Ropes School Board Reorganized Tuesday

At a meeting of the Ropes School Board Tuesday night the election of last Saturday was canvassed and approved, and the board was reorganized, with Wylie Sosebee as president,

H. S. Abston vice president, and E. J. Abney secretary.

During the meeting all of the present faculty was reelected, and the resignations of Mrs. Kay Bailey, Maurine Brewer and Mr. and Mrs. Walker were accepted. Also, Paul Brown, a graduate of Texas Tech, was elected as football coach and Gordon Graves was elected as a teacher in the elementary school.

It is also announced that Harvey Tubb has tendered his resignation and will go to Wellman as athletic director.

THERE IS HOPE

(An Editorial)

This past Easter Sunday we were in a church where the little tykes took over the program.

It was rather heartening, in this atomic age; this age of fear and doubt; this age of unbelief, to see children of tender years stand before an adult audience and proclaim, "Christ is Risen". In their developing intellects the seed of Christ, and the teaching of "Love thy neighbor as thyself" has been planted, and is growing as they grow.

Such as this is the hope of the world.

Today, as never before, there is a need for belief in the teachings of the Galilean, the Man, who in three years revolutionized the thinking of man; who in three years canceled out an eye for an eye and a tooth for a tooth, and brought to the world the belief in a God of love instead of one of vengeance.

These teachings must prevail.

If they fail to prevail the world is lost; civilization stands to be destroyed; progress stands to be halted and the sphere will become chaos, and the law of the tooth and fang will prevail. Regardless of the prattling of learned doctors and men of science; regardless of the denial of the miracle birth and the unbelief in the Christ rising from the dead, these truths of the Scripture must remain uppermost in the mind of man.

They have given us our present day civilization.

They are needed now more than at any time in history — not only the teachings of the Christ, but the practicing of what He taught — the Christ, who in thirty-six months laid the foundation of a creed which changed the course of human events and re-routed world history into a different channel.

The fate of the world today lays in the continuance of that teaching.

And, that children of tender age are being taught the story of the Christ and given the plan of salvation, is one of the hopeful signs of the times.

BILL CARTERS

VISIT IN ROPES MONDAY

Mr. and Mrs. Bill Carter, of San Saba, were visitors in Ropes this past week.

Bill, a pioneer of this section, moved to San Saba some time ago and is raising sheep.

METHODIST NEWS NOTES

Friday, April 11th, at 3:30 PM Dr. Denison will be with the Commission of Evangelism to lead in a study of membership visitation and teams of visitors will put the training into practice for about one and one-half hours. There will then be a "Covered Dish" fellowship supper at the Church after which he will lead in a study of visitation for decisions and teams will visit for about one and one-half hours. We are praying that this will be a great day of awakening in our Church.

THURSDAY, AT 9:00 AM, workers in the Vacation Church School will attend an Institute at Brownfield to acquaint themselves with both text and methods. Mrs. Joyce Shannon is superintendent of the Children's Division and the leader of the local workers.

SATURDAY, AT 4:30 PM, registration will begin at Denver City for the District meeting of the MYF. Programs are planned for both the Senior Youth and the Intermediates. We hope and pray a good representation from our local group will be present.

(Delayed from last week)

An 18-year-old Hockley County youth and a 16-year-old Lynn County youngster were announced as the top winners in the District 2 4-H Club Cotton Contests for 1957 at Lubbock, Saturday,

THREE TRUSTEES ELECTED SATURDAY

In the trustee election held in Ropes on Saturday of last week H. J. Schwartz, Charles Shannon and Grady Epperson were elected trustees of the Ropes schools.

The votes were as follows:

H. Joe Schwartz	24
Grady Epperson	23
Charles Shannon	23
H. E. Crawford	17
Crate Snider	10
Leon Young	13
Joe Harris	4

Due to the raging sandstorm which was blowing, only 39 voters fought their way to the polls.

THIEVES ENTER MANSFIELD THOMAS SERVICE STATION

Either Saturday or Sunday night thieves entered the Mansfield Thomas Shamrock Station in Ropes and made off with eight white sidewall automobile tires.

Entrance was gained by forcing the back door. On entering, the thieves made a careful selection of the tires, picking the white-walls from the black-walls.

Tracks show that a pickup had been parked back of the service station, and tracks led from the station to the place where it is supposed the pickup was parked.

Constable Jack Ogle and Sheriff Weir Clem are investigating the crime.

VISIT IN THE WHITLOCK HOME

Mr. and Mrs. Tommy Dave Whitlock and son, Davey, and Mrs. Harvey Lamb and children, Janice and Susan, all of Lubbock, visited in the home of their parents, Mr. and Mrs. Bob Whitlock, on Easter Sunday.

VISIT IN FORT WORTH

Mr. and Mrs. O. V. Fuller were visitors in Fort Worth over the Easter weekend.

They visited relatives and also spent a part of the time fishing.

DR. SPENCER TO SPEAK AT ASSEMBLY

Dr. Thomas Spencer, president of the South Plains Junior College in Levelland, will be the speaker at the high school assembly at 10 o'clock on April 16th.

The public has a cordial invitation to hear Dr. Spencer's address.

March 29th.

Preston Wilson, son of Mr. and Mrs. R. F. Wilson, now of Levelland, but former residents of Ropes, won the irrigated division, and Robert Bessire of O'Donnell topped the dryland contest.

Awards were presented at the annual awards luncheon in the Plains Co-operative Oil Mill.

Jimmie Lowrie, son of Mr. and Mrs. F. L. Lowrie of Ropesville, took second in the dryland division.

Wilmer Smith, of Wilson, president of the Plains Co-operative Oil Mill board of directors, presented checks totaling \$1,000 to the top six winners in each division.

In addition, plaques were presented to Wilson and Bessire, who posed the top production of an entry list that included about 380 to 400 4-H members in fifteen counties.

Wilson and Bessire each received checks of \$125. Other awards, the same in each division, included \$100 for second, \$85 for third, \$75 for fourth, \$65 for fifth, and \$50 for sixth.

Young Wilson won first in the irrigated contest with a total production on five acres of 6,885 pounds of lint for an average of 1,377 pounds per acre.

He planted Lankart on May 14 on land that had been in alfalfa the preceding year. He didn't fertilize the crop because his land had been in the soil-building legume.

Wilson turned off his irrigation water about three weeks ahead of the first freeze. He credited these two practices with playing a big role in turning out his winning production.

This was the third successive year that Wilson has won first in the Hockley County contest, but it was the first time he has entered the district contest. He grew the cotton under the supervision of Darrell Coker, assistant Hockley County agent.

Jimmie Lowrie won the runner-up position in the dryland contest with a production of 2,460 pounds of lint for an average of 492 pounds an acre. His variety was Paymaster 54-B.

M. AND MRS. MARTIN VISIT IN SWEETWATER

Mr. and Mrs. Jim Martin spent the Easter holidays in Sweetwater where they visited her father, L. E. McCormick, and other relatives.

RETURN FROM WESTBROOK

Mr. and Mrs. Chester Stephenson returned from Westbrook Sunday night, where they visited over the Easter holidays with her father and brothers.

Winds ranging well over 75 miles an hour in gusts swept across the South Plains Friday and Saturday of last week.

Those folks who wished for a real old-time West Texas sandstorm had their wish granted, with all the trimmings—there was plenty of wind and sand. March is usually the month dedicated to sandstorms, but this year there were no sandstorms in March, for the first time we can remember. But April is making up for the deficit.

The air was filled with a dark, heavy, red dust traveling with the wind. It became so dense in places that visibility was reduced to zero. In making a trip to Lubbock we ran into a 5-mile strip where the dust was so thick we could not even see the outside of the car—it was as if we were enclosed in a room with walls of sand without roof, with the dirt pouring in from above.

During the early part of the week a bin in the Goodpasture Elevator had broken open and spilled a huge pile of maize out on the ground. As the wind increased in velocity it lifted the grain and shot it thru the air with the velocity of bullets. As you passed the elevator it seemed as if you were being bombarded with a BB machine gun. It is estimated unofficially that a hundred thousand pounds of grain were blown away.

The wind continued until Saturday night, then gradually subsided until on Sunday we had a beautiful day without wind or sand.

RETURNS FROM ENGLAND

A 1/c Bobby John Whitlock, who has been serving with the Air Force in England, has been returned to the United States and is now stationed at Lincoln, Nebraska.

A letter to his parents, Mr. and Mrs. Bob Whitlock, stated that he will be married on the 28th of June.

VISITORS IN STRICKLAND HOME

Mr. and Mrs. D. E. Strickland had as their Easter Sunday visitors her children, M. A. Coy and family, and Lonnie Coy and family, all of Lubbock; and Mrs. F. B. Coy and her daughter, Mrs. Betty Moore and her two children, Joe Terry and Sandra Moore, of Hobbs, New Mexico. The latter two are great great grandchildren.

VISIT IN ARIZONA

Mr. and Mrs. Charley Ward and children, and Mr. and Mrs. Bud Rucker and family returned this week from Willcox, Arizona, where they visited in the home of Mr. and Mrs. W. L. Beaty and daughter.

The Beatys' are former residents of the Ropes community.

SCHOOL NEWS GRADE 3A

We had such a good time at our Easter party last Thursday. We first played a game in the room, then we went out to hunt eggs. After the hunt the group was served soda pop by the room mothers. We want to say thanks to the mothers who planned the party for us. Also, we are grateful for the weather being so nice that afternoon.

Everyone seems to have enjoyed the Easter holidays. Gary Rucker went to Willcox, Arizona, to visit the Lowell Beaty family there. They also visited Juarez, Mexico, while gone.

Mary Lynn Gresham and her family enjoyed a visit to Lake Thomas.

Ronnie Huie and family visited his grandparents at Blossom, Texas, and at Commerce, Texas. He reports a very good time.

Mrs. Wallace spent the holidays visiting relatives in Fort Worth.

GRADE 3B - Mrs. Cole

We would like to thank our mothers for a nice Easter party. Edward Gutierrez found the most eggs.

Those making 100 on spelling last week were Charles Bentancourt, Joe Hansard, Mike Martin, Bill McCormick, Ronnie Price, Edward Gutierrez, Rosene Davis, Sanjuana Garcia, Cathy Mayo, Gladys Pinkert, Pilar Sanchez, Jeanie Strickland, Jean Nobles and Betty Medrano.

SCHOOL NEWS

BUILDINGS
 (Continued from last week)
 The high school building was constructed in 1930, remodeled in 1937, completely repaired and redecorated in 1954 and 1956. The high school building has math room, English room history room, science room, library-studyhall, homemaking department, gymnasium - auditorium, restrooms for boys and girls, and a storage room in the basement with the boiler that furnishes the heat for the building, principal's office and a book room. The gymnasium and

itorium consists of a stage with dressing rooms on either side and two dressing rooms under the bleachers. The vocational agriculture building is located about seventy-five feet west of the high school and has already been described.

NEW GYMNASIUM AND CAFETERIA

The new gymnasium and cafeteria was completed in 1956 and is located just north of the high school buildings and just south of the new grade school and all are connected by walks. The new gymnasium consists of a playing-court lined for basketball, volley ball, and badminton. The dour dressing rooms are located under the bleachers on each side of the gymnasium.

The school cafeteria joins the gymnasium in the back or west end. The walk-in refrigerator, dry storage room, restroom, mechanical dishwasher, two deep freezers and other new and modern equipment make it very adequate for our enrollment.

PLAYGROUND AND LAWNS

The playground all around the school buildings except a small area left for loading and parking is sowed with Bermuda grass and the part that is most used is covered with cotton burrs to protect the grass and to serve as a fertilizer.

The football field is fenced with a race track around the football field and the new bleachers were financed and constructed by the Meadow Lions Club in 1956. The field and football dressing rooms are located near the football field. All the other school grounds are covered with rye to prevent wind erosion except the part used for softball. All the grounds and buildings are well kept and needed repairs are made in the summer by the school custodian.

PLAINS COTTON GROWERS, INC. HAVE DRAFTED "GUIDE"

LUBBOCK — The Plains Cotton Growers, Inc., in cooperation with the Texas Extension Service and the Texas Agricultural Experiment Station, has drafted a "Plains Cotton Guide".

Personnel of the Extension Service, Experiment Station and other organizations have met with the PCG and planned a coordinated cotton educational and promotional program for the High Plains area.

The new guide will be used for the educational program, which is to be aimed at helping High Plains farmers grow quality cotton and have it processed and marketed for greater profit.

The Guide is divided into three sections, production, processing and marketing. It is to be made available to county agents and others who work with farmers throughout the High Plains. All members of the PCG will be mailed a copy.

The Guide analyzes the Plains cotton situation and sets forth steps to help producers in the production of higher quality cotton that has more uniformity and good character and in the marketing of such quality cotton for greater profit.

"For many years the personnel of the Lubbock Experiment Station have worked on problems to give better quality cotton. However, sometimes these farming tips and suggestions are not as widely publicized as they might be and too many farmers do not know of their importance. In our educational program we hope to spread this type of information throughout the area and help our farmers in producing better quality cotton," W. O. Fortenberry, PCG president, explained.

Directors of the PCG approved the educational and promotional program at the last board meeting and appropriated necessary funds to carry out such a program.

By cooperating with the Extension Service personnel and members of other organizations, we hope to eliminate duplication of effort and help one another

in an overall educational program, George W. Pfeiffer, executive vice president of the PCG, said. W. H. Jones, district Extension Service agent, Lubbock, pointed out that production practices in general govern quality and yield. Processing procedures are problems of the farmer in harvesting and of the gin in ginning cotton.

"The cotton farmer has a greater opportunity to improve his production and harvesting practices than to better the ginning and marketing procedures, but an understanding of how cotton is processed and marketed may enable him to realize more net return from his investment and labor," Jones said.

Earl Hobbs, New Deal president of the Plains Ginners Assn., sat in on several planning sessions and urged the cooperation of ginners with the farmers in this united effort to raise the quality of Plains cotton.

The new Cotton Guide was printed by Texas A & M College and 50,000 copies are to be distributed to farmers and others in the area.

Eleven of the top cotton officials in this area and in Texas assisted in drafting the Cotton Guide and have approved the information it contains.

These include Charles Fisher, Don L. Jones, Dr. J. D. Bilbro, all of the Lubbock Experiment Station; Ernest Thaxton, formerly with the Station here, now project leader at a new experiment station at Pecos; Bill Taylor, Levelland, Hockley County agent; Bill Kimbrough, Littlefield, Lamb County agent; Ollie Limer, Hale County agent; Lee McLeroy, Lubbock County agent; John Box and Fred Elliott, both of the Extension Service, College Station; Dr. Tom Richmond, who has charge of cotton research at College Station; Dave Sherrill, district Ex-

tension Service, Lubbock; Jones and Pfeifferberger.

The Guide was edited by Conrad L. Loofer, director of Public Relations for the PCG, and Ted Moses of the Extension Service Information Office, College Station.

Copies of the Guide will be available from the Plains Cotton Growers, Inc. office, 220 Lubbock National Bldg., Lubbock, or any county agent's office.

JUST LIVING IS A BUSINESS

Back in pioneer times our forefathers found that they could keep track of the family history pretty well with a few notations on the flyleaf of the family Bible. But life's not quite that simple any more. Great-grandpa wasn't covered by social security or workmen's compensation. He didn't have a bank account or safe deposit box, a car and a dozen home appliances being bought on time payment, or a half-dozen insurance policies. We have taxes great-grandpa never heard of and wouldn't have believed if he had. And had you asked him for a certificate to prove his birth, he'd have thought you'd taken leave of your senses.

The point of this is that the Average American today has a good many important papers to keep track of. There are birth certificates, receipts, copies of tax returns, sales contracts, and a host of other papers. With a little tidy record-keeping you can make life easier for yourself and your family when you are gone.

CAN MAKE YOU MONEY WITH HIGHER QUALITY COTTON IN 1958

Production practices govern quality and yield. Do your best to see that your land preparation is adequate. Check your soil fertility needs now so that maximum production of quality cotton will not be hampered by lack of nitrogen, phosphorus, potassium or organic matter. Sub soil moisture may be adequate — but check to be sure.

Planting time is almost here. Optimum planting dates on the High Plains are May 5-20. Later planting usually results in lower quality. Before planting be sure the minimum soil temperature averages 60 degrees for 10 days at an 8-inch depth from the top of the bed. Use delinted, treated seed and check for germination. A uniform stand of approximately four stalks per foot in 40-inch rows is recommended. The method of harvest to be used should help determine the variety planted.
