MODE STORAGE FACILITIES ON FARMS SOUGHT

WASHINGTON, July 3-(AP)—Wheat farmers were urged today by the bureau of agricultural economics of the department of agriculture to increase grain storage facilities on farms and to distribute marketing throughout the season.

TOTAL OF TAXES IS AROUND \$4.82

Total ad valorem taxes in Brownwood, including the city, county, state and water district, will approximate a rate of \$4.82 on the \$100 valuation, as is indicated by the setting of the county rate a few days ago and the prospect of a 77-cent state rate.

SANTAFE PUTS ON MORE MEN

Santa Fe trainmen, including brakemen and others, who have been laid off, some for two or three years, are being called back into the service to alleviate the railroad in handling this year's bumper small grain crop in West Texas, according to officials of the company in Brownwood.

ANDY PAGE GETS 3 YEARS

Three trials and three convictions is the record of the District Court this term in connection with the fifty-four liquor indictments returned by the grand jury.

District Court Adjourned, Special Term Starts July 10

With the setting of a number of civil cases and the winding up of the Andy Page liquor case in district court Tuesday night, Judge E. J. Miller adjourned the court for this term, to meet again next Wednesday for a four week special term.

FORMER PEACE OFFICERS FACE LONG TERMS FOR MURDER OF LAREDO NEWSPAPER REPORTER

LAREDO, Texas, July 3-(AP)—Raymond West and Tomas Hernandez, former peace officers here, today faced long terms in the penitentiary for the murder of Harry Williams, newspaper reporter, Jan. 18.

West was given life, and Hernandez 20 years by a jury which deliberated two hours and 39 minutes last night. They were charged with choking Williams to death in the Commercial Hotel and throwing the body in the Rio Grande where it was recovered a month later.

The accused presented an alibi, declaring they were on a stag party at the Love ranch the night of the killing. A girl inmate of the hotel, star witness for the state, testified the officers came to the hotel about 9 p. m. seeking girls to go with them, but that the officers were so drunk the girls would not go. They said the officers cursed them and threatened to jail them, but finally left.

Return to Hotel
Shortly before midnight, she said, Williams came in with Buck Hood, another reporter, and Hood went to a room. Williams remained seated in the hallway. Soon, she declared, the officers returned and argued and fought followed. She said she heard the voices of West, Hernandez and another American. Then there was silence, followed by the sound of a departing automobile.

A physician testified the condition of Williams' body indicated he was killed to death. The officers denied all charges.

Almost a month elapsed between the killing and the time the body was found in the river, and an international search was conducted. For a time it was feared Williams, who had been in Laredo only six weeks, had been kidnaped by bandits for ransom.

Convicted of Death of Harry Williams

Tomas Hernandez, above, left, and Raymond West, right, Laredo police officers, were convicted last night of the murder of Harry B. Williams, newspaper reporter, whose body was found one month after his mysterious disappearance. Below is pictured Robert Lee Bobbitt, district attorney, chief of the prosecution forces. Williams was from Muncie, Indiana.

M'ADAMS WELL GIVES PROSPECT OF NEW FIELD

The Preston, White & Farmington No. 1 on the Jess McAdams land, fourteen miles south of Santa Anna, drilled by Brooks Dozier, is reported making 100 barrels of oil and five million feet of gas at one foot in the oil sand, and is showing for opening a good new pool. The total depth now is approximately 964 feet.

The well got four feet of gas sand, encountered at 954 feet, after which it drilled through four feet of hard sand and then into the oil sand.

The new well is from three to five miles from other production, and is located on Home Creek, on the Whon road, Brooks Dozier drilled a well south of this some time ago.

FIRE TRUCK IS HIT BY TRAIN

HOUSTON, Tex., July 3-(AP)—Two firemen were killed and six other were injured, two seriously, late last night when a truck speeding to a fire in Kensington Addition was struck by a train and another truck overturned while attempting to avoid collision with the same train.

H. L. Oxford, 34, and E. H. Grant, 27, died of injuries. Capt. Johnnie S. Little, 46, and R. T. Trevitt, 32, were those injured seriously.

Both smashups occurred at crossings of the Houston Belt and Terminal Railroad.

E. Grant, 38, was injured fatally, and H. L. "Red" Oxford, 39, Captain Trevitt, 32, injured seriously when a pump was struck by a Gulf Coast oil tank train. Little was held for the recovery of Oxford and Little. Both of Oxford's legs were severed at the knees, and Little suffered a fractured skull and internal injuries.

A few minutes later another pumper met the same oil train as it was stalled at another crossing. The driver swerved the machine to avoid striking the train, and it overturned, injuring three occupants.

The first pumper was going at a high rate of speed when it was hit by the train. The truck was struck squarely by the cowcatcher of the engine, lifted across the crossing and thrown against a barbecue stand. The pumper was upside down and some of its occupants pinned beneath.

The firemen of the truck admitted their own siren and bell were making such a noise they could not have heard the warnings of the locomotive. A thorough investigation was promised.

SHIPMENT OF LIQUOR SLUMPS

WINDSOR Ont., July 3-(AP)—Unofficial export figures published today showed a decrease of 25,000 cases during June over the preceding month in the amount of liquor and beer shipped from Canadian export docks along the Detroit river.

In May 68,000 cases were cleared and in June 43,000 cases.

United States enforcement officials said today the rum-smugglers' fleets had been bottled up in Canada ports and did not dare venture an attempt to run the enforcement blockade.

Surprise Witness in Hardage Suit

CHICAGO, July 3-(AP)—Mrs. Victor C. Heath, of Omaha, today became a surprise witness in Ann Livingston's \$250,000 breach of promise suit against Grankin S. Hardage, oil burner manufacturer. Ann's reputation during her girlhood and preceding her marriage was attacked by Mrs. Heath.

CHICAGO, July 3-(AP)—Franklin Hardage, 62, oil burner manufacturer whose former sweetheart, Ann Livingston, sued him for \$250,000 heart balm, testified today that he had divorced her, but only wanted the bulk of his estate at his death but also demanded \$25,000 to \$50,000 in cash before she would walk to the altar with him.

As the manufacturer left the witness stand, one of his employees, John Lettger, testified Miss Livingston and a man, identified previously by Hardage as Charles Nax, St. Louis advertising man, whispered chummily when he drove them to Miss Livingston's apartment on the behalf of Hardage.

Peter Kohr, another employee of Hardage, supported the claim of the defense that Ann, at a New Year's party, toasted Charles Nax as "here's to my sweetheart."

Driving Miss Livingston, and Mr. and Mrs. Parnes Morton home from the party, Kohr said he heard Morton say to Miss Livingston: "Well, Ann, you must have had a good time you had a drink on Charley."

HOW'S THAT FOR HIGH?

NEW YORK—There are 377 buildings in the United States more than 20 stories high, or 377 more than there were in 1916.

MOODY CLAIMS AMOUNT ABOVE STATE REVENUE

AUSTIN, July 3-(AP)—Its major appropriation bills vetoed by Gov. Moody because the grand total exceeded the available revenue, the 41st legislature continued its labors today, after the chief executive issued a proclamation calling it into third extraordinary session last night.

The governor declared the appropriations passed during the second extra session aggregated \$52,549,303, and \$2,349,884 for the regular and first called sessions. He said the "maximum rate of taxation allowed under the constitution would yield approximately \$49,000,000."

Declaring that "against a rising tide in state expense, some one must stand," Governor Moody pointed out that in 1921, "only eighty years ago," the appropriations totaled only \$24,419,688.

Received With Mixed Feelings
The legislature learned of the governor's decision to veto the major appropriation bills and call the legislature back immediately after both houses had adopted the first conference report on the educational appropriation bill, calling for the expenditure of \$16,495,545, which brought the grand total for major appropriations to \$50,174,071.

Committees that went to the executive office to notify the governor that the legislature had completed its work and was ready to adjourn sine die, brought back messages giving news of the governor's decision to disapprove the bills and reconvene the legislature.

The message was received with mixed feelings. The house sent a second committee to interview the governor with the request he defer to call until Monday, but he had made up his mind and refused.

Threatened by Tom Pollard
Senator Tom Pollard of Tyler, chairman of the senate finance committee, speaking to personal privilege, flayed the governor for his accusation of the chief executive of desiring the third extra session so could advocate a new "pet legislation" that had been defeated before.

There was only a handful of house members to hear the governor's message, and indications were there would not be a quorum in either branch this week.

Governor Moody said he did not believe a necessity existed for appropriation of the "maximum of state income under the highest tax rate allowed under the constitution."

Want Economy
"I do not believe the people of Texas want the legislative body to be rigidly or stingy in support of its institutions or departments, but I know they want economy practiced by the legislature, the institutions and the department," he said.

"There is no security against extravagance or waste except the fidelity of the public officers and employees. When the amount of money expended in past years in support of the government is considered, believe that you can adequately provide for all activities of the government and bring the appropriation under the present bills by a large sum of money."

The legislature last night completed its fourth month of legislation since it was convened in regular session on January 8. In addition to the usual extraordinary session it faces still another one next winter when the commission to study concentration and reorganization of the prison system is to make its report to the legislature.

TWO MEN ROB KANSAS BANK

SALINA, Kan., July 3-(AP)—Two men today robbed the Bunker Hill State bank at Bunker Hill, Kan., and escaped with approximately \$3,000.

JONES WILL PLAY IN CHAMPIONSHIPS

ATLANTA, July 3-(AP)—Bobby Jones, announcing here today he planned to play in both the British open and British amateur championships next year. His next big tournament will be the national amateur at Del Monte, Calif., in September.

STILL LIKE SPUDS

The per capita consumption of potatoes has remained the same in the United States for 25 years. This is about three bushels a year.

CITY SANCTIONS AMENDMENT TO GAS FRANCHISE

Passage of an amendment to the franchise held by the Natural Gas & Fuel Company on its first reading, allowing that company to raise its domestic rates in the City of Brownwood, featured Tuesday night's regular session of the City Council. D. H. Simmons of the Natural Gas & Fuel Company, accompanied by E. P. Woodruff, attorney for the company, appeared before Council asking for the rate change, advising that under the present franchise the company had been unable to realize a net profit of eight per cent on capital invested.

Under the present rate, Natural Gas & Fuel Company has been selling gas for domestic uses on a minimum rate of \$1.50 for the first 3,000 cubic feet, with all gas consumed above that being sold at 45 cents per 1,000 cubic feet, less a ten per cent discount. Under the new rate, if the amendment asked for is passed, all gas sold will be based on a rate of 50 cents per 1,000 cubic feet, without a discount. The ten per cent penalty for non-payment of bill before the tenth of each month will remain in effect.

Offer on Lots
Alderman G. E. Bolanmon reported to Council Tuesday night that he had been made an offer on the lots owned by the city on Center Avenue, near the post office. This offer was \$300 per front foot for the lot facing Center, adjacent the post office, and \$200 per front foot for the lot facing the city hall, adjacent the H. H. Hardin Lumber Company Yard and across Depot Street from the other lot. Council voted to consider this offer favorably and if details can be worked out, the two lots will likely be sold.

Other business of little or no interest was transacted by Council, this being followed by the regular monthly reports of all city officials, these reports being duly approved and accepted.

City Manager H. V. Hennen, in his monthly report for June, was in detail regarding work done during the month. Mr. Hennen reported much asphalt topping during the month, the filling of many chug holes, the grading of most alleys in the city and the dragging of many dirt streets.

Mr. Hennen's report also included an account of the city's feed crop that has been harvested and disclosed that the city blacksmith had been discontinued, it being pointed out that blacksmith work needed by the city could be done for less than the monthly cost of the blacksmith.

Mr. Hennen also told of trouble with pumps at the sewer pump, this trouble having been reported one week ago at the regular session of Council.

Much Water Used
Mr. Hennen's report further disclosed that a heavy demand is being made on the water department, in that about 2,500,000 gallons of water are being pumped daily. He advised that many complaints had been received regarding the low water pressure in the southwest part of the city and added that it was necessary to put in larger water mains in that section. Mr. Hennen indicated that revenue from the water department this month would be far in excess over any other month of the year, or in fact for any month in recent years.

The manager's report showed also that the fight against mosquitoes has been continuous and that the mosquito situation is well under control, as evidenced by the scarcity of these sleep provokers this year. His report showed that much work is being done by the sanitary department and that the city's sanitary condition is very acceptable at present.

Chief of Police Guilliams' report showed the handling of 112 cases during the month with an income of more than \$800. City warden James McCartney was unable to make a report on account of his absence from the city, this being due to the illness of relatives in Fort Worth.

City Secretary Joe B. Leach made his regular report, as follows:

Expenditures
General Fund ..... \$2,957.24
Water Department ..... 2,325.17
Sanitary Department ..... 984.73
Fire Department ..... 773.54
Police Department ..... 2,539.11
Street Department ..... 6,427.96
Street Department ..... 1,953.18

Total ..... \$17,942.94

Receipts
Water Taps ..... \$ 315.30
Water ..... 4,550.87
Sewer ..... 1,875.50
Sanitary ..... 977.20
General ..... 665.05
Police ..... 628.80
Street Permits ..... 102.00
Occupation Tax ..... 7.50
Misc. Water ..... 28.55
Misc. Sewer ..... 60.25
City Tests ..... 11.00
Light Inspections ..... 13.50

Total ..... \$9,248.82

LOVD JONES PICNIC

Members of the Loyd Jones Motor organization and their families, about fifty in number, held a picnic supper and swim at Lakewood Monday night. The affair was a general get-together for the entire force of the company.

THREE DEAD IN CRASH AT AMARILLO

AMARILLO, Texas, July 3-(AP)—Three men were killed and a fourth was injured here today when their automobile crashed into a parked truck.

The dead: CARROL McMURTRY, 21, REGAN BRUTON, 22, and JOE W. WILSON, 20. All lived in Amarillo.

Henry Ellis, 21, the only other occupant of the automobile escaped with minor injuries.

The party was returning from a dance at about 2 a. m.

TRAGEDY FROM FIREWORKS ON EVE OF FOURTH

NEW YORK, July 3-(AP)—Deaths planned for a safe and sane celebration in the metropolitan area, one child was dead and four seriously injured by fireworks on the eve of Independence day.

Anna Voight, 10, died of a wound inflicted by a piece of metal fired from a blank cartridge pistol by a boy.

Two boys and two girls were severely burned by premature explosion of fireworks.

While Tammany Hall and other patriotic and civic organizations were arranging programs for celebration of the 154th anniversary of the country's birthday, transportation lines were marshaling forces to move an army of excursionists, estimated at 1,000,000 to holiday resorts.

Illinois Mishaps Take Two Lives

CHICAGO, July 3-(AP)—Premature celebration of American Independence caused two Illinois deaths Wednesday.

An exploding firecracker ignited the dress of Rose Tinch, in Chicago, and she was burned to death. Lambert Skidmore, 74, died at Decatur from a brain concussion which doctors attributed to an explosion of a cannon cracker.

RAIN IN GOOD NUMBER WEST TEXAS TOWNS

Heavy rains that fell at several places in this section last night have been reported today. A big rain fell at Menard, San Saba, Brady, Eden, Hamilton and Goldwater. Also good rains have been reported from Comanche, Richland Springs, Sweetwater and Santa Ana. Light showers fell at Abilene, Dallas, Dublin, Fort Worth, Indian Creek, Lometa, Mercury, Mullin, San Angelo and Winchell, according to reports received by the telephone company here.

Official rain report for Brownwood during last night was .10 of an inch.

R. R. ENGINEERS DISCUSS STRIKE

CHICAGO, July 3-(AP)—Locomotive engineers of six western railroads are considering a strike to compel the carriers to recognize an individual grievance agreement with their international brotherhood, R. E. Edgington, assistant grand chief of the brotherhood, revealed last night.

Engineers of the Missouri Pacific, the Terminal Railroad Association of St. Louis, and the Chicago, Milwaukee, St. Paul and Pacific railroad already have voted, Edgington said, and the vote is being tabulated.

Negotiations between the engineers and officials of the Union Pacific, Southern Pacific, and Atchafalaya, Topeka, and Santa Fe railroads have come to an impasse, Edgington declared, predicting a strike vote by the engineers of those carriers within a short time.

Other railroads in all parts of the country have become involved, Edgington said, and the strike threat might become national in significance.

2 AMENDMENTS UP FOR BALLOT JULY SIXTEENTH

AUSTIN, Texas, July 3-(AP)—Texas, nearly always adverse in amending the state constitution under which they have lived so peacefully and happily throughout many years, are now asked to make changes in two portions which have been unaltered since the document was first penned.

On July 16 the voters will pass on the propositions of raising the salary of the governor from \$4,000 to \$10,000 annually and increasing the membership of the Supreme Court from three to nine.

A previous effort to amend the constitution in order to pay the governor more money was defeated. In fact, until lately, Texans had an aversion to amending the constitution, and it was a difficult task to get authorized an alteration.

"If the old document was good enough for my father and grandfather it is good enough for me," is an expression frequently heard when the matter of amending the constitution is broached.

But, the fact that the "old document" provides for a \$4,000 salary for the governor indicates that times have changed considerably since it was adopted, advocates of alterations argue.

In the event the amendment increasing the governor's salary is adopted it will not become effective until January, 1931, at the end of Gov. Moody's term.

The present occupant of the executive mansion has repeatedly declared that he would not approve any resolution calling for advancing the amount of remuneration received by the governor unless it was provided it would not take effect until the term for which he had been elected had expired.

Many lawyers are advocating the amendment increasing the membership on the supreme court to nine. The present court consists of three members, a supreme justice and two associates. But, in addition there are two commissions of appeals, consisting of three judges each. These commissions were created in recent years to take from the overworked court a part of the official load. To the commissions are referred cases by the court and after the commission works out a case and files its findings the court reviews the opinion and either approves or disapproves.

Five members of the court would constitute a quorum and it would require the assent of at least five members of the court to establish a decision.

The terms of the members would be for six years.

Paint Company to Open Store Here

Mr. W. F. Lucier, who has been connected with Builders Supply Co., since February of this year, will open the Brownwood Wall Paper and Paint Company, 907 E. Baker St., Monday, July 8th.

Mr. Lucier is an experienced man in this line of business, having owned and operated the largest wall paper and paint house in Williamson, N. C. just a few years ago before selling his business and entering other lines in Florida, where he has high class decorating for some of the most fashionable resorts on the coast and other sections of the state.

Newspaper reports from Tampa, compliment Mr. Lucier for his excellent work in refinishing and decorating.

The people of the Central Texas are welcome this new enterprise to their midst, as the assistance he is able to render in suggesting color schemes, etc., will be appreciated by the public.

Wife Of O'Neill, Playwright, Obtains Divorce In Reno

RENO, Nev., July 3-(AP)—Mrs. Aenes Boulton O'Neill obtained a divorce from Eugene G. O'Neill, noted playwright behind the closed doors of the chambers of district judge Thomas F. Moran here yesterday.

Papers in the case were not made public, having been sealed at Mrs. O'Neill's request when the case was filed Monday. Her attorney said, however, the divorce was granted on grounds of desertion and a property settlement agreed upon by the couple was confirmed by the court.

Custody of two children, Shane, a boy, and Ona, a girl, was divided. Mrs. O'Neill's legal representative announced in New York the playwright had agreed to give her one-third of his annual income as long as the one-third does not exceed \$10,000.

Girls To Hold Rummage Sale

A rummage sale will be held by the girls of the 8th Outcasts (with-out-urban folk) I. I. v. d. in apartment building at 101 Center Avenue, in a store room in the Friday afternoon and Saturday.

Eight years ago 24.4 per cent of urban folk lived in apartment houses. Today, a survey of 362 cities estimates the "chiff dwellers" at \$3.7 per cent.

# CHICAGO PLANE TAKE OFF FOR BERLIN TODAY

**SAULT STE MARIE, Mich., July 3—(AP)—**The Amphibian Untin Bowler, Chicago to Berlin plane, landed on the waters of the St. Mary's river here at 1:45 p. m. central daylight saving time today. The plane came down on the American side of the river and taxied across to the Canadian forestry department aerodrome on the other side.

**MILWAUKEE, July 3—(AP)—**The 'Untin' Bowler, en route

to Europe from Chicago, left Mattland Field here on the second leg of its flight at 9:44 a. m. an hour and seven minutes after it landed. It headed northward.

**CHICAGO, July 3—(AP)—**The Chicago Tribune Amphibian, "Untin Bowler," lifted its wings from the waters of Lake Michigan at 8:48 a. m. today and sailed northward on the first leg of a flight to Berlin. Its first stop was at Milwaukee.

Aboard the craft as it started its air journey across the northern wastes to Europe were two pilots, Robert H. Gash of Kentucky and Parker Chamber of Clarion, Pa., and Robert Wood, aviation editor of the Tribune.

Today's objective was Great Whale, 1,600 miles north in the Hudson Bay country, or Rupert House, 200 miles nearer, if the first goal proves too great a jump for the day.

A bag of mail, sealed late yesterday by Postmaster Arthur D. Lueder, rested on top of the aviators' luggage. It contained letters addressed by governors to foreign monarchs, ambassadors to their governments, and greetings from American business executives to those of foreign lands.

From Great Whale the route will be by way of Cape Chidley to Mt. Evans, Greenland, thence over that ice covered continent to Reyjavik, Iceland, by way of Angmasalik on the eastern coast of Greenland. From Reyjavik the jump will be made to Berlin. The east bound trip was expected to take five days.

**CULVER CITY, Cal., July 3—(AP)—**L. W. Mendell, and R. B. Reinhart, who took off from Culver City airport at 7:29:30 a. m. yesterday in their biplane "Angeles" in an endurance record attempt, were fighting fog banks rolling in from the ocean today.

As they sped toward their first 24 hours in the air they were forced at times to travel miles inland to escape the veiling curtain of mists, or to climb to high altitudes. Occasionally their motor could be heard humming high above the drab blanket overhead.

Mendell and Reinhart are seeking to better the record of 172 hours 32 minutes, and one second established at Fort Worth by Reginald Robbins and James Kelly.

**CLEVELAND, O., July 3—(AP)—**Staring on the monotonous flight above Cleveland airport, Pilots Roy L. Mitchell and Byron K. Newcomb flew on today toward the world's record for endurance flights as they lengthened the hundred-odd hours they have remained aloft.

The fliers were well into their fifth day of constant flying. Notes dropped to the field indicated they were in the highest spirits. Their clowning was limited to a few simple stunts, but it was accepted as confirmation of their optimism. Fourteen refueling contacts were completed on the last transfer last night.

## Southern Cross Forced to Land

**ALLAHABAD, British India, July 3—(AP)—**The airplane Southern Cross with Captain Charles Kingsford Smith and three companions aboard was forced to land here today when a magneto fouled. They

were able to proceed tonight on their Sydney, N. S. W., to London flight.

The aviators left Calcutta for Karachi this morning a distance of about 1,350 miles, of which they have still about 900 miles to go. They arrived at Calcutta yesterday from Rangoon Burma, 700 miles away.

## DEATH CLAIMS CLIMBERS OF MOUNT RAINIER

**TACOMA, Wash., July 3—(AP)—**Forest Greathouse, football coach at Lincoln high school, Seattle, and former team mate of "Red" Grange at the University of Illinois, and Edwin Wetzel, Milwaukee, were killed when a party of six mountain climbers was swept into a deep crevasse at the 13,000 foot level on Mount Rainier yesterday. It was learned here today.

The climbers were returning from the first attempt of the season to scale the mountain when they plunged into the crevasse above Gibraltar Rock Tuesday. Greathouse was employed by the Mt. Rainier Park Company as a guide during the summer. Wetzel was a visitor.

The known injured are: L. H. Brigham, Seattle, veteran summit guide and athletic director at Garfield high school, and Robert Strobel, Tacoma, assistant guide. The two other members of the party, the extent of whose injuries, if any, had not been determined, were D. Yancy Bradshaw, Cambridge, Mass., and E. P. Weatherly, Kansas City Mo. They were visitors at the park.

The six were returning in a blizzard from the summit of Rainier, which is more than 14,000 feet high.

One member of the party slipped and 50 feet below the top of the crevasse, pulled his five companions, who were roped together, after him. They were barely able to cling to a narrow shelf while a blizzard hauled on an ice shelf more than 100 feet upon them.

## A Straight talk ON QUALITY

A FORGOTTEN bit of Ruskin should be hanging over the door of every commercial establishment in America:

"There is hardly anything in the world that some man can not make a little worse and sell a little cheaper, and the people who consider price only are this man's lawful prey."

That slogan applies to all business—including insurance. By removing some of the factors devised to keep insurance "safe," a cheaper grade of policy can be obtained. How much it will cost before it expires, or how much will be obtained in the event of sudden need, is always problematical.

It is axiomatic that insurance can only be sold for less money by removing the factors of safety—and it is to secure safety that most people insure.

Sound stock fire insurance has only one price—only one standard of service and safety!

## EXTRA SERVICE

ENDURANCE

PERFORMANCE

APPEARANCE

This kind of tire service has made our business grow.

We started selling Federal Tires years ago. We believed that they were the best tires any motorist could buy—that the kind of service they give would make our business grow.

Now we know that we were right—we could not have chosen a better tire than Federal.

Our list of Federal customers is growing steadily, for Federals give unusual tire service. They combine appearance, performance and endurance; three things every motorist wants. Federal buyers stick to Federals, for Federal Tires give them more than any other tire.

You will get a new idea of tire service when you drive on Federals. Will you join our list of satisfied Federal drivers?

### TUBES OF QUALITY

To get complete Federal Service use Federal Tubes in Federal Tires. These tough tubes are built to fit the tire exactly, with no wrinkles to cause wear. We have Federal Tubes in sizes to fit every tire. Try a Federal next time you need a tube.

FEDERAL DOUBLE BLUE PENNANT gives the most in Extra Service—smooth appearance, steady performance, and extreme endurance. You cannot buy a finer tire. Size

Visit our Nuway Hardware and know why this department was given this name.

## Looney Mercantile Co.

"THE BIG, FRIENDLY STORE"

Five Years Ago  
The Terme NeHi  
Was Unknown

Five years ago the term "Ne Hi" was unknown. Today it is a national drink. The Ne Hi shares are listed and actively traded in on The New York Curb Exchange. It is a Columbus, Georgia, product.

Four and one-half years ago the first Ne Hi bottling plant, representing an investment of possibly \$1,000, was started in a small Georgia town. Today there are about 600 Ne Hi bottling plants, and inhabitants. When those who indirectly work for Ne Hi, manufacturing bottles and other supplies needed for the industry are added, the imaginary city swells to a population of full 100,000 people. Today over fifteen million dollars is invested in Ne Hi, this being the investment of Ne Hi, Inc., and the several hundred bottling plants.

The consuming public will expend in the neighborhood of thirty million dollars for Ne Hi drinks this year. This means that about six hundred million bottles will be sold in 1929.

Ne Hi, Inc., is capitalized at three million, four hundred forty-one thou-

sand dollars, Columbus, Georgia, is the home and headquarters of this great enterprise.

The title of the holding company is Ne Hi Corporation, which is chartered under the laws of Delaware, and which owns all the stock of Ne Hi, Inc.

The wonderful growth and popularity of this line of beverages is due to a variety of causes, including the quality and delightful flavor of Ne Hi drinks, the distinctive bottle, and the enterprising advertising and merchandising methods adopted by the Ne Hi Company.

Riot Squads to  
Preserve Order

NEW ORLEANS, July 3—(AP)—Police today held riot squads in readiness to preserve order on the second day of the street carmen's strike here with announcement by public service the company intended to operate cars. The walkout of 1,800 employees paralyzed the entire system yesterday and peaceable picketing was permitted at the six car barns.

Nearly a dozen men were arrested on charges of assault and battery and pistol and blackjack carrying in the race of the police patrols to curb fist fights and brickbat showers.

Oil Quest is Civilizing Force

American business pioneers in foreign lands have had to take their home environment and products with them in many instances. At the left is an American development in Sumatra. Right: An oil well in Bolivia. Drilling equipment had to travel 4,000 miles by water; 1,100 by rail, 30 by motor and mule cart.

NEW YORK (AP)—Under pressure 15 countries now number 45 companies engaged in the production and distribution of oil and products derived from oil.

Its chief domestic producing subsidiaries are the Humble Oil & Refining Co., operating in Texas, Oklahoma, Louisiana and Arkansas; extensive holdings in Mid-continent and units operating in other parts of the country, particularly Pennsylvania, West Virginia and Ohio.

It controls the Imperial Oil company, Ltd., of Canada and through that organization controls the International Petroleum company, Ltd. The latter concern has important producing operations in Peru, Colombia and properties under exploration or development in other South American countries.

Through subsidiaries it operates properties in Europe and the Dutch East Indies and controls a wide variety of activities, including 3,000 miles of pipe line in the Mid-continent field, refineries in New Jersey, Maryland, South Carolina and West Virginia, auxiliary plants producing many oil by-products, roads, steam, marine tankers and an international system of storage and distributing facilities.

The world's quest for oil has scattered hundreds of little patches of civilization in tropical jungles, inaccessible mountain areas and sandy deserts. A record of the difficulties of road building, construction and sanitation overcome by American oil companies could be duplicated by big concerns of every nation.

Parents of the Standard Oil group, the New Jersey company was formed in 1911 when the old Standard Oil trust was dissolved by court action under the Sherman anti-trust law. Its affiliated concerns in

this week.

Mrs. John Strickland and Miss Hazel McLaughlin were shopping in Brownwood on Monday.

Mrs. R. L. Eaton and Mrs. J. C. Hicks accompanied Mrs. Homsey to her home in Comanche Thursday.

Charlie Faulkner and son, of Brownwood, visited Mrs. G. W. Faulkner on Sunday.

Mr. Woolseater, of Fort Worth, is visiting friends here this week.

Mrs. L. F. Bird and children and Mr. and Mrs. Roy Chapman were shopping in Brownwood Saturday.

Mr. and Mrs. Blake McLaughlin and little son of Cross City spent Sunday with his parents, Mr. and Mrs. A. J. McLaughlin.

Miss Glenn McKinsey and Emmet Bratton, of Comanche, visited in the home of Mr. and Mrs. Geo. Gleaton Sunday.

Mrs. Winfield Nix and children of Brownwood, visited relatives here Sunday afternoon.

Mr. and Mrs. Tom Stuard moved into one of Mrs. H. M. Boyer's houses last week.

Mr. and Mrs. Ray Williams of Port Arthur, visited his parents, Mr. and Mrs. A. H. Williams and other relatives here the last of the week.

Frank Lappe and family were visiting in Brownwood Sunday.

Alvin Richmond and children attended singing at Jordan Springs Sunday afternoon.

Mr. and Mrs. Will Franklin and D. P. Pinkard visited Mr. and Mrs. J. B. Evans of Lometa a few days ago.

Mr. and Mrs. G. W. Gleaton were in Comanche Monday on business.

Misses Elsie and Leva Eoff, Mrs. L. B. Robinson and little Emma Eoff were shopping in Brownwood Monday morning.

Girls in Summer Quest  
for Hundred Blossoms

NORTHAMPTON, Mass.—(AP)—Struggles through swamp and thickets in search of a hundred flowers is the program occupying the minds of six Smith college girls this summer.

Botany 24, Summer Field Work, is the name of the course, a study unusual in a college of this type.

At first hearing the collection of a hundred different flowers sounds simple. But Prof. Wayne Manning is positive that it is anything but that.

The flowers must be identified, pressed and mounted. An examination of them must be taken by the candidate in the fall.

She is not left wholly to her own resources, however, for she has special instruction during three or four weeks in the spring. If she succeeds in bringing back the hundred flowers she receives one full year hour of credit.

It is an ideal system, according to the botany department. As the student is alone she is obliged to solve her own problems and thereby develop resources and sagacity. Moreover, she is gaining practical training which will prove invaluable in any advanced course in botany she may elect.

Sugar Coated Sale is the sensation for the week at Looneys.

Visit the sugar coated sale at Looney this week end.

Negro and White  
Man Testify to  
Being Beaten

AMERICUS, Ga., July 3—(AP)—Testimony of a negro and a white man that they were beaten in the fields while their employer, W. D. Arnold, Sr., wealthy Sumpter county planter, held a gun on them today was before a jury of farmers in federal court.

John Vanover, a negro, and Claud King, a white farm hand, told the jury yesterday at the trial of Arnold on charges of peonage that their employer had negro fellow workers apply a leather strap to their bare backs on several occasions while he himself stood by directing proceedings with a revolver.

The planter pleaded not guilty, and although the government witnesses alone were heard yesterday, his attorneys indicated he would charge the indictments against him were inspired by unfriendly neighbors.

Gets Degree 25 Years  
After Becoming Student

MOULTREE, Ga. (AP)—Mrs. Katherine Greer Tunnell, graduate in the class of 1929 at Georgia State College for Women, has had a college career which extended over a period of 25 years.

Entering the school in 1904 Mrs. Tunnell obtained her collegiate normal diploma in 1906. After her marriage to G. H. Tunnell she returned as librarian and took work for a B. S. degree.

Report Capture  
Cristeros Leader

MEXICO CITY, July 3—(AP)—Dispatches from Guadalajara today said the Friest, Aristeo Pedraza, alleged leader of "Cristeros" or so-called religious rebels, was captured at Arandas, Jalisco, Tuesday and executed by a firing squad after summary court martial.

Pedraza was one of the most colorful characters in the Mexican seditious movement, being second in command to the late General Enrique Gorostiza, chief of all the "Cristeros" who was killed in combat a few weeks ago.

Up-to-Dote Smithy  
Has Portable Shop

KANSAS CITY—(AP)—Jesse Wallace has introduced blacksmithing to this age of specialization. He visits his barnyard clients "by appointment only."

When business dwindled at his old horseshoeing shop, Wallace decided to specialize. His portable outfit now covers a radius of 10 miles around Kansas City.

More than 300 saddle horses and polo ponies, whose owners are particular about the shoes their horses wear, are included in his clientele. Wallace's old shop is used only as a headquarters for appointments.

NORWOOD'S

Cars and Homes Used  
to Meet Church Note

TAMPA, Fla.—(AP)—Property of the First Christian church here valued at \$235,000, will remain in possession of the congregation for the present at least despite the apparently insurmountable odds in financing its retention.

One member of the congregation sold his automobile, another borrowed on his life insurance, a third put up a mortgage on his home, and others borrowed various sums to meet a \$10,000 note due on the new building.

BLANKET

Born to Mr. and Mrs. Roy Blackmon a girl on Tuesday of last week. Mr. and Mrs. Howard Eaton, of Bronte, spent several days of last week with his parents, Mr. and Mrs. R. L. Eaton.

Elvin Lowe and family moved to Bangs last Wednesday.

Will Switzer and family spent Sunday with his sister, Mrs. Duke Douglass and family, of near Zephyr.

Mr. and Mrs. Vernon Baker, of Tivoli visited in the home of Mrs. Mary Baker on Sunday.

Jesse Blanton and family spent Sunday with Mr. McMurry and family of Owen.

L. F. Bird and family, R. L. Chapman and family, Bob Swart and family, Mr. and Mrs. Henry Williford, Rev. J. B. Henderson and family, Misses Thelma and Nina Dossey, Audie Lee Austin and W. F. Boler attended the all day singing at Jordan Springs on Sunday.

Miss Dorothy Mae Jones, of Port Arthur, is spending this week in the home of Luke Reeves.

Uncle Jake Robinson fell and hurt himself Monday morning, but it is thought that the injuries are not serious.

Mrs. John Gladney, of Wellington, is visiting her parents, Mr. and Mrs. V. E. Eoff this week.

Miss Ida Mae Douglass, of Zephyr, is visiting Miss Thelma Switzer this week.

Mr. and Mrs. Jack Knox and children and Miss Virginia Betts were visiting in Stephenville Sunday.

C. B. Switzer and family visited in the home of Duke Douglass of Zephyr on Sunday.

Miss Allen Barnett, of Quanah, is visiting here in the home of her grandparents, Mr. and Mrs. V. E. Eoff this week.

Bill McAlpine, of Spur, spent the week-end here with relatives. T. E. Levisay and family, Claude Levisay and family and T. M. McCulley and family met Mr. and Mrs. John Levisay and Mr. and Mrs. Raymond Levisay of Newburg in Goldthwaite Sunday and from there they drove to the Colorado river where they spent a very enjoyable noon hour. Then the parties drove on to San Saba in the afternoon.

Rev. and Mrs. J. B. Henderson and J. C. Hicks attended the funeral of a friend in De Leon Monday afternoon.

C. H. Tidwell, D. P. Pinkard, J. B. Strickland and Mr. and Mrs. Howard Strickland were in Comanche Monday to see the fruit show.

Joe Dodson and family, of Bronte, were visiting his sister, Mrs. R. L. Eaton several days last week.

Jim McCulley, of Brownwood, brought relatives here Wednesday and Thursday.

Miss Novella Richmond left on Sunday for Denver, Colorado, where she expects to spend sometime.

Mr. and Mrs. Robert Eaton and children, of Comanche, visited relatives here Sunday.

Nathan McCulley, of Graham, visited T. E. Levisay and family and T. M. McCulley and family last week.

Mrs. Homsey, of Comanche, spent a few days last week with Mr. and Mrs. R. L. Eaton.

Will Irby, of Coleman, was here Sunday to see his mother, Mrs. J. W. Irby.

Sam Burns made a business trip to Brownwood Monday.

Dr. and Mrs. W. E. Brown left Thursday for Corsicana to visit for several days.

John McQueen, of Brownwood, spent Sunday with his mother.

Mrs. Walter Sumner, of New Mexico, is visiting relatives here

FACTS about RIVERSIDES

Study these points!

...they are your protection in knowing the Quality of tires you buy

The Whole Story Is This...

MOST well-known tire manufacturers in America sell at least three different qualities of tires.

So does Montgomery Ward & Co.

Most well-known tire manufacturers in America charge three different prices for the three different qualities of tires.

So does Montgomery Ward & Co.

Most manufacturers or dealers do not admit that they sell three different qualities of tires.

But Montgomery Ward & Co. does!

Our Super Service RIVERSIDE, unconditionally guaranteed for 30,000 miles, is our VERY BEST or Super Quality, and, in our opinion, the finest tire ever built. Compare it with any super quality tire made no matter how high the price.

Our Standard RIVERSIDE, guaranteed for 16,000 miles, is our FIRST QUALITY tire, and is equal in quality of materials, workmanship, appearance and service to other first quality tires made by leading manufacturers. It should never be compared with any "second line" brand — no matter what name the tire bears.

Our WARDWEAR tire, guaranteed for 10,000 miles, is our SECOND QUALITY tire, and equals any other

second quality tire. It sells at an extremely low price and is only to be compared with low-priced "second-line" tires produced by leading manufacturers — regardless of any claims to the contrary.

Montgomery Ward & Co. believes in "calling a spade a spade" and letting the purchaser know exactly what we are selling him. It is distinctly against our policy to create the impression that our WARDWEAR quality is to be compared with first quality tires of leading manufacturers.

Common sense should tell you that when any company produces three different articles to sell at three different prices, there must be a difference in the quality.

All RIVERSIDE and WARDWEAR tires are made by manufacturers who are noted for the excellence of their products. Ward's economical distribution methods create short-cuts and economies which are directly reflected in the prices of our tires and, regardless of whether you purchase RIVERSIDES or WARDWEARS, we guarantee that you will save money as compared with the prices charged by others for the same identical qualities. In addition, at Ward's you pay for Guaranteed Mileage, which in itself is a definite measure of value.

### Goldthwaite

Rev. W. A. Thornton, county missionary for Mills county, filled the pulpit at the Baptist church last Sunday morning and Rev. Stripling, pastor of the Baptist church at Mullin at the evening hour. Rev. G. C. Evans, pastor of the church is always visiting his wife's folks.

There was no preaching service at the Methodist church Sunday. The pastor, Rev. S. D. Lambert, is assisting in a revival at Mullin.

C. L. Moore and family left the latter part of the week for their new home in Oklahoma. Mr. Moore has been manager of the West Texas Telephone exchange here for some time and we regret very much to lose this good family. John Skipper and family of Paint Rock, have taken the management of the company in Mr. Moore's place. He and his family are located in a residence on North Parker.

The revival at the Nazarene church is to begin July 14 and continue until the 28th. Evangelist Charlie Robertson is to do the preaching. Everyone is invited to come to the services and especially those who sing are urged to come and help in the singing.

The new theater building has been completed and the grand opening was held last Friday night. The name of the theater is the New Melba. Mr. Pence has spared neither time nor expense to give to the people of this part of the country a real up-to-date theater. Miss Lizzie Vann came in home Sunday from Arkansas where she has been for several weeks on her vacation. She also visited in Temple.

Mrs. J. E. Booking came home Saturday from a two weeks visit with relatives in West Texas. Her mother Mrs. Weems remained for a longer visit.

The Wesley Workers Sunday school class enjoyed a swimming party on the river last Friday night. There were about 30 in the party and all report having had a very enjoyable time.

The newly organized baseball

team played a match game here with the Priddy team Sunday. The score was 15 to 3 in favor of Goldthwaite.

J. S. Kelly has installed a Frigidaire system in his meat market. R. E. Clements has had the front of his drug store repainted which adds to the looks of the building very much.

The Eagle announced last week that the catalogue and premium list for the Mills County Fair is off the press and copies can be had at any business store in town or the Eagle office. The predictions are that this will be the best fair we have ever had. R. L. Steen and Henry Rohl are busy collecting curios and relics for that department. O. H. Yarbrough, and Mrs. Roy Roundtree are working on the department for women's work. Dow Hudson and Mrs. Marvin Rudd are working to make the Fine Arts display interesting. R. E. Clements has completed the arrangements for entertainment of ex-Confederate soldiers, their wives and widows. Mrs. Nora Berry will entertain in honor of the old soldiers on the first night of the Fair July 18. Our county agent, W. P. Weaver, is working hard on the farm exhibits. The men in charge of the live stock report all stalls on the Fair grounds taken and arrangements are being made for some in town.

A live stock pavilion is being erected for Jersey cows, sheep and goats. Owing to the limited accommodations and the local demand for stalls this department will be for Mills county stock exclusively. The Ray Gray shows are to be here with their carnival. The old fiddlers are to entertain on the second night, July 19.

Mrs. Lee Stewart and John In-triken, of Blanket, stopped here for a short visit with friends last Thursday. They were on their way to Georgetown on business. Mrs. Charlie Cornelius went to Temple Tuesday afternoon for an examination in Scott & White Sanitarium. Her many friends are hoping she will return home soon much improved.

### Buenos Aires Air Line to Aid Lumber Trade

TAMPA, Fla.—Explorers of Florida pine are waiting eagerly for the opening of the New York, Rio and Buenos Aires air line, which will make Tampa its southern United States airport.

It will bring lumber shippers in closer contact with their South American market, according to L. N. Dantzier, Jr., Argentina's consul here and vice-president of a Tampa exporting company.

"Lumber exports," Dantzier explained, "help to stabilize the Florida industry when the North American market is quiet. When sales manifests reach Buenos Aires within a week, instead of the 24 days now required, we will develop a business efficiency with our South American customers, which will be a great factor in defeating competi-

tion from other lumber exporting countries." Florida's principal lumber export market is the Argentine, with Germany ranking second and England third. Nearly all the lumber shipped recently came from the Kissimmee river territory between Orlando and Okeechobee, augmenting small shipments from other

### HERR MAX MAY GO HUNGRY IN MIDST PLENTY

NEW YORK, July 3.—(P)—Hemmed about by a plethora of managers, Max Schmeling appears destined to starve in the midst of plenty.

Just when the German heavyweight's stock has gone sky-high because of his victory over Paulino Uzcudun, Schmeling's feud with his one-time manager, Artur Cuelow, has reared its head again to threaten not only Herr Max's peace of mind but his ring earnings as well.

With the Paulino-Schmeling fight out of the way and charity the richer therefore, the New York State Athletic Commission has decreed that Schmeling now must fulfill a contract signed by Buelow with Humbert Pugazy to fight Phil Scott of England at Ebbets Field, Brooklyn, Aug. 7.

Schmeling has said time and again he never would go through with any match arranged by Buelow. Rather he said, he would return to Germany and await for his contract with Buelow to expire in October of 1930. The German may reconsider that statement when it is pointed out to him he now is riding the crest of the wave. A fickle fight public probably would have another heavyweight hero to worship by that time.

Whatever the German decides to do, it seems Madison Square Garden's plans for a bout between Schmeling and Jack Sharkey here in September must be abandoned. Sharkey is bound to the Garden until July 15 when an opponent for the September bout must be named.

### Scientist Goes High in Test of Altitude

COLORADO SPRINGS, July 3.—(P)—Mountain sickness—which affects persons who suddenly enter high altitudes—is being studied scientifically this summer by Arthur Grollman, associate professor of physiology at Johns Hopkins university.

With Mrs. Grollman as his assistant he took quarters at the summit house on Pike's peak, bringing with him tanks of gases, masks and many laboratory articles used in testing effect of altitude on the heart.

### Land of Cloves

From the island of Zanzibar comes the bulk of the world's supply of cloves, there being almost 3,000,000 trees in use in the industry there.

### BROWNWOOD'S PROGRESS TOLD BY LOCAL MAN

(Fort Worth Star-Telegram)  
"The next Federal census must give Brownwood a population of about 18,000," T. D. Butler of that city, who has been with the Magnolia Petroleum Company for 18 years, said here Monday.

"Brownwood has grown rapidly the last two years and in the next two it would not surprise me to see it almost double in population. We are just starting upon a number of big projects which cannot help but attract farmers to that section and citizens and business men to the town itself.

### Important Project

"In a way about the most important project just started is the spending of more than \$1,000,000 for hard surfaced roads radiating out of the city. The one to the north will connect with the surfaced road at Rising Star and running into Cisco. To the south the pavement will extend to the county line and tie to the gravel highway into Brady. To the east we will build to the Mills county line toward Goldthwaite, and to the west we will head toward Coleman.

"Another important highway project is a proposed all-weather road from Brownwood to San Saba. That is receiving serious consideration and I would not be surprised to see it built in the near future. And add to all of those improvements, Brown county proposes to put all lateral roads in such conditions that winter rains will not keep the farmers out of town.

### Work On Dam

"Surveyors are running lines for the proposed dam at narrows on Pecan Bayou, which will give Brownwood a gravity flow of water for commercial and private use. This dam will make it possible to irrigate many thousands of acres below it. That means more farmers for our section, and naturally rebound to our commercial activities. We need more water, because we are growing so rapidly.

Homes are being erected all over Brownwood, and in the business section old store buildings are being improved or others reared for newer structures. Saturday Montgomery Ward & Co. opened its new store building, and only recently the Citizens National Bank moved into its new home.

"From a farmer's point of view, conditions are a little above the average in Brown county. Cotton looks fine. Threshing of wheat and oats is about over. Wheat ran from 8 to 25 bushels per acre and oats

from 35 to 40. The pecan crop looks promising.

"Our company is expending about \$40,000 on a brick warehouse which we expect to occupy about the first of the month. The four storage tanks have been completed. It is the intention of the Magnolia to make Brownwood a distribution point for that section of the State."

### BILL VILHA TO CROSS PLAINS

William (Pancho) Vilha, 1929 graduate of Daniel Baker and for four years a member of the Hill Billy football and baseball teams, has been elected coach at Cross Plains High School for the 1929-30 term, according to Ed Blair, athletic director at Daniel Baker. Vilha succeeds Nat Huggins at Cross Plains, Huggins having resigned to accept a similar position with the Jacksonville High School.

Bill Vilha knows his football and should make an excellent mentor for Cross Plains, his former coach says. Pancho played quarter back for three years with the Billies and during that time his team annexed two T. I. A. A. football titles. Vilha held down the keystone sack for the Billy baseball machines of the past four years.

### Police "Beauty" Test Rates Courtesy First

CHICAGO—(P)—Handsome is as handsome does is the theory upon which police in River Forest, a suburb, are conducting a "beauty" contest.

Courtesy is the big point—not only to law-abiding, but offending citizens as well. But spruceness and carriage also count toward the prizes to be awarded by an anonymous donor in September. Already the policemen have an air that makes them hard to resist.

### Boom in Bananas Makes French Colony Hopeful

CONAKRY, French Guinea—(P)—This French colony expects to provide the mother country this year with half, and in two years, with the whole of its supply of bananas. This is made possible by the installation of a modern cold storage plant and the introduction of special transporting methods.

In 1920 the colony exported only 205 tons of bananas while in 1927 it produced 8,500 tons. In addition to supplying the needs of France plans are being made to invade the world market in the near future.

# Prominent Brownwood People Are Out for Orgatone

## MAYORS OF CITIES, DISTRICT JUDGES PROMINENT STATE AND CITY OFFICIALS, BANKERS, LAWYERS, DOCTORS, EDITORS AND MINISTERS OF THE GOSPEL DEEM IT THEIR DUTY TO TELL WHAT ORGATONE HAS DONE FOR THEM.

Thousands of Wonderful Endorsements Have Been Given Orgatone, and the Amazing Success the Preparation Has Achieved Within the Past Two Years Is a Real Romance of the Modern Business World. One of the Most Striking and Noteworthy Features in Connection with the Preparation, However, Has Been the Large Number of Prominent Men and Women from All Parts of the United States Who Have Unhesitatingly and Voluntarily Come Forward and Given Orgatone Treatment Their Unqualified Endorsement.

These men of affairs represent practically every branch of commercial and professional life, and included in the list are mayors, district judges, prominent state and city officials, bankers, lawyers, doctors, editors, leading educators and even ministers of the gospel.

These men have deemed it their duty to tell people what this new scientific treatment has done for them, for they have recognized in Orgatone a new discovery in medicine. It is unanswerable evidence as that settles all controversies even before they are started for the people know the value of testimony and are able to give the proper weight to its indisputable evidence as well as its high character.

It is a well known fact that these endorsements have been given Orgatone time and time again and they will continue to give them out just as fast as new tests of its power are made. But it must be borne in mind that the public testimonials represent only one in a thousand of those who have been benefited by its use.

This explains the phenomenal and unprecedented success of this remarkable treatment and why the large drug firms of the country order it in such large quantities. It is doubtful if there is a city in the entire South and West where scores have not been restored to health and relieved of their suffering by Orgatone, and in this way the indisputable message of health is being carried right to the very doors of every man, woman and child in this country.

Appearing below are a few expressions and endorsements from large number of Brownwood people, and surrounding territory, that are constantly being given to the public from day to day and which are sufficiently within themselves to convince the most skeptical, as well as to explain the high stamp of character and excellence that the people of this section of Texas, have already placed upon the most famous stomach treatment ever formulated.

**C. A. Garrett, 1306 Main,** says: "Orgatone has certainly done for me all that they say it will and I feel 100 per cent better and do not hesitate to recommend it to my friends."

**A. P. Ervin, 219 E. Baker, Trans-fer Business,** says: "It has been over three years since I have enjoyed such good health or felt so well generally as I do since taking Orgatone."

**G. M. Hays, 815 Malone, Carpenter,** says: "It's worth thousands of dollars to feel like I do since Orgatone has taken away troubles that have kept me in misery for the last six years."

**J. H. Terrell, 414 Lipscomb, Barber,** says: "Yes, sir, I've only known what I am talking about when I say that Orgatone does the work. It is a great medicine and deserves recommendation."

**Mrs. Jennie Routh, 210 N. Broadway,** says: "I have just finished my first bottle of Orgatone and I have gained wonderfully in health."

**J. W. Nichols, 106 S. Greenleaf,** says: "I have never spent \$1.25 in my life that brought better returns than when I bought my first bottle of Orgatone."

**Floyd Stoner, Prairie Pipe Line Co.,** says: "Orgatone has certainly made me feel like a new person altogether and I cannot give too strong a statement about the benefit I have received from it. I am boosting Orgatone to everyone and have already induced several of my friends to use it, as it certainly has been a life-saver to me."

**Mrs. Hester Lee, 915 Victoria,** says: "I wouldn't take a thousand dollars cash for the good Orgatone has done me. It may sound strange but I had suffered with stomach trouble, acidness, liver and nervousness until I got to the place when I felt that nothing on earth would do me any good. I am just finishing my first bottle of Orgatone and it is surprising the way I have improved."

**S. S. Richardson, Harper Hotel, Land claim Contractor,** says: "Yes, sir, I have been trying for six years to get relief from my troubles and Orgatone has done the work when

give results so quickly. I have used two bottles and feel better in every way."

**Jack Thomas, 1297 Brady, Farmer,** says: "Yes, sir, this Orgatone has straightened me out in fine shape, and made me feel like a brand new man. After all the medicine I have taken for two long years failed to do me any good."

**J. F. White, Sidney, Texas,** says: "I have gained wonderfully, and if you had seen me the day I began taking Orgatone you wouldn't recognize me as the same man now."

Orgatone has done for me so much good that I feel almost compelled to praise it, and I know several people taking it now on account of what it has done for me."

**Mrs. S. E. McQueen, Rt. No. 2, Brownwood,** says: "It gives me pleasure to do what I can for the fellowman and as Orgatone has been such a great benefit to me and to a number of my friends, I recommend it to everyone. It is beyond me to endorse anything that is not of true value and I most sincerely give Orgatone my endorsement for it has worked remarkably in my case."

**H. B. Everitt, 510 Mayes Street,** says: "I sleep like a baby and wake up in the morning feeling as fresh and bright as I ever did. My troubles are now at an end and I am so grateful for what Orgatone has done for me, and I want everybody to know about it."

**Harry Anderson, 501 Victoria, Contractor,** says: "I could buy a nice home with the money I have spent during the last thirty years trying to get rid of my troubles, and my efforts failed completely until I commenced taking Orgatone. Orgatone is restoring my health, and I am now so happy and grateful that I never lose an opportunity to speak a good word for this great medicine."

**Mrs. M. C. Townsend, 1120 Ave. A, Brownwood,** says: "My brother began to improve right from the start, his stomach and kidney trouble does not bother him as it did. He doesn't have headaches or dizzy spells now at all. His entire system is in better shape now than it has been for a long time."

**E. A. Parks, 507 Beaver, St. Janitor,** says: "Orgatone has really worked wonderful in my case."

**Mrs. L. A. Brandenburger, 505 Melwood, says:** "I had actually given up all hopes of ever seeing a well day again. I can't endorse Orgatone too highly."

**J. C. Carnes, 602 Hendricks,** says: "I am a lucky man that I found it, for it worked wonderful for me. I have honestly gained in weight and eat anything I please with no ill effects."

**Mrs. Tom Ervin, 601 Beaver St.,** says: "It is a wonderful medicine, and I am glad to do what I can for it, and believe that credit should be given where credit is due to Orgatone."

**Mrs. John Ellidge, 1319 Ave. B, Contractor,** says: "I never saw anybody pick up so fast as my husband has since he started taking Orgatone."

**Mrs. P. H. Roberts, 301 Melwood,** says: "You can tell them it helped my grandmother too, and of all the people who have made statements about being helped by Orgatone, none have greater cause to be thankful than we have."

**J. D. McDonald, Blanket, Farmer,** says: "A few years ago I didn't think I would ever be a well man again, but Orgatone has put new life into me, and I feel so good that I would like to run a foot race with some of the boys."

**Mrs. Dan Thomas, 700 Ave. G,** says: "I believe in giving everything its due, and I want to tell you right now I sure rejoice over what Orgatone has done for me."

**Mrs. Julia A. Martin, 1310 Ave. B,** says: "I wish I could do more for this wonderful Orgatone than only recommend it, for I tell you I am a glad woman, and I have been relieved of a great many years suffering. I am certainly grateful for what it has done for me."

**L. H. Collins, Rt. No. 1, Dulin, Texas,** says: "I haven't the slightest objection to all my friends knowing I took Orgatone, and that it has relieved me of all troubles that have bothered me for a number of years."

**Carl E. Hammons, 1105 Brady, Bookkeeper,** says: "After reading a good deal about Orgatone in the papers and hearing what people were saying everywhere about the good that it had done for them, I finally decided to give Orgatone a trial, and that certainly was the luckiest thing I ever did for myself. I have never taken or even heard of any medicine that would

# USE SEWAGE DISPOSAL WATER FOR IRRIGATION INVESTIGATED

## JAKE ATZ HAS RESIGNED AS PANTHER BOSS

FORT WORTH, July 2.—(AP)—Effective today Frank Snyder replaced Jake Atz as manager of the Fort Worth baseball club.

Official announcement of the change was made by president Ted Robinson, and Snyder was told to take charge of the Cats this afternoon in Dallas.

The venerable Panther manager wasn't fired, and he didn't quit. "We simply had a mutual agreement," the president stated, and Atz nodded confirmation. There wasn't the least bit of friction, and all are parting the best of friends.

"I, as well as thousands of fans, love old Jake as a brother, recognize him as one of the greatest managers in baseball, major or minor, and know there's no finer gentleman anywhere," said Robinson, "but for the best interest of baseball in Fort Worth the change was necessary."

"I have been here too long and love the Cats too well to say I have quit," said Atz. "There's something about that I don't like, I had rather it would be understood that Ted and myself had a mutual agreement. I'm not sore at any one. I am simply tired."

**Head Conference Sunday**—Snyder came to Fort Worth Sunday for a conference with Robinson, but it wasn't until last night that final arrangements were made. Snyder was in Houston at the time. He left immediately for Dallas and arrived there at 7 o'clock today. In a long distance telephone conversation with the Star-Telegram he said:

"I am happy to be with the Cats—they represent the finest spirited city in baseball, are controlled by a group of live-wire sportsmen who will help me in every way. Together I think we may yet win a pennant this season. It's never too late."

"I have stepped into the place of one of the game's greatest and most beloved characters. It will be a job to take his place; I am afraid I can't do it in all ways, but I will do my best to carry on the unparalleled work he has accomplished here."

Atz is not thinking of quitting baseball. He is open for offers from clubs in all leagues. In past years he has always had the refusal of many clubs, and he will not be flooded with offers within the next few days.

**BOURLAND, MANAGER-PRESIDENT W. T. C. C. TO VISIT CITY TODAY**—Andy Bourland of Vernon, president and recently made manager of the West Texas Chamber of Commerce, is expected in Brownwood Monday evening for a conference with the directors of the local body, according to information given at a luncheon at the Southern Hotel on Monday noon.

The directors decided to do some local advertising to acquaint the people of the city with the work and extent of operation of the Brownwood Chamber of Commerce, and to list the firms of the city which are members and aiding in its work.

Matters discussed but on which no action was taken included: a slaughtering plant, a new railroad, a new hotel and Highway 129.

## 99 YEARS IN NIX VERDICT

BOSTON, Texas, July 2.—(AP)—A young Malta farmer smiled slightly here last night as a jury found him guilty of the poison murder of his 99-year-old wife and sentenced him to 10 years in prison. The prosecution's theory that he killed the girl for \$1,400 insurance.

Whether the defendant, Ocie Nix, would appeal had not been announced, but it was believed a move toward that act was under way. His confession to the crime was not introduced.

Nix was held at Paris today. Shortly after the death of his wife, Vinita, mother of a five-month-old child, officials here had feared mob violence and had kept the alleged slayer sequestered for a time.

State witnesses, neighbors, testified in the trial that on June 13, attracted by screams, they rushed into the Nix home and found the young mother in convulsions. Nix attempted to caress her but she screamed at him: "Go away. Don't you touch me." The state chemist at Austin found poison in Mrs. Nix's viscera.

## Changes in Mail Schedules On Bus Here To Ft. Worth

A new mail schedule by the bus route between Brownwood and Ft. Worth changes very little the time of previous runs, but includes more classes of mail matter, it was learned Monday from Postmaster J. D. Stewart.

All classes of mail will be carried each way on the bus where heretofore only first class mail was carried on this route. The bus will arrive in Brownwood from Fort Worth about 1 p. m. where it will be arriving at 1:30 p. m. From Brownwood the bus will start daily at 1:30 p. m., where it has been starting at 12:45 p. m.

This schedule will get the bus into Fort Worth in time to catch the night mail for the north and at the same time will give Brownwood people a little more time for mailing. This will mean also a better connection for the T. & P. train No. 4 west bound.

Enroute to and from Fort Worth these buses will make stops at Blanket, Comanche, Dublin, Stephenville and Granbury.

**Old Fashion Magazine**—From 1830 to 1839 Godey's was known as the Lady's Book; 1840-1843, Godey's Lady's Book; 1844-1848, Godey's Magazine and Lady's Book; 1849-1852, Godey's Lady's Book; and from 1853 Godey's Magazine. It was purchased by F. A. Munsey and merged in the Puritan, October, 1893.

## WORTH AND DALLAS

Mr. Seal is attending the Rural Mail Carriers' Convention, while Mrs. Seal and children are guests in the home of Rev. and Mrs. O. C. Reid of Fort Worth.

Mrs. J. E. McMurry and sister, Mrs. W. M. Medcalf, left last week for Gravett, Arkansas. They stopped over one day in Fort Worth with another sister, Mrs. W. Standifer, who is also making the trip with them. Surely the visit will make glad the hearts of the four sisters.

Mr. and Mrs. Ben Crowder of Albany were week-end guests in the home of Mrs. Crowder's parents, Mr. and Mrs. W. P. Eads.

Mrs. Aaron May has accepted a position with Montgomery Ward & Company in Brownwood.

Rev. W. C. Rucker of Thurber filled the pulpit at the Baptist Church Sunday, both morning and evening.

Miss Lena Shaffer of Sweetwater is visiting in the home of her aunt, Mr. and Mrs. W. A. Foreman.

Mrs. W. L. Walker and daughter, Mrs. Tom Martin, were called to Abilene last Thursday to attend the funeral of Mr. Walker's sister, Mrs. C. C. Moore, who had been in Temple two weeks for treatment.

Mrs. W. M. Rosser of Miles is visiting in the home of her son, Claud Howard and wife.

Mrs. Edna Bradley spent the weekend with relatives in Waco returning home Sunday. Her children, Walter Jr. and Undine, returned home with her, after a two weeks' visit to their grandparents.

Mrs. Postum Baker and children have returned to their home at Hardin after a visit in the home of her aunt, Mrs. H. L. Allcorn.

Mrs. W. D. Shields of Concord, who has been ill for several days is somewhat improved.

Mrs. Clara Rhodes of Salt Branch, Mrs. Curtis Shields of Concord and Mrs. C. W. Guyger of Mount Zion visited relatives here Monday.

C. W. Adair, who has been ill at his home for the past three weeks, was greeting friends in town on Monday.

Mrs. Mollie Derdent and baby of San Angelo spent the week-end in the home of her aunt, Mrs. W. A. Foreman.

Mr. and Mrs. Robert Starkey and son visited Mrs. Starkey's brother, Joe Forehand, and wife at Ozona last week.

Mr. and Mrs. Billie Matthews of Kansas City, Missouri, are here visiting Mrs. Matthews' parents, Mr. and Mrs. Hugh Matthews, and other relatives.

Rev. and Mrs. J. W. Sailors have returned to their home at Stanton, after a visit in the home of their daughter, Mrs. Marion Garmis, J. W. Jr. remained with his sister for an extended visit.

Mrs. W. H. Fuller returned to her home at San Angelo Saturday after spending some time with her mother, Mrs. J. T. Strange, and other relatives.

W. M. Jackson returned from Midland Monday where he visited his sons.

Mr. and Mrs. Miles Schulz and children and Miss Ella Mae attended service at Taipa Sunday; then visited Ballinger and Winters.

Mrs. Jim Elder and daughter, Goldie Mae, of Karnes City are visiting Mrs. Elder's sister, Mrs. W. D. Shields, of Concord and other relatives this week.

Rev. Paul Utley filled the pulpit at the Methodist Church Sunday, to the delight of his members to have him with the again after several weeks' absence.

Mr. and Mrs. A. A. Seal and children left Saturday for Fort

## BANGS NEWS

The Bangs-National Gas Company have a large crew of hands at work this week, laying pipe in the city limits. This gas is being piped from the Barnes-Fitzgerald field. The citizens are looking forward to the coming of this new gas at an early date.

Mrs. Horace Taylor of Amarillo was a guest of Mr. and Mrs. Lee Arthur Rochester last week.

Poster Gaines of Coleman has returned to his home after a visit in the home of his cousins, Mr. and Mrs. Lee Arthur Rochester.

Mr. and Mrs. Gus Pulliam of Brookessmith are the proud parents of a bouncing twelve pound boy, who arrived last Saturday. He bears the name of William Watts, being the fourth Pulliam to answer to the name of Watts. The mother and son are spending a few days in the home of Mrs. W. W. Pulliam here.

Mr. and Mrs. F. Loret Mayfield and daughter, Connie Lee, of Brownwood were guests in the home of Mr. and Mrs. W. D. Shields Sunday.

Mrs. Brown Taber and daughter, Marjorie, and Nerville Violet, Bobby June and Augusta Pulliam of Brookessmith were guests in the home of Mrs. W. W. Pulliam last Sunday.

Wendell, small son of Mr. and Mrs. L. B. Snapp, is reported real sick.

Mrs. W. P. Meroney and son, Albert, of Waco are girls in the home of Mr. and Mrs. C. E. Guyger. Mrs. Guyger is a sister of Mrs. Meroney.

Mrs. George Brosins left this week for Galveston to visit her brother, Jess F. Lovely.

Rufus Cross and family of Colorado have returned to their home after a visit in the home of Mr. and Mrs. H. L. Allcorn.

Mrs. Merle Brooks of Lubbock is visiting her parents, Mr. and Mrs. W. P. Eads, and other relatives.

Mr. Lowe, an employee of the Brownwood News, has recently bought the W. J. Miller property here and is now a citizen of our city, still holding his position with the Brownwood News.

Mrs. Leon Harris and Miss Louise Harris of Gainesville, left Monday for Lampasas, after spending the week in the home of Mr. and Mrs. James L. Harris last week.

Mrs. J. M. Skinner and Mrs. George McCulley and small son of Ballinger were guests in the home of Mrs. James L. Harris last week.

Mr. and Mrs. H. M. Lumpkin and Mrs. Roy Ware and daughter, Betty Ann of Oklahoma City, came in Tuesday for a visit to W. L. Yarbrough and family.

Mrs. Bryan Wilson and children have returned to their home in Cleburne after a visit to the Wilson's Williams and Mrs. T. A. Read and other relatives.

Mr. and Mrs. Pat Howard left last week to make their future home in Dallas.

Mrs. Lance Lowry and daughter, Genevieve, have returned to their home at Fort Worth after a visit in the home of Mrs. Lowry's parents, Mr. and Mrs. W. P. Eads.

There will be a called conference at the Baptist Church here Sunday morning for the specific purpose of calling a pastor. All members are urged to be present at this very particular service.

Rev. Paul Utley filled the pulpit at the Methodist Church Sunday, to the delight of his members to have him with the again after several weeks' absence.

Mr. and Mrs. A. A. Seal and children left Saturday for Fort

## An International Drink

Ne Hi activities today cover the country from the Florida Everglades, the Gulf and the Rio Grande north to the St. Lawrence and the Great Lakes. In Central America they drink Ne Hi with their spaghetti; in Mexico with their Hot Tamale; in Florida with the fish-tail sandwich, and in the Adirondacks in the north with the beef and tongue sandwich.

If the number of bottles of Ne Hi consumed last year were placed end to end they would reach nearly four times around the world. The consumption was equal to nearly 4 bottles to every man, woman and child in the United States.

It would require 240 trainloads consisting of 100 cars each, to carry the bottles of Ne Hi that were sold last year. If these trains were lined up on one track, it would approximately be 240 miles in length, equal to the distance from Chicago, Ill., to St. Louis. The railroad company would charge perhaps from a quarter to one-half million dollars to move cars across one state.

Miss Lena Shaffer of Sweetwater is visiting in the home of her aunt, Mr. and Mrs. W. A. Foreman.

Mrs. W. L. Walker and daughter, Mrs. Tom Martin, were called to Abilene last Thursday to attend the funeral of Mr. Walker's sister, Mrs. C. C. Moore, who had been in Temple two weeks for treatment.

Mrs. W. M. Rosser of Miles is visiting in the home of her son, Claud Howard and wife.

Mrs. Edna Bradley spent the weekend with relatives in Waco returning home Sunday. Her children, Walter Jr. and Undine, returned home with her, after a two weeks' visit to their grandparents.

Mrs. Postum Baker and children have returned to their home at Hardin after a visit in the home of her aunt, Mrs. H. L. Allcorn.

Mrs. W. D. Shields of Concord, who has been ill for several days is somewhat improved.

Mrs. Clara Rhodes of Salt Branch, Mrs. Curtis Shields of Concord and Mrs. C. W. Guyger of Mount Zion visited relatives here Monday.

C. W. Adair, who has been ill at his home for the past three weeks, was greeting friends in town on Monday.

Mrs. Mollie Derdent and baby of San Angelo spent the week-end in the home of her aunt, Mrs. W. A. Foreman.

Mr. and Mrs. Robert Starkey and son visited Mrs. Starkey's brother, Joe Forehand, and wife at Ozona last week.

Mr. and Mrs. Billie Matthews of Kansas City, Missouri, are here visiting Mrs. Matthews' parents, Mr. and Mrs. Hugh Matthews, and other relatives.

Rev. and Mrs. J. W. Sailors have returned to their home at Stanton, after a visit in the home of their daughter, Mrs. Marion Garmis, J. W. Jr. remained with his sister for an extended visit.

Mrs. W. H. Fuller returned to her home at San Angelo Saturday after spending some time with her mother, Mrs. J. T. Strange, and other relatives.

W. M. Jackson returned from Midland Monday where he visited his sons.

Mr. and Mrs. Miles Schulz and children and Miss Ella Mae attended service at Taipa Sunday; then visited Ballinger and Winters.

Mrs. Jim Elder and daughter, Goldie Mae, of Karnes City are visiting Mrs. Elder's sister, Mrs. W. D. Shields, of Concord and other relatives this week.

Rev. Paul Utley filled the pulpit at the Methodist Church Sunday, to the delight of his members to have him with the again after several weeks' absence.

Mr. and Mrs. A. A. Seal and children left Saturday for Fort

## Earth Tremor Is Felt in England

GLOUCESTER, England, July 3.—(AP)—An earth tremor lasting three seconds was felt in the forest of Dean district at 9:30 p. m. yesterday. It was accompanied by a low rumbling sound and caused some alarm windows rattling and sleeping children awaking. No damage was reported.

# VOTE IN HOUSE IS 80 TO 37 FOR DISMISSAL

AUSTIN, June 28.—(AP)—The long controversy involving J. T. Robinson, commissioner of the General Land Office, doubtless was at an end today following action of the House of Representatives last night in dismissing impeachment charges.

The House voted down proposals to censure and reprimand and prefer articles of impeachment, successively before it voted direct on the motion to dismiss charges. The motion to free the federal official of charges carried a vote of 80 to 37.

Action came after a day of argument by attorneys. Vote was on the resolution by Representative Coke R. Stevenson of Junction, proposed Wednesday but amended to preclude the action until attorneys had argued the testimony.

Resolution to censure Representative A. J. Johnson of Carrizo Springs and other offered

a resolution to censure and reprimand, and Representative Olan Van Zandt of Toga and other proposed that articles of impeachment be drawn and filed with the Senate. These resolutions were defeated, 83 to 39, and 77 to 34, respectively.

Hearing on the impeachment charges, which had been proposed by Representative Grady Woodruff of Decatur, had begun June 13 and had continued intermittently since.

Charges were filed as a sequel to an investigation of the land office by a joint legislative committee during the regular session last January. The committee filed a report with the House during the closing days of the first called session, reprimanded Mr. Robinson for his apparent carelessness in not keeping an accurate account of the expenditures from the one cent acre reappportionment fund contributed by land owners to pay expenses of retaining state lands and recommended the attorney general file suit for an accounting of the fund.

Regis in November

The controversy began last December, when an effort was made by the governor, attorney general and members of the board of regents of the University of Texas to possess Mr. Robinson's consent to postponement of sale of oil and gas rights in university lands until the Legislature, meeting January 8, could have a chance to repeal the leasing law and take the lands

from the market. Mr. Robinson had advertised 1,500,000 acres for lease during January.

He agreed to postpone sales of all acreage except 53,000 acres of the land he had advertised for sale on January 2. He claimed he had received specific requests for tracts comprising the 53,000 acres and that under a decision of the Supreme Court the law made it mandatory upon him to advertise the lands.

The regents obtained an injunction restraining the sale, but later it was dissolved, and the case is now on appeal to the Supreme Court.

When the Legislature met, it immediately repealed the leasing law and a concurrent resolution was passed proposing legislative investigation of the General Land Office, governor, attorney general and board of regents with reference to the controversy.

## Shoots At Prowler In Chicken Yard

A prowler in the chicken coop back of the home of G. W. Trigg, 2908 Austin Avenue, was shot at by W. N. Shepherd, brother-in-law of Mr. Trigg, about midnight Thursday.

A shadow of a person was seen by one of the occupants of the house and Mr. Shepherd stepped out of the house to see who it was, firing a man at the doorway of the coop. He fired but once, the prowler jumping the fence and being seen no more.

Mr. Trigg had a dozen chickens stolen from him at that place last February.

# RATES HIGH IN TEXAS IN RATIO TO POPULATION

Brownwood, with building permits for the first six months of 1929 totaling \$554,123 is more than keeping pace with other Texas cities, a perusal of building reports discloses. This is found to be true, despite the fact that the city has experienced a decline in building activities during the past two months. For June, Brownwood's permits totaled \$94,800, these permits including seven residences, one machine shop and two major repair jobs.

Dallas, Houston, San Antonio and other Texas cities are much larger than Brownwood and building permit totals are much in advance of the figure boasted by this city for the current year, but the total permits for these larger cities fail to keep step proportionally with the population. Dallas with 250,000 people is 14 times as large as Brownwood, yet Dallas building permits for the year are only seven times as great as the total for Brownwood.

Fort Worth, San Antonio, Waco, Wichita Falls, Galveston, Beaumont, Amarillo, Abilene, San Angelo and other cities of Texas have also failed to outstrip Brownwood in building when population and permits are compared.

**Comparisons Made**

In fact Brownwood's total building permits for the first six months even surpass totals for several cities with larger populations. Abilene with 30,000 people, Wichita Falls with 30,000, Galveston with 30,000 and Brownwood can boast of only 18,000 inhabitants. Amarillo with 45,000, San Angelo with 25,000, Galveston with 40,000, Beaumont with 60,000 and other larger cities have total permits for the year little in excess of the Brownwood total.

All of which is evidence that Brownwood, is more than keeping pace with other Texas cities.

According to building permits issued at the close of June, Houston and Lubbock are the only cities in the state whose rate of building in the first six months of 1929 has been larger in proportion to its population than that of Brownwood.

The following table should be of interest to citizens of Brownwood:

City	Population	Total
Houston	250,000	\$18,275,297
San Antonio	250,000	10,307,896
Fort Worth	150,000	6,337,287
Dallas	250,000	5,722,818
Lubbock	17,500	2,473,041
Austin	50,000	1,707,213
Port Arthur	37,000	1,553,109
Beaumont	60,000	1,498,140
Waco	50,000	1,312,248
Corpus Christi	30,000	1,274,269
San Angelo	25,000	1,191,920
Galveston	45,000	1,050,000
Amarillo	45,000	986,208
Brownwood	18,000	854,123
Abilene	30,000	840,113
Pampa	9,000	773,640
Plainsview	15,000	737,708
Wichita Falls	60,000	595,240
Corsicana	14,000	519,259
Gainesville	10,000	185,500

The Brownwood population as given above are based on recent estimates made here. All the other figures are from the 1928 population figures as estimated by the Texas Almanac. Many of these cities would show a higher population now, which make their building rate proportionally lower. The population of Brownwood in that list was placed at 15,000.

## Beautiful Program At The Closing Of Bible School

The Daily Vacation Bible School of the First Methodist Church, which for the past two weeks has been in progress with Mrs. G. E. Cameron as director, closed with impressive and appropriate ceremonies Sunday evening when 100 pupils of the school and 20 instructors were awarded diplomas or certificates.

Rev. J. S. Cook, pastor of the First Methodist Church, delivered a short main address of the evening and A. D. Murphy, superintendent of the Sunday School, presented the diplomas.

The Intermediate department, which has been under the supervision of competent instructors, announced Ida Mae Brown, Francis Hise and Vanita Yates as winners of first honors for girls. First honor winners for boys were James Abney, Joseph Cook and Lindsey Dublin. Madeline Nevans was awarded second honor for the girls with Leslie Yates, Estelle Mills and Eldron Andrews winners of second place for boys.

Each department presented a part on the evening's program and took part in memory work drills. A number of songs, solos and musical numbers were given by the pupils. Several beautiful scenes from the pageants presented some months ago at this church under the direction of Mrs. G. E. Cameron, were given and were well received by the large crowd in attendance. The stage was effectively decorated and lit splendidly to the occasion. Out of the estimated 200 enrolled in the school this summer, about 100 pupils were awarded diplomas.

## 1929 Motor Car Output May Reach Six Million

DETROIT—(AP)—More taxicabs were manufactured in America automobile plants the last five months than in the entire year of 1928.

More than 9,000 of them were turned out in January, February, March, April and May, compared with 6,733 in 1928.

Automobile production, including trucks and taxicabs, continues to run approximately 45 per cent ahead of last year, indicating a 1929 output of 6,000,000 vehicles.

# "I FEEL LIKE I DID TEN YEARS AGO," SAYS BLANKET, TEX. FARMER

"Orgatone Has Restored My Health After Ten Years' Suffering and I'm Glad to Say a Good Word for It," He Says.

"This Orgatone acts just like it was made specially to fit my case," said A. Y. Jordan of Rural Route 1, Blanket, Texas. "Mr. Jordan is well known in this vicinity and has many friends."

"The fact is, I hadn't really seen a well day for several years," he continued. "Almost as soon as I started taking Orgatone, it went right to the seat of my trouble, and anybody could see I was getting better. I had a very bad case of stomach trouble, and suffered from indigestion. Almost everything I ate, would sour on my stomach, and I would have severe dizzy spells. I had no appetite and hardly ate enough to keep the going, and I was weak and nervous and all run-down and didn't rest well at night and would get up in the morning feeling tired out and not fit for a thing. I had severe headaches, and was badly constipated. I took all kinds of treatments and medicines, but nothing ever did me any good."

"A friend recommended Orgatone to me, and I began taking it. I have improved right from the very first. I feel like I did ten years ago, and have regained all my strength. I eat anything I want, and am never bothered with a bit of indigestion, and all of the bilious, dizzy spells have disappeared. I'm not constipated anymore, and feel fine in every way. Orgatone has done more for me than anything else and I'm glad to recommend it, so that others may profit by my experience."

Genuine Orgatone is not a so-called secret or patent remedy but a new scientific bile preparation and is sold in Brownwood exclusively by the Camp-Bell and Peeler Drug Stores, under the personal direction of a special Orgatone representative. (adv.)

**Boy Is Paroled To His Uncle**

Willie Riley, 16, one of the two boys of a trio who pleaded guilty to robbing a service station and to taking some hides for sale, was paroled Tuesday to his uncle, L. Perry, by Judge E. M. Davis.

One of the trio received a sentence of four years in the State Juvenile Training School at Gatesville and the other one is being held for trial in the District Court.

# HOPE FOR A PECAN STATION IS SEEN IN MEETING HERE

A meeting of the West Texas Pecan Association is to be held in Brownwood Saturday according to Secretary J. T. Stovall. This is one of far reaching importance to the pecan growers of this section of the state, according to J. T. Stovall, the secretary.

"Mr. Stovall says: 'This is not merely a meeting of local growers, but one of the principal objects is to present a resume of the work done by the government entomological station and to initiate an effort to secure a cultural pecan station that will work in co-operation with the government in developing a real pecan industry.'

"This is a matter that affects the pecan interests of everybody in West Texas as well as other parts of the state, and is in no sense merely a local affair. There are many cultural problems to work out in the near future and a station, such as is proposed, will go far to help solve these problems."

## Serve Entire State

"The idea is not to have merely a Brownwood experiment station, but one that will serve the entire state. This place is logically situated, almost in the exact geographical center of Texas, and is in the heart of the pecan belt. As the government is already in operation here and has done a great deal of valuable work in the past, as well as being engaged in investigation work in relation to insect pests, it is felt in many quarters that cultural station could work to better advantage in connection with the United States government than in a station isolated, geographically, from such work."

"The pecan growers of Texas are not the only ones who will derive benefit from the work carried on by an experiment station. Business interests throughout the state will benefit from the development of a commercial pecan industry and it is therefore proper that business men, as well as pecan growers should become conversant with the efforts that will be made to secure such development on a sound business basis. At present pecan growing in Texas, from a business standpoint, is largely a hit or miss affair, and those informed in the matter, are almost unanimous in the opinion that an energetic effort should be made to establish cultural experiment work where definite and authentic information may be worked out and distributed."

**Interest in Pecans**

"To say there is no interest in the pecan growing would be far from true. There has been a great deal of energy expended but no combination of efforts made to increase the Federal Station in Texas."

"This station can be of untold benefit if it was studying all phases of pecan development. In Brownwood this station could study not only pecans and their culture on dry land, but with the coming of the irrigation project another field of great importance would be tapped."

"Why should we hesitate when we have this station in our grasp, it is our for the asking. Why not ask for it."

"Every person in Brown county interested in the development of West Texas, Brown county and Brownwood should come out to the meeting next Saturday."

Mrs. Mary Elizabeth Thomas  
Funeral services for Mrs. Mary Elizabeth Thomas, 84, who died at Amarillo Sunday following an extended illness, were held from the Church of Christ Monday morning at 10 o'clock with Rev. Roy Lanier, pastor of the church, officiating. Burial was made in Greenleaf.

Mrs. Thomas formerly lived in Brownwood, but had been away for several years. At the time of her death she was living with her son, N. N. Thomas in Amarillo. Her advanced age is assigned as the cause of her death.

Mrs. Thomas is survived by her son, N. N. Thomas, a grandson, Gardner and Lloyd Thomas and other relatives. The body was received in Brownwood Sunday night.

Full bearers for the Thomas funeral were Stewart Hopper, W. D. Armstrong, G. A. Guiliams, Dr. B. A. Fowler, Julian Emison and J. A. Henry.

The University of Tulsa seeks \$1,500,000 for expansion.

### HYPOCRISY CHARGE MADE BY DE PRIEST

CLEVELAND, O., July 2.—(AP)—Charges of cowardice and hypocrisy were flung by Oscar De Priest, negro congressman of Chicago, last night at members of the legislatures of Southern states which recently passed resolutions censuring Mrs. Herbert Hoover for inviting De Priest's wife to a White House reception. De Priest was speaking before 2,000 persons at a mass meeting of the National Association for the Advancement of Colored People. "They're just a lot of cowards," the Illinois congressman called the Southern legislators. "This is my country and your country. I've been elected to Congress the same as you and other congressmen, and I'm going to have the rights of every other congressman—if it's in the congressional barber shop or at a White House."

### LIONS INSTALL NEW OFFICERS

New officers of the Lions Club for the ensuing year were inducted into office at the Tuesday noon luncheon at the Southern Hotel. Will H. Talbot, acting in the absence of the retiring president, C. A. Johnson, took charge of the ceremonies. J. J. Timmins his new position as president. Other officers sworn in include, H. F. Mayes, first vice-president; D. D. McInroe, second vice-president; Dr. J. M. Horn, lion tamer; Daniel L. Garrett, tall twister; and W. D. Armstrong, secretary-treasurer. Mrs. Timmins was present at the luncheon as a guest of the new president.

### June Fire Losses Here \$30,729.50

Losses in five fires in Brownwood during the month of June totaled \$30,729.50, according to figures given out by Bert Hise Tuesday. The value of the buildings damaged in these fires totaled \$27,150, of which amount the damages amounted to \$12,725 with a total of \$22,400 insurance carried. In the matter of contents there was a value of \$57,150 of which the damage was estimated as \$18,004.50, \$46,450 worth of insurance was carried. The five fires included the McCullough wholesale grocery warehouse, an empty house on Vincent belonging to the Trig Realty Co., and the residence of Troy Reed on West Baker Street, L. H. Williamson on Grove Street and of Mrs. Ella Germany on Melwood Avenue.

### DISCUSS PARK PLANS WITH COMMITTEE HERE

Julian Montgomery of Wichita Falls, of the firm of Montgomery and Ward, city plan engineers, was in Brownwood Tuesday. He and his local engineer, M. M. Cooke, appeared before the city park committee Tuesday morning with their scheme of the improvement of Coggin Park, and discussed with the committee other park plans. The red colt which won the derby in 1928 will be honored in July when "Reign Count day" will be observed at Arlington park.

### 20-YEAR LEASE BY WOOLWORTH; STORY TO BE ADDED BUILDING

### ALLISON-JOHN VAN RYN TRIM FRENCH STARS

WIMBLEDON, England, July 2.—(AP)—Bill Tilden and John Van Ryn, American youngsters, sprung a surprise today by defeating the strong French combination of Henri Cochet and Jacques Brugnon in the quarter-finals of the British championship men's doubles by scores of 7-5, 5-4, 3-6, 8-6.

WIMBLEDON, Eng., July 2.—(AP)—Bill Tilden and Frank Hunter, American tennis veterans, resumed their campaign for the British doubles championship today by defeating Baron Von Kehring of Hungary and Heinrich Kleinschroth of Germany, 6-4, 8-6, 6-1.

George Lott and John Hennessy, American champions, advanced another stride in the doubles, by a victory over the veteran English pair of Randolph Lycett and J. D. Wheatley, 6-2, 6-3, 6-1.

Miss Elizabeth Ryan, American now living in England, and the young English star, Miss Betty Nuthall, defeated the Italian pair of Miss Joan Fry, two of this country's best, in short order, 6-2, 6-1.

Miss Wills and Hunter entered the quarter finals of the mixed doubles by winning from Gordon Cross and Phoebe Watson, an English team, 6-1, 6-4.

Another French doubles pair was eliminated when J. C. Gregory, and I. G. Collins of England defeated Jean Borotra and the young south-paw Christian Bousias, 5-7, 4-6, 6-1, 6-2, 6-2.

Heleen Jacobs and Wilmer Allison, youthful American mixed doubles team, advanced at the expense of H. F. David and Miss Round, 9-7, 6-4.

### MRS. ELIZABETH GRADY, PIONEER RESIDENT OF BROWNWOOD, IS DEAD

Mrs. Elizabeth Hughes Grady, 70, wife of C. M. Grady, 1612 Vine St., died shortly after midnight Thursday following an illness of several weeks. Mrs. Grady had been in failing health the past three or four months. Mrs. Grady was born August 27, 1858, in Bosque county, Texas, but moved to Brownwood when a young girl. She was married to C. M. Grady in Brownwood, October 8, 1878, and to this union were born 10 children, nine of whom survive their mother. Shortly after their marriage, Mr. and Mrs. Grady moved to Santa Anna and lived there until nine years ago when they returned to Brownwood. Mrs. Grady was converted when a girl and united with the Baptist church. Mrs. Grady was always willing and eager to contribute her time and money to the advancement of God's cause and before her death she expressed herself as being ready to go when the Great Reap-er should come to claim her. Mrs. Grady leaves to her sorrowing husband, children and friends the memory of an unselfish Christian life and the example she set will live long she has begun to reap her Heavenly reward. Although her many in her Sunday school class at Coggin Avenue Baptist church will be greatly missed, the example she set to the class will be of everlasting benefit to those fortunate enough to have been in her class.

Her husband, C. M. Grady, and her children, Mrs. R. C. Gay, of Santa Anna, Mrs. F. E. Scott, of Brownwood, Mrs. W. L. Walker of Coleman, Mrs. N. L. Robinson of Pueblo, Colorado, Mrs. H. T. Ray of Seminole, Okla., Guy Grady of Goldthraite, James Edward Grady, of Port Arthur, and Robert Grady of Port Arthur survive. In addition to these there are several grandchildren and other relatives. Funeral Saturday. Funeral services for Mrs. Grady were held from the family residence at 10 o'clock Saturday morning and were conducted by Rev. W. R. Hornburg, pastor of the Coggin Avenue Baptist church. Burial were made in Greenleaf Cemetery. Active pall bearers were: J. A. Clairville, J. C. Taylor, Sam Morris, George Brooks, Hubert Fields, Luther Woods and Albert Hicks. Honorary pall bearers for the Grady funeral were all members of the Bible class at Coggin Avenue Baptist church, Millard Romines, Edgar Wright, O. M. Allman, A. M. Davis, Henry Brown, of Santa Anna, J. T. Holt, of Santa Anna, J. A. Robinson, of Rockwood, M. R. Cheatham, of Whon, Joe Byrd, of Santa Anna, Miles Wofford of Santa Anna, J. A. Wainscott, Frank Emison, I. N. Evans and O. B. Canon.

### SHIPMENT OF WOOL MADE

Nearly a carload of wool, the first and only shipment this season to be sent from Brownwood, left this city Monday consigned to S. C. Murrill at Philadelphia. The shipment will be sold on arrival there. Not Laxy. If you think you are too tired to walk to work, just put it down to the fact you are getting hopelessly soft. Think of the Chinese coolie. He pushes a wheelbarrow loaded with eight persons. Try that on your way downtown.

Work on the addition of a second story to the Woolworth building, 107 Center Avenue, will be begun during the current month, according to E. B. Henley, Sr., who received notice Tuesday morning that the 20 year lease on this building had been approved and accepted by the company. In addition to adding a second floor to the building, the entire front will be changed, and other repairs and changes made, this entire project to cost approximately \$20,000.

The most attractive 20 year lease was made through E. B. Henley, Sr., and Brooke Smith for the Stewart Scott estate, owners of the building. Plans and specifications for the remodeling of the building are now on file at E. B. Henley & Company's office, on Brown Street.

Officials of the Brownwood store of F. W. Woolworth & Company, advise that the second floor will be used for stock rooms and rest rooms. At present, surplus stock is kept in the rear of the first floor and with this additional space on the second floor, the company will be given more space for display counters.

### Nine Cows on June Honor Roll

Brown county cows on the June honor roll number nine as against last month, according to figures supplied by O. P. Griffin, county agricultural agent, who is making tests monthly in connection with records wanted by A. and M. College. Following is the name, owner and record for this month of each of the nine cows.

Jolly's Cleo, owned by Shelton Brothers, produced 200 gallons of milk, 83.3 pounds of butter fat which is equivalent to 100 pounds of butter.

Jolly's Ben May, owned by N. A. Cropp, 180 gallons of milk; 71.8 pounds of butterfat, 86 pounds of butter.

Ben Golden Cleo, owned by Shelton Brothers, 189 gallons of milk, 82.9 pounds of butterfat, 78 pounds of butter.

Ben Fernleaf, owned by Shelton Brothers, 180 gallons of milk, 68 pounds of butterfat, 82 pounds of butter.

Jolly's Eminent Marie, owned by Shelton Brothers, 173 gallons of milk, 61.2 pounds of butterfat, 73 pounds of butter.

Pretty Fern, owned by Shelton Brothers, 153 gallons of milk, 58.2 pounds of butterfat, 70 pounds of butter.

Miss Bessie Lou, owned by Shelton Brothers, 198 gallons of milk, 40.4 pounds of butterfat, 49 pounds of butter.

Number Six, owned by H. E. Haynes, 97 gallons of milk, 43.6 pounds of butterfat, 52 pounds of butter.

no time specification on other loans. Control of Surplus. A stabilization corporation is a sort of super-cooperative, owned and controlled only by cooperatives, organized under state law. It must be created by cooperatives and must be recognized and financed by the farm board as the marketing agency for cooperative members when there is a surplus situation in any particular crop. It may buy, carry and handle the commodity, and is expected "to control any surplus."

Funds for working capital are to be supplied by the government. If it makes profits, most of these go into a reserve fund to pay future losses. If it incurs losses, and reserves are inadequate, then these losses are to be paid by the government as further "loans." Losses may not be passed back to members, the cooperatives. A corporation is prohibited from the domestic market if the prices have become unduly enhanced, resulting in distress to domestic consumers. A stabilization corporation, although technically a private corporation, is under such strict regulation of the Farm board as to be a quasi-governmental agency.

### CAR STRIKE IN NEW ORLEANS

NEW ORLEANS, July 2.—(AP)—All possible motor buses and taxicabs were pressed into service today to furnish transportation in a

general strike of street car employees here. Approximately 1,500 men were affected by the surprise suspension of work order issued last night by Edwin Peyroux, president, and other officials of the local carmen's union, ordering activities ceased on the claim that recent arbitration with New Orleans Public Service, Inc., over dismissals and suspensions of employees had proved unsatisfactory.

The street car men present in mass meeting unanimously voted down, clause by clause, a three year new contract proposed by public service and accepted the order to walk out on completion of their runs. The order became finally effective at 5:20 a. m. this morning, the time for the last night cars to enter the barns.

MRS. ETTA MARTIN DIES AT THE HOME OF HER DAUGHTER, COMANCHE

Mrs. Etta Martin, 83, died at 5

o'clock Monday afternoon at the home of her daughter, Mrs. George H. Black of Comanche, her death being attributed to complications that resulted from a fall and a resulting broken hip. Mrs. Martin was born January 26, 1846 at Cassville, Missouri but came to Texas shortly after the end of the Civil War. She was married to the late Judge William W. Martin at LaGrange in

1867. For many years Judge and Mrs. Martin lived in Kerrville and Blanco, where Judge Martin practiced law. The family later lived at Midland but at the time of Judge Martin's death, four years ago, they were making their home with their daughter, Mrs. Black of Comanche. To this union were born seven children, these being Judge Clarence Martin of Stonewall, Edwin S. Martin, of Goliad, Mrs. Lela Kelly of Goliad, Mrs. George B. Black of Comanche, Walter W. Martin, of Los Angeles, Cal., Will A. Martin of Monahans, Texas, and John I. Martin of Santa Ana, Cal. In addition to these Mrs. Martin is survived by a brother, Judge E. L. Ruth, of Breckenridge, five sisters, Mrs. Mollie Crane, Mrs. Charles Porter, of Meridian, Mrs. Reese Brewster, of El Paso, Mrs. Laura Lane of Collier, Cal., and Mrs. J. O. Rounsee of Plainview, Texas. A niece, Mrs. Frank Harding, of Brownwood, also survives.

Mrs. Martin was a member of the Christian church and had been a devout follower of Christ for many years. With her passing, the state loses one of its few surviving pioneer settlers.

Funeral services were to be held at 4:30 Tuesday afternoon from the McInnis Funeral Chapel with Rev. C. A. Johnson, pastor of the First Christian church, officiating, according to announcement made this morning. Burial was to have been made in Greenleaf, in a grave adjoining that of her late husband, who died April 11, 1925.

Pall bearers were to have been: Oscar Callaway, P. B. Richey, Iro Hall, Frank Harding, Dave Guiley and John Brock.

Man Who Traded in Fortune Teller's Lure of Wealth Is Given Ten Years in Prison on Charge of Swindling

Following a vigorous and dramatic appeal by District Attorney Walter U. Early for the conviction of Ben Pittman who was charged with swindling Mr. Verne King, a jury in District Court Thursday evening brought in a verdict of guilty which carried with it a sentence of ten years in the penitentiary.

Pittman was charged with defrauding a poor woman of her savings in a manner unusual. It was brought out in testimony at the trial, which started Wednesday morning, that Pittman was the husband of a fortune teller who had told the King woman that a man of a certain description would come into her life, and that he had a wonderful business proposition through which she would become wealthy.

Pittman appeared and answered the description of the man who would bring her fortune. She invested her savings with him only to lose every cent.

—a wonderful convenience, although the value of artificial lighting may be questioned when electricity cannot be had, I think there is no question but what it is of decided value if electric lighting is used. Certainly, unless the cost of current is exorbitant, a tidy profit is almost sure to result by boosting egg production when prices are at their peak.

(Copyright, 1928 by Dr. L. D. LeGear, V. S.)

MISS BOYD SPEAKS ON MISSIONS IN INDIA AT AUSTIN AVE. CHURCH

A report of the Presbyterian missions in India was made to the congregation of the Austin Avenue Presbyterian church Sunday night by Miss Lena Boyd who returned from the mission at Punjab recently.

Miss Boyd has been in India 17 years. She is in this country on her second furlough and will return to her work in August. She is from Santa Anna where her parents now live.

Miss Boyd said that there are seventeen stations operated in connection with this mission. One of these, she said, has the distinction of being not only the oldest in the history of the Presbyterian work in India, but marks the very beginning of missionary effort of the Presbyterian Board of Foreign Missions in all the world.

Miss Boyd said that there are about 5,000,000 people for whom the Presbyterians are responsible in Punjab, and about 40,000 of these are Christians. There are 105 missionaries and 311 native workers.

Progress, she said, is slow but steady, and the higher and better educated class of people are responding to the missionary efforts better than ever before. Miss Boyd told of a number of wealthy young men, among others, who had given up their old religion and accepted Christianity.

A school for boys and one for girls, operated by this mission, are filled to capacity and there are many who apply for admittance who cannot be accepted. Workers are needed for extension, two new ones to go to the Punjab field of the fifty-three missionaries to be sent out to the different fields by the Presbyterian Board this year.

Winters Lions Club Aids Agricultural Boys With Heifers

Boys of the vocational agricultural classes in Rannels county are being aided by the Lions Club of Winters in starting their dairy projects, according to J. T. Stovall, Brown county instructor, who attended the Winters fair last Friday.

Members of the Lions Club last year made up a fund which was loaned to the boys for the purchase of thirteen registered heifers. So well did the boys do with these animals that all thirteen were shown at the recent fair along with their offspring of thirteen calves, twelve of which were heifers.

Former Pastor To Serve Church Here This Month

Rev. J. P. Robertson, D. D., of Memphis, Tenn., a former pastor of the First Presbyterian church here, with Mrs. Robertson will arrive Wednesday or Thursday and spend July in Brownwood as supply pastor for the church, during the continued absence of the pastor, Rev. W. B. Gray, who with Mrs. Gray is touring the holy lands. Mrs. Robertson is a sister of the Misses Dobbs and of W. D. Dobbs of Brownwood.

Rev. W. H. Burwell, D. D., of Dallas, who served the First Presbyterian church as pastor during June, left today with Mrs. Burwell for their home. They expect to spend a part of the summer in the Carolinas and other southeastern states.

TWO SCHOOL TAX AND BOND ELECTIONS SOON

Two consolidated school districts will hold tax and bond elections this month, both of them to vote taxes not to exceed a \$1 rate. The election will be held in the May district Saturday at which time a \$16,000 bond issue will be voted upon.

At Brooksmith a \$20,000 bond issue will be voted upon July 10.

Eighty-five miles of telephone wire are being laid for a modern 12-story office building.

Artificial Lighting by Increasing Length of Hens Working Day Brings Greater Egg Production at Times When Prices Are Highest.

If the hens of this country ever manage to start a union, there is little doubt as to what will cause the first strike. The ever growing practice of using artificial lights in henhouses cannot fail to excite the ire of walking delegates and a demand for shorter hours is sure to follow. However that may be, there is no denying the amazing effectiveness of artificial lighting or turning on bright lights in poultry houses to lengthen the day during the fall and winter when the days are short. It not infrequently increases the winter egg yield from 25 to 50 per cent with a corresponding increase in profits.

It is doubtful whether lighting causes a material increase, if any, in a fowls total egg yield for the year. There is no question, however, about its causing a decided increase just when an increase is most profitable. There seems to be some misconception about what artificial lighting really accomplishes as such expressions are "making hens work overtime" will show.

A hen eats primarily to keep her own body in proper condition. Certain elements called carbohydrates go into the fatty portions of her body, other elements called proteins make up her brain or muscular tissues, while mineral elements such as lime and calcium keep the bony framework or skeleton in repair. When enough food has been eaten to take care of the hen's body, any surplus, if of the proper ingredients, is converted into eggs. The carbohydrates then become the egg white, the proteins become yolks, and the minerals make up the shell. Plainly, therefore, the more a hen eats of the proper food in excess of what is needed to maintain a healthy body, the more eggs she will lay. Of course this cannot continue indefinitely, as there is a natural limit to the hen's ability to consume and digest food.

Understanding this theory of egg production makes it much easier to comprehend what artificial lighting really does and how. Naturally, after daylight is over the hen can no longer see her scratch grains and mashies. Having no incentive for exercising she does the only other thing she can do, goes to sleep. What artificial illumination does, therefore, is to provide light so the hen can eat and exercise before natural daylight comes. More feeding naturally means more eggs if the right material is supplied.

mathematics, there is doubtless some truth in the theory that the hen has inherited from her original tropical ancestors a digestive system that is tuned to days and nights of equal length. In the tropics where domestic fowls originated, days and nights are naturally about equal. In temperate regions, however, days are much shorter during fall and winter than nights, so that fowls not enjoying the advantage of artificial lights are forced to endure unnaturally long waits between feeding times. The use of proper lighting, therefore, accomplishes a twofold result. It lengthens the effective feeding time so fowls can take more nourishing and egg-making foods and it also eliminates the disturbing effects of over long waits between feedings.

To give best results, houses should be lighted as brightly as they are by day. For this purpose, electric lights are so far superior to all other kinds that I hesitate even to suggest that anything else can be used. In a number of cases, farmers not close to regular lines have installed individual light plants and soon paid for them out of their increased profits. In ordinary houses, 16 by 18 feet deep, one 50-watt bulb every ten feet is sufficient, but in deeper houses a double row is needed.

The most favored time to light up is about 4:30 a. m. and the lights are allowed to remain on until natural daylight reaches full strength. There is, however, a growing tendency to light up from 6 a. m. to full daylight and again in the evening until 6 or 7 p. m. This provides a 12 or 13 hour day and is undoubtedly more convenient when automatic control of lights is not possible. Whether or not the latter time is as effective as the other can only be decided by further experiment.

When the lights are turned on, the hens jump down from the roosts and begin eating the food that has been provided, drinking and often laying before daylight. Some poultrymen use lights for a time both morning and evening, but I prefer to have them turned on at about 4:30 a. m. and let run until daylight. Whatever system is used, be sure that the light is directed on the scratching floor and it should be bright enough so the hens can see every particle of food material. It will help considerably if the interiors of artificially lighted houses are whitewashed or painted white.

When electric lights are used, they not only require very little attention, but usually cost less to operate than any other system. Furthermore, they may be so arranged that lights are automatically switched on and off at the proper times

LIFE GUARDS AT LAKEWOOD

Life guards have been added to the personnel at Lakewood in the

past week, making this pool as safe as any in Texas in which to swim, according to Conde McClain, manager. Duncan McCulley and Herbert Waldon are the two young men of swimming experience who will act as guards this season, at least one of whom will be on duty at all hours of the day. The Colts Band, under the lead-

ership of Merle Baker, and with about thirty-five members played another concert at Lakewood Sunday evening to a large crowd of Brownwood people who went out there to keep cool. Nick Altrock flew less as a pitcher than he now pulls down as clown for the Senators.

Sale of Summer Dresses

Our Entire Stock of Very Smart Spring and Summer Frocks—That You Will Wear for Three Months Yet—Reduced to the Very Limit.

Long Sleeve and Ensemble Fashions of Georgette, Chiffon and Flat Crepe. Each a representative type of a smart styling this Spring and Summer—from Mitchell, LeVine and Classy Jean. Solid colors and printed patterns with all the treatments and new notes of the Season.

Values to \$39.75 for \$24.75 Values to \$29.75 for \$19.75

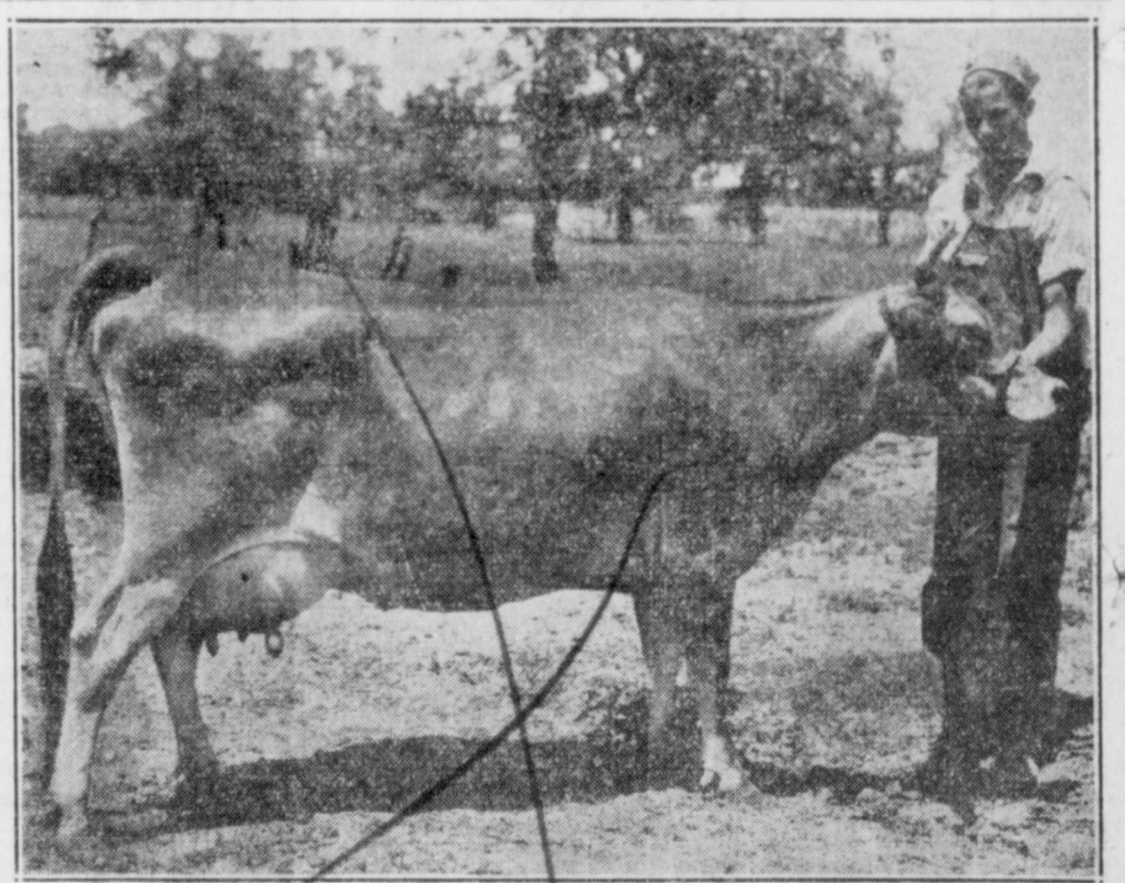

Janet Walker and Mitchell Frocks of Flat Crepe—with long or short sleeves—for smart afternoon, street and sports wear. Pastel shades and gloriously printed patterns as varied and attractive as you may desire. A style for every occasion.

Values to \$19.75 for \$14.75

Taking into consideration, style, workmanship and material these Dresses are the greatest value we have ever offered. To appreciate to the fullest extent you will have to see them. Fashioned of silk of brilliance, of coloring, but of a ruggedness suitable for out-door wear. Sleeveless and with long sleeves.

Values to \$12.75 for \$8.75

Roussel-Robertson Co. THE CENTER OF SERVICE

JOLLY'S BENEDICTINE MAY NO. 624532

owned by N. A. Cropp, Route 1, Brownwood. She holds the record of Texas for a Junior two-year-old. She stood third in the United States in this class. She produced more milk in one year as a Junior two-year-old than any other Jersey cow, any age, ever tested in Brown County.

This cow is on test now, and is eating Our Gold Arrow Feed. While on our feed, she produced 5,431 pounds of milk the first 118 days of the test. She is now on her seventh months of the test, and is still producing around 48 pounds of milk a day.
