

FARMERS' SALE WILL BE HELD AGAIN MONDAY

Fourth Auction Event and Trades' Day Announced

The fourth free farmers' auction sale will be held in Slaton next Monday, starting at 10 a. m., on the east side of the public square, it is announced by officers of the Chamber of Commerce.

No charges of any kind will be assessed against farmers for selling their wares at public auction, this service being given them absolutely free, and farmers are invited to bring their surplus farm tools, livestock, household equipment, feed-stuff or whatever they wish to dispose of and have it sold free of charge.

C. Johnson, well-known Slaton auctioneer, will be in charge of the auction sale, it has been announced. He will sell whatever is offered for sale, getting the best possible price for it, it is stated.

Best Report of Year of S. S. Attendance Here

Percentages of pupils of Slaton public schools attending Sunday school last Sunday, have been reported, as follows:

High school, 56 percent, Miss Cary's room leading with 68 percent.

Junior high, 51 1-5 percent, Mrs. Wilhite's room leading with 84 percent.

West Ward, 51 2-5 percent, Mrs. Tomlinson's room leading with 65 percent.

East Ward, 51 percent, with Mrs. Piekens' room leading with 75 percent.

Entire public school system, 54 percent.

This is the best report made this year. May we all take interest, parents, pupils and teachers, and run this percentage of attendance still higher.

—C. L. Sone.

HOPKINS COUNTY PEOPLE VISIT RELATIVES HERE

Mr. and Mrs. Truman Campbell and Mr. and Mrs. Hugh W. Tapp, of Sulphur Spring, in Hopkins county, were here last week-end, visiting in the home of Mr. and Mrs. R. L. Tate. Mrs. Campbell is the daughter of Mr. and Mrs. Tate.

While in Slaton, Mr. Campbell was in conference with W. B. Hestand, president of the Slaton Wholesale Grocer Co., and accepted a position manager of the company's new store at Lamesa.

The Lamesa branch of the firm will open for business as soon as Campbell and his wife can locate there, Mr. Hestand stated, which will likely be the latter part of next week.

FLIES TO SCHOOL.

Miss Erica Hillyer, daughter of Mr. and Mrs. A. A. Hillyer, had the pleasure of riding in an airplane to her school. It was the huge Ford, trimotored plane that was in Slaton for a day.

Miss Hillyer accepted an invitation to ride in the plane to Plainview, where she is a student in a business college. She was met there by her aunt, Mrs. Clem Ross.

Heads of School Elect Officers at Meet Wednesday

At a meeting of the board of trustees for Slaton Independent School District, held Wednesday night, Dr. S. H. Adams, recently elected board member, was named as president of the board, to serve for a term of two years.

W. C. Foutz was chosen vice president, and E. S. Brooks as secretary. Both Dr. Adams and Mr. Brooks are new members of the board, while Mr. Foutz was elected a year ago.

Retailers Meet in Regular Session Last Monday Nite

Directors of the Slaton Retail Merchants Association met in regular session at the office of the Secretary Monday night, with A. J. Payne, the president, presiding.

Many items of interest, and of importance to local retailers, were discussed, among which was the rating list for the coming fiscal year. This list will be ready for publication within the next few days, it was reported by the secretary, Mrs. Lee Green.

Several new members have been added to the membership list within the past few weeks, Mrs. Green reported.

Cemetery Heads are Named by City Dads

At a meeting of the city commissioners held Monday night members of the cemetery association were appointed, and it was decided that a sexton, to care for the grounds be employed regularly. Those appointed were S. S. Forrest, chairman, and E. C. Foster. A third member of the association committee will be named at an early date, it was stated.

A statement made by Mr. Forrest and Mr. Foster is as follows:

"A sexton will be regularly employed, but owing to the amount of work that is to be done in a very short time, all who are interested are requested to come at their leisure and assist in beautifying their lots and planting flowers.

"We make this appeal to everyone, whether you have lots of your own to care for or not, as more is expected to be done this year than at any former time, in this direction. Do not wait for a general working day, but come when you can and as often as you can, and as early as is convenient.

"We desire to make Englewood Cemetery one of the beauty spots of our city."

SCOUT TROOP ORGANIZED AT WILSON RECENTLY.

Rev. L. G. H. Williams, president of the South Plains Council, Boy Scouts of America, and K. N. Clapp, executive of the council, passed through Slaton Monday afternoon enroute to Wilson to be in conference with the Chamber of Commerce there, in the interest of the recently organized boy scout troop in that town. The troop was organized Monday of this week.

WEAVER MARRIED.

Olen (Red) Weaver and his young bride, of Midland, are here for a few days' visit with his parents, Mr. and Mrs. W. H. Weaver, and with friends. Mr. Weaver was married Wednesday, April 10, to Miss Myrtle Kincaid, of Midland, the ceremony being performed in that city.

ENTRY BLANK Chamber of Commerce "Pretty Lawn Contest"

(Fill out and mail or bring this coupon to the Chamber of Commerce.) I wish to enter the contest, subject to all rules and judges' decisions.

If entering as corporation, check here.

Car Drivers Must Observe Stop Signals, Mayor Says

The habit of car drivers in Slaton of driving by stop signals without bringing their cars to a stop must be discontinued, Mayor Reese stated to a Slatonite representative Thursday, explaining that there is a city ordinance providing a penalty for such violations.

Mayor Reese stated that the police department has been instructed to report all violations of this ordinance, and bring the offenders before the city court.

The above warning should be observed by all car drivers, thereby saving embarrassment and lessening the likelihood of accidents at street intersections.

City Auditorium Can't be Used; Awaiting Repairs

The auditorium of the city hall cannot be used for public gatherings until State laws are complied with, Mayor W. G. Reese stated Thursday. Hence a request is issued that no one, or no organization, apply for use of the auditorium until these requirements are met.

The law requires that fire escapes be erected to windows of the auditorium, which is on the second floor of the city hall. This requirement will be met as soon as arrangements for their construction can be made, Mayor Reese stated.

Officers' Reports Given at W. M. S. Meeting on April 1

On April 1 the missionary society met in regular session, and in the absence of the president, Mrs. S. H. Adams, Mrs. R. P. Burks presided. For the devotional she read the 91st Psalm. Monthly reports were given by all officers present.

April 8 was a mission study program. The delegates to the Plainview conference, Mrs. J. E. Merrill and Mrs. L. D. Johnson, gave splendid reports of this meeting.

On Friday of this week several ladies from the Slaton society will attend an all-day district conference at Ralls. —Press Reporter.

Members W. T. C. C.

In a report published in The Slatonite last Tuesday, giving a list of new and renewal memberships in the West Texas Chamber of Commerce, the firm names of Slaton Motor Company, Slaton Hardware Company, and Slaton Wholesale Grocer Company were unintentionally omitted, purely due to error. These firms renewed their memberships last week when the membership campaign was conducted here by Messrs. Whitehead and Campbell, and should have been included in our published list Tuesday. We regret the error.

INSPECTOR HERE.

R. C. Reagan, standardization superintendent, with the state fire insurance commission was here late last week checking over water hydrants and other connections of the city water department. Mr. Reagan reported that he found everything in first class condition, and measuring up to standard.

OFFICIAL VISITS HERE.

F. A. Lehman, general manager of the eastern lines of the Santa Fe, whose headquarters are in Amarillo, was here for a short time Tuesday afternoon, his special car being pulled by the afternoon northbound passenger. Mr. Lehman was formerly of Amarillo, and was general manager of the lines of the P. & S. F. Ry.

Mrs. Fred Maxey and sons, Wilson and Chester, spent several days last week visiting with Mrs. Maxey's sister and family in Borger, returning to Slaton Sunday evening.

Wholesale Grocery Will Open Branch House at Lamesa

A branch house of the Slaton Wholesale Grocer Company will be opened at Lamesa within the next few days, according to W. B. Hestand, president of the firm, who is manager of the company's house here. Mr. Hestand indicated that with the establishment of a wholesale house at Lamesa, the company is beginning a program of expansion.

Truman Campbell, of Sulphur Springs, who was here late last week in conference with Mr. Hestand, will manage the new wholesale grocery establishment, it was stated. Mr. Campbell and wife are now making preparations to move to Lamesa. Upon their arrival, Hestand said, the new business will be set into operation. Mrs. Campbell is the daughter of Mr. and Mrs. R. L. Tate, of Slaton.

"My Home Town" Contest Speaker Chosen on Wed.

John Rayburn, Slaton High School sophomore, who is a son of Rev. and Mrs. Rayburn, was chosen Wednesday afternoon as Slaton's "My Home Town" speaker to represent this city in the contest which will be held at the district West Texas Chamber of Commerce convention in Tahoka, April 24, and also at the organization's annual convention later on at El Paso.

Young Rayburn won first place in the local try-out held Wednesday afternoon at the city hall. There were nine contestants. Miss Cordia Grantham won second place and will be the alternate speaker. She would represent Slaton in the contests if Rayburn should be prevented from making the trips.

Judges of the contest Wednesday afternoon were, T. E. Roderick, H. H. Edmondson and C. E. Hicks, who compose the publicity committee of the Slaton Chamber of Commerce. The contest speaker will be sent to the two conventions by the Slaton Chamber, it is announced. Several valuable prizes are at stake for the winners of the speaking contests at Tahoka and El Paso.

Special Session of Legislature Called

Governor Dan Moody has called a special session of the Texas Legislature to convene April 22, according to a recent press dispatch, as follows:

AUSTIN.—Calling the 41st legislature to convene in special session on April 22 at noon, Governor Moody Tuesday in his proclamation set out three subjects of legislation for submission. He reserved the right to present other matters from time to time during the session.

Mentioning necessity for legislation centralizing the prison system; carrying into effect an amendment to the constitution providing for a board of education, voted last November, and providing a merit system for the selection of subordinate employees of the state government, the governor did not touch on appropriations to pay expenses of the government during the next biennium.

MRS. CALDWELL'S ROOM ENTERTAINS AT JUNIOR HIGH

On Thursday, April 4th, Mrs. Caldwell's room at Junior High entertained their mothers and friends.

The pupils, who are organized into a club, had prepared a program closing with a very clever skit called, "The Doctor's Office."

After the meeting the visitors were invited into the Cafeteria, where refreshments consisting of sandwiches, punch and wafers were served.

Many of the mothers remained for the P. T. A. meeting which followed immediately after school.

A. C. Hanna and Jno. T. Lokey were business visitors in Floydada Wednesday. Mr. Hanna stated upon returning that his brother, W. C. Hanna, was elected as mayor of that city in an election held April 2.

New Palace Will Open Monday With Talkie Movies

What was formerly the Custer Theatre, a favorite playhouse for people of Slaton and community, will now be the New Palace, according to Oskar Korp, owner of the O. K. Circuit, and R. N. Smith, manager of the show, who are now completing arrangements to give Slaton the latest and most up-to-date talkie movies.

The opening talkie event, which is to be next Monday night, April 15, is expected to attract large crowds, it being the first talkie show to be given in Slaton. On this occasion Richard Dix will appear in "Redskin," the management stated.

The building which will house the New Palace, and which is owned by F. V. and R. T. Williams, has recently been completely overhauled, and the interior, including the ceiling, arranged especially for talking motion pictures. New, upholstered seats have been arranged, it was said, and all accommodations possible have been looked after.

When the New Palace opens, Slaton will have one of the best show-houses in West Texas, it is declared.

Creamery to be Ready to Start Operating Soon

In spite of delays in receiving shipments of refrigeration equipment and new machinery this week, Slaton's new creamery may be ready to start operating by late next week, it is said by W. M. Randle, manager of the creamery, who arrived here last week from his former home in Oklahoma City.

The new equipment was expected to arrive early this week, but up to Thursday it had not reached Slaton. Its arrival was expected momentarily, however, Mr. Randle said. Practically a week's time will be required to install the equipment in this shipment.

Plans are being made to have a big opening day as soon as a definite announcement can be arranged, Mr. Randle stated. The main thing to be desired is cream in large quantities, he declared, and it is hoped to have plenty of cream in the plant on its opening day to give complete demonstrations in butter making and all phases of the plant's operation. The Red River Creameries, Inc., will own and operate the creamery, and will purchase cream and eggs in as large volume as they can be secured, it is announced by Mr. Randle.

Box Supper at McClung School Tuesday Night

A box supper will be held at the McClung school house Tuesday night, April 16, it was announced this week by M. G. Miller, principal of the McClung school. Receipts from the supper will be given to the school and singing school funds.

Everyone who can attend this affair is urged to do so. An enjoyable time is assured.

The McClung school, one of the most progressive rural schools in this section, won the all-round championship of the county for rural schools at the recent interscholastic meet at Lubbock; this school has the backing of a strong P. T. A. organization, and in that community exists the best 4-H club of the county, according to a recent statement of the county home demonstration agent.

In speaking of the school's recent winnings at the interscholastic meet, Principal Miller stated that this was the first time McClung school had ever entered the annual contests, and he was highly elated over the outcome.

CAR BURNS.

While parked on Third street, near the intersection of Lynn last Sunday night, a light closed car, belonging to R. T. Williams, was completely destroyed by fire. Origin of the fire determined.

SLATON TRACK TEAM WILL GO TO AMARILLO

High School Athletes Will Compete in Big Meet

The Slaton High School track and field team will compete Saturday in the Panhandle-Plains meet to be held at Amarillo, conducted by the Amarillo High School. Nearly 20 teams have entered the meet, according to advices from Amarillo, and the Slaton entries expect to have some hard competition, but hope to make a good showing, it is declared. The team recently gave the Lubbock High Westerners close competition in the Lubbock County meet.

Slaton entries in the Amarillo meet will include: high hurdles, Ardie Nowell, Otis Cannon, Cecil Austin; 100 yd. dash, Cecil Austin; 880 yd. run, Demp Cannon; 220 low hurdles, Cecil Austin, Ardie Nowell, Otis Cannon; 440 yd. dash, Cecil Scott; 220 yd. dash Otis Cannon, Cecil Austin; mile run, John Simmons, Jim Smith, Herman Lemmons; shot put, Raymond Dunn, Irvin Reed; discus throw, Raymond Dunn; high jump, Cecil Scott, Ardie Nowell; broad jump, Cecil Austin, Ardie Nowell; javelin throw, Cecil Austin, Otis Cannon; mile relay, Ardie Nowell, John Simmons, Cecil Scott and Otis Cannon.

Part of the team was expected to leave for Amarillo late Thursday afternoon, going in cars. Others will go by train on Friday. Coach Paul W. Wright will accompany the lads to the meet and will be in charge of them during their trip and contests.

Express Business For March Better Than in February

Express receipts in Slaton for March, 1929, reached a total of \$1,440.86, an increase of \$391.98 over the total for February, and a decrease of \$44.06 as compared with March, 1928, according to figures furnished this week to the Retail Merchants' Association and the Slaton Chamber of Commerce by G. Y. Reed, of Fort Worth, superintendent of the Railway Express Agency in this territory.

Mr. Reed declared he hoped Slaton business men would divert additional business to his company immediately so that it would not be necessary for the collection and delivery service to be withdrawn in Slaton. The average minimum monthly requirement, if the service is kept in force, is \$2,000, approximately.

Pearce Barry, of Brownwood, brother of Mrs. D. E. Kemp, is visiting here in the home of his sister.

BROTHERS BATTLE BUT WORK TOGETHER.

A unique battle was staged here Wednesday between two brothers. One of them won, of course, and the other didn't, though the loser put up a game fight, giving his competitor a close "run for his money".

The brothers are John, 16, and Robert, 15, sons of Rev. and Mrs. James Rayburn. They are sophomores in Slaton high school, and the battle mentioned was a speaking contest, when the Slaton Chamber of Commerce chose a "My Home Town" speaker to represent this city at the West Texas Chamber of Commerce district convention to be held at Tahoka soon.

There were several entries in the contest and John won, though he had some keen competition, the judges stated. John and Robert Rayburn are brothers who eat together, together, study together, liver daily, They...

GUIDEPOSTS TO Health and Happiness

By Bernarr Macfadden

Bernarr Macfadden

SELECTING A WIFE.

Young men like to think that they select their wives; it caters to their vanity. But actually, it is often the wives who do the selecting. For example: A girl decides she wants a certain chap for her husband—and she sets out to get him. He may be willing, or he may not, but girls have a way of knowing how to win over the reluctant male, and in the end he usually succumbs.

But there are young men who really do select their wives, and it is to them that this little talk is directed.

There are many standards of course by which the ideal wife can be measured; tastes vary. But there are also certain innate qualities that a girl must possess in order to be a good wife to any man. And these are among them:

First of all, she must possess a splendidly vigorous body. The more vital she is the better your chance for marital happiness.

She should be a natural, wholesome, vivacious girl, who will be honest and above-board in all her dealings with you. The painted, sexy little vamp is not the one to chose for your life partner; she is usually a "fair-weather" friend.

She should love you for what you are and not for what you have.

She should have a background of wholesome family life in which she has learned to respect the rights of others, along with unselfishness and loyalty. And she must have reverence for its divine associations.

"Handsome is as handsome does," is a trite old saying, but like many old sayings it has its foundation in truth. Beautifully molded features while pleasant to look upon, are not all-important because the implacable march of Time changes them. But a beautifully molded character lasts as long as the spirit is in the body. And a character can be called beautiful that does not count among its dearest possessions a fine set of moral principles.

In choosing your wife, it must be remembered that you are also choosing the mother of your children, and unfortunately this is not always given enough consideration. Your wife should be fitted to bring into the world children of whom you can be proud. They should be a living, lusty, glowing tribute to your love. Scrawny, spindle-legged, knock-kneed, bow-legged children are anything but this.

But even though you agree heartily to this advice—watch out. Many a bright young man has said: "Oh, I'm just killing a little time. I have no serious intentions." But how about the girl's intentions? She may be serious and if she does not measure up to your ideals, you are in danger.

Sometimes it is painful in the extreme to break off an association of this kind; like a painful surgical operation. But if you do not break it off now, it will break you up later—when your hopes and dreams of a blissful married life have gone to pieces on the rocks of disillusion.

Picture Adds to Screen History

A new chapter has been written in the history of the motion picture. A new wonder has been revealed. "Red-skin," the new Richard Dix epic of the West, which opens for a two day run Monday at the New Palace theatre, marks an amazingly wonderful step forward.

Beautiful scenic backgrounds are revealed in all their true color and beauty. The hills and valleys of the Indian country are reproduced for the screen just as the eyes sees them in nature. And the powerfully gripping story, true to Indian traditions and customs, unfolds in this native setting.

A master cast enacts this drama. Richard Dix, who made such a tremendous success of his picturization of "The Vanishing American," turns his thoughts to the serious drama again and records a new masterpiece worthy of place with his previous enduring epic.

More than 500 carloads of maize, kafir, and other sorghum grains have been shipped from Tahoka this season. One hundred cars are yet to be shipped. A car load of heads consists of about 20 tons, and brings about \$17.00 per ton.

Although having an adequate water supply at the present time Childress is preparing for the future by purchasing a tract of 280 acres of land at a price of \$16,000 to be used in drilling water wells. A dam may be built later to make a lake.

SOUND ENGINEERING SAVES THOUSANDS

The soundness and thoroughness of the work of Willys-Overland engineers is well illustrated in the history of the Whippet since its introduction nearly three years ago.

When this car was first announced in June of 1926, it set a trend in car design which has since that time been followed by practically every motor car manufacturer. While both the chassis and bodies of the then new Whippet set entirely new standards, it was the motor particularly which departed radically from the accepted design and engineering practice followed up to that time. The high speed, high compression Whippet motor with its exceptionally high horsepower for the bore and stroke employed, permitting of exceedingly economical consumption of gasoline and oil, and capable of sustained high speed under all road conditions, readily won it a leading position in American motordom.

Since the first Whippet was introduced two other chassis have followed. While these have incorporated a number of changes and refinements in both the engine and power line design, including the transmission and rear axle, fundamentally there have been no major changes. The new Superior Whippet still follow these basic principles. The new Whippet Four engine, with a longer stroke and increased compression ratio, shows an increased power development of 20 per cent at 3200 R. P. M. and also has a higher top speed than its predecessor.

With no necessity of making radical changes in the design of the motor or power line, Willys-Overland engineers were able to save tens of thousands of dollars in the cost of tools and dies and other manufacturing equipment which usually are necessary with the introduction of a new model and thus permit, at no increase in the cost to the purchaser, the use of larger and finer bodies with many high priced car features. The new "Finger-Tip Control" found on the Superior Whippets is another example of how Willys-Overland engineers are again the first to introduce a new feature which undoubtedly will be adopted by other companies.

How to Raise Poultry
By Dr. L. D. LeGear, V. S.
St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

**ARTICLE VI
AS YOU FEED SO
SHALL THEY LAY**

Records Show Egg Production Often Doubled or Trebled by the Addition of One Simple Element to the Feed—Extra Profits from Correct Feeding More Than Offset the Slight Additional Cost.

Editor's Note—This is another story in a series of 52 stories on poultry raising written by the well known national poultry authority, Dr. L. D. LeGear, V. S., of St. Louis. The entire series will appear in this paper. Our readers are urged to read them carefully and elip them out for future reference.

From somewhere way back in my third reader days, I recall the story of a miser who tried to feed his horse shavings. It would save the price of hay, he reasoned, and if the change was made gradually the beast would never know the difference. Maybe the horse was fooled, but Nature most certainly was not. Long before the diet got to be all shavings the poor old horse gave up the ghost.

As I observe the way a great many people feed their chickens, I am often reminded of that story. I don't mean they are stingy, but their lack of knowledge about feeding is just as great. They are expecting the impossible and wonder greatly why they are so consistently disappointed.

The first thing that must be thoroughly understood is that from the hen's point of view egg laying is a secondary matter. She eats first of all to build up and maintain her own body. If, after enough has been eaten for that purpose, she can be persuaded to eat still more of the right kind of food correctly proportioned, she will lay eggs. That's all there is to the theory of scientific poultry feeding.

The next essential fact to be mastered is that different kinds of feeds produce widely different results. Grains furnish, for the most part, substances called carbohydrates which are transformed into fat for the fowl's body and albumen or egg whites. Other substances, known as proteins are usually fed in the form of meat scraps, milk or tankage. There are some proteins in grains but not enough for the hen's body and eggs too.

For the egg shells and bones of the fowl; minerals are required, calcium carbonate being the principal one. For that purpose, crushed oyster shell or limestone is kept before the fowls at all times.

A certain amount of green food is also required. It helps prevent digestive disorders and contains the two valuable vitamins, A and D, so essential to the proper assimilation of other food. Without vitamin D, for example, the minerals in the feed cannot be made over into bone and egg shell.

Once it is clearly understood that each different kind of feed has its own individual job to do, the very term, "balanced ration," ceases to sound quite so much like a foreign language. It becomes plain that the ration must consist of just so much material containing carbohydrates and a proportionate amount containing proteins.

An example of what I consider a well balanced ration is the one given below, which I have used successfully for a number of years. For the sake of those not familiar with this method of feeding, I shall explain that mashes are customarily put in hoppers and kept constantly before the hens at all times. The grains are preferably fed by hand with the feedings far enough apart so the hens will eat plenty of mash in between times. The grains are called scratch feeds, by the way, because they are usually buried in deep litter. That makes the hens have to scratch it out, thus getting much needed exercise.

A Balanced Poultry Ration.

- Scratch Feed.**
100 lbs. yellow corn.
100 lbs. wheat or heavy oats.
Mash Feed
100 lbs. wheat bran.
100 lbs. middlings.
100 lbs. yellow corn meal.
50 lbs. ground oats.
100 lbs. meat scraps.
5 lbs. common salt.

Plenty of seasonable green stuff should accompany this ration. Grit, charcoal and oyster shell should be kept before the hens at all times. And water! Yes, of course. Eggs are 65 per cent water and a plentiful supply of fresh, clean water should always be on hand to supply that requirement. It is also essential for the health of the flock.

The feeding of a balanced ration will work wonders. There are plenty of examples of flocks that were fed all grain rations with only fair results, but which doubled or even trebled their output as soon as a good mash with the necessary protein element was added. It is not enough, however, just to feed a 50-50 mash and scratch feed ration all the time. The successful poultry man will study his flock. He will know whether they are being forced and producing beyond their normal capacity, or whether they are getting too fat and lazy so they are not laying as much as they should. If the former, he will cut down on the mash and feed more grain. If the latter, he will cut down on the grain and increase the mash to make birds consume more protein.

Note—I will gladly answer questions about any phase of poultry feeding which may be addressed to me in care of the editor of this newspaper.

(Copyright, 1929

CITATION BY PUBLICATION.

THE STATE OF TEXAS,
To the Sheriff or any Constable of Lubbock County—Greeting:

YOU ARE HEREBY COMMANDED to summon Ted W. Johnston (or Johnson) and A. J. McCausland, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the 72nd District Court of Lubbock County, to be held at the Court House thereof, in Lubbock, Texas, on the fourth Monday in May, A. D. 1929, the same being the 27th day of May, A. D. 1929, then and there to answer a petition filed in said Court on the 1st day of April, A. D. 1929, in a suit, numbered on the docket of said Court No. 3662, wherein Thurber Brick Company, a Texas corporation, is plaintiff, and Ted W. Johnston (or Johnson) and A. J. McCausland, are Defendants, and said petition alleging that the City of Slaton, Texas, a municipal corporation, on November 17, 1925, by ordinance, after holding election for the purpose, adopted and accepted the benefits of the State Paving Lien Law, being now Chap. 9, Title 28 of the Texas 1925 code; and thereafter L. H. Howard, Contractor, under contract with said city, improved Lot 7, Blk. 55, South Slaton Addition to Slaton, Texas, owned by defendants, or one of them, by paving Tenth St., on which said lot abutts, in accordance with the plans and specifications for said improvement on file in the office of the City Secretary of Slaton, Texas, and made a part of plaintiff's petition, which improvement was accepted by said city on July 20, 1927, and on said date said city, acting through its mayor and secretary, executed and delivered to L. H. Howard Certificate of Special Assessment No. 469 issued by said city against Ted W. Johnston (or Johnson) and against said Lot 7, Blk. 55, South Slaton Addition to Slaton, Texas, for said paving. That all proceedings with reference to making said improvement and assessment and fixing the lien against said property and claim of personal

liability were had in compliance with the law and charter of said city, and prior to issuance of said certificate, whereby L. H. Howard acquired lawful lien against said property and personal obligation against the owner thereof for the payment of the cost of said improvement.

L. H. Howard sold and assigned said certificate to plaintiff, who is now the owner and holder thereof and entitled to collect same.

There is owing unpaid on said certificate \$318.17 principal, 8% interest on said sum from July 20, 1927, interest on past due interest from its annual maturity at said rate, reasonable attorney's fees and all costs of collection, all as provided for in said certificate, which certificate is payable in six installments. Installment maturing July 20, 1927, in sum of \$30.37, and installment due July 20, 1928, for \$57.56, were not paid, after demand, and plaintiff has exercised its right in said certificate given to default, and because of such default it has been necessary to place said obligation in hands of attorney for collection and suit, and reasonable attorney's fee of \$150.00 has accrued, being reasonable fee, for which defendant is liable.

That A. J. McCausland is claiming some sort of interest in said property, which interest if any is inferior and subordinate to plaintiff's lien and debt, and plaintiff is entitled to foreclosure of its lien on said property against both defendants.

Plaintiff prays for judgment for its debt as pleaded, for attorney's fees and for costs, against Defendant Ted W. Johnston (or Johnson) and foreclosure of its liens on said property against all defendants, and for order of sale and sale of said property and application of the proceeds of sale as the law directs, and for execution for any balance remaining unpaid, and general and special relief, in law and equity.

Herein Fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Lubbock, Texas, this the 1st day of April, A. D. 1929.

FLORA ATCHISON, Clerk,
(SEAL) District Court, Lubbock Co., Texas.
By Olive Fluke, Deputy.

Ten percent of the farmers in Dickens county took advantage of the poultry and dairy short course conducted by E. N. Holmgreen and E. R. Eudaly at Spur, and are putting into practice the knowledge gained. Many farmers have taken up the idea of diversification in farming around Spur.

CATCHING'S DRUG STORE

"AT YOUR SERVICE"

*You've had him long enough
-NOW I WANT HIM!*

THE girl suddenly faced her hostess. "I can't stand it any longer," she cried—"all this sneaking and lying and deception. Dan and I love each other. He's been your husband long enough. Now I want him!"

The older woman, deathly pale, turned to her husband.

"She's right," he said. "There's no use trying to hide it any longer. You are my wife, Jean, and I love you as a companion. But I love Marie—the other way."

So this was her reward for sacrificing the best years of her life to her home and family. First her son, then her daughter—cager for new sensations—were swept headlong to disaster by the modern tide of jazz. And now her husband yields to the

siren lure of a girl whose kisses must prove as deadly as a viper's sting! What had she, his wife, to offer against the lure of soft, red lips, against the seductiveness and passion of youth? What should she do?

This woman's story is the most sensational real-life revelation ever published in True Story Magazine. Critics say that if her experience were published in novel form, it would be a best seller over night. Unquestionably, her amazing disclosure will create widespread discussion. Don't fail to read "Inside the Soul of One Woman" in May True Story Magazine. Get it at your newsstand—today.

Partial Contents for May

THE FIRST STATE BANK

This Week

By Arthur Brisbane

HOOVER'S HOME ECONOMY.
89 YEARS, 89 MILLION.
KAHN LOSES TITTA RUFFO.
FOCH IS DEAD.

President Hoover, believing that economy should begin at home, will put the Presidential yacht Mayflower out of commission. The President will do his yachting in a rowboat when fishing. The country will save \$300,000 a year, and 148 sailors that have wasted their time on the Mayflower will be assigned to new naval vessels.

The Mayflower has been added to the cost of maintaining a President ever since the days of Theodore Roosevelt, and President Hoover's determination to discontinue a thoroughly undemocratic arrangement will be generally appreciated.

The people would not grudge a good President any comfort or luxury. But a \$300,000 yacht tacked on to a \$75,000 salary seems fantastic.

George F. Baker, dean of American bankers, ruler of the gigantic First National of New York, which is one of his minor possessions, has celebrated his eighty-ninth birthday.

For every year that he has lived, Mr. Baker has given at least a million dollars to education and other good purposes.

Everybody wishes him many more years to get and give.

Since the people do not yet know enough to develop their own resources and supply what they need, it is fortunate that they have such men as Baker, Rockefeller and others to show them how.

Otto H. Kahn, protector of grand opera, learns that his enemy is the talking moving picture. That must surprise him as much as it surprised the seventy-foot dinosaurs when they ate them.

Metro-Goldwyn-Mayer have taken Titta Ruffo from Mr. Kahn's Metropolitan Opera to sing for the movies, and it was no simple "as taking candy from a child."

Mr. Ruffo sings ten times before a recording machine and is paid \$350,000, or \$35,000 for each short singing period.

Even the Metropolitan's diamond horseshoe cannot compete with that.

Marshal Foch is dead. Farewell to a great warrior, a true man. He has gone and taken his wages—a name that will live in history and the eternal gratitude of his countrymen.

In command of all the allied armies, he had 10,000,000 men under his command, by far the greatest army gathered together since men first began wholesale killing.

And his motto, that every man should adopt, was: "THE OFFENSIVE ALWAYS."

Allons, "Let us go," was the last word uttered by Marshal Foch. It is the first word of the French national hymn that he heard so often, the hymn to which the Revolutionary soldiers marched from the south of France into Paris. "Allons enfants de la patrie," etc.

The last words of great men, piously collected, have little value. The great men probably did not know what they were saying. Mehr licht, "more light," were the last words of Goethe.

Frederick the Great's last words are supposed to be tete d'armee, "head of the army." He often spoke French in preference to German.

Pitt, whose genius kept Napoleon out of England, said as he died, "My country, how I leave thee." He was worried about the future.

What a man does while he lives is more important than what he says when he dies.

Unintentional Suicide

Many people are slowly poisoning themselves just as surely as if they drank iodine every morning for breakfast. They are daily absorbing the toxins, or poisons, created by accumulated waste matter in their congested digestive systems. Sooner or later disease will conquer their weakened bodies.

If you have dizzy spells, headaches, coated tongue, bad breath, insomnia, no appetite, bilious attacks or pains in the back and limbs, you are probably suffering from self poisoning caused by constipation. The surest and pleasantest relief for this condition is Herbine, the medicine which sets in the bottle today from

Red Haired Girls Athletically Turned

FORT WORTH.—Red haired girls are more athletically inclined than their sister blonds and brunettes. At least this is the experience of Mrs. Helen Walker Murphy, director of physical training for girls at Texas Christian University here.

"I cannot think of a single instance in which a red haired girl is not an all around good sport, and loves to play at games as hard as she can," Mrs. Murphy says. "They usually have a pretty good fighting spirit too."

A recent survey showed some 50 red haired students at T. C. U. Some of them enjoy being "sorrel-topped" and others think it is somewhat of a disadvantage.

"I think red hair is a disadvantage because it makes one conspicuous," says one student. Another observes: "I am satisfied with my red hair, but it is hard to keep freckles off and to get colors to match my complexion and hair."

"More girls seem to like red hair than do men," one girl complains.

About a quick temper going with red hair, one who possesses it says: "Do not know that a red headed person has more temper than anyone else, but they have always been told that they have, so they decide that because of the color of their hair they have a special privilege to display temper."

"Ordinarily red headed people are rather individual," says Mrs. Sadie Beckham, supervisor of women at T. C. U. "Some of the red-heads are the sweetest girls I have."

DEVELOPING THE CHICK.

The second week will see the chicks starting to feather out and getting huskier and stronger every day. The feed ration should be continued as instructed last week. The circle around the hover may be eliminated by the end of the second week and the temperature let down to 85 degrees.

Several cautions should be mentioned at this time. Be sure not to frighten the chicks or to allow children or pets a chance to do it. Frightened chicks trample each other to death.

Be sure to keep the chicks of different ages separated. The chief reason for this is that with two different ages of chicks together, the older chicks crowd the younger ones from the feed and drink with the result the younger ones become stunted and lose their chance of ever reaching complete and normal development.

Temperatures must be right and must be evenly maintained, or a lot of trouble can result. Be sure the chicks don't bunch on one side of the hover. They are comfortable and right when they are evenly distributed and form a sleeping ring within a few inches of the outer edge of the hover. Too much heat will drive them to the corners where they will suffocate and trample each other to death.

Too little heat will cause them to "pile" in the warmest spot, in addition to inducing diarrhea, pneumonia, etc.

If the chicks cannot be put out in the sunshine within the first two or three weeks, leg weakness must be carefully guarded against. Cod liver oil fed in the proportion of 1 quart to 100 pounds of mash will help very largely in making up for lack of sunshine. Feeding eggs, especially the yolks, with the mash will help. Exposing the chicks to sunlight through ordinary glass is not enough, as the glass keeps out the essential health-giving rays.

Coccidiosis should be watched for by the end of the second week, and due to its very serious and highly infectious nature should be guarded against by all possible means. The best preventative is strictest sanitation about all the chicks' quarters. Cleaning the floor of the brooder house about the hover daily as long as the chicks are droopy, emaciated and sick, if they once become infected, is about the best that can be done, and a temporary all-milk ration helps.

The chicks at this age are normally peppy and full of lots of "go". As in the case with humans, normal good care and common sense are the great essentials, and with scrupulous sanitation and considerate care you stand every chance of bringing the little fellows through the first few weeks at least in fine condition.

Some people wonder what the Mormon wedding ceremony is like. It's something like this:

Preacher (to groom): "Do you take these women to be your lawfully wedded wives?"

Groom: "I do."

Preacher (to brides): "Do you take this man to be your lawfully wedded husband?"

Brides: "We do."

Preacher: "Some of you girls at the back will have to speak louder if you want to be included in this."—Contributed.

Some of the recent charities of the Moran Delphian Club have been the buying of a memorial window in the new Methodist church for \$75.00. The club started the piano fund for the high school with a contribution of \$60.00. A window in the new Christian church for \$75.00 was also purchased.

Santa Anna, after completing a new school building and a modern city hall has now started excavation preliminary to paving five blocks of the towns main streets. Plans are being considered for additional paving to be done upon the completion of these five blocks.

Fort Stockton is experiencing lively building boom. The new opera house when completed and furnished will represent an expenditure of \$75,000. Brick business houses costing \$20,000 are being built and plans for more made. Many substantial residences are going up.

Notes, News and Nonsense.

While the April winds are blowing And the sands about flit Let us put some big thing over For we're surely full of grit.

Paul Wilson is spending the week at San Angelo and other points.

Miss Mary Katherine Toliver, daughter of Mr. and Mrs. B. A. Toliver, underwent an operation for acute appendicitis Saturday evening in Abilene.

Rev. B. G. Holloway, who has been in California for some days, will fill his pulpit at the Baptist church Sunday. He is expected to reach Slaton Saturday noon.

Miss Mary Foley, who is attending the Texas Tech, spent the week end with Miss Ruby Teague, of this city.

The Philathea class of the Baptist Sunday school will meet today (Friday) with Mrs. H. S. Riggs, 235 South 12th St., at 3 p. m.

It was during the impaneling of a jury the following colloquy occurred: "You are a property-holder?" "Yes, your honor." "Married or single?" "Have been married for five years, your honor." "Have you formed or expressed any opinion?" "Not for five years, your honor."—Journal of the American Medical Association.

Mrs. Wylie Fowler returned home Wednesday, after a visit of some weeks with relatives and friends at Decatur and other points.

Born, to Mr. and Mrs. D. E. Penninger, a baby girl.

Mrs. Ben Shelton has returned from Grandview where she has been at the bedside of her father.

Mrs. Andy Caldwell was a Lubbock visitor Wednesday.

S. L. Forrest and family, of Lamesa, visited his parents, Mr. and Mrs. S. S. Forrest, Sunday, while enroute to the Lumbermen's Convention at Waco.

Dr. A. R. Hill went to Lubbock Wednesday.

Earl Van Duren, of Van Alstyne, visited friends in Slaton Wednesday when en route to Roswell, New Mexico and other points.

"Friends," apologized the minister, "I have unintentionally left my notes at home. I will make a few extemporaneous remarks, trusting to the Lord for guidance. But to-night I shall come better prepared."

Robert Siler, of Plainview, and Harry McDonald, who is attending S. M. U., at Dallas, visited at the High School Wednesday afternoon.

Mrs. J. S. Lanham was called to Austin Saturday on account of the illness of her son, James, a student in Texas U., who was operated on for

WALTER P. CHRYSLER'S TRAFFIC TALKS

WHY TRAFFIC IS IMPORTANT

The regulation and control of traffic has gradually forced itself to the front of the pressing business folder of every Chamber of Commerce in the United States. When a few statistics are studied the reason for this is most evident. It has been estimated that there are more than 22,000,000 cars in commission in the United States today. In 1915 there were 2,000,000. During the fourteen intervening years the population of the country has increased 2 per cent, and the registration of automobiles has increased 1,185 per cent. This does not mean that 20,000,000 people own cars for, in many cases, it is also estimated that 3,000,000 families own two cars. Some own three or more. It does mean that most of the 31,000,000 wage-earners in the United States have a car of some sort. In 1915 there was one car to every 60 people. Today there is an average of one car to every 6 persons.

So closely is the automobile tied up with industry that it is impossible to make traffic regulations without thoroughly investigating the field beforehand. Practically every citizen is involved from some angle. Whether or not you are on the police board, or hold a civic job, the traffic question touches you and is part of your own problem. Your viewpoint is needed. Ally yourself with some organization which is helping or could help in the gathering of statistics and the solution of traffic problems in your community. If you belong to a club your yearly program should contain provisions for making at least one traffic survey in your town. In small communities where it might be difficult for a civic organization to get an appropriation for a study of this kind, a club survey would be progressive and very much worth while effort.

acute appendicitis. Mrs. S. A. Peavy is substituting for Mrs. Lanham.

E. E. Wilson went to Plainview on business Tuesday.

C. C. Wicker is in the Lubbock Sanitarium for treatment.

The funeral of Hubert Rucker, aged 23, who lived in the McClung community, was held at the Baptist church here, the Rev. Clinton officiating.

M. B. Herring, of Abilene, was a business visitor to Slaton Wednesday.

The outlook for dairying in Haskell County is better now than ever before due to the various organizations in several towns boosting the establishment of a creamery. Farmers in that section realize that the cow is hard to replace on the farm when it comes to an income the year around.

Two well known west Texas women will be on the program of the Oil Belt District convention of the West Texas Chamber of Commerce which will be held on April 18. They are Lexie Dean Robertson, poetess of Rising Star, and Christine Carter, vocalist of Breckenridge.

Born, to Mr. and Mrs. T. C. Dodd, March 25, a baby boy, named Richard Carlton. Mrs. Dodd was formerly Miss Eva Landers, of Slaton, and was a member of the graduating class of 1926.

Mrs. W. A. Miller and little son, W. A., Jr., of Trinidad, Colo., were in Slaton Saturday afternoon visiting friends. They were enroute to Coleman, where they will visit Mrs. Miller's parents.

Born, to Mr. and Mrs. Carroll Wilson, at Thorndale, Texas, Tuesday, April 9, a girl, named Suzanne. Mr. and Mrs. Wilson formerly made their home in Slaton. He is a brother of L. A. Wilson, secretary of the Slaton Chamber of Commerce.

Mrs. A. A. Hillyer and children, Melba and Wallace Mac, will spend this week end in Plainview with their daughter and sister, Erica, who is attending a business college in that city.

Mrs. M. W. King and daughter, Miss Gertrude, were Lubbock visitors Tuesday afternoon.

C. E. Hicks was a business visitor in Lubbock Tuesday.

BLUE BONNET CLUB.

The Blue Bonnet Club met at the home of Mrs. John T. Lokey, Wednesday afternoon, with Mrs. R. L. Tate as hostess.

A very pleasant business meeting and social hour was enjoyed by all.

A lovely two-course luncheon was served to twenty members and one guest, Mrs. Jerry Leverett.

The next meeting will be April 24, at the Club House.

All members are urged to be present. After the business meeting, the afternoon will be spent playing "42".
Reporter.

Frank: "Is it true that you are engaged to three other men besides me?"

Frances: "Why?"

Frank: "Well, I was thinking the four of us might raise enough by clubbing together to buy you an engagement ring."

"Your fiance is a Vassar girl, I believe?"

"Yes."

"Then I suppose she is familiar with Browning?"

"I beg your pardon. The true Vassar girl is never familiar with anybody."

Every Woman Knows

Get a bottle of Liquid Borax and keep it handy in your medicine cabinet. Sold by City Drug Store.

EARS AND NOSE PLAY
IMPORTANT ROLE IN
OPERATION OF PLANT

Ears and nose play as important a role in the operation of an electric plant as do the eyes, according to K. R. Quinn, engineer of the El Paso Electric Company. In an article in the company's publication, "Cactus Points," he explains how a trained ear and a delicate olfactory sense aid the plant engineer.

"The engineer depends as much on sound as on sight," he said. "Each piece of rotating machinery has its own peculiar 'tune,' any variation of which is quickly noted and investigated. For instance: He can readily detect by the change in sound the slowing down of a turbine, even though the variation may be only a few revolutions per minute."

"This is best illustrated by the change in rotative speed caused by a drop in steam pressure; when the machine is fully loaded the turbine in slowing down makes an unmistakably different sound, usually characterized as 'groaning' by the operators. The sound of a machine will tell the engineer when it is running at normal speed quite as well as any instrument could."

"The turbine bearings are fully enclosed so that it is impossible to see them when the turbine is running as it is impossible to see the bearings of an automobile when in operation. By means of a sounding stick or metal rod placed against the outer shell of the bearing, however, the experienced engineer can 'listen in' at the other end of the stick and tell the exact operating condition of the bearing."

"By the change in sound, it is possible to tell when an oil-fired boiler is smoking, that is when part of the combustible gases are going up the stack; thus we hear a boiler smoke even though we may be where we cannot see the stacks."

"The engineer makes a detailed inspection that enables him to know the true condition of equipment at all times. He can hear, feel or smell that something is wrong but he must use his eyes to discover and remedy the cause. Careful observation also averts many serious difficulties. For instance, recently one of the engineers noticed that a small shaft on the turbine governor was not turning at normal speed. This he could know only from having seen it rotate many times and by having its normal rotative speed so firmly fixed in his mind that the change was instantly noticeable. This was reported, a careful investigation was made and the trouble found and remedied."

"Burning insulations, overheated motor windings, plant fires, etc., can all be detected by their own peculiar odor. This sense of smell is less important possibly than the other three mentioned, but without it the engineer would be badly handicapped."

HIGHER SPEED IN SECOND GEAR
SHOWN IN NEW WHIPPETS.

With almost universal adoption of traffic signals, even in the smaller cities, automobile manufacturers year after year have given increasing study to building cars to meet the present congested driving conditions. This has resulted in the development of engines to provide speedier pick-up for fast get-away in traffic.

By merely watching the performance of various automobiles when the traffic lights at a street intersection switch from "red" to "green", one may readily note those cars having exceptional activity. Those cars with power plants permitting a faster get-away sweep far ahead of the cars employing a sluggish motor, and consequently their drivers are less bothered by heavy traffic conditions.

Among the first cars to meet this traffic condition was the original Whippet produced by the Willys-Overland company. These cars were noted for their high activity factor in heavy traffic and soon became recognized as the ideal type in the low priced field for town use.

An improvement in traffic performance over the original Whippet is found in the new Superior Whippet Fours and Sixes recently introduced by the Toledo manufacturer. In this day of congested traffic in cities, the majority of drivers seldom, if ever, resort to low speed from a standing start for a "get-away" in traffic. Usually, they resort to second speed,

Unintentional Suicide

Many people are slowly poisoning themselves just as surely as if they drank iodine every morning for breakfast. They are daily absorbing the toxins, or poisons, created by accumulated waste matter in their constipated digestive systems. Sooner or later disease will conquer their weakened bodies.

If you have dizzy spells, headaches, coated tongue, bad breath, insomnia, no appetite, bilious attacks or pains in the back and limbs, you are probably suffering from self poisoning caused by constipation. The surest and pleasantest relief for this condition is *Herbine*, the vegetable cathartic which acts in the natural way. Get a bottle today from

City Drug Store.

and it is the cars with a fast second speed get-away that are the first away in traffic.

The new Whippets show unusual pick-up and get-away in a second speed—materially higher than in former models. This gives the driver of the new Whippet a distinct advantage where a quick get-away carries the car far ahead of others and reduces the discomforts of heavy traffic to minimum.

Small Son: "What are diplomatic relations, father?"

Wise Parent: "There are no such people, my boy."

Badly
Run-Down

"Six years ago, I was very much run-down," says Mrs. Olyvia Right, of Lovett, Ga. "I did not sleep well, and was weak and restless. I dragged around the house with not enough strength to do my daily tasks. I worried a lot, and this disturbed state of mind reacted on my health. I had often read of Cardui, so I thought I would try it. I soon began to improve after I had taken Cardui for a while. It was astonishing how much I picked up. I slept better, my appetite improved, and that awful dragging-down feeling left me. I was so much better that I continued taking Cardui until I felt perfectly well. Cardui has been used by women for over 50 years. For sale by all druggists."

**Young Men and Women Who
Think Clearly the Greatest
Demand of American Business**

**Bankers Association President Gives the Five Essentials of
Sound Thinking in Business—Greater Opportunity
Than Ever Before for Young People With
Educational Training and Power
to Analyze Problems.**

By CRAIG B. HAZLEWOOD
President American Bankers Association

ONLY half a century ago Michael Pupin, a shepherd boy, guarded his flocks by night among the fields of Serbia. Thieves often lurked in the bordering cornfields awaiting an opportunity to make off with a part of the herd. Serbian boys were taught a method of signalling one another for warning and help. Each carried a knife with a long wooden handle which he would thrust deep into the ground and in case cattle thieves approached he would strike the wooden handle. The sound would be transmitted through the ground to other boys some distance away who could hear and interpret the message.

CRAIG B. HAZLEWOOD

"Why is it," Pupin asked his mother, "that we can signal this way? Why is it the sound can be heard through the ground, but not through the air? Why is it the signals can be heard in the pasture land so much better than in the plowed fields?" The boy's mother could not answer his questions, nor could the village teacher. However, having an eager mind and great determination, the boy decided to go to America, where he might win an education and find out the answers to these and other perplexing questions. Hundreds of other boys under the same

circumstances and with the same set of conditions merely accepted these things without once questioning them just because they had always done them that way.

The Land of Education and Success

So a penniless immigrant boy from Serbia at the age of fifteen landed in New York in 1874 and, years later, having worked his way through Columbia University, concentrated the wonder and simplicity of his mind upon the problem of sound, which had puzzled him as a shepherd boy. The results of his thinking—what he has accomplished for the long distance telephone and for radio communication by his inventions—are known the world over. "If during the past twenty-two years this company had been compelled to do without one invention of Michael Pupin," an official of the American Telephone and Telegraph Company once said, "and yet give the same service it is giving today it would have had to spend at least \$100,000,000 more than it has expended."

These inventions, in which millions of dollars of capital have been invested, were the result of the thinking of a mere country lad who had the simplicity to wonder, the determination to know and the power to apply what he learned.

Stimulating the imagination and thinking is the greatest purpose of education. What American business needs more than anything else is young men and women to think—individuals who are not mentally anchored to tradition, who do not merely appropriate other people's ideas, but who are hard, purposeful thinkers, independent and unprejudiced, with the ability to concentrate and strike straight for the heart of a problem.

Business Needs Folk Who Think

America has outstayed the work by its readiness in casting aside traditional viewpoints, disregarding traditional difficulties and pioneering new shortcut formulas in the realm of business. Business is undergoing epochal changes.

Business problems are crowding in upon us so rapidly that the executive knows not where to look for adequate help or relief. With the enormous increase in size and intricacy of business affairs the problems have become so complicated and the mass of information necessary to their solution so great that the "days are not long enough." The demand for managerial and executive ability is rushing ahead—the opportunity for young men and women who have the professional training and who develop genuine thinking power is greater than ever.

All business feels the same crying need for the men who see clearly and think conclusively. Wherever we look—manufacturing, wholesaling, retailing, banking, financing—new forces are at work. Vast movements are under way and executives are seeking light upon perplexing problems daily.

Let us consider briefly the five essentials of a sound thinker. If I were looking for a young man of exceptional promise I should hope, first, to find in him the simplicity to wonder. Every great advancement in business has been made by men who dared to wonder, who had the courage to inquire into present procedure and who had the audacity to ask whether something that had been done a certain way for a long time might not be wrong. Although the history of America's progress from its very discovery to the present time has shown the value of an inquiring mind, there is still an inevitable tendency in most men to accept in a docile manner the opinions, methods, supposed facts, procedures and processes of the past. With due reverence to the effort, the spirit, the accomplishments of the past, let us make it our rule that everything be looked at with the clear questioning mind of the scientist.

Business Requires an Open Mind

Second, among the essentials for sound thinking I would write down an open mind. We have mentioned freeing our minds from the influence of tradition. Let us think also without prejudice of personal feelings, desires or consequence. Let us seek only the truth. Mere surface reasoning must be discounted. Old "can'ts" and "don'ts" must be thrown into the discard. A man who has an open mind will do a great many things because he doesn't know they can't be done.

The third essential to sound thinking is knowledge—a thorough, comprehensive understanding of all the factors involved in a problem. It has been said that most problems answer themselves when the facts have been gathered. A well known student and teacher of business describes the method of attacking a problem as tearing it down, reassembling the problem and drawing the conclusion. There can be nothing but guess work or intuition unless the unknown quantities are discovered.

As a fourth essential sound thinking requires the capacity to generalize. How often we have seen men sweating and confused before a mass of details which they were utterly unable to classify and crystallize. We have the problem of sorting out the relevant, attaining a perspective and reaching a conclusion that can be defended against any attack. To certain minds this procedure comes naturally; to others training in the solution of complicated problems points the way out.

The Time for Action

Fifth among the essentials of sound thinking is the power to apply. A few individuals have minds that travel at random or in circles. Some have minds that even refuse to budge. But there are still others who naturally or through training have minds that can be directed straight through to the practical application of their thoughts. They refuse to compromise or to be thwarted in purpose before definite application of their ideas has been achieved.

It is possible, I believe, for young people to train themselves to an inquisitive attitude, an open mind and the ability to classify and interpret material step by step from the beginning of a problem to its final solution and application. Here, then, is the thought I would leave—the paramount need of business is sound thinking. Some may think I have overstated the case, have set too high a standard. They may feel that they are merely cogs in a machine. That, too, is a part of the problem. The only way to solve that is to find time and place in the day's work for thinking.

SCHOOL SAVINGS BANKING MOVEMENT REACHES IMPRESSIVE PROPORTIONS

Almost 14,000 of America's schools now have school savings banking plans in operation, and about four million pupils are learning systematic savings through this type of thrift, with deposits in excess of \$25,000,000, recent reports of the American Bankers Association's Savings Bank Division show. The schools included in the reports are attended by 4,500,325 pupils, of whom 3,950,237 are participants in the school savings banking plans as depositors. During the year these pupils received interest in the amount of \$947,510 on their deposits. The reports gathered by the association also show that there are 38 cities in the United States in which a full 100 per cent of the grammar school enrollment is participating in school savings banking. The figures covering high schools show that in 47 cities 100 per cent of the attendance in this class are school savers.

Congratulations

To The

O. K. Theatres

Another milestone in progress is visible in the reconstruction of the former "Custer" building, which has been completely remodeled and rebuilt, in order to give the People of Slaton and Community the finest and most perfect "Talking Picture Constructed Theatre in the entire Panhandle." While other theatres over the State are making various changes in order to handle sound, the New Palace, under the direction of O K Theatres, of which Oskar Korn is Directing Manager, has been assigned the only perfectly constructed theatre in the State perhaps, so far as sound is concerned. But this is a mere beginning. While the Vitaphone Process will deliver the sound, the machinery is of a far later type and is identically the same as was installed by Asher Bros. New Diverey Theatre in Chicago, also the Abrahams Strand and Great States Theatres of Chicago are now making this same modern installation which is known as the Movie-Phone System, a system far more capable in delivery than the older type of machines—and which was only selected by the O K Theatres after the most rigid investigation, for this New Palace at Slaton. The entire interior represents Spanish effect with old castle houses for relief and the designing and color schemes were accomplished by H. W. Rucker Decorating Co., and Theatre Specialist, of Chicago, making the entire interior a most harmonious atmospheric spectacle.

The seats are highly comfortable, and nothing has been left undone to give Slaton the finest theatre beyond a doubt in the entire West and Plains country.

The Theatre is to open Monday, April 15th, with Paramount's picture, "REDSKIN," featuring Richard Dix, which will be followed with a Pre-view Showing of Mary Pickford's 100% Talking Picture, which will receive the first showing in the State over the O K Theatres—and Slaton will be showing this picture on April 17-18-19, which is 14 days ahead of National Release date. These facts certainly put Slaton all in a class by itself, a credit to any city in the State, as well as to the promoter, Mr. Korn.

The Palace will be under the personal management of Mr. Robert Smith, who is a real showman and understands how to serve the public in his line of business.

The Slaton Slatonite

"Here Since 1911"

WALTER P. CHRYSLER'S TRAFFIC TALKS

A MOTOR LAW WITH TEETH

Massachusetts has devised a plan by which it is hoped the cause of safety will be greatly furthered. The state legislature has passed a law which makes it unlawful for a person to operate a faulty or defective motor vehicle. All persons violating such a law are liable to have their licenses revoked. The law is more than a mere enactment—it is being put into effect. A car in operation showing any defect to an officer, from a faulty light to a set of ancient brakes, immediately has a summons attached to it.

Editorial comment in newspapers in other states supports this measure. One publication even goes so far as to suggest that "it would be well for all motor vehicles to undergo thorough inspection before the state issues a license to operate the same, and any time thereafter that the owner is found driving around in a half-cocked machine the license should be revoked. This would eliminate a lot of useless accidents,

many of which could be avoided by car owners giving more attention to the condition of their machines before operating them."

Certainly some such legislation is inevitable on a nation-wide scale. While a very large percent of cars driven are kept in excellent repair, the small percent of owners who are negligent cause most of the accidents. Many unexplained accidents with the final verdict of, "I don't know just what happened," could have been avoided if safety had been the first consideration. An examination of the car made by a good mechanic can be made in half an hour, at small cost, body bolts tightened, steering gear inspected, and gas, oil, water, and water in batteries assured.

Every car sold in America today carries this warning for inspection and care. If the individual does not give it willingly to his motor vehicle it really seems as if he were going to be made to do so by law.

News Of Union

Mr. and Mrs. Boning, of San Angelo, are visiting their son, Rosser Boning.

Mrs. E. A. Dearing came home from the Lubbock Sanitarium Sunday. She is doing nicely.

Mrs. Bryan Jeter is also back from the sanitarium. She is spending a few days with her mother, Mrs. G. W. Price.

Mrs. Joe Heindige is rapidly improving in health.

Mr. McCombs was the Sunday visitor of Cecil and Bradford Ussery.

The Women's Home Demonstration club will meet with Mrs. R. M. Cade Thursday afternoon at 2:30 o'clock. All members are urged to be present.

Farmers of this community are busy planting sudan and corn. Gardens are also being planted.

A number of friends of this community attended the funeral of the young Mr. Rucker, who lived in the McClung community. Rev. J. T. Clinton preached the funeral. The bereaved ones have our sincere sympathy in their sorrow.

Mrs. Farrier, of Commerce, Texas, is visiting her sister, Mrs. E. A. Dearing.

Woodrow baseball team will play Union team Friday afternoon.

TO EAT WELL, MAKE A CANNING BUDGET

Canning budgets as guides to the busy farm housewife in planning her garden and canning work are coming into wider use every year, and are urged by home demonstration officials of the Extension Service. A large number of home demonstration clubs now include such a budget in

their year books, basing recommendations on the requirements of the protective diet which consists of milk, raw fruits or vegetables and leafy vegetables daily, and tomatoes or citrus fruit three times per week.

A canning budget for a family of five for four months, as worked out by the home demonstration agent of Knox county, provides for the following: 48 quarts tomatoes, 8 quarts carrots, 16 quarts beets, 32 quarts string beans, 8 quarts okra, 16 quarts kraut, 16 quarts soup mixture, 16 quarts corn, 16 quarts English peas, 32 quarts apples, 48 quarts peaches, 16 quarts pears, 16 quarts plums, 56 quarts blackberries, and 4 quarts fruit juices. In addition to this it is recommended that one pint of preserves and two glasses of jelly be allowed for each week.

"This budget," states Miss Loin Blair, food specialist in the Extension Service, "will vary for different sections of the state according to the number of months fresh vegetables can be gathered from the garden. In this case it provides sufficient canned fruits and vegetables to take care of an average family for four months when fresh stuff is obtainable only in stores. Then again, some families will particularly relish certain of these canned foods more than others and may therefore wish to increase the allowance for these products. But it should be borne in mind that every family should provide a variety of canned foods at least this large. Under no circumstances should canning be confined to a small group of vegetables and fruits, for healthful eating and living demands that the diet be varied."

The cashier of a small movie house is selling tickets as a pal looks on. A customer buys a quarter ducat, lays down a half dollar and walks away leaving his change. "Does that often happen?" asks the cashier's friend. "Very often," replies the ticket seller. "What do you do in a case like that?" "Oh," says the man in the wicket, "I always rap on the window with a sponge!"—Variety.

Why Used as A Calf Ration is Very Valuable

For a long time whey has not been given its rightful place as a supplement feed, but tests recently made at the University of Wisconsin Experiment Station by Professors Morrison, Humphrey, and Hulce predict that whey will soon come into its own as a gainful part of a calf ration.

Farmers have always known that whey is not very high in protein content but the experiments have shown that what protein is contained in whey is of an exceptionally high grade.

Eight calves were used in the experiment. When they were about three weeks old, their food was gradually changed from whole milk to separated whey, the calves were fed a protein-rich concentrate mixture consisting of 30 parts ground corn, 30 parts standard middlings, 40 parts linseed meal with legume hay for a roughage.

The allowance of whey was gradually increased until the calves were fed 14 pounds each daily of the whey at the age of six weeks.

During the course of the experiment which extended over six months, the calves made a daily gain of 1.48 pounds per head, and in addition were a vigorous and thrifty lot.

The calves that were given a liberal allowance of skim-milk made slightly higher gains or 1.68 pounds per head daily.

Whey that is soured in clean containers is just as valuable as sweet whey, the results of experiments showed.

Very satisfactory gains through the use of whey in the ration have also been reported by the University of Kansas Experiment Station.

NEW WILLYS-KNIGHT SIX CHASSIS SHOWS STRONG CONSTRUCTION

A distinct advance in engineering construction is seen in the chassis of the new line of Willys-Knight Six models, now being exhibited by all Willys-Overland merchants.

The frame of the new line of Knight engined sixes, showing such a marked improvement over the design of any other frame in the new Willys-Knight Six price class is worthy of special consideration, which should be of interest to engineers and motor car owners alike.

In these new models the frames are of extra heavy stock. The connection between the front and rear cross-members and side rails forming a box section which is accomplished through widening and turning down the lower horizontal flange of the side member

and carrying down and riveting to the projected flange that part of the cross-member which is additionally riveted to the upper flange.

A further improvement over past engineering practice is the addition of a tube which is welded into the cross-member, thus giving additional rigidity and providing sturdy support for a trunk rack.

Engineers point out that the very nature of the construction of this new Willys-Knight Six frame provides marked rigidity both fore and aft which is an important factor in producing increased comfort riding over rough roads and at the same time give increased stability.

These facts, coupled with the flexible springing, Tryon shackles and Watson rubber flow stabilizers bring to the new Willys-Knight Six a degree of riding comfort that one usually associates only with motor cars that sell many hundreds of dollars higher.

HINTS FOR THE HOME.

By Nancy Hart.

As a variation for pictures or mirrors a very attractive bit of decoration for the bare wall space may be furnished by a wall sconce used to hold flowers or trailing ivy.

In a Spanish or Italian room the wrought iron sconce is effective; likewise the colorful pottery sconce typical of the period. In 18th Century rooms the wall pocket of painted tin or quaint old porcelain is most appropriate, while for modernistic rooms there are many delightful new designs in opaque or colored glass, metals or pottery.

These wall decorations are especially appropriate for the season which is just at hand.

Tempting Spring Menu.

Tomato Juice Cocktail
Roast spring lamb Mint jelly
Princess potatoes
Creamed spinach
Stuffed egg salad
Apricot ice
Coffee

Tripe Lyonnaise

Clean and scald 1 lb. tripe and cut in small pieces; chop one large onion fine, brown tripe and onion with 2 tbs. butter until gold color. Add 1 tbs. vinegar, salt and pepper to taste; simmer 2 minutes longer and serve with 1 tbs. chopped parsley sprinkled over.

Asparagus Milanaise.

Use either fresh or canned asparagus. Drain the stalks which have been cooked until tender, arrange in baking dish, cover with rich cream sauce, sprinkle grated parmesan cheese thickly over the top and brown in a quick oven.

Tiger Lily Salad.
Arrange peeled sections of grapefruit in flower form on salad plate, striping each with a thin line of pimiento. Make centers of halved marachino cherries filled with chopped nuts; add spears of French endive to suggest leaf and stem. Serve mayonnaise in separate bowl.

Old-Time Brown Sugar Pie.

1 cup brown sugar, 1/2 cup butter, 1/2 cup cream, 2 eggs. Beat yolks lightly, add sugar, then cream and vanilla flavoring. Then add the melted butter. Beat whites of eggs to stiff froth, fold in, pour mixture into pastry shell and bake well.

Easy French Dressing.

Measure into wide-mouthed bottle with tight top three times as much

olive oil as vinegar or lemon juice; season to taste, add few drops onion juice and a small cube of ice. Shake several times and dressing will be perfectly blended.

When Baking a Ham.

Instead of basting roast or baked ham with its own juice, use the juice from a can of pineapple. It gives ham a delicious flavor.

Cover spots made by chocolate with powdered borax and allow to stand for an hour or so; then wash in cold water.

Cure for Crickets.

If you are annoyed by crickets, put a pinch of Scotch snuff into the holes where they hide and they will trouble you no more.

H O P O K U S

Attention, Mr. Cotton Farmer

Owing to the demand for a better grade of cottonseed for planting, we have bought and will install one of the Ginn's Special Leach Seed Graders, which we believe to be the best on the market. It is now in operation.

By grading your planting seed, you plant only the best of the seed, leaving out the seed of inferior germination, thus assuring you of a better stand of cotton. Seed of a uniform size will produce more uniform cotton. This has been demonstrated and proven by the government, as well as the cotton growers. Grade your seed and produce more cotton.

Becton News.

School is progressing nicely with still good attendance. They are practicing on the program for the last of school. The exact date will be given later.

We had a play at the school auditorium last Friday night. The money will go to repair the Baptist church.

Mr. and Mrs. Wells are rejoicing over the arrival of a new baby in their home.

Mr. and Mrs. G. T. Smith are visiting Mrs. Berry, near Slaton, this week.

C. N. Smith and family have returned home from East Texas.

Mr. Robins and wife went to Plainview last Wednesday to attend the fair.

Ruby Carr has recovered from her illness and is able to be in school again.

Mr. and Mrs. Clyde Geary are visiting in Becton community. They live at Jayton.

The community gave an egg hunt Sunday, March 31, at the home of Mrs. McCormick. A large number were present and many eggs found. A prize was given to the one who found the most eggs.

Rev. Carr will fill his regular appointment Sunday and Sunday night, April 14. Everyone who can should come. We have a splendid Sunday school.

Miss Floy Smith is visiting home-folks this week. Miss Floy will finish school at Lorenzo this year.

Glycerin Mixture Stops Constipation

The simple mixture of glycerin, buckthorn bark, saline, etc. (Adlerika) acts on BOTH upper and lower bowel and relieves constipation in TWO hours! Brings out old waste matter you never thought was in your system. Don't waste time with pills or remedies which clean only PART of the bowels, but let Adlerika give stomach and bowels a REAL cleaning and see how good you feel. City Drug Store.

Slatonite Want Ads bring results.

HINTS FOR THE HOME

By Nancy Hart.

A bedroom in French gray—how good it sounds; how difficult to develop in just the right shades to give life and interest to the gray scheme!

A charming effect can be obtained with walls tinted the softest shade of gray and rug of plain gray in a deeper harmonizing shade. Then paint the furniture pale French gray with a soft shade of blue wiped into the carving.

For draperies and spreads use taffeta in a watermelon pink tone with tiny ruching of turquoise blue for trimming. Or one of the mercerized cotton taffetas in these shades would be effective. Slip-covers for upholstered chair or chaise could be of chintz having a soft turquoise blue background and a classic pattern in gray. For side chairs use taffeta cushions in watermelon pink.

- Delicious Sunday Dinner
- Tomato bisque
- Roast lamb—Mint jelly
- Baked cheese potatoes
- Creamed new peas
- Stuffed hearts of lettuce
- Frozen pudding
- Coffee

One Pound Baby.

Provo, Utah.—Barbara Jean, adopted by Mr. and Mrs. L. D. Rowley, weighed a pound when born and now the beam at five pounds. The child is winning its fight for life.

Sweet Potatoes With Nuts
Mash boiled sweet potatoes through a colander; add two or three table-spoons chopped nuts, plenty of butter, seasoning and cream to make the consistency of fluffy mashed potato when whipped. Put in a buttered pudding dish and put into oven to brown lightly.

Orange Toast

Dip stale bread from which crusts have been trimmed in beaten egg and milk and fry to a light brown in butter. Sprinkle with powdered sugar and a dash of cinnamon and in the center of each slice place a spoonful of orange marmalade. Send to the table very hot.

Twin Prisoners.

Bridgeport, Ct.—Everywhere James Kelly went, Robert, his twin brother, went too. One of them was always getting in trouble with the police, who can't tell them apart, so both have been arrested and are serving State Prison terms together for robbery.

Hildas Cookies.

Cream 1/2 cup butter and 1 cup sugar, add 1 egg, well beaten, then dry ingredients as follows: 2 cups flour, 1 teaspoon baking powder, pinch salt, all sifted together. Add three table-spoons of rich cream and flavoring. Roll thin and cut in fancy shapes; bake in hot oven until light brown.

Indigestion Immediate Relief!

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise. The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient. One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad

after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

MARY PICKFORD

COQUETTE"

A SAM TAYLOR PRODUCTION

Our Mary's First All-Talking Picture, Pre-released for Slaton's New Palace Theatre.

Two Different Reasons for using CONOCO-ETHYL BOTH OF THEM GOOD

1 To Save Wear and Tear

If you keep an accurate record of what it costs to operate your car, you'll soon realize that Conoco Ethyl Gasoline actually saves you money—despite the fact that it costs a few cents more per week than ordinary gasoline.

It saves by keeping out the knock that wears and tears the engine... and by producing 100% power from every drop. There's no waste when you use Conoco Ethyl. It burns cleanly and at the right time—regardless of the compression of the motor.

Conoco Ethyl will reduce your cost per mile. Try it and convince yourself.

2 To enjoy High-Compression Performance

With the introduction of Conoco Ethyl Gasoline into this market, your dreams of an ideal motor fuel become accomplished facts. Conoco Ethyl has blazed the trail to superlative motor operation under all conditions of temperature—uphill or on the level—in traffic or along the open road.

There is no motor fuel like it—for it combines all the superior qualities of Conoco, the Triple Test Gasoline, with Ethyl Fluid, the Anti-Knock ingredient developed by General Motors after years of exhaustive research.

Why not get the most from your motor? Fill your tank at the Conoco Ethyl pump—at service stations and garages.

CONTINENTAL OIL COMPANY
Producers, Refiners and Marketers of high grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming

Lots of people don't take the trouble to figure the saving that Conoco Ethyl brings them. They use Conoco Ethyl because this super-fuel does more than merely move their cars... it provides a real motoring thrill by bringing out every ounce of power which the engine was designed to develop.

Instant pick-up, smooth running at all speeds, high gear performance on the steepest hills. There's a great satisfaction in driving under such conditions!

CONOCO-ETHYL GASOLINE Quick Starting-Knockless Miles

CHURCH OF CHRIST.

The attendance at both the morning and evening services last Lord's Day were the largest by far since I have been here. I rejoice to see this increase and pray that it may continue. We are always glad to have visitors. I began a series of studies last Sunday night regarding, first, the estab-

Ladies' Bible study, Monday, 3:30 p. m. **Establishment of the Church of the Bible**, to be followed by its subsequent history, its gradual apostasy, the rise of ecclesiasticism, the development of the hierarchy, and finally, the dawn of the great Reformation, culminating with the Restoration movement of more than a hundred years ago.

The subject for the sermon next Lord's Day at the morning hour will be, "Christ On David's Throne," for the evening hour, "Church History of First Century."

Bible Study, 9:45 a. m.
Preaching, 11:00 a. m., 8:00 p. m.
Communion, 11:45 a. m.
Young people's meeting, 7:00 p. m.

Prayer meeting, Wednesday, 8 p. m.

AT THE PRESBY-TERIAN CHURCH

Sunday, April 14, 1929.
Sabbath School meets at 9:45 a. m.
Morning Worship, 11 a. m.
C. E. meets 5:30 p. m. The subject for the meeting is, "The Problem of Self-Control."

Evening Service at 7:45 p. m.
The pastor will preach at both services on subjects of interest. We are planning and praying for great services.

The public has a cordial welcome at all of these services. Come and worship with us, for it will do you good.
JAMES RAYBURN, Pastor.

FIRST CHRISTIAN CHURCH.

Rev. F. L. Vavis, of Floydada, will preach Sunday, April 14, morning and evening, at the First Christian church. All members are urged to be present, and all others are invited.

Mrs. Lokey Will Be Hostess to W. M. S. Monday p. m.

The Women's Missionary Society of the First Baptist church will meet Monday, April 15, at 3:00 o'clock p. m., with Mrs. Jno. T. Lokey. A missionary program will be given, as follows:

Subject—"Faithful to the Trust."
Hymn—"All Hail the Power of Jesus' name."

Prayer of praise and thanksgiving for Jesus, the gift of God's love.

Selected Scriptures—The Stewardship of the Gospel.

Hymn—"A Charge to Keep I Have."

Prayer—"That the Holy Spirit Will Direct Our Thoughts, so that the Story of the Spread of the Gospel Will Awaken Within Us a New Faithfulness."

Talk—"Why Fulfill the Trust?"—Mrs. E. C. Foster.

Hymn—"Savior, Thy Dying Love."

Talk—"Turning the World Upside Down"—Mrs. Jones.

Hymn—"Faith of Our Fathers Living Still."

Talk—"Darkness and Dawn"—Mrs. P. G. Stokes.

Hymn—"The Morning Light is Breaking."

Talk—"The World for Jesus"—Mrs. B. G. Holloway.

Hymn—"The Kingdom is Coming."

Watchword—"Enlarge, Spare Not, Lengthen, Strengthen."

Prayer—"Of Thanksgiving, and that we be faithful to the Trust."

All the ladies of the church are urged to attend this meeting.

THE WOMAN'S AUXILIARY ENTERTAINS

On Monday afternoon, the Woman's Auxiliary of the Presbyterian church entertained the ladies of the church and a few invited friends at the club house.

It was the first regular meeting of the new church year. Mrs. Zeph Ferguson, retiring president, called the meeting to order and, after conducting a devotional meeting, expressed her thanks and appreciation for the co-operation and help given during the past two years.

The officers for the coming year were elected and assumed the duties of their respective offices.

After the business meeting those present were entertained by a reading by Florence Baldwin entitled, "Just Around the Corner," and Crystelle Scudder gave, "Home," by Edgar A. Guest. These were followed by piano solos by Betty Pack, Joretta Rogers and Crystelle Scudder, and a story, "Three Little Kittens" told by little Wilda Ruth Hanna.

A two course luncheon was served on tables which were daintily decorated with lilacs and cherry blossoms.

Magistrate (automatically): "Have you ever been arrested before?"

Very Large Lady (indignantly): "Arrested before! I ask you—do I look like an amateur making my debut?"

Adults Contract Children's Diseases

Adults can, and do, contract many children's diseases. And, usually, they suffer from them much more than children do. For instance, many adults contract worms, an ailment usually associated with children. Sometimes they suffer intensely and take expensive medical treatments, without realizing that worms are the cause of their troubles. Yet, the symptoms are the same as in children, loss of appetite and weight, grinding the teeth and restless sleep, itching of the nose and anus, and abdominal pains. And, the same medicine that surely and harmlessly expels round and pin worms from children will do the same for adults—White's Cream Vermifuge, which you can get at City Drug Store.

LEADERS OF LITTLE FOLKS HOLD MEETING

On Wednesday afternoon the officers of the cradle roll department of the Baptist Sunday school met at the home of Mrs. Very Johnson. After a business session, refreshments were served to the following: Mesdames Fred Stephens, L. A. Wilson, R. D. Shelton and Tracy Lovelady.

Don't Make a Toy Out of Baby—Babies Have Nerves

Much of the nervousness in older children can be traced to the overstimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.
