

Gin Receipts In Slaton Show 1,373 Bales on Saturday

On last Saturday afternoon, the six cotton gins in Slaton had received 1,373 bales of this season's cotton, a check-up showed. This was a gain of 746 bales over the total one week earlier, which shows the rapid movement of the crop toward the gins prior to the interruption caused this week by general rains through this section. A much lower gain in receipts is anticipated for this week, due to the delay.

Various estimates have been given as to the percentage of Slaton's total crop this year which may be represented by ginnings up to Saturday. Some believe it is one-fifth of the total, some say it may be a fourth, while others say it is not more than one-sixth or one-seventh. Weather conditions may have important bearing upon this, ginner and farmers point out.

More than 500 bales of cotton had been ginned up to last Saturday by the three plants at Posey, McClung and Union.

New Model Oakland Is On Display Here

Completely new and original in appearance, with a host of advanced engineering features, the latest Oakland All-American six went on display here recently at the show rooms of Martin Motor Company, local Oakland and Pontiac dealer.

Smarter, roomier than a year ago, with bodies of distinctive design, and a chassis said to be the last word in mechanical refinement, the latest All-American model bears only a passing resemblance to its famous predecessor—the first All-American six brought out by the Oakland Motor Car Company a year ago.

Briefly, the new line offers a bigger, faster, more powerful engine; new Oakland type internal expanding four-wheel brakes; masterful body creations by Fisher; new Duco color combinations; higher, larger cross-flow radiator with grill front; adjustable driver's seat; chrome lamps of new design; sturdy ten-spoke wheels; Lovejoy shock absorbers and spring covers as standard equipment; new steering gear; sturdier frame, and a host of other improvements that are destined to make the car a distinguished addition to the aristocratic motor car family of America.

Many months have been spent in developing the car to a point where it offers everything that a discriminating public has learned to expect in the way of style and performance. Every detail has been subjected to exhaustive tests that the car might represent the crowning achievement of 22 years of successful automobile building by the Oakland Motor Car Company.

Into the perfection of power plant and body lines have gone the pooled resources of Oakland and General Motors engineers, General Motors Research Laboratories, General Motors Proving Ground, and craftsmen of the Fisher Body organization. Many months have been spent developing and proving every detailed change to bring the finished product up to the rigid standards called for on the specification charts.

Slaton Men Plan To Visit Lamesa Friday

If weather and road conditions are sufficiently favorable, several Slaton business men will go to Lamesa Friday night this week to hear Ben R. Vardaman deliver a lecture there in connection with the business and community institute being held this week. Vardaman comes to Slaton next week, and Lamesa citizens have promised to visit in Slaton to hear Vardaman at that time if Slaton citizens visit them this week.

Among those who have expressed their intention of going, are: J. W. Hood, A. J. Payne, R. P. Burka, O. Z. Fall, J. A. Elliott, W. H. Smith, and M. W. Ussell. Others may go, and are urged to do so if possible. Weather and road conditions will determine if the trip will be made, however, it is stated.

The Lone Star Gas Company has added 50 pounds to the gas line system since January 1 and has extended the system 120 miles.

State Health Board Inspects City Water

A representative of the State Board of Health, Mr. Hargis, was in Slaton during the past week to make an inspection of the city's water supply. His report shows conditions to be excellent, according to E. Barton, city water superintendent. No complaints of any kind were made following the inspection, Mr. Barton said.

The inspector was here as a matter of routine duty, visiting all towns and cities in this section of the state at this season.

Thursday Brings Sunshine After Four Days Rain

Sunshine and a brisk north wind, which rapidly dried the ground, greeted Slaton people Thursday after four days of intermittent rains and threatening cold weather. Relief from the continued moisture was welcomed by farmers as an aid to crops, harvesting of cotton and feed crops now being in progress generally through the South Plains territory.

Damage to open cotton is expected from the rains, a lowered grade being caused by stain. Unless colder weather is yet felt, however, young cotton bolls yet unopened will not be injured, it is thought.

Two and one-half inches of moisture was recorded between Sunday morning and Tuesday morning, while considerable more rain fell during Tuesday, Tuesday night and Wednesday.

Farmers and business men alike are anxiously hoping for favorable weather for several weeks now, allowing good conditions under which to complete crop harvesting.

PRUITT BOY DIES AT HOME OF PARENTS HERE

Miles P. Pruitt, 14-year-old son of Mr. and Mrs. A. B. Pruitt, who live five miles south of Slaton, died Thursday, Nov. 1, at the home of his parents. Funeral services will be conducted today at 2 p. m. at the First Baptist Church here by the Rev. B. G. Holloway, pastor. Interment is to follow in Inglewood Cemetery.

"Street Angel" At The Palace Theatre

"Street Angel," the William Fox screen version of the play by Monckton Hoffe, will be the feature at the Palace Theatre, on Monday and Tuesday. This picture again brings together the triumvirate responsible for the successful screen translation of the John Golden stage play, "Seventh Heaven"—Janet Gaynor and Charles Farrell and Director Frank Borzage.

In this new attraction, which comes to the Palace direct from its long run at the Globe Theatre, New York, the two youthful film lovers are transferred from the scenes of their first triumph in the sewers and attics of Paris to the streets and ateliers of Naples.

Miss Gaynor will be seen as a waif of the wharves who joins a small traveling circus in order to free herself from the persecution of the Neapolitan gendarmes. Farrell portrays the role of an itinerant Italian artist who, enthralled by her charm, follows her about the countryside.

Director Borzage, who is of Italian parentage, has long been a student of Latin manners and customs, but despite his life-long familiarity with the theme of "Street Angel," he spent many weeks in and about Naples, while vacationing in Europe last year, gathering data and atmosphere which was to aid him in bringing the story to the screen.

KNOW TEXAS

The Dallas Power and Light Company is planning an addition to its generating plant to cost \$2,750,000.

The Bermuda onion crop of Texas is valued at almost \$4,000,000 a year.

Texas had an increase of 45 per cent in its natural gas production in 1927.

Texas consumes in its mills only about 2 1/2 per cent of the cotton grown in the state.

Famous Business Expert To Conduct Five-Day Community Institute Here Next Week; Full Program Announced

HON. BEN R. VARDAMAN of Chicago

County Road Bond Election Is Set For December 1

Saturday, December 1, has been set by the Lubbock County Commission as the date for a county-wide bond election to vote on issuance of bonds totaling \$2,005,000 for hard-surfacing highways and lateral roads of the county. Petitions were presented to the court last Tuesday, and an order for the election was passed. The petitions bore signatures of several hundred voters in various sections of the county.

Roads to be hard-surfaced if the issue carries, and amounts to be expended by the county on each road, are:

- State Highway No. 7, via Slaton, Lubbock and Shallowater, \$325,000.
 - State Highway No. 9, via Woodrow, Lubbock and Monroe to Abernathy, \$275,000.
 - State Highway No. 53, via Idalou, Lubbock and Wolffarth, \$371,000.
 - Road west from Slaton to Highway No. 9, via Union school, \$139,000.
 - Road north from Lynn County line through Slaton, Idalou and Becton to Hale County line, \$476,000.
 - Road east from Lubbock through Canyon and Acuff to Crosby County line, \$263,000.
 - Road west from Lubbock to Hockley County line, \$137,000.
- This totals \$1,982,000, and bonds now outstanding in road district number one, including Slaton, will be taken up, amounting to \$23,000, making the grand total of \$2,005,000.

What Other Cities Think of Vardaman (He Speaks in Slaton All Next Week)

Interesting comment coming from other cities where Ben R. Vardaman has conducted "Greater Business and Community Institutes," such as the one he will conduct here next week, is shown by the following quotations: "He is not only a good speaker in every respect, but is a giver of fundamental principles for business and community advancement."—Coleman (Texas) Democrat-Voice. "Mr. Vardaman is a speaker of rare ability on business and community problems. He impressed this city so much that the mayor of Brownwood called him back for a special public address after the institute closed."—Brownwood (Texas) Bulletin. "Vardaman's addresses are gripping in interest. Men will travel half across the continent to hear something not as good as he brings right to our front door."—Beckenridge (Texas) American. "Rare indeed is the opportunity of hearing Ben R. Vardaman. He spoke at Ennis last year and a number of

Waxahachie business men heard him there. It was because of this that he was secured for an institute here this year."—Waxahachie (Texas) Daily Light. "He left his impress upon our city."—Wichita Falls (Texas) Daily Times. "Ben R. Vardaman's address before the advertising club today made a great hit."—Roswell (New Mexico) Daily Record. "His address was great—worth a million dollars to Fulton."—Fulton (N. Y.) Patriot. "The lecture of Ben R. Vardaman was a masterpiece."—The Call, San Francisco, Calif. "The convention passed a special resolution extending Ben R. Vardaman a vote of thanks for his masterly lecture."—Indianapolis (Ind.) Daily Star. "Ben R. Vardaman's lecture at the Y. M. C. A. auditorium last night was one of the greatest of the kind ever heard in the city of Des Moines."—Des Moines (Iowa) Daily Capital.

Mr. Vardaman is now making a tour of the United States, lecturing on salesmanship, better business, and community building. He has spoken in more than 1,000 cities in this country, receiving a big reception wherever he has appeared. He will deliver from two to three lectures in Slaton each day next week. A special program is also planned for this Sunday night at the high school auditorium, with the various churches, clubs and other organizations co-operating. Everybody is invited. Vardaman's subject will be, "Building a City Four-Square." A massed choir, directed by Mrs. Lillian Butler, will furnish music.

The entire week's program is crowded to capacity. Each day includes features which should be attended by every Slaton business or professional man or woman, according to members of the committees in charge of arrangements. Mr. Vardaman is appearing under auspices of the Slaton Chamber of Commerce, and other organizations of the city are co-operating in making the week a successful occasion.

Luncheons will be held at noon each day from Monday to Friday, with lectures by Mr. Vardaman. These will be given at the Slaton Club House. All night lectures will be made at the city hall auditorium, which has seating capacity of about 500. The special women's meeting, to which all Slaton women are invited, will occur Wednesday afternoon at 3 o'clock at the city hall.

Several South Plains towns have been asked to send delegations of business men to Slaton next week for the night meetings. Floydada and Tahoka have already accepted these invitations, and others are expected. Out-of-town attendance will probably be considerable at the night meetings, and some may come for the noon sessions.

Communities surrounding Slaton have also been invited to participate in the programs. A number of citizens from these places are expected. Every possible effort will be made to make the week the most profitable thing of its kind ever staged here for the benefit of the entire citizenship. Officers of the Chamber of Commerce are asking everybody to co-operate in attending the meetings regularly in order to get all possible good from the institute.

The detailed program for the week follows: Union services at high school auditorium, Slaton, Texas, Sunday, Nov. 4, 7:30 o'clock p. m. Massed choir, led by Mrs. Lillian

(Continued on Last Page.)

Baptist S. S. Class Entertains Husbands

The Fidelis Class of the Baptist Sunday school entertained their husbands Tuesday evening, Oct. 30, with a Hallowe'en party at the club house.

Games and contests furnished the amusement for the evening until a late hour, when delicious refreshments were served to the following: Messrs. and Mrs. W. A. Johnson, Earl Thornton, Moody Puckett, Herman Dawson, E. L. Miller, C. C. Miller, M. L. Abernathy, C. V. Young, Hugh Ragland, Fred Stevens, H. C. Kennedy, R. L. Smith, Jr., Barney Wilson, W. E. Martin, C. W. Wilks and son, W. E. Martin. Out-of-town guests were Mr. and Mrs. Leon Burton of Denison.

Second Mass Meet On City Charter Question Is Held

A second mass meeting in connection with the special city charter movement here was to have been held at the city hall last night (Thursday). The committee appointed at the first meeting, held last Friday night, was to report thirty names at last night's meeting, from which list a group of fifteen were to be elected, these fifteen forming the charter commission, and assuming the duty of framing the proposed charter for Slaton.

The committee is composed of J. S. Edwards, W. H. Smith, W. R. Wilson, J. I. Bradley and A. J. Payne.

Dr. Owens' Father Dies In Missouri

Dr. Paul Owens, local jeweler and optometrist, received a message late Thursday, advising him of the death of his father, J. C. Owens, of Shell Knob, Missouri, which occurred at his home there at 6 o'clock Thursday morning.

Due to the long distance and present conditions of the roads, Dr. Owens will not be able to attend his father's funeral, he stated. He visited there during the late summer.

Ford Men Get Special Training

Absolute uniformity of service on the new Ford Model "A" cars and Model "AA" trucks is being maintained by the Ford Motor Company through a plan which involves the training, in the Ford plants, of 10,000 garage mechanics. The Ford branch plants, and the Detroit factories have assumed the character of agitator training school, to which every Ford dealer in the United States is sending one or more representatives.

This school for service men began with the training of superintendents and foremen of the thirty-six branch plants of the company in the United States. Before the Model "A" Ford car was introduced, these men from the branch plants were being schooled in the Ford factories near Detroit in the manufacture and assembly of the new car. They returned to the thirty-six Ford branches and immediately began the training of men for dealers in their respective territories.

The men come in relays, each group as large as the branch plant can handle conveniently. The groups are purposely kept small, in order that the most intensive training can be given. Each man is put through the same course given the branch men at Detroit, and upon its completion is given a rigorous examination. This examination includes many points about the car which might not be considered essential, from the service man's viewpoint. However, the Ford company is requiring complete knowledge of the car on the part of every dealer's service men. Failure to make a passing grade means that the man has to take the entire course again. If he fails a second time, he is sent back to the dealer with the suggestion that he is not considered qualified to give Ford service; whereupon, the dealer sends another man for the next training school session.

This requirement for trained service men extends to every Ford dealer no matter how small his establishment may be. Many dealers have sent two or more men to the branch for training. Upon passing the factory examination, these men return to the dealer's shops and pass on to the

West Texas May Expect Frost At Any Time, Report

A brisk, biting "norther" sweeping down from the heavy snow storms around Denver and the Rocky Mountain region was blowing toward the South Plains and the Panhandle today, giving promise of the coldest weather of the fall for tonight.

With the skies cleared following the cloudy, wet weather for the past few days, and with the thermometer beginning to drop this afternoon, the first killing frost of the year is predicted for tonight. The U. S. Weather Bureau has issued a prediction for colder weather tonight as a result of the strong north winds, which began to strike this section today.

Should the first heavy frost of the year appear tonight it would be about the average date for the first frost here, which is November 2.

According to agricultural authorities here a frost at this time would not be harmful to the crops as virtually all of the cotton has matured sufficiently. Although snows have been predicted for the northern section of the Panhandle, it is not expected to extend as far south as Lubbock.—Lubbock (Thursday) Daily Journal.

Club Program For Saturday Announced

The Junior Civic and Culture Club will meet Saturday, Nov. 3, at 3 p. m., at the home of Mr. and Mrs. J. A. Elliott, 256 North Fifth Street, with Miss Pauline Loke as hostess and Miss Gertrude King as leader of the program.

The program for the afternoon is as follows:

- Subject, "Sentimental Tommy," by J. A. Barrie.
- Roll call, "How Do You Think this Book Is Aimed at You?"
- "Barrie a Master Pathos," Elba Landreth.
- "Sentimental Tommy," a Good Novel With a Thin Plot," Maggie George.
- "The Causes of Grissel's Sadness," Addie Lee Morrison.
- "The Probable Behavior Toward Elspeth of a Man Less Egotistic than Tommy," Mrs. Guyton.

Linseed Meal And Alfalfa Make Good Corn Supplements

Tankage and skim milk are highly efficient protein supplements to corn for hogs, points out Grady Sellards, an extension field agent for the Kentucky College of Agriculture.

"Unfortunately," he continues, "the production of these two good supplements is insufficient to balance all the corn fed hogs, necessitating the use of other supplementary feeds."

"Although tests show that protein supplements from animal sources are more efficient than those from vegetable sources, it has been found that combinations of animal and vegetable supplements are more effective than either type used singly."

"Of the best of these combinations is found tankage, 50 parts, linseed meal 25 parts, and alfalfa meal, 25 parts, all by weight."

"Alfalfa meal is not necessary when hogs are running on good pasture. Some hog men use the following proportions: Tankage, 50 parts; linseed meal, 35 parts, and alfalfa meal, 15 parts."

"Alfalfa hay may be used instead of alfalfa meal. In practically all tests the two have given equally good results. In the event alfalfa hay is not available, clover or soybean hay may be used."

K. L. Scudder, P. R. Tate and W. P. Self went to Amarillo Tuesday to attend a factory clinic on operations of the Whippet and Willys-Knight cars. They returned Thursday and report a very profitable trip.

Howard Swanner was a business visitor in Lubbock Thursday morning.

Miss Margaret Campbell is visiting with friends in Lubbock.

The Slaton Slatonite is published every Tuesday and Friday.

Can Serve Rice In Toothsome Form; Much Food Value

Because of its mild flavor and its texture, rice is excellent for serving or combining with other food materials of a pronounced flavor, such as meat, eggs, cheese and some fruits and vegetables. In countries where rice is an important item of the diet, it is combined with some local food of distinctive flavor. In India it is flavored with curry and garnished with minced ham, chopped boiled eggs, horseradish, pickled peppers, preserved ginger or other oriental fruits and vegetables. In China and Japan, soy-bean sauce is served with rice, and in Italy it is combined with highly flavored cheese. Rice combined with left-over meat, eggs or cheese may serve as a one-dish meal. Here are some appetizing combinations:

- Rice a la Creole.**
1 cup chopped boiled or raw ham.
1 onion.
1 cup boiled rice.
1 can tomatoes.
2 cups fine soft crumbs.
2 tablespoons butter.
Celery salt.
Pepper and salt.
Mix ingredients in the order given. Bake in a greased casserole for one-half hour.
- Spanish Rice.**
3-4 cup rice.
2 tablespoons fat.
5 eggs water.
2 onions.
2 cups tomatoes.
1/2 cup chopped green pepper or pimento.
Salt and pepper.
Paprika.
Fry the rice in the fat until brown, then add water and boil until soft. Drain. Saute the onions in a little fat; mix with tomatoes and chopped peppers or pimento, and add to the rice. Add seasoning and place in a greased casserole. Bake for thirty minutes.

- Savory Rice Omelette.**
3 eggs.
1/2 cup cooked rice.
1/2 cup milk.
1 tablespoon butter.
1 teaspoon chopped parsley.
3 tablespoons minced ham or fried bacon.
1-4 teaspoon salt.
1-8 teaspoon pepper.
Beat the whites and the yolks of the eggs separately. Mix all the ingredients, folding in the whites of eggs last. Pour the mixture into a hot, well-greased frying pan, and when it is brown fold over with a flexible-bladed knife. Turn the omelette out on a warm platter and serve immediately.

- Rice With Curry Sauce.**
1/2 cup rice.
2 cups milk.
1/2 teaspoon salt.
2 tablespoons fat.
2 tablespoons curry powder.
2 cups hot milk or water.
1/2 lemon.
3 cloves.
1 tablespoon grated cocoanut.
1 chopped onion.
1 tablespoon chutney.
Salt.
Cayenne.
Put rice and salt in milk in the top of a double boiler and cook until the rice has absorbed all the milk. Serve with the curry sauce made as follows: Melt the fat and stir in the curry powder, add the milk or water and cook until it is smooth and thick, then add the other ingredients and let the sauce simmer for thirty minutes.

HELP PREVENT FARM FIRES!
Water where and when needed would prevent a large percentage of the fires in rural districts, which last year caused the death of 3,500 people and a property loss of \$150,000,000, points out the research department of the National Association of Farm Equipment Manufacturers. Most fires are the same size at the beginning unless caused by an explosion and it is only those which are not brought under control immediately that cause this huge loss to life and property. Few rural districts enjoy the safety and protection of a rural fire department, according to the research department, but many farms can provide an effective means of protection by means of a farm water supply system which can also be used every day.

Nature Thought of Everything
Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or feel about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 35c a bottle, and can be bought from City Drug Store, Slaton.

in the year to provide a plentiful supply of running water in the farm home and buildings. Hydrant and hose connections at strategic points around farm buildings and yards will provide water for quenching fires before they gain a start. A fire well started is difficult to overcome even with regular fire fighting equipment.

Rector Insurance Moves 2 Doors West

Offices of the Rector Insurance Agency, and the Slaton Home Mutual, have been moved to the building two doors west of their former location, which is No. 215 West Garza Street. Alexander and Walker barber shop, formerly located next door to Forrest Hotel, now occupies the building vacated by the Rector agency.

ELECTRICITY, THE CIVILIZER

More than any other single agency, electricity is responsible for our modern social and industrial order. There is almost no comparison between the modern home and that of 50 years ago. Electric lights, vacuum cleaners, stoves, almost endless labor-saving devices have transformed it into a model of comfort and convenience. The old drudgery of housework has disappeared and in its place is new ease and efficiency. Before electric power was harnessed, industry was largely a matter of strong arms and backs. The possible productivity of a laborer was limited to his physical power. The modern worker, in contrast, with electric power at his beck and call, can do many times the amount of work and do it better and with less effort. As a result of his tremendously increased productivity, he is able to command wages that give him living conditions, pleasures and luxuries formerly undreamed of. Today electricity is making its way in a new field, that of agriculture. What it has done in the past 20 years for industry and the city home, it is now doing for farming and the farm home. Electrically operated machines and devices replace laborious hand work and operate at a low cost with unparalleled efficiency. Electricity has been more than a mere aid in performing necessary functions. It has proven a great civilizer as well.

PUZZLE OF AN APPENDIX

Coming from Hollywood, the tale of the young surgeon who removed his own appendix must be true. It is even said that such an operation has been performed in this way before. It must require a deal of agility, not to speak of courage. Down at Bellevue they used to tell the story, possibly apocryphal, of a man who went there for treatment several years after he, too, had been operated on for appendicitis in California. He still had all the symptoms of the same trouble. The surgeons treated him for every other malady they could think of that might have similar symptoms, but in vain. Then they operated—and took out his appendix. Much mystified, they wrote to the California surgeon for an explanation. They received this reply: "If you got his appendix, what did I take out?" The West Texas Chamber of Commerce agricultural exhibit program

Slaton Boy Member Trinity U. Band

WAXAHACHE.—Madison Rayburn of Slaton is a member of the Trinity University band which consists of thirty-one musicians from many parts of the state. The organization is under the direction of Dean Shanks of Winona.

The band has been holding regular rehearsals twice each week, practicing marches, overtures, and popular music. March drills are practiced on the Trinity campus in preparation for parades and stunts that will be performed at football games by the pep squad in co-operation with the musicians.

Stunts are performed at football games between halves. Many unique formations and symbolic representations are made by the pep squad members. Dressed in their maroon and white costumes, colorful and rhythmic effects are produced by the rosters which adds life and beauty to the pageantry of the gridiron occasion.

The squad of pepsters is led on the field by the band, also dressed in unity and collegiate with the colors of the university flying.

Music for the pep rallies and other occasions is furnished by the group. Later in the college year a concert tour is made over different parts of Texas. Specially arranged programs consisting of vocal numbers, a musical comedy skit, and concert numbers are given.

GAS USED FOR BOTH HEATING AND COOLING

For several years past, the gas industry has been engaged in research work to determine the feasibility of using gas for cooling as well as heating purposes. It is expected that within a short time the experiments will show practical possibilities of such a combined house heating, cooling and ventilating system. The forerunner of this is the gas refrigerator, which is already in general use.

By means of gas heat, ammonia for the year will be launched at the Louisiana Fair in Shreveport, October 24. The W. T. C. C. exhibit will not attempt to win prizes and will be totally representative of West Texas agricultural products.

Mother!

Child's Best Laxative is "California Fig Syrup"

Hurry Mother! Even a bilious, constipated, feverish child loves the pleasant taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

within the machine is converted into a gas which is cooled by water and in this expanded, cooled state, readily absorbs heat from the interior of the refrigerator. This heat is then carried off by circulating water.

When a burning gas flame can create either intense heat or ice, and either cool or warm a house, we are indeed living in the age of miracles.

MISS BAILEY WRITES

A letter from Miss Grace L. Bailey, former teacher of music in Slaton public schools, orders The Slatonite sent to her address at Abilene, where she is teaching piano in McMurry College. She is also assistant organist for the First Methodist Church there.

Mr. and Mrs. P. G. Stokes returned Thursday morning after visiting in Big Spring and San Angelo.

Kessel Has Sale Starting This A. M.

A "Heart of the Season" sale will be conducted at Kessel's department store, beginning at nine o'clock this Friday morning, it is announced by A. Kessel, owner, who states the entire large stock of merchandise is being placed on sale at reduced prices. Hundreds of large circulars, printed by The Slatonite, have been distributed throughout the Slaton territory advertising the event.

Natural gas for Roswell, N. M., within a comparatively short time became a certainty when the city council voted six to four to extend the franchise of the Southwestern Public Service Company for 25 years for the purpose of bringing an distributing natural gas to the city.

Two Die, Others Seriously Hurt In Highway Collision

Death, which stalked through the misty Sunday night dusk to claim the lives of two young men, last night hovered over two other victims of the accident that brought an untimely end to the lives of Paul Brewer, 18-year-old Tech student from Memphis, and Clint Lewis, 23, of Wiley, Texas. Miss Laveta Davis and Miss Jessie Dyer, students of the Lubbock Business College, from Littlefield, who are in the most critical condition of any of the 11 persons sustaining injuries in the accident, are in the Lubbock sanitarium suffering from injuries which attending physicians declare might prove fatal.

Miss Davis has a fractured skull and a number of other serious injuries, and Miss Dyer is suffering from a badly lacerated throat. Others still in the sanitarium as a result of the accident include Jim Lindsey, Tech sophomore of Lubbock, who received cuts about the face; J. M. Dyer, Tech freshman from Waurika, Okla., who has one broken arm and a lacerated jaw; H. D. Davis, of Littlefield, who lost an eye, and Gene Butler, cotton picker, who sustained a broken leg and a number of bruises. All of the patients were reported resting at a late hour last night, although it was said that the Davis girl and the Dyer girl would not be completely out of danger for several days.

The accident came as a tragic end to the return trip of five Tech college students from the Tech-T. C. U. football game at Fort Worth when the "collegiate" slipped-down Ford in which they were riding collided head-on with a Chevrolet sedan in which five girls and two boys were riding. The Chevrolet carried on its fenders three cotton pickers who had been picked up a few minutes before the occurrence of the fatal accident.

Joe Roberts, Tech freshman, was the only passenger of either car to escape injury. Others who received medical aid at the sanitarium and were released include Bill Oldham, Tech freshman; Miss Minnie French, of Ropes, driver of the sedan; Henry Dunavant; Miss Eula Mae Brown; and Miss Carrie Scott, Lubbock Business College student; W. H. Butler, cotton picker.

Funeral services for Paul Brewer will be held at the First Presbyterian Church at Memphis, Texas, this afternoon, with the Rev. J. H. Nisford officiating. Dr. Paul W. Horn, president of Tech College, will leave this morning to attend the services. Flowers are being sent from the college, the local Presbyterian church and the Sunday school class to which young Brewer belonged. The youth is the son of J. A. Brewer, of Memphis. He was a member of the college band here—Lubbock (Tuesday) Avallanche.

Young Brewer, who met instant death in the collision, was a cousin of Messrs. J. M. and J. H. Brewer, of the First State Bank here. The latter Mr. Brewer accompanied his body to Memphis for burial.

John P. Fleming of Archer City is taking a trip through East Texas and shipping back fifty head of registered purebred milch cows. He will sell them to farmers who will give them proper care for exactly what they cost to interest them in dairying.

PRESBYTERIAN CHURCH

Sunday school at 9:45 a. m. Morning worship at 11 o'clock. Young people's Sunday Christian Endeavor at 5 p. m. The subject for the morning discourse is, "The Christian's Hope," Romans 8:24-25. There will be union services at the high school auditorium, in which service all the churches of the city will unite. I hope every citizen who can come will be there for that service. The public has a cordial welcome to all these services.—Rev. James Rayburn, Pastor.

JUNIOR B. Y. P. U. PROGRAM

Leader, Wiley Fowler; part 1, Lucile Coltharp; part 2, Opal Evans; part 3, Lorene Gray; part 4, Leola Ervin; part 5, Dorice Rust; part 6, Epogene Ball; part 7, Mildred Herr; part 8, Scripture readings by four Juniors, 1, Psalm 27:1, Irene Jones; 2, Matt. 17:20-21, Melba Stottlemire; 3, John 14:15-14, Nadine Herndon; 4, Phil. 4:13, Danzil Hendrix.

MR. AND MRS. GRANT ENTERTAIN YOUNG PEOPLE

About thirty-five young people of the Church of Christ enjoyed a masquerade party at the home of Mr. and Mrs. M. A. Grant, Tuesday evening, Oct. 30, beginning at eight o'clock.

The house was beautifully decorated in Halloween colors, and games and musical numbers made up the entertainment for the evening.

At a late hour refreshments were served by the hostess.

HALLOWEEN PARTY

The Junior Civic and Culture Club and their guests enjoyed a masquerade Halloween party at the home of Mr. and Mrs. H. C. Burrys, 625 South Eleventh Street, on Tuesday evening, Oct. 30, at 8:15 o'clock.

The Burrys home was beautifully decorated to carry out the Halloween spirit.

Spooky games and fortune-telling were enjoyed during the evening until a late hour when refreshments of apples, peanuts and candy were served in dainty bags tied with Halloween favors.

THE HOMEMAKERS CLASS

The Homemakers Class of the Baptist Sunday School will have a business and social meeting at the home of Mrs. Joe Teague, Jr., at 430 West Lubbock, Wednesday, Nov. 7, at 3:30 p. m.

WHY YOUR STOMACH GRUMBLES

Your stomach "grumbles" because it tries to tell you it is out of order. Heed its warning, for although the trouble may not yet be serious, it is often the forerunner of severe gastritis and stomach ulcers.

Nine times out of ten indigestion and allied stomach disorders are due to excess stomach acid, which impedes normal digestion and forms sour gases that cause intense pain. To restore good digestion you must eliminate this cause. A tablet of "Pape's Diapepsin" after eating or when pain is felt will instantly neutralize the acidity and banish all digestive trouble and pain.

Get a 60-cent package of "Pape's Diapepsin" today, for it not only brings instant relief, but by soothing, healing and strengthening your weak and disordered stomach, "Pape's Diapepsin" keeps your digestive system healthy and helps to prevent further disorders.

Church of Christ Attendance Is Good, Considering Weather

Taking into consideration weather conditions, the Church of Christ enjoyed fine attendance at morning and evening services last Sunday.

Bible study attendance was above the average. Everyone was in fine spirits and all seemed to enjoy the services.

The speaker talked at morning service on "Worshipping God." At the evening service, "God's Moral and Positive Laws" was the theme.

Next Lord's Day the subject for the morning service will be "The Existence and Value of the Soul," and for the evening service "Is God a Chance Creator," will be the subject.—F. J. Berry, Minister.

J. E. Johnson of Rotan will have his creamery and ice cream factory in operation within a short time, it is expected. Part of the creamery machinery is already at the location and is being set as it arrives.

p. m. Mrs. L. Johnson will assist with the entertaining.

Mrs. W. H. Armes urges all the members to be present since matters of importance are to be discussed and acted upon at the meeting.—Class Reporter.

Nine-Tenths Preventable

Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and financial losses. Herbine, the good old vegetable-cathartic, will prevent constipation in a natural, easy and pleasant way. Get a bottle today from

Every purchaser of a new Ford is entitled to Free Inspection Service for the first 1500 miles

THE modern automobile is a finely built piece of machinery and it will stand a lot of abuse. Considering the work it does, it gives surprisingly little trouble. But there isn't a car made that will not run better and longer if given proper care.

The first few hundred miles are especially important because that is when the mechanism of your car is being broken in.

Proper attention during this period will lengthen its life and prevent unnecessary trouble later on.

We are particularly interested in this matter because we believe it is our duty not only to make a good automobile, but to help the owner get the greatest possible use over the longest period of time at a minimum of trouble and expense.

With this in view, the entire Ford dealer organization has been specially trained and equipped to service the new Model A car.

Furthermore, we have instructed every Ford dealer to give the following Free

Inspection Service at 500, 1000 and 1500 miles:

Check battery
Check generator charging rate
Check distributor adjustment
Check carburetor adjustment
Check lights
Check brakes
Check shock absorber adjustment
Check tire inflation
Check steering gear
Change engine oil
Lubricate chassis

No charge is made for labor or materials incidental to this service, except, of course, where repairs are necessary through accident, misuse or neglect. The only charge is for new oil.

See your Ford dealer, therefore, and get this Free Inspection of your new car at 500, 1000 and 1500 miles. Find out, too, how little it will cost to have your car given a thorough going-over at regular periods thereafter.

A checking-up by experienced mechanics, together with oiling and greasing every 500 miles, will add months and years to the life of your car and mean more economical and pleasurable motoring every mile you drive.

THEY say that if a girl is beautiful, it isn't so necessary that she be a good cook! But too often, Mother Nature gives the curly hair and the baby dimples to somebody else's daughter. And then, if you are a wise mother, you teach your daughter other ways of being attractive—among which is the old, old one, of being perfectly at home over a kitchen stove.

Little Mrs. Percival had always wondered, in her gentle way, why Marion, her only child, had seemed to inherit all the late Mr. Percival's traits, and none of her mother's. She had been a rough-and-tumble baby; she had been a tom-boy little girl. And now, at twenty, she was affecting a sleek coiffure, wearing horn-rimmed glasses and threatening to study law!

Mrs. Percival had seen to it, however, that Marion, in spite of her masculine looks, could cook a dinner fit for a king. And when Marion finally tumbled head over heels in love with a young man who seemed a bit afraid to fall in love with her, gentle little Mrs. Percival armed herself for battle, and sallied forth.

How the Kitchen Club Helped

The Kitchen Club was called into consultation, without being told the underlying reason for the sudden activity. Mrs. Percival's kitchen was made a most delightful, most feminine place (description of it in Nancy's notebook).

Marion's young man was invited to dinner. Mrs. Percival came down with a convenient headache, and Marion had to solve the problem of entertaining him while she cooked dinner. It wound up with his going to the kitchen and discovering there a flushed and flustered, but very house-wifely Marion, that he was not at all afraid of.

You know the rest—"Here Comes the Bride," and all that. And the Kitchen Club never knew that it had been called upon to play Cupid!

LEAVES FROM NANCY'S KITCHEN CLUB NOTEBOOK

We made Mrs. Percival's kitchen as sweet and feminine as she is! Walls, silver-gray; floor, blue and white linoleum; oil stove, blue, silver-gray and white; breakfast nook (built-in), pale blue trimmed with pink flowers—transfer pattern—window-box painted light rose color, and filled with vines and pink begonias. Refrigerator, table, shelves, etc., white trimmed with blue. Curtains, white with little blue ruffles!

Mrs. Percival served us a simply divine dessert, made of big hunks of angel cake, covered with hot chocolate sauce filled with nuts, and topped with ice cream! Here are the recipes:

Angel Cake

Whites of 12 eggs
1 1/4 cups granulated sugar (measured after sifting)
1 cup and 1 tablespoon pastry flour
1 teaspoon vanilla
Pinch salt
1 1/2 teaspoons cream of tartar
Sift sugar five times. Set aside.
Sift flour, cream of tartar and salt together five times. Set aside. Beat whites to a froth, not quite as stiff as for meringue. Sift in sugar, folding it into eggs as lightly as possible. Sift in flour. This also must be done with as light a handling and as much speed as possible. Turn into un-buttered pan and cook in slow oven for fifty-five minutes. Put pan of water in oven with it and keep it there for forty minutes. Do not open the oven door for twenty minutes after cake starts to bake. At the end of forty minutes take pan of water out. At the end of fifty-five minutes take out cake and turn it upside on plate to cool in pan.

Chocolate Sauce

2 cups white sugar
2 tablespoons cocoa
1/2 cup water.
Cook to thick syrup. Add nuts and serve hot over cake.

Proper Heat of Oil Stove for Angel Cake

Keep flames low, so that they show blue. (For faster cooking turn them up 1 1/2 inches.) A really good oil stove will burn with a steady flame, and will need no watching.

How to Cut Angel Cake

Never use a knife on angel cake. Pull it apart with two forks. This keeps the feathery texture from crumbling.

**FINANCING AIRSHIPS
OUR PROSPERITY
THE "BEST" SPEAKEASIES
REMOVES OWN APPENDIX**

Dr. Eckner and his fellow officers of the big Zeppelin hope American capital will interest itself in the building of five airships for transatlantic flights.

A big New York bank is said to be interested.

All are interested in the development of aviation. Every useful new thing helps general prosperity. If we can't build the airships ourselves, the next best thing is to finance them.

Mr. Alfred P. Sloan, Jr., of General Motors, and his associates will sooner or later get into the airplane field.

McClintic, Marshall — a firm of Pittsburgh, now constructing ready-made steel frames for houses—might well turn from steel to duralumin to build all-metal dirigibles and frames.

Great demand for automobiles, keeping all plants at capacity production, is one proof of prosperity.

The Northwest and Middle West report good business.

If we were much more prosperous, we could hardly stand it. That is to say, some of us could hardly stand it. But it is not so with all, unfortunately.

In New York, a man, fifty years old, having vainly sought a job open to gray hairs, tried to hang himself from a thirty-story window. He did not succeed in hanging himself, but fell and was killed.

Mr. Roy Howard looks before he leaps and decides not to leap, after having alcoholic drinks analyzed in many of New York's "best" speak-easies.

In eight "high grade" establishments high agents purchased liquors actually deadly. Only two or three places out of twenty-eight sold whiskies non-poisonous.

And they also were poisonous, since alcohol, as fools use it, is always a poison.

Something new in modern surgery. Dr. Robert Meals, young surgeon of Hollywood, thought that shock after surgical operation is caused by anaesthetics, not by the operation.

To test his theory he removed his own appendix, lying on the operating table propped up, asking the assistance of a brother surgeon only in locating the appendix and removing the adhesions.

A fine display of self-control and "courage."

Local anaesthesia was employed, but could not prevent internal pain.

This operation again raises the question, "What is courage?"

It reminds us that not long ago before anaesthetics were used, all operations were accompanied by terrible

B. A. Toliver, manager of the Acorn Store here, was called to Fort Worth Wednesday night on account of the serious illness of his mother, who has been in ill health for several months.

pain.

The clergy said it was a shame to use anaesthetics because it defeated the will of God, who desired his creatures to suffer. That opinion has been abandoned.

Japan will send to Brazil at least 1,000 colonists each year.

Nachiro Fukuhara, head of a \$5,000,000 Japanese syndicate, will direct colonization in the rich state of Para, source of excellent rubber.

Already one city in Brazil is inhabited almost exclusively by Japanese.

The Japanese are kind to their children. No Japanese ever strikes a child. Consequently the children thrive, and families are big.

Grandchildren of Americans now living may see an important branch of Asia established on the continent south of us.

That is the business of Brazil and Japan, not ours.

Mussolini says the Italian press is perfectly free, but it must not criticize Fascism, or his policies. Newspapers may criticize his violin playing if they choose.

Mussolini remembers that Napoleon said, "My government could not last two weeks if I allowed liberty to the press."

Extraordinary are Mussolini's success and good judgment. He appears on the page of history, a cross between Mohammed and Marcus Aurelius, and, apart from his assertion that liberty is an unimportant word, we find little to criticize in his doings, remembering that if Italy had not had Mussolini it would have had anarchy.

"Printing Gets Things Done"

Every business man, every business firm, every community organization, needs printing—sooner or later. The thing to do is to have this printing done promptly, and of the highest quality, at the proper price.

The Slatonite, "Here Since 1911," has been furnishing printing for Slaton firms and organizations, and it is still furnishing printing for the most particular people. The reason is, The Slatonite is here to stay, and is the oldest printing firm here. Therefore, it is dependable, both in quality and in price.

Besides, The Slatonite, is in position to give publicity to all worthy institutions. That, within itself, is worth something.

So, the next time you need printing, think of us. Give us a chance to figure your job. Promptness, Quality and the Right Price are assured.

WAR ANYWHERE DISASTROUS

By Dr. Frank Crane.
President Coolidge delivered a message on Decoration Day of this year in which he pointed out the fact that no matter where a war might break out in the world it would be prejudicial to this country.
War is simply lawlessness and destruction and the commercial interests of the United States today are so widespread, our investments and trade relations are so far reaching that it is almost impossible to conceive of any conflict anywhere on

earth which would not affect us injuriously.
The President also stressed the fact that the United States is engaged in warfare only for the protection of American citizens. It is incumbent upon every nation to protect its own citizens.
Unfortunately the plan of Woodrow Wilson for a league of nations did not receive universal support. While this writer enthusiastically supported Mr. Wilson's idea he holds no brief for any one plan.
Equally to be approved are the efforts of Secretary of State Kellogg to conclude a treaty with European powers for the complete outlawry of war. Just so we arrive at a stage of civilization where war is not countenanced and glorified it makes no difference by what route we get there.
Mr. Coolidge also laid stress upon the best argument of the most intelligent pacifists, to-wit, that "the chief defenses of America lie not in her armed forces but in the industry, prosperity and patriotism of her people; these are of far greater importance than preparedness."
The same at Thiaucourt, France.

General Pershing addressed an audience where he said that "millions of graves cry out against war, and the big nations must show the way to durable peace."
He continued that war threatened civilization because of the "fallacious theory that war is an essential element in the national policy of a government," and an erroneous belief that nations become great through aggressive undertakings.
General Pershing insisted that history disproves that the expansion of one modern civilized nation at the expense of the other can be permanent. "There would appear to be no longer any reason," he said, "why the leading civilized powers could not agree among themselves to the general principle of the elimination of war as an avowed instrument of national policy."
It need not interfere with the necessities of reasonable armament, he said, "nor the fulfillment of consistent obligations."
The day is coming when public opinion, that final arbiter of destiny, will rapidly turn against war.

Berlin's Many Mills
The Berliners on the whole know little about his drinking water except that it ranks among the best and purest of any capital. Most people living there think it is taken from the many lakes surrounding Berlin. But this is not the case. With the exception of 3 per cent, writes a Christian Science Monitor correspondent, the entire water supply of Berlin is obtained from wells, some reach as far down into the earth as 100 meters.
The consumption of water in the summer reaches 500,000 cubic meters daily, but the water works are capable of supplying even more than that—namely, 740,000 cubic meters daily, so that an emergency can easily be met. Next year they will even be in a position to produce 800,000 cubic meters daily.

guns were stilled along the battle lines in France and that the carnival of murder and destruction was ended.
What an event it was! How relieved, how jubilant, and how happy the whole world seemed. So important was the day that we hope its true significance may be remembered for many decades to come.
But let us hope that it becomes something more than a mere holiday—a chance to quit work, close up business, and spend a few hours in thoughtless entertainment.
Rather it should be a time when we honor the courage, the heroism, the unselfishness and the patriotism of the fine young men who threw away the dearest thing they owned for the protection and defense of our great country. It should be a time when we remember the sacrifice of the mothers and fathers and the sisters and brothers for whom the day will always bring back its sad memories.
But above all it should be a time when we dedicate ourselves nationally and individually to the task of making that war the last great war. Many

of us have grown cynical on this subject. We see in the world today the seeds of another great conflict. But it may never become a reality if people everywhere realize that modern warfare is stupid, savage, and a menace to civilization—utterly devoid of glamour and romance. It is a perversion of the tools of modern science to the task of destroying civilization.
If November 11 arouses these sentiments in people everywhere it may indeed be regarded the greatest single red letter day on our calendars.—Exchange.

BAPTISTS WILL MAKE GOOD SHORTAGE IN HOME MISSION BOARD'S ACCOUNTS

Honor Day is Set for Sunday, November 11, When Churches Are Asked to Lay \$953,000 in Cash on Altar for This Purpose

In order that the Home Mission Board of the Southern Baptist Convention may not suffer the permanent loss of a single dollar through the reported shortage of its former treasurer, Baptist churches throughout the South are expected to lay a cash offering of \$953,000 on their altars Sunday, November 11. This day has been designated Baptist Honor Day and the appeal for this offering made, by the Promotion Committee of the Convention, following a thorough canvass of the situation.

DR. ARCH C. CREE
Acting Executive Secretary of the Southern Baptist Home Mission Board.

At the meeting of this large committee October 3, Dr. Arch C. Cree, acting executive secretary of the Home Mission Board, reported that the auditors gave the sum of \$953,000 as their best estimate at that time of the shortage in the treasurer's accounts. Of this amount approximately \$350,000, was taken from the Church Building Loan Fund, the auditor found, while the remainder of the shortage is accounted for chiefly through the sale of the notes of the Home Mission Board to banks in various Southern states. While the Church Building Loan Fund is the property of the denomination,

it represents a trust fund created for aiding congregations in erecting houses of worship, and the committee feels that the obligation to restore the money taken from this source is just as binding upon Baptists as the repayment of the banks.
Need to Restore Full Amount
In his report to the Promotion Committee, Dr. Cree said the Home Board expected to realize \$50,000 from the bonding company and possibly as much as \$150,000 from the recent treasurer's estate ultimately. The bulk of this estate consists of real estate, however, and it may require a period of years for a full realization upon that. With all these considerations in mind, the committee felt the churches should be asked to restore the entire amount of the shortage immediately and the date for such offering was fixed for Sunday, November 11. In the case of rural or village churches not having preaching services on that day they are asked either to take this offering at the Sunday school hour on that day, or else take it on whatever preaching date falls nearest November 11. A goal of as many dollars as there are members is recommended to the churches.

Big Retrenchment Made
Drastic retrenchment has been in the work of the Home Mission Board, following its reorganization. Forty per cent of all current receipts are being applied to the reduction of the previous indebtedness of the board, making it necessary to cut the current operations to 60 per cent of the current receipts. All special offerings from whatever source are being applied to the reduction of the obligations at the banks. Dr. Cree has secured the consent of the banks carrying the bulk of the board's indebtedness to carry the present paper at a reduced rate of interest a little while longer in order to afford the churches an opportunity to make a cash offering for the relief of the board. The Promotion Committee has asked the Georgia Baptist Convention to continue its loan of Dr. Cree to the Home Board until the Southern Baptist Convention meets in May.
The demand for a special cash offering for making good the Home Board's shortage came from practically every section of the South, and Dr. George W. Truett, president of the Southern Baptist Convention, and other officers expect to see the full amount raised in a cash offering November 11.

Every Woman Knows
Every woman knows how easy it is to burn or scald herself while working in her home. Every woman knows that these burns and scalds are painful and sometimes very slow to heal. Every woman should know that the pain of burns and scalds will be quickly relieved, infection positively prevented and speedy healing assured if Liquid Borosone is instantly applied. Low Priced Sedans Maintain Popularity

Despite the fact that the past summer sales of the Whippet sport models of the roadster and cabriolet type were the largest in the entire history of the Willys-Overland Company, sales executives state that the Whippet four and six-cylinder sedan models maintained their position of outstanding popularity with car buyers.

Marked preference for the two Whippet sedans is said to have resulted from the high performance rating of the cars and to the fact that each in its classification represents the lowest prices in the entire automobile industry.

It is pointed out that but a short time ago four-cylinder sedans were listed at a higher price than the present Whippet six-cylinder sedan, this disclosing the remarkable progress of the Willys-Overland Company in the production of low priced cars with numerous features usually associated only with automobiles selling in the higher price ranges.

This also holds true in the Whippet four, the price reduction of last January bringing these striking models in direct price competition with the lowest priced cars in the world and establishing for the sedan model a record low price.

However, the production of these cars at the lowest prices in the company's history did not result in skimping the quality of materials and workmanship. On the contrary, the quality of the cars was definitely increased and features added which were not included under the earlier higher prices.

This was brought about through various manufacturing economies perfected by the company through which the car buyer was benefitted. These manufacturing economies included operation of the new body building plant rather than have this phase of manufacture done by an outside source; installation of time and labor saving machinery, and an increase in the company's volume of business throughout the world.

PREVENTION BETTER THAN CURE

A smoldering cigarette butt, a match dropped into a waste-paper basket, an iron left heating on the board, a discarded pile of dirty, greasy rubbish, or endless other such petty risks caused by carelessness, may be the means of transforming a home or factory or office building into a smoking ruin.

A large majority of homes have fire

hazards that can be removed with a small amount of work or at slight cost. Poor wiring, carelessly handled heating and electrical devices and collections of rubbish are among the most common risks and account for many serious conflagrations. The danger lies in these everyday risks being overlooked or disregarded.

Fire is practically entirely preventable. Authoritative estimates state that 80 per cent of all fires result from carelessness or ignorance. With a little caution and understanding of possible hazards, homes and buildings can be protected. Preventing fire is better than trying to repair damage.

A. & M. Enrollment Largest in History

COLLEGE STATION. — Summary of enrollment at the A. & M. College of Texas for the 1928-29 session, just issued from the office of the registrar, shows total registration to date of 2,693, the largest for any one regular session in the history of the college. Increase in enrollment over the two preceding years is shown by comparing this year's total of 2,693 with 2,144 for 1927-28 and 2,333 for 1926-27, all compilations being as of Oct. 10.

Of the 2,693 students enrolled this year, 1,128 are new students, representing the largest freshman class in the history of the college. Enrollment by schools is divided as follows: Agriculture 661, engineering 1,587, arts and sciences 338, vocational teaching 70, veterinary medicine 17, special courses 20.

Abernathy was host to a band of musicians estimated to be about 300 strong on October 20. The musicians were members of bands from neighboring towns, and during the day played in concert and individually.

Would You Know One If You Saw It?

If you ever came face to face with a germ, would you recognize it? Of course it is not likely that you ever will see a germ, unless you own a tremendously powerful microscope, for you would have to magnify one over a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood streams through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is one sure safeguard against these dangers — washing every cut, no matter how small, thoroughly with Liquid Borozone, the safe antiseptic. You can get Liquid Borozone at

CITY DRUG STORE

Woman Makes "Non-Stop" Trip Across U. S. in Chevrolet

It was perhaps only fitting that during the same year that a woman for the first time flew the Atlantic another woman should record what is claimed to be the all-time woman's record for a trans-continental automobile journey. "At any rate, Miss Telle Glyndon, of Atlantic City, driving a Chevrolet sedan, completed on September 9, the 3,468 miles that separate her native city from San Francisco. The expired time for her "non-stop" journey was eight days, eight hours and 15 minutes.

Miss Glyndon was accompanied on her journey by her brother-in-law, and a friend, neither of whom has ever driven an automobile. Alone, it was up to her to drive every inch of the distance, and this she did.

"It was an endurance test solely," she explained when she checked in at the San Francisco ferry. "I did it to prove that woman's endurance is as great as man's and I think the result of my journey has done this."

Miss Glyndon's trip was given official endorsement by Mayor Anthony M. Ruffa, Jr., of Atlantic City, who timed her start and bade her bon voyage with message of greeting and the official key of Atlantic City for delivery to Mayor Ralph, of San Francisco.

"I got so sleepy at times, especial-

ly the third night out, that I thought I would have to quit," Miss Glyndon said. "I don't feel as though I ever again want to drink a cup of coffee or inhale from a bottle of smelling salts."

"It was the detours that delayed us. Out of Pittsburgh was a terrible stretch of road, necessitating a long detour. Also, in certain sections of the West, we encountered more than one heart-breaking detour."

Not once during the trip did Miss Glyndon enter a hotel for food or sleep. Ten-minute naps at the wheel sufficed for rest. Sandwiches and coffee eaten with one hand, while the other steered, were her only refreshments. She is an experienced driver, and for the last six years has driven Chevrolets exclusively. Just before the trip she purchased a new sedan and drove it 1,200 miles before starting on her record-breaking journey. The only stops the car required were those made to take on gasoline, oil

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Bayer Aspirin. The name Bayer is on every tablet, and on the box. If it says Bayer, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Bayer Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Bayer—at any drugstore—with proven directions.

Physicians prescribe Bayer Aspirin; it does NOT affect the heart

Aspirin is the trade mark of Bayer Manufacture of Monocetate of Salicylic Acid

The 4-Door Sedan Body by Fisher Bumpers and Five Wheel Equipment Extra

and Now OAKLAND presents
A NEW All-American Six

An entirely new conception of the modern motor car. So original in design . . . so brilliantly executed . . . you'll hardly believe your eyes. Magnificent successor to a justly famous name . . . a New All-American Six.

Daring in style . . . exemplifying Fisher genius in the creation of new designs. Brilliant in beauty . . . revealing new harmonies of colors and lines. Triumphantly new. Appealingly different. Finer in every way. From its chrome-plated front bumper back to its chrome-plated tail-light . . . as new as this morning's dawn.

A new chrome-plated radiator . . . surmounted by a large flat chrome-plated cap. Graced by a new front

louvre effect in an exclusive chevron design. Flanked by new seamless full-crown fenders . . . flaring fenders with a 71-inch spread.

And then the bodies! Seven new and superbly beautiful types . . . Closed types with adjustable drivers' seats. Two convertible closed cars . . . the Convertible Cabriolet and the Landulet Sedan.

And such glorious performance as you've never known before. Soaring top speed . . . seventy miles an hour and more! Sixty-eight brake horse-power at 3000 r.p.m. A flashing pick-up . . . from 10 to 25 miles per hour in six seconds flat.

Such balance . . . such smoothness . . . such silence . . . such poise.

Resulting from its great new 233-cubic inch engine with exclusive patented rubber-cushioned mountings . . . 81-lb. crankshaft . . . harmonic balancer . . . larger, more highly perfected carburetor . . . the G-M-R cylinder head. Such marvelous control. Steering ease from a new improved mechanism. Braking ease from its new internal expanding four-wheel brakes . . . individually adjusted . . . requiring minimum pressure for a sure, silent, velvet-smooth stop.

Only the highlights have been mentioned. Only a hint regarding its pulse-stirring performance and style. To get the whole picture . . . to appreciate what its price will buy . . . come in. Have your highest expectations realized!

Prices \$1145 to \$1375 at factory. Lovejoy Hydraulic Shock Absorbers and spring covers included in list prices. Bumpers and rear fender guards extra. Check Oakland delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

War Tax Removed—Delivered Prices Reduced

Seventeen Years Serving Slaton and Slaton Community.

Millions of Families Depend on Dr. Caldwell's Prescription

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as they are today. People lived normal, quiet lives, ate plain, wholesome food, and got plenty of fresh air and sunshine. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings to put into their system. So he wrote a prescription for a laxative to be used by his patients.

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

Under successful management this prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that millions of bottles are used a year proves that it has won the confidence of people who needed it to get relief from headaches, biliousness, flatulency, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds and fevers.

Millions of families are now saved without Dr. Caldwell's Syrup Pepsin, and if you will once start using it you will also always have a bottle handy for emergencies.

It is particularly pleasing to know

J. B. Caldwell, M.D. AT AGE 63

that the most of it is bought by mothers for themselves and the children, though Syrup Pepsin is just as valuable for elderly people. All drug stores have the generous bottles.

We would be glad to have you prove at our expense how much Dr. Caldwell's Syrup Pepsin can mean to you and yours. Just write "Syrup Pepsin," Mentally, Illinois, and we will send you a sample.

Baptists Will Have Anniversary Meet Sunday Morning

The First Baptist Church of Slaton will have a special program this Sunday morning, Nov. 4, observing the second anniversary of the service of the present pastor, Rev. B. G. Hoffmeyer.

Special music is being arranged, and several short addresses will be made. The program will not be lengthy, however, according to members of the committee in charge of planning the event.

A report on Sunday school work will be made by G. J. Catching, superintendent of the school. R. Y. P. U. work will be reported on by M. W. Uzzell. Work of the Woman's Missionary Society will be discussed by Mrs. D. W. Liles.

"A Brief Review of the Past Two Years," will be Mrs. G. V. Young's subject. "Looking Ahead," is the subject to be discussed by J. W. Hood.

"Two Years of History and the Outlook for the Future of the First Baptist Church and Its Pastor, as Viewed from the Sidelines," is the subject to be discussed by R. A. Baldwin, local attorney.

L. A. Wilson is to be master of ceremonies.

Takes 20 Pounds Chicken Daily At T. C. U. Cafeteria

FORT WORTH. — Students eating in the cafeteria at Texas Christian University prefer pastry to any other form of food, according to Mrs. Georgia Harris, who has charge of the university's food supply. The cafeteria dispenses about 1,200 meals daily, with full meals served at an average cost to the student of 23 cents.

Menu at the T. C. U. cafeteria is changed daily, a variety of vegetables being served, with chicken and fish alternating with beef. Two hundred pounds of chicken is required for one day's service. Forty-five dozen eggs are served each morning. Forty pounds of butter and 300 pints of milk are served each day, not including 40 gallons of milk used in cooking. Dishwashing is done by a machine, taking four men to operate, which turns out clean dishes at the rate of 7,000 hourly.

A TRIBUTE TO INSURANCE

"The business of insurance is the outgrowth of time and the demands and necessities of the public," said Justice Ricks of the Supreme Court of Illinois, in a recent opinion. "It extends into and covers almost every branch of business and all the relations of life, and is applied to all the hazards of business in life where a basis of risk and compensation can be estimated.

"In all the stages of life, from the cradle to the grave, it asserts an interest and offers succor and aid. In the business enterprises, whether by land or sea; in the possessions of men, from a pane of glass to the mansion or the factory; in his undertakings involving every chance, mis-

fortune, moral turpitude or the act of God, it demands admission and promises indemnity, reward or gain. It poses as the faithful and zealous trustee of his earnings and savings and promises to the widow and orphan a guaranty against misery and want. It intercedes between principal and agent, master and servant, contractor and owner, and insures against loss from almost any cause.

"It is a public necessity that deals in its own credit for a cash consideration from the assured, and is stamped with public interest."

November 11 To Be "Home Coming" Day At Wayland College

PLAINVIEW.—The cry, for victory and "crush those Bulldogs," is already heard from many corners as the time of the annual home-coming of Wayland Baptist College draws near. November 11 has been designated as "Some-coming Day" at Wayland, but due to the fact that it falls on Sunday this year, Saturday, Nov. 10, will be the day that ex-students will gather at Wayland to see the Jackrabbits repeat the victory of a year ago by holding their old rivals, the Clarendon Bulldogs, to a scoreless game. These teams have already clashed at Clarendon this year and after a strenuous battle Wayland returned with a 12 to 6 victory.

President McDonald is expecting one of the largest gatherings of ex-students on Nov. 10 that has ever been assembled in the halls of the institution. A reception will be given all present in the evening in the administration building at which time new friends will be made and old acquaintances renewed. Over 1,000 ex-students are scattered far and near and as they return to pay homage to their alma mater they come from all walks of life.

The Tomoso Hotel at Happy is gaining quite a reputation for distinctive accommodation and service among the people who have been its guests since its recent opening. Mr. and Mrs. M. M. Morris are proprietors.

A paper from Amherst states that Boy Scouts of the Central Plains will get the benefit of \$500 that was the result of a recent old fiddlers contest. A. F. Copeland of Amherst won first prize of \$100.

HALLOWEEN PARTY by the French Harp Band of the West Ward School, Friday night, Nov. 2. 1c

A Rainy Day Play Room

Mrs. Smith, who has a house full of children, adapted several of our Kitchen Club ideas to make a rainy-day play room out of her kitchen. She has the blackboard, the washable oil cloth walls (not all the way up the walls, but as high as the children can reach), the breakfast nook on which they can cut out and paste, the plain brown linoleum floor which they can mark up with chalk for their marble games, and the yellow curtains for "sunshine." She even lets them use the oil stove, she says; for it is perfectly safe. It has automatic wick stops that keep the flame from going too high or too low; it is solidly built; and it is finished in porcelain enamel, so that if they get it dirty, it can be easily cleaned.

Mrs. Smith keeps some of the children's games and books put away for rainy day use. Old magazines are kept for the "paper dolls" and brought out only on rainy days.

New Table Finish

Jane brought us a good idea from a tea shop she patronizes in town. She had noticed that the tables were richer and much more interesting in color than ordinary ones. And upon investigation she saw that bright-colored linoleum in a beautiful pattern had been fastened down on them. (This can be done either with tacks or with cement.) Plain white or solid-colored dolies were used.

A New Way To Make French Dressing

Use tomato juice instead of lemon or vinegar in your French dressing, for a new, delightful flavor. Measurements as follows:
1 cup of olive oil
1 cup of strained tomato juice
1 teaspoon of salt
and parsley to taste
and sugar added is placed into bowl.
Beat vigorously.

Line Drawn Between Advertising and News

The line which separates advertising from news is one that can be sharply drawn, Owen A. Conner, financial editor of the Philadelphia Public Ledger, told the American Gas Association Convention at Atlantic City. Sometimes it is too sharply drawn, said Mr. Conner, but in general it is the line which separates information of public interest from information which is disseminated for profit. In other words, copy which consists mainly of sales appeal constitutes advertising and should be paid for as advertising. Copy which gives facts of value to the reading public or which contributes to general knowledge on any subject may be classed as news.

"Perhaps the point can be clarified by giving a few specific examples as they affect the gas industry," continued Mr. Conner, who is quoted by the Texas Public Service Information Bureau. "An election of officers of a gas company, as of any other corporation, comes under the heading of news as a matter of course. Announcement of plans for a new gas plant, for a new office building, for extensions of service to outlying districts, for merger with or absorption of another company, for changes in capitalization or changes in wage schedules may be listed as news items which any newspaper will be glad to publish. A reduction of rates to consumers is news.

"On the other side of the picture come appeals for new or enlarged patronage. When a gas company wishes to tell the public the advantages of gas as a fuel it enters the advertising field. Right there the element of competition becomes predominant and all well-managed newspapers maintain strict neutrality as between advertisers. The newspaper could not and should not, in its news columns, pass any opinion as to the relative merits of gas, coal or oil. All the newspaper can properly do is to open its advertising columns to all who have a dignified message and a fair argument to present to its readers.

"The word publicity has come into disrepute in newspaper offices. What the editor wants is news devoid of puffery or free advertising. He will welcome such news if you send it to him."

Books Must Have Air

Recent tests by the United States bureau of chemistry analyzing a large number of worn leather bookbindings, show that leather books need pure air and deteriorate when exposed to harmful sulphurous and acidic impurities. Books of leather books deteriorate quicker than the sides because ordinarily they are more exposed to light and impure air, the tests reveal. To prolong the life of treasured leather bindings, steps should be taken to prevent their deterioration through the absorption of atmospheric impurities, the bureau advises. Certain coatings and finishes, notably neat's foot and castor oil, are stated to be excellent for the purpose.

Hard to Duplicate

In a Colorado town was a poor man who indulged in any luxury other than a superabundance of children. After the coming of a number of single and doublets a loving but unreasonable wife presented him with triplets—three girls—and he sought for some family to adopt them. A neighbor was rather inclined to take them, but his good wife thought one would perhaps be enough. They were talking it over before their ill-fated daughter, who said: "Why don't we take one of them—or don't they want to break the set?"

Inexcusable Mistake

There is a delightful old Irish woman who keeps a corner fruit stand in a Western town. One day a gentleman disposed to be facetious took up a fine melon from her stall, and said gravely: "You have pretty good apples in this state; but where I come from we have them twice that size." The old lady looked up from her stool, surveyed the joker coolly and replied in a tone of pity: "Ah, what for should I be wastin' me breath to talk to wan that takes our gooseberries for apples!"

WORKS HARD, DANCES, GAINS 3 LBS A WEEK

"I work hard, dance and have gained pounds a week since taking Vinol. My nervousness is almost all gone."—Mrs. F. Lang. Vinol is a delicious compound of cod liver peptone, iron, etc. Nervous, easily tired, anemic people are surprised how Vinol gives new pep, sound sleep and a BIG appetite. The very first bottle of Vinol adds several pounds weight to thin children or adults. Tastes delicious. City Drug Store.
