Cotton Rolling In--Smiles Rolling Out--Business Is Good

LIONS CLUB LUNCHEON FRIDAY DECLARED TO BE BEST OF SEASON

Last Friday evening at the Presbyterian Church, the Local Lions Club held one of the very best Luncheons since its organization. They had as their invited guests the Slaton School Faculty. Almost one hundred per cent were present both the faculty and the Lions.

An exceptionally nice lunch, or rather a square meal had been prepared in advance by the Presbyterian Auxiliary ladies, and to say that it was nice is putting it in a mild form. Turkey and all the trimmings were there in abundance, the tables were decorated with cut flowers and with the good eats, thus making it one of the most tempting sights ever beheld by a bunch of Hungry Lions and school teachers.

Previous to going to the banquet room, or as it is commonly called by Lions, the "Roar Room" a voting contest was held to determine just who was the most popular teacher in the Slaton Schools. A vote was taken by ballot and Misses Kuykendall and May tied for this honor. Lions McKirahan and Jack Callaway canvassed the votes, and we have heard it rumored among some of those that were present, and who had done a little canvassing just a few minutes before the vote was taken, that they had in their own minds that the ballot box had been "stuffed". This was made by an Old Lion that supposed to be wise to the tricks of young Lions. Nuff Sed.

After all had gathered around the banquet table, Chairman Lion McKirahan announced that there had been a tie in the voting with the above results, and to decide just who was the most popular of the two ladies he was going to ask that the Tail Twister, who is no other than Lion Pitman, to stage a little contest. Tail Twister Pitman was on his feet in just a moment and produced a couple of rubber balloons, giving one to each of the two ladies, and told them that the "first one that blew up the balloon until it busted would be declared the most popular of the school faculty". Miss Kuykendall, eager to carry off this honor, blew up her balloon until it was about the size of a gallon bucket, and attempted to just it by hitting it with her hands. But Tail Twister Pitman evidently had planned that this might happen and we honestly believe that he handed her a balloon that was lined with sheepskin, for when she hit it, it flew out of her mouth and circled around over a part of the room, and never busted, and Miss Kuykendall was compelled to start all over again, and by this time Miss May had a big lead over her, as she had blown up her balloon to about the size of a ten gallon keg, and declared that was the limit to any decent balloon. Miss Kuykendall failed to inflate her balloon to such large proportions, so Miss May was declared winner, and Tail Twister

Slaton Citizens Finance Athletics for Schools

No more loyal set of citizens can be found when it comes to the backing of the school and its activities than at Slaton. The play put on for the benefit of Athletics last week was the best attended ever given in Slaton. For two nights people were turned away for lack of standing room.

Again for the Plainview game the various stores and many private citizens bought tickets and gave them away thus financing the game.

To cap the climax of their loyalty a committee secured as a straight gift from the citizens more than \$200. This pays for the equipment bought for the teams.

This unexpected and unsolicited kindness has made the boys very happy.

It is the custom in many cities for appropriations to be made by the board for equipment for physical training. Heretofore the team has been able with the aid of a park to finance these matters. A park is a real necessity if athletic activities are to be carried on.

This will be taken care of, it is believed, in the near future. To every one who has assisted the team the management is sincerely grateful.

Mr. and Mrs. C. M. Fowler have moved to Slaton from Santa Barbara, California and will make their future home here. Mr. Fowler is a son of Mrs. Truesdale, and has accepted a position at the Piawanka Pumping Station.

Pitman presented her with a nice box of "Marshmallows".

After this contest and amusement Lion W. H. Smith was installed as Vice President and Lion B. W. Dodson as Lion Tamer of the Club. Lion McKirahan called on several of the teachers and Lions for short talks and they readily responded. Miss Whitaker gave a reading and Mrs. Prentice a solo with Miss Ramsey at the piano. Miss Ramsey also favored them with a piano solo.

This meeting was declared by those in attendance as the very best meeting of the year. And the local Lions ask that we thank the Ladies of the Auxiliary for preparing this feast for this occasion and that it will be long remembered.

The following menu was served by the ladies:

Turkey	Dressing
Potatoes and Peas	
Gravy	Cranberry Sauce
Celery	
Fruit Salad	Coffee
Washington Pie	

Mrs. C. W. Wilks Returns From Sanitarium

Mrs. C. W. Wilks returned to her home at Slaton the latter part of this week from a local sanitarium at Lubbock where she underwent an operation for Goiter. We are glad to report that the operation was successful and that Mrs. Wilks is back home again, and we are sure that this will be glad news to her many friends. The writer has known Mrs. Wilks for the past twenty years and it was indeed good news to us when we learned that the operation had been successful and still better when we learned that she had returned to her home and was again with her family. Her family is rejoicing over the fact that she will in a few weeks again be in perfect health. This was a very serious operation and the family and friends felt uneasy until a few days ago when it was learned that she had undergone the operation and that it had proved to be a successful one.

Dr. Hill Unable To Be Here Today

The ladies of the Parent-Teachers Association were expecting to have Dr. Hill, president of the West Texas State Teachers College at Canyon, to lecture to them at the High School auditorium today, Thursday. However he was called to Austin on important business and wired that he could not come until later.

The leaders of the association thought that Dr. Hill will possibly be here at the next regular meeting two weeks from now. All members are urged to come and bring their friends for this lecture will really be worth while and no mother should miss it. In fact it would pay the fathers to take the time off and hear one of the leading school men of the state.

Texas Utility Officials Visit Slaton

I. R. Kelso, General Council; H. Wurdock, President of Slaton Power and Light Co.; E. S. Billings, Chief Engineer, all of St. Louis and H. L. Allen, manager of the Lubbock plant, of the Texas Utilities Company, have been in Slaton the greater part of the week conferring with the local manager, Mr. Elliott, on matters pertaining to the company's holdings in this and other cities of the South Plains. They have also been in conference with the City Commissioners in reference to furnishing power to pump our city water and lights for the streets. The Commissioners are negotiating with these people on a long time contract to furnish them power to pump water and electricity for street lighting purposes.

The Texas Utilities Company is one of the largest concerns of its kind in the United States and if the City Commissioners contract with them to furnish the city power, we can rest assured that we will receive the very best of service and at as small a cost as it can be produced for by any company, and smaller than by some companies. We will have more to say about this matter in our next issue and hope to be able to announce that contracts have been signed whereby the Slaton Power & Light Co. will furnish power and lights for our streets.

Receives Returns of Slaton Fair

W. F. Porsch, who lives four and one-half miles south-west of Slaton, and a breeder of the famous White Rock chickens is a great Slaton Fair booster. Mr. Porsch states that he has already received some business caused from chickens that he had on exhibition at the Fair. He is of the opinion that this is a great advertising medium and will have more of the White Rock on exhibition next year at the fair.

SLATON, THE FUTURE CITY OF THE SOUTH PLAINS, IF WE WILL MAKE IT

We say the future city in the above caption, advisedly. The fact is Slaton is a city already. But no city reaches the point that frees it from need for more improvement and higher development. We are interested in the Slaton of today, but we are also concerned about the Slaton of tomorrow.

Lights, water, sewerage, and paved streets are prerequisite to the best development and attractiveness of any town, not to speak of the comfort, convenience, and sanitation these things provide for the citizenship. We have the whole thing except the paved streets. Our next interest should be turned in that direction.

Lubbock, our neighbor on the north-west, has paved quite a few of her streets. Tahoka, our smaller neighbor town on the south of us, has paved a nice section of her streets. Slaton the equal of either of these towns in many ways, (with due regard for the feelings of the citizens of these villages) has no paved streets. The truth of the matter is Slaton has been growing so fast that we have hardly had the time to consider paving. And our growth continues, but the time is here when we MUST consider this very important feature for the best interest of the town as a whole.

Of course, opposition to good enterprises of this nature is expected. And we know of a few cases in the state of Texas where this kind of opposition has killed the futures of the towns where the opposition was successful in staying the hand of progress. Also, we know of hundreds of towns that have gone ahead and provided the things that make a town hum, and today those towns are still humming.

Slaton will grow and continue growing if we see that she keeps pace with her growth. But if Slaton should fail to make progress in these respects that she should make, there will come a time when she will be as dead as some we have seen before.

Get interested in Slaton's welfare. Talk street paving. It ought to be done, and it is not too early to think about it. We believe Slaton will do in this matter as she has done in others—take her place alongside the best towns and cities of this State with reference to paving her streets.

Mutt and Jeff Show Here Friday

Friday the citizens of Slaton and surrounding territory will have an opportunity to see the "Mutt and Jeff show". These funny comedians stage a play entitled "In Havana". It is a joyous jumble of rip-roaring fun. This company has a large tent and have played all of the important towns on the South Plains and they have given satisfaction wherever they have been.

Mutt and Jeff are the greatest producers of unlimited laughter the world has ever known. They say the show is even funnier than the cartoons. They have 20 people in the company.

Organize Home Economic Club

On Thursday afternoon Oct. 14, the pupils of the Home Economic classes met and organized a Home Economics Club to meet every other Tuesday. The following officers were elected: Marion McHugh, president; Lillian Williams, vice president; Joe Hestend secretary; Blanche Abbot, treasurer. After attending to all business matters, lemonade was served and the meeting adjourned. The club is planning many interesting meetings, the first of which is to be led by Virginia Montague on Oct. 28.

GRAIN ELEVATOR BURNED AT TULIA SUNDAY

TULIA, Oct. 13.—The Farmers Mill and Elevator Company's Elevator was practically destroyed by fire here Sunday afternoon at 3:30 o'clock. The damage is estimated at more than four thousand dollars.

Secretary of Chamber of Commerce Moves Office

The Chamber of Commerce has moved its office for the time being in the Slaton Times printing office. I invite everybody from all walks of life to visit me and give your co-operation and service. The Chamber of Commerce is not a Commercial organization in that sense of looking after the merchants or any other special or direct interest, but an organization designed in its nature to look after and become a part of every interest in our trade territory. It is my pleasure to assist every one and every interest.

This change of office was made necessary for the like of room. The City Mayor and the Secretary of Chamber of Commerce were officing together, but the Chamber of Commerce grew with so much interest that no privacy could be had.

The City is in great need of a Public or Commercial building that would house the C. of C., fire boys, and all other kindred institutions of any nature that would prove an asset to Society, Progress, and development of the various interests of our community.

J. J. ROSS

Mrs. Sipe Called To Bedside of Mother

Tuesday night Mrs. V. Sipe received a message that her mother was dying. The message did not give any particulars as to the cause and although we know that Mrs. Wiseman has been sick a good deal this summer we are under the impression that the seriousness of her condition was unknown to Mrs. Sipe.

Mrs. Wiseman lived in Portales, N. M. and it was there that Mrs. Sipe was called to her bedside. She left in a car as soon as the message was received and we hope reached her side before it was too late. We extend to Mrs. Sipe and her family our sympathy in her hour of great sorrow.

"Montmartie" Starring Pola Negri Due Monday

"Montmartie," Pola Negri's latest Paramount production directed by Earnest Lubitsch, the man who made the star famous in "Passion" is a colorful romance of France about 1860. In the picture which comes to the

FUNERAL SERVICES LAST SATURDAY FOR MR. AND MRS. L. A. HICKS

What is said to be the largest funeral attendance ever seen at Fluvanna Scurry County, Texas, was that of the funerals of Mr. and Mrs. L. A. Hicks who lost their lives in the burning of their home eleven miles west of Fluvanna, Wednesday night, Oct. 8th. The bodies of these two people were found among the ruins Thursday morning, badly charred.

Funeral services were held last Saturday, Oct. 11th, at Fluvanna, at 2 p. m. Rev. E. Christian, pastor of the Church of Christ at Snyder, delivering the funeral sermon. Mr. and Mrs. Hicks were both members of that church.

In attendance at the funeral were friends of the deceased from Slaton, Post, Snyder, Gail, Hermleigh, Justiceburg, Amberst and Muleshoe. Relatives at the funeral were: Miss Bertha Hicks, a teacher at Justiceburg, and daughter of the deceased, E. L. Hicks, employed by the Slaton Motor Co., of Slaton, and a son of the deceased, and A. J. Hicks, of Muleshoe,

With the advent of the 1924 cotton crop on our streets, gins running without loss of time, farmers getting into full stride with their cotton picking and seeing a fine harvest ahead of them, business in Slaton is singing a merry song and smiles are as common as bales of cotton. Cotton prices have been a bit unsteady, ranging between twenty and twenty-five cents, but the farmers say this isn't so bad as it might have been. Some of them are holding their cotton, waiting for an expected advance a little later. Others are following what they say is the best policy year in and year out, that is to sell as fast as they get it ready for the market.

While Slaton has a fine payroll the year around, and business never suffers the slumps here as in towns without a payroll, there has been a noticeable pick-up in buying since the new crop made its appearance. Merchants are optimistic, and see a fine season's trade ahead. Each additional bale of cotton coming in adds another smile to the merchant's face. All of them have laid in a full stock of merchandise to stack their counters high with the goods the buying public will need this fall. They all say there is no reason for any person going away from Slaton to supply his needs because the things people want are in stock with the home merchants and priced so the saving may be had in buying from the home merchant. A buying trip to some other town will mean a loss of time and expense of the trip to the purchaser, for it is waiting for him right here in Slaton.

A spirit of industry and optimism is in the minds of everybody. Slaton is having her annual fall "hum". In fact, there'll be a hot time in the old town this fall, even if the weather does turn cold.

Slaton Schools Sign Up For Lyceum Course

The Slaton schools have signed up with one of the best Lyceum companies of the United States for a five number course for this school year. This course is to be composed of musicians, readers and the very best of entertainers. The faculty was careful to investigate and select only the very best.

This is not a money making scheme of the children and their teachers but an honest attempt to get the best of entertainments that the country affords. The season tickets for high school students will be sold for only one dollar. This is at a net price of twenty cents for one number. The parents of students holding these season tickets may also buy them at the same price. Others will be charged one-fifty.

This opportunity to see and hear the best talent in this country for so little money does not come often and you should see the children and get your ticket early. This is the way to assure the success of the venture.

Mr. and Mrs. Hicks, whose untimely death has cast a pall of gloom over the entire section where they were known, were among the most prominent citizens of the Fluvanna section.

Mrs. Hicks, whose name was Sturdivant before her marriage to Mr. L. A. Hicks, was formerly a resident of Snyder, her people having been old settlers there, and were highly respected throughout that section.

Mr. H. G. Whitaker, an old time friend and neighbor of the Hicks family, attended the funeral at Fluvanna.

The Slatonite and the people of Slaton offer their sympathy to all the bereaved relatives and friends in this sad and tragic occurrence.

Miss Grace Boon, of Brownwood, Texas, who has been visiting friends in Lubbock, was here the first of the week visiting her sister, Mrs. S. A. Pevey.

CHEVROLET MAKES GOOD SHOWING IN ENDURANCE AND ECONOMY RUN

Last Saturday at 12:00 o'clock, the Chevrolet car that had been running over the highways in and about Slaton was brought to a standstill in front of the Slaton Chevrolet Co.'s place of business and the engine was stopped for the first time since it had been started on Tuesday morning previous.

This car started in the mud and was in the mud for two days and nights and the roads were bad, pulling very heavy, but under this handicap it made 24 1/2 miles to the gallon of gas and traveled 2150.8 miles and consumed 7 quarts of oil and 9 quarts of water. This is considered by automobile dealers over this territory as being an extremely good record considering the roads.

C. Smith, local manager of the Slaton Chevrolet Co. expressed himself as being well pleased with the results of this test and states that it has helped them to make sales the past few days, as hundreds of people were watching for the outcome of this test before buying a car.

Saturday night at 7:30 at the sales room of the Chevrolet Co. several hundred people gathered to see how far the car had run in the 100 hours and when the speedometer was unsealed expressions of surprise as to the number of miles it had traveled were heard, as so many did not believe that it would travel near so far and on such little gas. In the 2150.8 miles that it traveled it only consumed 87 gallons of gas.

This company held a guessing contest that hundreds of citizens indulged in to the number of miles it would travel. Mrs. W. E. Dorsett proved to be the lucky one guessing the nearest to the number of miles it would travel. Homer McManus was second and F. V. Williams third. \$10, \$5 and \$3 cash prizes were awarded. The lowest guess made was 1,008 and the highest was 6,000 miles.

In the past ten days the company reports the sale of 12 cars as follows: Three roadsters, two Coupes, two Trucks and four Touring cars.

JONES DRY GOODS CO., Inc.

OF SLATON, TEXAS

Invite you to supply all your Fall and Winter needs from our complete stocks, where everything is new and in perfect tune with the season. Shipments of wonderful merchandise are arriving daily and here they are in our store at prices that will amaze you.

COUNTY FEDERATION TO HOLD FALL MEETING IN OUR CITY

The club women of Lubbock county are looking forward to the meeting of the County Federation which will be held Saturday, October 25th at Slaton.

The club women of Slaton are busy with plans for entertaining a large delegation and the program committee is arranging an interesting and beneficial program for this meeting.

The business session will be of unusual interest because of the election of new officers. It is hoped that each club will have its voting delegates present and that all delinquent dues will be paid on or before the day.

Clubs which are not members of the County Federation are invited to attend this meeting and to present their applications for membership.

Clubs belonging to the County Federation are urged to have a full representation of members as well as their delegates.

LAMESA METHODISTS TO BUILD CHURCH

LAMESA, Oct. 10.—Officials of the Methodist church have voted to build a new edifice to cost not less than \$65,000. No definite plans as to the style of the building or the material to be used have been made. The building will be fire-proof and will be arranged to care for all departments of the rapidly growing congregation.

Rev. J. W. Watson, formerly of Rotan, is pastor of this church.

STANTON—Contract let for construction of brick building.

Change In Upholstering Of Ford Sedan

Change in the upholstery in the Ford Sedan, which has been effected lately, has given the car a most attractive interior.

This Ford Type, which has been highly popular since its introduction into the Ford line, is now upholstered in a soft, durable cloth of blue-slate background relieved by a royal blue stripe. Head lining and floor rugs harmonize nicely in color and blue silk curtains on the three rear windows give an added tone of richness to the interior, equally effective in the day time and under the soft glow of the dome light at night.

Appointments are complete, the Ford dash lights, windshield wiper and rear vision mirror now being part of the standard equipment of the Ford Sedan.

With the change in upholstery, the closed car buyer is given a little more variety in the selection of a car for family use—the Fordor with its blue interior or in the always attractive Tudor, upholstered in dark brown.

Upholstery in the Ford coupe also remains in brown cloth, affording the most practical and pleasing effect under the wide variety of uses to which this popular Ford closed type is adapted.

HIGGINS—New cotton gin completed.

New Railroad To Be Built Through West Texas 22,000 Acres Spade Ranch Sold First Day

The prospect of another railroad through Lubbock in the near future were greatly increased with the incorporation of the Roswell, Lubbock, Memphis Short Line Company at Austin Monday.

This new company, whose purpose is to build two hundred and twenty seven miles of railroad line from Wellington, in Collingsworth county to a point near the center of Cochran county will use the old railroad grade built by Edd Kennedy some twelve years ago, between Lubbock and Wellington.

Just whether this railroad proposes to connect up with the present proposition being fostered by J. A. Wilson to build into Cochran county could not be learned.

The Attorney General's department approved the incorporation papers of the new company with a capital stock of \$250,000.00. The directors of the new line are prominent Houston men, most of whom have been identified with railroad construction in the state. Carey Shaw is well known ex-banker. The other members of the board are Clifford Grunwald, E. C. Noble and C. F. Stevens.

The routing of this railroad will pass through Wellington, Memphis, Silverton, Floydada, Petersburg to Lubbock. It will connect by a direct route to this city the best as well as the most fully developed portion of West Texas. To the west of us it will traverse the rapidly developing sections of Hockley and Cochran counties and will probably be built into Roswell, New Mexico, as that city is reputed to be holding out a hundred thousand dollars offer for it to come to them.

Just what connection, if any, exists between our present railroad activities and the proposition just chartered by the state can not be learned as Mr. Wilson is not in the city. The development on the Wilson proposition has advanced to a point where some two hundred and seventy five thousand dollars bonus of a required five hundred thousand has already been signed. The work of getting the other signatures, mainly from the large land owners to the west of us is going on with some progress at this time although complaints have been made that some of the land holders are a bit slow in signing.

The old railroad grade which the newly organized company has taken over was built through Lubbock county at a cost of \$52,000.00 to our town and community and it represents a considerable contribution to the new proposition.

Lubbock will be the largest city as well as the major jobbing center on the entire line and its building would be of inestimable benefit to us.—Lubbock Morning Avalanche.

HOW HEAT AND COLD EFFECT COPPER WIRE

Telephone wires are about four and three-quarter feet longer to the mile in summer time than in the winter time. This is caused by the copper expanding from the heat.

Accordingly, when the wire is strung in the summer the linemen must allow the wire to sag more between poles than they do in the winter so as to prevent the wire from stretching too tight and breaking when cold weather comes. As a consequence there are a very few wire breaks in winter caused by the wire becoming too tight. The breaks that do occur at that time are caused generally by sleet storms. A half inch of sleet on a mile of telephone wire weighs about one and a half tons.

WASKUM—Tap line being laid to gas wells in this section.

Last Monday the famous Spade ranch and the new town of Anton were formerly opened to the public for purchase and settlement.

Notwithstanding the day was raining and the roads heavy with mud there was a good crowd gathered at the new townsite to view out the situation and make probable purchases.

Following the announcement in the Leader two weeks ago, the management at once became besieged with letters and telegrams of inquiry relative to prices and terms of this famous body of land, for there are many people who have been holding back for several months in making their purchase of South Plains land in anticipation that it was only a matter of time until this famous body of land would be placed on the market.

As a matter of fact, there were nearly 18,000 acres of the first subdivision of 25,000 acres spoken for before the day set for the opening. According to Sales Manager Stanley Watson, the first sales of this land have gone far beyond his most sanguine expectations, and on the opening day it was found necessary to throw onto the market an additional 25,000 acres to accommodate the numerous prospective buyers who were present at the opening. Actual sales closed on that day amounted to a total of 22,000 acres.

The Spade ranch has long been known as one of the finest bodies of land to be found anywhere on the South Plains of Texas. It embodies some 173,000 acres of land, practically every foot of which is tillable. Thousands of acres could be placed in one vast field, if desired, but the land has been cut up into sections of 640 acres each, and then sub-divided into 160 acre tracts it being the desire of the owner, W. L. Ellwood, that it be sold to actual settlers, rather than to speculative interests. These lands are ideally adapted for the growing of every crop that flourishes in this section. The soil is excellent, the water pure and of shallow depth. Located in the very heart of an already well proven agricultural section, they are destined to be—

PROMINENT CLOVIS RAILROAD MAN PASSED AWAY

G. S. Woodard passed away last
Thursday morning at his home on
North Pile Street. He had been in
poor health for several years but had
only been confined to his bed by ill-
ness about two weeks.
The funeral services were conducted
at the Presbyterian church Friday
afternoon by the Pastor, Dr. Mathes.
Mr. Woodard was 56 years of age,
had been a prominent worker in the
church and was a thirty-second de-
gree Mason and a Shriner. The re-
mains were shipped Saturday morn-
ing to San Diego, Calif., for inter-
ment and were accompanied there
by Mrs. Woodard, Miss May Booton,
sister of Mrs. Woodard, and Miss
Helen Woodard, daughter of the de-
ceased.

Mr. Woodard was chief dispatch-
er for the Santa Fe at this place at
the time of his death. He had been
with the Santa Fe in different ca-
pacities for nineteen years and had
the reputation of being one of the
most efficient officials the company
had in this section. He was not only
a highly valued employee to the com-
pany but was exceptionally popular
with men under his employ and those
with whom he was daily associated
in railroad work.

George S. Woodard was a good
man, an excellent citizen and his
passing has caused great sorrow to a
wide circle of friends he had in Clovis.
—Clovis News.

Sheriff Seeks Two Girls Who Left Home

J. V. Langford, sheriff of Collings-
worth county, was in Littlefield Mon-
day night in search of Grace Bennett
and Noveline Sweet, two girls, 13 and
16 years of age respectively, who are
alleged to have left their homes at
Wellington, Texas, September 24th,
two young men, 18 and 20 years of
age, said to belong to a carnival that
was showing there.

Constable F. T. Pyeatt was notified
that they were traveling in this di-
rection and spent Sunday night in
search of them. A description of two
couples, answering those in question
was sent from Sudan, but ere the of-
ficers could locate them, they had dis-
appeared, supposedly crossing the line
into New Mexico.

A reward of \$100 is offered for
their arrest and detention.—Lamb
County Leader.

Wild Turkeys Placed In Canyon Near Amarillo

Six wild turkeys, the first of a
number of shipments expected from
the state fish and game department
were received by the Isaak Walton
club here yesterday, and last night
were turned loose in their new home
in Palo Duro Canyon at the Harding
ranch.

The turkeys were captured in the
Davis mountains near Kerrville, Alto-
gether 75 of the birds will be sent
to the Isaak Walton League here, and
they will be released in various can-
yons and waterways of the Panhandle
League, which is working with
the state in an effort to restock the
Panhandle country with wild life, is
asking the co-operation of the people
of the Panhandle in carrying out this
work.

Only by such co-operation can it be
done successfully, they say. They ask
that no one kill or injure any of the
turkeys.—Amarillo News.

Cattle Plague Under Control Now

HOUSTON, Oct. 11.—With the
roundup and slaughter of 1,200 cat-
tle today federal and state authori-
ties have practically wiped out the
remnants of infected animals on the
6,500 acre area on which the disease
was first discovered.

Estimates on the total number of
cattle which have been slaughtered
since the outbreak of the plague in
Texas two weeks ago was placed at
5,000 head. No outbreaks have been
reported outside the quarantine zone.

Oklahoma today modified her quar-
antine restrictions to allow practi-
cally all products to enter that state.
In modifying the ban, Oklahoma au-
thorities issued an order allowing the
Barnum and Bailey Circus to enter
the state on Oct. 20, providing certain
regulations regarding fumigation were
observed.

HAS DEER TO GIVE AWAY

The United States Department of
Agriculture, through the Forrest Ser-
vice, has some thousands of deer to
give away, according to an announce-
ment made today. These animals are
part of the large herd of mule deer,
estimated at over 30,000 head, found
on the Kaibab National Forrest in
northern Arizona on the northern
side of the Grand Canyon of Colorado.
This area was set aside as a national
game preserve by President Roosevelt
in 1906 in order to preserve the deer
herd which at that time was threaten-
ed with total extinction because of
illegal hunting.

Under the protection of Forrest

Rangers, however, the deer have in-
creased in numbers to a point where
the entire herd is threatened with
starvation and prompt efforts must
be made to reduce it to a number
that can be supported by the vegeta-
tion on the Kaibab plateau.
To accomplish this the Forrest Ser-
vice desires first to give away as many
deer as possible. The expense to the
applicant will be crating and trans-
portation charges, a sum estimated to
be about \$35 per animal. Young ani-
mals only will be shipped. The esti-
mated weight on one animal crated
is 250 pounds. These figures are only
approximate. Final figures must be
secured from the Forrest Service.

Luther Burbank To Give Us New Rose 1925

SANTA ROSA, Cal. Oct. 13.—Luther Burbank, famous plant wizard, is on the eve of the accomplishment of another of his horticultural wonders. He is about to add new fragrance to roses.

Burbank announced today that progress the past year in the perfection of new varieties of roses which will not only have heightened tints, larger size and more delicate coloring than before but greatly enriched fragrance encourages him to believe that they will be perfected by next year.

"Creation of a new rose is a matter of years of effort," Burbank explained. "It is not, as some people believe the work of only a year or two."

IDADOU GARAGE CHANGES HANDS

Mr. P. G. Brown has sold the Idalou Garage to the Idalou Motor Company. Mr. B. M. Ellis of Slaton will be the manager of the new corporation and will move his family here as soon as he can secure a residence.

The new firm is the regular authorized Lincoln, Ford and Fordson dealers and will handle the Ford cars and Ford parts for this territory. They have already received a car of Fords.

Pete Brown's legion of friends will be glad to know that he will remain with the new firm.

They expect to make many improvements in the company to enable them to better handle their fast increasing business.

They will extend their already large brick building 40 feet back and will install late labor saving machinery in their mechanical department and will increase their stock of auto accessories and supplies to several times its present stock.

The Echo welcomes Mr. Ellis and family as citizens of our city.—Idalou Echo.

City of Tahoka lets Ice Plant Contract

Tahoka is to install a municipal ice plant. The City Council entered into a contract with the Sterling Ice Machine Company for the installation of a ten ton plant to be operated by the City in connection with the municipal water, light and power plants.

It is contemplated that the plant will be installed and ready for operation by the time the next ice season opens.

By the operation of this plant the City will be able to furnish ice to the citizens at a much lower figure, it is thought, than they are compelled to pay for ice now and the plant will pay its own operating expenses.

This marks another step in the development and growth of our city, and the Mayor and the City Council are to be commended for this forward step.—Lynn County News.

FOUR YEAR OLD BOY KILLED BY TRUCK AT BROWNFIELD

One of the saddest accidents in the history of Terry county occurred on the McGee farm, a few miles east of town Tuesday morning when a truck ran over the little four year old son of Mr. and Mrs. Walton Wilson, crushing out his brains. Death was instantaneous.

It seems that the mother and the children had just driven up in the car and the little son always liked to ride with his father on the truck. When the little fellow, unknown to his father jumped out of the car and attempted to get on the truck, which was loaded, presumably with cotton, when he fell under the truck with the result stated above.

The body will be carried to their old home in Silvertown, where interment will be made.

One consolation worth all earthly possessions can be offered the grief stricken parents, and it came from the Savior. He said, speaking of little children: "For of such is the Kingdom of Heaven."—Terry County Herald.

The "Spoilers" Won Fame for Rex Beach

A literary person with a passion for figures has estimated that fully ten million books dealing with Alaska has been sold. Two names head the list of best sellers of Alaska novels. They are Rex Beach and Jack London.

Rex Beach's novel, "The Spoilers," according to the figures, is the most popular novel ever written about the far north. It's sales have run to the half million mark. Numerous editions have been printed. It is even now selling as well as the average novel, and it has been nearly twenty years since it was published.

Interest in the book was revived by the announcement that it was being filmed on an elaborate scale by Jesse D. Hampton at the Goldwyn Studios. When it was screened some years ago it was the first big American picture. The new version has an all-star cast headed by Milton Sills, Barbara Bedford, Anna Q. Nilson and Noel Beery. It will be the attraction at the Custer Theatre for one day, Saturday, October 18.

Rex Beach, the author, is a picturesque figure, he is not only a popular writer, but he is a shrewd man of business as well. His wealth has been estimated at a million dollars or more. By peculiar coincidence, both London and Beach arrived in Alaska at about the same time. It was during the gold rush of 1898.

Beach left a Chicago law office in answer to the call of gold and adventure. He found both. But he found more than that—but was unaware of it at the time of the finding. It was the background for such novels as "The Spoilers" which have made him wealthy, and famous the world over. The author of many books he has never surpassed or equalled it.

Rex Beach feels that to write of adventure one must first love it. This he has done. And that is why his tales ring true. He lived close to the heart of the far north, and roughed it with the characters whom he later put into his book. A college man, a lawyer by profession, he has been a lumberjack, a teamster, a mucker on a steam shovel crew and a prospector for gold in the frozen wilderness. He is a wrestler of strength and ability who could hold his own in a grapple of arms with the strongest professionals.

No Need to Be Drag

I may be unable to lend a helping hand to those who direct the state; but I should be ashamed to make myself one of a noisy multitude to follow and hearthen them into doubtful and dangerous courses.—Burke.

Plant Next Season Pure Bred Seed

This great progress made in breeding up more productive seeds is true in all domestic channels, and we are further convinced of this scientific breeding when we look back and see the progress made by men through scientific training, cultivating the brain and giving man a thorough education. This has made man more productive, more powerful and a better grade and a better type, and today is more useful both to himself and to others.

There is nothing that will increase your production more than pure seed. It not only produces more but will show real value of your lands. If our lands were planted in pure bred seed and was as thoroughly cultivated as Middle East Texas or other older sections, our production would be increased one-third. Let's quit buying supposed pure seed that are brought up from every where and bootlegged they have played and sung this old song as dealers until it has no music. There is a way to tell about this Pure Seed business and lets find that way.

J. J. ROSS

Slaton is on the Hum Everything Lively

There is one of the greatest commercial and industrial waves sweeping over the country than at any time in the history of our city. Merchants and business men are exerting every effort to meet the heavy demand of the buying public. New business interests are being opened in our city every week.

Many new homes are being built, many lots are being sold to strangers preparatory of moving to this section. Our real estate men are selling thousands of acres of both improved and unimproved lands that will soon be in cultivation producing more wealth for the people of the South Plains.

Our gins are running full capacity many cotton pickers are reaching our section just at this time. Our Wholesale Grocery seems to be doing a wonderful business, and indeed it is a great relief and satisfaction to our local merchants to have such an institution right at their door. Every local citizen, in buying groceries, should remember to call for some of the products handled by our Home institution.

Our public schools are doing wonderful work, there seems to be a thorough understanding and a thorough co-operation throughout the whole school interest. This means Service.

Rev. Dodson is delivering a series of lectures on the great doctrines of Truth.

The whole atmosphere seems to be electrified with the melioral germs of progress and prosperity. Every citizen is putting into execution, that real spirit that boosts and builds.

Our good women are hurrying to and from looking after the thousands and one little things that go to protect and build the standard of citizenship.

The thirteen hundred school scholastic children all seem alive and full of he spirit and laughter, these children portray that vivid picture of home life.

Never was there such a wonderful time in the history of our city, the sweet songster of the donkey family sings the animal thrill of five o'clock in the morning. That old Brahma rooster seems to crow louder and with a shriller voice, the quacking of the geese, the day call of the duck, the tramping of the horse as he passes at three o'clock in the morning pulling great loads of the fleecy wealth of the South Plains.

Clear away the front benches and let us sing, "Peace on Earth, and good will to man"

J. J. ROSS

THE CIVIC AND CULTURE CLUB

The Civic and Culture Club met in regular session Saturday, Oct. 11, at the home of Mrs. B. W. Dodson with Mrs. J. A. Klasner as leader.

After the roll call was answered to by definition of a term used in the criticism of fiction, the following program was well rendered.

The purpose and ideals of fiction—Mrs. W. E. Smart.
The novel compared with other types of literature, especially fiction—Mrs. R. G. Shankle

The difference between real people and types in a novel—Miss Ramsey.

What is meant by truthfulness to life in fiction—Mrs. Bessie Donald.

What makes a good or bad book—Miss Ora Kuykendall

Each number on the program showed that it had been prepared with a great deal of care and study.

At the close of the program, the hostess and her daughter, Mrs. Sanders, served a very delightful buffet luncheon to the members of the club. The service was beautiful and the rooms were tastefully decorated with lovely cut roses. The entire evening was a decided success.

CARD OF THANKS

We wish to take this method of thanking our many friends for their kindness shown us while our wife and mother was in a Lubbock sanitarium for a serious operation. We especially thank those that visited her and those that brought and sent flowers some called at the sanitarium and were not permitted to see her but they left their card and she learned through this that they had been there and were not permitted to see her on account of the seriousness of the operation. Mrs. Wilks will always have a kindly feeling for the good people of Slaton and may God's blessings be theirs. Mrs. Wilks is now at home and we have been assured, that while her recovery will be slow, that she will be in good health again shortly.

SPORTS

BY W. V. LEMENS

Tigers Spit in Face of Bull Dogs

Out classing the Plainview team in every phase of the game, the Slaton team galloped off with a 50 to 0 win. The Bull Dogs fought a good fight, though hopelessly beaten from the down.

The game was exceptionally clean. Both sides were allowed an then single word of disdain from. No fumbles were recorded. The Bull Dogs did first down, and held the downs only twice during the game. Plainview did not attempt to carry the ball more than a few downs.

First Quarter

Slaton won the toss and chose to receive. Plainview kicked over the goal line. Slaton ball on the 20-yd line. Kendrick pushes the left side back for 5yds; Altman, L. 5; Kendrick, R. makes first; Kendrick, R. 4; Altman, L. 1st; Slaton off-side, penalty; Woollever nets 3yds; Altman, L. 2; Stone, R. E. 6yds; Kendrick makes 1st at L side; Dude through line 10yds; Plainview off-side; fake to Stone to R. 5yds; Altman, L. 2yds; Altman rams R T for 8yds; Kendrick 3yds; Stone 1yd; Altman 3yds; ball on Plainview's 1yd line. By a center rush Woollever forces ball over line for touchdown; Kendrick makes successful place kick for try-for-point; Score 7 to 0. At end of 10 minutes of straight foot ball 80 yards gained.

Wicker kicks over goal line. Plainview's ball on her 20-yd line. Slaton off-side. Plainview punts. Wicker returns to 50-yd line. Woollever to Kendrick for end run to L. for 24; Stone around R E for 24; ball on Plainview's 8-yd line. In a fake to L E Anderson goes over for a touchdown. Try-for fails. Score 13 to 0.

Second Quarter

Anderson, another "greener" was ground gainer, and promises to make a regular backfield man. He showed fine form. The Tigers scored exactly twenty-five scores in each half. The results of the quarters are summarized below:

Receipts Of World Series Largest Ever

WASHINGTON, Oct. 10.—A new record for world's series receipts was established by the Giants and Senators figures for the seven games \$1,093,104 exceed by \$38,289, those of the only other million dollar series, the six contest battle between the Giants and Yankees in New York last year.

Attendance figures were not shattered, however, the mark of 283,695 set in this series, fell 1735 short of the 301,430 who saw the classic last season.

Washington players will divide \$148,991.62 of the total fund and New York will split up \$99,327.75. The remaining 25 per cent of the players' share will be divided among the second and third place clubs in each league.

The Washington melon will be split in twenty-six shares of \$5,730 each. Manager Harris announced after a meeting of players which followed the game. Miller and Taylor, substitute infielders, and Al Schacht, coach, will each receive two thirds of a share, and the twenty four remaining portions will be equally divided among the other players, Coach Nick Altrock and Trainer Mike Martin, Lump sums will be donated by the players to Wade Lefler, outfielder who was ineligible for the series, to the club house boy, Frankie Baxter and to the Senator batboy.

The Giants left hurriedly after the contest to catch a train and did not announce a division of their cut. The approximate figure for each of the twenty six men on the Giant eligible list, including Coach Jennings, would be \$3,820.

INDIANS VOTE THIS YEAR

Indians will vote in the presidential election this year for the first time under a new law. There are about 135,000 or half as many as peopled this continent when the white man came with whiskey, bullet and bright beads. In a close election those 135,000 Indians might come near to swaying the result.

SLATON WILL ENTERTAIN THE SOUTH PLAINS MUSIC TEACHERS

The Second Annual Fall meeting of the South Plains Music Teachers association will be held in Slaton November 7 to 8. The opening session will be held at one o'clock Friday afternoon.

Arrangements are being made by Miss Ramsey and Miss Baily for the entertainment of guests.

Friday afternoon at two o'clock an address on "Music Teachers and the Certificate laws of Texas" will be given by Wallace R. Clark head of the Music department of the West Texas Teachers College. Discussions on "Choral Club Work" and "Music Memory Contest" will be held Saturday morning at nine o'clock Mr. E. Clyde Whitlock, head of the Violin department of the Fort Worth Conservatory of Music, will discuss the following subjects "Orchestra" "State Affiliation in Music" "State Music Teachers Association" and what it stands for. "How to raise the standard for Teachers," Mr. Whitlock served two years as president of the Texas Music Teachers association and is at present time secretary and treasurer of that organization.

He is also known as one of the leading Musical critics in the state and as a forceful writer on musical subjects.

Saturday afternoon will be devoted to demonstration work of the Dunning System under Miss Kathrine Penry of Lubbock and Miss Lida Ramsey of Slaton.

Progressive series work under Miss Mary Dunn of Lubbock, after which a business meeting will be held.

A luncheon will be given Saturday by the Slaton Club women.

On Friday evening the association will present a program and Saturday evening Mr Whitlock will be presented in recital.

Estimated cotton yield for Texas is 4,125,000 bales from 16,000,000 acres.

GALVESTON—Approximately 3,000,000 bales of cotton were received here during 1924 season.

Automobile Drivers Should Be Licensed

The Texas Tax Journal, in its last issue, declares for stricter regulation of automobile traffic in Texas and for the licensing of drivers. It goes a step farther and suggests that automobile passenger lines be placed under the control of the Railroad Commission.

Farm and Ranch has frequently referred to the growing necessity of strict regulation of automobile traffic, and has more than once called attention to the fact that there are no restrictions on motor drivers. A normal license fee for drivers and a stiff penalty for driving without a license would decrease accidents by half, provided the license was taken away for a period from those guilty of careless and reckless driving or for breaking the laws regulating the driving of motor cars on public highways.

In cities by far the greatest number of accidents are due to fast and reckless driving of boys and men operating small cars in the delivery of goods or in other lines of business. Drivers of these cars become overconfident of their ability to maneuver out of tight places, or brazenly bold in forcing more careful drivers to halt or to move on one side. They dash across intersections at a high rate of speed, counting upon halting such traffic as may be coming up or down the other street. Only when two such drivers meet and contest the right of way are they stopped in their mad rush. Then another accident is registered. If the license to drive a car was taken from drivers of this character and they were jailed for driving without a license, our streets and public highways would be 50 per cent nearer safe than they are now.—Farm and Ranch.

PORT ARTHUR—John R. Adams Company erecting 7-story building at Fifth street and Austin Ave.

Contract For Road In Bailey County Let

MULESHOE, Oct. 11—A contract to build six and one-fourth miles of Highway No. 7 has been let by the commissioner's court for \$10,900. This will extend through the sandhills south of town and leave about 12 miles on to the county line to be finished under another contract.

It is estimated these 12 miles will cost about \$3,000 and it is expected the work will be done at once.

The completing that this 18 miles of road will connect Highway No. 7 and Muleshoe with the highways leading into Littlefield, Lubbock, Lamesa and all the country south and east, and be of inestimable value to Bailey County.

TECH COLLEGE MEN TO MEET AT FORT WORTH OCT. 28.

Texas people are interested in the next meeting of the board of regents of the Texas Technological College which will be held at the Fort Worth Star-Telegram building in Fort Worth October 28th.

Dr. Paul W. Horn, president of the college stated Tuesday that contracts will be let at this meeting, according to present plans, for the digging of the deep wells for the college water supply, the power plant building and the textile building. These contracts will involve the expenditure of about three hundred thousand dollars, Dr. Horn said.

Building work on the college has been going at a good rate and plans are being made for a great celebration at the cornerstone laying on November 11th. The program for the celebration is being worked out by a committee from the local Chamber of Commerce co-operating with local American Legion officials.—Lubbock Avalanche

10,000 Veterans Now Applying For Bonus Daily

WASHINGTON, Oct. 13.—Approved applications for eeeee etain ed applications for World War veteran's adjusted compensation are reaching the veterans bureau from the army

navy and marine corps at a rate of 10,000 a day and the number on hand exceeds 370,000

To date 160,000 claims have been adjudicated of which 6,874 call for a cash aggregate of \$234,000

Director Hines estimated today that about 1,000,000 insurance certificates would be mailed by Jan. 1. and that all cash payments will have been disposed of on March 1.

Officials charged with administration of the bonus law have urged veterans to submit their applications only about 1,300,000 out of a possible 4,500,000 having been received.

FARM PRODUCTS WILL BE ADVANCED ONE MILLION DOLLARS

Recent advance in price of farm products which will increase the agricultural incomes approximately one billion dollars is cited by R. H. Grant vice-president and general sales manager of the Chevrolet Motor Company as one of the most optimistic signs of a steady staple demand for motor cars during the fall months.

"The cotton producing sections are assured of a large money return on this year's crop," he states, "and while a considerable part of this money will be used by the farmer to liquidate past debts and restore their credit, they will gradually be in the market for motor cars. A gradual but nevertheless steady recovery in general industrial activity puts a rosier complexion on the coming months for business.

"Two other factors in the motor car industry will make for stability for both dealer and manufacturer. The manufacturers are watching carefully their production, after having reduced the surplus of cars produced last winter and early spring, and the prices of cars are on the upgrade.

"During the last few months 20 manufacturers have raised the prices of one or all of their models.

"Despite the fact that total sales will run behind those of last year, still 1924 will be the second greatest production year in the motor car industry. Production statistics for the first eight months of this year make a much more favorable showing than

Tulia Here Friday

The fighting Tulia team will here Friday to give the Tigers another test.

This game is regarded by High School officials as the crisis this far in the season. We expect to win from Post, even with their strong. But conditions were different then. We had a different team.

Tulia defeated Lockney, held Hereford to a 6 to 6 tie, and last Friday held the Canyon Eagles, acknowledged leaders of the North, to a 7 to 0 score. They have played most of their games away from home and are veterans of the trail. They fight anywhere. The Tiger team is in a critical con-

dition. Altman, the most aggressive full back on the South Plains, has been ruled ineligible. Deaver, our booting tackle, has dropped out to pick cotton and Anderson has withdrawn from school. This leaves us minus three of the best men on the team. Their services will be missed.

These great losses will serve to incense the squad. There has not been such determination branded on the countenances of the Tiger camp as was manifest Tuesday afternoon since the Lubbock affray. Altman could not stand to witness the work out for it had been only two hours since he learned of the recent ruling barring

him. He was absent. Deaver was gone, Anderson was missing.

At the close of the gruelling work Coach Miller made a clean, but hair-raising talk, heart to heart. The squad lounged round about with a "fight 'till I die" expression on their dusty faces. Frequent outbursts showed the spirit in which the message from their mentor was received.

No time must be lost in idle fretting. The "club-footed" Wicher has been shifted from the transmission case of the machine to the differential to succeed "Dude" His ability was displayed during the last quarter of the Plainview game. He is showing form comparable to Altman when the latter was in Wick's stage of development.

Huckabay, a second team product, has been placed in the central position to succeed Wicker. His work has been seen in the Post and Plainview games and he is a worthy son of the Purple and White. He is a "shoe-stringer" Luna is the new Deaver, at tackle

Talk about fight, that boy is coming through the rye. He has the weight and the spirit. All he likes is the experience, and that is coming.

McGinnis, Whiteright product, is succeeding Anderson on the wing position. He is new on this job, but is filling it creditably. He has had a lot of experience and that counts for something. We are expecting Mac to show some stuff.

If only we win the Tulia game! Everything depends upon it. If we win we go into the finals for the district. If we lose, we lose everything. With a new team we must meet one of the hardest hitting teams that will confront the Tigers. Fans, if you ever expect to fan, now's the time to puff!

Touchback or Safty—Which?

No little confusion has been found distinguishing between a touchback and a safty in the recent games. The following is given in the hope that it will help to clear the minds of some one who wishes to watch the play intelligently.

A safty is made when the ball is downed behind the goal line, after being passed over by an impetus from the team defending the goal. The ball is placed on the 20-yard line and two points are awarded the opponents.

A touchback is more common, and is made under similar conditions, except that the impetus which caused the ball to pass over the goal line was given by the opponents of the team defending the goal. The ball is placed on the 30-yard line; no points being given.

AGE LIMIT BARS ALTMAN

Census records are held as prior documentary evidence and disqualify Dude Altman from high school athletics. The Coaches were given statements from the parents of young Altman certifying to his eligibility and upon these allowed him to play in a conference game against Post. The game has been thrown out but our team has not been disqualified and no reflection rests upon the sincerity of the coach. We hate to lose Dude as he is a good sport and a fine player. The mistake and its result are a disappointment to all. Dude expects to remain in school and make preparations for college.

Ralls at Post

The game of chief interest to Slaton fans, outside of the Tulia game here, is the Ralls-Post affair at Post Friday. Post is now in the running, having defeated Tahoka by a heavy score last week, and the being re-instated since the Slaton-Post game was ruled out.

Ralls is reputed to have a strong team and we may vouch that Post has one. With the odds slightly in favor of Post for a win, it looks as if we might have to play Post again unless eliminated by Floydada, for the district. Whatever the outcome, Slaton must beat Tulia Friday in order to be entitled to a try with either Post, Ralls or Floydada.

Little Westerners 6; Lorenzo 6. LORENZO, Oct. 9.—Coach Lowery's second team held the Lorenzo team to a 6 to 6 tie here today. Both touchdowns were made after only a few minutes of play. Adkinson for Lubbock and Wade for Lorenzo carried the pigskin over for the only counters of the fray.

Motion Without Sound

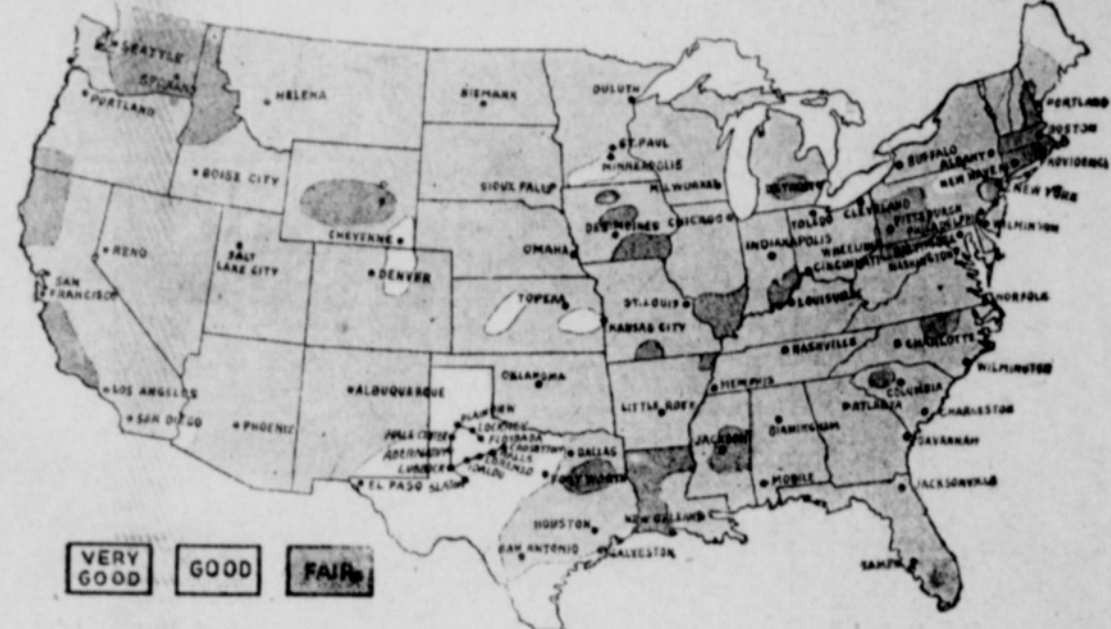

"Would you call a smile the moving picture of a laugh?" asks T. C. B. Yes. We did—several years ago.—Boston Transcript.

LOST—17 Jewel Elgin Watch, name "Barry Hobin" on Face—Return to Red Cross Drug Store for reward 11p

It is a picture of a great empire and its great city, Slaton, coming into its own. They thought so much of this "very good" area and the towns located within it that they have placed the names of the most prominent and prosperous towns on this map. Take another look at it.

Map and General Conditions, Map Issued by LaSalle Extension University as of September 1, 1924.

VERY GOOD GOOD FAIR

Above is the business map of the United States for the month of September. You will notice that all of West Texas, The South Plains and more especially Slaton is in the "white" which denotes "very good business" Slaton is right in the middle of the good area. We wish also to call your attention to the other portion of the map that is in the "Dark" area. It seems that fortune has smile

d on the Western part of the state and Slaton especially This map has looked this way in our territory ever since the year 1924 opened. Each and every month Slaton has been in the "white" or "very good" business spot.

Business men all over the United States watch this map and therefore they have their eyes on Slaton, for where there is prosperity there is

business. Where people are prosperous business comes, and stores are built and more people come to live, prosperity is here to stay. Business is moving steadily ahead. People are coming to Slaton to visit, to invest, to live.

Now is the time to build, invest, expand your business, advertise and grow with the country. Study this map very closely, and tell others about
