

### SEATS SELLING FAST FOR "HIT THE DECK"

Tickets went on sale yesterday for Vincent Youmans' musical comedy success of two continents and if present indications count for anything, the engagement should be sold out before the arrival for its local showing at the Lyric Theatre, Tuesday, February 5th.

#### Within the Reach

Of every woman—health and strength. They're brought to you by Doctor Pierce's Favorite Prescription, which is sold by druggists. It will build up strength and invigorate the run-down, nervous or delicate woman. One who has used it remarked: "I think Dr. Pierce's Favorite Prescription is the best tonic a weak woman can take. I had a long spell of sickness, was in a very nervous state, got so weak that I could scarcely be on my feet. I took Dr. Pierce's Favorite Prescription and it relieved me of all my troubles. I never took a medicine that did me so much good."—Mrs. J. C. Cromwell, 145 N. Calhoun St., Fort Worth, Texas.

For local presentation of "Hit the Deck," Mr. Youmans has provided a production which is an exact duplicate of the original Broadway company. There will be a cast of notable favorites headed by Marjorie Crosby and including Edward Garr, Sunny Dale, Katherine Bingham, Ernie Mack, Betty Benton, Rita Carita, John Robb, George Scully, The Mannequin Four, Lois Landis, Dan De Leo, Butler Middleton, with a double male quartet, and a singing and dancing chorus of Broadway splendor. An augmented orchestra is carried by the company to assure music lovers of a worth while musical comedy presentation.

But these by no means are the high lights for some hits are the score boasts of twenty odd alluring members, among which are "All the Navy," "What's a Kiss Among Friends," "Harbor of My Heart," "Looloo," "Nothing Could be Sweeter" and "If He'll Come Back to Me."

### NEW TENANTS MOVING INTO BANK BUILDING

Only a few offices in the new Citizens building remain unleased, it was learned from Chester Harrison, active vice-president, Wednesday, as he was making plans for the reception of the tenants. Some businesses have already moved in and while only a few touches, a few details of finishing and decorating have yet to be done, the workmen will not be in the way of business.

The four office floors of the building are equipped with the latest ideas and the heating, ventilating and cooling is of the best. A York cooling system is used, a Dunham vacuum heating system has been installed and all rooms have ceiling fans.

A high speed Otis elevator will carry tenants and visitors to these floors, and a Cutler mail chute will take care of the mailing problems. A marble elevator entrance is about finished; all woodwork is of hardwood, finished in light walnut; hardware is of solid brass and the interior walls are both sound and fire proof. T. E. Truick has been appointed as building superintendent.

Of the tenants announced by the building owners, of course the first two floors, the second being a mezzanine, will be used by the Citizens National Bank. This part of the structure is the last to be completed and the bank people will announce soon the date of moving. Lon L. Smith will have a cigar and news stand in the elevator lobby, and the Brown County Abstract Company will occupy the one-story part of the building at the rear on Lee Street.

**Disturbed Sleep is Nature's Warning of "Danger Ahead"**

Mrs. J. N. Alexander, Sudden, Okla. Says: "I will tell you how for 20 years I was bothered with burning and bladder aching 10 to 15 times each night. How I was relieved with Lathrop's Buchu-Kellogg Formula." I act on bladder as epsom salts do on bowels. Drives out foreign deposits and lessens excessive acidity. This relieves the irritation that causes getting up nights. The tablets act 20 hours at all drug stores. Kellor Laboratory, Mechanicsburg, Ohio or locally at Camp-Bell Drug Store. (day.)

of the four floors above the bank. Oil concerns come second and real estate offices, and attorneys vying for third place. The following firms and professional men have leases in the building:

Third floor: T. W. Power, Carpenter & Wood, W. H. Daniel, R. V. Muse, Doctors Joe E. Dilly and H. Lobstein, and Dr. B. E. Bell.

Fourth floor: Prairie Pipe Line Company, Humphreys Brothers, The Brownwood Dental Laboratory, Gibson Oil Corporation, Western Motors Finance Company, Dr. W. E. Corbin and Dr. E. L. Maxwell.

Fifth floor: Paramount Oil Royalties, Inc., W. R. Roberts, Dr. T. B. Bailey, Callaway & Callaway, Dr. Charles W. Gray, Lincoln National Life Insurance Company, W. L. Ferrill, Janelen Oil Company and the Brownwood Beauty Shop.

Sixth floor: Crown Oil Corporation, Hart Gas Company, Lucky Six Oil Company, Sweet and Nabors, Dr. Ned Snyder, Dr. E. A. Fowler, Dr. A. L. Anderson, Dr. John Snyder and the Brownwood Producing and Refining Company.

### A 20 PERCENT CUT IN SCHOOL AID MONEY IS ANNOUNCED TO COUNTY

A twenty per cent cut in state aid grants has been announced by S. M. M. Mares, county superintendent, in a letter received Thursday by J. Oscar Swindle, county superintendent. This cut is a result of an increased number of schools in the state qualifying for state aid this year, he said. The letter, dated at Austin on the 29th, follows:

"I am sending you this very important letter informing you that on account of the increased number of schools qualifying for state aid for the year 1928-29, which is the current year, it will be impossible for us to grant the full amount approved to each school by the rural aid inspector. The best estimate which we can make at this time is that 80 per cent of the amount promised can be paid.

"You will, therefore, receive during the month of February this percentage of the amount approved for your rural aid schools. For example, if the rural aid inspector has approved \$500 for a district in your county, you will receive 80 per cent of this amount which is \$400. The legislative finance committees have already approved an emergency appropriation of \$175,000 for the year 1927-28 and \$200,000 for the year 1928-29 for the purpose of paying the high school tuition accounts in full, but these two emergency appropriations have no relation whatever to this deficiency in the rural aid fund proper. It will require an additional \$300,000 to pay the rural aid allotment in full this year. Of course, I cannot advise you as to

probability of this emergency appropriation being made. The only equitable solution of this problem is to scale all of the rural aid appropriations so that the grants will come within the \$1,500,000 set apart for this purpose.

"I suggest that you immediately notify the trustees of all of the rural aid schools of your county that the allotments will be scaled and give as wide publicity as possible to this information."

Another letter from Mr. Mares calls attention to the fact that in many independent school districts teachers have neglected to file their certificates for registration with the county superintendent.

With regard to the cut in state aid appropriations Mr. Swindle does not think it will affect the forty state aid schools in this county to any extent. He said the inspector has not yet been here and that when he does come he will make his report taking into consideration the above cut.

Very few of the teachers in this county have not filed their certificates as yet with the county superintendent. Mr. Swindle wanted to know that city teachers as well as those in rural schools have to file these certificates with the county office.

**Curious Fish**  
The swell fish can fill its body with water or air, in balloon fashion, making it a difficult object for an enemy to seize.

### JOHN DEERE IMPLEMENT CONCERN HAS FORMAL OPENING NEXT WEEK

The new John Deere sales agency will hold a formal opening all next week in their quarters in the Looney warehouse across the street from the court house, it was announced on Thursday by W. G. Locker, owner of the W. G. Locker Company. The week will be known as John Deere week.

A total of \$40,000 in stock is carried in this warehouse, which was recently remodeled and leased by J. E. Looney to the implement concern. Power farm machinery, the latest wrinkles in modern farming tools, will be on display and a practical demonstration of a power feed mill will grind away during the week.

To aid in this firm getting started Mr. Locker will have the assistance this next week of two men connected with the John Deere firm, J. P. Thomas of Dallas and the local representative, C. A. Vaughn of Brownwood.

The new concern will be open for business Friday of this week, all the stock being in the warehouse and is now being arranged for display.

It is an awful thought for every man that his early influence will never, through all the ages, have an end.—Aughley.

## AIR TRAVEL IS GIVEN IMPETUS

DALLAS, Jan. 29.—(P)—Impetus was given development of aviation in the southwest yesterday by announcement of the first regular air-rail transportation between California and the east, and announcement of establishment of an airplane factory here with a production schedule the first year of 300 machines.

Air-rail transportation to the Pacific coast will be inaugurated Monday the Texas & Pacific Railroad and the Standard Air Lines, Inc. Travelers making the Journey between California and eastern points will have the opportunity to cover the distance between El Paso and Los Angeles by plane. Frank Jensen, general passenger agent for the railroad, said west bound passengers arriving at El Paso at 8 a. m., on the Sunshine Special may board a plane there at 9, and arrive at Los Angeles at 4:30 p. m. arriving El Paso at 9:30 p. m., mounting time in ample time to board the Texas, leaving there at 7:15 p. m.

## AGRICULTURAL TEACHERS HELD MEET IN COLEMAN

Discussing the methods of teaching vocational agriculture and the success of the various methods used entertained the minds of nine such teachers at a meeting held in Coleman Saturday. J. T. Stovall, vocational agricultural teacher of four classes in Brown county attended. E. V. Cook of Coleman sponsored the meeting and led the discussions. A luncheon was given the delegates by the Coleman Chamber of Commerce.

## MAN ALLEGED TO HAVE STOLEN GROCERIES IS ARRESTED BY OFFICERS

Eliz Roughill, Mexican, was arrested Tuesday morning by city officers, C. M. Collier and Ben Small, just as he was preparing to get out of town with alleged stolen groceries amounting to about \$5 in value. He was apprehended as he was starting to drive his small car from a parking place. The groceries alleged to have been stolen were found in the car and consisted of canned goods.

## To Keep Cocoon

Cocoons should be kept out of doors, where conditions as nearly as possible are similar to those they pick themselves, says Nature Magazine. Protection with netting will prevent destruction by birds. Freezing is not detrimental, and is even necessary to some species, and the dampness of the out-of-doors is desirable.

## WOULD HAVE LIGHTS ON

AUSTIN, Jan. 29.—(P)—Romantically-inclined young couples whose habit has been to stop the family automobile on a moonlit road, turning out the lights and whisper the law designed to halt this practice. Representative Jack Keller of Dallas has introduced a bill which would require all vehicles to burn both front and tail lights, regardless of whether the conveyance is moving or not.

## A ROBBER IN THE FLOCK

Roup May Wipe Out a Whole Season's Profit If Allowed to Gain Headway, Says Dr. L. D. LeGear, V. S., of St. Louis, Mo.

"The best way to cure roup," sagely remarked an old timer in the poultry game, "is never to have it." That may sound like a very weak attempt to be funny, but it is gospel truth. Contagious diseases such as roup do not fall willy nilly from the heavens on some whimsical freak of fate. The way is usually paved for them by the lack of adequate sanitation, improper housing facilities, incorrect feeding, failure to cull out revealings, the weakening effect of parasites, or by some other form of neglect.

Healthy, robust fowls, properly fed and housed in sanitary surroundings, will almost always throw off the germs of disease. Even when they do not, however, their rugged constitutions make the success of treatment practically certain.

Acting on the idea of prevention as the best cure for roup, I never add new fowls to my flock until they have been kept in quarantine from two to three weeks. Even if it is practically sure that the birds come from an uninfected flock, this is a wise precaution.

Watch young and delicate birds very closely as they are most susceptible to the deadly roup germs. The same is true of fowls suffering from common cold or catarrh. The throat and nasal passages, being already sore and inflamed, are easily infected. Sick birds, no matter what the ailment, should always be isolated. They can be much more effectively treated when away from the flock and they cannot contaminate the healthier ones if the disease should prove to be contagious.

Should any of your flock begin to show symptoms of roup, no time should be lost in starting measures to prevent further spread. All houses, pens, coops and runs should be thoroughly cleaned and sprayed with a strong solution of a good coal tar dip and disinfectant. Droppings, litter and trash of every description should be removed and burned. All unnecessary equipment of every kind should be removed from houses and yards. Every piece of equipment for supplying food and water should be scrubbed and disinfected. All this sounds like work and it is, but the saving is decidedly worth the work required.

As the broods of this deadly disease have been known to wipe out as high as 95 per cent of a flock, every owner of a poultry flock should learn to recognize the symptoms. At first they are much like those of a simple cold or catarrh, but more fever, fullness, prostration and loss of appetite. First symptoms are a watery nasal discharge, difficult breathing with wheeze sound and constant shaking of the head to dislodge accumulated mucus.

After two or three days the discharge from the nose becomes thicker and gives off a characteristic offensive odor. The nasal passages then become so clogged that the bird must breathe through its mouth. A discharge will also run from the eyes. This discharge gradually becomes thicker, causing painful swelling below or in the eye which often destroys it. As it hardens, this discharge may cause the eyes to be completely pasted shut and may gather in such quantities that the head is swollen to twice its normal size. Quite frequently these deposits will press down the roof of the mouth so that the fowl cannot swallow. In some cases there is a canker deposit of yellowish matter on the tissues of the mouth and throat. It is easily removed, however, and should not be confused with a deposit of similar appearance which is a symptom of diphtheria.

As soon as any fowl is known to be sick, put it at once to itself as far from the flock as possible and give it one full teaspoonful of epsom salts to remove cold and fever from the system. If the bowels have not moved by the following day, repeat the dose. Give one roup pill night and morning. Wash the affected eyes, nose and mouth once a day with a solution made by mixing one teaspoonful of dip and disinfectant in one quart of warm water. Soak head, eyes and all into this solution each time. Roup will often yield to treatment if caught in time, but each case must be handled individually and more detailed instructions are required than the space allowed for this article will permit.

As a measure of protection for the balance of the flock, after infected birds are removed give epsom salts in a wet mash. Give one

VOL. NO. 48 BROWNWOOD, TEXAS, THURSDAY, JANUARY 31, 1929 NUMBER 5

## KGKB FORMAL OPENING FRIDAY NIGHT

### BROWNWOOD'S FIRST RADIO BROADCAST STATION TO OPEN WITH FOUR HOUR PROGRAM

Brownwood's own radio broadcast station, KGKB, will make its formal bow to the public in a four hour program Friday night, at which time all available artists in this community will be gathered for the fun.

At 8 p. m. to midnight these people will submit their best to the critical invisible audience, and from that time on the new station will be on the air at regular intervals each day.

This station has been on the air for a week previous to the formal program to be given tomorrow night, tryouts of local talent being given and the station thoroughly tested.

KGKB is a 100 watt station recently brought here from Goldthwaite, where it has been operating since last June on 50 watts. The transfer to Brownwood was due to the work of the local Chamber of Commerce, Buz Canon and E. J. Weatherly sponsoring the idea.

It will operate here on a 209 meter wave length, or 1,500 kilocycles. Local listeners will not have any trouble in tuning it in, and from letters from long distances from this city already received it has been proven that the station will have a far reaching influence.

Only Tuesday the station received a letter from Hokah, Minn., where some fan had heard KGKB.

### BROWNWOOD Through The Knot Hole

By R. E. Marks

We have lived at a time when radio was pronounced, that is the first syllable, as in radish. That means we are getting quite old.

This "Flat-Head" announcer of KGKB—Gus Oberhaus—is his name—is just a country boy who likes to be heard and not seen. We often wonder what kind of a kick he gets out of talking at all hours to an unseen audience.

There is one fellow at this station who turns little dial, which "puts the station on the air." This chap had to get a license to turn the knob, and by the terms of his license he is first class, so that's all right with us. His name is Lee Wilkinson.

There is one other man on at this station, an E. Wilson. He is a newspaper man backslidden, that is, he dropped newspaper work to go on the air. He is the owner and manager.

Our better 89 and 44-100 percent knows more about radio than we do about airplanes, and that is going some without boasting.

We always thought Buz Canon, who sells R. C. A.'s and Atwater Kent radio sets, had the Buz as a nickname. But on inquiry—personal—we found that was his real name. Buz is a great fellow as a man. Buzz-2-2-2 is a poor thing in a radio program. However Canon's sets do not do that way.

Alton Stewart is a handy man to have around a store. In Austin, Morris place of business he is in charge of sales and service, installs the Kolster sets and does repairs in the shop in the back. They say he knows radio to a fault.

Claiming to be the oldest radio dealer in town, C. H. Gilliam seems to carry his record well, and continues to sell Majestic sets without a slip. Knows all about amperes, kilocycles, and we understand, also about cycles. Wonder what this thingamabob thing is in my set?

Then there is Bob Bingham, who makes 'em play when they get contrary. Bob got his radio training in Chicago, but when the gangsters got too handy with their pineapples there he came back to Texas and is doing radio engineering work now on all kinds of sets, including the mail-order kind.

We sign off, because it is too deep for us.

### "KOLSTER" ON A RADIO SET LIKE "STERLING" ON SILVER

The word "Kolster" in the radio world means much. Dr. Frederick A. Kolster and his company have contributed to the science many instruments of such precision that they are used wherever the best in radio is needed.

Possibly the name is better known among professional radio people than it is to those who sit at home and receive radio broadcasts. Much of the equipment used in the navy is made with this name as a trade mark, and stations far flung about the earth were manufactured by the Kolster Radio Corporation of Newark, New Jersey.

Just recently the largest commercial radio station in France, the Lafayette, was erected under the personal supervision of Mr. Kolster and all instruments were made by his firm. There is a radio compass

### Oysters Make Mischief

Wireless under-water experiments off Hatteras, North Carolina, had to be abandoned because the oysters "hummed." The delicate mechanism was put out of gear by the oysters' noise, which resembles a person humming a tune.

### Weigh-in After Wedding

At a wedding celebration at Schotten, in Hesse, Germany, the guests were weighed before and after the feast. One man put on five pounds and several others three pounds. The total increase of weight of the guests was nearly 154 pounds.

### Paavo Nurmi to Get Real Test Tonight

NEW YORK, Jan. 31.—(AP)—Finland's speed king, Paavo Nurmi, has shown that he can beat America's best distance runner from scratch, but whether he can thread his way through a big field and overcome long handicaps is another matter. His first test in the traffic lanes of a big field comes tonight in the St. Joseph's Catholic Club meet at Newark when he starts from scratch in the two-mile handicap event. The limit to the handicaps the Flying Finn has to give has been placed at 170 yards. He must pass 50 men before he can take the lead.

### Change Desired

Mother was teaching Mary Jane, age three, the "Our Father," by having her repeat each short sentence, as mother said it. Mary Jane was learning nicely the first week of her lesson. The second week, when mother came to the sentence, "Give us this day our daily bread," Mary Jane hesitated slightly, looked up at mother and said, "Mother! I want a peanut sandwich this time."—Successful Yarns.

### LARGE STAFF AT THE GILLIAM RADIO STORE—3 MAKES SOLD

One of the largest radio selling organizations found in Central Texas sells the Majestic, Zenith and Crosley sets and parts at the Gilliam Radio Store, 213 Fisk Avenue.

With C. H. Gilliam at the head is the first and oldest radio sales company in this part of the state. Mr. Gilliam having been in the business since the science of radio started, he said.

Assisting Mr. Gilliam in selling these three popular makes of radio sets are a total of seven people, all experts in their line. In the office, working as assistant manager and bookkeeper is Miss Cristene Teague. Miss Teague handles all the accounts of the organization and attends to the office work.

In the rear of the store John Haby, the oldest man in point of service with Mr. Gilliam, is in charge of the repair work. Here repairs are made on the three makes of machines sold and other work which might come in. He is assisted by J. D. McNeill.

Harry Lockhart is in charge of sales and service; Harold McGee is city salesman, and E. A. Medcalf holds down the position as city and rural salesman. Chester Pack does the outside aerial work and aids in installing sets.

With the three makes of machines in the house Mr. Gilliam can quote a long range of prices, from small stripped battery sets to the finest cabinet machines.

The Majestic radio receiver is built by the Grigsby-Grunow Company at Chicago, sets selling for from \$137.50 and up.

The Zenith is manufactured by the Zenith Radio Corporation, another Chicago concern, these coming in table battery models from \$100 on up to cabinet models as high as \$250.00. The Zenith has an automatic tuning device on the market, an arrangement set in the cabinet of their machines which gets the stations wanted by merely pressing a button.

Sets in the Crosley line vary in price even more than the others, their range in most cases being lower, some sets selling for as low

The slightest movement will seem to wind up a particularly sensitive watch invented by a Lancashire (England) watchmaker. If it is worn continuously, a "free wheel" prevents it getting overwound.

**SNATCHED FROM THE AIR**

Facsimile transmissions has come, and it is believed that it will have valuable military uses. It sends a five-by-seven plate with anything you want to put on it, a portrait, a written page, a map or a dress design.

Television is a demonstrated fact. Its future military use depends upon a development that seems to have a long way to go. It would be a fine thing to look down upon scenes and into places that are miles and miles away, but in its present form the apparatus is too elaborate for field use, and the object transmitted covers but a small illuminated area very close to the transmitter.

Instead of twenty words a minute, high-speed radio transmission gives us 200 words a minute.

Five years ago it took 300 kilowatts of energy and a station costing over a million dollars to send a radio message 3,000 miles. Today one-tenth of that sum of money and one-thirtieth of that energy will provide radio service three times the distance.

As to the air corps, if radiotelegraph messages must be sent and received in an airplane, either pilots must become radio operators or else real radio operators must be taken along to do the work. It is believed that the final answer will be a compromise—that a few pilots will become operators and be available for some of the most important missions, that the use of radio will be restricted to bare necessities in fields where the need for it is unquestionable, and that provision will be made to carry regular operators in large ships whose missions require them to make long flights and to communicate.

Bond P. Geddes, representative of the Radio Manufacturers' Association, declares that the radio industry is not disturbed over the possibility that the Federal Radio Commission will end in March if Congress fails to pass a bill for its continuance for another year.

Several listeners report that Station KCLN, at Blytheville, Ark., with its output of 7½ watts reaches New York in the early hours of the morning. This is believed to establish a record. The wave length of KCLN is 233 meters.

### 5,000 MAJESTIC RADIO SETS A DAY MANUFACTURING RECORD

A total of 3,500 console radio sets are big figures, but the Grigsby-Crunow Company of Chicago is enlarging their plant to overstep this 1928 figure and make at least 5,000 machines a day, or 125,000 of them a month.

The 1928 figures were the biggest achievement in the radio world at that time, and this company, which manufactures the high type Majestic is aiming to keep ahead of the procession, even though they cannot keep up with orders as it is, said C. H. Gilliam of the Gilliam Radio-Cycle Store, local dealer of the Majestic.

Mr. Gilliam handles three makes of radio sets, the Zenith, Crosley and Majestic, the last named being his fastest seller.

The enormous growth of the sales of these machines over the coun-

try and the added equipment made necessary by this sale to increase production, caused quite a bit of commotion in financial circles.

Business men could not understand the fast pace and sale of a machine with such a low price, such a low price that they thought the company would fail. However, those at the head had passed their selling price on big quantity production, and as soon as this production was reached it bore out the fact that they could be sold at a profit for less than usual machines of this calibre.

Everything that goes into the make up of the Majestic radio set is manufactured from beginning to end, cabinets, dynamic speakers, chassis and all, in the six big plants of the company.

### PLAN TO RADIO INAUGURATION TO ALL IN THE UNITED STATES

As a part of the preparations to broadcast the Hoover inaugural, a section in the joint resolution introduced by Senator Arthur Capper of Kansas, authorizes the telephone and radio broadcasting companies to extend overhead wires to points along the line of parade on Pennsylvania Avenue where microphones will be located and announcers will describe the parade's progress. There will also be announcers in the top of the Capitol dome, on the Treasury roof, and at the White House in addition to those who will describe the inauguration ceremonies on the east front of the Capitol.

The broadcasting of events will begin when President Coolidge and President-elect Hoover leave the White House for the Capitol. Their progress along Pennsylvania Avenue will be described and the microphones will be so located that the actual cheering of the crowds may be heard.

One question, however, has not yet been settled and that is whether or not the ceremonies attending the swearing in of the Vice Pres-

ident, which immediately precedes that of the President, will be broadcast. As yet this has never been done for the same reason probably that the Senate has never allowed a photograph to be taken of itself.

No less a person objected to the broadcasting of the last inauguration than Senator Charles Curtis, then serving on the Inauguration Committee, who this year, as Vice President-elect, is to be the principal figure. There was nothing found out of this difficulty and that the entire day's ceremonies will be broadcast, not only for the benefit of listeners in the United States but by means of short waves to listeners in other countries as well.

The prediction is ventured by observers in Washington, however, due to the wonderful progress that has been made in broadcasting public events, that a way may be found out of this difficulty and that the entire day's ceremonies will be broadcast, not only for the benefit of listeners in the United States but by means of short waves to listeners in other countries as well.

### McPHERSON KIDNAPING STORY IS AGAIN DRAGGED FROM PAST

LOS ANGELES, Jan. 31.—(AP)—The sequel to Almee Semple McPherson's famous story about being kidnaped—the conspiracy case which was brought against her and dropped, was dragged out of the past today by the legislative committee investigating the Evangelist's payment of \$2,500 to Judge Carlos S. Hardy of the Los Angeles Criminal Court.

Until yesterday the committee seeking to determine whether Judge Hardy shall face impeachment charges for accepting the money had touched only a few angles incidental to the kidnaping story and the conspiracy case.

Yesterday, however, testimony of a newspaperman brought forward occurrences of two years or more ago when Mrs. McPherson's case was dropped.

In the midst of an argument as to the admissibility of testimony given by Walter Marek, a reporter, the chairman of the committee Walter J. Little announced:

"We believe that any facts which we may be able to uncover on the dismissal of charges in the McPherson case will prove valuable to the citizens of Los Angeles county and to the state."

**Heated Argument**  
During the heated argument regarding Marek's testimony Cronwell Ormsby, one of Mrs. McPherson's attorneys, was ejected from the committee room after his violent objection to testimony which dealt with a conversation Marek had a few months ago with Mrs. Minnie Kennedy, mother of the Evangelist, with whom she now is at odds. "Mrs. Kennedy said," Marek tes-

tified, "that Mrs. McPherson had told her of a plan to have the conspiracy case dismissed."

"Mrs. Kennedy said her daughter gave the names of her advisers as Ralph Jordan (Mrs. McPherson's former business manager), Les Tavenner and Morris Lavine (newspapermen), and called them 'her three deliverers.'"

Marek said the only mention of Judge Hardy's services to the Temple which Mrs. Kennedy made to him was to describe him as their "first contact and friend in Los Angeles."

### ABNEY AND BOHANNON BUY BUSINESS LOT MAIN-MAYES STREETS

Abney and Bohannon, former Chevrolet distributors in Brownwood, announce the purchase of a business lot, 200 by 300 feet at the corner of Main and Mayes Streets. The lot purchased is now occupied by the O. K. Tourist Park and a branch of the Loyd Jones Motor Company's used car department.

The lot was bought from M. S. Maddox. The property was bought to hold as a speculation, it is announced. No immediate building program will be launched there, it is stated.

Eads Motor Company received a shipment of Whippet cars last Friday.

Frank Baker, local grain dealer, received a car load of maize last week.

**Goldthwaite**

Born to Mr. and Mrs. Henry Hughes last Thursday a baby girl.

The little son of Jake Kirby had the misfortune to fall from the school truck one morning last week. The truck ran over one leg causing a very bad break. He was rushed to Clements Drug store where he received medical attention at once. He received no other injuries from the fall and it is hoped he will soon recover.

Mr. and Mrs. Eugene Tyler of Brownwood spent the day here last Wednesday. Mr. Tyler was looking after business interests and Mrs. Tyler was visiting friends.

Mr. and Mrs. J. R. Deen and Mrs. G. M. Norris of Blanket, Mr. and Mrs. J. A. Deen and Jessie Deen of Brownwood, visited their aunt and sister, Mrs. Fuller here last Sunday. County Judge L. E. Patterson is in the Scott and White Sanitarium in Temple undergoing treatment. His many friends are hoping for a speedy recovery.

Mr. and Mrs. Lee Stewart of Blanket visited Miss Lois Fuller here last Saturday. They were on their way to Lometa to buy a fine Naragansett Tom.

Carl Featherston and Miss Opal Chesser were united in marriage last Saturday. Rev. S. D. Lambert, pastor of the Methodist Church here performed the ceremony. Mr. Featherston is the son of Mrs. Henry Featherston and is a young man of high ideals and fine character. Mrs. Featherston is the youngest daughter of District Clerk J. S. Chesser and is a very likable young lady with a pleasing personality. Both young people were reared in this county and have a host of friends who wish for them the best of success.

Born to Mr. and Mrs. Carl Sexton one day last week a baby boy. Joseph Harrison and his mother moved to Fort Worth last Saturday. Joseph has a position in a garage at that place.

Mr. F. W. Bird and Miss Julia Hawkins were married last Thursday. Rev. Evans, pastor of the Baptist church here performed the ceremony. Mr. Bird has been engaged in the cafe business here for some time and Mrs. Bird is the daughter of Mr. and Mrs. Hawkins of the South Bennett community. Both young people have a host of friends who wish for them a long life of wedded bliss.

Mr. Cathey brought 31 rattlesnakes in to town Monday. He found a den on the Saylor ranch Sunday and fished them out with fish hooks. He exhibited the snakes on the Courthouse lawn Monday and several pictures were made of them. They ranged in size from about 12 or fifteen inches to 3 feet in length. A petition was circulated asking the Commissioners Court to allow him a bounty on his catch.

Rev. R. W. Bynum of Indian Gap, was transacting business and meeting old friends here Tuesday. Rev. Bynum was County Missionary for the Baptist Church in this county for a number of years and has a host of friends here who are glad to see him any time.

Mrs. Emma Farris returned to her home in Groveton, Monday

night after spending some time here visiting her sister, Mrs. A. T. Pribble.

Sheriff C. D. Bledsoe went to Austin on business Tuesday.

Mrs. D. T. Hunt returned to her home in Blackwell one day last week. Mrs. Hunt was called here to attend the bedside of her father, Mr. P. G. Palmer. We are glad to report Mr. Palmer much improved.

Mr. and Mrs. U. L. Parker and little son returned to their home in Brownwood Sunday. They came down to spend the Christmas holidays with relatives and friends. Mr. Parker has had a severe case of pneumonia and Mrs. Parker and son had the flu. We are glad they are all improving nicely.

Mr. and Mrs. Ernest Wilson are

moving to their new home in Brownwood this week. We hate for them to leave Goldthwaite and hope they will come back often.

Mrs. Richard Chapman of San Saba was looking after business interests here Monday.

Dick Jesse of Star had business in our little city Monday.

**Of Volcanic Origin**

Falcon Island is a volcanic island of the Tonga group in the Pacific ocean. It was thrown up by the volcanic eruption of October 14, 1885. It partly disappeared a little later and then again reappeared.

**REMEMBER**

THE FORMAL OPENING OF BROWNWOOD'S BROADCASTING STATION

**K-G-K-B**

Friday Evening 8:30 to 11:30  
It will be your loss if you fail to LISTEN IN

A good program has been arranged and many of your friends will be on the air. One of the best features of this new station is that you will hear, at regular intervals—a program from this store. Listen in—and tell us about it.

*"The Store For All The People"*  
**HEMPHILL-FAIN Co.**

**We Extend Congratulations to STATION K. G. K. B. and the enterprising citizens who have unwritten this progressive project on this occasion of its FORMAL OPENING**

KGKB can do much for Brownwood and this section—if we all co-operate. Phone—wire or write in and tell how you enjoyed the programs.

—AND BE SURE TO WATCH FOR THE PROGRAM ANNOUNCEMENTS OF THIS STORE—WE WILL BE ON THE AIR AT REGULAR INTERVALS.

**DUBLIN & CANON**  
AT WATER KENT AND RCA DEALERS  
306 Center Ave.

### DUBLIN AND CANON HAS TWO WELL KNOWN RADIO RECEIVERS

One of the most active radio centers in Brownwood is at the Dublin and Canon store on Center Avenue with Olin Buzz Canon at its head. Mr. Canon with his staff of workers sell, install and service well known makes of radio receiving sets. In addition to two models of combination radio and phonograph machines.

The Radiola line of receiver made by the Radio Corporation of America at Schenectady, New York, and the Atwater Kent sets made by Philadelphia, are the two lines sold by this company. In addition they have the combination Victoria-Radiola and the Brunswick-Panatrope.

Mr. Canon has been in the radio business for the past six years in connection with this firm and has a radio diploma from the DeForest Radio Institute in New York and also one from a Kansas City school. It was through the work of Mr. Canon, aided by E. J. Weatherly, that station KGKB was able to come to Brownwood and give this city its first and only broadcast station.

With Mr. Canon as manager of

be given a new RCA speaker, he said.

Three million radio sets have been manufactured and sold by the Atwater Kent Company of Philadelphia in the past seven years, the business about doubling each year, said Mr. O. Buzz Canon, who heads the radio department of the Dublin and Canon Store here.

The Atwater Kent factory in the east covers seventeen and a half acres, and with a new section being added the total amount of space under one roof devoted to the manufacture of radio sets will be thirty-two and a half acres.

This receiver has been well known in radio circles for many years and its high type of construction and beautiful design of cabinet, both in the table and the console styles, has been a standard for many firms to follow. The new electric dynamic sets will be on display soon.

Dublin and Canon also handle the well-known goods of the Radio Corporation of America, the company which manufactured the first complete set for the market.

In both these lines the store carries all parts and the service department is able to take care of machines of any type made.

London consumed about 150 tons of nuts last Christmas-time.

### RADIO DEPARTMENT OF AUSTIN-MORRIS IS GROWING RAPIDLY

One of the youngest radio sales organizations in the city is that of the Austin-Morris Company. Starting October of last year the business of this department of the store has grown tremendously, and only recently the location in the store was changed to give it more space.

The company has the agency in this county and outside the county of the Kolster radio receiving sets, a line of console sets high in precision of workmanship and beautiful design and also well known with regard to its clear reception. With this set is sold a combination of the Kolster radio receiver and the Columbia phonograph.

The radio department has at its head a man who has had years of experience in the business, knows the insides of sets from a to z, and one of the oldest radio fans in Brownwood. This is Alton Stewart, who is in charge of all the sales and service. He is the man who installs a set and services it, and in addition runs the repair shop in the rear of the store.

He has to assist him Edwin Stallcup as floor salesman, and other clerks in the store sell sets at times. Mr. Stewart says that sales in his department has held up wonderfully well.

Kolster sets sell from as low as \$135 to as high in combination with Columbia phonographs as \$900.

As with other radio sales organizations in this town, the Austin-Morris people have a speaker convenient placed outside the store so that the music as played within can be heard by those on the street.

The company carries a complete

stock of parts, including tubes, and in the repair department there is sufficient equipment to service any type or radio receiver.

**Eagles Prey on Lambs**  
There is a high mortality among the young of the bighorn or mountain sheep. This is due to the toll of young taken by eagles. The lambs fall easy victims to the big birds of prey.

The world may be a million years old, as scientists assert. If so, it is pretty jazzy for its age.—El Paso Herald.

### GIOVANNA MAY BE THE QUEEN OF BULGARIANS

SOFA, Jan. 31.—(P)—Indications that Princess Giovanna of Italy would visit Sofia convinced many Bulgarians today she would be their queen.

Preparations at the Italian legation for visitors were understood in well informed circles to concern Duke and Duchess of Aosta and their niece, the princess, Bulgaria, therefore, was awaiting announcement that King Boris, 35, would have the 21-year-old princess as a bride.

Commemoration of the fiftieth anniversary of Bulgaria's liberation from the Turks will begin shortly and the prediction was made today in an authoritative quarter that the wedding would take place in connection with the celebrations, which will last for some time. The time of this observance was also regarded as the proper occasion for the official coronation of Boris, which would be the first solemn coronation since the liberation of Bulgaria.

The religious barrier which stood in the way of the marriage is understood to have been removed. King Boris by the constitution must profess the Greek orthodox religion. Pope Pius is understood to have granted Princess Giovanna a dispensation under which she may marry Boris provided that Bulgaria concludes a concordat with the vatican. The agreement would permit the appointment of a papal nuncio to Sofia, replacing the present unofficial apostolic representative.

### NOT ANNOUNCE CABINET NAMES BEFORE MAR. 4

BY JAMES L. WEST,  
Associated Press Staff Writer.

LONG KEY, Fla., Jan. 31.—(P)—President-elect Hoover intends to withhold announcements of his cabinet appointments until after his inauguration on March 4th.

While Mr. Hoover is keeping his own counsel as to his advisers, some of his selections are expected to meet with opposition. Suggestions that he will continue Andrew W. Mellon as Secretary of the Treasury have produced threats of a fight in the Senate.

While the general impression continues that Assistant Attorney General Donovan will be the Attorney General, there is as yet no confirmation of this by Mr. Hoover, himself. The same applies to Secretary Jardine, who is believed to be slated for Secretary of Agriculture.

Mr. Hoover was ready today to start on his second angling expedition for sail fish and other big game fish in the waters off Long Key in the yacht Saunterer.

**Dead Reckoning on Sea**  
Dead reckoning, as used by navigators, means the finding of a vessel's location at sea, without astronomical observation of any kind depending entirely upon maps of the course and the compass and log. It means the same when applied to aviation. Lindbergh flew to Paris entirely by dead reckoning; that is, he made no astronomical observations in order to keep his course.—Pathfinder Magazine.

**Not a Busy Spot**  
The railway station in the British empire with the least traffic is probably Godnadatia, in Australia, which has one train in two weeks.

**Boy Howdy!**

**CONNIE MACK  
IN FLORIDA**

PHILADELPHIA, Jan. 31.—(P)—The baseball season is just around the corner so far as Connie Mack, manager of the Athletics, and several of his regulars are concerned. Mack is already in Florida, and seven of his veteran players today were headed for Hot Springs, Ark. This squad will spend three weeks at the resort preliminary to reporting to the spring training camp at Fort Myers, Fla., the latter part of February.

Jimmy Dykes, the Athletics' handy man, and Coach "Kid" Gleason set out for Hot Springs from this city, while five others for whom extra training has been prescribed, began their journey from their home towns. Jack Quinn, Howard Ehmke and George Earnshaw, pitchers, and Al Simmons and Bing Miller, outfielders, make up the latter group.

**RESERVE OFFICERS ARE  
UNITED WITH NATIONAL  
ORGANIZATION HERE**

A group of local members of the reserve officers forces of the United States Army created the Brownwood Chapter, Department of Texas, Reserve Officers' Association of the United States at a luncheon held in the Southern Hotel Wednesday noon.

Nine men met and elected First Lieutenant Orville H. Turner, president; Captain Oscar N. Mayo, vice-president; Lieutenant Loren W. Williams, secretary; and Louis C. Giesendorf, treasurer. Others at the meeting, who are chapter members of this chapter, were Lieutenant Thomas W. Bynum, Lieutenant Jas. L. Morris, Lieutenant Edward S. Ross, Lieutenant William R. Sanderson and Lieutenant Leon R. Smith. Colonel C. L. Maxwell of San Antonio was a guest at the luncheon and aided in the organization.

The object of the association is to support and assist in the development and execution of the military policy for the United States, which shall provide adequate national defense. It is composed of men who hold commissions in the Reserve Corps of the Army and is divided into chapters, departments and national councils.

**Just Wait**

Archie's pet kitten was the pride of his life and he was very much disturbed when a skeptical neighbor expressed a doubt that Fluffy was a full-blooded Persian because his tail wasn't large enough. "Why, Mrs. Smith," protested Archie, "you just wait till Fluffy sees a dog and his tail will look plenty big!"

**REPORT SAYS LEON TROTZKY  
ON WAY TO TURKISH EXILE**

LONDON, Jan. 31.—(P)—Leon Trotsky, once powerful Russian leader, was reported in dispatches today to be on his way to Turkey as an exile. The Turkish government agreed to give the former leader of the Red army shelter in Angora. A Jewish telegraphic agency dispatches from Berlin quoted a "leading Soviet official" as saying rumors

prevalent in Moscow indicated Trotsky had been seen in Tiflis on his way to Batum. From there he will be transported to Constantinople and presumably later to Angora. Decision to exile Trotsky was taken by the Politbureau, the most important branch of the Soviet government. Five members voted to banish him, one abstained from voting and four, Kalinin, Rykov, Bukharin and Tomsky, voted against banishment. The resolution was proposed by Trotsky's principal foe, Joseph Stalin, secretary of the communist party and iron man of Russia. An exchange telegraph dispatch from Riga said it was first proposed to court-martial Trotsky, but that this idea was dropped because of the exile's popularity in certain circles.

# STORIES OF HEROIC RESCUES FROM SNOWBOUND SECTIONS

DENVER, Jan. 28.—(AP)—As another severe cold wave swept into the Northwest today, heroic rescue stories filtered in from snowbound sections.

Jack Worth, old faithful inn winter keeper, was under a physician's care in Livingston, Montana, today after a battle in the deep snows of Yellowstone Park. The last stage of a trip out for medical attention was from Gardiner to Livingston and when an ambulance was unable to break through, the Northern Pacific ran a special train to pick up the man, stricken with heart disease.

Worth was attended last week by his wife and a ranger. When the medicine gave out, rescue parties went to his relief. He was hauled by toboggan and a tractor took him to a hospital at Norris. A four horse team and a tractor took him to Golden Gate where an ambulance replaced the bedded sleigh in which Worth had made the 52 mile journey.

A band of stockmen pushed their way back home through 10 foot snow drifts from Cottonwood today after assurance that Nevada's 11-year-old daughter of their friend, Jim Aram, was recovering from an operation for appendicitis.

Struggle in Blizzard

The cowboys struggled through a blizzard and drifted snow for many hours, driving a band of horses be-

ern Washington and Oregon were little better off. Guests at the Gaylord hotel at Columbia Falls, Montana, were forced out into 10 degrees below zero weather when the structure was destroyed by fire Sunday.

Untold suffering has been caused range livestock in all the mountain states.

## RETURNS FROM MARFA-ALPINE ROAD MEETING

Hilton Burks, secretary of the Brownwood Chamber of Commerce, returned Monday morning from Marfa and Alpine where he attended meetings of the Chambers of Commerce of the two cities, held to discuss the proposed State and Federal Highway from Dallas to the Mexican border, thence across Mexico to the Pacific Coast. Mr. Burks reports a very profitable trip, adding that much interest is being manifested in the proposed highway in all cities along the route.

The first meeting was that of the Alpine Chamber of Commerce on Thursday night. Andy Bourland, president of the West Texas Chamber of Commerce, E. H. White, head of the same organization, R. A. Thompson, consulting engineer

for the Dallas Chamber of Commerce and John Boswell, also of the Dallas body, attended the Alpine meeting.

The following afternoon those men with representatives from cities to the south of Alpine and from Chihuahua, Mexico, met in a general road conference, discussing plans relative to the extension of Federal Highway No. 67 from Dallas to Presidio on the Mexican border, as well as the connecting at this point with a proposed highway across Mexico to the Pacific coast.

City Manager H. C. Hennen was the principal speaker at today's luncheon of the Brownwood Lions Club. Mr. Hennen addressed the club on city development and in so doing stressed several needed improvements. Mr. Hennen endorsed the proposed revenue bonds in the sum of \$300,000, these being the bonds that were recently endorsed by the City Council.

The greatest need at present, Mr. Hennen said, is a larger and more adequate sewage disposal plant. The present plant is about two-thirds too small, it was stated, and more than this, it is a fine breeding place for mosquitoes. Little can be done to relieve the city of the mosquito pest until the sewerage plant is enlarged, Mr. Hennen added.

At present residents of the southern part of the city have no sewer connections and are forced to resort to cess pools, which are also good breeding places for mosquitoes, Mr. Hennen added. An entirely new plant is needed to care for the disposal of sewage in the south side.

No funds are available to do this needed work and the city's bonding power is not large enough to warrant the issuing of bonds. Bonds now outstanding against the city use all the bonding strength except five cents on the \$100 valuation. The proposed revenue bonds are the only hope, it was declared.

Mr. Hennen told the Lions Club that the entire water distribution system is in dire need of a thorough overhauling. It is now costing the citizens of Brownwood from \$7,000 to \$10,000 for inadequate equipment, and the only relief is the revenue bonds, Mr. Hennen stated.

The income at present from water and sewer system is around \$71,000 annually at a cost of \$40,000 to the city. Mr. Hennen stated that the \$31,000 profit would retire the revenue bonds, and that under the present system, only temporary work can be done.

Mr. Hennen was asked by some member of the club whether the revenue bonds would affect the sale of the water bonds voted recently, and Mr. Hennen stated that they would not.

Mr. Buckner, a memory expert gave the club a demonstration of his powerful memory, his demonstration being very entertaining to the club.

## CITY MANAGER SPEAKS BEHALF REVENUE BONDS

Before the proposed route from Dallas via Cleburne, Glen Rose, Stephenville, Comanche, Brownwood, Coleman, San Angelo, Fort Stockton, Alpine Marfa and Presidio can be designated as a Federal Highway it is necessary that the gap of undesignated road between Fort Stockton and Alpine be officially designated by the state highway department. This will be done.

In turn, the State Highway Commission will be asked to go before the Federal Highway Commission and ask that the route be designated as Federal Highway No. 67.

If the project is successfully completed, the route from St. Louis and other cities south to the Pacific coast will be shortened by 500 miles, in fact this route would be 500 miles shorter than any other proposed route, it is said.

Mr. Sanderson and Quiney Main, delegates representing Brown County Farm Bureau at the ninth annual convention of the Texas Farm Bureau Federation, held in Dallas, on Jan. 23-25, have returned home.

They report about 300 of the most progressive farmers of Texas were in attendance and that the spirit of organized agriculture dominated the deliberations of the convention.

"It would be a surprise," said Mr. Sanderson, "to most farmers to realize how the prosperity of Texas farmers is related to the prosperity of the wheat growers of Washington, the wheat growers of the Northwest or the corn growers of Iowa or Illinois. It was along this line that Mr. Winters, executive secretary of the National Farm Bureau Federation urged a fuller cooperation of the farmers of Texas with this of other states."

"Texas farmers can not properly solve their problems working alone and all farmers must work together for their own interest," Mr. Sanderson continued. "If they do not care enough about their own business to organize and compete with other organized industries, certainly no one else is going to come and do it for them."

"The Farm Bureau movement has developed a realization on the part of other industries that something is wrong with agriculture and we are, for this reason closer to the time when some legislative action will be taken."

"Legislation, however, cannot be relied upon for a solution of the whole problem. As Mr. Sewell, head of the Home and Community department of the National Farm Bureau said, 'We must have a loyal, informed and prosperous working organization in the county and community in order to do the job. Organized industries must be met with organized agriculture and this can only be accomplished by strong local units.'

"Plea for Farm Women

"Mrs. Sewell made a special plea for the farm woman to get behind the Farm Bureau. 'It is the farm women and children who suffer most from our present condition of agriculture. It is a further fact that almost no great movement sponsored by women has failed. The Farm Bureau movement will go ahead by leaps and bounds when farm women realize their power and use it. Sister, stand shoulder to shoulder with your husband for the advancement of your profession.'" Mr. Sanderson quotes the speaker as saying:

Mr. Sanderson reports that the cooperative marketing purchasing work is making excellent progress. "Farmers are more and more realizing that they are conducting a manufacturing plant and must fall in line and use better business methods in marketing and stop competing with each other," he said. "Like other manufacturers they must also buy their raw materials, feeds, fertilizers, etc. on the wholesale market. By pooling orders the small buyer can have the same price concessions of the larger buyer."

"Brown county should be especially proud of the honor conferred upon their fellow worker, Mr. H. C. Lucas, who was re-elected president of the State Federation."

"What a wonderful organization we might have," concluded Mr. Sanderson. "If every Brown county farmer would get behind Mr. Lucas and help put our organization over the top, I believe they'll do it too."

## SANDERSON DISCUSSES FARM PROBLEMS; WAS AT FARM BUREAU MEET

Mr. Sanderson discussed the needs for state aid requirements of county schools has been checked up recently by Superintendent J. Oscar Swindle while making his rounds of the various schools. He submits herewith a brief outline of the requirements, which will enable all the schools to check their needs, with special attention called to the primary equipment required this year.

1. A suitable building site of not less than one acre.
2. Grounds must be clean and well kept.
3. Water supply should be on the ground if possible. The water must be pure, sufficient and furnished by sanitary drinking fountains.

## SWINDLE LISTS SCHOOL REQUIREMENTS FOR RECEIVING STATE AID

Each school must be in good repair. The rooms must be kept clean, comfortable and attractive.

2. A separate class room must be provided for each teacher. Curtains for separating rooms not permitted.
3. Each room must have one-sixth as much light space as floor area. Light must be admitted from the left or from left and rear only, of pupils seated at their desks.
4. Each window with east, west or south exposure must have a translucent shade of tan or brown color. Adjustable shades are much preferred.
5. Each class room must be provided with an approved heating and ventilating system properly installed.
6. Each school must have two separate fly-proof toilets. They must be kept sanitary and if outdoors must be shielded with neatly constructed blinds.

Equipment

Each school receiving aid should have at least the following equipment:

1. A teacher's standard desk and a teacher's chair for each class room.
2. A sufficient number of modern patent desks, or tablet arm-chairs must be supplied. The desks must be well put together, properly arranged, and screwed down in a neat and orderly manner.
3. At least 30 lineal feet of first-class blackboard (hyplate or better grade), not less than 3 feet wide for each class room.
4. A set of at least 8 standard maps, including up to date maps of Texas and Europe.
5. One good thermometer must be provided for each class room.
6. One globe; one standard physiological and hygienic chart.
7. A historical chart for teaching Texas and United States History must be provided.
8. At least \$25 worth of library books per teacher. Not less than \$10

Children of Lepers

An effort is made to separate uninfected children from parents who are in leper colonies. In the Cullon leper colony in the Philippines 283 children under fifteen years of age were removed in 1923. They were put in nurseries, institutions or with friends. Periodical health examinations are given them, school training is provided, and they correspond with their parents.

In Calcutta there is a temple to Kalf, the Hindu goddess, in which more than one hundred goats are killed daily.

Worth of books per teacher for each year.

Equipment for primary room which is a special requirement for this year:

1. Printing press, one inch type.
2. Duplicator of Holograph.
3. A chart card holder.
4. Script letter chart.
5. Sand table.
6. Material for occupation work.
7. Cupboard for supplies.

# A BETTER POLICY

There are two ways of Buying a Used Car

- (1) Buy It Outright From The Owner.
- (2) Or Buy It From An Automobile Dealer.

The first may be satisfactory, providing, of course, you are an expert mechanic, appraiser and purchasing agent combined.

A better policy is the second method. New car dealers buy cars with a view of reselling them. They know exactly what each needs to be reconditioned thoroughly. They have the facilities for doing that.

Right now we are offering amazing values in Used Cars. Every one is in Tip-Top condition—fine in every respect. They are priced to sell and will sell at the prices we have them tagged.

Make a down payment and the car is yours to drive.

PERJURY CHARGES AGAINST 2  
KEYES WITNESSES FORECAST

LOS ANGELES, Jan. 30.—(AP)—Filing by the state of perjury charges against at least two witnesses in the trial of former District Attorney Sam Keyes, Ben Getzoff and Ed Rosenberg, loomed as a possibility today as the case approached its end. The three men are charged with conspiracy and bribery.

BROWN COUNTY GARDEN  
WINS HONORS IN CONTEST

The Jones Chapel Club in Brown County was winner of first honors in a state gardening contest, as published in a story in the Bulletin from A. & M. College making announcement of the awards a few days ago. At the same time the garden of Mrs. W. M. Harris of the Jones Chapel community, which was a great factor in winning the state honors for the community, was announced as first individual prize winner in a district contest.

This is Mrs. W. M. Harris, prize winner in gardening, and her daughter, Mrs. Rena, standing in a section of the garden. Their garden is noted for both vegetables and flowers.

A general view of the garden of Mrs. W. M. Harris which shows to its credit several prize awards, 228 cans of vegetables, 82 quarts of preserves, over \$30 in cash, and all the vegetables desired by a family of four. The cost of the seed was \$6.10.

\$5,000 for \$10

The AUTOMOBILE is the deadliest machine in America. It is the greatest single cause of accidents.

There are more people killed and injured by automobiles than any other cause but war.

THE NON-CANCELLABLE AUTOMOBILE ACCIDENT POLICY will pay you indemnity against loss of life, limb, sight or time resulting from automobile accidents. It will pay you if you sustain injury.

THE NON-CANCELLABLE AUTOMOBILE ACCIDENT POLICY

- It pays \$5,000 for loss of life.
- \$5,000 for loss of both hands or both feet or one foot and one hand, and annuity of \$50.00 per month payable for as long as five years.
- \$5,000 for loss of sight of both eyes.
- \$2,500 for loss of one hand or one foot.
- \$1,500 for loss of sight of one eye.
- \$100 per month for the total loss of time; one half that amount for partial loss of time.
- \$30.00 for hospital expenses in addition to indemnity for loss of time.
- \$50.00 for nurse's fees if not confined in a hospital, in addition to indemnity for loss of time.
- \$100.00 for emergency expenses.
- \$100.00 for doctor's bill for non-disabled injury.

IT COSTS \$10.00 PER YEAR. SOLD TO BOTH MEN AND WOMEN, AGES 16 TO 65.

Brownwood, Texas

Four piles from Brownwood, a quarter of a mile off the Comanche highway is a quarter section of land owned and farmed by W. M. Harris. About half of this land is planted to cotton and the other half to feed stuff. Mr. Harris keeps the usual complement of cows, mules and chickens, and up to this point this farm is similar to the average successful farm one will find in this fertile valley.

It is in the gardens, both flower and vegetable, where this farm stands out as an exceptional one, and where the family stand out as an exceptional people. The flower garden is mentioned, because of its extent and the variety of its plants, this story having to deal mainly with the vegetable garden.

Winning Garden record To the north of the house is a fenced off quarter acre which is devoted to a vegetable garden, such a garden as laid down in the rules and regulations of a garden contest entered by many women connected with the women's home demonstration clubs, which in this county are under the supervision of Miss Mayeste Malone. Mrs. Harris, who won valuable awards on this garden, is a member of the Jones Chapel club.

Starting with an expense of \$6.10

an average of three varieties of each being planted. These included the following with the number of varieties of each: mustard, 2; rape, 1; kale, 1; okra, 3; butter beans, 8; bunch beans, 2; running beans, 2; peas, 2; parsnips, 1; dill, 1; parsley, 1; radish, 2; leek, 1; Swiss chard, 2; spinach, 1; pumpkin, 1; kershaw, 2; cucumbers, 4; strawberries, 3; onions, 4; English peas, 9; beets, 3; cabbage, 4; potatoes, 2; tomatoes, 10; peppers, 4; lettuce, 1; squash, 2; carrots, 2; and radish, 1.

In canning the results of all this planting and tending the garden, number 2 and 3 tin cans were used, sealed with a patented device much used on the farms nowadays. These included: 28 No. 2 cans of English peas; 46 No. 2 cans of snap beans; 10 No. 2 cans of squash; 20 No. 3 cans of white peas; 7 No. 3 cans of black-eyed peas; 17 No. 2 cans of beets; 23 No. 3 cans of soup mixture; 7 No. 3 cans of butter beans; and 76 No. 2 cans of tomatoes.

In addition the following glass quarts of pickles and spices were put up from this quarter acre: Kraut, 26; pickled peppers, 13; cucumber pickles, 8; relish, 32; beans, 1; okra, 2; a total of 82 quarts in all.

A Large Garden Also While this all looks as though a year's work had been done on this little plot of ground, there was also another garden planned, a larger one and not included in the contest. Although the Harris family put into 524 No. 2 and 3 cans, a variety of food stuff to make the winter on and, when we saw the rows and rows of these cans in the storm cellar, left over we thought it enough to feed a small army. 94 of these were canned beef, home grown and home canned, and 24 were of chicken.

In addition there was a total of 327 glass jars of fruits, jams, preserves, pickles and the like. Mrs. Harris is just the type of woman who likes to see her household well fed, and the shelves lined with delicious food, the supply added to and put away for the winter and longer. She loves to work in her garden and to preserve what she raises. She has been doing it for a number of years, but the keeping of records on her work is something new for her. At first, she thought this would be hard work, but now she says she likes to keep an accurate account of all.

Girls Are More Unruly Than Boys, Bureau Says  
WASHINGTON (AP)—"... and when she was bad she was horrid!" Miss Grace Abbott, chief of the children's bureau of the department of labor bears out the old nursery rhyme, with figures in her annual report. Miss Abbott says that while little boys are worse at stealing and committing acts of mischief, the little girls who run away and are ungovernable far outnumber the boys.

Of the 24,244 cases of delinquent boys reported from all over the country, more than two thirds were for stealing or mischief. Of the 4,143 girls' cases reported, three fourths were for running away, being beyond parental control and sex offenses.

CATCH BIRDS IN FISH TRAP Probably the stupidest winged creature is the auk, a small web-footed penguin like bird whose haunts are the Arctic regions. A Canadian zoologist, recently returned from the far North, described the catching of droves of auk by Eskimos who were armed only with fish nets. The birds, says Popular Science Monthly, apparently can not distinguish men from rocks.
