

MAKES THICK LADYFAST HERE THIS MORNING

By The Associated Press
Snow that started falling yesterday in parts of West Texas continued in those sections today, while nearly every other part of the state reported rain.
In most cases, the snow melted as fast as it struck the ground, but the areas around Colorado City, Coleman and Throckmorton were reported under a white blanket. Temperatures in all sections were reported above the freezing point. The moisture was expected to benefit crops and ranges, and in some parts it broke through of several weeks.
Snow Western Areas
The snow that was confined wholly to western areas yesterday had entered Central Texas today. Georgetown reporting sleet and snow with the temperature a few degrees above freezing. Highway travel in that area was made dangerous by an icy slush.
Other places reporting snow included Cisco, Stamford, Brownwood, Brownfield and Mayranel in Nolan county. Rain fell in Dallas, Corsicana, Wichita Falls, San Angelo, Austin, San Antonio and Sweetwater.
Cloudy skies were reported at Galveston with north wind blowing. The temperature was 49 degrees.
Snow or rain was forecast again for West Texas tonight, while rain was predicted for East Texas.

SCOUTS HOLD FIRST ANNUAL KITE CONTEST

A large gathering of Scouts were present at Coggin Park Saturday to witness the first annual kite flying contest among the scouts. All sizes, and shapes, and colors were displayed in the types of kites flown by the scouts. Below is the list of high flyers. Those who had lower records are not listed.
Class A, kites not exceeding 24 inches extreme measurement:
Reese Price, distance 600 feet, altitude 409 feet.
Jack McClendon, distance 640 feet, altitude 334 feet.
Ed Boler, distance 640 feet, altitude 263.
Louis Winebrenner, distance 600 feet, altitude 234 feet.
Boler Swindle, distance 800 feet, altitude 234 feet.
Class B, kites not exceeding 42 inches extreme dimension:
J. H. Ragsdale, Jr., distance 1500 feet, altitude 658 feet.
Louis Winebrenner, distance 640 feet, altitude 554 feet.
Louis Winebrenner, distance 1200 feet, altitude 582 feet.
Reese Price is the winner in class A, and will receive an Eversharp pencil from Dublin & Canon, J. H. Ragsdale, Jr., is the winner in class B and will receive a fountain pen from Dublin and Canon.
Robert Milligan, office engineer of the highway forces, was the judge during the contest.

Cock Fighting and Liquor Traffic Scored by Judge in Grand Jury Talk

When the grand jury of the 35th Judicial Court reconvened this morning after their second recess of this session to consider matters brought before them by the officers Judge E. J. Miller called them into the district court room and told them that there were two matters that had arisen since their adjournment last week to which he wished them to give special attention.
"First," the judge said, "You have brought before me a number of papers, the sheriff and his deputies found in the north end of the county on last Sunday a large party of gamblers, drinkers and criminals conducting cock fights in violation of the law and in defiance not only of law but of good morals, in defiance of the sentiments of all decent citizens in total disregard of the welfare of the country. Every person who participated in such cock fights and the gambling incident thereto violated the law and should be punished."
"Any person or persons who promoted same or permitted same to be conducted on their premises should be in the penitentiary. And if it requires a week of your time to thoroughly investigate this and indict every man in any way connected with it against whom evidence can be gotten such time will be well spent."
"Certainly such action should be taken by the Grand Jury and by the Courts and officers as to give outlaws, libertines, gamblers, and all those who seek to defy law, defy decency and defy all customs and conventionalities of civilized society that Brown county will not stand for such conduct. Persons who have no more regard for the welfare of their country, its laws, ideals and institutions really ought to be banished to the wilds of Africa."
Crime Grave Concern
"Second, it is a matter of very grave concern that there is more crime in this country and less respect for law at this time than in any civilized country on the globe. It is by some attributed to the psychological reaction following the war and war conditions, but I doubt if it can be maintained as unquestioned records show that while this country has a great many more crimes, criminals, and prisoners than it ever had before the war, yet both England and France, though much worse torn and disturbed by the war, have a great deal less crime, prisoners and criminals than they had prior to the war. Throughout the history of this country, and likely all other countries, the liquor traffic has been responsible for a very large proportion of all crime, and in my judgment the liquor traffic is more largely responsible for crime and criminal conditions prevailing in this country, and especially in this locality, than anything else put together."
"If a practical case which will be called to your attention is that of a woman whose place—called a home—was raided by the officers since your adjournment and some hundred bottles of beer containing about five per cent alcohol was found and evidence has been obtained and try to teach and instill into the mind and conscience of all citizens and on-coming generations a greater respect for law, for the standards of civilized communities, and decency, and to force outlaws, moral perverts and libertines to obey at least the laws of the State and the Nation."

HIGHWAY NO. 10 PLANS NEXT TO BE COMPLETED

Plans have been started on Highway No. 10 south to the McCulloch county line, it was stated Monday morning at the office of Leo Ehlinger, engineer, and it is expected that they will be completed about the first part of June and ready to submit to the State Highway Department. Plans are completed on the strip of highway No. 7 to the Coleman county line and all is now in readiness for the highway department to let the contract for the grading and structure work on this road. It was said that the contract work on this part of the road would be let sometime during April or the first part of May with work starting immediately if possible.
With the letting of the contracts this week for the building of Highway No. 129 from Owens to the Eastland county line it is thought that the actual construction work will start about April 14th on the structural work along the route of the road surfaced road. In the contract the builders of the large structures are allowed 170 working days to complete their work and the builders of the small structures are allowed 185 working days.
Highway 10 Grading
Grading work on Highway No. 10 toward the Coleman county line has been completed to a point about three miles from town and at this place the work can be watched from the third story of buildings in town. Ten miles has been completed and the rest will be finished soon. All small structures are already built and the large structures will be completed next week. The contractor on this thirteen mile strip had 145 working days to complete his work and some of his time came during the severe weather here recently, but he is finishing before his allotted time.
This highway will have a concrete crown of thirty feet and a gravel edging of several feet when completed to a point near town and from that place to the city limits it will have a thirty-eight foot crown in the same manner. This is making the Brown county roads some of the best in the nation, giving smoothness and width for comfortable travel.

LETTERS TELL ROAD PROGRAM HERE FOR 1930

The roads committee of the Chamber of Commerce placed 500 letters in the mail this week to the members of the Chamber of Commerce telling them of the proposed program of that group for the year and the plans of the Chamber of Commerce toward building Brownwood into the center of the state road system. The letters were signed by the road committee and personally by the chairman, F. S. Abney.
In the letters was given the number of highways that are now passing through the city, the number of proposed highways, national, international and state that pass through Brownwood, and the lateral roads that are being built in the county.
The committee is outlining the work of that group for the year and are asking the aid of every member of the Chamber of Commerce in furthering this work of road extension.
Five Highways
There are five highways passing through Brownwood that cross the state and give the town ten ways of leaving Texas and of bringing people into the town. Two of these are: U. S. Highway No. 67 from Brownwood into New Mexico, two into Oklahoma, and one into Arkansas and one into Louisiana. "Brownwood the Crossroads of Texas" is the slogan that has been adopted by the Chamber of Commerce for the coming year and they are asking every effort toward completing the extensive road program that will make this the center of the state in highway traffic.
Setting forth the plans and prospects the letter says:
"Designation for State Highway from San Saba through Brownwood, Cross Plains to Baird look favorable. We are assured of this connection this year with at least a graded road, concrete culverts and bridges."
"Designation, Highway 22, from Hamilton to Brownwood will complete this highway from Shreveport to Brownwood, via Corsicana and Hillsboro."
"We are planning to build short lateral roads from Brown county line through Trichman to connect Highway 107 at Waldrip Bridge on the Colorado river, reclaiming valuable tract territory."
"We are encouraged over possibility of the completion of the following:
"U. S. Highway No. 67 from San Saba through Brownwood to Priddy.
"U. S. Highway from Oklahoma City through Brownwood to Del Rio.
"U. S. Highway from Wintwerp, Canada through Brownwood to Corpus Christi.
"State Highway from Palestine through Waco, Brownwood to Clovis, New Mexico.
"State Highway from Austin through Lampasas to Brownwood."
"We have every reason to believe that we will be able to finally build for Brownwood the extensive road program which will give us roads reaching every part of Texas and out of Texas; and we want to ask your hearty co-operation with the Committee of the Chamber of Commerce this year."

Farm Trailers Of Over 4000 Pounds To Be Registered

There has been much said recently concerning the law this year regarding the use of farm trailers and of the tax on these trailers. According to a recent law defining the farm trailers there is no tax on them when used only temporarily on the highways if their gross weight is less than 4,000 pounds.
This law which is referred to as Bill 6 of the Forty-First Legislature, second called session, makes the distinction as to the trailers and of their taxable weight. If the trailer exceeds 4,000 pounds it must be registered with the county tax collector as any other trailer, according to W. A. Butler, tax collector.
In the bill the provision refers to trailers, tractor-trailers, and implements of husbandry as being exempt from trailer tax. The continued use of these trailers on the highway is forbidden and they can be used on public roads only in moving from one place to another which is known as temporary. This law goes into effect April 10.

Elmo Reasoner Given Two Years

Elmo Reasoner about 19 years old was given two years in the penitentiary yesterday in his trial for burglary. Reasoner was indicted following the theft of a small gun from the Richardson shop last summer and the gun was later found in his possession. The testimony showed he was shot accidentally by a discharge of the gun and this led to the investigation and his arrest.
The jury which had been deliberating all week on Vernon Beard's liquor case was discharged yesterday after they had failed to reach a decision. The final verdict returned by them was nine for conviction and three for acquittal. This is the second trial in which Beard has been tried and both juries were dismissed after failing to reach a verdict.
The meeting was in charge of Dr. H. B. Allen, president, who turned over the program to the membership committee with G. B. Keesee in charge.
Three songs were given by Mrs. Adele Ray Olds, with Mrs. W. D. McCulley accompanying on the piano. Mrs. Olds was the fortunate one who received the weekly gift at the close of the luncheon.
Members included: T. B. Craig, Merle Mowrey, Rev. G. C. Schurman and Doctors Woodward and Bennett of Fort Worth.
J. C. Jones, M. A. Davis, C. E. Cooter, Jr. and Jack London were initiated into the club at each one \$50. Gus Rosenberg, a new member, was present.
Next Thursday a stunt program was announced by President Allen.

INTEREST IN YOUNG MEN IS URGED BY EARLY IN KIWANIS CLUB ADDRESS

"Take interest in the lonely young man, the young man without a job and you will probably save a life from crime," said Walter U. Early, a member of the Kiwanis Club, in a talk before members of that club at a luncheon Thursday noon at the Southern Hotel.
From his extensive experience in handling criminals Mr. Early drew many a lesson in his spirited talk.
"See that these young men become interested in something constructive and you will divert their minds from possible criminal tendencies. Show them by your talk and actions that you are interested in them and if they have been feeling out of tune with life, they will change and take more interest in life," he said.
The meeting was in charge of Dr. H. B. Allen, president, who turned over the program to the membership committee with G. B. Keesee in charge.
Three songs were given by Mrs. Adele Ray Olds, with Mrs. W. D. McCulley accompanying on the piano. Mrs. Olds was the fortunate one who received the weekly gift at the close of the luncheon.
Members included: T. B. Craig, Merle Mowrey, Rev. G. C. Schurman and Doctors Woodward and Bennett of Fort Worth.

Next Thursday a stunt program was announced by President Allen.

\$7,500 BOND FOR MAN CHARGED WITH DEATH MCCULLOCH RANCHMAN

BRADY, Texas, March 24.—(Sp.)—Arthur Laughlin, who surrendered to Sheriff Love Kimbrough in connection with the shooting of John Wright, local ranchman, on the evening of March 18, was placed under a \$7,500 bond by Justice of Peace Douglas late Saturday afternoon, at the close of the examining trial which lasted four hours.
The trial attracted considerable interest as was evidenced by the overcrowded courtroom throughout the preliminary hearing. In order to see the possible violence, officers searched spectators for firearms as they entered the courtroom.
The McCulloch county ranchman was found murdered on a road in the outskirts of Brady two weeks ago. Sheriff Love Kimbrough testified that in surrendering, Laughlin handed over two pistols, one of which he is supposed to have taken from Wright. There were no eye-witnesses to the shooting, since Laughlin and Wright are said to have been alone in a Ford coupe, belonging to Laughlin, at the time of the killing. Wright was shot twice, once in the chest and once in the neck with the bullet ranging downward. Dr. Jordan, local physician who examined the body, testified.
J. Edward Johnson, assistant district attorney, was assisted by W. H. Adkins, local attorney, for the prosecution in Sam McCulloch, well known local defense lawyer, represented the defendant. Since the state admitted that the case is bailable, defense counsel obtained the promise from Justice of Peace Douglas that another hearing on the amount of the bond may be held in case Laughlin should be unable to procure the bond set Saturday.

Inch and Half of Snow on Ground at Coleman Today

COLEMAN, Texas, March 27.—(Sp.)—Coleman county people slept last night beneath a blanket of snow, sleet and ice. In Coleman it measured 1½ and 2 inches and according to a report of the Southwestern States Telephone Company it was general throughout the county. The moisture is timely. Cattlemen have been feeding stock and the farmers waiting for sufficient moisture to germinate seed when planting. Snow is still falling.

Committee Makes Plans For Dallas Visitors Monday

The entertainment committee of the Chamber of Commerce met this morning to discuss plans for the entertainment of the delegation of Dallas business executives who will visit in Brownwood next Monday night. The committee laid their plans for giving a banquet to the visitors and a program was prepared for the day. This program is being arranged today and further announcement will be made later in the week.
E. B. Gilliam has been named toastmaster and several local business men of prominence will deliver addresses during the evening. Hilton Burks is busy making arrangements for the entertainment of the group of twenty-five while they are in town and is planning to show them the industrial advantages of Brownwood.

Little Son of Mr. And Mrs. Stalcup Has Leg Broken

Joe Stalcup, seven year old son of Mr. and Mrs. J. E. Stalcup of 1092 Irma Street, suffered a compound fracture of the right leg last about 11 o'clock Sunday morning when he was struck by an automobile as he with several companions were crossing Second Street by the Coggin Avenue Baptist Church. He was returning home from Sunday School. There were several cars parked at the sides of the street and the boy says that he looked to see if there were any cars coming but failed to see the one which struck him as he stepped from between the cars at the side of the street. Mr. Stalcup, the father, said today that he was sure that the accident was unavoidable. A man by the name of Ellis was driving the car, he said.
The boy was taken to the Medical Arts Hospital where the leg was dressed. Doctors said that the bones were broken between the knee and ankle and that one bone had broken and cut about an inch or two inch gash in the calf of the leg. He was resting very nicely today.

WILL HELP CROPS

Most of the farmers think that the snow and rain will help the crops and gardens more than the cold will damage them. However, continued to fall through the morning hours. A maximum temperature of 39 degrees and a low mark of 32 degrees for twenty four hours, 7 o'clock Wednesday morning until 7 o'clock this morning, was registered by the official government thermometer. Twenty-nine degrees separated today's maximum temperature and the high temperature reported yesterday. The maximum temperature for this morning was the same as the minimum was for yesterday.

MAYOR NAMES LEADERS FOR SPRING CLEAN-UP CAMPAIGN

Mayor O. W. McDonald has named a committee to aid in the clean-up week campaign which is to be held during the week of March 30 to April 6. Every citizen of Brownwood has been asked by the mayor to consider himself or herself as a committee to help see that Brownwood is made one of the cleanest cities in Central Texas, and the group named by the mayor as the general committee are to act as supervisors to see that this work is carried out.
H. V. Hennen, city manager, said in commenting on the work of the committee and the cleaning of the town said that he wished to again stress with the citizenship the schedule which has been adopted for trash hauling. "As before stated the trash wagons will haul trash from Ward 1 the first week of the month, Ward 2 the second week, Ward 3 the third week, and Ward 4 the fourth week. This may seem a long wait from time of each visit, but we find this the best way to get all trash hauled on a systematic basis" Mr. Hennen said.
The statement concerning the committee as given by the mayor is as follows:
Committee Named
"Committee to sponsor Spring community house cleaning."
It becomes my duty to appoint a suitable committee to carry out our spring clean-up and I am therefore making the following appointment, which is every person in the city to be led by the following: E. B. Henley, Jr., W. A. Bell, C. M. Carpenter, Mrs. E. J. Woodward, Mrs. J. C. Galloway, Jack Brumbaugh and all boy scouts of Brownwood. Rance Pettitt, Dr. T. B. Bailey, L. E. Shaw, H. V. Hennen, B. F. Adams, James C. White.
"This special clean-up is not to add extra cost to anyone, the trucks and wagons in the sanitary department are to be hauled, and every home that has rubbish to be hauled will be visited during the week designated by the proclamation given below. The important thing is to get your trash out in a suitable place for hauling in the best possible condition as sufficient equipment will be furnished during this week to clean the whole city. Everybody give their hearty co-operation and make this the cleanest city in Texas."
Very Truly,
O. W. McDonald, Mayor.
The Proclamation as issued by the

Negro Is Arrested On Auto Charge

Henry Johnson, a negro was arrested here Friday by members of the sheriff's department and lodged in jail on a complaint from Breckenridge charging him with automobile theft. He was arrested here on the street and will be held for Breckenridge authorities.

Big Plans Made For Square Dance Tomorrow Night

Many things are being planned for the entertainment of the people who will attend the Business and Professional Women's Club fourth square dance to be held at the Sallors Memorial Hall tomorrow night, March 28. The dances will start at 8:30 o'clock. It has been announced that the 142nd Infantry Band will play from 7:30 until 8 o'clock and that the service company will put on an exhibition drill from 8 until 8:30 o'clock, then the dancing will start and it is to be a real dance, according to members of the club.
The check room for dancers' wraps will be again maintained and other things for the convenience of the dancers will be planned. Members of the club express themselves as being well pleased, indeed, with the way the other dances have succeeded in pleasing the people and report that the loan fund for school girls is being greatly helped out by the receipts from the dances.
The Girls Loan Fund which is maintained by the club receives the proceeds from these dances and the club lends the money to girls to help them through school.
Changes have been made in the loud speakers at the auditorium and the acoustics will be even better this time than at the last dance. It is a crowd is coming to the dance.
The club has sent out invitations to all the surrounding towns and to many people in Brownwood, but everyone is cordially invited to attend. Every day the members are hearing from towns who say that a crowd is coming to the dance. It seems that many are planning to attend and the dance will be as much a success as the three before it has been, the members of the club think.
Many of the old figures of the square dance will be revived this time as many of the local dancers have been practicing. Among these old time dances are the "Grand Square," "Grapevine Twist" and "Ocean Wave." Some of the finest exhibition dancing seen in a long time is expected at this dance.

COLEMAN COUNTY PIONEER ONE OF FIRST TO RAISE GRADE CATTLE

One of the real pioneers of the Heart of Texas region is John Taylor Warnock, who for fifty-two years has lived on the same four sections of land in the western part of Coleman county that he settled on in 1878, when he came with an ambition to grow up with the country. His wife, who was Miss Alice LeSeur, is 80 years old. Mr. Warnock was born in Magnolia, Arkansas, June 13, 1847, and will be 83 years old next June.
"I was Warnock first came into this part of Texas in 1868, when he left Arkansas horseback. He got as far as Hood county, and stopped there to teach a subscription school. During this time he was a bidder in the new town of Granbury, county seat of Hood county. After a time he returned to Arkansas, was married in 1870, and again in 1878 came back to Texas as a cowboy. On his first visit he and Lawrence Westbrook, his companion, had gone to work for a time on what is now the Morris ranch, then owned by Wilbourne Bros.
Raised Grade Cattle
After filing on the four sections of state land and establishing himself as a rancher in 1878, Mr. Warnock began systematically to build up his herds. He began growing grade cattle 40 or 45 years ago, and for the past several years has specialized in raising fine polled Herefords.
"I have found Herefords are better rustlers than other breeds," he says, "and I believe they make more and better beef for the feed consumed. Polled Herefords have proven profitable for me. My polled bulls are generally all sold before I can sell my few horned ones. Many of my sales are to farmers who grow beef cattle. Polled are much easier to handle and there is no danger of injury to humans or to other livestock. I recall a good many instances in my experience with angry bulls where horns would

New Manager Here John Deere Store

L. B. Williams formerly of Paris, Texas, has moved to Brownwood to be manager of the new John Deere Implement Company retail store here. Mr. Williams took charge of the business Tuesday and is getting everything in readiness for the formal opening of the store which will be during the next two weeks.
Mr. Williams will be in charge of the retail work for the territory which is included in the Brownwood district and will be in charge of the work. The John Deere Company has only recently taken the retail sales here, taking them from the Clarence Allen Implement Company which discontinued the line.

CHICAGO, March 27.—(P)—The snow had ended today, but the slush and drifts lingered on. The snow stopped last night as suddenly as it started Tuesday morning, leaving Chicago and its suburbs shrouded in the heaviest continuous fall in the city's history—19.1 inches. Although the city was no longer faced with the necessity of fighting more snow, it by no means coped with what it already had. Traffic was still delayed and in some cases paralyzed, schools were dismissed, and streets and sidewalks were clogged. Along the lakefront and in other places, drifts were piled high and held hundreds of automobiles fast. In the more congested districts, the snow had turned into a dark slush, ankle deep at most intersections. Street car lanes, hardest hit of the transportation systems, were able to serve customers on most of the main routes, but were far from normal and were not even attempting to run on many of the branch lines. Twenty thousand men and 250 pieces of machinery worked all night attempting to clear the rails.

WHOLEYS PURCHASE J. E. SMITH STORE

J. P. Whaley and son have bought the J. E. Smith grocery store at 801 Melwood and will open a first class market and grocery store soon. The building is being remodeled inside and outside with many improvements being made. It is not now definitely known when the store will open, but Mr. Whaley said that as soon as the remodeling work was completed the store would be ready for business.
GULLS DISCOVER LAKE
WACO, Texas, March 27.—(P)—Sea gulls have discovered Lake Waco. S. C. McCulloch, engineer for a construction company, reports having seen sea gulls since recent rains put 33 feet of water behind the big Bosque dam.

RECEIVES NEWS OF SON'S OPERATION

Mrs. Ola Adams of 1810 Main Avenue received a telegram yesterday from Bakersfield, Calif., stating that her son, A. M. Adams had had an operation in the Mercy Hospital at that place Monday morning and was resting fine Tuesday afternoon.

Glee Club Wins Second Honors at the Denton Meet

Plans are now being made to take the Brownwood Senior High Glee Club to the Glee Club contest at Belton on April 25. Mrs. Harold Scott, director of the club, said today that she was well pleased with the showing made by the girls in the meet which was held at C. L. A. Denton, Saturday. The local club took second place in the division of schools with an enrollment of between 500 and 2,500 students, in which division they were entered. The club also won second place last

year, being defeated by the Ranger High School Glee Club both years. The club gave two songs, one chosen by the judges and one by the club. "La Goldinia," chosen by the judges and "Mighty Lak" A Rose" chosen by the club. There were eighteen schools entered in the division in which the local club participated.

The club members attending the contest were: Misses Josephine Anderson, Clara Smith, Eloise Fletcher, Clara Helen Morrow, Maggie Commons, Genevieve Melroe, Vaneta Yates, Kathryn Berry, Fay Crady, Edna Taylor, Tommie Sawyer, Mary E. McHorse, Aileen Horn, Maureen Horn, Ruth Fields, Juanita Willis, Clarice McCarty, Annetta Sawyer, Gladys Paris, Nellie Harris and Mrs. Harold Scott, director.

Good Crowd Hears Stanley Concert

A good crowd heard the recital given yesterday at Howard Payne auditorium by Lyman Stanley, Mr. Stanley gave the audience a real concert of piano numbers by the masters. He played selections from most of the famous composers whom are known the world over.

Chopin, Beethoven, Rubenstein, Paderewski, Brahms, and others were among these from whom selections were chosen in the concert. Mr. Stanley has spent many years in study and has studied under some of the greatest living piano instructors and leading musicians of the world. For the past seven years he has been head of the piano department at Howard Payne and during that time has had many students taken from him who have made the best musicians in this section of the state. He has several compositions of his own which are used by piano entertainers over the country.

Walker Agrees To Assist Howard Payne Debaters

J. A. Walker has agreed to donate to the debating department and the public speaking council of Howard Payne in proportion to the amounts raised in other places for this phase of the work. Mr. Walker has agreed to give \$25 for every \$100 gotten from other sources, up to \$1,000.

This is a very important part of the work, and one that is developing in interest every year and one which has no means of income other than small amounts given by supporters and amounts collected on debating trips. A part of the blanket tax goes to this work, but is far short of the total amount necessary to run the department.

Mr. Walker agreed to match each \$100 with \$25 for the department and at present a committee is being getting money for the expenses of the trip next week to Wichita, Kansas where two teams will represent the school in the national meeting of the Pi Kappa Delta, national forensic society.

Man Injured By Falling Rock At Santa Fe Crusher

Clyde Massey, about 25, employed by the Santa Fe Rock Crusher, suffered injuries to his head Monday at 12 o'clock when struck by a rock that fell from the elevator at the crusher. The accident was not considered serious at first, but later the men at work with Massey saw from his actions that he had been more badly hurt than had been supposed.

After the rock struck him on the head the other men on the job rendered a little first aid and he continued with his work for about forty minutes. Then the men noticed that he was acting oddly and he was soon in a semi-conscious condition and talking wildly. Doctors were called when it was found that the man was in too serious a condition to bring to town in a car. An ambulance went for him and took him to the Medical Arts hospital.

Doctors at the hospital had not had time to make a complete examination of Massey's condition this afternoon. An X-ray picture was to be made and a thorough examination made to determine the extent of the injuries. Doctors thought that Massey's condition was rather serious, but probably would not be fatal. He was still in a semi-conscious state this afternoon.

Mr. Massey's brother said today that he was working near by when the accident occurred. The rock weighed about one pound and fell from an altitude of about fifteen feet, he said. After the accident, he said that his brother worked for about thirty or forty minutes and then became delirious. The injured man has a wife and two children. They live on Brady Avenue. His parents live in Santa Sabá county.

Information Sought As to Whereabouts Of Elmer Page, 15

Elmer Page, fifteen year old son of George Page of 1503 Edwards, is missing from home and has not been heard of since last Thursday. When last seen, Thursday about noon, Young Page was near the Ramey Bookery Company. It was rumored at that time that officers were seeking him on a misdemeanor charge, the offense supposed to have been committed Wednesday, but his father said this morning that he had consulted officers and found that his son was not wanted by them, and that only suspicion against him at the time had been cleared up.

Wishing to find some trace of the boy the father has given a full description of the boy and asks that anyone knowing of his disposition or his whereabouts please notify him. He is five feet, four inches tall and weighs about 140 pounds, has light hair and is light complexioned, grey eyes, hair short and curly. When he was last seen was wearing faded blue overalls and work shirt, and light colored cap. He has a scar on left thumb and a long scar on his leg reaching both above and below the knee, also scar on temple.

SUNDAY SCHOOL ATTENDANCE FOR MARCH 23

The Sunday school attendance for March 23rd was 9,391, which was 46 less than on the previous Sunday. The attendance on the fourth Sunday in March in 1925 was 2,449, in 1927 was 2,970, in 1928 was 3,192, in 1929 was 3,457.

J. R. Shackelford Succumbs Wound Inflicted Monday

J. R. (Uncle Dick) Shackelford, 68, who because of continued poor health caused by injuries from an attack by a "catalo" here several years ago, according to his statement shortly after his wounding and also in a letter left by him, shot himself at his home, 518 Belle Plain Ave., at about 7:30 o'clock Monday morning and died at 11:25 a. m. Tuesday in a Brownwood hospital where he was taken about noon Monday, immediately after neighbors discovered that he had attempted to take his own life. Although Mr. Shackelford left a letter assigning his poor health as cause of his act, immediate relatives could hardly believe his action possible, because of the happy disposition and ever ready smile that stamped him as one who would never think of such an act.

Physicians that attended Mr. Shackelford were amazed that the 38 calibre bullet that he sent hurtling through his head just above the right ear did not cause instant death. And his attendants were further astounded that several hours after the fatal shot had been fired Mr. Shackelford was able to walk about and was partly conscious when neighbors found him staggering about his home shortly before noon Monday. Mr. Shackelford had suffered untold agony because of his side that was injured when a catalo ran amuck and almost killed him several years ago. He had never completely recovered from this attack.

Funeral services for Mr. Shackelford were held at 10:30 o'clock Wednesday morning from the First Christian Church with Rev. A. E. Prince and Rev. C. G. Schurman officiating. Burial was made in Greenleaf Cemetery. McInnis Funeral Home has complete charge of arrangements.

Mr. Shackelford was born March 3rd, 1861, in Alabama. He had been living in Brownwood the past 18 years. At the time of his death he owned and operated a small restaurant near the court house.

Mr. Shackelford is survived by

three children, two sons, Wiley of El Paso and Dewey Jared of Sherman, and one daughter, Mrs. Virgil Campbell of Brownwood.

BUSY SESSION HELD TODAY BY C. OF C. BOARD

Plans for the annual Chamber of Commerce membership drive were scheduled to begin April 4, plans for an extensive campaign in behalf of Daniel Baker College, committee reports and plans for two special banquets to entertain distinguished visitors to Brownwood within the next week or two, occupied the attention of the Brownwood Chamber of Commerce directors at their regular weekly luncheon Wednesday noon at the Southern Hotel. This was the first luncheon of the C. of C. since the date was changed from Monday to Wednesday, Brooke Ramey, president, was in the chair and ten directors were present.

H. M. Jones, recently named as chairman of the 1930 membership drive, advised that the campaign to raise funds for the current year will be begun April 4. The membership committee which met last week to perfect plans has launched and is carrying out an educational campaign prior to the actual launching of the membership drive. Mr. Jones reported, too, that Friday, April 4, has been designated as volunteer day for subscriptions.

Reports Daniel Baker Plans Harry Knox Sr., chairman of the college committee of the Chamber of Commerce, as well as president of the board of trustees at Daniel Baker College, gave a report on plans for retaining the school in Brownwood. He advised that approximately \$60,000 must be raised to clear the school of all indebtedness and asked the Chamber of Commerce for a special campaign committee, this committee to work with a similar body from the Daniel Baker board. Mr. Knox asked for a committee of three, consisting of

F. S. Abney, W. P. Murphy and E. J. Weatherly, and his request was granted. This committee, with the Daniel Baker committee of four, will work out plans for the campaign which will be launched in the near future.

E. J. Weatherly made a report on the Gulf to Canada Highway meeting in Fredericksburg Tuesday and stressed the fact that this project is of major importance to Brownwood in that federal designation and marking is being sought for this International Highway from Winnipeg, Canada to Corpus Christi, P. S. Abney is president of the Texas division and Hilton Brooks is secretary.

To Meet Dallas Group A group of 25 Dallas business leaders, representatives of almost every major business of that city, will be visitors in Brownwood Monday night, March 31, according to a letter read by Mr. Burke today. The Brownwood Chamber of Commerce voted to meet with this body of men around the banquet table at the Southern Hotel Monday night and delegated plans for the banquet to the entertainment committee, of which W. D. Armstrong is chairman.

W. F. Schilling, a representative of the Federal Farm Board, will be in Brownwood Thursday, April 3 for a meeting with leading poultry, dairy and pecan men, it was announced today noon. Mr. Schilling is visiting only four Texas cities, the object of his visit being to establish marketing centers for Texas. In recognition of the importance of this visit, the Chamber of Commerce voted to instruct the Agriculture Committee, the Pecan and Dairy Committee, of the Chamber of Commerce, together with the board of directors to meet with Mr. Schilling when he visits Brownwood. Too, leading agriculturists from surrounding cities will attend this meeting. The entertainment committee was instructed to arrange for a banquet, the time depending upon the arrival of Mr. Schilling in Brownwood.

Date of Oratory Banquet Changed

The annual banquet given by the Central Texas School of Oratory and Expression for its present students and alumni will be held this year on Saturday night, April 19, at the Southern Hotel. The banquet is given every year for the students of the school and for those who have graduated.

J. Fred McLaughly, teacher of the school, had first set the date of the banquet this year on April 18, but because of conflicts with other things scheduled, he had to change the date to April 19. The invitations had already been sent to the alumni and Mr. McLaughly wishes to call to their attention the change in date.

The program for the banquet is still being worked out and will be one of the best ever given by the school, it is thought. Many details have already been looked after and further plans for the affair are still being made. Mr. McLaughly is very anxious to have every member of this year's class and all the alumni of the school present.

Young Man Dies Under Sliding Dirt

ARLINGTON, Tex., March 27.—(AP)—Jimmy Booker, 14, of Arlington, was killed last night when buried under several feet of dirt while working in a bridge excavation. Two other youths escaped.

Booker and his two companions were digging in the excavation, about 15 feet deep, when the slide came. They were members of a crew widening a bridge on the Fort Worth-Dallas pike.

Civilization and Scent The ancients interested themselves almost entirely in the heavier, more crude scents—as musk, myrrh, incense; the scent of flowers is seldom mentioned in their poetry or literature, which leads us to think that the subtlety of this last born of our senses is being evolved with civilization.

Ticker's Tips

Dear friends: The rain is here, not only rain, but snow—but that is all right. We have been crying for rain, now let's be thankful that the ground is wet and the crops are growing, and we are all living in the best town in Texas.

What the Boss told us today was this: Friday night is the Big Square Dance sponsored by the Business and Professional Women of this city. All the ladies will be dressed up in their new spring frocks, and we have just received at the Armstrong Jewelry Co.'s store some new beads, chokers, car screws, etc., to help you be all dressed up for the dance.

These new novelties have just arrived, the price is just right. See them in our show window.

TICKET P. S.—If anything needs fixing at your house, your watch or clock or jewelry, remember Armstrong's is the hospital for sick jewelry. We make them well now.

ONE CASE HERE REVERSED AND ONE AFFIRMED

One case from Brown county was affirmed Wednesday and one reversed by the court of criminal appeals.

AUSTIN, March 26.—(P)—Two deaths and one life imprisonment sentences were reversed and one affirmed by the court of criminal appeals today because the indictments did not allege the defendants killed with malice aforethought.

Officio Herrera, given death by a Mason county jury for murder of Sheriff A. T. Murray on February 21, 1929; Will Fritts, against whom the extreme penalty was inflicted in Jones county for the murder of Earl Hamilton on October 24, 1928, and E. Gilbert of Tyler county, given life for murder of Wesley McCarty on January 19, 1929, were retrials because of this defect in the indictments.

The court overruled motion for a rehearing of William Pruitt, Jr., given death in Dallas for the murder of William Mann on January 6, 1929. The court had previously affirmed the conviction. Mann, a high school youth, was attacked while driving in an automobile with a young woman.

The state lost its motion for a rehearing in the case of Ardell Landers, Dallas, whose death sentence had been reversed and the case remanded for new trial on account of indictment defect. Landers was convicted of the murder of Joe Picola on February 9, 1929.

The life imprisonment sentence against S. H. Newton, convicted in Tarrant county for murder of J. P. Arnold on October 8, 1928, was affirmed.

Higher Courts.—(P)—The following proceedings were had today in the court of criminal appeals: Affirmed: Walter Duffer, Bowie; Melvin Thompson, Cherokee; J. T. Jones, Rusk; Gordon Black, Brown; S. H. Newton, Tarrant; Raymundo Casillas, Prio; Hattie Marshall, Har-

ison; M. A. Zarosky, Milam; Ellis McNeal, Carson. Reversed and remanded: Sylvester Banders, Bowie; Homer Seal, Motley; Alvin Dossey, Coryell; Ben Pittman, Brown; Fred Tetmeyer, Young; Velton Johnson, Cherokee; Mary Garner Taylor, Cherokee; Will Fritts, Jones; Mack Matthews, Bastrop; Dink Williams, Sabine; R. D. West, Burnett; E. Gilbert, Tyler; Ofilio Herrera, Mason; David Anzuldo, Willacy.

Appeal dismissed: Jose Maria Ykiclas, Willacy; E. Turner, Val Verde; O. E. Sherman, Deaf Smith; Herman Thackerston, Stephens.

Appeal dismissed at appellant's request: Nolan Williams, Hamilton.

Appellant's motion for rehearing overruled: William Pruitt, Jr., Dallas; J. C. Burnett, Harris; W. R. Walker, Dallas; John M. Sayer, Ellis; Juan Paralez, Montgomery. State's motion for rehearing granted, judgment affirmed: Willie Montgomery, Gregg; Lorin Pope, Cherokee; Jim Casper, Cherokee.

Appellant's motion for rehearing overruled without written opinion: J. W. Tapley, Briscoe.

State's motion for rehearing overruled without written opinion; Ardell Landers, Dallas.

MOHAIR ASSOCIATION MAKING APPRAISAL OF PRODUCT OF COUNTY

The American Mohair Association is appraising mohair here Wednesday and advancing from 33 cents per pound to 43 cents for that taken. The work is being done at the Johnson Storage Company by representatives of the association. It is thought that the mohair will be shipped this afternoon or tomorrow.

The Brown county organization is headed by L. A. Nunn as chairman and Chester Harrison as assistant secretary.

The advance on the mohair is 33 cents for old hair and 43 cents for kid clippings. It is thought that about 10,000 pounds will be included in the shipment. Sometime in the near future a concentration of wool will be held here and several cars will be shipped, but a definite date has not been established.

Hotel Concrete Pouring Progressing

Concrete pouring on the basement of the new hotel was started in earnest this week and at present all outside walls on three sides of the basement have been poured and are now setting. Several of the large pillars which support the concrete building will be poured this week and several of these large pillars have already been poured.

Carpenters are busy now building the forms for the rest of the basement and as soon as this is finished the concrete will be poured into them. Andy Brown said this morning that he supposed that they would be poured next week unless some unforeseen complication arises.

J. O. Everett, contractor for the building, said today that it was now planned to start construction work above ground about April 10 or near that date. It is thought that the work on the basement will be finished and everything in readiness for the other work at that time.

DANIEL BAKER HOPES TO WIN IN 880 RELAY

COACH DEWEY Youngblood and six members of his Daniel Baker track team left Thursday morning for Austin to participate in the Sixth Annual Texas Relays that will be held in that city Friday.

Coach Youngblood will enter teams in the 800 yards relay and the medley relay race and will enter one of his distance runners, Earl Smith, in the special 3,000 meter race. Neither Howard Payne nor Brownwood High School will enter teams in the Texas Relays but the Lions plan to take several of their stars to Dallas for the S. M. U. Relays Saturday.

The Hill Billies will likely make their most serious threat for a championship in the 880 yards relay in the college division, this prediction being based upon the fact that Youngblood's four speed demons have been stepping this distance. Gus Snodgrass, Hugh Ratliff and the Dunkin twins will negotiate 220 yard laps in the 880 with Gus starting the race and Ratliff running the anchor position.

Delbert will take the baton from Snodgrass and pass it on to Edward who will hand it to Ratliff for the final 220 yard sprint. The Billies have run the 880 in 1 m. 31.8 seconds, which is within one second of the Texas Relays record for this event. Youngblood expects his team, under favorable weather conditions, to step the 880 relay in less than 1 m. 30 seconds.

The Brownwood team will also make a strong bid in the medley with Ratliff and Snodgrass running the 220 sprints, George Sullivan or Delbert Dunkin running the 440 and Edward Dunkin slated to run the 880 yard run. The Billies have made the medley in 3 m. 38.6 seconds in practice runs.

Coach Youngblood is confident that his boys will place high in these two events unless some slip is made in passing the baton from one man to another. All have the speed necessary to stepping the distances in record breaking time.

If all goes well at Austin the Brownwood team will go to Dallas Saturday for the S. M. U. Relays but unless fair weather prevails they will return to Brownwood Saturday morning.

LIONS CLUB PLANS FOR STAGING OF ITS ANNUAL BIG EASTER EGG HUNT

A large number of visitors and members were present at the regular Tuesday luncheon of the Brownwood Lions Club Tuesday. The Blues won the three months attendance contest, as conceded by the Reds, who agreed to feed the winning side at the next luncheon or in the near future. The Reds, however, challenged the Blues for another attendance contest to run for the next three months and believed at the end of that time it will be a different story.

One of the main things up for discussion was an Easter egg hunt. The members decided to give another Easter egg hunt on April 19 at 4 o'clock for the children of the city at Coggin Park. They will hide between four and five thousand "rabbit" eggs. The committee appointed to manage the hunt is composed of J. C. Galloway, Jack Bruners, Sam Cutbirth, Bill Burson and Blueford Adams. For the last four or five years the club has given this Easter egg hunt to the children under 12 years of age in Brownwood and it has always been a huge success. They believe that it will prove popular with the children again this year. All the Boy Scouts in Brownwood will help with the hunt.

The principal address of the hour was made by Rev. Goodrich K. Fenner of Dallas, who is conducting the mission at the St. John's Episcopal Church. A great talk was made by Rev. Fenner, as he touched upon the value of training of children in the home and in the schools and stressed the good of right living members of the club declared.

O. E. Winebrenner was a visitor from the Kiwanis Club and made a very interesting talk on the Boy Scouts of America. He talked on many phases of the organization and the good it has been to the boys of the world.

Dr. R. A. Ellis talked to the club on optometry, giving an inside view of the business and telling many interesting things that are not generally known about optometry.

W. A. Huddleston came into membership of the club as a transfer from the Lions Club at Lacona, Texas. Mr. Huddleston has accepted a position with the McInnis Funeral Home.

Guests for the luncheon were: Rev. G. R. Fenner, Rev. John Pover, C. E. Cutter, P. A. Glanville, G. C. Schurman, O. E. Winebrenner, T. E. Galmore of San Angelo and C. J. Sparks of Eastland.

New Lions Club song books were presented at this meeting and the club's emblem in sticker form was presented to each member.

Chicken Dinner At Dulin Club

The Dulin Demonstration Club met March 13th at the club room. There were 12 members present and one new member.

Miss Malone was present and gave us a demonstration on how to bone fowls. The chicken was boned, stuffed and baked. Each member nice 6 o'clock dinner which was enjoyed very much by all. Our next club day will be March 27th. Every member is urged to attend.—Reporter.

B. & P. W. CLUB PLANS TO CELEBRATE SEVENTH BIRTHDAY ON MAY 6TH

The Brownwood Business and Professional Women's Club met at 6:30 Tuesday evening in regular semi-monthly session at the Federated Club rooms. President Dr. Mollie Armstrong presided. About thirty members were present and an important session was held with many important business matters coming up for discussion.

The delicious meal was served in charge of Mrs. J. W. Jennings and Dr. Bessie Renfro. Miss Wilma Way, accompanied by Miss Lois Coston at the piano, gave a pleasing pianolite and followed with a reading, "Butterflies Down."

Following the meal a member of the club at each of the different tables introduced the other members and guests. In the business session the matter of celebrating the club's birthday was brought up. The Business and Professional Women's Club of this city will be seven years old on May 6, and the members think it most fitting to have a birthday party for the club. The annual employers' dinner and the birthday dinner will be given in conjunction this year at the Federated Club on the night of May 6 as decided last night. Committees will be named to make the arrangement and the club members are looking for the party to be one of the largest affairs of the year. Elaborate plans will be made. As a birthday gift to themselves the club members voted

to buy a wall emblem of the club to hang in the club rooms.

Discuss Square Dance. The discussion of the square dance which the club is giving at the Memorial Hall on Friday night, March 28, caused lots of interest among the members. Further plans for entertaining the guests at the dance were made and the members pledged themselves to help show all a good time.

The club members have been hearing from clubs over all this district about the square dances that they have put on. The other clubs want to learn how the dances are planned and arranged so they can put them on in their cities. The benefits from the dances here go into the club's loan fund for school girls.

The principal address of the evening was made by Dr. C. F. Achon on "Health." She discussed many phases of health and care of the human body and especially took up the discussion of the cancer, giving the latest theories on the cause of cancer and its cure.

The discussion minor club business matters closed the evening's meeting, with all looking forward to the dance on Friday night.

Physicians Not Long Lived

According to the Metropolitan Life Insurance company, physicians have no advantage in longevity, as one might expect from their profession. On the contrary, they do not live as long as the ordinary policy holders. At the age of thirty, when a physician begins his career, the doctor's expectation of life is two years less than that of the general population.

Making Plans For Optometry Meet

Dr. Mollie Armstrong returned Tuesday from Dallas where she met with the Convention Committee for the 30th annual convention of the Texas Optometric Association. The convention will be held this year in the Adolphus Hotel in Dallas on April 21, 22 and 23. Dr. Armstrong said that a very interesting program for the convention had been outlined and that many splendid lectures were to be given.

There are two members of the state optometric association in Brownwood; Dr. Mollie Armstrong and Dr. R. A. Ellis. Dr. Ellis is a member of the executive committee of the association and Dr. Armstrong is chairman of the public lectures.

The state Optometric Magazine which is published in Brownwood with Dr. Armstrong as editor will soon be seven years old. The magazine was one of the first of the organization papers established and is recognized as the best in the state, it is said. The paper is issued every sixty days and owned and devoted to Texas Optometric Association news.

Dr. Armstrong was accompanied on the trip by Mrs. L. L. Mallow and Mrs. E. M. Dutton.

Time "Wiled" Away

"Wile" is the correct word in the phrase to "wile away time." It is used in the sense of beguile or gule. However, "while" has been used so often by error that many good writers now write "while away time."—Pathfinder Magazine.

MESSAGES

From Mc's Business College

BY MARIE MILLER

We understand that Mr. P. L. Kelly has been appointed on the Extension Committee of the Brownwood Chamber of Commerce.

Miss Vera Hester has been employed as assistant instructor in the public department. Miss Hester formerly of Gorman, Texas, finished her first three years place, she entered Howard Academy where she has practiced her junior year. She finished her first grade high school course and has had one year's experience in teaching.

We have just received some copies of the magazine containing the pictures of the students and faculty of the college. This magazine is published by L. C. Smith Typewriter Co., Synapse, N. Y., and has a wide-circulation. The article in connection with the picture boasts Brownwood, and Mc's Business College.

Personal Mention

Miss Opal Mally and Miss Floy Williams are employed this week at the Chamber of Commerce, assisting Miss Betsy Mayes with some special correspondence.

Mr. W. E. Wilson of Daniel Baker College was a visitor in our college this week with view of taking some courses during the summer term. Mr. Wilson is contemplating specializing in commercial education in view of making a commercial teacher.

Miss LaVerne Smith spent the week-end with her parents in Rising Star.

Miss Willie Belle Hayes visited her mother in Coleman this week-end.

Mr. Bob Brownlee has returned to school after a short illness.

Mr. F. B. McKinney, our president, made a visit to Coleman last week-end.

Miss Peggy Groves and Mr. Bob Browning, both of Coleman, visited Miss Vivian Leach here this Sunday.

Miss Vera Price will visit in Dallas the latter part of this week.

Miss Lorraine Crockett spent the week-end in Mullin with her parents.

Miss Eva Nell Benham visited her mother in Greer this week-end.

Miss Ruth Redford of Llano visited home this week-end.

We were pleased to have as our visitor a former student, Mr. Charles Healed. He has been out working for the past two months, but is going to re-enter and complete his business course.

Daniel Baker College Notes

BY GEO. M. SULLIVAN

By request, "The Pennant", will be presented again tonight by the boys and girls glee club. This opera was staged last Friday night, with such success, that many requests for a re-presentation have been made. Many people who saw the former presentation are "re-aring" to see it again, and many who were prevented from attending by the threatening weather, or other causes, have a double strong desire to see it now. This opportunity will be given tonight.

The members of both the cast and the chorus have proven themselves very capable entertainers. Under the able directions of Miss Hardy Baker actors and actresses appeared in a manner that rivaled that of professionals. With the opera worn off by the first and with the additional re-presentation the second presentation proved a thing of perfection.

Part of this opera is perfect-keeping with college life. The football games, love affairs, elopements, etc. A Jew, a Freshman, and a would-be English Lord, afford much merriment. As a whole the production is well worth the admission price, which will be the same as before.

Those who missed it before, must have heard of their mistake by now! Take this opportunity, and see the season's greatest theatrical attempt by these talented glee club members. Tonight, Wednesday, at 8 o'clock in the Coggin Memorial Chapel.

Intend to Marry

Henry P. Taylor to Miss Margaret Octavia Sawyer.

MORTUARY

L. T. McBurnett

Funeral services for Luther Thurston McBurnett, 41, who died Saturday night at his home south of Indian Creek, were held Monday morning at 10 o'clock from the Coggin Avenue Baptist Church with Rev. W. R. Hornburg, pastor, officiating, assisted by Rev. W. H. Daniels, pastor of the Indian Creek Baptist Church. Burial was made in Greenleaf cemetery.

Luther Thurston McDaniel was born May 1, 1889, in Georgia. He had lived in Brownwood county the past nine years. Mr. Thurston is survived by his widow and three children, L. T. Jr., Adrien and Raymond. Four brothers, Wesley McBurnett, of Baton Rouge, La., Ezra McBurnett, of Port Arthur, Jordan McBurnett, of Beaumont, and L. C. McBurnett, of Brownwood, and two sisters, Mrs. Lela Frazier of Oakland, Cal. and Mrs. Toshia Phillip of Harlingen, Texas, also survive.

Mr. McBurnett had been a member of the Baptist Church for six years and according to his friends and loved ones he was always ready and anxious to perform any Christian act that presented itself. Active pall bearers for Mr. McBurnett's funeral were P. H. Grady, A. E. Wilson, J. N. Wilson, A. E. Nabors, M. A. Yeager and O. H. Gault.

Honorary pall bearers were: W. P. Denny, L. P. Harris, Jack Horner, Richard Bentley, Jack Strickland and Charles Camp.

MRS. JULIA MAGGIE SHARP

Mrs. Julia Maggie Sharp, 40, of the Salt Creek community, died at her home late Tuesday afternoon. Mrs. Sharp had been in very poor health for several months and her death was more or less expected. Mrs. Sharp was born September 16, 1889, and was the daughter of Mr. and Mrs. John Fairrow of the Salt Creek community.

Mrs. Sharp is survived by one daughter, Ethel Mae, age 15, her parents, two sisters, Mrs. Mary Littlefield, of Oklahoma, and Mrs. Della Dykes of Brownwood, and two brothers, Johnnie Fairrow and Herman Fairrow, both of Blanket. Mrs. Sharp was a member of the Baptist church.

Funeral services were scheduled for 3 o'clock Wednesday afternoon at Salt Creek with Rev. Moore, Baptist minister, officiating. Burial was to be made in the Salt Creek cemetery with Austin-Morris Co. directing.

Howard Payne College Notes

(By Students Journalism Class)

President Taylor and Dr. Davis left Saturday for San Marcos, where they are securing students for H. P. College.

Mr. Stanley, piano teacher of Howard Payne, gave a musical program at the Mims auditorium Sunday afternoon. A special invitation was extended to all of the boys and girls of the dormitory.

Miss Middleton spent Thursday in Taylor attending to business.

Mrs. Cheaney's Sunday school Club and a number of guests went to Route 1 mountain Thursday for a picnic. Emalita Newton taught the Sunday school lesson to the club. The girls enjoyed sandwiches, fruits and cakes, and all had a lovely time, and state that Mrs. Cheaney is one of the best sports they have ever been out with.

Mr. Kenneth Wise of Howard Payne has charge of the music for the meeting at the First Baptist church, Mrs. Hugh W. Olds, formerly Adele Ray and a former student of Howard Payne, is the special soloist for the meeting.

The Howard Payne players will present three one act plays, "Dress," "A Night at the Inn," and "Miss Tony Sparks" is general director with Mabel Stone and Mary Alice Watson as assistant directors. These plays will be presented Tuesday night at 8:15 at the Howard Payne auditorium.

By Students Journalism Class The chapel program was unique on Monday morning in that there was none. Owing to the absence of President Taylor, there was no one to take charge of the chapel hour, so after the customary announcements all students went directly to their next classes, thus making up for some of the time lost on other occasions when the chapel program ran beyond the thirty minutes set aside for that purpose.

The tennis prospects for Howard Payne this year are getting brighter and brighter. Hob Canady and Carl Amisger are counting into the best of shape and are capable of giving some one a hard battle for the doubles championship of the various schools that they compete with. Jess Weaver and Bud Canady are holding their own in the number two doubles team.

The Lasso of Howard Payne College is working the staff overtime now, but a great amount of work has been accomplished, according to Editor Morris H. Richards, editor-in-chief. The Seniors' pedigrees have been received, and the senior edition was sent off last week.

Great Elizabethan Comedy

The vivacious comedy, "The Merry Wives of Windsor," was written by Shakespeare in 1590. Tradition has it that the play was composed by command of Queen Elizabeth, who wished to see her favorite character, Falstaff, in the situation of a lover. It has been one of the most popular of the Shakespearean comedies from the days of Elizabeth to the present time.

Record Brook Trout

The record specimen of brook trout weighed 14 1/2 pounds, and was taken in the Nipigon river in Ontario.

Little Items of Local Interest

Joe Bailey Cheaney, head coach at Howard Payne College, was official starter at the annual Eastland county track and team meet Saturday at Ranger. Cheaney returned home Saturday night.

Word has been received by P. H. and H. L. Charnquist announcing the death of a nephew, Arvie Charnquist, 20, at his home in El Campo this morning. The funeral will be held tomorrow.

A fire alarm Sunday at noon called the department to the home of E. V. Johnson at 1203 Eighth street where a hot water heater was threatening to set fire to a home. The company made a run to the place, but when they arrived all danger had been averted and there was no loss.

I. B. Gage, with the M. P. Gould Company, a drug store advertising agency, is home for a few days attending to business in his territory, the state of Texas, during the past few weeks. Mr. Gage makes Brownwood his headquarters and has not moved from this city, despite newspaper reports to the contrary.

A family reunion was held at the home of Mrs. A. I. Davis Friday, when three brothers and three sisters assembled for the first time in twelve years. A dinner was served at the noon hour. The brothers were C. H. Weathers of Coolidge, J. B. Weathers of Coleman, L. D. Weathers of Fort Worth and the sisters, Mrs. W. P. Denny, Mrs. Tom McFarland and Mrs. A. I. Davis, all of Brownwood. One brother, Guerry Weathers of Levelland was unable to attend.

H. F. McCrum and Bill McQueen went to Dallas Sunday to attend a luncheon given to all managers of the Atlantic and Pacific Tea Company of this district. They were accompanied to Fort Worth by Mrs. McCrum and Mrs. Inez Hawkins.

County Clerk W. E. Burleson and District Clerk Chas. S. Bynum have been named on the regular program of the annual convention of county and district clerks which is to be held at Graham April 3 and 4. Mr. Burleson is scheduled to speak on election returns and Mr. Bynum will address the district clerks on legislation. Neither of these two had decided today whether they would be able to attend the session, but both are planning to present, if possible.

Dr. and Mrs. Earl Jones announce the arrival of a daughter born Tuesday night at the Medical Arts Hospital.

Mr. and Mrs. John F. Renfro of Huntington are visiting their daughter, Dr. Bessie Renfro. Mr. Renfro has served for the past two terms in the Texas Legislature from his district and is now enroute to his home following the last called session of the Legislature which has just closed.

The High School Glee Club of Rotan won first honors in the Interscholastic Meet which was held last week. The judges were very complimentary of the club. Miss Betty Muhrl Staggs of Brownwood is teacher of Public School Music in the Rotan schools and is the director of the club.

Mrs. W. D. McCulley and Mrs. Hugh W. Olds will leave Friday for Wichita Falls where they will give a concert on Monday, March 31st, at the Woman's Forum. On Sunday Mrs. Olds will sing at the First Baptist church with Mrs. McCulley, accompanist. While in Wichita Falls they will be guests of Mrs. W. E. Young, Mrs. Olds' sister.

Rev. W. B. Gray, pastor of the First Presbyterian Church, is conducting an interesting revival meeting this week at the Edwards Street Presbyterian chapel. There were additions to the church at the Tuesday night service. The meeting will continue through Thursday night. Dr. Gray said today, "No prayer meeting service will be held tonight at the First Presbyterian Church on account of this revival meeting."

W. A. Roussel has received a message from his brother, Walter S. Roussel, stating that his wife died Monday in Baltimore, Maryland. Miss Almee Roussel, a sister, left Brownwood last Friday for Baltimore. Mrs. Walter S. Roussel has visited in Brownwood.

A magazine writer says a dog fills an empty place in a man's life. This is particularly true of the hot dog. -Gloversville Leader-Republican.

FOOD PRODUCTS CONCERN GROWS RAPIDLY SINCE ESTABLISHMENT HERE, BUSINESS IS EXTENDED

Rapidly development of the Tasty Food Products Company since it was established here early in 1929 is reported by its officers, who chose this centrally located city as a site for their operations and whose judgment has been amply sustained by the splendid development of the concern during the past year.

The majority of organizers of this concern were men who have been in the food business for many years, a number of them having been closely associated and holding positions with Walker-Smith Company, one of the largest and best known grocery jobbers west of the Mississippi river.

P. C. Barnes, President of Tasty Food Products Company, has been about 15 years, closely associated with Walker-Smith Company in various capacities, during the past few years having held the position of traveling auditor. He is thoroughly conversant with every phase of the grocery business and the demands of the consuming public in the west and was especially fitted to take hold of just such an enterprise, as the Tasty Food Product Company in a manufacturing way.

J. W. Lamb, the vice-president of the company, has had many years experience in canning and manufacturing business, having been associated with a similar concern in Dallas. He brought into the business these years of experience. He is a strong believer in the doctrine of human memory of quality, is a great factor in building up business and in all of his work insists that nothing can ever take the place of quality, the one thing that Tasty Food Products Company stands for more strongly than anything else.

J. A. A. Secretary and Treasurer, is another of the boys who, for many years has occupied a responsible position with Walker-Smith Company and, because of years of experience, is especially well qualified for the work his position requires. In addition to the officers, a number of the stockholders are men of wide experience in the grocery and food products business. They have studied this particular line closely and have analyzed, thoroughly, the requirements of the consuming public in Central and Western Texas and will be in excellent position to meet these demands in the manufacturing and marketing of food products.

It was planned, at first, to manufacture only in a small way—mayonnaise salad dressing, chili con carne and chili products (including hot tamales), blackeyed peas and beans. When these products began coming on the market, the favor with which they were received was such as to cause repeat business to the extent that soon the facilities of the small plant were taxed. In fact, within a few months after beginning operations, double shifts of employees were working and the plant running day and night, and even at that, orders could not be kept up with. Despite the plant was receiving more business than it could possibly take care of, the original policy of the owners was strictly adhered to in sending from the plant only the very highest quality in all of the products manufactured. This meant less profit on the dollar than might have been but the owners were not unmindful of the fact that the consuming public would continue to come back time and again for more of the products which they had found to be of such high quality.

As the business continued to grow it was soon found the original quarters would be wholly inadequate to take care of the business. Later in the year a deal was made with the Walker-Smith Company whereby the Tasty Food Products Company would take over, on February 1st, 1930, the manufacturing department of Walker-Smith Company, including the well known Pecan Valley brands of coffee, peanut butter and other products.

On February 1st the Tasty Food Products Company took over this plant which gives them ample room for handling the large business already built up and will enable them not only to take care of the demand for their products, but to easily take care of the manufacturing and marketing of Pecan Valley brand peanut butter, Pecan Valley brand coffee, Pecan Valley brand shelled pecans and kindred lines, as well as new lines which are being rapidly added. The owners of the Tasty Food Products Company are great believers in the West and are building for the future. They have been busy completely overhauling the plant, adding new machinery and arranging so as to take care of not only the present but of the ever increasing demand for their products. Their products will be marketed through jobbers in Texas and adjoining states. Walker-Smith Co. will have exclusive distribution of

"Muscle Shoals Dream," which proved the sensation of the Oklahoma Field Trials held at Oklahoma City, when she ran three races during one forenoon, capturing first prize in the Junior Puppy stake and second place in the Senior event.

Southern Breeze Wins

The Open Subscription stake had 21 starters, of which 16 were pointers and five were English setters. "Southern Breeze" drew the last morning course, after the country had been well hunted and with birds disappointingly scarce. She won first place, however, over the entire field and her bird score was a bevy of quail and two singles.

"Southern Breeze" skimmed over the ground like a small, white writhing cat, off circling the meadows wide and fast and with grace. No one expected her to find birds, but the gallery followed her every move.

Out on the road in his automobile, too ill to follow the course on horseback, was the owner, Mr. Kirkpatrick, laughing delightedly as his favorite puppy continued to show form that any dog might emulate. Like wind tossed, down she swept over one ridge, swung down a draw and at last flashed to a point at the edge of a sumac thicket. All intensity, her attitude positive, she was the very embodiment of pent-up emotion.

Down the draw the big gallery thundered, eager to see what she had discovered. In their excitement several horses almost trampled the frozen white statue of the dog, but "Snooks" held her point and never wavered from the first attitude she struck.

Snooks is Winner

Undoubtedly, the most brilliant performance witnessed at the Oklahoma City field trials was staged by "Muscle Shoals Dream," Kirkpatrick's youngest puppy which he calls "Snooks," the same diminutive with which his only daughter is known. This puppy astonished the gallery by running the first brace of the Junior Puppy stake at the start of the trials, being called back for a second series in which she won first place and then before noon and after but a brief rest, taking second honors in a third trial and over a much difficult course.

Mr. Kirkpatrick now owns six young bird dogs, all championship stock, keeping them in Max Pritchett's kennels at Catoosa. To Mr. Pritchett and Pete Dixon, the handlers, he gives much of the credit for his dog's sensational wins and brilliant performance.

Representative of Farm Board to Meet Poultry Men of 19 Counties Here

A meeting of a representative of the Federal Farm Board and the poultry men and representatives of the cooperative marketing associations in this section will be held here Thursday, April 3. This is to be an executive meeting of the members and heads of the departments over the poultry-raising section. Mr. W. F. Schilling will be the representative of the Farm Board at the meeting. Mr. Schilling is in charge of the Federal Farm Board organization of marketing poultry and dairy products.

The meeting is being called to formulate plans to perfect a co-operative system of marketing turkeys. During the day the plans will be presented and discussed by the members. A large territory is encompassed in the turkey-raising belt of Texas and it is thought that all representatives at the meeting will have something to contribute.

This territory includes Llano, Burnet, San Saba, McCulloch, Mason, Tom Green, Menard, Concho, Runnels, Coleman, Brown, Mills, Lampasas, Comanche, Eastland, Hamilton, Erath, Cullman and Taylor counties. Co-operative associations represented will be the Southwest-

Brown County Cows Reported On Honor Roll

Brown county cows that have made the honor roll for March have been reported by County Agent O. P. Griffin as follows:

Cows owned by Shelton Brothers: Bettina's Mary, Jersey yearling; second month, 23.3 milk per day, 7.95 per cent butterfat, 1.85 fat per day, 57.33 average for month.

Jolly's Cleo, mature cow, eleventh month, 29.2 milk, 7.54 per cent, 1.52 fat per day, 47.12 butterfat for the month.

Cleo's Rowdy, senior yearling, 3rd month, 28.6 milk, 4.56 per cent fat, 1.30 butterfat per day, 49.3 fat for month.

Fauvic's Baby Doll, mature cow, seventh month, 21.5 milk, 6.27 per cent butterfat, 1.35 fat per day, 41.85 fat for month.

Cows owned by C. L. Tervooren: Rulers Fair Girl, senior yearling, second month, 32 milk, 4.97 per cent fat, 1.50 fat per day, 49.29 pounds butterfat for month.

Pet's Fair Jean, mature cow, third month, 31.5 milk, 5.50 per cent butterfat, 1.73 fat per day, 43.63 lbs. fat for month.

Cow owned by Frank Sweet: Reed's Fern Lady, mature cow, first month, 21.7 milk, 5.94 per cent fat, 1.29 pounds fat per day, 40 pounds fat for month.

Members of the sheriff's department Monday arrested a negro who gave his name as Sanders and lodged him in the county jail to await Coleman county officers. His arrest was requested by officials of Coleman county where it is said he is wanted on a charge of murder. The charge grew out of a shooting affair there some three years ago.

WIDER TRADE PLANS STATED BY COMMITTEE

Taking the letter mailed by the trade committee of the Chamber of Commerce as a challenge, the committee on trade extensions has sent letters to all members of the Chamber of Commerce telling them of their plans for the coming year and outlining their program to extend the trade territory of Brownwood and to increase the good will of the present territory. These letters are being mailed after a meeting of the thirty-two members of the committee decided that they should present to the merchants their plans. The letters are signed by every member of the committee and by the chairman, Elmer Haynes, personally.

In the letters it is explained that they plan trade trips into the surrounding territory taking a party of fifty Brownwood representatives to meet with fifty local citizens of the community visited. At these meetings a luncheon will be served and paid for by the Brownwood delegation and the plan is for each member of the party to ask some person in that place to come and be his guest at the meeting.

Some local church or civic organization which wishes to raise funds for some purpose will be asked to serve the 100 assembled men. Representatives of every kind of business in Brownwood, including retailers of every commodity, wholesalers, school men, manufacturers and other industries will be given two minutes in which to tell of the activities of their kind of business and to outline the advantages of buying that commodity in Brownwood.

Get-Acquainted Meetings
The speeches will all be short and the purpose of the meeting is to get acquainted with the people of the trade territory and to show them the many advantages of coming to Brownwood and buying their goods here and selling their products here.

Members of this committee are: Elmer Haynes, chairman; Dewitt Abney, W. D. Armstrong, P. C. Barnes, J. A. Baker, Harry Knox, Jr., W. H. Gifford, Ned Robertson, Douglas Carroll, J. C. Galloway, Andy Stewart, J. L. Ellis, Ernest Wither, P. L. Kelley, Thomas H. Taylor, Ernest Morris, Dean Rippeloe, Louis Walker, Gus Rosenberg, Claude Weeden, Hugh Grove, J. C. Turnstill, Rufus Peavy, J. P. McLeod, Ira Hall, J. Claude Smith, Hugh Stewart, J. L. Thomas, J. Grider Lee, Dr. T. B. Bailey, W. W. Henderson, A. H. Bell and Dr. W. B. Gray.

Haynes Is Head of Committee on Trade Extension

Officers of the Chamber of Commerce and friends of Elmer Haynes have succeeded in persuading him to accept the chairmanship of the Trade Extension Committee of the Chamber it was said Monday. Mr. Haynes was very reluctant in taking this responsibility but it was definitely announced today that he had accepted.

This is one of the most important of all committees as it has the responsibility of carrying on a work of extending the trade territory of Brownwood, and of increasing the number of people who come to this place to trade. The work of this committee is vast and it is work that must be pushed continuously. Mr. Haynes is manager of the Garner-Alvis store here and he has agreed to devote much of his time to the work of the committee, which will soon have plans outlined for the coming year concerning the work of the group in conjunction with the Chamber of Commerce.

Cheese Making Demonstration At Center Point

The Women's Home Demonstration Club at Center Point met March 18. Those present were: Mrs. Nora Stewart, Mrs. Jennie Petros, president; Mrs. Joe Brewster, secretary; Mrs. Mill Carruth, Mrs. Effie Brewster, Mrs. Dunn, Mrs. M. H. Harris, Mrs. Frank Evans, Mrs. Bessie Barton, Miss Pearl Hawkins, Mrs. J. H. Hawkins and Mrs. T. N. Doss. Visitors present were: Mrs. Rodgers, Miss Mable Harris, Mrs. Raymond Doss and Miss Minnie Bell. Club songs were sung and business attended to. The making of American cheese was demonstrated by Miss Malone, county agent, and was enjoyed very much by those present.

Meat Cookery Is Held at Zephyr

The Zephyr Home Demonstration Club met in regular session with Mrs. E. H. Scott on March 9th with twenty members present. Miss Mayesie Malone gave an instructive demonstration on meat cookery. The food was served to everyone present and enjoyed very much. After the business meeting was adjourned to meet next time with Mrs. W. F. Timmins on April 2nd. At this meeting Mrs. Jack McDaniel will teach the club members how to make set-in pockets and bound button holes. Every member is supposed to bring their material to work with.—Reporter.

Courage Ever Victorious
Courage, combined with wit, energy and perseverance, will overcome difficulties apparently insurmountable.—Smiles.

SCOUT SCHOOL OPENS MONDAY

The Scouting Institute which will open at the First Baptist Church next Monday night under the auspices of the Boy Scout Council will have the largest enrollment any training school in scouting has ever had in this community. Yesterday afternoon one business man and three of his employees informed the management of the institute that they would be present and efforts would be made to secure other members of that firm. Another business institution in Brownwood will be similarly represented.

The scout mothers of Troop 8, First Baptist Church, will assist in the school. The hour for the supper will be from 6:15 to 6:45 p. m. The cost is nominal, only 30 cents. This arrangement will make it possible for all men to attend the school with a minimum loss of time. The instruction periods will begin promptly at 6:45 and the sessions will all be run on schedule so that the men will be dismissed at 8:45 p. m.

The purpose of the school is the instruction of men in the aims and methods of the scouting program. It is offered as an aid to all men who are interested in the boy life of the community. Every father of a boy or girl should attend the school. There are twelve sessions in the first course. "The Elements of Scout Leadership." This course has been divided into two sections. The first will be of an intensive school that will be in session every night next week. The second section will open four weeks later.

Plans are now being completed for an all day scout rally of all scouts in Brown county. This rally is slated for April 11th and 12th. It will open with an all night hike and camp fire on the 11th, and will continue throughout the next day. An interesting program of outdoor sports will be the order of the second day. All scouts are notified that they must have their uniforms clean and ready for use those days.

DATA ON UNEMPLOYED WILL BE OBTAINED IN TAKING OF U. S. CENSUS

A schedule of questions to be asked regarding unemployed persons by the census-taker in connection with the 1930 census of unemployment has been announced by William M. Stewart, Director of the Census.

Persons having an occupation but not at work at the time the census is taken will be grouped into two main classes—those who have a job but are temporarily laid off on account of lack of orders, bad weather, sickness, etc.; and those who are able to work and want work but cannot find it.

Exceptional care was used in selecting the questions to be asked Director Stewart said. In this connection an advisory committee, composed of 25 leaders of representative labor organizations, financial institutions, industrial groups, and universities, and of the Department of Commerce, Agriculture, and Labor to consider what questions should be taken. This committee spent several weeks in studying the proposals of various groups and individuals, and in consulting with the recognized organizations which are interested in this subject. The questions as now stated represent the consensus of the opinions expressed by the members of the advisory committee and the numerous outside organizations consulted.

From the information to be collected by the Census Bureau, data will be available concerning the number of men and the number of women unemployed the average age of the unemployed, how many of the unemployed are married and how many single, how long they have been out of work, and the leading reasons for unemployment in the United States. These classifications will be available for the different sections of the country, for different elements of the population, and for the foreign born as distinguished from the natives.

In order to obtain a true figure for the number of people who are actually out of work, the Census Bureau has instructed its enumerators not to register as unemployed persons living on their income and not seeking work; nor will the infirm or feeble-minded be ranked in this category. Persons must be "usually employed at an occupation which yields an income before they can be classed among the unemployed." Director Stewart has pointed out.

The census of unemployed will be a part of the regular population census to be taken in April. Young boys and girls will not be included in the unemployment census, but all persons who have finished or stopped school and have actually started to work will be asked if they were employed on the day before the census enumerator arrived.

The "day before the census is taken" has been adopted by the Census Bureau as a basis of determining unemployment because in a great many instances the census taker will have to get the information from a woman member of the family who happens to be at home when he calls. The male members of the family may be away from home looking for a job, and in such cases the woman will not be able to say whether her husband or son had found a job and is at work that day. She will usually know whether he worked on the previous day, however.

LARGE CROWD SEES LEAGUE LEADERS WIN

BANGS High School's basketball team, pace setters in the Inter-scholastic League title chase for schools of Brown and Comanche counties, registered another victory Tuesday afternoon, defeating Blanket High School, 6 to 5 in a hard fought but more or less erratic game.

The entire business section of Bangs closed up Tuesday afternoon and turned out to support the home town team and as a result the largest crowd of the season was on hand. Ray, ace of the Bangs pitching staff, was nicked for nine hits by Blanket yesterday but managed to tighten up when hits would have meant runs. He added an even dozen to his strikeout record for the season. Ray's support was more or less erratic.

Bangs scored first with one run in the second inning and added two more in the fourth. Blanket was held scoreless until the fifth inning when two runs were passed over the platter. However, these two runs were offset by an equal number of tallies by Bangs in the same inning. But Blanket continued the bombardment in the fifth inning and showed over three scores to knot the count at 5-5. This tie was broken pronto by Bangs with one run in the sixth, this being the final scoring effort of the day, the last three innings being scoreless. Spivey, for Bangs, hit a home run in the fifth inning with one runner on base. Sikes, Bangs third baseman led in hitting with three safe blows, two of them doubles, in four trips to the plate. Thompson, Blanket pitcher, played stellar baseball for the loser. Batteries were, Bangs—Ray and

Blissett; Blanket—Thompson, Bragg and Whitmore. MAY High School had a close call with Early Tuesday afternoon, in fact it took a four run rally by May in the ninth inning to overcome a 6-3 lead held by Early when the two teams went into the last inning. White and George, aces of the May mound staff, were treated roughly by the Early clouters and Steel, May short stop, was forced to take over the pitching before Early was stopped. Steel pitched the last six innings for May and held Early well in check.

Wells and Chrane for Early hit home runs and Whitmore for May hit for the circuit.

PENSION FUNDS NOT GREATLY INCREASED BY NEW LEGISLATION

No very appreciable increase in the Confederate pensions is expected to result from the adoption of the Love bill, with amendments, during the closing hours of the Legislature this week. As originally proposed, the bill would have authorized the comptroller to borrow from other funds in order to take care of pension requirements, but as finally passed after several amendments, the loans thus negotiated are not to exceed in any one year the amount the state will receive for pension purposes from the constitutional tax of 7c. Thus restricted, it is believed that there will be but little increase in the pension going out to the Confederates and their widows.

Nothing on Mosquitoes. Scientists have discovered that butterflies recognize each other at a distance of eight feet. We have had mosquitoes recognize us at a distance of fifty feet.

BANGS WINNER COUNTY TRACT CHAMPIONSHIP

BANGS HIGH SCHOOL, with a well balanced team, ran, jumped and hurled its way to the Class B track and field championship of Brown county Saturday afternoon against a large and formidable field of entries from nine of the leading schools in the county. However, it took a well rounded team from Bangs to nose out the one man team from Williams High that placed second in the meet. But at that, Bangs won by a rather comfortable margin, 48 to 38. The champions copped five first places and tied for another first place, grabbed off four second places, three third places and one fourth to pile up their total count.

On the other hand, Williams, led by Wheeler, the best all around athlete participating in Saturday's meet, copped seven first places but had only one second place to help out in the total score. Wheeler led his team with five first places to top individual scoring honors for the meet.

Schools that entered teams in Saturday's county meet and the position in which they finished, follow: Bangs, Williams, May, Cross Cut, Woodland Heights, Junior High, Zephyr, Chapel Hill and Clio. All running events were comparatively fast while good marks were set in most field events. Approximately 200 contestants participated in the day's festivities.

Junior Division
Brownwood Junior High School copped first place in the Junior Division with 30 points, seven more than were garnered by Bangs, winner of second place in this division. Zephyr placed third in the Junior division with seven points and two others, Brooksmith and Cross Cut, tied for third with two points each. Evans of Brownwood Junior High led all other juniors in point getting with 12 1/2 points. Evans won first places in the 50 and 100 yard dashes and was a member of the winning 440 relay team. He tied with Aldredge of Cross Cut for third place in the high jump.

Summary of Events
Senior Division
120 yard high hurdles: Hall (Bangs), first; Ray (Bangs), second; Dewbre (Woodland Heights), third. Time 19.2 seconds.
100 yard dash: Wheeler (Williams), first; Griffin (Cross Cut), second; Cunningham (Junior High), third. Time 10.4 seconds.
100 yard dash: Williams (Bangs), first; Kirkham (Williams), second; Woods (May), third; Gaines (Cross Cut), fourth. Time 5 minutes 17.5 seconds.
220 yard dash: Wheeler (Williams), first; Pitman (Cross Cut), second; Thomas (May), third; Wagner (May), fourth. Time 23.5 seconds.
220 low hurdles: Hall (Bangs), first; Cunningham (Junior High), second; Polk (Woodland Heights), third; Spence (Zephyr), fourth. Time 28.6 seconds.
440 yard dash: Wheeler (Williams), first; Hall (Bangs), second; Cunningham (Junior High), third; McDaniel (May), fourth. Time 52.6 seconds.
880 yard run: McCurdy (Williams), first; Morrison (May), second; Early (Bangs), third; Wilson (Clio), fourth. Time 2 minutes, 19 seconds.
1 mile relay: May (McDaniel, Thomas, Burnett, Turpin), first; Bangs, second; Woodland Heights, third; Zephyr, fourth. Time 3 minutes 56.5 seconds.

Field Events
Broad jump—Wheeler (Williams), first; Griffin (Cross Cut), second. Hall (Bangs), third; Thomas (May), fourth. Distance 20 feet, 1 inch.
High jump—Hall (Bangs), first; Griffin (Cross Cut), tied for first; Early (Bangs), third; Dewbre (Woodland Heights), fourth. Height, 5 feet 7 inches.

TWO MORE ADDED TO ROAD COMMITTEE OF CHAMBER OF COMMERCE

F. S. Abney, chairman of the road committee of the Chamber of Commerce said Monday that because of the heavy program which had been outlined by the board for the coming year that he wished to add two names to the five now working on that committee as he felt that five wasn't sufficient for the work. The two who he appointed today were W. S. Thomas and "Cap" Phillips.

FIVE INDICTED BY GRAND JURY

The grand jury adjourned Saturday afternoon after being in session two days of this week. In the investigations this week five indictments were returned. Three of those indicted have been arrested and placed in jail, or were in jail awaiting action of that group, these were Cline Huckleberry, charged with burglary; Henry Taylor, charged with forgery; and Sam Anderson, charged with selling liquor.

THREE BOYS DIE HORRIBLE DEATH IN EXPLOSION

TULSA, Okla., March 26.—(P)—Mystery today still shrouded the cause of an explosion which blew the bodies of three boys to bits in a lonely wood near Turkey Mountain, southwest of here.

The youths, Luther McClough, 16, Union Butler McClough, 13, a brother, and Harold Edward Komma, 13, left their homes yesterday morning bent upon hunting in the wooded slopes near Turkey Mountain.

The tragedy was discovered by Ben McClough, pumper on a nearby oil lease, who found the head of his oldest son, lying in a thickly wooded section half a mile from his home. Further search disclosed other parts of the bodies of the trio scattered about the ground, while patches and bits of clothing were caught in the branches of trees nearby.

Investigators, speculating upon the cause of the explosion, said the youths probably discovered nitro dynamite, left by oil workers who had cleaned out a well, and that in some manner they had discharged the explosive.

Homer Lee of Brady has left a local hospital following a major operation. Mrs. S. L. Williams of May has been admitted to a local hospital for medical treatment.

STATEMENT TO THE PUBLIC

I wish to say, so my friends and customers may understand, with regard to the Bowden Bankrupt Sale, that I am not in bankruptcy. This was the business of the G. L. Bowden Furniture Co. which is now run by G. L. Bowden and his brother-in-law, Ollie Sowell.

I have been in business in Brownwood twelve years; I own my business house, and at present am far from bankruptcy.

Am able to save you money on anything in Furniture. Call and see us at 115 E. Broadway, or 104 Brown St.

Second Attempted Jail Break Here in Month Is Frustrated

The second attempted jail break here within less than a month was frustrated yesterday afternoon by members of the Sheriff's department. The previous break was stopped a few weeks ago when sawed bolts were found in the cell occupied by C. A. McNeil. The sawing discovered yesterday was in another section of the jail from that of the first attempt. There are about fifteen prisoners in the section searched yesterday.

Acting on a tip received yesterday members of the sheriff's department searched one section of the jail and found that the prisoners had secured thirteen saws and had secreted them in the cells. They had been in possession of the saws for about five days it was said. Attempts had been made to saw through the combination locks on the doors and in several other places, no headway had been made with the break when the saws were found.

Outside Accomplishes Sheriff Denman said this morning that the saws had been passed up from the outside by aid of stings being let down by the prisoners. This had been accomplished at night and the total number had been sent up by outside accomplices. He said that he knew the identity of the outside parties and that a search was being made for them and that members of his department were waiting for them.

In the search of the jail the saws were found secreted in several places, some behind small mirrors, some in a crevice in the floor, and one in a bunk. Information had been given them as to where the saws were being used and how they were broken they were hid behind the two small mirrors used for shaving and the long blades were hid in a hole in the floor. All blades were found and disposed of and a watch is being kept for the accomplices.

GOOD TRAINING SHOWN BY ALL CONTESTANTS

A tabulation today of the places and points won by the schools competing in the county interscholastic meet held in Brownwood Friday and Saturday, shows counting points won in both literary and athletic events. The Junior High of Brownwood won all around county championship in the Class B division of schools with a total of 115 points. Second place was taken by Bangs with 80 points; third place went to Williams High School which had 10 points; fourth place was tied for by Blainet, May and Zephyr, each having 5 points.

In the rural school division Chapel Hill took first place with 70 points; Winchell won second place with 35 points and McDaniel's third place with 25 points.

In the Ward and Grammar School division, Looney Ward won first place with 75 points; Coggin Ward second place with 69 points; Bangs Grammar School third place with 25 points and South Ward and Woodland Heights tied for fourth place with 20 points each.

In the literary events, counting only points won in literary events, ward and grammar school division, Looney Ward took first place with 65 points, Coggin Ward second place with 49 points and South Ward and Bangs tied for fourth place with 15 points each.

Class B Division, literary events, Junior High won first place with 80 points; Bangs second place with 50 points; Brooksmith third with 5 points and Blanket fourth with 4 points.

In the rural school division, literary events, Chapel Hill was awarded first place for their 70 points; Winchell took second place with 35 points and McDaniel third place with 25 points.

In the athletic ward and grammar schools division Coggin Ward won first place with 30 points; Woodland Heights won second place with 15 points and Looney Ward and Bangs tied for third with 10 points each.

Class B division, athletics, Junior High won first place, 55 points; Bangs second, 30 points; Williams third, 10 points and May and Zephyr fourth with 5 points each.

The above tabulations of points and places were made today by Superintendent of City Schools E. J. Woodward, who said that they were correct as far as could be determined at this date.

Brownwood Senior High is the only school in the district in the Class A High School division and it was not necessary for the school to enter any of the track and field events as their entries go to the district anyway.

District Meet in April The winners in the various county contests will go to the district meet which will be held in Brownwood in April. A definite date has not been settled as yet, according to J. R. Stalcup, principal of Senior High School. He said today that April 13 and 19 had been set as the date for awhile, but that complications of schedules looked now as if the date would be changed.

In some of the events as senior boys and girls declamation and in extemporaneous speech and in the first and second place winners will enter the district meet, instead of only the first place winners as is the case in most of the contests.

The many directors of the contests and officials of the meet expressed themselves today as being well pleased with the meet and the fine showings made by most of the schools. Many of the schools had students entered in the contests who showed real training in their work. All schools entered were greatly helped and should benefit from the two days contact with other schools in the county. It is one of the best ways known of bringing the schools together so they may become better acquainted and know what the others are doing.

Spelling and Plain Writing: Junior Division—First place, Junior High of Brownwood, Mary Hart and Bernice Ross, team grade 94; second place, Looney Ward, Willis Denman and Delphine Graham, team grade 91; third place, Bangs, Oleta Bruison and Gannell Schultz, team grade 90.

FURLOUGH OF P. C. M'INNIS IS EXTENDED

In reply to an inquiry, a telegram received Saturday by the Bulletin from P. H. Dougherty, secretary to Governor Moody, says:

"McInnis furlough extended upon request of many good citizens of Brownwood until the Board of Pardons and Governor can investigate case. Presence of Legislature has made it impossible for Governor to go in to case heretofore."

Negroes Studying At Night School

In accordance with the program being sponsored in Brownwood and Brown county to teach illiterates how to read and write to show a decrease in the number recorded at night school is being conducted at the negro school.

There is a large number attending the school and the ages of these range from twenty to seventy years and all are working hard to increase their knowledge of reading and writing the English language.

Those in charge of the teaching are R. F. Hardin, A. L. Reed, Grace Noble and S. L. Vass.

Island's Many Masters The island of Sicily was first colonized by the Greeks during the eighth century, B. C. In the fourth century Syracuse was the leading Greek power. In A. D. 535 the island was conquered by Belisarius and annexed by the Byzantine empire.

Settled by German Kaiser The dispute between the United States and Great Britain that was arbitrated by a German emperor was in relation to the San Juan water boundary. In 1871 the German emperor rendered a decision sustaining the American claim.

NEW RECORD IN BULL DOGGING

FORT WORTH, Texas, March 17.—(P)—With a crash of falling beef, what was declared a new world's record for bull dogging a steer, has been established here at a rodeo performance of the Southwestern Exposition and Fat Beef Show.

Rube Roberts of Fort Worth last night put his steer down in four seconds flat. The unofficial record is said to have been set at 4.5 seconds a number of years ago in Florida by the late "Slim" Caskey.

Finger Severed By Falling Machinery

Tom J. Reynolds of 961 Vincent sustained the loss of the index finger of the left hand about 2 o'clock Friday when a large part of the machinery of a gas engine fell, catching his finger between two parts of the engine. Mr. Reynolds is employed by the Hall Brothers rock crusher and was loading an engine at the Harry Knox Produce House when the accident occurred.

Mr. Reynolds and two more men had loaded a part of the machinery on a truck and were loading another part when the accident occurred.

He is now in the Central Texas Hospital receiving treatment. He said today that the wound was not hurting very much and that he was resting very well.

Man Who Handled Military Railways in War Is Dead

CHICAGO, March 12.—(P)—Samuel Morse Felton, chairman of the board of the Chicago Great Western Railroad and director general of military railroads during the World War years, died last night at the age of 77.

Beginning his career when 15 years old as a rodman, Felton, after his graduation from the Massachusetts Institute of Technology, was actively identified with American railroading and continued so until last November when he was stricken with paralysis.

Wool And Mohair Meeting is Held A meeting of the Brown county wool and mohair growers was held Saturday at 2:00 o'clock at the court house with a good number of ranchers attending. The meeting was held to discuss the future of the wool situation in Brown county.

The meeting was sponsored by the Brown county organization of the American Wool and Mohair Market Co-operative system, and L. A. Nunn of Brooksmith is in charge of the meeting today as county chairman of the group.

Chester Harrison was the principal speaker of the afternoon, talking to the assembled wool growers on the plans for handling the wool and mohair in Brownwood in the future.

AIR ROUTE STOP TYLER, Texas, March 27.—(P)—Establishment of Tyler as a stop on the Delta Air service route from Birmingham, Ala., to Dallas may follow the survey made here by Gress Eaton, field secretary, and John Fox, traffic manager of the company.

Fox said he would recommend that his organization immediately begin service through Tyler provided satisfactory preliminary arrangements were made. Local interests began making plans to meet the Delta's requirements.

WE IN SAN SABA COUNTY NOW BEING EXPLORED HOLDS MANY UNDERGROUND CHARMS

BY ELMO R. BAKER
Explorers, monster rocks, hoodlums, scores of beautiful things, many of them topped with stalactites, deep caverns, miniature mountains reproduced in limestone formations, a huge room, a large mass of blood-red stalactites and stalagmites, endless number of unexplored underground passages, unexplored rooms which can be peered into, but which are to be opened with further explorations of the cave, form just an infinitesimal portion of the huge labyrinth of underground chambers, natural tunnels, and pits which have just been explored in a large cave within forty miles of Brownwood, although the cave had been discovered nearly two years ago. It is located on the ranch, fifteen miles south of Richland Springs, in San Saba county.

Upon edging between two huge, flat boulders and dragging oneself along, another room was reached in which one might imagine was a cathedral. Up in one corner there was a fairly large alcove which resembled almost perfectly a pulpit and platform, from which a small, white-robed priest seemed to be chanting to the small group standing there in the dimly lighted room with the flashlights turned on the formation. His long, flowing robes are strikingly realistic.

Another room revealed several statue-like formations—some of them resembling a bird's head, Woodrow Wilson, and the Liberty Bell. Other formations which are to be seen resemble miniature waterfalls, snow-clad mountains, and stalactites, which seemed like frozen flocks of blood—they are so red in property.

One room which was reached in this short exploration was barely five feet high at one end, the ceiling and floor gradually intersecting in a horizontal line at the other end. This room so much resembled the mouth of some huge monster, that the observer experienced the same feeling as really being in a real monster's mouth. The sharp stalactites on the ceiling and the similar formations on the floor caused the exploring party to call it the "Torture Chamber." However, none of the sights are really named as yet.

There apparently is no end to the network of rooms and consequently no telling what may later develop as the cave is further penetrated. It is the plan of the writer and the explorer to make one or more trips each week into the unexplored parts, the results of which are to be reported in the papers. Plans are under way for developing the cave and opening it to the public in the near future, should there be found more rooms like those already reached.

there was a great vacant space between the place where the light was poked and where the rays struck the other wall.

Cathedral-Like Room

Upon edging between two huge, flat boulders and dragging oneself along, another room was reached in which one might imagine was a cathedral. Up in one corner there was a fairly large alcove which resembled almost perfectly a pulpit and platform, from which a small, white-robed priest seemed to be chanting to the small group standing there in the dimly lighted room with the flashlights turned on the formation. His long, flowing robes are strikingly realistic.

Another room revealed several statue-like formations—some of them resembling a bird's head, Woodrow Wilson, and the Liberty Bell. Other formations which are to be seen resemble miniature waterfalls, snow-clad mountains, and stalactites, which seemed like frozen flocks of blood—they are so red in property.

One room which was reached in this short exploration was barely five feet high at one end, the ceiling and floor gradually intersecting in a horizontal line at the other end. This room so much resembled the mouth of some huge monster, that the observer experienced the same feeling as really being in a real monster's mouth. The sharp stalactites on the ceiling and the similar formations on the floor caused the exploring party to call it the "Torture Chamber." However, none of the sights are really named as yet.

There apparently is no end to the network of rooms and consequently no telling what may later develop as the cave is further penetrated. It is the plan of the writer and the explorer to make one or more trips each week into the unexplored parts, the results of which are to be reported in the papers. Plans are under way for developing the cave and opening it to the public in the near future, should there be found more rooms like those already reached.

meeting place of the whites and the Indians to do trading. This place was a short distance from the cave. The story has been handed down that white traders came here with beads to trade to the Indians for lumps of silver and gold. Always there would be sent an Indian to obtain this precious metal. He would make the trip in about thirty minutes on a pony alone—no one was allowed to follow him—and return with the gold and silver. The man doing the exploring stated that it was just about a fifteen minute ride back to that place from the cave. Therefore it is thought that this was the cave in which the metal was kept or found, such as the case may be.

Local Teams to Enter National Debating Contests

Two debating teams representing Howard Payne will leave here Saturday for Wichita, Kansas, where they will compete in the national Pi Kappa Delta debating and oratory contests. Every state in the Union will be represented and there will be several hundred contestants. Kansas, the state in which the contest is being held has the largest delegation, and the Texas delegation will be second largest with nine schools represented.

The teams to go from here are Brooke Smith and Ben David as men representatives and Miss Willie Faye McElroy and Miss Annie Laura Woodard representing the ladies. This meeting will last from Monday, March 31 until April 4. The contest is an elimination process and will be held by drawing opposition. The best speakers in college circles in the country will be heard at the meeting and besides the contest's business of this national forensics fraternity will be attended in a meeting of the state representatives.

WORK ON HIGHWAY
LIBERTY, Texas, March 27.—(P)—Concrete has been poured on Highway 35 through Montgomery county, and Cleveland, known as one of the most isolated but thriving towns in Texas, soon will have an all-weather road to Houston. This highway will connect a straight road from Shreveport to Houston. A celebration will be held at Livingston on April 10, the date set for opening of the highway.

ABNEY ELECTED AS PERMANENT HIGHWAY HEAD

P. S. Abney was elected permanent chairman of the Texas division of the Canada to Gulf Highway organization yesterday at a meeting held at Fredericksburg. There has been a temporary organization of the Texas division for some time, but yesterday after putting the matter to a vote it was decided to make the organization permanent. Other officers of the Texas division are Charles Martin of Mason first vice president, Sledge Spring of Corpus Christi, second vice president, and Hilton Burks of Brownwood, secretary-treasurer.

The whole Oklahoma-Texas division of the highway was made into a permanent organization and officers and directors named for the two states. By a vote it was decided to make the officers of the temporary organization head of the permanent organization. The officers and directors are: A. C. Oliver of Shadock, Oklahoma, president; J. Grady Shipp of Vernon, vice president; W. L. Milburn of Sayre, Oklahoma, secretary-treasurer. The directors are: J. S. Hall, Beeville; Roy Clift, Corpus Christi; J. C. Murchant, Floresville; Tom B. Smiley, Karnes City; Perry S. Robertson, San Antonio; E. H. Eby, Fredericksburg; B. Simpson, Brady; E. M. Davis, Brownwood; Guy Dabney, Cisco; Col. Dick McCarty, of Albany; J. A. Wheat, of Seymour; J. G. Shipp, Vernon.

The route through Texas of the proposed highway is through the following towns: Across the Red River to Vernon, then to Seymour to Throckmorton to Albany to Moran to Cisco to Rising Star to Brownwood to Brady to Fredericksburg to Boerne to San Antonio to Floresville to Karnes City to Kennedy to Beville to Corpus Christi.

The meeting was entertained at the Nimitz Hotel by the Chamber of Commerce of Fredericksburg which entertained with a luncheon for the guests. It was decided to ask the highway departments of

BROWNWOOD

The Trading Center of Brownwood

MATCHERY SERVICE
I can give you in starting your year's poultry business is not only allowing you space in their machines in which to place your chicken and turkey eggs, but also in supplying you with live baby chicks of most of the standard breeds. The Wilecher Hatchery, at the Chamber of Commerce of Fredericksburg, can also supply your wants with regard to chick feeds, and this company carries the Purina Mills brand of chick starter, called Startena. Also they have a complete line of growing and egg laying rations.

HERRICK REFRIGERATORS
DESPITE the snow Thursday, Spring is on the way with Summer not far behind. This means hot weather to come, and every home will require a refrigerator. The Herrick, the Aristocrat of Refrigerators, has been found to be the most economical of them all for keeping food fresh during a hot spell. These fine refrigerators are to be found in all sizes on the floor of the Herrick-Watson-Miller Hardware Company's store. Fresh foods are essential during the summer. Don't fail to study the merits of the Herrick refrigerator before you actually need one in your home.

INCUBATORS AND BROODERS
I of 220, 400 and 1,000 eggs are in stock at the Austin-Morris store, with also a line of 300 capacity chick brooders. These are all of the well-known Quaker line, and are being disposed of at closing out prices. It is not too late to get into the poultry game this season, and hatches can be brought off for several months yet, which will yield good profits to the poultry man. You will find this store in its new location in the Masonic building, with the postoffice next door. See these incubators and brooders before you buy elsewhere.

MAXWELL HOUSE COFFEE
I in coffee in this territory today is that famous Maxwell House brand, "Good to the Last Drop." Mr. Henry Wilson, owner of the three Brownwood Piggy Wiggly stores, has a special price on this coffee for the rest of the week, which is a real buy for those who use this well known brand. He is selling a big three pound can of this coffee at the special price of \$1.14. This is indeed a good buy and should be taken advantage of at this time as this special price is only on this week. Remember, this price is at all three of the stores.

SATEEN PILLOWS
FANCY pillows certainly do brighten up a room. They add a note of color which makes the living room more livable. The big Montgomery Ward and Company's store in Brownwood has a beautiful line of these pillows in brilliant colors with futuristic and exotic designs. In sateen which are selling for 39c each. For the balance of the week this store will sell these attractive pillows three for \$1.00. This makes a real buy in decorative and artistic addities which will add much to your home. And, remember, three of them for one dollar.

three states to give the route a federal designation and number from the northern boundary of Kansas through Oklahoma and Texas to the gulf. At present the highway through Nebraska and the Dakotas into Canada is a federal highway and has a number.

Intended Kindness of Three-Year-Old Cause Baby's Death

TULSA, Okla., March 26.—(AP)—When fire late yesterday destroyed the home here of Mr. and Mrs. W. H. Page, a five-year-old son of the household carried John William Page, 11-month-old baby, outside to safety.

Then a three-year-old sister of the children carried the baby back inside the flaming house and tucked him in his crib. The infant was burned to death. The sister explained she thought it was "too cold" for the baby outdoors.

DISASTROUS FIRE

PROVINCETOWN, Mass., March 27.—(AP)—This old sea town of artists and fishermen on the tip of Cape Cod was recovering today from the worst fire in years. A blaze last night destroyed the high school building, the upper part of the Center Methodist Church and a residence, and set small fires on the roofs of 20 other homes. Officials estimated the loss at \$100,000.

"Dear Sis:
"I Have a Wonderful Position Now!

"Mc's Business College got it for me just as soon as I finished my course. I work in a lawyer's office and it is so interesting. I didn't have a bit of trouble with my shorthand or typing. Really, the instruction was wonderful at the college. I guess the business men know it because when they need secretaries and stenographers they always send there for them. So when you get ready to go I certainly hope you will enter Mc's."

Ask State License For Contractors

FORT WORTH, March 27.—(P)—State license for every contractor, architect and engineer will be asked by the legislative committee of the Texas Branch, Associated General Contractors, at their convention here March 28 and 29.

"We believe that it would be great protection to the public as it has been in other states, in that it assures every individual that any contractor he might select would be competent, both financially and professionally, and the same would apply to architects and engineers," A. J. McKenzie of San Antonio.

chairman of the committee, announced. The committee also will suggest a day labor law prohibiting the practice of governmental bodies in carrying on construction work with their own forces instead of by contract; and a prequalification law for Texas, requiring that all bodies on public construction work shall prove themselves qualified to handle a job, Mr. McKenzie said.

FOR MORE LIGHT
FORT ARTHUR, Texas, March 27.—(P)—Intensity of the Sabine Pass light on the Louisiana side is to be increased, the Department of Commerce has announced.

Proposed changes call for a fixed light with a one-second flash every stepped up to 28,000 candlepower and the flashing light to 380,000 candlepower.

- For Public Weigher, Precinct One: L. Q. (Bud) REESE

TEMPERATURES HURTLED DOWN BY NORTH WIND

(By The Associated Press.)
Riding on a north wind that sent temperatures around the freezing point, snow today fell throughout the Panhandle and sections of West Texas. The cold blast was felt also in North and South Texas.

A wet, heavy snow of great benefit to the wheat crop and ranges fell in the Panhandle. The temperature was just above the freezing point. The fall at Pampa measured two inches, but it had melted soon after daybreak.

Snow, which melted as it fell, was reported at Archer City and Olney. At Wichita Falls the temperature was 40 degrees. Childless also reported snow.

At Dallas the skies were overcast and a chilling wind was blowing. A like condition prevailed at San Antonio where the thermometer stood at 44 degrees.

Rain or snow was forecast for the greater part of the state tonight.

Snow at Pampa
PAMPA, Tex., March 26.—(P)—Two inches of snow fell in this vicinity during the night but melted before daybreak.

ATLANTA, March 26.—(P)—Snow flurries, sharp winds and near freezing temperatures have brought unreasonable weather to Dixie. Overcasts were in vogue today, and growers in some sections expressed concern for their crops.

The mercury dropped to 28 in Southwest Virginia and a light snow laid on the ground for several hours last night in Bristol and in Memphis, Nashville and Knoxville, Tennessee.

Slight damage to peaches was reported in Virginia and fruit men in Northwest Arkansas feared budding trees would be affected.

ASKS GOVERNOR OF WISCONSIN TO VISIT TEXAS

AUSTIN, March 26.—(P)—Governor Moody has transmitted an invitation to Governor Kohler of Wisconsin to come to Texas and investigate for himself conditions in the Rio Grande Valley and elsewhere complained of by the Wisconsin state realty board.

He announced he would go with Governor Kohler on a visit to the Valley in event the chief executive would come.

"I am asking the governor to bring with him a committee of business men from his state, men whose word will bear weight, and in event Governor Kohler cannot come, I want him to send the business men along," Governor Moody said.

He announced he would make the request, after he had held a conference with George F. Kull, secretary of the Wisconsin Manufacturers Association, who arrived today. Kull was sent to Texas after the state senate had passed resolutions suggesting that Texans refrain from purchasing articles and products offered for sale by Wisconsin so long as the realty board of that state persisted in refusing to grant permits to certain Texas companies to sell lands there.

Kull said he would probably go to the Rio Grande valley for a visit, but he would "proceed under his own steam."

A delegation composed of Earl Bacon, land dealer, Finley Ewing and Representative Polk Hornaday, all of Harlingen, and Ray Leaman of Corpus Christi, manager of the South Texas Chamber of Commerce, were here to invite Kull to visit their section. John Newman, deposed executive secretary of the Wisconsin Realty Board, was in the party also. Newman had claimed the boycott against Wisconsin products was dismissed because he purchased a Rio Grande Valley citrus orchard on a recent visit to Texas.

Kull said if conditions in the Rio Grande Valley are what they are claimed to be, he will urge that the action of the Wisconsin Real Estate Board and the Milwaukee Real Estate Board be rescinded and that no boycott be placed on the sale of Texas lands in the Badger state.

Kull stated he would confer further with the governor after his investigation. He declared he had found the governor and other Texans with whom he had come into contact opposed to the policy of one state establishing a boycott against another. He expressed the hope that any person considering the boycott against Wisconsin products would defer until the states have had time to correct any existing evils.

Withdraws Suit Against Tunney

BRIDGEPORT, Conn., March 27.—(P)—John S. Fogarty of Fort Worth, Texas, today withdrew his \$500,000 alienation of affection suit against James J. (Gene) Tunney, retired heavyweight boxing champion. The withdrawal was accepted by Judge Edward M. Yoemann at a hearing in superior court.

Annual Dinner For Church Family Is Slated For Friday

The annual "family dinner" of the First Presbyterian congregation will be held in the church basement Friday night, at 7 o'clock, according to an announcement today.

The affair will be informal in character, and is designed to bring together for an evening of fellowship, John H. Edwards will be toastmaster, and two or three short addresses discussing the work of the church will be delivered.

The dinner will be served cafeteria style, each family bringing enough food for itself and for one guest. The entire congregation has been urged by the pastor and officers of the church to be present and participate in the evening's festivities.

Several Towns Get Insurance Credits

AUSTIN, March 25.—(P)—Insurance key rate credits and penalties were issued to a number of Texas towns today by J. W. L. Weese, state fire insurance commissioner.

Maximum 15 per cent credits were given Brady, Burkburnett, Edinburg, Freeport, Happy, Iowa Park, La Porte, Midland, Panhandle, Port Arthur, Raymondville, San Angelo, San Saba, Slaton, Snyder, Texas City; six per cent, Lamesa.

Rev. J. S. Cook Principal Speaker Santa Anna Meet

SANTA ANNA, Texas, March 22.—(Sp)—The second quarterly meeting of the "Friendship Club" of Santa Anna was held in the basement of the First Methodist Church Thursday night with about one hundred in attendance. Dr. T. Richard Sealy president of the club, acting as toastmaster. Several stunts were put on in the way of a quartette and humorous jokes, and Dr. J. S. Cook, pastor of the First Methodist Church of Brownwood, was the main speaker for the evening. The gathering was also entertained with several popular songs by Misses Louise McDaniel and Marguerite Wilson of Brownwood. Interesting short talks were made by Leman Brown, president State National Bank of Santa Anna, P. P. Bond also of the same bank, J. I. Patterson, pastor of the Methodist Church, and Hal C. Wingo, pastor of the First Baptist Church of Santa Anna. Dinner was served by the ladies of the Missionary Society of the Methodist Church. The club was organized some three months ago for the purpose of promoting good fellowship among the men of Santa Anna and neighboring communities, and has grown to about one hundred twenty-five members. Representatives were here from Shield, Gouldsburg and Rockwood.

GASOLINE PIPE LINE

LULING, Texas, March 27.—(P)—Gasoline is to be pumped to San Antonio through a 50-mile pipe line now being laid from the Magnolia Petroleum Company's refinery here.

BOOKKEEPER FOR CONTINENTAL OIL GIVES OUT FACTS

"My Wife Has Suffered for 5 Years But Since Taking Orgotone (Argotane) She Is a Different Woman," She Says.

"Stomach trouble, indigestion were my wife's ills until she took Orgotone," (Argotane) said Carl E. Hammons of 1105 Brady Avenue, Brownwood, Texas, well known bookkeeper for the Continental Oil Co.

My wife was in a very bad rundown condition and for five long years had suffered with stomach trouble and very severe sharp pains in her back and side, that would cause her to be in misery for hours at a time. She had kidney trouble which bothered her most all the time.

"She got to where she could hardly eat anything, for she was troubled so with indigestion. She was being treated and had to take a strong laxative most all the time. She took all kinds of medicine and treatments but nothing seemed to do her any good.

"Orgotone was advised so highly and recommended to us, she began taking it. She is certainly getting wonderful results and now feels simply fine every day. All of her stomach and digestive troubles are gone and her kidneys are back to normal. The severe intense pains in her back and sides are a thing of the past and in fact her general condition is better. I am glad to give this statement for my wife, and am glad to say a good word for Orgotone (Argotane) for she certainly has been benefited beyond words."

Genuine Orgotone may be bought in Brownwood at the Camp-Bell Drug Store. (adv.)

ARRESTED FOR DEATH OF HUSBAND AFTER A LAPSE OF TWO YEARS

FORT WORTH, Texas, March 27.—(P)—Two years after Bass Gambrell Greenville painter and paper hanger died, his wife today faced charges of murder for his death. She was arrested here last night and returned to Greenville by Sheriff L. L. Porter of Hunt county.

She made no statement. Mrs. Gambrell was employed here as a saleslady in a department store since she came to Fort Worth more than a year ago.

Reports from Greenville said Gambrell's body was disinterred several weeks after burial and a chemist's analysis revealed poison in the viscera.

Invents Device For Weighing Fish

UVALDE, Texas, March 26.—(P)—No longer can a disciple of Walton use the story of telling the weight of a fish that got back into the water because of the scales on its back.

T. T. Reynolds, Uvalde ranchman, has perfected a device which attaches to a fishing rod and which indicates at a glance the weight of the fish. He has obtained a patent on the invention, which can be attached to almost any make of fishing rod.

A cylindrical scale fits into the hollow of a rod handle and by attaching the object to be weighed to a pivoted hook, the weight of the object can be seen instantly through a transparent strip in the handle.

Former Nacogdoches Tax Assessor Dead

NACOGDOCHES, Texas, March 27.—(P)—Forrest Fuller, 43, former tax assessor, was found dead in the woods near here today. He had disappeared yesterday. A justice of the peace returned a verdict of suicide by poisoning. Friends said he had been in bad health.

Plant Blackeyed Peas

We Will Be In The Market For Dried Black Eyed Peas

Cleaned and free from weevils. Plant some acreage in Peas this year and it will surprise you the returns from them.
