EISENHOWER OFFERS ITALY PEACE

Death Toll In Storm Is Now Placed At 13

Area Hit—This area fell the full force of a 100-mile-an-hour tropical hurricane which hit especially hard Houston, Galveston and the tri-cities area of Goose Creek, Baytown and Pella.

Floods Hamper Rescue Work; Medical School Hospital Is Evacuated

HOUSTON, July 29 (AP)—The storm-swept Texas coastal country today dug itself from wrecked homes and buildings to start a systematic check of damage wrought by a hurricane which swept the section for two days.

A preliminary survey showed 13 persons dead, two missing and property damage ranging upwards of \$11,000,000. Heavy rains in the wake of the winds caused floods in some sections which still hampered rescue work.

Downpours in Houston sent streams on the rise today while Galveston reported sunshine and a light breeze.

Harris county and Houston engineers said most bayous upstream were half full from 12.13 inches of rain in the last 48 hours.

The Galveston News reported water pressure in Galveston was increasing following restoration of power to the water pumping plant.

"The city looks mighty bad," the News reported. "Streets still are littered with debris. Garbage trucks are working feverishly to dispose of refuse."

No power will be available for Galveston homes "for many days," the News reported, saying every circuit in the city was broken.

Port Arthur reported at least one death from the disturbance. Motorists were used last night to evacuate residents from lower sections of the city.

Water backed up into the business district after one of the heaviest rainfalls ever recorded in the southwest flooded practically the entire city.

Colonel W. G. Saville, district army engineer, announced that ten members of the government-owned hopper dredge Galveston, including the veteran Master Emil Laine, died in the sinking of the vessel near the end of the north jetty in Galveston harbor.

Colonel Saville said two crew members were missing and that 48 were rescued.

The dredge was blown from its Bolivar Roads anchorage onto the jetty broke up before dawn after a terrific pounding against the rocks.

New Blows Are Dealt Japanese

By The Associated Press President Roosevelt's disclosure that Japan has lost more ships than she has been able to replace was underlined today by a Tokyo broadcast solemnly recalling that lack of shipping "determined the fate of Germany in the first World War."

The broadcast warned the Japanese that it was "absolutely essential" for Japan to concentrate on shipbuilding.

New blows against the enemy's shipping were announced by Gen. Douglas MacArthur's headquarters today in a communique reporting that Allied air-sea attacks had left a Japanese destroyer and a transport in flames, damaged a 2,500-ton freighter, and sank 13 barges.

On the China front, Lieut. Gen. Joseph W. Stilwell's headquarters chronicled spectacular new successes for American fliers, crediting them with destroying or damaging 99 Japanese planes in a powerful four-day offensive against Hankow, Hainan Island and Hongkong.

NEW DELHI, July 29 (AP)—Cruising 900 miles deep into the Japanese held territory, American Liberator bombers from India sank a 250-foot enemy merchant ship off Tavoy Island, south of Thailand, a U.S. Army Air Force communique reported today.

Flights of B-24s also shot up a flat-topped vessel about 175 feet long, 30 miles north of Pagoda Point in Burma, the communique said but did not make it clear whether the ship was an aircraft carrier or not.

Gulf Storm—A spume-lashed downtown corner in Houston is pictured under the driving force of winds which reached an estimated 100 miles per hour in gusts during the tropical hurricane which struck the gulf coast city late Tuesday night.

Twenty Persons Killed In Crash Of Passenger Plane

BOWLING GREEN, Ky., July 29 (AP)—Twenty of the 22 persons aboard an American Airlines passenger plane were killed last night when the big transport ran into unfavorable weather, crashed and burned near Tamm, Ky., about 20 miles southeast of here.

Two severely injured persons were in a hospital here. The crash occurred about 10:30 p. m. (central war time) in a remote section of Allen county near the Kentucky-Tennessee border.

First word of the crash came when First Lieut. Glenn W. Fellows, attached to Love Field, Texas, passenger on the plane, stumbled to the door of a farm house three-quarters of a mile from the scene and summoned help. Farm-

ers in the neighborhood took Fellows and another passenger, S. K. Hoffman, 41, of Williamsport, Pa., to a Bowling Green hospital. Hoffman told hospital attendants that the plane was flying through unfavorable weather and there was no indication of any trouble until the huge ship struck the ground. Hoffman and Lieut. Fellows were thrown clear of the plane and apparently were the only survivors.

City Patrolman William A. Lyle, who was on duty near the hospital where the two injured men were brought, talked with J. H. Claypool of Trammel, one of the farmers who helped bring the two men to Bowling Green, and quoted

Two Army Planes Crack Up, Killing Twenty Men

EL PASO, July 29 (AP)—Twenty men from Biggs Field and Fort Bliss were killed and one was injured in two plane crashes, the air field public relations office announced today.

Eleven men were killed and one injured when a four-engine bomber crashed ten miles east of Biggs Field last night.

Second Lieut. Clarence W. Digh, Walla Walla, Wash.; Cecil E. Wilson, Versailles, Ky., and Lee E. Oman, Millbrae, Calif., and Sgts. Bernard F. Marrek, Perth Amboy, N. J., Lad A. Pauerman, Cicero, Ill., Lyle W. Robinson, Shelbina, Mo., and Benjamin H. Osgatharp, Jr., Winslow, Ind., all of Biggs Field, and First Lt. Herman L. Moser and James Kral (hometowns unlisted), passengers from Fort Bliss.

Sgt. John Yachama, of Forrest City, Pa., was injured but expected to recover.

In the crash of a Biggs Field four-engine bomber near Belen, N. M., about midnight Tuesday, the following were listed as dead:

Second Lieut. Charles R. Briggs, Gales, Ill., Theodore W. Hatly, Pittsburgh, Pa., and John Andrysiak, Bayonne, N. Y., and Sgts. Charles L. Randall, Cleelum, Wash., Joseph S. Moulton, Louisville, Ky., Daniel J. Reilhan, The Bronx, N. Y., John F. Lynes, Great Falls, Mont., Granville B. Gibson, Hollister, Mo., and Jack C. Walker, Richland, Mich.

He paid high tribute to the Russians. Their success has shown, he said, that "it is dangerous to make a prophecy about them—a fact forcibly brought home to that mystic master of strategic intuition, Herr Hitler."

Then he said that the United States should always be "glad to be a good neighbor and a sincere friend" of Russia which "in saving itself is thereby helping to save all the world from the Nazi menace."

His reference to ill-starred Mussolini was brief, but pointed. The (See FDR, Page 10, Col. 4)

No Celebration On Il Duce's Birthday

BERN, Switzerland, July 29 (AP)—Benito Mussolini, the man who always wanted to live dangerously, marked his 60th birthday today apparently a prisoner of the sovereign he dominated for 20 years.

There was no celebration of the event in Italy.

Mexican Court Rules In Oil Co. Suit

MEXICO CITY, July 29 (AP)—The Mexican supreme court has ruled against foreign oil companies in another of a series of suits growing out of their expropriation in 1938.

The court ruled that the companies, upon being expropriated, had automatically lost their rights to fight Mexico's petroleum laws.

Bulgaria Crisis Near As Riots In Italy Go On

Reports Say New Premier May Have To Sue For Peace

ISTANBUL, July 29 (AP)—A Bulgarian crisis appears to be developing from Benito Mussolini's downfall and Bulgaria may be the first Balkan satellite to break away from the axis if Italy surrenders.

Reports to London, meanwhile, suggested that revolts spreading through Italy may cause the nations' destiny to be wrenched from the hands of Premier Pietro Badoglio and that he may be compelled to sue for an immediate peace.

Bern correspondents pictured Italy as wracked by anti-fascist outbreaks and under mounting pressure from Germany to stay in the war.

There have been repeated reports from European listening posts that Italian garrisons have been moving out of the Balkan countries and dispatches from Madrid last night told of an outbreak of fighting in northern Italy between German and Italian troops, who apparently were trying to prevent the Nazis from taking over the Po river defense line.

Adolf Hitler has been represented as taking the stand that any defense of Italy must be made on the Po line.

Only a few hours before President Roosevelt delivered the address last night in which he asserted that the United Nations will be satisfied with nothing less than Italy's unconditional surrender, a Rome radio commentator declared:

"Whatever Roosevelt says will not influence the Italian people one jot."

The London press, meanwhile, welcomed the news of the formal dissolution of the fascist party but asserted that it would not alter the Allied attitude.

Bulgaria's position, and that of the other Balkan powers to a lesser extent, is reported to have changed rapidly since the Italian upheaval.

News from the Balkans indicates clearly that the people there believe Italy is finished.

Fascist Group Is Dissolved

LONDON, July 29 (AP)—Italy's chamber of fascist corporations has been dissolved by order of Premier Marshal Pietro Badoglio's government, the Rome radio announced today.

The chamber of fascist corporations (Camera dei Fasci e delle Corporazioni) took the place of the Italian chamber of deputies after that 90-year-old legislative agency was dissolved Dec. 14, 1938.

It was made up of the 150 members of the national fascist council, headed by Benito Mussolini as chief of government, and 500 members of the national council of corporations.

The Rome radio announced dissolution of the chamber in a broadcast which said Badoglio's government had banned formation of any political party for the duration of the war and also prohibited display of any political insignia.

It was announced that the release of political prisoners—of whom thousands had been rounded up under Mussolini's rule—was already in progress.

Reports of spreading revolts suggested control of Italy might be wrested from Badoglio and that he might be compelled to sue for an immediate peace.

Relies On Army Chief To Get Surrender

WASHINGTON, July 29 (AP)—Secretary of State Hull indicated today that the United States relies on General Eisenhower, American commander of the Allied forces, to obtain Italy's unconditional surrender.

Asked at his press conference if the Italians had made any approaches, Hull said there was none to his knowledge.

He then tacitly endorsed Eisenhower's declaration to the Italians today with an assertion of his supreme confidence in the Allied commander's sound judgment in dealing with military affairs at the front.

Eisenhower told the Italian people in a broadcast today that the presence of German troops in Italy is the only obstacle to an honorable peace.

Without precluding possible diplomatic collaboration, an official pointed out later that a statement of unconditional surrender normally is delivered by and to the military.

Cruiser To Compete With Chicago Taxis

CHICAGO, July 29 (AP)—Taxi service on the Chicago river, new competition for taxicabs, street cars and elevated trains, will be inaugurated tomorrow.

A 28-passenger cabin cruiser will go into service between the Michigan avenue bridge and the Northwestern railroad station.

PORPOISES ARE MISJUDGED

NEW YORK, July 29 (AP)—Cries of "Shark! Shark!" resounded along the beach at Coney Island and some 30,000 bathers hastily splashed their way out of the water onto land.

But this mass exodus was unnecessary—the "sharks" turned out to be mild-mannered porpoises.

German Troops Only Obstacle, Says General

Five-Point Program Set Up; Italy Rushes Forces To Frontier

By The Associated Press Gen. Dwight D. Eisenhower offered riot-torn Italy an immediate and honorable peace today and in a five-point program declared that the only obstacle barring an end to hostilities was the presence of German troops on Italian soil.

Frontier reports said Italian and German troops were rushed today to Fiume and Trieste, in northeast Italy, adjoining Nazi-occupied Yugoslavia, where Croats and Slovenes were demonstrating for separation of the Italian peninsula from Italy.

The situation in other eastern sections of the kingdom was described as tense.

Dispatches from Madrid said Italian troops were trying to block the entry of Nazi reinforcements in northern Italy, but there was no indication that they were succeeding.

Madrid heard that Italian regular troops, aided by civilians and railwaymen turned saboteurs, were locked in violent fighting with Nazi forces north of Milan and Turin after Hitler was said to have rushed 150,000 troops—possibly up to 150,000 troops—from France to guard the Po river defense line.

In a broadcast message, Gen. Eisenhower stressed these points to the war-weary Italians:

1. Only the Germans in Italy are blocking peace.

2. Cessation of hostilities is possible immediately under honorable terms.

3. Discontinuance of assistance to the Italians to German armed forces is a prerequisite of peace.

4. Italian war prisoners will be returned if Allied prisoners in Italian hands are returned safely and not sent to Germany.

5. The liberties and traditions of Italy will be restored.

Gen. Eisenhower also pledged that Allied occupation of Italy would be "mild and beneficent" as in Sicily.

Swiss-Italian frontier reports said that despite all denials to the contrary, discussions were continuing in Vatican City looking toward an armistice.

SEE PAGE 5 FOR POINT TABLES

Two ration charts, showing point values effective August 1 on rationed foodstuffs, will be found on page 5 of today's Herald.

Consumers are urged to clip the tables and save them for future reference in planning wartime menus.

Ration Board Will Be Closed Tuesday

The local ration board offices will be closed next Tuesday, Aug. 3, for a price and rationing clinic which is to be held here under direction of Lubbock district OPA officer, it was announced today.

Next week's meeting of the tire panel will be held on Monday instead of the customary Tuesday.

The clinic, to be conducted for ration board members and clerks of a nine-county area, will be held in the district courtroom, beginning at 10 a. m. A morning session will be devoted to general discussions, and various price and rationing problems of the boards will be presented during the afternoon.

Mexican Farm Workers Discrimination Is Alleged

MEXICO CITY, July 29 (AP)—The Mexican government will send farm workers to Texas fields if the government of that state will carry out measures to eliminate discriminations against Mexicans, Foreign Minister Ezequiel Padilla said in a letter to Texas' Governor Coke Stevenson.

Padilla answered a letter in which Stevenson asserted his state's "urgent necessity" for Mexican workers.

The foreign minister declared that despite the friendship between Mexico and the United States "it is indispensable to call your attention to the concrete situation in Texas."

He listed a series of discriminations he said were practiced against Mexicans and continued: "What are the remedies to solve this conflict? Laws, propaganda and punishments. If these measures could be carried out at once, we would contribute to the eliminations of the evils which gravely menace x x x the relations of our peoples."

"In these conditions, I believe the government of Mexico would agree with genuine satisfaction to the cooperation of our workers in Texas fields, to which they would go with the same enthusiasms they show for work in other states of the North American union."

City's Clean-Up Drive Stalled

Stalled like a Nazi summer offensive, the city-wide clean-up campaign was beginning to show some signs of life Thursday like its sponsors hoped—a Russian counterattack.

While there were sporadic bits of yard and vacant lot cleaning around the city, there appeared to be no concerted effort in this direction despite pleas by health authorities that this be done as a means of combating the threat of infantile paralysis, which has risen to alarming proportions in other sections.

Wednesday before the Lions club, Dr. J. E. Hogan, city health officer, secured unanimous pledges that each member present would see that his own premises were cleared. The health officer pointed to the need, declaring that there is nothing like dirt and filth for breeding flies and spreading disease.

At the Kiwanis club Thursday, members were urged similarly to see that the clean-up did not snag on their places.

The chamber of commerce was still working on plans for an organization to reach all over the city. Utilization of the Civilian Defense block leader set-up was being considered—only after three days, nobody had been able to find out who the OCD block leaders were.

Mexican Farm Workers Discrimination Is Alleged

It had been reported the Mexican government "in view of the unjust distinctions which possibly exist against Mexican residents in this state," was thinking of refusing to send farm workers to Texas.

No formal request for such workers has been made to the Mexican government by the U.S. Farm Security Administration, which has sent some 33,000 workers to other U.S. states. However, it has been reported here that Texas needed many farm hands for harvest work.

The Texas governor's letter continued by saying that he was doing all possible to erase whatever distinctions exist.

## Rain And A Colonel Provide Unusual Time For Scouts

Mrs. Robert Scheyer returned Wednesday night from a trip to northern New Mexico and reported an unexpected incident connected with the Boy Scouts encampment at Camp Philmont.

En route the scouts stopped at night in Las Vegas, N. M., where they expected to put their bed rolls in the park. But it began pouring rain and the shivering scouts were making the best of it when Col. Harry Berry, commanding officer of the Army camp, Camp Luna, arrived and invited the scouts to spend the night in the barracks.

It was practically the highlight of the trip for the scouts, Mrs. Scheyer said, and when she met Col. Berry the next day she thanked him for all the mothers of scouts in this area.

## Miss Laneous Notes

**MARY WHALEY**  
With the world on fire, nations trembling and fallen, and the destinies of countless thousands hanging on the will of a few men, it's amazing how people continue to act like—just people.

Their own personal problems such as getting the laundry out on time, beating the neighbors to the grocery for scarce articles, and getting the youngsters teeth filled occupy most of their thoughts.

A headline telling of a country captured or lost is easily digested but the fact the office boy fails to show up or a business letter is lost in the files can raise a man's temper and temperature much higher.

The news reels showing with lurid effect the war and its blight on humans 'round the world are received in silence. But Donald Duck, always next on the program, brings sighs of relief and a few scattered cheers.

It must be that to a people whose knowledge of war and world problems is only second hand, there can be little reality and less understanding. To minds whose only problems have been securing creature comforts, things like battles, bombings, and war's trappings are nightmares that startle but are quickly forgotten. The average American mind turns away from life today and refusing to believe.

## —VISITS AND VISITORS

Mrs. Vernon Stepp and Mrs. Joe Black, both of Odessa, will return home Thursday night after a visit here with Mrs. Steve Baker, Mrs. L. Y. Moore, and other friends and relatives.

Mrs. A. W. Crocker of Fort Jackson, S. C., is here visiting with Mr. and Mrs. H. V. Crocker, Mr. and Mrs. Curtis Crittenden, and other relatives.

Ralph Wertz of Lawton, Okla., left Wednesday after a visit here with De Alva McAllister and her family for San Antonio. Wertz spent the weekend here.

Mr. and Mrs. A. F. Gilliland have as a guest their son, Pfc. Dwight Gilliland of Liberal, Kas., who will be here until Friday night.

Pfc. Frank Barton has been transferred from Buckley Field, Denver, Colo., to Hammer Field, Fresno, Calif., so his mother learned today.

## Petrillo Announces Plan For Concerts

NEW YORK, July 29. (AP)—A plan to present small town concerts by the country's leading symphony orchestras has been announced by James C. Petrillo, president of the American Federation of Musicians (AFL).

Petrillo said that the union had authorized expenditure of \$250,000—and double that "if it is found necessary"—to send big city orchestras to small towns to present free concerts.

The plan, he said, was first suggested to him at a White House meeting last Dec. 29 by President Roosevelt, who Petrillo added "was very much concerned that the people in the smaller cities were not getting enough first class concert music, especially during wartime."

All expenses would be paid by the AFM, said Petrillo who estimated that 570 concerts could be staged if the entire \$500,000 is spent.

Petrillo announced that symphony orchestras of the following major cities would participate in the program: Los Angeles, San Francisco, Washington, Chicago, Baltimore, Detroit, Minneapolis, Kansas City, St. Louis, New York, Rochester, Cincinnati, Cleveland, Philadelphia, Boston, Pittsburgh and Indianapolis.

On a lesser scale, he said, orchestras from other cities including Dallas, El Paso, Fort Worth, San Antonio and Waco, Tex., are expected to take part.

The farther the earth moves from the sun, the slower it travels.

## Lieut. Schurman, San Benito Girl Wed In Shreveport

Announcement has been made of the July 27 wedding of Lieut. Donald C. Schurman and Miss Peggy Jean Wilmeth in Shreveport, La. The ceremony was read at 11 a. m. at the Kingshighway Christian church with the bridegroom's father, the Rev. G. C. Schurman, officiating.

The bride is the daughter of Mr. and Mrs. E. E. Wilmeth of San Benito, Tex., and was graduated from high school at San Benito and from Texas University.

Lieut. Schurman, son of the Rev. and Mrs. Schurman, formerly of Big Spring, attended high school here and Howard Payne College in Brownwood. The Rev. Schurman was one time pastor of the Christian church here.

Lieut. Schurman has been stationed at Boise, Ida., at Gowen Field. The Rev. and Mrs. Schurman attended the wedding service.

## Jack Rabbit Increase Endangers Cotton In Howard County

Largely due to the fact that ammunition is not easily available to farmers, jack rabbits are on the increase. In nearly every part of the county they are cutting down cotton. Their trails can be found in the fields, although they have been cultivated within the past week or two.

Poisoning of rabbits has been tried with varying degrees of success. Apples, carrots, potatoes and melon as well as poisoned grain has been used for bait. At first the use of poison grain did not seem to get the results that were had with it last year, since only a few dead rabbits were found. But lately reports of more encouraging results have been received, and now this poisoned grain prepared for prairie dogs by the bureau of biological survey appears to be by far the most effective remedy. Some of those who used it early in the season with seemingly poor results, now report that it has stopped the rabbits from cutting their cotton.

This is an easy and safe way of combating the rabbits. The grain is scattered along the rabbit trails, and in places where they have cut down cotton. Only a small amount of the grain need be used. If it is scattered there is no danger to livestock. Neither will this poison kill quail, since the poison is strychnine, which is broken down in the crop of the quail, and does not go into the circulation as poison.

A supply of poisoned grain is kept by Howard county commissioners court, at the county agent's office, where it is sold to farmers at cost.

August is the best time to poison the rabbits. If every farmer who has noticed them would get a few pounds of poisoned grain and distribute it now, a disastrous population of rabbits next year may be avoided.

## Cotton Seed Meal As Good As Seed For Feed Purposes

It may appear to be too early to talk about feeding that will be done next fall and winter. It is yet to be seen whether this crop of grain sorghums will yield enough grain to justify the amount of feeding that was done last winter. Still, those who do not plan well in advance, may be discouraged to start later. If these calves and yearlings are

## Campaign Of Paratroopers Is Described

WASHINGTON, July 29. (AP)—The boys in the ankle-high boots slid down out of the skies over Sicily, crawled through the brush to take on tanks with their rifles, and then—bringing up air-borne bazookas, howitzers and machine guns—blocked a Nazi panzer unit cold for 30 hours.

Thus the paratroopers closed the gap between the first and 45th divisions on Sicilian sands and held the Allied invasion line solid between beachheads. The story of how they did it was told by Major General Joseph M. Swing who was there. And, during the press conference after his return to Washington, he said:

"We landed them by the thousands in Sicily, and we hope to land them by the tens of thousands next time."

Swing said the 15th German panzer division was stabbing between the landings at Gala and Scoglitti, to split the invading force, when "the largest simultaneous airborne effort ever undertaken" parachuted down in its pathway, about six miles inland. Sharp-shooting through the tank slits to pick off the drivers, the troops waited until the giant 60-ton Mark VI's were only 50 yards away. Then they cut loose with 75 mm. howitzers, bazookas and machine guns and turned them back.

## Special Care Needed By Shrubs In Summer

Shrubs and trees set out during the past two years need special care during the hot, dry weather. They require extra attention to help them live through the summer. Even the native and hardy introduced plants should have an additional supply of moisture until they can establish a root system. Afterward, most of the native and well adapted plants will get along with normal rainfall.

Where irrigation is not possible, extra moisture may be supplied to the plants by contours and depressions which will put the rain water in spots where it is needed. The moisture may be conserved by frequent shallow cultivations of surrounding soil, or by applying mulches.

Mulches may be made of well decayed vegetable matter such as leaves, grass clippings, straw, or barnyard fertilizer. On tight soils an inch or two of sand sometimes is used for a mulch. When worked into the soil next year the mulches will improve its texture and water-holding capacity.

Here are other summertime safeguards: Plants which compete with growing shrubs and trees should be removed. Flowers, as well as weeds, absorb a great deal of moisture which might be used by shrubs for increasing growth, fruit or blooms. If it is necessary to water plants it should be done slowly so that the water will soak into the soil several inches. A light watering which moistens only the top crust is injurious to plants.

## Political Prisoners In Sicilian Jails Are To Be Freed

PALERMO, Sicily, July 28. (Delayed)—(AP)—Three hundred Italian political prisoners held in Sicilian jails are to be freed immediately by Allied military authorities.

These victims of fascist party politics have been languishing in jail many months and some are reported to have been on the verge of starvation.

American military leaders have announced they have no intention of mixing in the island's internal politics. Forty young Sicilians who called yesterday to explain a move for Sicilian independence were told no political activities would be permitted until the war ends.

The posting of a proclamation that any Italian soldiers found in civilian clothes would be treated by the military government as spies, subject to the death penalty, brought a great influx to prison camps.

## Texas Goal In War Chest Announced

AUSTIN, July 29 (AP)—Texans will be asked to dig into their pockets for \$4,885,761 next fall as their share in the United War Chest campaign.

The quota, approximately 3.7 per cent of the national goal, was announced yesterday at a meeting of the executive com-

mittee of the United War Chest of Texas.

President George A. Butler of Houston said the drive would be conducted on a county basis in cooperation with community chests and other local organizations.

# FOOD NUTRITION and Point Rationing NEWS

The Big Spring Daily Herald

## Vegetable Plates, Featured In Cafes, Are Good At Home

Featuring Vegetable Plates which can be followed profitably by the average home maker. Taking their cue from most rationing, many Texas cafes and restaurants now are featuring vegetable plates. This idea is one of the average home maker. Try a vegetable plate composed of canned cabbage baked potato, Harvard beets, hard cooked egg,

raw vegetable salad, bran muffins, milk and a fruit juice.

**Panned Cabbage**  
Shred cabbage in narrow strips. For each quart of shredded cabbage, allow 2 tablespoons fat. Melt the fat in a heavy flat pan or skillet, add the vegetable and cover to hold in steam. (No water is added.) Cook the cabbage slowly until tender, but not mushy (5 to 10 minutes, depending upon age of cabbage.) Stir enough to keep it from sticking to the pan. When ready to serve, season with salt and pepper to taste.

Cabbage should be cooked only until tender so as to retain color and food value.

Drippings from meats go especially well as fats in panned vegetables.

For variety in preparing cabbage, white sauce may be added before serving.

**Baked Potatoes**  
Select good baking potatoes of uniform size. Scrub well with brush. Rub with fat. Puncture skin with fork to prevent bursting. Bake in hot oven (450 degrees F.) 45 to 60 minutes, or until soft when squeezed. Roll gently back and forth with hand; cut across in top and push down on four cut corners to allow steam to escape.

Harvard Beets  
6 medium-size beets.

1-3 cup sugar  
1-2 tablespoons flour.  
1-2 teaspoon salt  
1-2 cup vinegar  
2 tablespoons butter

Wash the beets thoroughly and remove the leaves being careful not to break little fibres and rootlets which retain the juices and coloring matter. Cook (or steam) in a small amount of boiling water, using a lid. If the beets are tough and withered, soak them in cold water for a while before beginning to cook them. Try with a fork and when they are tender, drop them into a pan of cold water and slip off the skins with the hands.

Mix the sugar, flour and salt; add the vinegar, let the sauce boil for five minutes, stirring constantly and smoothing out any lumps. Add the butter (or margarine), pour the sauce over the beets, and let stand for a few minutes to absorb the sweet-sour flavor of the sauce.

**Bran Muffins**  
2 tablespoons shortening  
1-4 cup sugar  
1 egg  
1 cup all-bran  
3-4 cup flour  
1 cup milk  
1-2 teaspoon salt  
2-3 teaspoon baking powder.

Cream shortening and sugar thoroughly; add egg and beat well. Stir in all-bran and milk; let soak until most of moisture is taken up. Sift flour and salt and baking powder; add to first mixture and stir only until flour disappears. Fill greased muffin pans two-thirds full and bake in moderately hot oven (400 degrees F.) about 30 minutes. Yield: 8 large muffins, or 12 small muffins.

NOTES:—Dried fruits such as prunes and figs may be soaked and added to flour mixture. Use 1-2 cup. When sour milk or buttermilk is used instead of sweet milk reduce baking powder to 1 teaspoon and add 1-2 teaspoon soda.

1 cup cooked peas  
1-2 cups cooked green beans  
2 tablespoons chopped parsley  
2 hard-cooked eggs, sliced  
1-2 cup crunchy ready-to-serve cereal

\*3 tablespoons butter or margarine, melted  
1-2 teaspoon salt  
1-4 teaspoon paprika  
Mix sauce and cheese. Cook slowly, stirring constantly, until blended. Add vegetables, parsley, eggs and seasonings. Pour into shallow, buttered baking dish and cover with cereal, mixed with butter. Bake 25 minutes or until well browned in a moderately slow oven.

**Berry Topped Dessert**

## FARMERS' CASH INCOME RISES

AUSTIN, July 29 (AP)—Texas farm cash income gained only 10 per cent in June compared with 1942 due to a sharp decline in marketing of cattle and calves, the bureau of business research of the University of Texas said.

It was the smallest gain in many months, said Dr. F. A. Buechel, assistant director of the bureau.

Total farm cash income in June was computed by the bureau at 71 million dollars, a gain of only 10 per cent over June, 1942.

## FORGOT HE WAS BROADCASTING

MIAMI, Fla., July 29 (AP)—Rep. R. A. Green forgot during an address here that his speech was being broadcast.

Twice he made assertions which he quickly assured his visible audience were "off the record."

The third time he spoke in confidence, he suddenly remembered the mike before him was "alive," and muffled it with his hand while he made his point.

## Increased Business Volume For Banks

AUSTIN, July 29 (AP)—An ever-increasing volume of business for state chartered banking institutions was predicted by the banking department on the basis of composite assets of \$408,005,207 reported at the close of business last June 30.

This was an increase of \$181,001,487 from June 30 of last year and the increase in assets from June 30, 1940, was 110 per cent.

In a statement the banking department said:

"The strength that is evidenced in the composite statement of all state banks is represented by a substantial capital account, the aggregate being more than \$35,000,000. The success of any business enterprise is dependent upon capable management, a reasonable volume of business and adequate capital.

"It may be said with conviction that each of these factors is evident in the overall condition of state banks."

## Dallas Women Assist In Capturing Negroes

DALLAS, July 28 (AP)—Two young Dallas women sped 70 miles an hour from here to Fort Worth yesterday, pursuing two negroes in another car. Through their efforts the car was caught and the negroes arrested.

The women were Bernice Cohn and Dorothy Herr, employed as laboratory technicians at the Dr. W. Gordon Maddox Clinic here. Yesterday afternoon Dr. Maddox's wife noticed her car had disappeared. Miss Herr and Miss Cohn jumped in another automobile and started a search.

A few minutes later they sighted the car and the pursuit started. Near Fort Worth they stopped an instant to tell their story to a motorcycle policeman who took up the chase and arrested the men.

Benjamin Franklin, in 1788, predicted that "men descending from the clouds" might one day be used in battle.

# Threatened With Strike, Cox Apologizes To Harris

## Idea Is Borrowed From Bums; Phils Take Sixth Place

By SID FEDER  
Associated Press Sports Writer

Before the whole thing gets out of hand, this is a plea to William D. (I Used to Play for Yale) Cox and his phoolish Phillies to please leave Brooklyn with its Brooklyn accent.

Last night the Phils borrowed the Bums' idea of a player strike, a stunt that took the play practically completely away from baseball's war relief day which saw eight games produce an estimated \$199,733.55, along with an appearance of Babe Ruth as manager and pinch-hitter.

The Phils signed a petition that they would strike unless Cox reinstated Harris as manager and gave him a chance to resign.

The Phils gave Harris the heave-o the night before, although Bucky has won 39 games in slightly more than half this season.

Faced with a walk-out of practically all his able-bodied hired hands, Cox apologized to Harris before the entire club for "an unfortunate incident." He told Bucky the dismissal "is not intended to reflect in any way on your ability as a baseball manager"—which left you wondering just what Bucky was fired for, then.

Anyway, his apology apparently satisfied one and all, because the Phils went out and made Fitzsimmons' debut as manager a merry one by clouting the Cardinals 6-4 to snap St. Louis' winning streak at 11 and climb back into sixth place themselves.

Fat Freddy shook up the Phils' lineup, but the Brooklyn aroma was still as prominent as channel No. 5 in a glue factory, be-

### Babe's Return Merely Results In Headache As His Team Loses

NEW YORK, July 29. (AP)—Babe Ruth came back to Yankee Stadium yesterday afternoon, gave that familiar cry of "hi-ya keed," and proceeded to become a baseball manager. But after little more than six innings he was a tired ex-athlete looking for an aspirin.

### SPORTS ROUNDUP

By HUGH FULLERTON, JR.

NEW YORK, July 29. (AP)—First reaction here to the Dodgers' announcement that the Phillies had a new manager was that it supported the rumors rampant in Philadelphia that Branch Rickey really is the guy behind the Phils. . . . After letting the idea stew a while, we figure it just the other way. . . . We can't see a man with as much baseball wisdom as Rickey firing a good manager for no other apparent reason than that he insisted on doing the managing himself and keeping the owner in his place.

### Warime Fate Of Football Uncertain

NEW YORK, July 29. (AP)—Some 60 football coaches and athletic directors have spent 24 hours listening to speeches on the wartime fate of the gridiron sport—and wound up drier than a freshman running through his first T-formation assignments.

They heard Maj. Gen. Phillip B. Fleming of the federal agency, formerly graduate manager of athletics at the U. S. Military Academy, tell them that the plan offered by Asa Businell, head of the eastern office for intercollegiate athletics, was "so sound it is worthy of war department study again and should be presented to the president's three-man sports committee when it is named."

And they also listened as Dr. John Harmon of Boston university gave tacit approval to the army's ban on intercollegiate sports for its trainees stationed on the country's campuses.

"After helping prepare 59 and 71-hour school programs for the trainees," said Dr. Harmon, "I find I have less fight in an effort to have the soldiers play football."

The meeting yesterday already had recessed until this morning when Representative Samuel Weiss of Pennsylvania, who tops today's speaking program here, announced in Washington he had received a letter from President Roosevelt that indicated a possible reconsideration of the army order.

The chief executive thanked Weiss for calling the ruling to his attention and said he would take up the matter with Secretary of War Stimson. In contrast to the army ruling, navy college trainees are permitted to compete if it does not interfere with their studies.

Shaking his head vigorously in opposition to the suggestion that he use a pinch hitter, he puffed to second on Oris Hockett's single. There he saw the wisdom of the suggestion and motioned Tuck Stainback from the bench to carry the tally home.

The uprising netted four scores and sent the Yankees into a temporary 5 to 4 advantage that lasted only until the first half of the seventh when the Flyers landed on Jim Turner for six hits and seven runs.

It was during this debacle that he waddled down the dugout steps, murmuring "it's time for a shower. Another day, another game, and all I got out of this is a headache."

### Maintenance Outfit Keeps Top Place

North Maintenance retained its wide margin of leadership in the Big Spring Bombarrier School enlisted men's softball league Wednesday, but it took an extra inning and a climatic home run to turn the trick over the tenacious 1047th Guard, 3-2.

Nelson had helped the Maintenance cause along earlier with a homer that found the sacks barren, but it was Groce's circuit smash in the extra inning that broke up the ball game. Sgt. Hunter, 1047th star hitter and league leader, got one for two and maintained his .500 average.

The Mess Company waded into the 2052nd Ordnance as if the Demolition Demons were a bunch of dud spuds. Result: Mess 13, Ordnance 5. Daniels and Bergen set the hitting pace for the rampant Mess team with two for four, but Wolfe and McCormick, Mess batteries, took no chances on losing their own game by clouting out homers. Wolfe also singled.

Corn is now being used to make fibrous glass cloth used for bomber brake linings.

### Youthful Warhawk Pilot, 'Thanks To All,' Escapes Death, Takes Prisoners

By DANIEL DE LUCE  
ALLIED HEADQUARTERS IN NORTH AFRICA, July 29. (AP)—Thanks to his parachute, 22-year-old Warhawk Pilot John F. Rauth, York, Neb., was saved from crashing in his disabled plane.

Thanks to four Sicilian fishermen he was rescued from the sea. Thanks to the Italian army he escaped a heavy barrage of shells on Trapani.

Thanks to the enemy's lack of fighting spirit he took 25 officers and men prisoners after accepting their weapons.

"It all started when my ship got hit when I was machine-gunning a ship near Trapani July 23," Rauth reported.

"I bailed out 700 feet up and climbed into the rubber dingy after I splashed into the water. My flying school partner, (Flight Officer Bill Slattery, Birmingham, Ala.) circled above waiting for an air-sea rescue plane to come for me. When he spied four fishermen approaching from shore he thought they were coming to do me no good so he fired several bursts until they hoisted a white flag and waved it frantically."

"Bill fired once more just to make completely sure they were intimidated and then he had to leave for home because his gas was running low," Rauth added.

"When those fishermen reached me they grabbed me like a long lost brother. They hugged me and kissed me and one pro-

### CITIZENS WATER LAWN AT NIGHT

The city's requested ban against watering lawns is accomplishing much in the direction of wise watering—namely, sprinkling at night, but it has not altered the natural law that a gallon of water is a gallon of water.

Although city officials agreed that watering done at night in this area probably is much more beneficial to lawns, even so, every gallon of water is diverted from use of victory gardens and perhaps ultimately domestic use.

While consumption dropped sharply after the city first asked that lawns not be watered until lake supplies were replenished, the decline is being steadily wiped away.

### Do you know a fellow like Joe?

**JOE'S MY KID BROTHER.** We've always stuck together and I've sort of watched out for him these last few years.

Well, Joe's in Africa now. His wife gets her allotment from him, and I guess when that's taken out of his check he doesn't have much left. Privates don't get paid much you know.

I figure this way. Here I am, making more money than I ever did before. You bet I work for it! But Joe's working hard too . . . and not just from 7 to 5, either.

We've been taking 10 percent out of my

check every week for War Bonds . . . they're going to come in mighty handy when the War's over, we figure. But I got to thinking about Joe. What's he going to have after the War?

So we talked it over, my wife and I. We think Joe should get a cut of the bigger money, too. So now I'm buying an extra bond every month—in Joe's name.

Maybe you've got somebody in the War, too. If you have, couldn't you squeeze out an extra bond now and then, for your "Joe"?

# Editorial - - Relations Between Congress And WFA Are Due To Improve

Indications are that there will be better relations between the Congress and the Food Administration when the Congress convenes after its recess. This is based on the report that War Food Administrator Marvin Jones says he will consult with members of the Congress before making final orders on farm programs. That would seem to be proper and Jones having been for many years a member of the Congress doubtless realizes that he will get along better if he takes "the boys" into his confidence and councils.

The Congress is rightly displeased that it has not always been consulted and sometimes not even informed of what was to be done under the broad powers that it has granted the President, and through him many of his assistants, because of the war demand. It is a fact that many details have to be omitted from legislation under such conditions, but the fact that so many times administrators have gone so much further than the Congress contemplated they would go when the legislation was enacted, that some of the members very properly feel they were being ignored.

The Congress, not the President nor his appointed administrators and bureau heads, is the representative of the people, every member being chosen by virtue of the vote of the people. These members have the right to ask that they be consulted before radical steps are taken on matters concerning the welfare of their constituents.

Administrator Jones is wise in talking with the members and getting their views, but the chances are that they will have some effect on his decisions, and that will be a very good thing.

## Hollywood Sights And Sounds—

# Gertrude Lawrence May Play Sarah Bernhardt

By ROBBIN COONS

HOLLYWOOD — They're calling it "Paramount luck." Even though Veronica Lake twice was hospitalized for baby arrivals, both times she finished her then current film before the fact. Her latest hospital trip, resulting in premature birth of her son, came after a fall on the set—but she was there only for an added scene. "The picture itself was completed. . . ."

Something to look for: Gertrude Lawrence in a movie about Sarah Bernhardt. She'd like to do it as a picture first, even if she does it later on the stage. . . . Her "Lady in the Dark" did sensational business here. . . .

Dwight Taylor is now writing lines for Humphrey Bogart's "Conflict." Once Bogart Taylor, Bill Brady, the producer's son, and another kid were members of a boyhood band, all of whom wanted to be "tough." Acquiring a shiner or two was considered a prime mark of success. Taylor now relates the shock it was to the gang one day to learn that Bogart had become an actor. "He was the last person in the world I expected to go on the stage. He had often expressed his opinion of actors. They weren't tough."

Bogart made his debut in "The Cradle Snatchers" and the gang was on hand. Mary Boland and the late Edna May Oliver were playing jaded matrons in search of a thrill from young men. "We were flabbergasted," recalls Taylor, "when Humphrey walked out on the stage as one of their thrill boys, wearing a delicately colored pair of Chinese pajamas. It was too much for us. We whistled, cat-called and shout-

# MURDER IN TIN

By CARL A. PETERSON

Chapter 10

I had never been to La Turque's before. It wasn't a large restaurant like Prensas or Paolo's or an intimate one like Henri's. It was small and its atmosphere glittered. People of many nationalities were dining. Mexican Army officers, Greeks, Englishmen, Americans. I selected a table in the corner where we could continue our duel without being overheard.

"Two martinis," I said to the waiter. "Is that all right with you?" I asked her.

"They're the best martinis in the city."

"You've been here before then?"

"With my father and with other men."

"Recently?"

"No, not recently? Don't you gumshoes ever relax?"

I laughed. "You don't believe a thing I tell you."

"Do you believe what I tell you?"

"No. It's a strange situation. We don't trust each other, but you want my help."

She toyed with the menu card. "Perhaps you need mine."

"Perhaps," I laughed again. The martinis arrived. Last

night I had downed three tequilas, I recalled. "The world's at high tension," I said. "Each day is a week, a month. Each day's the equivalent in importance to thirty days in peace time."

She smiled and we drank. I ordered two more martinis. But after the second shot I gave up the attempt to be merely social. Mirtilo and Johnson, I was sure, were not indulging in small conversation right now. They were probably discussing the lack of police activity; perhaps discussing my tete-a-tete at La Turque's with Sam Taggard's daughter; that is if their Gestapo footpad had phoned them.

"You should see the way you're staring at me," she said. "As if you hate me."

"You're too pretty to be hated," I said. I thought that she might be a traitor; pretty women had been traitors before in other wars. Yet it would be hard to hate her.

After I ordered, I said, "About this man Chevalle. When's your appointment?"

"Tonight, at ten o'clock. Why don't you come along with me?"

"You move fast when you move."

"Like father like daughter is what you think," she said. "But all I want, believe me is to help my father. I know he isn't a saint. But I'm not judging him. He's always been good to me. All I want is to help him."

"In his traitorous activities?"

"No. Just to keep him from harm. He's always been good to me. I must help him."

"Why don't you appeal to the American Consul?"

She took a silver cigarette case out of her purse.

"Why did you want me to meet Mirtilo?" I said.

"You're decidedly monotonous."

"Why do you want me to meet Chevalle?"

The waiter arrived with our order under a series of silver covers. "I'm hungry," I announced and for the next course or two I forgot about Sam Taggard. If he were dead, he deserved no sympathy of mine. He was a racketeer at best and he had gotten caught. He was of no value to a country at war. His discovery was all that mattered in connection with him.

At coffee I said, "I'm not a subtle person. I blunder around

a great deal. I haven't made up my mind, how much I can trust you. That's why I keep on repeating myself. Back home one of the war posters shows a sailor with a red-head good-looking girl. There's some motto on the poster to the effect: Beware sailor. Do I make myself clear?"

"Very."

"I made your acquaintance last night. Tonight you invite me to visit a man called Chevalle—"

"He lives on the Paseo de la Reforma," she said as if she hadn't been listening to me at all. "I don't like to visit a man alone late at night. You're somebody I can trust. It's like taking a policeman along, Mr. Calder. I don't know how this will sound to you but I am going to help my father as best as I can. If the Government ever catches up with him—"

She hesitated. "I know this. I don't want him sent to a penitentiary. Not if I can help it!"

"And you propose to pursue a course independent of your Government?"

"Don't preach to me. I'm willing to cooperate without preaching."

"Why do you want to cooperate with me?" I asked. "Why me in preference to other Washington representatives whom you have been meeting? It isn't that I'm unappreciative, but I'd like to know."

"You call the policeman closest at hand."

"That's true."

"I've been in Mexico City long enough to realize I can't do much by myself."

"Is your father in Mexico City?"

"He was."

"Have you seen him?"

"No."

"Do you think he's left?"

"No. He would've gotten word to me somehow even though I'm being followed and my mail is being held," she snapped. "Even though my room has been searched."

"Your father's ingenious," I admitted. "Any man who can stay out of sight for six months with both the Gestapo and our people after him—"

I stopped and thought: Maybe his ingenuity was at an end? Maybe he had literally reached a dead-end in the room with the barred window. "Where was your father when you received

# Labor Groups Vs U. S. Congress Campaign Is Developed To Alter Lawmakers' Attitude

By ALEXANDER M. GEORGE

WASHINGTON — While Congressmen are resting and inspecting the political grassroots in their own home fronts, organized labor is swinging into a campaign to "bring about a change in the attitude of Congress toward labor."

When Congress was assembling in dramatic, angry session to override the president's veto of the Smith-Connelly anti-strike bill, The American Federationist, official organ of the A. F. of L. warned:

"We shall endeavor to vote out of office any member of Congress who supports this bill."

New union labor—A. F. of L., C. I. O., and Railway Brotherhoods—has gone to work to put on the pressure. Immediate goal is to prevent Congress from "scuttling the subsidy-price roll-back program" when it reconvenes in September. Long-range objective is to block hostile legislation and to rejuvenate organized labor's admittedly waning strength in the political field.

Richard T. Frankenstein, legislative director for the United Automobile, Aircraft and Agricultural Implement Workers (CIO), is sending to members of his union the voting record of Senators and Representatives on "20 major issues together with the admonition that they see their Senator and Congressman, praise him or warn him, depending on his vote."

"It may be wise," advises Frankenstein, "to picket some Representatives and Senators."

Edward Keating, veteran editor of Labor, official organ of the railway unions, says that chiefs of the railroad organizations are sending letters to their locals urging every member and every eligible member of his family to register so they may vote in the next election.

Keating, a former Congressman from Colorado, says that "if labor makes as poor a showing in 1944 as it did in 1942 the next congress will be emphatically anti-labor in both branches."

Says A. F. of L. President Green: "Labor and consumers are being discriminated against. Unless prices of food are brought down to a reasonable level, organized labor will have no other

recourse but to demand wage increases. Unless members of Congress protect the workers and the consuming public, they will be swept out of office in the next election."

A large majority of Congressmen who voted to override the president's veto of the Smith-Connelly bill represent districts which are predominantly agricultural. All but two of the 114 Democrats in the house voted to override are from southern, southwestern or border states.

The South has long been tabbed as farm-anti and, to a certain extent, anti-union although New Deal pro-labor measures received substantial support from south-

ern Congressmen before the "revolt against Roosevelt."

Labor leaders contend, however, that the economic picture in the South has changed a great deal, particularly since the onset of the war industry boom. Southern textile, chemical, steel, aluminum, shipbuilding and other factories employ large numbers of workers. Unionists say the vote of these workers could well furnish the margin of victory in many a close primary contest for a Congressional nomination.

Some CIO unions are concentrating this summer on enlisting support among northern Senators for the bill to abolish

## How To Torture Your Wife

## Washington—'Favorite Son' Convention Is Forthcoming

By JACK STINNETT

WASHINGTON — There has been a lot of talk around here about how much political pulse-feeling the democratic members of congress are going to do on their vacations, but it's my guess the republican members will do a lot more.

There isn't a politician worth the name who doesn't realize that the republican national convention next summer is going to be a "favorite son" convention—and doesn't know that such conventions are the ones filled with dynamite.

Let me quote a former chairman of the national democratic committee, who no longer is a front man in the political arena but still must remain nameless.

"Dewey and MacArthur (that's Governor Tom of New York and that man in the Pacific war theatre) seem to be the logical republican possibilities. They are men the republicans should think they might win with."

But the "favorite son" prospects now indicate there is a strong probability of a convention deadlock and the opponents of Mr. Wendell Willkie will have to be very alert to find enough favorite-son parking spaces if they are going to prevent Mr. Willkie from capturing the nomination.

That is an interesting long-range observation for several reasons, but mainly because it's an "opposition" party conclusion that if Dewey is as reluctant to run as he insists he is, the republican "Old Guard" and middle-of-the-roads may have to concentrate on MacArthur if they have any serious intentions of defeating Willkie in convention and capturing the seat in the White House in November, 1944.

MacArthur not only hasn't given the slightest nod to any of his backers but he has publicly disavowed all interest in national politics. Intimates who have been in contact with him recently say he's now a man with one burning passion—to vindicate his whole military career by recapturing the islands he and his men were driven out of and to spearhead the attack on the nation that drove them into the seas off Bataan and Corregidor.

These intimates are confident that even if he were nominated, MacArthur would refuse the nomination. That is a point that the "MacArthur-for-President" club in Illinois (where they insist they will put him on the primary ticket for president, with or without his permission) would do well to explore.

Under the present Army ruling, if MacArthur were named in convention, he would have to abandon his command to accept the nomination. He would have to resign from the Army, return to civilian life, and give up the very things he now is seeking so strenuously to achieve.

The president, as his commander-in-chief, probably would exempt him from the order, as a gesture of courtesy toward a prospective opponent. But that wouldn't change MacArthur's obligation to what friends say now is his sole ambition.

ed, 'Hello, beautiful!' But he apparently knew what he was doing. He wasn't long wearing silk pajamas. Soon he was leveling a pistol and chilling the blood of audiences. He had left the rest of us behind. We had wanted to be tough, but he had already arrived."

Taylor himself gave up ambitions to "toughness" years ago. He's now a producer as well as a writer. . . .

Deanna Durbin is singing Russian folk songs for "His Butler's Sister." . . .

Screen fight of the year to date is not between fighter planes, battleships, or bombers. It's the grueling hand-to-hand bout between Robert Ryan as an American and Mike Mazurki as a Jap wrestler in "Behind the Rising Sun." Ryan boxes, Mazurki wrestles, grunts, kicks and tries mayhem.

The suspense is enough when taken as a straight physical battle, but it really climbs as it becomes a symbolic struggle between Japan and America—and their methods—before the eyes of Japanese officers and a few Americans in pre-war Tokyo. You can hear the bones barking. . . .

## Madison County Sheriff Bound Over To Jury

HOUSTON, July 25. (AP)—Sheriff Rodney F. Chambless of Madison county, charged with aiding Gene Paul Norris, a federal prisoner, to escape from the Conroe jail May 30 was bound over to the federal grand jury today.

Federal Commissioner W. F. Carothers ordered Chambless held under \$2,500 bond at the completion of a hearing. The sheriff has denied the charges.

Gene Paul Norris testified yesterday that he paid the sheriff \$540 to help him escape jail but that the sheriff did not carry out what Norris said was an agreement to provide an escape car, firearms and ammunition.

Take it from Bill Everett, who visited here from the West Coast, ship welding is no easy thing. If a man works inside, he is apt to suffer from the heat, lack of fresh air and gas fumes from melting welding rods. If he works outside, he is likely to blister, freeze or be soaked to the skin. After the war is over, Bill doesn't think it will take much to persuade most welders to quit shipbuilding.

### TAX TREATY BASIS GIVEN APPROVAL

MEXICO CITY, July 29. (AP)—The regional committee of the League of Nations fiscal committee finished its ten-day session yesterday with approval of a basis for tax treaties between American countries.

The approved projects cover both inheritance taxes and income taxes for persons or companies who have businesses in one country but live in another.

While the plan is not binding on any country, it may serve as a basis for tax treaties between countries.

### JOINS CATTLEMEN

EL PASO, July 29. (AP)—Senator Chavez (D-N. M.), has joined New Mexico cattlemen in an effort to prevent the army air forces from using 1800 additional sections of ranch lands for an aerial gunnery area because they said between 35,000 and 40,000 head of cattle were involved.

**Midway High To Be Discontinued**

The Midway school will operate as an eight-grade school only for the next year, and its high school pupils will be transported to Big Spring.

This decision was reached by Midway trustees at a meeting Wednesday night, when plans for the 1943-44 term were discussed. The board felt that in view of wartime difficulties and teacher shortages, the high school should be dispensed with at least temporarily.

Provision will be made by the Midway district to transport the high school pupils from Midway to Big Spring.

County Superintendent Walker Bailey pointed out that Midway high school pupils who will come to Big Spring must have transfers, and he advised parents to file these transfers at once. They must be made before August 1.

**Post-War Housing Revolution Unlikely, Says Researcher**

INDIANAPOLIS, July 29 (AP)—Employment theorists banking on a revolution in housing methods to absorb manpower after the war are about to step down hard off the curb of "wishful thinking," in the opinion of Carl F. Boester, senior fellow in housing study of the Purdue University research foundation.

"Despite flights of fancy of many writers, changes in housing after the war will take the form of slow evolution rather than revolution," Boester told a businessmen's club yesterday.

"Practical-minded building contractors still control the housing industry, and they know the public too well to promote the adoption of wholesale innovations overnight," Boester said.

Some of the bodies were found along the beach at Bolivar Point by army truck crews and turned over to the coast guard, Saville said. Others were picked up on the Johnson Ranch beach ten miles down the Bolivar Peninsula.

The Galveston News said more than 90 per cent of all structures in Texas City suffered either water damage or complete destruction.

Wind estimated unofficially at 105 miles per hour swept through the city.

At the University of Texas medical plant in Galveston the John Seally hospital building was in such a condition that evacuation of wards and isolation patients was necessary and an emergency operating room was established in another building.

At Fort Arthur, motorboats were used last night to evacuate residents from lower sections and the water was backing up into the business district after one of the heaviest rainfalls ever recorded in the southwest flooded practically the entire city.

**Teachers Sought For Garden City School System**

Teachers still are being sought for the Garden City school system, it is announced by Supt. C. G. Parsons, who said that there are vacancies for English and commerce in the high school, and for the second grade in the elementary school.

Faculty members at the present include Parsons, J. L. Carroll, principal and mathematics teacher; Marvin Scott, vocational agriculture; Mrs. R. H. Ricker, history and music; Mrs. J. L. Carroll, Girls' physical education and upper grade work; Mrs. Ruth Wilf, homemaking; Mrs. Mildred Ramsel, first grade; Miss Euleia Barber, third grade; Mrs. Jessie Henson, fourth grade; Miss Garcia Ross, fifth grade; Miss Ruth Johnson, elementary principal and sixth grade.

Garden City enrollment this year will be about 225. The school operates as a county unit system and uses seven buses to transport pupils.

**Livestock**

FORT WORTH, July 29 (AP)—Cattle 3,000; calves 800; about steady in the early trade. Slaughter calves fully steady to strong. Common to medium steers 10.00-13.00 bid with some sales at these levels. A few good animals 14.00; good beef cows 10.00-11.00; bull prices ranged from 7.75-11.75; good fat calves 12.25-13.25; common to medium slaughter calves 9.00-12.00; heifers 13.25 down.

Hogs 1,000; most good and choice 190-280 pound butchers from 14.00-13.00; stocker pigs largely 12.00-13.00.

Sheep 10,000; medium grade yearlings 11.00-12.00 with common kinds at 10.00. Ewes 5.75-7.25. Spring feeder lambs 10.00 down.

**No-Hit Game Is Pitched By Bob Shepard**

WACO, July 29 (AP)—Bob Shepard, property of the Columbus team of the American association, pitched the first no-hit, no-run game of the state semi-pro tournament history here last night as the 635th squadron of Camp Hood defeated the Bryan Navigators 18 to 0.

Shepard pitched to only 29 batters, walking two and striking out 17, while his mates played errorless ball behind him. Camp Hood pounded out 15 hits.

In the second game, San Marcos eliminated Blackland Army Air Field of Waco from the tournament by winning 1-0 with Maclee Baker, lefthander, doing the pitching chores for the winners.

duce "and his fascist gang will be brought to book and punished for their crimes," the president declared.

"We will have no truck with fascism. . . We will permit no vestige of fascism to remain."

He said "we are helping the Italian people in Sicily" and will continue to help Italians reconstitute their government as they want it—there will be no pillage or starvation—conquered peoples will be restored "to the dignity of human beings entitled to freedom of speech, freedom of religion, freedom from want, freedom from fear."

If that is "crazy altruism or starry-eyed dreaming," Mr. Roosevelt said he was "sorry."

Succinctly, he jabbed at the Japanese.

"If the Japanese are basing their future plans on a long period in which they will be permitted to consolidate and exploit their conquered resources," he said, "they had better start revising their plans now. I give that to them merely as a helpful suggestion."

**Convention Report Heard By Lions**

Reports from the Lions International convention in Cleveland were heard by the club here Wednesday with Dan Conley relating experiences had by him and K. H. McGibbon, official delegates.

Despite the fact that 16,440 former lions are now in the armed services and another 20,000 have been displaced by moving to war industries, the association now shows a gain of 2,713 over the day of the Pearl Harbor attack, said Conley.

Accordingly, the number of clubs was at a peak and one new country had been added to the international field.

Other reports dealt with an address by the head of the Norden bombight company, who said that by comparison, with a bombsight the mechanism of a fine watch seemed crude. He hooted the idea that the enemy would benefit by getting hold of these instruments, for it would take two years to master and duplicate the intricate mechanism, another two years to put it into production and still other years to train men in its use.

Conley, warned the U. S. not to relax in Central America, pointing out that the Japanese already have outnumbered five to one in that area.

**Deaths Of Prisoners**

The war department today listed Sgt. Clarence E. Cavett, son of Mrs. Ola Fay Cavett, Kermit, and Pvt. Richard H. Updike, Jr., son of R. H. Updike, Pecos, as among the Texans who have died of disease in Japanese prison camps.

The information came through the International Red Cross and 18 names were on the list.

**Gunner From Big Spring Has Part In Raid On Nazis**

S/Sgt. James A. Myers Big Spring, was in on the bold American daylight raid on Ochersteben, only 80 miles from Berlin and site of a big Nazi aircraft factory.

Associated Press accounts said the "swarms of Flying Fortresses flew unescorted" to smash the big industry.

Enemy fighters started to attack the Fortress in which Jimmy, son of Mr. and Mrs. J. A. Myers, was an aerial gunner, but before he could unlimber his ordnance at the Nazis, Spitfires appeared and drove off the Germans.

A graduate of Big Spring high school, Jimmy attended the University of Texas and later was associated with department stores before entering the army.

During the Wednesday raid, longest daylight foray by American forces to date, Kassel, site of a big Focke-Wulf assembly plant and about 200 miles southwest of Berlin, was battered by the American bombers, which were reported to have shot down upwards of 60 Nazi fighters. Twenty-three bombers were lost on the 1,000-mile round trip.

Thursday morning, squadrons of RAF fighters crossed and recrossed the Channel in a continuation of widespread raids on Northern France. Heavy bombing objectives in German-occupied France continued this evening and an AP correspondent said that "explosions across the channel are shaking doors and windows as I telephone this message. It is like the days of 1940 when the Germans were bombing this side."

**Wall Street**

NEW YORK, July 29 (AP)—The stock market retrieved some of its recent losses today on a revival of buying which had its best force in the first hour.

In the later proceedings the demand slackened and most leaders in the closing hour were a bit under top prices but still were ahead fractions to around 2 points.

The rise covered a lot of ground, taking in motor stocks, rubbers, coppers, utilities, farm equipment, aircrafts and rails. Shares rated as "peace" issues received better than average support. Soft drink stocks recorded wide advances. Transactions of approximately 1,000,000 shares for the session were considerably under yesterday's volume.

Prominent on the rise were Goodyear, Montgomery Ward, Sears Roebuck, Case, Oliver Farm, Caterpillar, Douglas Aircraft, United Aircraft, Westinghouse, Johns-Manville, Western Union, Pepsi-Cola, Coca-Cola and Santa Fe.

Showing moderate gains were U.S. Steel, Bethlehem, General Motors, American Telephone, Consolidated Edison, International Telephone, Anaconda, Standard Oil (N.J.), Great Northern, Southern Pacific, and N.Y. Central.

**USO CENTER FOR NEGROES TO BE ESTABLISHED**

Establishment of a U.S.O. unit for negro troops was assured Wednesday with the recommended letting of a contract to rehabilitate the old Blue Cross hall at the corner of NW 5th and N. Bell streets.

Contract, contingent upon approval by Harvey T. Smith, San Antonio, USO building counselor, was awarded to Brown & Rice, Big Spring, with a low bid of \$3,058 on the job. W. A. McCall, J. M. Morgan and J. D. Jones, other bidders, were bunched closely to Brown & Rice, USO officials reported.

The property to be repaired was leased rent free from M. G. Rosales for the duration plus six months. Interior walls will be sheetrocked and the outside covered with asbestos siding. At the west end of the 30x80 structure there will be a lounge, women's room, men's room and showers, snack bar, and check room. At the east end will be the stage with a spacious social and game room between.

Requests for priorities were in the mail Thursday afternoon with accompanying letters from Col. R. W. Warren, commander of the Big Spring Bombardier School, and J. H. Greene, chamber of commerce manager, citing the need of a negro USO. The contracts went to San Antonio with the approval of Ben LeFever, building committee chairman, Ollie Eubanks, chairman of the management committee; Mayor G. C. Dunham, USO committee member, and Dr. C. W. Deats, chairman of the USO council.

Repairs plus certain fixtures will about exhaust the \$3,251 budget for the project, Ross Clarke, USO director, thought. Over and above this are allotments for furniture, which has been ordered.

**Stribling To Manage Housing Project**

S. B. Stribling has been appointed to manage the housing project adjacent to the bombardier school, Marshall W. Amis, Fort Worth, director of region VIII for the Federal Public Housing Authority, announced Thursday.

Stribling will take charge when the project is completed. Meanwhile, O. R. Woaker, construction engineer, is in charge of shaping up the unit, which is due to provide approximately 180 additional housing units for couples, and families. No estimate as to completion date could be given, it was said.

During the week, an agent of FPHA was here to negotiate water and sewer contracts, and B. J. McDaniel, city manager, said he thought the matter would be settled quickly.

**Here 'n There**

Tommie Louis Pool, son of Mrs. Beulah Holden of Odessa, and former Big Spring resident, has been selected to attend a special electrician's school in Ames, Ia. The honor is awarded those of unusual ability in each class at the training station. Pool enlisted here in May and was sent to training station at San Diego, Calif.

Mrs. A. M. Ripps was to leave Thursday for Boston Mass., to visit with her son, James Ripps, and family before he leaves for extended sea duty with the U. S. weather bureau.

Christensen Boot shop, 103 E. 2nd street, has changed location to larger quarters at the corner of E. 2nd and Runnels street, formerly occupied by the Linck Food Store.

Word comes from the army air base at Sioux City Iowa, of the promotion of Benjamin F. Daugherty from private first class to corporal. Cpl. Daugherty is the son of Mrs. Eva M. Lancaster, route 1.

**Rector's Third Son Born Wednesday**

The Rev. and Mrs. R. J. Snell now have a third son in their family. He is Richard Fargo Snell, born Wednesday morning at the Cowper hospital. He weighed 8 pounds, 13 ounces at birth and both Richard and his mother are doing well. The Rev. Mr. Snell is rector of St. Mary's Episcopal church here.
