

### RATIONING INFORMATION

Gasoline — In 17 east coast states A-6 coupons are now good. In states outside the east coast area A-8 coupons are now good.

Fuel Oil—Period 1 coupons are good through January 31.

Sugar—Stamp No. 14 good for 5 pounds through October. Stamps Nos. 15 and 16 good for 5 pounds each for home canning through October 31.

Shoes—Stamp No. 18 good for 1 pair. Validity has been extended indefinitely.

Meats, Fats—Brown stamps C and D good through October 30. Brown stamp E becomes good October 10 and remains good through October 30.

Processed Foods — Blue stamps U, V and W expire October 20. Blue stamps X, Y and Z are good through November 20.

Specific ceilings for white potatoes of the late 1943 crop have been set by months for October, 1943, through June, 1944. These prices continue the general price level set for the spring crop of potatoes at the country shipper and intermediate seller levels with allowances for graduated monthly increases to take care of storage charges. Because of the large crop this year, it is expected that potatoes generally will sell substantially below the retail ceilings.

Action taken recently by 12 Federated Land Banks will substitute a 4 percent interest rate for higher rates on 98 percent of the loans made by the land banks prior to June 24, 1935. "The Land Banks" 4 percent rate is the lowest at which farmers generally ever have been able to obtain long-term mortgage credit. A. G. Black, Governor of the Farm Credit Administration said.

School buses may not be used to transfer students to athletic games, state or county fairs or similar events, the Office of Defense Transportation has stated.

Anti-freeze used last winter and saved for re-use this winter should be tested. In time anti-freeze loses its strength and its non-corrosive properties. Nearly all manufacturers of permanent types of anti-freeze have made up acid and rust inhibitors for restoring resistance of used anti-freeze. In adding new material, it is wise, the Office of Defense Transportation says, to use the same brand used in the first place. A free pamphlet entitled "Cooling System; Cleaning, Flushing, Rust Prevention, Anti-Freeze," that tells about the care of water-cooling systems in engines used in automobiles and farm equipment, will be sent to those who request it. Address: Office of Information, ODT, New Post Office Building, Washington, (Continued on Page 8).

### Reo Hood Is Now Ensign

The following was taken from a recent issue of a Florida newspaper:

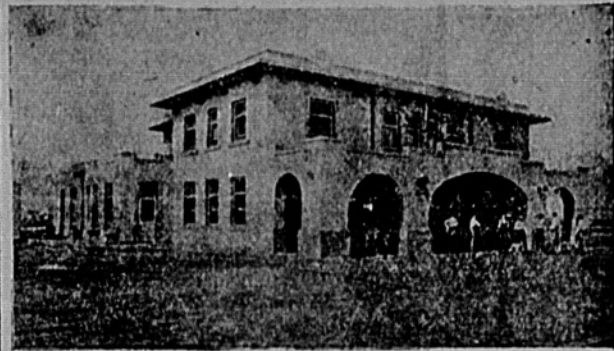

"A sailor's dream has come true. Step by step, Reo Mathis Hood has inched up the Navy ladder from an apprentice seaman to an ensign. The Personnel Office's well known chief yeoman was commissioned last week. He has been on duty here since December of 1940.

"Hood came up the hard way. He entered the Navy in May, 1935, when he was fresh out of Slaton (Texas) High School. He served aboard the U.S.S. CHESTER, a cruiser, until 1939 and spent 18 months at sea on the U.S.S. DAVIS, a destroyer.

"Slowly, but surely, the Texan advanced from apprentice seaman to seaman second, then seaman first. Hood became a yeoman third class, a Y2c, Y1c, then a Chief Yeoman and now he's a 'mustang'.

"When Ensign Reo Hood, a former Chief Yeoman recently commissioned, stepped into the main station personnel office there were eight side boys waiting for him while Chief Gagnon piped him aboard. . . . Incidentally, Ensign Hood has a brother in Texas who was born on the same day he was — Oct. 26 — only he's two years older."

### FORMER HARVEY HOUSE TO BE SANTA FE STATION

Work started last Tuesday on remodeling the former Harvey House at the Santa Fe station and when it is completed, Slaton will have one of the most attractive passenger and freight depots on the Santa Fe lines.

With the closing of the old Red Barn, as the present frame depot is known, one of Slaton's most historic old structures will become a ghost of the past, as it was one of the first buildings to be constructed here and has housed hundreds of the best known railroad men of American.

The red barn will be demolished in the course of time, but at present, it will be left as it is until the materials that it contains, can be allotted to the sources where they are needed most.

### Student Body Elects President

In the primary election held last week among the Slaton High School students, for the office of President of the Student Body, the results were as follows: Jack Dickson, Wayland Ferguson and Phil Brewer as the three top candidates, and a final election among the students this week gave the place of President of the Student Body to Jack Dickson.

Wayland Ferguson was chosen President of the Senior Class at an election several weeks ago. Work has started on the High School Annual, which will be published again this year and plans are being made for as many student activities as can be cared for under war time conditions. The next chapel program will be sponsored by the Sub-Deb Club.

Word has been received that Bill Wright has been promoted to the rank of Corporal. He is in the little fellow and the salaried field, Bryan, Texas.

Pvt. J. J. Melugin, who is stationed now at Camp Gordon, Ga. arrived home on furlough this week, with his wife.

Pvt. Melugin was inducted into the service Nov. 16, 1942, and was stationed at Fort Benning, Ga., with the 10th Arm'd Div. He was sent on the Tennessee Maneuvers and recently was stationed at Camp Gordon. He says it sure feels grand to be back in Slaton once again.

Pfc. Homer Ferguson, son of Mr. and Mrs. M. B. Tate, has been given an honorable discharge from the Army because of his health. He enlisted in the army in Dec., 1942, and has been stationed at Camp Howze, Texas.

J. B. Cato who is a member of the Military Police, left Wednesday for Walla Walla, Washington, where he is stationed, after a visit to his parents, Mr. and Mrs. P. A. Cato and with friends here in Slaton.

S 1/c Clyde Doherty is on a 16 days leave, visiting with his parents, Mr. and Mrs. H. Doherty. He has been somewhere in the South Pacific.

### Ginning Prices Are Regulated

LUBBOCK.—In order to relieve ginners in West Texas who were caught with low prices frozen at the August 1 to October 31, 1942 level, the Office of Price Administration, has established a maximum price order which raises the price per hundred seed weight from five to nine cents, Howard R. Gholson, district director, said today. The new ginning order states that top prices per hundred weight of cotton on a seed weight basis is now 35 1/2 while the price per hundred weight on a lint weight basis per gross bale is \$1.02. This does not mean that cotton ginning can not be sold at a lesser price, but only establishes the top price which cotton can bring, thus permitting gins to operate without a loss, Gholson pointed out. The regulation covers the cotton price in the 71 counties of the Lubbock district which extend from the top of Texas to Brewster County on the border of Texas.

### Man Gets \$900 From Half Acre

That King Cotton is sitting on a rather unsteady throne, was demonstrated this season by H. W. King, who lives near the South city limits of Slaton.

Mr. King planted one half of an acre in sweet potatoes and has gathered over 300 bushels of the tubers which he has sold at \$3.00 per bushel.

All of the potatoes were large size and one weighed 4 1/2 pounds. The soil on which the potatoes were raised was irrigated by a small electric pump.

We leave you at this point to figure out how much money Mr. King would have made if . . .

### New Tires Still Difficult To Get

LUBBOCK.—There has been a substantial reduction in the October tire and tube quota for the Lubbock district of the Office of Price Administration, Howard R. Gholson, district director, said today. Only a slight increase in truck tube quota was allowed, he said.

Only motorists with an established essential mileage of 601 miles or more per month are eligible for Grade one tire certificates, Gholson pointed out. Dealers' stocks are very low and until such time as producers are able to manufacture sufficient quantities of synthetic tires, there is no way of replacing these stock piles, he declared.

"The application must be mailed prior to the expiration date of the current license. If this is not done, the law provides that the applicant must be treated as a new driver and subjected to an examination.

"The application must be mailed to the Department of Public Safety in Austin. Each application must be processed in the headquarters office so that remedial action may be taken with drivers who have not been involved in numerous accidents or traffic violations.

"The application should be accompanied by a money order or cashier's check for 50c, the fee for a two-year license. Personal checks cannot be accepted, and it is unsafe to send uninsured cash through the mails."

WITH OUR WOMEN IN THE SERVICE  
Pfc. Mardell Childress will leave today for Orlando, Florida, to take up her work with the WAC's, after a fifteen day furlough spent with her parents, Mr. and Mrs. E. R. Childress.

Marine private Eunice C. Watts daughter of Mr. and Mrs. H. D. Watts, Slaton, has been assigned to the Cooks and Bakers School at Camp Lejeune, N. C. Marine base.

The Cooks and Bakers course runs six weeks. The school is equally divided between practical instructions in the gally and classroom study of the theory and principals of cooking.

Pvt. Watts was graduated from the New Deal High School. Having taken a substantial part in escorting more than 13,000 merchant vessels, carrying in the neighborhood of 77,000,000 tons of deadweight shipping from North Africa across the Atlantic since the war began, the boys of the Canadian Navy like their United States' seamen brothers, never feel that their ship's company is complete unless they have a pet aboard. Above, left, we see a merchantman off duty relaxing with two inseparable companions, his dog and cat. Upper right is Sabbo—so named because of the sabotage he causes with the boys' belongings. He is one of the few pups in the R.C.N. to have his own hammock. Below, only a capful now, this kitten will soon be the pride and joy of this sailor during the long hours at sea while off duty.

### Slaton Sells More Than Twice As Many Series E Bonds Than Lubbock

### Beautification Of Texas Avenue Sought By Chamber Of Commerce

### Slaton Firm Has New Location

The expansion and removal of the automobile mechanical shop of Carl Sartain's from his former location in the third block north of the square on 9th street, to the corner of Ninth and Crosby Sts., into the building formerly occupied by the Van Stokes Motor Company, has been made and Mr. Sartain is doing business now in his new location.

Carl has been in this line of business in Slaton since 1929 and has a Chevrolet Service diploma. His assistant, Dick Justice, has recently moved here from Glen Rose, Texas, where he specialized on Ford automobile work.

Not only will the new location offer more room but will be more convenient for the customers. Mr. Sartain has equipped his new shop with the newest of devices for doing accurate and dependable automobile mechanical work.

### Paintings Will Be On Display

The Lubbock County and City Federations of Women's Clubs will entertain Oct. 15, at the First Presbyterian Fellowship Hall, Ave. N and 14th St., Lubbock, honoring Miss Ethel Foster of Sterling City, President of State Federation of Women's Clubs; Mrs. Wes Izzard of Amarillo, Seventh District President, and other officers.

At this time it is hoped that a large number of paintings will be on display from artists all over the seventh district. From this exhibit, ten or twelve pictures will be selected to be sent to the State Convention in Austin in November.

The pictures should be of medium size, in oil or water colors, and must be in the hands of those in charge by noon Thursday, Oct. 14.

Increase your property insurance. See Hickman and Neill Insurance Agency, Cit. State Bank Bldg.

The Slaton Chamber of Commerce met last Tuesday night at the City Hall and Manager Briggs Robertson reported that due to fact that the Santa Fe is planning on remodeling the former Harvey House, where the USO and the Canteen are now located, the activities of the USO and the Canteen will have to be discontinued unless some other arrangements are made.

The value of the work that has been done and the cooperation of the women of the town in keeping the service men who travel through here, supplied with refreshments, candy, ice cream, etc., was complimented by the directors of the Chamber of Commerce but no plans were made to continue the activities.

The work that has been done by the city in clearing the sidewalks of Texas Avenue, was discussed and the suggestion made that the Lubbock County weed cutter be used to cut the high weeds on the vacant property on both sides of Texas Avenue and Manager Robertson was instructed by the directors to contact the women's clubs of the city with the suggestion that they undertake the beautification of the parkways in the center of Texas Avenue. The directors expressed willingness to help supply seed and other assistance. Mr. Robertson said that he had been assured that the City would supply the water to irrigate the street centers, should the Clubs sponsor such a movement.

### Rodeo To Be In Lubbock

Rodeo fans of this section may get their thrills and help a good cause at the same time by attending the world famous Butler Brothers performances tonight and tomorrow night.

The Rodeo is being held under the auspices of the American Business Club of Lubbock, with a liberal part of the revenue received from the shows to go to the Boys' Club fund. The Rodeo is being held at the Fair grounds and there will be free parking space.

### They Also Play Their Part In Atlantic Convoy Duty

Having taken a substantial part in escorting more than 13,000 merchant vessels, carrying in the neighborhood of 77,000,000 tons of deadweight shipping from North Africa across the Atlantic since the war began, the boys of the Canadian Navy like their United States' seamen brothers, never feel that their ship's company is complete unless they have a pet aboard. Above, left, we see a merchantman off duty relaxing with two inseparable companions, his dog and cat. Upper right is Sabbo—so named because of the sabotage he causes with the boys' belongings. He is one of the few pups in the R.C.N. to have his own hammock. Below, only a capful now, this kitten will soon be the pride and joy of this sailor during the long hours at sea while off duty.

Although Slaton did not make the quota set for the 3rd War Loan Drive, the purchasers of series E Bonds made a unique record and one that the Bond buyers of this section can point to with pride.

The Slaton Post Office alone sold \$80,000.00 worth of series E Bonds during the 3rd War Loan Drive. In comparison with Lubbock, the people of Slaton bought just twice as many E Bonds as the citizens of Lubbock bought.

While our Bond record for the 3rd War Loan does not show up well for the men and institutions that are in position to buy heavily, the little fellow and the salaried man more than did their share and the average man and woman of this community can still say that they did their part.

The total purchases of War Bonds for this community during the 3rd War Loan was approximately \$280,000. Postmaster Scudder reports that Bond sales are still above the average and that he hopes to see the cotton money go more and more into Bond purchases.

### Local School Helps Relieve Labor Shortage

According to Earl Brasfield, Principal of the Slaton High School, the school children who wish to take part in the gathering of cotton are being allowed to get off early in the evenings, provided their parents wish for them to do so.

A recent bulletin from A & M College, on the labor situation in Texas, says:

Aside from migratory workers, forty thousand laborers were placed on Texas farms and ranches by county agricultural agents of the A and M College Extension Service during the week ending Sept. 17. This is the largest number placed in any one week by the Extension Service since it accepted the responsibility of the farm labor program in April.

Of the 40,280 assigned, 23,334 were town and city adults and 15,517 were town and city boys and girls, while 3,069 were war prisoners, according to a report compiled by C. Hohn, Extension's assistant state agent. Hohn cites these examples of how farm and ranch families are getting the job done:

Boys 12 and 13 years old have been helping shock rice in Fort Bend County, and several girls have aided their fathers in repairing rice machinery. In all, 312 non-farm people were recruited in the county during August to help meet the labor crisis.

"Pitch-fork brigades" composed of high school students are aiding in the peanut harvest in Eastland County. Floyd Lynch, county agricultural agent, says a class of 35 students ordinarily will shake peanuts from 70 to 100 acres per day. Last year the senior class of Gorman High School raised \$195 for class activities in this way.

Rural schools in Dallas County are releasing children, who pick cotton, at 2 p. m., so they can do more work in the fields.

County agricultural agent W. L. Wilkinson of Kleberg and Kenedy counties showed farmers how the side-delivery raking will take the place of 20 men in harvesting peanuts. Women, children and the weather have helped get the job done, too, he says.

### SLATON BOY WINS SCHOLARSHIP

LUBBOCK, Oct. 8—James W. Savell of Slaton is winner of one of the 10 freshman agricultural scholarship awards to Texas Technological college this semester. The scholarships are given on the basis of scholarship, personality and business ability.

Savell is enrolled as a freshman animal husbandry major. He is the son of Mr. and Mrs. James W. Savell, route 2.

## Balanced Ration

"Nutritive requirements of animals are the same in war-time as in peace-time," says the opening sentence of Florida Circular 69, "Wartime Feeds," one of many practical publications by Extension, College and Experiment Station authorities in various states. These publications are helping the

and combine home-grown and purchased feed in balanced rations.

Kansas Extension Circular 166 adds: "Carefully balanced rations are required. On some farms such rations may be obtained by growing all of the feeds needed. Many other farms need to purchase only protein concentrates." "Shortage of protein supple-

## WAR BONDS

V Mail

When a soldier or a sailor is low in spirits there is nothing that will cheer him up as much as a letter from home, so the War and Navy Departments have devised a method for getting "the word" to its fighting men with the greatest dispatch. This is the microfilm method of transmitting letters, known to all of us as V-mail.

Any news from home is bound to please our soldiers and our sailors but the news they want to have most is the news from our production front and news that we are winning our fight against inflation by our savings and investment in War Bonds. U. S. Treasury Department

ments makes it essential to get full value from every pound fed," Oklahoma Experiment Station Circular point out. "Feeding too little protein, too much protein or of the wrong kind actually increases the total amount of protein—and other feeds as well—required to produce a pound of meat."

Such practical suggestions as these in the bulletins prepared in various states will help farmers and ranchmen to make adjustments in their normal feeding program to meet the present emergency. Increased use of home-grown pastures, grains and roughages, with necessary adjustment in the supplemental ration fed, are the basic principals in these recommendations; there is nothing complicated about them. They will help feeders to combine their home feed supplies with cottonseed meal, or other protein concentrates, so as to save feed, reduce costs and produce livestock efficiently with a minimum charge from their customary feeding practices.

... — V . . . —  
A little boy who had been to Sunday School had heard the story of Adam. Returning home, he asked his mother what he was made of, and she replied: "Dust."

The little fellow was absent for quite a while and came to his mother with a handful of dust he had gathered from under the bed, and said: "I wonder who this guy is."

**OUR WEEKLY SERMON.**  
Believing and Seeing  
Mockers, standing by the cross, cried to the Lord Jesus Christ to descend from the cross that they might see and believe. But that is not God's way; His way is believe and see.

This is God's way in saving us, and it is the way He expects us walk as Christians. We may expect mockers to demand that they see before they will believe, but I fear that some children of God are found, as far as their experiences are concerned, standing with the mockers before Christ's cross.

In what way does the Christian say, "Let me see, and I will believe"?

First, we suggest that worry is expressive of this heart attitude. When we worry we are not trusting; and when we are trusting we are not worrying. "Except I shall see, I cannot believe." I cannot understand what is happening to me; but I do believe Thee, and I commit all that I have and am, and all of the future, to Thee. I do trust Thee, for Thou art worthy to be trusted."

This attitude of unbelief is also seen in the fear of tomorrow. Our Lord said, "Take therefore no thought for tomorrow; for the morrow shall take thought for the things of itself. Sufficient unto the day is the evil thereof" (Matt. 6:34). Fear, in the sense of dread of what may come to pass, is never from the Lord, but from the adversary the devil.

Third, this attitude is seen in our rebellion against the upsetting of our plans. When they go

pointment may be regarded as His appointment. What though disappointments come, Christ is not a disappointment.

Then, too, this attitude is seen as we become hardened through sorrow. When the shadow of some great personal loss falls across our path we are apt to say, "I cannot see why this should come to me. What have I done that God should deal so harshly with me?" We may not be able to see, but we can trust.

What shall we say to these things? What shall be the language of our hearts? "Let me see,

... Jesus Christ, whom having not seen, ye love; in whom, though how ye see Him not, yet believing, ye rejoice with joy unpeckable and full of glory" (1 Pet. 1:8).

... — V . . . —  
**THIS WEEK'S SERMON**  
"Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 10.

The Golden Text is: "I will restore health unto thee, and I will heal thee of thy wounds, saith the Lord" (Jeremiah 30:17)

concern the world; but that the world through him might be saved" (John 3:17).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "If Christian Science takes a way the popular gods,—sin, sickness, and death,—it is Christ, and Truth, who destroy these evils, and so proves their nothingness" (page 347).

## FOR VICTORY

**BACK THE ATTACK**

Buy An Extra \$100 War Bond During 3RD WAR LOAN

*Sure, I'll take a Texan's Share*

Your County War Fund is another "Victory weapon."

The United War Chest of Texas through war fund organizations in every county of the state is charged with the responsibility of raising \$4,885,781.00 for the 17 approved war appeals of the National War Fund. The national goal is \$125,000,000.

Each of the 17 participating agencies was carefully budgeted to stretch every dollar contributed before it received the approval of the President's War Relief Control Board.

Texas now are being asked to take a Texan's share in their County War Funds to aid three fronts with one gift—the Military Front, the United Nations Front, and the Home Front. Remember, President Roosevelt has said that a share in the National War Fund is a share in winning the war. Use this "Victory weapon." Give to your County War Fund.

THE 17 PARTICIPATING AGENCIES ARE:

- ★ USO
- ★ United Seaman's Service
- ★ War Prisoners Aid
- ★ Belgian War Relief Society
- ★ British War Relief Society
- ★ Dutch Relief Fund (Queen Wilhelmina Fund)
- ★ French Relief Fund

A.M.J.

It is with regret that I have to announce that Briggs Robertson is slipping, and slipping fast in his attempt to corral canned goods and vegetables in the supposed to be display over at the Chamber of Commerce office.

He even went so far as to buy fifteen cents worth of sweet potatoes to put on show in the cabinet but you know how many sweet potatoes fifteen cents would buy and what kind of looking sweet potatoes they would be; so now I am looking for him to display some of Uncle George Marriott's little peanuts that Uncle George said grew on top of the ground. My suggestion would be that Briggs turn the cabinet over to the Boy Scouts for a window in which to display arrow heads or to fill it with relics of some kind like one I saw in Greenville once upon a time. Their prize possession was a petrified head of an Indian. The face needed a shave and I can still remember how it felt when I ran my fingers over its skin.

Of course I know Briggs would have a hard time finding an Indian head like the one that the Greenville C of C had, for dead Indians are getting hard to find in this country, but he might uncover a Jap or German that had been petrified with fear or he might offer a premium to one of the boys who have gone over seas and get one or two.

We must find something to put in that cabinet since Briggs has fallen down on the canned fruit and vegetables. I almost forgot to mention the pumpkin size sweet potatoes Mrs. R. H. Bailey gave me to put in the Slatonite window. Six of them almost fill the window and am contemplating cooking one of them and have my entire working force to come out to a sweet potato dinner.

W. A. Florence has sold over a hundred dollars worth of tomatoes off the plants that he planted on one city block and nearly as many sweet potatoes that he grew on two city blocks. Mr. Florence said that most anybody could have done the same if they had cultivated the plants, given them enough water and selected the right kind of plants. He particularly recommends Margould and Pritchard tomatoes.

My tomatoes were a dejected lot this year, but there were two things I forgot to do. One was to cultivate the ground and the other to water the plants, and as for the kind of tomatoes that I planted, I think they were the Heinz variety—47 different kinds.

Mr. Florence has put new hope into my heart and I am already planning on buying up a flock of Margould tomato plants, but I think I'll pass up the Pritchards, for a man I knew once, whose name was

**A Plant That Does Double Duty**

© Farm Security Administration

ON hundreds of thousands of fertile acres, from Ohio to the Pacific Coast, farmers are preparing to harvest their 1943 crop of sugar beets. From the crop will be produced enough sparkling pure white sugar to supply an eight-ounce weekly household ration for almost two-thirds of the population of the United States for one year.

In time of war, with the imports of foreign sugar reduced by the shortage of ocean shipping, the production of sugar within the United States has become more than ever important to our national welfare. Sugar is essential to the diet because it supplies the body with needed energy, and it supplies that energy more efficiently and at less cost than any other common food. But the usefulness of the sugar beet does not end with the extraction of the sugar from its tapering root, for the leafy foliage, the pulp which remains after the extraction of sugar, and molasses, are fed to farm animals and result

in the production of meat and milk. It is calculated that an average acre of sugar beets will produce 3,500 pounds of sugar and, when the by-products are properly fed to animals, about 300 acres of meat. The total amount of human food produced from an acre of sugar beets is greater than from any other crop extensively grown in the temperate zone.

The sugar of commerce — the sugar which housewives ordinarily use in their kitchens and on the table — is technically known as sucrose. Whether it be derived from the sugar beet, the sugar cane, or some other plant, sucrose is always the same substance. The juices of the sugar beet and the sugar cane contain sugar in greater quantities than other plants, and for that reason they have become the principal commercial sources of the product. Sugar from cane and sugar from beets are alike in appearance, purity, and food value, and may be used interchangeably for all purposes.

Pritchard and I didn't like him. If there is any one who will need a hundred or so dollars worth of tomatoes next year I would like to have his address so that Mr. Florence will not get to him first.

Texas Avenue is a much better looking thoroughfare than it has been for many months since the weeds and grass have been cut from the sidewalks, but there is still a lot of room for improvement. The head high weeds on the property on both sides of the street are not only a slovenly sight, but in a week or two they will be a fire risk that will endanger the entire town.

It is evident that when Texas Avenue, the streets around the Square and Garza Streets were paved, that the spaces left unpaved in the centers of the streets were intended for parking, but the good intentions were never carried out.

Whether this was a good idea or not might be argued, but most anyone will agree that all of these streets would be greatly improved if the spaces were planted in shrubs, flowers or trees, since the parking space in the centers is nothing but weeds and rocks at the present time.

Personally, I have always admired wide streets with flowers and greenery in the center and I do not believe that any town in the state would appear as attractive as Slaton if these spaces were improved, and any woman's or man's club in our town could do no bigger job for the town, than to sponsor and carry through a planned campaign to have this work done. Just to plant the space in verbena or in some bright colored flowers would give Slaton

something that would attract strangers and be worth while to those of us who will have to stay closer and closer at home until the war is over.

While trees and shrubs are beautifying, they do cause traffic hazards, but hardy perennial flowers of some kind that would grow close to the ground, would not interfere with a driver's vision, and if proper varieties were selected, they would bloom all through the year.

Two men worked side by side in a War Production Board office in Washington. They never spoke but each watched the other. One man quit work daily at 4 o'clock. The other toiled until 6 or later. Some week passed. Then the harder working of the two approached the other.

"I beg your pardon," he said. "Do you mind telling me how you clean up your work every day at 4 o'clock?" "Not at all," said the other man. "When I come to a tough piece of detail, I mark it. 'Refer to Commander Smith.' I figure that, in an outfit as large as this, there is sure to be a Commander Smith. And I must be right; none of those papers comes back to me."

The hard worker started to remove his coat.

"Brother," he said, "prepare for action. I'm Commander Smith."

Forty students are registered in the University of Texas Law School this year to mark "rock-bottom" for the school. In pre-Pearl Harbor day, the school reached a peak enrollment of more than 700.

**To the People of this Community:**

**DRIVE DEPENDS ON YOU!**

Would you take a free ride on a wounded soldier's back? That's exactly what you would be doing if you did not do your duty in the Third War Loan.

Every civilian counts in this kind of war. Every civilian must make his energy and his dollars work for victory.

Keep in mind that while our national goal in this drive is 15 billions of dollars, this money is being borrowed from you and you and you. You are, as an individual, the deciding factor as to whether we reach this goal. An extra \$100 War Bond becomes an extra rifle, extra bullets and extra fighting power of every type.

THE EDITOR

**UNION NEWS**

MRS. M. D. GAMBLE.

Rev. E. A. Todd filled his usual first Sunday appointment at Union Sunday. The Church School report was that only twelve members were absent. So Union, why not make it a 100% next Sunday?

Those visiting Mrs. S. J. Presley Sunday were: Mr. and Mrs. W. J. Presley and children of California, Mr. and Mrs. R. D. Presley and son of Shallowater, Mr. and Mrs. Malcolm Presley and family of O'Donnell and Mr. and Mrs. E. E. Pair and family, who live here.

Mr. and Mrs. Pat Patterson have returned from a trip to South Texas. They were going for their cotton pulling hands so they would come on out here.

Mr. H. M. Cade and Mr. Clifford Young made a business trip to Snyder last Monday.

A Recital was held in the home of Mrs. T. L. Peterson last Friday night. Several attended and it was enjoyed by all.

Those visiting Mrs. M. D. Gamble Sunday were: Mr. and Mrs. E. A. Allen and family of Carlsbad, New Mexico and Mr. and Mrs. J. W. Ellenberger of Wolfforth.

A party was given Saturday night in the home of Mr. and Mrs. A. L. Payne Sr.

Mr. and Mrs. Fat Raymond and family visited in the community Sunday.

Those visiting Mr. and Mrs. Alvis Peterson and family Sunday were Mr. and Mrs. Earl Peterson and family.

Visiting in the home of Mr. and Mrs. R. M. Cade, Sr. Sunday were Rev. and Mrs. E. A. Todd and children and Mr. and Mrs. H. F. Doyle.

Miss Linda Jane Stacy has been visiting her grandparents, Mr. and Mrs. B. E. Stephenson, the past week.

Mrs. H. M. Cade spent last Monday in the home of Mrs. Clifford Young.

There are several hands in the community but many more would be appreciated, since the cotton really needs gathering at the present.

Mr. and Mrs. D. D. Stacy and son, W. B., of Whieface and Mr. and Mrs. Joe Gamble visited in the home of Mr. and Mrs. B. E. Stephenson Sunday.

One day Mary came to her mother with a very serious look on her face.

"Mummy," she said, "heaven sends our daily bread, doesn't it?"

"Yes, dear," mother replied.

"And Santa Claus brings my presents?"

"Yes, dear."

"And nurse bring our babies?"

"Yes, dear."

"Then what's daddy here for?" she demanded.

**POULTRY SHIPMENTS FROM TEXAS DECLINE**

AUSTIN, Oct. 10—Shipments of poultry from Texas stations in August were less than half of those of the same month of 1942, the University of Texas Bureau of Business Research has revealed. Shipments of eggs gained slightly, however, as the shell egg equivalent of all August shipments a-

mounted to 964 cars compared with 855 cars in the same month the year before. Shipments of dried eggs were boosted from 95 cars a year ago to 111 this Aug. Shipments of chickens declined from 36 cars last year to 16 cars this August, and shipments of turkeys dropped from 13 cars to only 3 this year.

**Overweight Motor Oil Costs You Dear**

Be sure of changing to your Lightest possible grade — by having your engine Winter OIL-PLATED

Sure as you live... sure as your car must live... you'll want a change to the lightest motor oil that your engine can use this Winter of War.

Waiting for a "real cold day" before draining overweight oil that drags when it chills, is like waiting for your battery's doom. This drag of overweight oil wastes gasoline, too. And even worse is the big chance of internal damage because overweight oil won't squirt and spray into friction zones of your engine quickly. For the sake of your battery, your gasoline coupons, and your engine, change to your lightest practical grade of oil.

You can quit wondering whether "one grade heavier might be on the safe side." You can be as safe as possible with your engine OIL-PLATED by even your lightest suitable grade of Conoco N<sup>th</sup> motor oil. Its load-carrying capacity is doubled by synthetic means. And this also creates "magnet-like" action to keep lubricant closely fastened to inner engine surfaces, in the form of OIL-PLATING. Even the lightest grade of Conoco N<sup>th</sup> oil will give your engine the high protection of OIL-PLATING. Ask Your Mileage Merchant today to recommend the grade suitable for your car. Continental Oil Company

**CONOCO N<sup>th</sup> MOTOR OIL**

**Dread Engine Acid is Fought by OIL-PLATING**

Normal combustion always leaves acids inside of your engine when it stops. Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to oust acids. But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine OIL-PLATED.

## Win One Class Elects Officers

Mrs. R. F. Swafford entertained the members of the Win One Class last Friday afternoon.

During the business meeting the following officers were elected: President, Mrs. J. E. Rucker; Vice President, Mrs. L. W. Smith; Second Vice Pres., Mrs. Elbert Wilson; Teacher, Mrs. J. T. Pinkston; Assistant Teacher, Mrs. W. R. Wilson; Sec.-Treas., Mrs. Joe Walker; Reporter, Mrs. J. D. Barry; Class Sec., Mrs. A. G. Saage.

## CLUB ELECTS OFFICERS.

The 4-H Club of Slaton High School met Sept. 24 and elected the following officers: President, Joy Simmons; Vice President, Billie Bounds; Sec., Evelyn Brown; Reporter, Peggy Jean Abernathy; Council Delegate, Fannie Lou Shaw; Parliamentarian, Reta Stephens; Song and Game Leader, Hallie Barton; Sponsors, Mrs. Holt and Mrs. Abernathy.

The Gold Star girl is Imogene Gentry.

## Book Review Is Given By Mrs. Young At WSCS Monday

Women's Society of Christian Service met in the home of Mrs. Earl Mangum, 110 S. 3rd, Monday afternoon, with Mrs. W. P. Shelton as assistant hostess.

Mrs. Webber Williams gave a piano number, "Boat Song," by Nevin, and Mrs. L. A. Harrah sang the hymn, "Why Should He Love Me So." She was accompanied by Mrs. Williams.

The main program for the afternoon was a book review, "Religion and the World of Tomorrow," given by Mrs. Young of Post.

The hostesses served a refreshment plate to about 20 members and several guests, among them being Mrs. Young and Mrs. Surman Clark of Post.

Next meeting will be with Mrs. S. H. Adams and at this meeting the fall Mission Study will start, with Mrs. M. L. Abernathy in charge. The members voted to meet at 3 p. m. from now on through the winter months.

## Alathean Class Has Social In Vaughn Home

Members of the Alathean Class of the Baptist Church held a social and business meeting Wednesday afternoon at the home of Mrs. J. S. Vaughn, with the new officers in charge.

Mrs. Carl Sartain, president, presided over the business, Mrs. Vaughn gave the opening prayer and Mrs. Hilda Ellis lead the devotional. Mrs. Fred Stephens gave an inspirational talk.

Those attending were Mesdames Bessie Brunson, George Green, Jess Burton, Walter Edwards, Sam Wilson, Boyd Meeks, Alvin Glasscock, Sartain, Ellis, Hoover, Stephens and Vaughn.

## Mrs. W. R. Lovett Is Club Hostess

Mrs. J. S. Bates lead the discussion of "United States Relations With Britain," when the Civic and Culture Club met in the home of Mrs. W. R. Lovett Saturday, Sept. 25th, at 3 o'clock.

Members attending were, Mesdames S. H. Adams, Bates, W. T. Cherry, Bessie Donald, Lee Green, C. L. Heaton, Henry Holts, H. R. McKee, P. G. Meading, D. J. Neill, M. A. Pember, H. G. Sanders, R. G. Shankle, W. E. Smart, C. L. Suit and R. H. Todd.

Mrs. Corcanges of Miami, Florida, daughter of Mrs. Adams, was a guest.

Next meeting will be Oct. 9th in the home of Mrs. Cherry, 300 West Lubbock.

## FORREST BIBLE STUDY.

Ora Forrest Bible Study will meet at 3:30 p. m., Tuesday at the Methodist Church. Memory verse, Psalm 103:6, 7.

Lesson: Studies in the Book of Joshua. Chapters 8 and 9. The Taking of Ai and the Gibeonites.

1. The Gibeonites suggest what kind of foes, which we Christians have to meet?
2. What big mistake did Joshua and the elders make which led to their being deceived regarding the Gibeonites?
3. How did God partially overlook the mistake which had been made regarding the Gibeonites?

## S. S. Class Of Baptist Church Has Covered Dish Luncheon

## Workers Needed For Surgical Dressings

A special appeal is being made for workers in the Surgical Dressing Rooms and anyone with a few hours to spare is urged to assist with this work.

The quota for Slaton is nine thousand dressings and only 2400 have been made, with only two more weeks to go.

The new location is in Abe Kessel's building on Texas Ave., and the time is 1 to 5 on Tuesday, Wednesday, Thursday afternoons and 7 to 10 on Thursday night.

## Mrs. J. W. Ward Is Club Hostess

Jolly Quilting Club held their regular meeting Tuesday, Oct. 5, in the home of Mrs. J. W. Ward. During the day, two quilts were finished and at noon a covered dish luncheon was served.

Members attending were Mesdames J. W. Scott, Stella Shelton, Ben Mansker, E. M. Lott, E. E. Wilson, H. H. Edmondson, J. M. Burton, H. C. Maxey, P. M. Wheatley and C. C. Wicker. Visitors were Mrs. C. E. Jarman, Mrs. J. W. Slaughter, Mrs. B. J. Ward, Mrs. C. L. Ward and Mrs. Ferrell Singletary.

Next regular meeting will be with Mrs. J. W. Scott Tuesday, Nov. 2nd.

## Party Given By Billie Burns

A party was given by Billie Burns last Friday night at 8 o'clock.

Games were played and refreshments served to John T. Hall, Sonny Bailey, Helen Ruth Ferguson, Lefty Brooks, Melton Jochetz, Bay Finley, Bobby Smith, Leroy Floyd, Enman Young, Marion Bain, Guin Byers, Francis Brunson, Billie Ann Moseley, Evelyn Scroggins, Roy Lee Yandell, Jonelle Walston, Betty Jane Dickson, Reta Jo Atkins, Floy May Hill, Jock Nesbit, Charlene Lee, Weldon Collins, Leona Burton, Loretta Stevenson, Billie Don Townsend, Sharlene Yandell, Jack Huckabay, and the hostess.

## W. M. U. Meets On Monday

W. M. U. of the First Baptist Church met Monday afternoon at the church. Following the business meeting, Mrs. J. B. Huckabay gave the Study, "Things We Should Know."

Meetings will be in circles in the homes next Monday.

## For Increased Egg Production

If your pullets are still enjoying the run of the farm unselected and unhusbed, now is the time to pick out all of the strong, healthy ones and put them in a clean poultry house. The fine weather of early fall has a tricky way of changing very suddenly to cold rains and even snows. The worst thing about being caught this way is that the pullets may suffer a setback from which they will not recover until next spring.

Set aside one of the nice days and clean and disinfect the poultry house thoroughly. Then select the pullets carefully you wish to keep, choosing those that have good size, excellent health, redness of comb and wattles, and are true to the breed they represent.

As the pullets are handled, give each a non-shock worm capsule and treat for lice, applying a louse-killing preparation that releases highly volatile fumes or by dusting with an effective louse powder. If the chickens are dipped to rid them of lice do it the middle part of a warm day.

The additional eggs produced by worm-free and louse-free pullets are important, for the need for them is so great and the price is the best in years. If every pullet raised and husbed is so managed as to produce a dozen eggs more during its laying year, there will be no need for rationing of eggs. Catch the birds as quietly as

## HOMEMAKERS CLASS TO HAVE REGULAR MEETING

The Homemakers' Sunday School Class of the First Baptist Church will meet with Mrs. J. W. Ward on Thursday, Oct. 14th, from three to four o'clock, in their regular class meeting. Every member is urged to attend.

Reverend H. C. Gordon spent last Friday in Dallas, where he attended an Evangelistic Conference.

Mrs. Joe Walker, Sr., is leaving Sunday for San Antonio to visit her son, Joe Walker, Jr., and family.

# Santa Fe CHIEF TOPICS

The appointment of Matthew A. Murphy as general freight agent of the Panhandle & Santa Fe Railway Company, with headquarters in Amarillo, effective immediately, was announced today by H. C. Vincent, traffic manager. He will succeed to the duties formerly handled by E. H. Nye, recently retired.

Until the present appointment, Murphy has been general agent for the Railway at Minneapolis. He was first employed by the Santa Fe as stenographer in the general agent's office in Detroit, Michigan, in April, 1925. He became city freight agent at Peoria, Ill., in 1925 and was promoted to the position of traveling freight agent at Boston in 1937.

He continued to serve in this latter position until May 1, 1939 when he was appointed general agent at Minneapolis.

As general freight agent of the P&SF, Murphy's duties will embrace freight traffic activities in Texas and areas of New Mexico served by the Santa Fe. He is expected to arrive in Amarillo next week.

The Santa Fe System carloadings for week ending October 2, 1943 were 23,263 compared with 25,701 for same week in 1942. Cars received from connections totaled 15,502 compared with 13,305 for the same week in 1942. Total cars moved were 38,765 compared with 39,006 for same week in 1942. Santa Fe handled total of 38,889 cars in preceding week this year.

## Santa Fe Gives Awards To FFA

The selection of winner of the Future Farmers of America Educational awards offered annually by the Santa Fe Railway as an aid to farm development, was announced today by R. A. Manier, state director of agricultural education and J. B. Rutland, state advisor Texas Association of F. F. A. Those receiving the award included C. C. Copeland, Jr., Plains High School; Marvin Looney, New Deal High School, Idalou; T. L. Leach, adult leader, Lubbock; Robert L. McKinney, Big Lake; Morris Robinson, Winters; Johnny Feagan, Sweetwater; R. T. Key, student and R. C. Mitchell, vocational leader, Alpine; Eldon Davis, Gary; Richard Hesse, McGregor; Gerald York, student and B. B. Shaw, adult leader, Belton; Waddell Strain, Colorado City.

The awards, provided each year by the Santa Fe through E. J. Engel, president, permit an all-expense paid attendance at the annual F. F. A. Congress to be held in Kansas City, October 11 to 14. It also permits the delegates to attend the Royal American Livestock Show, held that week.

Importance of farm and farm production will be emphasized at the convention, according to agricultural leaders, due to the need for production and post-war planning. They expressed gratefulness for the cooperation in this effort provided by the Railway.

## Movie Reporter.

### "OKLAHOMA KID" AT THE PALACE FRIDAY - SATURDAY

The management of the Palace Theatre is pleased to announce the return engagement on Friday of "The Oklahoma Kid," starring James Cagney and Humphrey Bogart. The Warner Bros. re-issue was prompted by the great popularity of its stars who scored tremendously in recently-released films. James Cagney's excellent portrayal of the late George M. Cohan in "Yankee Doodle Dandy" won him the Academy Award, while Humphrey Bogart skyrocketed to fame in "Across the Pacific," "Casablanca" and "Action in the North Atlantic."

The war has yielded many thrilling stories for books, stage and screen so far and there will be many more to come, but one of the most intriguing ideas yet filmed seems to be that contained in Paramount's new adventure movie, "Five Graves to Cairo," which is to be shown at the Palace Theatre preview Saturday night, Sunday and Monday, brings to the screen.

The title itself is one to pique the curiosity and from all accounts the story lives up to the interest it creates, having as it does for background the titanic struggle in Africa between the British Eighth Army and Rommel's Afrika Korps. The "Five Graves to Cairo" is Rommel's secret—a secret stumbled upon in the picture by a British tank corporal in the person of personable Franchot Tone.

As the story unfolds, Tone, delirious from sunstroke, stumbles into what he believes to be a British-controlled hotel, only to find that it is about to become staff headquarters for Field Marshal Rommel. He disguises himself as a waiter, with the help of Akim Tamiroff Egyptian hotel owner, and a little French chambermaid, played by Anne Baxter. When Rommel moves into the hotel with his staff, Tone is amazed to be accepted as one of the Nazis, a trusted advance fifth-columnist.

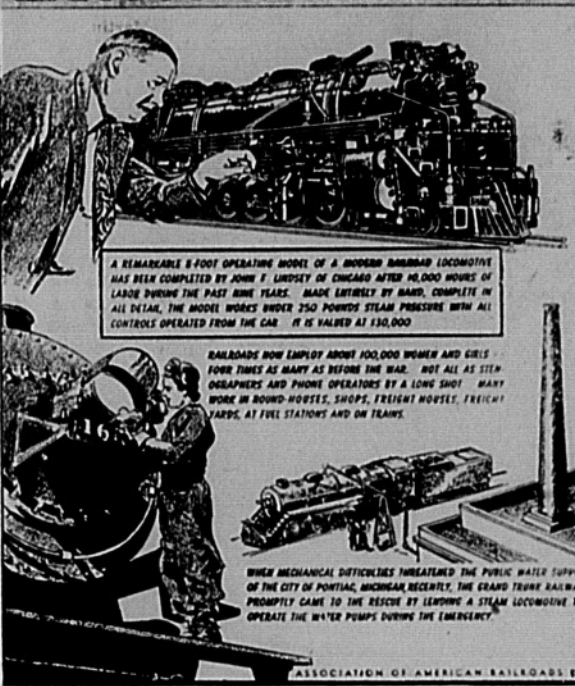

How Tone acquires the secret of the "Five Graves to Cairo" and manages to deliver it to the British authorities provide plenty of excitement and gives this picture the reputation for being one of the best of the recent war-background adventure films. It marks the return of Erich von Stroheim to Hollywood in a role that is probably the best he ever had—that of Field Marshal Rommel.

With its story woven around the consequences of a Nazi invasion of a sleepy European village, "This Land is Mine" stars Charles Laughton and Maureen O'Hara in a stirring and timely drama of patriotism, howling at the Palace Theatre Tuesday, Wednesday and Thursday.

A REMARKABLE 8-FOOT OPERATIVE MODEL OF A HUDSON HORNBARD LOCOMOTIVE HAS BEEN COMPLETED BY JOHN F. LIMSEY OF CHICAGO AFTER 16,000 HOURS OF LABOR DURING THE PAST NINE YEARS. MADE ENTIRELY BY HAND, COMPLETE IN ALL DETAILS, THE MODEL WORKS UNDER 250 POUNDS STEAM PRESSURE WITH ALL CONTROLS OPERATED FROM THE CAB. IT IS VALUED AT \$30,000.

RAILROADS NOW EMPLOY ABOUT 100,000 WOMEN AND GIRLS FOUR TIMES AS MANY AS BEFORE THE WAR. BUT ALL AS STEAM OPERATORS AND PHONE OPERATORS BY A LONG SHOT MANY MORE IN BOUND-HOUSES, SHOPS, FREIGHT HOUSES, FREIGHT YARDS, AT FUEL STATIONS AND ON TRAINS.

WHEN MECHANICAL DIFFICULTIES THREATENED THE PUBLIC WATER SUPPLY OF THE CITY OF PORTLAND, MICHIGAN, RECENTLY, THE GRAND TRUNK RAILWAY PROMPTLY CAME TO THE RESCUE BY LENDING A STEAM LOCOMOTIVE TO OPERATE THE WATER PUMPS DURING THE EMERGENCY.

ASSOCIATION OF AMERICAN RAILROADS (AAR)

## Big Bones Found In South Texas

AUSTIN, Oct. 8—The extensive prehistoric elephant collection of the Texas Memorial Museum of the University of Texas has a new inhabitant, Dr. E. H. Sellards, director, has announced. Several bones of a mammoth

beast which probably stood about 14 feet high at the shoulder have been recovered in Atascosa County by the museum paleontologists. The find resulted from a tip from State Highway Department workers. The museum already has a large collection of skeletal remains of elephants or mastodons from some 50 localities in Texas, but this is

the first to come from Atascosa County, Dr. Sellards said.

### Hansford County Has Prize Wheat

College Station, Oct. 1—Hansford County wheat growers captured the lion's share of honors in the state-wide wheat milling and baking contests held early this month at a county fair in Wichita County.

Crowder's samples received the first, second, third, and fifth places despite very stiff competition throughout the state.

Such honors are not new to Hansford County growers who have cooperated in a wheat improvement program for six years. In 1942 samples from the county placed first and second in the state-wide contests in Amarillo, and the county also has won top honors at the International Show. During the past four years, Hansford County has won three firsts and has garnered all 11 of the 20 prizes available.

County Agricultural Agent Joe

M. Hatton reports that F. R. Wallen's sample of Tenmarq was placed first in this year's contest, while second was won by R. C. Chase with Tenmarq, and third by K. D. Torjinson with Turkey Red. These three samples came from fields of certified wheat. Fifth place went to R. D. McClelland and A. R. Bort who entered Standard Blackhull.

Every year since the contests were begun, Tenmarq or Turkey Red has won first place for milling and baking qualities, while Chiefkan—the "problem child" beardless wheat, has been at the foot of the list. The contests are sponsored by the Texas Wheat Improvement Association.

Samples of the county's winning wheat will be entered in the National Milling and Baking Contest in Kansas City next month.

These honors not only have boosted the reputations of the winning growers but have created a strong demand for Hansford County grain. Hatton points out. Since 98 per cent of the wheat in

### "THERE WAS I A-WAITING AT THE CHURCH"

### MILK PRODUCTION DECLINES IN TEXAS

AUSTIN, Oct. 8—Output of Texas dairy manufacturing plants declined again in August, as production figure on all products except ice cream dropped below those for July and for August of last year, the University of Texas Bureau of Business Research has reported.

The milk equivalent of all manufactured dairy products during August was 124,558,000 pounds as compared with 143,120,000 pounds in July and 131,841,000 in August a year ago, the report indicated.

The drop in American cheese production was termed "alarming" by Dr. F. A. Buechel, assistant director of the Bureau. Only 1,405,000 pounds were produced as compared with 2,048,000 a year ago.

### Age Assistance Declines In Sept.

AUSTIN, Oct. 8—The old age assistance rolls made a net decline of 313 cases during September, leaving on the rolls for payments in October 182,305 persons. Total payments amount to \$3,776,807.80, which is \$18,930.32 more than the cost of the previous month. The October payment averages \$20.72. Nine hundred thirty-six recipients were removed from the rolls because of current ineligibility and 937 died during

September while 1,560 new names appeared on the rolls during the month.

The blind rolls made a net gain of 61 persons. A total of \$112,970 will be paid in October on 4,604 recipients, averaging \$24.54 per person.

The aid to dependent children rolls sustained a net loss of 362 families, representing 838 children. A total of \$233,938 will be distributed in October to 11,018 families representing 24,295 children. The payment averages \$21.23 per family.

### How To Cook Dried Vegetables

College Station, Oct. 1—Many Texas rural families dried foods this year for the first time and have had little experience in the preparation of dehydrated fruits and vegetables.

While they will not equal in flavor, texture, or appearance the quality of cooked fresh vegetables, they are quite satisfactory if properly prepared and seasoned. The yield of prepared dried products varies, but usually one cup of dried vegetables will serve from four to six people, according to Hazel paration for the A. & M. College Extension Service.

In preparing dehydrated vegetables, here are some principles to follow:

Soak the dried vegetables in hot water just long enough to plump them, and cook them in the water in which they are soaked. Thirty minutes to one hour usually is sufficient for this "refreshing" period.

Some dehydrated vegetables, such as leafy ones or those powdered or shredded, may be cooked without soaking them. Drop these into hot water, seasoned with salt, and immer until tender.

Use a small amount of water—not quite enough to cover the vegetable.

Simmer rather than boil vegetables. Cook them only until tender—not until they are mushy. Use any left over water.

Increase the taste of dehydrated vegetables with interesting seasoning such as strips of ham or bacon, garlic, basil, sliced onions, and tomato sause as well as the more familiar seasonings—butter and milk.

## IT'S TIME TO Repair Roofs

It is no easy matter to get repairs of any kind made under present conditions, but the Texas Roofing Company of Lubbock is doing a mighty good job of keeping the roofs on homes and business structures over the South Plains.

Like every other concern they have had many difficulties in keeping experienced help, but to date every job has been taken care of within a reasonable length of time after the work has been ordered, and the work has been done right.

The Texas Roofing Company services all parts of the South Plains with repairs on all kinds of roofs and will make inspections on regular trips through Slaton. A postcard or letter will bring one of the Texas Roofing Company's

you have a roof that needs repairs, but to be sure of getting the work done before the winter rains set in, it would be good judgment to get in touch with the Texas Roofing Company as soon as possible.

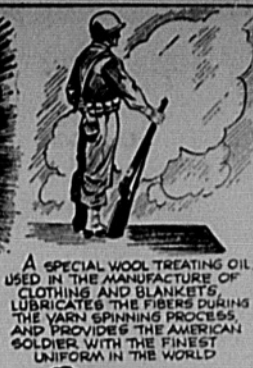

## Are You In Tune With The Times?

Are you in tune with the times? If not, you can easily get in tune by visiting the Adair Music Company in Lubbock, where the hottest and sweetest music, as well as the best of classical sheet music is on sale at all times. The Adair Music Company keeps in tune with the times in musical instruments, in sheet music, in musical supplies of all kinds for teachers of music and for home use and they keep a big supply of the newest recordings for reproduction. ## Southland News

MRS. FLOY KING.

Last week Harley Martin received the award for being Garza County's most outstanding club boy. Friday, County Agent Kimbrough assisted the local 4-H Club in their organization for the coming year.

Two weeks ago, Dorothy Lecker and the other student nurses at the West Texas Hospital joined the Army, 100%. Dorothy finished High School here in 1941. Spent a year in the Waukees Hospital in Milwaukee, where her aunt is head nurse and a year in West Texas Hospital in Lubbock, where she is now a Junior nurse. Sunday night her mother, Mrs. A. J. Becker, honored her daughter, Dorothy, with a birthday supper. Other guests were, Miss Gilbert, who is also a student nurse, and Sgt. Goldman and Sgt. Miller, who are stationed at SPAAFS. Other friends and relatives who called on Miss Becker were: LeRoy Voight, Oscar Nelson, Ben Bencker, Jr., Bernice Neugebauer and Doris and Mildred Becker.

Miss Ruth Reed who graduated here in 1942, is home on a 10 day vacation with her parents, Mr. and Mrs. J. O. Reed of Cordon. Ruth is employed with North American Aviation at Dallas.

Miss Marie Doherty of Slaton visited Edna Marie Spence Saturday.

Mr. and Mrs. J. T. Simmons returned home Saturday.

Congratulations to Mr. and Mrs. Heywood Basinger of Hackberry. Their daughter, Delores Anne, was born at their home Friday afternoon and weighed eight pounds.

Mr. and Mrs. H. A. King had as their guests last week their daughter, Mrs. Lee Leflar, and husband of Phoenix, Arizona, and Thursday Mrs. King and Mary Frances accompanied them to Weinert to visit relatives and on their return to Southland another daughter and husband, Mr. and Mrs. W. E. Bull, joined them. W. E. Bull being just recently discharged from Camp Swift and they were returning to Phoenix, Arizona, where they lived prior to his induction in service.

Mr. and Mrs. A. A. Ferguson of Barnum Springs visited her sister, Mrs. Donald Pennell Friday. Jack Oakley left Friday to visit his parents at Bailey and several brothers and sisters near Bonham.

Friday, the Southland Eagles went to Sundown, where the Roughnecks defeated them 32-0 in the second football game of the season.

There was no school Friday because two of the buses were not in running order.

A. V. Holman, who is employed at the air base in Roswell, New Mexico, came Tuesday to join his wife and two children, who have been visiting their relatives in this vicinity for several weeks. They plan to make their home in Roswell Tatum of some nearby town as

soon as they can secure a house.

Friday afternoon Mrs. H. D. Hallman and sister visited Mrs. Everett Samples.

Mrs. E. H. Ussery returned home last week from visiting in California.

Mr. and Mrs. Roy Dopson and children of near Ropesville were Sunday afternoon guests of her parents, the O. J. Harmonsons.

Sunday, Elton Truelock celebrated his eighth birthday. His dinner guests were: James Olin Harmonson, Calvin and Glenda Gramham, his sister, Eva Fae, who is employed in Lubbock, and Mrs. M. Truelock.

F. M. Allen sent his wife, the former Elnora Sokoll, a telegram, then arrived here at noon Thursday before she received the message. He lost no time in introducing himself to his four-months-old son.

Pvt. and Mrs. Clarence Taylor spent the week end at Hackberry with his parents the John Taylors. Clarence is stationed at SPAAFS.

Leon (Pete) King writes he met Bruce Payton who had just been cleaning a boiler on the same ship on which Leon was on duty. It was good to meet as Bruce had just come from the States and Pearl Harbor.

Last week Mrs. J. B. Jones received three letters from her husband at Attu. He wrote that on the fourth of July he attended memorial services and saw the grave of the Robertson from Post.

Last week Mrs. Charles Sokoll

## helps Solve Gas Ration Problem

With gasoline coupon reductions the problem of transportation becomes more and more acute, says M. L. Murray, local wholesale dealer for Conoco products and he says that each motorist will become more and more particular as to the kind of petroleum products that he uses.

Conoco gasolines and Conoco's famous Nth motor oils are getting the call in this section, says Mr. Murray, for the sales of these products show a steady increase, especially among the farmers who have to make every mile count. Particularly popular among the farmers is Conoco tractor fuel and Mr. Murray is exerting his best efforts to keep the farmers supplied both with delivery to the farms and in the quantity that the farmers need. "We feel that serving the farmer is one of the most patriotic things we can do," he said, "and we intend to keep up the work regardless of how difficult the problem may become."

Sr., received her first letter in almost nine weeks from her son. Probably Charles, Jr., was waiting to have news to write home. He has recently been promoted to Master Sergeant and is now stationed at Tucson, Arizona.

Man of house: "I miss the old cupid since it's gone."

The Mrs.: "You missed it before. That's why it's gone."

## "KERNEL" COTTONSEED'S SKIN MAKES MEAT · MILK · AVIATION GASOLINE

The "skin" of cottonseed—the hull—is an efficient, economical livestock roughage. Hulls also provide furfural for making synthetic rubber and aviation gas—added pounds of seed delivered to mills mean more hulls for livestock and industry.

D. C.  
Eligibility for new passenger tires (grade 1) has been restricted to "C" book drivers with a mileage of 601 miles or more per month. All "B" drivers and some "C" book holders will now be eligible only for used and recapped tires. The number of new passenger

tires available for rationing in the October quota will be reduced by one-fifth, the OPA recently announced. Quota for farm tractor and implement tires for October is 59,800 as compared with 73,600 in September.  
Livestock produced and sold under the auspices of 4-H Club is governed by the meat rationing regulation the same as other live-

stock, according to OPA. This means that the only persons who may obtain custom slaughtered meat point free are livestock producers. However, OPA permits such recognized boys' and girls' farm organizations as 4-H Clubs to sell their livestock at a fair, exhibition, or an animal show at premium prices, as money from such sales usually helps provide educational funds for club members.

The German Army has nearly three times as many combat divisions in the field today as there were when the attack on Poland began four years ago, Major General George V. Strong, Assistant Chief of Staff G-2 (Military Intelligence) declared recently. Discounting any likelihood of an early collapse of either Germany or Japan, General Strong disclosed that the Germans had replaced the 20 divisions lost at Stalingrad last winter, and that the German Luftwaffe was larger now than in 1939. He said also that the weapons the Germans are making are in some cases better than any which the United Nations have.

Eleven gilts were shown at the meeting.

**ROSIE THE RIVETER IS COLLEGE INSTRUCTOR**  
DENTON, TEXAS, Oct. 8—After a unique summer "vacation" spent on the assembly line of a California war plant, Miss Florence Cullin, assistant to the director of teacher education at NTSTC, is back on the Denton campus, contagiously enthusiastic about the life of "Rosie the Riveter."

Because she felt she had to make a concrete contribution to the war effort, Miss Cullin boarded a California-bound train when the spring term closed last June and lost no time in volunteering for a place on the aircraft assembly line.

In San Diego, she donned overalls, packed up her lunch pail, and punched the time clock daily six days a week for ten hot summer weeks. Moreover, she was the only worker in her section who was not absent a single day during that period.

None of Miss Cullin's co-workers knew that she was a college teacher until the day came for her resignation and return to Texas. These fellow workers furnished the most interesting adventures of her summer, Miss Cullin declares, for they represented "a cross-section of America."

Would she like to do it again? "You bet I would, if I'm needed!" she declares. Just in case, she's saving her tools and her blue denims. Meanwhile, she is concentrating on another essential job on the North Texas State campus, the training of students for places in the post-war world.
