FAMOUS STUBBS HEREFORD SALE

The greatest event of the year in the cattle world will be the closing out public sale of Ex-Governor Stubbs' herd of Fall-Blood non-registered Herefords.

SEPT. 11-12, HEREFORD, TEX.

Cattle now on Stubbs' ranch, 18 miles northwest of Hereford, Texas, only 40 miles southwest of Amarillo and 60 miles northeast of Clovis. Nearest railroad point Hereford, Texas, on main line of Santa Fe.

2,300 Pure-bred Non-registered Herefords

This auction sale will dispose of 900 cows, 300 heifer calves, 375 bull calves, 300 yearling heifers, 250 two-year-old heifers and 90 registered Hereford bulls. In addition, the sale will include 200 two-year-old steers and 300 yearling steers of Stubbs quality.

Prize-Winning Stock at Your Price

This herd had a foundation stock of wonderful registered cows. For 35 years the choicest blood strains in the Hereford world have been added by use of only registered herd bulls. The Stubbs cattle have quality to spare. They are great, rugged, heavy-boned, low-down beef producing animals in good condition and running uniform to the best Hereford type.

For many years the bull calves have been sold at prices ranging from \$75.00 to \$150.00 per head for range service. The bulls and heifers have been prize winners at the American Royal and have topped the Kansas City market for both weight and price for the day, month and year and for all times previous to that date.

This sale will afford you stockmen the opportunity of a life-time to buy seed stock from a cow herd that has been more than a generation in the building. Remember, other men have spent a life-time breeding them for you. Cattle are scarce; good cattle are very scarce.

Entire Herd Must be Sold Sept. 11-12

Sales will be made in car-lots. Terms, 12 months time with 7 per cent interest will be extended to parties furnishing approved security. Good railroad accommodations. There will be bargains for all who come. Don't fail to take advantage of this eventful offering. (Will hold cattle for 30 or 60 days if purchaser desires.) For more particulars, address

Have You Tried the New Ansco Speedex Film?

It has such a wide range of exposure that failures from over exposure and under exposure are practically impossible.

It has been the dream of chemists for many years to produce a Photographic Film which would adapt itself to the different changes of light, like the human eye. Ansco Chemists have at last accomplished that result.

This new scientific chemical discovery has simplified photography and for sure results and a greater percentage of good pictures use THE NEW ANSCO SPEEDEX FILM. It fits any camera; load your's today.

The Coal Strike

President Harding in a recent letter to Governor Greenback of Michigan says:

"It is a matter of record that coal operators and miners workers in many districts have been quite ready to come to an understanding in very short order, but the policy of the national organization is hostile to any district or state arrangement. This apparently is one of the issues involved and is one which must be definitely settled.

"I do not know of any way of settling it under the legal authorities which are now possessed by either State or Federal Government.

"Manifestly, legislation must be provided and I mean to submit the whole problem to Congress at the earliest consistent time possible after the House reassembles.

"If the coal producers of the United States were so organized that a national body were to determine the policy of every member and permit no sales of coal except on dictation of terms by the national officials, every State Legislature and Congress itself would instantly put an end to such a practice.

"The mine workers unhesitatingly assume national dictation. It is the big issue involved in the present dispute. Frankly, I think it must be dealt with if we are to have any security and any insurance of a supply of fuel."

What do you think of laws that permit a dozen labor leaders to shut down the industries of a nation of one hundred million people? Isn't it about time this was changed?

The new Goodyear Cross-Rib Tread Cord

Did You Get the Bottom Price, After All?

The man who buys a "long discount" tire usually finds himself troubled by the above question.

Did he pay less for the tire than his neighbor might have paid, or actually did he pay more?

Did he get the bottom price, when all is said and done, or could he perhaps have driven a sharper bargain?

Was the net price really more than he might have had to pay for a tire of established reputation and value?

In the belief that the average motorist prefers a frank and open transaction, we built the new Goodyear Cross-Rib Tread Cord and discounted the "discount" in advance.

Instead of listing it at a high price, to enable the dealer to attract you with a so-called "long discount," we list it as low as we profitably can.

We build it of high-grade long-staple cotton, using the patented Goodyear method of group-ply construction, and sell it at a lower price than you are asked to pay for many "long discount" tires of unknown worth.

Compare these prices with NET prices you are asked to pay for "long discount" tires

FIRST STATE BANK & TRUST CO.

Thrift is based on common sense. Thrift is not stinginess. A stingy man is not thrifty: he is merely mean.

It is true that most wage earners do not make enough money in the course of a lifetime to save enough to be even moderately wealthy at old age. Nevertheless hundreds of thousands of payroll men and women do save enough during their productive years to keep the wolf from the door in their old age and have comforts and even luxuries that would not be theirs had they frittered away

small and seemingly insignificant sums of money in the earlier years.

But the mere saving of money and its accumulation is only a means to the end, and the building of even a modest fortune requires that a man should have the judgment to discern investment opportunities.

The ambitious man wants to increase his income; and when he has spare money he should seek the investments that will give him the best return.

Our message to you is this: That as a disinterested party, serving you only as your Banker—we are in position to advise you on every business move or investment you may care to make—Start today—Let this be your bank.

Don't Fool Yourself

That is what the man does who practices false economy—lets himself into believing that he is going to save money.

True economy is not how little you pay for an article, but how much value you may get out of it.

A good, substantial implement chod will last a lifetime. Implements left unpainted and exposed to the weather will last from one to three years, while implements that are cared for will last from five to fifteen years. Why buy new implements every year when you can buy a good, substantial implement chod for the price of one implement? LET US HELP YOU.
