PLAINTS FROM THE PORT OF NEW YORK

On the 27th of October the U. S. District Attorney for the Southern District of New York, we take the liberty to offer a few remarks.

And in the first place, we have no wish to depreciate or undervalue the merits of that officer, whose appointment we cordially approved, and whose duties, in general, have been performed to the entire satisfaction of the merchants, and the community at large.

On the particular subject, however, to which the attention of the public is directed, we did think that there were extraordinary relations, the more noticeable, perhaps, when contrasted with his usual perseverance and tact. We thought also, that instead of making the best use of the information we gave him, or rather placed within his reach, there was disposition manifested on his part, to discountenance our efforts in the cause of suffering humanity, by placing us in a difficult position as to our course.

It is certainly no more than to be expected that we should have been made a party to the proceedings, and that we should have been made a party to the proceedings, and that we should have been made a party to the proceedings.

Dear Sir:—Will you please state in writing, the particulars of your examination before the U. S. District Attorney, and whether you were satisfied with his conduct, and if not, in what respects you were dissatisfied.

to do, was to furnish a clue by which he might be able to ascertain the facts. We did not, nor could we, place ourselves in the attitude of prosecutors, and it is because we have done so, that we do not desire to be considered as the authors of any proceedings.
