# BRADY RANCHMAN FORECASTS RAINFALLS AND TELLS ABOUT BAD DROUTHS THAT ARE DUE

BRADY, Texas, June 19—(Sp.)—For the past ten years, A. E. Neal, livestock buyer, ranchman, and weather prophet of this section, has foretold the course of the clouds and has hardly ever missed a single weather prediction during this period.

The remarkable thing about this energetic, unsophisticated, 40-year-old ranchman-prophet is that he has no elaborate observatory—in fact not even a single meteorological instrument to aid him in determining atmospheric conditions. Neither has he even taken a course in meteorology.

"If Neal would tell me that the moon would fail to rise tonight, I would not bet otherwise," a prominent citizen of this community remarked in paying his respect to the uncanny ability of this self-styled and self-made West Texas weather forecaster.

**Foretold Big Rain**  
Neal foretold the recent 20-day rain and flood period and now has come out with the prediction—in the very face of the general belief that next year will be a dry year—that Brady is to get a rain, amounting to no less than 1-10 inch, on April 8, 1930, that Sutton County in the locality of the government experiment station will receive a rain on April 23 and again on May 30, while Menard will be the recipient of a beneficial shower on May 15, and Brady is to receive another rain on June 2 of next year. "There may be more rains within that period of next year, but I shall give those details later," Neal stated.

"How does he do it? Is it instinct? Supernatural knowledge? Or what?" This has been the recurring topic of conversation in barber shops, on street corners and other places where people have time to speculate upon topics of such unusual importance.

**How He Does It**  
"It's neither instinct nor supernatural knowledge," Neal, scoffing at the idea of dabbling in the black art—for he is every inch a he-man—told the reporter.

Relating the secret of his success in making weather predictions, Neal told how Mexican sheep herders on the McCulloch County ranch on which he was raised, gave him a valuable fund of practical hints on the behavior of weather. He was then 15 years old, and experimented with the ideas given him by these sheep herders by beginning to teach his dogs in preparations for wolf hunts to be conducted immediately after a rain.

Later on he procured government rainfall charts from the station

of the moon than during the period of the full moon. Clouds arising at full moon usually dissolve, and develop more easily when the moon is out of the way during its last quarter.

His weather predictions, Neal states, are confined to the territory between the Pecos and Colorado Rivers, a 300 mile strip, in which the weather conditions are about the same.

Regardless of the system Neal uses his predictions have proven beneficial to the ranchmen in this section. He receives numerous calls daily during the sheep shearing season from stockmen to ascertain on what day to shear their animals in order to avoid the danger of a loss from inclement weather in newly shorn stock.

## C. OF C. REQUESTS SLAUGHTER HOUSE FOR LOCAL MARKET

A canvass of Brown county will be made to find a man who is interested in starting a small packing plant in Brownwood, and if this falls the Chamber of Commerce will advertise in trade papers for some one to open a slaughtering house here.

This matter was referred to the industrial committee by the members of the board of directors in session at a luncheon at the Southern Monday noon.

It is the idea of this board to have a plant here to take care of all local trade in the slaughtering line, with sufficient capacity to make of it a small plant in order to take care of all by-products of the animals slaughtered.

**Airport Proposal**  
H. Ford Taylor appeared before the board with a proposition of using a 140 acre tract of land in the C. E. Taylor estate about four miles north of Brownwood for a municipal airport. The tract has been seen by the aviation committee of the American Legion, and a government man will be in the city soon to pass on it. Mr. Taylor's offer included building a hangar and other structures necessary for an airport. The matter was referred to the aviation committee of the Chamber.

The matter of selecting slogans for the city, deferred since May 1st, was again brought up, and it was decided to make a final choice next Monday.

**Methodists Begin Vacation School With Large Group**  
At noon today, 110 boys and girls had enrolled in the First Methodist Vacation Bible School which opened Monday and continues two weeks. It is expected that a much larger enrollment will be reached by tomorrow owing to the fact that pupils are rapidly voicing desire to attend. According to a report from Mrs. G. E. Cameron, director of the school, every Brownwood boy or girl within the ages of 4 to 14 is invited to attend. No charges are to be made for attendance and admission is not restricted to members of the Methodist alone.

Heads of the departments are Miss Bettie Muhrl Staggs, intermediates; Mrs. J. K. Daugherty, juniors; Mrs. E. M. Boon, primary, and Mrs. E. L. Green, beginners.

**PROPOSED FEDERAL RURAL SCHOOL AID PRAISED BY SWINDLE**  
Federal aid for rural schools is in sight in a bill introduced in Congress by Mr. Brand of Ohio and now in the hands of the committee of Education. This bill is one of the finest things in prospect for county schools, according to J. Os-

pelvis bones and hips, thus turning a joy ride into one of torture and sorrow. Miss Riley was rushed to the Sealy Hospital. Her attendants advise that her condition is critical.

**To Demonstrate Weed Killing Here Soon**  
A demonstration of weed killing, under the direction of Quincy A. Main of the Texas Farm Bureau, is scheduled to take place on the farm of George McHan at Jones Chapel July 2, and possibly another one to be held nearer Brownwood on the same date.

Mr. Main said that the method to be shown Brown county farmers is non-poisonous and can be used without danger to stock and without harm to the soil.

**SANTA ANNA GIRL IS SERIOUSLY INJURED SUNDAY AFTERNOON**  
Miss Inez Riley, 15 years old daughter of Mr. and Mrs. J. T. Riley of Santa Anna, was seriously injured Sunday afternoon at Santa Anna when she fell beneath the wheels of a car while attempting to step from the running board of one moving car to another. With other young people, Miss Riley was riding about the city when another car of young people drove alongside the car in which Miss Riley was riding. She stepped to the other car but slipped underneath the wheels of the moving auto.

The weight of the car crushed the

Brooksmith school tax election June 28

A school tax and bond election is ordered July 10th for the Brooksmith consolidated district, the rate to be \$1 and for the purpose of building a four room high school of brick veneer. Plans are to build the four rooms on the ground floor and make an auditorium of the second.

Communities affected by this election and from which pupils will be sent to the high school include Brooksmith, Dulin, Barber, Rice and Salt Branch.

N. J. Henderson will be judge of the election.

BULLET WOUND FATAL

MARILLO, Tex., June 17.—(P)—John Pointer, Quitaque community farmer, died in a Plainview hospital last night after a rifle bullet had pierced his abdomen.

Local DeMolays Have a Pleasant Visit to Brady

A group of about 25 Brownwood DeMolays and members of the local Masonic Lodge went to Brady on Friday evening, where they attended the institution of the Brady Chapter of DeMolay. The Brady Chapter has recently been organized with a total of 32 members. The institution of the lodge was held in the Brady Masonic Hall. G. E. Berry of Brownwood was acting Deputy Grand for the event. He is a member of the local DeMolay advisory board and attended the meet at Brady in company with W. A. Roussel, James Ming, Flem Harris and Harry McGhee, also members of the Advisory Board. The Brownwood group were guests of the Brady Commandery No. 99 for dinner at the Palace Cafe preceding the formal installation program. Those returning from the affair state an enjoyable time was had.

STOCK JUDGING TEAMS TO WINTERS FAIR FROM BROWN COUNTY JUNE 28

Vocational agricultural classes of Brown county will send two teams of four boys each to the stock judging contests at the Winters Fair June 28, it was decided when seventeen boys met with their instructor, J. T. Stovall at the Chamber of Commerce Saturday afternoon. Besides these eight boys a number of others will attend the fair for the purpose of looking over the stock to purchase some for their class projects, Mr. Stovall said. The boys turned in financial statements of their projects up to date at the meeting Saturday. Each boy has a home project, either in animal husbandry or in agriculture, with which they supplement their class work. Judge "Balfie" Bell said that man he must remove his hat in court. "Balfie" Bell said that man is a woman.—Pat. Co. advertisement.

FIVE-ACRE PECAN TRACTS ON MARKET 1 MILE FROM CITY

The W. A. Prater tract of 110 acres, located on Pecan Bayou about one mile from the courthouse, has been surveyed and platted into five acre tracts which will be sold to persons interested in pecans, chickens and truck growing. This property joins the tract owned by the city lying along the Bayou west of the present pump station. One feature of this development will be planting and caring for pecan trees for the purchasers, who may wish such development. The entire tract is included in the new irrigation district and is within eight minutes drive of the business section of Brownwood. The vicar of Romford, who dedicated a bathing pool at Romford, used health salts instead of champagne for the ceremony. The high price of champagne was given as the reason.

Sullivan to Erect Building on Site Where Shop Burned

A building permit was granted by the City Council Tuesday night to J. P. Sullivan for the purpose of erecting a store building at the corner of Carnegie St. and Austin Avenue. This plot of ground was formerly occupied by the Sullivan Machine Shop which burned some time ago. Mr. Sullivan stated to The Bulletin Wednesday that nothing definite as to the size, cost of structure of the building can be given now. He plans to close plans sometime this week.

APPROVE RAIL LEASE WASHINGTON, June 17.—(P)—The Interstate Commerce Commission today authorized the Texas and New Orleans Railroad Company to acquire control by lease of the Texas state railroad.

CONVICT RECAPTURED CORNICANA, Tex., June 17.—(P)—An escaped convict from the Clements state prison farm, Marvin Smith, alias Roy Burkman, was held here today for state officials.

STOWAWAY

ARTHUR SCHRELEBA, 22-year-old Portland, Maine, youth was an uninvited passenger on the successful flight of the Yellow Bird across the Atlantic. He is blamed for the failure of the plane to continue on to Paris before landing, since his added weight caused the plane to consume more gasoline than had been calculated as necessary for the trip.

CONSTABLE IS FATALLY SHOT

HOUSTON, Texas, June 20.—(P)—J. M. Weaver, 42, constable of Addicks, was fatally shot from ambush last night in a search following a raid on a Juneteenth negro beer party here. He died at a Houston hospital. Posses sought the slayer today. According to Weaver's son, Gilbert, a deputy, and Jesse Seber, another deputy, the three officers were passing a house and saw the party. They raided the place and took a few prisoners, but the main part of the party scattered. Seber remained at the house in charge of the prisoners while Weaver and his son chased others in their automobiles. About half a mile from the house, the constable noticed someone in some woods. He started to leave the machine, and the fatal shot was fired from the woods. The prisoners at the house were freed as the constable was rushed to the hospital, and the posse organized to hunt the slayer. Yearly Bazy-Check Hatch Six hundred million baby chicks are hatched in commercial hatcheries in this country every year.

Stolen Car Found By Local Officers

A Chevrolet sedan stolen in Brownwood last Monday from J. A. Hester of Goldthwaite, was found by Chief G. A. Williams and Assistant J. J. Boyd Sunday, and returned to its owner. The car was found with license plates stolen from another car.

Indian Creek School Tax Election Passes

A school tax and bond election, to the amount of \$1, was passed Saturday in the Indian Creek community which effected five school districts and was for the purpose of equalizing the taxes since the consolidation last year. The communities involved include Indian Creek, Honea, Coggin, Russell and Oakland.

**PRIZE AWARDS GIVEN WOMEN IN MEET HERE**

Following a luncheon at noon, the Brown County Council of Home Demonstration Clubs, which held their annual all-day session Saturday in the Federated Club Rooms of the Carnegie Library, held a style show and clothing contest which was one of the scheduled outstanding features of the meet.

Of the 100 women and girls present, about 75 entered dresses in the contest, competing for prizes of mirrors and scissors offered by the Austin Mill & Grain Company and scholarships offered by the Brownwood Chamber of Commerce. In the women's contest for the most attractive tailoring dress, winners of first place received mirrors and winners of second place scissors. Winners of first place in the girls' contest received scholarships for the summer court at A. J. M. College offered by the Brownwood Chamber of Commerce. Second place winners were awarded scissors.

**Prize Winners**  
First prize winners in the women's contest were Mrs. Audrey Burton of Concord club and Mrs. L. A. McDaniel of Zephyr. Second prizes went to Miss Lillian McBride of Indian Creek club and Miss Pauline McDaniel of Zephyr. In the girls' contest, Miss Juanita Chilteate of Indian Creek and Miss Ima DeHay, also of Indian Creek, won the A. & M. scholarships. Second prizes of scissors went to Miss Lorena Dribred of Dulin and Miss Bettie Merle McInnis of Concord.

Mrs. J. W. Jennings of Brownwood took the last part of the afternoon program. She addressed the assembly on "A Night In A Pullman," a talk on the best methods to spend a night while traveling. Mrs. Jennings spoke briefly concerning the many phases of necessity in traveling and advanced many up-to-date methods whereby traveling could be made more enjoyable. The meeting closed with a talk by Miss Mayesie Malone, local county home demonstration agent. Miss Malone thanked those who took part in the program and in the style show and expressed appreciation of work done in the county clubs the past year.

The place of meeting next year will be decided at a near date by officers of the Council.

**150 BOY SCOUTS ENJOY CAMP FIRE AND SUPPER LAKEWOOD FRIDAY NIGHT**

About 150 Boy Scouts of the county with a large gathering of parents participated in a dinner and camp fire at Lakewood Friday night with Troop 5, Judge E. M. Davis, Scoutmaster, as hosts. Swimming, games and a barbecue supper occupied the time prior to the camp fire. At this event there was singing of Scout songs, a few talks by local people and a resume of early experiences by the old Indian Scout, Colonel Ray E. Gardner (Arizona Bill).

The camp fire ended with the blowing of taps by Eagle Scout Ed Brewer.

The next county wide rally will be held July 14th with Troop 1, J. H. Ragsdale, Scoutmaster, as hosts.

**Workman Suffers Injury Of Foot**

H. W. Norwood of Abilene, an employe of Suggs and Dunlap, contractors for the Abney and Bohannon building being constructed here, is in the Medical Arts Hospital receiving medical attention for his left foot which was injured Saturday afternoon while he was working on the Abney and Bohannon building. Mr. Norwood was helping place steel pipes in the walls of the building when he ran into a sharp piece of steel which had been left in the door, the steel sinking deep into his foot and causing painful injuries. Hospital authorities state that although Mr. Norwood's injuries are somewhat serious, no deformity will likely result.

**MR. AND MRS. WALKER WILL REMOVE SOON TO HOME IN DALLAS**

Mr. and Mrs. Louis E. Walker Sr. will leave Brownwood this week for their new home in Dallas. There they will make their home with their daughter, Mrs. Will Bagley, who is an instructor in Highland Park High School.

Mr. and Mrs. Walker have made their home in Brownwood for many years. Mrs. Walker coming to Brownwood following her graduation from college and teaching in the schools of the surrounding towns. Mr. and Mrs. Walker moved to Brownwood only a few months following their marriage in 1891, and have lived here since. Mr. Walker first was connected with the City National Bank and later was an assistant cashier and was associated with the late J. A. Austin in the Merchants National Bank. For the past twenty-five years he has held a clerical position with the Coggin National Bank and has been one of their most valued and most popular employes. Mr. Walker is an elder in the First Presbyterian church and he and Mrs. Walker are valued leaders in this church. Mrs. Walker has held the office of treasurer of the Woman's Auxiliary of the First Presbyterian church, also treasurer of the Daniel Baker Auxiliary, for many years and has been a leading member of the Mary Garland Chapter, Daughters of American Revolution, of which chapter she is a charter member. Mr. and Mrs. Walker and their family have not only been prominent in church, social and educational circles, but also have been interested in the civic affairs of Brownwood and have used their influence for the betterment of the community.

**PETTITT MADE PAID CHIEF OF FIRE FIGHTERS**

Reduction of the city tax rate from \$1.95 to \$1.65 on the hundred dollar valuation, the election of Rance Pettitt as Chief of the Brownwood Volunteer Fire Department, as a full-time and salaried employe of the city, the fixing of a price on the city's property on Center Avenue, adjacent the post office, and authorizing the sale of \$27,000 in bonds owned by the city, were the highlights of Tuesday night's regular session of City Council. Mayor O. W. McDonald and all members of council were present.

In accordance with the suggested reduction in the city tax rate, made by A. N. Thomason in his recent auditor's report of the city's financial condition, Judge R. E. Lee presented an ordinance fixing the tax rate and schedule for 1929. After some discussion council passed the ordinance on its first of three readings. The new rate is ten cents on the \$100 valuation less than one year ago, this reduction being made possible by a surplus in the sinking funds of two of the largest bond issues of the city. No levy was made to add to these two funds.

**Full Time Chief**  
Acting upon a petition presented by E. F. Adams, former chief of the Brownwood Volunteer Fire Department, Council voted to make Rance Pettitt, former driver of Fire Truck No. 1, chief of the B. V. F. D. to assume his duties at once.

Mr. Pettitt retired from the fire department, as a salaried employe, about one year ago and since that time has been in business here. He sold his place of business several months ago, but had remained in the city. Chief Pettitt has had many years of experience in fire fighting and under his guidance, a marked improvement is anticipated in the fire department.

Mr. Pettitt succeeds the late James A. Speaker as fire chief. However, Mr. Speaker served as a volunteer and was not a paid employe of the city.

**To Sell Bonds**  
Council authorized City Attorney R. E. Lee to sell Brown County Water District Bonds of \$27,000 at par, this action being taken in order to partly relieve the city of present financial embarrassments. This money, which was taken from the earnings of the water department, will be returned to this fund. It was indicated that a buyer for these bonds is available.

Upon the request of Chief of Police G. A. Guillems, Council voted to give all members of the city police force a raise of \$5 per month in salary, this bringing the salary of all police to \$110. Council also authorized Chief Guillems to add another man to his present force.

Council put a price of \$235 per front foot on the 40 by 135 foot lot owned by the city on Center Avenue, adjacent the post office, this price being fixed after one or more real estate men of the city had asked for a price, these men indicating that they had buyers for this property.

**Building Permit**  
J. P. Sullivan was granted a permit to build a 50 by 100 foot brick building, to be used as a filling station and garage, at the corner of Austin Avenue and Carnegie street. Council instructed City Manager H. V. Hennen to advise officials of

**WOMAN KILLED FOUR INJURED IN CAR CRASH**

Mrs. M. H. Casey, 50, of Belton, was killed almost instantly and four others were seriously injured in an automobile collision, five miles west of Santa Anna, on Highway No. 7, shortly after noon Saturday, the accident taking place a short distance west of the underpass on the Santa Fe, between Santa Anna and Coleman.

M. H. Casey, 54, husband of Mrs. Casey, was seriously injured as were J. C. Bridges, of Belton, driver of the Casey car, and John Norman, farmer and driver of the other car. C. H. Hart, Norman's brother-in-law, was cut about the face and body, and Norman's fourteen-year-old son sustained only a sprained ankle.

All of the injured were rushed to the Sealy hospital at Santa Anna, where Mrs. Casey died shortly afterwards. Although seriously injured, Mr. Casey was placed on a Pullman Sunday and sent to Temple. The body of his wife was on the same train.

# ROBISON IS DEFENDED BY WEST TEXAN WHO REVIEWS HISTORY OF REVALUATION

AUSTIN, June 19.—(AP)—Taking the stand in behalf of J. T. Robison, commissioner of the General Land Office who faces a trial in the House today, T. Hunter, Abilene, today defended the veteran official's position in using his own benefit a part of the re-valuation fund.

Hunter's testimony, which followed that of three other defense witnesses, marked first steps of respondents to refute allegations of incompetency and mishandling of state funds raised by witnesses for the House.

**Refund Declined**  
Hunter exhibited ten years county judge of Culberson county, declared that West Texas land owners had circulated petitions in 1928 in which they refused to accept any refund of the revaluation money, and asked Commissioner Robison to keep it for his own use.

The Legislature had refused to bear the cost of reassessing land values under the act of 1925, Hunter told the House sitting as a committee, and "we took the position that no part of the money should be paid the state."

Hunter exhibited a copy of one of several petitions which he said were circulated by himself and others who had contributed to the re-valuation fund. The petition was signed in April, 1928, Hunter said in response to questioning by E. F. Smith of Robison's counsel.

Tracing the history of revaluation acts prior to the controversy between counsel, Hunter said up to 1905 it had been the policy of the state to withhold from sale school lands, which were leased to cattlemen in large tracts at comparatively little expense. In 1905 the policy was changed, and the lands were ordered sold by the Legislature as homesteads.

**Sold To Lessees**  
The tracts were bought on competitive bids and many persons who did not understand dry conditions in the west country later sold their holdings to original ranch lessees. Physical conditions which twice caused the Legislature to declare against forfeiture of land sales because of non-payments of interest continued, Hunter testified, until 1925. Then, at the instance of committees that came to Austin, the 1925 reappraisal act was passed to correct an injustice done the Plains sections.

Commissioner Robison agreed to all provisions of the act except the section which named him as the sole member of a committee to re-appraise values. The commission-ers contended there should be others because he was so familiar with

conditions of the cattle country he would have a tendency to be too liberal.

"We believed the average assessment value would be \$1 an acre," Hunter said, "but Mr. Robison set it at \$1.50."

**Attorneys Wrangle**  
L. S. Kinder, Plainview, first witness for the respondent, brought an objection from House attorney which may materially shorten the proceedings when he was asked about the veteran official's reputation for honesty and integrity in West Texas.

Robert Allen, House attorney, contended House attorneys had admitted the commissioner's good reputation up to the time of the alleged incompetent and illegal act. Representative Ed R. Sinks, acting as judge for the House, held that "the character witness would not strengthen what already has been admitted as a fact."

Robison's counsel also were blocked in their attempt to bring out from Kinder, a former district attorney and district judge, his legal opinion of the 1925 act.

Former Senator Julius Real, of Kerrville, and his brother, Robert, were other witnesses for the commissioner.

Both testified that the revaluation act was passed on account of the financial condition of West Texas prior to and during 1925 when drought struck the section and cattle prices were deflated.

**To Meet At Brady On Road Matters**

As a result of a conference of men from McCulloch County on Tuesday with Hilton Burks, here on road matters, Mr. Burks and R. A. Thompson of Dallas will go to Brady Friday to aid that county in putting over a road bond issue.

Mr. Thompson, formerly state highway engineer, is at present road engineer for the Dallas Chamber of Commerce, and is interested in the construction of highways in Central Texas.

The McCulloch County people are looking forward to putting over a road program somewhat similar to the one in this county.

The Atlantic ocean is said to have an area of about 24,536,000 square miles; the Indian 17,064,000; the Southern 30,592,000 and the Arctic ocean 4,781,000.

# LEONARD WITT IS ACQUITTED

Leonard Witt was acquitted of the murder of Wayne Beckham with the jury out but ten minutes, after the case was turned over to them at about 7 p. m. Tuesday.

The defense put up a plea of self defense. Witt was charged with the murder of Beckham in a fight and drawing runs on other people, the defendant testifying that Beckham had shot him in the shoulder six months prior to the fatal shooting last September.

The case was first brought to trial Monday morning, and only two days consumed in hearing over twenty witnesses, most of whom were for the defense. Callaway and Callaway were the attorneys for the defendant.

**INDICTMENTS RETURNED IN LIQUOR CASES**

Of the sixty-one indictments returned so far during this session by the grand jury returns were made by the sheriff on thirty liquor cases, the following being the names of the defendants in cases charging them either with possession or sale of liquor or both:

Frank Harvey and Lonnie Morris; Terry Mills; Leonard Reasoner, two cases; Odie Marshall; R. M. Loland; Howard Heard; T. G. Beckham; R. A. Barton; J. A. Parker and I. R. Carlisle two cases; Lloyd Van Zandt; Hershel Ives; A. Skiles, two cases; Hamilton Davis; Russell Walker; E. B. Blackmon; Frank Harvey, two cases; Tommie Morris, two cases; M. C. Davis; W. C. Nix; Vernon Beard; G. W. Skaggs; W. J. Hancock; C. H. Hall; S. B. Davis; and Houston Davis.

**County Agents In Conference Here**

A conference for the purpose of discussing extension of organization of the county agent's work in Brown County was held in O. P. Griffin's office Tuesday afternoon with four county agents and others present.

Present were: W. R. Persons, district agent of district number 4, which lies south of Brown County; R. R. Lancaster, organization specialist of A & M College; and the following four county agents: James D. Prewitt of McCulloch County; R. D. Talc of Mason; W. P. Weaver of Mills and N. E. Scudder of San Saba.

# THIRD CALLED SESSION MAY BE NECESSARY

AUSTIN, Texas, June 20.—(AP)—With the 30-day period of the special session of the 41st legislature having dwindled to nine working days and the proposed impeachment charges against J. T. Robison, commissioner of the general land office, not disposed of, apprehension west felt here today that a third called session may be necessary.

It was regarded as almost a certainty that should the house vote articles of impeachment against Mr. Robison it would be necessary for the senate to remain over, or come back, to hold the trial.

The major appropriation bills are still to come from conference. The eleemosynary and judiciary bills have been agreed to in committee, but the reports are yet to be ratified by both houses, except the judiciary which has been approved by the senate.

The motor vehicle registration, gasoline tax, blue sky and penitentiary concentration bills are hanging fire. The house has passed the registration bill and the senate has engaged the blue sky measure.

The house committee on revenue and taxation is to vote tonight on the income tax bill. After a lengthy hearing last night the committee recessed until tonight, when Governor Moody will give his views in support of it. He listened in on the hearing last night and briefly inter-rogated some of the speakers.

An unofficial poll of the committee showed the bill would be rejected by a big majority.

**WATER BONDS STILL AWAITING FAVORABLE MARKET, SAYS ABBEY**

Waiting for a favorable bond market and marking time in the mean time is the present status of the water situation in Brownwood, according to F. S. Abbey, president of the Brown County Water Improvement District No. 1 board. Just when there would be such a favorable market, Mr. Abbey said he did not know.

The physical bonds are being prepared and will be delivered to the board some time this week, but there has been no advertisement for bids as yet.

J. E. Starley, attorney for the board, and D. W. Ross, engineer, have been in the city the past week checking over details of the \$2,900,000 project.

**DRUGGISTS TAKE NO ACTION ON SALE OF PRESCRIPTION BOOZE**

FORT WORTH, June 20.—(AP)—Texas druggists tabled permanently a motion asking the adoption of a resolution which sought to abolish the sale of liquor by prescription in the closing session of the annual convention of the Texas Pharmaceutical Association today.

A resolution registering protest against drug manufacturers selling to chain stores cheaper than to independent druggists was adopted. Several speakers emphasized the importance of the movement launched by the druggists to protect the independent druggist and urged every member of the convention to cooperate in the concerted effort to put the one-store man and the corporation on even terms in competing for patronage.

Henry F. Hein, San Antonio, was elected president. Walter D. Adams, Forney, was re-elected secretary-treasurer.

Other officers elected: John B. Ray, Abilene, vice-president.

**BRADY JUBILEE TO OPEN JULY 3 WITH FLOWER EXHIBITS**

BRADY, June 18.—(SP)—July 3, the first day of Brady's 3-day July Jubilee, has been chosen as flower day by the members of Brady's Garden Club.

A flower show is to be held on that day, with floral displays in all of the leading show windows of the town. The Brady Garden Club was recently organized and plans to make its debut to the public on that day.

# \$10,000 BOND GIVEN McNEIL TRIAL WAIVED

Captain Clyde A. McNeil, charged with robbery with firearms in connection with the daylight holdup and subsequent robbery of the First State Bank of Richland Springs, December 19, 1928, has been granted bond in the sum of \$10,000, binding him over to the San Saba county grand jury, according to James H. Baker, of San Saba, McNeil's attorney. Bond has not been perfected Tuesday noon, and McNeil is still being held in the San Saba jail, Mr. Baker said.

His release from jail is expected within the next 24 hours or less, according to Judge Baker, who was due in Brownwood at 3 o'clock this afternoon to meet with friends of Captain McNeil in order to perfect bond. He has waived examining trial.

According to Judge Baker, McNeil's arrest came as the result of a statement made by Clyde Kates, bookkeeper of the Richland Springs bank. Kates claimed to have identified McNeil as the man who carried the pistol at the time he, (Kates) and a customer of the bank were forced into the bank's vault. The two bandits who held up the bank secured about \$1,200 in cash, it was stated at the time of the robbery.

Eugene Moore, a customer of the bank, who with Kates was forced into the vault of the bank by the two robbers, has failed to identify McNeil as one of the bandit pair, Judge Baker stated.

Bond for Lloyd Champion has not been fixed, according to Judge Baker and he is being held in the San Saba jail.

**ZUNI INDIANS SEND FLEET RUNNERS TO TEXAS FOR CONTESTS**

GALLUP, N. M., June 20.—(AP)—The Zuni Indians of New Mexico, whose distance running skill has won the tribe an international reputation, have sent two of their tribesmen to Pecos, Texas, to run a 100-mile foot race against a race horse, and the other to run a ten-mile race against ten white men.

The races will be two of the feature events at the annual cow-boys reunion at Pecos on June 22.

Andrew Chimoni, 29-year-old Zuni, who broke the world's marathon record here in 1927, will pit his skill against a thoroughbred distance horse for 10 miles.

Chimoni said he expected to do the 100 miles on a circular track in less than ten hours.

The Zuni who will try to run ten miles faster alone than ten white men running in relays is Leeketa, 32, who also has represented his tribe in many marathon events.

**SHIP HITS ICEBERG**

ST. JOHNS, N. F., June 20.—(AP)—The steamer Cairngowan, bound from Montreal to London with a general cargo, reported that she had struck an iceberg. The extent of the damage to the vessel was not reported but her commander messaged he expected to reach this port safely this afternoon.

# HEAT WAVE IS CONTINUED IN BIG TERRITORY

NEW YORK, June 20.—(AP)—From coast to coast, virtually the entire country today continued in the grip of the severest June heat wave in years.

In the East, disastrous electrical storms that caused many deaths brought a drop of 20 degrees in temperature at some points but the mercury again began a steady climb.

On the Pacific coast, from San Francisco south, and in the Midwest the highest temperatures for June in years were experienced.

In New York City the temperature

rose to 92 degrees, the highest in the weather bureau's annals for the date, and but slight relief was afforded by a thunder shower.

The electrical storm was especially severe in Pennsylvania, where lightning bolts killed four persons, put power lines out of commission and damaged barns and trees.

In New Jersey two persons were killed by lightning. Temperature at Newark rose to 94 degrees. In upper New York State the rain fall was so heavy that it washed out bridges near Dickinson Center marooning a two coach passenger train of the New York Central.

Thundershowers in the Midwest failed to provide any adequate relief. Kansas City had a high temperature of 88, Cincinnati 86, Milwaukee 84 and Chicago 80.

The Pacific coast, which escaped the heat earlier in the week, reported such temperatures as 98 in Los Angeles, 84.2 in San Diego and 84 in San Francisco. The heat wave extended into the Southwest with 94 at

## CHANGE VENUE MOTION FILED BY HAMILTON

AMARILLO, Tex., June 13.—(AP)—A motion for a change of venue was filed by R. H. Hamilton, charged with slaying his son-in-law, Tom Walton, Jr., at the opening of his trial here today.

The motion was brief, merely asking the change on the grounds that such prejudice exists against the defendant that a fair trial in Potter county was impossible.

Three affidavits tending to prove the prejudice contention were introduced. They were signed by J. M. Riggs, W. A. Askew and J. W. Crudington. The motion was read by E. A. Simpson of the defense counsel.

Immediately after the motion had been introduced, calling of witnesses on the venue change was started.

The defense has called 125 witnesses, who were forced to meet on the court house lawn because of inadequate space inside. About thirty witnesses will be called by Edward W. Thompson, district attorney.

Court was recessed until 1:30 p. m., that the state might prepare a case against the motion.

Many of the witnesses in the panel sought to be excused from jury service on grounds they were prejudiced.

Hamilton, Theresa, the young widow, and a small daughter sat with their husband and father during this morning's court session. Helen, the oldest daughter, and Bobbie, a son, also were in court.

W. A. Keeling, Austin, a former state attorney general, sat with Hamilton. Although he is not taking an active part in the trial, it was understood he assisted in the case at Austin, from which place more than 70 witnesses have been called.

## HOUSE ACTION KILLS CHANGE OF INCOME TAX

AUSTIN, June 13.—(AP)—Action of the House Committee on Revenue and Taxation in deferring a vote on the income tax bill until next Wednesday, practically precludes its passage during this session of the Legislature. The committee voted 9 to 7 not to vote on it Friday night.

Representative T. N. Mauritz of Ganado, author of the original bill, replaced it with a substitute last night, which he said had been drawn in collaboration with others. Senator Edgar Witt of Waco, who assisted in its writing, explained its provisions, and Governor Moody, who has endorsed a state income tax as a means of relieving the homes and farms of the advanced levy was present at the hearing.

Witt lambasted Senator Witt with a barrage of questions from a large gathering of persons opposed to an income tax.

The new bill specifically strikes down the ad valorem tax, except the seven cents levy for confederates pension purposes. Senator Witt said he declared the constitution provides the pension levy shall be made while it stipulates merely that an ad valorem tax may be levied, not to exceed 35 cents on the \$100 in each instance, to create a general revenue fund and for support of the public schools.

The bill would levy a tax of 1-1/2 per cent on the first \$4,000 of the net income; three per cent on the next \$4,000 and five per cent on the balance. Exemptions of \$1,500 and \$3,500 would be allowed unmarried individuals and married persons, respectively, and \$400 for each child or dependent person. Corporations would pay on the same basis.

## Yellow Bird Off For Paris; Flight to Rome Delayed

OLD ORCHARD, Me., June 13.—(AP)—The Yellow Bird, Paris-bound, had been unreported for more than three hours at 2:30 p. m. today.

No news was expressed for its safety, however, as when it passed over Matineus Rock Light, 28 miles off the coast at Rockland, it was nearing east which would carry it away from the coast and out of sight of land.

Assault and LeFevre and Lotti did not give up and the two aviator fliers soon resigned from the army, and when French government support was withdrawn from Atlantic flights from that country the idea was conceived of bringing their plane to this country and flying back.

They arrived here in April, and their Bernard monoplane was assembled at Roosevelt Field, from which they intended to take off. Spring rains, however, delayed their departure, and they finally decided that Old Orchard Beach offered better facilities than the muddy runway at the Long Island field. They flew to Old Orchard on May 23.

Like Previous Accident  
 The Green Flash nearly duplicated its accident of two weeks ago. At that time one of the wheels dropped into soft sand and caused the plane to loop, but only the wheel and a few stay wires were damaged. The plane was traveling at a much higher rate of speed today.

The French plane got away two weeks ago but was forced to return after 20 minutes because of a leak in the main fuel tank.

The Yellow Bird today used a mixture of benzol and gasoline. The benzol was put in the fuel to reduce the detonation and vibration which caused the leak on the first take-off.

The mixture will be about 40 per cent benzol the first two hours of flight, it will be cut to 30 per cent and later to 20 per cent.

Yellow Bird Crew  
 The crew of the Yellow Bird were: Armona Lotti, Jr., sponsor and copilot; Jean Assolant, pilot, and Rene LeFevre, navigator.

Assolant, a 23-year-old pink cheeked youth, was married three days ago to Miss Pauline Parker of New York. She accompanied him to the beach this morning and was very grave as she bade him good bye and saw the plane roar down the hard packed sands of the beach.

The Frenchmen carried two automobile inner tubes for use as life preservers. Lotti ordered a rubber boat discarded because of the added weight.

One half of the propeller was broken when the Green Flash nosed over. The left wing was broken and the landing gear smashed.

Yancey said the right wheel let go beneath them and the ship twisted to the right at that moment and centered into a nose-over.

The rear part of the fuselage near the tail assembly was badly dented and the landing gear smashed.

Yancey said the right wheel let go beneath them and the ship twisted to the right at that moment and centered into a nose-over.

Gasoline leaked from the tanks and spread about the ground, and pushed back for fear some one in the throng about the plane might toss a lighted cigarette or match on the sand and ignite the fuel.

The coast guard Amphibian piloted by Lieut. L. M. Malka which accompanied the Yellow Bird at the start returned above the beach 40 minutes later.

The coast guardman in charge of a portable short wave receiving set here said that Malka had reported the Yellow Bird at 100 miles when it was 2,000 feet up and going strong.

Malka came back when informed by radio the American plane had crashed. He landed on the beach and reported by radio that as a precautionary measure, he would start out and follow the Yellow Bird's course.

Two men were standing about the French plane as the motor was being warmed up said they saw a young stowaway climb into the cabin. The report could not be confirmed and no radio message had been received from the plane.

## BANDIT RIDES WITH VICTIM ON PUBLIC BUS

SAN ANTONIO, June 13.—(AP)—Following a messenger of the First State Bank of South San Antonio into a public service company bus, a lone bandit today rode with him to South Laredo Street, held him up and robbed him of approximately \$18,000. He forced the bus driver to let him alight and then made his escape in a car driven by another man.

Suddenly Produces Gun  
 The messenger, Herbert Flack, had secured the money at a bank in San Antonio and boarded a bus at Main Plaza. He thought nothing of the entrance of another man close behind him. When the bus reached a point on South Laredo Street, the man suddenly produced a gun, and forced him to hand over the money.

The bandit then approached the driver of the bus and forced him to stop. He dismounted from the bus and climbed into another car standing close by, with motor running and a man sitting at the wheel. As soon as the bandit had climbed into the car the driver speeded away.

Reports of the holdup were made to police and the sheriff's office and emergency squads from both departments were dispatched to work on the case.

## Cow Earns Boy's Schooling

Since purchasing his cow, "You'll Do Me a Mischief," back in 1923, Eugene Thomason has run his original investment of \$125 to about \$1,000 through sale of the cow's progeny and milk. Through receipts received from her products and prizes won by her at fairs, he has been able to finish Decatur, Texas, Baptist College and enter Texas A. & M. College. Thomason is shown at the right and the cow that made his education possible is shown above.

## VOTES AGAINST DEBENTURE 250 TO 113 TODAY

WASHINGTON, June 13.—(AP)—The House today backed up the views of President Hoover by rejecting the Export Debenture plan of farm relief.

The Debenture proposition, which Mr. Hoover had attacked twice in public statements and which he had termed a subsidy, was voted down on a roll call vote taken at the insistence of the senate which had approved it on two occasions.

Possible Senate Rejection  
 A number of Senators had been represented, however as demanding the inclusion of the plan in the bill in order that the House members could be recorded on it. Today's action was regarded by administration leaders as paving the way for a recession by the senate in its stand and quick transmission of a relief measure, minus the Debenture to the White House.

The vote was 250 to 113.

Start of Roll Call  
 Calling of the more than 400 names of the House members started a few minutes after Speaker Longworth raised for order at noon.

Chairman Haugen of the agriculture committee, raised the question by moving the House instruct its members of the farm conference committee to insist upon rejection of the proposition.

Hardly had Haugen started speaking before shouts of "vote, vote, vote" rang through the chamber. Under rules an hour's debate was in order, but members clamored incessantly for the ballot.

The House acted on a bill largely of its own making. It had been passed early in the session to set up stabilization corporations to handle the problem of farm surpluses.

The senate inserted into it a plan whereby Debenture certificates could be issued on exports of agricultural products and be redeemed by importers who could use them in paying duties.

Neither President Hoover, nor the House would agree to the idea and the House conferees stood fast against senate pressure for it.

The motion on which the vote was taken read:

"Resolved that the conferees of the House on the disagreeing vote of the two Houses on H. R. 1 (official designation of the farm bill) be instructed in conference to insist upon the striking out of section 10, the so-called 'Debenture plan.'"

Although Haugen raised the farm question today the actual motion was offered by Representative Wilson of Connecticut, Republican leader, who is making it said.

"This vote will bring an out and out conclusion as to whether the plan shall go in or stay out. I believe it is the surest and quickest way of getting farm relief enacted."

A few minutes after the House Clerk had announced the outcome of the ballot, Senator Robinson of Arkansas, Democratic Senate leader, indicated he would carry out his announced intention of abiding by the decision of the House.

Robinson has been a leader of the move in the senate in behalf of the Debenture and has been insistent upon a direct vote by the House on the proposition.

It now is expected he will recede from his position and not continue to press for further senate approval of the plan.

Conferees Appointed  
 Speaker Longworth immediately appointed conferees to take up consideration of the question with the senate once more.

They were Haugen, Purnell of Indiana, Williams of the House, Republicans, and Aswell of Louisiana, and Kinchloe, of Kentucky, Democrats, who served on the first conference committee.

It was indicated the conferees would seek an immediate meeting with senate conferees and "then, in the event an agreement should be reached today, obtained permission for the House group to file report up until midnight. This would enable a vote in the House tomorrow on whatever agreement might be worked out.

In the senate, administration leaders immediately laid plans to vote on the conference agreement as soon as one could be reached by the conference group. It was expected such a vote could be taken late tomorrow and confidence was expressed by administration forces that the senate now would approve the bill without the debenture.

## Large Special Venue

AMARILLO, Tex., June 13.—(AP)—A special venue of 225 was called for the trial here today for the trial of R. H. Hamilton, attorney, charged with the fatal shooting of his son-in-law, Tom Walton, Jr., in Hamilton's law office here recently. Hamilton has been at liberty under a \$15,000 bond.

After the shooting, Hamilton obtained attorneys, who declared Walton was not married to Theresa Hamilton. State records proved they were married, however.

Hamilton admitted the shooting, saying he had been told by a friend his life was in danger. The District Attorney here fought against admitting Hamilton to bail, but the court ruled it ballable. At this hearing, Hamilton saw his daughter for the first time since before her marriage.

Defense attorneys indicated they seek trial away from Amarillo due to an asserted prejudice set up here because of newspaper accounts of the affair. They also said only one side of the case had been presented and the public consequently was prejudiced.

## DAWES TO GO TO SCOTLAND

LONDON, June 13.—(AP)—It was stated authoritatively today that Ambassador Dawes would travel to Scotland Sunday to meet Premier MacDonald at Forres, a little town seventeen miles from Lossiemouth, where the premier is spending a vacation.

The news ambassador will be received by King George at Windsor Castle Saturday when he will present his credentials, the presentation taking place possibly within 48 hours of his landing at Southampton from the Olympic.

This procedure is necessary according to the code of diplomats which would not sanction an interview with the prime minister prior to presentation to his majesty.

At Lossiemouth, Mr. MacDonald told an interviewer with regard to his prospective visitor.

"We shall meet over the luncheon table and in the short space of three or four hours great questions of Anglo-American cooperation in the cause of disarmament and permanent peace will be opened."

## JOHN DAWSON WINS AGAIN

SANDWICH, Eng., June 13.—(AP)—Johnny Dawson, Chicago golf star, entered the last sixteen of the British amateur golf championship tournament today with a smashing victory over Edward Kyle, young engineer, whom Scottish enthusiasts had believed the best bet for the title. The score was five and four.

Joshua Crane, American, was eliminated by his fellow countryman, Bobby Baugh, 3 and 2.

## Many In City Have Not Rendered Their Property For Taxes

About one third of city property owners here rendered their taxes to the city, according to Joe B. Leach, city secretary, who said that the balance would be given until July 1 to make their renditions.

After that date, Mr. Leach said, not less than ten percent would be added to property not on the rendered rolls.

## NEW CONSTRUCTION AT STATE UNIVERSITY TO AMOUNT TO \$3,000,000

AUSTIN, Texas, June 13.—(AP)—Almost \$3,000,000 worth of new construction for the University of Texas will be started before the end of the present year. There will be seven projects, two of which are extensions of present buildings.

The institution's building fund is growing steadily as royalties from its oil wells in West Texas come in. Only the income from the fund created by oil can be used for buildings, however, else the more than \$10,000,000 now on hand could give the University one of the greatest plants in the nation.

Structures now under construction and which will be started this year, eliminating the last of the "wooden shacks," are: gymnasium, \$500,000; mechanical engineering extension, \$180,000; chemistry building, \$90,000; library extension, \$600,000; women's gymnasium, \$250,000; students' activity building, \$350,000; memorial arch, \$250,000.

## "They'll Make It," Lotti Senioe Says

PARIS, June 13.—(AP)—"They will make it," shouted M. Lotti Sr. in the telephone today when informed by the Associated Press that his son Armona and his companions, Assolant and LeFevre had hopped off this morning from Old Orchard with Paris as their goal.

"I will be there," M. Lotti said after being further informed that the Yellow Bird might reach Le Bourget field between two and three o'clock Saturday morning.

## Body Recesses Subject Call of President

COLORADO SPRINGS, Colo., June 13.—(AP)—Shot through with divergent views on the conditions of America's petroleum industry, the governors' oil conservation conference called by President Hoover was in recess today subject to reconvention at the call of the president.

Three days of discussion served to draw out the sentiments of every state sitting at the conference, as well as those of the industry's vast associations, and the close of the preliminary discussions found Chairman Mark L. Requa satisfied with the results. In a statement issued following the recess Wednesday, taken on a motion by the representatives of the three major oil producing states of the country, Mr. Requa said:

"The petroleum conference called by President Hoover accomplished some very definite results. In the first place, thanks to the wide newspaper publicity, it focused the eyes of the nation upon the most pressing and vital national industrial problems. During the conference, a great deal of information was forthcoming that cannot help but be of great and lasting benefit. This was merely a preliminary conference, it was not expected that it would formulate any final and definite plan."

The three major producing states which moved recess were Texas, California and Oklahoma, whose representatives resolved that the main objective of the meeting could best be attained by further study of the problems involved.

The four governors in attendance read into the record a resolution proposing that a survey of the petroleum industry be undertaken by a committee representative of both the state and federal governments. The eleven states governments sitting at the conference.

Governors' Declaration  
 The governors present, Erickson of Montana, Adams of Colorado, Reed of Kansas and Emerson of Wyoming, excepting Mr. Reed, who is permanent secretary of the conference, treated the subject of Mr. Hoover's public lands conservation policy in their resolution, declaring "exploration for the purpose of locating additional oil supplies is not to be limited since no waste or the products is involved hereby." This was in the nature of a declaration of principle on which the conference was asked to express its views but was not asked to act.

Governor Emerson said after an informal meeting of all the state executives, excepting Mr. Reed, with Mr. Requa that the chairman had expressed sympathy with the public land states regarding their problems occasioned by President's order closing the public domain to entry for oil and gas prospecting and that Mr. Requa told him he would report the attitude of the Rocky Mountains states to Secretary Wilbur.

Fly to Graduation  
 BEAUMONT, Texas, June 13.—(AP)—Washed out highways and disrupted train service failed to keep Mr. and Mrs. E. T. Fuller, Beaumont, from seeing their son graduate at Texas A. & M. College Station, leaving here at 7 a. m. and returning at 4:20 p. m.

## Fruit Fly Danger Claims Attention Regional Bodies

STAMFORD, Tex., June 13.—(AP)—The danger of Texas products being infested by the Mediterranean fruit fly, the Mexican fruit fly and other pests is at present occupying the attention of the three regional chambers of commerce of Texas.

The South Texas chamber is taking the initiative because it serves the region most likely to be affected immediately, but the West Texas chamber has pledged its cooperation, according to Manager Homer D. Wade.

Wade said reports would be filed with the federal horticultural board, the state health department, the commissioner of agriculture and others, against the fast passenger train service whereby a north bound train will reach Nuevo Laredo at 4 a. m. There will be no inspection of any kind at the border, but that inspection will be made at 7 a. m. on the moving train at a point between Cotulla and San Antonio. According to this plan there will be no inspection of any kind for three hours while the train is moving over a stretch of 80 miles through Texas.

A great deal of citrus culture is practiced in that section of Texas and the culture of vegetables is extensive. As the Mediterranean fruit fly attacks everything grown in Texas except watermelon and pineapples and the three hours gives ample time and opportunity for the disposal of fruit from the train the menace is evident, Wade said.

## To Finish What They Started

NEW YORK, June 13.—(AP)—The transatlantic flight begun today from Old Orchard, Me., by Assolant, LeFevre and Lotti was an attempt to show the folks at home that when they started out to do something they meant to finish it.

The three young Frenchmen, or rather Assolant and LeFevre, for Lotti did not appear in the picture until later, first broached an ocean flight last year. Because of their youth and the fact that they were serving their country's colors the aviators were hailed with great acclaim by the French.

Lotti the Backer  
 They took off from Le Bourget on Sept. 4 and then for the first

## ELLINGTON FIELD Soon To Become A Grazing Field

HOUSTON, Texas, June 13.—(AP)—Domestic animals are to roam the field which was the site of the largest aviation bombing school during the world war.

All except 60 acres of Ellington Field, 18 miles south of Houston, has been advertised for lease for grazing purposes. The 60 acres is reserved by the government as a landing field for army planes.

At one time during the world war 125 squadrons comprising 17,000 men were stationed at the field. After the conflict the field was the base of the First Pursuit Group until that group was moved to Selfridge Field, Michigan, in May, 1921.

"Livingstone, I Presume"  
 Ujiiji Tanganyika (Africa) is famous as the spot where Livingstone, after having been lost for some time in the center of the continent, was found by Stanley in 1871.

## THOUSANDS HUNT ABDUCTORS OF IDAHO LIEUT. GOVERNOR

OROFINO, Idaho, June 13.—(AP)—Several thousand men and boys today searched near Orofino country today for the four young bandits who yesterday abducted W. B. Kinne, lieutenant-governor of Idaho, and two men who attempted to rescue him.

Kinne escaped unharmed after he had been tied to a tree. W. L. Tribbery, of an Idaho loan association, and Paul Kille, a lumber worker, attempted to rescue Kinne when the bandits halted his automobile. Kille was shot in the leg and clubbed over the head and Tribbery was badly beaten.

ROBBERY MOTIVE  
 Robbery and the theft of Kinne's automobile apparently were the motives for the abduction.

Kinne, traveling from Lewiston to his home here, was attacked by the bandits shortly after leaving Lewiston. They boarded his car and ordered him into the rear. Near Orofino, Kinne said, a front tire blew out and the automobile catapulted into a ditch.

When Tribbery and Kille drove up they started to assist the wreck victims and in a struggle drawn pistols. In a struggle Kille was shot again, battered into unconsciousness. The robbers then took Tribbery's car, loaded the three men in it and drove for the mountains.

TIED TO TREES  
 After several hours of aimless driving they stopped near Greer, nine miles southeast of here, tied the men to trees, left one of their number to guard them, and drove away. Four hours later the three bandits returned, got their companions and drove away again. Kinne and his companions escaped in a few minutes.

## ROBISON HEARING IN HOUSE STARTS TODAY

AUSTIN, June 13.—(AP)—Hearing on impeachment charges against J. T. Robison, Commissioner of the General Land Office, will begin in the House of Representatives today. A delay followed drawing of rules to govern the taking of testimony.

AUSTIN, June 13.—(AP)—Hearing on charges filed before the House of Representatives accusing J. T. Robison, commissioner of the General Land Office, of wrongdoing in office, got under way today.

Several hundred witnesses were called by attorneys on both sides.

Constable time was consumed at the start in reading rules which will govern the hearing before the House, which resolved itself into a committee of the whole to see if impeachment charges shall be sent to the Senate for trial.

Robison, known by hundreds of frequenters of the land office as "Uncle Jim", is serving his 21st year as commissioner and his 34th year in the department, having been a clerk there before he was elected commissioner in 1908. He is 68 years old.

200 Witnesses  
 More than 200 witnesses were summoned to testify in behalf of Robison. Among those subpoenaed by proponents of the charges were Governor Dan Moody and former Governor James E. Ferguson.

The controversy had its inception last January, one week before the 41st legislature convened, when the Governor, members of the board of regents of the University of Texas and Attorney General's department requested Commissioner Robison to postpone sales of oil and gas leases in University lands which had been advertised for that month. He refused to do so, contending that under the law he was compelled to advertise the land for sale whenever he had any specific requests from would-be purchasers. Governor Moody threatened to convene the legislature in special session to repeal the leasing law and take the lands from the market, but desist-

## BROWNWOOD WINNER 1st. RACE PRIZE

A telegram received by the Bulletin a few minutes before 3 o'clock this afternoon stated that the Brownwood team had won first prize in the reel race at the fireman's convention at Galveston. A similar telegram was received about the same time by the Brownwood Fire Department.

TEXAS WOOL SOLD  
 JASPER, Tex., June 13.—(AP)—Wool brought from 22 to 34 cents a pound here when 14,000 pounds were sold last week to a Baltimore firm. The wool was grown near Jasper, Buna and Kirbyville, and the sale of 14,000 pounds showed a large increase in production from a small batch that was sold six years ago when the first wool sale ever held here was conducted.

### ATTENDS 41 SCHOOL PROGRAMS IN THIS COUNTY IN 2 MONTHS

County School Superintendent J. O. Swindle holds the record of having attended 41 school gatherings in Brown county during the two months from April 1st to June 1st. Of these gatherings, he has attended 15 consolidation meetings, 13 school closing exercises, 5 school programs, 4 graduating exercises, 2 school picnics, 2 teachers meetings, 1 school board meeting, and 1 meeting devoted to the problem of transportation in the rural school districts. He visited in over 50 different communities and drove more than 2,000 miles during this time.

Beginning with the 1st of April, the following places were visited in that month: Elm, consolidation; Pecos, Williams, transportation problem discussed; Sand Creek, consolidation; Daniel Maker, Education Club meeting; Anderson, school program; Concord, consolidation; Santa school board meeting; Cedar Point, consolidation; Weedon, closing exercises; Mt. View, closing exercises; Holder, closing exercises; Grosvenor, consolidation.

In May meetings were held at the following places: Cedar Point, closing exercises; May, consolidation; Olo, consolidation; Mt. View, closing exercises; Jones Chapel, play; Jordan Springs, closing exercises; DeJong Chapel, picnic; Winchell, closing exercises; Brooksmith, closing exercises; Delaware, closing exercises; Center Point, consolidation; Jones Chapel, play Grosvenor, graduating exercises; McDaniel, closing exercises; Ricker, picnic; Jones consolidation; Binches, consolidation; Chapel, consolidation; Ricker, consolidation; closing exercises; Blanket, graduating exercises; Cross Cut, graduating exercises; Woodland Heights, graduating exercises; and Buffalo, discussion of consolidation.

Aside from attending these meetings in the county, Mr. Swindle also attended a two-day session of the Mid-Texas Teachers Ass'n. at Balinger April the 6th and 7th.

### SCHOLASTICS IN BROWN COUNTY TOTAL 6,696

The results of the recent school census in both the city and county are as follows: Children from seven to seventeen years old inclusive, show a total of 6,696 in all, 3,400 of them boys and 3,296 girls.

The city of Brownwood shows a total of 3,246 scholastics of which 1,588 are white boys and 1,658 are white girls; with fifty negro boys and fifty negro girls.

In the county there were found the following figures as shown by the records in the office of the county superintendents, J. Oscar Swindle:

Zephyr, 163; 75 boys and 88 girls.  
Blanket, 169; 81 boys and 88 girls.  
Bangs, 254; 122 boys and 132 girls.  
May, 180; 78 boys and 82 girls.

The balance of the county, outside of the city and the foregoing communities, 2,704; 1,396 boys and 1,308 girls.

These figures show a good increase in the city, but a slight decrease in the county over the figures of 1928.

### FRANCE MAKES A PROTEST ON TARIFF RAISE

WASHINGTON, June 12.—(AP)—A formal note from France protesting against the proposal to increase tariffs on certain French products imported into the United States has been delivered to the State Department by Ambassador Claudel.

The note reiterates arguments of the French government that France is not benefiting from the provisional favored nations arrangement made between the two governments after the United States protested against the Franco-German trade agreement of 1927.

Formal protests against the tariff also have been filed by Spain, Italy and Persia, and retaliatory action has been urged in these countries as well as France. More than a dozen nations have forwarded material through the State Department for the consideration of the House Ways and Means Committee.

### CROP SUMMARY BY DEPARTMENT AGRICULTURE

WASHINGTON, June 12.—(AP)—The department of agriculture's summary of crop and weather conditions for the week ending yesterday, issued today said:

Cool weather obtained over the central and eastern portions of the cotton belt, but rainfall in most sections was light to only moderate.

In Louisiana the weather was sunny and favorable. Moderate warmth and much sunshine in Texas permitted the resumption of cultivation and chopping and promoted good growth, though the wet areas are still grassy and there is much replanting to do in the eastern lowlands; the general condition of the crop is fair, but backward.

**Registrations At U. of T. Summer School 2,389**

AUSTIN, June 12.—(AP)—Registrations for the University of Texas summer school totalled 2,389 today, according to announcement of Dr. Frederick Eby, director. This is an increase of 201 over last year's registrations. Dr. Eby said he expected this year's registrations to reach the 3,000 mark.

**Coal Tar Derivative**  
Bakelite is produced from coal tar by a process invented by Dr. L. H. Baekeland. It consists of the condensation products of phenols and formaldehyde, converted by heat and pressure into solid form.

**The Cherokees**  
The Cherokees were the largest and most important Indian tribe originally east of the Alleghenies, perhaps the highest in culture and intellectual receptivity north of Mexico.

**Bangs**  
The mattress factory under construction, owned and operated by Albert Berry of this place will be in operation, ready to fill orders on Monday, June the seventeenth of this month. Mr. Berry has had a great deal of experience in mattress making, he formerly having owned and operated a factory in Lampasas.

The Davis Brothers started their treshing machine Tuesday morning, treshing first at the home of Will Davis who resides several miles south of town. Frank Baker, our local grain dealer, began at once loading cars of grain, to be shipped to other points. There is not a full crop as had been hoped for but a pretty fair yield is expected to be harvested.

Born to Mr. and Mrs. Debs Conington on last Thursday a little daughter, last Thursday a little son, T. E. Preston, Edwin Harris and T. A. Thompson left Sunday for Galveston where they are attending the Fireman's Convention this week.

Miss Ina Falls spent the week-end with friends of Brownwood. Quite a few enjoyed the singing at Rock church Sunday afternoon. M. Routh of Brownwood was visiting friends here Sunday afternoon.

**Rio Grande Head Say Company O.K.**

NEW YORK, June 12.—(AP)—Charles F. Jones, vice-president of the Rio Grande Oil Company, in announcing there was nothing intrinsic in the situation in the company to account for the drop in the stock, said April earnings were the highest of any single month in the company's history. "Earnings," he said, "are progressively better each month, and I believe, that if nothing serious develops within the industry itself, we will earn \$5 net on the stock this year." At present market price he said the company was paying approximately 10 per cent in dividends.

**WEAKLEY-WATSON-MILLER**  
**HARDWARE COMPANY**  
—In Brownwood Since 1876—

# JUNE 29 DATE MONTGOMERY WARD OPENING

Montgomery Ward & Company will hold a formal opening for its Brownwood retail store, now nearing completion on Center Avenue June 29, according to E. M. Manley, who recently moved to the city to serve as manager of the Brownwood house. Although detailed plans for the formal opening have not been completed, these will be worked out and announced early next week, soon after the arrival of the company's display man who is being sent here on this occasion from the Chicago house. The new \$60,000 building on Center Avenue is nearing completion and carpenters will have finished their work within a few days. Installation of fixtures will begin within the next few days and merchandise is now being moved in preparation for getting everything in readiness for the formal opening. W. A. Bell Company, owners and builders of the new three story home for Montgomery Ward, will soon be ready to turn over the building as completed job.

**Large Crowd Assured**  
Mr. Manley, in speaking of the formal opening, states that the affair will be given wide publicity throughout this section of the state. The company anticipates the reading of an opening day crowd of round 10,000 people. He cited figures on opening day crowds in other cities and these ranged from 5,000 to 14,000 for cities no larger than Brownwood.

As announced before Montgomery Ward & Company will handle a complete line of merchandise, all his being sold directly to the retail trade. However, mail orders in this section will be handled by the local office, rather than from Ft. Worth and other cities.

**Other Officials**  
Mr. Manley, the manager of the Brownwood store, has been associated with the Sweetwater and Ft. Worth stores. His former home is Greenville, but now that he has moved his family to Brownwood, he proudly proclaims Brownwood as his home. He announces that E. B. Moore, formerly of Ranger, is to serve as assistant manager and that W. Drake has been transferred from the Austin store to take charge of the furniture department of the Brownwood store. Other officials and employees will be announced shortly, Mr. Manley states.

## Car Load of Wool Inspected Here

About a car load of accumulated wool stored in the Ramey warehouse was inspected Monday by Henry D. Allen, wool buyer of Philadelphia. The price was put on the wool, according to O. P. Griffin, county agent, inasmuch as Mr. Allen, who is making his headquarters in San Angelo, has had no authority from his company to buy for the past two weeks.

## STORMY WEATHER AND ROAD CONDITIONS RETARD RETURN FROM VISIT TO KERRVILLE

Patients and employees at the U. S. Veterans Hospital at Legion, three miles from Kerrville, listened to two concerts given by the members of the Old Gray Mare Band Sunday. A total from Brownwood of about seventy men, women and boys, including thirty members of the band and about a dozen members of the local American Legion Post's junior base ball team, paid a visit to Kerrville and Legion on that day, traveling in cars and trucks the entire 150 miles.

The caravan set forth from this city at 5 a. m., and in six hours all the members of the organizations had arrived, over roads, half of which were in good condition, and the balance indifferent.

**Encounter Bad Roads**  
Following the concerts, dinners and base ball game, the party set out from Kerrville about 6:30 p. m. and arrivals in Brownwood were arriving from 2 a. m. to noon Monday. A heavy rain and electrical storm put the roads from Brady here into

an almost impassable condition. Some came direct through from the McCulloch county seat and a few cars came via Santa Anna, one being bogged the night near Lohn. The trip to the tubercular hospital at Legion had been planned for some time, and was finally carried out Sunday. In full cowboy uniform the band started a concert on the lawn in front of the infirmary about 11:30 a. m. and completed it after a lunch.

**Welcomed at Hospital**  
The boys of the newly organized junior base ball team played the Legion team, the Mountain Sons at the Kerrville park, over four hundred seeing the Kerr county lads win a fast game from Brownwood's boys at a score of three to two. During the game the Old Gray Mare Band played its second concert.

Hospital authorities and patients gave the Brownwood delegation a warm welcome, they were shown over the grounds, through the buildings, and treated to two fine dinners each in the officials' mess hall.

## Three Born in Three States But Same House of Old West

**BURNT FORK, Wyo.—(P)**—The puzzling truth of three children born in three different states but in the same house that never was moved is a romantic paradox that belongs to the early annals of Wyoming at old Fort Bridger.

In that 12 by 18 foot log cabin were born the three children involved—George Stoll, April 20, 1867; William Stoll, April 12, 1869, and Lizzie Stoll Kirkendall, June 8, 1871.

George was born in Utah; William in Dakota, and Lizzie in Wyoming. The ground at Fort Bridger was originally Mexican soil. After it was ceded to the United States in the Mexican war settlement, it became Utah territory for a time. Then in the adjustment of boundaries, the land lying west of the Wasatch range was surveyed into Dakota territory, and remained so until the territory of Wyoming was staked out about 1870.

The story of the house was related by one of the children, William Stoll, for 52 years a resident of Burnt Fork. Stoll said he had lived in a log house his entire life.

without electric lights or other modern appliances.

## 650 TAX RETURNATIONS IN COUNTY ARE TO BE ADJUSTED BY COURT

About 650 letters are being mailed from the county clerk's office this week notifying the recipients of certain changes made in their tax returnations and telling them to appear before the board of equalization June 24th, 25th and 26th.

R. S. Davitte and M. M. Staggs have been employed by the Commissioners' Court the past month to go over the tax rolls for the purpose of equalizing the taxes in the city and surrounding country.

These men have made adjustments on hundreds of returns after making a house to house canvass of the situation. Judge E. M. Davis said, "It is not our intention to raise the taxes of these people, but just to equalize them in this county," Judge Davis said. "We are not trying to raise values, but to get them as even as possible over the territory."

## STRIKING STUDENTS NOW HOLD FULL CONTROL OF UNIVERSITY

**MEXICO CITY, June 12.—(P)**—Striking students of the Mexican National University were in complete control today of the main building of the university, with the determination, they said, of remaining there until their demands were met. Police did not molest them. A red flag hoisted by the strikers floated over the building while another was draped from a second story balcony over the main entrance. A hundred students maintained a constant guard at entrances. Several university officials seized when the building was captured yesterday, and held as hostages, later were released. The students demand the resignation of Rector Antonio Castro Leal, one of the firmest in opposing their stand against the innovation several weeks ago.

## DEPENDENTS OF THOSE KILLED BY PRO AGENTS MAY RECEIVE PAYMENT

**WASHINGTON, June 12.—(P)**—Representative Florence P. Kahn, Republican, California, introduced a bill today to authorize payment of \$25,000 to dependents of persons killed by prohibition agents.

## Texas Doctors Can't Prescribe Whiskey If Bill Passes

**AUSTIN, June 12.—(P)**—The House committee on liquor traffic today acted favorably on the King-Graves bill making it unlawful for a physician to prescribe ethyl alcohol or any liquor with alcohol content. At the suggestion of the authors, the measure was amended in the committee room to provide a penalty of not less than \$50 or more than \$500. It originally would have imposed a penitentiary sentence up to a maximum of five years.

## TAYLOR READY TO ESTABLISH AIRPORT HERE

H. Ford Taylor, theater man of Brady and San Saba, also part owner of an extensive tract of land three and one half miles west of Brownwood on what is known as the "high-line" road to Bangs, was in Brownwood Monday and announced that he was ready to build an airport on this land, under the condition that Brownwood really wants an airport and will lend him its moral support in the project. Mr. Taylor states that he is not asking for financial aid, as he is prepared to finance the entire project, the building of hangars, etc.

Mr. Taylor has discussed his proposition with Gus J. Rosenberg of the American Legion and plans to ask the support of other organizations in Brownwood, especially the City Council and Chamber of Commerce. E. N. Unruh, Jr., pilot, is assisting Mr. Taylor in determining whether or not Brownwood wants an airport.

## COMMISSIONER CLOSES SHOW

**CHICAGO, June 12.—(P)**—William F. Russell, commissioner of police, today ordered the management of the Adelphi theatre to close the show "Frankie and Johnnie," the comedy of the woman done wrong" based on the one time burlesque song of the same name. The commissioner said the performance had been found indecent by an investigator. If the show is not closed today, the commissioner declared he would ask the mayor to revoke the theatre's license. An alderman who took his family to the show was one of the complainants. Other shows have been censured in recent years, but this is the first time a closing order has been issued, police said.

**Like Mother Makes**  
Mrs. Black, just married, wrote home to her mother down in Dixie to send her the recipe for hot cakes. After much labor the following recipe was mailed back to the daughter: "Take as much flour as you need, 'ording to how many folks they is to eat; put in some salt—anybody knows how much; put in the rest of the ingredients, an' be sure to have your griddle hot."—Exchange.

Subscription \$1.00 per Year.

### ZEPHYR PEOPLE HOLD BIG CLUB MEETING

A full house was present at the June meeting of the Zephyr Community Club which was held Friday night. A program of music, reading and talks occupied all of the evening, with J. T. Stovall speaking on the coming Brown County Fair. The Brownwood South Side quartet sang.

### Change In Schedule Of Rural Carriers

J. D. Stewart, acting postmaster, makes the following announcement: For the convenience of patrons in rural districts, rural carriers will now leave Brownwood postoffice at 7:15 a. m. This will give merchants time to mail parcels to patrons on route and get delivery same day. This will not inconvenience the rural patrons, as the mail will be delivered on entire route, not later than 12 o'clock. This change is made in order to give the rural patrons better service in the delivering of their mail.

### Accepts A Ride And Is Robbed

MARSHAL, Tex., June 12—(AP)—After accepting a ride from two motorists, Earl Hynson, 40, was robbed of \$30 and forced to jump from a moving automobile near here last night, he reported to police today. He received a slight concussion.

## SHERIFF DENMAN AND DEPUTIES ISSUE STATEMENT IN REGARD TO BOOTLEGGING IN BROWN COUNTY

The Bulletin has received for publication from Sheriff M. H. Denman and deputies the following communication:

"To whom it may concern: We have just finished the examining trials of the alleged bootleggers taken in the last month. We have had fifty-five trials and have bound over fifty-four. I have done my very best and I expect to continue so to do.

"These cases are all ready for the grand jury and there will be fifty-four indictments. We have the proof and if the law abiding citizens will stand by us we will get fifty-four convictions.

"We have not got them all and do not expect to, but the ones we do not get will have more respect for the law when we finish up. And a word to the bootleggers, you and your sympathizers, I do not want to hear of you any more clubbing up on my deputies, trying to bulldoze them, making threats and otherwise trying to intimidate them, which has been going on for some time.

"You have sent us threats of all kinds and I have only done what I should have done and I am glad of it. I have hired extra help to put a stop to lawlessness and I had to use deputies you did not know in order to catch you.

"They are honorable and worthy young men and they deserve the very best we can do and say for them.

"Oh, yes, you think it is all right for you to be outlaws and that it is too bad for the sheriff to have to get extra help to catch you. That is terrible, you think; you think you have a perfect right to violate the law, but wrong for the sheriff and his deputies trying to make you respect the law.

"You can kill us, and we have had several threats of death, but you have not forgotten my slogan. We are just ordinary men but when you do such you will surely be a trouble.

"And just a word to the police department: You have not turned your finger to help out, although you are peace officers and we should work hand in hand. I understand you have a complaint against one of my men for trying to take care of himself when a bunch of grafters were trying to bully him.

"And only last night one policeman questioned one of my deputies as to his authority for carrying a gun, when at the time there was a bunch of bootleggers around this deputy trying to bully him. "I do not want you to show any disrespect to my officers for they

## FAIR CONDITION IS REPORT ON TEXAS CROPS

AUSTIN, June 11.—(AP)—Rains and some hail necessitated replanting of considerable cotton, but everything considered the crop is in fair condition, according to H. H. Schutz, statistician for the United States department of agriculture.

"Planting and standing in the northwest are further advanced than a year ago as they are also in the west and west center," Schutz said. "In the remaining district the crop is late, particularly in the east and southeast. Weevil infestation is much like in 1928 at this time and hot dry weather is needed to hold them in check. Stands have been hurt by cut worms and careless worms, while in a number of counties the cotton hopper is again active. Grasshoppers, also, are appearing in scattered localities."

Losses From Rain While losses in many sections have been considerable on account of excessive rainfall, the records show that in 1919 May was also a wet month as was also May of 1914," Schutz said.

"In 1919, cotton averaged 140 pounds of lint and 184 pounds in 1914," he said. The rains came too late to save some of the wheat and oats in dry western areas, yet where the fields were not plowed up and replanted second growth had begun which may mature grain under favorable conditions, Schutz said.

Good in Panhandle "In the Panhandle most of the crop is above the average," the report said. "Harvest in the north, center and west center was held back by the wet season. Where the wheat was dead ripe some damage resulted from the rains and local hailstorms were destructive. The 72 per cent condition as of June 1 indicates a production of 31,013,000 bushels, for the season which is 4,000,000 bushels above the prospects of May 1. Last year 22,176,000 bushels were produced. Some wheat had been harvested by the end of May. In the main producing sections of the northwest, harvest will probably not begin before mid-June in the Plainview territory and a week or so later farther north.

Oats 77 Per Cent "Oats are reported at 70 per cent condition compared with 77 per cent a month ago and 61 per cent a year ago. Under favorable conditions the yield per acre will be better than the average.

"The corn crop is in fair to good condition with many fields already laid by. Roasting ears have been plentiful in the southern areas for some time. Grain sorghums have come up to a good stand. Both tame and wild hay have derived benefit from the rains. The second cutting of alfalfa will be heavy. Early potatoes have suffered from the continued rains and losses from rotting have been severe."

### TWO MAD DOGS KILLED HERE

A mad dog was killed in Coggin Park Sunday morning and another one on Victoria Street on Monday morning by Policeman Frank Wood. Mr. Wood said there is no telling how many other dogs there are. He said he desires the cooperation of all the citizens of Brownwood owning dogs in seeing that they are properly vaccinated for rabies, as he has orders from Chief O. A. Williams to shoot all dogs not vaccinated or not having collars with the 1929 license.

### Lowman Makes Announcement Regarding Probe

WASHINGTON, June 12.—(AP)—Two border patrolmen at Detroit and International Falls, Minn., will be held personally responsible for use of fire arms if the treasury investigation should disclose weapons were used except in self defense or to prevent commission of a felony. Assistant Secretary Lowman in making this announcement today called attention to an order issued a year ago prescribing strict regulations for the use of fire arms and warning officers of the consequences of violations of the regulation.

### Calvin Gilliam Returns From A Trip to Chicago

Calvin H. Gilliam, proprietor of the Radio Cycle Shop, returned Friday from a trip to Chicago which he described as the one great trip of his life. He went last week with 150 Texas Majestic Radio dealers in a special train from Dallas, joining 2,000 dealers at Chicago who were the guests of the Grisy Grunow Company. This concern is the manufacturer of the Majestic sets, 4,000 being produced daily in Chicago.

## WOODWARD TO TAKE PLACE ON PARDON BOARD

Judge J. O. Woodward, of Coleman, who for 20 years served as judge of the 35th Judicial District Court, has been appointed chairman of the Board of Pardons for the State of Texas. It was learned today in a telephone conversation with the veteran Coleman jurist. Although the official appointment has not been received, Judge Woodward has sent his acceptance to an offer made him by Governor Moody and the official appointment is assured. Judge Woodward will go to Austin early next week to obtain a house and will move his family to the capital shortly.

Judge Woodward's many friends in Brownwood and throughout the entire 35th judicial district congratulate the veteran jurist on his appointment to this important office. Judge Woodward's appointment will be for a six year term.

## FIRST TEXAS BALE COTTON

EDCOUCH, Texas, June 12.—(AP)—The first reported bale of cotton of the 1929 crop was carted to the gin here today by H. Henson, farmer, living 4 1-2 miles from Edcouch. It was picked yesterday.

A premium was started by Edcouch merchants, and advance bids were 30 cents a pound. Last year's first bale was reported by the Edinburg district on May 29.

Following Stars Wise men are always doing what the Magi in the Gospel story did. They are always following stars. It is this following of star-like ideals, ideals of truth, ideals of honor, ideals of duty, which invests our common life with dignity and meaning.

FEDERAL AGENTS ABSOLVED THE SHOOTING OF EUGSTER

WASHINGTON, June 13—(P)—Congressional irritation over the use of guns by federal agents enforcing the prohibition and anti-smuggling laws was regarded today as having been alleviated by the finding of Representative Robert H. Clancy of Michigan in his investigation of the shooting of Archibald Eugster, 21, near Detroit.

Eugster's death was the second within a week since the intensification of the government's effort to stop liquor smuggling across the Canadian border and aroused considerable unfavorable comment in congress. Clancy, who demanded a thorough investigation by the attorney general and went to Detroit to look into the matter with Representative Clarence J. McLeod of Michigan, announced there last night he had found the shooting justified.

Johan Cox, customs border patrol inspector involved in the Eugster investigation, was absolved of all blame by Clancy and prosecutor James E. Chenot after one of the slain youth's companions on the night of the shooting admitted they had been attempting to run 35 cases of liquor across the river and had failed to halt when ordered to do so by an agent.

The story published by the Detroit Free Press today to the effect that a big combine of Great Lakes

rum runners had been formed to thwart the government's anti-smuggling efforts between Buffalo and Macinaw, however, was a matter of considerable interest to members of congress and assistant Secretary Lowman of the treasury, in charge of prohibition enforcement.

The situation with respect to the killing of Henry Virkkula of International Falls, Minnesota, by a border patrolman, showed no such change, meanwhile, as that of the Eugster case. Emmet J. White, the patrolman, remained in jail while four investigations, including one ordered by Lowman, proceeded.

Resists Case Transfer The county attorney at International Falls made it clear he would resist any effort to have the trial of White transferred to the federal courts. Such an attempt is open to the patrolman, Lowman said here, but he declared it would not be allowed to have the effect of changing any charges that might be brought against him.

In a case at Louisville, Kentucky, two prohibition raiders who obtained a transfer of their case from the state to the federal court, lost their appeal from conviction. Roy Miller, prohibition agent, and Clarence Gossett, deputy sheriff, of Hopkinsville, were found by Federal Judge Charles I. Dawson to have been rightfully convicted for the killing of Frank Sears in a raid on a still in 1925.

WILL INAUGURATE WESTERN DIVISION S'WEST AIR EXPRESS

KANSAS CITY, June 13—(P)—A Western division of the Southwest Air Express, designed to offer air-rail service to the Pacific coast from St. Louis, Kansas City and other southwest points, will be inaugurated Saturday.

Air passengers on the present line between St. Louis, Kansas City, Dallas and intermediate points, will change planes at Oklahoma City to avail themselves of the new service. From Oklahoma City passengers will be flown to Sweetwater, Texas, by way of Wichita Falls, Texas.

At Sweetwater the air passengers will be transferred to a pullman car of the Texas & Pacific railroad for an overnight ride to El Paso. The air trip will be resumed from El Paso to the Pacific coast.

First Bale Cotton at Corpus Sells for \$1 a Pound

CORPUS CHRISTI, Tex., June 13—(P)—This first bale of cotton of the 1929 season in this section brought \$1.00 a pound at an auction here today.

The bale was picked by S. L. Henson near Edcouch Tuesday, and was ginned at Edcouch yesterday. It weighed 437 pounds and arrived here last night.

The Cotton Exchange received it and placed it on exhibition. The Chamber of Commerce announced it would open the bidding today at \$1 a pound.

NEW OUTBREAK IN MOROCCO

RABAT, Morocco, June 13—(P)—Eight battalions of the French foreign legion, were rushed by motor truck today to succor remnants of a French native troops detachment at the desert post, Ait Yakoub.

Two thousand dissident Moorish tribesmen have infested the post on three sides, and some fear a fight for the detail, its numbers already depleted by an ambush at the foot of the Atlas mountains June 9.

Those besieged at the post included the remainder of the two companies of Senegalese infantry and the company of Moroccan camel corps who in the ambush, lost 12 known dead, 10 seriously wounded, and 83 others missing or dead.

TROOP 5 INVITES ALL COUNTY SCOUTS TO BE GUESTS FRIDAY NIGHT

Troop No. 5, Boy Scouts of America, with Judge E. M. Davis as the Scoutmaster, invites all Scout Troops in Brown County to be their guests at their cabin at Lakewood next Friday night. Every scout will bring his own supper which may either be cooked at the camp site or may have been prepared at home. Following the supper about the scout troops will engage in a series of inter-troop game contests. The unique feature of the program is that Troop 5 as hosts will have the prerogative of naming all the games to be played and also of designating the contesting troop. Four different sets of games will be in progress at all times. The games will be of a varied nature, some requiring much physical activity while others will not be so strenuous.

After an hour of games the scouts will assemble for a camp fire program. The nature of the program will remain a secret until the scouts assemble. Scoutmaster Davis assures us that it will be a unique surprise and that all the scouts will have a great time. The whole meeting is open to parents of the boys as well as the public. It should be of interest to the parents to see their scout sons engaged in directed play.

Troop No. 25 at Bangs will have their regular meeting tonight at the new building. The Scout Executive will meet with the boys and will assist them in their registration for the year ending June 30, 1930. The troop at Bangs is doing exceptionally fine work and are going to be able to give a good account of themselves in all games and scoutcraft.

MEMORIAL SERVICES HELD BY LOCAL LODGE KNIGHTS OF PYTHIAS

The Knights of Pythias, Brownwood order No. 96, held its annual memorial service Sunday morning at the Central Methodist Church. A brief address was given by Fred Hayes, after which the memorial sermon was delivered by Rev. J. W. Mayne. The Goldthwaite Treble Clef Club assisted the church choir in a special song service, under the direction of Cameron Marshall. A large crowd was present, including nearly every member of the local Pythian Lodge.

"Memories of Our Departed Brothers" was the subject taken by Mr. Hayes, who was first to speak on the morning's program. Mr. Hayes stated he chose the subject not to mourn the loss of those who had passed away, but to recall to mind what they did while they lived and the influence they left when they died, and the gratitude he felt because they had lived. He also spoke of the significance of fraternal brotherhood, stating that the tendency to do good for mankind had spread from the church to the organization and from one fraternal organization to another. He also pointed out how the "departed brothers" had made a path for others to follow. He closed his impressive speech with a toast "To him who will take my place when I am gone."

Rev. Mayne took as the subject for the memorial sermon "Earthly Immortality." "I have found that God is interested in every organization that tends to promote fraternal brotherhood," Rev. Mayne opened his sermon. "God has always been trying to get us to take a moral inventory of ourselves. God has said that 'we are good at reading signs of the past, but poor at reading the signs of the day.' It is our business to know the world about us," he said.

Read Signs of Times In stressing the importance of correctly understanding the signs of the day, Rev. Mayne said, "To read the signs of the times is to invite criticism. The dishonest man judges the whole world dishonest; the unclean judge the world as unclean, and the wicked judge all the world as wicked. A man sometimes misjudges the world because of the partiality of knowledge he has of the time in which he lives."

"God is interested in the church, in education, in science, and in business just as much as he is interested in religion," he stated. "God is interested in the man who thinks for out of the mind speaketh the heart and out of the heart speaketh the mouth. God is interested in science," he said, "that man may be more useful to his fellow man and to God." Rev. Mayne closed his sermon with a plea for every man to fall in line, read the signs of the day, and rendered a greater service to God.

ested in religion," he stated. "God is interested in the man who thinks for out of the mind speaketh the heart and out of the heart speaketh the mouth. God is interested in science," he said, "that man may be more useful to his fellow man and to God." Rev. Mayne closed his sermon with a plea for every man to fall in line, read the signs of the day, and rendered a greater service to God.

LONDON PLANS CONFERENCE

LONDON, June 12—(P)—A diplomatic conference will be held in London in July to consider the best means of putting into operation the report of the Paris reparations conference, well-informed circles here believed today. The conference would probably be attended by the foreign ministers of various countries concerned and was expected to precede Premier MacDonald's projected American visit.

SANTA ANNA AND TERRITORY ENJOYS PROSPERITY WAVE

SANTA ANNA, June 7—(Sp)—E. Weaver, president of the First National Bank of Santa Anna, estimates that there are about 55000 sheep and 1200 goats in the Santa Anna territory, and the bank is doing its part to get the farmers to import these sheep. It is the estimate of Mr. Weaver that the farmers average about four milk cows each.

"The farmers don't quite pay all of their expenses with their milk cows but they almost make them," he explains. They are about 2,500 dairy cows in that section and three creamery stations in town.

INSPECTION OF BARBER SHOPS TO BE UNDER HEALTH DEPARTMENT

AUSTIN, June 12—(P)—Two amendments to the Mehl barber bill which became a law yesterday, were offered today by the author and approved by the House committee on public health.

The changes made at the suggestion of Governor Moody charge the State Department of Health with sanitary inspection of barber shops instead of a committee of three provided in the bill.

A special fund created from a \$10 annual license fee is created for enforcement of the act.

Ambitions Fade The bright ambitions of youth are modified somewhat by the inexorable flight of time, and the man who started out some thirty years ago to conquer the world is now fairly well satisfied if he can keep from spilling the beans.

### HOLD BROWN COUNTY DEPUTY SHERIFF ON LIQUOR CHARGE

A deputy sheriff is the latest one to be arrested and held on charges of selling intoxicating liquor during this clean-up of liquor selling in the county. Sheriff M. H. Denman apprehending R. A. Barton at his home one and a half miles west of Blake, Thursday evening.

Mr. Barton was made a deputy about five weeks ago, but has made no arrests during the time he held his commission. When taken into custody the sheriff took his gun and his commission, tearing up the latter.

No liquor was found on his place. The sheriff said, but he said he had several charges already filed against the man.

An examining trial was held before Judge E. T. Perkinson Friday morning and Barton was held over for the grand jury, his bond being fixed at \$1,000.

During the same trip into the north end of the county Thursday evening the sheriff and his deputies arrested W. J. Hancock and E. B. Blackburn, also of Blake, and Hous-

ton Davis and V. A. Davis of Cross Cut, all four men being charged with selling.

### LEAGUE BODY CALLS MEET

MADRID, June 12.—(AP)—The Council of the League of Nations today decided to convene a conference at Geneva on September 7 of all states adhering to the statutes of the permanent court of international justice.

At this conference amendments to the statutes and recommendations formulated by the committees of jurists which met some time ago will be examined. Among the most important matters for consideration are changes designed to permit the accession of the United States to the World Court.

### VERDICT GIVEN IN FIREARMS ROBBERY CASE

BRYAN, Texas, June 7.—(AP)—Bob Silver was found guilty of robbery with firearms here today and given a 10-year prison sentence.

The trial of Silver's companions was postponed until the next term of court.

His trial on charges of robbery with firearms in connection with his escape from a prison farm went to the jury last night after state attorneys asked the death penalty. Silver already was under life sentence on a robbery with firearms charge from Porth Worth.

### Two State Witnesses

The state introduced two witnesses. Miss Loree Harrison, and Hayden Malone, who testified Silver and his companions commandeered their car for a ride to Houston after escaping from a prison farm.

Miss Harrison, owner of the car, and Malone said they saw no weapon in Silver's hands and he was considerate in every way. They testified he would leave their Automobile in Houston for them. Surpassing the state for brevity, the defense presented no witnesses at all. Silver's mother, who went to Huntsville to be near him after his recapture, was with him in the court room.

Arguments by attorneys occupied an evening session.

### 200 ADDITIONAL PRO AGENTS IN DETROIT AREA

DETROIT, June 12.—(AP)—Two hundred additional agents reinforced prohibition and customs forces in the Detroit area today.

The agents were transferred from posts in every part of the United States. More than 80 of the number arrived yesterday and took up their posts with the customs border patrol and prohibition forces. Officials have declined to reveal the exact number of agents to be mobilized here.

### Investigating Youth's Death

DETROIT, June 12.—(AP)—Shooting of a 21-year-old youth yesterday by John Cox, customs border patrol inspector, while the latter was guarding a seized smuggler's speedboat, was the subject of federal and local investigations today. The youth, Archibald Eugster, was critically wounded.

Eugster and three companions claimed they were on a fishing trip in a motorboat when they stopped to investigate shots along the shore of the river rouse. Cox declares he had ordered some men away from the boat he was guarding and believed he saw them returning. He said he challenged them and fired only when they disregarded his orders to halt. Cox was released.

Gregory H. Frederick, assistant U. S. District Attorney, said Eugster's three companions had made contradictory statements.

### JUDGE MILLER GIVES CHARGE TO GRAND JURY

"The fact of men trying to kill officers of the law who are engaged in the duties of enforcing the law is a far greater offense than that of breaking the liquor laws," said Judge E. J. Miller in his charge to the grand jury at the opening of District Court here Monday morning.

Judge Miller was referring to the recent shooting at one of the deputy sheriffs by men supposedly recently arrested on liquor charges.

"This matter is a disgrace to the county and the state," he continued, "and if you can find one those who did the shooting and indict them, you will have done good work."

With sixty-one cases to go to the grand jury, fifty-four of which were the results of the recent liquor raids of Sheriff M. H. Denman and his deputies, the judge bore down heavy in his charge on the liquor violations which he characterized as the greatest bane to this country today.

Questions Jurors Prior to his general talk he asked the jurors if any of them were renting, or though they were renting any house for the purpose of making, selling or storing liquor. He said that if they were they had better at that time retire from the jury.

"A man who rents any of his property for this trade would not make a good juror, he could not enforce the law, when he himself breaks it. I have no information as to the effect that one of the men on the last grand jury was in that position," he said.

"We have the best Sheriff in the State of Texas, but he has to have the support of the citizens and of the grand and petit jurors or all his work is for nothing."

Liquor Prescription Question Judge Miller asked this jury, as he did the last one, to look into the matter of the doctors and the prescriptions they give. He said that the former jury arrived at the conclusion that the doctors they examined were within the law as to the number of prescriptions issued, but that was not his idea.

He discussed in detail the law with regard to doctors writing liquor prescriptions, stating that they have to keep a record of all cases showing what it was for the prescription was written, to whom, and that he had to give a thorough examination before he could write one. These records are open for the use of the grand jury, he said.

The new case given the grand jury over the number of liquor offenses covered crimes of criminal assault, theft and forgery.

D. F. Abney was made foreman of the following eleven men: Mark Bolser of Bangs, L. L. Lanford of Blanket, Earl E. Day, C. A. Thompson, H. O. Hagans, C. K. McKinzie of Zephyr, W. F. Shelton of Brooksmith, E. M. George of May, Rose Churchill, T. E. Trunick and H. H. Hamilton.

### Large Production of Tomatoes From Small City Garden

That Brown county can beat the East Texas section raising tomatoes is the opinion of Mrs. A. J. Faulkner, 1516 Vine street, who has been gathering enormous quantities of tomatoes from her garden since May 30th.

From 36 vines Mrs. Faulkner has gathered ten bushels of large, firm tomatoes. From one vine alone she picked 25 tomatoes. "If people of our county would utilize irrigation in their gardening, what might be the yield of vegetables?" she suggests.

### EVERYBODY SEES A CHANGE IN SON, SAYS GRATEFUL MOTHER

Brownwood Santa Fe Shop Employee Suffered Over 15 Years With Stomach—Relieved by Osgate.

"My son has suffered from chronic stomach trouble for over fifteen years and has paid out a good many dollars on medicine and doctors," said Mrs. M. E. Cantrell, mother of J. A. Cantrell, a well-known employee of the Santa Fe railroad shops, residing at 2211 Avenue B, Brownwood, Texas.

"He tried nearly everything looking for relief, but it just looked like nothing would reach his trouble."

"I don't guess there ever was a case as stubborn as his, and he finally developed a rheumatic condition which often times put him in misery. Finally his misery started bothering him, and I guess he would have been suffering yet if it hadn't been for this Osgate."

"The first we heard of this medicine was when a friend of his recommended it to him, and he knew what they said about it was the truth—so he got it right away and began taking it."

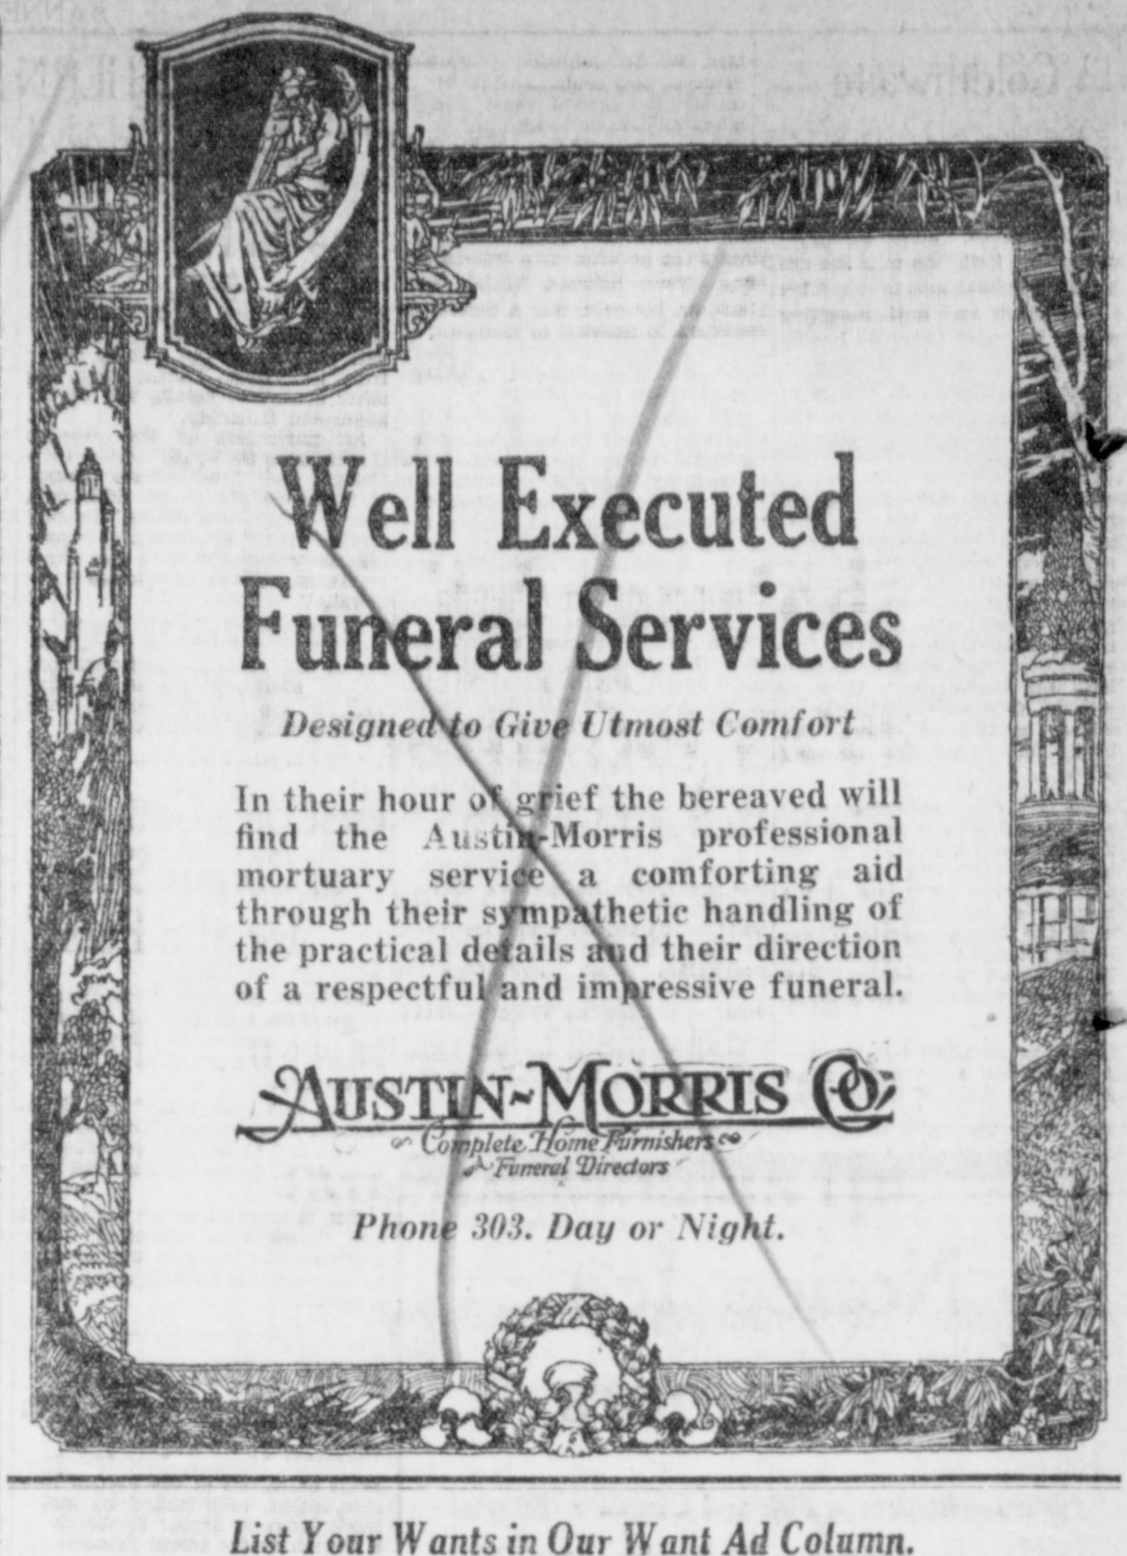

"Well, sir, it has acted like magic—and everybody notices the change in my son now—why, he is just like a different man, and sits down to the table and eats like a farm hand. He now goes about his work feeling fine and his rheumatism and kidney disorder has been greatly relieved."

"Now, when a medicine will do things like that I think people ought to know about it, and I want to say right now I would not give one bottle of Osgate for all the other medicines and health resorts in the country put together."

Genuine Osgate is not a so-called secret or patent remedy but a new scientific preparation and is sold in Brownwood exclusively by the Camp-Bell and Peerless Drug Stores, under the personal direction of a special Osgate representative. (adv.)

### NINE-ROOM RESIDENCE ON MELWOOD BURNED; CAR FIRE AT SAME HOUR

Two fires burning simultaneously in Brownwood shortly after midnight Monday morning taxed the capacity of the fire department, especially with so many of the men out of town attending the Galveston convention.

If the entire force had been present they could not have saved the nine-room home of Mrs. Ella Germany, 1105 Melwood Avenue, for when the fire was discovered the entire structure was aflame. Loss of more than \$5,000 in house and furniture was but partially covered by a \$2,000 insurance policy.

Mrs. Germany and others in the family were not at home Sunday night, and there is no evidence to show how the house caught fire.

At the same time this fire was at its height, a Ford roadster, owner unknown, burned to a total loss at the corner of Fisk Avenue and Fifth Street.

Doc Gill, emergency driver of the chemical truck, drove to the latter scene and put the fire out.

A real good car for your summer vacation. Same paint that originally came with the car. Practically new tires, runs like a new car. You will be surprised at the price we ask for it.

The Chevrolet Red "O.K. That Counts" Tag Protects Your Used Car Purchase.

Every reconditioned car we offer for sale is identified by means of the Chevrolet red "O.K. that Counts" tag. This tag is the purchaser's assurance that the car to which it is attached has been gone over carefully by expert mechanics—that it has been thoroughly reconditioned—and that the price is based on the car's actual ability to render service.

Due to the overwhelming popularity of the new Chevrolet Six, we have on hand at this time an unusually large group of these "O.K. d" cars. Come in! You are certain to find the car you want—at a price that will save you money. Make a small down payment and drive your car away!

### Goldthwaite

County Clerk L. B. Porter has issued quite a few marriage licenses the past few days. The young people are taking advantage of the new law soon to be in effect. Some have requested that their license be kept from publication for a few weeks.

Mrs. G. M. Norris of Blanket celebrated her seventy-first birthday here in the home of her sister, Mrs. Fuller, last week. Those present to enjoy the day with her were: Mr. and Mrs. J. R. Deen and Miss Annie Strickland of Blanket, Miss Jewell of Arlington, Jesse Deen of Brownwood and Tom Fuller of the Lake Merritt community. They all returned home Sunday afternoon, except Mrs. Norris, who will spend several days here with her sister.

The little two year old son of Mr. and Mrs. Harry Welsh, who drank some gasoline last week, is reported doing all right.

Mr. and Mrs. Tom Lasley and children of Breckinridge spent last Saturday night here with Mr. Lasley's parents, Mr. and Mrs. F. K. Lasley.

Mrs. W. M. Johnston, Professor Weaver was county judge of this county for several years and has many friends here, who are glad to have him visit them.

Mrs. Shockley of Denton is here to spend the summer with her daughter, Mrs. D. G. Bennett.

Mr. and Mrs. C. H. Ford went to Abilene last week-end to accompany their little granddaughter, Sarah Dell Scott, to Goldthwaite to spend the summer.

Postmaster A. J. Harrison announced through the columns of The Eagle last week that on July 1 the grade of this postoffice would be raised to second class. The volume of business the office here has is the reason for this raise. Another good sign of the prosperity of Mills county people.

### QUESTION OF A WOOL WAREHOUSE TAKEN UP BY LOCAL C. OF C.

The question of a bonded wool warehouse for Brown County was again brought up before the directors of the Chamber of Commerce at the Monday noon luncheon at the Southern Hotel, and the committee which has been working on the matter was instructed to go ahead with its work of trying to have one established here.

Brooke Ramey brought up the idea of a city slaughtering plant, naming several Texas municipalities having such and the advantages of one. This matter was referred to the industrial committee.

E. J. Weatherly, chairman of the membership committee, reported that Rex Gaither has been employed by this committee for a period of two months to devote his time to increasing the membership of the body and make collections.

### ARE SOUTHERN STATES THE "SHAME OF THE NATION"?

In a scathing reply to the editorial of a Chicago newspaper, quoted as pointing the finger of shame at the South, Holland's, The Magazine of the South, in the current issue says: "Utter and amazing ignorance, not only of the South but of our country as a whole, is revealed in a recent editorial in the Chicago Daily Tribune entitled 'Public Life in the Sticks States,' which takes note of Louisiana and her political problems, of Oklahoma's impeachment trials of the 'Ma' Ferguson episode in Texas, and of Bilbo of Mississippi—but which does not mention, oddly enough, Al Capone or Len Small of Illinois—and goes on to say that the Southern states are remote from centers of commercial activity, culture and learning, and are the 'shame of the Nation.'"

"After the first wave of surprise at a so gross display of sheer ignorance, we are amused at being termed the 'shame' of anything by a newspaper in such an abominable Chicago, with its putrid politics, its guarded elections, its gangster-ruled streets, its St. Valentine's Day slaughters, its beer 'barons,' and its neighboring Herrins and Ciceros. Political disputes in the Southern States at least are settled in courts of law, and not with machine guns. The Southern States have no unseated United States senators, nor does any of their senators send a floral offering and his personal card to a gangster's funeral.

"The South, in six years, increased its manufactured-products values from \$600,000,000 to more than \$1,200,000,000. In the same six years, manufacturing values in the rest of the country decreased \$279,509,000. Southern ports handle 42 per cent of country's water-borne tonnage. Over 61 per cent of all active cotton spindles in the Nation are in the South. Such facts as these are endless. If this be remembrance from commercial activity, make the most of it.

"The South was steeped in culture and learning, and its cities were the sites of recognized colleges and universities, more than three-quarters of a century before Chicago came into existence. Its first college was founded over 140 years before Chicago, was founded, there already were 40 universities and colleges in the South—as against only 20 in the Middle West and 36 in the remaining states. Two of the Southern colleges were in Louisiana and Mississippi.

"The second college founded on American soil was in a Southern

state, according to the learned Tribune, remote from culture and learning.

"Of the two scores Southern universities founded while Chicago was still but an idea in a trader's mind, one was Wesleyan, in Macon, Ga., the oldest woman's college in the world, and the first to award a degree to a woman. Subsequent Southern colleges, preceding Chicago's first, included the famous Baylor in Texas, in 1845—Baylor College for women and Baylor University.

"Today, there are in the Southern States 189 recognized colleges and universities. The Middle West has only 116. The remainder of the country has 275.

"In justice to the Middle West, the North, and the East, it should be understood and stated that this ridiculous editorial in the Tribune does not reflect the attitude and opinion of the public in these sections toward and regarding the Southern States, but is actuated probably by jealousy and is indicative of a narrow policy that has characterized the Tribune's attitude toward the South for many years. Business men in Chicago and the Middle West, know its utter falseness, and it is to the interest of

those same business men—many of whom seek Southern patronage—to see that such misstatements are not circulated in the future.

"If the editorial writers for the Tribune are weary of roasting murders, gang fights and bootlegging in Chicago—as they have reason to be—and are merely seeking a new subject, we suggest that they choose one on which they have more information. A little knowledge is a dangerous thing, but none at all is gross ignorance."

### Low Commends Work by Sheriff In Liquor Cases

R. M. Low says that since there has been some commendation and some criticism of Sheriff Denman's work against the bootleggers, he believes all good men should come

out squarely in support of Sheriff Denman's efforts. He believes that this will be a critical year so far as prohibition is concerned, nationally as well as locally, and everything that can be done to stop the traffic, is just that much good done. Mr. Low commends the sheriff and his deputies, and hopes that they will continue the good work until bootlegging gets to be an unpopular business in Brown county.

# POLICE DEPARTMENT IS READY AT ALL TIMES TO ENFORCE THE LAWS SAYS CHIEF GUILLIAMS

Chief of Police G. A. Guilliams today gave The Bulletin the following voluntary statement, addressed "To the Citizens of Brownwood":

In answer to the remarks made in Saturday's Bulletin by Sheriff Denman, directed at the police department of Brownwood, I feel that it is necessary in all fairness to myself, my men and to the public generally that the true status of the situation insofar as the police department is concerned, be given publicity.

I do not desire to engage in any newspaper controversy and regret that Mr. Denman's direct attack forces a public reply. But to fail to reply would be unfair to all so will say that in the first place the police department of Brownwood is now and will continue to be as long as I am at its head, ready at any and all times to enforce the laws in any honorable way.

He states in regard to the numerous raids made recently that we "have not turned our finger" to help him. Let the public know that during this entire time, Mr. Denman nor his deputies have not called upon or invited the assistance or cooperation of the police department.

On the other hand, we have turned over quite a number of cases to the sheriff's department, and have upon occasion handled cases which probably should rightfully have been handled by them. This despite the fact that Brownwood with its hundreds of cars, narrow streets and numerous traffic laws, is a big proposition to handle in the matter of vehicle traffic alone, besides the many other laws and ordinances pertaining strictly to the city and which come under our direct supervision.

But in regard to the methods used in the recent liquor raids will say "special officers" to go around and buy liquor from bootleggers, I have

had no one to hand me any money with which to employ such men or to buy liquor, nor does the city of Brownwood furnish any fund for such purpose. The members of the police department are all on straight salary, and are all uniform. Furthermore they are all known to citizens of Brownwood. Therefore it seems unreasonable to me that any one should expect to take money out of our modest salaries to employ outside help and to buy liquor with. And as all men are in uniform no one should expect a bootlegger to sell them liquor.

And right here let me say that while the police department of Brownwood has conducted many raids so far as I know, there have never been any "threats of death" or "threats of whipping" nor any other kind of threats because of such enforcement of the law.

Mr. Denman makes a statement in regard to one of my men questioning one of his deputies as to his authority for carrying a pistol and states that at the time the deputy was surrounded by bootleggers who were trying to bully him.

One of my men did ask the party evidently referred to as to his authority for carrying a gun, as he did not know that the man was an officer, and it is certainly not only the privilege of a policeman but his duty as well, to question any man who has on a gun. If he does not know that he has authority to carry one.

The implication that my man in a way was taking sides with the "alleged bootleggers" as against the deputy is entirely unjust and not borne out by the facts. For as a matter of fact the policeman in question thinking that a fight was brewing, stepped in and told all parties there that there would be no fighting or disturbing the peace while he was there. That the policeman did not know the man was one of Mr. Denman's deputies is certainly not his fault, as he had not been introduced to us, and where new men are employed, how is it to be known until we find out.

Mr. Denman further makes a statement about one of his deputies being arrested by this department, alleging similar circumstances. The facts in this case are that a private citizen (not a policeman) came to the city hall and turned in a complaint against the deputy, alleging assault. This complaint was afterwards dismissed, and the complaint on which the deputy pleaded guilty was a traffic law violation, and Mr. Denman himself came around to the city hall and paid the deputy's fine.

Now, we have tried to enforce the law to the best of our ability and will continue to do so. And while we desire to work in co-operation with all law-enforcement officers, we are not attempting to dictate to the sheriff's department, and do not care to have them attempt to dictate to us.

But it may be possible that the reason the present sheriff does not work in closer harmony with us and us with him, is not one of a fault of the police department. Many citizens remember that when Mr. Denman was sheriff before, Brownwood had one of her best and most efficient chiefs of police, who has since died. Those who remember have not forgotten that Mr. Den-

# HIGH PER CENT OF TEACHERS HERE REMAIN WITH POSITIONS

Of the 93 teachers in Brownwood Public Schools at the close of the 1928-29 term, only three will be missing when the doors of the city schools are thrown open for the 1929-30 term, it was disclosed by E. J. Woodward, superintendent, Saturday. This announcement followed a meeting of the school board Friday afternoon, at which time one new teacher was elected, this teacher being Miss Lois Stampet, of Mineral Wells. Miss Stampet was elected head of the Home Economics Department Brownwood Senior High School.

**New Building Accepted**

In addition to electing Miss Stampet, the school board officially accepted the new Southside Ward school, as built and delivered by A. C. Bratton, Brownwood contractor. Although the exact cost of the building has not been determined, Superintendent Woodward states that the cost is considerably less than any bids submitted last year called for. In addition to this, more work was done than was called for, thus it is revealed that a saving of several thousand dollars has been realized by the school board, it is stated. The new building is now being furnished and will be in readiness long before the next school term opens.

**List of Teachers**

The complete list of teachers for Brownwood Public Schools, arranged alphabetically, follows:

E. J. Woodward, superintendent; Mrs. Ruby Ables, Miss Pauline Adams, Miss Nellie Anderson, Jack Bane, Mrs. Jack Bane, Miss Ina Barlow, Miss Winnie Basham, Miss Virginia Bell, Miss Ione Bettis, Miss Robert Blackwell, Miss Grace Boon, Miss Beatrice Bucher, Miss Lizzie Bullion, Miss Lillian Burleson, Miss Beryl Burnett, Miss Frances E. Cannon, Miss Ruth Cole, W. P. Cooke, Miss Carol Cox, Miss Lois Cox, Mrs. R. Davenport, Miss Ida Day, Mrs. Joy Dean, Miss Mildred Devenport, Mrs. Hazel Downs, Miss Clara Drey, Miss Ethel Eller, Mrs. E. Cecil Evans, Miss Pearl Favor, Mrs. C. E. Florey, Mrs. Ed A. Franke, Mrs. Mayme L. Gore, Miss Marjorie Gresham, Miss Edna Germany, Miss Pansy Hamilton, Mrs. H. Tracey Hayes, H. T. Hayes, Mrs. Ruby Hilley, Mrs. Herman Hughes, Miss Golden Jones, Miss Dorothy Key,

**DIPLOMATIC RELATIONS BETWEEN CHINA AND SOVIETS MAY END**

NANKING, China, June 12—(AP)—Severage of diplomatic relations with the Soviet government was discussed today by an important conference today between General Chiang Kai-Shek, Foreign Minister C. T. Wang and others.

The situation arising out of Chinese raids on Soviet consulates in Manchuria, particularly that at Harbin on May 27th was considered in detail.

Phi Beta Kappa's Origin

That times change is demonstrated by Phi Beta Kappa, honorary scholastic fraternity. It was founded at Yale in 1776 as a "select debating society, with initiation suppers where the juice of Bacchus flows.

**Bells Not Always Cast**

The earliest bells were probably not cast, but made of plates riveted together. An example is St. Patrick's bell preserved at Belfast, Ireland, which is 6 inches high and adorned with gold and silver filigree work. It is believed that it is this bell which is alluded to in the Ulster annals of 1552.

**Justice**

We can drive a spone upwar for a moun: into the air, yet it is true that all stones will forever fall; and whatever instances can be quored of unpunished theft, o a lie which someb, by credited, justice must prevail, and it is the privilege of each of us to make itself be feved.—E. H. C.

**ANNOUNCES NEW COTTON PLAN**

DALLAS, Texas, June 11—(AP)—The Farmers Marketing Association has adopted a new plan for handling cotton, W. B. Yeary, president, has announced. The program was agreed upon at a meeting of directors of the organization here June 3 and 4.

The directors contracted with H. H. Wolfe, cotton factor, to act as general sales agent for all of the association's cotton, and a director of organization work was employed. Under the new plan the organization, which has a state charter, will contract with individual farmers for the sale of their cotton, each such farmer automatically becoming a member of the organization.

**The Contract**

The contract which the farmer is to sign reads in part:

"All parties who accept this proposal of the association hereby agree to deliver all or a part of association hereby agree to deliver all or a part of their cotton to the association for sale, which cotton will be warehoused at interior towns where owners reside, or shipped to the association at Dallas, Houston, Galveston or other points designated by the association. This may be done by local organizations or by individuals.

"The owners of cotton accepting this proposal to agree to furnish the association promptly with samples, which cotton will be sold or held in accordance with and under the instructions of the owners.

"Owners of such cotton who wish to borrow money against their cotton will agree to communicate with the association and arrange finance upon such terms as the association may set forth from time to time.

**Deposit Required**

"Owners of cotton accepting this proposal agree to leave on deposit with the association the sum of \$2 per bale out of the proceeds of each bale sold by the association, with the understanding that the actual cost of handling and selling will be paid out of that \$2, and the balance placed to the credit of the owners of the cotton on the books of the association to be used at the discretion of the directors, for the purpose of creating a permanent financing and marketing system for the handling of cotton."

**Hereditary Bugbear**
