ODELL, WILBARGER COUNTY, TEXAS, THURSDAY, JULY 12, 1917.

ONE DOLLAR PER YEAR

Popular Young Couple of Odell Wedded Sunday

Rev. Robeson Unites J. P. Reynolds And Miss Fulcher in Wedlock

Rev. Leslie Robeson was the officiating minister in a marriage ceremony here Sunday evening, that bound together with the sacred laws of wedlock, J. P. Reynolds and Miss Alma Fulcher, two of Odell's popular young people, well and favorably known.

The bride is the daughter of Mr. and Mrs. I. M. Fulcher of near town and has always been mentioned as one of the community's pretty and cheerful young ladies. Being of an industrious nature, and from experience familiar with the duties of a household, friends of Miss Fulcher in this neighborhood, considered as she took steps toward the matrimonial altar, that she was fully learned in such domestic knowledge as to make any young man a companion to be proud of.

The groom is a son of Mr. and Mrs. J. P. Reynolds of Odell who has spent several years with his parents in this vicinity. Like his cheerful young bride in this respect, he appears to look at the bright side of life and being of that disposition, he naturally draws his friends Jack, as he is familiarly called by his friends here, is at present employed with a grocery firm at Electra. And soon after the wedding Sunday evening he and his happy bride left on the night train for their home in the oil city.

The Reporter desires to join the many friends of the happy couple, in wishing for them an abundance of happiness and prosperity together.

Business Change

Another change took place in the barber business this week, when J. B. Belcher, sold his barber business to C. N. Hobson, which shop was located in Odell Confectionery building.

In retiring from business of his own, Mr. Belcher has accepted a position with Hobson & Baggett, barbers, who are conducting one of the most modern equipped barber shops this side of Wichita Falls.

To Hold Church Association Here

Members of the Primitive Baptist church at this place, of which Elder Fisher of Graham is pastor are making preparations to entertain a church association at this place, beginning Friday before the first Sunday in August and lasting three days.

This will be first Association of the kind to meet with the Odell church, and one of the active members of the church here, informs us, they are expecting a large crowd.

A number of citizens of the community met at T. J. Watson's farm Wednesday for a rabbit drive. Quite a few of the mule-eared hares were slain. The rabbits in the neighborhood of Mr. Watson are reported to be doing quite a bit of damage to the cotton crop.

Get Ready For The Odell Picnic -Sat. July 28th.

Celebration to be Held Under Auspices of Business Men's League

Since the "iron horse" puffed into this community near nine years ago, and Odell was dotted on the map, the town each summer has held somewhere on Wanders Creek near the city, a picnic. Several times these celebrations have been held under the auspices of one of the local lodges, and at other times managed by the commercial association of Odell.

This summer the annual picnic will be managed and arranged for by the Business Men's League, which announces the entertainment Saturday, July 28th.

At the last session of the league committees were appointed by President Huie of the organization, which committees have each been assigned a part in preparing to make this picnic one of the best ever held in this part of the country. A member of the locating committee informed the Reporter editor that he had secured privileges to use the shady grove in the H. I. Thompson pasture on the creek, the location being a short distance from the S. B. Sutton gin, and only a short distance from Main Street.

Before the picnic date it is the intention of several of the Odell citizens to clean off the ground and do other work towards putting the ground in order.

Committees appointed to make arrangements for the picnic are:

Location and Preparation Committee: G. B. Newton, G. M. Still and S. B. Starr.

Privilege Committee: G. M. Still, W. M. Scott, C. E. Foster.

Program and Entertainment Committee: W. T. Collins, R. J. Belcher, H. B. Turner, J. B. Ross, W. M. Scott and W. P. Starr.

Advertising Committee: Roy C. Russell, Dr. W. D. Herring and C. P. Ross.

Birthday Party

Celebrating her son Brete's 12th birthday, Mrs. C. E. Foster, entertained a number of his friends at their home in the west part of the city Tuesday evening. After various games were enjoyed by the guests, refreshments were served to the following:

Louis Martin, Rex Shelton, Clarence Still, Riley Sosebee, Virgil Mabry, Willie Mason, J. D. Scott, Rosa Mae Scott, Fay Wynn, Elizabeth Burch, Anna Mae Shelton, Etta Fay Hart, Gilma Starr, Anna Reynolds, Ora Shelton, Ornetha Daniels, Jewel Martin, Mary Sue Matthews, Lennie Mabry, Edre Daniels, Jessie Reynolds, Bell Towry, Cintha Sutton, Audrey Towry, Novie Mabry, Miss Lois McHugh of Vernon, Mrs. Mark Burch, Mrs. W. M. Scott, Aunt Sarah Beach.

Quality Photographs at Vernon Studio.

Fixes Toll Straw Road Over Red River Crossing

W. A. Webb Announces The Webb Crossing in Good Shape For Autos.

W. A. Webb, a well known farmer of the Plainview community has just lately completed strapping a car road across Red River at the Webb crossing and we understand he will continue to keep the road up in good shape as a toll road.

Nothing but automobiles will be allowed to pass over the driveway and Mr. Webb is guaranteeing to keep this road up in good shape at all times, except when the water in the river is high, and of course it would be a matter of impossibility with him then.

Seventy-five cents will be demanded for one way over the road and \$1.25 for a round trip.

Hundreds of circulars advertising the crossing will be printed and distributed at towns in Oklahoma, which is expected to bring about a big increase in the automobile travel over the river at the crossing designated.

The Reporter extends its thanks to Arthur Collins, a well known farmer of the Jackson Springs vicinity, for cash on subscription.

A delicious, satisfying smoke for 5 cents at Huie's.

T. M. Bingham of Erath County arrived Saturday for a visit with his son, P. H. Bingham, and family of the Red River vicinity.

Aged Lady Died Sunday At Home of Her Daughter

Deceased Was Mother of Mrs. W. A. Dye, John And Jesse Smith

Mrs. Sarina Smith, aged 69 years, died at the home of her daughter, Mrs. W. A. Dye, near town at about 12 o'clock Sunday.

Deceased had not enjoyed the best of health for some time and her departure from this world was not unexpected to her friends and loved ones.

She was a faithful member of the Primitive Baptist Church, having enjoyed fellowship with the members of that denomination for several years.

At the burial of this aged mother were her two sons, Jesse and John Smith, both formerly of Odell, but now living in Oklahoma. John at Reed and Jesse at Hobart. Elder J. T. Huckabee, of Humphrey, Okla., and Mrs. Ballman, of Vernon, a brother and sister of hers, were also present.

Burial took place Monday evening at the Chillicothe cemetery, funeral services being conducted by Elder J. A. Jones. A large crowd of close friends of the Smith family followed the remains to the cemetery.

J. W. Moore, one of the Reporter's readers living between here and Chillicothe, was among the large crowd in town Saturday, trading.

Goody Cookies, both English and American styles, at Huie's.

SUBSCRIPTION \$1.00 A YEAR.

Get ready to attend the Odell picnic.

While it is true the corn crop over the country does not promise as much at this time, as it did a few weeks back, still we can find consolation in the fact we haven't yet been beat out of a feed crop.

Considering the dry weather that has suffered Texas this year it may sound a little bit strange for the Reporter to state that there has been several farmers in this community that has told us lately, they have the best prospects for a cotton crop that they have ever had, since they have been farming in Wilbarger county.

Slowly but surely John Barley-corn is losing his popularity with the people. So much so, that an exchange puts it that he is soon to be "a man without a country". Since laws have been introduced prohibiting the using of food-stuffs in the making of alcoholic beverages, the president of a wholesale liquor dealers' association makes the prediction that within a year's time the whiskey supply in the United States will be exhausted.

Since the entrance of the United States in the great war, it has been a question in the mind of a number of people what effect the conscription act would have on the foreign born citizen of this country, who had not taken out naturalization papers. A bill has been introduced in congress called the "anti slacker bill" and is designed to reach men of military age born in foreign countries. A provision in the bill gives the foreign man from thirty to sixty days to take out citizenship papers so as to subject him to military service in this country.

It has come to pass in these days, says an exchange, that the desire for wealth and luxury with some men and women far outweighs the unseen love darts from Cupid's bow, when they are scenting the trail in search of a companion. When we take into consideration the case of E. H. R. Green, son of Hetty Green, whose heaps of gold has been the means of giving her and her boy much publicity, it brings us to the conclusion that the fellow who wrote the few words above was not so far after all from telling a truth. Mr. Green makes the statement that in fifteen

years he has received 9000 offers of marriage.

There is only one way to advertise and that is to hammer your name, your location and your business so persistently, so thoroughly into peoples' heads that if they walk in their sleep they will constantly turn their steps to your store, says the Chillicothe Valley News. The newspaper is your best friend, in spite of criticism. It helps build up the community that supports you. When the day comes that the newspapers are dead, the people are on the edge of the grave with nobody to write their epitaph. —Kirkland American.

Cheerfulness in Warm Weather

The dry sultry weather has an exciting tendency on the nerves of laborers many have testified. Even those who do not have to work in the fields and open country must endure the worries and monotony of life feel discomfort in summer when the weather is uncomfortable and their neighbors are likewise nervous. The state of mind has much to do with one's comfort and contentment. This being true effort should be made to be cheerful and hopeful whatever may be the prospects for crops or the general conditions of business. So long as people are contented and submissive to conditions over which they have no control they are likely to be cheerful and hopeful and thus enjoy life.

Health is in way dependent upon such a state of mind, at least our can promote health by such views and feelings. We owe something to our neighbors. To be of help to them we should be cheerful and submissive to our environments. The reward for such is better health and greater efficiency. —Farm & Ranch.

Day Passenger Service on The Orient Probable

The outlook for day passenger service on the Orient railroad is more encouraging. The new president of the road, Mr. Kemper with other high officials of the company were through here last week on a tour of inspection and at various points where the subject was discussed the people were given the assurance that the matter of day passenger service for points on the line in Texas was being considered. Nothing definite to this effect was given out, nor was it intimated whether there would be more than one passenger train daily each way, but it is certain the Orient people have at last gotten their eyes open to the injustice the present service is to all towns in Texas and intend remedying it if possible. The present schedule is not only a great injustice to all Texas points on the line, but works a hardship on the traveling public and a change ought to be made. —Chillicothe News

Sucking the Poor Mans Blood

Food speculators and price boosters are literally sucking the life blood of the poor people of this country, and are paring to the bone the resources of those in moderate circumstances. And this in the face of war, misery and death.

We see much in the press about governmental regulation of the food question, but we see no definite action has yet been taken by congress to authorize such regulation.

We read of law officers summoning speculators and going before grand juries, but we look in vain for conviction and jail sentences.

And in the meantime prices of the very necessities of life keep on mounting skyward.

People who live on the noise they make rush into print and tell us it is simply a question of supply and demand, and that prices will automatically adjust themselves when the new crops are on the market.

It is not a question of supply and demand and prices will not adjust themselves until the government steps in with an iron hand and slams every thieving speculator behind the bars and keeps him there.

If allowed to run at large they will buy up the new stocks of provisions as they have bought up the old ones, and prices will be just what they choose to make them.

No one expects these reptiles to do anything for the welfare of their country, but they should no longer be allowed to drag it down to misery, want and ruin.—Ex.

POULTRY FACTS

MAKE GEESSE LAY MORE EGGS

Toulouse and White and Brown Chinas Are Considered Good Breeders—Do Well on Pasture.

There has been very little done along the line of increasing egg production in geese, says a writer in an exchange.

There are some varieties such as the Toulouse and the white and brown

Toulouse Geese.

Chinas which are considered quite productive breeds. They lay on an average of about 50 eggs a year, and are very likely to increase their egg production as they grow older.

The customary way of raising geese is to let them shift for themselves to a great extent, and if they have plenty of good grass pasture they do very well. Experience has shown that geese do not do well on a ration consisting largely of grain. Grit is an essential in the diet of the goose, but I doubt the advisability of feeding sour milk to any great extent, as I believe anything which will force egg production would likely have some detrimental effect upon the fertility of the egg.

While grit and oyster shells are essential, they are not usually provided because geese are not confined like chickens, and pick up enough of such material at most any time of the year.

The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY

CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Kilman, of this place, says: "After the birth of my little girl...my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me...but I got no better. I got worse and worse until the misery was unbearable...I was in bed for three months and suffered such agony that I was just drawn up in a knot..."

I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.

POULTRY FACTS

NEW WHITE DIARRHEA TEST

Fowls Are Vaccinated by Injecting Preparation Into Skin of Wattle—Test Not Difficult.

Trial of a new test to determine whether chickens intended for breeding stock are free from white diarrhea infection is giving promise of deciding this important matter with little trouble at small expense.

The new test is made by vaccinating the birds by injecting a vaccine preparation into the skin of the wattle. If the chicken is a carrier of white diarrhea germs, the wattle vaccinated will develop a doughy swelling in about 24 hours after the vaccination.

The test now being made use of by some experiment stations is to take a few drops of blood from the wing of the bird being tested and decide the matter of infection by a complicated laboratory test. The vaccination test, if it proves to be what it now promises, will be inexpensive and easily accomplished even by the average poultryman.

ROOSTER TO IMPROVE FLOCK

Difficult Matter to Select Cockerels as They Are So Much Alike When Quite Young.

The kind of cockerel used is far more important than most poultry raisers believe. The fact that one bird looks well and is healthy and active is a good indication of a good bird.

But this is not enough. The male bird should be of such good breeding that he will improve the flock. If he is not capable of doing this he is not worthy of his place as head of the flock.

When you are selecting the male birds from the young cockerels of your own flock you should use your best judgment and find the best individuals. In this case you must be influenced by the appearance of the birds, as for the most part the cockerels will be about the same in breeding unless you have trap-nested and kept records on the hens.

It is rather hard to select young cockerels, as they may often deceive one when they are quite young. Like

Excellent for Head of Flock.

a calf, a colt or a pig, there is much speculation in selecting for breeding purposes. Nevertheless, there are certain characteristics that may be noted. From these a careful breeder will determine the male birds for his flock.

ONIONS FOR LITTLE CHICKS

Make Fine Healthful Green Food for Young Fowls—Keeps Them Busy Scratching.

Onions chopped fine and scattered in the litter make fine healthful green food for chicks. They scramble and fight for the juicy bits and it seems to waken them up and keep them scratching when it is too stormy for outdoor exercise.

With chick feed high there is an increased risk to feeding inferior grains.

SUNSHINE IS OF MUCH VALUE

Stimulates Fowls to Greater Activity and Is Nature's Disease Destroyer—Avoid Excess.

Sunshine is one of nature's greatest gifts but "the same sun which melts wax will harden clay." Although sunshine is of great value, for it stimulates the fowls to greater activity and is nature's disease destroyer, yet if it is used to excess, it may do great injury.

Hen's Digestion.

A hen's digestive capacity is limited, the number of eggs produced is determined by the difference between body maintenance and digestive capacity. Maintenance is governed largely by conditions which the poultry man can control.

Relishable Food for Fowls.

Bones that have marrow in them, when ground, make an exceedingly relishable food for fowls.

Brooders Needed.

For every 200-egg incubator you need at least three brooders.

Have Found Relief by Using ...

Stella-Vitæ

This medicine is guaranteed to do for YOU what it has done for others. It corrects the irregularities peculiar to women; tones, strengthens and vitalizes the womanly functions; restores the appetite, clears the complexion, and builds up the wasted energies. Your money back if you are not benefited. Get it today, \$1 at your dealer's. Your dealer will explain the guarantee.

THACHER MEDICINE CO., CHATTANOOGA, TENN.
