Number 30.

Rotary Education And Music Occupy Time at Luncheon

The Slaton Rotary Club's program last Friday was in charge of C. Lem Sone, who spoke on a theme in line with the idea of Rotary education. His subject was, "Popular Notions and Notions Sometimes Expressed by Rotarians Which Militate Against the True Spirit of Rotary and Which Tend to Place Rotary in a False Light Before the Community."

Among other points emphasized in Mr. Sone's address, he said Rotarians might sometimes think it their duty to lead out or try to dominate in community activities. This, the speaker declared, is a wrong conception of Rotary's principles. He said Rotary should strive to aid all good causes in the community, but not seek domination of any phase of community life.

"The spirit of helpfulness should always characterize the Rotary Club and its members as individuals," Mr. Sone said. "Rotary does not seek to block or destroy, but helps all worthy movements."

Expressing the belief that some people may think the Rotary Club seeks to serve selfish interests, each member trying to advance his own business, Mr. Sone stated that this, too, is a wrong idea, and that members seek to be of greater service to the community through their Rotary Club membership, rather than working for selfish advancement.

The luncheon meetings were described by the speaker as being a place for members to exchange ideas, get each other's viewpoints and receive inspiration from the close contact they enjoy with their friends and fellow-citizens in other lines of business. The luncheon meeting is not simply a place to eat, he said emphatically. The educational value of the meetings was referred to as one of the chief benefits members of Rotary Clubs get.

"If any Rotarian thinks he should help himself and his business through the influence of the Rotary Club, he is sadly mistaken and doesn't have the proper conception of Rotary, by any means," Mr. Sone said. "If we do that, we neglect others and their interests, and thus lose the greatest value we could obtain from Rotary—the joy and blessing of serving others."

"Rotary should cultivate a spirit of patience, each man meeting his own obligations in line with the highest standard of ethics, even if the other fellow does not do so," it was contended. "Rotary should make us more loyal to life's duties, making our lives help others instead of always thinking only of ourselves."

At the conclusion of his address, Mr. Sone read two poems he had composed himself, each of them giving inspiration to his hearers in line with the ideas he had advanced during his speech.

Bob Murray, a guest from the Lubbock club, responded with a few words of comment on the subject, expressing his pleasure at being present for the program. He said Rotary brings out latent abilities in men, developing their hidden powers. Rotary is an open forum for discussion of important questions, and should always be conducted so as to bring business men into closer co-operation with each other, he declared.

At the beginning of the program, a quintet number of vocal music was given by Will F. Florence, Floyd C. Rector, Oskar Korn, T. E. (Rod) Roderick and S. Lem Sone. Familiar airs with appropriate words composed into rhymes under the pen of the leader, Will F. Florence, caught the fancy of those at the meeting, and they demanded an encore number. This was given. Both numbers had touches of local color, the word "Slaton" and "Town 'o Mine" being woven in with appropriate fitness.

Besides Bob Murray, Tom White and his son, James, also of Lubbock, were guests at the meeting Friday. Minter C. Uzzell, son of Minter W. Uzzell, was a guest, and Mrs. L. A. Wilson was the guest of her husband.

Near the close of the program, Lloyd A. Wilson, accompanied at the piano by Mrs. Wilson, gave a vocal solo, and was called on for an encore, which was also given.

At the program for Friday of this week, a vocal quartet is to be rendered by Minter W. Uzzell, Jess Swint, Walter B. Hestand, and Abe Kessel.

The program will involve a discussion of a problem pertaining to social welfare. A debate will be held on the subject, "Should the Jury System be

Poultrymen to Attend Banquet On Friday Night

Exhibitors of poultry at Slaton's third annual poultry show, which opened Thursday morning in two brick buildings on Texas Avenue, will be guests of Slaton business firms at a banquet to be held Friday night at 7 o'clock at the Hotel Cafe, on the west side of the public square. The banquet has been arranged by the Slaton Chamber of Commerce, J. W. Hood, president, has announced.

After the meal is served, addresses will be made on problems relating to poultry-raising, special speakers being expected to address the meeting. All exhibitors are invited to attend, and should get free tickets from the poultry show secretary, W. P. Splawn, at the showrooms, it is announced.

Last Meeting of Year of Retailers Is Monday Night

A general membership and directors meeting of the Slaton Retail Merchants Association will be held in the offices of the secretary, Mrs. Lee Green, next Monday night, December 10, it was stated yesterday by officials of the organization.

As this is the last meeting of the year, and much business will come before the body for transaction, it is urged that a good attendance be had. The meeting will convene at about 7:30 p. m., Mrs. Green stated.

Y. W. A. Has Program At Baptist Church

The Young Women's Auxiliary of the First Baptist church of Slaton, led by Mrs. E. G. Holloway, gave a missionary program at the church last Wednesday evening at the regular mid-week prayer service hour. The program was in the form of a memorial service for Miss Lottie Moon, Baptist missionary, in honor of whom the young women's organization will raise funds during December for special missionary objects.

Among those on the program, were: Misses Cora and Nora Sealy, Miss Mary Kathryn Toliver, Miss Oleta Russell, Miss Mildred Boyd, Miss Viola Fowler and Miss Thelma Potest.

WARREN AND HENRY VISIT HERE TUESDAY

Ed Warren, publisher of the Dispatch, at Post, and Stockton Henry, of Lebbok, were in Slaton Tuesday doing some trading. Mr. Henry was formerly in the printing business in Slaton. While in the city they were callers at The Slatonite office.

WILSON IS RETURNED TO HOME AT RAILS

L. A. Wilson, secretary of the Slaton Chamber of Commerce, went to Lebbok Sunday, and returned his brother, Carrol Wilson, to his home at Ralls, after he had received treatment at a Lubbock sanitarium for several days. Carrol, who is a pharmacist at Ralls drug store, and was formerly connected with the City Drug Store here, is reported to be improved in health.

SHERIFF AND BROTHER WERE HERE TUESDAY

Sheriff H. L. (Bud) Johnston, of Lubbock, and his brother, Jim Johnston, of the Johnston ranch, were in Slaton Tuesday, and while here called at The Slatonite office. They brought with them some very odd specimens of crystal formations, thought to be mica, which has been located, in large quantities, on the Johnston ranch, about five miles north of Slaton. They left some of these specimens at The Slatonite office.

ATTENDS FEDERATED MEET.

A. Kessel, owner of Kessel's Department Store here, was in Abilene Wednesday, where he attended a district meeting of Federated store owners and managers. He returned to Slaton Wednesday night.

Abolished? The affirmative will be upheld by Will R. Smith and Will P. Florence. The negative contenders will be Floyd C. Rector and Oskar Korn.

Saturday Report Shows 2,810 Bales Cotton This Year

Slaton's six gins had received a total of 2,810 bales of this season's cotton when a check-up was finished last Saturday afternoon. The three gins at McClung, Posey and Union had a total of 1,210 bales for Slaton's trade area this season.

It is estimated that these nine gins will get between 9,000 and 10,000 bales by the time the season ends, the six Slaton gins probably receiving between 6,500 and 7,000 of this number. Those figures are based on estimates made by ginners and farmers. If the estimates prove approximately correct, this section will have this year nearly 75 per cent the volume of cotton that was produced a year ago, it was pointed out. Some estimates place the total figure higher than this.

Excellent yields of feed crops, such as milo maize, kafir corn, hegira, fetcrita and other feedstuffs, together with a much larger volume of farm produce of different kinds, including poultry, eggs, dairy products, and other foodstuffs have given the country a substantial basis for the year, business leaders say.

Barton Surveying Englewood Cemetery

Englewood cemetery is being re-surveyed, and steel stakes are being placed at corners, it was stated Tuesday by E. Barton, city water superintendent, who is in charge of the work.

Mr. Barton says that, following the completion of this task, no difficulty should be encountered in determining locations for graves. He urges that everyone take care not to knock down or destroy the stakes, as they will be very essential in determining grave lots.

House Destroyed By Fire Thursday

A small residence, located in the extreme southwest part of town, was completely destroyed by fire Thursday morning, the blaze starting, according to reports, from the explosion of an oil stove.

The fire being entirely out of reach of a water connection, it was not possible for the Slaton Volunteer Fire Department to quell the blaze, it was said, though the old fire truck was driven to the scene, and through the use of its chemicals, a windmill and tower were saved from complete destruction.

The property was said to have belonged to a Mrs. Vaughn, whose home is at Houston.

C. of C. Banquet And Election of Officers, Jan. 8

The annual membership banquet of the Slaton Chamber of Commerce, on which occasion officers for the new year will be chosen, has been set for Tuesday night, Jan. 8, as was recently announced. Plans for the event are taking shape, Chamber of Commerce officials have announced.

A brief but interesting program is being arranged, although definite announcement as to the principal speaker for the occasion is hardly ready, it is stated. Following the program, the election of seven directors for the coming year will be held. Eight members of the present board, composed of fifteen men, will remain in office another year.

A very brief report of the past year's work will probably be given, although the annual report of the organization will soon be prepared in printed form and distributed to all members, says J. W. Hood, president of the Slaton Chamber.

The attendance at this year's banquet is expected to go far beyond that of last year, when 140 people were present. The goal has been set at 200 for this year, according to committee members. Those attending last year's banquet will recall that the program was short and interesting, and members of the committee are working to make this year's program briefer and more interesting, they declare.

Work on Streets Almost Complete

W. E. Kurchaval, tractor man, and Tom Kirby, street grading machine man, have been busy for the past several days grading streets in the resident sections of Slaton, and expect to have the work almost finished by the end of this week, according to E. Barton, city water superintendent, who is in charge of the street work.

It is believed that Slaton's streets are in better condition at this time than they have been for a long time, this being due, in a large measure, Mr. Barton states, to the fact that the city recently purchased a new tractor, adding considerably to the efficiency of the street-working department.

B. Y. P. U. Members to Have Social Friday

The Intermediate B. Y. P. U. of the First Baptist church, directed by Mrs. Wiley Fowler and Mrs. E. M. Lott, will have an evening of social entertainment at the home of Rev. and Mrs. B. G. Holloway, at 515 West Lubbock Street, Friday night at 7:30 o'clock, this week, it is announced by B. Y. P. U. officers.

No Action Taken On Petition by Court Wednesday

At a meeting of the Lubbock county commissioners' court, held at the courthouse Wednesday afternoon, returns of last Saturday's road bond issue election were canvassed and results officially announced.

A petition was presented to the commissioners, requesting them to call another bond issue election for the purpose of voting \$1,000,000 on state and federal highways in the county, but because of the absence of Commissioner J. T. Pinkston, of Slaton, no action was taken on the petition. It is probable that at next Monday's regular meeting of the commissioners the election will be called for Saturday, January 12, 1929.

Order is Delayed.

In speaking of the meeting Wednesday, Judge Charles Nordyke said: "On account of the absence of Mr. J. T. Pinkston, commissioner of Precinct Number 2, of Slaton, the bond election for \$1,000,000 for paving the highways was not ordered. We had notified Mr. Pinkston twice of the meeting of the court. However, not stating that the bond election was contemplated to be ordered, and not knowing ourselves whether any request would be made for the order of this election, and, thinking too, that possibly Mr. Pinkston had failed to receive our notice, the court, through courtesy to him, delayed the action on this bond election until Monday, December 10, which will be the day of a regular meeting of the court.

"There is on file now in the county clerk's office, for the commissioners' court," Judge Nordyke continued, "a petition with more than 300 names on it, requesting the court to order a bond election for a million dollars to take up \$22,000 or road district number 1 outstanding bonds and to finance the paving of the highways, which petition will be acted upon Monday, December 10, and the election ordered for Saturday, January 12, 1929—Lubbock Avalanche.

Diphtheria Cases Few in Number, but Serum is Safest

Curtis, Jr., young son of Mr. and Mrs. C. E. Brown, is reported to have diphtheria at the home of his parents at Seventh and Dickens Streets here. Reports yesterday indicated that little Juanita Williams, who contracted diphtheria last Sunday, is much improved. Many children of Slaton have been given the diphtheria serum during the past few days, according to Dr. W. A. Tucker, city health officer, who states such action is very wise on the part of Slaton parents.

MORE BIRDS AT POULTRY SHOW THAN YEAR AGO

Three-Day Event Opened Thursday; Rain Hinders Some

The third annual Slaton poultry show opened Thursday morning with a larger number of birds on exhibition than were shown last year, according to show officials. An exact count was not available, as entries were still arriving, but the record of 1928 is assuredly higher than for the show held a year ago. A slow rain which was falling Thursday morning caused fewer entries among poultrymen in this territory, it was believed.

"We not only have more birds, but we have better quality this time than we had last year," said A. A. DeVore, superintendent of the show this year, in commenting on the exhibits Thursday morning.

Exhibitors are here with their birds from many other parts of the state, it was announced by W. P. Splawn, secretary of the show. Among the many out-of-town places represented, are: Floydada, Spur, Littlefield, Kirkland, Ballinger, Southland, Lubbock, Idalou, Tuscola, Clarendon, Levelland, and Meadow.

I. L. Bandy, of Godley, Texas, a licensed American Poultry Association judge, arrived Thursday morning and began his work, making awards in the various divisions. He will go from Slaton to Snyder to judge the show there, he said.

In all varieties of chickens, three cash awards and a ribbon for fourth place have been arranged for each division. Two cash awards and a ribbon for third place will be given for turkeys. Loving cups, now on display at Paul Owens' Jewelry Store, will be given the winners of best all-round displays of chickens and of turkeys. A large display of turkeys is one of the features of the show this year, said E. L. Hicks, poultry association president.

Exhibitors will attend a banquet arranged for them by the Slaton Chamber of Commerce, to be held Friday night at 7 o'clock, at the Hotel Cafe. The business firms of Slaton will be hosts to the exhibitors, several business men being in attendance. Special speakers are expected to discuss poultry-raising problems.

The poultry show will continue through Saturday, and the public is invited to visit the show, situated in two brick buildings just north of Green's Garage on Texas Avenue.

Luman Case Goes To Jury at Lamesa

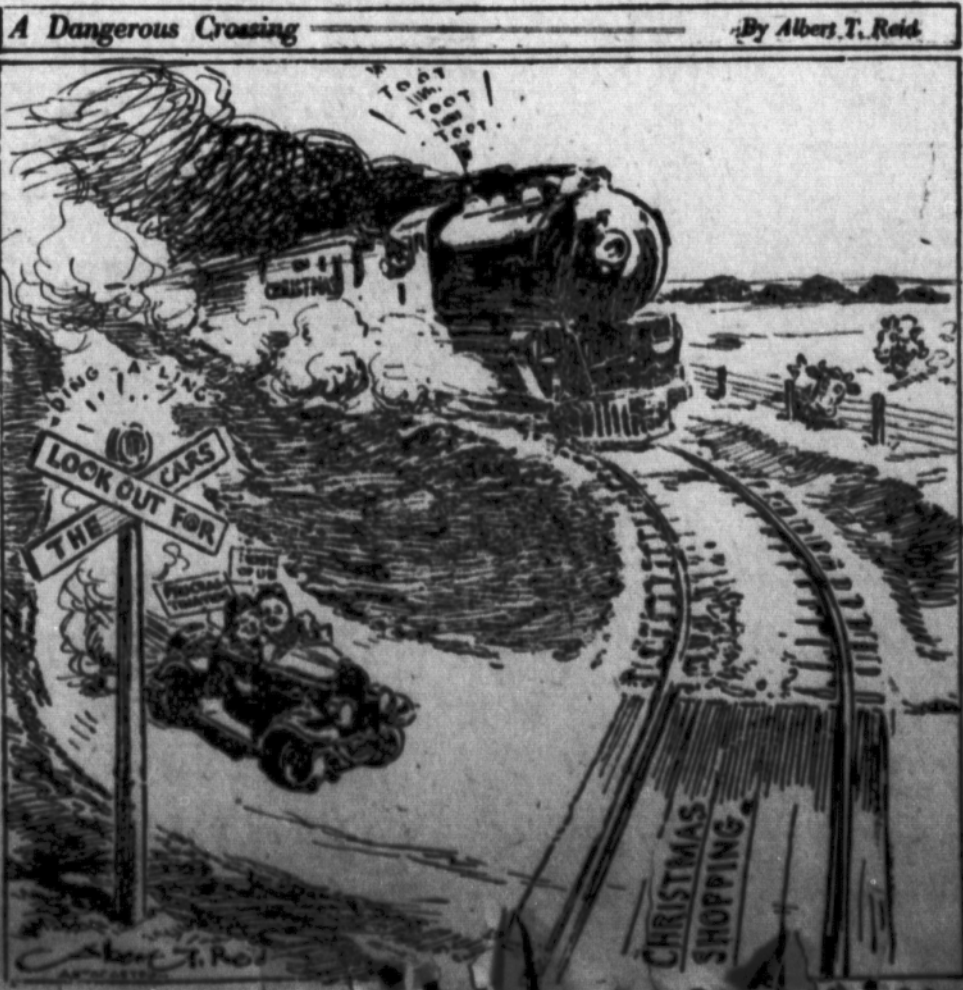

LAMESA, Dec. 4. — The state closed its case in the trial of Will Luman, 40, Garza county ranchman, charged with murder in the death of Marvin Breeding, 23, this afternoon and the defense had presented more than half its testimony when court adjourned tonight. The case was expected to reach the jury late tomorrow.

Breeding was shot to death in a theatre at Post, the night of August 5, 1927. Luman surrendered to officers, claiming self defense and charging that Breeding had made improper advances to his wife. The case was transferred to Dawson county on a change of venue.

Luman testified that when he went home the night of the shooting his wife told him of improper advances Breeding was alleged to have made. He related that he went to the theatre and called Breeding from his seat. As Breeding came up the aisle, the defendant said, he made a motion which Luman construed as the act of drawing a pistol. The shooting followed and Breeding died two days later in a Lubbock hospital.

RENEWS SUBSCRIPTION.

John A. Steffens, who lives on Rt. 1, out of Slaton, was in town Thursday, exhibiting his Rhode Island chickens at the Slaton-Southland Poultry Show, and while at the Slatonite office he renewed his subscription to the paper.

News Of Union

We have had a nice week of fair weather and farmers have been very busy in their cotton.

The little daughter of Mr. and Mrs. Fear is improving. We hope she will soon regain her health.

Sunday is regular meeting day at the M. E. church. Everyone who can try to go.

Mrs. Ussery's sister and family, from Winters, Texas, are visiting her at present.

W. B. Smith, from Lubbock, visited C. N. Smith last Friday night.

Elaine and Ruth Smith spent Sunday with Louise Staple.

Carl Walters, wife and Cecil Weaver and wife are spending the day with homefolks.

R. C. Smith was here to see his brother last week, while on his way home to Gorman, Texas.

Wayland Deating and wife are here from Commerce. Wayland will probably make his home here next year.

There were church services at the M. E. church last Sunday night.

Mrs. Cowan has returned home. She has been away for quite a while. She will take up her work in school.

Our school opened last Monday with very good attendance.

A cordial invitation is extended to everyone to attend Sunday school and church next Sunday. Bring along a

NEW OIL SYSTEM IS AID TO PERFORMANCE

The engine lubrication system of the new Model A Ford car is a combination of pump, splash and gravity feed which is an exclusive Ford development.

In design and in operation it is simple and positive and repeated tests have shown it to be ideally suited to this somewhat revolutionary type of four-cylinder, medium-speed, medium-compression motor.

The oil pump is located in the bottom of the crank-case and is run off a gear on the camshaft. It is enclosed in a fine mesh wire screen through which the oil filters before it is pumped up into the valve chamber. The screen is surrounded by a shield so that the oil is pulled through it, rather than flowing in by gravity. The oil flows into the valve chamber in a continuous stream whenever the engine is running, but is in no sense a "forced" feed. It is rather the full load of the pump being delivered in a smooth, flowing stream. The principal purpose of delivering the oil to the valve chamber is to provide direct gravity feed lubrication to the bearings of the crankshaft. However, it also supplies exceptional lubrication for the valves, giving better and quieter action, and by gravity to the front and camshaft bearing.

Small pipe openings lead down from the valve chamber to the crankshaft main bearings and oil flowing down these by gravity provides an abundance of lubrication. The bottom of the valve chamber is so arranged, through the use of small, inbuilt dams to provide reservoirs of oil for each main bearing pipe opening.

As the engine rests in the chassis on a three-degree angle, sloping to the rear, the oil arriving in the valve chamber flows back, filling the first

reservoir; then over the little dam, filling the second reservoir, and then over again to the third and last reservoir. From this point the overflow oil is carried by an external pipe down to the front end of the oil pan in the crankcase where it flows back over the pan, filling the troughs through which the connecting rods are lubricated and from which all other moving parts are sprayed by the splash system. From the pan the oil flows to the bottom of the case to be pumped back again.

Creamery Operators Busy in Southwest

Fifteen years ago promoters succeeded in building some 20 creameries in Oklahoma. In each case the promoter picked out a community, sold stock, installed machinery, got his

money and left, says the November 1 Oklahoma Farmer-Stockman.

Within three years many of these so-called co-operatives went broke, and at the end of five years only one was left. It soon closed its doors.

After this disastrous experience with promoted creameries eight years passed without a co-operative creamery in the state. In the last two years interest has been revived. Two strictly co-ops have been built and a third is ready to operate.

The success of these creameries has created statewide interest, and with that interest has again come the promoter.

The basis on which the promoter operates is unsound. He organizes a stock company, not a co-operative. Stock is sold to anyone, and the promoter with his high-pressure selling methods does the selling. Folks buy

stock who later, regret it and the creamery is off to a bad start.

A creamery so financed is not a co-operative creamery. It is a corpora-

tion. Such stock companies have never succeeded. They have been tried out in every state in the union and have all been junked.

When Pain Comes

Two hours after eating

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

That Will Attract Your Child at Prices That Will Attract You

This is the store of bargains in toys, where the best is to be had for the least expenditure.

Toys that will draw your child like a magnet—at prices that will astound you because of the economy they make possible.

Make this a real happy Christmas for your boy or girl by presenting a goodly selection of our marvelous toys and novelties.

These items and prices, picked at random speak for themselves:

Drums	79c to \$1.49
Racers	19c to 98c
Building Blocks	79c to \$1.29
Doll Dishes	29c to \$1.79
Pianos	39c to \$1.89

Don't forget Santa Claus will arrive by bus at the Forrest Hotel at 3 p. m., Tuesday, Dec. 18th, and will go to the Acorn Store, where he will be every afternoon at 3 o'clock until Christmas. Meet him and he will give all the kiddies a balloon.

Acorn Stores, Inc.

Another Election Is Sought; Petition Circulated

A petition asking the Lubbek county commissioners' court to call an election to determine whether or not State and Federal designated highways in Lubbek county shall be maintained by the county...

It has been presented to the commissioners' court and is as follows: "We, the undersigned, resident property taxpayers of Lubbek county, Texas, respectfully pray the Honorable Court to order an election to call county to determine the following proposition:

"Whether or not bonds of said county shall be issued in the sum of \$1,000,000 for the following purpose: The issuance of county bonds for the purchase of district roads and the further construction, maintenance and operation of same..."

"1. Bonds to be issued in the aggregate sum of \$200,000 for the purpose of the purchase of district roads in said county, and other bonds shall be issued in similar amounts..."

"2. Bonds to be issued in the aggregate sum of \$750,000 for the further construction, maintenance and operation of same..."

"We further pray your Honorable Court that at said election there shall be submitted to the resident property taxpayers of said county, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity."

"We further pray your Honorable Court that the proceeds derived from the sale of said bonds to the extent of \$200,000, if necessary, be expended in the construction, maintenance and operation of paved roads and highways in said county..."

Shining Lubbek and Stationery, 2075/2080. Texas State Highway No. 2, via Winkler, Lubbek and Mission to Abilene, 2075/2080. Texas State Highway No. 20, via Lubbek, Lubbek and Wolfcamp, 2075/2080.

"Lubbek road to the county line on Lubbek-Loveland road, \$110,000. Texas State Highway No. 20, via Lubbek and Mission to Abilene, \$100,000. Total, \$207,000. Bonds shall be issued, sold and delivered as if any other of the State Highway department shall ask the county to deposit in error its one-third of the cost of the construction of one of said highways or sections thereof."

Bath Tubs Keep The Nation Clean

A business survey conducted recently by the widely separated committee revealed that 85 per cent of the homes were equipped with modern bath tubs. Health authorities are of the opinion that if all these tubs are given a reasonable amount of use, we as a nation are rapidly acquiring that virtue which is considered next to goodness.

Widespread use of water systems in rural homes, says the research department of the National Association of Plumb Equipment Manufacturers, enables farm people to enjoy the same advantages of running water as residents of the city. The amount of water used per person daily in any community is considered quite an accurate gauge of the living standards of its people.

A CHALLENGE TO DWA. A Missouri young man climbed a cornstalk to examine the ears, and the corn is growing faster than he can come down. Three men have undertaken to cut down the cornstalk before it is ready to harvest. It is feared they will not succeed in time to prevent the young man's death from starvation. He is now subsisting on raw corn and has already thrown down four bushels of corn and if a thought the supply is almost exhausted. -The State Home Press.

Doctors Diagnose When children are irritable and peevish, and their feet and sleep seriously, have digestive and intestinal troubles, loss of appetite, and have itching eyes, nose and throat, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White's Worm Expeller, the most excellent of all worm and pin worms. If your child has any of these symptoms, try this remedy. We old-fashioned remedy which will not go to the bottom of the bottle.

Was so Nervous Feels His Stomach Jump

"I got so nervous my stomach felt like it was jumping. Want entirely relieved the trouble. I feel better than in years." - J. C. Davis.

Want is an compound of iron, phosphorus, cod liver oil, etc. The very BEST bottle makes you sleep better and have a BIG appetite. Nervous, easily tired people are surprised how QUICK the iron, phosphorus, etc., give new life and pep. Want (active tablets).

CITY DRUG STORE. NAWABHNE ACTIVITIES.

Last week was an active week, with mid-week and cottage prayer meetings, and Thanksgiving coming upon us. Sunday was the best day we have had for some time. Sunday school attendance is climbing some, and also attendance at church services. The report from the young people's cottage prayer meeting on Friday night was good.

A committee is working on the Christmas program and we hope to see the auditorium well filled. The decoration committee is planning on quite extensive decorations, with two trees, and the Sunday school expects to treat everyone who comes. There will be something of interest every moment of the time, so if you don't attend church or Sunday school anywhere, we shall be glad to have you worship with us.

Sunday School, 10:00 a. m. Pleading, 11:00 a. m. N. Y. P. S., 4:30 p. m. Pleading, 7:30 p. m. Mid-week prayer meeting, Wednesday, 7:30 p. m. Miss Riden, leader. Cottage prayer meeting, Friday, announced at mid-week prayer meeting. Miss Helen Stone, leader. Reporter.

Very Old Bible is Valuable Book in T. C. U. Library

POINT WORTH.—A Greek New Testament 375 years old is owned by the library of Bible College of the Bible at Texas Christian University here. This old worm-eaten book was printed in 1550, sixty-one years before the publication of the King James version of the Bible.

Printed in "Royal Greek" and to be the most beautiful Greek type ever devised, this is one of the most valuable books in the T. C. U. library.

This was the first Bible to carry marginal references, and the publisher was severely criticized for his "additions" to the Bible. The Bible had not been divided into verses in 1550, so that this edition lacks the familiar verse numbering.

The cover of the book is made of wood, overlaid with pigskin. There are worm holes in the back, and some penetrate the entire volume. Iron clasps and hinges hold it closed.

The cover is a stamp design.

A Great Discovery. When Pasteur discovered, in 1852, that the infection of wounds was caused by organisms, he performed a service of incalculable value to mankind since then modern science has been producing better and better antiseptics, to kill those germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that those dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Liquid Iodoform, the modern antiseptic. You can get Liquid Iodoform, in a case to fit your needs and purse, from City Drug Store.

TESTED COWS and Certified Milk Florence Dairy Phone 366 Deliveries: Twice Daily; and on Special Call.

dition" to the Bible. The Bible had not been divided into verses in 1550, so that this edition lacks the familiar verse numbering. The cover of the book is made of wood, overlaid with pigskin. DIZZY Lost Appetite

Mr. M. F. Hall, of Harrisonburg, N. C. says: "I must have been fifty twenty-five years ago that I began taking Back-Draught regularly."

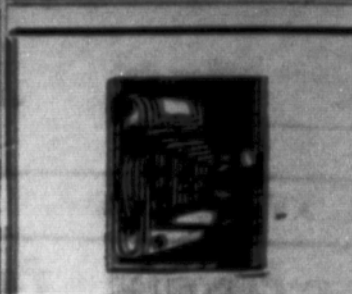

"I was in town one day, and while talking to a friend I stopped over to pick up something. When I straightened up, I felt dizzy. I spoke to him about this and how I had not felt like eating."

"My friend told me to take some Back-Draught. I knew my mother had used it, and so I got some. I took a good big dose, and the next night, another. In a few days I felt much better."

"A good many times I have had this dizziness and I had to take it every month, or less often, and then I take Back-Draught and get better. I do not have to take it very often. We buy from five to seven packages a year." Try it if you are suffering from indigestion, biliousness, or any other ailment.

News Shorts Of Towns of Texas

Finishing work is being done on the basement of the new Methodist church at Woodson. The basement is divided into seven rooms, including kitchen, assembly room, and class rooms. Gas connections are in every room.

Building permits from Snyder have already exceeded the \$300,000.00 mark up to November 15. The City Council is planning the installation of a new \$18,000 sewage disposal plant to be erected within the next 30 days.

An athletic stadium is soon to be built for the Abilene public schools. The school athletic council already has \$13,000 out on interest to be used in building the plant and this sum will be increased.

Plainview is to have an over pass 600 feet long over the Santa Fe tracks on Highway 28. It will be made of steel and concrete. Plans are practically complete for the grading and drainage structure on the highway.

Concrete is being poured for the fourth and last story of the new \$80,000 hospital at Dalhart. B. C. Frohman, general contractor in charge of the work, expects to finish by April. This will give Dalhart one of the most complete hospitals in this part of the state.

The first baby beef show conducted in Swisher county will be held in Tulia February 2, 1929. C. B. Martin, county agent, now has 34 baby beeves on balanced rations in boys clubs, one of which won \$544.84 in prizes recently.

Arlington's new city hall will soon be finished. Brick is being laid on the top story, and plumbers are at work in the basement. White face brick is being used in the exterior work of the

building, and this will make it one of the most attractive in town.

Del Rio recently celebrated the big event of the season there when the new Roswell hotel was formally opened with the Hawaiian Welcome Ceremony. F. L. Childs, general manager, sponsored this unique entertainment.

Plans are being made in Goree to install a sewerage system. If present indications mature, work will start on the system about the first of the year and it will be ready for use the earlier part of the spring.

Paducah is constructing an ornamental white way along the streets of the business section. It will have 34 standards mounted on the side walks with wiring underground when completed, and will replace the old system of 17 standards located in the center of the street.

The Red River District Convention of the West Texas Chamber of Commerce is to be held in Merkel on December 6. Competition is keen among the towns in that section for the privilege of being named as next year's meeting place.

Work will start on the building of a diversion dam on Bluff Creek near Winters soon, since the carrying of a city bond election of \$72,656.65, for the purpose, by a vote of 84 for and 53 against. Winters has recently bought a new fire truck, erected a new water reservoir, and completed some paving.

REFRIGERATION PAYS.

There are about 28,750,000 homes in the United States and approximately 65 per cent of these use refrigeration during the warm weather; 20 per cent use artificial cooling methods the year round. Food experts have estimated that spoilage of foods, due to improper refrigeration, result in annual losses of \$700,000,000, or enough to support with food the entire indigent of the nation.

THOUSANDS VIEW NEW SIX CYLINDER CHEVROLET

Detroit, Dec. 1.—Record crowds, highly enthusiastic over Motordom's newest automobile, viewed the new line of Chevrolet six cylinder valve-in-head cars at the national premiers last week in New York and Detroit.

Thousands that crowded both exhibitions to inspect Chevrolet's greatest achievement—"a six in the price range of the four"—enthusiastic over the streamline beauty of the new Fisher bodies, the latest accomplishment of this famous organization.

Visitors were open in their admiration of the "expensive big-car" appearance of the new models. They were pleased with the smart new colors that will distinguish the new Chevrolet from all others; the elegance of the fittings appealed to the most discriminating and the luxurious upholstery pleased the most exacting of the feminine showgoers.

They inspected the powerful new 46 horse power motor with its non-detoxifying high compression head. They were particularly interested in learning that it develops 32 per cent more power than its predecessor which was world-famous for power and that its speed and acceleration has been stepped up to satisfy maximum requirements.

In the shimmering new cars they saw the final product of more than four years research and experimentation in the Chevrolet experimental laboratories, the General Motors Research Laboratories and the General Motors Proving Ground.

The hum of enthusiasm that pervaded both the New York and Detroit exhibitions seemed to presage a new record year for Chevrolet in 1929. Orders were being placed immediately

by those desiring early delivery in January when the first of the new cars will be delivered to owners.

Despite the fact that only two cities have seen the new cars, orders in large volume are pouring into the Chevrolet offices from every section of the country. Although the country-wide dealer organization will not have display cars until December 29, the entire sales organization is now equipped with full color illustrations of the cars, literature and other information about the car that promises to write a chapter of sensational success into the automobile history of 1929.

Meanwhile the fifteen giant Chevrolet plants across the country are pushing production with all the speed possible within the limits of precision manufacturing in order to supply

Texas has six state hospitals for mental cases with a combined capacity of more than 9,000 patients.

The total property valuation of the state's six hospitals is \$8,317,000.

Galveston is the oldest important port of Texas and one of the most conveniently situated ports in America.

dealers with cars as quickly as possible for delivery starting Jan. 1. In order to accommodate the public and the dealers, the December production schedule has been stepped up to the highest on record for the month.

The total Indian population of Texas by the latest census was 2,100. The largest tribe is the Alabamas in Polk county.

Don't Make a Toy Out of Baby—Babies Have Nerves

By RUTH BRITAIN

Much of the nervousness in older children can be traced to the overstimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Bayer Aspirin. The name Bayer is on every tablet, and on the box. If it says Bayer, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Bayer Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Bayer—at any drugstore—with proven directions.

Physicians prescribe Bayer Aspirin; it does NOT affect the heart

Aspirin is the trade mark of Bayer Manufacturers of Monacellulose of Barmen, Germany

NEW MOTOR TO PUMP OIL FROM DEEP WELL

Electrical and oil operators are interested in a new invention called the "Bolshevik" motor. Such a motor is being installed by the Phillips Petroleum Company in a well located about six miles northwest of Shidler, Okla., in the Burbank oil field.

The Oklahoma Power & Water Company, through its generating system in Sand Springs, Okla., will furnish the power for the motor. The motor is but seven inches in diameter and approximately ten feet long. It will develop about 50 horse power. The usual 50 horsepower motor is about three feet in diameter and three feet long.

The motor is being installed in the bottom of an oil well over one half mile underground. Besides the tubing, a heavily armored cable will carry the electricity to the bottom of the deep well to run the motor. This motor is called "Bolshevik" because its inventor is a Russian. He is now working in Bartlesville, Okla., with the Phillips Petroleum Company for the further application and use of these motors. They are especially adapted for pumping oil from oil wells.

Mrs. Jane Mandeville of Port Crane, N. Y., will cast her first vote on her 90th birthday, thereby laying claim to being the oldest new voter in the country.

OF INTEREST TO WOMEN.

There are scores of varieties of vegetables not commonly grown in home gardens in Texas that should be found there to add health and variety and relish to the daily diet. Very seldom are such healthful and easily grown vegetables found in gardens, as cauliflower, spinach, rhubarb, asparagus, kale, collards, carrots, dill, parsley, Swiss chard, lamb's quarter, horseradish, lavender, mint, sage, catnip, Jimson or mullen. Yet every one of these and many others were among the 82 new vegetables grown by the Bailey women's home demonstration club in the blackland of Fannin county this last year. The club reached its goal of having every one of the 27 members grow at least one new vegetable and learn to prepare vegetables in four new and different ways.

Asparagus can be grown in any garden from roots set in the spring. New Zealand spinach is a valuable leafy vegetable which withstands the long dry Texas summers admirably. Cauliflower does well nearly everywhere from seed planted in February. Swiss chard is another good garden crop that matures quickly and is ready for use in early spring and late fall.

A blanket was stolen from the bed of Mrs. H. A. Gunn of Grand Rapids, while she was sleeping.

Debs Hatch, 86, of Fond Du Lac, Wis., tends a garden by day and embroiders by night. He has done more than 400 pieces in colors.

The Substantial Fellow

MRS. GRANT WINS.

Mrs. Ruby Grant, of Slaton, was awarded a premium by Payne's dry goods last Saturday, for being the first to supply a missing word in the large advertisement of that firm appearing in last Friday's issue of The Slatonite. The word supplied was "Sale".

Jed A. Rix, Spencer Wells, D. D. Roderick, R. J. Murray, M. G. Abernathy and F. E. Wheelock, of Lubbock, were here Wednesday discussing with local leaders the coming proposed road bond issue.

SUNDAY SERVICES AT PRESBYTERIAN CHURCH

Sabbath school opens at the Presbyterian church at 9:45 a. m.
Morning Worship at 11 a. m.
Young People's Sunday Christian Endeavor meets at 5 p. m.
Evening Service at 7:15 p. m.

The theme for the morning hour is "Sowing the Seed". In the evening, the subject is, "Eternal Life," John 5:24.

We are planning and praying for a great service. Come and worship with us.

The public has a cordial welcome at these services.
REV. JAMES RAYBURN, Pastor.

L. Susser, former Slaton merchant, who now lives at Corpus Christi, was a business visitor here this week.

MOVING TO WELLINGTON.

J. C. Barton, former superintendent of the Slaton division of the Santa Fe, who was recently transferred to Wellington, Kans., was here early this week making preparations to move his family and household goods to that city.

Typewriter paper for sale at The Slatonite office.

Just Like An Ostrich
A medical authority says that a person who tries to cover up skin blemishes and pimples with toilet creams and powders is just as foolish as an ostrich that buries its head in the sand to avoid danger. Skin eruptions are nature's warning that contamination is throwing poisons into your blood stream and weakening your whole constitution. Remove the contaminated condition and you will strengthen your system against disease and clear up your disfigured skin. The best way to do this is with a course of Herbine, the vegetable medicine that acts naturally and easily, which you can get at City Drug Store.

A BRAND NEW PONTIAC IS COMING!

IN KEEPING with its policy of progress, Oakland has for months been working on a new Pontiac Six. It is more than a refinement of its famous predecessors. It is essentially a brand new car from beginning to end.

Details will be announced later. But this much can be said now. This new Pontiac will represent an even greater innovation today than the first Pontiac represented in 1926! Without departing from the low-price field, it will bring to this field finer elements of style, performance and luxury never before provided in a car so inexpensive to buy!
