Texas Historical Marker For Spade Ranch

An Official Texas Historical Marker for Spade Ranch will be erected on November 11, 1972, 10:30 a.m. it was announced by O. R. Watkins of Levelland, chairman of the Hockley county Historical Survey Committee.

The marker will be placed at SH 116, 2.4 miles W of Smyer. Dedication plans will be announced in the near future.

Made of cast aluminum with Swedish steel effect, the marker measures 18 by 28 inches and is sponsored by Levelland, Lions Club.

The inscription on the marker reads: THE SPADE RANCH: FOUNDED BY ISAAC L. ELLWOOD (1833-1910), INVENTOR WHO MADE A FORTUNE IN BARBED WIRE, AND BOUGHT (1889) FROM VETERAN CATTLE MEN D. H. AND J. W. SNYDER AN 8 x 25-MILE RANGE (128,000 ACRES) IN HALE, HOCKLEY, LAMB AND LUBBOCK COUNTIES. THIS RANGE WAS USED FOR SPADE-BRAND-ED CALVES FROM RENDER-BROOK SPRING, HIS SOUTH-MOST RANCH, IN MITCHELL COUNTY. HE CONTINUED BUYING SOUTH PLAINS LAND UNTIL SPADE RANGE WAS 54 MILES LONG. HEADQUARTERS (ORIGINALLY IN LAMB COUNTY WAS MOVED TO SOUTH CAMP (3/10 MI. N OF HERE) AFTER FARM-LAND SALES IN 1920s.

ELLWOOD'S DESCENDANTS STILL OWN AND OPERATE THE SPADE.

The marking of local historic sites and landmarks is part of the Texas State Historical Survey Committee's program of preservation activities. These include archeological investigations, small museum consultation, and administering the National Historic Preservation Act in Texas. As of 1970 the Survey Committee had erected more than 5,000 official markers.

The name and location of the present marker will appear in the next edition of the Guide to Official Texas Historical Markers in order to stimulate tourist travel in this area, to arouse interest in historical tours and to acquaint the people of this locale with their unique heritage.

DO IT BETTER

Looking at WASHINGTON

The 1973 Senate-
The 1973 House-
Nixon's Role-
The South-

Washington, D.C.--A recent survey by the Washington Post indicates Republicans have a better chance of capturing a majority in the Senate than had been thought. But the survey sees the House remaining Democratic.

Some had assumed, and still do, that a Nixon landslide would bring the G.O.P. control of the House, but not necessarily the Senate, where only a third of the membership is running or retiring and circumstances favor the Democrats.

But the Post poll shows Republican Senate gains likely in Rhode Island and New Mexico and perhaps also in Montana, Oklahoma, North Carolina and Georgia. In three other Dixie states the G.O.P. is trying mightily to replace Democrats--in Virginia, Alabama and Louisiana.

Since the Republicans need a gain of five seats to gain Senate control, the prospect seems realizable. But, the survey indicates Republican candidates are

seriously threatened in races they must win to hold present strength. These races are in Delaware, Michigan and Texas. They also are being pressed in Oregon, Idaho, South Dakota and Kentucky.

The importance of President Nixon's role in the campaigns in these states is thus evident. Having tried so hard in 1970 to gain G.O.P. seats in the Senate, the President is certain to continue that effort.

If Mr. Nixon can further break the Democrats' traditional hold on the South by helping in Senate races in deep South states such as North Carolina or Georgia, the result is likely to be historic, politically. Until now, South Carolina's Strom Thurmond has been a rarity from the deep South.

In the House, a Nixon landslide might mean G.O.P. control but a gain of 39 seats is needed and most surveys indicate lesser gains for the G.O.P. Here again Mr. Nixon's role could be decisive.

People Defeated

Congress' decision to shelve enactment of any welfare reform this year is a blow to many Americans and an example of Washington failing to govern effectively.

For three years now various House and Senate committees have debated various reform bills, including the President's.

For a variety of reasons, none of the bills was acceptable to enough of the Senate and House, or the President. The result--the present system remaining in effect at least until 1977--is disappointing to all who had hoped for effective reform.

Halloween

Halloween has its origin among the Druids centuries before the Christian era and from the Roman festival of Pomona. Later the church adopted the day as a special one, and the name is of Christian origin, referring to the eve of All Hallows Day.

Druid customs were so firmly entrenched that although the Romans outlawed their observances in both Britain and Ireland during their occupation many of the observances survive to this day. Halloween is one.

To the Druids, October 31st was the end of the year and thus the festival. The Druids also believed this was the time good souls of the dead went into animals, especially the cat. They believed punishment of the wicked could be lightened by gifts and prayers. (The 31st is also Protestant Reformation Day, dating from Martin Luther's rejection in 1517 of the church's teaching that one could buy indulgences for both the living and dead.)

In the United States the day has come to be associated with young people, who gather in goodies in trick or treat calls--a vast improvement over the mischief and destruction of former years.

Using The Milkman

A new idea with potential is utilization of milkmen for delivery of magazines. Publishers hurt badly in recent years by postal increases have initiated a pilot project in Providence, Rhode Island, to see how this system will work.

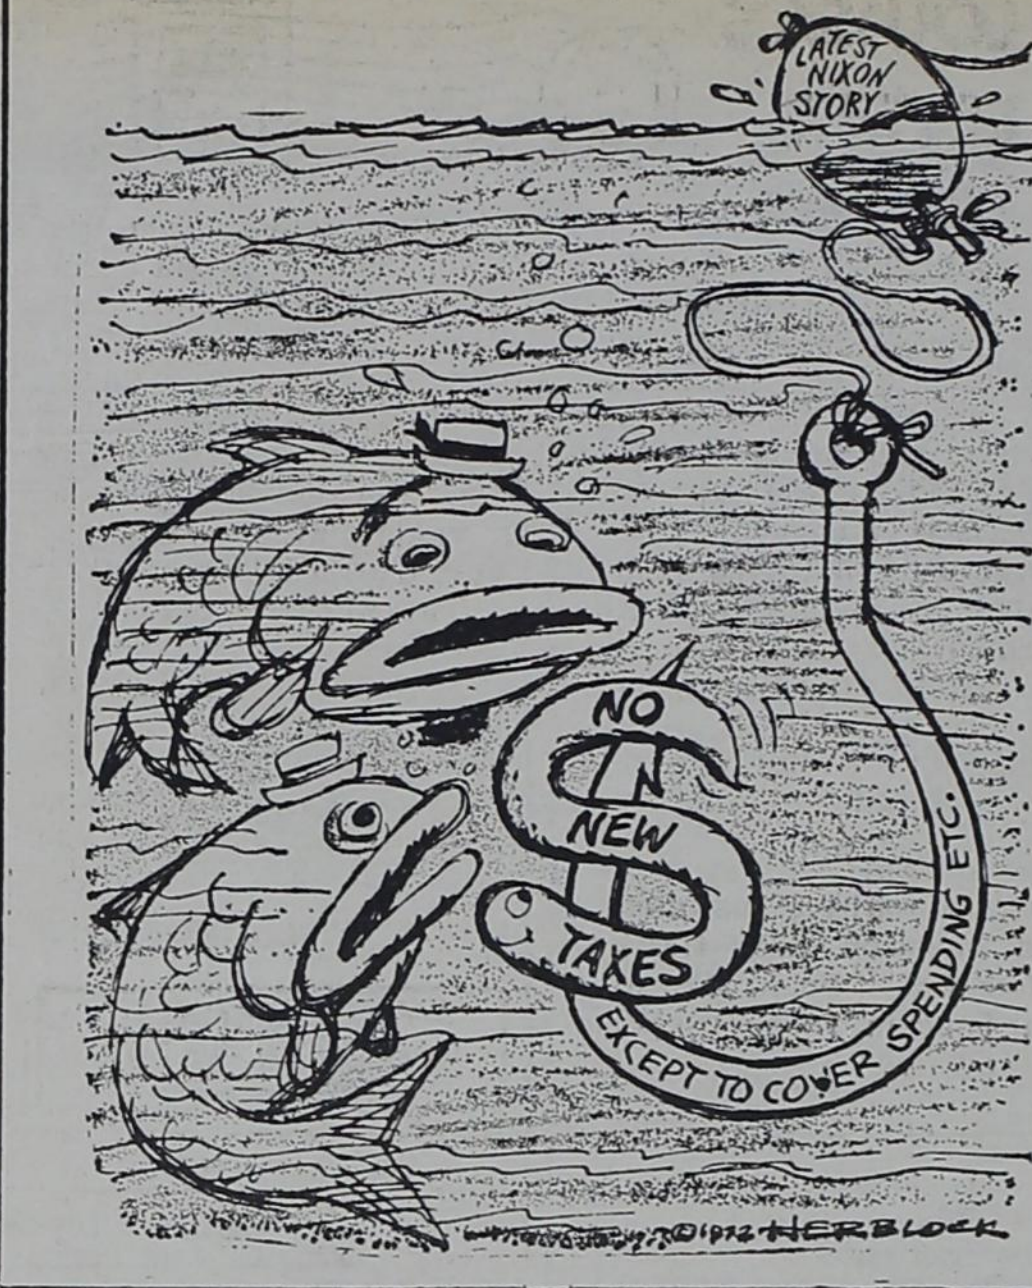

In Florida some companies are already employing local residents to deliver products, rather than the U.S. Postal Service. Like magazine publishers, these firms are unhappy with postal service or rates, or both.

There is, of course, no reason why milkmen cannot easily and cheaply deliver more products than most currently do. A customer requiring delivery of milk, for example, can utilize a truck's trip for delivery of other regularly-needed foods or products.

Some years back fresh bread was widely delivered daily. There's no reason this much-missed service couldn't be reinstated by milkmen for those not satisfied with bread filled with chemicals to make it feel fresh.

Magazines, breads, and many other products thus might soon be available from the local milkman, a logical and gratifying development which should help both suppliers and customers.

"Hold It - There Seems To Be A Slight Catch"

State Capital NEWS

By: Bill Boykin

BOYKIN

Competitive auto and home owners insurance rating legislation failed to clear the special session, but Gov. Preston Smith claimed the gathering served a purpose. Smith, disappointed at a logjam in conference committee on the session's windup night, declined to call lawmakers back to work as he had hinted he might. He said he and legislative leaders decided another session now would be fruitless.

The Governor announced he will make recommendations for "thorough reform" of the insurance regulatory system before he leaves office in January. "I am hopeful," he said, "that because of the exposure and public attention that this issue has received during the past 30 days, competitive rates and other insurance reforms can and will be approved."

He cited these accomplishments of the session in addition to those which had been wrapped up earlier:

- *Establishment of a Texas Off-shore Terminal Commission to define the role and responsibility of State government in developing a deep draft offshore port for supertankers.
- *Relaxing of trailer and brake lighting requirements for trailers.
- *An increase in funds by \$1 million for the Anderson County junior college occupational extension center.
- *Defining the legal age at which both male and female youth offenders can be tried as adults.
- *Appropriation of \$211,372 for a citrus and vegetable training center and improved beef production programs at Texas A & I University.

The Legislature also passed a bill to lower rates in the hurricane windstorm insurance pool for coastal areas. It petitioned Congress for a constitutional convention on an anti-busing amendment.

ALLOWABLE MAINTAINED-- For the eighth straight month, the statewide oil allowable will be retained at 100 per cent for November.

Production is expected to be slightly more than 3,500,000 barrels a day.

Major oil buyers requested 3,753,055 barrels of crude daily next month, a decrease of 23,538 from the October record.

The East Texas field, where an 86 per cent production figure was set, is an exception to the 100 per cent allowable.

So is Kelly-Snyder at 76 per cent, Tom O'Conner at 70 per cent and Big Wells at 80 per cent.

Only one of the 15 major crude buyers requested more oil next month than this month, while 11 asked the same amount and three asked less.

Texas crude stocks totalled 97.6 million barrels on October 6, a decrease of 4.2 million from the October, 1971, level.

DEATH PENALTY RESTORAL OUT--A bill to restore the death penalty for certain cases of murder started too late to get through the Legislature in special session.

It was knocked out in both the House and Senate because it had not emerged from committees until the last 72 hours of the session.

The legislation sought to permit the death penalty (outlawed by the U. S. Supreme Court) in cases of atrocity murder, murder by hired assassins, murder of prison guards, intentional homicide during kidnapping, rape, burglary, robbery or arson, murder of a policeman or fireman and killing during prison escapes.

BUILDING SHIFT ORDERED-- The State Highway Commission received firm advice from the Legislature to move the proposed site of its controversial new 11-story, \$20 million building.

Lawmakers said they don't want the building on the block across the street from the state capitol and governor's mansion. They indicated they prefer an underground parking garage topped by a park on the choice site in downtown Austin.

The legislative resolution recognized the Highway Department should be compensated for the \$1.5 million it spent on the site and plans. Funds will not be appropriated until next year. Since the Highway Department is pressing for a two-cents-per-gallon gasoline tax increase, it is expected to go along with the Legislature's directive without further argument.

COURTS SPEAK-- The Texas Supreme Court upheld lower court verdicts that a Bowie County couple should collect damages due to an explosion at Lone Star Ordnance Plant which damaged their home.

The Third Court of Civil Appeals at Austin affirmed the State Savings and Loan Commissioner's orders permitting creation of savings and loan associations in Bay City and Hallettsville.

Borge & Laughs

Victor Borge, one of the genuine humorists of the era, was interviewed recently on the subject of humor and says Americans should laugh more, because it's good for them, for the whole body.

Noting that most Americans don't seem happy with their work, he suggests we try to enjoy it more, since it's necessary. The young people today who want to enjoy things have a point, he says, although they often don't yet realize one must work.

Borge says humor can be found in everyday working and living. If caught in a ridiculous traffic jam, for example, he suggests seeing the hilarious side of it and laughing, rather than fretting--as you would do if watching such a scene on television. Laugh with your family's and children's mistakes, and enjoy them, says the Danish-born American humorist--good advice for all.

AG OPINIONS--A school district may not sell land to a company in which a school trustee is interested, Atty. Gen. Crawford Martin said in a new opinion.

The same opinion stated a school district may not lawfully purchase supplies or services from a company in which a trustee owns nearly 10 per cent of the shares. The district can contract with a company which receives its supplies from another in which a trustee owns an inappreciable number of shares.

In another opinion, Martin concluded election code provisions are applicable to water district elections where they are not inconsistent with special statutes controlling the district or the water code.

COMMON CAUSE OPENS SHOP--Common Cause, the national lobby for citizens, announced opening of its first state organizational headquarters in Austin.

Randall Wood of Austin, former head of the Texas Secretary of State's election division, will head the state group which has 5,000 members and seeks 15,000.

Wood said Common Cause will seek four legislative objectives next year: wider disclosure of campaign finances, better public access to information, a code of ethics requiring full financial disclosure by public officials and a strict law requiring lobbyists to tell who hires them and pays them.

APPOINTMENTS--Clyde C. McCollough Jr. of San Antonio was named by the Governor to the board of trustees, Texas Municipal Retirement System.

Smith appointed Robert Joseph Pesek, Erwin Joseph Bucek, Leon Louis Kahanek Jr. and Alfred Neumeyer Jr., all of Hallettsville, to the Lavaca County Flood Control District No. 3 board of directors.

SHORT SNORTS

Presidential candidate George McGovern received an exceptionally warm welcome to the Texas capitol during his last visit to Texas.

Efforts to raise hunting and fishing license fees failed in the House of Representatives. Another try will be made next year.

Sen. Wayne Connally of Floresville will head a national campaign for a constitutional convention to prohibit forced busing to achieve racial balance in public schools.

A \$48,000 national grant will help Texas A & M Agricultural Experimental Station finance a study of the gulf shrimp industry.

LOUISA'S LETTER

Dear Louisa,
I read the letter that G.M. from Fla. wrote about the bad taste of people sitting around with nothing but a two inch strip around their bottoms and I agree. The Bible tells us that we should have more respect for ourselves and others--the 22nd chapter of Deuteronomy. It certainly embarrasses me to see people in such a fashion. No wonder we have so much sin in the world.
L.M.S.--Va.

Dear Louisa,
I know you have answered this question many times before but I would like to hear it again. I am a woman of sixty five whose husband died in June. I am planning

to sell my house and go into a very nice apartment house where several of my friends live. I can live very comfortable there on my income. But my two girls think I should divide my time with them and feel hurt because I would like to live alone. What should I do?
Worried--Ind.

Answer:
Follow your own plan. You will all be happier. You can then enjoy your grandchildren when it suits you and your privacy when you like to be alone.

Louisa.

TV COMMENTARY

COULD IT BE that TV will replace the annual state fair peep show? America and television's attitudes toward sex, nudity and language are changing so fast that one knows not whether to hide behind the barn to watch his favorite program or view it while sitting in the parlor with the PTA president.

PRIOR TO A NEW TV SEASON, speculation was over who the program winners of the new year would be. After the season began, then focus flashed to possible losers. Some shows that appear to be in trouble are: "Anna and the King," "The Waltons," "Julie Andrews Hour," "The Men," and "The Streets of San Francisco."

HALLOWEEN lasts all year now if one is particular in the placement of his TV dial. Occult adventure, ESP, ghost stories and wierd tales seem to be the prevailing spirit, if you'll excuse the expression.

AMERICA'S BICENTENNIAL is celebrated in a 10-part series called "The American Experience." Recently a segment of the series, "The Fabulous Country," was seen and enjoyed. Featuring vintage films and absorbing stills-in-motion, paintings and drawings, the program stressed our growth from 1776 to 1876. Look for this interesting series.

SANFORD AND SON remains a rib-busting comedy. Red Foxx is a past-master of humor and milking the last ounce of humor from a situation. He gets this writer's vote as being the comic of the year, if not the philosopher.

Helps Shrink Swelling Of Hemorrhoidal Tissues

caused by inflammation
Doctors have found a medication that in many cases gives prompt, temporary relief from pain and burning itch in hemorrhoidal tissues. Then it actually helps shrink swelling of these tissues caused by inflammation. The answer is Preparation H®. No prescription is needed for Preparation H. Ointment or suppositories.

From J. Bennett, Jackson, Mississippi: I remember when many people ground their own coffee, made home brew and muscadine wine.

In the small town where I lived, everyone had a garden and chopping corn was a task that took precedence over after-school activities such as baseball or crawdad hunting along the creek.

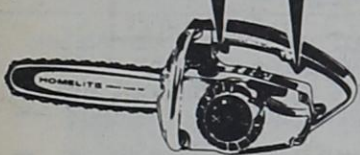

I can remember my mother "washing" clothes in the back yard — or rather boiling them in a big iron pot. I remember the thrill of listening to "Amos and Andy" on the first, second-hand radio my family could afford. I remember the hours neighborhood children spent listening to Caruso records on a hand-crank phonograph.

I remember the first car in the neighborhood. It belonged to a bachelor uncle and children were forbidden to approach it. At night it was securely locked in a garage. I remember, on that one single occasion when the lock failed to catch, I slipped inside the garage, marveled at the magnificent machine, and put myself into a sick bed for three days by removing the cap to inhale the exciting aroma of gasoline.
