BROWNWOOD, TEXAS, THURSDAY, JULY 18, 1929

## Coca-Cola Plant to Be Formally Opened Tuesday

### BIDS ON THREE COUNTY ROADS ACCEPTED HERE

The road building firm of Crouch & Noland of Strawn were the successful bidders on all three county roads, and after a recommendation of this firm by Leo Ehlinger, county road engineer, contracts were let to them, work to start in a few days on one of the three roads, that runs from May to Blake.

The total amount involved for the building of bridge structures and culverts on a total of 52 miles of roads comes to \$48,995.07, and under the contracts the work will have to be completed in about seventy-five days.

The following were the low bids of this company on the three roads: Road No. 1-1, from Brownwood to the Mills county line through Elkins, a distance of about twelve miles; \$15,922.78. The closest to this of the five other bids opened on Monday, was for \$167,511.77 and was tendered by Godwin and Brodgon of Brownwood.

Road No. 2-3, from May to Blake and on to the Eastland county line, twelve miles; \$15,323.41. The closest to this was given by A. Jameson of Brownwood for \$18,196.13.

Road No. 4-3, from the Coleman county line, through Concord to Bangs and on to the Thrifty-Brownwood road, 28.6 miles, \$17,748.88. Godwin and Brodgon were second again with a bid of \$19,511.34.

Other firms bidding on the roads included: Monarch Engineering Co. of San Antonio, J. B. Satterwhite of Brownwood, E. P. McElrath of Corsicana and Austin Bridge Company of Dallas.

### MILLS COUNTY TO OPEN 3-DAY FAIR THURSDAY

The annual Mills County Fair opens in Goldthwaite Thursday for a three day period, lasting through Saturday, according to information given The Bulletin today noon. Some Brownwood people had understood that the fair would open today but this report proved to be erroneous.

### MINOR BROS. TO OCCUPY R. M. LOW BUILDING

Minor Brothers, owners and operators of a chain of ladies' ready to wear stores in West Texas of which the Peggy Anne Shoppe, this city, is a part, have taken a five year lease on the R. M. Low building, adjacent the Citizens National Bank, according to W. H. Minor. This building, now occupied by Dublin & Canon, is being vacated by this firm which is moving to a new location opposite the Southern Hotel.

The owner of the building, R. M. Low, is to completely overhaul the building, Mr. Minor states, this to cost approximately \$8,000. One feature of the overhauling project is a new and attractive front, this alone to cost \$3,500. Another feature of the building which the remodeling is finished will be a large balcony which is to be leased for a modern beauty parlor.

Minor Brothers came to Brownwood earlier in the year, buying out the Robinson Boot Shoppe. Since opening their business here, the firm has become more firmly convinced that Brownwood is destined to become the leading city of West Texas, this being evident by the present expansion program. The new building will afford the firm about three times as much space as now had and the owners plan to enlarge their stock in keeping with the space available.

W. H. Minor will leave in a few days for Eastern markets to purchase stock for the new store, as well as for others of the chain.

### NEW PLANT OF THE COCA-COLA COMPANY IN BROWNWOOD

A CORNER IN COCA-COLA DIRECTORS' ROOM

CLEANLINESS AND UNIFORMITY SEEN IN BOTTLING PROCESS OF COCA-COLA IN BROWNWOOD

### COCA-COLA WORTH \$3,000,000 A LETTER

There are twenty-six letters in the alphabet from whence, higher mathematics billions of combinations and just the right letters which form the emblems tell us there can be name Coca-Cola were shown in the annual report for 1926 to be carried on the books of the Coca-Cola Company at a valuation of over \$20,000,000.00—approximately three million dollars a letter.

This is simply an arbitrary figure and it is beyond the power of accountants and mathematicians to find out what the trademark is really worth. However, the opinion of the investing public expresses itself in the valuation of total shares on the stock exchange which amounts to about \$85,000,000.00. As the total physical assets of the company today are approximately \$15,000,000.00 the investing public values the trademark at \$69,000,000.00—seven million dollars a letter. It is evident, therefore, that the three million figure carried by the company is more than conservative.

According to Hugh Latham of the Brownwood Coca-Cola Bottling Co., "This immense valuation is, of course due to the good will established by the huge expenditures to safeguard the purity of the product and the natural quality of the drink itself. Coca-Cola is made wholly of products from nature giving it its characteristic and delicate bouquet. The products pass through twenty-nine tests in the process of manufacture that the finished drink might be placed before the consumer in its purest and most delicious form. Advertising 'tells the world' and the result of these factors is a trademark worth \$3,000,000.00 a letter."

### STOVALL ATTENDING MILLS COUNTY FAIR

J. T. Stovall, vocational agricultural instructor with the Brownwood Chamber of Commerce, is in Goldthwaite attending the Mills county fair which opens there today. Mr. Stovall will advertise and boost the Brown County Fair while in Goldthwaite with a view to attracting many visitors here as well as inducing those exhibiting farm products, etc., to bring their exhibits to Brownwood.

### STRICTLY MODERN BOTTLING PLANT BUILT ACCORDING TO STANDARD SPECIFICATIONS

The new plant of the Coca-Cola Bottling Company will be formally opened to the public next Tuesday from 2 to 10 p. m. When the people of Brownwood, Brown county and neighboring counties will be welcomed to what is declared to be the only standard structure of its kind in Texas. The new plant has been in operation for the past several weeks, and is open to visitors every day except Sunday. Next Tuesday afternoon and evening the formal opening will be featured by music and refreshments, and a cordial invitation has been extended to all the people to be guests of the company.

Strictly to the plans as finally decided upon by the standardization committee of the Coca-Cola Bottlers Association, this is the first of this model to be finished in Texas.

The committee made plans for four different sizes and capacities of bottling plants, each along the most modern lines, combining beauty with the utmost in efficiency for the business for which they are designed. This is size number three, next to the largest.

The architects were Pringle and Smith of Atlanta, Georgia, and the Brownwood plant was built to their specifications by A. C. Bratton, local contractor. The lot is on the corner of Center and Second Streets.

In front of the building is a well seeded and rapidly growing lawn with a row of shrubbery against the building. Then the main structure, taking the space of the entire width of the lot, runs back seventy-one feet. At the rear is a garage twenty-six feet deep and running the width of the lot, has space for six large delivery trucks.

Brick and Steel

The main building is of brick, steel, concrete and tile construction, entirely fireproof, and built on the best engineering principles. The front is two stories in height the second floor being the same width as the lot and twenty-six feet deep. A metal tile roof covers this portion of the building. The balance of the structure is one story and is constructed of brick and tile. There is a basement, 9 by 12 feet, in which is a boiler and a hot water heater, and connected to this is a trench in which all service pipes are run, and which is large enough for a man to get in for any necessary purposes.

The office occupies the west side of the front of the building where there is located a complete set of fine office equipment. This is reached directly by the front door. A door leading to the east side of the building, one enters the front door takes one directly into the work room where the actual bottling machinery is located.

Here is found a big ice machine, a carbonic gas and water mixer, the bottle sterilizer and washing machine, and the actual bottling machine itself.

Two immense plate glass windows face the front, all operations being visible from the street. Windows on the side wall of the fire proof variety with steel wire moulded into the center of the glass.

This room has a cement floor and its walls are of brick up to about six or eight feet. From there on up is a wall of smooth, white plaster, the same as the ceiling, painted with savalite paint. The lighting fixtures in the room, leading to the building, are specially designed with the name Coca-Cola on them.

Back of this bottling room is a warehouse separated from the front by an iron grill and gate. This storage room has off it a dressing and shower room for the employees.

A loading platform is situated on the west side of the building directly back of the offices and running the length of the building from there back. Doors open from this directly into the offices, into the bottling and into the storage rooms.

An elevator and a stairway lead from the bottling room to the second floor. This elevator is at present a hand power affair, but is one which can easily be changed to one which is power driven.

The entire west side of the second story is devoted to conference room, complete with telephone, director's table and chairs. This room has a hard maple floor and in fact the entire room is handsomely finished.

The far northeastern section of the upper story is devoted to the laboratory. This room has a tile floor and vitrolite walls and white plastered ceiling, with a vitrolite work bench. Here the various ingredients of the bottled goods are periodically tested and sampled, and here the mixing is done.

The balance of the second story is devoted to a huge cooling box, two large water filters, storage for syrups and crowns, as the small metal and cork bottle caps are called, and other things which go to make up the whole of the supply department of such a plant.

A striking feature of the plant is seen from the outside. Of a pleasing brick face, the front of the building has a pleasing arched entrance of art stone. One huge signature of Coca-Cola in white terra cotta three feet high and fifteen feet long is placed in the wall above the big plate glass windows facing Center avenue, and another signature of like proportions is placed on the wall facing west.

### TEN COUNTIES ARE INCLUDED IN TERRITORY

Heads of about twelve Brownwood families are connected with the Coca-Cola Bottling Company here, fourteen people in all being directed interested as stockholders or employees. At the head of the list is J. W. Latham, president, who has been in the bottling business here for the past thirty years and is one of the leaders in the state and national bottlers' associations. He with others formed the present corporation last October. Associated with him are Hugh Latham, vice president; J. Claude Smith, secretary-treasurer; and Mrs. J. Claude Smith and Mrs. Ruby Latham Ables as stockholders. The company is entirely a Brownwood-owned concern.

In addition to the big new plant now in operation here, the local Coca-Cola franchise in ten Central Texas counties, and is operating plants in Llano, Menard and Goldthwaite, Coleman, Runnels, McCulloch, San Saba, Mason and Kimball counties are included in the territory covered by franchise.

### SAILORS GREAT CONSUMERS OF SOFT DRINKS

United States naval reports show that the bluejackets are large consumers of soft drinks, and according to Hugh Latham, President of the Coca-Cola Bottling Company of Brownwood, a fleet never starts on a long cruise without taking down enough carbonated drinks to supply a fair sized city for months.

"The naval authorities are glad to encourage the men in their liking for these drinks," said Mr. Latham, "for they recognize the healthful qualities of carbonated drinks as demonstrated by scientific tests. It has been proved, for instance, that even the dreaded typhoid bacillus is killed by carbon dioxide under pressure in a short time."

"Another thing sailors find in some carbonated drinks a preventive of seasickness. This is especially true in the destroyer service, where the rolling of these shortbeam vessels at high speed is so severe that it induces seasickness much more readily than the comparatively slight rolling of the cruisers. You'll find practically every bluejacket on a destroyer keeps a dozen bottles of carbonated drinks in his locker for just this purpose."

"It is significant that not only on board naval vessels but in some leading hospitals for the sea, wholesome drink such as Coca-Cola is considered almost a necessity."

### Three Deaths Are Due to Lethal Gas

CHICAGO, July 17.—(AP)—Lethal gas escaping from a mechanical refrigerating system yesterday was blamed by health authorities for the deaths of three persons found asphyxiated in their apartment. The condition of the bodies and a leak in the building's refrigerating system indicated that Methyl Chloride Gas, used as a refrigerant, was responsible for the deaths, Coroner Herman N. Bunden said.

Those asphyxiated were Joseph Painter, 32, his wife, Mary, 21, and their infant son, Joseph, Jr. The parents were found dead in bed and the baby in its crib.

After investigating the tragedy, Coroner Bunden ordered immediate suspension of operation of all mechanical refrigerating systems using Methyl Chloride Gas and declared he would seek a special session of the city council to legalize the edict.

### Foxes in the Alps

Quite a number of silver foxes have been sent from Canada to ranches in the Italian Alps, where it is stated that ranching conditions are ideal, and where the fox farming industry is having quite a steady growth.

### CONGRESSMAN LEE GIVES INFORMATION TO WAR VETERANS

The Bulletin has received an interesting communication from Hon. R. Q. Lee, congressman from this district, as follows:

"I believe there are several matters of interest to the people that the papers would be glad to carry as news items.

"FIRST, Adjusted Service Certificates for World War veterans. Veterans who have not filed applications for their Adjusted Service Certificates should do so at once as the time within which applications must be filed, expires this year. If veteran dies without making application, his nearest dependent should make application immediately.

"SECOND, Headstones for graves for Confederate Veterans. The Federal Government will furnish small headstones for the graves of any soldier who served in the Confederate Army and pay the freight on it to the applicant's nearest railroad station.

"THIRD, The Government will provide transportation accommodations and meals for the mothers and widows (not re-married) of the deceased soldiers, sailor and marines of the American forces now buried in the cemeteries of Europe to make one pilgrimage to these cemeteries.

"Anyone interested in any of these subjects may procure additional information about them by writing to me, Room 158 House Office Building, Washington, D. C.

Very truly your friend,  
R. Q. LEE, Member of Congress,  
17th District, Texas.

### U. C. V. REUNION AT CHRISTOVAL WILL BE HELD JULY 24 TO 26

The annual reunion of the Mountain Brigade, Fifth Texas Division, U. C. V., will be held at Christoval July 24, 25 and 26, according to an announcement by L. Ballou of Brady, adjutant of the division.

All confederate veterans and their families have been given a cordial invitation to attend this outing. Accommodations have been reserved for all veterans, their wives, sons, and daughters. Tents, coats and meals will be furnished but each is requested to bring his bedding.

### Men Learning to Be Scout Leaders

A patrol leaders' school is being held in the office of the Boy Scouts of America in the court house starting Wednesday and running for three days, with Jack Brunberg in charge.

Eighteen men are attending today with more expected tomorrow, Mr. Brunberg said. Five of these eighteen are from Bangs and the balance are Brownwood men.

These men are being trained in duties of leadership of groups of boys. An overnight hike and camp will be indulged in Thursday night and the classes continued through Friday.

### Newspaper Men Held in Contempt

CLEVELAND, O., July 17.—(AP)—Louis B. Seitzer, editor of the Cleveland Press, and Carl K. Matzen, chief editorial writer, were held in contempt of court by common pleas Judge Luther P. Walther today. They were sentenced to 30 days in jail and fined \$500 each.

### Interested Readers Of Ancient Paper

SAN ANTONIO, Texas, July 17.—(AP)—A newspaper more than 125 years old that has been an heirloom in the Middlemiss family more than one century proved interesting reading for many San Antonians when M. S. Middlemiss, of Brady, was a visitor in the city.

The historic significance of the paper which is the London Times of Wednesday, November 9, 1796, is that it reproduced the speech of George Washington, when he said words to the effect that "I do not choose to run." This was upon the occasion of his refusal to serve a third term as president.

Among the front page items of this paper is a patent medicine testimonial.

### Are Rescued From Rooming House Fire

HOUSTON, July 17.—(AP)—Two men in their night clothes were rescued by ladders, a sick man was carried out on a cot and three other occupants of a downtown rooming house were forced to flee for their lives early today when a fire threatened the building.

Two passersby noticed the blaze and notified the rooming house operator. The sound of breaking glass, shouts for help from two men trapped upstairs and the screams of the woman who ran the house, awoke the entire neighborhood and brought nearly 10 persons to the scene.

Cause of the first was undetermined. Damage was estimated at \$1,50.

### Bituminous Sand

Bituminous sand—commonly, though incorrectly referred to as "tar sand"—consists chiefly of silica sand cemented together by a soft bitumen. The only occurrence of commercial importance in Canada is along the Athabasca river and certain of its tributaries near McMurray, Alberta.

### COCA-COLA BOTTLES THOROUGHLY STERILIZED

The modern method of mixing and bottling carbonated soft drinks is a practical miracle of both cleanliness and economy, according to J. W. Latham, president of the Coca-Cola Bottling Company, of Brownwood.

"We are living in an age of machinery," said Mr. Latham, "and in our plant we have machines that are almost human. As a matter of fact our whole process of mixing and bottling is accomplished with the touch of human hands. One of the most important steps is the sterilization of the bottle, for that is the only way the purity of the drink itself can be protected."

"An endless belt, composed of a series of pockets, each holding a single bottle, carries the bottles by a succession of short jumps over two big cylinders in either end of the bottle washing machine. At each jump the bottles are held over individual tubes which force scalding water, impregnated with caustic soda, into them with tremendous force. This is done to each bottle not once, but 42 separate times, and in the meantime revolving brushes have scrubbed the outside of the bottle. The bottles then pass on to the second cylinder, where another series of tubes rinse them with clear, pure water. Only after such severe precautions as these is the bottle considered acceptable for filling with Coca-Cola."

### REFRIGERATION AND SOFT DRINK INDUSTRY

One of the most important factors in the growth of the soft drink industry is refrigeration, according to J. W. Latham, President of the Coca-Cola Bottling Company of Brownwood. This is so not merely because a drink naturally tastes better when it's cold, but because refrigeration is absolutely necessary for the protection of the carbonation in the drink.

"Even in mixing and bottling Coca-Cola," said Mr. Latham, "we make sure that the water is never more than 40 degrees Fahrenheit at the most, because the carbon dioxide which gives the drink its healthful and acidic so much to its healthful qualities, dislikes warm water so much that it will escape from it into the air at every opportunity. In bottling there is a moment, just as the newly filled bottle passes from the filling machine to the capper, when the bottle is open. If the drink becomes warm, a good deal of the gas would escape before the cap could be stamped on and the result would be a flat drink.

"The same thing is true in the serving of Coca-Cola. Aside from the fact that it tastes better cold, the low temperature of the drink lacks the carbonation in and you get the full benefit of its healthful, refreshing qualities. That's why we always insist that Coca-Cola be served just as cold as possible."

### Stovall Attending Mills County Fair

J. T. Stovall, vocational agricultural instructor with the Brownwood Chamber of Commerce, is in Goldthwaite attending the Mills county fair which opens there today. Mr. Stovall will advertise and boost the Brown County Fair while in Goldthwaite with a view to attracting many visitors here as well as inducing those exhibiting farm products, etc., to bring their exhibits to Brownwood.

### COCA-COLA WORTH \$3,000,000 A LETTER

There are twenty-six letters in the alphabet from whence, higher mathematics billions of combinations and just the right letters which form the emblems tell us there can be name Coca-Cola were shown in the annual report for 1926 to be carried on the books of the Coca-Cola Company at a valuation of over \$20,000,000.00—approximately three million dollars a letter.

This is simply an arbitrary figure and it is beyond the power of accountants and mathematicians to find out what the trademark is really worth. However, the opinion of the investing public expresses itself in the valuation of total shares on the stock exchange which amounts to about \$85,000,000.00. As the total physical assets of the company today are approximately \$15,000,000.00 the investing public values the trademark at \$69,000,000.00—seven million dollars a letter. It is evident, therefore, that the three million figure carried by the company is more than conservative.

According to Hugh Latham of the Brownwood Coca-Cola Bottling Co., "This immense valuation is, of course due to the good will established by the huge expenditures to safeguard the purity of the product and the natural quality of the drink itself. Coca-Cola is made wholly of products from nature giving it its characteristic and delicate bouquet. The products pass through twenty-nine tests in the process of manufacture that the finished drink might be placed before the consumer in its purest and most delicious form. Advertising 'tells the world' and the result of these factors is a trademark worth \$3,000,000.00 a letter."

### CLEANLINESS AND UNIFORMITY SEEN IN BOTTLING PROCESS OF COCA-COLA IN BROWNWOOD

The process of bottling Coca-Cola is not a complicated one but it is one where every step is carefully taken so as to insure the purity, cleanliness and absolute uniformity of every drink that goes out. The same is true of the bottling of the ten other drinks which is done on a scale about equal to that of Coca-Cola in this new plant on Center Avenue.

Syrup comes to the Coca-Cola Bottling Company in barrels and this concern uses about 10,000 gallons of Coca-Cola mixture a year in addition to the thousands of gallons of other flavors making up the entire output of the plant.

After thoroughly straining, this syrup goes into high glass lined mixing tanks situated in the laboratory on the second floor of the building, and from there goes in a blocked tin pipe to the bottling machine on the main floor.

All water used is filtered twice through two large filters which can be and are cleaned at least once a day. A four hundred gallon cooling tank situated on the second floor also is operated by a York ice machine and cools the water to a certain degree just before it goes into the liquid carbonator.

Crowns, as the bottle caps are called, are stored in dust proof bins on the second floor, and are poured into a covered bin when desired for use and from this they drop down into the bottling machine itself on the first floor.

The bottling process is carried on after the bottles have been thoroughly washed in a machine called the Meyer Dumore Jr. This has a capacity of 650 cases a day. An attendant, carefully inspects each bottle as he places them four at a time in the receiving end. They are automatically carried by the machinery into an alkali solution heated by steam to a temperature of 140 degrees, and are kept moving through this for a period of 14 minutes.

Not touched by hands at all they are brought out of this solution and

### Fine Soft Drinks of Delicious Flavor Bottled by Company

While the nationally famous Coca-Cola is the leading drink bottled in the Coca-Cola Company's modern plant here, ten other fine soft drinks are bottled in large quantities and distributed over a large territory.

In all its soft drinks the Coca-Cola company uses only the finest of flavors and other materials, and the utmost caution is constantly employed to make every bottle of sparkling soda water absolutely pure.

### JUDGE OVERRULES CHANGE OF VENUE MOTION IN LIQUOR CASE

Claiming a great prejudice existed in this county against Pete Linton, on trial in District Court, his attorneys, Callaway and Callaway, filed papers Tuesday for a change of venue, stating that they could not obtain a fair and impartial trial in this county. Judge E. J. Miller overruled the motion for the change after nearly an entire day had been consumed in presenting the motion and hearing half a dozen witnesses.

The document filed in support of the motion contained thirteen closely typewritten pages and many newspaper clippings, all tending to prove that the minds of the jurors were already made up, that they have therefore prejudged and in a large measure decided this defendant's case adversely to him at this time, and they will be and are intimidated and will be afraid to bring in a verdict of "not guilty" no matter what the evidence.

The attorneys stated in this petition that because of the "many cases of indictment and the inflammatory reports in the newspapers," it would be hard to separate this case from the many in the minds of the jurors, that the jury would decide the case, "not upon the merits of the evidence, but upon the demerits of all."

Nine clippings of stories, editorials and comments from the Brownwood Bulletin were offered for evidence, and five copies of the Brownwood News in an attempt to show the widespread prejudice because of this publicity.

The Bulletin was described as "a daily of large circulation in the City of Brownwood and in Brown county." The first clipping was a story printed May 12 of the first of a series of raids by Sheriff M. H. Denman with the following two column head, "Round Up Is Made Saturday Night by Sheriff and

Squads." Other stories offered as evidence had the following headlines: "Men In Car Fire Shots at Deputy Who Had Aided in Recent Liquor Round Ups," June 10; "Change to Grand Jury," June 26th; "Endorsement Is Given Fight by Sheriff on Bootlegging." Stories also on the statement of Sheriff Denman, June 8th, and the statement of Police Chief George H. Guilliams, June 10th.

"Public Opinion" Statement

A statement in the Public Opinion column of June 10th made by H. G. Ratliff, commending the actions of the Sheriff, was also included, as were two editorials, one on June 11, headed, "Let Him Continue the Good Work," and on June 17th, "The Law and the Juris."

The petition for a change of venue also contained the statement that a dangerous combination was in effect in Brown county against the defendant, instigated by influential persons, that on or about April 15th a private subscription was set up for the purpose of sending O. D. and Arthur Williams and J. B. Casey out to get evidence. These men were referred to in the petition as "Stool pigeons."

The motion for change of venue being overruled by Judge Miller, the trial of the case was begun.

All Wednesday morning was taken up with the selection of a jury, additional talismen having to be secured by the Sheriff when the venire was exhausted with two men yet to be placed in the box. Evidence in the case was presented in the afternoon against Linton, who is charged with possession and selling.

Some poultrymen now use the "black-scald" method of picking poultry. The birds are plucked into water at a temperature of 125 to 130 degrees Fahrenheit and kept there up to one minute, depending on the class of poultry. The feathers than are picked off instead of being rubbed off, and the carcasses are dried by electric fans or other means. When properly done, the "black-scald" method gives the birds every appearance of dry-picked poultry. It is important that

### Pointers For The Efficient Farmer

(By U. S. Dept. of Agriculture.)

Farm wages compare favorably with certain industrial wages, when allowance is made for such perquisites as rent and food, according to the department of agriculture. A survey of 2,117 farm employers showed that the total average farm value of all perquisites was \$30.34 a month, and of wages, \$48.44, for a total of \$78.78. In terms of retail prices, this total compares favorably with wages for comparable labor in industrial employment said, in some cases, exceeds it.

Self-feeders for cattle fattened either in dry lots or on pasture save considerable work during the busy summer months, as they can be filled at odd times. Unless a good deal of roughage is mixed with the concentrates, it is better to practice hand feeding until the cattle are on full feed. After that they are less likely to go off feed when they have access to a self-fedder 24 hours a day than when they are fed by hand once or twice a day.

During the work season the farm horse should be fed only at regular intervals. Concentrated feed is necessary to supply the energy for hard work. Large amounts of roughages in the work season should be limited to periods of rest. Excessive feeding of hay is a wasteful practice; it is expensive, reduces the efficiency of the horse and often causes respiratory troubles. Grains and hay should be of the best quality.

Garbage fed to hogs is better given raw than cooked. Hogs show considerable discrimination in choosing parts of garbage that are valuable as feed, and if it is fed cooked they have no choice other than to eat the whole mass. Portions of garbage such as citrus-fruit, rinds or coffee grounds are valueless as hog feed.

Success in making good silage depends upon cutting the crop at the right stage, fine cutting, thorough exclusion of air and plenty of moisture in the cut material.

The leaves of an alfalfa plant contain about two-thirds of the feeding value of the plant, and alfalfa hay should be put in the stack or mow with as many leaves as possible. The hay should be handled as little as possible after it begins to dry and should be raked before it becomes brittle.

Honey should be thoroughly ripened in the hive before it is extracted; otherwise it is likely to ferment. If the combs are well capped and the honey weighs 12 pounds to the gallon, its maturity may be taken for granted.

When lambs are to be kept on the farm, the best method of weaning them is to leave them on the old pasture for three or four days and remove the ewes to a scanty pasture, to check the milk flow. As soon as the lambs quit fretting for their dams, they may be moved to fresh pasture where the ewes have not been. Ewes, with large udders should be milked once every three days until they go dry.

Concentrated meal is a common source of protein for the dairy cow, and if given along with good hay and silage any reasonable quantity can be fed safely with good results. It is a highly concentrated feed and should, if possible, be fed in a mixture with some bulky feed like bran or ground oats. It can be fed to better advantage when the roughage contains an ample quantity of succulent feed.

If the dairy cow kicks when being broken to milk, handle her carefully so she will not form the habit. To strike her only makes matters worse. Before starting to milk put a rope or strap around one hind leg, cross it around the other, drawing them close together. Put the rope above the hocks and cross it in the middle, otherwise it will slip down when the cow struggles.

### MAN IS FOUND FATALLY HURT ON R. R. TRACK

DALLAS, Texas, July 16—(AP)—Jack O'Keefe, 35, well-known resident of Hutchins, 10 miles south of Dallas, was found injured fatally on the Denton Interurban track near the city limits early today.

Police investigator on the theory he had been slugged and his body mangled by a car after it had been placed on the track to cover up the crime.

Says Was Slugged

As O'Keefe was being placed in an ambulance, he told police he had been slugged and dragged upon the track in front of a freight train, which also travels over the Interurban right-of-way.

"They slugged me and I'll get them," the man told officers before lapsing into unconsciousness. He died a few hours later.

Examination of the body revealed that O'Keefe's skull had been fractured. Both legs and one arm were severed by the freight train. He was found by the crew of an Interurban car that passed over the track about ten minutes after the freight train.

Blood stains were found beside the right-of-way on the opposite side from where the body was found, and showed O'Keefe had been dragged along the track for some distance before being placed on the rails. He had no money in his pockets, and his watch was missing.

O'Keefe was last seen in Hutchins yesterday and no reason was

### TWO MORE GET SENTENCES ON LIQUOR CHARGES

A verdict of guilty and a sentence of two years each for Tommie Morris and Frank Harvey keeps the District Court with its record of one hundred per cent convictions in the liquor cases as a result of the recent booze raids of the Sheriff's Department.

Morris and Harvey were charged with the possession of intoxicating liquor. The verdict was brought in by the jury about 9:00 p. m. Monday.

The case against I. B. Carlisle and J. A. Parker was called Tuesday morning with the defendants missing. Officials are looking into the matter to see if the men had jumped bond or merely made a mistake in the date in not appearing.

The case of Pete Linton, charged on a liquor count, went to trial on Tuesday morning.

Such a thing can be imagined as the burden of living up to the unthought confidence people repose in you. At times one doesn't want to be leaned on. This is why over-worked people resent.

### ZEPHYR CLUB TO HOLD AN ALL-DAY PICNIC JULY TWENTY-SIXTH

The Four-Square Community Club of Zephyr will give an all-day picnic Friday, July 26, with a program which will take up the majority of the day.

Club members will part on the first part of the program from 10 to 11 a. m. to be followed by an hour's concert by the Colts Band of Brownwood. Following dinner, and from 1:30 to 4 p. m. a rodeo and goat roping contest will be held, to which all riders and ropers are invited to attend. A fast game of baseball is promised between 4 and 5 p. m.

The date of this picnic was originally set for July 19, and citizens ask that all take note of the change in date.

### WHEAT GOES UP TO \$1.50 MARK

CHICAGO, July 17—(AP)—December wheat reached \$1.50 a bushel today as fresh news of hot weather in Canada aroused new alarm for the spring wheat crop. Buying set in heavily at the opening, and by 10 a. m. wheat was 2 5/8 to 3 3/8 higher than yesterday's close, with July contracts selling at \$1.39 7/8 and September at \$1.44 1/8.

### Mad Horse Gives Negro Hot Chase Disperses Crowd

AUSTIN, July 16—(AP)—A horse afflicted with rabies ran amuck near Weberville yesterday, pursued a negro across a field and dispersed a crowd gathered near a rural store. The animal fell dead while galloping down the roadside.

Six horses believed bitten by the infuriated animal were impounded and placed under observation.

### Rhode Island Red Hen Adopts Four English Bull pups

COLEMAN, Texas, July 17—(AP)—A Rhode Island Red hen, owned by C. C. Cornelius of this city, has tackled a big job, having adopted four English bull pups, about four weeks old.

The hen, pups and mother of the pups all seem to be pleased with the adoption. The hen is very attentive and remains with her canine family day and night, hovering them at night, while the mother dog is unconcerned and only serves when meal time comes, and when it is hard to describe her for that important service.

The pups do not understand what their new mother means by clucking and scratching but they are perfectly content when she hovers them and they nestle close to her at night. The hen adopted the puppies about ten days ago, and she does her best seemingly to understand them, but when they pull her wings and get rough with her, she seems to be puzzled, yet she apparently enjoys their companionship and will not permit any intruding on her rights.

This unusual family arrangement is proving to be quite an attraction and many people are visiting at the Cornelius home to see the hen and her pups.

### Zephyr

Rev. Paul McCastellan filled his regular appointment in the Baptist church Sunday and Sunday night.

Mr. J. L. Van Zandt and family were shopping in Brownwood on Saturday.

Mr. and Mrs. A. B. Dabney made a business trip to Weatherford on Sunday.

Miss Helen Cunningham, of Brownwood, spent Sunday with the homefolks.

Miss Minnie Shelton, of Mullin, spent a few days last week visiting in Zephyr.

Misses Novice Shelton, Katie Phinney and Mildred Waldrum attended the picnic at Delaware on Friday.

Mr. B. D. Harkey, of San Saba, was in Zephyr Saturday night.

Mr. and Mrs. Charlie Bynum, of Brownwood, were in Zephyr Sunday.

Mr. and Mrs. Gus Reynolds, of Oklahoma, are visiting friends and relatives of this place.

Mr. and Mrs. Virgil Matlock, of Rising Star, spent Sunday in the home of Mr. and Mrs. R. H. Scott of this place.

Mr. Houston Parks of Brownwood, was in Zephyr Sunday.

Miss Eloise Cabler was shopping in Brownwood Saturday.

Mr. and Mrs. Joe Lockett, of Mullin, were in Zephyr Wednesday.

Miss Anna McKinney of Brownwood, spent Sunday with homefolks.

Mr. Jesse Blackburn, of Dallas, spent Sunday visiting Mr. and Mrs. P. H. Scott.

Mr. Douglas Fry, of near Brownwood, was in Zephyr Friday night.

Mr. Hilton Dabney left Monday for Houston will be he start work at that place.

Mr. and Mrs. Hill and family, of

Mullin, spent Sunday visiting in Zephyr.

Mr. W. K. Cabler made a business trip to Brownwood Monday.

Miss Ina Piller, of San Saba, is spending a few days visiting her parents, Mr. and Mrs. G. L. Piller.

Mrs. Joe Eaton and family, of Sweetwater, is visiting her parents, Mr. and Mrs. N. B. Gist.

Mrs. R. D. Cole left Wednesday for Virginia where she will visit relatives.

Miss Lillie Mae Hallmark who has been visiting near Zephyr returned home Sunday.

Miss Nina Beth Terrel, of De Leon, who has been visiting in Zephyr returned home Saturday.

Miss Mattie Mae Matson, of Brownwood, spent Sunday with homefolks.

Mr. and Mrs. J. L. Boland and family were shopping in Brownwood Monday.

Miss Aurelia Petty left Saturday for De Leon where she will visit at that place.

Miss Berta Laverne, of Valley Mills, was in Zephyr Saturday evening.

Mr. Nugent Wadsworth, of Buffalo Gap spent Sunday with the homefolks.

Mr. and Mrs. Hillie Franz, of Brownwood, was in Zephyr Saturday.

Mr. and Mrs. Russell Mason spent Sunday visiting in the home of Mr. and Mrs. G. P. Matson.

Mr. J. R. Baker left Tuesday for Trent where he will visit his son at that place.

Miss Ethelmore Piller was shopping in Brownwood Monday.

Misses Evelyn Couch and Ina Gault of Brownwood, are visiting Miss Mary Bell Timmins of this place.

Miss Marzelle Boland left Monday to spend a few days visiting in Brownwood.

Mrs. C. L. Piller made a business trip to Brownwood.

Miss Iva aMe Reasner entertained a number of friends in her home Friday evening. Several games were played. Those who were present were Misses Aurelia Petty, Nina Beth Terrel, Jewel Baker, Lellias Van Zandt, Lucille Reasner, Mable Harris, Marzelle Boland, Theima and Ethelmore Piller, Alla Rae Coffey, Shirley Baker, Minnie Shelton, Messrs. Harold Gist, Maurice Reasner, Narvin Coffey, Ernest Skipping, Douglas Fry, Harvey Kesler, Junior Boland, Andy Baker, Dinzelle Van Zandt, Tom Coole, Lowell Van Zandt, Earlie Reasner, Kaywood, Perry Musgrove, Marion Reasner, Mr. and Mrs. Hubert Locks, and Mr. and Mrs. Carl Reasner. Everyone had a nice time.

Mr. and Mrs. Ola Hart of Brownwood spent Sunday in Zephyr.

Miss Bonnie Dabney, of Blanket, was in Zephyr Sunday.

Mr. J. B. Harper, of Lubbock, was in Zephyr Tuesday.

### Goldthwaite

C. H. Ford and his niece, Miss Bess Hutchings spent last week-end visiting relatives in Santa Anna and Abilene, returning home Monday.

Miss Pearl Casbeer came in home Saturday from San Marcus where she has been attending school.

Mrs. Queenie Covington came home a few days ago from Oklahoma where she has been visiting relatives for several weeks.

D. D. McBride came home Friday morning from Los Angeles, Calif., where he spent some time visiting his son, Bedford McBride and family.

Mr. and Mrs. W. E. Pardue have moved back to their home near the Santa Fe station after staying several months on their ranch east of town.

Miss Lee George Meyers of Falls county is here the guest of her sister, Mrs. L. B. Porter.

Mrs. C. G. Palmer came home a

few days ago from an extended visit with relatives and friends in Blackwell, Ranger, Mineral Wells and other places.

Mrs. L. B. Porten received a message a few days ago stating that her father, George Meyers had suffered a partial stroke of paralysis, but was getting along very well. Mr. Meyers formerly lived here and has lots of friends who are hoping he will soon recover.

### THE BREAKFAST HOUR REGULAR KGKB FEATURE

The "Breakfast Hour" was begun this morning at a KGKB feature and may be expected every morning hereafter except Sunday by the radio fans and the Flat-Head singing and Miss Lois Coston pianist.

Much interest was shown on the opening program and many expressed themselves as thinking this way one of the best programs KGKB has had in quite a while. This program will continue indefinitely and the management will be very glad to have the comments of the listeners regarding their ideas concerning this early morning program.

This evening Prof. R. L. Fortune of Blanket, superintendent of the Blanket school, will have his orchestra from that town in Brownwood and will broadcast from 8 to 9 o'clock. This is an eight-piece orchestra. The following programs for the evening and tomorrow have been announced:

**This Evening**  
7:00 to 9:00 p. m.—Olliver String Band.  
8:00 to 9:00 p. m.—Orchestra from Blanket, under direction of R. L. Fortune.

**Thursday, July 18**  
7:30 to 8:30 a. m.—Breakfast program: Morgan Hall, Edgar Gibbs, Miss Lois Coston and the "Flat-head."  
11:00 to 11:15 a. m.—Daily news broadcasting and weather forecast from the Bulletin studio.  
11:15 to 12:00 a. m.—Record program.  
12:00 to 1:00 p. m.—Sugar Hall and Grace Connally, popular numbers.  
2:30 to 2:45—News broadcasting and sports review.

BROWN COUNTY FAIR AUGUST 21 TO 24

### ANOTHER ATTACK ON TWO OFFICERS HERE THOUGHT TO HAVE BEEN INTENDED

What was thought to be another attempted attack on two Brown county deputy sheriffs was reported by O. D. and Arthur Williams on Wednesday morning.

These two men, who have been largely instrumental in obtaining evidence in the recent capture of a large group of alleged bootleggers, said that they, with their wives, drove home from a picture show on Tuesday evening followed by men in another car.

They report driving into a filling station and that while there the car drove close. The Williams boys said they drew their guns when the occupants of these cars made suspicious motions and the four continued on the way home, just off Fourth Street near Willis Creek.

They further reported that their wives, on watch about the house, said they thought they saw figures creeping toward the house about 1:30 a. m., and that they rushed out and fired about fifteen shots at fleeing forms. No casualties were reported.

### Movie Magnate Is Injured When Cars Collide

OLD WESTBURY, N. Y., July 17.—(AP)—William Fox, theatrical and moving picture magnate, and J. L. Rubinstein, a friend, were injured today in a collision between the Fox automobile and another car in which three women were riding. The women were uninjured.

The collision occurred at an intersection and Joseph Boyes, Fox's chauffeur, was killed when the car he was driving overturned. Fox and a friend named Rubinstein were taken to the Nassau County Hospital at Mineola, where it was said their injuries were not serious.

The car in which the women were riding was driven by Miss Mildred Kane of New York City. It remained upright. Miss Kane and her two companions were taken to headquarters of the Nassau county police in Mineola for questioning.

Rubinstein, the friend of Fox, who was injured, is secretary and treasurer of the Namquit Worsted Company of New York.

# J. R. LOONEY, PIONEER CITIZEN AND CIVIC LEADER PASSES AWAY

John R. Looney, 79, for 54 years a most prominent citizen, business man, community builder and church leader of Brownwood and Brown county, died at 10:00 o'clock Thursday night at the Central Texas Hospital where he had been under treatment the past two weeks or more. Mr. Looney underwent a major operation in the local hospital April 29th, from which he completely recovered. After being out of the hospital for more than a month, his health again failed him and he returned to the sanitarium for treatment. The immediate cause of his death is attributed to pneumonia.

J. R. LOONEY

John R. Looney was born Sept. 13, 1849, near the village of Goodlettsville, Tennessee, about 12 miles north of the city of Nashville. He attended public school in that community and when twenty years of age, in December, 1869, Mr. Looney came to Texas. In company with his brother-in-law, W. P. Cloyd, he came to McKinney, Texas, where he lived for three years, returning to Tennessee in 1872. On September 24th, 1874, Mr. Looney was married to Miss Laura Hewley, his life time companion who survives to mourn his death. On October 10, 1874, Mr. and Mrs. Looney started for McKinney and lived there for one year when they, with a Mr. and Mrs. Mallow, came to Brown county, settling in what is now known as the Clio community, about twelve miles north of Brownwood. There they lived for 13 years until coming to Brownwood in 1888. Mr. and Mrs. Looney built them a home in the Clio community and through hard work and economic living were able to pay for a 392 acre farm.

Enter Business Here  
Immediately after moving to Brownwood, Mr. Looney became manager of a mill owned by the Brown County Milling Company. In 1890, with J. F. Wilson, Mr. Looney entered into the grocery business. This partnership continued until 1892 when he bought out Mr.

Wilson. This store was located on the present site of the Looney Mercantile Company. His success in the business world is attested to by the mercantile company that he established and nourished to its present importance. In addition to this he served as president of the Empire Furniture Company for many years and has been bank director for many years. Not only did J. R. Looney make a success in business, but his faith in others enabled many other young men to get a start in the business world.

Although Mr. Looney's career as a business man has been most noteworthy, his unselfish and never tiring services to the civic enterprises of his community, and his whole souled devotion to the work of his church, have far overshadowed any material successes that have been his.

during his almost four score years on earth. He has in truth been a faithful servant to the community with which he cast his lot in early life. For more than fifty years, J. R. Looney served as a Sunday school Superintendent, his work with the Sunday School beginning even before he moved to Brown county or to Brownwood. While living on a farm in North Brown county, Mr. and Mrs. Looney attended church services regularly, traveling to and from church in a horse made wagon. After coming to Brownwood, Mr. Looney, together with his wife, became affiliated with the Austin Ave. Presbyterian Church. Through the years that came, he served in many official capacities in the activities of his church, his most important post of duty being Superintendent of that church's Sabbath School. A faithful church worker, a devout follower of the teachings of Christ, and a Christian gentleman, is the record left by J. R. Looney at the close of 54 years spent in the county.

Mayor Ten Years  
Although no more important than his church work, Mr. Looney's tireless work in making of Brownwood the city that it is today, is of no less significance. He served the city as an alderman for six years, as Mayor ten years, as a member of the School Board for more than twenty years. He was chairman of Brown County Water Improvement District No. 1, and as chairman of the City Plan Commission, these latter two offices of honor, being held at the time of his death.

Mr. Looney was first elected to the public school board in 1900 and for 22 years served with this body as president and member. During this period of years, the public school system of Brownwood grew from a very inauspicious beginning to its present ranking, as one of the leading public educational systems of the state. Out of respect and in honor for these long years of service, a ward school was named in his honor, this being the J. R. Looney School.

In 1895 or 1896 the voters living in his ward elected him as alderman to represent them in the managing of the municipal affairs of the city. After serving in this capacity for about ten years, or until April, 1907, Mr. Looney was elected Mayor of Brownwood. He served in this position for four terms, or eight years, refusing to announce for reelection in 1915, retiring at that time to private life. His fellow citizens solicited Mr. Looney to announce for Mayor again in 1920 and despite his desire to continue to serve his community as a private citizen, Mr. Looney consented to become a candidate and he was elected, serving another two year term, after which he retired.

After his last term as Mayor, Mr. Looney had not sought any other elective office, but his years of experience in handling the affairs of his community, has led other city administrations to seek his counsel and to entrust to him various responsibilities. Immediately upon the creation of the Brown County Water Improvement District No. 1 he was made chairman of its Board of Directors.

One year after the Brown County Water Improvement District No. 1 was created, then the city administration, foresaw that Brownwood would soon begin a rapid growth, one that would culminate in a city of several times the population that had. With this in view, the city created a City Planning Commission to work out in detail plans for the future Brownwood, and J. R. Looney was called on to serve as chairman of this commission. Although he had retired from active business life and felt that he had earned a rest, he consented to serve as head of the Water Board and of the Planning Commission. His fellow workers are outspoken in stating that much of the success of these two all important projects is due to the counsel and sound advice given by Mr. Looney.

Although J. R. Looney had never taken a leading or prominent part in lodge work, he had been a member of the Masonic Lodge for more than 40 years. He was a member of the Blue Lodge, No. 279, of Chapter No. 141 and of the Commandery of Knights Templar, No. 22. During his years of membership he had served in various official capacities.

Life Companion Survives  
J. R. Looney is survived by his wife, his companion for almost 55 years, the girl whom he married in Tennessee and brought to Texas to share with him the hardy life of a pioneer and who with him in his later years has enjoyed the material reward of a life well spent. This life long companion has been most instrumental in it is declared by friends, in helping him fight the battles of life and to her is left the cherished memory of a kind and affectionate husband and a wise father. To this union were born five children, three of whom joined with the mother in mourning the death of one so dear to them. Those surviving are, Earl Looney, Faye Looney and Mrs. J. H. Ragsdale. Another, the late Mrs. W. D. McCulley and one who died in childhood, preceded the father in death. In addition to these, there are a number of grandchildren and other relatives who survive.

Funeral Saturday  
Funeral services for Mr. Looney will be held at 10 o'clock Saturday morning from the Austin Avenue Presbyterian church and will be conducted by Rev. M. E. Chappell and Rev. George W. Bender former pastors of the Austin Avenue church. The body was taken in charge by Melvin Funeral Home Thursday night and was taken to the family residence, 1301 Eighth Street, at 2 o'clock Friday afternoon. Burial will be made in Greenleaf cemetery under the auspices of the Brownwood Masonic Lodge, the impressive funeral rites of Masonry to be given this illustrious Brother and leading citizen of the community.

Pall bearers will be, P. C. Ragsdale, J. P. Renfro, W. A. Butler, W. W. McCullough, John T. Yantis, T. H. Hart, H. G. Lucas, and Harry Knox, Sr.

# WITH LIGHT BALLOT GOVERNOR PAY RAISE AND COURT CHANGE SEEM TO HAVE CARRIED 2 TO 1

DALLAS, Texas, July 17—(AP)—Proposals to increase the Governor's salary from \$4,000 to \$10,000 a year and to enlarge the state supreme court from the present three to nine members gained further favorable majorities on tabulation today of unofficial and incomplete returns from yesterday's constitutional amendment election.

Reports Received  
Approximately 100 counties, cities or towns were represented in today's final compilation by the Associated Press, which gave the following vote:

For Increase of Governor's salary, 21,145; against, 19,134.  
For enlargement of supreme court, 21,679; against, 9,757.

It probably was one of the most apathetic elections in the history of Texas due to the absence of any political questions, and the final result will not be known until announcement of the official figures from Austin. Large cities gave the two amendments great majorities, although the voting was the lightest on record. Most of the opposition came from rural districts, especially in the Panhandle.

When Effective  
In event official returns confirm the seemingly apparent adoption of the increased salary amendment, it would not become effective until January, 1931, at the close of Governor Moody's term. Mr. Moody has repeatedly declared he would not approve any advance in remuneration unless it was to take effect after he leaves office.

The supreme court amendment would become effective forty days from now, should it be officially declared adopted after the canvass. The new court would come into life with appointment by the Governor of the six new members. Five members of the court would constitute a quorum and it would require the assent of at least five members to establish a decision.

# DISCOURAGED AND DESPONDENT, SHE'D ALMOST GIVEN UP

BROWNWOOD ENGINEER'S WIFE HAD SUFFERED TEN YEARS WITHOUT RELIEF - ORGATONE ENDS TROUBLE.

"I actually believe Orgatone is the greatest medicine in the world, for it pulled me up when I was nearly past going and I have gained wonderfully on it," was the remarkable statement made recently by Mrs. B. B. Chumbley, of 601 Victoria Ave., Brownwood, Texas. Mrs. Chumbley is the wife of a well known statistician engineer for the Santa Fe railway and they have a host of friends throughout this section.

My stomach got into such an awful condition that I continued, "that everything I would eat caused gas to rise and press so on my heart that I felt like I would smother to death. After eating I would turn sick at my stomach and it seemed like I could taste every bite I had eaten." Gas pains would shoot through me and I would be in such terrible pain I would have to go to bed. I became so nervous I could hardly sleep and would sit up in bed all night, suffering agony; I had started headaches most all the time and I felt so miserable that it made my friends unhappy. I became so discouraged over my failures to get relief from the medicines I took that I grew despondent and thought nothing would ever do me any good and had almost given up hope.

"But I picked up something wonderful on my first bottle of Orgatone, my digestion improved and I soon got to eating anything I wanted. I have taken it only about three weeks so far and an strong enough to do all of my own work without any trouble. All my old troubles are over. I sleep like a child and my husband tells me I look like a different woman."

Genuine Orgatone is not a so-called secret or patent remedy but a new scientific bile preparation and is sold in Brownwood exclusively by the Camp-Bell and Peerless Drug Stores, under the personal supervision of a special Orgatone representative. (adv.)

Think It Over  
To come from fretting and repining and to strengthen oneself with some vital interest accelerates the thrill of health.

the opinion that we should not indulge too much in only one class of literature because it would often weaken the appreciation for other kinds of literature which were perhaps more useful.

She also dwelled briefly on newspaper as reading material, declaring that more crime news should be omitted from our papers and instead, that space be devoted to editorials and other types of reading matter.

After Miss Post's speech, a short recess was held. Needless to say, the ladies recessed when it was found that a long green lizard came uninvited into the tabernacle.

Batik Dyeing  
The last feature on the afternoon's program was a demonstration in batik dyeing given by Miss Celeste Moore. This demonstration continued for almost an hour. To demonstrate the principle of this sort of dyeing, she took a piece of yellow cloth and poured hot beeswax on the parts she wished to be of a different color from the rest of the cloth. After the designs had been made in beeswax, the cloth was eyed a different color. After the cloth was dry, the beeswax was pressed out with a hot iron, leaving two colors and decorations. The ladies watched this demonstration with great interest.

The hour before supper was devoted to swimming. After the swim, supper was served on the grounds. Next on the program was the stunts for which \$8 in prizes was offered by Austin Mill & Grain Company for the club presenting the cleverest stunt.

Clubs in Contests  
There were 12 Brown county clubs entering the stunt course, each striving to produce the most clever stunt. After almost an hour and a half of presentation, Chester Harrison of Brownwood, chairman of the judging committee, awarded the first prize of \$5 to the Trinity Club and the second prize of \$3 to the Grosvenor Club. The title of the prize winning stunt was "The Doctor's Operation." Grosvenor Club claimed second place with a stunt entitled "Pop in Your Motor." According to those who witnessed the stunt contest, it was one of the most amusing entertaining hours of the encampment so far.

After prizes had been awarded for the stunt contest, the ladies spread their bedding and retired for the night, sleeping until early dawn when a sunrise breakfast was prepared by the colored cooks who a few hours before had arrived at the scene of the encampment.

A short pep meeting was conducted for a few moments preceding breakfast.

"Love Letter" Contest

A "Farmer's Love Letter Contest" was held during the opening feature on the last day's program. This contest was especially interesting and amusing. A slip of paper was given to each member present with blanks left to be filled out with the name of some farm product so as to complete the continuity of the letter. Following is a copy of the prize-winning letter correctly filled out: "My darling Sweet (potatoe)! Do you (carrot) all for me? My heart (beets) for you and your love is as soft as a (squash). You are a (peach) with your (tridish—hair and turnip) nose. You are the (apple) of my eye, so if we (carrot) then (lettuce) be married, for I know we will make a happy (pear)." Misses Ina Gene DeHay and Juanita Chaille, winners of scholarships to A. and M. College, short course this summer, were on the program with a team demonstration on exterior home improvement. They sat up a model house and farm on the stage and explained the many changes that were to be made. Walks were laid, flower gardens planned, and the exterior of the house was decorated.

A three minute speech from the representative of each club was the concluding feature on the morning's program. Each representative told something of the work done in her club and community during the past year, giving a short history of accomplishments of their club.

At twelve o'clock, the last meal to be given at the encampment was served. Barbecue, corn potatoes, and chicken were the main attractions on the menu.

Immediately following dinner and beginning at two o'clock, another of the peppy song services was held. Miss Edna McFarland, formerly a member of the faculty of Abilene Christian College, conducted a short parliamentary drill. Training in the making of motions and parliamentary procedure was given by Miss McFarland. A short period of practice in the principles of parliamentary procedure was also held to give the members actual experience in conducting an orderly business meeting.

The concluding number on the program was a lecture given by Miss Anna Dobbs, Brownwood teacher of Art, on "Handcraft." Miss Dobbs explained some of the secrets of handwork and brought several examples of art. Painting, woodwork-

ing and wax and clay painting were the subjects of Miss Dobbs' lecture. After the close of the meeting at 4:30, the women were to enjoy a last swim in Lakewood pool.

Miss Mayeale Malone, Brown County Home Demonstration Agent, declares the encampment has been very successful. The women and girls present gave a ringing vote of thanks for the entertainment and recreation enjoyed during the past two days' encampment.

FISH RECORD

ANAHUAC, Texas, July 17—(AP)—Mrs. Levy Land has broken the fish catching record of this section this season by landing and eighty-pound catfish.

MORE TWIN CALVES

WILLS POINT, Texas, July 17—(AP)—Five sets of twin calves have been born near Wills Point in the last 12 months. Old stockmen say that in the last few years twin calves were unborn of.

# King of Beasts Loses His Title in Juarez Fight

EL PASO, Texas, July 15—(AP)—The King of Beasts today had little right to feel kingy, for he fled defeat before the horns of a bellowing bull in the arena at Juarez, Mexico, across the river from here yesterday.

A crowd composed mainly of Americans watched the fight between the lion and a small yellow bull. They saw the lion charge the bull first, trying for a fatal grip on the bull's neck. Soon they saw the agile cat leaping for his life into the horns of the enraged bull. At the end of 25 minutes, the attendants opened the gates and let the lion escape to his cage.

# JUDGE JENKINS IS HONORED BY LEGISLATORS

Honorable C. H. Jenkins, veteran Brownwood jurist and representative from Brown county in the Texas Legislature, returned home from Austin Tuesday morning after an absence from the city the past two weeks. Judge Jenkins went to Austin two weeks ago today and after being there one week attending to duties in connection with his post of duty at the Third Called Session of the Legislature he was stricken ill and had been confined at his apartment until last night. It will be recalled that Judge Jenkins was ill for about three weeks during the time the second called session of the Legislature was in session and he returned to Austin against the advice of his physicians.

The Legislature out of respect for the veteran Brownwood member passed a resolution last week expressing sympathy to Judge Jenkins. The resolution also authorizing the appointment by the Speaker of the House of a committee of five to visit Judge Jenkins and present him with a beautiful bouquet of flowers.

After returning home today Judge Jenkins advised that his illness had been more than compensated for by the kind acts of the Legislature toward him during his illness. Judge Jenkins stated that it was a great consolation to know that he has many close friends in the Legislature.

The resolution as adopted, follows:

"WHEREAS, the Honorable C. H. Jenkins, Representative from Brown County is seriously ill at his apartment in the City of Austin now, therefore,

"BE IT RESOLVED that the Speaker be authorized to appoint a Committee of five members of the House to visit him and to convey to him the sympathy of the entire membership and to express the hope that he will soon be restored to health, and,

"BE IT FURTHER RESOLVED that said Committee be authorized to take flowers to him as a further token of our sympathy, same to be paid for out of the contingent expense account.

(Signed: DeWolfe, Savage, Fannin, Lee, Davis.)"

# WHEN EGG-MAKERS GO ON A STRIKE

Broody Hens Represent an Economic Loss When Not Needed for Hatching—Harsh and Cruel Measures Not Needed to Overcome Broodiness.

In a recent radio talk, Raymond Hitchcock stated that even though he had called all his hens together and scolded them severely, they still refused to lay any eggs for him. Not many people would employ the famous comedian's method for trying to get eggs but many of the ways used to break hens of broodiness are just as ridiculously ineffective. It is really important that better ways of overcoming broodiness should be known. A broody hen is an unprofitable hen especially when incubators do all the hatching. Consequently the sooner her broodiness can be broken up the sooner she can begin once more to earn her board and lodging.

It is a mistake to frighten a broody hen by tying red ribbons to her tail, plunging her into cold water, or confining her in a closed box without food, water or light. Such methods belong to the dark ages of poultry raising. They do not actually cure broodiness but only put the hen in poor flesh and health. The only way to get a hen out of this condition is to get her mind off the subject, so to speak, so she will once more begin eating and drinking in normal fashion. One good way to accomplish this is to confine one or more broody hens in a small coop with a vigorous male.

Broodiness can also be broken and humanely overcome through the use of broody coops. The important thing in using such a coop is to get the broody hen into it the very first day she shows any sign of that condition. If this is done she will forget her broodiness in less than half the time that will be needed if she is allowed to stay on the nest, two, three or four days. The longer broodiness is allowed to continue the harder it is to overcome and the greater will be the loss of egg production. I shall describe two broody coops that I have found exceptionally effective.

For just one hen, make a coop 2 by 2 by 2 feet. The sides are to be of slats for ventilation. Using a single rope or wire fastened to the center of the top, hang this coop from any convenient rafter or branch of a tree. Such a coop will sway with every gust of wind and

with every step the hen takes. That will keep her so busy trying to regain her balance that she soon forgets her broodiness. The second form of broody coop I wish to describe may be used with good effect, when a number of hens all decide to go on a strike at about the same time. This coop should be 3 by 4 or 4 by 5 feet and two feet deep. The sides should be made of slats or poultry netting and the floor either slatted or solid. A good roof should be provided and should extend far enough on each side to give good protection from the rain. This coop should be at least 2 or 3 feet off the ground to allow for good circulation of air all around the hens. This is very important, as broody hens should be kept cool. From three to six hens may be placed in this coop and kept in it day and night. It should be put in a cool, shady spot instead of the sun.

Plenty of good feed and clean water should be kept within easy reach of broody hens the whole time they are confined in a broody coop. This is very important and should not be neglected under any circumstances.

Hens so confined constantly fuss among themselves, which tends to make them forget their broodiness. Seeing other fowls at liberty also helps considerably to speed up the end of broody spells. This method should have the desired effect in from three to five days. It is a particularly good method not only because of its effectiveness but because it is absolutely humane.

Better than any method of curing broodiness is the plan for eliminating it, now being successfully used by many poultry raisers. With careful breeding it is possible to develop a strain of non-sitters or hens that will not go broody. Only hens that do not go broody should be used for breeding and if care is used in selecting just the right hens, broodiness can be practically eliminated in a few generations.

A broody hen, unless needed for hatching eggs, is simply a nuisance and an unnecessary nuisance at that. It is so easy to break up the habit there is no reason why it should be tolerated and a great many reasons that every poultry raiser knows well why it should not be tolerated. But to be successful, one must not make the mistake of using the harsh methods once so much in vogue.

The right way is always the cheapest and best. That is why I recommend sane, humane methods of curing broodiness. They work along scientific lines by not trying to scare the hen out of her brood-

ness, but by replacing the brooding idea with something else. This method brings 100 per cent success because it leaves the hen in excellent physical condition ready and willing to resume her profitable job of laying eggs. Diplomacy and gentle methods are just as superior to force when dealing with feathered strikers as they usually are with the human variety.

# COMMISSION DROP CHARGES AGAINST ROADS

WASHINGTON, July 17—(AP)—The Interstate Commerce Commission announced today it had dropped anti-trust charges against the Kansas City Southern and the Missouri-Kansas-Texas railroads.

An anti-trust complaint was made by the commission against the railroads in connection with their purchase of stock in other carriers which the commission charged was without its authority. Since that time the railroads have disposed of the stock which resulted in the commission dropping the case.

The Kansas City Southern purchased stock in the St. Louis Southwestern and the Missouri-Kansas-Texas and the Missouri-Kansas-Texas as obtained stock in the St. Louis Southwestern.

The Kansas City Southern bought 350,000 shares of Missouri-Kansas-Texas common stock and 155,000 shares of St. Louis and Southwestern. The latter company bought 100,000 shares of Missouri-Kansas-Texas common stock which the commission declared was to be transferred to the Kansas City Southern.

Understanding Charged The commission charged the Kansas City Southern entered into an understanding with the Missouri-Kansas-Texas whereby the latter was to purchase the 155,000 shares of St. Louis and Southwestern stock and pending completion of the sale it was arranged the Kansas City Southern should retain voting rights on stock to be transferred.

The carriers pleaded that the purpose of these transactions was to form a unified transportation system for the Southwest. In a dissenting opinion, Com-

missioner Eastman declared evidence indicated there was "considerable doubt whether Kansas City Southern interests have parted with actual control, direct or indirect, over either Missouri-Kansas-Texas or Cotton Belt."

"Whether these doubts could be resolved into facts which would justify finding of control in a court of law, I do not know," he said, "but that as I see it, is not the point. Our power to prescribe the manner of divestment was given to us for the express purpose of avoiding such doubts which are difficult to resolve into proven facts."

"I believe that in these cases we should determine, first, whether provisions of the act 'have been' violated, as I think they have been, and then proceed to issuance of an order of the kind which the Federal Trade Commission has used and which the Supreme Court has approved."

Chairman Lewis and Commissioner McManamy, Taylor and Campbell, also dissented.

# PRO OFFICERS FACE CHARGES

TULLAHOMA, Tenn., July 17—(AP)—A federal prohibition officer and a Franklin county constable face charges of shooting with intent to kill Ervin Smith, 22, wounded last Saturday during pursuit of his automobile which officers said contained liquor.

A warrant against J. O. Anderson, the federal officer, was issued yesterday, shortly after a case against Bruce Ashburne, the constable, was continued to July 29.

The warrant for Anderson's arrest was issued upon information Ashburne did not fire the shot which wounded Smith.

Member Livestock Sanitary Body FORT WORTH, July 16—(AP)—R. H. Martin of Eagle Pass, Tuesday morning was installed as a member of the State Livestock Commission. He succeeds Richard King of Corpus Christi, resigned. He was named a member of the body by the governor.

King was chairman of the commission. At the meeting here today, J. A. Whitten was named chairman.

# PLAN ORDINANCE TO FIX SALARY CITY ENGINEER

Fixing of the salary of the City Engineer, raising the salaries of two members of the Brownwood Fire Department, a discussion of the proposed routing of state and federal highways through the city limits and the passing on its third reading of the ordinance allowing a rate increase by the Natural Gas & Fuel Company featured Tuesday night's regular session of City Council. All members of the Council were present with City Secretary F. E. Scott occupying the place at the council table that has been held by Joe B. Leach the past few years. After more or less discussion Council instructed City Attorney R. E. Lee to draw up an ordinance

with emergency clause attached fixing the salary of the City Engineer at not more than \$250 per month. This ordinance will become effective August 1 if passed. It raises the maximum salary limit from \$100 per month. It was pointed out Tuesday night that the salary of the City Engineer the past three months had averaged a little more than \$200 per month instead of \$450 monthly as stated last week in discussions before the City Council. The new ordinance also stipulates that the City Engineer will devote his entire time to the work of the city.

Firemen's Raise Fire Chief Rance Pettitt appeared before Council and asked that the salaries of two of his men be raised from \$75 to \$90 per month. Chief Pettitt stated that the two men, Ivan Hayes and Tom Taylor, do identical work as others receiving higher pay and that both are equally efficient in their work. In asking for the salary raise for these men, Chief Pettitt advised that he had perfected an arrangement whereby the city will not be required to hire extra help while members of the department are away on vacation, thus realizing a substantial saving, this partially offsetting the salary hikes asked for. After some discussion, Council voted to grant the raise as asked for.

Highway Routing City Manager Hennen reported to Council that Leo Ehlinger, resident state highway engineer, is ready to confer with Council in regard to the routing of highways through the city. After some discussion, Council agreed to consult with Mr. Ehlinger at the earliest possible date, perhaps during Wednesday.

Final Reading Gas Ordinance Council passed the ordinance granting a raise in commercial gas rates, asked for by Natural Gas & Fuel Company, on its third and final reading last night. This change places the commercial rate at fifty cents per thousand cubic feet with a ten per cent penalty clause.

City Manager Hennen reported to Council that he had been given hearty cooperation in his efforts to correct improper food handling conditions in the city and that all irregularities had been corrected. The making of minor reports by outstanding committees closed the night's session.

# 41 ARE MISSING AFTER CHILEAN VESSEL SINKS

VALPARAISO, Chile, July 17—(AP)—Forty one officers and crew of the Chilean Transport Artao were missing today—apparently drowned—after sinking of that ship yesterday off this port in one of the most violent storms here in years. Only two of its crew of 42 were saved.

At noon the transport radioed an appeal for help which three boats answered, the Flora, the Antartico, and the Imperial. The Imperial picked up boatswain's mate Enrique Aranda, and the Antartico the sailor Francisco Miranda.

Two others, destroyers, found several bodies among wreckage from the ship. It did not appear likely there are any survivors as yet unreported.

Heavy seas and high winds kept rescue ships outside the harbor today. The storm raged over southern and central Chile all day and was particularly severe off the ports of Valparaiso and San Antonio. Telegraphic communications on land to the south were interrupted partially.

# Local Baptists to Attend Assembly at Paisano Pass

Dr. E. Godbold, president of Howard Payne College, and other leaders of the Baptist church in Brownwood, are planning to attend the Ninth annual session of the Paisano Baptist Assembly at Paisano Pass in the Davis Mountains, between Alpine and Marfa, the date of the convention being July 26 to August 4.

According to information received from those in charge of the pending assembly it is learned that several outstanding leaders of the Baptist church in Texas are to have prominent parts on the program during the annual gathering. Dr. O. George Truett, pastor of the First Baptist church of Dallas, and Dr. J. E. Gates, are to be the principal speakers. Dr. Truett speaking each evening and Dr. Gates each morning.

The week's program includes daily sermons, song services, prayer meetings, Sunday School classes and services for the young people's organizations of the church. In addition to this, a number of recreational affairs have been arranged.

Brownwood Baptists are urged to attend this assembly and enjoy the rich fellowship of association with other leaders of the church in Texas. It was stated. The location of the assembly makes it an ideal place for a brief vacation.

Health Hint How often do you get your glasses changed? A wrong lens even a slight error, puts a tremendous strain on the eyes and nervous system. Never, never try to fit yourself with a pair of glasses.—Exchange.

# Knocks Out All Corners!

We know a champion when we see one. And this new-type All-Weather Truck Balloon, brand-new 1929 model, is a winner. It has won the title of "The World's Greatest Tire" by its outstanding performances on the road.

Let us show you the new-type All-Weather Goodyear Truck Balloon. It changes all present ideas about truck tire mileage. It gives positive traction, protection against skidding. No more tread pot-holes! No more cupping, and uneven, costly wear! This new tire fixes that! We have this great new Goodyear in your size. It costs no more than old-fashioned high pressure tires. See it today.

"The Goodyear Truck Balloon Tire is to the truck, what the Balloon Tire is to the passenger car"

# LINTON CASE GOES TO JURY

The case of the State of Texas against Pete Linton, charged with possession and sale of intoxicating liquor, went to the jury this morning at 11:30. The jury was still out at 3 o'clock this afternoon.

This case has been one of the hardest fought of the liquor trials in District Court this summer, going to trial Tuesday morning and not being given to the jury until 11:30 a. m. Thursday.

The defendant was represented in court by Callaway and Callaway, and A. L. Kirkpatrick who at first made a motion for a change of venue, claiming that excessive publicity through his newspapers and a strong combination of men fighting the bootleggers in the county, made it impossible to secure a fair trial here, that the jury would render a verdict not on the merits of the evidence in the one case before them, but on the demerits of the whole of the liquor question.

After arguing the motion and putting on six witnesses, taking all of Tuesday, Judge E. J. Miller overruled it, and all of Wednesday morning was taken in the selec-

tion of a jury. Most of the defense consisted in an attack on reputations of the Williams brothers, Arthur and O. D., the two principal men who worked under cover in getting evidence in the many bootleg cases. Witnesses from Lampasas county, where the Williams boys once lived, and from Brownwood, were put on the stand who testified that they had knowledge of the bad reputation for truth and veracity of these men, and some of the testimony claimed they had reputations as bootleggers as well. On the other hand the state brought witnesses who claimed the boys' reputations were good.

**Williams Brothers On Stand**  
The two Williams boys were the first to be put on the stand and told of the purchase of the liquor at Breezy Point. They were followed by Ray Rhodes of Merkel, who said he was with them at the time. The defense in cross examining, tried to have Rhodes testify that he had planted whiskey at various places prior to the raids. Sheriff M. H. Denman was the last witness used for the state.

Will Stewart, of Lampasas, working for the Livestock Sanitary Commission of Texas, and once a candidate for sheriff in Brown county, was the first witness for the defense. He testified that the reputation for truth and veracity of the Williams boys while in that county, was considered bad. He was followed by L. E. Lancaster, a farm-

er; J. E. LeCompte, filing station operator; Doss Elliott, a farmer; and J. B. Cox, all of Lampasas who testified along the same lines as Stewart.

Then Bristow Gray, a member of one of the National Guard Companies here, testified that no one would associate with the Williams boys in the outfit, using the term "stool pigeon," which was used by other witnesses. He said that beer was sold on the train on one of the guard trips but did not know who had sold it. Reuben Norris of Bangs, another member of the guard unit, and Truman Day, a sergeant, gave practically the same testimony, Day stating that he bought beer from O. D. Williams while in camp at Palacios. Witt Thomas, Charles Day, Claude Collier and O. L. Cantrell all testified against the reputation of the Williams boys.

**Mrs. Linton Testifies**  
Mrs. Pete Linton, wife of the defendant, said that Linton was at her house on the night he was accused of selling liquor. Thelma and Ada Mae Linton, daughters, and Grady Metcalf, an oil man, testified in like manner. C. M. Collier, policeman, said he did not know of the reputation, good or bad, of Linton. The last defense witness was the defendant himself, who stated that the Williams brothers had come to his place of business a few nights before the time of which he is accused of selling to them, and that he told them he did not have any whiskey and that he was not sell-

ing it. J. A. Sandlin, Sheriff Denman, Norman Jack, W. W. Reagan, Luther Wilson and G. B. Bohannon were called on the stand by the state to testify to the good reputation of the Williams boys. Tom Wilkinson, the sheriff, and Arthur Williams were called to testify regarding the bottle of whiskey offered as evidence. The state was represented by Walter U. Early and Tom Wilkinson. Mr. Early making a fiery, dramatic argument for the state before a crowded court room Thursday morning.

## MORTUARY

**W. A. SQUIRES**  
Funeral services for W. A. Squires, 69, who died Wednesday morning at his home, 1525 Melwood Avenue, are to be held at 4:00 o'clock Thursday afternoon from the Melmin Funeral Chapel with Rev. C. V. Carroll, officiating. Rev. W. R. Hornburg, pastor of the Coggin Avenue Baptist Church, will assist Rev. Carroll, pastor of the Milton Avenue Baptist Church. Burial will be in Greenleaf cemetery.  
William A. Squires was born on August 28th, 1859, and had been living in Brownwood the past fourteen years. Mr. Squires was married to Miss F. J. Granbury, July 7, 1881, and to this union were born twelve

children, ten of whom survive their father. They are O. W. of Wellington, W. A. of Houston, J. E. with the United States Army in Honolulu, H. H. of Big Spring, S. S. of Gouldsbusk and J. O. of Fort Worth. Mrs. A. F. Garnett of Crockett, Mrs. A. D. of Carlsbad, Mrs. Virgie Hitchcock of Comanche and Mrs. Vera Hopkins of Brownwood.

Mr. Squires was a member of the Missionary Baptist Church, having joined this church, July 24th, 1870. His membership was with the Melwood Avenue Baptist Church at the time of his death. Mr. Squires had lived a consistent Christian life, his friends state, this being evidenced by the fact that all of his children had accepted his Christ and become affiliated with the church.

Pall bearers for the funeral today were to have been Tom Reynolds, J. C. Reynolds, Sam Head, J. W. Beekstod, William Allford and H. E. Kaneaster.

## TRAVIS A. SINCLAIR

Funeral services for Travis Alexander Sinclair, 34, who died at his home in Westville, Oklahoma, on Tuesday, July 16, will be held at 2 o'clock Friday afternoon from the residence of a cousin, Mrs. Jimmie Magness, 1814 Avenue I, with Rev. A. E. Prince, pastor of the First Baptist church, this city, officiating. The body will arrive in Brown-

wood tonight at 8:45 on the Santa Fe from Temple.

Mr. Sinclair was born December 28, 1894, in Milan county where he lived until enlisting in the United States Army in 1916. After serving with the American Expeditionary Forces in France and Germany for 18 months, Mr. Sinclair returned in 1918 and since that time had lived at Westville, Okla.

Mr. Sinclair was formerly a member of the Baptist church at Rocky, having joined in his early boyhood. He later transferred his membership to the Westville Baptist church. He was also member of the Westville Masonic Lodge. The Brownwood Masonic Lodge will take charge of the body upon arrival tonight.

Mr. Sinclair is survived by a brother, Mack Sinclair, of Brownwood, a sister, Mrs. Ora Rabb, of Mercedia, Arizona, a brother-in-law, Henry Kilion, of Stephenville, two cousins, Mrs. C. S. Coleman and Mrs. Jimmie Magness, of Brownwood and another cousin in Dallas. Pall bearers for the Sinclair funeral will be Zeno Ingram, Homer Duncan, John Shockley, Boyd Magness, W. R. Lee and O. L. Plyzer. Honorary pall bearers will be O. C. Walker, J. L. Lane, Clyde Breen, Dr. T. B. Bailey, Clarence Sheffield and Ernest Davis.

## THOMAS A. CATE

Funeral services for Thomas Alfred Cate, 59, who died at Midland, Tuesday, July 16, were held at 10

o'clock Thursday morning at Win-

chell. Mr. Cate died shortly after an attack of acute indigestion. The body was received in Brownwood Wednesday night by McInnis Funeral Home and was taken to Winchell this morning for funeral and burial services. Mr. Cate formerly lived in the Winchell community.

## MENARD MAN INJURED IN AUTO ACCIDENT

Bill Darter, rancher of Menard, was seriously injured about 9 o'clock Thursday morning when his car, driven by a sister, overturned a short distance west or southwest of Brownwood on the Brownwood-Brady highway, near what is known as the Joiner place. Mr. Darter sustained a fractured skull and several deep gashes about the head, the gashes causing him to lose much blood before he could be rushed to the Medical Arts Hospital. It is presumed that the car hit some sand alongside the road, caus-

ing it to swerve and overturn in a ditch. Mr. Darter's sister was uninjured. The two were enroute to Fort Worth to visit relatives there. An X-Ray examination of Mr. Darter revealed that the skull was only slightly fractured and that his injuries are not dangerous.

## Three More County Boxes Are Against State Amendments

With three more boxes reporting Thursday on the Tuesday state constitutional amendment election only five votes were added for each of the two issues, and 86 against each one. This makes a total in twenty-four boxes out of the thirty-two in the county 929 votes cast, with 208 for the supreme court of nine members and 719 against; and 196 for the raise in the governor's salary and 694 against. The three boxes voted as follows:  
Name of box Yes No Yes No  
Zepher ..... 5 49 5 49  
Elkins ..... 9 11 9 11  
Clio ..... 0 26 0 26  
The earth's sensible atmosphere extends upward for about 100 miles. Christmas and New Year are observed the world over.

Mrs. Clair Bettis and children, of Brownwood, visited Mrs. J. A. Bettis on Tuesday.

A Drawback. Prominent women and social workers in New York have started a movement to gather a supply of durable toys to be lent to poor children for a stated time, as books are lent by public libraries. The idea is philanthropic, but imagine the feelings of a poor child called upon to give up his durable toy at the end of the stated time!

Mrs. Sauters, of Harbin, visited in Proctor Sunday.

Mrs. Lillie Bell McCamey and baby, of Custine, visited her mother, Mrs. Lane, last week.

Burgett Luker and Herman Graham visited Mr. and Mrs. Ira Suckey, of Throckmorton last week.

rather be a shoe cobbler in Palestine than to dwell as a rich man in America." Then the chorus which was something of an expression of joy over their land sang another improvisation which was in these words: "In Palestine we live on oranges and in Roumania we live on fleas." (Word for orange in Hebrew sounds like the word for lice in Roumanian. A great shout of laughter arose.)

Then I went to my cabin and read Jeremiah's prophecy, 23-3 to 6. "And I will gather the remnant of my flock out of all countries whither I have driven them and will bring them again to their folds; and they shall be fruitful and increase." I felt that I had seen a little chapter of God's great promise being fulfilled.

How they love their land. Even Rabbi Reisman, of Lakewood, New Jersey, who attends all our Gentile services, a man of scholarship and culture and who utterly repudiates the idea of success of the Zionist movement, as we Gentiles think of it, can enthuse over Palestine in a way that puts even a Californian booster in the shade.

Early in the morning we passed again through the Dardanelles; to me the most melancholy spot on the whole journey, for there are the wreckage of battleships and the tall shafts of that bleak and barren peninsula of Gallipoli, in memory of the many thousands of French and English soldiers who threw away their lives in that most tragic and foolish campaign of the great World War. We had seen the torn flags of the English displayed among the trophies of war in the War Museum of Constantinople. How I wanted to steal them and take them out of that moldering pride of massacre. I am glad there were no Stars and Stripes there, for if there had been I think there might have been just one more Presbyterian preacher languishing in a Turkish "Hoosgow."

From these pathetic monuments on that desert peninsula we passed soon by another monument dear to ever Christian—the monument of

author of a "Chimpanza Dairy," came aboard. A most interesting lecturer and globe trotter. He is to talk to the English speaking group tomorrow night. If he had not written this particular book prior to this trip I should have felt that it was inspired by reading the scrambled and mixed impressions of my diary. I feel that I should have spent a year or so studying this one subject, "How to record what you see."

Yesterday as we returned back through the Bosphorus in the warm haze of the afternoon sun and saw Constantinople float by in solemn panorama with its hundreds of Moslem minarets piercing the sky with their pencil points, we seemed to be living in a story book. Something of the spell of it was on all of us. After the evening meal, we gathered in the salon or music room over the dining room and sang Christian hymns. Many sorts of religious services we have had but ours is the only singing service.

When we finished our singing we hear a weird song coming up from the steerage so we went down to see and hear. It was a large group of Jewish immigrants gathered from a dozen or more countries, some from America, some from the Azores and from Algiers, from Athens and Piraeus, from Salonica and many who came aboard in Roumania who had come from Bulgaria, Austria-Hungary and Russia. They were singing some of the Psalms in Hebrew. Our interpreter, who fortunately was near me, was a Jew from Germany, who spoke English fluently. He told me that their religious fervor had been aroused by our singing of Jesus. There were some very sweet voices and it was wonderful music and as they stood framed in the soft moonlight of the sea, it seemed that I could hear the voices of Joseph and Mary and the wonderful Son who must have many times been moved to just such expressions of devotion.

Sang Folk Songs

After this they sang folk songs and then the leaders improvised in song and the crowd replied in a weird sort of chorus, much like I have heard of the Southern Negroes in Mississippi. They were rejoicing in their prospect of dwelling again in their beloved land. They were plainly conscious of our presence and the leader with the air of a "Caruso" and a voice as strong, if not as musical, sang, "I had

the Troas, the sacred memory of a man who was true to the vision of a call for help, who let Christ love have sway in his life. The world in time will forget the record of slaughter and hate in this war as it has forgotten the 30,000 who were slain in the great Mosque of St. Sophia in Constantinople, but it will never forget Paul and his message of love and light that he brought westward.

We saw yesterday in the Bosphorus thirty-five hydroplanes of Mussolini. They were flying the flag of Italy's navy on a tour of "Self Expression," over the Mediterranean country. This morning they overtook and passed us with the roar of their motors flying back to Italy in beautiful and impressive formation near Gallipoli and Troas.

Will the world never learn that it is "Not by might and not by power" that blessings in peace and well being are reached.

We expect to be in the land of our Lord about Wednesday and have letters from home. We think of hundreds to whom we would like to send love and greetings.

Devotedly, your friend,  
W. B. Gray.

**THE INTERNATIONAL HARVESTER CO. MOTOR TRUCK CARAVAN WILL BE HERE MONDAY JULY 22nd. 4:45 P. M.**

The New International "Six-Speed Special"

Announcing The New International Six-Speed Special

This New Truck will Out-Pull, Out-Climb, and Out-Perform

With new combination body, 6 speeds, 2 reverse, powerful engine, 4-wheel brakes

The new Six-Speed special is a popular-priced 1-ton truck, specially designed for rural or farm hauling. It has everything that the modern truck should have.

The new 2-speed axle, combined with transmission ratios, gives the Six-Speed Special 6 forward and 2 reverse speeds. The low range masters rough and tough going. The high range is for fast hauling when the roads are good. The same easy engine speed gives you 35 miles an hour on good roads and 3 1/2 fighting miles an hour—ten times as much pulling power—for the stubborn places.

Grain Box-Stock Rack-Convertible Body

The new combination body of the six-speed SPECIAL can be changed from a tight 60-bushel grain box to a serviceable stock rack in a few minutes. Commercial bodies also available.

The complete INTERNATIONAL line includes the 3/4-ton Special Delivery; the 1 1/4, 1 1/2 and 2-ton Speed trucks; and the 2 1/2, 3 1/2 and 5-ton heavy-duty trucks.

This caravan will be on Baker Street side of our store on July 22nd at 4:45 p. m.

There will be demonstrated twelve different types of Trucks with all types of Beds, including the most modern School Bus Body. All school teachers and trustees are invited to see this exhibition.

All McCormick-Deering Trucks and Tractors.

A complete line of Parts in stock.

**SIX-SPEED SPECIAL**

All Others of Similar Rating Under Full Load

We have a new truck here at our place that is entirely different from any other light truck on the market—it has 6 speeds forward and 2 reverse. And the difference shows up mighty plain when you run up against steep grades, plowed ground, deep sand, soft meadows, ditches, snow, etc. The SIX-SPEED SPECIAL is ahead of the others because it is built to go ahead on just the kind of work that folks around here have to do.

It is an ideal truck for the farm, and it fills the bill with merchants, too. Anybody who has to haul loads over good roads and bad will like the SIX-SPEED SPECIAL.

We are demonstrating it every day, so don't feel backward about asking us to show you what this truck will do. It backs up every thing we say about it—and its low price will surprise you.

We Have Gone the Limit and Installed a MEYER DUMORE BOTTLE CLEANER

This machine positively guarantees customers CLEAN STERILE BOTTLES. The bottles receive a submerged soaking and sterilization in a hot caustic solution which kills all bacteria and germs. They then receive a thorough scrubbing on all parts of the outside as well as on the inside. This is the ONLY bottle cleaner that treats the bottles in the above manner, without being touched by human hands.

With the object of placing HIGH CLASS PRODUCTS in the same quality bottle and to protect ALL customers against the above 29% dirty bottles—steps have been taken to install a machine which WILL CLEAN ALL BOTTLES 100%.

We Congratulate the Brownwood Coca-Cola Bottling Company Upon the Installation of This Beautiful New Plant. We hope for their continued Prosperity in the future.

## Soil Surveying

**EDITOR'S NOTE:** The soil survey department of the U. S. Department of Agriculture has for the last 30 years endeavored to assist farmers throughout the country by mapping and analyzing their soil. Dr. A. G. McCall, chief of soil investigations, here explains how the work has been done.

**BY DR. A. G. McCALL,**  
 Chief, Soil Investigations, U. S. Department of Agriculture

**WASHINGTON**—For thirty years soil surveyors of the United States Department of Agriculture have been making an inventory of the Nation's great basic resource, the earth. They have studied, analyzed, described and mapped the soils of more than 1000 counties with an area of 800,000,000 acres, more than half the agricultural land. Results reach the public in Soil Survey reports, each devoted, as a rule, to the soils of a single county. Each report includes a colored map of the area from which a farmer can identify the different soils on his farm.

In particular, comparatively few farmers know how much about their soil below the layer stirred by the plow. The quality of the subsoil often determines whether the field becomes too dry in droughts or whether underdrainage would improve it. The chemical analysis of a soil will often indicate the particular fertilizing material required for profitable cropping. Simple tests will indicate the lime requirements. Any of these elements may vary within a single field.

The soil surveyors are able to tell how droughty soil may be built up to hold water better, and the character of the subsoil will determine how close together drains should be placed for proper drainage. In irrigated regions the farmer must know the alkaline properties of his soil. One soil will require heavy soaking to reach alkali to the under drainage and in another soil that looks similar frequent light irrigations will be preferable.

President Soule of the Agricultural College of the University of Georgia testifies to the value of the soil surveys. Soil surveys showed large areas of Norfolk sandy loam and Norfolk fine sandy loam in Georgia. In Virginia and North Carolina these soils had proved valuable for bright tobacco production. On the basis of soil reports the college encouraged tobacco cropping on these soils and tobacco is the second most important crop in the state. Davidson and Cecil clay loams had proved to be good alfalfa soils farther north. Georgians experimented and alfalfa is increasing in importance in the red lands of the Piedmont. Both developments resulted directly from study of soil survey reports.

Soil scientists must have a broad scientific training, but most of their technical knowledge develops in the field where the young surveyors work with experienced men. Most of the surveys develop into specialists in the soils of some great group, and make a study of the general characteristics of topography and drainage and to locate representative areas of the principal soils. It often happens that level uplands will have soils distinctly different from the rolling country or hillsides leading to water courses, and in turn different from the soils of the valleys. Drainage is a highly important factor. Having gained this basic information the surveyors then make painstaking investigations, digging pits to reveal the layers or "horizons" of soil, using the soil auger and geologist's hammer to check their findings, examining pits along roads and railways, and determining the characteristics of the soils. Finally they cover the county minutely, traversing every field and noting every break where to an experienced eye differences of drainage or plant cover indicates differences in soil.

Supervisors, intimately acquainted with the soils of the region, supervise the work. The field party sends samples to the laboratories in Washington for chemical and physical analysis. A report is written and checked, and before it goes out, it goes through the hands of Dr. Curtis F. Marbut, Chief of the Soil Survey, who is recognized internationally as a principal authority on the classification of soils.

The reports are of high value to farmers who will take the pains to study them to manage their soils according to methods which have proved effective with the same soils in other states or counties.

In the lower picture surveyors are taking a sample of earth for analysis as a part of the extensive soil survey program being taken by the U. S. Department of Agriculture. In the upper picture results of these tests and surveys are being made into maps. Dr. Curtis F. Marbut, chief of the soil survey, is shown in inset.

**Another Florida Bank Is Closed**

**ORMOND BEACH, Fla., July 25—**(AP)—The Bank of Ormond, only bank in this winter home of John D. Rockefeller, failed to open its doors today and was placed in the hands of the State Banking Department by order of the board of directors.

# ST. LOUIS ROBIN STILL FLYING

## DALLAS MOTORCADE IN BROWNWOOD WEDNESDAY IS TOURING THIS ROUTE, DESIGNATED FOR HIGHWAY

A direct route from Dallas to San Angelo, Fort Stockton and Topolobampo, on the west coast of Mexico, and 400 miles shorter than the present route to the Pacific Coast, will be provided through connection of Mexican highways with the new Southwest Highway, State designation of which will be celebrated by the Dallas Chamber of Commerce highway committee with a motorcade to Presidio leaving Dallas this morning. The map shows the routing from the northeast corner of Arkansas through Little Rock, entering Texas at Texarkana, and passing through Dallas, Cleburne, Comanche, Brownwood,

A representative of the State of Brownwood Wednesday evening and spent the night here. The highway exists under Federal designation from Frederick, Mo., as United States Highway 67, and ends at Dallas. With State designation obtained, it is the purpose of the United States Highway 67 Extension Association, of which W. B. Marsh is president, to obtain Federal designation from Dallas to Presidio. The Mexican Government proposes to build a modern highway from Ojinaja, opposite Presidio, through the State of Chihuahua and across the mountains to Topolobampo, prosperous city in the San Blas Valley.

## NEW FRIENDS OF SHEEP BUYER HERE LEAVE HOTEL SUDDENLY, SO DOES HIS \$3,500 MONEY

A loss of \$3,000 in cash was reported Thursday afternoon to the police and sheriff's departments by Homer Fields, sheep man of Bertram. Mr. Fields was in the city buying sheep and, according to his story, he became acquainted with two young men who said they knew where he could make a good buy. They described the purported seller as a peculiar man who would not take a check. They went with Mr. Fields to a bank where he drew \$3,500 in cash and then went with him to the men's room in the Texas Hotel to phone this other sheep man to see if he were at home, he told the officers.

While Mr. Fields was telephoning the men brushed by him and stepped out of the room stating they would be back soon, he stated. He has not seen them since, nor has he seen his roll of money, which he thinks they took out of his hip pocket as they passed him.

When Mr. Fields told the officers to the hotel room to show them where the frisking had happened, according to the reports, the place had been planted with tables, cards, and chips, making it look as though a card game had been in progress, and as Mr. Fields thought, he said, for the purpose of making the law think the money had been lost in a card game.

## MRS. J. R. MASHBURN, FORMER MISSIONARY DIES IN SAN ANGELO

Mrs. J. R. Mashburn, daughter of Mr. and Mrs. C. G. Howard, 1616 Second Street in this city, died at 9 o'clock Thursday morning at San Angelo. Mrs. Mashburn, formerly Miss Loris Howard, was well known in Brownwood and had a host of friends in this city who will join with the family in mourning the untimely death of this talented and sainted young woman.

Mrs. Mashburn had been in very poor health for a year or more, since her return from China, where she and her husband spent five years as missionaries, teaching Christianity to the peoples of that far away land. Rev. and Mrs. Mashburn would have been married seven years in August. Since their return from China, their chief concern has been the failing health of Mrs. Mashburn, a vain battle having been waged in an effort to restore her health which was broken during her sojourn in China.

## HOUSTON PLANE ECLIPSES TWO LATE RECORDS

A Houstonstern was brewing on the Gulf Coast today as the monoplane Billion Dollar City dipped and turned high above in its dogged pursuit of a refueling endurance flight record.

Prepared for its possible storm test, the plane at midnight had been in the air more than 178 hours and the pilots, Glenn L. Loomis and Joe Glass, held fast to their declaration that they would attempt to stay up long enough to beat whatever mark the St. Louis Robin may set up in Missouri.

The Billion Dollar City weathered a slight thunderstorm two days ago. Two records, recent but now almost forgotten, were surpassed by the monoplane yesterday. The Billion Dollar City sailed past the "Fort Worth" 172 hours and 33 minutes record at 6:22:54 p. m., and the City of Cleveland's achievement was better at 7:50:54. The City of Cleveland stay aloft 174 hours and one minute.

The Houstonstern took on gasoline, oil and food for the fliers without incident through last night. Crowds watching the plane were growing.

## BATTLE OVER COURT TO TRY 2 PRO AGENTS

OKLAHOMA CITY, July 25—(AP)—A battle to decide in which court—state or federal—W. W. Thomason, federal prohibition enforcement officer, and Jeff Harris, under cover man, will be tried for murder, loomed today.

Both men have been bound over to district court on charges of murder in connection with the slaying of two Oklahoma farmers, James C. Harris and his brother-in-law, Oscar Lowery, during a liquor raid on the Harris farm July 4.

## PARTY TOURING HIGHWAY NO. 67 HERE FOR NIGHT

The motorcade making a tour of Highway No. 67, which left Dallas yesterday morning and had been augmented by cars that joined the procession at Midlothian, Venus, Cleburne, Glen Rose, Stephenville, Dublin and Comanche, arrived in Brownwood yesterday evening at 9 o'clock.

The visitors, joined by some twenty-five or thirty Brownwood people, had a luncheon at Hotel Southern at 8 o'clock. They spent the night in Brownwood, leaving this morning for Fort Stockton. Mr. F. S. Abney, chairman of the roads committee of the Brownwood Chamber of Commerce and a vice president of the Highway Extension Association, opened the luncheon program with a brief address in which he extended a very cordial welcome to the visitors. W. B. Marsh of Dallas, president of the Highway 67 Extension Association, then took charge of the program and called on Marvin Cullum of Dallas for a response to the address of welcome.

Road Plans Discussed Speakers who discussed the plans regarding Highway No. 67 at the luncheon were John Boswell, head of the highway committee of the Dallas Chamber of Commerce and secretary of the Highway 67 Extension Association. Colonel John I. Simmons of Dallas and Judge E. M. Davis of Brownwood. The luncheon arrangements were in the hands of J. J. Timmins.

Miss Mary Carter Toomey of the Dallas News was called on by the chairman and made a talk on the importance of the highway to the consideration. Miss Toomey is one of the several Dallas ladies making this trip. The Dallas Journal also has a representative with the motorcade. Mr. Paul Leavell being their reporter for the tour.

The annual meeting of Highway 67 Extension Association will be held at Fort Stockton Friday. After the meeting there the party will go to Presidio, Mexico, as which point Highway 67 enters the Mexican republic.

## WHEAT PRICES JUMP 5 CENTS

CHICAGO, July 25—(AP)—Wheat prices responded to new distress signals from the northwest spring wheat regions today by jumping five cents a bushel and closing near the top figures for the day, at net advances of 1-4 to 3-4 cents. July wheat finished at \$1.42-1-2, September at \$1.46-1-4 to \$1.52-1-4, and March at \$1.58-1-4.

For two days the market had been sluggish, losing ground from the quick advance of last Monday and disregarding the daily reports of deteriorating crops in the domestic and Canadian Northwest. Today unofficial estimates of the provincial spring wheat yield reached the low level of 150,000,000 bushels and a similar figure was named for the harvest in Minnesota, the Dakotas and Montana. Black rust was reported prevalent on this side of the international line and from Glendide, Mont., came advices that the unbroken drought and firing had left only ten per cent of the spring wheat acreage surviving.

European crop forecasts were also unfavorable. Corn gained 1-2 to 2-5-8 cents. July futures closing at \$1.03-3-8, September at 1.05-1-4 to 3-8 and December at 99 to 99-1-8.

## GOING INTO ITS THIRTEENTH DAY THIS MORNING MOTOR OF ENDURANCE PLANE HUMS ON

**MAY**  
 W. B. Williams and Miss Effie English left Monday for Alpine to visit with the Misses Thelma and Mable Morrison and brother, Jerome.

Mr. R. D. Williams and daughter, Miss Reba Wade, returned to their home in Lubbock last Sunday after an extended visit with relatives here.

Mrs. Cleve Edgar was taken to Brownwood Hospital last Tuesday for special treatment.

Mr. Melmery, of Houston, is still loading cars of fruit from Rising Star. He will be here all this week.

There is a bountiful grape crop soon to be marketed in this section. Mrs. Cordya Jarvis entertained her Sunday school class last Sunday by taking them all to dinner which was served by a general spread in a nice, cool spot on top of one of the mountains between here and Rising Star. After consuming all the good eats, and enjoying the beautiful scenery of landscapes, and farms, they were driven on into Rising Star and attended the lecture on the Holy Land given there.

The class returned home late in the afternoon and report every minute of the time enjoyed.

The May All-Stars are to play Sidney Wednesday. They have ordered new baseball suits and will play Friday and Saturday in Sidney.

Mr. Weldon James and Julian Stayside were visiting in May Sunday afternoon.

Mrs. B. H. Betts and brother, Clair Betts of Brownwood returned Tuesday afternoon from an extended visit in Yellowstone Park, Cheyenne, Medicine Bow Lodge and Colorado. Uncle George Plummer will spend several months, but Mr. Burk Plummer is expected in a few days. The Messrs. Plummer accompanied Mr. Betts on the trip but they are to return home at different times.

Miss Louise Betts has had a slight operation on one of her arms. She is in the Medical Arts Hospital in Brownwood.

Miss Elizabeth Bryson of Howard Payne spent the week-end with Miss Mary Beth Hooper.

Miss Lettie E. Coggin, from Brownwood, is visiting her aunt, Mrs. B. H. Betts and family this week.

Master Carroll James Slubicki of Waco is visiting his uncle and aunt, Mr. and Mrs. A. M. Bowden this week.

Mr. and Mrs. Voochies and Mrs. Sweden and children of Sweetwater, daughter of Mr. and Mrs. W. B. Brannon returned home Sunday accompanied by Miss Floy Brannon who has just closed a summer school in Breckenridge.

Mrs. Trigg, who has been visiting home Sunday.

Mr. and Mrs. Slubicki and son, Carroll James, of Waco, visited Mr. and Mrs. A. M. Bowden Sunday.

Mr. and Mrs. J. D. Hibbs was very joyfully surprised last Friday evening when their daughter, Mrs. Crockett, of Fort Worth and Mrs. Vinyard of Howe, arrived to spend a few weeks with their parents.

Mrs. D. Hibbs and children visited Mrs. Hibbs' parents, Mrs. Hastings of Carbon this week.

Rev. E. C. Shaway of Rising Star and Rev. R. T. Wallace have been conducting a very successful meeting at Bethel this week.

Mrs. J. C. House of Belton is visiting her daughter Mrs. R. T. Wallace for a few days.

Plans were definitely closed on last Monday for our new Methodist church, when the committee met Mr. Meadows, the architect, in Comanche.

Miss Hornselt Blair of Brownwood is spending the week with her cousins, Alta Lee Killian and Willie L. Keeler.

Numerous wolves in the mountains east of town have been devouring quite a few turkeys the past two weeks. The wolves seem to be young ones just inaugurated into the hills.

Mr. Will Rogers has happened to the hard luck of having one of his good milk cows bitten on the jaw by a rattlesnake.

Mr. Oliver Steele, of Rising Star, was in May Tuesday.

Mrs. Mary Robason and children, Mrs. E. A. Robason and two sons, Homer and Charlie and Misses Maggie Bell Griffin, Sammie Evert and June Allen or Rotan spent a few days last week on the Llano river fishing.

Mr. and Mrs. John Witt and daughters, Willie and Nellie are visiting their daughter, Mrs. J. T. Snipes at Running Water, Texas this week.

Mr. and Mrs. W. A. Glenn of Weatherford, are visiting his brother, Mr. and Mrs. H. V. Glenn this week.

Mrs. Jim Miller and daughter, Dorcas, and Miss Lilla M. Miller made a trip to Mexico to be Carlsbad cavern last week. Mr. Jack Burnett accompanied them from Big Springs there and back.

McNUTT WIRES PROTEST NEW YORK, July 25—(AP)—Paul McNutt, national commander of the American Legion, telegraphed President Hoover today protesting against any action on the chief executive's part which might prevent America regarding naval parity with Great Britain.

ST. LOUIS, July 25—(AP)—AT 2:17 P. M. (C. S. T.) THE "ST. LOUIS ROBIN" PASSED ITS 28TH HOUR IN THE AIR AND HAD EXCEEDED THE FORMER RECORD FOR STABILIZED FLIGHT BY TWO FULL DAYS. THE PLANE CONTINUED TO CIRCLE LEISURELY OVER LAMBERT-ST. LOUIS FIELD.

ST. LOUIS, July 25—(AP)—Announcing in notes dropped this morning "that everything is fine" and the motor is "showing no signs of giving in," Dale "Red" Jackson and Forest O'Brien piloted their St. Louis Robin on into the thirteenth day of their endurance flight above Lambert-St. Louis field today.

At 12:17 p. m. (C. S. T.) the fliers completed 293 hours in the air and had exceeded the former world's endurance mark by 46 hours, or nearly two days.

O'Brien inquired in a message as to the progress being made by the Houston, Texas, endurance plane, "Billion Dollar City," now well up toward the 300 hour mark, and added:

"You know we can't land with them up; they might pass us, and that will never do."

Motor Feeling Good "Our motor sure is feeling good this morning," wrote Jackson in a note addressed to P. V. "Shifty" Chaffee ad C. Ray Wassal, refueling crew for the endurance plane. "Just like a race horse," he added. "It wants to run away every chance it gets; can hardly hold it down. O'Brien is singing his usual morning song. I'm sure in a fine-place between the motor and O'Brien. Can't tell who makes the most noise but you can tell them apart as O'Brien has more vibration at high speed. I know now why the tail surface shakes."

Demonstration of Skill Jackson gave a demonstration of his skill as a pilot while sending down the morning order for gas, oil and breakfast. The plane swooped low over the field and then climbed a bit in a double bank as the cylinder bearing the order fell a short distance from the fliers' headquarters tent.

Seeing his wife and Mrs. O'Brien in front of the tent, "Red" turned the plane sharply, clearing the wind vane of a hangar about fifty feet and then waved a cheery greeting for himself and his companion, who was asleep as the plane spun passed low over the tent.

Only the wearing out of the motor will cause Jackson and O'Brien to descend from the atmosphere which has been their home for over 12 days and which has brought them at least temporary fame as the pilots who set a new endurance flight record. They eclipsed the old mark of more than 246 hours set by the Angelino on Tuesday.

While Jackson had been confident before the flight, started that if they set a new record they would go on and double the old mark, Major William B. Robertson of the Curtiss-Robertson Company, sponsors of the flight, was not so optimistic. Yesterday he remarked on the increased life of an airplane motor compared with ten years ago and said "it looks now as if the motor will function well up to 300 hours, maybe longer. I hope it does, but I shall not be surprised if it reaches its limit around that figure."

Men May Lose Weight That the men would lose weight on the long flight seemed foregone. Dr. A. C. Leggett, flight surgeon at the field, said he expected Jackson to lose about 20 pounds and O'Brien about 10. The latter weighed 138 at the examination before taking off while Jackson tipped the scales at 154.

In a note asking about the condition of the men, Jackson said he couldn't tell how it sounds. "We sleep, do everything by it and around it and behind it. When we wake through up here we will need a motor at home to sleep by."

Congratulatory Messages Congratulatory messages poured in at the field at such a rate that stenographers were assigned to take it out as all of it couldn't be taken aloft. The fliers demanded newspapers, however, when the refueling plane failed to carry them along on one trip.

The flight has cost more than \$10,000, it was estimated yesterday, including more than 2,000 gallons of gasoline and 110 gallons of oil. The mileage mark was around 17,000 to say nothing of the more than 200,000 propeller revolutions. Good flying weather has been the Robin's part since being aloft, one shower of about 5 minutes duration being the only unfavorable period.

MOODY SIGNS \$5,000,000 RURAL AID BILL

AUSTIN, July 25—(AP)—The \$5,000,000 rural aid bill was signed, and the resolution proposing a trip of legislators to Washington in an effort to obtain a veterans' bureau hospital for Texas was voted, by Governor Moody yesterday.

He filed without his signature the ranch bill appropriating \$2,500 to rebuild a school building in Cuba common school district, Johnson county, destroyed by a tornado.

The rural aid bill was \$500,000 less than the one vetoed by the governor, with all other money bills, at the conclusion of the second call session.

In disapproving the Washington junket trip the governor said he did not believe Texas should officially, from the public funds, send men to Washington to lobby before congress.

HILL CLIMBING TRUCK OF INTERNATIONAL CO. SEEN BY MANY HERE

A heavy loaded truck climbing a steep hill attracted quite a crowd of people at Flak and Baker streets Monday evening as a demonstration of a six speed commercial vehicle was held within view of all.

A dozen International trucks with all manner of bodies stopped in Brownwood overnight after completing 1,900 miles of a Texas tour. Starting from Dallas July 4, this caravan has covered a large section of the state and is now on its way back to its starting point.

The demonstration in Brownwood was the 19th one mounted on the trip. An International, six speed dump truck, with a pay load of 3,410 pounds on gravel aboard, and at times several people in addition to the driver, climbed a forty-two percent grade. This grade was a portable affair mounted on one of the dozen trucks and carried the climbing car high in the air. The gaping crowd watched the truck with its load climb to the top, back down part again, and then with ease start up again and climb to the top.

B. W. Roberts, assistant manager of the International Sales Co., in charge of the caravan. Assisting at the demonstration here were T. W. Thurmond, salesman of Brownwood, and E. G. St. Clair, salesman of San Angelo.

The drivers from the Dallas house headed the caravan, the rest of the trucks being piloted by ten Dallas high school boys.

While in Brownwood the men and boys were the guests of the personnel of the Brownwood Implement Company, dealers of the International line.

DIVIDEND DECLARED NEW YORK, July 25—(AP)—The Bethlehem Steel Corporation today declared a \$1.50 quarterly dividend on its common stock, placing the shares on complete annual basis.

A dividend of \$1 has been paid in the two previous quarters, marking resumption of payments after suspension from July 1, 1924, when a quarterly payment of \$1.25 was made. The regular quarterly dividend of \$1.75 was declared on the preferred.

Hard to Beat "For sustained flight without refueling," mentioned the Old Crab "the record is still held by the Janitor of our apartment house."

New Planes for Air Mail Line

DALLAS, Tex., July 25—(AP)—Two giant tri-motored Pooker airplanes of the Standard Air Lines of California landed here today en route to Los Angeles where they will replace single-motored passenger planes in the air-and-rail transportation schedule maintained between Los Angeles and Midland, Texas, by the Standard lines and the Texas and Pacific railway, jointly.

The planes, which officials of the lines claimed to be the finest ever built, costing around \$80,000 each, were greeted here by Texas and Pacific officials. They will fly to El Paso tonight.

The planes connect Dallas traffic with Los Angeles through the Sunshine Special here to El Paso, leaving here at 12:45 p. m., and arriving in El Paso at 8 o'clock the following morning. Passengers are then transferred to the planes, arriving in Los Angeles at 4 o'clock the same afternoon.

There will also be one price for grand stand seats of fifty cents, this to apply on children of eight years and over, younger ones being admitted free.

At neither the gate nor the grand stand will there be half price tickets for children as formerly, but just the one price for those children over eight and adults, it was decided.

GATE FEE AT COUNTY FAIR TO BE 25c

The usual price of fifty cents gate fee at county fairs is going to be changed this year, it was decided at a meeting of the Brown County Fair Association directors at the Chamber of Commerce Tuesday.

A top and only price of twenty-five cents admission will be the gate price this season, and this will be charged all persons eight years of age and over. All children under eight years will be admitted free of charge.

There will also be one price for grand stand seats of fifty cents, this to apply on children of eight years and over, younger ones being admitted free.

At neither the gate nor the grand stand will there be half price tickets for children as formerly, but just the one price for those children over eight and adults, it was decided.

Mr. and Mrs. Lee Clark of Indian Creek visited in the home of their daughter, Mrs. Will Nixon, last week.

Miss Minnie Shelton returned to her home near Mullin Thursday after a short visit with relatives here.

Mr. and Mrs. Merrill Daniels of near Lubbock are visiting Mrs. Daniels' mother, Mrs. T. L. Kimbrell.

Rev. H. K. Agree of Brownwood will fill Rev. Smoot's appointment at the Methodist Church Sunday and Sunday night.

Grandmother Cobb passed quietly to her home above Saturday morning.

She was laid to rest in the Jenkins Springs cemetery Sunday morning. We extend our deepest sympathy to those in their hour of bereavement.

Mrs. R. H. Scott and daughter, Bernice, were shopping in Brownwood Saturday.

Little Wilson, Jr. and Margaret Piller, who have been visiting their grandparents, Mr. and Mrs. G. L. Piller, returned to their home in Austin Friday.

Mr. and Mrs. Joe Lockett and Miss Vera Chessar of Mullin were through Zephyr Saturday en route to Lubbock.

J. L. Boland was in Brownwood Tuesday.

Henderson Petty attended court in Brownwood Wednesday.

Mrs. Walker of Center, who has been visiting Mr. and Mrs. J. Melton left for home Tuesday.

Mrs. C. L. Piller and family left Friday for a visit with relatives in Austin.

Woman and Two Children Injured

LOCKHART, Texas, July 25.—(P)—Mrs. Luke C. Terry, whose husband was killed in an automobile accident a year ago, and her two children were injured near Flatons yesterday when their car struck loose gravel as they were returning from Galveston. They were brought to Lockhart.

S. M. N. MARRS TO BE BROWNWOOD VISITOR ON SCHOOL BUSINESS

State Superintendent of Schools S. M. N. Marrs of Austin will be in Brownwood August 8 to meet with rural school trustees of Brown county, it was announced Thursday by J. Oscar Swindle, county superintendent.

Mr. Marrs will discuss with the trustees late school laws enacted by the legislature and will talk over with them possibilities in their schools and any problem of interest which they might bring up.

Mr. Marrs will discuss with the trustees late school laws enacted by the legislature and will talk over with them possibilities in their schools and any problem of interest which they might bring up.

Seriously Injured as Plane Falls

HEARNE, Tex., July 24.—(P)—R. C. Kirk, of Houston, was injured seriously today when his plane, being used to spray insect poisoning, fell on the John Brock farm at Valley Junction, near here.

The flier was dragged unconscious from the wrecked plane and brought to Hearne for treatment.

Several farm workers narrowly escaped injury when the plane fell in their midst. A defective lever was thought to have caused the accident.

All Men Honest Says Tobacconist

BEAUMONT, Texas, July 24.—(P)—Closing his business as a successful tobacconist for more than a quarter of a century, Joe M. Loeb expressed the belief that every man is inherently honest. Joe has the proof to back up his belief.

He has cashed checks indiscriminately for his entire business career and never lost a penny.

Furthermore he carried accounts with persons not generally considered "good risks" and never lost, he said.

Grocery Store Burglarized Here During The Night

Seemingly it was a hungry burglar who broke into the grocery store belonging to Miss Annie Elder on Belle Plain Avenue Wednesday night, for the police got a report that eight pounds of coffee, fifteen pounds of bacon, and various and sundry canned goods had been stolen from there during the night.

BROWN COUNTY AGAINST BOTH PROPOSITIONS

Unofficial returns from twenty-one boxes in Brown County out of a total of thirty-two show an extremely light vote and both issues at stake lost in this county by a vote of 837 to one.

A total of 837 votes were cast in these twenty-one boxes with 203 in favor of the Supreme Court of nine judges, and 634 against; and with 193 in favor of raising the governor's salary to 608 against.

Carried in Brownwood In the city of Brownwood three of the boxes showed unofficially both issues carrying with a total of 190 votes with 102 in favor of the Supreme Court of nine judges and 88 against; and 113 in favor of raising the governor's salary and 77 against the issue.

TEXAS VOTE

Following is the vote in Texas counties in Tuesday's election as reported thus far by The Associated Press. In many instances the vote here reported is from only one town in the county, that being in most instances the county seat:

Table with columns: County, Yes, No, Total. Lists counties like Smith, Hidalgo, Borden, etc.

The following returns are incomplete:

Table with columns: County, Yes, No, Total. Lists counties like Tarrant, Denton, Bell, etc.

UNOFFICIAL RETURNS FROM COUNTY BOXES.

Table with columns: Location, T, V, Yes, No, Total. Lists locations like Court House, High School, etc.

FORFEITS BOND AND IS JAILED FOR NOT APPEARING IN COURT

C. M. Davis, charged with a liquor violation, did not appear in District Court Wednesday morning when his case was called, and Judge E. J. Miller announced that his bond of \$1,500 was forfeited.

He was arrested Thursday morning by the sheriff's department and placed in the county jail pending trial.

Great Art Collector

It is often said that the late John Pierpont Morgan was the greatest art collector of modern times. His collections were the largest, most varied, and many of them the most important owned by a single individual. He has been compared with Lorenzo de Medici, and it has been said that he surpassed even that prince in the catholicity of his taste.

"Sunset Pass" Is Latest Zane Grey Story Put On Screen

Seven hundred cattle, milling wildly in a night stampede, and a raging range fire devouring everything in its path, provide two of the many spectacular scenes of Paramount's Zane Grey production, "Sunset Pass," which features Jack Holt, at the Gem Theatre today, Friday and Saturday.

These scenes were filmed in the cattle country of Arizona, a few miles from the old trading post of Tuba City. The film company spent two weeks in that region making exteriors for the production with the aforementioned range fire being the high-light.

The cattle stampede was a dangerous task assigned the cameramen. They were in the midst of the frenzied animals, and Roy Clark, chief photographer, was brushed to one side by one steer, but fortunately escaped serious injury. His camera, which fell upon him, also escaped injury, and the thrilling "shots" which had been recorded by Clark were saved.

Church of Christ on Austin Avenue with Rev. Roy Lanier, officiating. Burial was made in Greenleaf cemetery.

Pall bearers for the funeral were Frank Nicholson, M. T. Cooper, Bill Avinger, Mr. Gibson, John W. Haynie and Claud Jennings.

Puzzled When a small boy in church heard the words, "Cast thy bread upon the waters; for thou shalt find it after many days," he looked at his mother with inquiring eyes and asked: "Weren't there any ducks?"

Jack Holt and Nora Lane in a scene from Zane Grey's "Sunset Pass" A Paramount Picture Gem, Thursday, Friday and Saturday

MORTUARY

MRS. KATE JONES DIES

Mrs. Kate Jones of the Blake community died Saturday morning following a long illness and funeral services were held at Blake on Sunday afternoon. She is survived by two daughters, Mrs. Laura Williams and Mrs. Rexie Carter, both living near Blake.

MRS. M. E. COBB

Mrs. Mary E. Cobb, 81, one of the pioneer settlers of Brown county and for many years a prominent citizen of the Zephyr community, died at 9:30 Saturday morning following an extended illness. Mrs. Cobb was at the home of her daughter, Mrs. W. E. Swart, 2301 Coggin Avenue, at the time of her death.

Mrs. Cobb was born June 15, 1848, in Illinois but came to Texas in early childhood. With her late husband she settled in the Zephyr community in 1878, more than half a century ago and it was in this community that she reared a large family of children.

Mrs. Cobb was a member of the Primitive Baptist Church.

Mrs. Cobb is survived by seven children, they being, Dr. D. P. Cobb, of Blanket, M. E. Cobb, of Zephyr, T. E. Cobb, of Zephyr, M. L. Cobb, of Brownwood, J. C. Cobb, of Richmond Springs, Mrs. J. H. Wood, of Zephyr and Mrs. W. E. Swart of Brownwood. One brother, J. S. Bates of Lovington, New Mexico, also survives.

Funeral services for Mrs. Cobb were held Sunday morning at 11 o'clock at Jenkins Springs with Rev. L. W. Luman, officiating. Burial was made in the Jenkins Springs cemetery.

W. H. PENNINGTON

Funeral services for William Henry Pennington, 74, were held at Greenleaf Cemetery on Saturday morning. Mr. Pennington was living at the home of his sister, Mrs. C. A. Gordon, near Brownwood at the time of his death. Mr. Pennington came to Brownwood two years ago from Tolar where he had lived for about 55 years.

He is survived by two sisters, Mrs. C. A. Gordon and Mrs. M. E. Randolph, of Stanton. Mr. Pennington's father and three brothers were killed by the Indians in Arizona in 1865.

LEVI M. DRAKE

Levi Murphy Drake, 80, of 402 Lipscomb Street, died at his home Thursday night, at 8 o'clock, following an extended illness. Mr. Drake was born June 24, 1848, and was almost 81 years of age at the time of his death. He was a retired farmer.

He is survived by his wife and seven children, they being: M. O. Drake, of Smithfield, Mrs. Ellison Pippin of Cisco, E. A. Drake, of Sagerton, C. M. Drake, of Winchell, V. I. Drake, of Forsan, Mrs. Prebble Ham, of Brownwood, and S. G. Drake of Brownwood.

Funeral services were held at 4:30 Friday afternoon from the

NEW COCA-COLA PLANT VISITED BY THOUSANDS

The Medicine For P. Hagra

Dr. J. L. Leverett, prominent Paris, Texas, Specialist, attracting National attention with his NEW method of treating P. Hagra and certain forms of stomach trouble closely resembling P. Hagra. Under a rigid test of more than 3000 patients the treatment proved to be all that was claimed. A 28-day trial treatment of \$5 and this money back if the patient is not benefited and the patient alone is the judge. The medicine doesn't make you sick to take it. For particulars, testimonials and blank for FREE diagnosis write J. L. LEVERETT, M. D., Paris, Texas

Officials of the Coca-Cola Bottling Company feel that their open house Tuesday was a success, thousands and thousands of men, women and children visiting every portion of the new plant out on Center Avenue.

It was estimated that fully half the population of the city filed through the building watching the operation of bottling soda drinks from early afternoon until late at night, and the number of bottles of drinks consumed by the guests could not be estimated.

J. W. Latham, Hugh Latham and J. Claude Smith, in addition to all the employees of the bottling company, were on hand to guide the visitors through, taking them from the general offices, through the bottling room and upstairs to the laboratory and syrup rooms.

The Coits Band, forty boys under the leadership of Merle Baker, played a concert on the lawn of the plant most of the evening.

REBELS SURRENDER MEXICO CITY, July 24.—(AP)—The war department has announced the surrender of 600 rebels within the last three days in states of Jalisco, Queretaro and Colima. The insurgents surrendered in groups and were given safe conduct to their homes.

COMMITTEE TO DECIDE PRESBYTERIAN SCHOOL LOCATION IN SEPTEMBER The committee working on location of the combined Presbyterian University will meet some time in September, it was reported by Harry Knox to the directors of the Chamber of Commerce at a luncheon in the Southern Hotel Monday noon.

CATES AND BARNETT GIVE SELVES UP TO SHERIFF TUESDAY Dewey Cates and Rand Barnett came into Sheriff M. H. Denman's office Tuesday morning voluntarily giving themselves up in connection with a charge against them of fraudulently getting \$3,500 from Homer G. Fields of Bertram last week.

D. A. JACKSON Duke A. Jackson, 79, for more than 40 years citizen of Brown county, died Sunday afternoon at 3 o'clock, death occurring at the home of his daughter, Mrs. Tom Robinson, on Avenue C. Mr. Jackson had been in poor health for several months and his death was attributed to senility.

### LOONEY BURIAL SERVICES HELD

Funeral services for J. R. Looney, 79, prominent Brownwood citizen, business man and former Mayor and City Manager, were held at 10 o'clock Saturday morning at the Austin Avenue Presbyterian church with Rev. R. B. Twitty, pastor of the church, officiating. Rev. Twitty was assisted by two former pastors of the Austin Avenue church, Rev. George W. Fender and Rev. M. E. Chappell.

These ministers paid glowing tributes to the life of their departed friend. The former pastor of Mr. Looney recounted the tireless efforts of their old friends as a church worker, as a Sunday school superintendent, as a church builder, as a community leader, as a progressive school builder, and as a leader in all responsibilities that were placed in his hands by his fellow men.

In the large audience were seen Mr. Looney's many former associates, both in the business world and former associates in the administration of the city's govern-

### MANY GOING FROM BROWN COUNTY TO A. & M. SHORT COURSE

Over twenty have signed up from Brown county to attend the farmers short course at A. & M. College next week, and it is expected that about forty will go from here on a special train Sunday to attend this annual event.

O. P. Griffin, agricultural agent, and Miss Mayesie Malone, county home demonstration agent, will go with the boys, girls, men and women from this county to attend the school which opens Monday morning and continues until Friday night.

Among those who have already signified their intention of attending are the following: Bill Burnett of May, Miss Rena Harris of Jones Chapel, Mrs. R. L. Wise of Brooksmith, Miss Imogene De Hay of Indian Creek, Miss Juanita Chiffatte of Indian Creek, Mrs. D. W. Kyzar of Barber, Miss Beryl Kyzar of Barber, Mrs. Ruben Scott of Zephyr, J. D. Rodgers of Blanket, Leonard Scott of Blanket, Merrill Henderson of Center Point, Tommie Doss of Center Point, John Gilbreath of Woodland Heights, J. C. Alcorn of Woodland Heights, Hugh Alcorn of Woodland Heights, Rex Lanford of Blanket, Morris Polk of Woodland Heights and Douglas Fry of Woodland Heights.

There are 230 living members of the National Academy of Sciences at Washington, D. C., who investigate all departments of science.

Enough people to populate a small village were rescued by August P. Marty, St. Louis fireguard in 18 years. He saved 253.

### MEXICAN NATIONAL UNIVERSITY FREE OF GOVERNMENT CONTROL

MEXICO CITY, July 24—(AP)—An experiment in joint student-teacher management of the Mexican National University, one of the oldest institutions of learning in America, is to be carried out by virtue of a decree issued by President Portillo, freeing the university from government control.

The decree removes the university from jurisdiction of the department of public instruction and creates a "University Council," made up of teachers, students and university graduates. The council will decide all affairs having to do with management of the university and will elect a university rector for a three year term from a list submitted by the president of the republic.

The council also will have power to remove the rector from office and will elect directors of the university departments from lists submitted by joint student-teacher bodies in the departments to which the teachers are to be assigned.

Two students and two teachers from each department of the university will occupy places on the council, as well as two representatives of the students' federation, two university graduates and a delegate from the department of instruction, who will not have a vote sitting with the council only in the capacity of counselor.

In the preamble to the decree, President Portillo pointed out that public opinion "demands socialization of national institutions" and that creation of an autonomous university is a step in this direction.

The government will continue to subsidize the university.

### Ends His Own Life After Killing Wife

FORT WORTH, July 24—(AP)—President of the local chapter of the Peace Officers' National Association, William Malloy, 28, met death from self-inflicted wounds as he mumbled: "I wish I could die."

Malloy went to the home of his estranged wife, 21, yesterday to attempt a reconciliation. The two argued, struggled, and Malloy plunged a knife into his young wife's neck before her mother's intervention could save her.

The husband already had cut his own throat. He died later.

Inquest verdict that Malloy stabbed to death his wife and then killed himself was returned by Justice of the Peace Faulkner today.

Mrs. Sallie Stewart, Mrs. Malloy's mother, said the trouble arose when her daughter told her husband she would not return to him. Two children, ages 19 months and three years, survive.

### Zephyr Picnic To Be Attended By Many From Brownwood

The community picnic and barbecue to be held at Zephyr all day on Friday will be attended by many Brownwood people. The Brownwood Colts Band, under the leadership of Merle Baker, will play during the day.

Rex Gaither, manager, has made a request for transportation for some of the forty boys of this band. They will meet at Memorial Hall at 9:00 a. m.

Races, a ball game, a dinner and speeches will mark the event.

### COURT ROOM IS FILLED DURING TRIAL HERE OF LIQUOR SELLING CASES

With the mill of District Court grinding out liquor cases as fast as possible practically all seats in the auditorium are daily filled with the spectators at the court.

During the many boisterous trials the crowd is found to be made up of all classes. First of all, there is seen among the spectators many of the men indicted and waiting trial, coming down to the courtroom day after day to see how others with identical charges are making out.

Their mood does not seem to be a happy one as case after case is given the jury and that body returns a verdict of "guilty." As a matter of record every liquor case in the June and special July terms of court has ended in a conviction, sentences ranging from one to three years.

Then there are the families and friends of the accused, all coming to the court room early in order to get a good seat where they can take in all the proceedings.

"Sprinkled among the crowd are a number of Brownwood business men, who come out of curiosity, many of them; others, possibly it is declared, because of 'consumers' interest."

Some people have spoken of these trials as a "bootleggers' convention." Despite the almost intolerable heat of mid-July these people have sat through the sessions grimly listening to the questions and answers, the objections, the rulings and charges of Judge E. J. Miller and the

### Truth About Childhood

There are many people about to day who seem to think that a child is necessarily a little angel in captivity among mere humans, says a writer in the London Daily Express. There are others who think he is a little savage whom civilized adults have to put up with. Probably the truth lies somewhere between the two ideas.

The Nebraska penitentiary houses 725 convicts, but only three were sentenced for liquor law violation.

### \$75,000 Horse May Be on Exhibition at County Fair

A racing horse valued at \$75,000 will probably be on exhibition at the Brown County Fair next month if efforts of the directors work out the way they planned them Tuesday at a meeting held in the Chamber of Commerce.

They decided to try to get one of the animals from the Waggoner stables at Fort Worth, not for racing but just for show, and steps are being taken in this direction.

### Road Bond Issue To Be Subject To Public Debates

AUSTIN, Texas, July 24—(AP)—The proposal to finance road construction in Texas with a \$175,000,000 bond issue will be discussed pro and con in public debates throughout the state during the next few months.

The subject has been designated officially by the Interscholastic League for the competition in debate.

Data is being compiled and will be printed in a 200-page booklet which will be mailed to more than 5,400 member schools, according to Roy Bedickek, director of the League.

Keen interest in the proposal was aroused last winter when the 41st legislature during its regular session considered submitting a constitutional amendment in order to permit issuance of State bonds for road construction.

**Bells Not Always Cast**  
The earliest bells were probably not cast, but made of plates riveted together. An example is St. Patrick's bell preserved at Belfast, Ireland, which is 6 inches high and adorned with gold and silver filigree work. It is believed that it is this bell which is alluded to the Ulster annals of 552.

### Fatal Fight Is Result of Desire to Avenge Arrest

TEXARKANA, July 24—(AP)—James Reynolds who fought a fatal pistol duel with J. R. Walraven, Texarkana policeman last night, was motivated by a desire to avenge his arrest by Walraven last Sunday, authorities believed today.

According to witnesses, Reynolds drove his automobile to Walraven's side, pulled a pistol and began firing. The officer fell mortally wounded but not until his own gun had answered Reynolds' fire with shots that probably will cause the gasoline salesman's death.

The spectacular encounter occurred 25 feet from the spot where Reynolds killed his brother-in-law, Millard T. Goodwin, December 19, 1927. A self-defense plea resulted in Reynolds' acquittal.

### GATES AND BARNETT MAKE \$5,000 BONDS

Dewey Gates and Rand Barnett each made appearance bonds of \$5,000 Tuesday night to appear in the near future before Judge E. T. Perkinson for an examining trial.

These two men are charged with fraudulently obtaining the sum of \$3,000 from Homer Felds of Betram in a local hotel last week. Searched for by the police for nearly a week they came into the sheriff's office, voluntarily giving themselves up on Tuesday morning.

### Vast Fresh-Water Lake

Lake Tanganyika, in east-central Africa, is estimated to be the longest fresh water lake in the world, measuring over 400 miles. Its breadth varies from 29 to 45 miles and the area is 12,700 square miles.

# Growena—

Born to Mr. and Mrs. Yance Wilkey a girl, Thursday.

Mr. and Mrs. Elvin Lane and son Ward of Bangs visited relatives here Sunday and Miss Faye Summer returned home with them.

Young Hester was in May Monday on business.

Farmers Attend Medina Course

SAN ANTONIO, Tex., July 25—(AP)—Farmers and ranchmen and their families from 37 South Texas counties have returned to their homes after an intensive three-day course in modern farming and ranch methods at the seventh annual South Texas Short Course held under the auspices of the Texas A. & M. College extension department at Medina-Hereford ranch near here.

One of the features of the course for the first time was a meat curing demonstration. A hog donated by the ranch was slaughtered, cut and prepared for the farm smoke house, with E. M. Regenbrecht in charge of the demonstration.

Besides the study course arranged for the men on every subject of interest to the rural resident, the women and girls of South Texas received instruction in home making, clothing and cooking.

FIND "MISSING LINK"

PEKING—Limestone deposits 35 miles from this city have given up what scientists believe to be the "missing link" connecting the present and the past. About 20 teeth and parts of "Peking Man," thought to be present man's ancestor have been excavated in this limestone deposit. The fossils are in the museum of the China Survey here.

Thirty-five shell mounds and an old cave occupied by an ancient tribe of Indians have been unearthed in Monterey county, California.

BOMB ROCKS CHICAGO LOOP

CHICAGO, July 25—(AP)—The Loop, billion dollar heart of Chicago business, was rocked shortly before last midnight by a bomb explosion.

No one among the thousands of persons who were in the south end of the Loop at the time was hurt, a circumstance which police regarded as miraculous, for glass rained from upper story windows for many minutes.

The bomb had been placed in an alley entrance of the Davis company department store, less than 35 feet from Jackson boulevard swarming with automobile motorists, and about midway between two Loop arteries, Wabash avenue and State street.

Philip Iwanski, garbage collector, came upon the bomb, so he hurriedly believed it to be a bundle someone had dropped. He picked it up and one end of it was warm. He thought it contained sandwiches, and he put it carefully back where he found it, and walked away. A moment later, he told police he decided to retrieve the package "before someone else did."

As he turned, the bomb exploded. Only a few minutes later a bomb exploded on 22nd street, between Michigan and Wabash avenues. Windows in the Equitable Trust Company building on Michigan were broken, and 30 operators in the Calumet exchange of the Illinois Bell Telephone Company were momentarily panic-stricken.

There was no motive for either bombing apparent to police.

Fields of hay consisting mostly of weeds can be put in the silo, since plants that aren't eaten in the green state or as hay usually are eaten as silage. Too, weedy hay can be stacked in the pasture before it has cured well. It will make a brown hay that will be eaten readily and will supply a valuable supplement to short pastures.

The safest manner of disposing of carcasses of animals on the farm

is to burn them to ashes; then next safest way is to cover them with lime and bury them deeply. If a carcass is left on the ground, birds, dogs, and other animals may feed on it and spread disease and parasites.

Cucumbers for market should not be cleaned with a cloth or brush, as this destroys the small spines and the "froly" finish of fresh cucumbers. The best way to wash off dirt is to put the cucumber in clean cold water and stir them slightly.

Special care should be taken at this time of year with milk and cream that is shipped from the farm. Milk stands at the roadside should be shaded, and cans of milk hauled in trucks or wagons should be covered with canvas. Heavy jackets for milk cans add considerably in keeping milk cold.

The summer silo usually is the best means of supplementing short, dried-up pastures in July and August. For a herd of 12 to 20 cows, a silo from 10 to 12 feet in diameter is well suited, as the silage can be fed fast enough to prevent spoiling. Silage will keep for several years and it can be carried over from one season to another.

During the summer, the dipping method may be used effectively against the more than 40 species of lice that infest various domestic fowls. The fowls are dipped into a tub of tepid water containing sodium fluoride in the proportions of three-fourths to one ounce of commercial sodium fluoride to each gallon of water.

Photographs of entire districts from the air, taking a few hours, revealed all the information which could be gained by weeks or months of travel over the same districts, on horse back or on foot, Dr. Hewett said.

The trans-Atlantic flier and his bride, who landed on a dude ranch near Pecos, Tuesday night are the guests of Dr. and Mrs. A. V. Kidder. Dr. Kidder is superintending excavations at the Pecos ruins, among the oldest in the Southwest, for Phillips Academy in Massachusetts. Mrs. Kidder and Mrs. Lindbergh are said to be old friends.

Pointers For The Efficient Farmer

(By U. S. Dept. of Agriculture) Most cows need a rest of from four to six weeks between lactation periods. High-producing cows need eight weeks.

Cucumbers for market should not be cleaned with a cloth or brush, as this destroys the small spines and the "froly" finish of fresh cucumbers. The best way to wash off dirt is to put the cucumber in clean cold water and stir them slightly.

Special care should be taken at this time of year with milk and cream that is shipped from the farm. Milk stands at the roadside should be shaded, and cans of milk hauled in trucks or wagons should be covered with canvas. Heavy jackets for milk cans add considerably in keeping milk cold.

INDIAN RUINS PHOTOGRAPHED BY LINDBERGH

SANTA FE, N. M., July 25.—(AP)—Indian ruins have been photographed from the air with an aerial camera by Colonel Charles A. Lindbergh.

Colonel Lindbergh brought the films here yesterday, and they were developed in the laboratory of the American School of Research.

With announcement of the pictures was revealed the latest invocation of modern science in the study of antiquity. Lindbergh's pictures and photographs taken from another plane for the American School of Research were pronounced by Dr. R. L. Hewett of the Board of Research the first successful application of aerial photography to archaeological purposes.

Photographs of entire districts from the air, taking a few hours, revealed all the information which could be gained by weeks or months of travel over the same districts, on horse back or on foot, Dr. Hewett said.

The trans-Atlantic flier and his bride, who landed on a dude ranch near Pecos, Tuesday night are the guests of Dr. and Mrs. A. V. Kidder. Dr. Kidder is superintending excavations at the Pecos ruins, among the oldest in the Southwest, for Phillips Academy in Massachusetts. Mrs. Kidder and Mrs. Lindbergh are said to be old friends.
