

# Juvenile Board For County?

## School Board Asks Texas Legislature To Create One

By CHARLES RICHARDS  
News Editor

The Hereford School Board unanimously adopted a resolution Tuesday night calling on the Texas Legislature to set up a Juvenile Board in Deaf Smith County, which would have the power to appoint and govern a juvenile officer.

The resolution will be sent to State Rep. Bill Clayton of Springlake along with expected similar actions from the City Commission and County Commissioners Court. School trustees included in their endorsement vote that the resolution is to go to Clayton only in the accompaniment of similar re-

solutions from the county's two other governing groups.

"THIS CREATES a juvenile board so there won't be any fuss or bother about whether it is legal to have a juvenile officer," trustee Lowell Sharp said, referring to the recent action by County Judge H. C. Williams contesting the legality of the present system under which a juvenile officer operates.

The resolution calls for the Legislature to give Deaf Smith County the exact same system now in operation in Moore County, at Dumas. The Juvenile Board would appoint a juvenile officer to a two-year term.

"This board will make the decision whether a boy or girl should be declared a juvenile or not," Sharp said. "The judge would still sentence the boy or girl."

"UNDER THE provisions of the act, there would be seven members on the Juvenile Board—the county judge and two persons appointed by the County Commissioners, City Commission and School Board. The three boards each would be free to name anyone in the community to its two spots on the Juvenile Board. The appointments would be for two-year terms, with three appointments expiring at the end of each year.

Billy Hodges has been juvenile officer since Sept. 1, under appointment by a screening committee made up of Williams and two representatives of each of the three boards.

The resolution came at the end of a five-hour meeting in which the School Board also:

- discussed the impending move by the school to data processing on its paperwork;
- authorized the purchase of five new buses equipped with automatic transmission and power steering, for the 1971-72 school year;
- learned of final approval for Hereford as a center to process BOARD, Page 2

## City Approves Capitol, Area Teletype Link

By MARSHALL DAY  
Staff Writer

The City Commission Monday approved the purchase of a new law enforcement teletype for 1971 which will put the local police department in direct contact with Austin and other cities not available with the present teletype.

Dudley Bayne, city manager, told the commissioners that in 1971 a new teletype network system will be in operation across the state, with all participating cities in contact with each other and the state headquarters.

THE NEW teletype is expected to cost well over \$140 a month, compared to the \$52 a month the city is now paying for its present teletype machine, but the federal government will partially finance the new one.

"The federal government will pay 60 per cent of the cost per month of the new teletype," Bayne told the commissioners, "so this will actually cost us about \$70 a month.

He said the city must give its intentions as soon as possible on the new teletype so the state will know how many cities will participate and how many to apply for.

"I THINK if there is anything we can do to help our law enforcement officers, then

we should do it," said Troy Carmichael, commissioner.

The commissioners also discussed two zoning requests and an annexation and opened bids for pipe for the city water department.

The commissioners rejected a zoning request by Mrs. Roy Pruitt to have a lot on South Main changed from an A-residential to a D-trailer court zone. Three people, Dr. and Mrs. John McCrary and Cal Garrett, appeared before the commission to ask that the request be denied.

The zoning commission also had asked the commissioners to reject the request.

THE CITY commission approved its first annexation of the year, that for the Price Addition in north Hereford. Prior to the approval of the annexation the commissioners okayed a zoning request for the same area.

Bayne was authorized by the commission to negotiate bids with the participating companies on pipe for the city water department after it was found the bids were considerably higher than expected.

Only two pipe companies submitted bids and both were identical on each of the three pipe sizes requested.

Charles Hoover new president      Rocky Lee new vice president      Harold Close new treasurer

## Chamber Tabs Hoover As Its 1971 President

Charles Hoover will head the Chamber of Commerce for 1971. The chamber's board of directors Wednesday approved by acclamation the recommendation of the nominating committee that included Hoover as the successor to current president, Virgil Marsh.

The same vote elected Rocky Lee as vice president and Harold Close as treasurer of the Deaf Smith County Chamber of Commerce. They succeed current vice president, Jeff Carille, and current treasurer, Jim McDowell.

The new officers will begin their duties Jan. 1.

Roy Faubion, chairman of the recent membership drive, said 16 new personal memberships and 65 new business memberships came into the fold because of the drive.

He recommended that a three-man committee be named to research the committee prospect list of new members and to meet monthly and motivate members of the Hereford Hustlers to call on the prospects on a regular basis.

In other business, the directors:

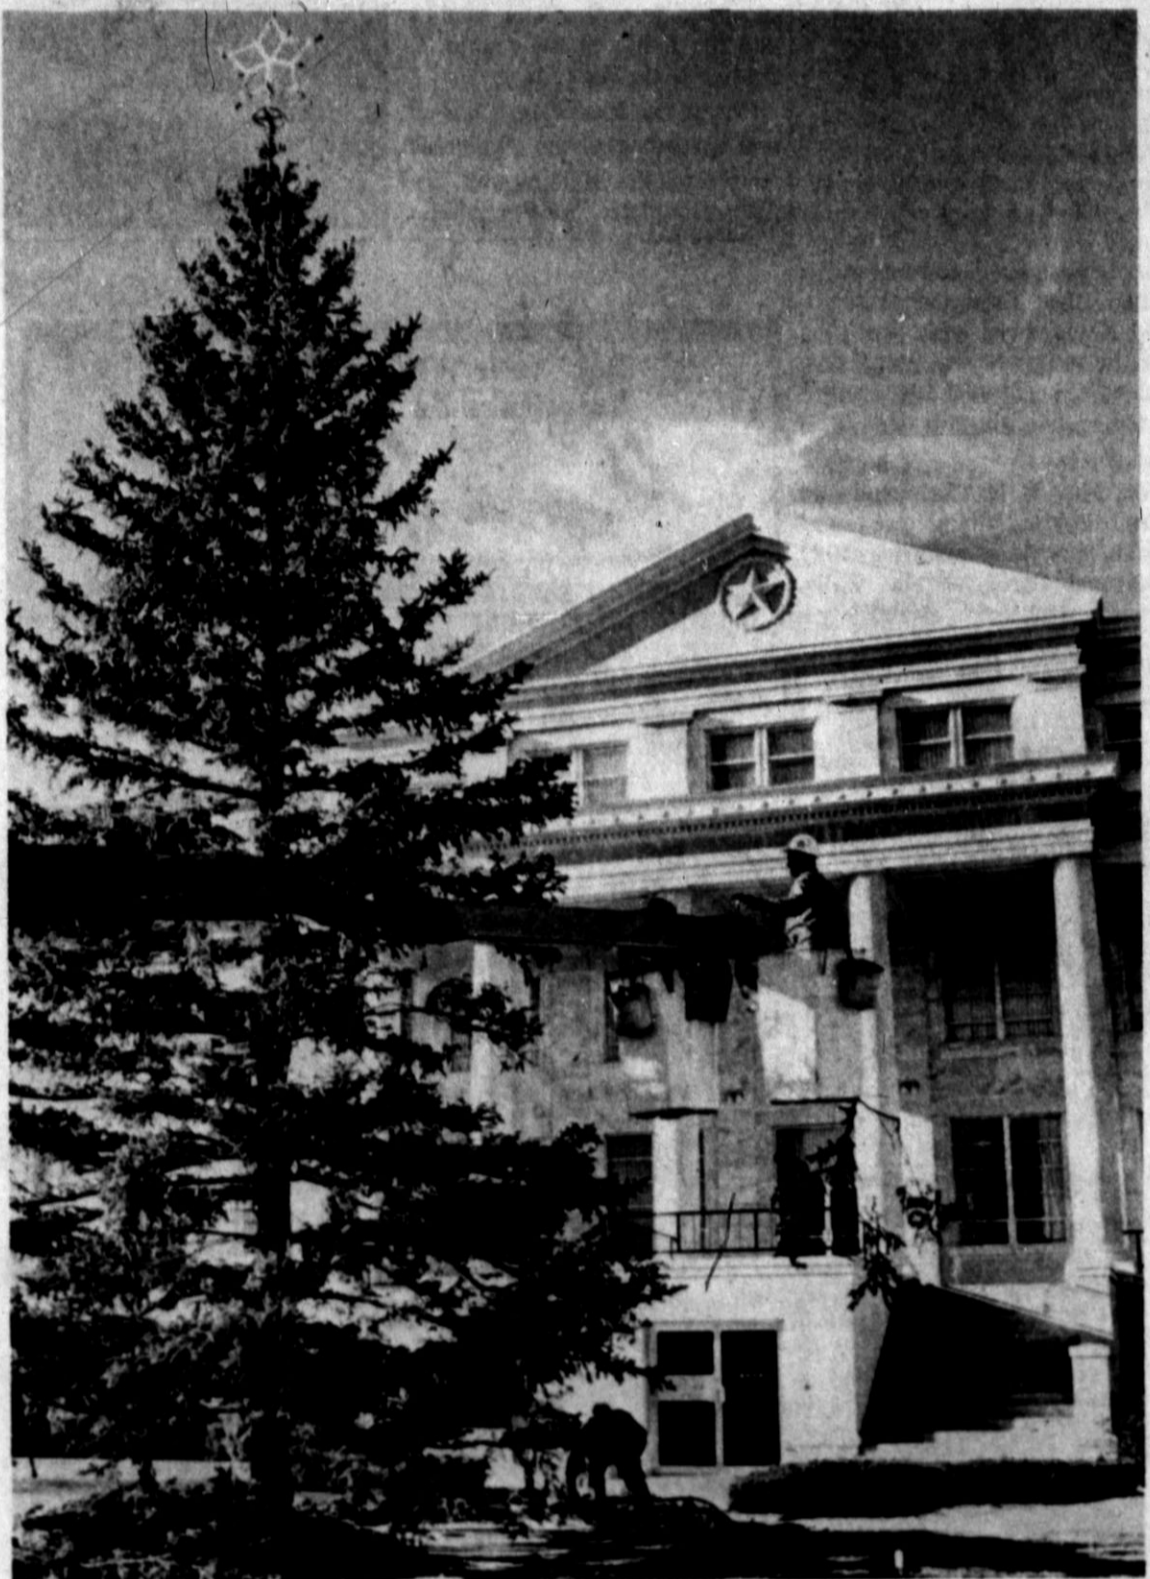

—named Dr. Joe Whitley as the Chamber representative to

the board of directors of the Community Action Program:

—called for the purchase of 750 rib eye steaks from Wilson Beef and Lamb for serving at the Chamber annual banquet;

—named Close, Carlile and Earl Stagner to serve on the Budget Committee to prepare an operating budget to be acted on at the Jan. 20 regular meeting of the directors;

—directed the manager, Bill Thompson, to make arrangements for the annual installation dinner for new officers and directors, on a January date prior to the annual banquet.

**GIANT CHRISTMAS TREE**—This 47-foot-tall tree, specially trucked in from New Mexico, went up this week south of the Deaf Smith County Courthouse. Christmas lights on the tree will be turned on in a special Christmas ceremony Friday evening, during a program that will include special band and choir music. Southwestern Public Service workers are shown here putting up several strings of lights on the tree Tuesday.

mony Friday evening, during a program that will include special band and choir music. Southwestern Public Service workers are shown here putting up several strings of lights on the tree Tuesday.

## Wartes Is Ranked In 4-A Elite

Mike Wartes, Hereford's record-breaking quarterback, was named Tuesday to the Lubbock Avalanche-Journal's All-South Plains Football Team in Class AAAA.

The team selected by the Avalanche-Journal sports staff consists of premier football performers during the past season. A first team defense and offense is selected, along with an honorable mention to both units.

Wartes, who also won all-district laurels was the only Whiteface player to be named to the South Plains team.

"I feel real fortunate and it is a real honor, but it couldn't have been done without the other people on our team," Wartes said Wednesday. "It is something I always wanted, but like I said, if it had not been for the others on the team I couldn't have done it. I think they should be included too."

Wartes, a 160-pound senior, broke the school passing record set in 1965 by Steve Hodges of 999 yards in a single season. Wartes surpassed that with a 10-game output of 1,561 yards and eight touchdowns.

He completed 101 of 216 passes for 48.9 per cent.

The selections to the team included players from Districts-3-AAAA 4-AAAA and 5-AAAA, which includes top-ranked Odessa Permian, all the Amarillo schools, Plainview and the Lubbock schools.

Named to the offensive team were split ends Joe Byrne of Coronado and Melvin Robinson of Borger, tight end Dennis Cunningham of Palo Duro, and tackles Gary Monroe of Palo Duro and Brad Longnecker of Plainview.

Backs were Wartes, Gary Olivo of Coronado, Ray T. Jones of Palo Duro and Daniel Justis of Permian.

On defense, Larry Bates of Permian and Eddie Hartsfield of Amarillo were named the ends and Jon Riddlehoover of Abilene Cooper, Gary Rheingans of Permian and Joel Staley of Monterey were selected the top down linemen.

Linebackers were David Herber of Tascosa, Bruce Davis of Permian, Dee McCurry of Coronado and Roy Langacre of Cooper. Named as the top safeties were Dotty Hicks of Monterey, David Krill of Amarillo and Joe Bizzell of Permian.

## Christmas Gathering Is Friday

A community "Lighting of the Christmas Tree" program is scheduled Friday on the lawn of the courthouse.

The program will consist of music by the high school brass section of the band with songs by the high school mixed choir, girls choir, and the Stanton and La Plata Junior High choirs.

The program will begin at 6:15 p. m. with background music by the brass section. The lights on the huge 40-foot Christmas tree on the courthouse lawn will be turned on following the choir program, scheduled to begin about 8:30 p. m.

John Gilliland will serve as emcee for the program and following the lighting of the lights, the people who attend will join in the singing.

The large Christmas tree was placed at the courthouse Monday after being brought here from New Mexico.

## McDonald Hears 4 Guilty Pleas; Sentences Three To Jail Terms

Dist. Judge Archie McDonald received guilty pleas on two cases of burglary and two of possession of marijuana this week and sentenced three of the defendants to begin immediately on jail terms.

A jury was convened Monday to hear the trial of 20-year-old Guadalupe Solis Martinez, of Westlaco, Tex., after he pleaded

innocent to a charge of possession of marijuana. The youth later changed his plea to guilty, however, and the jury was disbanded.

He pleaded guilty and asked for probation. Acting on the recommendation of Dist. Atty. Jerry Tucker, the judge sentenced him to two years in the penitentiary, but suspended it and placed Martinez on probation for two years.

The court dismissed the charge of possession of marijuana against William Harold Young, 19, of Amarillo on the basis of a chemist's report that the amount of marijuana found on him was less than one-hundredth of a gram, insufficient for any meaningful use.

The judge also made formal See PLEAS, Page 4

## Plus \$700,000 Into Local Economy TEC Training Helps People

By MARSHALL DAY  
Staff Writer

The Texas Employment Commission, with the help of the Hereford Independent School District, has put almost \$700,000 into the local economy in the past 11 months and taken a large number of people off the welfare rolls through its training programs for low-income families.

TEC provides the programs under the Manpower Development and Training Act of 1962, created to provide training programs to train or retrain low income people who could not otherwise afford to learn a skilled job.

THROUGH THE past 11 months, four programs were started and completed, seven are presently underway and one other is in the process of being approved. These programs have trained approximately 148 people and an additional 90 are expected to be added to that total when the final program is approved.

"The total cost of the programs that are in operation at this time, and the ones that have been approved is between \$500,000 and \$600,000. This is in addition to the \$171,000 that has been sent on the programs

that have been complete, making it a total of between \$600,000 and \$700,000," said Lester Rape, local manager of TEC.

The money spent on the programs is for administrative costs, salaries, training allowances and travel allowances. This money, Rape said, is funneled back into the local economy.

"OF COURSE the most important thing is that almost all the people who have completed or will complete the training, will be working and making much more than they did before, which in turn will make them tax payers and not on the welfare rolls."

The training programs are handled by the Texas Employment Commission and the school system. The TEC recruits, tests, certifies; refers to

the training classes and makes the training allowance payments to the ones who qualify.

The school system handles the actual training of the students.

The allowances, usually about \$50 a week for the average trainee, are paid through the TEC so people can participate in the classes and at the same time make enough money to get by. The allowances are based on the individual and the amount is figured by the number of dependents the student has. The more dependents, the more money he receives.

"THERE ARE two types of Manpower Development and Training Act training programs, institutional or in the classroom, and on-the-job training. The institutional training is con-

ducted eight hours a day, five days a week and for a designated number of weeks, depending of the particular class.

The on-the-job training is conducted on the job with a supervisor instructor and is handled in line with the employer's work schedule.

Programs which have been completed this year are:

- Licensed Vocational Nurses class where 15 enrolled and 13 completed
- Auto Mechanics Class where 15 enrolled and 8 completed
- Farm Equipment Mechanics class where 15 enrolled and 11 completed, and
- Barbers Training class where one enrolled and completed the class.

THE TOTAL cost of the four classes was \$171,000 for training and travel allowances, administrative costs, and salary.

There are seven training programs in progress at this time, Rape said and these are:

- Butcher-All-Round where 115 students are enrolled and in training at various beef slaughter plants throughout the area
  - Automobile Mechanics class with 20 enrolled
  - Barbers training with one
- See TEC, Page 4

## Whitefaces Enter Snyder Tourney

(See Story, Page 4)

**STUDENT AWARDS** — Kevin Young, in photo at left above, received a trophy and medal presented by Kenneth Gott, commander of the Hereford Veterans of Foreign Wars, at a dinner in Big Daddy's Cafe Monday evening. He was declared first place winner in the Voice of Democracy contest sponsored by the VFW and Auxiliary in cooperation, with the Texas Association of Broadcasters, and his oration will be entered in a district contest pointing toward state and national competition. Second place went to Brent Combs, right front in the photo above, and third to Susie Henderson, left front. Other students pictured are those who were contest entrants with taped speeches on the subject. They are Kaylanette Battenfield, Wayne Koenig, Neil McAndrews, Susan Rudd, Richard Schilling and Sharon Stone.

**Queens Named For TOPS Club**

Mrs. Larry Paschel was declared queen of Sugar Blues TOPS Club for the October-November period, and Mrs. Homer West, queen for the week, at a meeting in Community Center Monday evening.

They were the leading weight-lossers among members for those periods. Another contest for weight loss during the holidays will end Jan. 4, when a new queen will be designated. She will be honored at a salad supper Jan. 11.

Ten members were present Monday, and reported a total of 14 pounds loss for the week. Mrs. Woodie McDermitt presided for the meeting.

**BARBECUE TRAILER** — Rotary Club directors went to the Little Bull Barn Wednesday and looked over their trailer, which club members have finished extensive work on. The trailer contains complete equipment to cater barbecue meals and can be moved from place to place, town to town.

The Rotary Club has catered two barbecue functions with the trailer already in 1970. From left are Myron Morgan, secretary; Don Martin, director; and Jack Wilcox, treasurer. Other officers and directors were on hand, but not in the picture.

**RELUCTANT RESIDENTS**

**MILTON KEYNES, England** — Britain has spent million of pounds since 1946 on building "new towns" for big-city slum dwellers but the prospective residents aren't turning up, says a report by the development council of Milton Keynes, one of the freshly constructed communities. The atmosphere of new towns has been repeatedly criticized as cold. And now a research group is trying to pin down the precise reasons for the lack of prospective residents.

**Dawn Club Hears Poem Two Ways**

Two versions of the famous rhymed story, 'Twas the Night Before Christmas, were featured on the program of Dawn Music Club Tuesday afternoon. Mrs. J. B. Caraway presented the original verses by Clement Moore as a musical reading accompanied by Mrs. J. B. Stewart, and Mrs. Edgar Sowell added to the title the phrase, "In Texas, that is," and read a humorous parody. They opened and closed the entertainment at the Christmas party in the home of Mrs. Carl Kleuskens, with Mrs. Ed-

Members joined to sing carols and the hymn of the month, O Come All Ye Faithful. Prayer by Mrs. Edgar Sowell and a reading of the Christmas story from the Bible by Mrs. Lemons completed the program.

# Bufs Open Home Season With ENMU

West Texas State University's Buffaloes open their home basketball season at 7:30 p.m. today in Amarillo's Civic Center Coliseum against NI powerhouse Eastern New Mexico University, after dividing a pair of games on the road.

The Buffaloes of coach Dennis Walling lost 73-63 to highly-regarded Weber State Tuesday night in their opener and then knocked off Utah State, the nation's ninth ranked team, 81-78, Wednesday night.

Both Weber State and Utah State have been NCAA play-off entries for the past two seasons. Weber is paced by 6-8 All-American hopeful Willie Sojourner, while Utah State has a pair of All-American candidates in 6-8 Marvin Roberts and 6-6 Nate Williams.

The Buffaloes held all three of the players well below their productions of last year. Sojourner tallied 16 points and had 18 rebounds, but several of his buckets came in the closing minutes of the game when the Buffaloes were forced to a pressing defense in order to close the point gap.

Roberts managed only 16 points and had eight turnovers as 6-6 Buffalo sophomore Jerry Christian did an outstanding job

on defense. Williams managed 18 points. Ray Golson, who had 14 points in the opener, tallied 30 points against Utah State. The 6-3 junior college transfer has 44 points through two games to lead the Buffs in scoring with a 22-point per game average.

Steve Davidson, the Buffs' 6-7 All-American candidate, fired in 14 points and pulled down 16 rebounds against Weber and then had a 25-point effort against Utah State with 11 rebounds.

Eastern New Mexico's Greyhounds will furnish the Buffs with plenty of competition. The

Greyhounds were 2-0 in their first week of play and were slated to play at Houston Baptist Monday night.

The Greyhounds snapped a 43-game home court winning streak Saturday night by halting Stephen F. Austin College, 89-73.

In a 5:30 p. m. game Thursday, Dumas and Phillips high schools will meet in a non-district clash.

The Buffaloes hit the road again Friday, following the Eastern game, to play at Fort Collins, Colo., Saturday night against Colorado State University's Rams.

# But There Are Other Problems Hereford--The Town Without A Toothache...Still

By MARSHALL DAY  
Staff Writer

The "Town Without a Toothache" may have a dental problem. Hereford has long been known as the town with a high concentration of flouride in its water supply and some local dentists say this could prove to be a problem if the flouride content gets too high. The late Dr. G. W. Heard, a dentist here, and Edward Taylor, with the state Department of Public Health, conducted a series of tests here years ago and came up with the theory that the high flouride content of the water here was the reason for the low number of dental problems in this area. Their theory brought national

acclaim to Hereford and the city was tagged the "Town Without a Toothache." Since that time, however, dentistry has grown and so has the knowledge. Some dentists, feel there might now be an over abundance of flouride in the water here which tends to cause a brown stain on teeth. Not everyone agrees with the theory of the late Dr. Heard because some local dentists feel that the reports of Heard and Taylor inconclusive and nothing was actually proven where flouride, and that substance alone, helps in fighting dental problems. "We have a real nice theory that everyone believes," said H. A. Cavness, "But to be real frank, no one knows for sure if

this is everything it is said to be." Cavness said for some people the flouride content here is too much and for others it is not enough, depending largely on the body chemistry of the individuals. The latest studies indicate that the flouride content of the water in this county is about 2.2 parts per million, which is substantially above the considered ideal level of about 1 part per million. Most dentists here feel if a person is born and raised here through the age of 8, his teeth will certainly be stronger than a person who has moved here. "If an expectant mother drinks the water here, the kids get maximum benefit from the flouride," said Dr. John Hamblen, another local dentist. "The flouride is in the water, it is in the milk the cows give because the cows drink the water and it is in the vegetables grown here because they are watered by this water." Dr. Weslie Owens said the flouride in the water is a definite factor in the lesser number of dental problems here, but as the water table decreases through the years, the amount of flouride will increase, causing a problem. "Flouride might not be the

staining factor here, and some dentists even feel that bromine is the real villain. It seems that bromine is always present where flouride is found, but it is not certain which one of these two cause stains," he said. Owens said he tells mothers to go ahead and get their children a mineral water because of the high content of the flouride. Hamblen said according to figures, kids in Deaf Smith County have about 50 per cent less cavities than kids in other areas, but this is based on the overall group. He said the com-

parison comes where kids here are compared to kids elsewhere that do not get the benefit of the flouride in the water here. Hamblen said it is very probable that the rest of the Panhandle may very well have the same situation because other places pump from the same water formation. "Amarillo used to have a flouride content way up there — about 7 parts per million and they are getting it down now," Hamblen said. "Actually you don't benefit much after you get past one part per million," he said, "except your teeth might get a little stronger."

while I was in dental school," Zimmerman said. He said he has been asked by a number of mothers if they should let their children drink the water here because of the brown stains that many people get from the water. This all depends, he said, on the flouride content of the water they are using. "Some wells have more flouride than others so it is hard to really say if they should or should not," he said.

## City Installs New Airport Homing Setup

The city commission, after almost two years of waiting, has finally obtained a homing device which will help pilots who attempt landings at the local airport during adverse weather. The device was installed last week at the corner of Progressive Road and Austin Road at a cost of approximately \$1,400 to the city. This cost was considerably lower than the bid first received by the city from a company in Beaumont which offered the homing device and installation for \$3,800. City manager Dudley Bayne said this homing device should not be confused with an instrument landing system, although it does allow pilots to "home" in on the airport after they come out of bad weather. "At night, a radio signal reaches out about 25 or 30 miles

and pilots can follow this to the airport," Bayne said. The homing device was purchased from Frontier Airlines and shipped here from Denver, Colo. Another part of the device which was not available was purchased through the Army surplus. Jim Sears, now on the city commission as the mayor, was the representative of the Aviation Committee of the Chamber of Commerce who approached the city commission two years ago with the proposal for the installation of a homing device. The device operates on a frequency of 341 kilocycles. Sears said the city hopes to get Federal Aviation Administration approval so the device can be used for instrument approaches. As the device is now, it can only be used as a homing device and not as an instrument approach.

## Board . . .

(Continued from Page 1) vide testing for the awarding of high school equivalency diplomas to those who never completed high school; — heard reports on the school's building trades project, the adult education class and the math department. SUPT. ROY Hartman told the board that Hereford is one of less than 10 schools in the Panhandle going to the immediate use of computers in the preparation of its payroll checks and much other business office work. The state will require every school to make the change within a couple of years, so Hereford can gain valuable experience by moving into the program now, he said. The order for the new buses was approved Tuesday night so it can be sent off in time for the buses to get here by next August. The school is pursuing a policy of buying five new buses each year and putting five old ones out of use. The school now has 26 regular routes and one special education route, which means that each bus would be kept in service about five years until a new one is brought to replace it. Tom Harkey, in charge of transportation, pointed out that an average of from 17,000 to 26,000 miles, depending on the route, is put on each bus each year. "YOU CAN eat a bus up pretty good in five years, and I don't think we save any money by buying fewer buses and trying to make them last longer. I think in the sixth year I can show you pretty easy, in maintenance costs, that we can operate just as cheaply using a bus just five years and replacing it than keeping it in use," Harkey said. Vocational education coordinator Walter Bryan briefed the board on the progress of the Building Trades class in constructing a 3,240 square foot biology lecture room-laboratory to accommodate about 65 students. Bryan also talked about the adult education classes underway. "Through various advertising, we offered classes in seven areas, but we only had enough interest for three areas to justify offering the classes and paying a teacher," Bryan said. Twenty-six persons are enrolled in bookkeeping, 35 in conversational Spanish and 22 in typing. THE SPANISH course drew several teachers, and as a result they have reported being able to communicate better with some of their students, Bryan said. "I think in the future you can look for more and more of our teachers to become involved in

## Funeral Slated For A. T. Young This Afternoon

The funeral of Allen Theodore Young, 67, will be conducted at 2 p. m. today in Rose Chapel of Gilliland Funeral Home by the Rev. H. V. Fields, pastor of Grace Gospel Church. Burial will be in West Park Cemetery. Mr. Young was found dead Tuesday in his mobile home 12 miles south of Hereford on Highway 385. He was born in Arkansas Nov. 23, 1903, and married Vera Hines at Hereford in 1929. Survivors are his wife, who resides in Los Angeles; a son, Allen, of Escondido, Calif.; a sister, Mrs. Bill Ewton of Colorado Springs; a brother, Will Young of Bebersfield, Calif.; and one grandchild.

## TEC . . .

(Continued from Page 1) enrolled —Cosmetology with one enrolled —Sheet Metal Worker with one enrolled —Automobile Repair with two enrolled, and —Job Corps Center training with 10 enrolled. THE COST of the seven programs is estimated at about \$100,000 and this too is expected to be sent back into the local economy, Rape said. Training programs have been approved for an additional 90 Butcher-All-Round class, but this total will be applied to the local slaughter houses as they are needed. These 90 students will move up to actual training as the first 115 complete their training. "Classes that are being planned for the future, but not approved yet," Rape said, "will be another LVN class and a combination body shop repair-welder class." These programs, he said, will hopefully be in progress early next year.

## Service Planned On Friday For Mrs. Bodkin, 91

Funeral services for Mrs. Mary Elizabeth Bodkin, 91, are tentatively set for 2 p. m. Friday in the Presbyterian Church here. Gilliland Funeral Home is in charge of arrangements. A resident of Hereford since January, 1909, Mrs. Bodkin died Wednesday morning in Westgate unit of Kings Manor retirement home, after a long illness. She was a native of Ohio, born July 18, 1879 in Albany. She married Joe Bodkin May 6, 1899 in Ohio, and his death occurred in 1939. A son, Dale, also preceded her in death in 1935. She is survived by a daughter, Mrs. Otto Olson of Hereford, two grandchildren, eight great-grandchildren and one great-great-grandchild.

## County Judge Hears 4 Cases

County Judge H. C. Williams accepted four guilty pleas and one "no contest" plea this week and set January trial dates for two other persons who pleaded their innocence. All but one of the seven cases before him Monday and Tuesday involved violation of alcoholic beverage laws. On the guilty pleas, the judge: —fined P. E. Hoosier, 37, of Hereford \$10 and court costs plus restitution of a \$5 check on charges of swindling with a worthless check; —fined Walter Thomas Bailiff, 46, of Star Route, \$150 and court costs, sentenced him to three days in jail and suspended his driver's license for one year for driving while intoxicated; —fined Dewey Simons, 21, of 340 Ave. A, \$50 and court costs and sentenced him to 60 days in jail for driving while intoxicated, with the sentence probated for one year; —fined Lorenze Mejia, 22, of 215 Vera Cruz, \$100 and costs for making available an alcoholic beverage to a minor. Erasmo Martinez, 30, of 316 Raymond pleaded nolo contendere, or no contest, to the charge of transporting liquor to a dry area, and the judge fined him \$150 and court costs. Maurice Villarreal, 59, of Hereford, and Baldozar Tijerina, 28, of 332 Ave. G, both pleaded innocent to the charge of driving while intoxicated. The judge set the trial date of Villarreal for Jan. 13 and of Tijerina for Jan. 14. Some common species of American birds have more than 30 recognized subspecies.

## Chamber Issues Warning On Photographic Firm

The Chamber of Commerce Tuesday issued a warning to area residents to be cautious in dealing with a Dallas-based photographic company. Chamber manager Bill Thompson said his office has received a large number of complaints from local people concerning Photo King Company. The complaints, he said, involved non-delivery of paid for photographs, failure to deliver the promised premiums, failure to answer correspondence or to accept long distance phone calls. A representative of the Dallas company is operating from a local motel and has advertised by post card direct mail. "Some complaints were adjusted after the chamber filed a complaint with the Dallas Better Business Bureau, but apparently only those specific cases mentioned in the complaint, for additional complaints have been brought to the chamber since that time," Thompson said. Thompson asks that anyone who has had difficulties with the company to write direct to the Better Business Bureau of Dallas and give a list of the particulars and enclose with the letter, copies of any checks which have been cashed and any other correspondence relative to the matter. "Over the years we have had more complaints relative to the operations of non-resident photographers than any other type of business," Thompson said. "We sincerely hope that our local citizens will soon learn that it pays to trade with established local businesses who must satisfy their customers to remain in business. Photographers operating through grocery stores, auto supply stores or in hotels and motels offer no assurance that you will ever receive any value

## Lester Galley Funeral To Be Held Thursday

Funeral services for Lester Galley, 81, of 317 Avenue J, a resident of Deaf Smith County since 1908, will be conducted at 4 p. m. today in the Assembly of God Church, of which he was a member. The Rev. Homer T. Goodwin, pastor, will officiate. Burial will be in West Park Cemetery, directed by Gilliland Funeral Home. Mr. Galley, who farmed in the Dawn community for many years, died Tuesday in a convalescent home at Amarillo. He was born Dec. 12, 1888, at Moravia, Iowa, and married Ruth Temple in 1918 at Montgomery, Iowa. Survivors are his wife; two sons, Orval of Hereford and Charles of Amarillo; two brothers, Walter of Center, Colo., and Cyres of Moline, Ill.; seven grandchildren and one great-grandchild.

## Pleas . . .

(Continued from Page 1) sentencing on Marshall Padgett, 43, of 366 New Mexico, Texico, N. M., of \$75 and \$46 court costs on the jury verdict of guilty to simple assault in connection with a fracas in a local club 14 months ago. The maximum fine for the offense was \$200. In a rare y p. m. session Monday, the judge accepted three more guilty pleas and gave probation to all three, but only with the condition that they all serve six months in jail before beginning probation. Edward Eugene Slawson, 19, of 3708 E. 16th, Amarillo pleaded guilty to burglary and was placed on probation for five years after serving in the county jail six months. David Paul Spisak, 22, of K-Bar Motel pleaded guilty to possession of marijuana and was placed on probation for four years after serving in the county jail six months. And Mike Wagner, 19, of 3708 E. 16th, Amarillo pleaded guilty to burglary and was placed, like Slawson, on probation for five years after serving in the county jail six months. "Photographers operating through grocery stores, auto supply stores or in hotels and motels offer no assurance that you will ever receive any value

# Hereford Seeks To Increase Record In Snyder Tourney

The Whiteface basketballers, Brownfield, sporting one of their best records in years, hope to improve on the ledger when they travel to Snyder this weekend for the prestigious Snyder Tournament. The Whitefaces, with an 8-2 mark, go into the tournament Friday by meeting Snyder, one of the three favorites in the tourney. Snyder, along with Lubbock Dunbar and Phillips, share the favorites role in the tournament. Other teams scheduled to participate are Lubbock Estacado, Big Spring, Seminole and Dunbar is the defending champion of the tournament and has won the title the past three years. "I think we can compete if we play at the rate we have been playing," said head coach Ron Mayberry. "We play Snyder in the opener on their home court and this is going to be a real challenge but I think our boys can come through for us like they have all year. They can meet the challenge. "The kids are playing as good as they can play. They are

playing real inspired ball." Hereford goes into the tournament fresh from a narrow 61-59 overtime victory over Levelland Tuesday and a third place finish in the Pampa Tournament last weekend. Keith Kitchens, with four seconds left in the game, hit two free throws in a 1-and-1 situation to win the game for the Whitefaces against the Levelland squad. John McNeely had tied the game up with just 30 seconds remaining in the game on two charity tosses. Last weekend the Whitefaces tripped the Canyon Eagles, 71-62 in the opening round of the Top O'Texas Tournament at Pampa, then went on to down the Pampa B team, 75-48 in the second round. The Whitefaces lost to Dumas, whom they had defeated earlier in the year, after having defeated the Pampa B team earlier the same day. The locals then edged Burk Burnett, 55-48 to win third place in the tournament. Burk Burnett was one of the favorites going into the tournament.

## Fairy Tale Play Coming Saturday

A play for children, The Emperor's New Clothes, will be presented in Hereford High School auditorium at 2 p. m. Saturday, sponsored by Hereford Community Players. It is a production of Alpha Psi Omega, drama fraternity at West Texas State University, which each year presents a holiday show for children to benefit its scholarship fund. The play opens Thursday night in the Branding Iron Theater on WTSU campus, then comes here Saturday. Tickets will be sold only at the door Saturday afternoon. Admission is 50 cents for children and students, a dollar for adults. Time of the play is about an hour. This is the third year the Community Players have brought the college production here for Hereford children during the holidays. The current play is by Charlotte Chorpenning, adapted from a fairy tale by Hans Christian Anderson. It features humor in a plot designed for youngsters, and has colorful costumes and background with an oriental atmosphere. The story of the foolish emperor who cares only for his fine clothes, and the tricksters who plot to fool him and his ministers with a suit which they declare is visible only to persons fit for their positions, is a familiar one. A Hereford student at WTSU, Barbara Huckert, is in the supporting cast of the play, which is directed by Bill Jordan and Sara Hard, both Alpha Psi Omega members.

CHILDREN'S PLAY SCENE — A trio of actors from West Texas State University drama fraternity, Alpha Psi Omega, appear in a scene from the Emperor's New Clothes, which will be presented in Hereford High School auditorium at 2 p. m. Saturday, sponsored by the Community Players here. This is the third year the Players have brought the WTSU group to give a play for children here at Christmastime.

**LONG-TIME MEMBERS** — Pioneer Study Club members of more than 40 years were surprised by presentation of pins at the Christmas luncheon Tuesday. Mrs. J. M. Gilliland, seated right in top photo, is a charter member who has been in the club 61 years. Mrs. Ray L. Johnson is seated left and standing from left are Mrs. Mary Seigler, Mrs. Wirt Phillips, and

this year's president, Mrs. Ted Panciera, who presented the pins and then was surprised by the gift of a similar pin. From left in lower photo, standing are Mrs. O. G. Hill Sr. and Mrs. Bess Werner; seated, Mrs. Burl France, Mrs. Allan Bell and Mrs. E. S. Ireland. Not present at the luncheon was the tenth honoree, Mrs. N. E. Gass.

## 500 Club Years Totaled By Luncheon Honorees

More than 500 years of membership in Pioneer Study Club was represented by 10 women who were the surprise honorees at the club's Christmas luncheon in Hereford Country Club Tuesday. Each of the 10, who have been members more than 40 years, was presented a diamond-set pin.

Mrs. J. M. Gilliland, the only charter member still on the active roll, has been so listed for 61 years, since the Mothers Club which later changed its name to Pioneer Study Club, was formed here in 1909.

Members for more than 50 years are Mrs. Allan Bell, who joined the group when it was about a year old, Mrs. E. S. Ireland, Mrs. Burl France and Mrs. Bess Werner. On the 40-year-plus list are Mrs. O. G. Hill Sr., Mrs. Wirt Phillips, Mrs. Ray L. Johnson, Mrs. N. E. Gass and Mrs. Mary Seigler.

Mrs. J. V. Pickens, vice president, paid tribute to their service in the club as Mrs. Ted Panciera, president, presented the pins, which are commemorative jewelry issued by the Texas Federation of Women's

Clubs to mark its 75th anniversary. Pioneer Club has been a part of the Federation since 1910. After the presentation, Mrs. Panciera was in turn surprised with one of the pins given her by the club.

Hostesses for the luncheon Tuesday were Mmes. Frank Ball, John Patton and M. L. Simpson. Tables, arranged in U-shape, were covered with red and decorated with miniature trees, pine cones, and at the center of the U, thick red candles grouped in a base of pine branches.

Plate favors were scarf rings, and at each plate was a tiny red net sock in which members placed their contributions to buy a gift of appreciation to Boy Scouts of Troop 32, who each day raise and lower the flag provided by the club in Mothers Park on North Main Street.

In annual custom, members brought gifts to fill a basket for a needy family at Christmas and also for a gift exchange. Mrs. Simpson reported that gifts valued at \$77 had been sent by the group to the Veterans Hospital in Amarillo, another yearly project.

Mrs. Ralph McCullough made the final report on the fall bulb sale, saying that more than a half ton of bulbs for spring flowers were sold and delivered this year.

Mrs. William Wimberley gave the program titled Christmas in

## Club Joins Plea On POW Plight

Reminded in their Christmas program of the plight of American prisoners of war in North Viet Nam, members of Velela Study Club wrote letters at a meeting Tuesday in the current national campaign to urge the captors to abide by international agreements for POW treatment.

They also voted to pay postage for such letters written by a number of teenage residents here.

Mrs. Richard Ottesen was hostess for the club's Christmas party in her home and Mrs. J. R. Oglesby directed the program which featured children of the members. Mrs. Howard

Birdwell read a story, A Sailor's Christmas Gift.

Janet Brady played an unusual instrument, the melodica, as Carolyn Skaggs read the words of the familiar hymn, Silent Night. Mike Oglesby appeared as Santa Claus, to add humor to the gift exchange. A series of games, just for fun, followed.

Refreshments were served from a table covered with red and centered with a green candle arrangement, to Mmes. George Ritter, Gwynne Owen, Bill Brady, Gid Brown, Hugh Clearman, George Olson, Armon Lauderback, Glenn Watts, James Trail, B. W. Sisson and those on program.

## European Tour Is Yule Party Topic

Lone Star Study Club members heard a program by Mrs. Bob Wilson on her summer trip to Europe at their annual Christmas party Tuesday afternoon in the home of Mrs. G. W. Newsom.

Mrs. Wilson said the highlight of the European tour was attending the famous non-commercial Passion Play. Her trip began at London, took her to Denmark and across to Rome and other points in Italy then back along the coast of the Riviera and through France.

Co-hostesses with Mrs. Newsom were members of the social committee, Mrs. C. O. Phillips, Mrs. Ed Warren and Miss Mildred Elliot.

Refreshments including fruit cake were served from a table centered with red candles and red balls amidst greenery. An exchange of gifts followed.

Lone Star Study Club voted earlier in the season to donate a cash Christmas gift to Girls-town.

Other members present were Mmes. Hardy Benson, R. G.

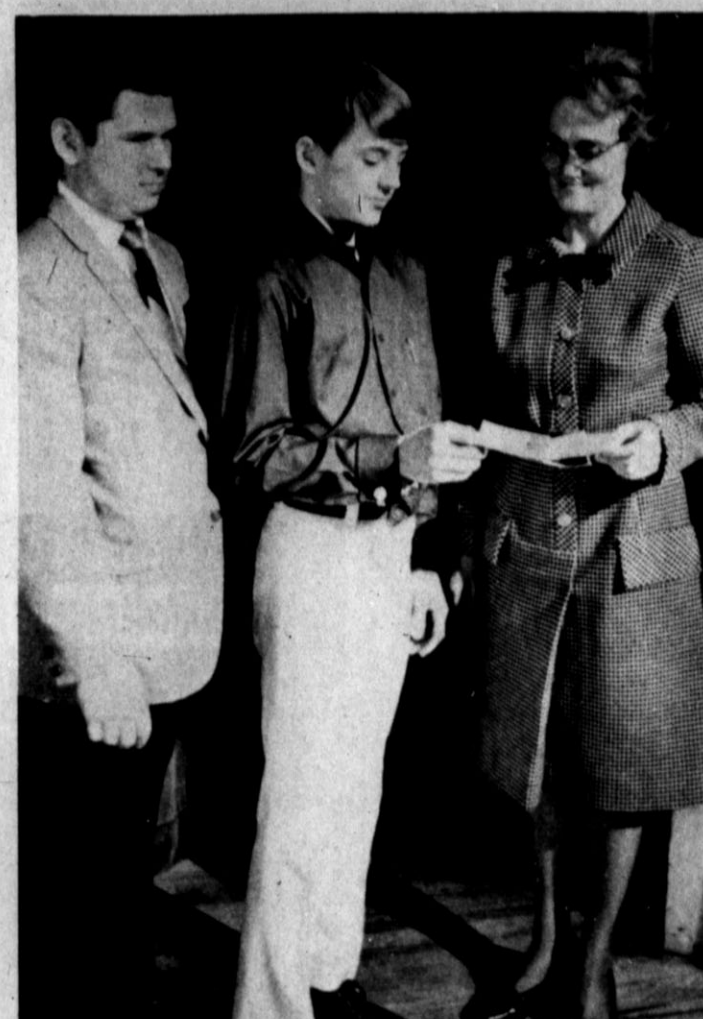

Blue, V. E. Dodson, H. E. Henslee, Jim Higgins, John Jacobson Jr., C. D. Kelton, S. A. McCathern, Ray Suit, S. S. Williams, Carl Williams, Robert Thompson and Baker Womble.

### AUTO-PUB

SEIGHFORD, England — Bar service has become self service at the Old Holly Bush in Staffordshire. Landlord Eric Vaner has converted his pub into a place where customers keep their own cupboards containing bottles of drink which they buy in advance.

### DUMMY BRIDE

ALDERSHOT, England — Policeman Jerry Spindlove saw a man and a bride-like figure embracing on a street corner here and decided to investigate. He found that the male partner had made off with a dummy bride from a shop window. "It was Saturday night" explained the culprit. "I got a bit lubricated."

**STANTON GIVES** — Franklin Higgins, center, during an assembly last week, presented a check for \$241.04 to Mrs. Genevieve Miller, executive secretary for the local Red Cross. Looking on is Stanton Junior High's assistant principal, Rodney Laubhan —Photo by Betty Koelzer

## Presbyterians Set Christmas Pageant, Meal

The annual congregational dinner and a Christmas pageant are scheduled at the Presbyterian Church at 7:30 p. m. Friday. Families will gather in the church hall for dinner, followed by a song program by kindergarten children and a visit by Santa Claus.

The pageant to be presented in the sanctuary is titled *All the People*. Dramatization by the junior high group is directed by Mrs. Hazen Woods. Songs of Christmas from various countries will be presented by a choir of first to sixth graders under direction of Mrs. C. Pat Thompson with Mrs. Charles Jones as organist.

## GAME OF THE WEEK

Brownwood vs. Plano Two old Playoff hands get together in their first meeting ever, which should be some ball game.

## Stock Reports Still Needed

During the last half of November some 40,000 Texas ranchers and farmers received a livestock survey questionnaire from Cary Palmer, State Statistician for the Texas Crop and Livestock Reporting Service. This is a joint endeavor of the Texas Department of Agriculture and the Statistical Reporting Service, U. S. D. A., to provide a program of county estimates for Texas.

In Texas there are 254 counties and each farmer in each county is an important part of the State's agriculture. Their reports are needed to provide accurate estimates for Texas cattle, hogs and chickens. The year-end survey on sheep and goats will be made in late December.

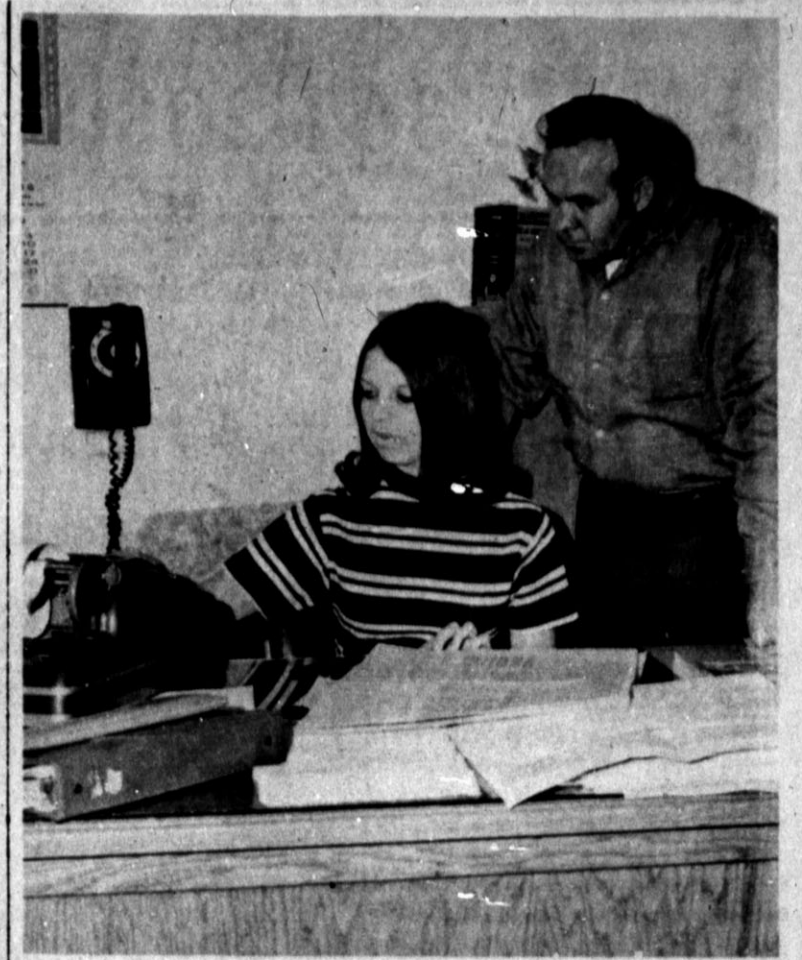

Each farmer is urged to fill out his questionnaire carefully and return it promptly in the self-addressed envelope to the Agricultural Statistician. This will do much to provide the accurate data needed for Texas.

County statistics for 1969 and January 1, 1970 are now available on Livestock, Poultry, Dairy, Field Crops, Small Grains, Cotton, Vegetables, Fruit and Pecan, Prices received and Prices Paid by Farmers and Cash Receipts from the Sale of Texas Farm Commodities and can be obtained by writing the Texas Crop and Livestock Reporting Service, Box 70, Austin 78767, or by writing John C. White, Texas Commissioner of Agriculture, Box 12847, Capitol Station, Austin 78711.

## Story And Poem Bring Christmas Spirit To Club

A story, The Gift You Can Give, was told by Mrs. E. M. Cox and the well-loved poem, 'Twas the Night Before Christmas, was read by Miss Mary Brady as a program for West Hereford Home Demonstration Club Tuesday afternoon.

Miss Brady was hostess in her home for the Christmas party, at which members exchanged gifts. Mrs. J. N. Jacob-

**DE STUDENT OF THE WEEK** — Miss Carla George, who plans to attend an area college and major in business following her graduation from Hereford High School, is this week's Distributive Education student. She is employed by Troy Rhodes as bookkeeper at A to Z Tire and Battery Service. She is the daughter of Mr. and Mrs. B. E. George, 114 Ranger Drive. She is shown above with Rhodes. —Staff Photo

## Farm Meeting Joint Venture

Gerald McCathern, president of the county National Farmers Organization issued a statement Wednesday to clarify an apparent misunderstanding about the meeting of farm organization representatives with Secretary of Agriculture Clifford M. Hardin.

It was reported that the NFO was the only organization that participated in the conference with Hardin, which was true, but the meeting was a joint effort by the Chamber of Com-

merce, Farm Bureau, Farmers Union, NFO, Grain Sorghum Producers Association and Wheat growers.

"It was because of this unified effort on the part of all these organizations and the effort of businesses and individuals to send telegrams supporting this effort, that gained the success which we have witnessed," McCathern said.

A guest, Mrs. Dock Roberson, was welcomed by Mmes. Jewell Awtry, D. W. Allmon, D. R. Grimes, Roy Boyd, Albert Faris, Robert Boyd, Miss Evelyn Bell and those on program.

## DANGEROUS IDOLS

LONDON — Young persons are being lured into crime and the use of drugs through their hero-worship of some private idols and screen villains, says Police Commissioner Sir John Waldron of London. Waldron cited drug use by a number of stars and at least one film about burglary as examples of dangers posed for youth by movie-land and its personalities.

Half of Montana is a mile or more higher than sea level.

## Absent Pair At Party By Phone

A telephone call from the Horace Hersheys at Rochester, Minn., where Hershey is a Mayo Brothers Hospital patient, added a highlight to the Order of Eastern Star Christmas party Tuesday evening in the Masonic Hall.

The Hersheys are members of the Hereford Chapter and decided to be present by long-distance at the annual party. They reported that Hershey is recovering from a second opera-

tion and is ready for therapy which is expected to enable him to walk normally again.

Hosts for the party were Mr. and Mrs. Deward Roberson, worthy matron and patron of the

chapter; Mr. and Mrs. Bill Hutson, Mrs. O. G. Hill Sr. and Mrs. Robert Wagener.

A Christmas gift to Mrs. Ruth Lindsey, the chapter's adopted mother who lives in the OES home at Arlington, was planned. A gift was sent to the OES Memorial Fund in honor of the late Billie Graham, and members voted a contribution to the local United Fund.

Rooms were decorated for the holidays, the tree in green and gold, colors chosen by Mrs. Roberson. The refreshment table was covered with a green cloth and brightened with holly sprays.

One of Bermuda's taxi drivers may cover 25,000 miles a year although the resort island group measures only 21 square miles.

## Hospital Notes

**Party Follows Club's Project**  
 Their informal Christmas party Monday evening was a relaxing event for members of La Madre Mia Study Club after their work last week on a fund-raising project, a Holiday Tour of Homes held Sunday afternoon.  
 Mrs. James Gentry and Mrs. Charles Frye were hostesses in Mrs. Gentry's home, one of the tour spots. Reports indicated large attendance for the tour, and a substantial sum raised for contribution to the new Day Care Center. Mrs. Ben Scott was project chairman.  
 Business in a short session with Mrs. Lynton Alfred presiding, included agreement by members to conduct the Mothers March of Dimes again this winter in Hereford.  
 Gifts were exchanged and refreshments served as members enjoyed casual conversation.  
 Present were Mmes. Bobby Owen, Waldo Baxter, Ray Moore, Bud Snyder, Dean Herring, Wayne Lady, Don Lane, Herschel Black, G. D. Merritt, Dave Honea, Richard Ward, John E. Smith, C. D. Adams, J. D. Glover, Don Walser, Roger Williams, Alfred and Scott.

"WE LOVE TO SPEND CHRISTMAS IN SUGARLAND MALL"

**GIFTS FROM SANTA** — A visit from Santa Claus was the highlight of a Christmas party given by the Elkettes for children of the Satellite Center, Monday evening in Elks Hall. The smallest guest, who has just been given a stocking full of toys and treats by the jolly Christmas saint, turns to Maxine Thompson, director

of the Center, for help in exploring her gift as some of the other children wait to see what else Santa has in his bag. Mrs. Nick Hobbs, president of the Elkettes, and a group of the members were hostesses who served punch and cookies after the children had played games and inspected their gifts.

## New Farm Bill Is Convention Topic

Carl E. Farrington, deputy administrator for the USDA in Washington, D. C., will present a program Saturday on the new farm bill during the 20th annual convention of the Texas Wheat Producers Association in Amarillo at the Holiday Inn West.

Leo Witkowski of Hereford, president of the Texas Wheat Producers Association, said Farrington will probably present a slide program on the new farm bill.

Farrington's talk is scheduled as the opening of the morning session at 10 a. m. His talk will be followed by "Wheat Policies of the New Farm Program," a panel of leaders who will answer questions from growers. This will begin at 10:45 a. m.

Jerry Rees of Washington, D. C. will talk on "What Now for Wheat?" and his talk will be followed by the luncheon.

The afternoon session will begin with a talk on market expansion in the coming ten years and this will be by Carl Dumlér, president of the Great Plains Wheat, Inc. Dumlér, of Russell, Kan., heads the Great Plains Wheat, Inc. which stretches from the northern part of the United States to Texas.

The Texas Agricultural Commodity Act of 1969 will be the topic of a discussion by Dr. William E. Black, marketing and policy specialist from A&M University, and at 2 p. m., E. L. Hatcher of Lamar, Colo. will discuss public relations for agriculture.

A business session will follow at 2:30 and the convention will conclude about 3 p. m.

# Heloise Devin Is Bowler Of Week

Heloise Devin was named as the Bowler of the Week in Kings and Queens play when she went 11 pins over her average.

Peggy White had the Queens high game of 209 and Stella Varner won the Queens high handicap game with a 230. Ray Williams rolled a 226 for the

Kings high game and Omero Valdez had the Kings high handicap game of 226.

Hereford Janitor Supply won the high series with a 2361 and also collected the team high game with a 797.

Converting splits were Maxine Williams, Bertha Arnold,

Alice Lueb, Leroy McDonald, Pauline McDonald and Bertha Diaz.

Hereford Janitor Supply won four from Big Daddy's Restaurant, Team No. 7 won four from VanceHall Sporting Goods, Bob's Barbecue won three from Reeves Chevrolet, and Circle

Three Feed Yard won three from Strickland Shell.

Standings have Hereford Janitor Supply, 25-15; Bob's Hickory Pit, 23-17; Strickland Shell, 23-17; Circle Three Feed Yard, 22-18; Big Daddy's Restaurant, 21-19; Vance Sporting Goods, 21-19; Reeves Chevrolet, 15-25; and Team No. 7, 21-19.

## Dimmitt Church Sets Dedication

The First Baptist Church of Dimmitt, Texas is having their Dedication Day Program, Sunday, at the new church located on Western Circle Drive.

The new church has been in use since November 22, 1970. The new church consists of 36,000 square feet of floor space and will seat over 550 people. The cost of the building is over \$750,000.00. The plan to move and rebuild has been in the planning stages for over five years.

Sunday Morning Worship will start at 10:30 A. M. with Frank Pollard, Former Pastor of First Baptist Church, Dimmitt, Texas, as guest speaker. Johnny Burnett, former Director of Music and Education at the Baptist Church of Dimmitt, Texas, will sing for morning and evening services. Eugene Greer, of Texas State Mission Board, will bring the Evening Service at the regular time of 7:00 P. M.

All former Pastors, Former Members, and the public, are invited to Open House from 2:00 P. M. to 4:00 P. M. A tour of the new auditorium and Sunday School and Training Union Classes will be held at this time.

Following the Evening Service there will be a Reception and fellowship for the guests, former Pastors, and friends in the Fellowship Hall.

Dr. Raymond Perkins is the Pastor of the First Baptist Church, Dimmitt, Texas and Bill Myers is the Director of Music and Education.

Pronghorn antelopes were once as numerous in the West as buffalo.

THE GUSTING WINDS — Stanton's select girls' choral group, the Gusting Winds, gave their first performance last week during the Red Cross assembly. Members are, left to right, back row, Ramona

Swindell, Wynetta Hill, Charlene Wright, Amber Hare, Lynn Wiley, and Glenda Dodson; front row, Sharon Owens, Joan Waters, Edna Galvan, Tracey Hopson, Lillie Lyons and Cathy Koelzer.

# Clint Formby Attends WT Chamber Meeting

Taxation, appropriations and redistricting will be the principal subjects discussed by legislators and West Texans businessmen on December 17 and 18 meeting in the bi-annual West Texas Chamber of Commerce Pre-Legislative Conference in Odessa, according to F. V. Wallace, president of the WTCC.

All members of the West Texas delegation in the Texas Legislature have been invited to the conference. Business leaders of the area will discuss the three subjects with the legislators and give them the benefit of the businessmen's thinking on these items.

Clint Formby of Hereford, a director of the West Texas Chamber of Commerce, will attend the meeting.

Beginning with a reception and banquet on the evening of December 17, featuring an outstanding West Texas business-

man as banquet speaker, the conference will convene on Friday morning, December 18 in the Inn of the Golden West for a business session and luncheon. The appropriations panel will be headed by Representative W. S. Heatly, Paducah, chairman of the House Appropriations Committee. Serving with him will be Rep. Richard C. Slack of Pecos, Senator J. P. Word of Meridian and Hermes Miller, staff member of the Legislative Budget Board.

Robert E. Johnson, executive director of the Texas Legislative Council, will lead off the panel discussion of redistricting problems. He will be assisted in the discussion by Rep. Tommy Shannon of Fort Worth and Senator Tom Creighton of Mineral Wells.

The first two subjects will be explored during the morning

session. At the noon luncheon, Speaker of the House G. F. (Gus) Mutscher will speak on "Operations of the Committee of 100".

Reuben Senterfitt, chairman of the WTCC State Affairs Committee, will preside at all business sessions. The afternoon session will handle the subject of taxation. Rep. Ben Atwell, chairman of the Taxation Committee in the House, will head the panel. Others on the taxation panel will be Rep. Forrest A. Harding of San Angelo, Rep. James E. Nugent of Kerrville, Senator W. E. (Pete) Snelson of Midland and Thomas M. Keel, executive director of the Legislative Budget Board.

Question and answer sessions will be conducted following each panel discussion, according to Senterfitt.

"Taxation appropriations and redistricting will be the three most important subjects handled by the Texas Legislature this session. Other items may get more publicity, but it is vital to the continuation of a healthy business climate that these three items receive priority attention," Wallace said.

"It is mandatory under the constitution that redistricting be handled during the regular session and surely this matter will be placed high on the priority list. West Texas may lose one or two representatives and pro-

bably one senator so it is imperative that careful consideration be given to maintaining good, qualified West Texans in representative and senatorial positions. The West Texas delegation must continue to func-

tion on a cooperative basis in order to protect West Texas interests or the large metropolitan areas of the East and South will fragment the efforts of the West Texas group."

Members of the legislature

and their wives have been invited to be guests of the WTCC during the two days and special arrangements have been made for special functions for the ladies attending, according to Wallace.

**CHRISTMACY BIRTHDAY**—Nell Miller, Deaf Smith County tax assessor-collector, was surprised on her birthday Sunday with this 6 foot Christmas tree given by employees and friends, Mmes. Jack Mitchell, John Schneider, Chuck Moore, Cecil Lady, James Cockran, Miss Laverne Kimbell and Vance Crume. The group flocked and decorated the tree themselves, using blue satin balls and blue lights. —Staff Photo

## Send Christmas Mail Early To Avoid Delay

DALLAS — William L. Crawford, director of the Dallas Post-Regional, has urged immediate mailing of all Christmas cards, parcels and other holiday mail as a safeguard in the event of a national railroad strike. Crawford, who directs the management operations of 2,133 post offices in Texas and Louisiana, said he had been advised today by Postmaster General Winton M. Blount to step up Christmas mailing.

"Early mailing of Christmas cards, letters and parcels," Crawford said, "will give customers added assurance of delivery in time for the holidays."

The nationwide announcement to accelerate Christmas mailing came from the Postmaster General in view of a pending nationwide rail strike that was scheduled to begin shortly after midnight Wednesday.

"During that period holiday mail customarily begins climbing to its peak," Crawford advised "and we want to help our customers get ahead of this situation if it should develop."

"We will utilize every alternative mode of transportation available," he said, "to move as much mail as possible. However, we would be remiss if we

did not strongly urge post customers to dispose of out-of-town Christmas cards and packages immediately to insure that the rail strike—if one occurs—does not prevent delivery by Christmas Day."

LORRAINE  
*Fly By Night*

## Give Her Lorraine Sleepwear

Anthony's chose this charming sleepwear of luxurious nylon tricot. Each truly a rhapsody of richness in carefree, never-cling to itself or any other fabric. It's the make-up of the fabric. Creations for any woman to love. Go-togethers in Midnight Blue, Rambling Rose, or Pink Lady. S, M, or L—Gowns and Robes. 32/40—Pajamas.

Floral applique accents the sweeping neckline, edging bound in gleaming satin. Gentle shirring, giving fullness to skirt before reaching tailored hemline.

Soft round collar, three-quarter length sleeves and pocket edged in gleaming satin. Collar and large pocket delicately decorated with floral appliques. Front buttons.

Glowing satin edging slashed hem trousers, sleeves, pocket. Satin again at neckline, jacket edge. Delicate floral motif accents the pocket for pretty feminine touch.

Three-quarter sleeves defined by shiny satin piping. Lovely scooped neckline accented by floral applique. Graceful flowing tricot for this favorite shift.

### Husband Of Former Resident To Get Master Of Divinity Degree

Harold Meacham

Harold Eugene Meacham, husband of the former Lavonne Thompson of Hereford, will receive the Master of Divinity Degree during the commencement exercises to be held in Truett Auditorium at Southwestern Baptist Theological Seminary, Dec. 18, 10:00 a. m.

Seminary President Robert E. Naylor will present degrees and diplomas to approximately 125 candidates from the seminary's three schools: theology, religious education and church music. H. Franklin Paschall, pastor, First Baptist Church, Nashville,

Tenn., will deliver the commencement address. Dr. Paschall is a former president of the Southern Baptist Convention. He has served churches in Kentucky and Tennessee.

A native of Hazel, Calloway County, Ky., Paschall holds the A. B. and Honorary D. D. degrees from Union University, Jackson, Tenn., and the B. D. and Th. D. degrees from Southern Seminary, Louisville, Ky.

Paschall has previously served as president, Kentucky Baptist State Board, member, Baptist Sunday School Board; and is a member and chairman of the Southern Baptist Committee on Boards.

BEAUTY SPOT SELECTION — St. Anthony's Catholic Church, at the corner of Highways 385 and Harrison, was selected as the monthly non-

residential beauty spot for November, by members of the Beautification Committee of the Women's Division of the Chamber of Commerce.

Come to Gaston's and see the many things that become gifts because you give them.

## He Shares His Belief

When Steve Spurrier was ten, he came home from school one day and said to his older brother, Graham: "Graham, our school nurse said the most important thing in the world is good health. But that's not right. The most important thing is to believe in God and Jesus Christ."

Steve Spurrier, the 1966 Heisman Trophy winner, now playing pro football with the San Francisco 49ers, has carried his simple faith all through his illustrious athletic career. Son of a Presbyterian minister, Steve prayed when he played at Science Hill High School in Johnson City, Tennessee. Not to win, but for courage and strength to do his best.

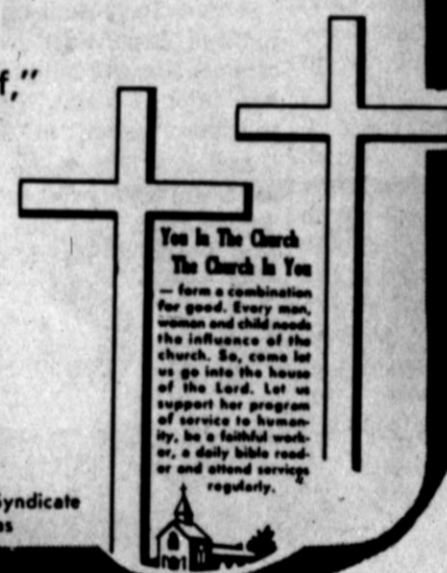

Secretary of the Fellowship of Christian Athletes on campus at the University of Florida, Steve believed and prayed when he led the "Gators to multiple "come from behind" victories over conference rivals and post-bowl opponents.

It's always too soon to quit, when you believe in your fellowman and yourself," says Steve in his book by that title. All American for two years and heralded as the nation's best quarterback in 1966, Steve Spurrier learned early in life that self control helps you play your best and never give up till the last gun goes off.

Now facing tougher tests in pro ball, Steve still passes, punts, and prays with the same basic belief in Christian ideals. "I can never be thankful enough for the Christian home into which I was born," he says. "I only hope that my own home will influence my children as much as my parents' home influenced me".

You too, can share the Steve Spurrier belief, if only you will, at your own place of worship this week.

**ASSIST IN HEALTH PROJECT** — Immunization of all children from one to 10 years of age against German measles is the goal of a campaign in which Young Homemakers of Texas and the Young Mothers Study Club are assisting. The vaccine will be given children of this county Dec. 8 in elementary schools and at 3 p.m. in the Public Health Clinic. The club women are securing registration of children for immunization. In this group, seated from left, are Mrs. Bud Thomas, president of Young Homemakers and also a member of Young Mothers Club, Mrs. Connie Urbanczyk and Mrs. John Bob Drake; standing, Mrs. Charles Weatherford, all of Young Homemakers.

## —Small Talk—

By SUE COLEMAN  
Women's Editor

It's been said in the past that the city's party season "officially" begins with the Country Club fall dance, when directors play host to members.

**THIS YEAR IT** wasn't the first party, coming as it did Friday night in the big middle of the holidays instead of early in the fall, but it lost nothing by its Christmas setting, which started outside the clubhouse with lights in the trees and around the roof line.

Directors' parties have a reputation for elaborate decoration, gourmet food and elegantly dressed women; they were all in evidence at the Christmas ball.

Poinsettias and red, red velvet bows were set in frosted pine boughs against the walls and in miniature version on the candlelighted, red-clothed tables. They studded glossy leaves of topiary trees at the entrance, borders of holly over windows and the big green tree.

They glowed against white covers of refreshment tables, where the food was part of the decor. There were even edible topiary trees, one of cherry tomatoes and the other of cauliflower bits, on either side of poinsettias in the center.

**AS FOR DRESSES**, they ran the gamut of our current permissive fashions — long, short, pants that looked like dresses and pants that looked like pants. As the receiving line formed, directors' wives offered a sampling of the many looks.

**Happiness!**  
There's a new way of thinking about money. Cash is the key to success. Make each dollar work four ways to find out how. Ask —

**CHARLES BELL**  
364-2343  
Southwestern Life

Wife of the club president who headed the line, blonde Dorothy Phillips voted for long, dramatic white on black in front panel effect, Long and white, Donna Smith's dress was beaded on the bodice and Mrs. Frank Barrett's was shot with gold threads.

Mrs. Dave Hopper was in white, too — a pant suit undecorated except for gold chain necklaces. Mary Gibson's suit was the opposite number, all black, with a black neckerchief.

**MRS. LEE KENT'S** long black dress was edged with silver down the slashed front and Mrs. Jeff Carille's was short, black and fluttery, with a sparkle of rhinestones at the waistline.

Perhaps the most striking was Barbara McCrary's sedate looking floor-length wine velvet, the skirt opening in front as she stepped to show pink satin pants. Mrs. Ed Line also wore crushed velvet, a pant suit in deep pink.

Mrs. Herman Ford chose a very simply cut short dress in sky blue, the material a luxurious brocade. Mrs. Virgil Marsh blended with the decor in Christmas red, a long gown with draped and sequined bodice. Another red dress was Mrs. W. C. Russell's, also floor length.

Mrs. Harold Close was dressed in deep blue, a long shirtwaist frock with a gold belt as an accent.

**DANCING WASN'T** the only entertainment at the party; a pianist played in the lounge and crowds gathered around all evening to sing old songs and new. That's a very old-time type of amusement, but it seems to be quite popular yet.

At Elvina Jorde's house the other evening, when she invited some friends for a holiday smorgasbord, guests moved

right in around the organ and sang far into the night.

The hostess demonstrated her versatility as she played popular songs, Irish ballads, barber-shop and musical comedy favorites and carols.

She had already shown her skill in another field with the delightful supper, most of it prepared by herself from recipes traditional in her Norwegian family. Her hearty hospitality and the congenial crowd made a most enjoyable holiday evening.

**OF COURSE SHE** had assistance in entertaining from her sons and their wives, Bud and Carmen, Keith and Joe Ellen.

Two of the guests are newcomers in Hereford, using that word "new" quite loosely. Gwen Selmeyer, who has lately moved from Carlsbad, N.M., is really back where she spent her schooldays. . . she is a sister of Elizabeth Witherspoon and Nell Spradley, and has a lot of friends here.

So does Ruth Budlong, who is Kathryn Benefield's sister and came to Hereford from Houston. Often a visitor, she is a welcome "settler" in the city.

And it's correct to describe as exotic another guest, Judy Tonkin from St. Croix, Virgin Island. She is the W. R. Thur-

## Project Is Part Of Season Here

Since 1957, when Project Christmas Card was organized here, the yearly fund campaign has become a familiar part of the holiday season and through the years has added equipment valued at some \$20,000 to Deaf Smith County Hospital.

Many area residents contribute to the project each December the amount of money that would be spent to send holiday greetings to local acquaintances. Through Project Christmas Card their greetings are conveyed instead in a page of the Hereford Brand's Christmas edition.

Contributions are received by all members of the Medical Au-

iliary, the wives of physicians and dentists here. Or the money may be placed in envelopes and deposited in decorated canisters in supermarkets, or it may be deposited in either of the Hereford banks, where accounts are open for the project.

Hospital equipment bought with project funds has been varied, one year homely and practical, a dishwasher and garbage disposal unit for the kitchen, another year much more sophisticated, a cardiac monitor and defibrillator and closed circuit TV.

The latter equipment was purchased for two rooms in 1963 and the gift was repeated in 1968. Last year Project Christ-

mas Card funds bought recovery room equipment.

Furniture for the children's wing was the first gift, furniture for the obstetrical floor in 1958 and an operating table and isolate for the nursery in 1959. The 1960 gift went to Hereford Community Center.

Later the project supplied an obstetrics table, infant respirator, cast table, doctors' in-hospital call system and dental surgery equipment. In addition a cash scholarship has been given each year to a student nurse.

The fastest American mammal, the pronghorn antelope, can cruise at 35 miles an hour and hit top speed of 50.

# Book Discusses Reading Programs

LUBBOCK — Two Texas Tech University educators, Dr. Berlie J. Fallon, associate dean of graduate studies of the College of Education, and Miss Dorothy Filgo, assistant professor of elementary education have compiled and edited a book researching the new practices in reading programs around the United States.

"Forty States Innovate to Improve School Reading Programs" is a catalogued discussion of 75 exemplary reading programs in actual use.

"THE PROGRAMS described are innovative in the sense that

each represented a new approach for the implementing school system," said Dr. Fallon. "Each school system reporting a reading practice was enthusiastic enough about the practice to be willing to subject to scrutiny by a great many other schools.

"Many of the practices involved a breaking of precedent — a diversion geared to the endless quest for better ways of teaching the most basic of the tool subjects. Any school system which finds one or more worthwhile ideas in the book, opens avenues for innovation within its own program."

The practices are organized within six sections: Readiness and Beginning Reading, Elementary Level, Junior High Level, High School Level, Special and Remedial and All-Level Practice.

THE TABLE of Descriptor Terms, a new innovation itself, provides a carefully catalogued glossary of terms used by the school systems reporting practices. It provides reference to many useful and novel ideas related to pupil motivation and other important facets of reading programs, said Prof. Filgo.

OTHER SOURCES of information are listed in the Appendix: a selected list of diagnostic instruments; machines, films and miscellaneous hardware; workbooks and kits; a selected list of professional books for teachers, and publishers and their addresses.

"The exemplary and innovative programs in the book are submitted to readers not as

models to be superimposed in other school systems, but to serve as stimulators to experimentation," said Dr. Fallon. Innovations covered include subjects such as mobile language labs, taped textbooks, individual approaches to reading, helping the disadvantaged reader, and listening skills.

THE BOOK was published in November of 1970 by Phi Delta Kappa, professional fraternity for men in education with over

80,000 international members. Dr. Fallon has published other books with the organization, "Educational Innovations in the United States" in 1966 and "Fifty States Innovate to Improve Their Schools" (an abstract of their programs) in 1967.

Just prior to coming to Tech Prof. Filgo taught at Posey Elementary School and was principal of Rush Elementary School in Lubbock. Fallon is widely known throughout Texas for his interest in education and is the author of several books and articles.

**ENTER COLLEGE PAGEANT** — Lucinda De La Cruz, left, and Jan Dean of Hereford participated recently in the Miss Wayland Baptist College beauty pageant in Plainview. Miss De La Cruz, a 1968 graduate of Hereford High School and the daughter of Mr. and Mrs. Jose De La Cruz of 714 S. Texas is a junior Spanish major and English minor. She represented the Wayland Pioneer basketball team, which she serves as sweetheart. Miss Dean, daughter of Mr. and Mrs. M. E. Dean, 226 Aspen, graduated from Hereford High School in 1967 and is a junior business major at Wayland. She represented the junior class in the pageant.

## Odom Is Triple Threat For Tech

LUBBOCK — The term triple-threat usually refers to running, passing and kicking; but Texas Tech will spring a different kind of triple-threat against the Georgia Tech Yellow Jacket in the Sun Bowl Dec. 19.

The talented Techsman is Johnny Odom, a junior from Fort Worth, who could be lining up at no less than three different positions for the Red Raiders — tight end, split end and flanker.

Odom led Coach Jim Carlen's eleven in receiving with 26 receptions for 331 yards and four touchdowns. He also serves as the punter for the Raiders, averaging 37.6 on 59 kicks during the regular 1970 season.

The 6-1, 185-pounder led the team in receptions in 1969 with 23 for 326 yards and four touchdowns. He was moved from

split end to tight end by Carlen during spring training.

"I was kind of stunned at first when they told me about the switch," Odom said. "I thought tight ends were supposed to be big and strong and able to knock a defensive tackle into the stands. With our new offense though, the block depends on quickness and timing and not brute strength."

Carlen and his offensive end coach Marshall Taylor have nothing but praise for Odom.

"Johnny is just a complete receiver," Taylor said. "He has size, speed, quickness, good hands and is a threat to go all the way on the deep routes because of his running ability after he makes the catch."

MONDAY THRU SATURDAY

There is still much speculation as to how much cotton will be planted on the Plains under the new farm program. And it is proving difficult to make meaningful calculations pending issuance of final details on how the program will be administered from Washington.

As of this writing the level of the loan, the amount of required set-aside for the three major commodities, permissible uses of set-aside acres and other regulations are yet to be announced. All of these factors will have a significant effect on producer planting decisions, and anything approaching an accurate estimate for the High Plains as a whole will have to wait.

Meanwhile it is interesting to note that Walter Wells, manager of the Lubbock County ASCS office and most knowledgeable of farming and farmers in this area, has said Lubbock County in 1971 could well plant 275,000 acres to cotton. That would be an increase of around 25 percent of this year's 220,000 planted acres.

AND, ACCORDING to Wells, it is the consensus of the Lubbock County ASCS Committee that county farmers might put 300,000 acres in cotton, a jump of 35 percent from this year.

There is a lesson for all of agriculture, and for cotton in particular, in a paper prepared by Agricultural Economics Professor Dr. Leo Polopolus of the University of Florida.

The professor calls attention to the fact that cotton is only one of many agricultural products beset by competition from synthetics, substitutes and imitations. Such products as Tang, Awake and other "drinks" containing no fruit solids have made serious inroads in market for citrus juices.

Dairy products are a classic example and one of the first to be hard hit by substitutes. Oil seed products are competing with synthetic protein substitutes in livestock feeding rations, and synthetic meats are now taking their first shots at markets for beef, pork and poultry products.

THE FOOD and fiber traditionally supplied for the nation by agriculture can now be de-

The Deaf Smith County Chamber of Commerce won accreditation on Feb. 23, 1968, from the U. S. Chamber of Commerce. It is one of only a few in Texas and the only chamber in the Panhandle with accreditation.

Like modern hippies, the early Greeks considered it more dignified to go without shoes.

Later, however, they became interested in footwear. Leather was cut to fit patterns and fashions were named after the distinguished persons who originated them.

activities of the Florida Department of Citrus as an example of what can be done to "countervail" the competition from synthetic substitutes.

Supported by per-box taxes levied in Florida on citrus entering the market, the FDC has made an impressive start toward winning consumer support by improving existing products, introducing new products and providing package and serving conveniences. In 1969-70 the Florida citrus industry put \$16.5 million into advertising, research, regulatory work and administrative functions.

THE RESULT has been a steady increase since 1966 of consumer dollar expenditures for frozen concentrated orange juice (some 78 percent of all Florida oranges go into this product). Consumer expenditures for a frozen concentrated orange juice rose from \$4.4 million per week in 196 to \$7.3 million per week in the first 15 weeks of the 1969-70 season — a record level.

The professor concludes "It is evident that the increase in demand, too large to be attributed solely to per capita income and population growth, has resulted from promotion, research and product development. And there is much evidence that such programs can be similarly effective in other industries"

Dr. Polopolus recommends 10 avenues by which agriculture can meet the increased competition. Seven of the 10 are applicable to the cotton industry and in fact are to some degree being followed by the Cotton Producers Institute's dollar-a-bale program. The seven points:

1. Regularly monitor consumer attitudes and awareness of natural and substitute products.
2. Develop data on prices,

quantities consumed, percent of families buying, and demographic characteristics of both traditional and imitation products.

3. Alter existing products in light of market and consumer research.
4. Develop new products that satisfy consumer needs and fill marketing voids.
5. Unify industry objectives and policies relating to imitation products.
6. Develop or improve the organizational structure of the agricultural industry.
7. Generate sufficient promotional and research dollars on a

continuing basis to deal with the problem realistically.

THE PROBLEMS that cotton faces with synthetic competition are not greatly different from those successfully met by the Florida citrus industry. And, there is every reason to believe the cotton industry, too, can solve some of its problems and improve its position in the marketplace.

The key for cotton perhaps lies in the seventh point made by Dr. Polopolus — adequate funding on a continuing basis. And the dollar-a-bale program, supplemented by the \$10 million

per year market development fund provided for in the new farm program, should be sufficient to put cotton back on the road to greater prominence in the world of textile fibers.

As Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc. puts it "Cotton is not licked yet."

# Texas Tech Plans Course In Mexican, Negro Cultures

LUBBOCK — Texas Tech University's College of Arts and Sciences has announced a new 18-hour minor in ethnic studies available to undergraduate students starting with the 1971

spring semester.

Dr. Alwyn Barr of the history faculty was named director to advise students and conduct routine affairs of the program. Working with him will be a committee of two other faculty members and two students.

PROF. BARR is chairman of this committee. Other members are Sociology Prof. Charles Chandler, English Prof. J. Richard Crider and students Billy Aguero and Ria Blount.

The emphasis in the new program, Barr said, is on Mexican American and Negro minorities although American Indian culture and experiences are included.

"We have chosen the emphasis to reflect the area in which we live," he said.

Recommendation for the program was made by a study committee appointed to "make what program, if any, the College of Arts and Sciences

should offer in ethnic studies." Barr also headed this committee.

BARR SAID the committee believes "a minor in ethnic studies will be attractive to students preparing for certain types of social work, government service, legal practice and teaching careers.

Departments participating in the program are sociology and anthropology, history, economics, English, food and nutri-

tion, and women's health, recreation and physical education.

All students enrolled in the program as a minor field will be required to take two courses — cultural anthropology and American minority problems. The remainder of the 18 hours will be chosen from a group of 11 courses to be offered next spring.

"We are hopeful," Barr said, "that this will be an expanding program with participation

by an increasing number of departments."

HE POINTED out that the committee first named to study the question and propose a program had representation from history, sociology and anthropology, English, art and music.

"This program will increase student understanding of the nature and development of race relations," Barr said. "It should stimulate a sense of dignity for

minority students and expand all students' knowledge of practical problem-solving in this highly sensitive area of American life."

He said the program was designed to complement curriculum in several disciplines and "of course does not relieve faculty of the understood obligation to include appropriate information about ethnic groups in broader courses."

HE SAID the study committees consulted individual students, student groups and departmental representatives to determine what courses would

be appropriate to an ethnic studies minor.

The study committee, Barr said, met regularly for several months before making its recommendation.

Any who want to enroll in coursework leading to the minor in ethnic studies should consult with Barr prior to registration beginning Jan. 13.

## Research Center Increases Yield On Sorghum

By more efficient management of sloping land, scientists at the High Plains Research Foundation produced more grain sorghum with less water while reducing erosion due to runoff.

Grain sorghum grown on a parallel bench leveled slope produced 50 pounds more grain with 18.9 inches less water than grain sorghum grown on a contoured slope in 1970.

Asgrow Jumbo L grain sorghum was planted May 24 with a three-inch planting spacing. Both bench-leveled and contoured sloping areas were planted with two rows 16 inches apart per 40-inch bed using a double-disk opener planter.

Nitrogen as anhydrous ammonia was chiseled in at the rate of 180 pounds per acre and 1.5 pounds of propazine for weed control were applied following planting. All cultural practices, except amount of irrigation, were alike on the bench leveled and contoured sloping areas.

The bench-leveled area required only 28.3 inches of irrigation water, 18.9 inches less than on contoured land, to produce 5,194 pounds of grain sorghum per acre, 60 pounds more than contoured slope.

This reduction in the amount of water applied is highly significant when considering water efficiency and water costs, an official at the research center said. "Irrigation efficiency was increased from 106.9 to 123.5 pounds of grain per inch of water by bench leveling."

Figuring the dollar value of the savings in irrigation costs and increased yield, Jim Vallant, Agricultural Engineer, said the study showed farmers could have made \$21.22 per acre more under parallel practices.

A three-year average of the two land management practices showed bench-leveled areas producing 88 pounds more grain per acre on 11.3 inches less water, returning \$13.94 per acre more than contoured slopes planted in grain sorghum.

"This saving of water while increasing yields is extremely important when considering our diminishing underground water supply," the official said.

**NO MORE SLEEPERS**  
CARBONDALE, Ill. — The Pullman cars or the Illinois Central's Panama Limited from Chicago to New Orleans are now a mere memory.

Vernon Paul, IC district passenger agent in Carbondale said the sleeping car service will be replaced by coach cars.

Geologists say the Earth's hard crust is relatively as thin as the skin on a large apple, only about 30 miles thick through the continents and dwindling to three miles beneath mid-ocean. The crust floats on the hot, semi-plastic bedrock interior.

On Nov. 12, observers across the United States saw Mars, Jupiter and Uranus just north of the waning crescent moon.

Mrs. Jack Wilcox checks recipe from old cookbook

LET'S COOK SOMETHING

## Quaint Recipe Is Used For Church Sale Cake

By SUE COLEMAN  
Women's Editor

Bible cake, made from a recipe in a cookbook compiled more than a decade ago by women of St. Thomas Episcopal Church, will be one of the items on sale at the Christmas bake sale that organization will conduct Saturday in the church's parish hall.

MRS. J. W. KIRBY supplied the recipe, with Bible references to give the names of its ingredients, as an unusual feature in the cookbook titled Panhandle Recipes, which was sold as a fund-raising project of the Episcopal women.

This year's president, Mrs. Jack Wilcox, will make the cake to be featured in the bake sale, scheduled from 10 a.m. to 5 p.m. Saturday. It will be one of numerous cakes to be on sale along with cookies, candies, plain and fancy breads and frozen casserole dishes, all planned for holiday menus.

For others who would like to try it, here is Mrs. Kirby's recipe:

**BIBLE CAKE**

- 4 1/2 cups I Kings 4:22
  - 1 cup Judges 5:25, last clause
  - 2 cups Jeremiah 6:20
  - 2 cups I Samuel 30:12
  - 2 cups Nahum 3:12
  - 2 tsp. I Samuel 14:25
  - 6 of Jeremiah 17:11
  - 1/2 cup Judges 4:19, last clause
  - 2 tsp. Amos 4:5
- Season to taste with II Chron. 9:9

AS IN MOST old-fashioned recipes, there are no directions for mixing the cake but anyone who makes cakes will know how that is done.

Of course the trick is to look up the Bible references to discover the ingredients, but the old cookbook gave explanatory words and since different versions of the Old Testament use different words in some cases, the translation is needed.

Here are the ingredients in the order they are listed above: Flour, butter, sugar, raisins, figs, honey, eggs, milk, leaven (baking powder) and spices.

Recipes for other items in the bake sale will be available Saturday, to be sold from a recipe

tree. A door prize will be given, simply for registration — there is no admission charge, of course.

Not only the quaint Bible Cake recipe, but many others from the good cooks of Hereford are included in the old recipe book, which makes interesting reading if only to check the names of those contributing recipes.

It carries advertisements of Hereford business houses with many familiar names but also many for firms which have been sold, changed names or gone out of business since the book was published.

Some not now listed among local businesses are Thomas Food, McCullough Motors, Sears Grain, Easley Service Station, Hereford News Stand, Wonderland Childrens Shop, C. R. Smith & Son Real Estate, Earl Hendricks Buick, Halle Drug, Lamm Jewelry, Corbett Cleaning and Kinsey Motors.

Some authorities say the dolphin has a beak, the porpoise a blunter nose. In the United States most people, including biologists, call all these members of the whale order porpoises.

### At The Library

## Murder Investigation Bizarre

Famous inventor Albert Hull's body was found sprawled in the middle of a country road with no sign of violence. When dozens of lifeless animals were found near the same road with no violence shown them, the plot thickens. Check this novel out at Deaf Smith County Library this week and discover the reasons for these mysterious deaths.

**A SCREAM OF MURDER**  
By Gordon Ashe

The bulletin attached to the photograph read: If this man is seen and identified beyond reasonable doubt, he should be held and Deputy Commissioner Dawlish should be informed immediately at New Scotland Yard.

The order was signed by the Home Secretary, the only person with complete authority over all the police forces in Britain.

That meant that finding the famous inventor Albert Hull was top priority, and when his body was found sprawled in the middle of a country road, Patrick Dawlish began an investigation of what would prove to be one of the most dangerous and bizarre cases he had ever encountered in his long career as a law-enforcement officer.

First there was the question of Hull's death. He had been running along the road one moment and was struck down the next, dead by some force that left his body completely unmarked.

And then there was the mystery behind the 350-year-old Branford Manor close by, a once grand estate that was forced to rent many of its outbuildings to a communal group of hippies—or at least so they appeared.

And who could explain the sudden and instantaneous death one morning of dozens of cattle, birds, and countryside animals in the fields surrounding the manor property?

With all the deft skill that has made him one of the world's outstanding mystery novelists, John Creasey—as Gordon Ashe—, spins another fascinating and wholly satisfying suspense story that is well calculated to please his many fans.

**GREEK WEDDING**

By Jane Aiken Hodge  
Romance had been the last thing in Phyllida Vannik's mind when she began her journey across the Atlantic to the shores of Greece in search of

her younger brother. But amidst the bloody revolution that swept across that troubled land, she found herself torn by her love for the two men to whom she owed so much.

Set in the beginning of the nineteenth century when the Greeks made their desperate bid for freedom from the Turks, this is an exciting tale of powerful personalities in conflict and a deeply moving drama of love and pride—and treachery—revealed against the vivid background of smoldering villages and steep mountain trails overlooking the blue Aegean.

"Liquid sunshine" keeps residents refreshed and cool on Dominica Island in the West Indies, the National Geographic says. The unusual rainfall is such a fine mist that it can only be seen when backlit by the sun. Gently drifting from a cloudless sky, it gives a sensation more of coolness than of wetness.

# Saturday First Day For Plains' Pheasant Hunters

**SEASON NEARS** — Shown here is a Chinese Ring Neck pheasant, common in this area, which will be the target of hunters when pheasant season opens Saturday.

Hereford, along with the rest of the High Plains cities, is readying itself for the onslaught of hunter Saturday when pheasant season officially opens in this area.

"With these people coming in it is going to mean more money in Hereford. It will not only be spent in the stores, motels, and service stations, but the landowners in the county will benefit from the hunting rights on their land," said Dan Herrington, of the Soil Conservation Service here.

Pheasant hunting on the High Plains of Texas is a fairly recent sport for hunters. The sport is on an increase and it will need to have help from the landowners in this area to make it one of the biggest sports around, Herrington said.

He said because so great a percentage of our land has been fenced and plowed, the farms and ranches comprise the county's pheasant habitat and by the same token, the farmer is the principle game manager.

"Some of the common soil and water conservation practices are beneficial to the pheasant population," Herrington said, "by providing food and cover and general improvement in their habitat."

Strip cropping attracts about twice as many pheasants as undivided fields. Strip cropping is where strips of tilled crops are alternated with strips of grass and legume crops.

Sloping ends of contoured and strip cropped fields can be seeded to grasses and legumes and this provides undisturbed nesting cover for the pheasants when not mowed until after small-grain harvest.

Stubble mulches and crop residues, conserved by farmers, furnish the food and cover for the birds.

These features, coupled with windbreaks, add to the security of the pheasants. Windbreaks prevent soil from blowing, protect buildings and provide winter food and shelter for pheasants.

"Field borders are an ideal way to improve the habitat of pheasants," Herrington said "They can be planted in grass or legume crop and left standing until after the nesting season."

Odd areas on farms and ranches are ideal places for the farmer or rancher to manage for the pheasant, he said, and these areas should be protected from grazing and from fire. Trees and shrubs can be planted in these areas for food and protection.

"The success of the pheasants on the High Plains of Texas not only depends on the farmer and rancher, but the hunters as well. The game needs to be harvested by the hunter to survive," he said. "The hunter also needs to stay within by the bag limit and regulations set by the Wildlife Department officials."

More information about management of the pheasants can be obtained from the local SCS office or from Chuck Cosper of the Parks and Wildlife Department.

## FEEDING T-E LIQUID FEED IS SO EASY IT COULD SPOIL YOU

When you get out of bed in the morning, your supplement feeding chores may already be done for days to come—if you're feeding T-E Liquid Feed Supplement.

Because one refill of the free-choice range feeders will take care of your herd for about ten days, using a T-E feeder for every 75 to 100 head. All you have to do is make the rounds, once every ten days, stopping at each feeder long enough to watch it fill up.

T-E Liquid Feed Supplement cuts out most of the time, labor and equipment connected with dry supplements... saves you money.

The proof of T-E Liquid Feed Supplement is in the extra quality your animals will show—extra energy, extra good health, extra gain. And that means extra profits from your range feeding program.

T-E Liquid Feed Supplement along with adequate roughage, minerals and water, is the easy way to be sure your animals are getting the protein, phosphorus, vitamins and trace minerals they need for energy and growth.

Of course, you do have to get out of bed—at least every ten days. Otherwise it could spoil you.

**T-E LIQUID FEED SUPPLEMENT IS MADE FROM A PATENTED FORMULA**

The basic ingredients of T-E Liquid Feed Supplement are urea, phosphoric acid, molasses, vitamins A, D and E and trace minerals. The urea is chemically inhibited (by the patented formulation with phosphoric acid and molasses) to control the release of nitrogen and pace its conversion into protein for more efficient use by the animal.

**LIQUID FEED SUPPLEMENT**

## Sugar Program Makes Profit For Government

**COLORADO SPRINGS** — The United States sugar program is an agricultural program that is not only works but it makes a profit for our government, President John B. Bunker of Holly Sugar Corporation said last week.

Speaking before the 5th annual

Economics and Agricultural Institute sponsored by the Moorhead, Minn. Chamber of Commerce Bunker said the American consumer, sugar producers and refiners, the government and the taxpayer.

"The sugar program is self-supporting and doesn't cost

the taxpayer one cent. In fact, to date the program has paid into the U. S. Treasury more than 611 million dollars over what the program costs to administer," Bunker pointed out. Bunker also called for a joint sugarbeet grower-sugar industry program to assure continuation of sugar legislation which expires in 1971.

All sugar production and marketing in the United States has been governed for the past 36 years by Congressional legislation known as The Sugar Act of 1948 as amended.

The Act assures that the nation's sugar needs will be met at stable prices which will be fair to both consumer and producer.

Bunker pointed out that most countries have laws similar to our Sugar Act which regulate production of and trade in sugar.

"The time is now for growers and processors to get together to explain the advantages of the present sugar control system to consumers and to the government," Bunker said.

He said that this explanation should stress the fact that not only is the Act beneficial to our balance of payments but that the sugar program is self-supporting and doesn't cost the taxpayer a cent.

Bunker criticized proponents

of the cheap price of "world sugar" which he explained was homeless sugar that has been dumped in search of a buyer. He said that in the "world" market is only about 10 percent of the world's supply.

"When international tensions rise or when supplies fall, prices soar above the American price. About six or seven years ago when sugar production in the world fell, prices on the so-called 'world market' increased seven times.

"Although we felt some effect of this on our own markets, even this crisis had fewer repercussions here than elsewhere, thanks to the mechanism provided by the Sugar Act," Bunker said.

He pointed out that in efficiency, the United States paces the world in sugar production in output per acre and output per man hour of labor.

He said that American farmers have advanced more in the last 30 years than have all the farmers in all the history of recorded time.

## Guests Invited To Flower Show

Froczing weather early this fall forced a postponement of Hereford Garden Club's annual autumn flower show, so an unusual winter show will be staged instead. It is scheduled at 2:30 p. m. Saturday in the R. L. Ethridge home, 400 Western.

Members are inviting guests for the placement show which has as its theme, Everone Loves Christmas. Bud to Blossom Garden Club members have all been invited.

Mrs. Ray Johnson is general show chairman and the schedule was prepared by Mmes. O. G. Hill Sr., L. W. Norell and Ethridge. Mrs. Norvell is club president.

Mrs. R. L. Layman and Mrs. Ben Childers are on the committee for clerks and awards; Mrs. John N. Jacobsen Jr. heads the committee on judges; Mrs. W. C. Hromas and Mrs. Layman are in charge of staging.

Both artistic and horticulture divisions will be a part of the show; educational and conserv-

ation displays are planned also.

Horticultural entries will include evergreens, processed plant material and potted plants.

Subjects of the artistic entries conform to the Christmas theme and include Cheery Welcome, Christmas Reflections, Deck the Halls and Warmth of Christmas.

The winter resort of Alta, Utah received what was called a "chocolate snowfall" in 1955. Surprised vacationists saw tan and light brown crystals, colored by alkali, cover the mountain-side.

On the Italian island Sardinia sheep and goats outnumber people two to one, reflecting the deeply embedded agricultural economy. The perky Sardinian burro, hardly bigger than a goat, still provides inter-village transportation.

Agricultural authorities estimate that up to \$100 million in crops may be lost to birds in the United States each year. The Federal Aviation Authority also notes that collisions between birds and planes cost about \$10 million annually.

## People who cook with pride cook with GAS. Mrs. S. M. Smith does.

Some of the world's best cooks are found in the kitchens of America, and they give themselves every cooking advantage, like gas range cooking. Good cooks like Mrs. Smith and nine out of 10 professional cooks agree that precise temperature control makes the difference in good cooking, and with gas you get exactly that. Gas also gives immediate response and constant temperature, so important in oven cooking.

So, give yourself every advantage and cook with gas. Remember, people who cook with pride cook with gas.

Here's one of Mrs. Smith's favorite recipes.

**PIONEER NATURAL GAS COMPANY**

### RICE WITH QUAIL OR DOVE CASSEROLE

Mrs. S. M. Smith, 1300 Runnels, Big Spring

- 5 cups cooked rice (as directed on package)
- 4 sticks celery diced
- 4 diced pimentos
- 2 cans mushroom soup (undiluted)
- 1 small onion—grated
- 1 cup grated cheese
- 1 green pepper cut very fine
- 4 or 5 cups cooked quail or dove (cut in cubes)

Place 6 or 7 birds in a baking pan. Cover with water, add 2 sticks of butter, salt, pepper, 1 bay leaf, a sprinkle of rosemary. Cover. Place in oven and bake at 350 degrees for about an hour and a half or until tender. Cool and cube. Place in buttered casserole—rice, quail, pepper, onion, and pimento. Pour two cans of undiluted mushroom soup over mixture. Top with grated cheese. Cook in uncovered dish for about 45 minutes at 300 degrees. Serves 12 people. (chicken or turkey may be used)
