YOURS VERY TRULY
J. G. CALLENS, HEREFORD TEXAS

IN MEMORY OF P. JONES His Doctor Prescribed the Medicine, the Druggist Put in Something Else. SO HERE HE IS

A Short Talk ON A Grave Subject

Druggists as a rule don't go much on graveyards. No doubt they all get there in the end the same as other people but we mean during life. In his leisure hours (if he has any) the druggist seldom puts in his time in the graveyard. If he is out for a stroll he is more likely to turn his steps away from it. This is usually for one or two reasons. If he is a good druggist and understands his business he regards the graveyard as a sort of enemy which he is fighting all the time trying to keep his customers out of it. If he is a dealer who thinks more of his profits than his customers, he fights shy of the graveyard for conscience sake, remove perhaps for having substituted something cheap in filling prescriptions for the deceased. We have as much antipathy for graveyards as most druggists, not because our conscience troubles us. We stay away because it makes us feel bad. We are always sorry when one of our friends and customers is called to "the life beyond," but if we had anything to do with his last illness our conscience is clear. We filled the prescriptions exactly as the doctor ordered. It is our business to fill prescriptions. It is our principle and invariable rule to fill them EXACTLY as ordered and we never let the work be done by inexperienced help. We use the right drugs, the right proportions and of the quality the doctor expects; with this our duty is done. Bring your prescriptions to us where you get what the doctor wants you to have.

Mr. Shirley Will Locate.

T. E. Shirley, who had been in Hereford for several days in the interest of the College at this place, has made up his mind to locate in Hereford and with this in view, he purchased 75 acres of land just east of the Humphrey place from T. J. Graves, which place he will improve for a permanent home, the move being made necessary on account of his being troubled with asthma in lower altitudes of Texas, while here he is entirely free of it.

Mr. Shirley, as is well known by our local readers, is prominently identified with the educational work of the Christian Church of Texas and has been one of the principal factors in placing the Panhandle Christian College on a firm basis.

Mr. Shirley is planning to purchase other property near Hereford so that he will be permanently identified with the interests of the town. He will find a united people ready to heartily welcome him into our midst and render him assistance in educational work in which he has proven so successful.

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. T. M. Coulson & Co.

Attention.

The Ladies' Union Aid Society, of Castro County, ask the special attention of the public to the following:

On Thanksgiving day at the School House, the members of the Ladies Aid Society will give a dinner. The charges are as follows: All gentlemen 25 cents each, and all ladies 25 cents, who do not assist with dinner. All children below 10 years of age will have their dinner served free of charge, those above that age 25 cents each.

In the afternoon of the same day, the Ladies will have a Bazaar (or Church Fair) and will sell articles, such as bed quilts, comforts, cooking aprons, children's clothes, and other such fancy and useful articles as the ladies will make.

And at night at the Court house, the young people (under the auspices of the Ladies Society) will give an entertainment. Charges 25 cents for grown people, and 15 cents for children.

All of the above are given for the benefit of the church which the ladies are so anxious to see completed. Every one come and help us.

MRS. PARR, Secretary

Trespass Notice.

All persons are hereby warned not to hunt, fish or otherwise trespass on my place (known as the Jowell ranch) east of town.

A Tribute to the Memory of Mr. Jacob Buttram.

"List, 'tis the knell of death, solemn its tone,
Murmuring sad, softly, slow, a loved one's gone,
Kneel ye, and join the whispered prayer,
And speak with reverence, the dead is there.
A golden chain from the sweet chain of love
Is loosed from earth, to form the one above."

"Passing away" is written upon all the lovely things of earth. Friendship, how dear to the human heart! how sweet to the soul to bear its chains! Willing captives, we bow to the yoke; and yet, how easily dissolved is this sacred bond of union. One stroke and the "silver cord" binding heart to heart is readily severed, breaking the "golden bowl" and spilling the precious wine of love and life. "Friends depart, and memory takes them to her cavern pure and deep" and in memory alone, can we now cherish our lamented Brother. "Death loves a shining mark," and in this instance has not only deprived us of a dear and noble friend but the world of a gifted and generous hearted man: but there is still a bow of delightful promise, adjoining the sky of life, the hope of a happy reunion beyond the shores of time. Possessing a mind of uncommon order, a heart affectionate and true as steel, he was an honorable companion, and an unselfish friend, and had by his exalted qualities of disposition and character, so endeared himself to all who knew him, that, though dead, he still lives in their heart—a cherished memory. It has been justly said of him, "Earth was not worthy of him."

As afflicting as this dispensation of divine Providence has been to all, yet we may desire the consolation of religion, which during life, supported him at all times, and not only was his stay during the varied scenes of existence, but his chief "staff and rod," when he walked through the dark "shadow of the valley of death." God who doeth all things wisely and well, is able to heal the wounds he has made and to Him, would I, in all humility, direct the bereaved wife and family with whom I so deeply sympathize, for consolation in this their hour of need. Of the friend whose loss I so deeply deplore, I can only say, "The law of God was in his heart" and that his best epitaph would be, "Mark the perfect man and behold the upright for the end of that man is peace."

The Exact Thing Required for Constipation.

"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible griping so common to most purgatives," say R. S. Webster & Co., Udora, Ontario, Canada. For sale by T. M. Coulson & Co.

Restaurant Notice.

I have purchased the Turnbow restaurant and wish to inform the public that I serve meals at all hours, with short orders a specialty. Will also keep on hand fresh fish and oysters in their season and ask you to call when in need of anything in my line.

The Local Newspaper.
Speaking of what a newspaper does for a community, United States Senator David Davis, of Illinois, made an address that remains ever green in the memories of newspaper men. He said: "Every year every local paper gives from \$5,000 to 15,000 free lines for the benefit of the community in which it is located. No other agency can or will do this. The editor in proportion to his means does more for his own town than any other man. He ought to be supported, not because you happen to like him or admire his writing, but because a local paper is the best investment a community can make. It may not be crowded with great thought, but financially it is of more benefit than both preacher and teacher. Today editors do more for less pay than any men on earth. Patronize your home paper, not as a charity, but as an investment."—Newspaperdom.

When You Have a Bad Cold.
You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will relieve the lungs and keep expectoration easy.

You want a remedy that will counteract any tendency toward pneumonia.

You want a remedy that is pleasant and safe to take.

Chamberlain's Cough Remedy meets all of these requirements and for the speedy and permanent cure of bad colds stands without a peer. For sale by T. M. Coulson & Co.

Saturday's Rain.
At an early hour on last Saturday morning, a down-pour of rain made its appearance in this part of the Panhandle and continued throughout the day. So far as we have been able to learn all West Texas shared alike in the refreshing showers.

Farming interests, while not specially suffering for lack of moisture, have been greatly benefitted in as much as the growing wheat crop now has sufficient moisture to make connection with the winter snows and farmers will now have an opportunity to plant a large acreage to wheat.

The Original.
Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. The worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. T. M. Coulson & Co.

Nazareth Gabbings.
F. J. Heidgerken has improved his store building by putting up a suitable set of lightning rods on the store and also on his barn. Also Frank Gabbings, Harry Gabbings and B. Heileman had lightning rods put on their houses.

Demand for Panhandle Grain.

A. J. Lipscomb this week informed us that he has an order for five cars each of cane and kaffir from a Ft. Worth concern to be shipped as soon as possible. The BRAND has been advising its farmer friends to thresh their kaffir and maize and thus make it marketable and those who have tried the project are now finding a ready market for more than they have to sell. It will be remembered that a number of cars of grain were shipped from this place last season and that it was found profitable is evidenced by the increased shipment this season.

THANKSGIVING PROCLAMATION

President Observes Time Honored Custom.

Washington, Nov. 2.—The President today issued his proclamation naming Thursday, Nov. 30, as a day of Thanksgiving. The proclamation is as follows:

"By the President of the United States of America. A Proclamation.—When, nearly three centuries ago, the settlers came to this country which was to become this great republic, they suffered not only hardship and privation but terrible risk of their lives. In those grim years the custom grew of setting apart one day in each year for a special service of thanksgiving to the Almighty for preserving the people through the changing seasons. The custom has now become national and is allowed by immemorial usage. We live in easier and more plentiful times than our forefathers, then men who with rugged strength faced the rugged days, and yet the dangers to national life are quite as great now as at any previous time in our history. It is eminently fitting that once a year our people should set apart for praise and thanksgiving to the Giver of Good and at the same time that they express their thankfulness of the abundant mercies received, should manfully acknowledge their shortcomings and pledge themselves solemnly and in good faith to strive to overcome them. During the past year we have been blessed with bountiful crops and our business prosperity has been great.

No other people has ever stood on as high a level of well being as ours now stands. We are not threatened by foes from without. The foes from which we should pray to be delivered are our own passions, appetites and follies, and against these there is always need that we should war.

Therefore, I now set apart Thursday, the thirtieth day of this November, as a day of thanksgiving for the past and of prayer for the future, and on that day I ask that throughout the land the people gather in their homes and places of worship, and in rendering thanks unto the Most High for the manifold blessings of the past year, consecrate themselves to a life of cleanliness, honor and wisdom, so that this nation may do its allotted work on the earth in a manner worthy of those who founded it and of those who preserved it.

In witness whereof I have hereunto set my hand and caused the seal of the United State to be affixed. Done at the city of Washington this, second day of November, in the year of Our Lord one thousand, nine hundred five and of the independence of the United States the one hundred and thirtieth. [Seal] THEODORE ROOSEVELT.
By the President:

ELIHU ROOT,
Secretary of State.

We want your trade and must have it, and will make prices that will merit it. Try us and be convinced. D. R. Gass & Sons. 38-1f

CLEO COMMUNITY.

F. A. Henderson made a business trip to Hereford last Friday.

W. H. Gilbreath contemplates fencing his four sections so he won't have to herd all the time.

Edwin Shive and Miss Fannie Burch, Geo. Burch and Miss Etta Dixon of Cleo attended preaching at Dimmitt last Sunday.

L. A. Shive, Edwin Shive and G. T. Abbott returned from Floyd County last Saturday with a bunch of steers that L. A. Shive purchased sometime ago.

A fine rain visited this locality last Saturday which will be a great benefit to the growing wheat and also enable those that haven't planted to do so now.

Your correspondent down here who has been so busy for some time fencing for sheep, has five miles of woven wire fence completed and also has it where he can let that job rest, while he hauls in his feed crop.

J. P. Todd and family of Harvey, Brazos County, arrived in Hereford last week, and T. J. Sawyer, his uncle, and S. I. Lee, his brother-in-law, went with their wagons and moved them down to Castro, where they will make their future home.

The rain Saturday evening interfered some with our box supper at the school house Saturday night. However, there were quite a number of visitors from Dimmitt and J. F. Merritt and Miss Terrell, Malcom Johnson and Miss Ida Lee of Hart. The program was carried out to a letter. Music furnished by W. S. Dixon, Mrs. W. H. Gilbreath, Misses Fannie Burch and Clara Shive and Emmett Dixon. Everyone present seemed to enjoy himself and went away satisfied with his evening's pleasure. The proceeds of the supper were \$9.50 which will be used for the benefit of the school.

SCHEDULE CHANGED.

Fort Worth & Denver Change of Train Schedule for Winter is Announced.

Fort Worth, Texas, Oct. 14. Under a readjustment of the schedules for the winter season, the Fort Worth and Denver City Railroad trains Nos. 7 and 8 will be operated between Fort Worth and Dalhart, Texas, only, instead of being carried through to Denver as heretofore. Under these new conditions, these trains will operate Pullman sleepers between Fort Worth and Amarillo, maintaining close connection with the Pecos Valley Railroad and other lines connecting at that point and intermediate junctions.

This service in being established through to Dalhart is eighty miles greater than has been afforded during previous winter seasons, but is at present justified through the immense increase in the local as well as through travel to the Dalhart-Amarillo country by the influx of homeseekers and prospectors.

It is the policy of the Denver road to facilitate the further growth of that section of the country as much as possible by giving the homeseeker and prospector an excellent train service to Dalhart, which connects with the Rock Island for points east and west.

It also gives Dalhart somewhat of a precedent as a growing city. The distance from Fort Worth to Amarillo, the terminus of this train in former winter seasons, is 335 miles, and from Fort Worth to Dalhart, the present terminus of the run, is 416 miles. 36-1f

FRIO ITEMS

Mrs. J. E. Martin and daughter, Miss Pearl, were shopping in Hereford Tuesday.

Mrs. S. B. Harbison and grandson, Brents, spent the day with Mrs. H. H. Stanley, Tuesday.

Mesdames Twyman and Meeks and their children spent a part of the week with Mrs. H. H. Stanley.

The farmers of this community are all busy putting up their abundant feed crop and in preparing ground and sowing wheat.

J. M. Atcheson bought seven bushels of seed wheat from S. B. Harbison which he finished sowing in good time to receive the nice rain Saturday.

The students of Frio have reorganized their literary and debating society, and an hour is very profitably spent in this line of work each Friday afternoon.

Messrs Harbison of Locust Grove ranch have put in a phone recently. There is some talk of other phones being put in in the Frio community. A party-phone line would be a great convenience.

Several of the community met at the school house to try the new organ Sunday afternoon. An hour was spent very pleasantly in singing some good old hymns as well as some of later date. H.

Minstrel Succeeds.

"Before a crowd that filled the large mess hall at the New Mexico Military Institute, the cadets of the school appeared with great success as burnt cork artists in 'The Dixie Minstrels' last night. The show was under the direction of Charles Roltare, and the boys showed wonderful talent as dark-skinned entertainers. The minstrel was given for the benefit of the Institute Band, and the large crowd present afforded a goodly sum as the band's share of the proceeds. In a word the minstrel was a success in every particular.

The minstrel was opened in the old fashioned way, with songs and bright sayings by the end men, and other members of the chorus, when introduced by the interlocutor, Capt. Lohman. The end men were N. T. Armijo, C. E. Brown, Major Pearson and J. Millet.

After the opening song the individual parts occupied most of the time for an hour, the chorus coming in for a great share of the honors. The songs and "coon shines" of N. T. Armijo and Capt. Pearson were especially good. Different members of the company then entertained with specialties of all kinds. A cornet solo by W. T. Sniggs received a merited encore. A bunch of "Her-mann" tricks, that were "unintentionally" explained, was one of the best features. The performance ended in an old time plantation cake walk, half the coons being dressed as women, and it was truly a warming-up."

The above clipping is from the Roswell, New Mexico Record, October 24th. The same performance will be given at the P. C. C. on the night of Tuesday, November 14, by the students for the benefit of the College. The funds derived from this entertainment will be applied to the painting of the dormitory.

L. M. Motley of Prosperity, Missouri, arrived on Wednesday's excursion to look after his Panhandle interests. Mr. Motley was here several weeks ago and we understand purchased a section of land in this county.

We are requested to announce that there will be preaching at the Christian Church next Sunday, both morning and evening, at the usual hours.

Subject for evening service, "The Cake that was not turned." Everybody invited to be present.

The Hereford Public School is breaking all past records in the point of attendance this year, about 360 pupils having been enrolled to date. In truth, we might add that this is perhaps the most successful year's work thus far in the history of the school.

On the first page of this issue will be found the page ad of J. G. Callens. Mr. Callens says he has some rare bargains in drygoods and notions and is determined to let the people know it even if he is compelled to use printer's ink in doing so. We ask our readers to see what he has to say.

Educational Column.

Mrs. R. W. Baird, who has two bright boys in school, made us a very pleasant visit on last Friday afternoon.

A number of the college young men visited the Public School on Friday afternoon. The school enjoyed their presence, and hope they may come often.

Our great bee-hive of busy-workers swarmed the 1st of September, and their "queen" led them to the Murchison building where they are comfortably settled. Again the hive is crowded, and little room is left to store away the sweets of life. Should an other queen carry her colony forth where will she settle?

The Philomathean Society of the High School entertained Miss Griffith's room on last Friday afternoon after recess. One of the leading features of the entertainment was, the debate between Messrs Bratton and Wilson on the subject, Resolved "That a Soldier is more benefit to his country than a Statesman." The affirmative won.

It is indeed very gratifying to hear so many strangers who have visited our town of late speak in such high terms of the splendid manner and good behavior of our girls and boys as they go to and fro on the streets and elsewhere. It has been said that a lady or an aged person rarely meets one of our Hereford boys without his lifting his hat.

As all know, our President has lately made a tour through many of the southern states. On his return from New Orleans to Washington, President Roosevelt was almost continuously in communication with the land by means of the wireless telegraphy system. Messages from his ship were caught at points far inland. The wireless is certainly a wonderful invention.

One of our recent writers says that he cannot conceive of any poetry ever being produced in the Tropics. Nature and life there do not make the poetic appeal. There is little that is heroic, or plaintive, or pathetic, or that stimulates the imagination or fosters sentiment. The beak and claw and spine and thorne side of nature is more pronounced than in our zone; farms are more savage, disease is more deadly.

Mother, have you met your boy's teacher yet? If not, get acquainted with her at once, for it is she that is helping you to guide the frail little life-craft on the uncertain sea of life until it is able to steer alone. Every day she travels with your child along the beautiful pathway of rectitude, and when it stumbles and falls, she lifts it up, wipes away the tears, and then travels on. This teacher never tires. She is often thinking and planning for your child far into the night, and at last before she closes her eyes in sleep, she bears the name of your loved one on the wings of prayer to the great Father above.

Doubtless, it will be of interest to know that until of late most of our paper pulp came from the spruce tree. As this tree is fast disappearing, it became very important that a satisfactory substitute should be found. In a report of the Department of Agriculture, we find that Mr. Raphael G. Zou of the Bureau of Forestry has given the balsam fir a careful study and finds that it will answer the purpose. Less than four years ago practically no balsam was used by pulp manufacturers, many of whom are now using twenty-five to fifty per cent of it. Of all the trees that grow in the north woods, the balsam fir is next best to the spruce fir paper pulp.

A great deal has been said of late

in our papers and magazines about man utilizing the water power of Niagara Falls for commercial advantages, and turning the current of the Niagara River so that the beauty and the grandeur of the Falls will be forever lost and destroyed. One of our recent writers on the subject says, that President Roosevelt has now taken up the matter of water power at Niagara Falls, and will endeavor to arrange an agreement with Canada which will prevent the further use of the water for power purposes. We believe that Niagara Falls should be under the protection of our government the same as Yellowstone Park, and the redwood or Sequoia trees of California. We are told that already plants are in operation and in process of erection that will furnish over a million horse power.

No Poison in Chamberlain's Cough Remedy.

From Napier New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire lot they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by T. M. Coulson & Co.

Collins having sold his entire interest to the said D. R. Gass and C. S. Richards. The said D. R. Gass and C. S. NOW A FARMING COUNTRY.

W. D. Jolly Tells How it was Introduced into Panhandle Country.

The comparatively rapid increase of farming in parts of Texas is a constant source of wonder and surprise to the old cowmen. They had grown so used to looking on their land as fit only for cattle that they could not imagine what a farmer would do there. W. D. Jolly of Panhandle City, Texas, lives in the plains country, where he has been an operator for many years. Before there were any fences or other improvements, he was in the cattle business there.

"We cowmen," said Mr. Jolly, "had no respect a few years ago for any man in that country who would attempt to do any farming. We would rule such a man as that out of society, but when some of these fellows from outside came in and commenced to farm we found we could not stop it. We tried to discourage them, and did everything to break up the farming notion, but it wouldn't work. Now that is a farming country, and you can bet if seems strange to us to see a cow country turned into a farming country. For awhile the farming business was not a success, but when the men came in from the north and other places who knew just how to farm and got at it, then it was all off, and it did not take long to demonstrate that all kinds of crops could be raised in that country. Now we are raising good wheat, corn, oats and everything else. The crops this year were good, and the country never looked more prosperous than it does right now."—Drovers Telegram.

Impressed With Hereford Country.

Lineville, Iowa, Nov. 4, 1805.

Mr. Editor:—Your paper was received today and was glad to get it. Enclosed find order for a dollar for which please place my name on your subscription list. I recently visited your town and country for the purpose of investing in lands. I suppose I traveled over a radius of 20 or 30 miles and never saw a bridge. I consider your country the finest I ever saw. I thought so much of it that I purchased 640 acres, eight miles southeast of Hereford, and known as the Steward place. My brother was along with me and purchased 640 acres 3 miles southeast of Hereford and known as the Carter section.

In viewing your country over, I find the soil ranges from 2 1-2 feet to 5 feet deep and many young and thrifty peach and apple orchards were to be seen. I also noticed that the U. S. Weather Bureau records and annual rainfall of over 20 inches which seems to be properly distributed through the growing season. I find the grade of stock in the Panhandle equal in every particular to Iowa and Illinois cattle. Also the products of the farmer show to me that it is the place to go to secure a home, for I think the prices of lands will soar skyward and reach the hundred dollar mark in less years than it has taken Illinois to reach it. I found that milo maize, kaffir, wheat, barley, rye and even cotton, besides all the vegetables, melons and vines of all description will grow well.

After viewing the country over, while I can't tell half of the good things which I saw, I was convinced that it was alright. I was impressed with the fine college at that place and found more nice residences in Hereford than I ever saw in any town only six years of age.

Best wishes,
Yours truly,
J. E. ROCKHOLD.

WHY KIDNEY DISEASE IS DANGEROUS.

Neglect of the First Warning Symptoms is the Prime Cause of so Many Deaths from the Dreaded Bright's Disease.

It is Easily Curable in the Early Stages.

Kidney diseases are so destructive to human life because they do not manifest alarming symptoms until the constitution is seriously weakened and the strength exhausted. Then, too often, the remedies employed by many physicians are of indifferent or doubtful value and the patient rapidly sinks under the disease. The wisest course is to apply reliable kidney and liver remedy at the first appearance of the symptoms. Little uneasiness in the small of the back, digestive troubles, bowel irregularities and disorder in the urinary organs are matters of small moment in the estimation of strong men and women, yet they have a serious meaning. They clearly indicate that the kidneys are suffering and need help, which must be forthcoming at once to prevent serious, perhaps fatal consequences. A few doses of Prickly Ash Bitters at this time will prove of incalculable value in restoring the weakened organs to health. Investment of one dollar in a bottle of Prickly Ash Bitters when the disease is yet in the early stage will save hundreds of dollars in doctor's bills, besides the suffering that would surely follow should the disease be allowed to fasten itself on the body. The excellent curative power of Prickly Ash Bitters is not confined to the first stages of kidney disease. It is equally efficacious in severe or chronic cases. Physicians have used it as a last resort, in cases that defied their best efforts, with the most brilliant results and it has shown its superiority over the many so-called kidney cures, now being loudly advertised, in instances innumerable.

Accept no substitute. Insist on having the genuine Prickly Ash Bitters with the large figure 3 in red on the front label.

ARNEY NEWS

Some few of our farmers are sowing wheat since the rain.

The health of the community is excellent after such a dry, cool fall.

Bro. D. E. Morgan of Hereford, will fill his regular appointment at Arney next Sunday.

We had a good rain on the fourth which will put the ground in fine condition for winter plowing.

John Hart sold his sheep to Arch Johnson and the latter moved them to his ranch north of Dimmitt last week.

Last week E. Renfro gathered in something over two hundred head of steer yearlings and calves with which to stock his ranch.

The post office looks some better with its new lightening rods. It seems that every one has the spirit of improvement moving on them.

Uncle Wm. Dixon had the misfortune of losing a fine work horse last week. That together with eleven head of cattle killed during the summer by lightening makes "Uncle Bill" a pretty heavy loser for the year. But with this misfortune comes the good fortune of having an excellent feed crop and an immense quantity of grain, so much that he is not through heading yet, although he has had several hands at work for weeks on it.

Pastors' Association.

An important movement was begun this week when the five pastors, including Revs. Thos. S. Barcus, Jesse B. Haston, W. G. Keiry, A. W. Crawford and O. W. Dean, assembled at the Presbyterian Church for the purpose of organizing themselves into a pastors' association, which was perfected by electing Jesse B. Haston, president and Thos. S. Barcus, secretary.

The purpose of the association is to more closely and firmly unite the christian people of the town upon all questions pertaining to christianity and enable them to more effectually look after the spiritual welfare of the community.

The Hereford ministers are to be heartily commended for the broad and friendly way in which they work together, laying aside all petty differences and striving earnestly to accomplish the greatest amount of good for the people among whom they live.

Card of Thanks.

There were so many who came to us with sympathizing words and loving ministrations during our time of

recent sorrow that it is impossible to see and speak our appreciation to each one separately, so we take the BRAND as a medium of expressing our heartfelt thanks to one and all.

Should the time ever come when you likewise are bowed down with loss and grief, or trouble in any way be yours, that God may raise up thoughtful and loving friends to comfort you is our earnest prayer.

Farm Paper Given Away.

Hereford, Texas, November 6th, '05

To Our Farmer Friends:—Would you like to have a good Agricultural paper, combined with good reading for all the family, sent to you for six months free of charge?

If so, call at the Western National Bank, and leave your address, and we will send you the paper with our compliments, and without cost to you.

We believe that farming will soon be the leading industry of the people who live upon the plains. We are anxious to do all we can to develop farming, and especially stock farming. The time is at hand when a change must be made in our way of raising cattle. We believe in a few years only fat cattle will be shipped to market. We already have the best beef producing cattle on earth, and the best and cheapest land upon which to raise and feed them. We need to read up on cattle feeding especially, and upon farming in general.

The Western National Bank wants to do its full part in bringing about the new order of things.

With best wishes for all, we remain,

Very sincerely yours, It
THE WESTERN NATIONAL BANK.

The New Dairy.

The Clark Dairy east of town has been sold to Lester Weaver who will take charge on November the 12th and give the business his individual attention. Mr. Weaver is a man of energy and splendid ability and proposes to make the enterprise succeed and give the people of Hereford as fine jersey butter and cream as can be found in any city. The new proprietor asks for the patronage of the public strictly on a basis of merit.

Elsewhere in this issue we call attention to his display ad in which he announces his intentions.

Sale Notice.

I am offering for sale at reasonable figures a number of Berkshire hogs, registered males in the herd, all my cattle, horses, mules, about 2000 bushels of grain, all my household goods and furniture. Apply at the ranch 10 miles northwest of Hereford.

H. L. Goats, the North Draw ranchman, was on our streets Monday and was in the best of spirits over the recent fine rain. Mr. Goats informs us that he has about fifty acres of wheat sowed which is now in a promising condition.

A. J. Lipscomb this week shipped three cars of cane seed to the Ft. Worth market where there is a big demand for Panhandle grown seed. This entire lot was furnished by Castro and Deaf Smith County farmers, and brought them the pretty sum of 60 cents per bushel.

H. H. Stanley, who is engaged in stock farming a few miles south of town, while in the city Monday, informed a BRAND representative that he has 25 acres already sown to wheat and that he will now sow 25 acres more, since there is sufficient moisture in the ground to bring the crop up and keep it growing.

Messrs Tucker and Jacobsen have decided to close their electric light plant down till an exchange of dynamos can be effected. The dynamo which they have installed is a low pressure machine, while the conditions at this place call for one of high pressure. The machine will have to come from St. Louis, hence we will be in the dark for a few weeks or rather we will be compelled to go back to the oil lamp.

Geo. E. Burns took a respite from the arduous duties of ranch life Monday and spent the day with relatives and friends in Hereford.

J. T. Rutherford, who is engaged in successful sheep and cattle raising north of town, was among those who remembered the BRAND in a substantial way while in town Saturday.

I will give you a certificate, entitling you to a course of study in the Siegle-Myers correspondence school of music with an order for any kind of stringed instrument. O. F. Smith druggist. 38-tf

M. V. Robertson was in town Monday from his ranch 30 miles north of town. Mr. Robertson informed us that the rains of last Friday night and Saturday were general and adequate for extensive wheat sowing.

Commissioner Geo. L. Muse of the north part of the county was on our streets for a short while Monday. Mr. Muse has not been in town much of late owing to the large crop which he has been engaged in gathering.

Rev. Thos. S. Barcus left Monday afternoon for Georgetown where he goes to attend the Northwest Texas Annual Conference which will convene on Monday, November 12. He stopped over at Midland on the way where he was married on Thursday evening to Miss Rankin of that city. Bro. Barcus has done his work well at this place this year which is evidenced by the fact that his members, with one voice, solicit him to return here another year, which of course, must be left entirely to the wishes of the Annual Conference.

Mill and Elevator Prospects.

We are reliably informed that an opportunity will soon be given for Hereford to show whether or not she is really desirous of securing a flouring mill and grain elevator. A Missouri capitalist is becoming interested in the project and in a few weeks will place a proposition before our people which will enable them to secure the much coveted enterprise.

With the above in view, we have been requested to ascertain as nearly as possible the amount of wheat which has already and will be sown in Deaf Smith and Castro Counties this season as it is desired to have something definite from which to figure. Responding to this request, we ask all those who have sown or will sow wheat this season to address us a short statement to the Hereford office. In making this statement, each one should give the number of acres which he intends planting, either this winter or next spring, as well as what he already has planted.

A free and early response to this on the part of the wheat growers will be appreciated and may be the means of benefitting us all. Let us hear from you at once. Address the BRAND.

All Satisfied.

So far as the BRAND man has been able to learn, there is no one in the entire county who is not frank to say that we have had all the rain we need and that the ground is thoroughly wet. At an early hour Wednesday morning it began raining and continued through the day and following night and the greater part of Thursday. In other words, it was perhaps the heaviest rain of the entire year for the same length of time. The rains are said to be general and will greatly benefit all interests save the cattle interest, which, of course always, calls for dry weather in the winter season.

The worst feature to the situation in Hereford is that the large crowd of Missouri prospectors who are in town are at loss to know how to get around with so much water on the ground.

Thanksgiving Services.

The several pastors of the town met together on last Monday morning to arrange for a union Thanksgiving service. Bro. O. W. Dean was appointed to preach the sermon in the Presbyterian Church at 10:30 a. m. It was also decided that at this service a free will offering should be taken for the poor of our town.

Further announcements, concerning the service, will be made later.

Panhandle Teachers Coming.

Among the important gatherings with which Hereford will be favored this year is the annual meeting of the Panhandle Teachers' Association to be held December 1st and 2nd. This association includes the leading educators of the entire Panhandle and Hereford will be honored in being given the privilege of entertaining them.

Elsewhere in this issue will be found the program to be rendered on the above occasion.

Presbyterian Church Notice.

The Ladies' Society meets with Mrs. A. W. Crawford, at 3 o'clock on Saturday in its monthly missionary meeting. The topics are "Korea" and "Mexicans in the United States."

Sabbath School opens its session at 10 o'clock. There are classes for all ages. The theme of the Sabbath morning sermon is "A Prosperous Church." Evening service begins at 7:30. Every one is welcomed. We make our annual offering for Home Missions on Sabbath. Let it be a generous one.

Let us eagerly and prayerfully anticipate the coming of Evangelist Fitzgerald who will be with us in December.
 WM. G. KEIRY, Minister.

Many Prospectors.

Thursday's excursion brought many prospectors from the north. Some were bound for Panhandle points while others went to Pecos Valley. So successful was the excursion that the train had to be divided into two sections to accommodate the homeseekers.

The South and West Land Company, under the supervision of Witherspoon & Gough, had two cars which were taken through to Bovina.

For Sale or Trade.

12 horses and mules, milk cows, wagon and harness, 2 buggies and harness, new binder, disc and other farm implements. A bargain if sold at once. Will trade all for land.
