Father R. Wilson Talks at Meeting of HS Society

Father Robert Wilson, superintendent of schools for the Fort Worth Diocese, was speaker for the February meeting of the Home School Society Tuesday evening.

President Alfred Bayer led a short business meeting. Chairmen reported on the recent very successful Mardi Gras Carnival. Sister Georgia thanked all who worked and donated. Members voted to buy additional library books, tapes and head sets for the reading lab. An invitation from Mrs. Bright, P.T.O. President, was read inviting members to attend National Public School Week, March 3-7.

A group of five seniors, Barbie Hess, Sandy Reiter, Carol Knabe, Mary Hess and Chris Felderhoff, doing a song and dance skit depicting the early 50's, accompanied by Laura Kralicke on the piano, provided entertainment.

Hostesses serving coffee and cookies were Mmes. Ed Pels, Henry Pels, Arnold Muller and Roger Taylor.

Muenster Schools to Start Track at Saint Jo Saturday

Both Muenster schools will open their 1975 track season Saturday of this week participating in the 13th annual Red River Relays sponsored by Saint Jo High School and directed by the Saint Jo coach, Joe Pasqua.

According to Pasqua's report last week, about 500 athletes from 42 high schools are expected and they will compete in Class B and Class A divisions. Also team championship awards will be given in each division and individual awards will be given in each division for the first six places of each event. First and second place winners will get medals, the others will get ribbons.

April 9 Set as Registration Date For Kindergarten

Registration for children who will be enrolled in kindergarten of Muenster Public School during the 1975-76 scholastic year will be held on Wednesday, April 9, in the public school auditorium, according to an announcement this week by Superintendent L. B. Bruns.

To be eligible for kindergarten a child must be five years of age on or before September 1, 1975, and be a legal resident of the Muenster School District or be a legal transfer to the Muenster District. Enrollment will be denied if a transfer is not completed before May 1 of this year.

On April 9th parents should have the child's preschool physical, which includes immunizations against rubella (measles) and rubella (three-day measles). Three immunizations for diphtheria and tetanus are required, also, and one of these must be after the fourth birthday. Requirements also include three doses of the oral polio vaccine and one must come after the fourth birthday. Each pupil must present a birth certificate to enroll.

If further information is needed phone Principal C. O. Cash 2282 or Superintendent L. B. Bruns 2281.

Filing Deadline For Elections Is Next Wednesday

With less than a week to go before filing deadline ballots are beginning to shape up but they are still incomplete in both the city and school district elections.

Reports Tuesday morning are that Ted Henscheid has filed candidacy for a city councilman and Ed Cler and Eddie Fleitman have filed for the school board.

Available offices in the council are those now held by Mayor Bright and by Herbert Miller and Sue Endres. Openings on the school board are the full terms now held by Ed Cler and Ray Swirczynski, and the unexpired term of Robert Bayer, to which Eddie Fleitman has been appointed. Fleitman has filed as a candidate for the two remaining years of that term.

Persons who wish to be listed on either the city or the school ballot will have to file candidacy on or before next Wednesday, March 5. Texas election law requires that the announcement of candidacy be on record at least thirty days before the election, which will be on April 5. Candidates are to file in the city hall or in the school superintendent's office.

Members of the council whose terms continue this year are Richard Grewing, Aubrey Tuggle and Leo Hess. On the school board they are Urban Endres, Dan Hamric, Adam Wolf and Theresa Walterscheid.

The hospital ballot has one candidate for each available position on the board. The members whose terms are expiring all asked for re-election. They are Jimmy Jack Biffle, Paul Fetsch, Al Trubenbach and Al Felderhoff.

Any others who wish to get on the hospital ballot will have to beat the March 11 deadline, which is 25 days before the election. District regulations also require that the candidate presents a petition signed by 15 qualified voters of the district asking the person to seek the position. The candidacy is to be filed with Rufus Henscheid, secretary of the hospital board.

As in other recent years, the three elections will be held together in the public school. C. O. Cash will have charge of the school and hospital elections, Joe Horn will be in charge of the city election.

State Official Will Talk Next Tuesday At C of C Meeting

Chamber of Commerce members are reminded that their regular luncheon meeting for the month of March has been advanced from the second to the first Tuesday. It will be in the Center Lounge starting at noon.

Reason for the change of date is to schedule the appearance of Dennis Engelke, field representative of the Division of Community Services in the Texas Department of Community Affairs of the Governor's office. He will spend a week in the area served by Cooke County Electric Co-op.

Also scheduled for a meeting of directors Friday morning, Feb. 28.

Parish Hall Sold for \$100

The old parish hall, a Muenster landmark and center of community activity since 1906, has been sold for \$100. It was bought by W. A. Weatherad of Saint Jo last Saturday in an auction conducted by Don Flusche.

Sale term included a deposit of \$2,000 in escrow as assurance that the site will be cleared of all lumber and metal. Brick and masonry may be left on the site if the buyer wishes. It can be used to help fill the basement in leveling the area for a parking lot.

Another building auctioned was a 22x34 shop, a midget by comparison with the two-story 40x135 hall, and it brought a higher price. Paul Hess of Lindsay paid \$150 for it and intends to move it intact.

Also auctioned were many items of furniture and fixtures from the hall. That included tables, chairs, benches, heaters, coolers, fans, kitchen equipment and miscellaneous items along with added items from church, school and rectory. Total revenue from the auction was about \$2500.

Band Members Get High Ratings at Ardmore Audition

Members of the Muenster Hi band and their director, Bob Hayes, were encouraged last Saturday by ratings received in a solo and ensemble audition at Ardmore, Okla. Purpose of their participation was to receive ratings and criticisms in preparation for Interscholastic League competition.

Three soloists and one trio received Division I (superior) ratings. They are Kathy Davidson, clarinet, accompanied by Allen Bayer; Darrell Douglas, snare drum, accompanied by Melissa Weinzapfel; Sam Bright, French horn, accompanied by Allen Bayer; also Becky Douglas, Jeanne Swirczynski and Diane Yosten in a clarinet trio.

Two soloists, one trio and one quartet received Division 2 (excellent) ratings. They are Melissa Weinzapfel, baritone, and Pat Davidson, French horn, both accompanied by Mrs. David Bright; also Kathy Davidson, Connie Flusche and Rita Sicking in a clarinet trio; and Diane Klement, Michael Stephens, Betty Bayer and Lou Ann Swirczynski in a saxophone quartet.

One soloist and one quintet were rated as Division 3 (good). They are Jack Endres, trumpet, accompanied by Allen Bayer; also Tina Mollenkopf, Judy Fisher, Sam Bright, Sheila Grewing and Allen Bayer in a brass ensemble.

These students along with several other MHS band members will be in Denton Saturday to participate in the Region 5 Interscholastic League solo and ensemble contest.

Cowboy in Muenster Hospital

Charlie Waters, defensive back of the Dallas Cowboys is a patient in Muenster Hospital for surgery to repair a football injury.

Mrs. Rosina Thim has returned to her home in Langenau, Germany after an eight week visit here with her daughter and family, Mr. and Mrs. Wilfred Koelzer and little son, Helmut. She left D-FW on February 15 and flew from Chicago to Germany by Lufthansa Airlines.

Community Covered By 3 Inch Snowfall

The Muenster community Sunday got a sample of winter weather farther north. The local three inch snowfall was not only the biggest here in nine years, but also brought on a kind of trouble that few people of this area experience.

By the dozens they were getting stuck in snowdrifts which in many places were estimated at four or five feet deep. The drifts were found in many places along the rural roads and usually they were discovered by people who got stuck in them. In a number of cases trucks managed to clear a negotiable track but more often tractors were used to plow through. Also, county road machinery from both

precincts was on the job.

The snow was accountable for a big attendance drop at Sunday morning church service, and also for a big boost in evening attendance, including visitors from Lindsay and Gainesville. By the end of the day roads were mostly clear.

Mild temperature as well as machinery and manpower accounts for much of the back to normal roads. By nightfall little snow was left on areas where it had not drifted.

Depth of the snow, as measured by Steve Moster averaged about 3 inches, and its melted down measure added .3 to the local moisture record.

According to Moster's record, this was the heaviest snowfall here since January 1966 when three successive days added to 19.5 inches. However because of thawing and packing the deepest accumulation was measured at 9 inches. That snowfall, as far as the record shows, was the heaviest ever in the community.

Bertha Hamric Is New President of Muenster C of C

Bertha Hamric is the new president of the Muenster Chamber of Commerce. In a meeting of directors last Thursday night she was elected to succeed Herbert Miller in the top position. Al Hess was re-elected vice president and Bill Bedrick was elected to succeed Leonard Endres as secretary-treasurer.

The election of officers followed a count of mailed-in ballots for election of directors. In that David Bright and Bill Bedrick were elected to succeed Al Felderhoff and Urban Endres, whose three year terms had expired.

Other expired terms were those of Steve Moster and Willie Walterscheid, who had been appointed for one year. Following the election of officers, Mrs. Hamric appointed Walterscheid for another year and named L. B. Bruns as Moster's successor.

Board membership now includes Bertha Hamric, Al Hess, Bill Bedrick, David Bright, L. B. Bruns, Leonard Endres, Herbert Miller and Willie Walterscheid.

The directors and officers will be introduced to the membership Thursday night at a banquet to be held in the K of C Hall.

Heading the program as guest speaker will be George McKinney, community development consultant of Texas Power and Light Company, and directing it as toastmaster will be H. H. Homsley, former superintendent of Muenster Public School.

Also on the program are remarks by the past president, Herbert Miller, and the new president, Bertha Hamric, and the invocation by Father Placidus Eckart.

During the steak dinner, catered by Rohmer's, vocal numbers will be presented by "Sounds of Silence," a quintet including Debbie Reynolds, Dianne Yosten, Sherri Hermes, Mary Lou Fleitman and Lisa Mollenkopf.

Mrs. Joe Wilde has been informed that her sister-in-law, Mrs. John Eberhart of Olney, Illinois fell recently and broke her hip for a second time. She had recovered from the first injury which happened last Fall. Surgery will be performed Sunday. Her address is 1024 Buckeye St., Route 3, Olney, Ill. 62450. Mrs. Eberhart is a former Muenster resident.

March 2-8 Set as Jr. Elite Week

By official proclamation of Mayor David Bright, Monday through Saturday of next week will be Jr. Elite Week in Muenster.

The time is identical to that which has been designated by

the company as Employee Appreciation Week, in recognition of the loyal services of its 84 workers.

The occasion will be marked twice daily Monday through Thursday at 9:15 and 2:15 by guided tours through the dress factory. Residents of the area are specially invited to join in one of the tours to get a better understanding of operations and the type of products made there.

Another observance is the annual appreciation dinner and dance for employees. It will be in the K of C Hall Saturday night, March 8, starting at 6:30 with a happy hour. The dinner, catered by Rohmer's Restaurant, will start at 7:30, and the dance,

featuring the music of Doug Martin and the Rustlers, will follow the meal.

Mrs. Bernice Sicking, plant manager said that recent improvements include a new, larger boiler and pressing system along with re-arrangement of facilities to provide for more space. As a result the plant can accommodate thirty additional sewing machines, and will welcome applications for thirty more workers.

She further stated that Jr. Elite is highly rated for both quantity and quality production of ladies' wear as well as for its fine working conditions plus paid holidays, vacations, hospitalization, profit sharing and other benefits.

Bill to Expand Hospital District Goes to Austin

Preparations for the election on expansion of Muenster Hospital District moved closer last week as the local board reviewed and approved the bill which will be submitted soon to the state legislature.

The document defines boundary lines of areas to be annexed. In general they include the communities of Rosston and Hood, the part of the former Myra school district which was annexed to Muenster school district, and other rural area of the Myra community plus the town of Myra. The area was agreed to by the hospital board and representatives of the proposed Gainesville hospital district, who are having a bill presented to the legislature for creation of that district.

The four areas proposed for annexation have petitioned expansion of the district to include them but encountered a conflict in Gainesville's proposal to organize its own hospital district in all of the county except the Muenster district. The two sides then met and reached a compromise on the boundary line to separate the districts.

Bills for expanding the Muenster district and creating the Gainesville district will be presented together to the legislature and each is accompanied by a joint statement of the two boards indicating that boundaries are in agreement.

The Muenster board does not expect any opposition when its bill comes before the legislature. If that is the case it should receive early approval and the governor's signature, which establishes the area as being subject to annexation to Muenster district. After that elections must be held to determine whether one area is willing to join and the other is willing to accept.

According to law those elections must be held no less than 30 days nor more than 60 days after the bill becomes law.

Approval by both sides is regarded by the board as a good deal for both. To areas coming in it is a matter of becoming identified with an established district, and becoming more closely associated with the hospital and community. To the local district it means a potential for more patronage, a better relationship with the people joining the district, and additional tax resources in case of need to expand the hospital's facilities.

A few weeks ago we were surprised to hear that Red China's Mao wanted nothing to do with Henry Kissinger and said he prefers to meet with Richard Nixon in future negotiations between the two countries. And since then there have been signs of the former president preparing to return to public life.

In relation to those facts, an article last week by Kevin Phillips, political writer, is interesting. Observing that the processes of history often reverse contemporary political judgments, he says that Harding and Hoover are receiving kinder treatment, and quotes Rex Tugwell as saying that Hoover was author of the ideas for which FDR took the credit in our country's survival of the big depression.

Phillips apparently expects Nixon to make a much quicker comeback. One reason is an increasing awareness that Nixon and not Kissinger was the dominating influence in US dealings with Moscow, Peking, the Middle East and Europe, as well as our eventual disengagement from the Vietnam fiasco. According to Phillips there was a puppet-master to marionette relationship in which Nixon manipulated the strings.

Equally important is new evidence that other presidents also were guilty of wiretaps. LBJ used them against potential rivals of his own party and against Nixon and Agnew in 1968. FDR used them against the head of his war production board and against anti-war leader Charles Lindbergh. Also Robert Kennedy wiretapped Martin Luther King.

Those things and more were brought out during the past two years but were effectively squeezed so as to make it appear that Nixon has been the only political villain of that sort. Understandably, Nixon's offense would have been less subject to impeachment if the precedents were more publicized.

There have been many charges during the two years of impeachment proceedings that the media was out to get the president. The FBI evidence of wiretaps by previous presidents was one of the many things that was suppressed by the media in its obvious effort to minimize favorable consideration for Nixon. All of which seems to suggest that a revival of Nixon prestige would likely be accompanied by a decline of media prestige.

At the time the big mess started to develop there were millions of Americans who regarded it as nothing worse than previous political behavior, and probably not as bad. Political spying had been standard procedure for years. Even so Nixon was not guilty of that but only of trying to cover up for the group which bungled its burglary of Watergate. The involvement which developed from that effort was the president's eventual undoing. Actually the most damaging evidence was his own tapes, which he had many opportunities to destroy.

Some day history will bring out the fact that other presidents have had as many or more faults but simply were more successful in covering. For instance, LBJ started his Senate career under shadow of an election fraud. A ballot box which allegedly could prove that he was the election loser was mysteriously lost and still has not been found. Also, LBJ had his scandals with Billy Sol Estes, Bobby Baker and Walter Jenkins, but he had no problems beyond the embarrassment of a sensational news story. There was no incessant media campaign demanding a full accounting, no prying by a congressional committee, no demands for impeachment.

While recalling the determined plot to get Nixon, let's also remember the sanctimonious manifestations of shock when a few salty passages from the president's tapes were revealed. The accusers were horrified, even distressed, to learn that high officials would use such language. Well, does anyone think that the judicial committee and other fault finders were really surprised to learn that private conversation in Washington sometimes includes profanity? A person has to question the sincerity of those critics when (Continued on Page 12)

Aiken "Confession"

Senator George Aiken of Vermont, during the 34 years of his tenure, has earned a reputation for "telling it like it is." His recent farewell address to Congress contains some nuggets of wisdom that are worth pondering.

PROCLAMATION

WHEREAS, Jr. Elite Manufacturing Company in recognition of the part local workers have contributed to its own long and stable operations, has designated the first week in March 1975 as Employee Appreciation Week, and has invited the public to visit with them during that week.

THEREFORE, I, D. M. Bright, Mayor, do proclaim the first week in March 1975 as Jr. Elite Week in Muenster and urge that the facilities and employees of Jr. Elite be visited during that period.

sentatives, the conference committee or, if necessary, the chief occupant of the White House would make the proper corrections," said Aiken.

"... I have voted for measures with which I did not agree for the purpose of preventing the approval of other measures which I felt would be worse," he continues. "I have approved the expansion of committee staffs when I knew that an increase was unnecessary and costly."

Although those sentiments — which no doubt could be repeated by the large majority of Members of Congress — received the most attention in the press, the Vermont Republican proceeded to suggest some changes in the way the government operates. While not necessarily agreeing with them all, we believe they are worthy of open debate at a minimum.

"... I believe the time has come when we should stop talking about raising the salaries of our highest paid Government officials," he said. "If the President wants the public to listen and cooperate (with anti-inflation measures), he will set an example by recommending a reasonable reduction in his own salary and the salaries of other top officials in Government, including the judiciary, the Cabinet, and the Members of Congress."

The Senator also suggested constitutional amendments limiting the President to a single six-year term and prohibiting Members of Congress from becoming candidates for President or Vice President until they have been out of the legislature for at least two years.

Senator Aiken ended with this bit of wisdom, with which we unequivocally agree: "The United States will survive the current period, but the price we will have to pay is up to us."

Profligate at Bay

Few remember the "good old days" when the federal government first learned to live on the cuff in a big way. This came along during the worst of the Depression years in the '30's and in World War II when massive budget deficits became a way of fiscal life for Uncle Sam. No one worried about it because the experts said it really did not matter. After all, we owed it to ourselves.

Maybe it didn't matter. But with inflation running in double figures, the federal budget at \$300 billion a year plus and the national debt pushing \$500 billion, many people are beginning to think it did matter after all. Saving and a sense of economy are coming back in vogue, and perhaps the American people, not to mention Uncle Sam, can relearn these old virtues. It costs \$55,000 a minute or nearly \$1,000 a second simply to pay the interest charges on the rising national debt. That adds up to about \$30 billion a year, or 65 percent of all the corporate taxes collected this year. Actually, it is not a case of deciding whether the federal budget should be balanced or not. It MUST be. There is no choice left.

The human race has been able to improve on about everything but people.

Media Exaggerates Car Sales Slump

ESCONDIDO, Cal. — Contrary to nationwide reports that automobile sales are in a slump, area car agencies say that business is good here, with only a slight drop in sales.

The consensus of automobile dealers in the area is that the automobile "sales slump" is not as bad as it has been made out to be in the press, television and radio, "and we are doing as good a business now as we were a year ago," one salesman said.

Tom Hewatt of Quality Chevrolet, Escondido, said his firm has not experienced any decrease in sales. "Last December we had the best sales month all year," he said.

—The Bright Side

Profit Incentive

"We have unsurpassed opportunities and facilities for education," comments the National Association of Manufacturers, "yet we remain poor in teaching the fundamental American concept: our business system. It has reduced poverty and raised our standard of living to the highest of any large nation in the world, but among the higher echelons of learning, the true purposes and objectives of business profit have been grossly misinterpreted. The truth is that profit does not cause high prices. The profit incentive saves consumers money because it stimulates competition which results in the lowest possible prices for the highest possible quality products. The only way we can live better is producing more for each other, not by trying to get what we want by forced extraction from each other with no equal value supplied in return."

A bachelor is the fellow who does not have a better half but has better quarters.

What's in a Word?

"Behind the approach (of controversial school textbooks) is the idea that younger children, particularly, are further advanced in the spoken word than in the written. Since oral language underlies written language, exploiting a child's talent for speech can greatly help the learning of language. The emphasis on children freely expressing themselves and learning to enjoy language is described like this in a summary of the series written by the publisher: 'If pupils are to discover literature and language as meaningful experiences, their responses must not be evaluated in terms of 'right' and 'wrong!' Pupils must have the freedom to express themselves and to explore questions vital to their lives.'"

So reads one whitewash by an eastern newspaper of the schoolbooks which have been found offensive to many parents, particularly those in the Charleston, West Virginia area.

We have read selected passages from the books, and in our judgment the "meaningful language" in those passages is, in simple terms, gutter language. And much of the subject matter is filth. In a theater, the rating would be "X." We found no literary value in any of the pieces, and little "redeeming social value," to quote the Supreme Court.

It is difficult enough to maintain order and rapport in a classroom these days. An open discussion of the selections we read would place both teacher and students in a most awkward circumstance. The only lesson that could be illustrated by these materials is that textbook publishers become irresponsible.

Parents who are demanding that these texts be replaced by others of higher quality are totally justified in our opinion. They are by no means "book burners." They are exercising the judgment and sense of responsibility that should have been exercised by publishers and textbook selection committees.

If not another word should be written from this time forth, there is sufficient supply of fine literature available for classroom instruction so that if the school hours should be doubled, and school days be increased from five to six days a week and the school year increased from 40 to 52 weeks of study, there would not be ample time to begin to cover all of the literature.

There can be no excuse for pushing bad language and no reason why sordid and cheap material should not be replaced by literature of excellent quality. And that's not book burning; it is book selection. — U. S. Press Assn.

Coddled Legislators

We have all heard of the handsome salaries and royal perquisites enjoyed by our Representatives and Senators in Congress. Some state legislators do not have it so bad either.

The California Taxpayers' Association reports that members of their state legislature defeated for office will, under present law, receive a lifetime income from the state, regardless of whether they were anywhere near retirement age. Some ex-legislators in their 30's who lost out on their bids for public office could receive as much as a million dollars from the state by the time they reach retirement age of 60. So far, legislators in California are reluctant to reduce or eliminate their lucrative retirement benefits. If we are going to fight inflation, a good place to start might be to persuade our elected representatives to join that insecure old world that the rest of us have to live in.

Mr. and Mrs. Alan R. Lusk are at home in Richardson following their wedding trip to South Texas. They were married in St. Peter's Church, Lindsay on Saturday, February 1 in a double ring ceremony at a Nuptial Mass celebrated by Fr. Damian Wewers pastor and Fr. The bride wore an empire gown of white peau de soie and organza which she had designed and made. The round neckline bodice of chantilly lace was over an underbodice with stand up collar. Her illusion veil fell in tiers to elbow length. Bridal bouquet was a cascade with a white orchid, a frame of white roses and delicate sprengeri fern.

For something old and borrowed the bride wore a cross necklace belonging to her mother and worn at her wedding over 26 years ago. Something new was a pair

of pearl earrings a gift from the groom's family. She also wore a blue garter and a birthyear penny in her shoe.

Attendants

Liturgical readings were by Brother Henry Fuhrmann, uncle of the bride and Dr. Lusk, father of the groom. Offertory gifts were presented by fathers of the couple. White glads, ferns and green vigil lights were on the altar.

For her daughter's wedding, Mrs. Fuhrmann chose an olive and white hounds-tooth check ensemble and wore a white

Crime on the Rise Against Business

The cost of "ordinary" crimes against business will rise to \$20 billion in 1974 from \$18.3 billion in 1973 and \$15.7

billion in 1971, according to estimates from the U.S. Department of Commerce. The estimate amounts to \$89 for each man, woman and child in the country and is equal to about 17 per cent of total corporate profit.

"Ordinary" crimes include burglary, robbery, vandalism, bad checks, arson, credit card fraud and employee theft; organized crimes, airplane hijacking and embezzlement have been excluded in the estimates whenever figures permitted a breakout.

The estimates are contained in a report, "The Cost of Crimes Against Business." It also discusses the effects of se-

lected types of crimes, such as bad checks and counterfeit money, as well as crime-related problems such as drug abuse and alcoholism, office security and security services. The report is available from U. S. Department of Commerce district offices or from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C., 20402, at \$1.10 per copy.

Mass and Reception Observe Golden Wedding of Pete Blocks

Mr. and Mrs. Pete Block of Lindsay observed their 50th wedding anniversary Saturday, February 15 with a Latin High Mass in St. Peter's Church and a reception in the Knights of Columbus Hall in Gainesville.

Fr. Herman Laux of Subaco, a brother of Mrs. Block celebrated the Mass at 5:00 p.m. and heard the couple renew vows pledged 50 years before.

Mrs. Block's attendant was her sister-in-law, Mrs. Ben Hermes. Anton Laux, Mrs. Block's brother served as best man as he did 50 years ago.

Servers for the Mass were grandsons of the couple, Kevin Block of Lindsay and Arthur Wagner of Perry, Oklahoma. At the Offertory, granddaughters Lu Ella and Jo Ann Fuhrmann presented the gifts.

Mrs. Cecilia Schmitz was organist and the Lindsay choir sang the Mass. Songs at the Offertory were "Veni, Jesu" and at Communion "Oh, Lord, I Am Not Worthy." Before the recessional, the congregation joined in singing "Faith of Our Fathers."

The altar space was decorated with gold and white mums, green ferns and gold candelabra.

For her 50th anniversary, Mrs. Block chose a street length dress of medium blue. Her headpiece was a matching bow with net sprinkled with tiny gold leaves. Mrs. Hermes wore a street length dress of deep rose and headpiece similar to Mrs. Block's. Both had corsages of deep yellow Fuji mums tied with gold ribbon.

Ushers were Mark Kuntz and Henry Fleitman.

Reception

Following the Mass a reception, dinner and dance, honoring the couple were held at the KC Hall in Gainesville. Carol Fuhrmann, a granddaughter registered 165 guests. The registration table held the wedding picture, a flower arrangement and a framed Happy Anniversary picture, a gift from Fr. Herman.

Centerpiece for the anniversary table was a three tiered cake topped with a numeral "50". Mrs. Henry Voth, Jr., baked and served the cake. Tables for guests were covered with white cloths and centerpieces were gold "50" numerals, white candles and gold streamers.

Assisting Mrs. Voth in serving the cake were granddaughters Natalie and Annette Block, Linda Loerwald, Paula Kuntz, Peggy Fuhrmann and Marian Wagner.

After dinner there was a short program. Wilbert Block welcomed the guests and Mrs. Leo Wagner read a history of the honored couple. Mrs. Maurus Hacker read a tribute to grandparents followed by a comical poem read by Gene Block. Fr. Damien spoke briefly, addressing his comments to the honor couple. To conclude the program, Pete Block recalled happenings of the past 50 years.

Dancing followed. The couple are parents of eight children — Wilbert Block, Mrs. John Kuntz (Beatrice), Mrs. Diamond Fuhrmann (Evelyn), Mrs. Leo Wagner (Elfreida), Mrs. Al Kuntz (Alice), Gene Block, Mrs. John Loerwald (Irene), Mrs. Bill Hemmi (Patty), and twenty eight grandchildren and two great grandchildren.

Out of town guests came from Pilot Point, Fort Worth, San Antonio, Bedford, Scotland, Wichita Falls, Denison, Gainesville and from Arkansas and Oklahoma.

### You can't eat socialism (nor swallow it!)

In Russia it took 39 million farmers to feed their country and they still had to import 400 million bushels of American wheat.

But the United States needs only 3 1/4 million farmers to feed the entire nation, and feed us better, and still produce a surplus to export. How? Highly productive machinery developed by American manufacturers and well used by American farmers working to make a profit.

In South America it takes 23 million farmers to feed their 191 million people; in Africa 97 million to feed their 351 millions. And socialist nations in both continents depend on capitalist America to keep them alive.

The Russians and others may (MAY!) enjoy their ideology, but it isn't very filling until capitalism in search of profits comes to the rescue. — Warner & Swasey

One of the shortest measurable intervals of time is between the day a man sets a little extra money aside for a sudden emergency and the arrival of a sudden emergency.

### Visits Home After Five Year Absence

Faye Fette was back in Muenster after an absence of almost five years, four spent in Vietnam and 11 months on Guam. She was with USO until troops pulled out of Vietnam and then worked as an overseas telephone operator at Saigon. She did the same type of telephone work on Guam. Found her occupations interesting and saw other parts of the country on flying trips. Saigon is as modern as any large city in the United States, she said.

Her plans now are to be employed in San Jose, Calif., where she will report for work in about a week. Her daughter Linda Burney and husband live there. Daughter Kay Hickey and family live in nearby Sunnyvale. She visited them briefly before coming here.

Mrs. Fette arrived at D-FW Airport Thursday, Feb. 20, met there by her son and wife, the Ken Fettes, who brought her to Muenster. She spent Friday and Saturday in Gainesville with her sister Wanda and husband, the Bill Terrys and came back to Muenster Sunday to remain to Thursday this week. She'll have another weekend visit

with the Terrys. While houseguests of her son and his wife and their children Mike and Kristi here, she also visited other relatives and friends and celebrated her birthday which was Monday.

Sharing honors with her at a dinner in the Fette home Tuesday night was Mrs. Ben Seyler whose birthday was that day. Relatives were guests.

Mrs. Fette's other son Tim Fette, his wife and their son and daughter, who have lived in Vietnam and Guam are now at home in Borneo, Indonesia where he is employed.

Coming from warm countries, temperature rarely below 80 degrees, Mrs. Fette felt the bite of winter in Sunday's snow blizzard.

**1974 Was Safest Year for Driving**

Though final figures won't be available until late March, it appears that 1974 was the safest year on Texas streets and highways in a decade. And if the traffic death rate per 100-million miles is compared with prior years, 1974 was the safest year on record. Colonel Wilson E. Speir, director of the Texas Department of Public Safety, said he believes the 1974 traffic toll will reach 3,042 when all reports are received. If so, this will be a saving of 650 lives from the record 3,692 lives lost in 1973. The latest comparable death toll was 1964 when 3,006 persons were killed in Texas traffic. Of the 3,042 deaths, it is estimated that the final rural total will be 1,817, with 1,225 traffic fatalities estimated to have occurred in incorporated cities. Rural deaths decreased about 19.2 per cent from 1973 totals, while those in cities are down approximately 15.1 per cent.

**Mondays Attend Dallas Market on Home Furnishings**

The recent Home Furnishings Market held in Dallas afforded the unusual opportunity for more than routine business for Roy and Jane Monday. In addition to learning about the industry's newest offerings in floor coverings and home furnishings, the Mondays had the unusual privilege of meeting Shirley Cothran, Miss America 1975. She was appearing in the showroom space of Vickery and Company, wholesale carpet distributors in the Dallas Trade Mart Building, and was honored by having a newly introduced carpet named for her. The shows and displays of the Home Furnishings Market attended by the Mondays were held in Market Hall, World Trade Center, Decorator Center and the Dallas Trade Mart Center.

**Welcome Extended By MAP to West Portion of County**

Thirty six senior citizens from a wide area enjoyed an afternoon of dominoes, cards, table games, and just plain visiting Tuesday afternoon when the MAP met in the Community Center at 2:00. The meeting room is open every Tuesday from 2 to 5 p.m. Next Tuesday, March 4 the monthly luncheon at the cafeteria will be available at 12:30 p.m. A brief business meeting will be followed by a choice of table games, cards or dominoes.

Senior citizens may plan to spend the entire afternoon, arriving in time for the luncheon, remaining until the center closes, or may select whatever part of the afternoon's entertainment suits their preference.

The Texoma Planning Commission's committee on Aging has defined the area in Cooke County west of IH-35 to draw membership. Local senior citizens, that is, 55 years of age and over, are anxious to have their neighbors of Myra, Hood, Forestburg, Era, Rosston Lindsay, Marysville, Bulcher, Valley View, Sivealls, Bend, and surrounding areas join their Muenster friends for the Tuesday afternoon parties.

Those needing a ride are urged to call Mrs. Joe Hoenig at 759-2946 or Mrs. Alphonse Hoenig at 759-4262.

Mrs. Hilda Self is Director and Al (Shorty) Walter is co-director; Mrs. Andy Hofbauer is membership chairman and Mrs. Meinrad Hesse is co-chairman; Mrs. Arthur Endres is program chairman and Mrs. Leonard Endres is co-chairman; Mrs. Joe Hoenig and Mrs. Alphonse Hoenig are transportation chairmen; Al Wiesman is treasurer. Peter McCoy is also working with the program.

Speir said the death rate per 100-million vehicle miles, which is the nationally accepted criteria of traffic safety effectiveness, is forecast to be 3.9. Last year it was 4.6, with these numbers comparing to 14.6 when the DPS first began tabulating traffic statistics in 1937.

The DPS director said total vehicle traffic accidents during 1974 were down more than six per cent from 1973. The latter year saw 464,226 collisions compared to an estimated 432,100 in 1974.

"In normal times, we might have expected increases in both accidents and deaths during 1974," Speir said. He noted that both licensed drivers and registered vehicles rose last year — the drivers reaching almost 7.5 million and vehicles about 8.3 million.

The question, then, is what actually happened to cause the dramatic reduction and Speir believes the answer lies in factors associated with the energy crisis. "It appears that vehicle

miles driven declined from 80.6 billion in 1973 to just over 78 billion in 1974. This reduction in driving, coupled with the reduced speed limit, especially on rural highways, seems to have made most of the difference," Speir said.

But he also attributed credit to improvements in vehicles and highways, beefed-up enforcement, and increased public awareness generated by both governmental and private efforts.

On the subject of enforcement, the DPS chief pointed out that Highway Patrol troops

ers last year issued a record 678,664 speeding citations — an increase of 121 per cent from the 306,668 in 1973. Moreover, the 1974 speeding arrests alone exceeded total Highway Patrol arrests for all violations in 1973.

Total arrests for all violations in 1974 exceeded 950,000. Speir cautioned that an in-

creasing disregard for the 55 mile speed limit, as evidenced by the arrest figures, may cause deaths to rise once more in 1975. He pointed out that the largest reductions in total fatal accidents during 1974 came early in the year when there was better voluntary compliance with the speed law.

Dwayne Cox and son and daughter-in-law Chuck and Jennie, all of Pueblo, Colorado arrived in the burg Feb. 22 to spend a week here visiting with relatives and friends. Mabel Covington says Dwayne is really enjoying his

Mrs. V. G. Greenwood went out Sunday a.m. and measured the snow at their place — she came up with 2½ inches.

**How to save electricity when using washers and dryers**

1. Choose proper wash cycle. ("Hot" setting isn't necessary with most modern fabrics.)
2. Use long wash cycle only with full laundry load.
3. If washer has water level control, choose level to match load size. (Saves hot water and energy used to heat it.)
4. Clean dryer's lint filter after each load to help dryer efficiency and reduce drying time.
5. Don't overdry clothes. Set timer according to garment's fiber content.
6. Sort clothes for drying by weight and texture of fabric to avoid extra run-time for 2 or 3 slow-dry items.
7. Vent dryer to outside to prevent indoor moisture build-up. Follow manufacturer's operating instructions carefully.

The mountain dweller found a small mirror, the first he had ever seen. He looked into it with surprise and exclaimed: "By cracky, it's a pitcher of me old pappy!" Sentimentally, he hid the mirror

under the bed. His wife saw him hiding it, and when the man left the house, she took the mirror, looked into it, and snorted: "So that's the old hag he's been chasin'."

**Bill Introduced To Ban Smoking In Public Places**

Senator Jack Ogg of Houston has introduced legislation that would prohibit smoking in certain public places. The Ogg bill would ban smoking on planes, trains, elevators, hospitals, museums, and other public places unless a designated area for smoking is provided.

"This is legislation to protect the rights of non-smokers by requiring certain public facilities to set aside separate areas for smokers and non-smokers. The intent of the bill is to protect the rights of non-smokers. Although I am personally convinced that smoking is injurious to a smokers' health, it is certainly his prerogative (to smoke). However, non-smokers also have the right not to inhale the smoke of others that is also dangerous, offensive and impolite to them. There are already states and cities who have comparable legislation and ordinances. Many public facilities also voluntarily protect the rights of non-smokers. The legislation merely extends this principle," Sen. Ogg stated.

Under the Ogg bill, a violation of the provision would be a Class C misdemeanor, carrying a fine of up to \$100.

Charles Felderhoff of Dallas visited his parents Mr. and Mrs. Tony Felderhoff Saturday, coming especially to see his mother who was released from hospital care Friday. Mrs. Charles Felderhoff and two sons are in Houston spending a week with her parents, the Lawrence Dittlingers. Her father is recovering from a recent stroke.

**TP&L and Alcoa To Build Lignite Generating Plant**

Texas Power & Light Company and the Aluminum Company of America will construct and own jointly a lignite-fired electric generating station in Robertson County, 50 miles southeast of Waco, officials of the companies announced.

The plant will be located about 10 miles north of Franklin on Duck Creek. Two 750,000-kilowatt generating units will be constructed and placed in service in 1981 and 1982. No exact construction date was announced.

The plant will be called the Twin Oak Steam Electric Station and built in the vicinity of lignite deposits owned or under lease by the companies in Robertson County.

TP&L will own 70 percent of the generating facility and Alcoa 30 percent.

Alcoa will use its portion of the power to operate a plant under construction near Palestine, utilizing the new Alcoa Smelting Process, a revolutionary method of aluminum-making which requires 30 percent less electricity than the most efficient unit of the Hall Process now used world-wide. The first unit of this plant is expected to be in operation by January 1, 1976.

Until the first generating unit at Twin Oak is completed in 1981, TP&L will sell Alcoa sufficient electric power to satisfy the requirements of the smelter.

The generating plant site will encompass about 6,000 acres of land. A large reservoir to hold cooling water will be built adjacent to the plant.

The use of lignite, a form of soft coal, is being used in a transition from natural gas as a principal source of fuel.

TP&L and two other electric utilities of the Texas Utilities System, are currently producing electricity from a lignite-fired plant near Fairfield. In addition, other lignite-fired plants are being constructed in Rusk County near Henderson and near Mt. Pleasant where the first of three generating units is already in operation. Another lignite-fired plant is planned near Athens. A TP&L affiliated company has operated a lignite plant for Alcoa near Rockdale for more than 20 years.

During the plant's construction period, an average of 550 workers will be needed at the site. In peak construction periods, about 1,000 workers will be required.

Prior to the play, P.A.T.E. and Junior Garden Club awards will be presented.

She is a national flower show school instructor, a master judge, a dynamic speaker, an avid photographer and a long-time volunteer worker for civic organizations. He is survived by his wife Mae, two sons, two daughters; two brothers, John Neu of Lindsay, Nick Neu of Slaton; two sisters, Mrs. Mary Bierschenk of Valley View and Mrs. Helen Schmitt of Alice and five grandchildren. ### Roger Endres Hits Average of 25 in Basketball Season

Roger Endres, who has been the consistent high scorer for Sacred Heart during the past basketball season, and usually also the top scorer of the game, finished the past season with the amazing total of 652 points and an average of barely over 25 points for the 26 games played.

Next in line was Rickey Walterscheid with another two-digit average. His total for the 26 games was 415, which figures to almost 16 points each.

From there, however the total scores dropped sharply as Pat Endres made 172, Mark Hess 162 and Joe Hoedebeck 87.

Considering those low scores the Tigers did a good job in ending the season with a record of 11 wins and 15 losses and an over-all score of 1553 whereas their opponents had 1699. That figures to an average score of 65.35 to 59.73, favoring the opponents for the full season.

The Tiger B team likewise failed to break even in wins and losses. With a season record of 3-5 they scored 251 points whereas the opponents got 320.

John Henscheid led them in individual scoring with 46 points in 5 games, an average of 9.2. Next was Bob Hartman who hit 50 in 7, an average of 7.1. Others were Kenny Felderhoff, 19 in 7 averaging 2.7; Chris Sicking, 16 in 4, averaging 4; Frank Mosier, 18 in 4 averaging 3.6; Glen Walterscheid, 12 in 4 averaging 3; Jim Luke, 9 in 3 averaging 3; Joe Sicking 6 in 2 averaging 3.

The Tigerettes had a rather unhappy season with a season record of only 4-26. Gloria Hess had a season total of 322 for top individual honor and Laura Kralicke was next with 237. Mary Hess scored 216, Marlene Pagel 92, Sharlene Pagel 65, Kathy Luke 20 and Cindy Bartush 4. Guards for the season were Linda Miller, Sharon Rohmer, Diane Kralicke and Elizabeth Kralicke.

B team Tigerettes had a better record, winning 5 and losing 8 for the season. Beverly Pels led the scoring with 137. Janet Henscheid made 59, Mildred Grewing 57, Gayle Miller 10, Brenda Voth 7, Sue Mosier 6, Carolyn Luke 5, Mary Hoedebeck 1. Guards were Karen Schilling, Julia Bayer, Ramona Walterscheid, Donna Swirczynski, Mary Caplinger and Mary Luke.

Respect the common things. They are common because they survived.

### Lindsay Girl Is Finalist in NMS

Lisa Magee, a senior at Lindsay High School, has been notified she is a finalist in the 1975 National Merit Scholarship program. This is an honor she shares with a highly select group of less than one half of one per cent of the nation's graduating seniors.

Of the 14,000 finalists, about 25 per cent will receive scholarships. Counselor Tom Flucker, who announced the award, praised Lisa's accomplishment. "We are real proud of her. A finalist comes along about every five or six years."

The letter Lisa received commends her for demonstrating "outstanding academic ability and having shown potential for becoming one of our nation's future leaders in your chosen field."

Lisa received special recognition at a school assembly Tuesday when she was presented a certificate of merit. She is the daughter of Mr. and Mrs. Norb Magee of Lindsay and a granddaughter of the late Mr. and Mrs. Joe Magee of Muenster.

### Champ Trophies in SH Junior Tourney Won by Era Teams

Era was the champ in both divisions of the junior high basketball tournament held last week in the Sacred Heart gym. The Era girls claimed the honor by nosing out a stubborn Montague team 35-34 in the champ finals. And the Era boys got theirs in a 24-19 decision over Valley View, thereby closing out the season with a perfect 23-0 record. Era girls ended with a slightly less impressive record of 21-4.

In earning the champ trophy Era started with a win over Prairie Valley and then beat Gainesville in semifinal. The boys beat Prairie Valley first and Sacred Heart next.

Consolation trophies were won by Sacred Heart girls and Montague boys. The Tigerettes did it in a 19-15 win over Prairie Valley after previously losing the opener to Valley View and beating Saint Jo in the semifinal. Montague boys beat Sacred Heart B 23-18 in the consolation final. Prior to that the Sacred Heart B team lost to Era and Prairie Valley.

For third place honor Valley View girls rolled over Gainesville and Saint Jo boys edged Prairie Valley 36-35.

Something extra in the tourney was selection of ten Best School Representatives in both divisions. Girls named were Laurie Walterscheid for Sacred Heart, two each for Era, Valley View and Montague, and one each for Prairie Valley, Saint Jo and Gainesville. Boys are Craig Walterscheid and Joe Bartush for Sacred Heart, two each for Era, Valley View and Saint Jo, and one each for Montague and Prairie Valley.

Coach Bob Steele of the Sacred Heart Tigers has a few assignments made and is deciding on the others during this week's practice. With a long roster of team members, he too expects to have three entries in each event. Those named Monday were Bruce Fuhrmann in the 880 run, Roger Endres in the 100 yard dash and the mile run, Mark Hess in the intermediate hurdles and the mile run, Craig Sangster in the mile run and the 220 yard dash.

### Confetti - - -

they make a big fuss over a few off-color remarks by the president but overlook the assortment of filth and four letter obscenities included in textbooks for West Virginia school children. The textbook trash is far more offensive than the presidential tape remarks, and it is intended to influence the speech and the thinking of school children, but the hypocritical impeachers have made no complaints about it. Imagine, they say it was terrible for a few adults to use strong language among themselves, but ignore a deliberate attempt to defile the character of a generation of young people.
