

# Holly's Livestock Headquarters To Move Here

Officials of Holly Sugar Corporation announced that the sugar company is moving the headquarters of its Livestock Department from Denver, Colo., to Hereford.

The announcement came from C. M. Nicholson, Holly vice-president of Agricultural Operations.

Nicholson said that W. M. Cordray, director of Livestock Operations for Holly Sugar is transferring his offices from the Livestock Exchange Building in Denver to the Jim Hill Hotel here.

The office is located in the room formerly occupied by Bruce Miller.

Cordray began his service with Holly Sugar in April 1937 and was recently appointed to director of the feedlot operations.

Holly Sugar Corp., Nicholson said, is operating one of the most modern and efficient feedlot and feed mill operations at the new \$21.4-million refinery, which began operations more than one month ago.

Holly has feedlot operations at plants in Torrington, Wyo., and

Brawley and Hamilton City, Calif.

The new Hereford livestock operation, the sugar company official said, now includes pens with a capacity for some 7,500 head of cattle. The lot will be capable of feeding out more than 15,000 head of cattle each year according to Nicholson.

"Our feedlot at the Carlton Plant at Brawley, in the Imperial Valley, is about the same size," Nicholson added. "The Torrington, Wyoming, lot has a 4,000-head capacity and that at Hamilton City has a 2,000 head capacity."

"Holly decided on the move to Hereford, so the feedlots could be operated closer to the largest operation of Holly Sugar Corporation," Nicholson said.

"Holly no longer has feedlot operations in Colorado and we felt the move would be more beneficial to the operation of the feedlots."

"The opening of the feed lot at Hereford brings Holly's total annual capacity to more than 40,000-head of cattle which makes it a pretty big business."

The cattle are fed a portion of the dried beet pulp from

the local plant, providing a very efficient cattle food for the local operation.

The new Hereford operation is situated on the 1800-acre site, approximately a mile west of Holly's huge new Merrill E. Shoup sugar refinery. Some of the by-products from the sugar mill will be used at the local lot.

"These by-products—dried beet new high value livestock ration for feeders in the West Texas and neighboring area," Nicholson said.

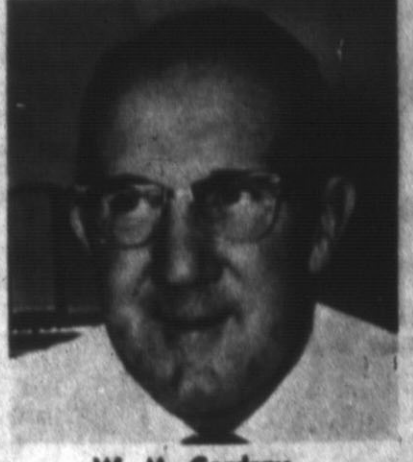

The local plant also has facilities for pelleting the dried beet

pulp and packaging it for sale. Most of the pulp sold at the plant, however, will be sold in bulk lots, according to Holly officials.

The mammoth triangle-shaped buildings on the plant site are used for storing the dried beet pulp. Mollasses is mixed with some of the dried pulp, to make it a more desirable cattle feed.

Earl Clark is foreman at the feedlots and approximately 30 men are working at the feedlot.

Cordray will direct the operation of all the feedlots from the Hereford office.

**ELECTION PAYOFF** — This is an election picture to end election pictures. Bill Langford, Hereford, bet Wayne Durham of Lubbock that Goldwater would win last Tuesday's election, the winner to get a 16-inch hamburger. Langford lost and Durham has the dubious honor of eating a 16-inch hamburger. Here he sits on the curb in front of Langford's place and nibbles at the dainty Texas-sized burger, muttering to himself, "Just who won and who lost, anyway?" The big burger, wrapped in foil and containing a pound and a half of meat, was "built" by Dairy Queen. (Brand Staff Photo)

## Construction Started On Northside School

Construction has started on Hereford's newest school, northside elementary which, as yet, does not have an official name.

Pouring of concrete for the 39,000-square foot structure got underway this past week, and the new 24-classroom ultra modern masonry structure is to be completed by Aug. 15 next year.

Architects Brasher, Goyette & Rapier, Lubbock, Friday completed final plans for the building which is to be located on 15th street just west of Ave. E. Brasher said the building will be made of brick and tile, the brick coming from the Hereford Brick Co. It will have, in addition to the 24 classrooms, a music room, special education room, a cafeteria, kitchen, restrooms and teachers' workroom.

Floors in the halls will be of terrazzo with mosaic ceramic tile wainscoting. Classrooms will have plastered walls with vinyl wainscoting. Acoustical ceilings will be installed and appointments throughout will be of modern design.

The building is located on property acquired by the school district from John D. Pitman.

Contractors are Claud Martin & Sons, Lubbock, and C. S. Gray Plumbing and Heating Co., Midland, has the heating contract. Hodges Electric Co., Plainview, will handle all the electrical work.

The new structure is part of a \$2.4 million bond program approved by voters earlier this year. The elementary building is to cost \$382,000 and will be the first of the new structures being planned. A new junior high school also is included in the long-range program recommended by a citizens committee after a series of meetings last spring.

## City Building Permits Climb To \$3.4 Million For First 10 Months

Hereford building boom continued through last month to push building permits past the \$3.4 million for the first 10 months of 1964, a check of city Hall records Friday revealed.

This is ahead of last year's total slightly. The boom, which started some two years ago, shows no sign of slowing down, despite the long continuous spiral upward. The city should ring up close to \$4 million before the 1964 books are closed.

While home construction continued at a rapid pace, sprawling the residential area far beyond the city limits of two years ago, business construction also zoomed during the late autumn, one such permit running to \$150,000. That permit was issued to Farr Better Feeds, Inc. for a feed mill of concrete and metal.

The October total ran to \$451,200 to bring the 10-month figure to \$3,409,500. City Hall records revealed Friday. September had been an exceptionally good month also when \$411,640 in permits were recorded.

Altogether 27 different permits were reported during October. The list follows:

Bob Williamson, brick veneer Westhaven Addition, \$17,500.

Edwin Axe, concrete block office building, Block 1, Whitehead Addition, \$15,000.

H. W. Milton, add to frame with wood siding, Lot 2, Block 2, Womble Addition, \$300.

## Herd's Backfield Power Smothers Muleshoe, 34-0

Hereford Whitefaces stormed past the hapless Muleshoe Mules 34-0 Friday evening, aided by a slate of Whiteface backs that turned out their best performance of the evening, spearheaded by Quarterback Frank Cain.

Cain joined backs Gene Drummond, Walter Williams, Mike Moore, Wynn Buck, Roger Owen, Steve Hodges and Greg Richards in marching past the Mules.

End Lynn Cook turned in one of the finest performances of the season as he recovered two fumbles on punt attempts deep in Mules territory and blocked another punt, in the final period, to set up another touchdown.

Drummond received the opening kickoff on the three yard line, where he fell to his knees in the mud and the play was ruled dead. On the first play from scrimmage, Drummond marched the ball out to the 18 for the first down, where after falling to move in three plays, the Herd was forced to punt from the 15.

The Mules took possession of the ball on the Herd 45 and marched to the 20-yard line, where they failed to move after three plays. An attempted 20-yard field goal failed and the Herd took possession on the 20 yard line.

Drummond slanted off tackle for six on the first play and Wynn Buck followed over center with eight more yards to the 34 for another first down.

Buck began running over the Mules forward wall at will to rack up two more first downs to the Mule 48 yard line.

On the first play from the 48 yard line, Cain connected with Drummond on a 25-yard aerial and the little seatback scampered across the goal line, with the nearest Mule defender 15 yards behind him.

The pass attempt for the extra points was no good and the Herd kicked off with 5:10 minutes remaining in the first stanza.

The Mules took the kickoff on the 25-yard line and returned it to the 30, where they drove the ball to the mid-field stripe, where their drive was stymied by the rugged Herd defense. After failing to move in three downs, Quarterback John Thompson for the Mules attempted to punt, but received a bad pass from center and Lynn Cook pounced upon the loose pigskin and gave the Herd possession on the Mule 41.

On the first play from scrimmage, Gene Drummond went roaming around left end, only to be mauled by Mule tacklers, forcing a fumble, with the Mules recovering on their own 25-yard line.

George Muse nalled fullback, Dan Smith, on the first play for a six-yard loss and Halfback (Continued on Page 2)

## Hereford Man Is Tech's Top Ground-Gainer

Hereford's Jim Haney, son of Mr. and Mrs. Johnnie Haney, continued leading the Texas Tech Freshman football team in rushing this week as he has done all season, with 55 yards.

The big fullback, a 1964 Hereford High School graduate, was a standout in High School football, as he was an all-district selection and a captain on the 1963 Whiteface squad.

Haney also was a standout in basketball and was one of the all-around athletes at Hereford High School.

Haney immediately captured the starting berth at fullback on the Picador squad, which dropped their first game of the season to Arkansas Freshmen and beat the Rice Owlets last week.

Haney has one pass interception to his credit, which he returned 53 yards, which places him as leader in that department for the Picadors.

Haney's name also appears at the top in the rushing column, (Continued on page 2)

## Saturday's Frost A Killer? Maybe

The frost was on the pumpkin — and on everything else that happened to be lying around loose — in Hereford Saturday morning, the first "killing" frost of the season.

It was too early Saturday afternoon to determine the extent of the frost's damage, but most farm folk expressed the belief that the frost probably was severe enough to kill vegetation.

Temperatures dropped only to 35 degrees, but the ground level temperature probably was a degree or so lower. Almost complete lack of wind and a crystal-clear sky contributed to the frost's power.

The frost, arriving a good seven days later than last year, rounded out a week that had seen just about everything in the book hurled at the Hereford area, Tuesday — election day — (Continued on Page 2)

## Second Store For New Center To Start Soon

Safeway Stores will start construction of a new building in Park Avenue Shopping Center Dec. 1 just west of the new Gibson's store, it was announced Saturday by Bill Stockstill, owner and developer of the center, and H. L. Rhodes, property manager for Safeway's Oklahoma City Division.

The new grocery will have 15,365 square feet of floor space and will be of masonry construction with steel gable roof. Contractor will be Hogan Construction Co., the same firm that built Gibson's, and architect is Chapin Howard, Shawnee, Okla. Year-round heating and air-conditioning will be provided, and a huge parking area is planned.

The newest Park Ave. project will be located west of Gibson's, and the entire parking area will be lighted with vapor lights, mounted on 32-foot poles. Present lighting, Stockstill explained, is only temporary.

In addition, space will be provided (Continued on page 2)

This was followed by rain that measured from as little as 3 inches around Hereford to 1.5 inches on the Eldred Brown farm at Westway. Snowflakes accompanied the rain.

Friday completely reversed itself during the day. It started with a heavy fog which gave way to bright sunshine later in the day and calm winds. Temperatures climbed into the 60's, creating an ideal autumn picture.

Most of the grain sorghum has been harvested, but the rains at mid-week brought to a standstill practically all farm operations. Many farmers, however, had said a frost would be needed before their could complete the gathering of this major Deaf Smith county crop.

 where he has a 3.9 yard per carry average on 22 trips, for a total of 85 yards this season.

The Picadors were defeated 18-14 by the Arkansas Freshmen and defeated the Owlets 17-8 in a conference battle last week.

Thursday evening the Picadors will travel to Midland where they will meet the Texas A & M Freshmen.

Haney is led in total offense only by Quarterback Chris Alford of Houston, but 109 yards of Alford's offense is accounted for by passing and he has only 44 yards rushing.

Also, Haney's 52 yard pass interception is not included in his total offense, which would bring it up considerably.

Haney is the only player on the Tech squad, who has not lost yardage during the season. The big Hereford fullback, had managed to eke out yardage on every attempt from scrimmage.

Only one other player on the squad, who has not lost yardage than Haney and that is Bob Beardeh, an Abilene halfback who has 46 yards rushing on 10 carries for a total of 4.8 yards per carry.

Beri Huffman serves as head coach for the Picadors and is assisted by Bev Herndon, Richard Willis, Larry Anderson and Danny Scarbrough.

Haney is backed up by two fullbacks we faced in area high school football. They are Eddie Piercey, Plainview and Gray Benson, Shamrock.

Other area boys on the Picador squad are Kenneth Heathington, Muleshoe, Jerry Glover, all-stater from Dumas; Phil Tucker, Tulla; Trent Jordan, Plainview; Rusty Etheredge, Plainview; Leon Lovelace, Farwell and Jerry de Cordova, Plainview.

Scott Oliver ran into a solid wall as he attempted to move through

the herd defense. An offside penalty was declined against the Mules, bringing up a fourth and 15-to-go situation forcing another punt. Cook crashed through the line

again as Thompson received another bad pass from center and covered the loose ball on the five yard line.

Buck, Drummond and Cain all tried at the TD, with Cain finally crashing over from less than two yards out for the points, with only one minute gone in the second quarter.

The extra point attempt was no good and the Herd led the Mules 12-0 in the second quarter.

The Herd kicked off and Carl Calhou returned the ball 15 yards to the 30, where he was swamped by Herd tacklers. On the first play from scrimmage, fullback Dan Smith swept around left end to the Herd 30-yard line for a 40-yard tally.

The Herd defense tightened up and allowed the Mules only one yard in four plays with the Herd taking possession on their own 29 after a fourth down pass

attempt failed for the Mules.

Cain connected to Steve Hodges on the first play, which move the Whitefaces to the 40 yard line.

Quarterback Cain began executing the option with perfection seldom seen in high school ball, chalking up big gains, either by running himself or pitching out to Mike Moore or Steve Hodges.

The Herd drove the ball to the Mule 30, before they were halted and the ball went over on downs.

The Mules marched the ball to mid-field, where the Herd defense once again became organized and forced the Mules to punt, where an alert Muleshoe player killed the ball on the one yard line.

The Herd marched the ball out to the 30-yard line, where they fumbled, and the Mules recovered. The Mules failed to move once again and the ball went over on downs with 11 seconds left in the half.

Cain ran the clock out and the Herd retired to the locker rooms, sporting a 12-0 halftime lead.

The Mules returned the kickoff from the 30 to the 40-yard line and were able to move only 9 yards in four plays, with the ball going over on downs to the Herd on the Mule 49.

Wynn Buck crashed to the 39-yard line for another first and was followed by Gene Drummond who scampered the remaining 39 yards for a touchdown. The extra point attempt was no good and the Herd led the Mules 18-0, with nine minutes left in the third quarter.

The Mules took the kickoff on the 45-yard line where they were held for four downs.

Thompson attempted to punt again from the 35, only to have it blocked by Roger Owen and Lynn Cook, with Owen snapping up the loose ball and scampering 35 yards across the goal line. The officials ruled the ball dead, where it was blocked and the Herd took possession on the 35. They failed to move in four downs and the ball went over on the 25.

Halfback Oliver scampered with the ball from the 25 to the Herd 45 where Drummond finally made the stop. The Mules were stopped once again as the Herd defense organized, forcing the Mules to punt from the 50 to the Herd 20.

The Herd once again organized a successful touchdown drive, taking the ball 90 yards, with Walter Williams finally twisting over from six yards out with only 30 seconds gone in the fourth quarter.

Mike Moore ran around right end standing up and the Herd led 28-0.

Herd kicked off once again,

with the Mules receiving the ball on the 29, where they were promptly nalled. The Mules, apparently inspired, moved the ball to the Hereford 49 before they were stopped. The Mules punted from the 40-yard line and Steve Hodges returned it to the Herd 28. From that point, the Whitefaces organized another drive that ended in Wynn Buck going over from one yard out and Roger Owen connected with Jerry Tucker for two extra points and giving the Herd a 34-0 edge with less than three minutes left in the game.

The win left Hereford with a 2-1 and Muleshoe has a 0-3 mark.

Muleshoe meets Canyon Friday, while the Herd hosts the Tulla Hornets, who battled powerful Dumas to a 14-10 decision Friday. In the other conference scramble Perryton meets Dumas there. The Rangers defeated the Hornets 21-6 in the district opener.

The Herd built up a total offense of 270 yards and Muleshoe romped for 150 yards, all on the ground.

The Hereford B-Team traveled to Clovis Saturday and the Freshmen team to Muleshoe. The Freshmen entered the game at Muleshoe with an unblemished record and the B-Team boasts a 7-1 record for the season.

## Chamber Given National Prize

Deaf Smith County Chamber of Commerce received word Saturday morning that it had been given an "Award of Merit" in communications from the American Chamber of Commerce Executives association, the national association of Chamber managers.

Bill Thompson, chamber manager, said this is the second year in a row that the local chamber has received this top award for chambers in the classification below 20,000 population.

The award, Thompson explain-

ed, is based on presentation of five different items which the judges used to arrive at their conclusion. These included the chamber's column in The Brand, "Pete Progress"; a tape of a radio broadcast, the chamber's newsletter, "The Volunteer"; the program of work and a general news letter to the membership. In the last phase, the committee judges such things as letterhead design, makeup and the general excellence of the letter.

## Official Count Boosts Rogers' Total 200 Votes

Deaf Smith County Commissioners Court met in a called meeting Thursday morning, to canvass the ballots of the general election held last Tuesday. The group met in the Commissioners Court room in the Court-house.

Only major changes in the totals were noted in the vote for Congressman Walter Rogers, who gained an additional 200 votes, and Jack Pope, Democratic candidate for Associate Justice, Supreme Court, Place 1, who picked up an additional 100 votes. Both candidates had won re-election.

The error was made in tabulating the returns at the Court-house. The only other changes were minor, with not more than 1 or two votes involved.

No other business was discussed at the called meeting. Next regular meeting of the court will be Monday in the Commission room.

### Carriers To Aid Survey Cards In Rural Boxes

Rural mail carriers from the Hereford Post Office will leave some livestock survey cards along their routes beginning Nov. 13. Rural carriers distribute the cards at random in boxes along the routes. "This means that not every box will get a card," Grady said. "For this reason, it's important for everyone who gets a card to return it filled out so that USDA can get a true sample of the State's livestock holdings."

Carriers assisting with the survey are:

**WEST WIND, CITY PARK** — Autumn spreads in this city park in colorful treetops, in tumbling yellow, reds, and browns, and in scurrying leaves to carpet playgrounds. This is evidence that fall-blooming roses flourish here and add to Hereford's flower-gardening fame.

**AUTUMN RAINBOW** — Two shades of each color — yellow, pink, red, and white — form this border of chrysanthemums for the C. R. McGhees, 500 W. Park Ave. Starting three years ago with only five plants, Mrs. McGhee says that their gardening effort for autumn has multiplied until similar borders line their place on east line and across the front. To them she has added a later blooming bronze "football" mum. "It's a pleasure," Mrs. McGhee says, "to know that others enjoy the flowers, too." She furnished flowers regularly to two of the churches here.

# Miss Higgins, Mr. Stovall Married In Home Ceremony

Mrs. Earl Wayne Stovall (Miss Loretta Sue Higgins)

(Angel Studio Photo)

In a wedding ceremony solemnized in the home of the bride's parents, Mr. and Mrs. Herbert Leroy Higgins, 308 Avenue B, Miss Loretta Sue Higgins became the bride of Earl Wayne Stovall Friday afternoon.

The groom is the son of Mr. and Mrs. Calvin L. Stovall, Summerfield.

In the presence of families of bride and groom, their other close relatives and friends, Elder W. L. Bolinger, Hereford, pastor of Primitive Baptist Church, Lubbock, performed the double ring ceremony.

Given in marriage by her father, the bride wore a bouffant gown of Chantilly lace and embroidered crystalettes over taffeta. Scalloped lace accented the square neckline of the fitted bodice with its long fitted sleeves. Her fingertip veil of illusion fell from a tiara of seed pearls and rhinestones. Her jewelry was a single strand of pearls, and her bridal bouquet was formed of cascading chrysanthemums.

The bride's honor attendant was Miss Gay King. She wore a white street-length dress fashioned with full skirt and fitted bodice with scooped neckline. She wore overhead blue satin roses and halo veil, with matching accessories, and corsage of white chrysanthemums.

Ronnie Hathaway served as best man.

For her daughter's wedding, Mrs. Higgins chose a black dress accented by white collar and cuffs, white hat and gloves and other accessories in gray. Mrs. Stovall wore a beige suit with matching accessories. Their corsages were chrysanthemums.

Immediately following the wedding, a reception honored the young couple in the home of the bride's parents. Miss Linda Boardman registered guests, and Miss Kay McKee presided at the bride's table, serving the wedding cake.

When the bride left on her wedding trip, she wore a three-piece suit of brown wool with blouse and jacket lining of brown floral silk. Her hat and accessories were in beige. She wore the corsage lifted from the wedding bouquet.

The bride is a 1964 graduate of Hereford High School. The groom attended Hereford schools and is now employed with Walco Drilling Co. After their wedding

For A Quick & Effective Solution To This Undesirable Situation We Offer The Following:

- 1 - A City Ordinance be passed to close ALL non-essential Business on Sunday.
- 2 - The Chamber of Commerce or the City Officials to make a survey of nearby towns that have non-essential business open on Sunday - and make a friendly suggestion to a responsible group of citizens to get their merchants to operate on an equal basis - As this could hurt the economy of this town by driving these people out of town to spend their money.

### Future of Nation Depends On Knowing How To Win, Lose

Now that another Presidential election has come and gone, the occasion once again arises when all of us must settle down, forget by-gones, and make the best of the situation.

Fortunately, we did have a large vote in this nation and, without question, the voice of the people has been heard. As always, under a democratic form of government, the losers must accept the choice of the majority. While this is not always easy, it is inevitable. At the same time, it is important that the winners also realize that there is another side, and that a large segment of the population does not agree.

Checking over the returns in our own community, it is interesting to note the large number of people who voted the straight Republican ticket. This varies from past years, when many people split their tickets to vote for Eisenhower, then for Nixon, but pretty well stayed with the Democratic nominees on the state and district levels. This time, however, the GOP nominees for governor, congress and several other offices polled unusually high votes. The one conclusion, it appears, is that Deaf Smith county is for the first time recording evidence of actually becoming a "two-party" county — though the Democrats still dominate the situation by a large margin.

Modern communications unquestionably have altered the political outlook in this nation, and at a tremendous cost to the candidates and their backers. The people in 1964, without doubt, were better informed on the candidates and the issues involved than ever before in the history of the nation.

When it comes to figuring out why one candidate lost and another won, the chore is just about anyone's guess, although the Wednesday morning quarterback had a field day, we doubt if there really is an accurate answer. Probably the most important speculation along this line is the one most often overlooked: "It is next to impossible to beat a candidate on his second term, and this is all the more emphasized when

the candidate has served only a partial term." A long accepted practice U.S. politics, this particular factor seems to have been generally lost in the recent campaign.

In addition to excessive costs, we generally believe that the 1964 campaign lasted too long. Again, the condition may have been due to the fact that modern communications speeded things up to the point that much more was crowded into the campaign period than in past years. Many, many people were weary of the mud-slinging accusations and counter-accusations. Still worse, remains the fact that it will take longer to reconcile things than in the past; some, in fact, will not forget their wounds for many months to come. Naturally, this is not conducive to unity and cooperation, which are so important in the progress and growth of our nation.

When this republic was first established, scores of observers predicted that it would not last, due to the very things to which we have referred: chiefly, our ability as losers to accept the winners — and our ability as winners to recognize the rights of the losers. Down through the years, we have consistently met this challenge and, once our leaders were elected, we have rolled up our sleeves, gone to work and made the best of things. And our nation, despite this condition, has continued to grow and prosper for these many years.

In this particular phase, we feel sure that the 1964 election will be no exception. Once again, we will become a nation of "good losers" and "good winners" — and both are the key to our future welfare and prosperity.

### Exchange Plan Is Two-Way Plan

For many years Hereford has been a leader in the foreign exchange student plan, bringing visitors here from all over the world. Consequently, it is with genuine pleasure that we note this community will send four Hereford exchange students to study and to observe customs of other nations during the coming year.

The very fact that we have four youngsters well enough versed in foreign language to qualify for the plan is within itself an achievement of which the community can well be proud.

Those who have observed the student exchange plan closely are its most ardent boosters, and this usually includes the families with whom the visiting students live. These youngsters return to their native lands and almost without exception become adherents of "America" and our democratic system of government. They are prone to discount many of the things they hear about our country because, having lived here, they know the things we represent and the ideals we cherish. Consequently, it is logical to believe that most of us might change our opinions of other nations if we enjoyed the same privilege of living within their bounds with average citizens. The next best thing, of course, will be reports from our own youngsters.

### Worry Clinic New Approach

Wonders never cease. Now we notice with interest that Hereford's PT-O is sponsoring a Worry Clinic for parents and, frankly, we cannot think of a more fitting way to spend an evening.

We have a sneaking suspicion that the clinic may represent just the opposite of the heading under which it is billed, chiefly because the announcement mentions something about "How to live 25 hours a day" along with emphasis on emotional stress in the home, and how this affects the child.

Anyway, it is an intriguing subject, and it is safe to presume that anyone with so much imagination will be interesting and entertaining speaker. If the speaker really does tell us how to worry more, he will be a genius worth hearing — and if he helps us slip past some of our present worries, the information will be ever more valuable.

Besides, it's all free, which should insure a large crowd — but if it doesn't materialize we promise not to worry.

### Nugget

A London betting house has opened a book on the race to the moon. The firm is offering odds of 100 to one against any Russian landing on the moon alive before January 1, 1971.

The odds against any American making a landing by the same date are 150 to one.

Whatever else the offering of these unbelievable odds may mean, it certainly indicates the operators of the London betting house are not optimistic about the progress of the race to the moon.

### Seashore Label To Aid Future Of Padre Island

CORPUS CHRISTI, (AP) — A place where stories of sunken treasure abound, Padre Island's future lies not in lost gold and silver but in its sand, surf, and sun, its advocates agree. The future is pegged to a rising tide of tourism and the development of Padre Island National Seashore for this slim strip of white sand curving along with the South Texas Gulf Coast for some 100 miles.

The "Seashore" designation is similar to a national "park" status. About two years ago, 80 miles of the island were declared a federal seashore area. Supt. William L. Bowen says it probably will be about mid-1966 before the official opening of the National Seashore area.

There are many jobs that must be completed before the National Seashore becomes a reality. First, land must be acquired from private owners. The seashore contains 134,000 acres. Currently the federal government owns only the 25,000 acres of submerged land the state deeded to the National Park Service.

Due to reports resulting after the seashore was announced, some tourists have visited the island, with the misconception that they will find a fully developed national park. They are somewhat surprised when they learn it is only on paper.

Some persons familiar with the island, including Larry Allen, manager of Cameron County parks at the south end, do not think the seashore designation has contributed much to travel thus far, though they generally see it as a big asset in the future.

However, something has boosted tourism to the island during the first six months of this year. Queen Isabella Causeway crossings at the south end rose 18,481 during that period over last year. There was a 12 per cent gain at the John F. Kennedy Causeway.

Word-of-mouth advertising, national advertising by the state in its stepped up drive to attract tourists and the promotion of various functions on the island are credited with bringing many new visitors.

The island's primary attractions — the sun, the sea and sand — will not change with the coming of the new seashore. They will simply be available to a greater number of persons because of new roads into the ever-shifting sand dunes. There are currently miles of beach being enjoyed by visitors at each end and many enjoy the primitive dunes, once the home of cannibal Indians.

There are some that advocate the construction of a road from one end to the other. They point out the advantages of being able to travel quickly down the island from near Corpus Christi to within a short distance of Mexico. They point out the tourists value of such a project.

The length of the island can be driven as was proven recently by a caravan of four-wheel-drive vehicles. There are currently roads at each end to (Continued on page 5)

What all of us had to say during the election needed to be said. Had there been no bitter opposition to the election of Johnson and Humphrey our nation would be the worst off for the lack of all that has been said. It took such sturdy competition for the highest office in our land to bring out into the open all of the things that otherwise we were too busy, too timid, too cowardly, too unorganized, too under-financed or too uninformed to expose to our countrymen throughout the nation.

The financial picture in Hall county continues about the same as last fall. This was revealed when the statements of condition were released for the four county banks. Showing a slight increase was the total assets figure, and showing a slight decrease was the total deposits figure, when compared to last year. Since very little of the county's cotton crop has been harvested and sold, it is not reflected in this statement of condition. However, the Dec. 1964 financial report should show a large increase over the fall figures.

### THE BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his hindwood farm has a novel slant on the economy this week.

Dear editor: I didn't want to bring this up during the campaign as it wasn't irrelevant enough to classify as an issue, but now that the election is over and the country can settle down to important things I can get around to discussing it.

According to a newspaper item I've been saving for three weeks now, economists have hailed as good news the discovery that the people during the third quarter of this year resumed their normal habits of spending.

During the second quarter the experts had detected a dangerous drift toward thrift and this had them worried. During that period people were saving over 8 per cent of their take-home pay, whereas in the third quarter they got back to saving only 7 per cent, with the possibility of going a little lower, what with Christmas coming on and all.

As I understand this theory, the economy is geared to a steady pace of producing and selling, and a jump in saving means a drop in buying, followed by a slump in producing. In other words, a penny saved is a wheel stopped.

I have not gone into this theory thoroughly, but I am willing to practice it, provided there are some built-in safeguards to protect a man's reputation.

For example, say right now I'm a little hard-pressed for cash, and you could say it without indulging in campaign talk, and as a result have cut down on my spending. Now I don't want people, unaware of the situation, saying, "Look at him, not spending much these days. Probably saving his money. What's he trying to do, wreck the economy?"

Now the last thing I'd want to do is wreck the economy, therefore it seems to me the government ought to have a special fund to tide people over when, with the help of expensive families and shortsighted credit managers, they've cut down on their spending.

Any time a man's saving goes above 7 per cent of his income, the government should nip it in the bud and step in with a subsidy to bring it back down to the safe, national level, and keep the wheels turning. I never was a man who liked to shirk his duty.

Yours faithfully,  
J. A.

### Recognition For A Job Well Done

Recent recognition of Clay Angelo, former fire marshal, by the Red Cross marks an occasion in which hundreds of Hereford residents are happy to share.

The event cited by the Red Cross centered around Mr. Angelo's work in the area disaster program and his reporting of local fire family needs and damages. In addition, we doubt if too many people outside the fire department and the official city family actually realize how much time and effort he expended in doing his job. His efforts, coupled with other efficient fire fighting methods of the city, contributed tremendously toward lower fire losses in the community and, in addition to immediate savings, they also played an important part in holding down insurance rates for the area.

Seldom, these days, do you find people who are willing to extend themselves beyond the call of duty, but Mr. Angelo consistently and efficiently filled his post, which at times, was confining and dull. Consequently, it seems to us that a pat on the back and a few kind words are in order for the man, along with his official recognition and the plaque presented by the Red Cross.

various county park areas, private enterprises and to the beaches, where a motorist can drive for several miles without much difficulty.

Those against the end-to-end road call attention to maintenance problems that would be caused by the shifting sand, tropical storms and other factors, as well as the initial expense involved in building a road down the entire sandbar.

Building roads will be one of the biggest seashore expenses, Bowen says, but other needs will include picnic areas, supervised beaches, information centers, employee residences and comfort stations.

This year's visitors to each end of the island, which are not affected by the seashore, have found several recent improvements in the county parks and commercial areas.

The south end, across from Port Isabel, has Isla Blanca Park with restaurant, overnight shelters, pavilion, cabanas and a trailer park. The new \$149,000 recreation pavilion there has increased group functions 200 per cent, the Cameron County park director said.

The south end also boasts a new marina and motel complex, which plans a seaquarium, a new fishing pier and other attractions. There is already a considerable motel development.

New facilities built by the Nueces County Park Board include a bathhouse, additional cabanas and restrooms, making

the north end more attractive to visitors.

Bob Hall Pier has for some time been a favorite fishing spot on the northern tip, and there are miles of open beaches in both directions. There is some commercial development at the north end, but not as extensive as at the lower end.

Many people not familiar with the island fail to realize that an all-weather road leads from the north end to Mustang Island, one of the favorite fishing spots on the Texas coast.

For all practical reasons, Padre and Mustang Islands are one — a single 131-mile strip of sandy beach. There was a time when the two were widely spread by Corpus Christi Pass, which has long since filled in. A visitor can move from one beach to another and never know when he changed islands.

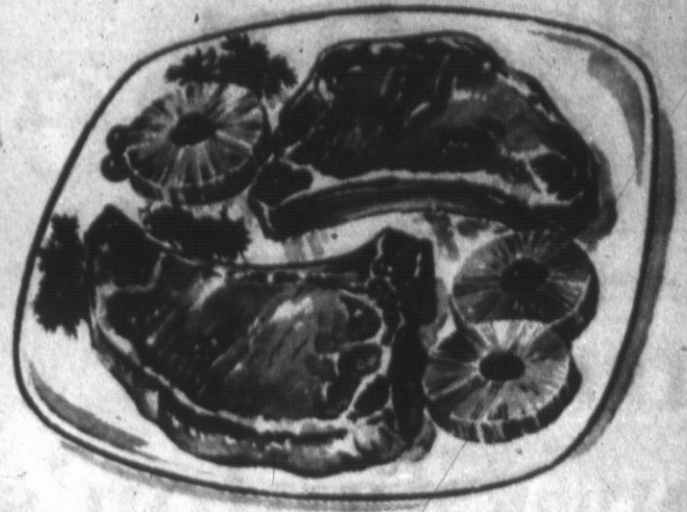

There is a ferry at Fort Aransas making the third entrance to the island.

Padre's own attractions, and those that are developed there, are her future treasures. Even those that hunt for the storied treasure will be limited in the future, because the National Seashore includes the prime treasure hunting section. When rules governing federally owned lands become effective at Padre, it will be forbidden to excavate, appropriate, injure, destroy or remove any historical, prehistoric or scientific property found on the seashore area.

To most visitors, it doesn't matter. Their treasure is the sun, sand and surf.

The annual Open House at Stanton is always a big event of the school, which is attended by almost 100 percent of the students and their parents.

According to Principal W. C. Quattlebaum, parents will see the improvements that have been made at Stanton Junior High during the past year.

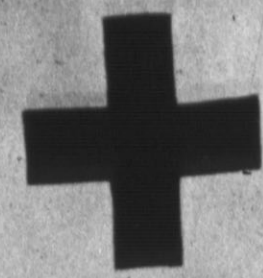

Included in these are the recently remodeled junior high auditorium, which has all new seats and an enlarged stage.

Parents will see examples of their children's work thus far in the year and have a chance to visit with the teacher and discuss the progress of their respective children.

"This annual open house, has always been a real success at Stanton Junior High and we are sure that this year will be no exception," Quattlebaum said.

Special arrangements are being made by all of the classes, in preparation for the big event.

## Stanton Band Off To Speedy Start For Year

By Randy Corita and Doug Greeson — The Stanton Junior High Band under the direction of Clyde Wilson is off to a good start this year.

The eighth and ninth grade band traveled to Canyon, Tuesday, Oct. 27, to participate in the annual marching contest in which all three judges gave the band a first division rating. This is one-third of the goal toward receiving a sweepstakes. Later the band will enter the concert and sightreading contest.

There are over eighty band members this year. In addition to the contest the band has played for pep rallies, football games and parades.

## School Spirit

By Russell Phillips, Editor

A school isn't a school unless it has school spirit. School spirit is the main base of a school. School spirit is any number of things. It includes getting your lessons and studying hard. A school that studies and works hard has good school spirit and to have good spirit students should study hard, greet new pupils, support the band, choir, athletic groups and other various activities. In supporting your band and choir you can attend their concerts. You can also attend the pep assemblies and games to support your athletic groups. School spirit is also the conduct of the school.

Some ways you can apply good conduct is controlling your voice in classrooms, restrooms, library, halls and outside of other classrooms. Conduct is also important in assemblies. There should be complete silence from the time you come in and the time you leave the auditorium except for your applause. One of the most important places where conduct is to be applied is during fire and other drills. Here good conduct can save people their lives.

Another thing used to make good school spirit is for the students to participate in the school activities. Some activities are band, choir, athletics, Junior Red Cross, programs and the other school organizations. Students should not always try to be leaders but they should try to be good followers. If everyone tried to be leaders you would not have the necessary support for the many organizations. Everyone has a certain personality and ability. They should try to use it to the best advantage.

If the students did to the school spirit would be of great quantity. The goal of school spirit is for everyone to do and act their best all the time.

## Dusty Duncan, Peggy Summers Named 'Students of Six Weeks'

By Patricia Hill and Patsy McCutchen

Peggy Summers, daughter of Mr. and Mrs. Larry Summers was chosen 'student of the six weeks' for the seventh grade. Peggy resides at 500 East third and enjoys playing badminton,

swimming, and horseback riding. Her most thrilling moment was when she was chosen one of the cheerleaders for the seventh grade. Her favorite food is Italian and her favorite teacher is Mrs. Ramey although she likes them all.

Her favorite subject is English and her favorite recording stars are the Dave Clark Five. When asked how she felt about Stanton she said "I like it real well and I'm proud to be part of it. I like it better than any school I've been to. The educational system is tops and the teachers are great."

Dusty Duncan, the son of Mr. and Mrs. Roy Duncan, earned the honor of being selected student of the six weeks for the first six weeks of school. To qualify for this honor students must have grades above a C, must be good all-round students, have a good personality and make good grades in citizenship.

Dusty and his family moved to the Hereford area in 1955. Dusty has attended Hereford public schools since the first grade. During his grade school career he attended Alkman Elementary school and then moved on to Stanton Junior High. In the seventh grade Dusty participated in football, basketball, and track. Of these football and basketball are his favorites.

This year he is a part of the Stanton Junior High eighth grade football team. Dusty's favorites are: colors, pink and blue; food, pizza; subject, social studies; songs, Scratchy and Chug-a-Lug and Movie, Alamo. His pet peeve is people who nag and pester him. His most embarrassing moment was last year in Jesse Carron's social stu-

dent must excel in all phases of school activities to be eligible for the honor. (Continued on Page 7)

## Stanton Welcomes Four New Teachers

By Deborah Boardman and Susie Sanders

During the year the new teachers at Stanton Junior High will be featured in the Dogie. Stanton Junior High students are fortunate to have 8 new teachers this year.

Mrs. David Griffin teaches one class of reading and four classes of seventh grade social studies. Before she came to Hereford she taught in Fort Stockton. There she had classes in Texas geography and history plus reading and spelling in the seventh and eighth grades.

Mrs. Griffin described as her ideal class, a seventh grade class who enjoys coming to school. Her family consists of her husband, David, herself and her seven pet terrapins.

Mrs. Gale Lowe is another new seventh grade teacher, teaching English. Before she came to Hereford, Mrs. Lowe taught in Fort Smith, Ark. She also taught seventh grade English in that school. Her ideal class would be one that would listen and want to learn. Mrs. Lowe has a family of three, her husband Gale, herself and their two-year-old daughter Laura.

James Lanier teaches eighth grade English. Before coming to Hereford, Lanier taught social studies, drivers education, English and also some coaching.

## Stanton Given Major Overhaul

By Martha Baker and Camille Langley

Many new improvements have been made at Stanton Junior High this year. The auditorium has been almost completely reodeled, and new seats have replaced the old ones and a new floor has been put in. The stage was enlarged and the auditorium was completely repainted.

A new ceiling was added to the girls' gym. The bleachers were taken out to provide a larger area for playing.

The old boiler has been replaced with a new one this year. This boiler furnished heat for the older buildings at Stanton.

On the third floor of the building new desks for the pupils and teachers have been furnished. The students at Stanton take pride in caring for this furniture. Also on third floor, the science rooms are now equipped gas valves, sinks, water and a water drainage system.

Students at Stanton Junior High were given the tremendous job of selecting six cheerleaders from 54 girls who tried out for cheerleaders. The girls chosen were Debra Huddleston, Peggy Summers and Deborah Hodges from the seventh grade. The

eighth grade cheerleaders are Luann Kendall, Lanny Buck and Suzanne Oglesby.

Debra Huddleston is the daughter of Mr. and Mrs. Bob Huddleston of 239 Beach. Debra is a member of Rainbow. Peggy is the daughter of Mr. and Mrs. Larry Summers who live at 500 E. 3. She is active in Red Cross, Camp Fire and Rainbow. Her hobbies are horse-back riding and swimming. Deborah Hodges is also active in Junior Red Cross and enjoys horses and skating, and is the daughter of Mr. and Mrs. A. E. Hodges. They live on Route 2, Hereford. These girls all play clarinet in the seventh grade band.

Lanny Buck lives at 310 Union with her parents, Mr. and Mrs. W. W. Buck. Her hobby is painting. She is in Camp Fire and participates in the eighth grade mixed choir. Luann is the daughter of Mr. and Mrs. Bill Kendall of 702 S. Main. She is in Camp Fire and Rainbow. Luann enjoys skating and swimming. Suzanne Oglesby is active in Rainbow and the eighth grade choir. She likes water skiing and enjoys playing the piano. Suzanne's parents are Mr. and Mrs. J. R. Oglesby of 114 Fir.

All of the cheerleaders say they feel honored to have been chosen. The girls lead the students at pep rallies and during sporting events.

## Choir Sporting New Blue Robes

By Pamela Miller and Jana Anderson

Stanton Junior High has bought 50 blue choir robes from the E. R. Moore Co. in California. The school ordered them in May and received them in late August. The cloth of the robes is rayon, which is interwoven of two colors, a light and a dark blue. The effect is a shiny royal blue. The cloth has been chemically treated so it will not fade when exposed to sunlight.

Around the neck of each robe is a white pennant type stole. The choirs will be wearing the robes at different programs and contests.

The operetta, which will be given Nov. 23 and 24th will help pay for the robes. Mr. Robert Godfrey is the choir director at Stanton Junior High.

## Stanton Starts Rehearsals For Musical, 'Pinafore'

Rehearsals are already in progress for the H. M. S. Pinafore to be presented Nov. 23 and 24, at the Stanton Junior High Auditorium. It starts at 7:30 p.m. Admission will be 75 cents and 35 cents. Proceeds will go to help pay for the new choir robes.

H.M.S. Pinafore was written by Sir William Gilbert with Sir Arthur Sullivan. Sir William Gilbert was a British wit and writer of light operas. Sir Arthur Sullivan, was a British composer. They wrote ten of the most popular operettas ever written. Some of their most famous operettas were THE MEGADO (1885), H. M. S. PINAFORE (1878), THE PIRATES OF

PENZAANCE (1879) and IOLAN- THE (1882).

The action in the operetta takes place on the ship H.M.S. Pinafore. The captain's daughter, Josephine, and a seaman, Ralph, fall in love and decide to be married. Josephine has been engaged to Sir Joseph Porter, the first lord of the admiralty, by her father, Dick Deadeye, another seaman, informs the captain of Josephine's attempt to elope, which the captain stops. He becomes so angry that he says a curse word which Sir Joseph overhears. He has both Ralph and the captain put into chains, but in a typical Gilbert and Sullivan ending, little Butter-

cup, a peddler woman, comes forward with remarkable information which manages to straighten everything out, leaving at the end, not one, but three pairs of lovers.

Members of the cast will be Tom Lesly, the Rt. Hon. Sir Joseph Porter K.B.C.; Marsh Pitman as Captain Corcoran; Ralph Rackstraw played by Russell Phillips; Dick Deadeye played by Bill McElfin; Josephine played by Judy Hollingsworth; Cousin Hebe played by Janice Newsom and Little Buttercup played by Suzanne Oglesby. The sailor chorus will be (Continued on Page 7)

Mr. and Mrs. Smith specified ceiling cable electric heating when they built their Gold Medallion home because they could have a thermostat in each room to insure individual room control. The Smiths set the thermostat in their bedroom at 60 degrees; in Shawndi's room 70 degrees; with appropriate settings in other rooms. Suzanne In Europe — Part V

# It's Downtown Living For Suzanne In Vienna

(Editor's Note: Miss Suzanne Langley, daughter of Mr. and Mrs. Earnest Langley, Hereford, is in Europe for a year's study. This letter tells of her living quarters in downtown Vienna.)

By Suzanne Langley  
Vienna, Sept. 23

How is everyone in that part of the world? I hope you are all well. I'm doing very well. Mostly I'm trying to get adjusted to this big city and all my new surroundings. There are so many things that are very similar to the U. S. and yet there are also many things that are very different.

To begin with — where I live is something extremely different than I'm accustomed to. I still can hardly realize that I'll really live here for 9 months. I live in an apartment building, of course, but it's not at all like the ones in the U. S. First of all, it's very near to the center of Vienna — it's in the 1st District, in the inner city, inside the Ring. If I can get another map of the city, I'll mark where I live and send it to you. I fyou can get a map of Wien, you can find the general area I'm in. Ander Hulben is a small street just off of Lellerstatte. It's near Park Ring in the east part of the inner city.

We have an excellent location. It's near practically everything we need. There are all kinds of stores and businesses close by and we're close to the Institute's Dining Hall and to most of our classes. When I say close, of course I only mean relatively close. Vienna's a big city and I've already discovered that I'm in for months of walking. The thing is, we're about 30 minutes or less walking distance from nearly everything, so we don't need to take the streetcar. So we don't take it and save our Schillings. Some kids have to take the streetcar, but I'm glad we don't. This walking is good for me! I'm glad I'm with Britta. She is very energetic and a brisk walker, so she's getting "lazy me" in shape. Girls, it's harder than keeping up with Mother when you go shopping!

Now for the hard part — to describe the apartment. Well, it's on a little dark street, with tall gray-brown buildings all around. You walk in the door downstairs into a small entrance way, then you begin the upward climb. If you think Knapp was bad, Mother, you should see this! In Europe the ground floor isn't "First." In our building there is ground floor, then two floors with names, Hochporterie and Mezzinin, then I, II, and finally III where I live. So we have 5 winding flights of stairs. Elevator? Yes, but you should see it! It's one of those things that looks like a cage — real old — you may have seen one in the movies. And it costs a Schilling, or 4 cents, for one ride, so we walk. The only time I rode the elevator was when I came with my suitcases.

Then you come to our door, Number 19. It is a big, brown door with only 4 different keyholes. But we just use 3! Yes, every time we want in we must use 3 different keys. It takes a while to remember which key turns twice which way and so forth. It's getting easier. Also, one of the doors downstairs is locked after 9:00 p.m. We have a key to that one too.

Britta and I live in one room of the apartment that belongs to Frau Tomanek. She lives in one big room alone, which we've never seen. Then, her niece, Berti, about 28, lives in another. There's a kitchen (which we hardly ever go in), a room with a bath and lavatory, and another

with the commode.

Britta's and my room is big. It has 3 tables — one for study, one for breakfast, and the other for general use — two single beds, with the biggest, warmest, fluffiest feather comforts. They are so comfortable and warm. We found them in all the hotels in Germany. I'd like to bring one home with me, but it would take up a whole closet. Then, we each have a nightstand and little bookshelves, and one dresser and one closet about the size of half of ours, Barbara. I have two small drawers each and a few things. The lack of storage space is the biggest problem.

Frau Tomanek isn't the motherly type at all. She's real nice to us, but she is more of a landlady. Britta and I are hoping to cultivate a better friendship with her in time. I was hoping to practice my German with her, but so far she doesn't want to talk much, it seems.

She brings us breakfast every morning, which is very good for a continental breakfast. We get either hot chocolate or tea (I

guess she doesn't like coffee and I miss that) and a roll and a pastry.

We do get only one bath a week and it isn't too bad. An extra one costs 5 Schillings, or 20 cents, but so far I think I can last on only one. It's all in what you're used to. It really will probably be better for us to only have one because it's so cold. I can still wash my hair 2 or 3 times a week, though — mostly in cold water.

Oh, and we're saving on electricity, too. No lights except when absolutely necessary, but we each have a good light for studying.

I've really tried to be careful about money and I've done pretty well so far, but now there so many things I need it for. I spent \$80 of the money I started with on the Field Trip. This even included some few little gifts for people, and stamps for you, Daddy. Which reminds me — I have a whole bunch of German stamps for you, and Belgium. But, to finish about my finances. Anyway, \$80 was pretty good I thought. We had to buy our meals in London and

Paris. But in London I really saved because of Jean and Kenton. Then I made up for it in Paris, because everything is very expensive there. It's a tourist trap! We ate as cheaply as possible most of the time, which wasn't very cheap. Once in Vienna, I had to buy a pair of walking shoes. I literally wore out my pair on the Field (Continued on Page 12)

# Emily Kay Shirley, D. L. Malicoat Marry

Mrs. D. L. Malicoat Jr.  
(Miss Emily Kaye Shirley)

Miss Emily Kaye Shirley and D. L. Malicoat Jr., Amarillo, were married in a double ring ceremony Friday evening, Oct. 30, read in the home of the bride's parents, Mr. and Mrs. George Lewis Shirley, 136 Emma.

The groom is the son of Mrs. Y. E. Lewis, New Orleans, La.

Before an improvised altar guarded by tall vases of bronze and white mums, the ceremony was performed by the Rev. H. V. Fields, pastor of Grace Gospel Church.

For her wedding the bride chose an ensemble of white wool—a sleeveless sheath topped by watching wool lace jacket. She wore a pink open coronet with whimsy veil and white accessories. Her corsage was pink rosebuds.

Honor attendants were Miss Darlina Morris, Amarillo, and Virgil (Buddy) Rush, Amarillo.

Immediately after the ceremony, the bride's parents honored the young couple at a reception. In the house party were Mrs. Lynn Smith, Amarillo, and Mrs. Jerry Landers, 527 Westhaven, sisters of the bride; and Miss Barbara Shirley, Amarillo, cousin of the bride.

Covered in white Italian cut-work cloth, the serving table was centered with an arrangement of small bronze mums and white tapers. Appointments were in silver and crystal. Wedding cake and punch were served to 30 guests.

After a wedding trip to Ruidoso, N. M., and points of interest in Old Mexico, the young couple will be at home at 1908 Wisdom St., Amarillo.

A 1960 graduate of Hereford High School, the bride is presently employed by Ford Motor Credit Corp. The groom graduated from Phillips High School, attended West Texas State University, and is now associated with Bankers' Life and Casualty Co. in Amarillo.

Out-of-city wedding guests were Mrs. Joyce Nickles, Amarillo, aunt of the groom; Mrs. Jewell Oneal, Amarillo, aunt of the bride; Miss Carol Malicoat, New Orleans, La., sister of the groom; and Mr. and Mrs. Lynn Smith and sons, Amarillo.

Agrostologists, or grass experts, don't believe chemicals are the ultimate answer to crabgrass. The best long-range remedy is to improve the soil so that a strong, thick turf of desirable grass will smother the seedlings of crabgrass long before they mature.

## Letter To The Editor

Editor:  
It should be general knowledge by now that the State Textbook committee turned a deaf ear to all pleas of the overflow crowd which protested the adoption of certain biology texts, and recommended the books for use in the school, beginning in Sept., 1965.

The tremendous pressure and money involved is so great that the committee gave the protest group only the courtesy of a hearing, but nothing said affected their intention the least.

General apathy upon the part of John Q. Public has allowed this godless, atheistic approach to the origin of man to become so firmly entrenched in education and science circles that our school children will be drenched with evolution if these publishers and scientists are allowed to get away with it.

A few days ago a newspaper article appeared which had as its headline, "Evolution Just a Theory? So is Gravity." This was a cute try to deceive the public.

If the author doesn't think gravity is more than theory, let him jump out of a tree or off a building and see if he still says gravity is a theory! Of course the whole idea was to refute the fact that evolution is a theory and should, in all fairness, be taught as such!

The acceptance of these texts is far more grave and serious than most Christians realize; it means a complete surrender in the classroom to the same atheistic forces that control Russia today. Let a whole genera-

Trip. I hated to see them go. They were so comfortable. I wore them all the time.

Then I had to buy my German books and some paper and pen. Now I've got to get some more money to buy my coat, with and some boots later and some warm pajamas. Also we've got to wash, which costs 20 schillings at last (80 cents) and I think we get our shipping bill.

The thing is that over here it's not that you can't get things like in the U. S. — they are just more expensive!

Boy! If you don't think I'll appreciate a washing machine, after walking 15 minutes to get to one. We are going to try to get by on washing once a month! Can you imagine, Mother? We've already decided that you just can't be so particular over here and wash a dress after 2 or 3 wearings. It will even cost us to iron!

Daddy, I'm worried about my pictures I took. I had them developed and they came back as slides without the frames. I argued with her, and asked why, but she said it was the kind of film and told me I'd have to pay extra to have the frames put on. I was very upset, but there was nothing I could do. They turned out pretty good except I didn't get to take all I wanted and some didn't turn out like I expected. I hope you won't be too disappointed in them anyway.

Well, now here I've told you all these details and not much about the city. I love Vienna! I haven't seen much of it yet, but there is so much to see and do — it will take me all year! We're just walking around — getting oriented — I know my way around the inner city pretty well already. It's really fairly simple.

They've kept us pretty busy. Saturday we had a bus tour of the whole city. Then, beginning Monday we've had a lecture every morning at the University and German classes from 2 to 4 in the afternoon. Some nights we have lectures, too.

Tomorrow I'm going to see Mr. Suchomel. I live only about 20 minutes from his office.

(Note: Mr. Suchomel is an Austrian lawyer who was contacted by letter earlier in the year, and who most kindly and enthusiastically agreed to be available to help Suzanne in case of any emergency. He wrote that he, too, had a 20-year old daughter in the University of Vienna, and that they would look forward to meeting Suzanne as soon as she arrived in Vienna, E.S.)

Here you don't say that something is several blocks or miles away, but you judge by how long it takes to walk it — like 15 minutes. Something else different in Europe is that you don't say 3:00 p.m., but 15:00 — and 8:00 p.m. is 20:00 hours, etc.

Also, in Austria, they often say "Gruz Gott" instead of "Guten Tag."

(Note: Here Suzanne asks us to remind her friends to write to her. Her address is: Miss Suzanne Langley Bei Frau Tomanek 1, An der Hulben 1/III/19 Wien 1, Austria Next: Suzanne studies German.

# The PHANTOM

By Lee Falk

OUR PHANTOM READING THE 17th-CENTURY PHANTOM'S TALE--  
"NOW, THE DECISION -- THE TIME TO UNFOLD MY PLAN FOR THE PIRATES OF SANLOI AND THE QUEEN OF NAVARRE--"

NATALA, QUEEN OF NAVARRE-- WHEN THESE PIRATES ATTACKED YOUR FLEET, HOW MANY SHIPS HAD YOU?  
TWELVE, SIRE.

THERE ARE 13 SHIPS IN THIS PIRATE FLEET. WE KEEP THIS ONE. THE OTHER 12 ARE NOW THE SHIPS OF NAVARRE.  
MINE? SIRE-- A PRINCELY GIFT-- BUT-- BUT-- I HAVE NO CREWS.

YOU UNARMED 400 PIRATES-- EXCEPT FOR KILLERS, YOU ARE ALL PARDONED.  
YOU ARE NOW THE NAVY OF NAVARRE. THIS QUEEN IS YOUR RULER. SWEAR LOYALTY TO HER.

SWEAR! WE-- SWEAR!

SIRE, I AM CONFUSED. I-- AM YOUR CAPTIVE.. ARE YOU REALLY -- FREEING ME?  
YOU ARE FREE, LADY.

"SHE HAD TEARS IN HER LOVELY EYES. I TURNED FROM HER--"

"-- BLAST ME-- I DIDN'T WANT TO FREE HER-- I WANTED TO HOLD HER IN MY ARMS-- BUT SHE WAS A QUEEN-- AND I-- A GENTLEMAN."

CONT'D.

## Right Around Home with MYRTLE

WHY, ARNOLD! A TOUPEE!! YOU'RE ABSOLUTELY HANDSOME!! YOU SHOULD HAVE DONE THIS YEARS AGO!

YEARS AGO I HAD HAIR!

I NEVER MINDED BALDNESS-- BUT MY EYES JUST CAN'T TAKE THAT CONSTANT GLARE ANY MORE!

I SPRAYED RALPH'S HEAD WITH FLAT GRAY ENAMEL, BUT IT PEELS OFF!

IT'S JUST LIKE A LAWN-- YOU'RE ALWAYS MOWIN' IT OR RAKIN' IT!

NOW THAT YOU MENTION IT-- WHY DON'T YOU TROT YOUR LAWN TO TH' BARBER BEFORE THE DOG CATCHER SPOTS YOU?

NO, ARNOLD! I DON'T THINK WE'LL WEAR THAT RUG TO TH' LODGE DANCE TONIGHT! WE'LL SAVE IT FOR SUNDAY SCHOOL AND BUSINESS-- TWENTY YEARS YOUNGER! INDEED!!

BUT-- SWEETIE-PIE-- ALL THIS ON AND OFF-- I'M LIABLE TO GET A COLD!

GEE WHITH, MYRTLE, MAYBE I COULD BUY THOME WHITTAKER TH!

WHY BOTHER? YOU GET THE SAME EFFECT WITH DIRT!

MINE IS THICK AND SILKY BECAUSE I'M PART PERSIAN

I KNOW! I'VE HEARD TH "PURR" PART MANY TIMES!

WHAT D'YA MEAN "THINNING OUT"? IT'S JUST LAID OVER SIDEWAYS WHERE I'VE BEEN SLEEPIN' ON IT!

SINCE WHEN DID Y' START SLEEPING ON YOUR HEAD?

I GUESS I'M LUCKY TO STILL HAVE LOTS OF BLACK CURLY HAIR!

GRASS DOESN'T GROW ON A BUSY STREET!

SURE-- ONLY THIS YEAR-- THEY'RE ABOUT A YEAR LATE!

HECK, ALICE, YOU KNOW I MOLT EVERY YEAR, BUT THE FEATHERS ALWAYS GROW BACK!

HAIR TODAY AND GONE TOMORROW!

## FLASH GORDON

by MAC RABOY

PAMN'S PARENTS HAVE BEEN REVIVED AND, IRONICALLY, THANK THE ANGRY MOB FOR LOOKING AFTER THEIR CHILD.

GUESS YOU MEN CAN GO BACK TO FIGHTING THE FLOODS NOW!

TH-THEY TALK ENGLISH! MUSTA BEEN LISTENING TO US BY RADIO!

THE "MONSTER" WAS JUST A BIG KID! TOLD YA! NOBODY SAW HIM HURT NOBODY!

THE VIGILANTE MOB LEAVES-- AND AS IF TO ANSWER FLASH'S THOUGHTS, PAMN OPENS THE SHIP'S HATCH...

DALE! HONEY! YOU ALL RIGHT?

FLASH-- GOOD YOU GOT HERE! I'D HAVE BEEN ENTOMBED IN THIS SHIP!

THE SHIP! IT'S A PROBLEM! HOW WILL YOU PEOPLE GET HOME?

THERE IS LITTLE ABOUT YOUR WORLD WE HAVE NOT OBSERVED, EARTH-MAN, INCLUDING ALL YOUR SCIENCES!

THE METHODS YOU USE TO CONSTRUCT STARSHIPS ARE NOT UNLIKE OUR OWN! WITH THE PROPER HELP...

I'LL CALL DOCTOR ZARKOV AT WORLD SPACE CONTROL! WE WILL HAVE THE SHIP TOWED IN! IT'S A BIG JOB-- BUT IT CAN BE DONE!

WE'LL BE FOREVER GRATEFUL!

AT THE SAME MOMENT AT WSC-----

YOU'VE DONE A GREAT JOB, DR. ZARKOV! WE ARE READY FOR THE TEST RUN!
