

Hereford On The Move

Hereford---As A Newcomer Sees It

(Editor's Note: This is the third in a series of articles dealing with the continuing growth of Hereford. This article is based on the feelings and impressions of a newcomer to Hereford.)

BY GRANT MABRY
Staff Writer

What do I think of Hereford— I love it.

During my last six weeks as a new citizen in Hereford, I have been asked what I thought of Hereford. From the start, this impressed me by the fact that the people of Hereford were really concerned as to what a newcomer thought of their town. It was not just a scattered few who asked how I liked it, either. Along with each in-

duction I received the same concern.

Along with the concern came a voice of pride that I had never seen in any town. That was, "I know you will like it." Not, "I hope you will like it," but, "I know you will like it."

I never had the chance to wonder why the people of Hereford had so much pride in their town, because by the middle of my first morning, I had already gained pride in "my town" of Hereford.

I have never been exposed to a town with such drive and pride. I was amazed at the fact that when one project was finished, the first reaction was to start on another.

When I came to Hereford in

late May to interview for my present position with THE BRAND, I had no intentions of even considering Hereford as my choice of jobs after I got out of school in Denton. The main reason—I had never been here. I pulled into town and met

Speedy Nieman, publisher of THE BRAND he began showing me the town and speaking of its past achievements and future goals. Within an hour, I had no doubts about the fact that Hereford was for me, and I was ashamed at the fact that an hour before I thought I would be leaving without considering it.

As I left Hereford to return to Denton, an excitement welled inside of me. I was ready to start living in Hereford right

then, and by that time the next week I had returned for good.

Yet, the excitement I had felt on my first visit was minor compared to the excitement I felt during the first day as an actual resident, and the excitement I feel everyday.

As a reporter, I am sure that I have a greater opportunity of being where the action is. And each door that I have passed through to talk with community leaders has been a welcome one, with no secrets and a whole lot of pride and drive. At the same time, I feel that any newcomer would be treated the same as I have been, because the people of Hereford are "community salesmen," and they know that they have a

great product to sell.

My friends in other towns seem to wonder why I have so much praise for Hereford, and my answer to them is to come and see for themselves.

I cannot remember a time that I have not been happy during these past six weeks. The whole town is like a giant family, with all relations being first-name relations, and sincere relations.

When I started writing this series on the growth of Hereford, I wondered too, if the growth had come to an end. After talking with most of the authorities on Hereford's growth, history and potential, my answer was as plain as it could be, and for the first time I

realized that the main reason that I was so much in love with this town was the fact that it was alive and growing. Nowhere could I find "any bounds limiting its growth. Every day I see growth, as I drive downtown and see the sidewalks alive with people, as I drive through the residential areas and see new houses going up and being moved into.

Sitting in on meetings of the different industries, all that I hear are plans for growth and expansion. I have heard future plans for new industries that cannot be released right now.

Waiting in the new chamber of commerce building last week I picked up a pamphlet listing the assets of Hereford, that

literature by itself is testimony that Hereford is progressive. I may be biased when I say that Hereford is the most progressive town in the world, but I would venture to bet that my statement is true.

A natural growth that can not be measured will and is being realized right now, yet Hereford will not have to depend on the natural growth as its only growth. Hereford's growth was not accidental. The source for its growth was the promotion-minded people who live here.

I am sure that a lot of people said, during the depression, that Hereford would die as they looked upon the ruined and bare fields. Yet, Hereford took advantage of its promotional

power and natural resources to build one of the nation's agricultural capitals out of miles of sand dunes.

One reason, I think, that Hereford stays progressive is that most of its people are amazed when they come and this amazement never stops, and acts as a driving force for them to get involved in promoting the town.

One of the many things that caught my interest as a newcomer was Hereford's history. By talking to some of the people who have been here for awhile, I have been able to see Hereford from the start to now, yet from the 1940's it has been more of a blur of speed in my mind's eye. The growth that is now in progress got started in the 40's and has not stopped yet.

Speaking with some people who ask what I think of Hereford, I say that it is small enough to make me feel like I'm a country boy, and at the same time it is large enough with all the stores and the mall to make my wife feel like she is in the

Some politicians have trouble deciding whether they were born in a log cabin or a manger.

Groucho Marx knows how to absolutely prevent all these ski-jackings. As they board the plane, each passenger is given two parachutes and \$500,000 in small, unmarked bills.

Jim Tucker, local KPAN man, was real happy about the record cool weather on July 4. He recalled that boss Clint Formby told him it would be "a cold day in July when I give you a raise!" He now feels sure that raise is coming.

THE BRAND went to press Saturday evening before the Miss Texas Pageant results were known, but we were hoping to see Hereford's Sherry White among the semifinalists on television Saturday night.

We talked with her father, Raymond, in Fort Worth Saturday morning and he reported that Sherry was well received when she performed her talent Friday night. The 65 girls in the pageant are divided into three groups for presentation in the swimsuit, formal and talent divisions. Sherry appeared in the swim suit parade Wednesday night and was judged in the evening gown division Thursday night.

"She is having a wonderful time and meeting a lot of nice people," White reported. Sherry was surprised and pleased with the many flowers, well wishes and encouragement received. A huge telegram from Hereford was due to be presented to Sherry Saturday afternoon, after being originated by her sponsor—the Women's Division of Deaf Smith Chamber of Commerce.

Good news was contained in Sen. John Tower's newsletter this week for small businessmen and farmers. It concerned the oppressive administration interpretations of the Occupational Safety and Health Act. The House put an amendment on the bill to limit enforcement to employers of 25 or less. This was changed to 15 in the Senate, so the only question now is whether it will be the 15 or 25, or somewhere in between.

As Tower points out, the Act is important to many employees but its value lies primarily with big business and industry. The main difficulty had been that the Labor Department had considered the corner grocery store and General Motors the same.

In recent years there have been a lot of laws aimed at protecting the consumer and the employee. Although most of (See "Branding" Page 2)

FRENCH PILOT AND PLANE—Andre Perruchet, pilot of the French plane seized at the Hereford airport Thursday was in good humor during the customs check. He liked Hereford and American cigarettes. The plane will be held at the airport

until it is cleared by Washington officials. After the search of the plane and questioning of the four Frenchmen, the Four were given a tour of Hereford to help pass the time, while they waited to fly to Tucson, Ariz.

Airport Sees Action

French Plane Grounded

A lone DC-3 bound for Tucson, Ariz., from France landed at Hereford Municipal Airport Thursday evening and the action began.

The craft had failed to clear customs from Canada into the U.S. and the plane and the four French citizens aboard were famous people with the U.S. Customs officials by the time they were located here.

Landing at the airport at around 6 p.m. the plane was detained by the local Sheriff's Department until 1 p.m. Friday when customs agents arrived to search the plane and question the men.

A broken oil line was the reason for the unscheduled stop in Hereford for the Frenchmen, yet this was not their first encounter with mechanical problems. When the group left France, they had two DC-3's. In Greenland they lost an engine on one of the planes and had to leave it there.

The pilot of the plane was a French citizen who spoke "very little French" along with three other

languages. Miss Barbara Mitchell, Hereford French teacher, was called to assist in interpreting what was being said, but finally a neutral language was found in Spanish which the pilot spoke better than French, since no one at the airport could speak Arab, his natural tongue.

Two customs agents from Lubbock arrived at the airport Friday afternoon and searched the plane. The plane and pilots proved to be clean. However, the plane will be held until it is officially cleared by Washington.

After the search of the plane and questioning, the four Frenchmen were taken on a tour of Hereford and fed. They were impressed with the cattle feeding industry, and one asked how he might obtain citizenship.

From all indications, it is believed by the customs official that the whole situation was an honest mistake, due to different laws in different countries concerning entry.

BEEF COMMITTEE VISITS HEREFORD

Southwest Hosts Cattle Owners

Four planes flew into Hereford Thursday carrying the owners of 135 cattle being fed at Southwest Feed Yards Inc.

The men are members of a Navarro County beef production committee looking into the potentialities of beef production as a whole for their county, and others as well. The cattle were placed in Southwest on the last day of March, and the main purpose of the visit by the owners was to ask questions of Charles Hoover, Southwest manager, concerning the different aspects of the feeding and performance of the cattle. The next step of the experiment will be to sell the cattle.

Developing and utilizing flexible marketing alternatives for increased profits is the goal of Navarro County beef cattle producers presently participating in the vertically integrated marketing demonstration.

Exploration of marketing flexibility by Navarro County producers was initiated in the summer of 1971 when Forrest Green, chairman of the County Beef Committee, in cooperation with the Texas Agricultural Extension Service, appointed a Marketing Sub-committee for the developmental study. Paul Bennett of Corsicana was appointed chairman of the sub-committee consisting of eight individual producer operators.

A preliminary study of stocker and feeder phases of the beef industry was undertaken by the sub-committee and included numerous meetings and consultations with personnel of the feedlot and packing divisions.

After initial groundwork had been laid by the producers and a general knowledge of all phases of the beef industry had been reviewed, the producers went to work. The eight cattlemen realized a tremendous potential in securing additional profits for their improved genetic breeding and sound management practices utilized on the production level.

In order to take the next step in achieving their goal, the

producers elected to process a group of calves through the various phases of growth, including weaning, stocker and feeder, and sell their animals directly to the packer. Certain criteria were placed on this (See "Cattle", P. 2)

Kings Manor Auxiliary Improves Quality Of Life

(This is the first of a series of stories concerning community service agencies which depend in some degree on the help of volunteers who give either work or financial support, or both.)

BY SUE COLEMAN
Brand Staff Writer

"Any number can help," Mrs. Bill Davis says of opportunities for volunteer service in Kings Manor Auxiliary, which expresses its aim as "improving the quality of life" for residents of Kings Manor Retirement Home here.

As president Mrs. Davis coordinates the work of committees which conduct arts and crafts classes, supply transportation for shopping trips, arrange social events, buy equipment for living and dining rooms where residents gather, and most of all, offer friendship in visits.

A constant need is for groups to give programs or any type of entertainment, in the afternoons at Westgate and evenings at the Manor proper. Variety is the keynote for these programs, Mrs. Davis says.

"Since Kings Manor is a church-related home, people seem to believe only religious programs are wanted, but these people like all kinds. A musical group with guitars and mod songs was one of the most popular visitors of recent weeks."

With this diversity in Auxiliary services, almost anyone of any age can find an opportunity to help, giving any amount of time, the president points out.

"And we do not bar men from membership; in fact we enrolled the first male member this year," she adds.

"More men would be helpful since there are men as well as women among the Manor residents; and they would appreciate having men visit and maybe join them in games of 42 or cards. Most of the men residents have owned or operated farms and especially enjoy talk about farming."

In its third year, the Auxiliary still does most of its work at Westgate, the Manor's hospital unit, because needs there are greater and there is not sufficient manpower to include the Manor proper where residents are more able to plan for their own leisure activities.

Volunteers receive training in an orientation period before they are fully accepted, so lack of experience is no bar to membership, Mrs. Davis emphasizes. An orientation class is formed whenever there are several to train.

Chairmen of the various service committees meet, the orientation classes and explain duties of each group so the workers are informed before making a choice.

Pointers in dealing with the elderly are discussed, and the

new workers are accompanied by those more experienced for introduction to the patients.

Recent expansion at Westgate has brought the number of residents to 79, and the Auxiliary needs to grow to be able to give individual attention for the growing number.

Hope of starting a special section which would include teenagers is held by Auxiliary officers, since young visitors are always welcomed and many of the residents do not have young members of their families here.

In fact, many have no relatives at all near enough to visit often; Auxiliary visitors try to give extra attention to these. With more volunteers they could extend their work to give time to such lonely ones at the Manor as well as in Westgate.

Visiting is done by the resident aid committee, headed by Mrs. Earl Harkins. She lists as other services, writing letters for the patients or reading to them, doing small errands, taking patients in wheelchairs out to the new garden area or on short walks around the grounds.

"But mostly," she echoes the words of Mrs. Davis, "it is just visiting them—getting to know them and their needs. They enjoy simply having someone to talk with."

After spending many hours past her initial hundred-hour mark as a volunteer, Mrs. Harkins says, "It is really the most rewarding work! We get as much from it, or more than, the patients. Some days I think I can't go to Westgate; there just isn't time; but after I get there I'm always glad I came."

Mrs. Wes Fisher is chairman of the social activities committee which arranges for groups to give monthly birthday parties at Westgate and programs at both units. Friday hymn sings with Mrs. Wayne

Thomas, as pianist and third Wednesday showings of films by Virgil Dodson, the one man at present in the Auxiliary, are also arranged by this group.

A new social activity is now scheduled once a month, a Saturday afternoon tea; Laura Gibson is in charge of the parties and wants more hostesses groups so the parties can be given often. Three hostesses are needed to supply cookies and be present at each party.

Arts and crafts chairman is Mrs. H.P. Cocanougher with Mrs. J.G. Gandy as co-chairman. Materials are gathered and instruction provided for work sessions on second and fourth Wednesdays.

Tentatively planned are quilting sessions, and committee members are looking for quilt frames. Also planned is the making of calendars marking the dates of special events, to be placed in each room.

Starting in a small way, the transportation committee headed by Mrs. David Gibson has extended its efforts from weekly shopping trips by Manor residents to outings for Westgate patients.

More volunteer drivers with cars are needed for this program, to give short drives as recreation for residents able to go outside the hospital.

VEE Vaccination Advised By Vets

AMARILLO . . . After careful study and consultation with various authorities, the Texas Veterinary Medical Association and the Texas Animal Health Commission now recommend that all horses vaccinated in the 1971 epidemic of Venezuelan Equine Encephalomyelitis be revaccinated. This is not a compulsory vaccination. It is just an extra precaution for the horses in the state. There are several good reasons why this is a valid recommendation:

1. Not all horses in the state were vaccinated.

2. Vaccination during the epidemic last year was done under poor conditions due to the

confusion and urgency with which it was performed.

3. Mexico reportedly has experienced outbreaks in the Durango area about 450 miles south of the Texas border.

4. VEE antibodies have been discovered in a coyote in Tarrant County and a dog in the pound in Lubbock.

This indicates that the virus is present and this coupled with ample mosquito population this time of year makes transmission to susceptible animals quite possible. Revaccination will not hurt the horse and it is pretty cheap insurance to make doubly sure that the horses are adequately protected against this very lethal disease.

"NEWCOMER".....

city. That was one big question in my mind when it came time to start looking for a place to work and live — I wanted a rural town, because large cities get on my nerves and the people just do not have the warmth and friendliness of small town people. At the same time, my wife did not want to be stuck in a small town like the one in which we grew up where she would have to travel to another town to do any shopping. Our problem was solved by Hereford.

Another aspect which concerned me was educational facilities. Soon after I came to Hereford my question was answered as I sat in on a school board meeting. I have never seen a board or a group of administrators who have had as much concern for the education of the students in their system. The school is as progressive as the town. I have talked with some of the teachers and with each visit I have been impressed by the fact that their main concern is to give their students the best that they can. I think that Hereford is fortunate to have a school system for the children rather than for the school system.

Some of the other points of Hereford that I am impressed with, besides the progressiveness, are the streets, law enforcement agencies, fire department and city management.

I have not met an old person in Hereford. It seems that no matter what a person's age is in Hereford, he is still young. This, I feel, is one reason that Hereford is still growing and so progressive. The people I know here are not happy to stop and look at what they have done; they are happy when they can do something. Hereford is one of the cleanest towns I have ever seen, yet I have not seen street cleaners working daily. Everyday I see people stopping to pick up any litter they see on main street.

As a newcomer, it's not hard to know Hereford... it's not hard to love it.

"AUXILIARY".....
(Continued from page 1)

A sunshine committee with Mrs. A.T. Mims as chairman is responsible for such things as new paint, draperies, even furniture, and recreation equipment for the common meeting rooms.

To pay for all these, a finance committee accepts contributions all year and sponsors a major fund-raising event once a year. Mrs. Clark Andrews is its chairman; Mrs. Don T. Martin heads another vital committee, that on education and public relations.

Members are received and orientation slated, "even for one person who is ready to go to work," by the membership committee comprising Mrs. Hilton Higgins, Mrs. H.K. Kendrick of Friona and Mrs. Keith Simmer. A telephone call to one of these will secure information for anyone wishing to volunteer any service.

Officers serving with Mrs. Davis are Mrs. J.J. Durham, vice president; Mrs. Carroll McDonald, secretary, and Mrs. Andrews, treasurer.

CLEAN CARS

A Weekly Report Of Agri-Business News
Farmcast
Compiled From Sources Of The Texas Department of Agriculture
John C. White, Commissioner

Rural Development Commission Makes Plans . . .
Acreage and Production Questionnaires To Be Mailed . . .
Summer Time Is Turkey Time . . .
Seed Meeting Planned . . .
HOW TO IMPLEMENT rural development was discussed at length by members of the Texas Rural Development Commission, holding only their second meeting since they were appointed by Governor Preston Smith. They met in the LBJ School of Public Affairs where they also heard Will Erwin, deputy undersecretary for rural development of the U.S. Department of Agriculture, discuss their jobs.

The 25-member State Commission is attacking rural development problems in eight areas: economic development, natural resources, human resources, general government, transportation, health, housing and education. Chairman Roy Davis of Lubbock has named Committees to explore each category, and much of the Austin meeting was taken up in discussion of committee reports.

Raymond L. Prewett, formerly with the Texas A&M extension service, is director of the Texas Rural Development Commission, and Jim McAlister is planning officer. Their offices are in the John H. Reagan building in Austin adjoining Texas Department of Agriculture offices. The Texas Department of Agriculture is co-sponsor with the Governor's Office of the Texas Rural Development Commission.

ABOUT 22,000 Texas farmers will receive an acreage and production questionnaire during the early part of July from the Texas Crop and Livestock Reporting Service. The information obtained will be the basis for determining harvested acreage production of early harvested crops for Texas and for each of the 254 counties in the state.

If you receive one of the questionnaires, please fill it out as accurately as possible and return as soon as possible. Farm programs are based on information supplied by the Crop and Livestock Reporting Service. Accurate information is essential so that an unbiased picture of Texas agriculture can be obtained. The information is also invaluable in planning production and marketing programs.

SUMMER TIME is Turkey

Time, and the Texas Agricultural Products (TAP) program is promoting turkey for summertime good eating and good nutrition. A buyer's guide to Texas Turkey is available by writing to the Texas Department of Agriculture, Box 12847, Austin, Texas 78711.

Texas ranks fifth in total turkey production with 8,378,000 produced last year. Bell County is the number one turkey producing county in Texas with a total of 1,000,000 head grown out in 1971. Other leading counties are Gillespie, Hill, Blanco, DeWitt, McLennan, Estland, Brown, Robertson, and Falls.

Per capita consumption of turkey is on a steady rise as producers continue to improve the quality of the product. A COMBINED meeting of Southern Seed Certification officials and southern seed control officials as well as foundation seed personnel will be held July 11 to 14 at San Antonio. Fourteen states will be represented. Part of the meeting will be in the form of a tour of the Texas seed laboratory at Giddings.

"BRANDING".....
(Continued from page 1)

them sound good, they are not always practical—nor in the best interests of the citizen.

One illustration is the "truth-in-lending" act which was supposed to protect borrowers from high interest rates. At the time the law passed, most time payments had an effective interest rate of 12 to 14 per cent. The new law set a limit of 18 per cent, so practically all time payments went to 18 per cent. It's a good question to ask if the law really helped.

A reader brought us this article which was written by George Franklin Jr. and published in the Producers Grain Corp. magazine:

I am one of the "Establishment."

I work and am proud of it.

I pay taxes to provide hospitals for the hippies with hepatitis, potheads with psychic episodes, pillheads with over-doses and free lovers with syphilis.

I pay taxes to provide schools for sit-ins, books for burning.

CATTLE----
(Continued from page 1)

particular demonstration; however, which makes it unique from other explorations in this area.

First, there was no minimum or maximum limit to the number of calves any one producer could enter. This meant that the small producer could participate as well as the large operator. In this particular demonstration, the least number of calves entered by one producer was 3 and the largest number was 46. The total number of calves in the demonstration equaled 135.

Secondly, all calves in the demonstration were home grown; hence, every calf entered had never left the farm on which he was born until the day he was shipped to the feedlot. The producers feel they have a tremendous advantage by following this practice as many of the stresses placed on calves shuttled from place to place is eliminated.

At weaning, all steer calves were weighed, vaccinated for Blackleg, leptospirosis and malignant edema, wormed and dehorned on their individual ranches. The initial grouping was made by evaluating calves on each ranch, taking under consideration the type, breed, conformation, scale and weight of each animal. The stocker animals grazed winter pastures on their individual ranches from November through March.

Two weeks prior to the assembly and shipping date, the calves were weighed and

rallying points for off-campus riots and study courses in anarchism.

I pay taxes to provide welfare payments for bums who don't think work is dignified, but that poverty should be, and bonuses for fertility outside wedlock.

I respect the law because I know of no alternate.

I bathe regularly.

I walk proudly under my Flag, not all over it.

I believe in resolution, not revolution.

I want a better world that is constructive, not a bitter world that is destructive.

I am tired of filthy hair, filthy bodies, filthy words and love-people.

I am slow to anger, but soon those of us who believe in our country are going to keep America beautiful by flushing the pot-headed protestors down the gutters of their own minds.

Classified Ads Get Results

vaccinated for IBR and P18, RVD, and 4-Way Blackleg. This was the initiation of a two-week pre-conditioning period before shipping. The calves likewise were introduced to trough feeding during this two week period. The final evaluation of each calf was made at the preliminary two-week weighing and those not conforming to the group standards were culled and sold. All calves still remained on their individual ranches during this process.

On the shipping date, each individual brought his calves to a central point, which in this demonstration was the Jess Young Livestock Commission facilities. At that time, each animal was numbered and his owner recorded. When all animals were delivered, each was officially weighed and an actual value placed on each calf. When completed, the total group of calves had a dollar value and each producer had a total value for his individual calves in the group. This was converted to a percentage basis; thus, each individual producer possessed a percentage of the group for the remaining feedlot phase of the demonstration. The group of calves were then shipped to the feedlot where they will be fed until sold to a packer.

Beef cattle producers participating in the demonstration include Paul Bennett (chairman), James Fortson (vice-chairman), S.P. Gilber (secretary), Dan Story, H.R. Nicholson, Forrest Green, Richard Salter, Joe Fortson, Jim Bain and W.D. Dickson. Another unique feature of this demonstration is the flexibility of a wide cross-section of cattlemen to unite for increasing the profit of each. The cattlemen listed above include both commercial and registered breeders. Likewise, it is interesting to note that the largest individual producer of the group has approximately 800 mother cows and the smallest 50 mother cows.

This group of cattlemen have only begun to probe the potential of the beef industry in Navarro County. The final results of the present demonstration will not be complete until August; however, these cattlemen are building new steps now to further examine the potential profits they visualize. What may finally be the resulting product of these innovator efforts would only be

Something New In Weddings

By JOHN SINOR
Copley News Service

The bridal season is coming up on us, and marriage is more popular than ever. That is the result of a recent study.

Same study showed divorce also is more popular than ever. (What a game! The more winners you get, the more losers.)

You will find the gown shops are full of bridal gear. The stores are hopeful, and so are the ladies magazines.

However, there's a trend toward a new type of wedding ceremony.

I attended a wedding on a cliff above the ocean not too long ago. Nobody wore gowns or tuxedos. I forget what the bride wore, but the groom had flare pants and a vest.

There was some guitar music and a little wine.

The couple wrote their own words for the minister to say. (The minister also wore flare pants.)

They substituted "love" for "live." . . . as long as you both shall love."

It was beautiful. The sky, the crashing sea, and the rolling

hills — God's own church. A few more Junes from now and we will have our own prospective brides. (Not for awhile, though. I imagine they all want to get the braces off their teeth first.)

I do not hear too much about the course of love in my own household.

There was a time when my daughters confided in me about everything. Then they learned to read. It shot me down.

They said: "You wrote about ME again! I'll never tell you ANYTHING anymore!"

I said: "Listen, kid, you are scraping the butter off your own bread. If everybody had that idea around here, I would have to get a job selling shoes."

They said: "I don't mind if you write about me, but not when it's PERSONAL!"

I said: "That's what the readers are crying for, babe. The personal dope."

Now, when they talk of love, they take the telephone in the food pantry and shut the door.

You can't even get the peanut butter out half the time. Somebody is in there on the phone.

Some people get married in the Grand Canyon. Some tie the knot in a haunted house. One couple got married in a balloon some time back, and some sky divers hitched up while free falling at 10,000 feet.

It gets a lot of ink in the papers, but I imagine it's pretty tough on the ministers.

A young GI friend of mine has been trying for years to marry a Japanese girl he met when she visited this country.

In fact, he joined the Air Force after they promised to send him to the Far East so he could see her. They sent him to Okinawa.

Now he writes: "It takes about six months and a mountain of paper work and investigations. Then you have to get married THREE times! Once by the Japanese consul, once by the American consul, and once by the church."

"It's a drag, but we expect to be married, married, married soon and live happily ever after."

I sent him a card wishing him luck with all three of his marriages.

MORE MONEY SPENT FOR RECORDINGS

NEW YORK (AP) — Manufacturers' sales of phonograph records and prerecorded tapes were up 5 per cent in 1971 over 1970, the Recording Industry Association of America says.

Sales of phonograph records were up 5.8 per cent, to a high of \$1.251 billion, against \$1.182 billion the previous year. Of this total, LPs accounted for \$1.086 billion in 1971, compared with \$1.017 billion in 1970.

The increase is due in part at least to a rise in prices.

Total sales of prerecorded tapes in 1971 amounted to \$493 million, an increase of 3 per cent over the \$478 million in 1970.

The association estimates that piracy and counterfeiting of tapes took around \$150 million away from legitimate sales.

speculation at this point, but a sure-footed step has been made in a direction that will surely benefit the beef industry.

What's The Score?

BY GRANT MABRY
Sports Editor

— From left field behind right tackle under the basket on the fourth lap.

In a meeting of the Chamber of Commerce Sports Committee, Friday, it was decided to make a bid for the 1974 AAU Regional Boxing Tournament. A meeting of the West Texas Boxing Association, to be held in Lubbock on July 30, will be the deciding date when bids will be considered by the association.

A swim meet has been scheduled for all Hereford Campfire Girls for July 13 at 9 a.m. in the city pool. "We want all Campfire Girls to participate," Mrs. Roy Hartman said, "we will have different events for different swimmers depending on their skills as swimmers." Mrs. Doris Rush and the Jr. High Campfire Girls will be in charge of the meet.

Women's Baseball started with a double figure score in the Friday night game played between the Jaycee-ettes and the Blue Water Gardens team. Jaycee-ettes took the first of the season with a 21-5 win over the Blue Water Garden team. Friday night the Lone Star Insurance team beat the Mobil Communication team 27-14.

The Hereford Men's Bowling Association will meet at 7:30 p.m. Friday to elect new officers and conduct business for the coming season. The meeting will be at Dickies Restaurant. All members and interested persons are urged to attend the open meeting.

I would like to extend an invitation to Dave Campbell, asking him to come down to the

Herd's Field House some evening. After looking over his predictions for the Herd and after looking over the Herd, I am afraid that Mr. Campbell may have missed one prediction. That being that the Herd will come out second to Plainview in District 4-AAAA football.

Sure, we might be missing some starters from last year, but I have sure seen a lot of good ball players who did not start out as starters from the season before.

Sitting in the field house the other day, I was amazed at the drive and determination of the boys who wandered in, got under the weights and turned blue in the face. Why are they doing it when they are not being supervised by a coach? I'll tell you why, these boys got a taste of state last year and this year they want the "whole thing."

I have met a few of this year's Herd, and those few were very impressive both in attitude and under the weights. I have a feeling that Mr. Campbell, might be in for a surprise.

When Sports events become truly predictable, there will be no more sports.

Magazine Picks Herd As Runnerup

A sure sign that football season is nearer than you think is the appearance on news stands of the "Texas Football" magazine—a publication which fans, coaches and players eagerly snatch up to see what the pre-season forecasters have to say.

CIUCI TO BE FETED
GREAT NECK, N. Y. (AP) — Al Ciuci, the golf pro who discovered Gene Sarazen, is retiring after 47 years as pro at the Fresh Meadow Country Club.

Fred Patek stole 49 bases last season for the Kansas City Royals.

J. Burt Smith, 55, is the new Michigan State University athletic director.

The nation's hunters and fishermen provided nearly 250 million dollars for fish and wildlife restoration in 1971.

Here in Hereford, fans soon learned that their Whitefaces were ranked as the No. 2 team in District 4-AAAA, with the Plainview Bulldogs picked as the team to beat. The popular magazine had this to say about the district:

"Two unlikely entries—Hereford and Plainview—shared this district championship a year ago, and both like the taste of championship claret so well they're at the head of the line again."

Although the Herd represented the district in the playoffs last year and advanced to the quarterfinals, the writers give Plainview the edge on the basis of a solid 7-3 record year and the return of 5 offensive and 4 defensive starters among 17 lettermen.

Hereford's Keith Kitchens was named as one of the top quarterbacks in the state and was selected on the "blue chip" list as recommended by Texas

High School coaches and top college scouts.

Other potential "blue-chippers" from the district included quarterback Glen Yarbrough of Lubbock Monterey, and back Scott Hallman of Plainview. Honored with pictures in the district roundup were Kitchens and linebacker Win Short of Hereford, Yarbrough, and Hallman.

Some Hereford fans were disappointed that Short—named as an All-State second-team linebacker last season—was not included on the AAAA honor roll or the blue-chip list. Writers for the magazine probably found Hereford's defense suspect, since only two returning starters report there this season.

The roundup on Hereford's prospects were listed in the magazine: "Hereford wrote a Cinderella script in '71, moving all the way to the state quarterfinals. The offensive punch

which triggered the Whitefaces, all-district QB Keith Kitchens (6-0, 170)—one of the finest athletes in the state", says Coach Larry Dippel—FB Danny Harris and WB Terry Champ, to a 7-6 record return now among a crop of 5 offensive and 2 defensive veterans. LB Win Short (5-10, 205) returns as a second team all-stater and HB Barry McNutt heads up a good defensive secondary. Guard Alan Haire and center Dale Hollingsworth also glitter offensively and good new help is due from TB Wesley High, HB James Harris, end Alan Cornelius and Tackles Wallace Hill and Jim Marsh."

Ranking the teams in the district, the magazine lists Monterey in third place, followed by Lubbock High, Coronado and newcomer Snyder. The Tigers are picked last after moving up from Class AAA, but Snyder could surprise some people in the race.

Pampa is again picked to win the 3-AAAA title, and El Paso Coronado is favored to repeat in 1-AAAA. Odessa Permian has the familiar favorite's role in 5-AAAA. The pre-season statewide poll has Permian ranked No. 9 and Pampa No. 10 in the state.

The Harvesters of Pampa, knocked off by Hereford in bi-

district last year, has 4 offensive and 6 defensive starters back from an 8-3 team—boasting plenty of speed and muscular linemen.

"Texas Football" includes comprehensive articles on the Southwest Conference teams, picking Arkansas to win the crown this year, followed by Texas, Texas A&M, SMU, Texas Tech, TCU, Rice and Baylor. The Red Raiders are "young but talented", says the magazine and "could have the makings of the league's team, if the quarterbacking comes through."

The book has schoolboy prospects and forecasts down through Class A teams, as well as stories on all state college teams and the two pro teams—Dallas and Houston.

About the Buffs at West Texas State, the prediction is for an upturn in grid fortunes under Coach Gene Mayfield. Drawing a great amount of praise is Billy Pritchett (6-3, 235) who gained 1,128 yards as a sophomore.

Two Hereford gridders—Mike Wartes and Tony Gorman—drew recognition in the article on WTSU. About sophomore Wartes (170): "Mike isn't an outstanding passer or runner," says Mayfield, "but he gets the job done and the kids have confidence in him."

Miss McDermitt Repeats Vows With Henson

Miss Donita Mae McDermitt and James W. Henson were married in a Saturday evening wedding at the Central Church of Christ with Dale Young officiating.

Miss McDermitt is the daughter of Mr. and Mrs. Woodie McDermitt, 416 Western. Parents of the bridegroom are Mr. and Mrs. Gail Henson of Conway, Missouri.

A large bouquet of summer flowers in colors of blue, pink, yellow and lavender formed a background, with candelabra on each side of the bouquet.

Miss Sally Bayne attended the bride as maid of honor with Miss Trisha Neff of McAllen, cousin of the bride, and Miss DeAnn Dickson serving as bridesmaids.

Deanie Henson, brother of the bridegroom, served as best man with Donny McDermitt, brother of the bride, and Robert Doing of Lebanon, Missouri as groomsmen. Ushers were Wallace and Cameron Hill.

Judith and Greg Dement, cousins of the bride, were junior bridesmaid and groomsmen. Tammy Geries, daughter of Mr. and Mrs. Dickie Geries, was flower girl and Randal Dement, son of Mr. and Mrs. Raymond Dement, the ring bearer.

The wedding chorus of the church sang wedding marches and other musical selections. Mrs. Dale Young, soloist, sang One Hand, One Heart.

Given in marriage by her father, the bride was wearing a gown made by her mother of white silk satin overlaid with Chantilly lace which also formed the train. Pearl trim accented the empire waist and lace flowers on the front of the skirt.

Miss McDermitt's veil, belonging to Mrs. Jerry Curt-singer of Germany, a cousin, was a white satin rose surrounded by a pearl petals with three tiers of tulle. Her bouquet was of white carnations.

An heirloom gold bracelet belonging to the bride's grandmother, Mrs. O.C. Cummings, was the only piece of jewelry worn by Miss McDermitt.

Bridesmaids gowns were fashioned like the bride's dress and were made in pastel rainbow colors, blue, pink, yellow and lavender with a velvet ribbon the color of the dress at the empire waistline. Each carried a single carnation also the color of her dress.

At a reception in the church fellowship hall, Misses Mona Gale Gibson and Darla Ann

Springer served the four-tier wedding cake with Mrs. Cliff Herring and Miss Melinda Bradley serving punch and coffee.

Julie Dampier, niece of the bridegroom, registered guests. Mrs. Bill Allen, Mrs. E.W. Allen and Mrs. Joe Bradley were other members of the houseparty.

For a wedding trip to points of interest in New Mexico, Colorado and Missouri, the bride wore a forget-me-not blue sleeveless dress with a ruffle at the bottom, and had white accessories.

The couple will be at home after July 16 on Route 4.

A 1972 graduate of Hereford High School, the bride was active in Future Homemakers of America, Tri-Hi-Y, National Honor Society, Student Council and was selected as Little Sister for Hereford Young Homemakers Club.

Henson graduated from high school in Conway in 1969 and is employed in Hereford by F.W. Hill Farms.

Out of town guests attending were Mrs. Earnest Neff and Clyde McAllen; Mr. and Mrs. Lester McDermitt of Dimmitt; Mrs. Joan Everett and Tray, Mrs. Robert Doing and Mr. and Mrs. Phil Hendrix, all of Lebanon; Mr. and Mrs. Elmer Young and Mrs. Deanie Henson and Denis of Conway.

Priest Here For Summer

A new member of the staff at St. Anthony's Catholic Church for the summer is the Rev. Wilfred Brennan, S.A., who will serve instead of the local priests as they go on vacation.

He is general counselor of the Society of the Atonement, with headquarters at Chappesqua, N.Y., one of four priests on the council which is the decision-making body for the group.

Rev. Brennan was ordained a priest in 1945, at the same time as the Rev. Boniface Riedmann, pastor, and the Rev. Aedan Davis, associate pastor of St. Anthony's. At various times he has served under the Rev. Angelus Delahunt, who was pastor of St. Anthony's through most of the 1960's, and the Rev. Bonaventure Koelzer, whose home town is Hereford.

HONORARY BULL AWARDED — Donald Day who served as manager for Wilson Packing Co. was recognized for his service to the community by the Deaf Smith Chamber of Commerce. Day, center, was awarded the Honorary Bull by Melvin Jayroe, president of the chamber. Watching the presentation are Tom Burdett, Roy Faubion and Jim Lindsey.

Beautification Act Regulates Billboards

The Texas Highway Department today announced plans for administration of the State Highway Beautification Act which was passed by the last special session of the Legislature. The Act becomes effective Thursday (June 29).

The Beautification Act, also known as the Billboard Law, charges the Highway Department with responsibility for regulating outdoor advertising signs along the Interstate and Federal-aid primary highway systems in Texas. There are approximately 18 thousand miles of highways in the two systems in Texas.

The law provides that any person who erects or maintains a sign within 660 feet of the highway must have a license to engage in outdoor advertising and a permit for each sign covered by the Act. Signs advertising the sale or lease of property upon which they are located or relating solely to activities conducted on the

property and certain utility marker signs are exempt.

The Highway Department will issue all licenses. Application blanks will be available at the district offices or at the Right of Way Division in Austin. Sign permits will be issued by either the Highway district offices or by those cities which elect to issue their own sign permits. Persons interested should contact the Highway Department district serving the county where their sign is located.

At the present time cities are being contacted by the Highway Department to ascertain whether the cities desire to establish their own permit systems. Once this is decided, the first woman to serve in Canada's Parliament was Agnes Campbell Macphail, who was elected to the House of Commons in 1921 as a representative of the United Farmers of Ontario.

Classified Ads Get Results

the Highway Department districts or the cities will start to process sign permit applications for those persons who have obtained licenses. Plans will be announced later for implementation of sections of the legislation dealing with illegal, abandoned and non-conforming signs and junkyards and auto graveyards.

Strike Ends At Friona Meat Plant

The striking employees of the Friona Division of Missouri Beef Packers, Inc. voted July 2, 1972, to end their five-month-old strike by accepting a new three-year contract. The employees are represented by Local P-777 of Amalgamated Meat Cutters and Butcher Workmen, AFL-CIO.

Officials for both parties declined to release details of the settlement.

The plant has been on strike since February 8, 1972; however, it remained in operation throughout the strike.

Hereford Hustlers Go To Vega

Hereford's Chamber of Commerce Hereford Hustlers hustled to Vega last week on one of a series of visits in a program aimed at improving inter-community relations.

Gene Caldwell, chairman of the Hustlers said that the group has made similar visits to Bovina, Friona and Dimmitt in hopes of establishing better communications and better relations between Hereford and the surrounding communities.

"The main reason that we are so involved in the program," Caldwell said, "is to prevent problems similar to the conflict between us and Amarillo. We think that by making an attempt to communicate and associate with surrounding communities, we will save such a problem from happening."

The Hereford Hustlers are planning a visit to Canyon in the near future.

Small Talk

BY SUE COLEMAN
Women's Editor

"LOOKS LIKE SUMMER again," the pleasant lady in the cleaning plant observed Friday as I picked up some clothes; "I liked the cool-spell, but you know, I didn't get near all the things done that I've been putting off until a cold day in July!" Me too.

Those reasons are advanced by so many people who have had nice old trees hacked off in yards and public grounds around town, that I just don't feel safe about the hospital's trees, which are beautiful things even if they aren't in their prime.

WORKMEN HAVE been trimming the big trees on the west side of the hospital, so I've relaxed and assume that nobody is going to chop them down this year.

I keep feeling nervous about them, since (1) they are old trees, and (2) they do have dead branches and (3) they no doubt will die off and have to be removed before too many more years pass.

OF COURSE THEY do need trimming to get the dead wood out, but as long as they have enough branches to keep making such cool-looking shady spots on the lawn, they are worth nursing along, in my opinion.

That hospital lawn, all of it on both sides of the building, has such a welcome green appearance to patients in most of the rooms that efforts to

preserve the trees are worthwhile.

One part of the grounds offers a puzzle to me, and I wonder who knows the answer. There is a double row of trees just east of the building, marking a sort of lane straight across the lawn. Looks like it might have been a driveway, but to where?

AFTER SPENDING more than a couple of months here with her mother, Katie McGehee, and sister, Helen Stark, Lucy Huff left last weekend for her home in Leisure World near Seal Beach, Calif.

She was here for her mother's birthday and stayed for a nice long visit. As to which of Katie's birthdays she celebrated this year, I'm not going to guess. She got tired of the 39th, she said a couple of years ago, and has been raising the figure rapidly.

Wouldn't be a bit surprised if she celebrated the 99th this year, but whichever it was she gets a lot of fun out of birthdays and other days so it doesn't matter about the exact age.

'JUST VISITING' IMPORTANT — Casual chats with residents of Westgate Unit at Kings Manor Retirement Home ranks high on the list of services by volunteers. Auxiliary members standing from left here are Mrs. Wes Fisher, chairman of the social activities committee, Mrs. J.T. Gee of Friona and Mrs. Wheeler Davis of the resident aid committee.

36 Jobs Offered In Program

Spec. 4 Fortunato B. Tijerina of Hereford returned as Hereford's new hometown recruiter.

Tijerina will conduct a 30 day Unit of Choice recruitment offering some 36 different jobs to volunteers joining during this period. In this program a man is guaranteed 16 months with the unit he chooses after he completes basic training.

Tijerina may be contacted at 501 Whittier or by calling 364-2667.

He is the son of Mr. and Mrs. Fortunato Tijerina of 501 Whittier. His wife is Rita Tijerina and their son is Anthony.

Fortunato B. Tijerina

FAIR FIOLA WINS — Crown Prince Harald's 4-year-old favorite cow, Fiola, won first prize at the country show, scoring 129.5 points here.

The 35-year-old heir to the Norwegian throne has a 150-acre farm at his residence, "skaugum," 15 miles west of Oslo.

The crown prince was unable to attend the show because he took part in pre-Olympic yachting qualifications at Kiel, West Germany.

Boy Scouts Garage Sale Scheduled

Hereford Boy Scouts will conduct a huge "garage sale" here Saturday and Sunday, July 15-16, it was announced this week by Pat Malone, district chairman of the Llano Estacado Council, Boy Scouts of America.

The sale will be held at the old Foodway building at Park Avenue and McKinley, with the hours being from 9 a.m. to 7 p.m. on July 15, and from 1 to 5 p.m. on July 16.

Proceeds from the fund-raising campaign will go to help support the activities and programs of the council, according to Tome Pettigrew, district Scout executive in Hereford.

The "garage sale" will include used clothing, household goods, appliances, Christmas decorations and many other items. Anyone wishing to contribute items for the sale can take them to the Foodway building Tuesday through

Progressive Holds Couple Married In State Park

Present residents, old timers and their families, and pioneers of the Progressive community will gather at Hereford Community Center for the yearly Progressive Reunion July 16.

Beginning at 10:30 a.m., activities for the day will include a memorial service delivered by Mrs. Norma L. Tomberlin, a short program, music and singing directed by Cecil Boyer.

Drinks will be provided for the basket lunch which will be included in the activities.

Friday between 7 and 9 p.m. Persons who have large items to be picked up should call Pettigrew at 364-3806, or Malone at the First National Bank.

The National Forest System, administered by the Department of Agriculture, has 186,899,000 acres in 44 states, the Virgin Islands and Puerto Rico.

Wed in a ceremony at dawn Saturday under the cottonwood trees in a grove in Palo Duro Canyon were Shirley Grissom, daughter of Mr. and Mrs. Harold Grissom of Lubbock, and Robert B. Terrell, son of the Byron Terrells of 309 Star.

The Rev. Paul W. Anderson of Rockport, Baptist minister, officiated.

Given by her father in marriage, the bride wore a gown of silk organza over crepe. Scalloped lace edging trimmed the empire waist, cameo neckline, full-length belled sleeves, and hem-length veil. Her bouquet was of Gerber daisies.

Serving as her sister's matron of honor was Mrs. H.D. McCrury of Odessa, Barbara Grissom of Lubbock, also a sister, acted, as bridesmaid.

Byron Terrell was his son's best man, and Tim Robinson of El Paso was groomsmen.

The matron of honor wore a gown of daisy-flocked veil in aqua green, while the

bridesmaid wore a similar gown in aqua blue. Both carried bouquets of Gerber daisies.

Following the ceremony, in which Mr. and Mrs. Roland Belcher of Birmingham, Ala., sang The Lord's Prayer and The Wedding Song, the bride and groom welcomed guests to breakfast in Palo Duro State park.

Following a wedding trip to Longmont, Colorado and parts of Texas, the couple will be at home in Longmont.

Guests included Anita Hunter of Flomont, Mrs. N.A. Terrell, grandmother of the bridegroom, Cecil Terrell, uncle of the bridegroom, and Bonnie Alexander, all of Lubbock.

A senior at Texas Tech University, the bride is a graduate of Lubbock High School.

The bridegroom is employed as a technician by the Lehigh Co. of Longmont, and is a graduate of Texas Tech University and Smyer High School.

BIKE-A-THON — A group of around 55 cyclists passed through Hereford Friday on their way to Washington D.C. from San Clemente, Calif. The group left on June 26 on their 26-day-tour and will present the President with a proclamation, in the form of a genuine medieval scroll, asking that bike

trails be established along all major highways in the U.S. During the trip from coast to coast the group has set out to publicize the American Heart Association and the "health through exercise" concept. Dana Morrison, head of the tour, said that the trip has been good except for a little trouble

right at the start with a flat on the bus. He said that the tour is about half finished and that they have traveled around 1,500 miles so far. Members of the Bike-A-Thon range in age from 12 to 47. They average about 15 miles per hour. Each cyclist paid \$200 to go on the tour.

Club Holds School Menus Meeting

"Knowledge will produce enthusiasm and enthusiasm will produce growth," was one of Mrs. Ray Stewart's major points as she gave a talk on the duties and responsibilities of officers and members for the Dawn HD club Friday.

Meeting at noon for a luncheon, the group also discussed the purchase of gifts by the club and by members as individuals for ditty bags, a committee for organizing the group's yearbook, and delegates to the state meeting in August.

Guests for the meeting were Argen Draper, county HD agent, and Mrs. Dan Bavousett.

Others attending were Mmes. H.D. Fowler, Frank Duncan, Jerry Stewart, Leroy Johnson, J.B. Caraway and Gary Smith. Also present was Bette Stewart, daughter of Mr. and Mrs. Ray Stewart.

MONDAY — Breakfast: doughnuts, apple slices, milk. Noon: barbecued wieners, broccoli, buttered corn, hot rolls, butter, milk, ice cream. Snack: peanut butter and crackers, orange juice.

TUESDAY — Breakfast: cinnamon toast, banana slices, milk. Noon: meatloaf, creamed potatoes, green peas, sliced bread, butter, milk, cherry cobbler. Snack: chocolate cookies, milk.

WEDNESDAY — Breakfast: toast and jelly, applesauce, milk. Noon: fried chicken, cranberry sauce, green beans, hot rolls, butter, milk, carrot cake. Snack: pumpkin bread, orange juice.

THURSDAY — Breakfast: cooked cereal, raisins, milk. Noon: pinto beans and ham, coleslaw, cornbread, butter, milk, sliced peaches. Snack: graham crackers, milk.

FRIDAY — Breakfast: cinnamon biscuits, orange slices, milk. Noon: sloppy Joes, green salad, carrot sticks, milk, fruit salad. Snack: dry cereal treats, milk.

Serenity Not Synonymous With Complacency At Tech

Millions of words have been written about student and faculty opinion on campuses where loud and destructive protests exploded particularly in 1969 and 1970, but little is known about student opinion on quiet campuses.

Texas Tech University has a reputation as a "quiet campus." To learn what the "quiet" students and faculty think, Texas Tech's Institute of Mass Communications Research made an opinion study. The results indicate that serenity is not synonymous with complacency.

The university, with an enrollment of more than 21,000, is one of Texas' four multi-purpose universities. There are six undergraduate colleges, a Graduate School, and a School of Law. The Texas Tech University School of Medicine will enroll its first students in the fall of 1972.

Respondents indicated that on their campus there are policies, programs and attitudes students and faculty would like changed, and at Texas Tech they indicated a high regard for library facilities, the job placement service and the campus radio and television stations.

On-campus communication and the record of student government received poor ratings. Most of the respondents said a student should serve on the Board of Regents. Among other opinions reported, most said they believed students like the campus police.

Nearly 70 per cent of the respondents said that students and the administration do not communicate well while faculty appeared to have more rapport. There were 43.4 per cent who said the students and faculty communicate well while 42.1 per cent said they do not communicate well.

In assessing the university's administration, 36.4 per cent regarded the administration as working for students' benefits, and 47.3 per cent disagreed.

Asked if student government

NEW ORCHESTRA OF YOUNG PERFORMERS (NEW YORK AP) — The Orchestra of the City of New York, a new organization whose members are recent graduates of music schools, is launching a series of 15 free concerts. They will be given at prisons, hospitals and churches.

The orchestra hopefully will provide a showcase for young players, assisting them to launch their careers.

Also, an aim is to attract young and new audiences by imaginative programming and presentations at low prices. Jak Zadikov is music director. He has been music director of the Nassau-Suffolk Symphony on Long Island.

Program for the free concerts will include Stravinsky and Bach as well as guest appearances by folksingers Tom Paxton and Fat City, jazzman Herbie Hancock and young Metropolitan Opera mezzo-soprano Frederica von Stade. There are several sponsors for the free concerts.

North America's highest mountain is Alaska's Mount McKinley, towering 20,320 feet, compared with Mount Everest's 29,028 feet.

has been successful in carrying out its duties, 48.7 per cent said "no" and 24.5 per cent said "yes."

Most of the respondents — 47.8 per cent — did not consider tuition and fees are used for the students' benefit, and only 25.9 per cent said the funds are used in the best interests of the students.

Freedom of speech does exist on the Texas Tech campus according to 63.6 per cent of the respondents while 23.3 per cent found freedom of speech lacking.

Seating a student on the Board of Regents won approval from 63.6 per cent of the responding Techsians; 26.8 per cent opposed the idea.

The university's current policy for seating students at athletic events and student parking facilities — both issues which have received widespread campus discussion — were strongly opposed by respondents.

The athletic seating policy for Southwest Conference home games was considered unfair by 71.5 per cent of the respondents. Wanting improvement in student parking facilities were 88.2 per cent.

Wanting to increase the number of cultural events staged on campus were 78.1 per cent. On campus events include those scheduled by the departments of music, art and theater arts as well as events booked from off campus.

Campus recreational

facilities were overwhelmingly classified as inadequate. Only 19.3 per cent of those responding regarded existing facilities as adequate, and 70.2 per cent called them inadequate. The Board of Regents in April voted a building use fee increase with the request that in allocating the increased funds "high priority be given to intramural and recreational facilities."

Of the student health service, 43.4 per cent judged it inadequate while 25.4 said it was adequate.

A majority of the respondents found fault with bookstore prices which were rated unfair by 62.7 per cent and fair by only 25 per cent.

Favorable opinion was voiced for the campus police with more than 56 per cent of the respondents saying, "Yes," they are liked and 28.9 indicating they are not liked.

University library facilities were commended, rated as adequate by more than 75 per cent of the respondents.

The campus Placement Service received a pat on the back for its efforts in finding jobs for graduates. Only 9.2 said the service does not perform well while 43.9 per cent said it does and 42.9 either didn't know or care to express an opinion.

The programming for the campus FM radio station and its educational television station received 59.4 per cent approval.

Dr. Hower Hsia is director of the institute.

Calendar Of Events

Order of Eastern Star at Masonic Hall, 8 p.m.

Wrap-around goggles or gray-tinted quality sunglasses are recommended by the Society for Visual Care as the best protection against glare. Although the eyes generally suffer no lasting damage from limited exposure to such glare, the harsh reflection of it can temporarily seriously diminish visual acuity and produce potentially dangerous conditions.

MRS. OWEN ANDREWS
Brand Reporter

Mrs. Clayton Jobe was able to go home from the Hereford hospital on Sunday morning. She had been hospitalized since being in a car accident on FM 1055 on Thursday.

The Jobes were having a family gathering of her people during the weekend. Several of the relatives came to the reunion learning of Mrs. Jobe's accident after arriving. Her relatives, family and friends took over and continued activities so the reunion took place as scheduled.

Those coming were her twin sister, Mrs. Albert Stewart and son of Rolla, Mo., sisters Mrs. Ralph Williams; Mr. Williams, and family of Little Rock, Ark., Mrs. Tommy Rainer and son, of Guy, Ark., Mrs. Windle Owen, of Carlsbad, N.M., Mrs. Henry Williams, Mr. Williams and family, of canyon, Mrs. Everett Cole, Mr. Cole and daughter, of Hart. Also a brother, Mr. and Mrs. Clifford Henderson, of Hart.

Also relatives, Mr. and Mrs. Billy Henderson and family and Mrs. Georgia Henderson all of Dimmitt and Mrs. Lucy Kanady of Plainview. Also friends from Cooper, coming were Mr. and Mrs. Lynn Dodson, Jane, Donald and Kay.

Kay Dodson remained with the Jobes to visit Jeanine for several days. The girls are planning to go with the group of G.A. girls from Frio Baptist church to Glorieta Camp, July 13.

Roger Jobe went home with his aunt, Mrs. Windle Owen, to Carlsbad, N.M. to visit a few days.

visit an aunt near Waco and another near Paris during the next few days.

Mrs. Floyd Cole visited an aunt, Mrs. D.P. Smiley, at the home of Mrs. Smiley's daughter, Mrs. Muri Massey at Friona on Tuesday.

Visiting the Floyd Coles Tuesday were Mr. and Mrs. Newman Jarrell and son Drew of Clovis. The Jarrells are former neighbors of the Coles.

Herman and Jana Vinson of Pampa, spent the July Fourth holidays here with her parents, the Floyd Coles and other relatives.

TEXAS TECH CHEERLEADING SCHOOL

POLISHING UP ON THEIR RAH-RAH-RAHS — Leading the cheers for Hereford High School this year will be this group of spirit boosters who attended the annual Texas Tech University Cheerleader School in Lubbock June 26-30. They were among a total 594 girls and boys attending the school this summer. Shown, from left, are Meredith Wilcox, Nancy Barrett, Jonie Charest, Pam Garrison, Rhonda Stephen, Jana Balden and Diedra Dzuik.

State Happenings

The Parks and Wildlife Commission handed one controversial issue back to the Attorney General and was handed another one by the Legislature.

PWC voted four-to-two to ask Atty. Gen. Crawford C. Martin to review and reconsider a May 26 ruling that a 1970 contract to purchase 3,965 acres of Mustang Island property for park development is a "binding obligation."

Martin's opinion, according to PWC Chairman Jack Stone of Wells, is expected in about a week.

The Mustang Island battle has raged from Austin to Washington and back and through the federal courts and has figured in battles over Senate confirmation of PWC members.

Legislators, in special session, thwarted long-standing plans of the State Highway Department to build a 10-story, \$20 million headquarters building on a block near the capitol and governor's mansion.

Instead, the Legislature decreed, the Parks and Wildlife Department would purchase with \$1.5 million from its cigarette tax the barren, dusty block in downtown Austin and convert it into a park.

The highway department was directed to consider placing its plush new building elsewhere.

Neither agency, conceded legislative leaders, "was

deliriously happy with the arrangement.

Under the circumstances, however, neither seemed to have much choice.

GAME LAW FUSS CALMED—Texas game wardens will no longer enforce state game and fish laws near the mouth and jetties of the Sabine River, an area of disputed ownership with Louisiana.

Louisiana last month threatened to appeal to the U.S. Supreme Court Texas officers' attempts at enforcement in the area. Attorney General Martin informed Louisiana Atty. Gen. William J. Guste Jr. Texas will

keep its commitments in the disputed areas of the Gulf south of the Sabine River Mouth.

The area was recently found by a Supreme Court-appointed master to belong to Texas, but Louisiana appealed the decision.

INFLATION STILL THREAT—Inflation is still a strong threat, though Texas is recovering from economic recession, according to a University of Texas Bureau of Business Research study.

Unemployment remains high, says UT BBR, but estimated personal income rose nine per cent in the last year and bank debts 10 per cent.

The unemployment level, frowned on by the Bureau, was 3.8 per cent in May, which is

lower than the 4.1 per cent of a year ago and considerably below the national 5.9 per cent rate.

Consumer spending and residential construction were seen as strong. The rate of the consumer price index rise slowed somewhat after the presidential price freeze, BBR found.

HIGHWAY DEPARTMENT WINS AWARD—Texas Highway Department received the National Safety Council Award of Honor for an outstanding occupational safety record during 1971.

"Less than five out of 1,000 of the nation's total number of work units meet the award of honor requirements," said Howard Pyle, National Safety Council president.

The Texas Highway Department got the award for a 52 per cent decrease in frequency and 42 per cent decrease in severity of accident rates of its employees last year.

TEXAS BEEF CATTLE LEADER—Texas is the nation's leader in all major categories of the beef cattle industry, Texas Agriculture Commissioner John C. White states.

The livestock industry in Texas is a \$2 billion industry, accounting for almost half the total agricultural income of the state. There were 12.8 million cattle and calves in Texas in January, more than five million head above second-ranked Iowa.

Rankings by counties for livestock categories include the following (one through 10):

All cattle and calves: Deaf Smith, Parmer, Hansford, Castro, Swisher, Sherman, Randall, Ochiltree, Hale, and Hopkins.

Texas ranks second in the nation in number of slaughter plants, third in cattle and calves slaughtered during 1971, third in sheep and lamb slaughter and 15th in hog slaughter.

DEMOCRATS AT MIAMI BEACH—One hundred and 30 Texas Democrats—most of them new to the party wars—are busy at Miami Beach this week, helping nominate a candidate for president.

Another 70 alternates were named to the convention.

The Texas delegates, headed by gubernatorial nominee Dolph Briscoe of Uvalde, are closely divided as to supporters of George Wallace, George McGovern and Hubert Humphrey.

TEXAS EXHIBIT PLANNED—A special Texas exhibit is planned at the fifth annual El Salvador International Trade Fair November 3-20.

The fair is one of the top trade expositions in Central America and attracts commercial firms from surrounding Central American states. Several Texas manufacturers have indicated an interest in sponsoring exhibits. The International Trade Division of the Texas Industrial Commission and the Texas Department of Agriculture are sponsoring the Texas exhibit.

FARMWORKER GRANT APPROVED—A \$2 million federal grant will provide classroom instruction and on-

the-job training for migrant farm workers.

Trainees from 19 counties will benefit under the one-year contracts with five project sponsors.

Local agencies participating include Economic Opportunities Development Corporation of San Antonio (Atascosa, Bexar, Frio, Medina and Wilson counties); Community Action Agency of South Texas (Starr and Zapata counties); Coastal Bend Migrant Council (Duval, Jim Wells, Kleberg, Nueces and San Patricio counties); Middle Rio Grande Development Council (Dimmit, LaSalle, Maverick, Uvalde, Val Verde and Zavala counties) and Laredo-Webb County Community Action Agency.

SHORT SNORTS

Former U.S. Ambassador to Australia Ed Clark, a prominent Democrat, will head Republican U.S. Senator John Tower's campaign organization in Texas.

A first-in-the-nation mobile health clinic is starting services in the Lower Rio Grande Valley for veterans.

Attorney General Martin held that an act giving a fire chief sole authority to put a fireman on disability retirement or demand he return to work is unconstitutional. He said local pension boards have authority to determine the degree and date of disability.

The Los Angeles Dodgers, 10 1/2 games back of San Francisco last May 31, lost the National League West division to the Giants by one game.

Mr. and Mrs. Frank Robbins were honorees at an informal reception at the Robbins home, Sunday afternoon. Their children hosted the event, honoring the couples 25th wedding anniversary. Refreshments were served from a white lace over blue covered table, centered with an arrangement of blue daisies and white gladioli. A blue and white decorated cake also carried out the chosen colors. The Robbins children include Carol (Mrs. Gene Duvall), of Amarillo, Steve, Genie, Gerry, Patti, and Scott.

Mrs. Robbins was Miss Ruth Moreman, daughter of Mr. and Mrs. F.Y. Moreman. Their wedding took place at the Moreman home, in a garden setting on June 29, 1947. Pictures of the wedding were on display at the reception.

Parents of the couple, the Moremans and the Robbins were among the more than 50 persons attending the reception. From out of town were Mr. and Mrs. E.H. Little, of Texline, Mr. and Mrs. Gene Noel, of Canyon, Miss Becky Little, Amarillo and Victor Baxter, Lubbock.

Steve Robbins left this week to live at Greenfield, Tenn. His new job is with Kellwood Co., Apparel Manufacturers. He will be with the Merchandising Division. Steve finished school at Dallas, this spring, training for this type of work and has been visiting his parents, the Frank Robbins, here a few weeks awaiting this assignment.

Lynn Fisher, who is with the U.S. Navy and currently stationed in Panama, spent the July 4th holidays here with his wife, Mary Ann, and year old daughter, Monica. Lynn expects to be stationed in Puerto Rico for about two months and then back to Gulfport until his release the first part of November.

Miss Viola Keene came home with Mrs. B.H. Baldwin and Mrs. Homer West and girls when they went to Levelland on Wednesday. Miss Keene will visit awhile here with her sister and the other relatives.

Mr. and Mrs. Robert Baldwin and Kristi of San Antonio, visited during the weekend and until Wednesday with his mother, Mrs. B.H. Baldwin, her parents, the George DeLoziers and other relatives in the area.

Mrs. H.M. Mobley and her sister, Mrs. Claude Price of Floydada went the last of the week to Midland, to visit the Earl Renos, and to visit their brother, J.W. Taylor and Mrs. Taylor. A sister, Mrs. George Bentley, of Monahans expected to join them and Taylor and they planned to go together to

Snap Beans Delicious Dish

By Argen Draper
Home Demonstration Agent

HONESTLY, THERE was never a time that the office looked as good to us as Wednesday morning. In celebrating the holiday on Tuesday, I tried to do all the work at home I had left undone.

Too, Tom Draper ordinarily is a very mild mannered man, but he has reached his limit. He has demanded his barns back and I'm having to move all my moth-eaten dust-covered treasures and line them for a sale. Therefore, Tuesday I began at the crack of dawn and started trying to decide what I can part with to make room for something else.

I have a date set to offer some of my treasures for sale, unless I change my mind before the time comes. I must admit some of those things taken out of storage and offered were turned over and over and then put back in storage. The barns will be cleaned out but the house may become more cluttered.

It is bad to have the attachment to old useless things like some of us have. It is some sort of quirk to want to keep cracked fruit jars, broken chairs and numerous nameless useless items. It is deep seated in some to save and store those things. It is not a recommendation of mine to become attached to those never-to-be-used things.

In some places, we hear, faded jeans and faded overalls sell for two or three dollars more than the new garments. There are a few pairs of faded overalls I'd like to get to someone who wants to appear casual.

HOW DID GARAGE sales begin anyway? and when? You know, they become almost a bloodstream infection as some people go to all that are advertised.

This season I've limited myself to a few a week as they are time consuming and too, I buy something at each one I feel that is polite. This is another reason for having to make some storage decisions out at our house.

In cleaning out the barn at Tom's insistence I found at least two things that had been forgotten. They had no value at all except pride of ownership. Do you ever lose something and find it when looking for something else? If so, it may be later than you think.

CONGRATULATIONS to Dorothy Troxwell who won a very coveted contest on Monday night at Sugar Blues TOPS. The contest started May 22 and we cleverly concluded it on July 3. This date of conclusion had

Independence Day picnics in mind. Dorothy won the contest but each member won as each had lost weight during the contest period. In this group when you lose you win.

Long before 1492, "when Columbus sailed the ocean blue," snap beans were widely used in North and South America. It is believed that snap beans were native to Central America and were carried north and south by venturing Indians.

History notes that the beans were taken to Europe by the early explorers. However, Europeans had been familiar with many other varieties of beans before that time.

Early snap beans were a far cry from the varieties we have today. Though the old nickname still is used in some areas; "string" beans are long gone. "Snap" is the popular term for the stringless, almost fiberless, tender-podded green beans on the market today.

The U.S. Department of Agriculture's Agricultural Marketing Service reports that snap beans should be plentiful this summer. They're among the many vegetables your family can enjoy during July.

FOR THE BEST quality beans, look for fresh appearance in the vegetable bins. Beans should be clean, firm but

tender, crisp, free from scars, and reasonably well-shaped. Select beans of approximately the same stage of maturity so they will cook uniformly.

There are many excellent sauces and toppings, as well as herbs and spices to use with snap beans for a real flavor lift. Here is an excellent dish for summertime meals:

GREEN BEANS WITH CHEESE
1 1/2 pounds snap beans
one-third cup cream
1/2 cup grated cheese
salt
paprika
butter
Wash and trim beans. Steam about 5 minutes in boiling water. Drain. Arrange in greased casserole. Sprinkle with salt, paprika, one-third cup cream, and one-third cup grated cheese. Toss lightly to blend cheese and beans. Dot generously with butter and sprinkle with remaining cheese. Bake in hot (400 degree F.) oven 15-20 minutes. Generously serves 6.

ED DZUIK, Sr. reports to us that his garden has plentiful supply of dill for pickle making. So remember Ed when you start canning. He will dry the pods that are ready now and probably will have fresh when its needed.

Ed reminds us that July 4, 1964 was also cold when they harvested wheat in sweaters and overcoats. For the record, we wore coats Tuesday and ate chili for lunch.

Wed Here, Couple Living In Wichita

Mr. and Mrs. Terry Keith Pennington are at home today at 4600 Coronado, Wichita Falls, after a trip through East Texas following their marriage in Park Avenue Church of Christ here. The bride is the former Miss Wileta Kay Wylie of Friona.

She is the daughter of Mr. and Mrs. Elton Wylie, formerly of Hereford, and attended Hereford schools through her first year in high school. The bridegroom is the son of Mrs. Doris Pennington and the late Quentin Pennington of Bluegrove.

Kenneth Avaritt of Benton, Ark., conducted the marriage service before an arch made of horseshoes, twined with foliage and daisies and centered with two white bells.

Miss Sue Shirley was maid of honor and Jerry Pennington of Wichita Falls his brother's best man. Bridesmaids were Mrs. Jerry Pennington and the bride's sister-in-law, Mrs. Clyde Wylie of Austin. Sherrod Rasmussen of Wichita Falls, cousin of the bridegroom, and Clyde Wylie were groomsmen.

Young members of the wedding were Deloris Wylie, sister of the bride, and Criss Wylie, her cousin, who lighted candles, and Wayne Davenport, ring bearer, all of Friona.

Janet Mingus of that city played flute solos including, Bridge Over Troubled Waters.

The bride's gown of silk organza over peau de soie was trimmed with lace, as was her illusion veil which formed a chapel train. She carried yellow roses and daisies tied with potted satin.

At the reception in Pioneer Gas Flame Room, Mrs. John L.

Baxter of Friona poured punch as Katie Sue McClellan of Muleshoe served the wedding cake from a table centered with yellow mums and white carnations.

The bride attended a hair design school after graduation from Friona High School and has been employed as a hairdresser. An employee of Continental Trailways, the bridegroom has studied in Midwestern University and Cooke County Junior College.

The Big Room of New Mexico's Carlsbad Caverns is more than one mile long and has a floor space of 14 acres.

Barkowsky Ends OSU Workshop

Congressman Bob Price has announced that his assistant, Mr. Charles Lanehart, will be at the Courthouse in Hereford from 9 a.m. to 12 noon on July 19th to assist any Deaf Smith County residents who may have problems with the Federal Government.

Everyone is welcome to visit with Mr. Lanehart at this non-partisan, open to the public meeting. Congressman Price emphasized that these visits are arranged in an effort to bring the services of his office closer to the people of Northwest Texas.

La Madre Mia Meets For Salad Supper

A salad supper was a summer social event held by members of La Madre Mia Study Club Thursday night at the Flame Room of Pioneer Gas building. Hostesses were Mmes. Waldo Baxter, James Gentry, W.E. Sparks and Bill Thorne. Mrs. Dave Honea presided

to the Mission Screwworm Laboratory, have reported. "Treatment of cases in wild animals is not feasible because of the difficulty of capture and the high probability of causing additional wounds during the capture process," Ramsey said. A single treatment with a wound protectant will not provide protection for the entire period that is required for the wound to heal, he warned. "Therefore, it is advisable to postpone any trapping and transplanting of exotic big game until next winter after cold weather reduces the hazard of screwworms."

Two members were welcomed to the club, Mrs. Jimmy Anderson and Mrs. Dickie Geris as Mrs. Bill Thorne and Mrs. Carl Carile resigned.

For the conclusion of the meeting, gifts were exchanged with secret pals and members played party bridge.

Those present were Mmes. C.D. Adams, Lynton Allred, Baxter, Black, Carile, Gentry, Honea, Don Lane, Bobby Owen, Ben Scott, John Smith, Bud Snyder, Sparks, Don Walser, Ward, Charles Watson, Roger Williams, Bill Thorne and Craig Smith.

Texas Game And Livestock Endangered By Screwworms

Screwworms are again stalking Texas wildlife and livestock.

Cases reported in livestock this year are running higher than any previous period in the 10-year history of the program noted Charles Ramsey of the Texas Agricultural Extension Service.

Mild temperatures and favorable moisture conditions in South Texas have been ideal for rapid increases of screwworm populations that moved in from Mexico, Ramsey, a wildlife specialist at Texas A&M University, said. He pointed out that this past winter was unusually favorable for screwworm survival and breeding in northern Mexico,

and Texas had a ready source of infestation early this spring.

"Screwworms are firmly entrenched in the Brush Country and the lower Hill Country, two prime big game areas. Recent rains in those areas have insured favorable conditions for the screwworm during the current deer fawning season," Ramsey said.

New-born animals, domestic or wild, are particularly susceptible to screwworm infection around the navel, he added.

In domestic animals, reports indicate that almost 70 percent of the cases are from the navels of new-born calves. But, nearly 20 percent are from man-made wounds, veterinarians assigned

Three Attend CVAE Classes

Three Hereford men are among 240 teachers enrolled this semester in East Texas State University's Coordinated Vocational-Academic-Education (CVAE) program, a state-supported program to train teachers in the area of vocational instruction with modified academic instruction.

Attending from Hereford are Johnnie L. Matthews, Stanton Junior High; William Z. Penn, Hereford High, and Daniel R. Reed, La Plata Junior High.

The Texas Education Agency developed the program so Texas public school students who have special learning problems, can get a salable vocational skill and basic knowledge in the fields of math, science, English and social studies.

One of five extant drafts of the Gettysburg address in Lincoln's handwriting was written at the request of Edward Everett, former president of Harvard, to be sold at a fair for the benefit of soldiers.

At The Library History Is Setting Of Colorful Novels

Two novels now featured at Deaf Smith County Library have their basis in history. One is the story of a forgotten community altered by upheavals in the earth, the other the story of murder in England in a time when one could be beheaded for only a trifle.

In *The Godforgotten*, Gladys Schmitt tells the story of a mysterious community, removed from the Flemish coast, then replaced by a later upheaval in the earth's crust. It is a medieval tale which explores the problems man must deal with today.

Murder Most Royal, by Jean Plaidy is the tale of the murder of Anne Boleyn, whose rise from King's Mistress to King's Wife proved to be her downfall. It is also the story of the murders of many others who were too careless or too powerful to live during the reign of Henry VIII.

THE GODFORGOTTEN
by Gladys Schmitt
That deep and rich talent that

common to us all: the ascetic and the sensual, the intellectual and the religious, independence superior to investigate the truth about this community of Saint of spirit and submission to a larger authority.

MURDER MOST ROYAL

by Jean Plaidy
The theme of this long and powerful novel is murder — not only the murder of one of the most fascinating personalities in English history, Anne Boleyn, but of many more of the vital and famous people who lived in the dangerous days when a carelessly spoken word or one's nearness to the throne was sufficient to send a man to the block.

Against a violent background, the story of the ill-fated Anne Boleyn is told with remarkable insight and is interwoven with that of the other murdered Queen, Catherine Howard. Anne is seen as the humble daughter of a ruthless father, cheated of her lover, so that out of her proud nature grows that ambition which destroyed her by leading her to exchange the powerful role of King's mistress for the dangerous one of King's wife.

While Anne moves forward to tragedy, young Catherine Howard is seen growing up amid circumstances which may shock and horrify but which cannot fail to arouse deep interest and pity.

All through the book strides the magnificent, dominating figure of Henry VIII — sanctimonious, hypocritical, shrewd, cunning, and ruthless, sometimes sentimental but always amorous.

Painted in the rich colors of the period and faithfully portraying the splendor and frankness of Tudor times, this novel is both illuminating and entertaining. It is a savage, exciting, and deeply moving story.

Book Review Set At WSCS Coffee

A book review by Mrs. Robert Strain will be presented at a silver coffee in Ward Parlor of First United Methodist Church Wednesday morning. The Women's Society of Christian Service will be hostess.

All women of the church and their friends are invited to the 9:30 a.m. coffee, an annual event sponsored by the WSCS to raise funds for its work.

Mrs. Strain will review Earl Perry's book, *These First Called Him Master*.

Barkowsky In OSU Workshop

STILLWATER — Gene Barkowsky, of Hereford, attended a four-week personnel workshop at Oklahoma State University June 4-30 which included the study of "The Man-Made World," an interdisciplinary secondary science program that presents the principles behind technological development.

The course stressed interaction between man and machine, and between society and technology. Workshop participants designed awareness conferences to be conducted in their local regions, according to Dr. T.D. Johnsten, education professor and workshop director.

Your success contributes to the success of other people.

Airman Kirk Ward Man Completes Basic Training

Airman Kirk Ward, son of Mr. and Mrs. Ervin H. Ward of 130 Ranger Drive has completed his U.S. Air Force basic training at the Air Training Command's Lackland Air Force Base, San Antonio, Texas. He is remaining at Lackland for training in the security police field. Airman Ward is a 1970 graduate of Hereford High School.

Mrs. Gray Is TOPS Queen

Honored as queen for the month of June by Calorie Patrol TOPS club was Mrs. Jack Gray. She was presented with a basket of fruit by other members, and was honored along with her runner-up, Mrs. Herbert Bruns.

Charms are awarded by the club for two consecutive losses, and are kept until a gain is shown. Mrs. Adolph Knabe, Mrs. Leona Packard and Mrs. Kendon Anderson have won charms for ten pound losses. This contest will continue through August 1.

\$96 MILLION PROJECT SYDNEY (AP) —

The state government has before it a plan to build an 11-mile private railway through a string of northern seaside suburbs between Pittwater and Manly. The scheme estimated to cost \$96 million provides for a major transport terminal at Manly. Manly which extends from the ocean to Sydney Harbor, already has a steamer harbor ferry service to the city. The railway, mainly underground, would take commuters to and from the Manly ferry. The area at present is served by bus.

Letter To The Editor

Dear Editor

I have been out of town for a few weeks on return I have read the letter to the editor in the Brand 6-11-72 written by Raymond Flores in regards to the defeated school bond election. Mr. Flores in defending the farmers who are getting a lot of the blame for the school bond election defeat. It seems many people are and have been giving (sic) the farmers the blame for a long time, they need more letters like Flores to defend the farmers who are struggling (sic) under difficulties caused by high cost of equipment (sic) and labor and low prices of farm products. If farm products were bringing prices equal to labor union demands. Wheat & corn would be selling for 12 to \$15.00 per bu, milk that is 1.15 to 1.25 per gal would be 2.00 to 2.50 per gal, bread that we pay 33 to 35 cents per loaf would be 1.00 to 1.50 per loaf. Eggs that we pay 33 to 50 cents per doz would be selling for 1.50 to 2.00 per doz, chickens that have been selling for .50 to 1.00 for many years would be selling for 2 or 3 dollars each or more, flour that used to sell for 1.00 to 1.50 per 48 lb. sack, if flour would have kept (sic) face with union demands the price would be 8.00 or 10.00 per 48 lb sack while at present prices 25 lbs price is \$2.29 or 4.58 per 48 lb. gasoline at 29 to 34 cents per gal would be selling at around 1.50 to 2.00 per gal. If union leaders & labor would have to pay prices for living expences in according to the prices they are getting then they would have something to holler about, the ones that does the most hollering are a bunch of spoiled brats like the little boys sister some one asked the little boy if his sister could talk any yet he said she don't have to talk all she does is holler and she gets everything in the house. However there are a lot of people that is hurt by the present prices they are the comon labor and low income people. Labor strikes demanding higher wages are the cause of inflation.

Yours truly
Ole T Larson

Wedding Date Set

The wedding date of Miss Linda Sims, daughter of Mr. and Mrs. Dennis Sims, 112 Avenue I, to Doug Roberson, son of Mr. and Mrs. Hicks Roberson, 328 Star, is to be July 28, with the ceremony planned in the Roberson home, parents of the bride-to-be announce.

Both Miss Sims and her fiance are employed in Hereford, she at the Carousel Salon and he with Armour Foods. She is a 1967 graduate of Hereford High School, where he graduated with the 1965 class.

Spruce and fir trees grow best on loams, but pines prefer deep sandy soils. Availability of light is a main factor controlling the survival of many species of trees.

CARD OF THANKS
 We would like to express our appreciation to all our friends for the flowers, visits, and many acts of kindness during my recent stay in the hospital. To Dr. Mims, Dr. McCrary and all the staff and nurses for their kind attention. I am most grateful. Also to Bro. Norm MacDonald & Paula for their visits and words of encouragement. Friends mean so much and we truly appreciate every one of you.
 Sincerely
 Jessie Mason

Legal Notice

ADVERTISEMENT FOR BIDS PROJECT NO. WPC-TEX-OWNER: City of Hereford, Texas

Sealed bids for constructing a 14" sewer effluent line for the city of Hereford, Texas, will be received by the City of Hereford at the office of the City Manager, City Hall, until 2:00 P.M., July 17, 1972, and then at said office publicly opened and read aloud.

The Information for Bidders, Form of Bid, Form of Contract, Plans, Specifications, and Forms of Bid Bond, Performance and Payment Bond, and other contract documents may be examined at the following: City Manager's office, City Hall, Hereford, and Bill R. McMorries & Associates, Inc., 6300 Canyon Dr., Amarillo, Texas.

Plans, specifications and bidding documents may be secured from the office of the City Manager, City Hall, Hereford, or at the office of Bill R. McMorries & Associates, Inc., 6300 Canyon Dr., Amarillo, on deposit of Fifty Dollars (\$50.00) per set, which sum so deposited will be refunded, provided: (1) All documents are returned in good condition to Bill R. McMorries & Associates, Inc., not later than 48 hours prior to the time for receiving bids; or (2) The Contractor submits a bid and all documents are returned in good condition to Bill R. McMorries & Associates, Inc., not later than five days after the time that bids are received.

The Owner reserves the right to waive any informalities or to reject any or all bids. Each bidder must deposit with his bid, security in the amount, form and subject to the conditions provided in the Information to Bidders. Attention of bidders is particularly called to the requirements as to conditions of employment to be observed and minimum wage rates to be paid under the contract.

"NONDISCRIMINATION IN EMPLOYMENT: BIDDERS ON THE WORK WILL BE REQUIRED TO COMPLY WITH PRESIDENT'S EXECUTIVE ORDER NO. 11246 AS INCLUDED HEREIN. THE REQUIREMENTS FOR BIDDERS AND CONTRACTORS UNDER THIS ORDER ARE EXPLAINED IN THE SPECIFICATIONS."

No bidder may withdraw his bid within 30 days after the actual date of the opening thereof.

Comings and Goings at King's Manor

A program was presented at King's Manor on June 29, at 7:00 p.m., Dr. John English, first on the program, read scripture

and piano by Mrs. Nellie Stanford and Mrs. Maggie Hamilton. Jack Reynolds rendered a trombone solo entitled "He Lives on High". At this juncture religious art took over as Mrs. Don Davidson gave a narration on Leonard's "The Last Supper". A metal relief reproduction was in view and as each disciple was named Mrs. Hamilton related briefly the life of Augustus M. Toplady

from Mark's Gospel. Bobby and Bera Boyd led three sacred songs. A duet, "The Lord is my Shepherd," was played on organ

English-clergyman, writer of hymns, specializing Rock of Ages. The picture of "Rock of Ages" was also exhibited after which the Boyds sang the hymn interspersed appropriately with stanzas of Rudyard Kipling's "L'euvoi." The poem was read by Mrs. Ferne English.

Home made ice cream made by Mrs. Mamie McGowan and Mrs. L.W. Tooley was served.

Mrs. Evande Cox has just returned from a tour with friends including Amsterdam, Copenhagen, Stockholm, Oslo, Bergen, Edinburgh, Longon and Epworth. In Epworth, she enjoyed visiting the home of Samuel Wesley and the Wesley Chapel in London.

King's Manor residents look forward to hearing of her travels.

Mr. and Mrs. Joe Williams have just returned from an extensive trip to Salt Lake City and points between. They were able to secure many beautiful rock specimens and made many outstanding pictures which will be shown in the near future.

Mrs. Diamia Wood's guests over the week-end were her daughter and son-in-law, Mr. and Mrs. James Vernon of Tucson, Ariz.

Mrs. Lena Pryor's visitors over the week-end were her daughter and grandson, Mrs. Mary Beth Wells and David.

Mrs. Leigh Carter of Stephenville and Mrs. Carol Powell and children of Bay Town visited their grandfather, Hugh Smith.

Mrs. Ramsey, her son Joe and family of Plainview visited Mrs. Vera Pickens. Mrs. Donald Moore of Clovis, N.M., was also Mrs. Pickens' guest for several days.

Mr. and Mrs. Joe Davis of Amarillo were guests of Mrs. Martha Shirkey and Mrs. Jessie Boardman on Saturday.

Mrs. Kathryn West's daughter, Mrs. Bobbie Pittman, of Muleshoe visited on Wednesday.

Mrs. Elizabeth Greer's guests from Morton were Mrs. C.C.

Sign Language

Highway Signs Released

Although the "new look" in highway signs is not as revolutionary as the miniskirt - Texas Highway Department engineers hope it will be as eye-catching.

In many cases, symbols, shapes and colors are substituted for words. It is hoped that this will give the message to motorists at a glance and remove language barriers.

The new symbol signs and pavement markings adopted by the Texas Highway Commission are from the revised "Manual on Uniform Traffic Control Devices" released by the Federal Highway Administration.

The new prohibitive signs are probably the most important. These signs all have a red circle with a slash cutting diagonally

through the center which means "DO NOT" or "NO." The symbol inside the circle shows what is prohibited.

For example, a sign showing a black left turn arrow with a superimposed red circle and slash designates "NO LEFT TURN."

The yellow diamond-shaped signs still stand for a warning, but some of the symbols showing hazards are new. In addition, most warning signs continue to have a word message, but the message is located under the sign on a plaque.

For example: The word message "MERGING TRAFFIC" is replaced by a black arrow being joined by a smaller black line. A plaque under the sign will have the

word "MERGE." It is hoped this will minimize confusion as to which stream carries the merging traffic.

School signs are shaped like a schoolhouse, containing the silhouettes of two children on a yellow background.

Color is a key in the new system. Red indicated stop or prohibition; green shows movement permitted or gives directional guidance; blue signifies motorist services; yellow indicates general warning; and black on white is used for regulatory signs such as those for speed limits and for most guide and destination signs.

In addition, orange (a new color in the Manual) will convey construction and maintenance warnings.

The shapes of the new signs are important. Diamond shaped signs signify warning; rectangular signs with longer vertical dimensions provide traffic regulation, rectangular

signs with longer horizontal dimensions contain guidance information. An octagon always means stop and an inverted triangle means yield.

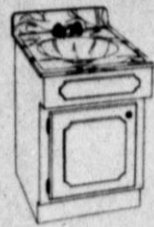

In addition to the new signs, there are major adjustments in the use of color lines for pavement markings.

Yellow lines will be the only color used for centerline markings on two-way roads and white will remain on multiple-lane highways - for separating traffic flows in the same direction.

A broken yellow centerline will mark the division of the road where passing is permitted. A solid yellow line to the right of a broken yellow centerline will mean no passing is allowed for traffic in that lane.

Double solid yellow lines will denote areas where no passing is permitted by traffic traveling in either direction. Similarly, double yellow lines will mark the center line of multilane divided highways.

FROM PLAINS COTTON GROWERS, INC.

The July 1 estimate of standing cotton acreage on the High Plains, made by Plains Cotton Growers, Inc. and the Lubbock Cotton Exchange, shows 2,602,000 acres of cotton in the 25 PCG counties surrounding Lubbock. This compares with 2,499,700 planted acres and 2,324,400 harvested acres in 1971.

While the estimate is called the "July 1 estimate," according to Joe D. Unfred of New Home, chairman of the PCG Estimates Committee, calculations were not made until July 5, and acreage lost to hail prior to that time was taken

into consideration. Discussion in the committee meeting July 5 indicated that from 100,000 to 150,000 acres of cotton was planted on the Plains and lost to adverse weather too late for replanting. This would place total planted acres in the 25 counties at around 2.7 or 2.75 million acres, up eight to ten percent over 1971 plantings.

Normal "abandonment" of cotton from planting to harvest on the Plains runs about 7 percent of the average, and this level of abandonment in 1972 would leave around 2,530,000 acres for harvest. Abandonment in 1971 figured 7.1 percent.

Dawson County leads the list in acreage standing with 256,000, and Lubbock is next with 240,000. Deaf Smith County was estimated to have 5,000 acres standing on July 1.

Looking ahead to the harvest, almost anything can happen, with the final outturn largely dependent on weather.

Reynolds, Mrs. Beulah Baldwin and Mrs. Dot Key.

Cathy, Debby and Jennie Luker of Dallas are spending some of their vacation from school with their grandmother, Mrs. Don Davidson. All of the Manor residents enjoy Mrs. Davidson's grandchildren.

"THAT LIGHT UP THERE", Dale Moore points as he talks over a problem in stage lighting with the director, Sylvia Emerick, as the cast of high school and junior high students assembles for rehearsal.

Musical Play For Children Is Scheduled

A FAIRY TALE in drama and music, The Frog Prince will be presented Friday and Saturday as Hereford Community Players' summer show for children. It will be staged in the Little Bull Barn Theater at 8 p.m. each day, and in a matinee performance at 2 p.m. Saturday.

IN THE TITLE ROLE, Pat Swindell is dressed in doublet and hose and wears a crown to show that he is an authentic fairy-tale prince as he gestures in rehearsing a song, accompanied by Linda Gilbert who is adding a touch of ham to the performance.

SMILING PRINCESS Melinda Watts is flanked by Olaf the Guard, played by Gordon Gearn, and Nanny Coo, Cathy Close.

A CRITICAL LOOK at a costume is taken by Joyce Haug, who is in charge of costuming the fantasy. John Gilliland is assisting in getting the frog costume ready for the prince after he is put under a spell by the wicked witch, Nana Gilleland.

The Sunday Brand

(Section Two)

Hereford, Texas, Sunday, July 9, 1972

By the Garden Gate

With Glad

By Mrs. Art Manjeot

"For the sun, each flower reaches — Cannot touch it, this they know, But this constant striving, reaching, reaching, Stretching of their roots, Is what makes the flowers grow."

The more we work with flowers, and other plants the more we love nature and marvel at the mysteries and wonders revealed. Truly it is through her that we have one of our best and most thorough means of therapy.

It is in the month of July that the many garden tasks are the same in all sections of the United States and Canada. Throughout this garden area, gardeners have been pleased to note the three new ALL-AMERICA ROSE QUEENS. Three new hybrid tea roses of rare beauty have risen to the elite circle of the All-America selection. They will be widely promoted and available for the 1973 season, beginning with sales this fall. Interested and alert gardeners will start now to plan to have one or more of these selections to add to their rose gardens.

The following are the names of the selections: Electron (modern trend), Gypsy, (an intriguing name) and Medallion (sounds a bit old-fashioned).

Electron, comes from Ireland, having won many awards in Europe. It rates well as both an exhibition and a garden rose; was bred by Sam McGredy 4th. It seems to have everything, according to information from the judges, and growers. The flashing, intense rose-pink color, and the long-lasting fragrance will make it a great favorite.

Medallion, combines unusual coloring with a plant which has vigorous well proportioned growth pattern, color described as an apricot-buff, and the blossoms are noted for the wide blooms with color varying in intensity from bud stage, and as it weathers it turns more to pinkish pastels. This is especially noted in the fall months. Parents of this rose are South Seas, and King Ransom. Was hybridized by Jackson & Perkins, under their hybridizer William Warriner.

Gypsy, a fiery orange-red, richly luminous color, with an enticing urn shaped bud, which stays with the blossoms as it develops in to full bloom. A delightful spicy fragrance. Plants strong, and sturdy with deep green leathery foliage. Parents are Happiness, Chrysler, and grand-parents El Capitan and Commanche. These quantities will make us want to have Gypsy growing in our gardens. O.L. Weeks developed this beautiful rose.

Some of the tasks which the gardeners will be participating in throughout July are grooming the annuals, perennials, and roses, and other plants which have flowered and need attention. The trees, shrubs, and evergreens which were planted earlier in the season will need extra attention. Check for insects, dryness of soil, and cultivate lightly around the plants after they have been watered. (Do not cultivate until soil is lightly crusted)

Add to compost pile by saving the tops of vegetables, such as beets, carrots, leaves from cabbage and lettuce, and any other materials acquired in

preparation of vegetables for the table. (Remember do not ever add materials which have salt, or grease on them) Test compost for moisture and if needed add water, also check the ventilation of the pile. (A pipe should have been centered when the compost was started.)

Lawns should be checked for insects or diseases also note the grass after mowing to know how well the mower is performing. If rough tips are shown then the knives of the mower may need sharpening or perhaps new ones purchased. It is important that the mower be in good condition throughout the months of service.

Now is the time to plant zinnias for late flowering, the last planting of Glads (July 15th final date for fall blossoms). Marigolds can also be planted for the fall garden. Remember if there are extra plants, and the new planting is too thick these can be thinned and transplanted, also zinnias. Preparation for the turnip patch should be made.

For the best results with zinnias, which are inclined to have mildew, I would suggest consistent spraying when they have three or four leaves. In purchasing the seed try to purchase those which are disease resistant. There are so many varieties the zinnias and marigolds, that a most interesting and beautiful planting can be made. Study these and select several varieties, and plant in an interesting design. Some years ago my mother, Mrs. Howton, planned and planted a zinnia garden, and had a most interesting and beautiful array of zinnias. Blossoms ranged from the one inch size to the three and four inch blossoms. Some were trailing while other were tall aristocratic plants, towering over the others.

By request I am listing Moon Sign planting dates. These are taken from Vera Deason's Garden column, and her authority is the 1972 Moon Book, Edited by Llewellyn's. During the increasing light of the moon (from New Moon to full Moon) plant annuals that produce their yields above the ground. During the decreasing light (from Full Moon to New Moon, plant

Biennials, perennials, and bulb root plants or those which make under ground.

After the rains we will all be busy keeping down the weeds and grasses, dates for killing weeds and cultivation in general are: July, 7, 8, 11, through 14, 20, 22, 25, 26, 30 and 31; for planting for hardiness in your plants choose July 9th, 10th, 15 through 19; and especially good for root crops, July 23, 24, 28 and 29.

BUSY DAYS. Glad has had some very busy days this last week. The alley had to be thoroughly cleaned and all weeds and grass cut and removed. Trimming lawns, checking roses for black spot and mildew, feeding and watering the border of daisies, and several hours were used to drive over town (over 30 miles) checking on what was growing and the changes made while I was away. To my delight I saw many beautiful plantings, some of which were of verbenas, daisies, rose hedges, as well as other lovely roses. (In the month of June the roses have been unusually beautiful) color harmonies (the lovely harmony created at West Gate was very striking) petunias, (a planting in all red on Star St., very beautiful!) geraniums, Portulaca (moss rose) hemerocallis, gladioli, and some well kept lawns, and CLEAN ALLEYS (I always drive through some of the alleys so I can see the back-yard gardens and patios, as well as check on vegetables growing. The McRights, and Herman Fords have promising vegetables growing.

A BELIEVE IT OR NOT: I have a lovely poinsettia in full bloom, with nice foliage. It has been pretty ever since Christmas Eve, when I purchased it, for Christmas cheer. This is indeed the LONGEST I have ever had flowering poinsettia this long. KNOW YOUR OWN. ENJOY ITS BEAUTY.

For a quick salad combine french-style canned drained beans with drained canned bean sprouts and French dressing. Rinse, the bean sprouts with cold water and drain well before using.

Tech Music Camp Draws 900

A record shattering total of 900 students are expected to "come blow their horns" during the annual Texas Tech University Summer Band Camp which opens today on campus. The number far exceeds last year's enrollment, also a record at approximately 800, according to camp director Dean Killion. Killion, known officially as director of bands at Texas Tech, is more renowned as the guiding force behind Tech's spectacular "Goin' Band" from Raiderland.

Killion said no additional registrations can be accepted due to this year's huge enrollment which originally was to have been limited to 850. Participants in the two-week camp are students who will be in the seventh grade or above during the 1972-73 school year.

They may participate in band, twirling or drum majoring. Electives include theory, music appreciation, brass ensemble, woodwind ensemble, percussion ensemble, clarinet, choir, conducting, improvisation, rhythm, twirling, drum majoring, marching, stage band and private lessons.

The camp also offers a class for university credit as a band workshop.

Auditions and on-campus registration for the camp are scheduled from 9 a.m. to 3 p.m. in the Music Building. Students will live in Tech residence halls, and a planned recreation program each night will offer activities including swimming, picnics, games, movies and dances.

A late afternoon concert will be given by camp participants July 15, and the final concert will be presented July 21, the final day of the summer band camp.

The staff of band directors is made up of Francis McBeth of Ouachita Baptist University, Killion, Phil Anthony of Lubbock, Bill Bradley of Big Spring, D.W. Crain Jr. of Petersburg, Doyle Gammill of Lubbock, Jim Harvey of Muleshoe, Barbara Sperberg of

Seymour and Dick Whitten of Lubbock.

Stage band directors are Bill Snodgrass of Lubbock, Don Turner of Texas Tech and Robert Mayes of Midland.

Flute instructors are Mrs. Margaret Redcay of Lubbock and Willis Giddens of Plainview; oboe, Orlan Thomas of Texas Tech; bassoon, Richard Meek of Texas Tech; clarinet, Mrs. Barbara Lovett of Lubbock and Don Eiring of Snyder; Saxophone, George Riddell of Odessa and Tom SoRelle of Springlake-Earth; low woodwind, Herb Germer of Post; and double reeds, Kyle Ellison of Big Spring.

Ellison also will join Don Caldwell of Lubbock as instructor for improvisation classes.

Cornet instructors will be Richard Tolley of Texas Tech,

Sam Knepley of Crane and Robert Mayes of Midland; French horn, Chris King of Lubbock and Rick Lambrecht of El Paso; trombone, Jerry Starkes of Lubbock; baritone, Mark Crouch of Texas Tech; tuba, Bob Daniels of Texas Tech; and percussion, Roy Barbee of Lubbock.

Mrs. Chris Jones of Lubbock, Mrs. Diane Mayes of Midland, Marlin Lindsay of Levelland and the Texas Tech majorettes will serve as instructors in drum majoring and twirling.

Other members of the staff include assistant camp director Bill Woods of Seagraves, recreation director Sam Robertson of Seminole, girls counselor Carol Bain of Memphis, boys counselor Jerry Bartley of Abernathy and secretary Linda Goodman of Lubbock.

Vander Zee Talks To Kiwanis On NORM

Harlan Vander Zee, Hereford State Bank president, and president of the National Organization for Raw Materials, Inc. spoke on the purpose of NORM at the noon meeting Thursday of the Kiwanis Club.

David Lowerwald and Twig Rose, members of the Hereford Key Club, attended the International Meeting of Key Clubs, where Lowerwald ran for an international office unsuccessfully.

Gene Brink was named Kiwanian of the month.

Vander Zee said that NORM is built around raw material production and income realized from this production. He said that the main concern of NORM is the fact that raw material producers are not receiving the right kind of prices for their products or labor.

Agriculture was the main concern Vander Zee talked about. He stressed the fact that every agricultural community is totally dependent on the in-

come of the agricultural productions, such as Hereford. NORM is the outgrowth of a committee started in Hereford which was concerned with the local agricultural problems. However, NORM is involved with other raw material industries in addition to agriculture, including mining, fisheries, and forestry.

"Some of our leaders are not concerned or aware of the problems which face our raw material industries," Vander Zee said, "that's why NORM was formed."

Vander Zee stressed the fact that every business works on profits, and that agricultural people are realizing the least amount due to the fact that the government has overlooked their need.

"This program is not aimed at just increasing raw material income, alone," Vander Zee said, "it is to increase everyone's net income."

He said that business profit is a gain for a loss of another business. He continued by

Fat creeps up on people just like age. So, when you're looking for that ideal way to shed extra pounds, here are some weight reduction traps to look out for.

Be cautious if you're planning to join reducing salon or a health spa. Don't get carried away with your good intentions. The "before" and "after" photos advertised by the clubs may be inspiring but sometimes unrealistic.

Complaints from former patrons of such salons indicate that claims about the advantages of the salons are often misleading. One cause for dissatisfaction is that, while the facilities may be open during the hours indicated, they are not always available to all individuals at all times. Specific saying that economic profit is when new money is placed into the system, and that raw material is the only producer of new money.

Vander Zee closed by encouraging the members of the Kiwanis Club to consider joining in the NORM movement.

days of the week may be limited to either men or women. The advertised equipment and facilities are not always available at each club.

Some spas promote a special price for a "limited time" membership; this is usually just a "come-on." Once they get you inside, the prodding begins. Many people as high-pressured into signing at least a full year contract which is almost impossible to break if the membership services are found to be unsatisfactory.

Spa salesmen often fail to disclose to customers the nature of the contracts they are asked to sign, the circumstances under which memberships can be terminated, the nature of the "guaranteed results" or how the guarantee will be honored.

Be wary of pills, too. Look with suspicion at the so-called "miracle" drugs for weight reduction. They may be only ineffective, in which case you will lose money...not pounds. The U.S. Food and Drug Administration has issued a statement saying that "there are no drugs that can safely control the problem of obesity."

There is no magic formula for an overweight person to eat whatever he or she wants and melt of excess fat by taking one or a dozen drugs a day. At best, some drugs may give only short term relief to reduce the appetite. And, certain reducing pills can be truly harmful to your health.

An evening out

...at home

...where the charm of a GAS light lets the evening last a little longer

...and the food has an exciting outdoor aroma and flavor, found nowhere else in the World!

A GAS outdoor grill gives food a tangy outdoor flavor without the time and bother of charcoal fire. Char-broiled flavor comes from the smoke of meat juices dripping on hot briquets. Charcoal itself provides no flavor. Permanent ceramic briquets in the gas grill reach cooking heat in a few minutes, and there is no long wait to start cooking. The heat is regulated manually so there is no need to move a grill up or down.

MASTER CHEF (AMK)
The better grill. Cash price \$90.83. Budget price \$109.80. Budget terms \$3.05 per mo. for 36 mos.

PARTY HOST (HEJ)
The professional one. Cash price \$108.68. Budget price \$131.40. Budget terms \$3.65 per mo. for 36 mos. Rotisserie extra

CHEF'S CHOICE (CC-1)
The outdoor range. Cash price \$143.33. Budget price \$173.52. Budget terms \$4.82 per mo. for 36 mos. Rotisserie extra

GAS LIGHT
(#300 Black - #325 White)
Cash price \$60.85. Budget price \$73.63. Budget terms \$2.05 per mo. for 35 mos. 1 final payment \$1.88.

An outdoor GAS light adds a touch of safety and elegance to any patio or front yard.

SAVE \$28.50 BY BUYING A PATIO PAIR:

	Cash Price	Budget Price	Budget Terms
Gas Light #300 or #325 AND...			
Master Chef (AMK)	\$121.75	\$147.24	\$4.09/36 mos.
Party Host (HEJ)	\$139.60	\$168.94	\$4.69/36 mos.
Chef's Choice (CC-1)	\$174.25	\$210.96	\$5.86/36 mos.

Patio Pair prices include normal post-type installation (up to 50 feet of line and both in same locality) and 5% sales tax. Budget terms are available at 12.75% annual interest on declining balance.

BUY A GRILL NOW AND RECEIVE FREE a handy aluminum SHELF for your grill. (Offer of a free shelf expires July 31, 1972)

Call Pioneer or ask a Pioneer employee about a Gas light and grill for many memorable EVENINGS OUT AT HOME.

Adrian news

BY ANN BEAVERS

Cherri Betts, with five other students from this area, met Tuesday in Amarillo. Wednesday they went to College Station and Thursday left for Washington, D.C. to attend the 4-H National citizenship short course and heritage tour. They will return home on July 19. Cherri is the daughter of Mr. and Mrs. W.B. Betts of Adrian.

Mr. and Mrs. Terry Williams and boys of Amarillo spent the holidays with Mr. and Mrs. Hoarce Betts.

Mr. and Mrs. Alford Jobe and family spent Sunday afternoon in Tucumcari with his parents, Mr. and Mrs. Lewis Jobe.

Leslie Messingale of Dalhart spent the weekend with Mr. and Mrs. Alford Jobe and family.

Craig Fulcher has spent the past two weeks in Wellington with Mr. and Mrs. Neal Gray and girls.

Mr. and Mrs. Dickie Harwood of Amarillo visited during the holidays with the Fred Harwood family.

Mr. and Mrs. John Amason of Dalhart visited Sunday afternoon with Mr. and Mrs. Jack Fincher.

Rickey Whaley of Moore, Okla. visited in Adrian during the holidays with friends and relatives.

Arlena Sain of Amarillo visited a few days last week with Mr. and Mrs. Ralph Guest.

Howard Engle visited last week in Big Spring with his parents, Mr. and Mrs. Dewey Engle.

Mrs. Bob Gruhkey attended a Southern Methodist University reading clinic three weeks in Dallas. Mrs. Gruhkey stayed with her daughter, Martha, while there. She also visited the Eastern Star Home in Arlington. On the way home Mrs. Gruhkey visited Mrs. Jennie Gruhkey and son Marion at Orlean.

Mr. and Mrs. Bill James and Mrs. Linda James of Canyon spent Sunday in Palo Duro Canyon on a picnic.

Mr. and Mrs. Labry Ballard of Hereford, Mrs. Ray Brown and Bessie Spande left Wednesday for two weeks vacation in Houston, Minn. with Mable

Chapel and Grace McCloud, sisters of Mrs. Spande.

Margaret Collins and Mary Sue Stone of San Jon, N.M. were Monday dinner guests of the Alford Jobe family.

Mr. and Mrs. E.E. Allen spent the weekend in Odessa with Mr. and Mrs. P.C. Davis and Mr. and Mrs. L.C. Davis.

Mr. and Mrs. Wilbur Harris and family are vacationing for two weeks in South Fork, Colo. area.

The Pat Blankenship family visited Sunday at Borger with Mr. and Mrs. Homer Warren.

Mr. and Mrs. Phillip Pinnell, Clifton and Colby of Plainview visited Saturday with Mr. and Mrs. R.L. Pinnell and Mr. and Mrs. F.A. Kromer. Clifton and Colby stayed with the Kromers, while the Phillip Pinnell spent a few days in Santa Fe.

Roger Wann of Norman, Okla. was home during the holidays with his parents, Mr. and Mrs. Oliver Wann.

Mr. and Mrs. Gene Webb and children of Amarillo visited Monday afternoon with Mr. and Mrs. E.E. Allen.

Mr. and Mrs. Lester Boner, Norma Jane and Laura of Portland, Ind. spent last week with their other daughter and husband, Mr. and Mrs. David Clayton, at Wildorado. They also visited in Adrian with Mr. and Mrs. Andrew Grey and Terrell.

Jill Brorman celebrated her sixth birthday with a party in the home of her parents, Mr. and Mrs. Ray Brorman, Wednesday. There were 21 children at her party.

Mr. and Mrs. Ray Brorman attended the wedding of Ronnie Reiter and Anne Frye Saturday night in Hereford.

Irene Brown attended an ex-teachers and students reunion Sunday at Floreat. Mrs. Brown taught there seven years; her last year to teach the first grade, there was in 1933-34. Mrs. Brown also visited her sister, Mrs. Molly Simpson in Northfield.

Mr. and Mrs. R.C. Chism spent last week in Snyder, Neb. to bring home a new well repair rig.

Mrs. R.L. Pinnell visited in Hereford Wednesday with Mary Cozart, Doris Pinnell, Mr. and Mrs. Chick Burney and children. Later Mrs. R.L. Pinnell visited Mrs. Cord Hammock in her new home, Mrs. Glen Hetzler and Mr. and Mrs. A.E. Head. Most of these are former Adrian residents.

Tonya Ballintine of Baytown is spending this week with Mr. and Mrs. Pat Blankenship and family.

Mr. and Mrs. Cecil Blasingame visited in Amarillo Saturday with Mr. and Mrs. Elmo Bird.

Mr. and Mrs. Frank Barker and boys of Levelland spent Sunday with his mother, Mrs. Billie Morell.

Girls attending basketball camp last week at Friona were Rene Moore, Dana Betts, Tammy Durham, Susanne Rohrbach, Cindy Rohrbach, Belinda Jackson, Brenda Briggs and Nancy Scott. They had a wiener roast at the Lawrence Jackson home Friday. They were voted best hustling team.

Mrs. Wayne Bronniman was honored with a bridal shower Friday evening in the home of Mrs. Jake Fortenberry. Other

hostesses were Mmes. Earl Brown, Jim Perrin, Joe Lomax, F.A. Kromer, Leland Burns, R.M. Gruhkey, John Heiselman, Pat Blankenship, Webb Blankenship, Sherman McCown and Miss Patty Fortenberry.

Dr. and Mrs. J.E. Witt of Bakersfield, Calif. visited last week with his mother Mrs. Anna Witt at Kings Manor retirement home in Hereford. They also visited in Adrian with relatives.

Mr. and Mrs. George Harwood of Lubbock were here during the holiday's with Mr. and Mrs. Fred Harwood and family.

Mr. and Mrs. Derral Sewell, Leslie and Carroll of Odessa visited recently with Mr. and Mrs. Elmer Weidner. Leslie and Carroll remained for a longer visit and returned home last week.

Mr. and Mrs. Mike Horton of Carrizo Springs visited during the holidays with Mr. and Mrs. John Horton.

Mr. and Mrs. Sam Brown are parents of a son, Brian Earl, born June 29 in Deaf-Smith General Hospital. Grandparents are the Ray Browns and the Leland Burns.

Mr. and Mrs. P.H. Gruhkey, with the Bobby Banks family of Amarillo, fished at Monument Lake, Colo., several days last week.

Adrian high school cheerleaders won four ribbons at a cheerleaders clinic in Lubbock recently. Joy Sifford, Janis Wood, Vicki Lloyd and Belva Jackson attended from Adrian.

Mr. and Mrs. Howard Engle spent the holidays in Santa Fe.

The Bob Lotspeich family of Hale Center visited last weekend with Mr. and Mrs. George Lotspeich and the Kieth Kromers.

Lance and Letisha Chism spent last week with Mr. and Mrs. Ed Bawcom, at Boys Ranch while their parents were on a trip to Nebraska. Janie, Karen and Mitch Pinnell of Channing spent last week with Mr. and Mrs. while the Ed Pinnels were in Nebraska.

Mr. and Mrs. Wesley Ballintine of Baytown and Joyce Dixon of Stinnett visited Friday night with the Pat Blankenship family.

The Oliver Wanns returned Wednesday after attending the funeral of his grandmother at Wister, Okla.

Social Security

Social Security beneficiaries need not apply for the 20 percent benefit increase signed into law by President Nixon on July 1. Amarillo social security district manager Travis C. Briggs said today that all social security beneficiaries who are on the benefit rolls in September will receive the increase automatically. The increase is effective beginning with payments for the month of September and will be in the check delivered October 3, 1972. The average monthly benefit for a retired worker goes up from \$134 to \$162; for a retired couple from \$224 to about \$271. A widowed mother with two children will receive an average social security benefit of about \$386, up from \$322. For a disabled worker with a wife and one or more children, the new average monthly payment will be about \$354, increased from 295.

The special monthly payments that are made to certain individuals age 72 and over who are not insured for regular social security case benefits will also be increased by 20 percent, from \$48.30 to \$58.00 for an individual and from \$72.50 to \$87.00 for a couple. The new law also includes a provision for automatic annual increases in social

security benefits as the cost of living rises in the future — a recommendation made by President Nixon in his 1969 message on social security. Under the new law the contribution and benefit base — the maximum amount of annual earnings that is counted for benefit and contribution purposes — will rise from the present \$9,000 a year to \$10,800 in 1973 and to \$12,000 in 1974. Thereafter, this amount would be adjusted automatically to keep pace with rising wages. This means that as earnings rise workers whose earnings are at or above the level of the maximum earnings base will pay contributions on higher earnings — but they also will have those additional earnings counted toward the benefits that will be payable to them and their families in the future.

Crime Fighting, Everyone's Job

How Citizens Can Fight Crime and Encourage Law Enforcement

Crime prevention and law enforcement are the duties of every American. There is much for the Church to do and there are many fields of crime prevention in which women, as well as men, can have great impact.

Here is a program which you can use in your community—large or small.

Find out how bad crime really is in your community. Visit your police department, your sheriff, your town marshal or the nearest state police headquarters. Have a list of questions ready to ask. Find out whether crime is increasing, how many people in your community actually are involved in crime, whether juvenile crime is increasing and what people are doing about all of this. Check frequently with your law enforcement officials. Ask how you can help.

Take a look at lighting in your city or town. Can you help with lighting surveys? (Crime goes down as much as 85 per cent where there is adequate lighting.) Is the area around your church well-lighted? Around your home? How about the streets of your city or town?

Take a look at your courts — or court — as the case may be. Find out what courts you have and how the judges are chosen. Visit your courts. Find out what happens there. You may be surprised how many defendants appear with great frequency, how many young people are charged with crimes, how many youths in courts are dropouts, how many cases are continued or delayed. Why not plan a court-watching program — One in which you schedule two women a day into your municipal, criminal and juvenile courts — not to look at specific cases, but to observe patterns. Talk with your judges. Ask how you can be of service.

Keep in touch with law-making as it affects crime prevention. As citizens, you can and should be interested in legislation.

Find out how many dropouts you have in your city or town. Even if you don't have a major problem, your help may be needed. Dropouts can't get jobs, they are idle and they get into trouble. Work with your school administrators in getting dropouts back in school. In Indianapolis, Indiana, women working on a personal basis — one woman with one youth — have been able to help more than 2,000 young people to return to school — without tax funds. You also can help young adults who have dropped out to return to school and complete their high school education. Assist them in finding vocational training preparatory to jobs.

Clothing often is needed for dropouts.

Set up a clothing room in your church — a room where people of the church and community can bring good, used, clean clothing suitable for young people. Make sure that a volunteer group helping dropouts to return to school knows about the clothing room. Arrange to have volunteers at the room certain hours each week after school.

Help young people to find jobs: urge them also to participate in some kind of service in hospitals, clinics, settlement houses, day nurseries. Judges say that few youths who give part of their time to service get into trouble. Write a simple "Directory for Teen-Age Service," and mimeograph copies.

Set up a study room in your church for young people and children who have no place at home to study. Arrange for free tutoring in English, math, science, history and other subjects. Many former teachers and retired teachers enjoy work of this sort a few hours a week.

Find out how many people in your city or town can't read. You'll be surprised how many people can't even tell whether a bus goes "CROSSTOWN" or "CENTRAL." You'll be surprised how many parents can't read their children's first grade books. Set up literacy classes. There are many methods — Laubach (each one teach one.) Board for Fundamental Education plan: "Direct Approach to Reading," and many others.

Meet with parole officers and other corrections officials and ask to help youths released from correctional institutions. Police records show that approximately 35 per cent of juvenile offenders are repeaters, usually charged with two offenses. These youths need help in order to adjust to law-abiding life in their communities. One boy stole a shirt two days after he was released from a correctional school. Why? He didn't have a shirt. An 18-year old girl stayed in the school 8 months after her release because she had no home to go to.

There are laws for children...but few children and few adults are familiar with their state statutes affecting juveniles. Ask your police or write to your Secretary of State for copies of the statutes. Talk with school officials and police in order to arrange a program whereby police can go into classrooms and talk to children about the laws which affect them.

Begin a spruce-up campaign in one area, and enlist the help of women throughout the city to make the program city-wide. A clean city is a law-abiding city. Good housekeeping is a crime deterrent.

UN—A Lot Of Paper Work

Paperwork has been exploding everywhere but there are few pulp industry customers that can rival the United Nations.

By conservative estimate, the UN spends about \$30 million annually, or about one-seventh of its budget, to generate documents. It seems that UN people have a lot to say, and of course, it has to be said in five languages—English, French, Spanish, Chinese and Russian.

And, according to a New York Times story by Robert Alden, some of the material is by no means dull. One Food and Agriculture Organization report, for example, reveals how you can determine a tiger's age, sex and temperament by careful study of his, or her, paw print.

A 31-nation UN committee spent a year studying how to cut paperwork but only added to the problem with their own 219-page report. But no wonder. If all the other material is as fascinating as the study of tiger palmistry it would be hard to know where to start cutting.

—Wall Street Journal

MAIN STREET, U. S. A.

OSHA Act Poses Political Dilemma

BY BERT MILLS

Washington, D.C. — Longshots seldom win in Congress but one did during June when both the House and Senate adopted riders to an appropriation bill to exempt small business from Federal inspections under the new Occupational Safety and Health Act.

Small businessmen and farmers, whose bitter protests against overzealous enforcement of an overly tough law caused Congress to act, are not yet assured they have won their battle, despite favorable votes on both sides of the Capitol. The bill containing the rider may be vetoed by President Nixon, for reasons unconnected with OSHA.

The legislation carrying the

OSHA rider is the appropriations bill to supply fiscal 1973 funds to the Departments of Labor and Health, Education and Welfare. Congress added so many hundreds of millions of dollars to educational programs that fiscal sanity may force the President to veto the bill. That would kill the OSHA exemption for small business, unless Congress overrode the veto or reenacted the rider in a revised bill.

Another uncertainty is the extent of the exemption. House and Senate riders are identical except the House forbids job safety inspections of firms with 25 or fewer employees, while the Senate limits the exemption to companies with 15 or less workers. Those figures will have to be compromised, and perhaps the conference com-

mittee will agree on 20.

Republicans Sponsored Exemption

Another unusual aspect of the revolt against OSHA is that Republicans won their battle, despite the fact that Democrats control Congress. Enough Democratic votes were attracted to bring about a 213-154 vote in the House, and a 45-41 margin in the Senate.

Rep. Paul Findley (R., Ill.) pulled off the surprise in the House and Sen. Carl Curtis (R., Neb.) led the insurrection in the Senate. Curtis lost on his first try, 44-41, when his amendment included the figure 25 as the cutoff point. He changed the number to 15 and reversed the original result.

Ironically, Congress completed passage of the bill while an investigating committee was still holding hearings on OSHA and its impact on small business. A subcommittee of the House Small Business Committee was seeking to build a record which would lead to action next year. A House Labor subcommittee has also promised hearings on OSHA next September.

The Findley-Curtis riders are not outright exemptions for small business. They forbid payment of salaries to Federal employees who inspect firms with 25 or fewer employees, or 15 or less. This was the only legal way to stop small business inspections through an amendment to an appropriations bill.

Case Points Up Several Lessons

Several lessons should be learned from what is happening to OSHA. One is that organized labor does not always get its way in Congress. The unions were primarily responsible for passage of OSHA back in 1970, and fought the Findley-Curtis riders as hard as they could.

A second lesson is that Congress ought to write sounder laws in the first place. OSHA passed the Senate by a unanimous vote, with nobody foreseeing the trouble it would cause so soon after taking effect. A third lesson is that the Labor Department has bungled the enforcement job by being too tough and causing a national uproar. The bureaucrats have now been put in their place, assuming the small business rider becomes law.

Biggest lesson of all, however, is that aroused citizens with a just cause can achieve reform through legislative action. Small businessmen and farmers did not march or picket or demonstrate. They simply told their story to their elected legislators, and the democratic process worked.

THE BOOTLEG —Philosopher

Editor's note: The Bootleg Philosopher on his Johnson grass farm seems a little puzzled this week. It's not the first time.

Dear editor:

As I understand it, because meat prices have soared so high they've now reached the level they were 20 years ago, Washington has lifted import quotas on foreign meat in an effort to get prices down to a level where a housewife can still buy all the beef she wants and have money left over to buy the other necessary grocery items like hand lotion, nylon hose, cigarettes, baby powder, hair spray, cushions for the family speed boat, lawn chairs, etc.

I guess this is a step in the right direction provided Washington will keep walking. For example, the price of cars has soared in the last few years, and this naturally calls for a lifting of tariffs on all foreign made cars.

The price of labor has gone up, so I suppose Washington is planning on lifting all immigration restrictions to let in more foreign labor to help bring that price down.

There are all sorts of television sets, radios, motorcycles, even farm tractors, being manufactured in foreign countries, and letting them to flow in tariff-free will certainly help bring down the cost of living.

Everybody knows the price of gasoline and oil has soared, far past what it was 20 years ago, or even three years ago, so naturally we'll start importing all of that we can get. After all, the way to fight inflation is to fight it all over. Gasoline is certainly as essential as hamburger meat.

Come to think of it, the price of Congressmen and Senators has gone up over 400 per cent in the past 20 years, and 20 years ago you could get 4 Governors for what one costs today, so...no, I'm afraid that'd be going a little too far. No use going over board.

And after all, only 8 per cent of the voting population raises cattle, while 100 per cent of it buys meat. On the other hand, only one-half of one per cent or maybe less makes automobiles. Some things are just too hard to figure out right here at the beginning of hot July.

Yours faithfully,
J.A.

From The Brand Files

50 YEARS AGO

The Manville Bros. tent show departed Sunday morning after a week's stand here. This show was declared by its patrons to be above the average for shows of its class. "God grants liberty only to those who love it and are always ready to guard and defend it." — Daniel Webster. FOR SALE or Trade — One Cadillac, model 53. Will trade for good milk cows and hogs or mules. For information contact Renfro & Sons. A water system is being installed in Panhandle, the county seat of Carson County. Twenty-four thousand feet of water main is laid and pumps and reservoir installed.

35 YEARS AGO

Wheat Thursday morning was bringing \$1.02 a bushel in Hereford and since harvest started in this section has consistently hung above the \$1.00 a bushel price. During the week wheat got as high as \$1.04 a bushel — a peak here on the 1937 crop. Work was completed Saturday night on the temporary bridge which spans the Tierra Blanca at the south end of Main Street. The bridge was constructed of treated timbers, and traffic was routed over the new structure Saturday night.

20 YEARS AGO

All types of building activity — residential, commercial and remodeling — amounted to \$305,550 in Hereford for the first half of 1952, a check of the building permits issued at the city hall revealed this week. Postal receipts for the Hereford post office during the first half of 1952 were on the increase when compared with the volume during the same period of 1951, according to Postmaster Jim Lipscomb.

10 YEARS AGO

Two Hereford girls thrilled large audiences at the Will Rogers Range Riders Rodeo in Amarillo last week as one broke two records and another captured the title of Range Riders Rodeo Queen. Miss Jo Poarch set a new record for junior riders in the Range Riders Rodeo. Miss Jerre B. Noland, Hereford Rider's Club Queen, captured the crown of Range Rider's Rodeo Queen in competition Wednesday evening. Hereford's all-state half-back Mack Cansler has signed with Oklahoma University.

Talk Of Texas

BY JACK MAGUIRE

FOOTNOTE TO HISTORY — Early Texans were so distrustful of bankers that they drafted a Constitution in 1845 that prohibited the chartering of any banks in the state!

"No corporate body shall hereafter be created, renewed, or extended with banking or discount privileges," one clause stated. "The Legislature shall prohibit by law individuals from issuing bills, checks, or promissory notes, or other paper, to circulate as money."

The prohibition against state banks was continued in the Constitutions of 1861 and 1866. However, authors of the Constitution of 1869, which appeared during the Reconstruction following the Civil War, omitted the restriction against banking — and ten state banks were chartered.

However, the Constitution of 1876 restored the article prohibiting banks. As a result, the state banking system did not become legal until some tinkering with the Constitution finally made it so in 1905. Even today, however, Texas banks can operate from only one location. Branch banks are not permitted. The law concerning branches does not apply to savings and loan associations.

TRAVELING TEXAS — Perhaps the most unique architectural complex still surviving in the state from the 19th century is the old Ursuline Academy at 300 Augusta Street in San Antonio.

The oldest building in the complex — that which housed the academy itself — was completed in 1852 and may be the only structure made of caliche still standing in Texas. Caliche, a natural soil formation of calcium carbonate that abounds in central and western Texas, has cement-like qualities that made it a good construction material for both the Spaniards and the Indians.

The old building was not designed as a convent, but as a home. Legend has it that it was built by a French settler, Jules Poincard, as a wedding gift for the girl he planned to marry. She jilted him, however, and he sold the building to the Rev. John Mary Odin, later the first Roman Catholic bishop of Texas, to use as a convent.

PEDAL PUSHER — When Mrs. Pearl C. Lavender, 70, of Lubbock decided to go visit relatives in West Virginia, she made the 1,600-mile trip on her bicycle!

She rode from 50 to 75 miles each day, usually riding from early morning until noon. She rested after lunch until late afternoon, then rode until dark. She made the six-week trip without incident except for one flat tire. However, she and her bike came home by bus.

YOU SHOULD KNOW THAT — Pumpkin Center, Possum Trot and Forks of the Creek aren't just names that exist only in the vernacular.

The Hill County Historical Society has verified the fact that each of these places once existed as communities in that county.

Economic Stabilization Questions and Answers

Q. How do the Price Commission regulations on profit margins treat low-profit manufacturers, retailers and wholesalers operating at a loss?

A. Manufacturers, retailers and wholesalers with sales of \$1 million or more are permitted to increase any of their prices by an amount which will not result in a profit margin which exceeds their applicable profit margin as determined by consulting tables published in the March 9, 1972 Federal Register.

Those firms with revenues of less than \$1 million are permitted to increase any of their prices by an amount which will result in a profit margin that does not exceed three percent.

Prices under the loss and low-profit rules can be adjusted to achieve the specified profit margin provided that no individual price is increased by more than eight percent. All other types of loss and low-profit manufacturers, retailers, and wholesalers must apply for an exception to obtain relief.

Q. Now that retailers and wholesalers must use a new form, PC-10, to prenotify and report markups, do they have to refile for those increases

prenotified or reported on the old PC-1R form?

A. No. All filings previously submitted on the PC-1R do not have to be refiled. However, effective as of June 1, all future prenotifications and quarterly reports by retailers and wholesalers must be submitted on the new PC-10 form, which is now available at all local Internal Revenue offices.

Q. My business was issued a notice for allegedly violating price controls. What happens at an IRS interview requested by a firm that has been issued a notice of violation?

A. During the interview you will be informed of the particulars of your case that are alleged to show a violation of Economic Stabilization Program regulations and guidelines. In addition, sufficient facts, figures and legal analysis will be made available to you in order to acquaint you with the nature, basis and other essential elements of the alleged violation. You may, if you wish, be accompanied by counsel at this interview.

Economic Stabilization regulations do not provide for an appeal from a notice of violation to the Price Commission, Pay Board or Cost

Living Council in Washington, D.C. The interview with the local IRS District Director serves this purpose more conveniently since one or more IRS district offices are located in each state.

For more information on notices of violation, see IRS Publication S-3024, "Violations of Economic Stabilization Program Regulations." It's available free by dropping a postcard to your IRS district office.

Q. Is it necessary for a hospital to post a sign stating the availability of a schedule of base prices and to make that schedule available even if it does not plan to increase its prices at this time?

A. Yes. As of December 29, 1971, all institutional providers are responsible for maintaining a schedule of base prices and all changes in those prices, and must post a sign stating the availability of this schedule. This must be done regardless of whether the institution intends to increase prices.

Q. What are the "principal services" whose prices must be posted by the hospital?

A. The "principal services" for which base prices must be listed in the schedule are those which comprise 90 percent of the annual revenues. However, any price of \$5 or less need not be listed.

Anne Bonney was an 18th century pirate who terrorized the coast of Jamaica. After her capture, she escaped hanging by claiming to be pregnant.

JULY BIRTHDAY PARTY—Four residents of Westgate Unit of Kings Manor Retirement Home, were honored Wednesday afternoon at a party for residents whose birthdays fall in July. Hosting the party was the Marjorie Stephens Circle of First Baptist Church. Honorees, from left, are Virgie Tole, Emma Shumacher, Jessie Boardman and Mary Woolery.

Bayne Named As Director Of Water Program

Dudley Bayne, city manager, has been named to direct the water pollution control and abatement program required by S.B. 835 which orders cities of 5,000 population or more to establish such programs on a local basis.

Administered by the Texas Water Quality Board, local programs have been established in the 217 Texas cities to which the law applies. Meetings with city officials were held by TWQB officials earlier in the year and additional conferences are being scheduled during July and August to answer questions and provide whatever help the cities need in handling their programs. Tom Kelly of the TWQB will conduct the meetings for which dates will be announced.

Cooperating in scheduling the conferences will be 24 Councils of Government within which all of the 217 cities are represented. SB 835 directs cities within the

specified population range to perform pollution control functions, develop an inventory of waste dischargers, monitor all significant discharges, collect samples and conduct periodic inspections, and to use legal enforcement when necessary.

The House of Representatives in Washington last week (June 26) approved the big annual Public Works Appropriation bill which includes funds to complete the West Texas-Eastern New Mexico Water Import Study. House action was based upon the recommendations of the Appropriations Committee, headed by George Mahon.

The \$691,000 appropriated this year will bring the amount spent on the seven-year study to a total of \$6.1 million.

The bill also includes \$481,000 to complete the three-year comprehensive water resource study of the Lower Mississippi Valley, which is closely

associated with the Import Study. This \$2.4 million water resource study is essential to supplement the information being developed as part of the import study concerning the nature and extent of the availability of surplus water for export from the Lower Mississippi region.

The next step to be taken will be largely dependent on the findings of the present reconnaissance study, scheduled for completion by June 30, 1973. Authorization must then be obtained to proceed with the follow-on feasibility study.

Mahon said, "We do not know what the recommendations will be, but we are, of course, hoping for the best because our needs are very great and time is running out."

THE FAMILY LAWYER

Missing Facts

Two witnesses swore that Harry was the man who had robbed the supermarket, and a jury found him guilty of the crime. Not until after the verdict did Harry's lawyer find out that two other witnesses had told police Harry was definitely not the man. Was this grounds for overturning the verdict? The prosecutor didn't think so.

"We are not obliged to do the other side's homework for them," he told the court. "If they failed to dig up this information on their own, that is just too bad."

But the court ruled that the verdict could not stand. The judge said the purpose of a trial is not merely to punish the guilty but also to free the innocent.

This is a general principle of

law, reinforced by the Canons of Ethics of the American Bar Association. A prosecutor must not suppress evidence capable of establishing the innocence of the accused.

The principle applies not only to guilt itself but also to the degree of guilt. Consider this case: A man was charged with murder. During the trial, the prosecutor withheld testimony that the defendant had been drunk at the time of the slaying.

Admittedly, this testimony could not have cleared the defendant. But at least it could have reduced the crime from first to second degree murder. Reversing the guilty verdict, a higher court said the trial was incomplete without the missing fact of intoxication.

Still, the prosecutor does not have to bring out everything he knows. In an arson trial, the prosecutor kept quiet about a chemical test that had been performed by the FBI.

Challenged later on this omission, he pointed out that the FBI test merely confirmed other tests already known and available to the defense.

Result: the verdict was upheld. The court said the missing information simply was not important enough to make any great difference.

Ten per cent of all homes in the United States will be heated electrically by the end of 1972.

Frank H. Roby, president of Sola Basic Industries, told electric heating representatives at a convention.

Texas Press Group Announces Offices

New officers for the Texas Press Association have been announced by Don Coppedge, publisher of the Waxahachie Daily Light, newly elected president.

Officers serving with him are Tom Steely, Lamar County Echo, Paris, first vice-president; Glenn Sedam, Bay City Daily and Don Scarbrough, Williamson County Sun, Georgetown, secretary-treasurer.

New chairman of the TPA board of directors is outgoing president, Rigby Owen Sr., Conroe Courier.

Elected to three-year terms as board members were Bill Collyns, Midland Reporter-Telegram, and Frank Baker, Fort Stockton Pioneer.

Elected to fill unexpired terms were Bob Hamilton, Iowa Park Leader, and Bob Hickey, Mineral Wells Index.

Holdover directors include J.C. Chatmas, Marlin Daily Democrat, and Fred Barbee, El Campo Leader-News.

Officers of the regional press association also serve on the board.

Coppedge appointed the following additional members to the board: Dick Brown, Austin American-Statesman; J.C. Gresham, Killeen Daily Herald; Craig Woodson, Brownwood Bulletin; Tom Buckner, San Marcos Record; S.J. McBeath, Sweetwater Reporter; O.G. (Speedy) Nieman, Hereford Brand; Bill Hall, Laredo Citizen, and Frank Luecke, Cameron Herald.

Benjamin Franklin, epitome of success, lost a government job in 1774, when the English monarch fired him as postmaster general for the American colonies.

Dinner
Is Given**

Rehearsal dinner Friday evening in the Community Room of First National Bank preceded the Saturday wedding ceremony of Donita McDermitt and James Henson.

Mr. and Mrs. Gail Henson of Conway, Mo., parents of the bridegroom, hosted the dinner which was served to families of the bride and groom and to attendants of the couple.

The room was decorated in the bride's selected rainbow colors of lavender, yellow, pink and blue with a lavender carnation on each table.

**Women Of
C Of C To
Have Lunch**

Music will make up the program for the summer membership meeting of the Women's Division, Deaf Smith County Chamber of Commerce, at a 12 o'clock lunch in Hereford Country Club Tuesday. Mrs. A.J. Schroeter, music chairman in the fine arts division, is in charge of arrangements.

All members of the Women's Division are invited to the lunch, one of the quarterly general meetings. Mrs. Lynn Kester, president, will direct business.

**Bride-Elect
Honored At
Shower**

Glenda Nahrgang was honored at a miscellaneous shower held recently at the Community Room of First National Bank. Miss Nahrgang and Alvin Downey plan a wedding for July 15.

Punch and cookies were served from a table centered with a white basket with an arrangement of white and yellow daisies. The refreshments were served by Mrs. Floyd Cole and Mrs. Richard Layman.

Hostesses for the shower with Mmes. Layman and Cole were Jennie Phillips and Mrs. Edwin Axe, also Mrs. Bob Dulaney and Mrs. James Head of Dimmitt.

Mrs. Terry K. Pennington
... former Wileta Wylly

**Miss Marnell Is
Feted By Party**

Janice Marnell, bride-elect of Mike Brumley, was feted Friday evening by a shower in the home of Mrs. Ira Scott.

Miss Marnell welcomed guests along with her mother, Mrs. Ed Bezner; mother of the bridegroom-elect, Mrs. Roger Brumley, and Mrs. Scott.

Her color scheme is based on two shades of pink.

Serving punch and cake from a table decorated with a pink spring bouquet were Genie Robbins and Beverly Friemel, Margie Paetzold welcomed

guests at the registry.

Hostesses included Mmes. Joe Reinauer, Pat Robinson, Frank Zinser Jr., E.M. Hoffman, W.G. Frank, Herbert Friemel, C.J. Berend, Cecelia Vasek, John Betzen, Norbert Skypala.

Also Mmes. Ralph Packard, J.B. Sowell, Jess Robinson, Lester Wagner, Joe Brorman, Leander Reinart, Walt Warren and Frank Robbins.

The couple plans a July 15 wedding at St. Anthony's Catholic Church.

**Miss Turrentine
Honored Friday**

Feted by a bridal shower Friday evening in the home of Mrs. Wilber Gibson was Carol Turrentine, bride-elect of James Haile.

Greeting guests in the receiving line were Miss Turrentine, Mrs. George Turrentine, mother of the bride-elect; Mrs. J.B. Haile, mother of the prospective groom; Mrs. Bess Werner, grandmother of the bride-elect; and Mrs. Gibson.

Martha Roach of Odessa and Jeanie Paetzold, cousins of the bride-elect, served refreshments from a table covered with white sheer over shrimp colored cloth. Green umbrellas decorated the yellow and green napkins.

An arrangement of shrimp gladiolas, yellow and white daisies and babybreath, flanked by shrimp candles in silver holders centered the table.

Mrs. W.W. Roach welcomed guests at the registry, which was covered with shrimp colored cloth and featured a silver slipper holding the bride's chosen flowers and

traditional blue garter. A new penny and a string of pearls were added to the decor.

Miss Tricia Herr served as pianist.

Serving as hostesses were Mmes. Gerald McEachern, James Jesko, Joe Reinauer Sr., E.C. Reinauer Sr., Walter Lemons, Ed Loerwald, Andrew Kershen, C.J. Berend, Austin Rose Jr., Carl Last, Fran Bezner.

Also Mmes. Melvin Kalka, Ewald Berend, Juston McBride, Ernest Flood, Raymond Herr, E.C. Hammitt, P.B. Sowell, Ed Paetzold, F.A. Marnell, Howard Walker, M.C. Kaul, A.E. Hodges and Robert Hickman.

Planning an August 4 ceremony, the couple will be wed in St. Anthony's Catholic Church.

**Curtis-Greene Wedding
Solemnized At Church**

Miss Shirley Annette Curtis became the bride of Fredrick Donald Greene Friday evening at the First Baptist Church with the Rev. Earl Landtroop of Clovis, retired Baptist minister, officiating.

Miss Curtis is the daughter of Mrs. Lorena Curtis, 901 Sioux, and F.R. Curtis of Plainview. Greene is the son of Mr. and Mrs. Henry McDonolds of Ormond Beach, Florida.

Bouquets of pink gladiolas flanked three candelabra which decorated the church.

The bride, given in marriage by her father, wore the gown in which her sister and matron of honor, Mrs. James A. Rambo of Holyoke, Colorado, was married.

Styled with directoire silhouette, of ivory silk peau de soie designed with a felted bodice of alencon lace, the gown has scalloped neckline and Doir sleeves.

The wide trumpet flared skirt terminated in a chapel length train. Re-embroidered lace edge the hemline.

Her fingertip veil of illusion was bordered with Chantilly lace, and she carried a bouquet of pink and white orchids. A diamond pendant belonging to her mother was the only jewelry Miss Curtis wore.

Wedding music was by Leaton Clark with Patsy Morris, soloist, singing The Lord's Prayer and One Hand One Heart.

Attending her sister as matron of honor was Mrs. Rambo. James V. Ford of Hartley, cousin of the bride, was best man. Ushering guests were Clinton Mayfield and Mike Ford, cousins of the bride, and James A. Rambo.

Karen Curtis, daughter of Mr. and Mrs. Wayne Curtis was flower girl and Jason Morris, son of Mr. and Mrs. Doyle Morris was ring bearer. Lighting candles were Bryan and Britian Mayfield.

Mrs. Rambo wore a pink and white brocade satin dress and carried a bouquet of pink roses and white snapdragons entwined with babybreath.

A reception in the church fellowship hall followed the ceremony with Marla Mayfield registering guests. Diane Mayfield, Marcy Curtis and Laurie Curtis poured punch and coffee as Cynthia Mayfield and Becky Curtis served the cake.

The bride's table was covered with a pink cloth overlaid with

white lace and the groom's table was covered in blue with a white cutwork cloth.

Mrs. Jim Clark, Lovie Galloway, Mrs. Wayne Curtis and Mrs. Lottie Bee Curtis were other members of the houseparty.

For a wedding trip to Colorado, the bride wore a blue satin and chiffon dress and blue accessories. The couple will be at home after July 21 in Meridian, Mississippi.

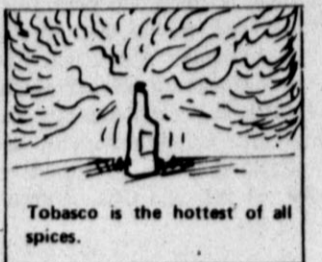

Miss Curtis has recently returned from southern Spain where she spent five months. Greene was stationed in Rota, Spain, with the U.S. Navy.

The bride was employed in Hereford as secretary in the county agents' offices and has attended Hereford schools. After graduation from Plainview High School, she studied at Eastern New Mexico University and West Texas State University.

Greene graduated from school in Daytona Beach and attended college in Guam. He started his military career in

1955 in the U.S. Navy and is working as a C-130 flight engineer. He will be stationed in Meridian as a VFW Assn., Fleet Reserve Assn.

Guests attended the wedding from several towns in the Panhandle and also from Dallas and Fort Worth.

Mix a tablespoon of dry onion soup mix (just as it comes from the package) with half a cup of softened butter and spread over slices of French bread (kept in loaf shape). Heat the bread, wrapped in foil, before serving.

Cook sliced zucchini and onion strips in olive oil in a skillet. Add canned stewed tomatoes and reheat. Serve in sauce dishes.

Wedding Vows Exchanged In Afternoon Ceremony

A mid-afternoon ceremony Saturday was read for the marriage of Miss Yolanda Gonzalez and Jimmy Madrigal Jr., with the Rev. Boniface Riedmann conducting the nuptial mass in St. Anthony's Catholic Church.

Parents of the couple are Mr. and Mrs. Alfredo Gonzalez, 208 Raymond, and Mr. and Mrs. Santiago Madrigal, 608 Avenue I, both families long-resident in Hereford.

Her sister, Miss Chela Gonzalez, was maid of honor to the bride, who was given in marriage by her father. Best man was Richard Rodriguez.

Bridesmaids were Miss Ernestine Ortiz of Camp Wood, Misses Linda Camarillo, Juanita Gonzalez, Concha Perez, Hope Rodriguez, Mary Jane Cano, Lupita Calderas, Angie Martinez, Eva Menchaca and Alicia Cantu.

Acting as groomsmen were Refugio Montano, Raymond Zepeda, Manuel Figueroa, Arthur Charles, Joe Garcia, Manuel Lee Losoya, Juan Manuel Casaraz, B.J. Reyes and Richard Navarro.

Reyes were the junior attendants and Yolanda Garcia lighted candles at the altar. Joe, son of Mr. and Mrs. Jesus Garcia, was ring bearer. Sylvia Reyes, Alicia and Veronica Estrada were flower girls.

Mrs. Frances Parker, organist, played wedding music, including the theme from the motion picture, Love Story.

A coronet of pearl and crystal flowers which held her long illusion veil, and the bouquet carried by the bride were imports from Mexico. Her dress, with basque bodice and skirt formed by waterfall tiers of lace over taffeta, was fashioned with Sabrina neckline and long puffed sleeves.

The spreading skirt swept into a chapel train and the lace-bordered veil extended into a

longer train. She wore a diamond necklace which was the gift of her maid of honor.

Half the bridesmaids were dressed in empire frocks of maroon shade, with daisies at the high waistline and puffed sleeves. The others wore yellow, with V-neckline and long organza sleeves. Their arched bouquets were of daisies.

After the wedding a reception was held in St. Joseph's parish hall, where tables were covered with cloths in varied colors. Each was centered with a candle matching the cloth, based in a circle of daisies.

Mr. and Mrs. Raul Villarreal served the wedding cake, while Irene Vasquez and Rebecca Hernandez poured punch. Members of the church's Holy

Name Society registered guests. Also assisting were Miss Chela Gonzalez and the bride's cousin, Concha Perez.

For the honeymoon trip to Carlsbad, New Mexico, Mrs. Madrigal changed to a purple empire dress with short puffed sleeves, with rows of white lace from waistline to shoulders.

The couple will be at home in Hereford after the trip. Both are graduates of Hereford High School. The bride was organist in St. Joseph's Church here five years. The bridegroom is an employe of Motor Inn.

Out-of-city guests for the wedding included Mr. and Mrs. Marcos Ortiz of Camp Wood, Mr. and Mrs. Gonzalo Aguilera, Mr. and Mrs. Jose Salcedo of Hobbs, N.M.

KayLynn Lyman Honored Preceding July Marriage

Several showers complimenting Kay Lynn Lyman were held this week and more are scheduled for the following weeks before her marriage to Brent Caviness planned for July 22.

Miss Lyman was honoree at a brunch held at Hereford Country Club and guests brought gift items for the kitchen which were displayed under a green and yellow umbrella decorating the gift table.

The room was decorated in summery colors with an arrangement of yellow daisies with limes placed decoratively centering the table.

Hostesses were Mmes. Richard Ottesen, A.K. Roark, Bob Josseland and M.A. Hoelscher.

High school and college

friends were invited. Mrs. Bill Lyman, honoree's mother and Mrs. Pete Caviness, mother of the bridegroom-elect were special guests.

A miscellaneous shower also honored the bride-elect in the home of Peggy Deas. Close friends were invited to attend and were served sandwiches and drinks.

Mrs. Craig Fuller and Debra Wilson were also hostesses.

Friends in Lubbock, where she attended college at Texas Tech, complimented her with a linen shower Saturday afternoon with Mrs. Lyman and Mrs. Caviness attending as guests.

Also slated for next week is a luncheon to be held at Lubbock Country Club and college friends will be invited.

Lions Hear Speaker

Lyle Robinson, Swisher Rural Electric Cooperative manager, was guest speaker for the regular weekly luncheon meeting of the Hereford Lions Club Wednesday at the Civic Club Center.

Robinson spent two years in India helping to establish rural electric cooperatives, and his talk concerned this project for an underdeveloped area of the world. Robinson showed slides of India during his talk. He was introduced by Lion James Hull.

Ben Gollehon, Hereford High band director, appeared before the club briefly to tell highlights of the band trip to Mexico City and express appreciation for the support of the club. The band represented Texas at the International Lions Convention.

Nolan Grady, new club president, announced that Ed Skypala of Hereford has been named as secretary for Texas Lions. He also announced that the Evening Lions Club is holding a golf tournament on

Saturday, July 22, and noon club members are invited to participate.

A number of guests were recognized at the weekly meeting. The club's new officers assumed duties this week.

Couples who were attendants as bridesmaids and groomsmen included Messrs. and Mmes. Jesus Garcia, Frank Garcia, Raul Villarreal, Leonel Villarreal, Agustine Padilla, Juan Gonzalez and Gabriel Estrada.

Prince Valiant
IN THE DAYS OF KING ARTHUR
BY HAL FOSTER

Our Story: WHEN KING DASHAD SEES THAT HIS NEW SHRUBBERY HAS WILTED HE FLIES INTO A RAGE AND ORDERS TWENTY LASHES FOR THE HEAD GARDENER.

"MAY I PUT A QUESTION TO THE PRISONER?" ASKS VAL. THE KING GIVES A SURLY NOD. "WHY DOES THE SHRUBBERY DIE?" VAL ASKS

"THEY ARE MOUNTAIN SHRUBS AND LONG FOR THE KEEN COOL WINDS OF THEIR HOMETLAND AND THE WINTER SNOWS UNDER WHICH THEY REST TO BLOOM ANEW IN THE SPRING," ANSWERS THE GARDENER. "THEY CANNOT LIVE IN THIS HOT CLIME."

"OH, WELL, JUST GIVE HIM FIVE LASHES," SAYS THE KING GENEROUSLY. THEN TO VAL: "SHALL WE GO HUNTING?" HE BARKS AN ORDER AND FRIGHTENED SERVANTS SCURRY TO BRING HIM HIS GEAR. TO HIMSELF, VAL MAKES A PROMISE. "I CONSIDER IT MY KNIGHTLY DUTY TO CUT THIS ARROGANT LITTLE TYRANT DOWN TO SIZE!"

THE HUNT. DUCKS WITH CLIPPED WINGS ARE DRIVEN BEFORE THE KING WHO SHOWS SURPRISING SKILL. HE SHOUTS FOR GLEE AT EVERY KILL. "DID I NOT SAY I WAS A MIGHTY HUNTER?" HE BOASTS.

"LOOK, SIR VALIANT, I HAVE KILLED TWENTY WHILE YOU HAVE ONLY FOUR!" "FOUR IS ALL I CAN EAT," ANSWERS VAL. "FOR A SPORTSMAN DOES NOT KILL GAME WANTONLY."

NOW VAL SPREADS THE BIRDS OUT ON A MARBLE TABLE. "A SPORTSMAN MUST BE ABLE TO PREPARE, COOK AND EAT HIS GAME. I WILL SHOW YOU HOW."

THE KING LETS OUT A HOWL OF INDIGNATION: "LET THE SCULLIONS DO THAT!" "WHAT?" CRIES VAL. "ARE WE NOT SPORTSMEN? MUST WE DEPEND ON IGNORANT SCULLIONS? NO! LET'S GET TO WORK!"

PONYTAIL BY LEE HOLLEY

hints from Heloise

DEAR FOLKS:
After so many years of wear, sometimes the nose piece on your spectacles just breaks. Period! Anyway, it's usually time to get a new prescription anyway.
But you know what I did?
I took the broken frame, and bent the ear piece out about a half-inch and down, and made me a one-eyed spectacle. By holding my one-eyed glass about 12 inches or so from my nose, I am able to

look with both eyes through the lens, as it acts as a magnifying glass. Of course, this will depend upon your own prescription.
It's a great idea! I do not wear glasses except to read and am always going somewhere and forgetting them, or having to use the phone book and can't find my good ones.
I leave one section of my "one-eyed lorgnette" by the

phone and carry the other in my purse for emergencies.
I've even had guests use them when they use the telephone directory, so it can't be too bad.
Heloise

DEAR HELOISE:
During the year it is necessary for us to send out many church bulletins and newsletters.
We have found it a lot faster and easier to flatten the creased mailings with a size D flashlight battery. And the ink does not smear as it does when these are hand-folded.
George

DEAR FOLKS:
Ever had company in your household who brought along a little pet or a tiny baby and no play pen?
It's absolutely impossible

to watch their every movement.
I was visiting recently and just such a thing happened. We tried blocking the door with a dining room chair laid on its side. It didn't work.
As a last resort, I suggested they try a leaf from their dining room table. It worked.
Just lay it up against the door opening and prop a chair against it. Sure suffices when in a pickle. And does a good job, may I say?
Love,
Heloise

JUST ABOUT 98.6!

DEAR HELOISE:
My husband seldom drinks coffee.
His main complaint is the coffee is always too hot to drink. If I add cold water to

the cup, he is robbed of some of the good flavor, and if he has to wait until he can drink it, he says he is out of the mood for coffee. So, here is what I do...
When I get up in the morning to start the coffee perking, I place his plastic insulated-drinking cup in the freezer.
Now, when he is ready for his coffee, I simply pour it into the chilled cup and the coffee is at drinking temperature in minutes.
Barb

DEAR HELOISE:
How many times have you seen a small child trying to put on a coat or sweater, then his arm in one sleeve and then chase around and around like a puppy chasing his tail, trying to get his other arm in the coat? Here's one way of solving the problem:
Have the child face you. Hold the coat by the hem, upside down, with the lining

towards the child.
Have the child put his arms into the armholes and raise his arms over his head and the coat slides right on.
If he is quite independent and thinks he can do it all by himself, this idea would also work by laying the coat on a flat surface, the lining facing up with the collar closest to the child.
It works every time.
Mrs. C. W. F.

RAINY DAY FUN

DEAR HELOISE:
I made a cute game for my two boys, age seven and five, that entertained them for quite some time.
We took the lid of an 8" x 10" box and drew a clown face in the lid. I then punched a small hole for each eye and one for the nose.
Then I gave them each three marbles and they raced to see who could ease the marbles in the holes first.
They had a lot of fun and it cost almost nothing to make.
V. L. K.

DEAR HELOISE:
You can't beat corn on the cob for pleasing children or for back-yard barbecues.
The best way to serve it is to have a quarter-pound stick of butter (still refrigerator hard) especially for the corn, and roll the hot ear of corn on the butter.
Sprinkle the corn with salt and go at it!
Of course, the butter gets out of shape, but you can either save it for the next time you serve corn or use it for cooking.
"Dodie"

DEAR HELOISE:
If you have a cat, don't throw away the juice from cooked peas. Most cats like a small amount now and then.
Also, the leftover egg yolk from baking, that's drying up in the refrigerator while waiting for you to decide just where to use it, will not only keep your cat happy, but also provide him with a beautiful, shiny coat.
Carol

DEAR HELOISE:
It seemed that every time I wanted something out of my jewelry box, the necklaces

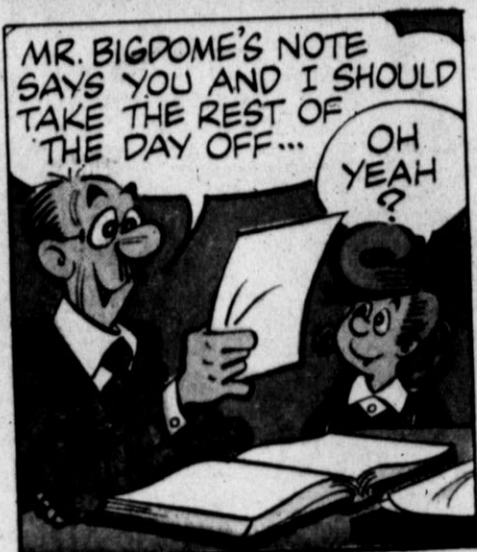

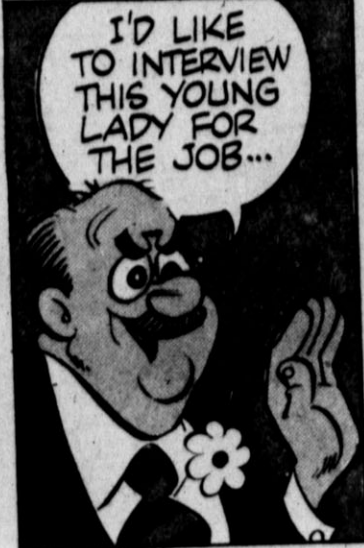

were tangled, and I had to hunt and hunt to find the mate to an earring.
I no longer have that problem as I took a layer out of a chocolate box, sprayed it gold, and cut it to fit my jewelry box.
Now I have a separate little cubbyhole for each piece of jewelry.
Neat Now

LETTER OF THOUGHT

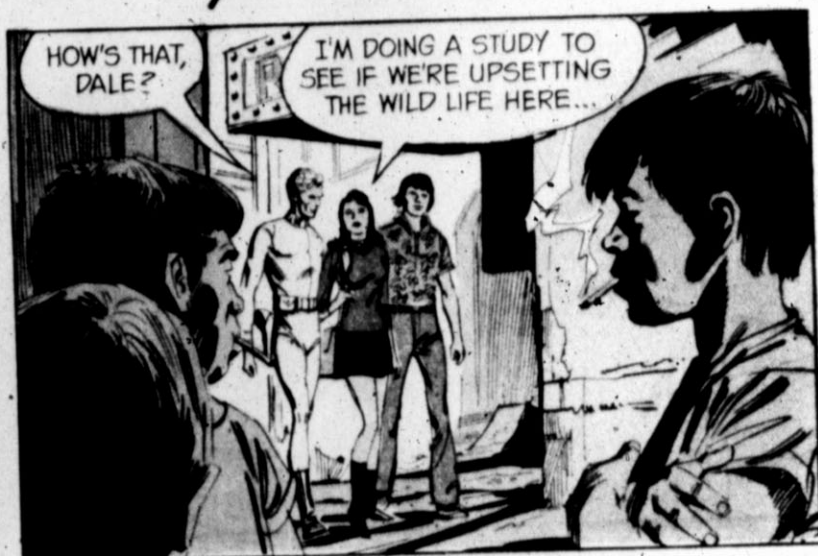

DEAR HELOISE:
Why is it we spend money on moving, walking, talking toys, and the child plays in the dirt with an old spoon, a couple of sticks, an empty tin can and the box the toy came in?
Confused Mother
Well, I guess it just shows to go you.
Kids have just as great a time with trivial things as with expensive ones.
Save your money as their imagination is all that is needed to make up the difference.
Heloise

CAN YOU TRUST YOUR EYES? There are at least six differences in drawing details between top and bottom panels. How quickly can you find them? Check answers with those below.

1. Ball in mid-air; 2. Pin in mid-air; 3. Towel in mid-air; 4. Chair in mid-air; 5. Ball in mid-air; 6. Pin in mid-air; 7. Towel in mid-air; 8. Chair in mid-air; 9. Ball in mid-air; 10. Pin in mid-air; 11. Towel in mid-air; 12. Chair in mid-air.

Hal Kaufman's JUNIOR WHIRL

BULLETIN BOARD

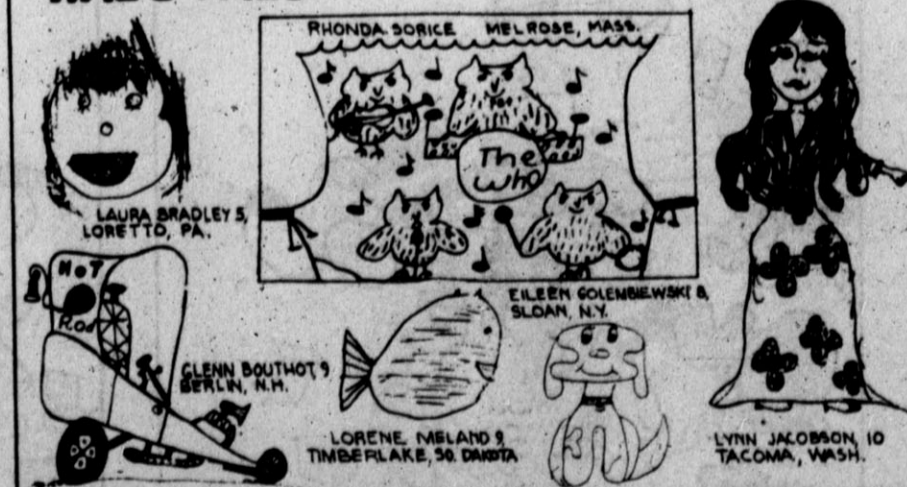

● LOOK-SEE! Let's suppose a person on the ground observes the five-sided Pentagon Building in Washington, D.C. from a distance. What is the greatest number of sides he can see at one time?
At most, three sides.

● Read this phrase fast and phonetically and it seems to make sense: INX INX INX-What does it say? Hint: It has to do with a leaky pen.
It stinks in.

● Virginia Prado of San Antonio, Texas, asks: "If there were seven copycats sitting on a bridge and one jumped into the water, how many were left?" Can you answer Virginia's question?
None," says Virginia. "If one jumped in, the other six copycats would follow."

BEND five wooden toothpicks in two; arrange them as shown above. Place a drop of water at center and see what happens.
