LET'S GO WHOLE HOG!

"After official Washington gets over fawning over the Bloody Butcher of the Kremlin," writes Mr. Charest, "we have a few suggestions to make to the nation's capital social and political leaders.

"Number 1: There should be an official Jimmy Hoffa Day. This bird should be flown into Washington in a jet, met by the President and official party and there should be a gala affair at the White House with Sen. John Kennedy and his brother Bob as co-hosts. Hoffa's muscle-men should be honored with a cocktail party preceding the White House affair.

"Number 2: J. Edgar Hoover should be asked to supply a list of the ten most wanted criminals in the United States. They should be granted amnesty long enough for them to be honored in Washington and then scramble back to their respective rat-holes.

"Number 3: About 100 of the nation's most desperate and despicable convicted murderers should be selected to be honored

in a special "Be Kind to Murderers Week". Following a week of wine and dining, they should be taken on a tour of the principal cities and allowed to make short talks on "Who Said Crime Doesn't Pay, Youse Guys?"

"Let's not be pikers if we're going to toss away our self-respect as a nation, let's go whole hog."

WE COULD STOP KHRUSHCHEV

In the same speech in which he promised to "bury" us, Nikita Khrushchev, alias "Hangman of the Ukraine", alias "Butcher of Budapest" and widely considered to be the foremost killer of modern times, also said something else of current interest.

He said: "If you don't like us, don't invite us to come and see you."

A telephoned bomb threat to the offices of the crusading anti-Communist magazine American Mercury boomeranged last week when it reminded Publisher Russell Maguire of these words. After the New York City Police Department's harried bomb squad had checked the building and reported no sign of "a bomb that will go off at 10:30 a.m.", Mr. Maguire reserved space in a Chicago newspaper and wrote an ad. In it, he outlined ten specific ways in which his fellow citizens might get word back to Khrush that they don't like him—and in terms designed to negate the shocking invitation issued without sounding out public sentiment or consulting with the people's elected representatives.

Mr. Maguire urges immediate action so there will be time for word to get back—as it did from courageous little Sweden—that will stop iniquitous Nik.

He urges his fellow citizens to organize, to employ all the known tools of publicity and campaigning, to protest through every organization to which they belong, to conduct parades or hearses or simulated coffins with placards listing Communist atrocities. Among the suggestions: "17 Countries and 800 Million People Enslaved", "160,000 American casualties in Korea" and "40 Million Russians and 60 Million Chinese Liquidated by the Communists", with the overall slogan "STOP KRUSHCHEV!" (he recommends the simplified spelling) dominating every demonstration and posted wherever people may see them, carried in car windows and used on postal meters.

The American Mercury ad asks us all to wear black mourning bands "until Khrushchev cancels

his scheduled visit" and to fly our flags at half-mast. At noontime all the churchbells in America should be tolled for 13 minutes, and all automobile horns and factory whistles should sound off for 30 seconds.

Publisher Maguire hopes for "a nationwide protest so vast it can not be ignored—a tremendous wave of public indignation that both the White House and the Kremlin will recognize as the true voice of the American people".

It could happen, and it should. And if it does, you may be sure that Russia's alert Tass News Service will pass the word to Moscow, fast. And for such a callous killer, Khrushchev has a very thin skin. Mr. Maguire is right in his conviction that Khrushchev could be stopped.

SHALL THE PEOPLE GOVERN?

The President went to the crux of the labor legislation problem when, in a nationally broadcast speech, he said: "In the basic sense, the issue is this: Shall the people govern?"

The President also said: "It is my earnest hope that Congress will be fully responsible to an overwhelming national demand." If Congress fails in this, it will amount to dereliction of duty of the most dangerous kind.

The President cited specific examples of labor violence, and of the use of "blackmail" picketing designed to force workers who did not want to join a union, to join. Of such practices, he said: "I want that sort of thing stopped. So does America."

Goons and thugs have been used to enforce union demands.

Gangsters have slipped into official union positions. Union treasuries have been looted. Free speech and free elections have been denied the rank-and-file. The secondary boycott and black-mail picketing can and often are used to dictate union terms on an "or else" basis.

The President said it all in four words: "Shall the people govern?"

Competition

The manager of a department store put this notice in the window: "If you need it, we have it."

But in the window of a rival, a sign appeared stating: "If we don't have it, you don't need it."

Safety Note

Sign near small town: "Slow down and live. This is a one-hearse town."

Scouts Have Outing With Field Mass And Court of Honor

More than a hundred persons were out early Sunday morning to attend the 8 o'clock field mass which was a highlight of the Muenster Boy Scouts' holiday weekend outing at Ben Voth's lakesite southwest of town, and remained to witness an open air court of honor which followed.

Father Christopher Paladino read the mass with the Scout Troop in full uniform standing at attention. Father Christopher also had the sermon, directing a part of it to the boys and commending the Boy Scout movement.

In the court of honor Scoutmaster Nick Miller announced advancing Scouts who escorted their mothers before the altar where the boys received their badges and pins and their mothers received miniature duplicates.

The ceremony included Tenderfoot, Second Class, First Class and Star Scouts.

A delicious big breakfast for Scouts and their parents was next on the program. Mrs. Nick Miller and Mrs. Joe Lehnertz

prepared the meal at the camp. The group of diners put away 12 dozen scrambled eggs, 18 pounds of fried bacon, 25 pounds of brown hashed potatoes, lots of jelly, stacks of bread, dozens of doughnuts and gallons of coffee.

The food was cooked on a rustic stove fashioned by the Scouts who also built the altar for mass. The area is covered with a green ceiling of tree tops, and wind blowing over the lake provided natural air conditioning. Red and white zinnias adorned the altar and crystal hurricane lamps held the candles for mass.

A Final Demonstration Climaxing Ford's 3 Years and 3 Million Miles of Research and Development on the New Ford Falcon ...

EXPERIENCE RUN, U.S.A.

A fleet of Falcons is going to undergo a final exhausting test ... over every single mile of numbered U.S. Federal Highway ... along a crisscross route that will include the ups and downs of two major mountain ranges, the challenges of every type of roadway and thruway, main street and boulevard.

Next Experience Run Drivers Report on NBC Radio MONITOR! Weekends!

THIS VERY MINUTE... THE NEW-SIZE FORD IS ON ITS WAY TO YOU!

The Falcon, the New-Size Ford, already is the most thoroughly tested and proven new car in history. This week the new Ford Falcon starts EXPERIENCE RUN, U.S.A., over every mile of numbered U.S. highway

This is not a test run in the ordinary sense of the word. For in its 3 years of development and over 3 million miles of proving, the Falcon has already passed and repassed every kind of test that could be devised.

It's been dust-tested, heat-tested, and endurance-tested on the test track at Kingman, Arizona. Wind-tested and rain-tested in the 300 mph wind tunnel at the University of Maryland. Shock-tested, curve-tested, brake-tested, noise-

tested, paint-tested, stability-tested, service-tested ... everything-tested on Ford's own proving grounds. The Falcon has already proved to engineers that it takes anything they can dish out.

Now, Experience Run, U.S.A. will show you what the Falcon can do over your kind of roads.

How many miles to the gallon? Records will be kept of every drop of gas used. Better gas mileage? The Falcon will average up to 30 miles per gallon!

On October 8, the New-size Ford will be at your Ford Dealer's ... for you to experience. See your Ford Dealer today for more information on the Ford Falcon.

an absurd idea! Where did they ever get the notion that their sworn enemy has any claim to their attention? Let's hope that someone up there will have the spunk to deny him that privilege.

Thank goodness there are other plans also to observe his presence in this country. Many will appear before the butcher wearing mourning bands for the thousands of Hungarians killed by his order. Many will observe his visit by a day of prayer for those he killed and enslaved. Despite official recognition Khrush will have the opportunity to learn what the average American thinks of him.
