VOLUME XXXVII

MUENSTER, COOKE COUNTY, TEXAS 76252 MARCH 16, 1973

NUMBER 17

Some of the most welcome news in a long, long time is President Nixon's announcement Saturday revealing his request to Congress for tougher laws to combat crime. We emphatically endorse his proposal to restore the death penalty for certain federal crimes and sentences up to life imprisonment for habitual drug traffickers.

His proposals, he said, will revise the entire federal criminal code giving us tougher penalties and stronger weapons in the war against dangerous drugs and organized crime. Specifically he mentioned the hijacker, the kidnapper, the man who throws a fire bomb, the convict who attacks a prison guard, the person who assaults an officer of the law — all will know that they may pay with their lives for any lives that they take.

If the president can manage to get that legislation passed he will have started the greatest crime reduction movement in the memory of most living Americans — provided, of course, that our courts and public opinion will give him the backing. We're thinking of prosecutors who will hurry the accused into court while his crime is still well known and of judge and jury who are more concerned with the rights of victims than the so called rights of criminals. And we're thinking also of eliminating absurdities in which people of known guilt are acquitted because of someone's technical error.

In that respect we applaud the present effort of our own Senator Bentsen who has again introduced a bill to prevent an obviously guilty offender from escaping punishment because of a legal technicality. His proposal would amend the US Code to give the courts greater latitude in deciding whether evidence in criminal cases is admissible, and especially it would prevent throwing out a case because of a technicality. The sensible way is to make the most of admissible evidence and seek a conviction on that basis regardless of any honors by other persons. The important thing is to strive for laws that favor the public and not the criminal. If the evidence proves that the accused is guilty he clearly has no right to acquittal regardless of other circumstances.

While putting sense back in the laws they need also to rule out proposed brainstorms concerning elimination of handguns as a means of preventing murders. The theory is that removal of weapons will stop the killings, but it does not heed a few obvious facts. The first is that good people will obey the law if it's passed, but not the criminals. So, outlaws will still be armed, but there will be fewer armed citizens to defend themselves or help society. Furthermore it's not the guns that are at fault, but the people who use them for crime.

The law will be more effective when it makes less of an issue of possessing a gun but really lowers the boom when one is used in a crime. Hopefully the legislature will be mindful of this bit of common sense in future anti-gun movements.

This week's bulletin from the Texas Farm Bureau tells the embarrassing story of our being suckered again by the Soviets. This time Russia, which scorns the free enterprise economic system, is attempting to sell its bonds to investors of the Western World as a means of raising funds to come out of its financial slump.

The situation would be laughable if it were not larcenous and insulting. The Communies are always shooting their mouths off about the superiority of their system, but they have had failure after failure and came to us every time for help to get out of their trouble. Despite the fact that they have waged cold war on us for years, and helped our enemies wage hot war on us, we invariably come to their aid. We have sent them millions of tons of food, industrial equipment and sophisticated technical equipment. We gave them millions of dollars in military aid in World War II even while their spies were stealing more millions worth from us.

The plain fact is that Communism has been a colossal failure. It's been on the brink of collapse several times and every time it was rescued by

## School Trustees Decline Tax Cut For Homesteads

Trustees of the Muenster school district in session Thursday night declined to allow homestead exemptions to persons over 65 years old as authorized by the last session of the state legislature.

Discussion on the issue brought out the fact that the financial condition of the district is already in a strain because of inflation and annual increases in the pay of faculty and auxiliary personnel along with the declining revenue from oil production. Still another factor is the drop in average daily attendance, hence a drop in funding by the State.

It was pointed out, however, that the homestead exemption for the elderly taxpayers can be established if approved by a local election. A petition with signatures of 20 qualified voters is needed to order such an election.

Relative to dress code the board considered a complaint that some students manage to comply with regulations when they are subject to inspection in the first period, but later in the day hair is let down and hemlines go up. So the board asked Principal Charles Cash to check the students at various other times and require compliance at all hours of the day.

The board approved the selection of new textbooks as recommended by the teachers and also approved purchase of a new 48 passenger school bus, hopefully to be delivered before the start of the next school year.

The re-hiring of teachers for the coming school year was tabled until the next meeting. And salaries of auxiliary personnel were reviewed, and raised in keeping with the constantly increasing cost of living.

Also the board gratefully accepted an offer by the PTA to install carpeting on the floor and front of the stage.

Teachers attending the meeting were Mr. and Mrs. Edgar Dyer and Rudy Koessler.

Visiting Mrs. Joe Kathman Sunday afternoon were a nephew and his wife, the Tony Bergmans and their grandson of Fredrick, Okla., and a niece Mrs. Ben Lutkenhaus and son Raymond of Lindsay.

**Paper Drive Saturday**  
SHH seniors will conduct a scrap paper drive Saturday, March 17, beginning at 9 a.m. Persons with paper to give are asked to have it boxed or corded and out at the curb for quick pickup. Persons unable to get their paper out may call 759-2583.

## Muenster K of C Council Honors 89 Members of 25 Years or More

Eighty nine members of the Muenster Knights of Columbus Council who have been in the order 25 years or more were honored Saturday night, and 64 of them were present to accept membership pins as awards.

The program started in Sacred Heart Church where Father Bede Mitchel, chaplain, and Father Edward Devers of Texarkana were con-celebrants of a mass. Father Bede delivered a short sermon congratulating the long time members and praising the order for its extensive service to the Church. He then presented the award pins as names were called by Grand Knight Eddie Fleitman.

After that Mary Klement, faithful navigator of the Fourth Degree KC Assembly, recognized seventeen of its members.

The church service was followed by a social hour in the KC hall. About 160 persons attended.

The honorees were headed by the council's only surviving charter members, Ben Luke and J. C. Trachta, who joined in 1910. Both were present. Others were named as follows.

## Meeting Monday For Parents of School Beginners

An orientation period for parents of children who will enroll in kindergarten, or first grade of Muenster Public School for the next school year will be held in MHS auditorium next Monday, the 19th, at 9 a.m.

The meeting will serve a double purpose of completing the count of expected pupils and instructing the parents on enrollment requirements. Only the parents are asked to attend. Children will not be needed.

Parents needed are those whose children will be in first grade or kindergarten — that is, who will be 6 or 5 respectively on September 1, 1973.

## Both Schools Have Entries Friday in Girls Track Meet

Girls from both of the community's high schools will be in Saint Jo Friday participating in a track meet sponsored by Sacred Heart School.

Bob Steele, director, said fifteen schools will be represented, and Lindsay and Frisco rate as the favorites. The other teams are from Sacred Heart, Muenster, Nocona, Era, Valley View, Collinsville, Sadler-Southmayd, Howe, Farmersville, Anna, Pottsboro, Plainview, Okla., and Marietta, Okla.

Sacred Heart girls participating will be Cindy Bartush, Barbie Hess, Karen Stoffels, Sandy Reiter, Mildred Grewing, Karen Schilling, Diane Kralicke, Gayle Miller, Janet Sicking and Lanie Yosten.

The Muenster High entries are Becky Fields, Laura Sicking, Debbie Schneider, Melissa Weizapfel, Mary Lou Fleitman, Sandy Dittfurth, Barbara Davidson, Doris Felderhoff, Gina Felderhoff, Sheila Grewing, Mary Fisher, Diane Klement, Paula Sicking and Lenore Fleitman.

## Curtis Klement Is Tops in Math Test

Curtis Klement, with a score of 36.75, set a new school record when 28 students of Muenster High School took the National Math Test Tuesday morning. The prior record is 27.50 set last year by Carl Bayer. Klement will receive a gold pin as the school's winner and the test will be forwarded to Texas A&M to compete for regional and national honors.

Meanwhile Kirk Johnson scored 17.00 and Dan Sicking 16.25. The three high scores were combined giving a team score of 70.00, also a new local record. It was 63.75 last year.

Of the 28 taking the test, 23 made a positive score, also an exceptionally high record.

## Doris Felderhoff Named All-State

The highest honor of them all in Doris Felderhoff's stellar basketball career came during the past weekend when she was named on the Class A all-state second team. Formerly chosen unanimously on the 14-A all-district team, she is the only member of that district to land a place on the state wide dream team.

Doris has been a tower of strength on the MHS girls team all season, a consistently high scorer in spite of being double guarded throughout the season. She made 1097 points in the 29 games, an average of 37.8. Her efforts principally account for Muenster's tie for second place in 14-A the past season. The conference record was 8-4 and the full season record was 19-10.

She is a daughter of Mr. and Mrs. Henry Felderhoff.

## Eight Cooke 4-H Girls Compete in District IV Show

Eight Cooke County 4-Hers showed off their foods and nutrition know-how at the District IV Food Show Saturday at Town-East Shopping Center in Dallas. Competing with sixteen other counties, the Cooke County girls answered nutrition questions, showed their food artistry, and displayed attractive table settings.

Selected for top honors were two county residents: Jackie Harris, Valley View, daughter of Mr. and Mrs. Yuton Harris received the top blue ribbon and a small gold tray in the junior fruit and vegetable division. Her entry was a baked eggplant dish. Jamai Pybas, Sivelis Bend, daughter of Mr. and Mrs. Jay Pybas was chosen for the top blue ribbon and received a small silver bowl in the senior bread and dessert division on her french bread. In addition, she also won the most appropriate table award for her division. Miss Pybas will represent District IV at the State Food Show to be held at Texas A&M University in June.

Kim Reiter, Muenster, daughter of Mr. and Mrs. Wilfred Reiter was selected as first alternate in the senior fruit and vegetable group. She had displayed a recipe called golden carrots.

Other senior entries were Sandy Reiter, daughter of Mr. and Mrs. Wilfred Reiter and Beverly Walterscheid, daughter of Mr. and Mrs. Julian Walterscheid both of Muenster. These girls did an excellent job and received blue ribbons.

Other junior division entries were Grace Pybas, Sivelis Bend, daughter of Mr. and Mrs. Jay Pybas, Cindy Fickling, Valley View, daughter of Mr. and Mrs. Jimmy Fickling; and Cindy Hudspeth, Valley View, daughter of Mr. and Mrs. W. E. Hudspeth. Miss Pybas and Miss Hudspeth received blue ribbons, and Miss Fickling received a red ribbon.

## Local Boys Club Collection Center For Aluminum Cans

Beginning Saturday, March 17, Muenster Boys Club will be the collection center for aluminum cans.

Until now a Coors truck has picked up the cans as it made its regular rounds. However Coors Distributing Company will find it more convenient having a collection center and at the same time can collection will create a fund raising project for members of the club. The boys plan to start a bus fund. The truck will be at the club every Saturday from 9 a.m. until noon.

Cans need not be crushed but the boys ask that all cans are secured tightly in a bag or a suitable box. Only aluminum cans are solicited. No other scrap aluminum will be accepted. Cans bring 10 cents a pound.

## Field Trip

On schedule for the MHS science class is a field trip soon to Fisher's slaughter house to observe the slaughter of two beef animals. The trip is related to their present biological study which concerns respiratory, digestive and circulatory systems. Besides revealing the insides of animals the demonstration is intended to teach some fundamentals of dissection.

## Project Show of FFA Chapter Will Be Held Monday

Members of the Muenster chapter of Future Farmers of America are busy grooming their project animals for the annual project show next Monday, March 19, at Muenster High School. Animals will be on exhibit from 10:30 until the judging at 1:30.

Judging will be done by Jack Clark of the ag department of Era High School. He will judge on merit rather than competition, classifying the entries as blue, red or yellow ribbon animals. However there will also be competitive judging in the fat steer group to select the show's grand champ and reserve champ. Animals of that group will also go to the Cooke County Junior Livestock Show next Monday in Gainesville. FFA and 4-H members from all of the county will have entries there.

The project show will be supervised by Edgar Dyer, chapter adviser and Larry Schumacher, student teacher. Beef and dairy cattle and hogs and sheep will be on display.

## Muenster Juniors Win 9th Grade Meet at Nocona

Glenn Richardson's junior track team of Muenster Public school had a big day at Nocona's junior meet last Saturday. The ninth graders with a whopping total of 99 points were champs of their division. In the other two divisions the seventh grade scored 29 and the eighth grade 32 points. Besides that the boys got several seventh places, not enough to earn points but encouraging as potentials for the meets to come. About 15 schools were represented in the meet.

The ninth graders got the big end of their count on 3 first places plus second and third in the relays. Along with that they got one second place, 2 thirds, 4 fourths, 2 fifths and a sixth. Events in which they scored were as follows.

## Council OK's Sale of Land For Expansion by AMPI

Members of the Muenster City Council in a special meeting Monday night approved the closing of a city street and sale of two small tracts of land to Associated Milk Producers, Inc., to allow expansion of plant facilities by AMPI.

The street to be closed is at the back of the plant and dead-ends at the overpass. One tract of land is a 70x75 foot area on which the old, now unused, city water reservoir is located. The other is a triangular area, 80 feet on two sides, across the street and near the overpass.

Also included in the deal is a move of water mains to clear the area for future construction of buildings.

The council also amended its procedure on creation of a local water district whereby the final decision is subject to a referendum rather than just the council's action. It will proceed as originally planned to have Representative Bill Sullivant introduce a bill in the state legislature to authorize creation of the district. After the district is approved people of the area concerned will vote on its actual creation.

The proposal is related to the declining supply of underground water in this area. It includes a water reservoir which can serve also for flood control and recreation and on which the financing can be shared by the city and the soil conservation service. The issue is whether the city should prepare now for eventual use of surface water or wait until the need becomes more apparent. A problem is that shortage could develop before surface water becomes available if the project is delayed too long.

Regarding police patrol in the city, the council was told by Sheriff Bill Pratt that help has been added to his department resulting in increased time that deputies can spend here. The new schedule he said allows the equivalent of one and half men on duty.

Councilmen also reviewed a report from Texoma Regional Planning Commission on park improvement especially regarding the Jaycee offer to contribute toward a pavilion. The report said that an enclosed building as proposed cannot be included in a grant. However the commission is willing to help on a program that will qualify for a grant.

## 90 Boys Battle in Boxing Tourney's Saturday Finale

The third annual Muenster Boxing Tournament, sponsored by the Muenster Boys Club and directed by Earl Walterscheid, came to an end Saturday night with some ninety boys swinging fists lustily to determine who would receive the champ and runner-up trophies. The program presented the finals following eliminations of the preceding two nights.

The tourney was hailed as a great success to the contestants, the Boys Club and the public. A good crowd attended throughout and saw lots of action, and in the end the club did well financially.

Along with the first and second place trophy given for each of the final bouts, there were several special awards presented by Ernest Jaska, publicity director. The Leon Endres Sportsmanship trophy was presented to the Altus Boys Club. Best fighter trophies were awarded to Stephen Lewis of Ardmore for the junior division and the Bret Neher of Burk Burnett for the senior division. Bill King of the Gainesville Register and R. N. Fette of the Muenster Enterprise received handsome handcarved wooden plaques in appreciation of publicity and support given to the boys.

Recognition was given to the many who helped in any way at the tourney, particularly Ronald London of Wichita Falls, Rosie Rosenberg of Gainesville, Earl Walterscheid, Steve Moser, Dan Hamric, Glenn Richardson, Jerry Wimmer, Harriet Pagel, Joan Phillips, Marilyn Swirczynski, Willie Fisher, Bill Reiter, Denis Hofbauer, Charley Hellman, James Eckart and Eddie Fleitman.

Muenster Boys Club members received seven first place trophies and nine runner up trophies as follows. First place: Darrell Swirczynski, Jeff Hess, Damian Walterscheid, Keith Partain, Bill Clark, Gary Barnhill and James Eckart. Second place: John Stephens, Monte Wimmer, Frank Stoffels, Curtis Pagel, Pat Walterscheid, Nickie Stoffels, Glenn Grewing, Jim Briggs and Charles Haverkamp.

## Cub Pack Meet Mar. 20

All three dens of Muenster Cub Pack 664 will have a meeting next Tuesday, March 20, in the KC beginning at 7 p.m. Theme of the meeting will be Knights of the Tournament and the boys are making knight costumes to emphasize the theme. Parents are invited to attend with their sons.

Why is it that the nice, sensible guy you elected to Congress seems to go off the deep end shortly after he gets to Babylon on the Potomac? He often takes on an aura of royalty, tells you how to run your affairs and proposes with blithe unconcern new ways to spend tens of billions of your tax dollars.

It is reported that when new members of the House of Representatives go to Washington they find that suddenly they are "... wrapped in a veritable cocoon of privileges and prerequisites — at tax-

payers expense. . . ." To make sure a fledgling Congressman doesn't overlook anything, there is a new 204-page "Congressional Handbook" outlining all of the goodies provided for his creature comforts and working convenience. In the first place, he has a \$157,092 a year allowance to hire a 16-member staff to help run his office in Washington and in his home district. An employment service to find these people is providing free of charge. Provisions are made for every kind of personal service, from legal help to shoe shining, at no cost. Complete facilities and expert assistance are available within instant reach to help with communications to the folks back home — radio scripts, movies, slides, speeches — anything at all. The Congressman's salary, not to be sneezed at, is \$42,500 a year and to assure that he stays around to a ripe old age, 31 different health plans are available as well as the complete medical services of Walter Reed Army Hospital and Bethesda Naval Hospital. **SS Beneficiaries Must File Earnings Report by April 15**

April 15 is just a short time away. Between now and then, the average citizens will have to add up all his income for last year, total his expenses, do a few mathematical gyrations and file his 1972 income tax return. Gus Jones, manager of the Sherman Social Security Office, reminds social security beneficiaries that by April 15, they may also have to file a report of their earnings in 1972 with the Social Security Administration.

Jones said that persons who earned more than \$1680 in wages or income from self-employment in 1972, and also received at least one social security check during 1972, are required to report the exact amount of their earnings by April 15. Jones said this does not apply to persons who receive benefits because of a disability, or those who were over age 72 the entire year.

Most persons who are required to file this report will receive a reporting card from their social security payment center, Jones said. The card will include instructions on its completion, with an envelope for its return to the payment center. However, Jones said that persons who do not receive the card by April 1 but think they are required to report their earnings should contact their social security office.

Jones said that anyone can get assistance in completing their report by calling or visiting the social security office. Generally, the necessary information is on the person's 1972 W-2 Forms, or his tax return.

Recent amendments to the Social Security Act have increased the amount a person can earn before he suffers a deduction in his social security checks. In 1972, a person was allowed to earn \$1680 without losing any benefits. If he earned between \$1680 and \$2880, he had one dollar of his social security benefits withheld for each two dollars he earned over \$1680. For earnings over \$2880, one dollar of his social security benefits was withheld for each dollar he earned. (However, Jones said, that a person could receive a social security check for any month in which he neither earned over \$175 nor performed substantial services in self-employment.)

Under the new rules, a person is allowed to earn \$2100 a year (beginning with 1973) without penalty. For every two dollars over this amount, one dollar of his social security benefits will be deducted. The "one-for-two" rule will apply to all earnings over \$2100. In addition, Jones said, beneficiaries can receive a check for any month in which they neither earn over \$175 or perform substantial services in self-employment.

Jones emphasized that persons who need assistance or want more information can receive it by calling any social security office. The office in Sherman is located at 810 N. Travis and office hours are 8:30 a.m. to 4:45 p.m. Monday through Friday. A representative may also be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12:00 noon in the Federal Building.

**Letters to the Editor**

Dear Editor:

Have you heard of Bob Rodale's weekly column called "Organic Living?" It's filled with fascinating ideas to help people solve environmental problems. The column can help people develop a more natural and healthful life style. It will tell us how to bring about a pollution-free environment and better health. It is not only fascinating, but actually necessary for survival to educate ourselves how best to recycle all waste, not just cans, paper and glass. Kitchen refuse should never be sent to the dump!

The entire city of Brookhaven, Long Island, has taken to organic gardening and composting to enrich their yards and gardens. They believe it ecologically necessary! The soil has gotten sick from too much poisonous chemicals and has killed our earthworms. We must save the land!

If you are not acquainted with "Organic Gardening and Farming", check your city library for this monthly magazine.

To get this column for your newspaper, contact Willard Colston, Chicago Tribune, New York News, Tribune Tower, 435 North Michigan Ave., Chicago, Illinois 60611. Putting this column in your paper will be a great service to your community, pollution and nutrition-wise."

It is believed that treating the soil organically will insure the health of the nation. God in His great wisdom and goodness has so generously provided us with all the organic elements necessary to feed the soil. Recycling of all natural wastes is true ecology. Living organically will bring about healthier minds and bodies for ourselves and our children for generations to come.

Truly yours

Dear Editor,

I have been reading the recent anonymous letters in our paper. I don't say that I agree or disagree with these people's views, but I feel that any constructive criticism that might benefit the community is appreciated by most of us. However, I think all letters printed should have the writer's signature, otherwise any kook can get all sorts of junk printed.

The only letter that rather upset me was the one about the hole in front of City Hall and the comment that implies that all that our city employees have to do is drag up and down our streets.

To keep the record straight, that HOLE, in the first place, is not the City's baby. It belongs to the State.

Sincerely,  
 Mrs. Rich Grewing

**Tough Legislation Proposed for DWI**

Baytown Rep. Joe Allen has introduced legislation to require a mandatory minimum 30-day suspension of operator's licence upon first conviction for driving while intoxicated, and a mandatory one-year sentence on second conviction.

Rep. Allen says Department of Public Safety officials tell him "almost a third of all fatal rural accidents were the direct result of drunk drivers. Statewide figures are almost as high."

"Over 700 people were killed on the highways of Texas by drunk drivers in 1971. Consider that nearly 200,000 accidents during that same year were caused by drinking and driving and that the rates go up every year, and you get a good idea of the size of the problem," says Allen.

Allen says he has DPS support for his bill, partly because "juries hesitate to suspend a driver's license for a whole year. Consequently, our officers make the arrests, but can't get the driver off the road for any significant length of time."

**Garden Club Hears Talk on Pruning By Roger Taylor**

A timely and informative discussion of pruning trees, shrubs, and roses with emphasis on correct methods and ways to avoid costly mistakes, was the highlight of Muenster Garden Club's March meeting Monday night.

Roger Taylor of Muenster Garden Center was guest speaker. He brought limbs, branches and rose stalks on which he demonstrated as he talked. And he displayed a number of tools suitable for use by do-it-yourselfers.

Mrs. Arthur Endres, president, presided for the business session and listed coming events of interest. These include a plant exchange at Leonard Park on April 13, a pilgrimage to Chandler Gardens in Weatherford on April 14, installation of new officers and guest day at Cooke County Electric Co-op building, May 14; a flower arrangement workshop and school at the Co-op on June 6 and a flower show on June 22. Location for the flower show will be announced.

Mention was made of the fine work done by the YEP club of Muenster High School and the Garden Club voiced appreciation of the interest shown by these ecology-minded young people.

Winner of the speech contest sponsored by the Garden Club is Carol Yosten of Sacred Heart High. She and her mother, Mrs. Henry Yosten, will be guests of the local club at the Spring District Meeting in Sherman on March 15 when she will present her entry "Water, Wisdom, and Waste" for district competition.

Marlene Pagel, daughter of the Maurice Pagels, was first place winner in the locally sponsored poster contest with an ecology theme and will have her artwork placed for district competition at the spring meeting.

Mrs. Oscar Detten was hostess in TP&L community room, assisted by Mrs. Endres as co-hostess for Miss Bettye Dodds who was called to the bedside of her sick father in Decatur.

They served dessert and coffee as their guests arrived. The refreshment table carried out a St. Patrick's Day theme. Centerpiece was a monochromatic arrangement of forsythia and daffodils by Mrs. Howard Houtchens, displayed, on a green-patterned cloth.

Newly welcomed member Mrs. Leonard Endres and three guests, Mmes. Richard Wilde, Al Felderhoff and Mel Stephens joined 13 members for the meeting.

April meeting will be held in the home of Mrs. Howard Houtchens with Mrs. Arnold Rohmer as co-hostess. Miss Betty Dodds will present a program on "Gardens of North America."

Weekend visitors with Mrs. Joe Vogel were her children

Leonard Vogel of Dallas, Miss Lillian Vogel of Fort Worth and newlyweds Mr. and Mrs. Don Vogel of Dallas. Don and Miss Janie Sills were married in Dallas on March 2. She is a sister of Mrs. Weldon Vogel and the couple visited also with them.

Sunday visitors with Mr. and Mrs. Len Endres were her niece and husband, Mr. and Mrs. Felix Mote of Tulsa.

Miss Judy Tomkins and two classmates, Misses Suzanne Morrissey and Denise Fallwell, all nursing majors and junior students at TWU in Denton, spent the weekend with Judy's grandparents, the Victor Hartmans. They were entertained also by the John Yostens and Harvey Schmitts. Judy is the daughter of Mrs. Keith Tompkins of Arlington. Suzanne hails from Washington, D.C., and Denise is from Dallas. They were seeing Muenster for the first time, were delighted after hearing so much about the city from Judy. The trio drove over from Dallas where they are getting on the job training at Dallas Nursing Center.

Visitors Sunday to Wednesday this week with Mr. and Mrs. Johnny French were his son-in-law and daughter, Mr. and Mrs. Tom Bright and daughter DeAnn of Jackson, Mich.

Mr. and Mrs. Jerry Henscheid and sons Jeff, Mark and Greg left Irving Monday by car for Los Angeles, Calif., to make their home for the next nine or ten months while he is on an out-of-state assignment as an insurance examiner for Texas State Insurance Commission. The boys will be finishing the school year in L.A. Jeff is in eighth grade, Mark in sixth, and Greg in third. The family phoned his parents, the Leo Henscheids, Sunday night to tell them they were packed and ready to leave early Monday morning.

**Don't Overlook Revenue Sharing Question on '1040'**

W. T. Coopinger, District Director of Internal Revenue for North Texas, reminded taxpayers of the importance of answering two Revenue Sharing questions appearing on Forms 1040 and 1040A.

In order for the Federal Government to distribute Revenue Sharing Funds properly to states, counties, townships, and municipalities, the Government must know how many people live in each location, Mr. Coopinger said.

Correct information supplied by taxpayers, Mr. Coopinger continued, will help insure that all areas in Texas receive their fair share of Federal funds.

Since the first Revenue Sharing checks were mailed out in early December, Texas has received \$40,958,303.00 in Federal funds and local communities have received \$76,784,248.00.

Mr. Coopinger said that one of the Revenue Sharing questions relates to the taxpayer's place of residence on December 31, 1972 while the other question deals with dependents who lived elsewhere on that date.

Helpful information on completing the Revenue Sharing questions appears in both the 1040 and 1040A instructions, according to Mr. Coopinger. Mr. Coopinger emphasized that taxpayers who fail to provide the Revenue Sharing information or who give incomplete data may find that their refunds are delayed because of the additional time required to process the return.

The law also provides a \$5.00 penalty for failure to answer the Revenue Sharing questions, unless due to reasonable cause, Mr. Coopinger said.

Mrs. Minnie Kinman of Seymour has moved to Muenster to make her home with Mr. and Mrs. O. D. Garland at Hillcrest Manor. She is Mr. Garland's aunt.

Miss Clara Ford is a new resident at Hillcrest Manor transferring from Yes-Ter-Year Nursing Home in Saint Jo Tuesday.

Mr. and Mrs. Gilbert Knabe and son Ronnie have moved from Sylvan's Trailer Park to the former home of Mr. and Mrs. C. J. Wimmer on North Walnut.

James Hess flew in from Beirut last Wednesday evening, was met at Dallas by family members, and had an overnight visit with his parents, Mr. and Mrs. Gary Hess, before going to Houston to check out oil rigs for Santa Fe Drilling Co. He said it was doubtful if he'd be back for another visit before returning to Lebanon. However, the family's vacation is due about the middle of April and they'll spend it in Muenster.

**Harold Knabe Is Birthday Honoree**

A birthday dinner honored Harold Knabe Sunday evening when his wife was hostess in their home.

Gifts included a new cue stick which guests used in after-dinner pool games.

Attending the fried chicken meal and having birthday cake afterward were Messrs. and Mmes. Kenneth Reynolds and James Knabe of Forestburg, Leo Neusch of Lindsay, Fred Knabe, Ernest Wolf and Victor Koelzer. Also Clarence Neusch, Susan and Jamie Mosler, Kenny and Ginger Koelzer and the hostess and honoree's children Gregory, Duane, Cindy and Rusty.

General Revenue Sharing may be all right, but when you consider what happens to a dollar from the time it leaves the home area and when it finally gets back it makes us wonder why it couldn't be left here in the first place.

We might complain now and then about our electrical service — or our telephone service — but no complaint could be as frustrating, surely, as the word out from Poland. Families actually wait for eight years to have a telephone installed — and then the installation costs one month's wages. (Which is approximately \$100 in Poland.)

**Wilde Chevrolet Gets Equipment**

A new Ammco front end alignment machine has been installed at Wilde Chevrolet. All shop personnel have completed the course of study required to operate the machine.

Some changes in responsibility also have been made to further improve the service departments.

Cecil Sawyer, the service manager, will be glad to help with any of your car problems.

Steve Fette is now the shop foreman. Glenn Miller has been working part time the past several months while attending the Ryder Technical Institute Mechanic School in Dallas. He presently is in the top ten of his class.

Mike Sturm is a graduate of the General Motor Technical Institute and is in the repair department. Kenny Yosten is now the parts manager.

A bank president who liked to know all about the employees working for him one day stopped at a new clerk's window and asked where he had received his financial training.

"Yale," the young man answered.

"And what's your name?" asked the president.

"Yohnson," said the young man.

### Rodney Walter Is Honored by DAR

Rodney J. Walter was one of two Irving teachers singled out for honor by the Irving Chapter of the Daughters of the American Revolution.

He is social studies instructor at Cistercian Preparatory School on the University of Dallas campus at Irving, was a guest of honor at an Awards Luncheon given by the DAR Feb. 24 in Las Colinas Country Club, received a certificate of appreciation and two history books for his school.

A native of Muenster, son of Mr. and Mrs. Oscar Walter, he has a bachelor of arts degree from the University of Dallas and a master's degree in history from North Texas State University.

He has taught various social study courses during his eight years association with Cistercian Prep and says a true appreciation of his American heritage came while serving in the U. S. Navy from 1956 to 1960. He and his wife have three sons, ages seven, five and two.

The other honoree spotlighted was Mrs. Rosemary Leonard, chairman of eighth grade social studies at Crockett Junior High.

## Fresh Cooked Celery The Forgotten Vegetable

Celery is a vegetable as common in the home as onions and potatoes. And yet, it is often neglected as a cooked vegetable. Most of us keep it on hand to chop into tuna or potato salad, or perhaps the poultry dressing. But when was the last time you served your family cooked celery?

Braised Fresh Celery Medley combines fresh celery with other vegetables in a delicate cream sauce. Buttery crumbs and shredded Cheddar cheese add extra flavor and texture. This handsome dish is a perfect vegetable accompaniment to your next roast leg of lamb or standing rib of beef.

### Braised Fresh Celery Medley

- 4 tablespoons butter or margarine, divided
- 1 cup fresh green beans, halved
- 1 cup beef bouillon
- 1 cup soft bread crumbs
- 3 cups julienne strips celery
- 1/2 cup shredded Cheddar cheese
- 1 cup julienne strips carrot

Melt 2 tablespoons butter or margarine in a saucepan. Add beef bouillon and bring to a boil. Add celery and carrot strips. Cover and cook 5 minutes. Add green beans. Cover and cook 5 minutes longer. Drain, reserving liquid for sauce. Place vegetables in a 1-quart casserole. Add Cream Sauce\*. Mix remaining 2 tablespoons butter with bread crumbs and sprinkle over top. Bake in 350°F. oven for 15 minutes. Sprinkle with cheese and bake another 5 to 10 minutes.

Makes: 6 servings.

### \*Cream Sauce

- 2 tablespoons butter or margarine
- Vegetable liquid plus milk to make 1 cup
- 2 tablespoons flour
- 1/2 teaspoon salt
- 1/16 teaspoon pepper

Melt butter in saucepan. Blend in flour. Stir in vegetable liquid and milk. Cook, stirring constantly, until thickened. Season with salt and pepper.

### Garden Club Is Host for Council

Muenster Garden Club was host Monday for the March meeting of the Gainesville Council of Garden Clubs in TP&L community room.

Principal discussions concerned the District II meeting on March 14-15 in Sherman which members plan to attend, and the plant exchange on April 13 in Leonard Park. The plant exchange is open to the public and there is no charge for plants.

Mmes. Howard Houtchens and Paul Endres were hostesses and served refreshments from a pretty table with a spring theme of jonquils and forsythia.

### Health Education Program Offered For Older Persons

Vigor in Maturity (VIM), a new health education program for older Americans sponsored by the National Retired Teachers Association and the American Association of Retired Persons, will be offered by Cooke County Chapter of AARP on each of five Thursdays in March at the Fellowship Hall of the First United Methodist Church in Gainesville. All persons 55 years of age or older are invited to attend.

Each of the five sessions, scheduled 2 to 4 p.m., will spotlight areas of health which concern older people.

The opening session will deal with home safety and fire prevention. A member of the Fire Department will be present for a question and answer period. Films and informational materials will be a major part of the presentation.

Later sessions will consider diet, health quackery, chronic disease, problems of the eyes and ears, Medicare and how community agencies can serve the elderly.

Information about the VIM program may be obtained by calling T. L. Gaston president of the AARP chapter at 665-4061.

VIM is only one of the many services offered by the 4 million-member Associations, the nation's largest organization dedicated to helping older persons achieve independence, dignity and purpose in retirement. Other services include recommended health, life and automobile insurance programs, a temporary employment service, pharmacies offering prescription medicines and other health items at reasonable prices on a walk-in and mail-order basis, a travel service geared to mature needs, a continuing education program and award-winning publications.

## Creative Writing Contest Planned By Junior College

The annual creative writing contest sponsored by Cooke County Junior College is now open, announces Mrs. Ona Wright, chairman of the English department.

The writing contest has two divisions of entry — for students and non-students. Each division has two categories: short story and poetry. For an entrant to qualify as a student, he must have been enrolled in either the fall or spring semester of the 1972-73 school year at Cooke County Junior College. The non-student division is for all those who do not qualify for the student division and the general public.

Guidelines for entering the writing contest are as follows: (1) one entry per contestant in a division, (2) maximum of 5,000 words for a short story and not more than 100 lines for a poem, (3) all entries must be typed, double-spaced and with the contestant's name on the title page only. The title page should also contain the division of the contest the writer is entering (student or non-student), his name and the title of the work.

Prizes for each division will be \$30 for first place, \$20 for second, and \$10 for third. Winners will be selected by off-campus judges and should be present on awards day for photographs as well as for prizes.

Deadline for receipt of manuscripts is April 13. All entries should be submitted to Mrs. Ona Wright, Box 815, Cooke County Junior College, Gainesville 76240.

Mrs. Wright, who is currently teaching courses in creative writing, encourages all those who have wanted to write someday to enter into the spirit of creativity associated with the contest. "We have named this contest in honor of Miss Layuna Hicks, a former chairman of the English department at the college," explained Mrs. Wright. "Miss Hicks dedicated much of her time in helping the creative writer, and we wish to carry on this tradition," she said.

All winning entries will be published in the college literary publication Vision. Mrs. Wright will be assisted by E. Clay Randolph, English instructor, and Mrs. Judy Randolph, writing center assistant.

On May 1, awards will be presented to winners of the contest at an assembly in Room 410 during activity period. Dr. June Welch, author and chairman of the history department at the University of Dallas will be the guest speaker.

## When costs go up, solving the problem isn't easy for TP&L

Texas Power & Light Company's costs of bringing you dependable electric service have risen drastically in recent years. And, they're still going up.

For example, TP&L uses thousands of racks... a small but essential piece of hardware which is attached to poles as a support for power lines. In 1952, the price of a rack was only 49¢. Today, the price is \$1.00.

In 1952, TP&L spent about \$23 million on new generating plants, lines and other facilities needed to produce and supply electric power. In 1972, construction costs amounted to almost \$110 million. This increase was brought about partly by the increasing demand for electricity and partly by inflation. In recent years, environmental and esthetic considerations have added new costs.

Power plant fuel, a major cost item to TP&L, has gone up in price more than 500% since 1952.

Texas Power & Light, and most electric utility companies, have a solid history of keeping electric rates as low as possible, consistent with good service. In fact, TP&L's average charge per kilowatt-hour in 1972 was substantially less than in 1952.

However, if reliable electric service is to be provided in the future, rising costs must eventually be passed on in the form of increased rates to the consumer.

In the sixth grade contest Kim and Kellie Hale tied with 19 each and Ginger Koelzer led the fifth grade with 15.

First items bought out of the new fund are ten new music stands and more purchases are planned soon.

### Benefit Bazaar Planned

Seniors of Sacred Heart High are planning a benefit bazaar for March 25 and are soliciting items for sale and for prizes which they hope to have on hand by March 23. Articles donated may be left at Coach Steele's office, south side of school, first door to the left.

### Lens-View

Reading about the Cooke County appraisal to begin soon brings to mind this being done in a city where we lived and our property tax was reduced. We hope the professional appraisers start in Muenster as our house with no running water, electric lights, telephone, and with tar paper siding and unkept yard should not show much value.

Another milestone has been reached in Muenster. For the first time the names of ladies will be on city and school board ballots. Golda Mier is calling the shots in Israel, Indira Gandhi is the Premier of India and Mrs. Patience Latting has been Mayor of Oklahoma City for several years. Guess we men will have to admit that just because they are women does not mean that they cannot take an active part in politics.

This Saturday being St. Patrick's day brings to mind the story of why the Irish wear green. There were so many rats in Ireland the people pleaded with St. Patrick to help rid their land of these pests. He advised them to bring in snakes to eat the rats. However soon there were too many snakes. He then told them to bring in monkeys to kill the snakes. This worked very well but soon there were too many monkeys. Shoot them, he said, but in doing this some Irishmen were shot. His final advise was for the Irish to wear something green so they would not be mistaken for a monkey and they have favored green every since.

In the wheat country of western Kansas between Hutchison and Dodge City there is a small town of only a dozen houses but a large Catholic Church much like the design of the old Muenster Church. The story is told that a young priest was assigned to that area in the late 1920's and saw the need for a church. The drought had been on for several years and the farmers just could not afford to pay for a new church. The priest visited each farmer individually and asked each one what yield he could expect during a good year. If the farmer said 60 bushels per acre the priest asked that if in the next year his yield would be above 60 bushels whether the farmer would give all above that yield for a new church. Naturally after so many lean years the farmers gladly pledged the surplus for the church.

As it happened the next year produced a bumper crop, in fact, enough to build and pay for the church.

Maybe that would work for our parish hall. With all the rain we are having by next week we should be signing up for flood relief. If 10% or 20% of that was pledged to the hall, its possible the government would be in a generous mood and we'd get enough to build the hall. Believe I'll give a good portion of my drowth check if it ever gets here.

### Larry Schumacher On MHS Staff as Student Teacher

Larry Schumacher, a senior agriculture student at East Texas State University, is a student teacher at Muenster High School since Monday and will be here until early in May.

He is assigned as a practice teacher assisting Edgar Dyer in the ag classroom, teaching judging teams and helping with the livestock shows and other FFA activities. After his graduation at ETSU in the summer he plans to work on a master degree in agriculture.

Larry is the son of the Richard Schumachers, Gainesville a grandson of the Al Haverkamps of Muenster and of the Henry Schumachers, former Muenster residents now living in Gainesville.

### The Men In Service

#### On Overseas Leave

### Health Class to Make Field Trip

Sacred Heart School's senior health class has arrangements made for a field trip next Tuesday, March 20.

Robert Steele, instructor, and 18 students will drive to Dallas to visit the Museum of Science and Health and the Museum of Natural Science in a special touring session.

I may have "some" faults, but being wrong isn't one of them.

the country that is the constant object of its vile propaganda and hate campaigns. One wonders which is more ridiculous - Russia's stubborn adherence to a failing system or our continued help to a regime that hates us. One thing we can say is that the Soviets, who can't keep their country going, are masters at making a sap out of Uncle Sam.

Isn't it about time for us to wise up? We need to tell them that the sucker game is ended

and we intend henceforth to reserve our help for people who don't place priority on a plot to take us over. Incidentally, imagine what would happen to civilization if a bunch of economic bunglers like that succeeds in its goal of global military takeover.

Another thought on the subject: it's hard to imagine a poorer investment. Judging from the past, what is one's chance of getting his money back? And judging from the country's long list of broken promises, who can say that it

has any intention to redeem the bonds?

#### Visit CCJC Library

Senior English students of Muenster High and their teacher, Mrs. Hartman, were guests of Cooke County Junior College library in a field trip Wednesday morning. After the librarian conducted them on a tour of the building they spent a period in research for an assignment.
