

SOUTH PLAINS BUSINESS AND INDUSTRIAL GUIDE

THESE WOMEN!

By d'Alessio

"I'm really not interested in the money. I just want to be able to brag about having made and lost a fortune overnight!"

West Texas Roundup

Poll tax payments in Lynn county as the deadline was reached Tuesday night, totaled 2,934, according to Frank McGlaun, jr., county assessor and collector.

In the telephone company's expansion program in Snyder, eight new long distance boards were recently added to the office here, as well as three local or combination local-and-toll call boards.

Members of the Hockley County Farm Bureau at a Thursday night meeting in the county court house here showed a decided interest in possible extension into this area of the South Plains Rural Telephone association, currently organizing in Lubbock and surrounding counties.

Congressman George Mahon telegraphed the Colorado City Chamber of Commerce early in the week that he had been advised the city had been approved for 75 low rent housing units to be constructed during a two-year period.

Snyder is indeed a city of trailer villages and trailer houses today. A survey conducted Thursday reveals Snyder now has a total of 3,172 trailer houses—believe it or not. Rapid expansion of the city's population indicates the total may well approach 24,000 within a short time.

In Andrews County in 1949, 238 oil wells were drilled with only five dry holes resulting, a report by the tax firm of Pritchard and Abbott to Judge Milton Ramsey revealed.

The Dollarhide field led with 54 wells drilled. It was followed by the Midland Farms field with 45, and the Shafter-Lake area with 39.

A formal notice for a bond election was issued by the Gaines County Commissioner's Court following a meeting Monday. Date of the election was set for February 25.

The election will determine the issuance of \$50,000 in negotiable interest bearing coupon bonds, bearing interest at the rate of not exceeding three per cent per annum. Purpose of the bonds would be to provide funds "to purchase, build or construct buildings and other permanent improvements to be used for annual exhibits of horticultural and agricultural products and livestock and mineral products of the county."

With the grant of \$70,000 from the federal airport program, Snyder's new airport seems practically assured.

Edgar Taylor, county judge, said yesterday the only delay in the construction here of modern airport facilities is lack of a site.

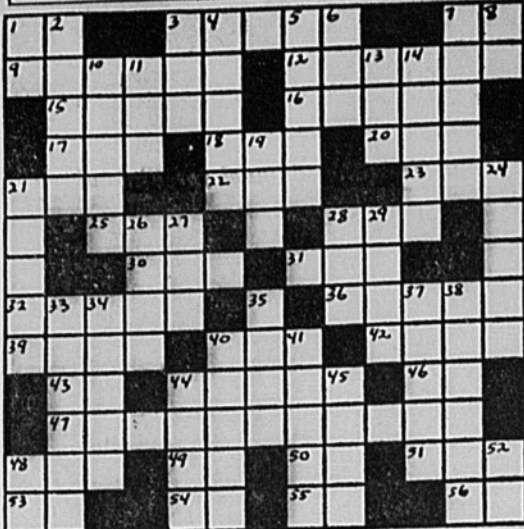

In a letter written to the Brownfield Chamber of Commerce Sen. Lyndon B. Johnson informed them that the United States Air Force wishes to establish an auxiliary base for Reese Air Force Base (Lubbock) within a 50 mile radius of Lubbock.

Wayne "Red" Smith, manager of the local Chamber of Commerce, said Wednesday that he had written Senator Johnson that the Brownfield Chamber of Commerce feels that an auxiliary base at Brownfield would be advisable and pledged their full cooperation and support to the project.

Egg Casualties
Each year about one egg out of every 20 produced on the farm never gets to the consumer's table. About two billion eggs, 5 per cent of all eggs produced annually, become inedible or are broken during the long trip from producer to consumer.

WE HAVE five good used type-writer for sale. \$25.00 to \$42.50. At the Slatonite.

Hospital Goes Mercenary

The other day a gentleman was in the Slatonite office chatting about one thing then another, when he told a story which was hard to believe—but he had no reason to lie. His story was about a very sick woman who went to a hospital in his town for help. It was a church hospital and one which was supposedly merciful and willing to help people in need of medical care.

This particular woman, according to his story, was in need of immediate surgery. She was poor, had no money to pay for medical attention, and had no one to take care of her. She was a negro. The young doctor who had called on the woman and rushed her to the hospital and offered to perform the operation free of charge if the hospital officials would give her a room where she could rest. They refused, and with the explanation, "She's just another moocher—she could get the money." Despite the doctor's pleas that without the immediate operation the woman's appendix would burst endangering any hope of her survival—they still refused.

The young doctor, who wasn't yet used to sitting by while a patient died simply because the sick person had no money, went out into the town, found a colored man who knew the unfortunate woman, and together they raised the money for the woman's hospitalization. In the mean time the woman could have died; but, fortunately for her, medical attention was administered in time, and she lived.

People in that man's town should bow their heads in shame, shame for letting such injustices exist, shame for letting such a hospital bear a Christian name, and shame for not having set aside funds for such immediate emergency. Suppose that woman "had" been a so-called "moocher" and suppose she had received medical attention without paying, she would only have been one of a few isolated cases who would have gained through unfairness.

Most medical cases are not such emergencies that they cannot be investigated for worthiness of charitable aid. But if a person is dying, a hospital's duty first is to extend help and save that life; there's still plenty of time to investigate. Are even our hospitals today becoming so mercenary that they can't afford to save a life? Would that hospital, about which the man told, have been hurt by extending a little help to a penniless woman who might have died? That hospital was a traitor to both its cause and to God, whose name it had the nerve to wear.

It's sheer shame, and we in Slaton should be grateful that such as this would never happen here. However, Slaton too is lacking in a fund for quick emergency—something every city should have.

Are We In For An Oil Boom?

Is Slaton and this area scheduled to undergo the rush of extensive oil development, or is the undercurrent of oil excitement just a West Texas disease that is affecting nearly every town and city on the South Plains?

Would the development of an oil field in this area be a good thing or would it bring on troubles that would outweigh the advantages that such activity brings?

There are two ways to look at such things and the tranquility and good life of a stable community should not be overlooked. Of course if there is oil in this vicinity, and some one finds where it is located, there is not much that can be done, but let come what may. Many large industries that are interested in the Snyder development are installing equipment and are planning to accommodate the town of forty to fifty thousand population that many of them expect Snyder to be within the next two years.

While living conditions are not as rough in Snyder as they are in many oil towns, prices are exceedingly high, new comers are nearly all living in trailers and the congestion in traffic is so great that most motorists drive many miles out of the way to keep from going through Snyder. Those who have lived in Snyder for many years find their town over run by strangers, those who owned homes before the oil activity find their property increased many times in value but those who were renting homes have been cruelly treated by many of their land lords. Life must be terrible in Snyder for those who enjoy a tranquil town life. There are many things that could improve Slaton more than an oil boom.

GEMS FROM SMALL TOWN JOURNALS—

"There really is a 'living dangerous' torch to our modern civilization. When one goes to answer the phone, he never knows what he will find himself the new owner of."—American, Somerset, Pennsylvania.

"The difference between life in a big town and a small town was pretty smartly defined recently by a small boy who, after living for a year in a smaller town, went back for a visit to the city where he was born and was taunted by his former chums about being a 'country jake.' He floored 'em with a brief catechism: Did you ever ride on a fire truck going to a real fire? No. 'Well, I have.' Did you ever ride in the 'ficial police car with the Chief of Police? No. 'Well, I have, and right on the front seat.' Did you ever look up for an airplane, and know the pilot was looking for you to dip his wing to you? No. 'Well, I have.' There wasn't a darned thing the city boy could come back with." —West Virginia News, Ronceverte, West Virginia.

"A family can bear up under a cataclysmic tragedy and go to pieces when the water has to be turned off for a few hours." —Republic, Junction City, Kansas.

"When a little shot gets half shot he imagines he is a big shot." —Record, Pioche, Nevada.

CULLED FROM BIG CITY COLUMNS—

"There are only two great jobs in the world. One is that of a weather forecaster. The other is that of a horse hand-capper. They need not be right to hold their jobs." —New York Journal-American, New York, New York.

"In some places anything well done is rare." —Pittsburg Press, Pittsburg, Pennsylvania.

"The greatest authorities on love are authors who can't stay married eighteen months per hitch, including the statutory six weeks in Nevada." —San Francisco Call-Bulletin, San Francisco, California.

"Small favors are those friends ask you to do for them." —Baltimore Evening Sun, Baltimore, Maryland.

"A good job is one which is more interesting than a vacation." —The Boston Globe, Boston, Massachusetts.

How to Get That Homework Done

Miss Gilbert, our grammar school principal, spoke the other night at the regular Parent-Teachers' meeting, on getting children to do their homework when they want to listen to the radio.

"We musn't give them a flat 'no,'" Miss Gilbert said. "If we adults really believe in tolerance and moderation, we should instill these qualities in our children. Listening to the radio is fine—in moderation—as long as homework gets done, too."

From where I sit, the lady was dead-right. This radio vs. home-

work problem is a wonderful way to see to it that our youngsters acquire the sensible moderate habits they'll need later on.

I've never believed in hard and fast rules—except where absolutely necessary. Let the other fellow do as he likes, as long as he's temperate and tolerant. Guess that's why I've never felt we should quarrel with the fellow who is partial to a glass of beer—the "Beverage of Moderation."

MRS. S. S. FORREST TO BE D. A. R. REPRESENTATIVE

Mrs. S. S. Forrest has been recently elected delegate to the Continental Congress of the Daughters of the American Revolution which will meet in Washington, D. C. in April. Mrs. Forrest is a charter member of the Daniel McMahon chapter of D. A. R. in Athens and will represent that group at the meeting.

Civic-Culture Club Studies Works Of Eliz. B. Browning

For their Valentine meeting, members of the Civic and Culture Club studied the romantic and colorful life and poetry of Elizabeth Barrett Browning, with Mrs. D. J. Neill as program leader. The meeting was held in the home of Mrs. W. R. Lovett.

Mrs. Neill pointed out in her talk on Elizabeth Browning's work that many literary critics today consider her works to be as artistic and as great as the writings of Milton, Shakespeare and other such notables.

Several poems written by the great poetess were read by Mrs. Neill and also some of the love letters which were exchanged between Elizabeth and her husband, Robert Browning whose poetry has also been excelled by few.

In keeping with the valentine motif, the hostess decorated her table with yellow jonquils and a refreshment plate decorated with valentines was served to 17 members and one guest.

Those present were Mrs. J. S. Bates, Mrs. Bessie Donald, Mrs. J. L. Fertig, Mrs. S. S. Forrest, Mrs. R. O. Hayes, Mrs. Henry Hollis, Mrs. J. B. Huckabay, Mrs. P. G. Meading, Mrs. D. J. Neill, Mrs. B. M. Pember, Mrs. W. E. Smart, Mrs. A. C. Strickland, Mrs. R. H. Todd, Mrs. H. O. Wagner, Mrs. H. G. Sanders, the hostess, and Mrs. J. C. Greaves, a guest from Portales, New Mexico.

Next meeting of the group will be held February 25 in the home of Mrs. P. G. Meading, at which time the members will center their study on "Woman in the Theater" with emphasis on Sarah Barnhardt and Ethel Barrymore.

Elliott-Schide Wedding Is Read In Slaton Church Ceremony Sun.

In a double ring ceremony performed Sunday afternoon at 3:00 p. m. in the First Baptist Church here Miss Juanita Elliott, daughter of Mr. and Mrs. J. A. Elliott became the bride of John Frederick Schide of Chicago, Ill., son of Mr. and Mrs. C. C. Schide of Columbus, Ohio. Reverend W. F. Ferguson read the service before an altar arranged with double snapdragons and tulips.

Given in marriage by her father, the bride wore a white lace dress of ballerina length. Her maid of honor, Miss Pauline Lokey of Amarillo, an aunt, wore a dress of cocoa colored crepe; and the bridesmaid, Miss Edith K. Schide of Columbus, sister of the bridegroom, was dressed in green crepe.

Mr. Schide served as his son's best man and Joe Cato and Paul Cato of Amarillo, cousins of the bride, were ushers.

Traditional wedding music was furnished by Mrs. L. B. Hagerman, organist, and Mrs. V. G. Browning, soloist.

Following the ceremony, a reception was held in the Forrest Hotel. Out-of-town guests were from Albuquerque, Houston, Dallas, and San Angelo.

The couple will be at home in Chicago. For travel, the bride chose an ivory nylon gabardine suit with a black top-coat and black accessories.

Miss Elliott is a graduate of Texas State College for Women and Mr. Schide is a student in the court reporting division of Gregg College in Chicago.

Wed. 3 O'clock Is Society Deadline
Since the Slatonite is a weekly newspaper, a deadline must be placed on all society news coming into the office in order that it can be printed in the Friday paper.

Although our dateline is Friday, the paper is printed on Thursday of each week enabling the rural routes to receive their papers by Friday. For this reason it is necessary that a deadline of Wednesday, 3:00 p. m., must be placed on the acceptance of society news.

The newspaper coverage of the Slatonite is limited, therefore it is impossible that we know the details of each social function which occurs in the city; however, we are always glad to get the news, and we are anxious to print club news and social happenings if we are informed on or before the above deadline.

WORLD DAY OF PRAYER

World Day of Prayer will be observed this year in 90 counties, according to Mrs. Carl Lewis, chairman of the World Day of Prayer committee of the local Council of Church Women. As customary, the date of its observance will be the first Friday of Lent, which falls this year on February 24th.

A special prayer service will be held at the Presbyterian Church beginning at 3:00 p. m. The service is sponsored by the Slaton Council of Church Women with Mrs. Joe S. Walker, jr., leading the program. Mrs. J. B. Huckabay will be the speaker and special music will be given by Mrs. C. H. Green, accompanied by Miss Wilda Ruth Hannah. A verse choir from Mrs. Caldwell's speech class will also participate.

"The chain of prayer will be made of millions of people worshipping in all corners of the earth and praying in sixty different languages," said Mrs. Lewis.

World Day of Prayer is interdenominational, interracial and international in scope. Offerings are divided between missionary work at home and abroad to bring the world into greater communion with each other through supplying their spiritual, educational and recreational needs. Last year a quarter million dollars was collected and used in this work.

All churches, fraternal, youth, charitable, civic and social groups are invited to join with the women of the church to make this day a community-wide as well as a world wide symbol of fellowship.

Members of the Methodist choir are beginning work on the special music for Easter. Anyone who sings and would like to become a member of that choir should attend the Wednesday night rehearsals at 7:30.

Last Sunday a nice group of Boy Scouts, Cub Scouts, and Explorers were honored by having the day set aside as "Scout Day" at the Baptist Church. Seats were reserved for the group of fine boys.

Slaton Women Give Their Favorite Tested Recipes

Mrs. J. D. Barry is our recipe specialist this week, and from her comes another grand-sounding dessert. Before giving the ingredients for her recipe, Butter Spunge Cake, she explained very clearly about the eggs. "This recipe takes eleven egg yolks," she said, "so if you make angel food cake, you can just use the yolks left over as it takes about eleven 'egg whites' for angel food."

Ingredients call for:
11 egg yolks
2 cups sugar
1 cup scalding milk
1 teaspoon vanilla
2/4 cups cake flour
2 teaspoons baking powder
1/2 cup melted butter

Beat egg yolks and sugar until light-colored and fluffy. Add milk and vanilla, then cake flour sifted with baking powder. Fold in butter. Bake in moderate oven, about 350 degrees, for thirty or forty minutes.

Mrs. Barry says the recipe will make enough for two large layer pans or three small ones. She suggested a seven-minute icing with pineapple or lemon flavoring; and in case you do not have a recipe for that particular kind of icing,

Mrs. Barry also gave us that. Ingredients for it are:

2 egg whites
1/3 cup water
1 1/2 cups sugar
1/4 teaspoon cream of tartar

Cook in double boiler, beating continuously for seven minutes. If pineapple is desired, add the finely shredded fruit to icing after it is thick enough to spread evenly. Drain pineapple well in order that the juice will not thin the cake filling. Mrs. Barry says that either a pineapple or lemon frosting is excellent for this cake as it has so many eggs in the ingredients that the acid is needed to add a much more delicate flavor to the dessert.

"I'm sorry that I can't say that this is an old family recipe," Mrs. Barry jested, "or that I made it up myself; but I merely found it in the Good Housekeeping Cook Book." And what better source could you have?

Mr. and Mrs. Barry have one son, J. C., and two grandsons, who live in O'Fallon, Ill.; and incidentally, the Barrys were to have left this week for Illinois to visit their son and family.

ents, Mr. and Mrs. Harry King and Mary Frances.

Visiting the Edd Martins Sunday were the Everett Samples of Slaton and the Bill Martins of Ropes.

Mr. and Mrs. Calvin Klaus and boys of Slaton visited his parents Mr. and Mrs. Otto Klaus Sunday.

Mr. and Mrs. Alton Hill visited her parents Mr. and Mrs. H. V. Wheeler and boys, Sunday.

Mrs. Bob Pennell visited Mrs. Nettie Kellum Sunday.

Mr. and Mrs. James Parks and children spent the week end in the home of his parents, Mr. and Mrs. J. L. Parks while they were in Putnam and other places over

the week end.

Mr. and Mrs. J. F. Winterrowd visited Sunday with their daughter and son-in-law, Mr. and Mrs. Herman Chilcutt of Lubbock.

Lamb Care

New-born lamb should be dried as soon as possible and get some warm milk. If the mother is short of milk, the milk can be obtained from another ewe or cow's milk given by bottle. During the first few days the ewe and lamb should be put in a small individual pen for them to get used to each other.

THIS And THAT FROM HERE And THERE

Getting Out On The Limb—After offering advice about public service, E. A. Warren, editor and publisher of the Post Dispatch, offers this idea. "It seems to me it would be a real help to the merchants if some of the drug stores and cafes would set up a pipeline system over town for the coffee fiends."

"My plan would call for a pipeline into every office and business establishment and it would result in a lot of time saved besides shoe leather and tires worn out. The girls of the office could call the bistro of their choice—or at least the coffee joint they are connected with—and order two straight or one with sugar and cream and have the coffee come pouring down the line like oil down the Big Inch."

"Of course there would be a problem. Unless there were individual lines to each place of business some of the coffee hounds in my office might siphon off Jim Huddle's cup before it gets to him. My idea was to have faucets all along the line and when the coffee comes flowing down to turn it on for a cupful. Then the girls would start using sugar and cream—any old excuse to go out."

—The Post Dispatch.

Side Views—Political talk is about all you can hear in Crosby County—most especially the Sheriff's race. Editor Joiner of the Ralls Banner dropped a bomb shell into the race last week when he stated that "the sheriff has not fulfilled the duties of his office in a creditable manner, and that he had knowingly allowed gambling and bootlegging to flourish under his nose." Sheriff Addison came back and told Joiner that he had lied and slandered him editorially this week. The two are not on speaking terms at present. However, Fred Wiese, local banker, has come up with a solution to this problem. He says put up an arena at Ralls and give them each a pair of boxing gloves, letting them settle their differences. Of course, there would be a slight charge of two dollars per person to view this boxing match. The proceeds would go to the Red Cross Drive which is now underway in the county. Wiese claims the entire Red Cross Quota could be raised in one night and at one place. Good idea! However, a portion of the funds would have to be used to patch the two up after the fight.—The Lorenzo Tribune.

Quick Thinking—Editor B. F. Davenport, editor of the Abernathy Weekly Review, reports the fol-

lowing:
A farmer who lives in this general vicinity proved himself a quick thinker when a state gasoline tax rebate inspector surprised him while he was filling his automobile from a barrel of gasoline at his farm. When the inspector drove up and introduced himself, the farmer said to his son, who was assisting with the gasoline transfer, "Harry, son, and get back to the field." The son, a pretty fast thinker, too, latched a section harrow onto the automobile trailer hitch and harrowed a piece of ground until the inspector left.—The Abernathy Weekly Review.

Not long ago a level-headed gentleman of our town casually remarked in substance, that there are still a lot of mighty good people in our country. We agreed. In fact, there are a lot of mighty good people in Tahoka. In the life-span of the editor, he has lived in several different towns and communities, and he has found a lot of "mighty good people" in each one of them. In fact, although we know that a lot of good people are to be found in other countries, we think the American people as a whole are the finest people in the world. And we believe that the people of Lynn county are among the finest people in America. We believe it folks.

FFA Prepares For Spring Stock Show

The Slaton Chapter of Future Farmers have been working over at the football field each day for the past two weeks during the first, second, and fourth periods. They have been removing the floors and making an inner wall for the stock barn, which will be used during stock shows. They also have piped water from the faucets around the football field to the football dressing building and stock barn. The two buildings are used barracks from the Lubbock Army Air Field. The dressing building is smaller than the stock barn. It has three rooms, a shower room, and an equipment room; while the stock barn is one large room and will later have a number of pens for the animals. The grounds where the animals will be judged is south of the stock barns.

The Slaton Fat Stock Show will be sometime in March.—Tiger's Cage.

JUST TALK

by
A.M.J.

"Eddie the Editor Warren," who "Gets out on a Limb" every week in the Post Dispatch, at Post, Texas, tells of the vicissitudes of those who seek directions in Post and right here I would like to challenge Eddie, The Editor, a bloodhound or a man with a divining rod to either follow, or give, directions through the streets of Slaton.

Newspapers these days are the targets of hundreds of people looking for a place to live. Women with tears in their eyes and crying kids hanging to their skirts, come trooping into the Slatonite office almost daily, they hold out a wilted nickel for a copy of the paper and inquire in hopeless tones if we know of any houses for rent. Seldom do we have such information but we have a few rumors occasionally and when we do the entire staff endeavors to give directions as to how to reach such houses, apartments or rooms, as the case may be.

As there is not a street in the town that runs either right or left, east or west, north or south, none of us agree as to where the victim should turn or what direction she should take. Outside of the streets leading from the square, Slaton has only three or four street signs in town, the catch-as-catch-can system of numbering the houses seems to have been used and the results have brought insanity, loss of appetite and general debility to hundreds of folks who have wandered over the community trying to find such addresses as 915 Knox Street or 725 Eva Street. Slaton is the best town in the United States in which to hold a Scavenger Hunt.

My youth, my vitality, my entire outlook on life has been brightened at a time when the hydrogen bomb, the coal strike and my indigestion had me mighty low... we received a pert, cheering little Valentine from Miss Joyce Pember, one of the most energetic, the best looking and the most accommodating young women who ever mixed up things at the Slatonite office. Joyce's Valentine is like the harbinger of spring, like the first rays of sunlight after a dark night, like the Postman bringing you a long awaited letter of good news. Yes its folks like Joyce who can help overcome the sad feeling I

had after listening to a representative of the UN speak in Lubbock last Saturday night. If that outfit has not done any more than he reported then we'll need a lot of Valentines to keep most of us from losing faith in world organization.

Slaton, in my opinion, is getting too big to keep on depending upon the loose traffic regulations that we seem to have. The situations at the traffic lights is getting more dangerous daily. Drivers going either east or west on Lynn Street at North 9th Street are at particular hazards and it would seem to me that the light should be taken down or the traffic violators arrested.

There are folks, my wife among them, who can meet a person one time and call their name when they meet them years afterwards and I sincerely envy them. There have been many occasions when folks have visited the Slatonite when my wife warned that Mr. Kolodjeyk had just enter the door or that Mrs. Bonsonbiddle was getting out of her car, but there have also been sad occasions when she was not present and men have barged into the office, slapped me on the back and said "Jackson I want to renew my paper" and handed me two bucks and a half. Quite often my mind was as blank as it was when I proposed to my wife, and after waving my pencil around in the air with the hopes he would volunteer the information I have had to ask his name.

There should be a law passed requiring everyone to wear a big, dinner plate size badge with their name upon it so that folks like I am would not be embarrassed.

Some newspaper men have always assumed that it is the duty of their newspaper to take definite stands on every question that comes before the public, either local or national. They take on the responsibility of the law, the controlling of morals and the progress of their community so far as they are able and most of such newspaper men and their publications are usually in hot water.

It is my opinion that the function of a newspaper is to distribute news, provide some entertaining reading, if possible, and to offer a medium to carry information to the public. When a newspaper takes emphatic sides on any public question it eliminates its appeal to be read or its influence felt by any readers except those who agree with the views expressed in its columns.

When a newspaper endeavors to give both or all sides it does what I consider the democratic thing. In the United States the majority rules and when circumstances bring on any other condition then

this we will lose all our remaining privileges of being a democracy.

A lot of folks think that television and weak eyes will soon be prevalent in all parts of the nation. Permits for television for both Lubbock and Amarillo have been made.

Being a back woods kind of fellow who has never been off the ground in an airplane, who explores women in slacks, can't keep from being a wee bit doubtful of a woman who smokes cigarettes on the streets and who shivers at the weird shirts some of the young fellows are wearing I do not think I'm going to like television. It's bad enough to have to listen to ditties about soap, saccharine declarations about flour and d... lies about patent medicines but when it comes to having to see some frog eyed announcer spit that stuff at you I don't think I'm going to be able to take it.

Evening call from real-estate prospect, George out, so I fill in with details about a house he's offering for sale!

Visited over the phone with Mrs. Reeder before she went off to work. She's gone a lot, but phone keeps us in touch.

Called downtown to ask Mr. Roberts at the furniture store if our table had come in yet. Twelve blocks in twelve seconds!

Arranged to meet my friend Amma in downtown Wichita for a shopping spree. She's 50 miles away—sounds like next door.

"IT'S A REAL BUY!"

"Our telephone service is a real budget buy," said Mrs. George Bloomenshine recently, after keeping a five-day record of all telephone calls made and received at her Winfield, Kansas, home.

She finds that her telephone gives valuable service two ways... it saves time running her household... and helps her husband keep in touch with his real-estate and insurance prospects after office hours.

"It's just like having a combination errand boy, salesman and messenger working for us 24 hours a day," added Mrs. Bloomenshine. "What a surprise to find when I checked my record that this service costs us an average of only 2¢ for every call we make and receive!"

Each year brings progress in your telephone service. New telephones added—improvements made! The result: you can call more people, and they can call you—with quicker, better service. It's a real budget "buy"—that grows in value every year! The Southwestern Bell Telephone Company.

ABILENE, Tex., Feb. 13— Appointment of Clifford Rhoden, of San Angelo, as sales manager of the feed department of the Western Cottonoil Co., Southwest division, was announced here by W. A. Williams, vice president of the Western Cottonoil Co. in charge of the feed department.

Football Awards Are Made In Jan.

The football letterman of Slaton High School received their letter jackets during the latter part of January.

The senior letterman received jackets with red leather sleeves and black felt bodies. A black patch on the left sleeve was lettered, "Champions, 1949, 4A South." A red six-inch letter shows up brightly on the black body of the jacket.

The other jackets were the same as the seniors with the exception of the leather sleeves, and they are reversible. The sleeves have a black stripe down them and the reversed sides is tan.

Those receiving senior jackets are as follows: George Young, Eugene German, Pete Williams, Coy Higgs, Cecil Bybee, Carl Lewis Edd Willis, and Bob Thompson.

Those receiving reversible jackets were Charles Norwood, Leon Moore, Jerry Hukabay, Bob Lambert, Ezra Corley, Harley Patterson, Bob Donaldson, Gene Berkley, Warren West, Lyle Berry, Jack Dennis, J. W. Clifton, Jerry Lemon, Lee Ray Dillard, Red Pearson, Bill Butler, Duane Scooter, R. A. Thompson, Drewary, Bobby Taylor, and Richard Gentry.

The returning players selected their captains for next season, and they are Bobby Taylor and Leon Moore. —Tiger's Cage.

Lincoln as Inventor

Lincoln was a congressman from Illinois when he received a patent for "a device for buoying vessels over shoals." The invention embodied a set of bellows attached to the hull of the ship below the water line. In shallow water, the bellows would fill with air to buoy up the vessel and float it clear. A wooden model of the invention whittled by Lincoln himself accompanied his patent application.

C. L. Reese Enters Canterbury College

Charles L. Reese son of Mrs. W. G. Reese, Slaton, Texas, entered Canterbury College, Danville, Ind., this semester, as a member of the Freshman class. Charles is a graduate of Slaton High School, Slaton, Texas. Canterbury College is a non-

sectarian, four year co-educational, liberal arts, pre-professional, teacher education college, sponsored by the Episcopal Church.

Adding machines and cash drawer in excellent condition. Remington-Rand model. You can't afford to miss this buy at \$100.00. Slaton Slatonite.

LUMBERHEAD

'At hoe handle pears 't be mighty tough, Lum, Ye musta whittled it outta a two by four frum Forrest Lumber Co.

Don't "lean" on poor supplies when you build. We can furnish you with the best from building materials, Benjamine Moore paint, Johns Manville roofing to a complete line of plumbing fixtures with economy that's "tough" to beat.

EVERYTHING FOR THE BUILDER

It's the bigger

It's the "big car" of its field. Big car V-8 power... more "sitting room" than any other low-cost car... big-car strength of Ford's 13-way "Lifeguard" body.

It's the better

Everything about the '50 Ford spells quality. The quiet, "sound-conditioned" interior... the low level comfort of Ford's "Mid Ship" Ride... Ford's 35% easier-acting King-Size Brakes... the 50 new quality features.

It's the buy

Only Ford in its field offers you so much quality for so little money. Ford's "hushed" V-8 engine is the same kind of engine now used in America's costliest cars, yet it's yours for hundreds less than most "sixes."

Club Boy's Steer Wins Honor

Willard K. Jordan, 4-H Club Boy of Mason, is shown here with his Hereford which carried off the grand championship honors in the Boys' Steer division of the 54th Annual Southwestern Exposition and Fat Stock Show in Fort Worth. The exposition was one of the most successful in history, offering the largest amount of cash awards and attracting a record-breaking number of entries.

Union News

MRS. M. D. GAMBLE

The Union Gin completed its ginning season last week. Mr. Johnson ginned over 6,250 bales of cotton this season.

Mr. and Mrs. Leslie Greene and Lou Ann, spent Saturday and Sunday night in Petersburg in the home of his brother and sister-in-law, Mr. and Mrs. J. C. Greene.

Dinna Mae and Donna Sue Cade entertained with a valentine dinner Saturday night at their home at 7:00. Guests for the occasion were Mary Ann Smith, Glenda Evans, Alton Bailey, Don Patterson, Glen Hunt, Donald Jones, and the hostesses. After the dinner, they all attended the show at Slaton.

Mrs. S. D. Nelson spent the week end in Eastland visiting in the home of her son and daughter-in-law, Mr. and Mrs. Cecil Nelson.

The Civic Club Banquet, which was held Monday night at the school, was well attended. Speaker for the occasion was County Attorney Carr, and five Tech students presented a vocal program. Monday was ladies night.

Mr. and Mrs. H. M. Cade, Donna Sue and Dinna Mae, spent Sunday in Lubbock with Mr. and Mrs. Jackie Cade.

Mr. and Mrs. J. A. Little spent the week end at Eastland visiting with their parents.

Earnest Harold Ward of Clovis, N. M., and Duane Sooter of Slaton spent the week end with Clyde and Don Greene.

The room mothers of the 7th grade, Mrs. Chester Smith, Mrs. Andy Nelson, Mrs. Leslie Greene and two others entertained the class with a picture show party at Lubbock Valentine Night.

Mr. and Mrs. Lutze returned this week from Pennsylvania. He is to report next week at Reece Air Base in Lubbock. Mrs. Lutze is the former Miss Tommy Ruth Jones.

Frank Todd Joins NTSC Orchestra

DENTON, Tex., Feb. 13—Frank Todd of Slaton will be one of the bass viol section of the North Texas State College Symphony Orchestra which will be presented with outstanding piano student artists of the college during a Symphony-Concerto tour of Texas cities in February.

Dr. George Morey, regular conductor of the 50-piece Symphony, will direct the purely orchestral numbers, and Dr. Silvio Sciotti, internationally-known pianist and teacher, will direct the piano concertos which will feature his students in appearances at Longview, Orange, Beaumont, and Corpus Christi.

Todd, son of Mr. and Mrs. R. H. Todd of Slaton, is a senior student majoring in music at NTSC.

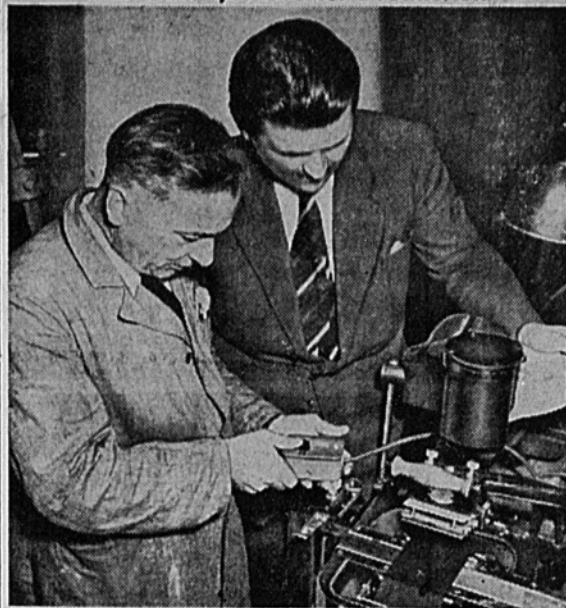

Cancer Research

Atomic energy commission has granted, through the office of naval research, a fund to the University of Delaware for continued research by Dr. Mary A. Russell on a project with potential significance in cancer control. The project involves a comparison of the effects of x-rays, neutrons and mustard compounds on the growth and development of corn seedlings.

New Skills for Greater Production

A manufacturer of electrical equipment (right) learns new skills at a training-within-industry institute, set up at Paris with the help of the International Labor Organization (ILO), a U.N. Specialized Agency. The manufacturer will show the new methods he has learned to his foremen who will pass them along to their workers.

Big Advertising Campaign Planned

Continental Oil Company has budgeted an advertising program in excess of three million dollars for 1950 to introduce its newly announced motor oil, according to Kirby Dunlap, local agent for Conoco.

Exceeding the 1949 expenditures by more than a half million dollars and marking the largest appropriation in the company's history, Mr. Dunlap said that a large share of the advertising this year, as in the past, will be apportioned to newspapers.

"We believe newspapers fit themselves to our distribution system more efficiently than any other medium, and therefore they have again been selected to carry the bulk of the Conoco advertising impact."

The advertising will feature the new Conoco "Super Motor Oil," recently announced by the company after eight years' laboratory research, two winters of testing in the North and a 50,000-mile road test along the Mexican border.

Cathedral of Learning

The University of Pittsburgh's 42-story Cathedral of Learning, if spread out in the usual style of college buildings, would crowd the 14 acres of land surrounding the structure.

Insurance Companies

There were 584 legal reserve life insurance companies in the United States at the start of 1949, as defined by the state insurance departments and reported to the Institute of Life Insurance. This is 121 more companies than were reported at the end of the war. It is seven times the number in business in 1900. The total rose by 35 during the past year.

Oldest U.S. Ship

"Old Ironsides," famed 152-year-old USS Constitution, is the oldest ship in the U.S. navy. The venerable frigate, docked at Boston navy yard, is now a floating museum.

RELIEF AT LAST For Your COUGH

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back. **CREOMULSION** for Coughs, Chest Colds, Bronchitis.

Necktie First
Your husband's shirt collars will last longer if he'll remember to slip his necktie into place before donning his shirt. This is better than forcing the collar up and back down after it has been buttoned.

Speech Class Has Various Activities

The Speech Class has been busy with various activities this semester. Two plays have been ordered to produce in class. These plays will be student directed and are entitled "The Tiger's Claw," a mystery, and "Parted On Her Wedding Morn."

Maybelle Pember will direct "Parted On Her Wedding Morn" and Leonita Tunnell will direct "The Tiger's Claw."

The class page for the annual will be made up of various pictures of these activities.

Class work for this term has included a study of the theatre, past and present. Various reports have been made by students of the class on this subject. —The Tiger's Cage.

Hi School To Back Local Youth Center

What has been accomplished in the way of helping the youth of Slaton in the way of finding proper recreation?

The Youth Center in Slaton was organized to help provide the youth of Slaton with recreation, but up to now very little has been done. A few dances were held in the Youth Center but were discontinued because of the lack of interest.

The Youth Council, which is composed of business men of Slaton, met several days ago and decided upon finishing the north section of the building. Plans have been made to put two ping-pong tables and more furniture in to the building.

To get any thing out the Youth Center one can only get what he puts in. To make the Center a success the youth of Slaton must back it up with all they have. The Youth of Slaton must see that the building and equipment is properly taken care of.

Much time and expense is being put in this Youth Center and the youth should take a great interest in it.

The Student Council, in Slaton is trying to arouse the students interest in the Youth Center. This can only be done with the help of the students.

Let's give the Student Council our support and see if we can get something to do in Slaton. —The Tiger's Cage.

Ag. Week Info Is Received By FFA

Leon Moore, president of the F. F. A. received two letters from Allan Shivers, Governor of Texas and Vannoy Stewart, State Advisor of Future Farmers of America and Editor of the Texas Future Farmer Magazine, wrote this letter:

"Membership in the Texas Association of the Future Farmers of America has increased to the extent that now one-tenth of the National membership is made up of Texans."

Therefore I, as Governor of the State of Texas, do hereby designate the week of February 19-February 25, 1950 as FUTURE FARMER WEEK in the State of Texas, and ask that it be fittingly observed by our young people and by all citizens."

Vannoy Stewart, State Advisor of Future Farmers of America and Editor of the Texas Future Farmer Magazine, wrote this letter:

"Membership in the Texas Association of the Future Farmers of America has increased to the extent that now one-tenth of the National membership is made up of Texans."

The major purposes of the Future Farmers of America organization are to develop leadership, promote good citizenship, teach sound methods of farming and inspire patriotism among the members.

Texas now has 716 active chapters of the organization, with more than 28,000 presently active members and more than 337,000 former members.

The members of the Future Farmers of America are striving to prepare themselves more efficiently for careers in farming.

The future progress and prosperity of Texas is dependent to a great degree upon the skills and efforts of those citizens who operate the many farms and ranches of this State.

The major purposes of the Future Farmers of America organization are to develop leadership, encourage cooperation, promote good citizenship, teach sound methods of farming and inspire patriotism among the members.

The members of the Future Farmers of America through their intensive courses in Vocational

Agriculture taught in the various high schools, under the sponsorship of the State Board for Vocational Education, perform valuable community services and provide important leadership in developing our agricultural economy and in building a better state."

The Slaton F.F.A. boys will have a regular agriculture meeting, February 21. They will de-

vote the chapter meeting to Future Farmer Week. The program will be mainly on the history of their chapter in Slaton. During the week they will listen to the F.F.A. State and National Radio programs. Also they will be making preparations for the Lubbock County Live Stock Show which will be March 11 in Slaton. —The Tiger's Cage.

50,000 Miles - No Wear!

1. Driven "Twice Around the World!" For 50,000 killing miles, six brand-new cars raced over the hot desert along the Mexican border . . . testing the wear-fighting qualities of amazing Conoco Super Motor Oil. At the end of 50,000 miles of continuous driving, engines showed no wear of any consequence . . . in fact, an average of less than one one-thousandth of an inch on cylinders and crankshafts. Startling proof—factory finishing marks were still visible on piston rings!

2. New-Car Mileage for 5 Years! This punishing road test—equal to 5 years' normal mileage—proved, as nothing else could, that Conoco Super Motor Oil, with proper crankcase drains and regular care, can keep your new car new! Gasoline mileage for the last 5,000 miles of the test was as good as for the first 5,000 miles . . . actually there was an average difference for the fleet of only 4/100 of a mile per gallon!

3. New-Car Power! Quicker Starts! Yes—the extra protection of Conoco Super Motor Oil keeps that factory flash . . . that showroom smoothness . . . year after year after year! Conoco Super Motor Oil's exclusive ability to OIL-PLATE metal surfaces makes your engine last longer, perform better, use less gasoline and oil! Conoco Super Motor Oil virtually stops wear before it starts . . . keeps your engine new and clean. Conoco Super Motor Oil has proved itself to be the great new modern wear-fighter!
