Santa Fe Freight Train Derailed Near Here Last Sunday

Fourteen Cars Leave Track; No One Injured; Service Delayed 26 Hours

At 12:42 a. m. Sunday, when a south bound freight train derailed fourteen cars in a narrow cut just below Bugnos siding, fifteen miles south of Slaton, the Santa Fe experienced one of the most expensive and troublesome wrecks ever seen on this division. The cars, supposed to have been derailed by some fault of the oil car that was first to leave the track, stacked upon each other, turning in several instances sideways across the cut.

It was impossible to build track around the wreckage or to transfer passengers, due to the nature of the surroundings, so three passenger trains were held in Slaton while the wreckage was hurriedly cleared away, and that many passenger trains, as well as numerous freight and oil trains, were held on the other side of the wreck. Train service was not resumed until twenty-six hours after the accident.

No one was injured in the smash-up nor in the clearing away of the wreckage. People from this entire section of the country made trips to the scene Sunday afternoon. Many old timers said it was the worst freight derailment they had ever seen.

Rev. Willbanks Speaks At Rotary Luncheon

While the attendance at the regular weekly luncheon of the Slaton Rotary Club was cut down at the meeting last Friday because so many of the local Rotarians were absent from the city, it was nevertheless an interesting and profitable session.

Rev. J. W. Willbanks, pastor of the Slaton Presbyterian church, and C. L. Adams and L. S. Harkey, members of the Lubbock Rotary Club, were guests. The principal speaker of the occasion was Rev. Willbanks, who addressed the club on the subject of "Adaptability." The speaker stressed the application of the Golden Rule in all walks of life and his remarks were well received.

President Floyd C. Rector read a beautiful and appropriate poem, entitled "Myself," by Edgar Guest, and Allen Payne, song leader, led the club in singing two songs.

The program next Friday will be in charge of Rev. A. B. Davidson, whose subject will be "Child Welfare."

Business Men Provide For Firemen's Expenses

J. T. Overby, speaking as a trustee of the Slaton Volunteer Fire Department, has stated that he wishes to thank all of the business men of Slaton who contributed to the fund for sending the delegates from Slaton to the State Firemen's Convention at Harlingen. Those who made the trip were: Chief George Holt, Harvey Austin, Moody Puckett, William White and E. V. Woolver.

Slaton has the most efficient group of volunteer fire fighters in the State of Texas. Their valiant and faithful work in the past is appreciated by all of those in Slaton who have seen them in action. No doubt, the members of the department who made the trip will return with new ideas and better means of fire fighting and fire prevention.

Ralls Man Takes Place With First State Bank

Irvin Bounds, of Ralls, has accepted a position with the First State Bank of this city, and has already assumed his duties with the local institution. He is a brother of G. W. Bounds who recently came here from Ralls to accept a piece with the same bank.

L. N. Evans Died At His Home Saturday

L. N. Evans aged 40 years, 4 months and 14 days, died at his home in Slaton Saturday after a brief illness that was not thought, at first, to be at all serious. His death was a shock to his family and to his friends here. He was just in the prime of life, and leaves a wife and several children, besides other relatives, to mourn his passing.

The funeral services are being held today (Thursday) at the First Baptist church, of which the deceased was a member. Rev. Jno. P. Hardesty will conduct the services. Interment will take place in the cemetery at Lubbock.

The funeral was delayed several days of account of waiting on the arrival of Mr. Evans' mother from North Carolina.

Among the relatives who survive Mr. Evans here are two brothers, F. E. and G. R., both of whom are well known to our citizenship.

The Slatonite extends deepest sympathy to all the bereaved.

Christian Church Will Complete Building

According to statements of some of the leading members of the First Christian church here, the new building that was started several months ago will, in a comparatively short length of time, be ready for use, though the final construction of the upper part of the building will be deferred until a later date.

It has been the plan from the outset to complete the basement and provide in it sufficient seating capacity for general worship and Sunday school, needs, and to finish the main upper part of the building later.

The roof will be laid on the basement building when the last run of concrete has been made, and minor details will then only be necessary to make the structure ready for use by the church.

Copied From The Slatonite of 13 Years Ago

The following items are copied from the Slatonite of thirteen years ago. Many of our old timers here may be able to recall things mentioned here in from week to week, and doubtless it will be very interesting to them, as well as to others who will be glad to learn something of the early history of Slaton:

A freight train was wrecked Monday between here and Post, thirteen cars piling up in the cut leading down the Cap Rock. (Editor's note: This was almost the same kind of wreck as occurred this past Sunday.) Rain has been falling all the week, and the ground is thoroughly soaked.

The Joe H. Smith home has been the scene of a family reunion in which the home-coming of all the children of Col. L. A. H. Smith was a feature, with the exception of the absence of one son, S. Bennett Smith.

Change Managers Here And At Wilson Yard

Rama Crigg, formerly with Rockwell Bros. & Co. lumber yard here, has been transferred to Wilson and becomes manager of the yard there, while T. R. Cobb, formerly manager of the Rockwell yard at Wilson, has been transferred here as manager of the local yard. Messrs. Crigg and Cobb have both moved to their new locations and are now actively in charge of their new responsibilities.

School's Out

Improvement On Boy Scout Park At Post Is Begun; Donations Being Made

Local Men Buy Auto Wrecking House Here

Logan Rogers and H. F. Austin have purchased the Slaton Auto Salvage shop from Mr. Hoover, and will continue its operation at the same location, 275 North Ninth Street, just across the street west of the Slaton Motor Company. They will buy wrecked cars and sell used auto parts at very low prices, they have stated. They will have parts for practically all makes of cars at all times.

Mr. Rogers will continue operating his Top and Tire Shop at the same location, just across the street from the post office.

Slatonite Employee Undergoes Operation

R. W. McPheerson, a member of the Slatonite printing staff, and a nephew of the editor, R. W. Collier, Jr., was operated upon for appendicitis last Friday afternoon in the Lubbock Sanitarium. He stood the operation well, and has been getting along nicely since that time. He is expected to return home in a few days, and in the meantime, his services are being greatly missed in this office.

McPheerson's home is in Converse, La., where his parents reside, but his condition has not been sufficiently serious to require members of his family to attend his bedside. Late reports as to his condition are favorable.

Attends Houston Meet For Cotton Graders

R. H. Tudor, one of Slaton's most progressive business men, and prominently established here in the ginning business, has returned from a three weeks' visit to Houston where he attended a school of instruction in cotton grading and classing held there by the Anderson-Clayton Co. A large number of cotton men from a large area were present at the meeting, and they were given many valuable lessons by men who are at the top of the profession as cotton classers and graders.

Considering Mr Tudor's many years of practical experience in handling cotton, the school he attended has prepared him for a more expert service in his business. He is now not only a practical man from the standpoint of experience, but he is also versed in some important modern points of knowledge in the cotton business that he gained while away.

During his visit to Houston, Mr. Tudor took opportunity to run over to Galveston and have several dips in the surf, by way of ushering in the summer weather.

Post Man Gets Job At \$2.80 Per Yard; Estimates Thirty Blocks To Be Paved

Tech College Receives High Recognition

Texas Technological College has received notice from Mr. Chas. E. Freley, dean of the A. & M. College, and secretary of the Association of Texas Colleges, that students will receive credit for all work done in the college during the session now closing and that the college has been voted into full membership as a first class senior college 1926-27.

The State Department of Education has also given the same recognition and work done in Texas Tech is accepted as a basis for teachers' certificates.

Edwin Sone Reported In Critical Condition

According to a telephone conversation with the Lubbock Sanitarium this (Thursday) morning, Edwin Sone, son of Supt. and Mrs. C. L. Sone, is "very critically ill." Edwin fell several days ago on a slippery sidewalk, and hurt his hip. He has been lingering in a serious condition ever since. It is hoped by the many friends of the family here that Edwin's condition will change for the better in the next few hours.

Moves Radiator Shop To New Location

I. K. Parker, the radiator man, who has been conducting his radiator repair business in the Chrysler Sales and Service building, located in the Robertson block on Texas Avenue, will move his shop today (Thursday) to the building on ninth street formerly occupied by the Big State Garage, but now occupied by the used car department of the Slaton Motor Co.

Republicans To Hold Meeting At Lubbock

The South Plains is to entertain Republican leaders at Lubbock, June 16, and a real reception is planned for them.

A Republican conference with the leaders will be held promptly at 4 p. m. that afternoon in the District Court room, and at 8 p. m. there will be a mass meeting for the purpose of getting acquainted. Hon. R. B. Creager, National Committeeman, H. H. Haines, candidate for governor, and six or seven other prominent leaders of the party will be there, and it will pay everyone to meet them.

Electrical Pump In Second City Water Well Installed; Have Abundant Supply

The city of Slaton has recently completed the installation of a new electrical pump in city water well No. 2, according to Water Superintendent E. Barton. The new well has a pumping capacity of 250 gallons a minute and this well alone would be sufficient to more than supply Slaton with an ample water supply.

The city well number one, with a pumping capacity of 280 gallons per minute, has been supplying the city with all the water needed, and has only been pumped about one-half of the time. The city has a storage capacity of 475,000 gallons in four reservoirs, and in reserve has a connection with the Santa Fe railroad where 500 gallons per minute is available at any time an emergency arises.

Unquestionably the City of Slaton has the greatest supply of pure artesian water that any city of its size

The street paving program which Slaton people have been longing to see started in operation is nearing realization, the contract for paving having been let Tuesday of this week to L. H. Howard, of Post, he having been the successful bidder.

Advertising for bids has been going on for several weeks, and there were nine bidders here Monday and Tuesday, staying to see the outcome of the matter when the bid was awarded. About ninety men were here who were either bidding or were otherwise interested in the paving project. Mr. Howard is the man who constructed the paved streets at Post, and bears the reputation of being a very fine worker in his line.

The successful bid was at \$2.80 per square yard on 45,141 yards of paving. This totals \$143,954.15 for seventeen blocks of paving. Mr. Howard will lay three-inch brick over a one-inch sand cushion and a five-inch concrete base. With this kind of paving, Slaton will have pavements second to none in this section of Texas. Between \$75,000 and \$80,000 of the city's \$100,000 bond issue will be used in the first seventeen blocks of paving, and the remainder will be applied on additional pavement.

It is believed there will be a total of about thirty blocks paved. This is in accordance with the estimates of Julian Montgomery, of Montgomery & Ward, city engineers.

Paving will start soon, as Mr. Howard has promised to get busy at the earliest possible date. It is planned to lay two blocks of the paving around the square on the principal streets as the first piece of construction to be done.

Mr. Howard will be personally in charge of the paving work here, and it is believed only a short time will elapse before construction starts.

The letting of the contract is a further step in the process of placing Slaton in the ranks with the best cities of West Texas. The Slatonite is particularly rejoiced at the prospect of the paving work actually being begun. It is the most progressive move made by the city in many years, and will result in more benefit than any one thing that could have been done.

When paving begins, it should be expected that business in all lines in Slaton will improve, as there will be a considerable payroll increase as a result of it.

The city commission is to be congratulated upon the care and wisdom they have used in handling the paving proposition, and we feel sure their efforts are appreciated by our entire citizenship.

has ever had. "We hope the citizens will use all of the water they can possibly use on flowers, grass and trees, throughout the summer months," Mr. Barton said. "We have an ample supply for all of their needs and we hope they feel free to use as much water as is necessary to insure the growth of their shrubbery."

With all of Slaton's pumps running, a half dozen lines of fire hose could be kept at full pressure day and night for a week without depleting the water supply. As W. H. Smith, president of the Slaton Chamber of Commerce, says, "Slaton now has literally enough water to wash itself away, if it should ever be needed."

Geo. Everline and family left Saturday for Los Angeles to spend two weeks with Mr. Everline's parents, Mr. and Mrs. G. F. Everline.

FOR RENT—Two light housekeeping rooms, modern, close in.—Mrs. U. L. George. 40-tfc

Milk Gives Most Food Value At Least Cost

Milk gives more food value for less cost than any other food known to man, according to Herbert C. Hooks, secretary of the Evaporated Milk association.

H. C. Hooks.

"Dietitians are unanimous in advocating the use of milk by men, women and children," said Mr. Hooks. "Milk and evaporated milk supply some of all the materials necessary

for the growth and maintenance of the body; they furnish energy for work, play and warpath.

"Milk helps repair the wear and tear of the body. It is a good meat for building muscle. Moreover, it is cheaper. A quart of milk will supply as much protein as seven ounces of sirloin steak or four large eggs. Milk, particularly evaporated milk, which has twice the mineral content of market milk, is one of the best and cheapest sources of lime, which is a form of calcium. Infants and growing children need lime to build bones and teeth. It is just as necessary for adults to keep their bones in good condition. One quart of milk, or one pint of evaporated milk, furnishes as much calcium as ten large oranges, thirty-two eggs or twenty pounds of beef. Milk also is a valuable source of phosphorus and supplies a certain amount of iron.

"By some authorities milk is said to be an aid in longevity. Dr. Herman Bundesen, health commissioner for Chicago, gives his prescription for long life as follows: Drink one quart of milk a day and mix with one hour of sunshine. Repeat ad infinitum.

"Due to the efforts of health officials to get across to the public the message of milk, its general use in the United States has advanced tremendously in the last decade. This is especially true of evaporated milk for reasons of its convenience and economy. Housewives know there is no fear of obtaining contaminated evaporated milk, because it is not only the best grade of market milk rendered double-sterilized by dehydrating, but it is sterilized as well."

Happy Wedlock Sure Thing If Bride Is Cook

By KATHRYN ST. JOHN

Haphazard meals yearly ruin thousands of marriages. Most marital ships would maintain an even keel if brides knew cooking.

Many of the first year's troubles between newlyweds would be avoided if the wife were capable of preparing foods with an experienced hand. Wives are to blame for the failure of many business men in the final analysis. The business man's health depends a great deal on what he eats. And it's up to his wife to see that he gets the right kind of food. A healthfully balanced diet goes a long way toward making the tired business man less fatigued.

The expert home manager sees to it that her husband never comes home to a delicatessen lunch. There is a carefully planned meal waiting for him. The real housewife knows that an unbalanced diet means trouble and avoids it. Likewise, she appreciates the fact that variation in her menus is important. In this connection the following recipes have been selected as an aid to the home manager:

- Frozen Salad.**
1/4 cup mayonnaise 1/2 cup canned dressing cherries
1/4 cup diced pine-apple 1/4 cup diced apple
1 thesp. pineapple juice 2 thesp. lemon juice
1/2 cup cream 1/4 cup evaporated milk
Mix the fruit and juices. Combine milk and cream, chill and whip; then fold in the fruit and mayonnaise. Pour into a mold and pack in equal parts of salt and ice. Serve on lettuce leaves. This serves eight.

- Orange Bavian.**
1 thesp. gelatin 1-3 cup evaporated milk
1/4 cup cold water 1/2 cup whipping cream
1 cup orange juice 1-3 cup whipping cream
1 thesp. lemon juice 1/4 cup salt
1/4 tsp. salt 1/4 cup sugar
Soak gelatin in cold water, add fruit juices, sugar and salt. Heat in the top of a double boiler until gelatin dissolves. Strain and set in pan of cold water. When mixture begins to set, fold in the evaporated milk and cream which have been beaten stiff.

- Banana Ice Cream.**
6 very ripe bananas 2 cups evaporated milk
1/2 cup lemon juice 2 cups cream
2 1/2 cups sugar 1/4 tsp. salt

Scrape off adhering fibrous portion on surface of peeled bananas. Mash and rub through a sieve. Add the rest of the ingredients in the order given and stir until all are well blended. Let stand for 20 minutes so that all sugar may dissolve. Freeze in a 1 to 6 salt-ice mixture. This recipe makes 1/2 gallon cream.

ORDINANCE NO. 34

An Ordinance granting the Pecos & Northern Railway Company, a corporation, and its lessee, the Panhandle & Santa Fe Railway Company, a corporation, and its successors and assigns the right and privilege of laying tracks upon and across certain streets in the City of Slaton and maintaining and operating the same:

Be it Ordained by the City Council of Slaton, Texas:

Section 1: That the Pecos & Northern Texas Railway Company, a corporation, and its lessee, the Panhandle & Santa Fe Railway Company, a corporation, and its successors and assigns, be and they are hereby given the right, power and privilege of locating, building, erecting and properly maintaining and operating a railway track, with the necessary turnouts, switch stands, and other necessary appliances connected therewith upon and over 8th Street and the present end of track near Hale Street to the north line of Lynn Street. The said Railroad companies are to keep and maintain crossings over said track at the intersecting street and alleys in good condition so as not to interfere with the public use thereof.

Section 2: That this ordinance shall become effective from and after its passage and approval.

Passed and adopted this 29th day of April A. D. 1926.

Approved this 29th day of April A. D. 1926.

S. F. KING,
Mayor.

Attest: HARVEY AUSTIN.

I hereby certify that the above is a true and correct copy of Ordinance No. 34, as passed by the City of Slaton on the 29th day of April A. D. 1926.

HARVEY AUSTIN,
City Secretary.

Big Barbecue Will Be Featured In Dedicating Post Memorial to Scouts

Commissioner L. S. Harkey of the South Plains Area Boy Scouts of America, has announced that the newly acquired park near Post, donated by the heirs of the C. W. Post estate, will be dedicated with one of the biggest barbecues and all day picnics that has ever been held in this section on June 29.

J. P. Fitch, regional director of the Boy Scouts for Texas, Oklahoma, and New Mexico, will be present and will make the formal dedication. The picnic will begin in the morning to continue throughout the day, and the entire citizenship of the twelve counties included in this Area are invited to be present. Mr. Fitch will be accompanied by his assistant E. E. Voss, who will superintend arrangements.

Mr. Harkey says that ten beeves, six sheep and four hogs will be smoldering on the hot coals for the big jubilee. Some band from one of the cities in this Area will be present and will furnish music throughout the day.

In the afternoon, Sled Allen will have his Lubbock Hubbers there to meet Post's baseball team in a free game for the entertainment of the visitors. Although all details have not been worked out, it promises to be the biggest thing of its kind ever staged in this part of the State.

Panhandle So. Plains Fair Directors Named

Lubbock, June 9.—Three new directors of the Panhandle South Plains Fair Association were elected last week to fill the shoes of the retiring workers from the board of directors. The new men are I. E. Barr, Geo. R. Bean, and A. W. May. They will put their shoulders to the wheel together with R. W. Bleir, S. E. Cone, Norton Baker, W. A. Myrick, Jr., E. L. Robertson, and H. W. Stanton old directors to make the "Show Window of the Plains" the greatest exposition this year in the history of this section.

The board is going into this year's work with the greatest optimism due to the splendid crop and business conditions.

"We just naturally believe that the people of the entire Panhandle South Plains section are going to gather up their choice agricultural products, stock, poultry, swine, home products, and other exhibit material and bring it into the fair to be shown with the merchants and industry displays to the thousands that will flock through the gates next fall," Walter Myrick recently said.

"Free attractions, shows, rides, football games, fire works and other entertaining features of the fair this year will be of the very best," Myrick stated, "and we are expecting a record breaking crowd when the gates are thrown open and the turn styles begin to click the thousands of people through to see the fair."

A number of counties have already signified that they will exhibit here again and are at work gathering the first products for the display to be shown here September 29, 30, October 1, 2.

A large number of stock and swine breeders have signified their intention of entering the live stock division of the fair while others are expected to line up in the next several weeks.

Interest in poultry raising is on the increase over the entire section and a good show in this department is assured.

Oil Men to Have Big Meet At W. T. C. C.

Amarillo, June 9.—One of the most important of the auxiliary meetings to be held during the annual convention of the West Texas Chamber of Commerce here during June 21-22-23, will be that of the oil men's banquet, of which R. G. Barnum, local oil man, is chairman. Five hundred oil men from all over the nation are expected to be present.

W. S. Farish, of Houston, president of the American Petroleum Institute and president of the Humble Oil Company, will be the honor guest. Among others to be invited are W. C. Teagle, president of the Standard Oil Company, one of the big men of the oil industry; Edgar Pow, of Ft. Worth, former president of the A. P. I. and president of the Sun Oil Company; and J. D. Cellott, of Fort Worth, president of the Mid-Continent Oil Company.

Amarillo, Texas—50,000 people are being prepared for during the West Texas Chamber of Commerce Convention here June 21-22-23.

The Slatonite is a believer in Slaton, and Slaton believes in the Slatonite.

Left On Overland Trip To Chicago

Mr. and Mrs. E. Barton, Mrs. Ivy A. Moore and little son, Erie, left Tuesday morning for an overland drive to Chicago to visit Mr. and Mrs. Barton's two sons, Don and Lonnie, who are both employed in that city.

Mr. Barton is the City Water Superintendent here, and during his absence, W. P. Lane will be in charge of that work. In conversation with a Slatonite representative, Mr. Barton stated that in all his life he has never before taken the time to enjoy a vacation such as he is now taking. Hence, he and his family are looking forward to much pleasure on this trip, both from the standpoint of getting a well earned rest, and also with the opportunity they will have to pay a visit to the two sons.

For some time, Mr. Barton has been planning the trip this summer, but had failed to confide fully his plans to the boys in Chicago. A few days ago he wrote them the possibility of their making the trip. The boys could not wait for a reply to a letter, but on last Sunday night proceeded to call their parents here over the telephone to determine if they were really planning to make the Chicago trip, and just when they would start. Though the distance between this place and the northern city is several hundreds of miles, Mr. Barton said he could hear the boys speaking as plainly as if they had been right here in town. That was a compliment to the telephone service he received in this instance.

The family will be away for three or four weeks.

Ten Auto Race Win- ners Use Firestones

Firestone Full-Size Gum-Dipped balloon tires again made a remarkable showing in the Indianapolis Speedway Classic on Decoration Day, when all ten winners participating "in the money" rode on these dependable tires.

This is the second time balloon tires were used in the great Speedway event, the first being last year when Peter DePaolo on Firestone Full-Size Gum-Dipped Balloons made a new world's record at an average speed of 101.13 miles per hour.

Smaller motors of 91 1-2 cubic inch displacement, compared to 122 cubic inches in 1925, combined with rainy weather and a slippery track, slowed up the time of the 1926 winner, Frank Lockhart, who won this year's race at 95.88 miles per hour.

This year's gruelling battle of tires was called at the end of 402 1-2 miles because of the downpour of rain. Lockhart, who captured the grand prize, drove the full distance without a single tire change and was all set to go the entire 500 miles on the same set of tires.

It is a noteworthy fact, too, that the 1926 Indianapolis race was the ninth on the Hoosier Speedway in which Firestone Gum-Dipped Tires carried the winners to victory.

The terrific battle of tires brings out the effectiveness of Gum-Dipping the exclusive process employed by the

Firestone Company, which builds extra strength and endurance into the cord fabric by impregnating and saturating every fiber of every cord with rubber.

This special process minimizes friction and heat, keeping the tires comparatively cool under a continuous racing strain. The performance of Firestone tires

Indianapolis this year certainly was remarkable when the terrific speed at which the cars traveled over the 15-year-old rough brick track is taken into consideration.

VACATION TIME IS HERE

Let us overhaul your car, repaint it, and put on a new set of tires before you start on your summer trip.

We have the most up-to-date machinery, approved by Ford Motor Co., expert mechanics, and our painting is second to none.

Let us give you an estimate on repairing your car. There will be no obligation on your part. And remember, **All Our Work is Absolutely Guaranteed.**

TERMS IF DESIRED

Only 20 per cent cash required on jobs amounting to \$25 or over. The balance on easy monthly installments.

SUCCESSFUL YEAR HAD BY BAPTISTS

Convention at Houston Heard Many Gratifying Reports on Work. Evolution Denounced.

\$9,000,000 GOAL IS SET

This Objective for Missions and Benevolences to Be Sought By Co-operative Program Commission for 1927.

Following an unusually good record in the work of the local churches and large achievements on the mission fields, there has just been held at Houston, Texas, one of the most successful sessions of the Southern Baptist Convention in recent years.

DR. GEO. W. McDANIEL, President Southern Baptist Convention.

Following the re-election of Dr. George W. McDaniel, Richmond, Va., as president, he sounded in his inaugural address a conviction on the theory of evolution that was promptly and unanimously adopted by the Convention as its own sentiment.

"I am happy to believe that this Convention accepts Genesis as teaching that man was the special creation of God and rejects every theory, evolution or other, which teaches that man originated in, or came by way of, a lower animal ancestry."

With the evolution question disposed of, the Convention was able to proceed with a consideration of its great missionary and benevolent enterprises.

Here are some of the outstanding developments of the Convention:

GOAL OF \$9,000,000 SET UP

1. In the hope of enabling the mission boards and other agencies of the Convention to take care of their indebtedness gradually without having to too greatly curtail their present work, an objective of \$9,000,000 for missions, education and benevolences was set up for 1927, on recommendation of the Co-operative Program Commission.

2. An effort will be made to enlist 500,000 tithees during the next year.

3. The Foreign Mission Board reported 13,269 baptisms on its fields during the year, a gain of about 1,000 over the previous year. The board has 1,215 churches on the foreign fields with 140,488 members, 8,247 out-stations where preaching services are held from time to time, and 528 missionaries and 2,644 native Christian-workers employed in 17 countries.

4. Among the results for the year reported by the Home Mission Board were 833 missionaries employed, 19,744 baptisms, 35,226 additions to the churches, 100 new churches and 468 Sunday schools organized, and 402 church houses built or improved.

DENOMINATION GREW DURING YEAR

5. The Sunday School Board reported total business receipts for the year of \$1,710,471. Of this amount \$380,344 was put back into the general work of the denomination. A total of 89,038 awards in teacher training were made, 403 churches were aided by the Architectural Department in drawing plans for new houses of worship, the number of standard Sunday schools reached 546.

With the gains for the past year the main figures of the denomination are now given by the statistical secretary of the Convention as follows: 26,467 churches, 19,908 ordained ministers, 3,649,330 church members, 21,760 Sunday schools with 2,681,828 pupils, 20,965 church houses, 3,197 pastors' homes, \$166,909,278 invested in local church property \$30,771,574 contributed to local church objects, \$8,256,435 to missions and benevolences and \$39,027,099 to all purposes during the past year.

The time is now ripe for a distinct Baptist advance all along the line and especially in a support of the great missionary and benevolent enterprises fostered by the Co-operative Program, the Convention leaders believe.

Eat Less and Live Longer, Says Lawyer

By W. W. O'BRIEN

(Noted Criminal Lawyer of Chicago.)

Business and professional men working under high nervous pressure do not

live as long as men whose pursuits keep them out of doors and active. Examine the records of longevity and you will find that on the average the longest-lived men are soldiers, sailors and farmers, all vocations which tend to keep a man at his physical best.

Man, in general, rolls down the hill of life fastest when his figure is round. "Leanness and longevity" is a good axiom for business men to remember. If office workers would eat a little less, they would add years to their lives.

Overfeeding is as dangerous to adults as underfeeding is to children. Foods difficult to digest, or which overstimulate, should be avoided by persons whose work does not require any particular amount of physical exercise. Yet thousands of business men eat as much as or more than men who do manual labor. And, inevitably, nature rebels and sickness results.

Many of the country's foremost executives eat but two meals a day, breakfast and dinner in the evening. They seek to keep the organs of the body from becoming clogged. Thousands of other business men confine themselves at noontime to custards, puddings, soups and other sustaining dishes made with milk, or evaporated milk, which is milk in its most sterile form, from which 60 per cent of the water has been removed by evaporation. Such a diet is light and readily assimilated.

There is no more necessary lesson to be learned by the brain worker than how to keep well and healthy by proper attention to food habits.

Eating Greater Cause of Death Than Drinking

Drink is the second greatest cause of disease and death. Food comes first, then drink. Excluding alcoholic beverages, there are dozens of drinks on the market today whose effect is detrimental, particularly to children.

Milk is the best drink for children. Not only is it drink, but food as well—the most nearly perfect food known to man.

Milk is an all-the-year-round drink and for this reason the children often rebel against drinking it. This condition, however, may be overcome by the introduction of the mixed drink. Milk or diluted evaporated milk may be mixed with eggs or used in fruit juices or in some other way which will disguise the fact that the drink contains milk. In the hot summer months when the child naturally drinks more than in cooler weather, it is wise to vary the ways of serving milk, so as not to create a distaste for this important food.

In connection with mixed drinks, the following formulas for milk beverages may aid mothers in serving something new:

- Iced Cocoa: 1/2 tsp. cocoa, 1 1/2 cups evaporated milk, 1/4 cup hot water, 1/2 cup sugar, 1/2 tsp. vanilla.

Scald the diluted milk in a double boiler. Mix cocoa, sugar, salt and add the hot water. Cook over a low flame from 10 to 15 minutes, stirring occasionally to prevent burning. Add to the cocoa the scalded milk; return to the double boiler and continue cooking for 10 minutes. Add vanilla, chill before serving. Pour into tall glasses which contain a few small cubes of ice. Serve plain or top with whipped cream sprinkled with cinnamon. Serves four.

- Egg-Nog: 1 egg, 1/2 cup cold evaporated milk, 1/2 cup orange juice, 1/2 cup sugar, 1/2 tsp. nutmeg, 1/2 tsp. non-alcoholic sherry.

Separate white from yolk of egg. Add salt to white and beat until stiff. Beat yolk until thick and lemon colored and add the fruit juices, nutmeg and sugar. Combine diluted milk with yolk mixture. Pour into a tall glass and put the egg white on top. Sprinkle top with chopped nuts and serve at once. Serves one.

- Orange-Nog: 1/4 cup orange juice, 1-2 cup evaporated milk, 1-2 tsp. sugar, 1-1/2 cup cold water.

Add sugar and salt to orange juice and pour slowly into the diluted milk, stirring to mix thoroughly. Chill before serving. One-half tsp. lemon improves this drink for many. Serves one.

Amarillo, Texas.—General Paul B. Malone, the "Orator of the Army," will speak at a patriotic celebration here Sunday before the W. T. C. C. convention opens on Monday, June 21.

NOTICE FOR SEALED BIDS

Notice is hereby given that the Board of Trustees of McClung Common School District No. 14 of Lubbock County, Texas, will receive sealed bids up to two o'clock p. m., Saturday, June 12, 1926, for the sale, for cash or bankable note satisfactory to said Trustees, of the frame school building known as the McClung school house, and for sale of the Teacherage three room frame building belonging to said school district. Large advertisement for GULF NO-NOX MOTOR FUEL. STOPS KNOCKS Turns Mountains into Mole hills. No-Nox and Carbon are Power Twins. Compression is power—Carbon adds compression—No-Nox withstands compression and the combination gives wonderful motor efficiency. GULF No-Nox Motor Fuel not only withstands the high compression of the modern automobile engine—but also the added higher compression caused by carbon deposits on the walls and piston head which increases with the age of the car;—clicks and knocks are eliminated—greater efficiency is accomplished—followed by more power and greater mileage. This Guarantee goes with it. GULF No-Nox Motor Fuel is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—and will not heat in summer driving. GULF No-Nox Motor Fuel is priced three cents per gallon higher than ordinary gasoline—and is worth it. The Orange Gas—At the Sign of the Orange Disc GULF REFINING COMPANY

(Continued from Preceding Page)

Mrs. W. F. Lee and three children, Don Eric, Perry Lucille and Walter Jr., left Tuesday morning for Cross Plains for a month's visit with Mr. Lee's parents, Mr. and Mrs. J. H. Lee, and family.

Miss Virginia Montague has returned from Greenville where she has been attending Burleson College during the past year. She is the daughter of Mr. and Mrs. W. B. Montague.

Mr. and Mrs. L. H. Stone and family are here from Clovis, N. M., visiting Mr. and Mrs. E. G. Carpenter.

Mrs. Pierce Youngblood left Tuesday morning, in company with Mr. and Mrs. Barton who were starting for Chicago, to visit her parents, Mr. and Mrs. Wiegman, of Claude.

Mrs. W. M. Stultz, of Plainview, together with her three children, are visiting her sister, Mrs. Jack Lokey.

Woodrow Weaver, son of Mr. and Mrs. W. H. Weaver, is at McAllen on a visit with his grandmother, Mrs. E. J. Abbott.

Mrs. Carl Greer and sons are in Ft. Worth visiting Mrs. Greer's parents.

Rev. Michael G. French and niece, Miss Betty Reynolds, are in Dallas this week attending to some arrangements for the new school to be built in Slaton.

Mr. and Mrs. C. E. Travis spent a day or two with Mr. and Mrs. Clifford Simmons on way to Amarillo from a southern trip. Mrs. Travis and Mrs. Simmons are sisters.

Floyd C. Rector, Claude Miller and Richard Ragsdale will leave Friday for Denver, to attend the International Rotary convention held there June 13, 14 and 15.

Mrs. Clifford Simmons spent part of the week in Plainview with Mrs. LeMond.

Mrs. W. H. McKirahan leaves this week for Amarillo, where she will join her brother and sister, Mr. and Mrs. L. B. Newby, and go with them to Long Beach, Calif., for a month's vacation.

Chas. Marriott returned last week from a visit in Tonkawa, Okla., and Wellington, Kansas, with his relatives.

Mrs. Eura Chadwick was called to Shreveport, La., last Saturday by the illness of her grandmother.

Mrs. Dan Trayhee and children, of Clovis, N. M., spent the past two weeks with her parents, Mr. and Mrs. C. A. Leucht. Mr. Trayhee came Sunday to accompany his family home.

Sam Wilbanks is spending this week with his parents, Rev. and Mrs. J. W. Willbanks. The young Mr. Willbanks is on his way to do some summer work at the University.

- With The Churches -

Baptist Church

Sunday school at 9:45 a. m. Bro. A. T. Douglass, pastor of the First Baptist church, Hubbard, Texas, will fill the pulpit Sunday morning and evening. Bro. Douglass, an old college mate of the pastor, while on his vacation has kindly consented to preach for us. He is an able preacher, and those who hear him will be delighted and helped.

All B. Y. P. U. meetings at 7:30 p. m. Prayer meeting at 8:30 p. m. Wednesday evening.

You are cordially invited to attend all our services. A welcome awaits you at this church.

JNO. P. HARDESTY, Pastor.

Methodist Church

Sunday school, 9:50 a. m. Preaching at 11 a. m. and 8:30 p. m., by the pastor.

The evening service will be under the auspices of the I. O. O. F. Lodge of Slaton, No. 861. The lodge members will attend in body in regalia. Subject of sermon: "The creed of an Odd Fellow."

All are invited to the above services.

A. B. DAVIDSON, Pastor.

G. A. S. TO MEET

The Girls' Auxiliary will meet Thursday afternoon at four o'clock at Mrs. Jobe's home. All members are urged to be present.

—Reporter.

Miss Ollie Sone, of Panhandle, and Law Sone, of Amarillo, were called home Sunday by the serious illness of their brother, Edwin, who is in a sanitarium at Lubbock, suffering from injuries sustained in a fall on a slippery sidewalk.

Mrs. E. B. Caroway, who is in Amarillo for a few months, attending to their oil leases and stock, spent Sunday in Slaton with Mr. Caroway.

Mrs. O. D. McClintock and daughter, Lorene, are back home again. Mrs. McClintock, who has been in Dallas with her husband for several weeks, where Mr. McClintock has been receiving treatment for his eyes, reports him somewhat improved.

Mrs. M. V. McConathy left June 1 for an extended visit with relatives at Brownwood, San Saba, Lometa and Goldthwaite.

Louie F. Moore, district clerk, of Lubbock, was here Wednesday in the interest of his candidacy for re-election.

Miss Maurice Hardesty returned last Friday from Abilene, where she had been attending Simmons University.

C. E. Wills, Santa Fe bill clerk, visited last week with home folks at Hereford.

Methodist Missionary

The Methodist Missionary Society met in business and social meeting at the church Monday afternoon. The meeting opened with a song, "Take the Name of Jesus With You."

Prayer—Mrs. S. H. Adams. Devotional—Mrs. Fred Tudor. Prayer—Mrs. W. R. Wilson.

The business session was quite interesting, as the report from Conference held at Taloka last week was given by Mrs. Fred Whitehead. Reports of all the different committees were given by their chairmen.

After the business was closed the ladies were invited by Mesdames. Fred Tudor, Sam Johnson, Frank Merrill and E. E. Wilson as hostesses to the basement where a refreshing ice course was served.

Next Monday will be mission study.

Y. W. A. Meeting

The Y. W. A. met Thursday afternoon, June 3, at the home of Mrs. Stottlemire, with eight present.

A business meeting was held and new officers were elected.

Dainty refreshments were served by the hostess, after which every one went home expressing their thanks for such wonderful time. Our next meeting will be June 15, at the home of Mrs. Grady Bounds, at 3 o'clock.

We invite you to attend these meetings and be one among us.

—Reporter.

Lanham-McClure

A surprise wedding occurred on May 24, when W. S. Lanham, son of Mr. and Mrs. F. H. Lanham, of this city, was married to Miss Gertrude McClure, of Montezuma, N. M. The marriage was not announced to the parents until several days after it had occurred, but the happy young couple were given the blessings of the parents as soon as their marriage became known to them. The wedding occurred in Montezuma.

The groom has been a student in Montezuma College for the past two years, and will teach in the schools of Buckeye, Arizona, next year. He is well known here and has many friends in Slaton who will congratulate him upon the event of his marriage, and will extend their good wishes to him and his bride. Mrs. Lanham is the daughter of a prominent family in Montezuma, and is highly popular among the people of that city.

Miss Hoffman Honored

Miss Frances Hoffman bride-elect of Richard L. Douglas, was complimented with a charming bridge party Wednesday afternoon, June 3, at Lubbock, at the home of Mrs. F. R. Friend, with Mrs. W. R. Spencer as joint hostess. The guest list included Mesdames. O. L. Slaton, Dick Jarrott, J. T. Krueger, Jerry Clayton, Kenneth Kimbro, Misses Mayne Alexander, Blanche Bacon, Ruth Dunn, Lula Mae Cravens, Eula Howard, Clara Lane, Virgie Johnson, Mary Alyce Stanton, Alma Spikes, Johnnye Gilkerson, Mary Louise Middleton, and Betty Reynolds, of Slaton.

Dr. Nan L. Gilkerson and Miss Johnnye Gilkerson were hostesses at one of the most unusual and delightful parties of the summer Tuesday, June 8, at Lubbock, when they complimented Miss Frances Hoffman, bride-elect of Richard L. Douglas, with a military bridge party at the Pagoda Tea shop.

Besides the honoree, Miss Hoffman, the guest list included Mesdames. Frank Jones, Joe Flaig, Carl Roberts, Jr., Kenneth Kimbro, W. B. Powell, Murray Jones, Velton Spikes, Percy Spencer; Misses Clara Lane, Blanche Bacon, Sam Padgett, Ruth Dunn, Mary Alyce Stanton, Evelyn Posey, Margaret Smith, Mildred Street, Ruth Slaton, Alice Johnson, Virginia Johnson, Eula Howard, Tyler Lee Knight, Elizabeth Clarke, Mabel McClendon, Margaret Bennett, Ophelia Steele, Lela Moore and Marie McDonald.

Leaving on Vacations

A party of Slaton and nearby people are leaving about the 16th for California. Those to compose the party are Miss Maude Dean, Miss Madge Stanford, Miss L. Wallace, of Mineral Wells, Mrs. E. B. Blundell, Mrs. J. W. Wallace and Mrs. W. E. Smart. Miss Grace Bailey will leave Sunday for Pueblo, to visit a few days with Mrs. Tom Blair, and will join the California-bound party there. These ladies will attend school at Berkeley during the summer session.

Mrs. G. R. Miller was hostess to the Tres Mesa Bridge Club this week.

Mrs. C. T. Lokey and baby, and Mrs. J. T. Lokey and daughter, will leave Friday for Collin county to visit relatives.

O. E. S. Elects Officers

At a recent meeting of the Slaton Chapter, Order of the Eastern Star, the following officers were elected: Mrs. Grace Lokey, worthy matron; Carl Greer, patron; Mrs. Kathryn Elkins, associate matron; Mrs. Freda Smith, conductress; Mrs. Vertha Merrill, associate conductress; Mrs. Mable Green, secretary, and Mrs. Maude Driver, treasurer.

Notice

The Mothers' Self Culture Club meets with Mrs. W. T. Spratling, Tuesday, June 22, at 4 p. m. All members are urged to be present.

To Entertain Miss Hoffman

Miss Frances Hoffman, bride-elect of Richard Douglas, is to be honored with a party at the Club House here Friday afternoon when the following will be hostesses: Mesdames. R. A. Baldwin, Alex DeLong, A. E. Whitehead, J. E. Eckart, Briggs Robertson, and Miss Jeannette Ramsey.

Mrs. McKirahan Entertains

Mrs. W. H. McKirahan was hostess to her bridge club last Friday afternoon. Those who enjoyed the game were Mesdames. S. A. Peavy, George Herd, F. S. Hewes, Dan Traybee, of Clovis, N. M., Kirby Brown, H. W. Ragsdale, Richard Ragsdale, and J. A. Klasner. Mrs. Geo. Marriott, Mrs. Chadwick, Mrs. Zeph Fogerson and Mrs. J. B. Herwell, of Farwell, were tea guests. The next meeting of the club will be with Mrs. Richard Ragsdale, June 17.

Mrs. Lee Newsom, of Snyder, is visiting a few days at the home of Mr. and Mrs. Dick Odum, with her sister, Miss Jo Bailey. She is enroute to Munday, where she will spend the summer with her parents.

Boyce and Bruce Pember are home for the summer with their parents, Mr. and Mrs. M. A. Pember. These boys are university students at Austin.

Mr. and Mrs. A. Kercheval, of California, have been visiting their son, W. E. Kercheval, and family. They left a few days ago in company with Mr. and Mrs. Fred Davis for a visit with relatives and friends in Vernon.

Mr. and Mrs. F. E. Callaway spent last week in San Angelo.

J. Scott, owner of the Blue Front Grocery, is spending a few days away from business, with relatives at Rice, Texas.

Mrs. Sproles left Tuesday for a three weeks' visit with relatives at San Antonio.

A number of the Plains division crews are coming down with trains from Amarillo, helping out Slaton crews. The congestion is caused, it is stated, by the derailment Saturday night near Southland.

E. E. MacHavee, mechanical superintendent for the Santa Fe, was here Tuesday. Also F. L. Meyers, assistant general manager, of Amarillo.

W. Jenkins, assistant auditor for Hanlin Supply Co., was a business caller in Slaton Tuesday.

Miss Evelyn Frances Kennedy, of Amarillo, is visiting here with her aunt and uncle, Mr. and Mrs. Kirby Brown.

R. H. Perry grand division chairman of machinists association, has returned from Chicago after a three weeks visit with friends and relatives.

W. W. Bothe, chemist, and his force, from Tahoka, are in Slaton with the weed burner, destroying the weeds on the right-of-way of the Slaton division.

Carl Thompson, of Amarillo, spent Sunday the guest of Dr. W. A. Tucker.

J. W. Wallace, of the Santa Fe freight depot here, is away on a vacation, visiting his father at Decatur. He will return the 15th.

Mrs. McHugh and daughter, Josephine, arrived home Wednesday from Austin, where they have resided the past year or two. Mr. McHugh and daughter, Marion, and Miss Margaret Smith, who has been their guest, came in Thursday by auto.

Miss Pauline Lokey, who taught in the schools at Farwell last year, spent a few days in Slaton with relatives before going to Austin, where she will take special work in the University.

Mrs. G. K. Taylor spent Thursday of last week in Tahoka.

Mr. and Mrs. C. R. Cato, of Lamesa, spent Sunday here with relatives.

Col. Smith, who is making his home in Austin, is now in Slaton on a visit with his son, Lewis Smith, and family.

Mr. and Mrs. L. E. White moved to Lubbock this week.

Ben Hill, of Arizona, passed through Slaton Monday, and stopped for a short visit with Mr. and Mrs. John Hanna. He was enroute to Amarillo.

Friends of Miss Thompson, who taught during the past school term in the East Ward schools, will regret to learn that she will not return for the next term of school, as she has accepted a position elsewhere.

Mr. and Mrs. Dick Odum and their daughter expect to leave next week for a vacation in Georgia and points in Florida. They will be joined in Fort Worth by their nephew, Henry Wiggs. Miss Virginia Whitehead will go as far as Fort Worth with them, where she will visit with an aunt.

Mrs. Lee Green is leaving Slaton this week for a few months' stay in Amarillo.

Division Superintendent J. F. Anton and family left Wednesday for Las Vegas, where Mrs. Anton and daughter will visit with her parents, Mr. and Mrs. Hayward. Mr. Anton will return in a few days.

Mrs. E. E. Phillips spent a few days in Plainview the past week.

Miss Stella Mae Lanham, who has been a student in the Tech at Lubbock the past year, will return home Friday of this week.

Born, to Mr. and Mrs. W. E. Felton, Monday, May 31, a fine boy, weighing seven pounds. The mother and the little one are both reported doing nicely.

Mrs. B. F. Harrison and three little sons, of College Station, are here visiting Mrs. Harrison's parents, Rev. and Mrs. A. B. Davidson.

Mrs. Paul Owens left Monday for a visit with T. K. Knight and family at Portales, N. M. She will return the latter part of the week.

Fred and Roberta Harlan, of Abilene, are here to spend the summer with their uncle, G. M. Harlan, and family.

Mrs. Jeff Custer and daughter, of Rising Star, formerly of Slaton, were here this week on a visit with friends. They were accompanied by Mrs. Dr. Patterson and Jimmie Lynes, also of Rising Star.

Mrs. A. H. M. Gonagill is on an extended visit with relatives in Dallas.

Chas. Pack and family were in Clovis a few days this week.

Jess Swint and wife returned Wednesday from a visit to Paducah.

Slatonite Popularity Growing With Readers; Many Express Appreciation

In the past several months the expressions coming from our host of readers all over this section of the South Plains to the effect that they are constantly appreciating the Slatonite more and more each week have become so numerous and so pronounced that we feel it is worthy of mention in our columns.

With a history of service for Slaton and Slaton territory over a period as long as there has been a town here, The Slatonite has gained a prestige among the people of this section that is of distinct importance. Service is the keynote of human existence, and though we speak it modestly and only at the continued approval of our large list of subscribers, we are glad it has been the privilege of The Slatonite to have through all the years of Slaton's history the opportunity to serve—to serve in the very best way possible, giving the people of this section a good paper every week, and pulling constantly for the growth and development of this part of the state.

The future holds no promise more glittering to our eyes than the continued opportunity to render even a better service than we have ever given in the past. It is our constant aim to improve the paper, and so well do we feel that we have succeeded in this respect that we are willing to speak of the testimony given us by so many of our readers that improvement has really been very noticeable.

One thing that we have appreciated, in particular, is the expressions made by so many of our subscribers that they READ the paper more closely each week now than they ever did at any time in its history. It has become a settled fact and is readily acknowledged by the most critical, that The Slatonite and the favorite daily paper of each reader are the most popular publications that go into the homes of the people of this territory. We would even venture the assertion that The Slatonite is the most read paper that is distributed in this section, and the daily paper comes second.

Thank you, faithful friends, for your kind words of approval and your spirit of devotion to the paper that has held the favor of Slaton people since 1911. Your friendship is our most valuable asset, and we trust that our treatment of you in the future shall merit your continued good will and appreciation.

Leaves After Installing Boiler Washing Plant

C. A. Boydston, the man who superintended the installation and construction of the Santa Fe boiler washing plant, here, left Sunday for Wolf Point, Montana, where he will be in charge of a similar job there. He will tear out a washing plant at Wolf Point and rebuild it at a point in North Dakota where a new division headquarters is being established.

Mr. Boydston came to Slaton on November 7, 1925, and began immediately and construction of the washing plant here. The work was completed on March 27, and with its completion, one of the best plants of its kind was made ready for use by the Santa Fe here.

Since finishing the installation of the washing plant here, Mr. Boydston has been taking a rest, due to his having had no instructions as to where his next job would be done. He has stayed in Slaton all of that time, Mrs. Boydston and their small son, Donald, being here also, until about the first of May.

Before going on to Montana, Mr. Boydston will visit in Foteau, Okla., where Mrs. Boydston and their two sons are visiting her sister. The latter is seriously ill at that place.

While superintending construction of the washing plant here, Mr. Boydston was called away on three occasions to do special work at San Antonio, Chicago and Clovis.

Mr. and Mrs. Boydston made a host of friends while they were in Slaton, and all of them regret to see them leave. It is hoped they may again come to Slaton in the future.

Amarillo, Tex.—Numerous entrants for the royal chorus contest during the W. T. C. C. convention here June 21-22-23, are being received.

NOTHING LIKE IT ON EARTH

The new treatment for torn flesh, cuts, wounds, sores or lacerations that is doing such wonderful work in flesh healing is the Borosone liquid and powder combination treatment. The liquid Borosone is a powerful antiseptic that purifies the wound of all poisons and infectious germs, while the Borosone powder is the great healer. There is nothing like it on earth for speed, safety and efficiency. Price (liquid) 30c, 50c and \$1.20. Powder 30c and 60c. Sold by

Safety Meeting Held At Reading Room

With Sapt. J. F. Anton presiding, the safety meeting was held at the Santa Fe Reading Room last Thursday at 1 p. m. About fifty were in attendance at the meeting, and many profitable thoughts were presented by various speakers at the meeting. All the subjects discussed were very vital ones.

A splendid talk was made by Rev. J. W. Willbanks, pastor of the Presbyterian church. In line with the thought that is always made prominent, "How many have you talked to, and who are they," Rev. Willbanks made the point that it is an important thing to question whether any talking has been done to the public or not.

A. I. Tillman, Safety Supervisor for the Santa Fe, was present and gave some interesting information he gained while attending the American Railway Association Meeting held recently. He said the fact was brought out at that meeting that two people are killed at protected crossings where one is killed at unprotected crossings. Furthermore, he stated that the stop rule observed by the Standard Oil Company at all crossings showed no accidents in a one year period, and there was an average of 35,000 crossings daily by representatives of that company.

The meeting last Thursday was considered as especially good one. J. W. SHORT, Safety Committeeman.

Amarillo Preparing Convention Barbecue

Amarillo, June 9.—Sixty heaves, 60 mutton and two carloads of dried oak wood will be necessary for the mammoth barbecue, which is being prepared for the West Texas Chamber of Commerce annual convention here June 21, 22 and 23. One of those old time western affairs, so hard to imitate, will be served up to the visitors to the convention by the Amarillo Chamber of Commerce at a cost of between \$3,000 and \$5,000, it is declared.

PRONUNCIATION AID

June Webster, descendant of the famous lexicographer, Noah Webster, presents a copy of her ancestor's work to the Publicity Department of the Sesqui-Centennial International Exposition Association to help them in pronouncing properly the name of the big events which opens June 1 to celebrate the 150th anniversary of the signing of the Declaration of Independence. There are many types of pronunciations heard but there is just one proper way Noah says. It is "Ses-qui-con-ten-nial" with the accent on the first syllable of the "Sesqui" and on the second syllable of the "centennial."

Young At 60, Or Old At 40? Diet Decides

Women are as old or as young as their state of health. A woman may be young at sixty years or old at forty. It all depends on her physical well-being.

Youth and beauty have a foundation in sound health. And food is easily the most important item in health. In giving consideration to the subjects of diet and beauty, women should not forget the food essentials that make for the preservation of teeth, hair, figure and complexion.

Blame for round shoulders, flat chest and poor teeth among women is due in large measure to faulty diet, or, specifically, to a lack of lime and phosphorus. Milk, or evaporated milk, which is simply cow's milk with 60 per cent of the water taken away, is especially rich in lime.

Because of the concentration of evaporated milk, which is regulated by government standards, it is of

double the richness of ordinary market milk, as is shown in the following table:

Ordinary Milk.	
Fat	3.5 to 4.0 per cent
Sugar (lactose)	4.5 to 4.75 per cent
Proteins	3.5 to 4.0 per cent
Minerals	.7 to .75 per cent
Evaporated Milk.	
Fat	7.5 to 8.2 per cent
Sugar (lactose)	9.5 to 10.0 per cent
Proteins	7.5 to 8.2 per cent
Minerals	1.4 to 1.6 per cent

A quart of milk a day for adults is recommended by doctors not only because of its high mineral content, but for the reasons that it helps keep the digestive tract in proper condition, strengthens the body to resist disease, and gives proper balance to the diet.

Salads also play an important part in the diet. Some sort of a salad, lettuce, tomato, fresh fruit, cabbage or vegetable, should be eaten at least once a day. Neither is the daily menu complete without a generous quality of coarse, leafy vegetables, valuable for their high vitamin content. Fruit juices also have very beneficial properties.

If a woman follows out the rules of diet, birthdays to her will be nothing more than an excuse for a celebration.

Purity of Milk Protected Now By Scientists

By KATHRYN ST. JOHN

Careful housewives constantly make it a point to ascertain the quality of each item that goes on their tables. Preparing food for the family is an extremely important job, for the proper selection and preparation of foods makes a large measure for the health and happiness of the family.

Milk is the most nearly perfect food, but it is a very delicate one as well. The keeping qualities of milk are slight. Danger from contamination is ever present. Evaporated milk, which is double rich because of the removal of 60 per cent of the water, is science's solution to these conditions.

Safe-guarding evaporated milk is worked out as perfectly as man's ingenuity has been able to make the process. From cow to can, the milk which goes into the evaporated product is watched every step of the way.

Cows of the dairy herds are guarded with constant care and are subjected to regular inspections by veterinary surgeons. Herds are carefully groomed, and their yards and barns are kept scrupulously clean, as are all utensils. Milk condenseries are located in the heart of the big dairy regions to facilitate speedy handling, for this is essential if the milk is to be canned at "its moment of maturity." Canvas-covered trucks haul the milk to market, thus protecting the product from contamination on the way. Arriving at the condensery, the milk goes through tests for acidity, sediment, flavor and butterfat content before it is accepted.

Experts watch the progress of the milk through every step of its way. It goes into the evaporating machine; to the homogenizer, which breaks up the fat globules so that the milk may be easily digested by the consumer; by way of the almost human filling machine into sterilized cans; then into the sterilizer, where the cans are surrounded by steam and boiling water, destroying any possible bacteria. Inspectors handle the product as the last step to see that the canning job has been perfectly done. Labeling and packing follow. The housewife obtains the milk as fresh and sweet as when it came from the cow.

Chevrolet 'Trackless Train' Tours 12 States

Described by veteran circus men as "the most novel advance car ever sent out by a traveling show," a replica of a railroad locomotive on a one-ton Chevrolet truck chassis, hauling a miniature railroad coach is on a tour of twelve states with the Morris and Castle circus.

The passenger coach also serves as a ticket and band wagon and is a feature of the parades in every town where the circus exhibits.

Traversing country roads and city streets, the strange looking "trackless train" has been the center of curious crowds of spectators wherever it has appeared.

Plans supplied by the Kansas City Southern railroad enabled Brownlee Wells Motors, Inc., Chevrolet dealers in Shreveport, La., headquarters of the circus, to build the locomotive over the Chevrolet truck chassis. It is an exact duplicate of one of the road's big "Moguls" and is strikingly realistic. The locomotive was christened "Shreveport" at the request of the Shreveport Chamber of Commerce.

The advance man of the show, press representative, contract man and a band of 15 men find accommodations in the passenger coach during their travels. Ample room, assuring riding comfort on the long tour, has been provided. After leading the parade preceding exhibitions, the train is set up as the official ticket office at the circus grounds.

circus ever sent out a more economical "railroad car." They have found their tour can be arranged with more convenience, as their schedules can be altered to suit varying conditions. Due to the weight of 12 tons carried and drawn by the one-ton truck, careful tests were made previous to the start of the trip. It was found the truck has ample power to handle the load efficiently. Economy of operation was the determining factor in selecting the Chevrolet as the power unit. Chevrolet service stations act as "round houses" for the locomotive in each city visited.

SICKLY, PEEVISH CHILDREN
Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath, and takes no interest in play, it is almost certain that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 35c. Sold by

CITY DRUG STORE

Bad Color (liver trouble)

"OCCASIONALLY I am troubled with spells of constipation and inactive liver," says Mrs. John L. Pence, Broadway, Va. "I always use Theodford's Black-Draught when I feel a spell of this kind coming on, for it saves me a bad headache. My color gets sallow at times. I get real yellow, showing that the trouble comes from the liver."

"I have found Black-Draught to be the finest kind of a remedy for this. I take Black-Draught and make a teaspoonful of it, and take it, along in small doses for several days. I have never found anything that served me so well."

"Since I have known about Black-Draught, I have not suffered nearly so much with headache, caused from indigestion. If I find my tongue is coated, and I wake up with a bad taste in my mouth, I know I have been eating indiscreetly, and I immediately resort to Black-Draught to straighten me out."

Women are judged by the clothes
they fail to wear.

He who is quick to forgive is difficult
to conquer.

The Idea of March long ago gave
way to the Brides of June.

It is always a bad bargain to win
an argument and lose a friend.

The habit that is hardest to break
is the habit of doing nothing.

Such is human nature that evil has
more imitators than has virtue.

The fellow who contends that the
world owes him a living usually finds
collecting his most difficult job.

If we had any inventive genius we
would concoct a perfume that would
sweeten some people's imaginations.

And right now there are lots of people
in this "desert country" who are
complaining that it rains too much.

One is not dead until all memory of
himself is gone from the hearts of
those he leaves behind.

Folks will be good only when being
good is as spectacular as committing
sin.

Many times misfortune comes that
she may be a prop to some feeble,
waning soul.

Prosperity is always hailed as a
friend, but she seldom is. Adversity
is always shunned as an enemy,
but she seldom is.

Nebuchadnezzar saw the handwriting
on the wall, but not being as wise
as some modern petty politicians, he
failed to heed it.

When one undertakes to do a thing
by himself he has such a splendid opportunity
to make the action unanimous.

The political bee would be more discriminating
and more useful if he would sting
the voter less and the politician more.

The two leading isms in the world
today are Nationalism and Fascism.
Communism and Internationalism
combine to make the latter.

It should always be born in mind
that Terror is made up mostly of error.

Whether one regrets or applauds the
result of the recent Wet and Dry
contest in Pennsylvania's senatorial
contest, it seems certain that the people
ever there have retained unto themselves
the real power of reform.

There isn't a thing in the constitution
against a fellow making a fool
of himself, which is further proof that
the Constitution is a great Democratic
document.

We are willing to bet dollars to
dozens that the editor who says
he is neutral in the present national
contest in Texas is Jim Ferguson
and hasn't the moral courage to
admit it.

A recent Sunday issue of a certain
Lubbock County daily carried on its
front page sixteen different news
items of killings, accidents and human
misfortunes, ten items of a more
wholesome nature, and one advertisement.
And it is said that this is a
true picture of American life!

We suppose that fellow who kicks
because this column covers lots of
ground, territorily speaking, instead
of staying closely at home, territorily
speaking, is really peeved because we
refuse to quarrel with him, but really,
you know, lack of space and inclination
forbid our engaging in such an
unprofitable pastime. Besides, this
column contains only the choicest of
"canned" goods.

The State Treasury has received
from Washington check for \$1,052,488
in payment for the American Legion

AN ANTI-CIRCULAR ORDINANCE

We have heard the idea of a City Ordinance to prevent the printing and distributing of circulars on the streets. Some cities have passed such an ordinance. This is a favorable thing for the newspapers, alright, and, we really believe, for all parties.

All last fall the streets were full of circulars from non-residents who had apples or honey or a lot of stuff to sell carried by our merchants.

Newspaper advertising is the best, yet, and the cheapest. It puts the fake advertiser to a disadvantage since he can't drop into town for a day and flood the streets with circulars and out in another day. He must either be here long enough to get his ad in one of the papers or not be advertised, and this is too long for him to stay and many fakes are prevented, to say nothing of the litter that accumulates from the circulars. This does not prevent the mailing of circulars for sales for any purpose which the merchant may want to do and it gives the home people the advantage of using their circulars so that when a person gets a circular they are more apt to read them. Millions of circulars are printed annually which are never read. There is a terrific waste to people in this line that they are hard to make understand. The newspaper does not kick because we get hundreds of dollars out of it.

Why should we try to break a man of a habit that pays us? But we have to at least be honest and say we do not believe such a law would hurt anyone unless it might harm the papers and we do not believe we would suffer much.

In the long run, if a thing is really the best the public will soon realize it.—Lamesa Reporter.

The practice of using circular advertising is the greatest menace known to keeping towns looking clean.

Memorial Hospital at Kerrville, which money has been placed in the general fund at Austin. Jim will, of course, and as usual, take credit for this replenishment of the State's exchequer.

MUCH ADO ABOUT NOTHING

Since Ferguson issued the challenge to Moody (now familiar to all of us) and since Moody accepted the challenge, there has been a lot said by the newspapers and the public generally about "the shameful disgrace" in to which Texas politics has fallen as a result of the challenge and its acceptance by the challenged.

We think most of this comment is simply "much ado about nothing," or, in other words, that the acceptance by Mr. Moody of Mr. Ferguson's challenge on the part of his wife does not involve the state in a turmoil of political gamble as some are inclined to term it. The "shameful disgrace" in Texas politics existed before the challenge was made or accepted, and the making and the acceptance of the challenge did not plunge us any deeper into disgrace. It merely expresses the confidence each candidate has in his candidacy, and will serve to draw more attention to each of their campaigns. Ferguson was surprised when Moody accepted, and Moody showed he was not to be misled by Jim's trickery.

Almost identical notes have arisen in Texas politics before. Joe Bailey had a similar proposition to face in one of his campaigns. There is no cause to fear evil consequences of the present situation. The July primary will settle the matter, and Moody will dispense with Jim at that time without any trouble whatsoever. Following that, Harry Miller will succeed to the governor's chair until Moody is inaugurated next January.

TYKE THINKS

By Timothy Tyke of Slaton, Texas.
Some Slaton suffragettes claim equal rights, but they still let their husbands pay the bills.

It's none of our business, but how does Coolidge keep cool these warm summer days?

Collie the college chap writes: "Love, need money. Made five dances, three teas, one ball game and a class last week."

Nancy the newly wed was insulted when the grocer refused her a refund for the eggshells she had saved so carefully.

New York has Wall street; wonder why Chicago overlooked a good bet like Roof Avenue?

and attractive. It would be a blessing for any town to have an anti-circular ordinance. As the Reporter points out, newspaper advertising the best advertising there is, and its value would be still greater should circulars be under ban. At the same time, the expense would be no greater to the merchant, and the town would be a lot better, cleaner, more attractive place in which to live.

RAP'S CHURCH MEMBERS

We quote below from a sermon delivered a few days ago by a preacher in an Amarillo church. The truth of his statements may apply to church members outside of Amarillo—in fact, we are copying his statements because we think his charges are largely true of many churches all over the land. Not that we believe that ALL members of ALL churches are guilty, but that MANY are in MANY churches. The preacher's statements were as follows.

"Sunday after Sunday, night after night, preachers of the gospel are preaching their hearts out to a pile of wood, while sinners are going to hell on every side because of the inconsistencies of Christian church members.

"When Jacob, after cheating his brother out of his birthright and his father's blessing, was fleeing from his brother, he stopped at Luz to rest for the night. With his head pillowed on a rock, God appeared to him in a vision and made His presence known.

When Jacob awoke out of his sleep he was afraid and said, 'how dreadful is this place, this is none other but the house of God, and this is the gate of Heaven.'

"Jacob felt uncomfortable in the presence of God and for his discomfort there was a reason, Jacob had sinned against his brother.

"Christian people today who live lives of sin do not feel comfortable in the presence of God or His people, and as long as they are unrepentant they will not go into the presence of God or company with His people.

"Therefore when the preacher comes into the pulpit to bring a message from God's book, sinning, inconsistent church members are absent, some of the pews are empty, and the preacher must deliver his message to a pile of wood.

"Sinning, inconsistent Christians and church members do not invite others to church, and others fail to come because they are not invited, thus other pews are emptied and the woodpile is enlarged.

"Inconsistent Christians are looked upon as hypocrites by the unsaved, non-church going public, and many stumbling over their hypocrisy, refuse to go to church, thus more pews are emptied and the woodpile is still further enlarged."

DAD ANSWERED

The boy off at college wrote father a letter containing only the following:
No mon,
No fen,
—Your Son.

The father immediately replied to his son's letter by saying:
Too bad,
So sad,
—Your Dad.

Amarillo, Texas.—Dalhart and the North Plains are bringing 2,000 people to the West Texas Chamber of Commerce convention here June 21-22-23.

GUM-DIPPING
the Extra Process for Extra Miles!
Breaks all Tire Records

The 500 Mile Speed Classic at Indianapolis has always been a Battle of Tires. In 1911, Firestone won with fabric tires at 74.59 miles per hour. In 1920, Firestone won with cord tires at 88.55 miles per hour. In 1925, Firestone won with Full-Size Gum-Dipped Balloons at the record breaking average speed of 101.13 miles per hour.

In 1926, Firestone again won with Full-Size Gum-Dipped Balloons. The ten cars to finish "in the money" were all Firestone-equipped. They went the distance without a single blowout and with but two tire failures—one due to a puncture and the other to a leaky valve.

This performance is even more remarkable when you consider the terrific speeds at which the cars traveled over this fifteen-year-old, rough brick track.

Experienced race drivers will not risk their lives or chances of victory on any other tires. And in the commercial field, large truck, motorbus and taxicab fleet operators, who keep careful cost records are among the big users of Firestone Gum-Dipped Tires.

The City Transportation Co., of Tacoma, Wash., writes: "One of our 12 buses on Firestone Gum-Dipped Tires has gone over 40,600 miles and still looks good for many miles of extra service. For all around tire safety and mileage, Firestone cannot be beat."

From Calumet Motor Coach Co., Hammond, Ind., the following: "We operate 40 buses all equipped with Firestone Gum-Dipped Tires. The very low cost per mile on which these buses operate is considerably less than that of any other make." Hayes Bus Lines, Columbia, S. C., says: "We operate 19 buses equipped with Firestone Gum-Dipped Tires. A number of these tires have run over 45,000 miles without ever having been removed from the rim."

The largest taxicab companies in the world standardize on Firestone Gum-Dipped Tires. W. R. Rothwell, taxicab operator, Detroit, Mich., writes: "Two of my Firestone Gum-Dipped Tires have run 76,000 miles."

Hundreds of thousands of car owners voluntarily testify to the safety, comfort and economy of Full-Size Gum-Dipped Balloons. W. H. Peacock, Birmingham, Ala., testifies: "I have had Firestone Balloons for thirteen months and they have delivered in that time 24,469 miles." H. C. Staehle, Minneapolis, Minn., says: "My Firestone Balloons have gone 49,900 miles and are still in good condition."

These records of endurance, speed, safety and mileage could only have been made because of Firestone development of the Gum-Dipping process which insulates and saturates every fiber of every cord with rubber, reducing friction and heat and building greater strength and endurance in the cords—assuring you at all times—

MOST MILES PER DOLLAR

The Firestone Record in Battle of Tires at Indianapolis

Year	Driver	Car	Tires	Miles Per Hour
1911	Harrison	Marmon	Firestone	74.59
1912	Dawson	National	Michelin	78.70
1913	Conan	Peugeot	Firestone	76.92
1914	Thomas	DeLage	Palmer	82.47
1915	DePalma	Mercedes	Goodyear	89.84
1916	Rosta	Peugeot	Goodyear	85.26
1917	No Race			
1918	World War			
1919	Wilcox	Peugeot	Goodyear	88.06
1920	Chevrolet	Moroso	Firestone	88.55
1921	Milton	Frontenac	Firestone	89.62
1922	Murphy	Murphy Sp.	Firestone	94.48
1923	Milton	H.C. Spec.	Firestone	90.95
1924	Corum	Duesenberg	Boyer Special	98.23
1925	DePaolo	Duesenberg	(Firestone) Full-Size (Balloons)	101.13
1926	Lackhart	Miller Spec.	(Firestone) Full-Size (Balloons)	95.88
