Mrs. Louise Schultz received word Tuesday, July 17, that she is a great-grandma. Her granddaughter, daughter of Mr. and Mrs. Johnnie Blankenship, is the mother of an 81/2 pound baby. The young grandmother, the former Nelda Ann Shults is grandmother at 38.

This may become more acute as we hear

that the shoe factory is planning on hiring 15 more bodies in the near future. Our city fathers may have to arrange for a parking lot before long. Adding to the problem is our "spit and whittle" platoon that meets every afternoon for their session on the "Mercy Bench" in front of the local store. Thus making it hard for shoppers to find a place to park. Progress marches on.

There has been a lot of other news this week that we will try to catch up on with the next issue. The Muenster Enterprise is going to have to start a daily, if they want to keep up with all the goings on over here at Forestburg.

Here's a big point about the beautiful 1973 Plymouth Fury you probably didn't know...it runs on regular gas.

Fury is not only a beautiful car, it's strong, solid and reliable, with such great engineering features as an Electronic Ignition System. What's more, Fury is engineered to run on regular gas. And that means a lot these days. There's a lot of value built into a Fury-all part of a plan to win you over. And now that you can get a Fury at year-end prices-well, it seems like a real good buy to me.

So if you're looking for great value in a car, I'd advise you to spend a few minutes with your Chrysler-Plymouth dealer.
