A visitor at our school would find us busy at work making little Easter baskets to be used as table favors. These will be sent to an orphan home. Each little basket will contain candies and little Easter chickens. We hope the children at the orphan home will enjoy them as much as we enjoyed making them. This project is a part of our Junior Red Cross work.

The students are again confronted with tests. They come sooner this time, owing to the six-day a week schedule. For the seniors it is the second last time that they will worry about tests. The graduation song has arrived, and every Wednesday and Friday finds the seniors practicing most diligently to make this song a big success.

The senior-Junior Church History Class had a very interesting assignment. Each student made up ten questions on vocation. Sister Theresa answered them. These questions took the place of a six-weeks' test. They created much interest among the students, especially such as regarded the marriageable age, and those of that type.

On Wednesday the boys are to play a softball game with St. Mary's of Gainesville. The boys are hoping to bring back their second victory for this season. Last week they played against the Public School and won by a large margin.

Some of the male members of the sophomore class are practicing a very short one-act playlet entitled, "His Financial Career". It will be presented in a program honoring Father Frowin on his Feast Day on Friday. The play was taken from an essay and converted into a play by several sophomore girls. The girls also have a part in the program. They will read a poem, "Dust", written by Sister Mary Angelita. We all wish to express our heartiest congratulations to Father Frowin, and may he have many more happy Feast Days.

Word from the State tells us that examinations will be held April 29 and 30, and May 1 and 2. We all intend to pass these tests so from now on you won't see us wasting any time.

Dossie and Bill Hamilton are now absent on account of the mumps. We hope no others will contract the disease.

California. . . . Several pupils were absent Saturday. Could it have been that Easter shopping had anything to do with it? . . . One of Mr. Gray's history classes was working on modern transportation. One of the assignments was to write a composition on their idea of travel in 1984. Evidently the class is aware of rubber shortage because one essay predicted a future of horses and buggies. . . . The third grade was studying singular and plural nouns. One boy wrote on a test paper a word meaning "three" ends in "ing", for example: one egg, two eggs, three eggs. . . . We expected to have Betty Hamilton back with us this morning, but the mumps seems to have a good grip on her. She's been absent over a week. . . . We're glad to have Pat Stelzer back in school this week, after being home with the mumps. Now Ellis Burt from Miss Luke's room is absent with the same disease.

The Bookmobile was here Thursday. The shows were "Army Maneuvers" and "The Bringing Back of the Buffalo." Both were very timely and informational shorts.

FATHER-DAUGHTER PROGRAM PRESENTED BY SODALITY GIRLS

Father-Daughter evening was observed here on Thursday, the feast of St. Joseph, when members of the Young Ladies Sodality entertained their fathers with a program in the parish hall.

Two one-act plays were presented by sodalists and the Muenster Youth Band gave a number of selections. Miss Helen Hess gave an appropriate address. Rev. Father Richard, spiritual director of the society, spoke and Mayor Ben Seyler delivered a short address.

Krank Klement, Ben Seyler and W. H. Endres received prizes as the "oldest", the "youngest" and the "father with the most sodalists", present at the affair, respectively.

Not only the girls and their dads were present at the program, but also the mothers and other members of the family, making it a get-together that was enjoyed by a considerably large group.

The United States Government's Consumer's Pledge for Total Defense

★ "I will do my part to make my home, my community, my country ready, efficient and strong."
 ★ "I will buy carefully."
 ★ "I will take good care of the things I have."
 ★ "I will waste nothing."

Helping to win a war

THE HOUSEWIVES OF AMERICA are a vital factor in this war. In the program to make America strong by making Americans stronger they are the guardians of the nation's health.

NUTRITION IS YOUR BUSINESS because good health and energy are imperative. To help do your bit toward building your family's health, serve well-balanced, vitamin-rich meals. It isn't enough just to select the right foods at the market, for many of the health-giving vitamins may be lost if the food is cooked improperly.

"I WILL WASTE NOTHING"—Pledge yourself that the vitamins in the food you buy actually reach the family table and you'll be helping to win the war.

Vitamin-saving is easier with modern GAS cooking

- ★ Use little water in cooking.
- ★ Cook vegetables for the shortest possible time.
- ★ Cover utensils to keep air out.
- ★ Avoid unnecessary stirring of vegetables.
- ★ Don't put in baking soda to brighten food colors.
- ★ Don't throw away vegetable liquids—use them in soups or cream sauces.
- ★ Start vegetables in boiling water.
- ★ Keep foods as fresh as possible—use dependable automatic refrigeration.
- ★ Serve plenty of green vegetables.
- ★ Serve foods soon after cooking.
- ★ Broiling is preferable to frying to retain vitamins.
- ★ Low-temperature roasting saves vitamins and minerals.

POWER—where it's needed!

The amphibian tractor—a startling product of American industrial ingenuity—delivers military power where it will do the most good.

The electric network—another example of industrial resourcefulness—connects hundreds of operating electric companies and delivers electric power at points of need.

Built up by the business men who manage America's electric companies and produce 3/4 of America's power, this nation-wide web of electric lines has proved its vital value in the

war emergency—by providing power for tank and plane plants, shipyards and arsenals almost anywhere overnight.

The careful, planned production of electric power will continue—we pledge it—until the war is won—until America's tractors turn from dealing death to planting peaceful fields.

Lindsay Observes 50th Anniversary of Parish With Special High Mass

Lindsay.—On Wednesday, the feast of the Annunciation of the Blessed Virgin Mary, a special high mass was celebrated at Saint Peter's church here, commemorating the 50th anniversary of the founding of the Lindsay parish. It was on March 25th, fifty years ago that the first mass was said in the new colony.

Members of the Lindsay parish are planning a gala jubilee celebration that will be held the first week of July if present plans materialize.

OSCAR ZWINGGI MADE A SERGEANT

Lindsay.—Oscar H. Zwiggel, 22, son of Mr. and Mrs. Leo Zwiggel of this community, was recently promoted from private, air mechanic, second class, to sergeant at Kaye Field, Columbus, Miss.

He was promoted at the request of his squadron commander because of his superior ability, efficiency and devotion to duty. Sergeant Zwiggel is now a non-commissioned officer in the air corps, assigned to duty as an airplane mechanic for a school squadron at Kaye field.

"VOCATION BANNER" BLESSED THURSDAY

On Thursday, March 19, preceding afternoon services in Sacred Heart church, Rev. Father Richard blessed and dedicated a "Vocation Banner" honoring all former members of the parish who have consecrated their lives to the service of God in religious vocations.

Father Richard spoke encouraging words to the youthful listeners by holding up as a model the 47 who are represented on the banner by four gold and 43 white stars placed on a large V in red on a white background, bordered with stripes of blue.

This banner was raised in church opposite the recently erected Service Flag.

Confetti--

(Continued from page 1) That shooting will have to be done on a substitute date. What was done on the following days, and how much more will be done before I'm permitted to leave is a matter for guesswork.

It was disappointing to leave the gang just as they were preparing to fire for record. Almost all their work of the preceding week pointed to that event. Their talking likewise centered around it. In addition to that there was a good deal of inter-company cross-fire regarding which of the platoons would show up with the best score.

Our Sarge said he'd buy us a keg of beer if we won. For all I know I may have missed a dandy beer party. On the other hand he offered some mighty lousy kicks in the pants to everyone who did not score at least for a marksman. — While I think of it, here's a correction on some figures this column had wrong last week: Marksman, minimum of 134 points; sharpshooters, 168; expert, 178. Still fancy shooting but not as tough as those other figures demanded. — Very likely I'd have fallen under the 134 and took part in "boot behind" party. That's the kind of shooting I did on the previous day's practice. 66 out of a possible hundred, which would have been not good enough.

Yes, sir, I certainly hate to think of missing all the spare chatters around the platoon after the rifle firing. All the griping and excuses and bragging. I hate that I myself, can't add my share to the bull session. I hate to think of missing the raspberry some fellows got for not coming up to their predictions.

Oh, well, this isn't likely to last more than another few days. Then I'll get to appreciate being a regular buck private again.

Produce MORE COTTON Because Cotton Production Is Patriotic Secretary of Agriculture Claude R. Wickard has issued an appeal to the nation's cotton farmers to plant 4,000,000 acres more cotton in 1942 than in 1941—to plant the full legal acreage allotment. America and its allies need more Cottonseed Oil for food, Cotton Linters for munitions, Cottonseed Meal and Hulls for livestock feeding, and Lint Cotton of certain staple and grades, for the successful prosecution of the war effort. Cotton is the ONLY crop that supplies ALL of these essentials. Because Cotton Production Is Profitable You, from your own experience, know that cotton is a most dependable crop for this section. You know that you can count on lint cotton and cottonseed to provide ready cash; and you know that the value of lint and seed has been very favorable in recent months. You've PROVED that you can grow cotton—and cotton has proved that it's a money-maker for you. It will pay you, this season, to plant every acre permitted under the AAA legal allotment; and to produce every pound of lint and seed that you can on these acres.
