Chamber Of Commerce Considers Suggestions Received In Letters

The main topic for consideration at the Chamber of Commerce meeting Tuesday night was the replies to the form letters asking for suggestions to the improvement of Slaton which were sent out about two weeks ago. A disappointingly small number of persons bothered to reply, only six civic-minded citizens did so.

Probably the most important suggestion received was the building of an airport for Slaton. Other suggestions were to re-install traffic lights at the corner of Lynn and Ninth streets and Lubbock and Ninth streets.

The Chamber of Commerce voted to start a publicity campaign in the immediate future for the building of an airport at Slaton.

The Chamber of Commerce urges that all persons who received the form letters answer them with suggestions, but to return them, even if the person to whom they were sent makes no suggestions, so that it can determine that the letters did not go astray but were received.

Local Pastor Resumes Duties

J. LOYD MOYER

J. Lloyd Moyer, minister of the Church of Christ, will fill his pulpit next Sunday for the first time in more than two months. He has been devoting full time to evangelistic work during the summer months.

He was engaged in evangelistic meetings in the following towns: Petersburg, New Home, Crosbyton, Tahoka, and Plainview. He reports that the largest crowds in the history of these churches assembled for services, and that the public interest seems to be turning to things spiritual.

Mr. and Mrs. A. H. Putz of Batavia, Ill are the parents of a daughter, born Monday, Sep. 23, weight 8 lbs. 4 oz. Mrs. Putz was formerly Mary Elizabeth Florence.

Margary Lee, weighing seven and a half ounces, was born September 18 to Mr. and Mrs. A. L. Knight of Odessa. Mrs. McKnight is the former Doris Dean, daughter of Mr. and Mrs. C. W. Dean, Route 2, Post, and the father is with the Sanders Tire Company of Odessa. Both mother and baby are doing fine.

S/Sgt. Waylon Ferguson, wrote his parents, Rev. and Mrs. W. F. Ferguson that he would start back to the United States last Monday, Sep. 16. He sailed from Fukuoka on the Island Kuisu.

Clyde T. King, son of Mr. and Mrs. M. W. King, spent about 40 minutes here Sunday on his way to San Antonio, where he will receive his discharge. He has been in Yokohama Japan, for a year in the Postal Department.

Charges Filed Against Two By Local Police

Slaton law enforcing officers had a reasonably quiet week-end, according to Chief of Police Ernest Ward. A Mexican was arrested in the Flats Saturday night and charged in County Court with illegally carrying a pistol.

A negro is in the hospital for the treatment of a foot injury, suffered when the grandmother of a 12-year-old negro girl he is accused of assaulting shot him with a "long tom" shotgun and demanded that he wait for officers. The negro's foot was almost blown off, according to reports. The assault occurred after midnight Saturday. Charges have been filed against the negro man.

TCU Official Is Speaker At Christian Church Convention

The highlight of the District Two Convention of the Christian Churches held in Slaton Wednesday was the address by Dr. J. E. Montgomery, assistant to the President of Texas Christian University. Representatives from the fourteen churches, Aspermont, Brownfield, Lamesa, Levelland, Lubbock, Paducah, Plains, Plainview, Post, Roaring Springs, Slaton, Snyder, and Spur of this district were present.

Rev. Lon M. Davis of Floydada is president of the Convention; Rev. Tom Lenox, former pastor of the First Christian Church of Slaton, vice-president; and Otto F. Marshall of Floydada, secretary. Dr. W. A. Robertson of Brownfield was song leader.

Session began at 10 o'clock. Mrs. W. M. Kirkpatrick of Post led the morning worship service and Rev. Leon England of Plainview brought

Streets To Be Marked And Houses Numbered

The Boy Scouts of Slaton, under the leadership of Bruce Pender, Scout executive, have planned a project for numbering the houses of Slaton. They will come around at some time in the near future with the numbers and will tack them on the houses for a nominal sum. The numerals will cost five cents each and the Scouts will do the work for a small sum, which will be put into the Scout treasury for Boy Scout work. The total cost will be 25 cents or less to the residents of the house.

Under the sponsorship of the Junior Chamber of Commerce the streets of Slaton are to be marked. The Jaycees are planning to get this project underway soon. The street names and numbers will either be painted on the curbing at the corners, or an otherwise clear and accurate marking will be made. This will markedly improve the appearance of the town, and will enable everyone to locate houses correctly, instead of by trial-and-error method now used.

Rotary Club Executives Have Business Meeting

The Directors of the Slaton Rotary Club met with the President, Tuesday 5 p. m. at the Chamber of Commerce Office in business session.

Among important things that were taken up, one outstanding one was that of The Institute of International Understanding that is to be held by Rotary Clubs over the 127th District of Rotary for those that desire it. There is to be four speakers of International Repute and they will handle subjects worth while and of interest to the general public at this time.

Another program of interest was the Ladies Night that is usually the custom with Slaton Rotary, to entertain the Rotary Ann's some time in October.

Another worth while subject discussed was that of an Intercity meeting with either Post or Tahoka. — Alan Payne, Reporter.

LOCAL GUARD UNIT WILL SHOW COMBAT PICTURES

The Slaton unit of the Texas State Guard which is under the command of Capt. Jay W. Moore, is sponsoring a picture show with sound effects next Monday night at the City Hall. The picture, actual combat photographs, is entitled "Action Over Tokio."

The public is invited to attend this show, which starts promptly at 8 p. m. There is no admission charge, as it is furnished by the recruiting division of the Army Air Forces.

PROHIBITION RALLY TO BE HELD SATURDAY

There will be a Prohibition Rally on the city lawn Saturday afternoon at 3:30. Everyone is invited to hear Rev. B. B. (Cowboy) Crimm, the evangelist who is conducting a union revival in Slaton, talk on the effects of alcohol.

PAUL SHERROD, LUBBOCK TO BE GUEST SPEAKER

The Woman's Society of Christian Service of the Methodist Church will entertain the Missionary Circles of other churches on Monday, Sep. 30th at 3 p. m. in the basement of the First Methodist Church.

The speaker will be Mr. Paul Sherrod of Lubbock who was sent to Europe after the end of the war by the Church of Christ of Lubbock. Moving pictures will be shown which were taken in Germany and Switzerland during Mr. Sherrod's tour.

TOUCH-DOWN CLUB WILL MEET EACH WEDNESDAY

The Touch down Club will meet at 8 p. m. on Wednesday at the City Hall preceding each game during the football season, according to Johnny Sims, president. The Club met on Thursday night in previous years, but will meet on Wednesday throughout this year.

All members and prospective members are urged to be present.

Over the Wire

The Slaton Chamber of Commerce has received delivery on some very attractive folders describing the advantages to be found in Slaton with suitable illustrations. Those wishing to enclose them in letters to people who might be interested in Slaton may secure a limited number at the C of C office.

Post office receipts here have shown considerable loss the past two fall seasons due to the fact that there has been so little transient labor in this section and our chances for getting a new Post Office when the Government starts a building program are not being helped by this condition.

The Slatonite is again offering a line of Christmas cards that will be available with names printed or not printed, in boxes of 25. Samples are now on display at the Slatonite office.

Several changes in business ownership and management are pending in Slaton and will probably be announced soon.

According to reports there is much interest being shown in the coming election to legalize beer and a record vote is probable.

Ray Ayers says that he hopes to be able to invite the folks of this section to a big opening of his feed plant when he gets all of the new equipment installed in the new buildings.

According to reports the Crimm-Powell Revival in the big tent will continue through next week. The attendance has been good at all of the meetings.

Rev. Powell entertained the Rotary Club last Thursday a musical program of whistling and singing. Mrs. Allan Ferrell accompanied him and they did several numbers of whistling together.

City Secretary Maxey has filled the town with gloom, he is mailing out tax notices telling property owners how much their indebtedness will be.

It is reported that the camp for transient laborers is fairly well filled and farmers seeking help can usually find as many laborers as they need.

Reports concerning Horace Sanders, who is at Rochester, Minnesota, are that he is gaining strength and after further treatment at Mayo Hospital, expects to come home before long.

West Texas

Roundup

Work on the Crosbyton Co-operative General Hospital has been started.

Crosbyton will have one of the best rodeo grounds in West Texas when construction now begun is completed.

Southwestern Public Service Company is entirely re-building the distribution system. The lines are all being moved from streets to alleys, and both new poles and new wiring are being used. Also a new 6,900-volt line is being built to the rock crusher, as well as a 2,300-volt line to some irrigation farms.

THE CROSBYTON REVIEW

Carbon black from the local plant north of Seagraves is being shipped to foreign countries. Construction of the local plant was begun in 1944 and production was begun in 1945. Waste gas is the fuel used mainly for the production.

GAINES COUNTY NEWS

A mass exodus of farm laborers left the area around Hereford with a critical shortage of harvest crews for vegetable crops now ready for gathering. More than 150 families of laborers left the first of the week. The Deaf Smith County Food Products Company canning plant has been shut down due to this migration of laborers.

Wind and lightning did considerable damage to the Deaf Smith Food Products Company cannery recently. Minor damage to machinery was resulted from lightning striking the plant, and windows were blown out by the heavy wind.

THE HEREFORD BRAND

The Anton-Umbarger road project received favorable consideration at a recent meeting in Austin, in which representatives from all the counties through which the road will run met with the State Highway Commission.

THE POST DISPATCH

The Garza County school for veterans will open early in October, if a sufficient number of interested veterans qualify for the training.

THE CANYON NEWS

Tahoka had possibly the hottest city election in history recently, nearly 500 votes being polled. The election was a special one to elect an alderman to fill out the unexpired term of the incumbent who moved out of the city limits. A previous election had been held in which there had been a tie vote.

NEWSPAPER BARGAIN RATES NOW IN EFFECT

The Bargain rates that are now in effect on combination subscriptions to the Slatonite and renewal on the Fort Worth Star Telegram and the Slatonite and the Lubbock Avalanche may be cancelled at any time due to the fact that even more stringent paper shortages are now being felt than at any time during the war.

The Slatonite is also having difficulty in securing newsprint but for the present both new and renewal subscriptions will be accepted at the regular rate of \$2.00 per year. Renewal on either the Star Telegram or Avalanche will be accepted at the following rates: Star Telegram, 7 days per week, regularly \$15.00, bargain rate - - \$10.95.

Star Telegram 7 days per week and the Slatonite for 1 year, regularly \$17.00, bargain rate - - - \$12.45. Star Telegram, 6 days per week, no Sunday, regular -12.00, bargain - - - - - \$9.60.

Star Telegram, 6 days per week, and the Slatonite for 1 year, regular \$14.00, bargain - - - \$11.10. Lubbock Avalanche, including Sunday - - - - \$9.00.

Lubbock Avalanche, including Sunday, and the Slatonite, regular \$11.00 value - - - - \$10.50. Lubbock Avalanche, no Sunday, \$8.00.

Lubbock Avalanche, not including Sunday and the Slatonite for 1 year, regular \$10.00 value, - \$9.50.

No new subscriptions are available at the present time to the above mentioned daily papers, but the Slatonite will accept new subscriptions and the papers will be started as soon as possible.

Both daily papers report some cancellations of old subscribers due to the recent increases in subscription prices and new subscribers are added when those who fail to renew are taken off and we have been assured by both the Star Telegram and the Avalanche that new subscribers will not have to wait long for their papers to be started.

funds will be used to improve the school system.

THE PETERSBURG JOURNAL

THE ANDREW COUNTY NEWS reveals that although the First State Bank of Andrews is less than a year old it has resources of over one million dollars.

A committee, including the Commissioner's Courts of Dawson, Andrews, and Winkler counties went to Austin recently to attempt to secure designation of a state highway from Kermit to Lamesa. Most of the right-of-way from Andrews to Kermit has been secured and nine and a half miles of paving completed. This road not only will cut the distance to Kermit in half, but also will provide a hard-surfaced road to oil fields of southwest Andrews County.

Among the recent improvements in Andrews is the improvement of telephone equipment established at \$25,000. Two new switchboards, new lines, and installation of new French type of automatic telephones are included.

Andrews is also to have a new city hall, the construction of which has begun. It is a 40x60 foot structure of tile finished with stucco and plaster. The estimated cost is \$9,000.

THE MENARD NEWS AND MESSENGER says that bids have been advertised for building 14.45 miles of hard-surfaced highway west of Menard to the Schleicher county line. Construction will probably be finished early in 1947.

A proposed \$250,000 bond issue to the Deaf Smith County Hospital was defeated by two to one in a recent county election there.

The Hereford Chamber of Commerce will be represented at the meeting called in Vega by the president of the International Parks Highway Association (Highway 51). The Highway Department is ready to let contracts for paving on Highway 51 between Hereford and Vega as soon as right-of-way is secured.

Slaton Tigers Up Against Another Tough Game Tonight

With the first game of the season a loss the Slaton Tigers go up against another tough aggregation tonight when they face the Denver City team. Coach Tillery reports that his team has been put through the most strenuous training possible, and they are in a much better fighting spirit than they were against the Seagraves Eagles last Friday night.

The home folks all reported a thrilling game last week and are strong for the Tigers to win tonight.

Even though the Slaton Tiger football squad has an average weight of 154 to an average of 146 for the Seagraves Eagles the lighter team romped over the local aggregation last Friday night to a tune of 21 to 6.

Slaton showed up better with

passes than the Eagles but their line was weak and the invaders were able to go through at most any point at some time during the game.

Most spectators seemed to feel that Slaton has the material and a coach that has the ability to give them good training but that the players did not seem to have the fight in them that it takes to be champions.

The score was out of proportion to the qualities of the two teams and most Slaton fans say they were pleased with the local boys but they hope they will show more team work and better defensive tactics.

"We've got the weight, as many letter men as most teams in the conference, and a top rank coach," said one Tiger fan, "and we should have a winning team."

DISEASE LURKS IN A CHICKEN HOUSE

Through fall and winter the average laying house is a breeding ground for disease and parasites. During this period of cold weather the birds are living under crowded condition, cooped up in an enclosure that often either is ventilated poorly or is drafty and cold.

Under conditions like these, the health of your birds is in jeopardy. Your hopes for financial gain are at stake.

Winter Is Danger Period
At no time is good management of your flock more important than during cold weather — for this is the time when sudden heavy losses due to disease may be expected.

What are some of the things to be done to encourage better health and livability among your chickens?

First, see that your flock is not crowded. Allow for at least four square feet of floor space per bird for heavy breeds and three square feet for light breeds; Disease is more easily spread when chickens are crowded.

Keep the litter dry and clean, removing when damp and adding clean litter periodically. Stir it often.

See that the roosts are clean and sanitary and that they are constructed so that the birds are unable to contact the accumulated droppings underneath the boards. It's a good idea to remove the droppings at frequent intervals.

Keep Waterers Clean
Waterers should be clean. Watch them closely and when the litter surrounding the waterers becomes damp, replace it with clean, dry litter. Be sure your birds have adequate watering space as well as enough room at the feeding troughs to avoid crowding.

Make a special effort to keep every part of your laying house sanitary. You yourself may be guilty of spreading disease when you enter the house with dirty boots or bring in contaminated feed sacks or crates. There are countless other ways for infection to gain a foothold in the house, and constant vigilance on the flock owners part is necessary if this is to be avoided. The importance of sanitation cannot be over-estimated.

Make sure there are no cold drafts in the building for they may weaken the birds to respiratory infections or possibly other diseases. At the same time the ventilation should be good enough to insure that there is plenty of fresh air at all times.

THIS WEEK'S LESSON

"Reality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientists, on Sunday, September 29.

The Golden Text is: "In God is my salvation and my glory; the rock of my strength, and my refuge, is in God" (Psalms 62:7).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I had fainted, unless I had believed to see the goodness of the Lord in the land of the living" (Psalms 27:13).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "If sin, sickness, and death were understood as nothingness, they would disappear. As vapor melts before the sun, so evil would vanish before the reality of good. One must hide the other. How important, then, to choose good as the reality!" (page 480).

Old-Age and Survivors Insurance is a Government insurance plan for wage earners in business or industry. As the name implies, it protects both the aged worker and the survivors of young as well as old workers who die. It provides benefits for workers after they reach age 65 and stop work, and benefits for widows and children (in some cases parents) of insured workers both young and old—who die.

Thank Goodness! NOW I HAVE ELECTRICITY IN MY HOME

It's a great day when the last wire is in place and you can flick a switch and have electricity at your command.

It has taken time to bring the wonders and advantages of electricity to folks in this great area.

But today, in a major part of our 12 million dollar expansion program, we're stretching our rural power lines to reach more and more farms and ranches.

Folks in those homes have been waiting a long time for low cost electricity, and many of them can look forward to better living electrically.

A pioneer in building ahead for the future, we're proud that in our 22nd year we can bring low cost electric power to so many more of you.

Mrs. Floy King

There was no church at the Methodist church Sunday on account of Rev. R. B. Walden, was taken suddenly ill about four o'clock Sunday morning. A good crowd was out for Sunday School.

Tuesday night at the school auditorium the P. T. A. held their executive committee meeting under the leadership of the president, Mrs. Hubert Taylor. All officers were elected last spring, the list is not available.

The membership drive will be held at the next meeting, Oct. 1, at 7:30 p. m. Tuesday afternoon. Parents would be as interested in this organization as our teachers are.

The membership fee is 50c. Each parent joining that meeting, Oct. 1 will be given one vote for each child he or she has in school. Two \$5.00 prizes will be given to the Grade school room and the High School class having the most votes. An interesting program is planned.

Ford Shropshire of Post, who preached at the local Church of Christ Sunday, will preach here every first and third Sundays. The Church of Christ has already made definite plans for their revival, next summer. Brother Dean Brookshire, who formerly lived in Slaton, will do the preaching; the beginning date is third Sunday in July and the meeting will last two full weeks. The seats are to be moved outside for night services.

Rivals for the enjoyment of the large audience of the Eastern Stars play Thursday night, were the in-between acts and the music. The latter most popular numbers were Randall Weaver's accompaniment on the mandolin to three violin pieces played by his father, T. L. Weaver; and four songs sung by the six-year old Pair girl, both children attend the Wilson school.

Those attending the Baptist Annual Association at Calvary Church Lubbock, last Tuesday were: Rev. and Mrs. Emmitt Brooks and daughter, LaVerne, Mr. and Mrs. A. F. Davis, and Mr. and Mrs. C. A. Bloxom. Wednesday the Brooks and Davis families attended.

Wednesday night there were 55 present to hear the Baptist Sunday School program. Beginning this week the Young People's choir will practise after each mid-week prayer meeting, and the pastor and leader, John Leake urge all members to be present. Rev. Brooks hopes to take a Young People's program to neighboring churches.

Mr. and Mrs. Buddy Hall accompanied Mr. Henry Edwards to Ft. Davis last week on a two-day visit and business trip. They visited in the home of Mrs. Hall's sister, Mrs. Bob Sproud and family. Mrs. R. C. Green was substitute

teacher for the seventh and eighth grades in Mrs. Hall's place.

Last Wednesday evening there was a business meeting at the Methodist Church. Sunday School and church officers were nominated, to be presented to the church here at Quarterly Conference, Oct. 26th at 7:00 p. m. D. L. N. Lipscomb, Superintendent of Lubbock District will preach the Conference sermon. This veteran preacher of the Plains has previously spoken here and a large crowd is expected.

A MESSAGE TO INSPIRE CHRISTIAN UNITY

J. Lloyd Moyer Phone Res. 239 J
Box 583, Slaton, Texas Office 333

Subject: Is Obedience Essential to Salvation?

This question is of mutual interest to all who entertain a hope of some day walking the streets of gold. It is a question which should never have been raised in the minds of the masses. In view of the fact that God gave certain COMMANDS and LAWS; it seems superfluous to ask, "Is it essential that we obey them?" Why would God have given them if He did not intend that we should obey? We may attribute the confusion over this subject to an improper attitude toward the Bible. If all people would study the Bible with the idea of DOING what God commands them to do, rather than trying to find a scripture that will justify them for NOT doing what is commanded, or for substituting something else, the controversy would never have arisen. If the integrity of the Bible is to be maintained, man cannot question it's commands.

WHAT DOES THE BIBLE SAY?

The only way for the religious world to ever settle its differences is to go to the Bible. If the Scriptures tell us to do a thing then, that should settle

that thing in the minds of all honest people. The question is—does the Bible teach that Obedience is essential to our salvation? Can man be saved WITHOUT obeying the Commands of Christ? (Matt. 7:21) "Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that DOETH the will of my Father which is in heaven." From a casual reading of this passage, one may see that ONLY those who DO the will of the Father will go to Heaven. (Heb. 5:8-9) "Though he were a Son, yet learned he obedience by the things which he suffered. And being made perfect, he became the author of ETERNAL SALVATION TO ALL THEM THAT OBEY HIM." This is either true or it is not true. If you are of the persuasion that one does not have to obey Christ to be saved; then you do NOT believe this passage.

(2 Thess. 1:7-9) "And to you that are troubled rest with us, when the Lord Jesus shall be revealed from heaven with his mighty angels, in flaming fire taking VENGEANCE on them that know not God, and that OBEY NOT THE GOSPEL OF

our Lord Jesus Christ: Who shall be punished with everlasting destruction from the presence of the Lord, and from the glory of his power." Friends, never let anyone tell you that you can be saved without OBEYING THE GOSPEL. This scripture says in all plainness that you cannot. It says that Christ will TAKE VENGEANCE ON ALL THAT OBEY NOT THE GOSPEL.

(Rom. 6:17-18) "But God be thanked, that ye were the servants of sin, but ye have OBEYED from the heart that form of doctrine which was delivered you. Being THE N MADE FREE FROM SIN, ye BECAME THE SERVANTS OF RIGHTEOUSNESS." Thus—all who would be made free from sin must OBEY from the heart. All who would become the servants of righteousness MUST OBEY. These are plain statements from God's holy word; if they are not true, then NONE of the scriptures merits our consideration. On the other hand, if they are true, then we MUST abide by them. But if we abide by them, OBEEDIENCE IS ESSENTIAL TO OUR SALVATION.

A REPORT

on telephone progress in Texas

The first postwar year was the busiest year we've ever known, filled with work to give telephone service to those who are waiting and to improve service for everyone.

We have put in 240,000 telephones in Texas—nearly twice as many as in any prewar year. We are handling more calls per telephone now than in the rushed days of the war. And even this record-breaking performance has not been enough.

But we're glad to say we've been able to take care of most customers whose applications were held up by lack of facilities on V-J Day—and in most places, most of the time, service is fast and good. Operators are answering 9 out of 10 calls within 10 seconds.

Demand Up

On the other hand, more people than ever are applying for telephones—24,000 a month for the last six months. Prewar months averaged 11,000. Thus, as we go ahead on one front, there are increasing demands on another.

We want all those waiting for telephone service to know we are doing our best to get it to them. It is just as much an emergency to us as a hurricane—but this is country-wide.

Bell System factories today are working around the clock, three shifts a day. And—despite scarcities—are

even breaking some records set in boom days years ago.

In Texas we're putting the new equipment to work as fast as we get it, and putting up new buildings to house it when necessary.

People Are Telephoning More

This first postwar year has also brought an extraordinary increase in telephone use. Local calls are now 7½ million a day in Texas—nearly 1½ million a day over last year. That rise would have taken several years in normal times. Toll and long distance calls are also at all-time highs.

We have increased our forces to handle your rising telephone needs. Now we have 48,000 employees in the Southwest—more than ever before. This is an increase of 11,000 since the war ended. About 6,000 are returned veterans.

It will take a great deal of money and some time to do all the things we have planned for your telephone service, but our 250-million-dollar 5-year expansion program in the Southwest is well under way. During the first postwar year alone we spent about 50 million dollars providing telephone equipment.

It all adds up to our desire to serve well everyone who uses the telephone. And to do it always with courtesy and understanding.

We pass this on to our tax planners in Washington without charge.

One of our customers asks that what this country has too much of is taxation.

If we don't look out, we'll be out on a limb like a ventriloquist's dummy.

Some one has said that we should pay our taxes with a smile, but we always found that the tax collector wanted money and lots of it.

It won't take as much money as you think to buy our Mobilgas and Mobiloil.

JUST TALK
by
A.M.J.

Dr. W. E. Payne, made a call on me last week, not in a professional way I am glad to say, and said that he wanted to tell me he read the letter in the Slatonite written by Joe Turner of Carsbad, New Mexico and the Doctor said he feels something should be done and done right now about establishing some kind of air port for Slaton.

Even if it takes a public subscription to get the job done it should be undertaken. Dr. Payne said that Mr. Breedlove of the Lubbock airport told him that the operators up there would do everything possible to help get one going in Slaton as it would be of much help to Lubbock fliers and that he would be glad to cooperate with any individual or company that could be persuaded to operate an air port in Slaton.

It is said that airports in towns much smaller than Slaton are operating under private ownership at a profit and it is possible that some individual might be interested in such an enterprise here. If so the Chamber of Commerce and other civic organizations should offer some financial help to get the

field in operation. If there is such a person the Slatonite editor will be glad to help him get in touch with people who might be willing to help him get established.

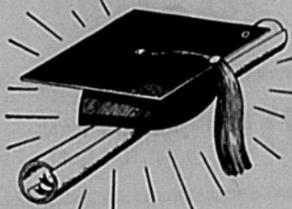

Most everyone predicts tough times, but most all of us have more money than we ever had before in our lives, we are all in favor of keeping the prices down on everything except the things in which we deal, that is if we are merchants or business men, and if working for wages we howl to hold the line on everything except on salaries.

It has been my habit to howl just as loud as anyone else and to endeavor to keep from buying things at the present high prices but it makes no difference which way one turns you must pay a hunk of money or do without and I'm about convinced I might as well go around begging folks to sell me things I don't need like every one else.

Perhaps it is just a different viewpoint but it seems to me that the women are not near as good looking as they were when I was twenty years old. The young ones are dizzy and the older ones fat. The young ones seem to dress fancy from the hips up and wear shoes that look like they had stepped in a bog hole and had not gone to the trouble of digging off the mud. They either go bare legged or wear short sox and they look like grown women above and like grade school ganglings below. And the boys if they don't take the prize for appearance. They either

SET YOUR SIGHTS

It takes planning to achieve a goal

Some young men know what they want and plan for it. Others are still looking for their niche. The new Regular Army can help both.

Perhaps you want to go to college but can't afford it. If you enlist in the Army, you'll get your chance. Honorably discharged after a three-year enlistment, you are eligible for 48 months of education at any college, trade, or business school for which you can qualify. The Government will pay your tuition, laboratory fees, etc., up to \$500 per ordinary school year, plus \$65 a month living allowance—\$90 a month if you have dependents.

If you haven't found your spot, an Army enlistment offers you training in any of 200 trades and skills. You leave the service eligible for further training at the best civilian schools.

You can assure yourself of the benefits of the GI Bill of Rights if you enter the Army on or before October 5, 1946. See your nearest Army Recruiting Station for details.

HIGHLIGHTS OF REGULAR ARMY ENLISTMENT

1. Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men now in the Army with 6 or more months of service.)
2. Enlistment age from 18 to 34 years inclusive (17 with parents' consent) except for men now in Army, who may reenlist at any age, and former service men depending on length of service.
3. A reenlistment bonus of \$50 for each year of active service since such bonus was last paid, or since last entry into service, provided reenlistment is within 3 months after last honorable discharge.
4. A furlough for men who reenlist within 20 days. Full details of other furlough privileges can be obtained from Recruiting Officers.
5. Mustering-out pay (based upon length of service) to all men who are discharged to enlist or reenlist.
6. Option to retire at half pay for the rest of your life after 20 years' service—increasing to three-quarters pay after 30 years' service. All previous active federal military service counts toward retirement.
7. Choice of branch of service and overseas theater (of those still open) on 3-year enlistments.

POSSUM FLATS . . . "SCHOOL DAYS"

By GRAHAM HUNTER

wear no hat at all or wear one that they must sleep in if one is to judge by appearances and if they do not have on overalls, clod hoppers shoes and skin tight sweaters they have on bilious green, London purple or egg yellow coats with pants not to match, in fact the more repellent the color combinations the better. How in the world any of them ever fall in love with the other is a mystery to me. However I suppose I should stop worrying about things like this.

I went in the kitchen feeling like the papers say most people feel in India, and what was there to eat? Nothing but a box of stale crackers. There is nothing as filling as milk and crackers and nothing that I know of that will have as much ill effect at two o'clock in the morning.

Whether the car we are now driving has been a better car than the previous ones that have bumped us over the roads I do not know but the sight of a new model automobile does not stir me at all. Before the war we usually bought a new car every two years and each year as the new models came out I felt that my own car had broken down but they'll have to put more gadgets on the new ones than they have to make me get excited now. I remember when they put cigarette lighters on the instrument

boards for the first time and although I seldom saw any one use them and after two weeks most of them were out of fix, I had to have a new car with a cigarette lighter and it cost me fifteen hundred dollars.

They'll have to get something like a hammock or a feather bed attachment now to get me to part with the old car that has taken me through the past five years.

It has always been a mystery to me how some folks have time to mix around with other people as much as they do and still have time to do a big days work.

There are hundreds of fine folks in Slaton that I would like to know better and I seem to be in a rut with the ones I do associate with. One has only twenty-four hours in a day and one has to sleep a little, it may be different with other folks, but it seems to me that the devil is after me all day with a fork and half the night but it is fun trying to dodge the fork and the folks who come in to jab me sure are fine folks. I wish I had more time to gripe with them. If you have anything with which you are not pleased come down to the Slatonite office and I'll do my best to help you howl.

FORMER RESIDENT MARRIES IN ABILENE

Among the out-of-town guests at the wedding of Miss Rosemary Hambrick and Berne Glover in Abilene, was Mrs. Verne Johnson, sister of the groom.

The bride is the daughter of Mrs. Ethel J. Hambrick and the groom is the son of Mrs. Olga Cardwell, both of Abilene. The groom and his mother are both former Slaton residents.

The bride wore a suit of platinum gabardine with black accessories. Her bouquet was of white orchids and stephanotis on a white Bible. Shirley Gaskell, maid of honor, wore an aqua gabardine suit and carried pink gadiola.

Pat Williams was best man and Odell Young and Louie Cohen were ushers.

Mrs. George W. Fry and Miss Nancy Cunningham furnished the music. At a reception held at the home of Mrs. Ann Smart's, Mrs. Ronnie White and Mrs. B. H. Hambrick served cake and punch. Mrs. Verne Johnson presided at the guest register.

legalizing of the sale of beer in Lubbock, County. Since the forth coming election set for Oct. 5th will determine whether or not it shall be legal, is, in my opinion, one of the most important questions of the time. This is the first opportunity Lubbock County has had to try legalizing the sale of beer since 1933-34. In these elections, I note that the dries were in majority in 1933 by four hundred votes and 1934 by eight hundred which were no land slides in deciding the wet and dry issue.

I have been in the service, stationed in a great many camps and cities over the United States which were wet and have been in a great many cities which were dry. I found the cities which were wet to be the cleanest morally and saw less drunks and racketeering to say nothing of the thriving business enjoyed by all the merchants in the wet towns. It seemed that people from all surrounding areas traded in these wet cities, buying their supplies of dry goods, groceries, drugs, hardware, and general needs, even tho they did live closer to other cities which were dry.

Lubbock County is the district office for the State Liquor Control Board, Rangers, State Hiway Department and the F.B.I. These branches of law enforcement, together with the county and city police, would surely see that the legalized sale of beer in this county was kept clean and decent. I also understand that it would be handled under city, county and state health regulations to say nothing of approximately 26 laws governing the licensed dealer. Any of these twenty-six laws not observed and enforced by a dealer; such as, selling minors, drunks, mooching, indecency, profane language, sale of more than a specified quantity to any one person, immoral conduct, drinking of hard liquors on the premises, gambling, employees drinking on the job, etc. etc, can

cause the dealer to lose his license. The United State Government has beer for sale in all army bases in the United States in both wet and dry states and areas. Beer was also shipped over seas o all battlefronts and rationed to men like food and water. Our government would not permit this if it were not clean and decent and considered wholesome nourishment.

I personally would like to see Lubbock County try the legalized angle of handling a mild beverage which would moderate drinking to a large extent. If this does not prove satisfactory, I will be among those to help vote it out at the next election.

Yours very truly,
Gene Kirkpatrick

Going Fishing? Here's How!

To hear Willie Wells and Basil Strube arguing about trout fishing, you'd think it was more important than the atom bomb.

Willie favors dry flies, Basil pooh-poohs anything but wet flies. Willie swears by a Royal Coachman; Basil won't hear of anything but a Silver Doctor. And by the time it comes to steel rods versus bamboo rods ... #IX&*!!!

But on Saturday, each got back from Seward's creek with a catch that couldn't have differed by more than several ounces!

Each had used his favorite kind of fly, his favorite rod and his favorite place to cast. So over a friendly glass of beer, they allowed as how maybe they were both right ... which is how so many arguments should end.

From where I sit, if we all respected one another's different opinions—whether about trout flies, or drinking beer, or voting, life would be a whole lot pleasanter.

Looking Ahead

HOWEVER successful America's system of free enterprise has been, faith in planned economy has spread rapidly over this nation's political thinking in the last 25 years. It is strange that the world's most prosperous and influential people should forget how its power was built, and think about imitating a plan that fails every time it is tried, but that's the picture.

How did planned economy get into the picture in the United States? This is the country with no peasant class! It is here that laborers drive their own motor cars. This is the land where farmers live like lords in the older countries. It must have been a strange set of circumstances that turned the eyes of a favored people to look with envy at under-fed and over-worked races beyond the seas.

Happened AFTER Liberty Bell This Way had been silent 150 years, the Statue of Liberty grew green with tarnish and people began taking freedom for granted. Carefree descendants of men who endured Valley Forge ceased to appreciate their costly birthright; simply had no idea how it would seem to be without freedom. Sly digs at America and her people were swallowed down by an open minded generation.

Protected by the free-speech clause in our Constitution, soap-box orators started braying against invested capital. Crafty minds coiled such slurs as "entrenched greed" and "economic

royalists" to stir up envy. To make success in business seem dishonorable. Wordy wars against "coupon clippers" frightened investors, large and small, and choked the flow of capital into business.

IT IS NOT possible in Inertia any country to provide abundant lives for the masses by raiding the rich, but the idea was hatched and spread around in America. Armies of idle people were trained to rely on government instead of on themselves. Even in schools supported by the state, boys and girls learned to question the value of individual opportunity, a cardinal liberty.

War came, and it was two years old before victory was even reasonably certain. Government rightly seized the nation's resources and manufacturing plants, and soon America's breadwinners were in war work, drawing the highest pay they ever heard of; Uncle Sam going in debt 150 million dollars a day. Things to buy became scarce, the loose money rattled in their pocket.

Quite naturally people of government the credit when, after four years of government management, they had more than they could spend. All the facts were not related. A public debt, the appropriation of the country's worth, keeping even if their wallets were stuffed with "lettuce" because there were not enough things to buy.

TEXAS TECH NOTES

More than 40 night classes have been scheduled this fall at Texas Tech in an effort to meet the high enrollment in the school's history. Pres. W. M. Whyburn announced this week.

Beginning of construction toward installation of the proposed 650,000 library stacks at Tech was seen this week when final measurements were taken preparatory to making steel work for the stacks. Several hundred students have already asked for reservations for

the Texas Tech - SMU football game slated Oct. 5 in Dallas, according to athletic officials.

Approximately 1400 teachers have found positions through the Teacher Placement Bureau, in the 10 years since the bureau's organization.

The problem of which 33 of a squad of 70 good players to take to San Antonio for the Sep. 28 game with the Texas Aggies is causing Coach Morgan much trouble.

There are no two generals in the country more famous than General Motors and General Electric.

If you stand in the way of your friend's prosperity you'll only hinder your own.

The girl who won't marry you may have a dozen reasons. Chances are the first one is that you don't have enough money, and the other eleven reasons are things that she wants.

Washington and Indiana are the only states technically American in name. Washington was christened after the first President. Indiana was so named because large tracts there were purchased and settled by the Indians.

BIG CROWD EXPECTED AT TEXAS STATE FAIR

Plans for handling an expected record crowd of over a million and a half visitors to the State Fair of Texas, held at Dallas October 5-20, were announced Saturday by Police Inspector O. P. Wright, Fair Park Chief of Police.

A special force of 150 men, uniformed members of the Dallas Police Force, detectives, and special guards to patrol areas and police crowds in assigned areas have been picked for the job of seeing that events and crowds run smoothly.

Biggest problems will be traffic and lost children, predicted Inspector Wright. Fair Association members in the Hall of Foods and police officers will assist parents in locating lost children.

No-parking areas, one-way streets, and the marketing of suitable routes leading to the Fair grounds have all been considered to solve the problem of increased traffic flow. Internal parking

grounds have been designated as the old race track, the softball field south of the Administration Building, and a space near Washington Ave.

Surveys have been made of all exits to facilitate an easy outflow of traffic during peak loads at football games and other special events.

Here Is the Latest News about Chevrolet Deliveries

Everybody from factory to dealer is doing everything that can be done to speed deliveries to you

We have been informed by the Chevrolet Motor Division that the past month has witnessed only a slight improvement in the rate of production of new Chevrolet passenger cars. As a result, shipments of new cars to dealers for delivery are still far below the level we and the factory had hoped to attain by this time. In fact, through August, Chevrolet's output of cars in 1946 was only 22.6% of the number turned out during the corresponding period of 1941.

We know that Chevrolet is doing everything possible to step up its production totals—to ship more and more cars to us and to its thousands of other dealers throughout America . . . and we know, too, that we are assured of getting our full proportionate share of the current output and of future production gains.

Disappointing as the total figures have been—and despite the fact that Chevrolet was out of production entirely during the first three months of the year—it is nevertheless true that Chevrolet led all other manufacturers in production of passenger cars during June 1946, and has continued to maintain its lead in total production from that day to this.

We shall continue to make deliveries of new Chevrolets to our customers just as fast as we receive them; we regret delays as deeply as you do; we thank you for your friendly patience and understanding; and we promise you a new high motoring experience when you take delivery of your new Chevrolet, giving BIG-CAR QUALITY AT LOWEST COST!

VOTE AGAINST BEER!

BEER!

and you'll be voting against reckless driving --- poverty --- juvenile delinquency and hundreds of other social ills that are often directly or indirectly caused by alcoholic beverages --- and don't be misled, BEER at 4% is a very potent habit-forming drink.

Do not be misled --- there is NOTHING that can be said of intoxicants that is good --- even the liquor companies themselves advertise nothing that can do good and compete on the statements that one brand will do less harm than others.

No one can give a single reason for wanting beer or liquor except that they find pleasure in drinking it and there is every reason in the world for those very ones to do without it.

If you have a home town interest at heart and do not want the kind of people in our town who sell and promote the sale of liquor.

What They Write

My father came to Slaton when the town was first laid out, bought some lots and built a house. In 1887 we moved to Slaton and it has been my home ever since. It has always been a nice clean town, with good, honest, hard working, upright citizens. Now someone is trying to ruin it by bringing in beer. Sweetwater and several towns had beer for awhile and saw what it did for them and they got rid of it as soon as they could. They learned the hard way. Why not be wise and profit by their mistake?

Not long ago I walked down the street of a wet town that was lined with liquor stores, beer joints, greasy spoon cafes, flop houses, hook shops etc. Looking into the beer joints through a fog of smoke I could see men and women drinking and smoking. They looked like a bunch of thugs and streetwalkers. A drunk man lay on the sidewalk asleep in the hot sun, sweat running down his red face and flies swarming in and out of his open mouth. I went into the courthouse for a drink of water. Another drunk was lying in the hall. I went into a cafe to eat dinner, sat down by a man who was eating a bowl of chop suey, he pulled out a pint and offered me a drink and got insulted because I would not take one, so he took one for me and another for himself. He went to sleep and slobber ran out of his mouth into his chop suey, then he woke up and started to eat again. Incidentally I did not enjoy my dinner. I went down on the main drag and saw a drunk sailor boy leaning against a building. A teen age girl was trying to get

him to go with her but he cursed her and pushed her away. A cop came by and paid no more attention to them. I walked by the city jail which was full of men and women. They turned a couple out. Their clothes were caked with filth they had wallowed in. Do we want things like that in Slaton, I saw more drunks and drinking in a few hours time than I saw during all the years of prohibition. During prohibition the drinkers at least hid out so other people would not have to smell them and listen to their vile, filthy, vulgar and profane language.

If liquor is so easy to get in dry territory, why do the "Wets" try to vote it wet? That is just one of the Devils excuses he uses to pull the wool over the eyes of the innocent.

It is against the rules of the railroad company for their employees to drink because it endangers their lives as well as the lives of others. However some of them drink. They think they "Can take it or leave it alone, and know when to quit," but lots of them have lost their jobs and their families had to suffer while daddy had to hunt another job.

One man started to church one night and met a friend. They stopped for a bottle of beer. He woke up in jail with a headache and no job.

I have taken drunks home and put them to bed, gotten them out of jail, helped them off trains and seen them suffer a thousand deaths. Yes, "The way of the transgressor is hard."

Friends and neighbors lets do our duty and vote against beer.
John C. Burton.

This Could Happen To Lubbock County And Slaton Facts About Beer In Gaines County . .

A BEER ELECTION HAS BEEN CALLED FOR SATURDAY, OCTOBER 5TH, TO DECIDE WHETHER GAINES COUNTY SHALL AGAIN OFFER BEER AND WINE FOR LEGAL SALE.

WHO WORKED UP THIS ELECTION? A few men who want to make money off the sale of beer and wine to their neighbors, regardless of the consequences to our community.

WHO WILL IT HELP? Nobody. Even the men who think they will get rich selling beer and wine to their neighbors will not profit in the long run. Just think over the list of those you know who have tried it.

WHO WILL IT HURT? EVERYONE — Business men, working people, farmers, professional people, and most of all, women and children. Have you ever heard of beer and wine helping anyone to permanent happiness?

DO YOU WANT SEAGRAVES AND GAINES COUNTY TO AGAIN BECOME THE HONKY TONK CENTER OF WEST TEXAS? THE SCAVANGER COUNTY FOR ALL NEIGHBORING COUNTIES? We did that once. Our reputation became so bad from coast to coast that our people were ashamed to admit, when they were away from home, that they lived in Gaines county. We were the laughing stock of all who knew us. WHAT KIND OF BUSINESS DID BEER AND WINE BRING TO GAINES COUNTY? The business of drunkards, thugs, thieves, prostitutes and their associates.

WHAT WAS THE EXPERIENCE OF THE COUNTY WHILE IT WAS WET? After four years of being wet we had more empty buildings in Seagraves than ever before in history. The business men joined forces to vote beer out so we could make a come back. Our town was flooded every week-end with hundreds of drunks who, being away from home, had no respect for our women, our children, or our property. Our women and children had to stay at home over the week-end or risk hearing or seeing something extremely embarrassing, if not been drunkenly accosted. WOULD WE HAVE HONKY TONKS AGAIN? YES. There is no law against them and any promises made by local men would not keep a stranger from coming in and saying that he didn't promise not to put in a honky tonk—usually called tavern.

THINK OF THIS. DRINKING AND DRUNK DRIVING WERE RESPONSIBLE FOR MORE DEATHS EACH AVERAGE MONTH, WHEN GAINES COUNTY WAS WET, THAN THEY NOW CAUSE EACH AVERAGE YEAR in this and adjoining Texas counties. By the return of beer to Gaines county our death rate and automobile wreck rate will increase sharply. Would you, by your vote for beer, be willing to condemn one man to death, much less help increase the over all death rate considerably?

AND THIS—Four times more people were arrested the last two years beer was sold in Gaines county than were arrested in the next two years, after it became dry. The fines paid became quite an item of community expense.

SOMETHING FOR THE BUSINESS MAN TO CONSIDER. The farm people of the surrounding farm territory quit coming to Seagraves to trade while it was wet. They got tired of being pushed around on the streets by the gangs of week-end drunks who came here from dry territory to drink. Seagraves has not yet recovered from this set-back.

Residence property offered for sale during wet days found very few buyers. Parents had no desire to own a home or rear children in a wet town. The town of Seagraves is so small that five drunks create a disturbance. During the last year it was wet there were often more than a hundred strangers FROM DRY COUNTIES, roaming our streets in various stages of intoxication. This brought quick death too our business section, social paralysis to our homes, dark day to our schools and churches.

WE STILL HAVE A LONG WAY TO GO TO RECOVER FROM THE SET-BACK WE HAD FROM OUR EXPERIENCES AS A WET COUNTY. YOU HAVE BEEN TOLD that we need beer here so that the school will have more money. The facts are that the schools ended the past year without a financial deficit—the first time for many years they had been able to pay their bills. The further facts are that the tax money derived from beer sold in this county would be paid into the state funds and the returns to this county would only be a fraction of a cent per student per year.

YOU HAVE BEEN TOLD that old age pensioners would benefit from the sales of beer in this county. That money would also be paid into a state fund and the pensioners of this county would benefit to the extent of less than a nickel per year.

YOU HAVE BEEN TOLD that beer would help business here. Yes, we heard before. It did help the honky tonk business BUT BEFORE WE WOKE UP IT HAD WRECKED NEARLY EVERY OTHER BUSINESS IN TOWN. Seagraves became the most backward town in the area. We haven't recovered from that HELPING yet.

THINK OF OUR FINE FAMILIES AND THE EXCELLENT HOME LIFE NOW BEING ENJOYED BY OUR PEOPLE. Would you destroy this? THINK OF OUR SCHOOLS, OUR CHURCHES AND OUR BUSINESS FIRMS THAT ARE GETTING ON THEIR FEET FOR A BETTER TOWN THAN WE HAD. WOULD YOU DESTROY ALL THIS?

We have better homes, better churches, better business houses and a happier town than we have ever had. Churches and Sunday School attendances are higher than ever before and still growing. Our schools are getting into the swing and our school buildings have been repaired extensively. There are more good homes now than ever before. WOULD YOU THROW ALL THIS AWAY? If you are a parent you know what you want. Ask your childless neighbor to help you. Give our women and our boys and girls a chance to live in a clean, God fearing town that develops Christian men and women who can take their place in any company throughout the world.

Let's not sink again to levels which we are ashamed of before other men. Let us stand squarely on our feet as men and women and state our position in no uncertain terms.

LET'S BE CITIZENS WHO ARE PROUD OF OURSELVES, OUR TOWN AND OUR COUNTY. LET US VOTE DRY! (The above information is furnished and distributed by men and women of Gaines county who want to prevent highway murder and all other evils that go with beer. We like our county as it is and pray that each of you will help us to maintain a clean, wholesome county in which we may rear our families and enjoy the better things of life.

We now have no poverty in Gaines county. People eat well, dress well and live well. Our people are taking pride in their homes and in themselves. All money spent is for a useful purpose.

You know what will happen if we go wet. Less food, less clothes, less comfort in many homes.

LOCAL ELEVATOR BUYS ABOUT A CARLOAD OF GRAIN PER DAY

Ray C. Ayers & Son, feed and grain dealers, report that they have been receiving about a carload of combined grain per day until the recent spell of damp weather, which has slowed down the combining. Although this is not a large amount of grain to be received by this firm at peak delivery time, it is more than had been expected this time of year.

Grain in this vicinity was planted later than is the usual time for planting, and the prolonged drought prevented growing, heading, and maturing. One man who farms on a large scale near Slide predicts that much more grain will be combined after the first of the year than before, if killing frost comes at about the usual time.

The late rains will permit grain to mature, and much of the acreage to grow for quite some time before starting to mature. Hence, in general, the combining will be much later than it would have been otherwise.

THE STATE OF TEXAS

TO: K. W. COLLINS and the heirs and legal representatives of the said K. W. COLLINS (the names of such heirs and legal representatives being unknown) Defendants, Greeting:

You are hereby commanded to appear before the Honorable 99th District Court of Lubbock County at the Court House thereof, in Lubbock, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 23rd day of September A. D. 1946, then and there to answer Plaintiff's Petition filed in said Court, on the 10th day of August A. D. 1946, in this cause, numbered 13864 on the docket of said court and styled MARCUS O. OWENS, JR. Plaintiff, vs K. W. COLLINS and the heirs and legal representatives of the said K. W. Collins (the names of such heirs and legal representatives being unknown) Defendants.

A brief statement of the nature of this suit is as follows, to wit: This is an action for title and possession of Lot 17 in Block 6, Flynn Place an addition to the City of Lubbock, Lubbock, County, Texas. Marcus O. Owens, Jr. at all times since January 1, 1945, was and is the fee simple owner of the above premises. On or about July 1, 1946, defendants unlawfully entered into possession of said land to Plaintiff's damage of \$500.00

WHEREFORE, Plaintiff prays for possession and title of said land and damages as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Lubbock, Texas, this the 10th day of August A. D. 1946.

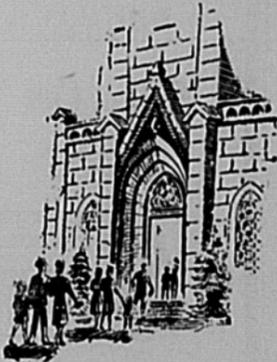

Attest:
 ROYAL FURGESON Clerk,
 99th District Court, Lubbock County, Texas.

CLOSE-UP OF A NERVE ?

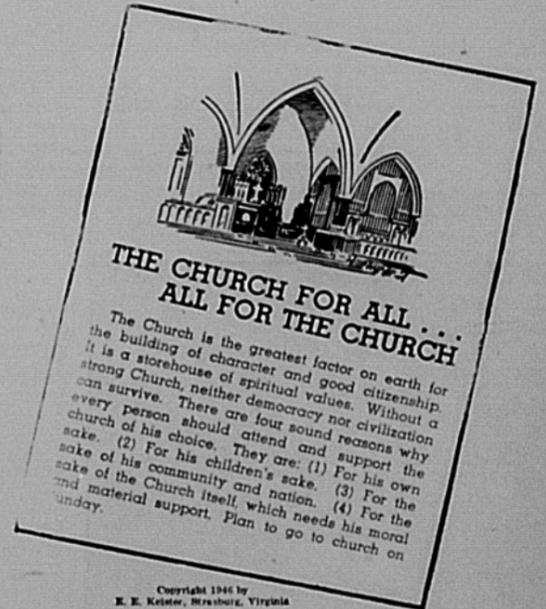

No. It's just a rope . . . at the breaking point. But, frankly, it's a good illustration of how a man feels when his nerves are "worn to a frazzle."

The Church has never claimed that religion is a cure for frazzled nerves. But a man's Christian faith does this for him:

It shows him a Purpose in life more important than mere existence. It shows him a Power more effective than his own strength. It shows him a Future more rewarding than selfish gain. And it gives him courage more lasting than the sheer force of his human will.

With these spiritual resources, founded in the certainty that God understands and helps, a man never reaches "the breaking point." For when his human reserve is exhausted . . . he has only begun to tap the vast reservoir of Divine Strength.

THE CHURCH OF YOUR CHOICE CAN SHOW YOU THE WAY!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday.

DO THE CITIZENS OF SLATON AND LUBBOCK COUNTY WANT BEER?

So many people feel that beer is a "modest drink" and is not to be classified with whiskey and wine. The first attempt made by wets in counties that are dry is always to legalize beer. This is the first step toward repealing all dry laws.

Science says: Beer is the worst form of booze. "Alcohol in any form is harmful. If it must be taken, whiskey is the least injurious. Particularly harmful are the malted liquors." —Dr. Sir Wm. Osler

"The constant use of beer is found to produce a species of degeneration of all organism, profound and deceptive. Intellectually, a stupor amounting to paralysis, arrests the reason, precipitating all the highest faculties into a mere animalism: sensual, selfish, sluggish, varied only with paroxysms of anger, that are senseless and brutal." —Dr. T. H. Crutcher, Secretary of American Society for the Study of Inebriety, Hartford, Conn., U. S. A.

"Alcohol is alcohol either in whiskey or beer. It is nonsense to claim that beer is a hygienic drink. It is drunk chiefly for its alcoholic effect, and if the alcoholic effect produced the danger of alcohol exists. Furthermore, heavy beer-drinking adds the danger of excessive fluid intake, entirely apart from alcohol." —Dr. Eugene Lyman Fisk.

"There is not a thought in a hognose of beer; there is not an idea in a whole brewery. Nothing

of merit was ever written under the inspiration of lager-beer. It stupefies without invigorating, and its effects upon the brain is to stagnate thought." — Theodore Roosevelt.

Authorities say there are more Alcoholics than Tubercular or Cancer Patients—Spread of Disease Lawful—
"Do you know that there are more patients suffering from chronic alcoholism than there are patients suffering from either cancer or tuberculosis?" In a speech at Buffalo, N. Y., recently, Dr. Selden D. Bacon of Yale University stated that there are about 3,000,000 persons in the United States who are afflicted with alcoholism, one quarter of them being full-fledged alcoholics.

One quarter of 3,000,000 is 750,000. Compare that with 500,000 cancer patients, and 700,000 suffering from tuberculosis, and you have the picture.
We are continually concerned in America with means of cure and prevention of tuberculosis and cancer. We are making every effort possible to bring about the cure of these diseases.

But what about alcoholism? We find ourselves in the position, that in the case of a disease which has more victims than either tuberculosis or cancer. There is an organized business selling the product which causes alcoholism.
If alcoholism is a disease, and it is near epidemic proportions now, let us treat the disease scientifically and as far as possible eliminate the cause for it.—The Voice.

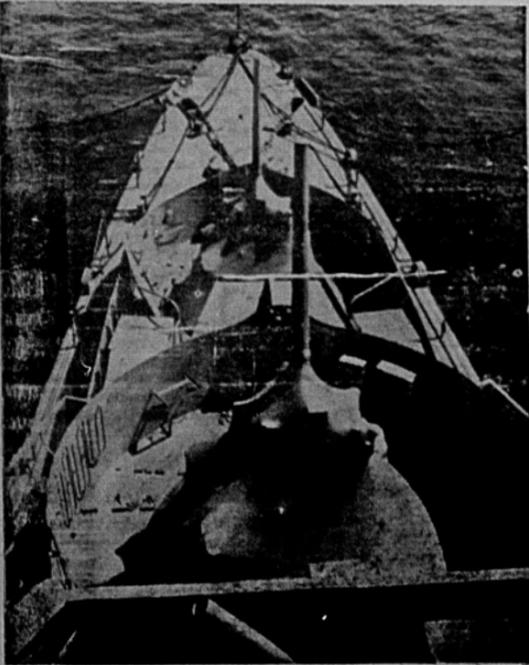

LAFF-A-DAY

"He's very intelligent. He does crossword puzzles in ink!"

Friends of the church, friends of decency and high moral ideals, friends of God and fellowman, let's vote dry October 5th. It has been said that you can buy all the alcoholic beverages that you want in dry territories. If this is true why do our wet neighbors want it legalized? If it is as plentiful as they say and they are getting it, why

do they want to force it on the streets where people love decency and sobriety? It seems to me that if they have no trouble satisfying their thirst they should be satisfied. Let them buy it and drink it with their crowd, my crowd don't want it.
