mr. and Mrs. David McKinney, Miss Ila Belle McKinney and Miss Clara Parthol, all of Dallas, Mr. and Mrs. J. W. McKinney of Fort Worth, Mr. and Mrs. G. C. Frownfelter of Stephenville and Mr. and Mrs. Whitten McKinney of Brownwood.

Mr. and Mrs. C. L. Stewart, 1801 Avenue E, announce the birth of a son, Robert Lee, who arrived Tuesday morning at the Bellvue hospital.

HE GOT RUPTURED HE GOT CURED

Dr. Irven E. Johnson of Dallas, Texas, the noted RUPTURE specialist, is now in Brownwood, Texas, at the Hotel Graham for a few days only.

Dr. Johnson has 28 years to his credit in knowing how to CURE RUPTURE WITHOUT OPERATING. His methods are mechanical. Ideal Appliances HEAL RUPTURE NOW! In men, women and children. If seeking relief, he has it for you, at a cost you can afford to pay.

This is a service you cannot secure elsewhere at any price. Ideal Appliances are what you will eventually wear. Dr. Johnson is a student of anatomy, and is an authority on RUPTURE, its causes and effects; is practical in the scientific application of all mechanical devices for the relief and cure of RUPTURE. If familiar with the anatomical structure of the parts; will diagnose your correct needs. Every Appliance is made especially for the individual's needs; every one a success; results are guaranteed. No detention from duty, not an hour's delay. Many local referrees. Ask Dr. Johnson; may be your friend or neighbor. Come early in order to receive a corrective service. As people are no more made alike than they look alike, consequently a novice or a mail order vendor is bound to fail. Dr. Johnson can help you IF YOU WILL BE HELPED. Come any time for consultation. Examination is free.

Burning Bales Of Cotton Cause Of Two Fire Alarms

Firemen answered two silent alarms during the week-end and in both cases the cause was a burning bale of cotton. The first alarm was given Sunday morning at 5 o'clock when Night Patrolman B. Kilgore noticed smoke billowing from the Abney & Bohannon Motor Sales Co. He investigated, but could see no fire and then he notified Dewitt Abney, member of the firm, who came to the building and unlocked the door so that firemen would not have to break a door. The men investigated all automobiles and the office and other parts of the building and finally discovered the burning bale of cotton which had been bought by the firm Saturday afternoon. It was tumbled onto the wash rack in the garage and broken open and the fire extinguished.

The second alarm came from the McDonald-Moore sign near the Austin Avenue subway at about 4:30 o'clock Monday morning when it was noticed that a bale of cotton had become ignited at that place. The trucks from Central station answered the alarm and put out the fire with only slight damage.

Ed Reasoner, who resides on East Adams Street, immediately at the rear of the Montgomery-Ward Co. store, told officials that he saw a man ignite a pile of old lumber and rubbish taken from the Montgomery Ward store during their remodeling. He saw the man then and he immediately extinguished the flame before any damage was done.

Buick Factory Man Greatly Pleased With Sale Here

W. B. Wallace, of the Buick automobile factory, who is conducting the used car sale at the Elmer Motor Company, said today that the sale has been thus far one of the most successful sales of this nature that he has ever helped to conduct. A great number of cars have been sold and some of the purchasers have been bringing their friends in to see the stock after they had been so well pleased with their used cars, declares Mr. Wallace.

"The people of Brownwood and Brown county have responded wonderfully to the sale and hundreds are shown over the stock of used cars every day," he continued.

Mr. Wallace has conducted similar sales in a great many towns. One of six hundred people attended the 9c sale last night and Mrs. Orville Bradley gave 99c for a used car after a slogan which she submitted had been selected as the best one. Another 9c sale will be held at the company used car building on Friday night at 8 o'clock.

Mr. Wallace says that the stock of used cars both in quality and price compare favorably with stocks in the very large cities where there are a great many more cars.

County Superintendent J. Oscar Swindle attended a meeting of the May school trustee board Wednesday night.

At the meeting routine matters were discussed, including transportation for students to the school and plans concerning the opening of the school.

A man was brought before Judge James McCartney in city court today and charged as a "Peeping Tom."

A woman who resides in Brownwood Heights complained that the man had been loitering near her house every night recently and phoned officers last night and the man was arrested. He was brought into court and lectured by Judge McCartney and warned that if he was guilty to not repeat the offense. After declaring to court officials that he was not guilty he was released without any charges being filed.

RECALL DARK DAYS

MARTINSVILLE, Ind. (UP)—Indiana's darkest day, which occurred sixty-three years ago is recalled by H. W. Brown, aged resident. A total eclipse for the sun turned day into night for 30 minutes.

Examination is free.

GOLDTHWAITE MEET PRAISED BY LIONS; BROWNWOOD NEXT HOST

Brownwood Lions will entertain the next Group 22 meeting, district A, of the Lions clubs which will be held in December. It was decided at the business meeting of Lions clubs at the group meeting at Goldthwaite with Goldthwaite Lions as hosts, Wednesday afternoon, R. R. Holloway, acting for Brownwood club, invited the clubs to meet in Brownwood next time and the invitation was accepted.

Those from Brownwood attending the meeting were: Mr. and Mrs. Roy Morris, H. H. Grisham, Mr. and Mrs. C. J. Sparks, Mr. and Mrs. R. R. Holloway, Mr. and Mrs. S. C. Holloway, Mr. and Mrs. Buz Canon, Mr. and Mrs. W. H. Thompson, Dr. and Mrs. J. M. Horn, Rev. and Mrs. G. C. Schurman, Dr. and Mrs. O. N. Mayo, Mr. and Mrs. H. J. Clark, Mr. and Mrs. J. R. Stalcup, Mr. and Mrs. J. C. Galloway, Will Talbot, D. D. McInroe, Mr. and Mrs. W. E. Burleson.

About seventy-five members of Lions clubs in Group 22, District A of Texas, Lions International, with their wives participated in the group meeting which was held at the Goldthwaite Hunting and Fishing club, about seven miles north of that city as hosts, Goldthwaite, Brownwood, Junction, San Saba and Coleman Lions clubs were represented. Menard, Eden, Santa Anna and Mason of the other clubs in the district were not represented. Features of the afternoon's program which started at 3 o'clock, included a business meeting for the purpose of hearing reports from the different clubs and their plans for the future, a recreation period for swimming and supper with a program following.

Goldthwaite as host club had planned thoroughly for the entertainment of visitors, and were thanked very much by them for the entertainment program and the fine supper which they gave. The meeting was held at the Goldthwaite Hunting and Fishing Club which is about seven miles north of the town and is situated on a large lake which offers swimming and fishing to the visitors. Business meeting was held in the club house and the supper was spread on long tables under the trees near the house and the grounds were lighted so the program could be seen from any part of the tables.

C. L. South Presides

The entire meeting was presided over by C. L. South, president of this Lions group, of Coleman, with R. M. Thompson, president Goldthwaite club, in welcoming the guests and having charge of the program. William L. Dugger of San Antonio, governor of District A, Lions International, was present for the business meeting and made an address and was also a guest of the club at supper. R. D. Kinney, Jr., of Coleman, secretary of the group, was also present.

Thirty-one Lions, representing Goldthwaite, Brownwood, Junction,

San Saba and Coleman were present for the business meeting. Members from all clubs present were introduced by the leaders from their club and reports were heard from the clubs as to their activities since the last district meeting, and their plans for other activities were announced. Among past activities told by the different clubs were beautifying of city school grounds, marking the streets of a town and financing a city library. Plans for building and holding club membership were also discussed.

Mr. Dugger made a talk on Lions International, telling of the many phases of the work and how clubs in different parts of the world were working. He stated that the first Lions club in the world was organized at San Antonio several years ago and that the start thus made had grown into an international organization with clubs all over the United States, the Dominion of Canada and many foreign countries. The Lions are still growing and in the same length of time has already grown faster than any other club in the world, declared Mr. Dugger. There are 250 Lions clubs in Texas which is more than all the other club clubs together, he continued.

The work of Lions International with the blind has won recognition everywhere, he stated. The International makes the helping of the blind its main work and has done great things for the blind people of this country.

Club work discussed

The business meeting closed after questions from the different clubs and a round table discussion.

The visitors who cared to swim or go for boat rides went to the lake after the meeting and others inspected the grounds of the club and the club buildings or watched the other visitors swim.

R. M. Thompson presided at the program which was given during supper. The supper, consisting of barbecued chicken, dressing and all other trimmings, with pie for dessert and ice tea as drinks, was placed on long tables near the club house and over one hundred and fifty plates were served.

Music for the occasion was furnished by Goldthwaite's, Four Racesters, Fritz Rudd, Dabbs McCullough, Bill Yarborough and Duke Evans. They played for the visitors at the beginning of the meeting in the afternoon and played during the dinner hour. A vote of thanks for their entertainment was given by the visitors.

On the supper program Miss Myrna Miller sang two solos, following which Miss Mary Ellen Trent rendered a piano solo. Miss Connie Trent then gave a special dance, accompanied at the piano by Mrs. S. P. Sullivan.

Lion Governor Dugger made a short talk expressing his appreciation of the entertainment and saying

that he was very glad to be able to attend the meeting. The Brownwood Lions Club gave the main stunt of the evening, which was a medicine show act with Buz Canon as the "doctor." Richard Manning and Eldon Andrews, both of Brownwood, did the blackface numbers for the show and entertained with mandolin and harmonica music. Buz Canon, using the usual "medicine doctor" talk presented a medicine called "Lions Bitters" and said that it would cure anything known to man or beast. A number of small bottles filled with a red liquid were shown and given to members from every club present. The label on the bottle read: "Lions Bitters. Will cure anything on earth if applied to the right place at the right time. Manufactured and guaranteed by Brownwood Lions Club." Mr. Canon especially recommended the medicine to cure members of Lions clubs who lacked interest and were irregular in attendance. Presidents of the clubs made quite a demand for the medicine after this statement.

Brownwood Stunt

The stunt seemed to be much enjoyed by all present as they gathered around to hear Mr. Canon demonstrate his ability as a fast talking medicine show doctor and all present wanted a bottle of the medicine as a souvenir of the meeting.

Votes of thanks were offered to the Goldthwaite Lions and their wives for their entertainment and the supper. All present said that the meeting was one of the most successful district meetings ever held and some said that they enjoyed the meeting more than any Lions district meeting they had ever attended. Brownwood Lions said that they were going to work hard to have just as good a meeting here in December as Goldthwaite had Wednesday.

Five of the nine Lions clubs in the district were represented with three to twenty members. Junction Lions traveled 148 miles to the meeting. A partial register of visitors besides those from Brownwood is: Leon B. Powell, Junction; Walter Buck, Junction; Hazel Moore, San Saba; R. W. Burleson, San Saba; Arch Woods, San Saba; A. E. Moore, San Saba; C. L. South, Coleman; R. D. Kenner, Jr., Coleman; Joe J. Hedleston, Coleman; Horace Stark, Coleman; Stella DeLano, Junction; George DeLano, Junction; H. Sampson, San Saba; R. E. Gray, San Saba; Mr. and Mrs. John Seedens, San Saba; Mr. and Mrs. B. L. Smith, Junction; Mr. and Mrs. William L. Dugger, San Antonio; W. I. Little, San Saba, and Mr. and Mrs. S. E. Allen, San Saba.

Goldthwaite Lions registered were: Rely Saylor, W. C. Barnett, R. H. Mayfield, D. Stringer, R. L. Steen, Jr., O. H. Yarborough, R. M. Thompson,

School Spirit of Brownwood is Reflected in Pastors' Messages

Factors of Brownwood churches have given expressions of greetings to pupils and teachers who are to take up their school work in this city next week as follows:

CHURCH OF CHRIST
1020 Austin Avenue
T. M. CARNEY, Minister
School days are almost here, and they should be both pleasant and profitable. The Church of Christ has a keen and kindly interest in the youth of our land; the young men and women of today will be the ones that shall make up our citizenship of tomorrow, for both the church and state.

The Church of Christ worshipping at 1020 Austin Avenue, gladly welcomes to our city the young men and women who shall attend our colleges and high school, and extends to them our best wishes for a successful school year. We also extend an invitation to you to meet with us in our Sunday school and church services. If you are a member of the Church of Christ elsewhere make this your church home while here. However, it is our custom to welcome all who attend our place of worship whether you are a member or not.

CENTRAL METHODIST CHURCH
2nd and Avenue G
P. T. STANFORD, Pastor
As pastor of the Central Methodist church I am more than glad to welcome all students in Brownwood for the opening of all school systems next Monday. Needless to say that a church is glad to welcome students to the two denominational colleges here and also to urge them to attend services at some church.

We want all of the college students who will attend our church and Sunday school each Sunday, but more than that I wish to urge that they attend some church, the church of their choice, and if they have no other preference we wish to call their attention

RUPTURE EXPERT HERE

C. F. Redlich, Minneapolis, Minnesota, nationally famous Rupture Appliance Expert, will demonstrate without charge his unequalled method at Brownwood Friday, September 19, at the Southern Hotel from 10 a. m. to 4 p. m.

Mr. C. F. Redlich says: "The Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief and contract the opening in a remarkably short time.

The secret of their success is in their simplicity. An expertly adjusted device seals the opening without discomfort or detention from work. It is practically everlasting, sanitary, comfortable and actually holds ruptures which heretofore were considered uncontrollable.

"IF YOU WANT TO HAVE IT DONE RIGHT—SEE REDLICH."

Doctor J. W. Seaver, for many years in charge of the Physical Education of the students of Yale College, has recorded 75% cures with this system.

Mr. Redlich is internationally known and speaks English, German and Spanish.

HOME OFFICE: 533 Boston Block, Minneapolis, Minn.

to the young people's department of our Sunday school and also to our Epworth League.

The very fact of the location of the two colleges here is very fortunate to Brownwood in many ways, it gives a chance for association among the young people under a Christian atmosphere, and brings closer union among the people of the various sections.

I am very happy, both personally and as pastor of the church, to welcome the young people to the two colleges and also the children from other places who will come here to take advantage of the wonderful public school system. There will be many families who will move here to send their children to the public schools and the colleges and I wish to inform them that we are glad to do all possible and it is our sincere wish that we may work more for their betterment while they are here.

ST. JOHN'S EPISCOPAL CHURCH

700 Main Avenue
JOHN POWER, Pastor
Dr. John Power, rector of the St. John's Episcopal church said that he was more than delighted to welcome all the students to Brownwood for the next nine months. He stated that at all times they would find the doors of his church open to them and that they would be more than welcome to attend the services any Sunday.

"I have been closely associated with the young people and have always taken a great interest in their welfare and in their activities. I think that Brownwood is more than blessed by having two colleges here which bring many students to the town each year and which gives them a chance to not only broaden their mental but their spiritual aspect on life through the Christian association which they are afforded through college fellowship," he said.

"The public schools here are considered among the best in the state and they alone bring many families to Brownwood each year who come here to take advantage of this system and who send their children to the schools during the week and then to Sunday school and church on Sunday. Many families also come here so that they may have their children both in the colleges and in the public schools and these people are a benefit and a great asset to the town because they believe in better things or they would not be moving here to take advantage of the opportunities offered.

"May I say that at all times they are welcome to the young people's and children's department of our church and their parents are also welcome to attend our services each Sunday."

FIRST PRESBYTERIAN CHURCH

Fisk and Depot Streets.
William H. Foster, Pastor-Elect.

The officers and people of the First Presbyterian Church extend their most cordial greetings to officials and teachers and students of the schools and colleges during the opening of the year's work. We extend our congratulations to all on the opportunities that our schools and colleges afford you; we add our sympathy for those who find their school work somewhat of a burden, who dislike school and have little love for work.

And whether it is with rousing enthusiasm or with lagging feet that entrance is made through the

open school doors, we believe that associations in the church will quicken and properly direct your enthusiasm and will encourage those who do not greatly admire the approaching tasks of the year. We therefore, invite you who may have such associations or desires for the Presbyterian Church, to enter regularly the doors of the church school and the hours of worship, for the making of a happy and wholesome life. You will find interesting associations and associates in the Church School and in the young people's societies.

"Remember now Thy Creator, in the days of thy youth."

Church School, 9:45 a. m. every Sabbath, C. W. McClelland, superintendent.

Morning Worship at 11 o'clock and evening worship at 8 o'clock, the pastor preaching at both hours. Christian Endeavor Societies at 7 p. m. every Sunday.

Prayer meeting every Wednesday evening at 8 o'clock.

FIRST CHRISTIAN CHURCH

Center and Whaley
G. C. Schurman, Pastor.

The opening of school is, to me, like a great spiritual revival. After the dormant season comes the springing verdure. Whether we are directly connected with the schools or not, we catch the spirit of life.

"The church above any other group should welcome the beginning of the school year. The churches, colleges and public schools are the educational forces in society. They should go forward together in the eternal quest of Truth. They should be a foil one for the other. The schools to keep the churches from dogmatism, bigotry, and theological stagnation—the churches to keep the schools from forgetting the Rock from which they are hewn."

This church welcomes the teachers and pupils to our schools and city. We extend to all a cordial invitation to visit our services. We are trying to bring a Living Christ to a modern world in a modern way. He who would be a seeker will find fellowship here.

FIRST BAPTIST CHURCH

Fisk and Austin
A. E. Prince, Pastor

The First Baptist Church of Brownwood heartily welcomes the young people who come to Brownwood year by year to enter our colleges. This church gives an annual reception for college students and this reception will be held on Thursday of next week, September 11th. After giving the students a cordial welcome in this way we follow it up by ministering in every possible manner to the spiritual and moral welfare of the students.

The two greatest college classes in Brownwood are in this church—the Berean class for college boys and the Fidelis class for college girls. The Howard Payne college football team is in the Berean class. Dr. Jewel Daugherty is the teacher. The Fidelis class has made a record unsurpassed by any college class in the Baptist churches of Texas. For five years the Baptist State Sunday School convention has offered a banner for the most efficient class. The Fidelis class has won this banner four out of five years. Miss Minnie T. Marchbanks is the teacher.

Forty years ago Howard Payne College was organized in this church. Through these two score years this church has ministered to the hundreds of young people

who have come to this college and to Daniel Baker College. Our church now has one of the finest buildings in central Texas with the latest and most approved equipment. Everything about the church building and organization is utilized for a strictly up-to-date church program. The students who unite with our church and participate in its activities get a first hand course in modern church methods. These methods are not emphasized to the exclusion of the spiritual, for we hold that the first thing in any part of the work of a great church is the spirituality. This always holds the first place here.

The young people who come to Brownwood next week will find a most cordial welcome at the First Baptist Church.

MISS LOIS TAYLOR WEDS AARON EDWARD LAMB

In the presence of a small group of relatives and close friends the wedding of Miss Lois Taylor, daughter of Mr. and Mrs. J. G. Taylor, to Aaron Edward Lamb, son of John Lamb of Belton, was held at 9:30 o'clock on Sunday morning at the home of the bride's parents, 1410 avenue B.

The Rev. J. M. Parker, pastor of the Calvary Baptist church, officiated at the impressive ring service held before an improvised altar of ferns and roses in an arch arranged in the French doorway between the living room and dining room. The couple entered as the Lohengrin wedding march was played by a string-in-law of the bride, Mrs. J. Y. Taylor of Goldthwaite. The bride, who was lovely in a modish blue

crepe frock, carried a bouquet of bride's roses.

Immediately after the ceremony the couple left for a brief motor trip to Austin, San Antonio, and other Texas cities, the bride wearing an early fall suit of brown crepe with accessories to harmonize. After their wedding trip Mr. and Mrs. Lamb will make their home at Smithville where they have accepted positions as teachers in the public school.

Both the bride and groom are well known and popular members of social and school circles of Brownwood. The bride is a graduate of Brownwood High School and also a 1929 graduate of Howard Payne college, where Mr. Lamb received his A. B. degree the same year. While attending the local school they were among the most popular students in literary and social activities.

Out-of-town guests for the wedding were Mr. and Mrs. Felix Patis of Smithville, Mr. and Mrs. Leonard Lamb of Fiat, Texas; John Lamb and Joel Lamb of Belton, Mr. and Mrs. Arnold Rathernel of Fort Worth, Miss Gay Caudle of Stephenville, Mr. and Mrs. J. Y. Taylor of Goldthwaite, and Mr. and Mrs. A. E. Taylor of Austin.

"Lion Sermon Day"

Some 25 years ago an Englishman traveling through a wild country suddenly met a lion. The Englishman, without weapons, fell on his knees, promising to help the lion if ever he got back home alive. He did, and left a sum of money to a London church, with the sole condition of a yearly sermon. To this day, once a year, is "Lion Sermon Day" in this church.

MRS. WOMBLE IS THANKFUL BEYOND WORDS

"My Husband Suffered 12 Long Years With Chronic Stomach Trouble But Argotane Has Restored His Health," Says San Angelo Woman

"My husband suffered with nervous indigestion and serious stomach trouble for twelve years," said Mrs. A. C. Womble, of 205 E. 11th San Angelo, wife of a well known employe of the Henderson-Edo Co.

"Everything he would eat," continued Mrs. Womble, "no matter how little or how much, would ferment and fill his stomach with gas and he suffered misery. He was continually belching up sour undigested food, had severe pains in his back and sides and suffered terrible from intense sick headaches. He was so nervous he could only sleep a few hours at a time; what sleep he did get was from exhaustion and he got no rest from it.

"At times he would blot up until it was hard for him to breathe and we thought he might have heart trouble at times. He was just in a general run down condition and never had the strength or energy to go about his work as he should have. He had spells of heartburn, a bad case of constipation and in fact, needed something to build him up. "Argotane was recommended so

highly and so many local people have been praising it so he bought a bottle and has improved ever since. He isn't, in the least, troubled with indigestion and not a sign of gas or those bloating spells. His breathing is back to normal, his bowels are regulated and he has no more stomach trouble in the least. Argotane has helped my husband so I just can't tell you how thankful I am it sure is a good medicine.

Genuine Argotane may be bought in Brownwood at the Camp-Bell Drug Store. (adv)

ADAMS-BINION MARRIAGE QUIETLY SOLEMNIZED

At a quiet service held at the home of Mr. and Mrs. Leland Alton at 8 o'clock Saturday night, Miss Irma Adams and J. Ernest Binion were married, with only a few relatives and close friends attending the ceremony, performed by Mr. Alton, minister of the Church of Christ. The bride wore a blue crepe frock.

of a prevailing mode with accessories to match. She was attended by Miss Inez Swinney, and Thomas William McIntyre served the groom as best man. The bride, the daughter of Mr. and Mrs. O. J. Adams of this city, was a June graduate of Brownwood High School. She has lived in Brownwood for several years and is a popular member of the younger social set of the city. Mr. Binion, a son of Mr. and Mrs. J. L. Binion of Paris, Texas, has been a resident of Brownwood for two years. He is an employe of the mechanical department of The Bulletin. Mr. and Mrs. Binion are at home at their friends at 707 Coggin avenue.

The Plow-Back

When earnings are turned back into a business it is in order to increase the rate of profits according to the same method by which interest is compounded on savings. The plow-back idea has been especially prevalent the last few years.

SCHOOL BOOKS and Supplies WE...

have a complete supply of books on all subjects required by all grades... also school supplies of every sort. When in town, just remember, DUBLIN & CANON have what you want, and, too, you will always find that our PRICES ARE MOST REASONABLE. We have a complete new line of Foot Ball Equipment, and will be glad to have you come in and look over our stock. You will always find us ready and willing to fill the school child's needs here economically.

Why

Walk all over town hunting the right kind of school supplies, when you can get everything you will possibly need here during the 1930-31 term of schools?

Scientists of the United States Department of Agriculture have devised a "vacuum cleaner" to extract ox-warbles from cows' backs and so free the cattle from this form of pest. Dairying controls the future of dairying, according to O. E. Reed, chief of the United States Bureau of Dairy Industry. "Science will show us new and better methods," he says. "No other food commodity is so closely related as milk to health and general welfare. There is need for more research work, not merely to promote the industry, but to protect and promote public health."

ALL FOOTWEAR Supporting the Correct Ensemble

HERE is Footwear that is a perfect complement to the fall and winter frocks. And with clothes more charming than ever, correct shoes become more necessary than ever to complete the ensemble idea. This is evident in every selection you may make from our present stock.

\$1.95 to \$5.95 "Wear Plus" and "Country Club" Hosiery, selling from \$1 to \$1.95—and such value! No doubt the best Hosiery values in Brownwood. ROBINSON'S Shoes and Hosiery 165 E. BAKER

BROWNWOOD SCHOOLS WILL OPEN NEXT WEEK

LEADING TEXAS EDUCATORS ON PROGRAM HERE

Everything is in readiness for the opening of the city-county teachers' institute to be held in Brownwood Friday and Saturday, September 5 and 6, according to E. J. Woodward, superintendent Brownwood city schools, who has charge of the program. The program for the two-day meetings has been completed and includes talks and addresses by some of the most prominent Texas educators. City and county teachers are required to attend the institute and are expected to get a great deal of good from the many educational features of the meeting, said Woodward. Many visiting teachers are expected to be present.

In speaking of the addresses Mr. Woodward said that the institute was very fortunate in getting so many prominent speakers on the program. Many of the talks will be made by educators who rank high in their respective fields of education and talks will be heard from speakers who have had years of study on their subjects.

Some of the leading speakers during the institute are as follows:

Pittinger to Speak
Dr. B. F. Pittinger, dean of School of Education, University of Texas, who will make two talks each day of the institute, Friday morning he will talk on "The Further Professionalizing of Teaching in Texas," and in the afternoon will talk on "English as a Core Subject." Saturday morning he will use "Future of Public High School" as his subject and in the afternoon will talk on "Education for Peace." Dr. Pittinger has spoken in Brownwood at past institutes and his speeches are well remembered.

Dr. R. P. Jarrett, dean West Texas State Teachers' College at Canyon is another outstanding speaker on the program, says Mr. Woodward. He will also make four talks during the institute using as his subjects: "The Place of Co-operation in the High School Faculty and How to Secure It; Outstanding Trends of Modern Education; The Ideal Teacher and Some Outstanding Method in the High School Teachers Task."

Miss Eva Brown, supervisor, Austin City Schools, will make four addresses during the institute; R. T. Ellis, secretary Texas State Teachers Association will talk on "All Year Schools" and H. D. Pittenger, president of Texas State Teachers Association will make an address.

Dr. S. E. Chandler, president Daniel Baker College and Dr. Thomas H. Taylor, president Howard Payne College, will also make addresses during the institute. Many of the city and county school teachers will make talks in the general assemblies and in the sectional meetings.

The institute opens at 8:30 o'clock Friday morning with registration at the Brownwood High School. General assemblies will be held in the high school auditorium and the different meetings will be held in both the high school and junior high school buildings.

Institute Sections
The institute is to be divided in two sections, elementary section in a high school section. Mrs. W. L. Turner is chairman of the elementary section and C. F. Wesner, principal of junior high school, is chairman of the high school section. Besides talks on these programs will be featured questions and round table discussions.

Devotional exercises will be conducted on Friday by Dr. A. E. Prince, pastor First Baptist Church, and on Saturday by Rev. William H. Foster, pastor First Presbyterian Church. Music for the general assemblies will be furnished by both Howard Payne and Daniel Baker colleges.

The first general assembly will be held Friday morning at 9 o'clock and Hilton Burks, secretary Brownwood Chamber of Commerce will make the welcoming talk. Paul Casland, principal Brooksmith Consolidated schools will give the response. Dr. S. E. Chandler will make the first address of the institute on "Personality and Teaching."

Mr. Woodward said that indications were that a very interesting institute would be had and that the varied program should prove interesting to all attending.

WHAT'D A LEG DO?
EVANSTON, Ill. — Police on Evanston's bathing beaches are very pure of mind. Because Mrs. Albert Strohmeyer, 40, was stretching a bare arm and shoulder out of a curtained automobile parked at a beach here, she was arrested and fined \$5. Mrs. Strohmeyer said she was wearing a raincoat at the time.

CENTRAL TEXAS SCHOOL OF ORATORY TO BEGIN SESSION NEXT MONDAY

Central Texas School of Oratory will open for regular enrollment Monday morning, September 8, with the best of prospects for the largest school and most successful ever had, according to announcements made by J. Fred McLaughly, president. The prospects for some excellent interscholastic League work are also fine, he said.

Miss Noveline Price will act as assistant instructor in the school this year and Miss LaVerne Walker will act as supervisor of the children's department. Miss Price is a graduate of oratory from Daniel Baker College and has also had work at Howard Payne College. She has had about ten years work in oratory and expression and has been a member of the National Public Speaking Association. Her dramatic work has been recommended by the managers of the Little Theatres in Dallas.

Miss Walker was the honor graduate of the school last term and will have charge of the children's department, taking in pupils from six to ten years of age. She will also have charge of the story hours presented to the children of the city. These hours will be given regularly every Saturday morning, beginning sometime in November. Miss Walker has had about ten years of oratory work and will attend college here as well as take care of her work at the oratory school.

Mr. McLaughly states that the school is very proud of the fact that scholarships are offered to its honor graduates by some of the leading colleges of this and other states. These scholarships include those from Baylor at Belton, Texas; Womans College at Fort Worth, Breneau College at Gainesville, Georgia, and King's School of Oratory at Pittsburgh, Pa.

The senior class of the school this year includes about eight or ten students and the other classes are large, said Mr. McLaughly.

Miss Frances Hyde Teacher of History Junior High School

Several changes in the Brownwood schools faculty were taken up at a meeting of the school board Monday night. Miss Frances Hyde, Brownwood, was elected to teach history in Junior High School. The resignation of Miss Ima Barlow, head of history department in Senior High School, was accepted. Miss Barlow resigned her position here to accept a position as instructor in West Texas State Teachers' college at Canyon. Joe Wiley, teacher of history in Senior High School, was made head of the department and Miss Adelle Perry, history teacher in Junior High School, was given the position formerly occupied by Mr. Wiley as history teacher in Junior High.

Several other school business matters were discussed at length by the board members, but no other definite business was completed, according to Superintendent Woodward.

Firemen Halt a Runaway Horse

The time has almost passed when a runaway horse is a common sight on any main street and during the present automobile era the fact is an item for comment. Monday morning at about 9:30 Orville Bradley and Foy Jayroe, two firemen at Central station, saw a riderless horse come dashing down Fisk Avenue. The two men rushed into the street and brought the animal to a halt.

The presence of the animal on a busy street, riderless and in a run would cause much comment at present by all who saw the incident. The time when there might be seen a careening buggy with a pretty maiden and a frightened horse has passed and the two firemen are boasting the fact that there was no fair damsel astride the horse which they stopped this morning, that they might have had the honor of rescuing her.

WELL SUPPLIED
WHITE HALL, Ill.—The baby girl recently born to Mr. and Mrs. Guy Long, in Woodrider, is starting life with plenty of grandparents. She has the distinction of having eleven grand and great-grandparents living. There are four generations on the paternal side of the mother's side of the family and three on the maternal side. There are four generations on both sides of the father's family.

Hydrated lime, one of the commonest and cheapest chemicals has proved an effective remedy for clubroot disease of cabbage.

HOWARD PAYNE OPENS MONDAY

The regular long term at Howard Payne will open next Monday, Sept. 8th. The officials of the school are awaiting a large enrollment for the coming year and believe that a large student body will greet the faculty members Monday. Dr. T. H. Taylor, president of the institution, stated at the close of the summer term that the school was in better financial condition at present than in several years and was ready for a good term of school. The donation of several large sums of money to the running expenses of the school has added greatly to the finances of the college.

The faculty for the coming term will be practically the same as that of last year with the exception of some changes in the fine arts department. The liberal arts faculty will remain as last year. New instructors are being secured to take the places of Cameron Marshall and Lyman Stanley, both from the fine arts department, who have accepted positions in other universities for the coming year. Mr. Marshall has gone to Oregon and Mr. Stanley to Oklahoma. A new band director to take the place of Edward Doyle is also being secured as is a violin instructor.

Definite announcements concerning the opening of school and the complete faculty list will be made later in the week, according to Dr. Taylor.

ROCK CRUSHER FIRE LOSS IS ABOUT \$25,000

A loss of \$25,000 was sustained at the Santa Fe rock crusher Thursday at 6:30 p. m. when fire of unknown origin destroyed the engine house and blacksmith shop. Firemen from Brownwood answered the alarm but were unable to save the building or any of its contents.

Small fires were sustained in two other fires during the afternoon and evening at the McDonald and Moore gin on Wilson Street when firemen answered two alarms at that place.

At the Santa Fe crusher the burned building housed two small engines used to haul cars of rock from the mountains to the crusher. The structure was built of sheet iron over a heavy wooden frame. The woodwork kept the fire burning for more than an hour before firemen were successful in pulling the building down so as to reach it with water.

John Starkie, manager of the crusher, said today that everything in the building was a total loss and that no insurance was carried on the building or any of the contents. Each of the engines was practically a total loss with little salvage value remaining and each was valued at about \$10,000. There will be some salvage value to the running gear and the boilers but the rest is beyond repair.

A repair shop and blacksmith shop were also in the building and a large quantity of tools and equipment used in the crusher had been stored there. The tools, equipment and building were valued at about \$8,000.

The fire raged for nearly an hour and people in town were able to get a perfect view of the burning structure on top of the mountain. A large crowd was attracted to the scene, but very few attempted the long climb aloft to go near the building. After much difficulty two fire trucks were gotten to the top and a stream of water was pumped onto the fire by a truck from Station No. 2.

Fires at Gin
While firemen were fighting this blaze another alarm was sounded at about 7 o'clock and most of the men left the mountain fire to return to the gin which had gotten afire for the second time. By the time the truck arrived Central station trucks had extinguished the flames.

The first fire at the gin was discovered at about 5:15 Thursday afternoon when cotton in the press room became ignited. After extinguishing the flames the large blowers were put into action for some time. Following the second fire which was in the roof of the building the blowers were kept in motion for nearly two hours to be sure all fire had been taken from the building. The slight loss was covered by insurance.

BULL BREAKS RIBS

KENDALLVILLE, Ind. (UP)—Mandel Munk, Orange township farmer, who said his side hurt following a battle with a young bull, called a physician who found one rib broken and two others cracked. Attacked by the animal, Munk grasped it by the tongue and after a hard struggle succeeded in throwing it to the ground. However, he could not retain his grip and the animal arose and charged him. By that time an employe, attracted to the scene, succeeded in beating off the bull.

It is better to feed pet dogs scraps and internal organs than butchers discard rather than choice cuts of meat, according to Dr. William Lentz, director of the small animal hospital at the University of Pennsylvania.

PARTIAL LIST OF TEACHERS IN BROWN COUNTY ANNOUNCED

A partial list of teachers in the common school districts of Brown county was released by the county superintendent today. The list does not include all teachers in the many rural schools as many of them have not filed their contracts with the superintendent's office. The opening dates of the schools are not known, but most of them will open during September with one or two waiting until October. A complete list of the teachers is not available as in some schools no contracts have been returned.

J. Oscar Swindle, county superintendent said today that it was imperative that all common school district teachers have their contracts filed with him before Friday so that they could get credit on their first checks for attendance at the teachers institute which is to be held here beginning on that date. He stated that he wished to urge all teachers to file these contracts immediately and have them recorded with his office so that a complete list of those attending the institute may be compiled.

New Teachers in County

There are many out-of-county teachers who will come into the rural schools for the first time this year and it is imperative that they file their certificates immediately with him as this is a requirement of the state department; that all certificates be filed with the county superintendent in which the teacher is working during the year. Mr. Swindle stated, "I know that many of the teachers have overlooked the importance of filing both their contracts and their certificates in this office and have neglected to do so through the summer, but now the time has come for them to have them placed on the records here."

Contracts Filed

The list of schools and teachers which has been completed at present is given below:

- Cross Cut, District No. 1: W. T. Hughes, superintendent; Lucy Nunnally, Alec H. Edwards, Mrs. Debra Triplett, Mrs. Myrtle B. Dryden, Otis Palmer.
- Byrds, District No. 2: Olive Pierce, superintendent; Mrs. Olive Pearce, Wanda Copeland.
- Williams, District No. 3: F. D. Pierce, superintendent; W. B. Kolb, Mrs. J. E. Deely, Lora Mae Daniel, Mabel Morrison, Thelma Morrison, Hettie McClanahan.
- Grovesboro, District No. 6: J. F. Jeter, superintendent; Harvey Byrd, Elma Middleton, Mabel Posey, Arla

E. Hallford, Elma Threatt, Goldie Mathews.

Concord, District No. 9: Eugene Livingston, principal; Enid Harris, Clara Rhodes.

Jordan Spring, District No. 12: Mrs. Annie McDarmont, principal; Mrs. Oren Sherrod.

Blanket, District No. 21: R. L. Fortune, superintendent; Mrs. R. L. Fortune, Harley H. Black, Joe Dabney, Mrs. V. E. Eoff, Mrs. G. G. Heptinstall, Allene Bettis.

McDaniel, District No. 22: Margaret Black, principal; Mary Black, Lula Bell Keeler.

Early, District No. 27: Spencer George, superintendent; LeRoy Preston, Mrs. Pearl S. Tolleson, Mrs. Inez McMurry, Mrs. Spencer George, Mrs. Johnnie Gill, Mrs. Elmer Medcalf.

Mukewater, District No. 31: Winnie Swenson, principal; Audrey B. Holl, Mydena R. McLaughly.

Clear Creek, District No. 32: J. D. Hintner, principal; Lee Omlia, Cullins, Lina Lineberry.

Cedar Point, District No. 33: Olen Reese.

Chapel Hill, District No. 34: Floyd S. Eoff, principal; Lydia Boenicke.

Woodland Heights, District No. 37: D. E. Renfro, superintendent; Mrs. Ethel Renfro, Lena Peak, Russel Martin, Louise Wright.

May, District No. 38: Horace White, superintendent; Lillie Gaines, Estelle Holman, Weldon Chambers, Mrs. Horace White, Mrs. Mary Michaels, Aliene White.

Zephyr, District No. 39: Leslie Griffin, superintendent; Clay Belle Spruce, Geneva Karr, Marjorie Winebrenner, Kate Fields, Lutie Morris, Inez Pettsick, Avis Pettsick, Ruth Whitehead.

Center Point, District No. 49: Miss Bula Dixon, W. B. Jones, Mrs. W. B. Jones.

Indian Creek, District No. 44: A. R. Sallie, principal; Alma Grellie, Annie Ada Field.

Elkins, District No. 45: Melba Haworth.

Clio, District No. 48: Otis L. Pierce, principal; Miss Lara Evrage, Mrs. Bennie Brannon, Bates Friend, Union Grove, District No. 54: Flora Fuller, principal; Margaret Wheeler.

Holder, District No. 58: Spence Chambers, principal; Ozella Crume, Mattie Mae Crume.

Winchell, District No. 61: Druzzelle Huddler, superintendent; Miss Mattie Clifford, Miss Effie Huddler, Orena Baker.

Brooksmith, District No. 66: Paul A. McCasland, superintendent; Virginia Hennigan, Loraine Wise, Pete Marecek, Vera Sheffer, Mrs. R. C. Clark, Lois Carnes.

1930-31 SESSION AT DANIEL BAKER TO OPEN NEXT MONDAY

The 1930-31 session of Daniel Baker College will open Monday morning, September 8, at 8:30 o'clock. Prospects of fully as large an attendance as last year and probably an even larger attendance is announced by faculty members. A great number of inquiries from all over town have been received and many high school graduates of last year are planning to enter the college, it is said. Matriculation and regular enrollment will be held on Monday, the opening day.

The entrance examinations for students entering the college from unaffiliated high schools will be given at the college on Friday and Saturday, September 5 and 6. Students wishing to enter the college from unaffiliated schools are asked to report at the college on these dates and make full arrangements for entrance, it is announced.

Calendar for Year

- The annual faculty recital and reception to the faculty and students will be given at the college at 8 o'clock Thursday evening, September 11.
- The complete college Calendar for the year is as follows:
 - September 5-6, 8:30 o'clock, Entrance examinations.
 - September 8-9, 8:30 o'clock, Matriculation.
 - September 11, 8:00 p. m., Faculty recital and reception to faculty and students.
 - November 8, Mid-semester reports.
 - November 11, Armistice day (holiday).
 - December 24 to January 1, Christmas vacations.
 - January 2, 8:30 a. m., classes begin.
 - January 16 to 20, Fall semester examinations.
 - January 21, 8:30 a. m., Spring semester begins.
 - February 11, Founder's day (not a holiday).
 - February 20, Oratorical contest.
 - February 22, Washington's birthday (holiday).
 - March 25, Mid-semester reports.
 - April 17, Men's declamatory contest.
 - April 21, San Jacinto day (holiday).
 - April 24, Women's declamatory contest.
 - May 22 to 27, Spring semester examinations.
 - May 22, 4 p. m., Meeting of board of trustees.
 - May 22, 8 p. m., Annual concert.
 - May 23, 8 p. m., Recital of Expression Department.
 - May 24, 11 a. m., Baccalaureate sermon.
 - May 25, 10 a. m., Graduating exercises.
 - May 25, 8 a. m., Matriculation for summer school begins.

pected to report for matriculation Monday morning and the regular schedule will be started on Wednesday, September 10.

The Faculty

Faculty of Daniel Baker College this year includes the following: S. E. Chandler, president and Bible; Thomas H. Hart, senior dean, education and philosophy; C. W. McClelland, dean of classification, mathematics and physics; John Power, Latin, history and social science; R. E. MacKay, secretary of faculty, French and Spanish; Miss Helen M. Pest, English; Mrs. J. W. Trapp, education; Sam R. McInnis, chemistry and biology; Miss Janie Peavy, home economics; Mrs. Kate Allen Horn, assistant in Spanish; Miss Katherine C. Watson, oratory and physical training; Miss Carmen Anderson, piano, theory and harmony; Miss Virginia Hardy, voice and public school music; Miss Mae Brannon, violin and piano, director of orchestra; Mrs. J. L. Wiley, art; R. E. Blair, director of athletics and student activities; Roy White, assistant coach; Miss Alta M. Craig, registrar; Mrs. H. I. Hunter, matron girls' dormitory.

MAILING OUT PRIZE CHECKS

Checks for premiums in all divisions of the Brown County Fair are being mailed to the winners today. The checks include winners in all livestock, agriculture, home demonstration and other branches where cash awards were made. The checks are being mailed for one half the stated premiums at present. The other half will be awarded later.

Hilton Burks, secretary of the fair said that the association, because of financial difficulties was not able to send the total checks at present, but was considering some plans by which to obtain more money. The officials of the fair thought it best to send a portion of the premiums now and let the rest wait for some time, rather than to attempt whole settlement or no settlement at present.

The payment of only half the premiums at present is only in line with the reduction of 25 per cent of the race programs before the opening of the fair, it is pointed out.

BANGS SCHOOL OPENS MONDAY

Bangs public schools will open Monday morning, September 8, at 9 o'clock, according to announcement made by Superintendent R. M. Wedgeworth. He states that the school will open this year with the largest and best faculty that the school has ever had and that a very successful term is anticipated by the patrons of the school.

The enrollment in Bangs school this year is expected to exceed four hundred students, or an increase of over one hundred pupils over the enrollment of three hundred and eight pupils last term, said Mr. Wedgeworth. The consolidation of Mount Zion, Sand Creek and Thrifty school districts with Bangs has meant a larger enrollment and makes possible the larger and better equipped faculty. Three large school buses will be operated this year for the purpose of bringing the pupils from the three districts in to Bangs school.

He also announced that now the school has a total of eighteen and

one-half credits in various subjects, owing to the receiving of several additional affiliated credits this summer.

Matriculation and entrance examinations will be given to the students entering Bangs school from other districts. Mr. Wedgeworth says that the preliminaries will be finished on Monday and the regular schedule taken up as soon as possible after the opening day.

All members of the high school faculty this year hold degrees, and are well equipped, says Mr. Wedgeworth. The faculty is as follows: R. M. Wedgeworth, superintendent; W. C. Mitchell, principal; Miss Rosa Jean Tannahill, Miss Myrtle Fowler, Miss Gwendith McDonald, Urban Schultz, J. D. Williams, Miss Myrtle Lilly, Mrs. W. C. Mitchell, Mrs. W. W. Pulliam, Miss Elizabeth Lovelace, Mrs. F. R. Early, Olan P. Snyder and Miss Mary Glyn Nunley.

Foreign banks in Paris draw much French trade because they keep open during the lunch hour, unlike French banks.

Equestriennes never like to hit the open road.

HOWARD PAYNE GRID MENTOR IN CAR WRECK

McAdoo Keaton, assistant football coach at Howard Payne College the past two years, was dangerously injured about 8 o'clock Monday morning about five miles east of Zephyr when his light coupe collided with another car. Coach Keaton, accompanied by Bob Pettis, a member of Howard Payne's 1928 and 1929 championship eleven, was returning from Lampasas at the time of the accident. Keaton sustained several broken bones about the face and was perhaps internally injured. Attendants at the Brownwood Hospital state Keaton was rushed to the hospital in a car that drove up immediately following the collision.

Attendants had not definitely determined the extent of his injuries at 2:30 Monday afternoon, other than to learn that he is dan-

Brownwood Offers Many Advantages to the Students

Brownwood offers to the young people of Central Texas educational advantages that can not be surpassed anywhere. In addition to the fully accredited High School and the two standard Christian colleges, Howard Payne and Daniel Baker, Brownwood offers an educational and cultural atmosphere that is developed through the sympathetic co-operation of the people with the city's institutions. Young people educated here not only have standard literary training, but also enjoy the benefits of association with educated, cultured people who are actively interested in the welfare of those who attend this city's schools.

DANIEL BAKER COLLEGE

Independence Fully Assured

Through the co-operation and help of Brownwood's citizens and enterprising merchants, this institution is better equipped and financially stronger than ever before, which enables us to give special attention to every pupil and devote every energy toward the moulding of character of young men and young women, in this section of the state.

It will continue as a HIGH STANDARD, SENIOR COLLEGE, with all work fully recognized by the State Department of Education for Teachers' Certificates and by all Colleges and Universities in transfer.

HILL BILLIES LAUNCH GRID WORK MONDAY

Football practice for the 1930 grid season at Daniel Baker College will begin Monday, Sept. 8, according to announcements from R. E. Blair, athletic director of the college. Mr. Blair has served as athletic director and head coach at Daniel Baker since September 1925 and under his tutelage, Daniel Baker has garnered two T. I. A. football championships, two T. I. A. A. basketball championships and one T. I. A. A. basketball title. Mr. Blair will be assisted in foot-

ball this season by Roy White, another alumnus of the school and one of the greatest all around athletes ever to attend the Brownwood college. In addition to coaching the backfield in football, White will serve as head track coach.

Approximately fifty athletes will greet Coaches Blair and White at the first practice session Monday and this group will include a liberal supply of veterans, a number of capable reserves and a flock of new material.

The Hill Billies face a stiff schedule this season, one that calls for five T. I. A. A. games, three clashes with Texas Conference schools and an inter-sectional clash with Loyola University at New Orleans. One of the big features of the 1930 football season at Daniel Baker will be the inauguration of nocturnal football. A complete lighting system for Kirkpatrick Field, home of the Hill Billies, has been purchased and will be installed for the opening game, Sept. 26.

—"WHERE EVERYBODY IS SOMEBODY"—

Brownwood, One of Texas' Most Outstanding School Towns

For forty years Brownwood has been an educational center. The two standard colleges here represent a tremendous investment of money for buildings and equipment, but they also are monuments to the sympathetic support of the people for the ideals of education which are constantly maintained in these colleges. In the development of its public school system Brownwood has not spared either money or energy. More than one-half the bonded indebtedness of this city is for school purposes, and almost every year there is an enlargement of public school facilities. Brownwood, therefore, makes no idle boast when it claims to be an educational center, whose facilities for educational work, from the elementary grades through the standard college courses, can not be surpassed anywhere.

- Nov. 11—St. Edwards U. at Austin.
- Nov. 19—Texas Tech at Brownwood.
- Nov. 27—Southwestern U. in Brownwood.

HOWARD PAYNE GRID SEASON OPENS MONDAY

Athletics at Howard Payne College for the school year of 1930 and 1931 will be in the hands of J. H. (Cap) Shelton, athletic director and head track coach, Joe Bailey Cheaney, head football and basketball coach, and McAdoo Keaton, assistant football mentor. The 1930 football season will be duly inaugurated Monday, Sept. 8, when the first practice session of the current campaign will be held at Howard Payne Park. Coach Cheaney expects to have a squad of

at least fifty on hand for the first day's practice.

In this number will be included all of last year's championship team except four regulars, Buster Brown, Sloppy Shelton, Pug Sandevlin and Jimmie Fields, captain of the 1929 champions. In addition there are a number of promising reserves coming up and a flock of freshmen prospects.

The Jackets face a ten game schedule in football this season, the schedule including the usual five games with other Texas Conference members, a game with the Southwest Texas Teachers of the T. I. A., one with Texas Tech and games with S. M. U. and Texas of the Southwest Conference.

Howard Payne has purchased a complete lighting system for Jacket Park and will inaugurate night football this season. The first nocturnal exhibition will be staged on the night of Sept. 19 against McMurry College. The complete Howard Payne schedule is given on another page of this section.

DROUGHT AID DELAY VEXES MOODY; ASKS DEFINITE STEP

AUSTIN, Sept. 2.—(P)—Dissatisfied with the trend of federal aid for the drought stricken counties, Governor Dan Moody announced today he had asked Chairman Legge of the Federal Farm Board whether production credits could be obtained from the board.

"I don't see the degree of definiteness in the matter of government aid to drought sufferers that I had hoped to see," Moody said. He explained that he had hoped for immediate financial aid for farmers.

The only action the government seems to have taken, Moody said, was the proposal for establishment of credit corporations. He pointed out that such corporations would require security or collateral which farmers in Texas would not be able to furnish.

He asked Legge, the Governor said, to advise him if such loans could be obtained and, if so, the plan that must be followed. That loans would be practical was proven in 1918, the Governor said, when advances made farmers by the state were repaid in nearly all cases.

The governor announced that he had received a communication from a group of bankers suggesting that they could cooperate in the "buy a bale of cotton" movement by purchasing cotton at 15 cents a pound from their capital. The amount suggested, he said, was two per cent of their capital. This group promised to inaugurate the movement and expressed the hope that other banks would follow.

Other than to say the bankers were a group of Texas bankers, the governor would not disclose the identity of the signers of the communication.

AUSTIN, Sept 2.—(P)—Official definition of what constitutes the drought stricken areas of Texas was awaited by the State Railroad Commission today before taking steps toward making effective reduced freight rates on livestock and livestock feed.

Representatives of Texas rail lines telegraphed the commission asking approval of a 33-1-3 per cent reduction in the tariff as an emergency measure for drought relief, after a meeting in Dallas Saturday, but the commission, while willing to reduce tariffs for the duration of the drought or as long as needed, cannot issue the tariffs until it learns where the rates should be effective.

The railroad men were advised to inform the commission where the reductions were wished, but no answer had been received today.

The railroads asked reductions on feed and on livestock moving from barren to fertile ranges. It was specified that the rates would not apply on livestock moving to market or feed lots at markets.

Beautiful Custom
The Daughters of 1812 have a beautiful custom of paying tribute to members deceased during the year at the national convention. As a short eulogy is given, a page places a flower in a star for each name on the list.

Peculiar Fruit Raised From Seed At Brownwood Home

Miss Mayesie Malone, county home demonstration agent, was showing at her office Saturday a fruit very peculiar in this country. It was several specimens of the Chinese Jujube fruit which she took from trees growing at her home here.

The fruit is small, pear-shaped and dark red color. The average length is about one and a half inches and the fruit measures about one half inch in diameter. The trees grow to about eight or ten feet high and are covered with small dark green leaves which are evergreen.

The trees are also noted in some countries for their value as hedge shrubs. The trees are planted in the fall of the year like other deciduous fruit trees. Their blossoms are white.

Miss Malone received the seeds of the trees through the Agriculture Department at Washington about 8 years ago, shortly after she had started her work in Brown county. She planted the seeds and the trees have flourished in this climate, she states. There are only one or two other trees of this variety in the county, although Miss Malone distributed the seed sent to her among several people.

She says that the fruit is fairly good for preserves, pickles and other canning purposes, as well as for preparation for immediate use. It tastes something like a variety of fruits mixed, like apples, pears and dates and the meat of the fruit is very dry.

Miss Mary Ellen Hall Graduate Of Ohio University

Included in the list of graduates from the University of Ohio for the summer term was the name of Miss Mary Ellen Hall, daughter of Mr. and Mrs. Ira Hall of 811 Booker street. Miss Hall entered the university three years ago and has been studying in that institution since that time. She spent one year in Daniel Baker College here before transferring to the Ohio institution. She specialized in business administration and has been spending her vacation at Macy's in New York City where she received actual experience in her chosen work.

The graduation exercises were held on August 29 and a record breaking class was awarded degrees for various academic studies.

Worry
If you worry about the possibility of getting ill, you will be ill. The mind affects the body, lowers its power of resistance, and makes it "receptive" of disease germs. To keep well, don't worry.

PERMITS FOR EIGHT MONTHS ARE \$765 957

Despite the fact that the year of 1930 is supposed to be, and perhaps is, a year of financial depression, a total of more than three quarters of a million dollars has been spent in building in Brownwood since January 1, a summary of the first eight months building in the city as prepared by Henry Mount, architect, reveals.

In fact, the year's total is \$765,957, enough to warrant a prediction that the twelve months ending December 31 will see building permits aggregating near the million dollar mark, which according to business leaders of Brownwood, is far from being unsatisfactory for a city of 15,000 population.

Permits for the month of August total \$64,000, the month's total including cost of building the Woodland Heights school, a barrel factory, a fire station in North Brownwood, one gasoline service station and several major repair jobs.

GRAND JURY IN PROBE OF TAYLOR CASE

SAN ANGELO, Texas, Sept. 2.—(P)—A grand jury today investigated the fatal shooting of Cecil Taylor, automobile dealer of San Angelo and member of a prominent San Saba county family. He was shot yesterday at the home of Mrs. Taylor's parents on the Jacoby ranch near Eden and died at a hospital here.

Mrs. Taylor told officers she was threatened by Taylor, from whom she had been estranged several months, and, with a brother, Boyd Jacoby, was placed under technical arrest after having preliminary hearing while a grand jury at Paint Rock considered the case. Officers said two bullets found in Taylor's body were fired from different pistols.

Mrs. Taylor said her husband called at the ranch house about 1 1/2 p. m., and told her mother, Mrs. J. H. Jacoby, he had come for his wife. He then entered the house, she said, and the shooting followed. Officers said a screen had been torn from an entrance to the house, and the interior of the hall was disarranged.

Taylor was conscious when first brought to San Angelo and recognized his parents. While he made no formal statement, he declared repeatedly, "she didn't do it."

G. F. WEAR, VETERAN INSURANCE AGENT, DIES HERE SUNDAY

George Francis Wear, 75, for 34 years a citizen of Brownwood, died early Sunday morning in a Brownwood hospital following an illness of several days duration. Mr. Wear had been in the insurance business in Brownwood for many years and at the time of his death was agent for the State Life Insurance Company of Indianapolis, Ind.

George Francis Wear was born June 18, 1855, in Tennessee but came to Texas in early life. He and his family came to Brownwood in 1896 and since that time he had been active in business, civic and church circles. He was a member of the Austin Avenue Presbyterian Church, being a charter member of the congregation.

Mr. Wear is survived by his wife and three children, two daughters, Hallie and Catherine Wear and one son, W. P. Wear of Dallas. One brother, Judge W. C. Wear of Hillsboro and two sisters, Mrs. Mattie Cummings of Dallas and Mrs. Sallie Pitt of Houston, also survive.

Funeral services for Mr. Wear were announced for 4 o'clock Monday afternoon from the Austin Avenue Presbyterian Church, with a Rev. Mr. Moore, officiating. Burial will be made in Greenleaf cemetery with McInnis funeral directors in charge.

Active pall bearers will be: Arthur Bell, W. H. Thompson, Dr. J. W. McFarland, P. B. McElroy, Ralph Counts, H. R. Kaneaster, S. H. Bass and T. H. Hart.

Club Council to Meet Saturday

Brown county home demonstration club council will meet Saturday, September 6, at the court house for the purpose of discussing plans for the year's work, according to Miss Mayesie Malone, county home demonstration agent. She says that several communities have asked for clubs and that the matter will be discussed at the meeting.

Miss Malone was to meet with the Bangs club this afternoon. Club meetings at Clear Creek on Wednesday and at Barber on Thursday were also scheduled.

Farm Residence Razed by Fire Of Unknown Origin

Fire of unknown origin destroyed the home of John Mitchell, one mile south of Concord at 8:30 Friday morning. The house and contents were a total loss. Mr. Mitchell and his family were in the cotton field nearby when the flames were discovered but by the time they reached the house the fire was beyond control.

The building was owned by J. A. Pike of Brownwood who in company with his son, motorcycle officer Jack Pike, left here Friday morning for the scene of the fire. They returned late Friday afternoon and it was then that the news was known in Brownwood.

The building was valued at about \$1,200 and the furniture at about \$300. No insurance was carried on either building or furniture. The farm is located about 17 miles from Brownwood and about 9 miles southwest of Bangs.

Chicle handled in 1929 via the Mississippi-Warrior barge line totaled 2,877 tons.

FIFTH ARREST SUNDAY LAW VIOLATION

Chief of Police Bert Hise arrested J. C. Tunstall, Sunday afternoon for violation of the Sunday law, on the opening of the Lyric Theatre for a Sunday show. Mr. Tunstall was allowed to make bond.

The time of the trial has not been set, according to City Attorney R. E. Lee, but he stated that he believed it would be sometime during the present week or the first part of next week. This is the fifth arrest for the violation of the Sunday law, due to the operation of the Sunday show.

Of the other cases, two were in city court and two in justice court. The former city court cases have resulted in one conviction, with a fine of \$20 and costs, and one acquittal. Of the justice court cases, one resulted in a fine of \$50 and costs and one is still pending. The latter is on the charge of operating the Lyric on Sunday, August 24, and is to be tried this week.

CHECKING GOVERNMENT PROPERTY IN HANDS OF PRIVATE INDIVIDUALS

All government property being held by individuals must be accounted for during the next 15 days according to Gus Rosenberg, captain of Company A of the Texas National Guard. Mr. Rosenberg said there were many dollars worth of property in the hands of the public at present and also in the possession of guardsmen.

In an effort to find much government property which has been stolen or otherwise left headquarters units this move is being made. All guardsmen in Brownwood are being sent letters to return their stuff to the captains before September 15, so that it can be checked. These letters are being sent to all present and past members of the guard.

If any private citizen has property belonging to the government he must be able to show a receipt for its purchase or give a satisfactory explanation of its purchase. If anyone has property which was not issued and who cannot show a satisfactory receipt the property will be confiscated. Mr. Rosenberg said those who held any government property and who did not return it would be subject to charges in Federal court at San Angelo and that they would receive the penalty for the offense.

"This may sound bad that we are taking up all government property which is in the hands of individuals and in many cases purchased in good faith but that is orders from headquarters and we are forced to act. We don't want to offend anyone, but the best method to follow is to notify us where the property was purchased and show a receipt so that we may check this source," Rosenberg says.

"The armory here was broken into some time in 1926 and a large quantity of goods stolen, and this happened in many places. We are not the only ones who are taking government property and checking on what is in the hands of individuals, but it is being done everywhere and I believe that before it is ended some cases will be filed in the Federal court."

Those who have at sometime belonged to the guard here or who are now members, or any private citizen who has government property, are asked to leave it with either Lieutenant Rex Gaither at his place of business or give it to Captain Rosenberg during the next 15 days. A large amount of the guard property is already in their hands and more is being taken daily.

SUNDAY SCHOOL ATTENDANCE FOR AUGUST 31st.

The total attendance reported by the various Sunday schools of Brownwood for August 31, was 2,847 or 106 more than the number reported on the previous Sunday. This report exceeds the number attending Sunday school on the last Sunday in August a year ago by 365, the total attendance on that date being 2,482.

Sunday School	Attendance
First Baptist	496
Central Methodist	440
First Methodist	430
Coggin Avenue Baptist	342

Edwards Street Presbyterian	38
Total	2,847

One walnut tree imported from Chile nearly 60 years ago started an industry that now spreads over 5,000 acres in Santa Barbara county, Calif.

Swindle Receives Notice Per Capita Allotment \$17.50

The per capita apportionment from the state schools during the coming year will be \$17.50. J. Oscar Swindle, county superintendent, was informed in a letter from the state department of education received Saturday afternoon. Brown county has a total of 6,985 scholars who will be counted in the apportionment, Mr. Swindle said.

This allotment is the same as given last year and the whole will be practically the same. The admission of children who are six years old into the list of scholars will add several to the county total as the students seven years or over were the lowest counted last year. There will be some 100,000 more students counted in the per capita allotment in the state this year than last because of the six year age limit.

In Brown county the allotment will be made as follows: The city schools will receive allotments for 3,234 scholars; Bangs, the other independent district in the county will receive payments for 385 students. The common school districts which includes all rural schools, both elementary and high schools will receive allotments for 3,276 scholars.

R. L. Coffee Is Struck by Auto

R. L. Coffee, who lives seven miles northeast of Owens, suffered a broken leg, two broken ribs and minor bruises Monday afternoon when an automobile driven by a Mr. Jackson, automobile accessories salesman, struck him as he was crossing South Broadway Street in front of the court house.

Mr. Coffee was taken to the Central Texas Hospital where treatment is being administered. He stated that he was crossing the street in front of the court house when the accident occurred and did not see the automobile until it was almost upon him. He tried to catch the radiator, but the bumper of the car struck his left leg and threw him back against the pavement. He stated that the street was so crowded that Jackson did not see him just as he has not seen the car. Mr. Jackson helped Coffee to the hospital and saw that his injuries were treated.

Hospital attendants state that Mr. Coffee is resting as well as could be expected today.

Georgia's first tobacco warehouse was built in 1786.

VERDICT FOR \$12,438 SET M'INNIS SUIT

The county court jury which heard the trial of the Brown County Water Improvement District No. 1 vs. Mattie McInnis et al returned their verdict for \$12,438 Friday afternoon at about 3:30 o'clock. The suit was the fifth of a series of eight brought by the water district. There was a total of 198 acres of land involved in the deal and the jury was asked approximately 30 specific questions concerning the case.

The award was as follows: \$11,880 for the larger tract and \$560 for another tract. The jury allowed \$198 for the oil lease and royalty on the mineral rights of the land damaged. The average price per acre is approximately \$62.71.

The special commission appointed by Judge E. M. Davis and which investigated the case earlier in the year returned a verdict for \$8,177.50 for the 198 acres. Judge Davis today said that the Water Board offered the interested parties \$10,500 for the land before the suits were started.

The land lies below the spillway of the dam and there is a total of 137 acres in cultivation and 61 acres used for grazing. There is a total of 25 acres which will be subjected to occasional flooding and 178 acres which will be damaged to some extent by severance, according to D. W. Ross, water district engineer.

The special commission appointed by Judge E. M. Davis and which investigated the case earlier in the year returned a verdict for \$8,177.50 for the 198 acres. Judge Davis today said that the Water Board offered the interested parties \$10,500 for the land before the suits were started.

Receives Injuries In Gin Accident

E. T. Garmon, Route 4, Brownwood, received quite painful bruises and cuts on his face Saturday afternoon at 3 o'clock when a press lever at the McDonald-Moore gin, where he was working, flew back and hit him on the nose and side of his face, knocking him unconscious for several minutes.

Injuries were a deep and painful cut on the right side of his nose, a blackened eye, minor cuts on his face and the whole right cheek bruised.

Mr. Garmon was immediately taken to the Central Texas Hospital where treatment was given. Although he is able to work today he is still receiving treatment at the hospital. Doctors state that the injuries are not serious.

Land Yielded by Mexico
By the treaty of Guadalupe Hidalgo, which ended the Mexican war, the United States acquired possession of the territories of New Mexico, Arizona and California—some 800,000 square miles.

Howard Payne— (CONTINUED FROM PAGE ONE)

generously, but not necessarily fatally injured. In fact, his physicians stated Monday afternoon that Coach Keaton will likely be up and going when football practice starts at Howard Payne next Monday.

Bob Bettis, who was with Keaton this morning, escaped uninjured. Bettis stated that something apparently went wrong with the steering gear of Keaton's car, in that it swerved abruptly to the left as the other car, owned and driven by a Mr. Kilgore, approached. Bettis stated that the accident was entirely unavoidable.

Keaton's car plunged into a ditch on the left side of the road and Keaton was thrown from the car. His head struck the windshield and the steel bar used to raise and lower the windshield tore an ugly gash on the left side of the face, cutting his lip in two and badly

mutating the cheek, fracturing and breaking several bones of the face.

Mr. Kilgore and three others were to the Kilgore car and all escaped injured. The Kilgore car ploughed into the ditch on the right side of the ditch and was badly wrecked, as was Keaton's car.

Session Is Held By Commissioners

A short session of the commissioners court was held Monday morning. Only minor matters were discussed and all business was disposed of before noon. County bills were read and many were approved for payment. Some charity matters were discussed and other routine matters taken into consideration. Funds were placed in escrow for state aid on two highway projects, including work on Highway No. 10, South. The funds will be placed at the disposal of the Highway Department.

Sunlight at Night

With This New INSTANT LIGHT

Aladdin KEROSENE MANTLE LAMP

BURNS 94% Air

No longer must people using oil for lighting in their homes be condemned to live in semi-darkness. This new Aladdin burns kerosene and will fill every crook and cranny of any home with a radiance beautiful to behold—as cheery as the sunlight of June, and the nearest of all others in quality to it. Economical too—saves its cost over the old way in a few months—and continues to save for a lifetime.

Aladdin light is white, brilliant, yet soft and restful—just the right intensity for ease and comfort in sewing, reading, studying or house work of any sort. Burns without a trace of noise, smoke or smell. Absolutely safe—a mere child can run it. Priced within the range of every purse. A home lighted by Aladdins is indeed a pleasant place in which to live and to visit.

Come In and Let Us Demonstrate This New Aladdin

The Aladdin Lamp

is made in all popular styles with beautifully decorated shades in GLASS and PARCHMENT.

This wonderful ALADDIN is available in table, vase, hanging, bracket and floor lamp styles with handsomely decorated shades in parchment and glass. The light will glorify and the shades beautify any home.
