ENROLLMENT SHOWS DROP

First-day enrollment in Slaton Public Schools was down from last year's total, a check at the school business office revealed Wednesday morning.

Total enrollment on the first day was 1,720 - a drop of 145 students from the first day last year. Enrollment normally increases after the first week of school and has climbed past the 1,900 mark the past two years.

A breakdown of the enrollment by schools: high school 465, junior high 450, Austin 291, West Ward 514.

Totals were down in all four schools over the same day a year ago. Largest decrease was at West Ward where 560 enrolled on the first day in 1968. The total was 514 Tuesday-- a drop of 46 students.

Enrollment at the Catholic school, St. Joseph's, totalled 130 on the first day.

Eblen, McDonald Named on Boards

Two Slaton men -- Carroll McDonald and Earl Eblen-- were included among four appointments made by Lubbock County Commissioners Friday.

McDonald was named to the Community Action Board and Eblen was picked for the City-County Health Board. Each was named to fill the unexpired terms of Dr. P. L. Vardy, who resigned both posts recently after retiring as superintendent of schools in Slaton. Dr. Vardy moved to Turkey the past weekend.

Commissioners also appointed Charles E. Smith, 34-year-old former insurance salesman, as Justice of the Peace, Precinct 1, Place 2, and named Arnold Maeker of Lubbock to fill a three-year term on the Board of Mental Health and Mental Retardation.

Smith replaces F. R. Land, who retired Aug. 1. The new JP was one of six applicants interviewed by County Judge Rod Shaw and the commissioners Friday for the \$6,600 a year job. Maeker replaces District Judge Pat Moore, whose term is expiring.

The Slaton appointments, of course, were recommended by Commissioner Max Arrants from Slaton. The commissioners set a public hearing at 11 a.m. Sept. 30 on the county's budget for 1970.

Two Accidents Reported Here

Two accidents, one with minor injuries, were investigated by Slaton Police Department the past week. The department reported eight arrests.

John R. Ellis of Pampa was reported to have sustained minor injuries in a one-car accident early Thursday morning in the construction zone on the US-84 bypass. Police said the driver apparently fell asleep and lost control of his vehicle. Damage was estimated at \$1,200 to the car and \$2,600 to a maintainer with which the car collided.

Mary G. DeLeon and Clifford A. King were drivers involved in a two-car accident Sunday evening at the intersection of FM-400 and Scott Street. Total damage was tabbed at \$275.

Weaver Named To Area Board

Ted Weaver, Slaton Chamber of Commerce manager, was elected as a director of the Chamber of Commerce Executive Association of West Texas at the annual convention last week in Del Rio.

Jack Springer, executive vice president of the West Texas Chamber of Commerce, was named "Manager of the Year" at the concluding session of the convention.

Fred Tyler of Midland was named as new president of CCEAWT, and Keith Vaughn of Sweetwater is the new vice president. Other two-year directors named with Weaver were Jack Cressett of Abilene, Buddy Byars of Mineral Wells, E. H. Sheffield of Del Rio, and Don Lewis of Denton.

PLANS MADE FOR F-M BARBECUE SEPT. 16

Slaton Gets First Bale

SLATON'S FIRST BALE---Virgil Smith, right, who farms near Southland, brought in Slaton's first bale of cotton for 1969 last Wednesday. Pleasant Valley ginner Gaylord Kinard, left, looks over the bale with Smith at Union Compress Wednesday. The bale receives a \$150 cash award from Slaton Chamber of Commerce and on display in front of Citizens State Bank.

Slaton's first bale of cotton arrived Wednesday, Aug. 27, with Virgil Smith gaining the distinction as producer with a 535-pound bale at the Pleasant Valley Gin.

Smith, who farms near Southland, covered 15 acres of the dryland cotton to gather enough lint for the bale. The seed cotton weighed in at 1,940 pounds, according to Pleasant Valley gin manager and owner Gaylord Kinard.

The first bale was much earlier than last year, when H.C. Corley claimed the first bale on Sept. 11. Smith will receive the Slaton Chamber of Commerce award of \$150 for the premium bale.

The Chamber will also award \$100 and \$50 for the second and third bales. The cash awards are presented at the annual Farmer-Merchant Barbecue, which is set Sept. 16 this year in Little League Park.

Smith planted his cotton the first week in May, adding that it was "not on Sunday", and said the crop sustained no bad weather--except for a lack of rain. The seed was Paymaster 202.

Chamber president Clark Self Jr. announced this week that tickets are being distributed to gins for the Farmer-Merchant Barbecue. Gins will pass the tickets on to area farmers.

The F-M Barbecue, set for 7:30 p.m. on Sept. 16, is being planned by a Chamber committee composed of Jake Wendel, Glen Akin, Milt Ardrey and Clarence Kitten. Tickets will be sold to merchants and firms at \$6 each.

Besides the annual first-bale awards, the "Farmer of the Year" will be recognized at the barbecue. He is chosen by a secret committee. A number of gift certificates will also be presented in drawings at the barbecue.

More Showers Dampen Area

More moisture and cool weather was the weather theme around Slaton the past week, bringing relief from a long heat wave that saw no moisture and temperatures above the 100-degree mark for a month.

Rain continued here last Wednesday night and Thursday morning, leaving up to 1.5 inches more of moisture south-east of Slaton. Showers the previous weekend had left from 1.5 to 4 inches of moisture in most of the area.

With the additional rain last week, some areas south and southeast of town had recorded up to 5 or 6 inches for a week's period.

Temperatures this week ranged from a low of 62 yesterday morning to a high of 90 on Monday. High Wednesday was forecast in the 80's with a chance of more evening or night-time showers.

No crop damage was reported from the recent rainfall, and the moisture was highly beneficial in most cases. The rain came too late for some dryland crops, however.

Chest X-Ray Unit Here Today

The West Texas Tuberculosis Association will bring its Christmas Seal Mobile X-Ray Unit to Slaton today under sponsorship of the Slaton Rotary Club.

Rotary president J. S. Edwards announced that the x-ray unit would be located on the Piggy Wiggly parking lot. It will be open from 9 a.m. to 1 p.m., and from 2 to 6. No children under 12 years of age will be x-rayed.

The chest x-ray program discovers many abnormalities other than tuberculosis. A fee of \$1.50 is requested for the chest x-rays.

A post card is mailed to those having a normal chest film. The ones who have abnormal readings are notified by a first-class letter which urges them to contact their private physician for further examination.

Master Plan Still Under Consideration by City

Slaton City Commission, in a special meeting last Thursday, again postponed a decision on whether or not to approve a contract for a comprehensive city plan--a program already approved for Federal funds covering two-thirds of the total cost.

Mayor David Hughes, who had pleaded with commissioners to accept the plan at a regular meeting earlier last week, asked only if a decision could be made Friday, and drew a "no" from all three commissioners present. The fourth commissioner -- Rudy Dominguez -- has not attended a meeting in some time.

Commissioner J. S. Edwards said he simply was "not ready to accept or reject" the program. At one point, he suggested a citizens' group might be appointed to study the matter, but no one supported the idea.

Otis Neill said he just couldn't understand why the project cost so much money, and he wasn't ready to vote on the matter.

Cost of the program was announced at \$22,290 at the regular meeting last week. The city's portion would be \$7,430. A grant of \$14,860 was approved by the Housing Urban Development on May 2, 1969.

CERAMIC CLOCK--Pictured above is the clock made by Mrs. Elmer D. Sparkman. She hand made the 129 roses on the clock and the 70 roses on the base. (SLATONITE PHOTO)

Mrs. Sparkman Completes Clock, Begins Other Ceramic Pieces

Even though making ceramics is not a new hobby by any means, Mrs. Elmer D. Sparkman, 605 So. 13th St., says it is relatively new to her and since she started the hobby last March, she finds it very "relaxing".

But to visit in her home and see all the many things she has made and even more she is in the process of making, one would think it to be a "busy" hobby, but enjoyable.

Her "pride and joy" is a clock she has recently completed and which is pictured above. She said it took four

clocks to make the one clock. She wanted to surprise Vi Breland, who had given her instruction in ceramics at V.P.'s Ceramic Hobby Shop. She spent many hours making the 129 roses on the clock and 70 roses on the base. She made them by hand without a mold. "At times I felt like I couldn't go on with it", but she did and the finished product is really beautiful. When the clock was finished, then she surprised her friend, Vi.

Since V.P.'s kiln wasn't large enough, Mrs. Sparkman took the clock nearly to Plainview to

fire it. A friend went with her and held it all the way, fearing it might break.

Mrs. Sparkman's husband has been employed by Santa Fe nearly 30 years. She came here as a baby. She is the sister of Cecil Scott.

The Sparkmans have three married children and nine grandchildren. She has made several ceramic figurines for her grandchildren and one has asked for a nativity scene. So if Mrs. Sparkman is like most grandmothers, the grandson will have his nativity scene ...even if Grandma has to make it.

Mrs. Evans Designs Unusual Stationery

A few hours to fill, wildflowers, paper, a lot of patience and an artistic flair are the basic ingredients in the unusual and practical hobby of Mrs. R. E. Evans, 1360 W. Lynn.

Mrs. Evans makes stationery notes and cards out of unusual flowers and weeds. The idea came from her sister who lives in California and is unique in this locale.

Fresh flowers, weeds, paper, feathers or other unusual and colorful items are arranged and glued onto paper and allowed to dry. They are covered with waxed paper and ironed. The note is then torn out according to the size desired.

Each note takes about 20 minutes to make and Mrs. Evans sells them to friends for a quarter apiece. In some, she writes poems and sells them as greeting cards.

"I enjoy taking my hobbies with me when I travel," she commented. Her flowers come from all over the Southwest. Her husband, listening to the interview from the doorway of the Evans home could no longer restrain comment.

"Can you imagine driving down an interstate highway in Arizona or California and suddenly she says 'Stop!' and she starts picking weeds beside the road."

Flustered, Mrs. Evans remarked, "Oh, he kind of knows what to expect and really doesn't mind, now; but, at first he thought I was a little bit off."

The cards are seasonal with the type of flowers marking the season. "My winter cards have feathers, paper and cedar, where spring has buttercups." She related the hardest task was in learning to preserve the flowers in the cards before the edges began to turn brown.

Mrs. Evans has many other unusual hobbies, including making the famed potpourri, bronze figures, writing recipes in verse form and sewing curtains and clothes.

Mrs. W. A. Guinn of San Angelo visited her sister, Mrs. M. E. Morris, last Thursday.

Green Family Moves Back To Slaton

The Pat Green family is happy to be back in Slaton. Every member of the family was excited and pleased when they found out they would be moving back after being away for about five years.

The Greens moved in the Dr. Lee Vardy home, 855 W. Garza, Saturday just in time to get their three children in school Tuesday. Their children are Todd, 7, D'Ann, 11, and Patricia, 14. Each one will be attending a different school building this year and this automatically calls for an active mother.

For those who remember Mrs. Green, or better known as Carolyn, she taught twirling when they lived here before. She has a class that will be starting soon and all age children are invited to call her and pre-register for her classes. She has taught for many years and Slaton area girls will be glad to know they won't have to travel to Lubbock for lessons. Pat is sales manager for new and used cars at Tom Sims

Chevrolet. Already an active member of the Slaton Lions Club, he also enjoys playing golf and we predict he will be an active member of the Slaton Tiger Club. An ex Texas Tech Red Raider football player, Pat enjoys all sports and had coached a men's softball team in Duncan. He coached a Little League team when they lived here before. They are Baptists.

Mr. and Mrs. Green were reared in Paducah, D'Ann, the Green's sixth grader, was winner of the Western Area Little Miss pageant in Oklahoma this summer and was in the top 10 for Little Miss Oklahoma. Patricia is a freshman and will play clarinet in the Tiger Band.

Newcomers are always welcome to Slaton. . . but to those who move away and choose to return. . . we extend you a special welcome!

Concerning Veterans

More than 25,700 veterans are currently taking flight training for a commercial pilot's license under provisions of the GI Bill. Jack Coker, manager of the Veterans Administration Regional Office in Waco, disclosed.

Since flight training was approved by Congress in October 1967, a total of 38,588 veterans have taken advantage of the course.

Provisions under the GI Bill require that a veteran must first possess a private pilot's license, or its equivalent, and must meet the medical requirements for a commercial license, Coker said.

An eligible veteran entered into an approved flight course will be paid an educational assistance allowance computed at the rate of 90 percent of the established charges for tuition and fees which non-veterans enrolled in the same flight course are required to pay.

According to Coker, these allowances may be paid monthly by the VA upon receipt of a certification from the veteran and the school as to the flight training received and the cost to the veteran during each month.

The eligible veteran will be charged one month's educational entitlement under the GI Bill for each \$130 which is paid to him as educational allowance for a degree program.

Coker said that as a part of an education program, the VA will pay for the cost of the flight training received and the cost to the veteran during each month.

Packing Your Wardrobe

A carefree, fresh and unrumpled traveler has mastered a technique for packing comfortable clothes neatly and easily.

Good packing starts with planning ahead, says Extension Clothing Specialist Hazel Roberts. List all clothes and accessories needed for climates and activities the

trip will include. Visualize every outfit from underthings to shoes.

Then scrutinize the clothes list and eliminate anything you can't wear more than once.

For lingerie, Mrs. Roberts says a minimum of three sets is a good guide: one to wear, one to wash and one to

spare.

For greater variety with a minimum of bulk, choose a basic wardrobe color scheme and garments that can serve more than one purpose. Choose garments that will stay fresher longer and will serve double-duty.

Ideal for travel, says the specialist, are the easy-care fabrics - no-wrinkle synthetics, wash-and-wear blends, stretch fabrics that don't sag, versatile knits, no-iron jerseys - in garments that are washable as well as packable.

Animal Games

Certain young animals play games that are favorites with children. Lambs and gibbons like to play "follow the leader." Young otters and deer enjoy "hide and seek." Badgers prefer "king of the castle."

Per capita food consumption in the United States may drop slightly this year, the U.S. Department of Agriculture says. People will probably eat fewer eggs and less pork, lamb and dairy products.

Put shoes, bags and other heavy items in the bottom of a case and the lighter, frequently-used items near the top.

Calls For Alertness

A bicycle is just naturally a carefree sort of vehicle. There are exceptions, of course, but for the most part, the carefree rider wheeling along the street on a hot day is not apt to have his mind on traffic hazards.

An additional burden of alertness on motor vehicles for the possibility of erratic action on the part of bicyclists. A motorist's insistence on having the right of way is a poor balance against the searing heat of a youngster under the wheels of a motor vehicle.

A responsibility which the bicycle rider must assume, however. No cautious driver can lift it off the road. That is to observe the ordinance for driving on sidewalks, especially in busy business areas.

A motorist should take an over degree of caution in the life and limb of the cyclist, the bike rider should take care of pedestrians.

Ends of safe riding and safe wheeling may seem simple, but lack of them can be unforgettably frightful.

Tigers Pass First Test, Scrimmage Tula Friday

Slaton's 1969 edition of the Fighting Tiger football team had its first test Friday, taking on Abernathy here in a scrimmage session, and Coach Ernie Davis reported he was "well pleased" with what he saw.

The primary reasons for a scrimmage, according to the Tiger mentor, are to find out "if the boys will hit, and to determine our weak points."

Nine Scouts, Rev. Parks Hike 20 (Puff) Miles

After hiking 20 miles, four members of Boy Scout Troop 125 then swam a mile in order to complete requirements for two merit badges.

Nine members of the troop and Rev. Bruce Parks left from the railroad track at Southland at 6 a.m. Saturday morning for a 20 mile hike to Post. They arrived in Post at 1 p.m. and were picked up by their scoutmaster, Alex Webb, who took them to Camp Post where they joined seven other scouts from the troop.

Earning their hiking merit badge were Jim Outlaw, Mark Nesbitt, Mark Berkley, Greg Parks and Lamar Smith. Earning the hiking badge and the swimming badge were Randy Marshall, Dennis Gary, Craig Mann and Bobby Breedlove.

Others receiving swimming badges were Bruce Jones, Brad Robison and Roger Robison who is a Cub Scout. Others spending the night at the camp were Jeb Hansarling, Glen Miller, Dickie Jones and Trevor Jones.

Generally speaking, Davis said he was pleased with the defensive showing of the Tigers. And, as a result of the scrimmage, the Tigers were stressing offensive line blocking assignments and pass defense patterns this week.

There's no real scorekeeping in the type scrimmage held between the two teams, but Slaton did cross the goal twice to Abernathy's once. The Tigers ended another 20-play period on the one-foot line with a first-down situation. Most of Abernathy's yardage came on pass plays.

Davis told members of the Tiger Club Monday night that he was happy with the way the first offensive unit moved the ball on its first 20 plays. The Tigers had a harder time the second time around, however, when Abernathy changed to a defense in which Slaton had not been tutored to block against.

"We don't really go out there to outscore somebody in a scrimmage," Davis said. "We want to try all our plays and let all our backs run. . . we don't stick with just the plays we know will go against a certain defense."

Davis said the Tigers would get a stiffer test this Friday in a controlled scrimmage at Tulla. The AAA Hornets are reported to have a strong senior team this season, and Davis thinks the scrimmage will serve as good training for his Tigers. All three of the Tiger running backs on the first unit showed good potential in the Abernathy scrimmage. Fullback Larry Moore powered his way to some good gains, and almost broke for a long-distance touchdown run on one play.

Quarterback Terry Mosser performed well in his first challenge on the varsity. He hit

several passes, and halfback Alan Foody was one of the prime receivers. Mosser took the ball over the goal once on a short plunge, and second-unit back Frank Self scored on a 10-yard run. Halfback Nick Farrell almost scored on a long pass play, but was hauled down at the one-foot line.

Slaton came out of the scrimmage without injuries, except for the expected bumps and bruises, said Davis. After the scrimmage at Tulla Friday, the Tigers will prepare next week for the opening game against Lake View at San Angelo on Saturday, Sept. 13.

Four Teams Tie For Honors In Father-Son Golf

Two teams tied for first and second and two more teams tied for third place in the first annual Father-Son Golf Tournament sponsored here Saturday by Slaton Lions Club.

F. W. and Rod Callaway of Southland tied with Joe Cardenas -- Steve Wilson with low-ball scores of 63 for the top prizes. Men could "adopt" sons for the tourney.

Harley and Paul Martin tied with George Johnson--Ronnie Henry for third place in the tourney, each team firing a low-ball total of 64. Two more teams carded 66's. There were 24 teams entered in the one-day tourney, played over 18 holes.

Proceeds from the tourney are to be used by Slaton Lions in their work with the Texas Lions Crippled Childrens' Camp at Kerrville. Tourney chairman Speedy Nieman announced the club netted \$82,50 from the event.

City Golf Tourney Set

The 4th annual Slaton City Golf Tournament is scheduled to start Sept. 13, it was announced Wednesday by pro Bill Wilson.

Deanie Hatchett, three-time champion, is not expected to be here to defend his crown, so a new city champion is likely.

Entry fee is \$10. The tourney is expected to be completed in three weeks.

Davis Outlines Tiger Prospects At Rotary Club

Tiger coach Ernie Davis was guest speaker for the regular weekly luncheon meeting of Slaton Rotary Club last Thursday in the Community Clubhouse.

Davis discussed prospects for the coming football season and outlined candidates for each position on the Tiger varsity.

He reported the Slaton High team would be small and inexperienced this season, with a large number of juniors on the team.

The Tiger boss introduced two new assistant coaches at the meeting. They were Weldon Mize and Jackie Stewart. Davis reported he might know more about the team after a scrimmage session with Abernathy Friday evening.

Rotarian Howard Swanner also gave a brief "Rotary information talk" at the meeting. Topic was concerned with "what it means to be a Rotarian."

J. S. Edwards presided at the meeting. He announced the club would host Sweetwater Rotarians for a dinner on Oct. 17, night of the Slaton - Sweetwater football game here. The visiting Rotarians will present the program. The Sweetwater

Most of these are diseases of childhood, but sometimes an adult is exposed. German measles is a serious threat to expectant mothers, and mumps is a dangerous disease in any adult.

Dates of physical examinations, with a line or two for notes of special advice or instructions that followed the check-up, should be noted in the health record.

Finally, list the family's health and accident insurance information for quick and easy reference when needed.

Family Health Record Could Prove Important

Sooner or later everyone will find the need for a family health record, and if you don't have one, now is the time to start keeping it, advises the Texas State Department of Health.

If you have a youngster about ready for school, you'll realize the necessity of having accurate and current records. The health record can be of

permanent value for the children's school records, for insurance data, and for your family doctor's use.

An individual personal health record can be had free of charge from the Texas State Department of Health in Austin.

Too, you can start by jotting down the basic information you already have at hand concerning the injury and illness history of each member of your family.

Start it off with a brief listing of family history. Enter the date and place of birth of each person, and the place and date and cause of death of any deceased. Also enter pertinent information and the medical facts about each family member, such as the presence of chronic illness or physical handicap.

Next, start a section for dates of immunizations, being sure to provide space for each member of the family. Allow room for entering dates of immunizations against whooping cough, polio, smallpox, diphtheria, tetanus, measles and typhoid fever. Don't forget to include the dates of booster shots.

In a section of general information, list such things as the type of blood each member of the family has, and the drug sensitivities or special allergies of each. If the RH factor is known, be sure to record it prominently.

The health record ought to include a check list of who in the family has had the more common diseases of childhood--chicken pox, measles, mumps, whooping cough, scarlet fever, diphtheria.

Bus to Angelo Is Considered By Tiger Club

The Slaton Tiger Club heard a report from Coach Ernie Davis and saw films of the Abernathy scrimmage at a regular weekly meeting Monday night.

The adult athletic booster club has started a membership drive for the 1969-70 season. Members have the opportunity of seeing game films and hearing the coaches' reports each Monday night, as well as helping support school athletic projects.

President Glen Akin announced that members will soon be selling "poncho" raincoats which will be imprinted with the words "Slaton Tigers." He also announced that Johnnie Moore had volunteered to serve as cameraman for the game movies this season.

Willis Farrell was appointed to check into the possibility of chartering a bus to San Angelo for interested fans. Cost will be determined and a survey made to see if enough people want to ride the special bus to the Lake View game.

The club meets again at 8:30 p.m. Monday in the Reddy Room.

SLATON TALKS

BY COTTON GROWERS INC.

The general permeates the air in cotton circles, Directors of Plains Growers, Inc., Lubbock, its determination cotton as the number producer on the and to continue the in the prominence in the industry.

the PCG Finance Committee, Lloyd Cline, Director from Lamesa, and member of the Finance Committee, who presented the proposal to the Board, said "The new budget should again just about balance with expected revenue from an estimated Plains crop of 1.9 million bales or more."

He also noted "Approximately \$238,000 is available for budget purposes in 1969-70, and by keeping within that figure we are observing our long-standing and wise policy of not making plans to spend money which isn't already in the bank."

Cline presented the budget to the Board in the absence of M.A. (Rip) Elms, Finance Committee Chairman.

THE BUDGET sets aside \$20,650 for agricultural research, \$24,000 for advertising and public relations, \$12,000 for fiber research and services to textile mills, \$3,000 for fiber quality analysis and reports, \$10,000 for export and domestic market development, \$55,000 for salaries and \$17,500 for travel.

The remainder of the budget goes for rent, insurance, office supplies, telephone and telegraph, meetings and other general "housekeeping" items.

Agricultural research money goes to support cotton breeding work, insecticide and herbicide studies, a search for better control methods for cotton seedling diseases and verticillium wilt and bacterial blight, a study of the effects of temperature on cotton plant growth and fruiting, moisture conservation and utilization work, fertility studies and other research projects aimed at increasing yields, improving quality and reducing the cost of growing cotton.

Savings Bond Sales Reported

July 1969 sales of United States Savings Bonds and Freedom Shares in Lubbock County totaled \$152,172, according to a report from Jimmie Holder, chairman of the Lubbock County Savings Bonds Committee, January thru July sales totaled \$1,156,086 and this is 55 per cent of the 1969 goal of \$2.1 million.

"Bond holders should be aware of two facts and give consideration before redeeming for non-emergency or planned purposes," Holder stated.

"One - accrued interest on bonds must be declared on Federal Income Tax returns in the year Bonds are cashed and, two, The Department of the Treasury has proposed to Congress a new higher rate of 5 per cent on both E and H Bonds retroactive to June 1, 1969. The 5 per cent rate would also apply to all outstanding bonds" Holder said.

"People should remember, too, that Savings Bonds are sold to be redeemed so there's a steady rate of redemptions at all times for emergencies, planned expenditures, and education and retirement purposes. In addition the unique tax advantages of U. S. Savings Bonds make them especially attractive when fully understood by the bond saver.

"The \$52 billion outstanding is a major brake on inflationary forces and represents 23 per cent of the publicly-held portion of the Federal debt," Holder added.

IRS Answers Taxpayer's Question

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions frequently asked by taxpayers.

Q - My refund check only covered the amount I claimed on my return and not the additional amount due me from the 1040X I filed. What should I do?

A - You will receive another refund check soon for the additional amount claimed. No further action on your part is necessary.

Q - I do baby-sitting and housework for several women on a regular basis. How can I tell if Social Security is being paid on my wages?

A - Employers are required to provide employees with an annual statement of wages paid and Social Security taxes withheld.

For household employees, Social Security taxes have to be paid by the employer when cash wages of \$50 or more are paid to an employee during any calendar quarter. No income tax is withheld.

A full statement of your Social Security coverage may be obtained by writing to the Social Security Administration, Baltimore, Maryland, 21235. Give your name, address and Social Security number.

Q - My former husband helps support our three children but

Only veterans who are disabled by injury or disease incurred in or aggravated by active service in line of duty are entitled to compensation, states the VA.

what he gives me doesn't come close to covering the cost of raising them. Who gets to claim them for tax purposes?

A - The general rule as to the children of divorced or separated parents is that the parent who has custody of them for the greater part of the year is entitled to claim the dependency deduction. But there are exceptions to this rule depending on what the decree states and amount of support furnished by your former husband.

For details on claiming a dependency exemption for a child of divorced or separated parents, send a post card to your IRS district office. Ask for a copy of Publication 501, Your Exemptions and Exemptions for Dependents.

SUNDAY'S SERMON

RESPONSIBILITY

Have you ever taken a complaint to a business firm and been told by someone that "This isn't my department. You'll have to see someone else about it."

Sometimes responsibility is a hard thing to pinpoint . . . and a difficult thing to define. Sometimes things happen that seem to be in no one's area of responsibility.

Is it so difficult to determine responsibility when praise or recognition is involved? Unfortunately not. Yet, few of us can afford to be too critical. Our

personal attitudes are pretty much the same.

Very few of us can be accused of shouldering the responsibility for something that has gone wrong if there is any element of choice. After all, we're human.

We need, all of us, a frequent and sincere appraisal of our attitude toward responsibility. We need to give some thought to how well we meet our obligations to family, friends, employer, and to self.

If we live according to the principles of Christianity, conscience will remind us where responsibility fails.

Seek Wisdom

"If any of you lack wisdom, let him ask God who gives to all men and generously and without reproaching, and it will be given him."
— James 1:5

A child reaches out for wisdom with the discovery that a word has meaning. A man has wisdom when he realizes that he still has much to learn. The lessons of life are never ended, for every experience is somehow different from anything we have known before.

If you would live a life of wisdom, have faith. Live to learn, ask guidance, and you will learn to live a life that is full and generous.

Annual Field Day Sept. 11 At Foundation

PLAINVIEW -- Hundreds of West Texas area farmers are expected to be on hand Sept. 11 for the 13th Annual Field Day at the High Plains Research Foundation.

With the addition of agricultural chemicals and seed distributor exhibits to the regular features, the Field Day is expected to be one of the most successful since the Foundation began in 1956.

The chemicals and seed displays will be exhibited in a tent on the lawn south of the Moody Building near area where field tours will begin.

The chemical and seed displays will become a part of the farm machinery exhibits which has proven to be one of the most successful features of Field Day activities. It is estimated that the farm machinery exhibits will number some 50 to 60 different exhibitors. Noting its popularity, Longnecker, Foundation director, said the farm machinery exhibit grows every year.
