I am a tired Democrat who disagrees with many of the give-away programs that have seemingly killed the initiative of the American people to excel and be better than the next guy, and has thusly dampened their ambitions and created instead this "Why Should I" attitude.

NOSIN'

It is with much regret that we lose Rev. and Mrs. Lindley from our midst.

Harvey, Karen, and Mimsy Kendrick are wearing happy smiles these days, now that they have at last been permitted to bring their baby boy home.

Brooks-Adrian Winners In Weekly Contest

Upsets in area football games perhaps caused contestants in the local football contest to fail to have one completely correct entry ballot.

NO ZOGI SHOW!!!

Earth Lion Boss, Fred Clayton announced this week that the local club had cancelled the great Zogi Variety show due to be shown here tonight.

LARGE VOTE EXPECTED TUESDAY IN GENERAL ELECTION

Interested voters from all walks of life are expected to go to the polls and vote in the general election on Tuesday, November 8.

Polks will open at 8 a. m. in Earth at the community room in the City Hall and will close at 7 p. m.

In Springlake two polling places will be set up. For precinct 17 voters, the voting place will be the community room with R. L. Byers as election judge.

Earth City Council Adopts Resolution Opposing Amendment No. 1 on Ballot

The Earth City Council today adopted a resolution opposing Amendment No. 1 on the November 8 general election ballot.

Amendment No. 1 would, if passed, alter the Texas Constitution to permit 1 and designated by the owner for agricultural use to be assessed for all tax purposes on consideration of only those factors relative to such use.

Dead is Joe Ventura Dominguez of Dimmitt. The two women receiving injuries were Mrs. Lena Hite of Earth and Mary Cristin of Dimmitt.

The four people involved in the wreck were rushed to the Castro County Hospital where Dominguez, driver of a '59 Rambler stationwagon, died about six hours later.

Three Car Accident Kills One, Injures Local Woman

A three car accident occurring about 9.8 miles South of Dimmitt on Highway 385 Sunday at 6:30 p. m. resulted in the death of one man and injury of two women.

on with a second Southward bound car driven by Gonzales, traveling behind the Hite car. Snider said all three cars were total losses.

Mrs. Hite was returning from Amarillo where she had been called to the bedside of a brother who was injured over the weekend.

Salad Supper Set For November 11 At School

A salad supper will be served in the school cafeteria on Friday, November 11 just prior to the kickoff of the Wolverine-Kress game in the Wolverine Stadium.

Two local clubs have combined their efforts to bring you the best salad supper ever.

The proceeds will be used to finance worthy projects within the community.

Two Recent Break-Ins Result In No Losses

Two recent resident break-ins, one in Earth and the other in Springlake, resulted in no loss in household items and no one hurt.

The first break-in was reported to have occurred at the T. B. Dyer residence in Springlake Friday week.

The Dyers awoke at 1 a. m. to find a man in their bedroom. They called the Deputy Sheriff and held the man captive until the Deputy arrived.

A second break-in occurred Wednesday, October 26, at 11 a. m. at the Richard Mitchell residence on NE Second Street.

Noticing her husband's gun by the door where he had left it the night before after cleaning it, she picked it up and proceeded to the bedroom.

She continued, "I guess he was as scared as I, for he ran to the back door only to find it to be locked.

In his effort to unlock the door he had to empty his hands, throwing down the articles he had gathered up. He succeeded in unlocking the door, and departed in a high run.

Mrs. Mitchell said she had locked all outside doors except the front door when she left for the grocery store.

Springlake Lions Gross \$384 In Turkey Shoot

The Springlake Lions Club grossed \$384 from the turkey shoot Saturday, north of Springlake.

Approximately 40 turkeys were given away during the all-day turkey shoot.

The proceeds will be applied to the Lions Fund to be used for worthy projects in the community and to help with the crippled children's home at Kerville.

CONSTRUCTION SLOWS DOWN IN EARTH AREA

Two building permits to be used for residential improvements were issued this month in Earth.

The two permits totaled \$1,450.

TUESDAY IS AN IMPORTANT DAY

Tuesday's general election looms as one of the most important voting days ever to occur in a so-called "off year" when the presidential race is not on the ballot.

Political observers, viewing the light turn-out in the Spring primaries, are justifiably alarmed about the prospects of a small vote.

Their concern is mirrored by statistics. Since 1936, the average turn-out in a non-presidential election has been a dismal 33.4 percent of the eligible voters.

This should not be the case this year. Next Tuesday, the fate of 16 Constitutional Amendments will be determined by you.

Next Tuesday, a spirited U. S. Senate race will end—a race in which your vote must last six years.

Tuesday, all of our State Senators will be selected, due to re-districting.

And next Tuesday, voters will determine their county's strength at the 1968 State political conventions. This fact too often is overlooked.

Your vote is yours alone; no one else can cast it for you. If you don't use it, it is lost. Your voice in the future conduct of our state and nation is muffled.

Take time Tuesday to vote.

And, if you are going to be out of the county Tuesday, remember that Friday, November 4 is the last day you can cast your absentee vote.

Pig Sale Grosses \$9659

The local pig sale, held in Earth last Wednesday, October 26, grossed a total of \$9,659. The 310 weaning pigs sold at an average of \$31 each.

H. D. Tucker of Wilson had the Reserve Grand Champion pig of the show. It was the highest seller, selling for \$150. Because of the high quality of pigs selling in Earth, buyers came from as far as San Antonio to buy pigs at the local sale.

The sale was a great success, with a much larger turnout than expected. The breeders selling and the number of pigs sold are as follows: Ed Elliot, Littlefield, 12; Hill-Branch, Lazbuddie, 18; Bob Phipps, Earth, 14; Brad Trieder, Lazbuddie, 13; Charles Axtell, Earth, 28; O. M. Cleavinger, Earth, 2; Ken Dawson, Earth, 21; Jerry Townsend, Earth, 2; Leland Dear, Springlake, 8; Lonnie Dear, Spring-

lake, 16; Bobby Redwine, Lazbuddie, 7; Randy Washington, Springlake, 3; H. D. Tucker, Wilson, 25; Kenneth Cudley, Wilson, 16; Waymon Lewis, Littlefield, 22; Foy Dale and Danny Clark, Lazbuddie, 18; Dale Montgomery, Crosbyton, 14; and Jerry Jones, Earth, 59.

Those assisting in the sale were auctioneers, Mikey Dent and assistants Doug Lewis and L. D. Henderson. Clerks for the show were Harold Miller, Carl Anderson, Thurman Lewis; arena men were Archie May, Olton, and L. D. Henderson of Earth.

The local PFA mothers provided sandwiches for the sale and the following mothers worked in the concession stand: Mrs. Leon Foster, Mrs. Joel Jones, Mrs. Frank Jackson, Mrs. W. L. Barton, Mrs. Carl Jones, and Mrs. Ed Townsend. The concession stand profit was \$96.

The sale was a great success and it is hoped there will be many more like it in the future. Special thanks goes to all who assisted in the show.

Taylor's Win-Free Trip

Mr. and Mrs. C. O. Taylor of Taylor Furniture will leave November 11 for nine days in Maui and Honolulu, Hawaii.

The group will leave Lubbock via Pan American chartered flight with a stop in Los Angeles, then on to the Hawaiian Paradise Island of Maui, arriving in the late afternoon.

General Electric's all expense paid trips are awarded annually to those dealers in their group divisions achieving the highest percentage of their individual quotas in excess of 100%. This is the second of these trips awarded the Taylors during their absence.

LOCAL SCOUTS RECEIVE EAGLE RANK during the fall Court of Honor, Sunday, in the First Methodist Church in Lubbock. The nine receiving the rank were front row left to right, Danny O'Hair, Johnny Kelley, and Ricky Welch. Back row: Thomas Mann, Gary Kelley, Kelly O'Hair, and Eddie Jones, all of Earth, and Elbert and Delbert Ridd of Post, formerly of Earth. Back row is pictured Travis Jaques, scoutmaster.

CENSUS REPORT SHOWS...

342 Farms Lost in Lamb County Past Five Years

How do you keep 'em down on the farm?? The answer to this isn't an easy one. We note the decline in small family farms now evident in Lamb County, as the latest census report confirms that 342 farms were lost in Lamb County between the years of 1959 and 1964, according to the United States Department of Commerce.

The 1964 figure, just released, is the first such census since 1959, when this county could count 1,636 farms. In 1964, a total of 1,294 farms were counted in Lamb County.

At the same time, however, the census shows there is more land being farmed now, the value of the land is up as is the income from farming.

In 1959, there were 637,481 acres in farming in this county, compared to 736,773 acres in 1964.

Average size of farms was up from 339.7 acres in 1959 to 569.4 acres in 1964.

Values, average per farm, was up from \$96,521 to \$177,588. Average value per acre was up from \$265.36 to \$311.96.

Some other important facts shown in the new census are:

1. Value of all farm products sold by farms in the county in 1964, \$47,796,504; in 1959, \$42,241,098.
2. Value of all crops sold by county farms in 1964, \$35,800,463; in 1959, \$35,457,943.
3. Value of all livestock and livestock products sold by county farms in 1964, \$11,990,842; in 1959, \$6,783,155.

Information obtained for the first time in an agricultural census indicated the amount of income received by the county's farmers from recreational sources as well as data on the use of pest control chemicals in the county in 1964.

A census of agriculture is taken every five years, ending in "4" and "9" to gather information on the nation's agricultural resources and production. The data is needed to make decisions affecting many segments of the U. S. economy. The 1964 farm census was the 18th in a series that began in 1840.

Among other facts contained in the census are the number of farms by size, type and economic class; the number of farms operators by method of tenure, age, color, off-farm work, and number of school years completed; land in farms by use and land-use practices; data on equipment and facilities; farm expenditures; number of farms reporting poultry and livestock production and those reporting crop production by acres and quantities as well as sales.

Bob Price Visits In Springlake Saturday

Bob Price, candidate for U. S. Representative for the 18th District, made a short stop in Springlake Saturday around 5 p. m., where he met area supporters at the home of Mr. and Mrs. James Busby on Highway 70.

Price spent most of the day Saturday visiting in Lamb County.

Price told his audience what had gathered to meet him that he became interested in politics after he saw so many things taking place in this country that were contrary to his beliefs, and he decided to try to get in and do something

ON THE BASIS OF NATIONAL STUDIES... Installment Debt in County Estimated At \$890 Per Family

In most parts of the Country, as in Lamb County, a little thought is being applied to the amount of installment debt local residents are shouldering.

Having increased year by year the amount of automobile purchases and other consumer goods, the scale has risen to an all-time high.

Not that local residents have been going over their heads, for such is not the cause, the figures show. They appear to be well able to carry the load.

This growth in consumer credit is part and parcel of the general change in buying habits in the United States, points out the Federal Reserve Board. As of the middle of this year, it reports, installment credit in the nation reached \$70.2 billion, as compared with \$59.4 billion in June, 1965.

For the average family, it amounted to more than one-seventh of its net income, after taxes.

In Lamb County on the basis of the national studies, the amount of installment debt outstanding is estimated at \$890 per family.

If people have steady jobs and their income keeps rising, as it has been in recent years, they are in a position to handle bigger debt loads than they were before.

Make Plans Now For Good Planting Seed In 1967

Right now is the time for cotton producers on the Plains to begin thinking about a supply of good planting seed for 1967, while they still have most of the 1966 crop from which to choose.

This is the advice of Dr. Levon Ray, agronomist at the South Plains Research and Extension Center north of Lubbock. Ray says special care in the selection and handling of planting seed from this year's crop will be even more important because of the early freeze and the high incidence of verticillium wilt, angular leaf spot and bacterial blight.

Research has consistently and repeatedly proven that good planting seed is near the top among factors which influence both yield and quality in cotton production. Tests have shown as much as \$30 per acre additional income from good, strong, varietally pure planting seed.

First, Ray says producers should arrange to get seed from cotton in the most mature, disease free field available.

Second, the seed roll at the gin should be dumped before this cotton is ginned. It is not possible to maintain varietal purity in any other way, he cautioned.

Third, in processing, the seed should be graded more closely than in normal years. This may result in cutting as much as 50 to 60 percent of the lighter seed in some cases, but the seed loss is not so great when it is considered that by close grading the amount of seed needed for planting will be reduced.

Fourth, the seed should be properly treated and stored under dry conditions to prevent heating and loss of germination.

Ray points out that verticillium wilt does about the same damage to seed as an early freeze. If seed from wilt-infested cotton is acid delinted and treated, this disease will not be carried over to the next year's crop, he said.

However, this does not hold true for seed from fields infested with angular leaf spot or bacterial blight, Ray warns. These diseases can be carried in planting seed regardless of delinting and chemical seed treatment, and seed from cotton infected by either leaf spot or blight should never be saved for planting.

It is difficult to estimate what the supply of planting seed may be in 1967. There will be some farmers whose crop this year is not suitable for saving seed for one or all of the above reasons. And seed breeders themselves will in some instances be required to cut a high percentage of their certified seed as they are processed in order to maintain quality standards.

The unknown quality, though, is the amount of planting seed in the farmer's barn. It is wide knowledge that not too many farmers saved planting seed from the 1965 crop, but most are thought to have had a large seed supply at the beginning of the 1965 season, and some of this is probably still on hand.

Don Larkin Attends State Baptist Meeting in Dallas

Don Larkin, pastor of the First Baptist Church in Springlake is currently attending the Texas Baptist Convention in Dallas this week.

He recently returned from a revival meeting at Parkplace Baptist Church in Wichita, Kansas. He reported a successful meeting.

WEARING A SOUTH OF THE BORDER EFFECT accompanied by a devil faced companion, this talkative twosome came "trick or treatin'" Monday night ready to talk folks down if no treats were available...

Cotton Quality Lower Than Week Before

Cotton classed at the USDA Lubbock Classing Office during the week ending October 28th was somewhat lower in quality than cotton classed the previous week, according to W. K. Palmer, in charge of the Lubbock Cotton Classing Office.

Cotton harvesting on the South Plains continued to increase daily as more machine strippers began operating. Approximately 4,000 samples were received Friday at the Lubbock, Brownfield and Lamesa Classing Offices.

The Lubbock office classed 3,700 samples during the week ending Friday, October 28. This brought the total classed for the season to 12,700 compared with 49,000 by the same date last year.

Middling made up 32 percent of the cotton classed, Strict Low Middling 15 percent, Middling Light Spotted 30 percent and Strict Low Middling Light Spotted 12 percent.

Average staple length declined sharply during the week and averaged approximately 15/16 of an inch. The average staple during the previous week was better than one inch.

Thirty percent of the cotton was one inch and longer last week compared to 49 percent the previous week. Micronaire readings also declined. Seventy-six percent of the cotton "miked" in the Lubbock office was in the desirable category of 2.5 and better. The previous week 86 percent was in this category.

The Consumer and Marketing Service of the USDA reported light trading in the new crop cotton with prices steady. Average prices for the most

predominant qualities in the 3.5 to 4.9 micronaire range were: Middling 29/32-19-55, Middling 15/16-20 00, Middling 31/32-20 60, Strict Low Middling 29/32-7 75, Strict Low Middling 15/16-18 25, Strict Low Middling 1/32 18 65, Middling Light Spotted 29/32-17 95, Middling Light Spotted 15/16-18 40 and Middling Light Spotted 31/32-18 90.

Prices paid farmers for cotton-seed ranged from \$65 to \$70 per ton.

Lamb County Added To Labor Survey

Lamb County is one of 47 areas throughout the U. S. recently added to those sampled each month by the Bureau of the Census to measure the rates of employment and unemployment in the Nation, according to Director Francis H. Wilmer of the Bureau's Denver regional office.

Monthly labor statistics are sampled by the Bureau for the U. S. Department of Labor's Bureau of Labor Statistics. Census interviewers call upon randomly selected households in taking the survey. By increasing the number of sample areas, the Bureau expects to provide improved labor force statistics.

Interviewers also obtain information on other subjects

Mrs. Schellar Honored With Layette Shower

Mrs. Waylon Schellar was honored with a layette shower Thursday at 10 a. m. in the home of Mrs. Lewis Faver.

The serving table was laid with a satin cloth. The centerpiece was made beautiful with flares of ruffled net containing tiny pink rose buds, featuring a stork carrying a basket of identical pink roses. A tall white lighted candle and white satin bow complemented the centerpiece.

Mrs. Lewis Faver served coffee from a sterling service, while Mrs. Edd Bell served miniature donuts.

The approximately 30 guests present were registered in a lovely white baby book.

Mrs. Faver read the poem, "Baby Is A Miracle."

Hostesses for the occasion were Mrs. L. H. Dent, Mrs. Hershel Patterson, Mrs. Perry Martin, Mrs. Truman Stine, Mrs. Eddie Haydon, Mrs. Cullen Hay, Mrs. R. O. Dickson, Mrs. Lewis Faver, Mrs. C. L. Houchin, Mrs. Edd Bell, Mrs. Fred Clayton, Mrs. Houston Stephens, Mrs. Lloyd Blanton, Mrs. Norman Clayton, and Mrs. Bill Mann.

TEXAS IS ON THE MOVE!

In virtually every field of endeavor, our state has made dramatic progress the past four years under the strong leadership of Governor John Connally. His administration's bold, yet sensible programs have helped provide new opportunity and a better way of life for all our people.

IMPROVED EDUCATION — Since 1963, state investment in higher education has doubled, and faculty salaries have increased 40%. State support of local public schools have increased 44% in four years, including a \$100 million teacher pay raise enacted in 1965. Technical and vocational training programs have been vastly increased; junior college enrollment doubled during the current bi-ennium. Special literacy programs for migrant workers and their children have been expanded. A college student loan fund of \$85 million has been established. And a special Governor's Committee on Public Education currently is studying all facets of elementary and secondary education.

WATER RESOURCES DEVELOPMENT — Long range planning and development have been given top priority. \$100 million in bonds have been issued for development of needed storage facilities; authorization has been granted to expand this program to \$200 million for the next two years.

CONCERN FOR THE AGED AND NEEDY — Since 1963, assistance to our elderly has been increased 27%. The Governor's Committee on Aging is continually working for the benefit of our senior citizens.

OUTDOOR RECREATION — More than \$2 million has been invested in improving ten of our most attractive state parks during the past two years to provide additional recreational facilities.

INDUSTRIAL EXPANSION — A record 855 new industrial plants have been established the past three years, moving Texas into second place in the nation in industrial expansion.

Last year, more than 23,000 new jobs were created in manufacturing alone — the best year ever for the Texas labor force.

INCREASED TOURISM — More than 12 million tourists visited Texas last year, adding more than \$900 million to the state's economy, and creating 140,000 new jobs. The state's tourist advertising program has been sharply expanded.

MENTAL HEALTH AND MENTAL RETARDATION — New emphasis on prevention of mental illness and mental retardation has been achieved through establishment of new community centers, replacing the former practice of "warehousing" patients. Investment for research into causes of mental disorders has doubled the past four years.

BETTER HIGHWAY TRANSPORTATION — Texas has more farm-to-market roads than any other state — more than 35,134 miles. We lead the nation in construction of interstate highways, at a cost 40% below the nation's average.

COMBAT AIR AND WATER POLLUTION — New legislation for public health, "The Clear Air Act of Texas," provides state action to combat air pollution. Similar vigorous action has been initiated to control pollution of Texas streams, bays and estuaries.

NEW CULTURAL GROWTH — The Fine Arts Commission was established in 1965 to nurture the cultural enrichment of Texans. The state's cultural heritage will be preserved and portrayed in the state's pavilion at HemisFair '68 in San Antonio.

BUSINESSLIKE ADMINISTRATION — With unprecedented teamwork, our state government has operated responsibly and efficiently. The Legislature has finished its work on time in each session. Following a pay-as-you-go policy, we have maintained a healthy surplus in the general revenue fund without curtailing essential services.

HEALTHY, GROWING ECONOMY — Business activity rose 11% last year, as Texas continues one of the brightest growth areas. Employment and income are at an all-time high, unemployment at an all-time low. Despite increased responsibilities, our state government costs only \$168.78 a year per citizen, fourth lowest in the nation. No broad-based tax has been enacted the past four years. Texas still has no personal income or payroll tax, no corporate income tax, and is one of few remaining states with a limited sales tax of 2%.

LET'S KEEP THIS KIND OF PROGRESS AND PROSPERITY FOR TEXAS! HELP GIVE AN OVERWHELMING MANDATE FOR THE VISIONARY LEADERSHIP OF DEMOCRATIC GOVERNOR JOHN CONNALLY AT THE POLLS NOVEMBER 8TH!

Sudan Remains Undeclared, Down Wolverines 33-6

The Sudan Hornets handed the Springlake-Earth Wolverines their first district defeat Friday night 33-6, and kept their season record unblemished with a perfect 8-0 record for the season.

The Bellar boys, Mike and Jerry wasted little time in showing the Wolverines that they had speed to burn and with only a few minutes gone of the first quarter, Jerry broke over right tackle and found plenty of running room, scampering 70 yards for a TD for Sudan. Mike kicked the extra point and Sudan went out in front 7-0.

Early in the second quarter, the Wolverines fumbled the ball on the 15 yard line and on the first play from scrimmage, Mike Bellar scampered around right end for 15 yards and added 6 more points to the score for Sudan. Again Mike's kick was good and Sudan went out in front 14-0.

Late in the second quarter, the Hornets took the ball on the Wolverine 23 yard line and started grinding out the yardage the hard way, with the entire backfield carrying the ball, and marched the length of the field with Mike Bellar crashing over from the 2 yard line for his second TD of the night. Again Mike kicked the extra point and at halftime, the Hornets had a nice lead of 21-0.

After the half-time ceremony, the Hornets took over right where they left off and after the opening kickoff, started marching downfield with Mike Bellar again hitting the middle of the line and scoring his third TD of the night. This time Bellar's kick was wide and Sudan remained 27-0 in front of the Wolverines.

Then early in the fourth quarter, quarterback Doug Messer started the Wolverines moving and with good run by James Thomas and Logan Armstrong, the Wolverines began to look like their old selves. Logan Armstrong scampered eleven yards around left end

and went over for a Wolverine TD but a holding penalty put the Wolverines on the 26 yard line and on third down the Wolverines came up with a play that no one has seen them pull all season. The play started with Messer handing off to Armstrong, who handed off to quarterback Doug Messer in the end zone for a touchdown. The extra point try by James Thomas failed and Sudan led 27-6.

With only 55 seconds left in the ballgame, Sudan's Larry Morgan scampered 5 yards over right guard for the Hornets' final touchdown. Terry Bellar tried the extra point and his kick sailed off to the side and the Wolverines went down to defeat 33-6.

Sudan rushed for 258 yards and passed for 17 more, while the Wolverines gained 127 yards on the ground and 96 through the air.

Sudan is now 8-0 for the year and 2-0 in district 3-A play. The Wolverines are 5-3 for the season and 2-1 in district play.

JIMMY STOCKSTILL, no. 81, recovers a Sudan fumble early in the first quarter. Wolverines pictured are no. 31, Randy Washington, no. 62 Danny Kelley, no. 52 Bobby Cummings, no. 73 Tommy Barlow, and no. 72 Jose Triana. Hornet players are no. 71 Morce Arce, no. 80 Cary Logan, no. 20 Gary Gatewood, and no. 81 Danny Martin.

FEDERAL DEPOSIT INSURANCE

Now \$15,000

ON DEPOSITS IN THIS BANK

\$15,000
Deposits Insured to ~~\$10,000~~

The long-familiar \$10,000 limit on Federal Deposit Insurance for deposits maintained "in the same right and capacity" has now been increased to \$15,000.

This new \$15,000 coverage has been put into effect automatically at this bank on all savings accounts, checking accounts, certificates of deposit, and all deposits which are legally and properly covered by this Deposit Insurance protection. It will apply to new accounts, and to additions to present accounts up to \$15,000.

Thus you may have an individual account covered to \$15,000, a spouse may have a similar account also insured to \$15,000, both may have a joint account insured to \$15,000, either or both may have accounts as executor or trustee of an estate, and in fact every account held in a different "right and capacity" will be insured to the full \$15,000.

Your bank pays for this insurance protection, which supplements our sound management policies in providing protection for your deposited funds. We are happy to furnish this safeguard, and this higher amount of coverage, to our depositors.

From brooder to broiler this tender bird used just one kilowatt hour of electricity. And because of electricity she grew to a faster, healthier maturity. Whether she is destined to be a layer or a fryer, power from Bailey County Electric Cooperative will play a part in her future as well. Egg processing plants in rural areas operate electrically and it's amazing how fast electricity can pick a plump chicken and freeze it for the frying pan. In the home, on the farm, in every field of rural endeavor Bailey County Electric Cooperative is Helping Texas Grow.

STARS OF THE WEEK

Back of the Week

BACK OF THE WEEK, In the game against the Sudan Hornets the coaching staff gave the back of the week honor to quarter-back Doug Messer for his outstanding defensive play. Doug plays linebacker on defense and did a terrific job in stopping plays that came through the Wolverine line. His main target was Mike Bellar who had to leave the game in the fourth quarter because of injuries.

Lineman of the Week

LINEMAN OF THE WEEK, For his outstanding work on the line, the Wolverine coaching staff gave the lineman of the week honors to senior tackle Jose Triana. Jose tips the scales at 182 pounds and is a very hard player to keep out of action. This week the entire forward wall played a terrific game and had all they could do to stop the speedy backs of Sudan, the hardest running group that the Wolverines have faced all year.

Leadership in Action

SENATOR TOWER'S POSITIONS SUBSEQUENTLY ADOPTED BY ADMINISTRATION

Firmness against Communist Aggression.

Senator Tower advocated firmness against Communist aggression in Vietnam from beginning of Red aggression.

Administration adopted in January 1965.

Up-to-date Weapons and Equipment.

Senator Tower advocated provision of up-to-date weapons and equipment for U.S. troops fighting in Vietnam in resolution introduced in Senate 11 March 1964.

Administration adopted in January 1965, giving troops there a "blank check" for equipment.

Vietnam a "Combat Zone".

Senator Tower advocated Vietnam be declared "combat zone" to extend tax benefits to U.S. servicemen there in bill introduced in Senate 12 January 1965.

Administration adopted 24 April 1965 in executive order.

Agriculture Commission.

Senator Tower advocated establishing special commission to study agriculture problems and report new programs in Senate resolution first co-sponsored in 1964 and reintroduced in January 1965.

Administration established commission in November 1965.

Maintenance of Adequate Veterans Hospital Facilities.

Senator Tower advocated in January 1965 reversal of Administration's planned closing of many Veterans' Hospitals.

Administration in March 1965 adopted view that reconsideration of proposed closings was necessary. It subsequently rescinded closing orders for half the hospitals.

Vietnam Gift-Lift.

Senator Tower advocated a Gift-Lift for Vietnam in November 1965 and urged Defense Secretary to utilize Air Reserve planes to implement it.

Within three weeks the plan was implemented.

B-111 Aircraft.

Senator Tower advocated in January 1965 procurement of B-111 aircraft as an interim manned bomber.

Defense Department in November 1965 indicated plans to buy B-111's.

Conservation.

Senator Tower co-sponsored in January 1965 Water Resources Development bill, conservation planning bill, desalinization bill and rural water systems construction bill.

All became law in 1965.

Increase for Social Security Beneficiaries.

Senator Tower advocated in January 1965 a seven per cent cost-of-living increase for Social Security beneficiaries.

Social Security bill passed 1965 incorporated increase.

Air Mobile Army Division.

Senator Tower in January 1965 urged Defense Secretary to make experimental Air Mobile army division a permanent division and to incorporate Air Mobile concepts into army strategy.

Air Mobile division subsequently made permanent and now is active in Vietnam.

Hemisfair and Alibates.

Senator Tower supported and sponsored bills for Hemisfair in San Antonio and Alibates Flint Quarries National Monument in Potter and Randall Counties.

Both became law.

Opposed Cutting of Budgeted Funds for Soil and Water Conservation.

Senator Tower opposed in January 1965 Administration plans to cut budgeted conservation funds.

Curtailment of funds was prevented.

Excise Tax Reduction.

Senator Tower voted to reduce a number of taxes in February 1964, then opposed by Administration.

Excise taxes cut in 1965.

Discontinue U.S. Aid to Indonesia.

Senator Tower advocated prohibition against further aid to Communist-leaning regime of Indonesia through Senate amendment adopted in August 1964 (deleted in conference) and through bill introduced in January 1965.

Administration limited aid in 1965 and Reds subsequently overthrown.

Interdiction of Sea Supply Routes of Communists into South Vietnam.

Senator Tower advocated 18 February 1965 that sea supply routes of Communists be interdicted.

Administration announced 3 May 1965 plans for such interdiction.

"Poverty Level" of \$3,000.

Senator Tower advocated 25 March 1965 that arbitrary \$3,000 annual income "poverty level" be discarded as inadequate and that new measure be adopted, taking into account size of family and cost of food and shelter in various areas.

Administration adopted revised formula 3 May 1965.

Additions to Defense Budget.

Senator Tower advocated in January 1965 additions be made defense budget to cover costs of Vietnam war and to provide adequate planes and equipment to men there, pointing out that existing defense budget was inadequate.

Lazbuddie News...

By Mrs. C. A. Watson

Mrs. O. F. Davis returned during the weekend from Andrews where she visited her sister. Unfortunately, Mrs. Davis had to have surgery at the Andrews Hospital while on the trip.

Lorene Wilson is in the Friona Community Hospital with a sprained ankle. J. B. Wright, a patient in the Green Memorial Hospital was favored by friends and neighbors last week as he broke his feed land, preparing it for the crop next year.

Rubye Gordon was feted with a coffee Thursday in the home of Mrs. Clarence Mason. Individual going away gifts were opened by Rubye after a short program closed by prayer given by Mrs. Eugene Redwine. Rubye and her husband Bart are moving to Muleshoe after being residents of Lazbuddie area some 15 years. Spiced tea, coffee, and cake were served to 30 guests. Mrs. Alton Morris and Billie Mason served the refreshments. Mr. and Mrs. Gordon will be missed in the Lazbuddie area, but at least they are not moving far away.

Mrs. C. A. Watson was informed that her nephew, Charles Richards, Lubbock News Man and working for the United Press International would be at Paul's Cafe Tuesday for the meeting of the Muleshoe Activities Organization. Charles will send the activities beating future plans of factions at the meeting down the wires of the Associated Press.

When Lazbuddie had the awful storm several months ago the news was sent down the wires by Richards. He has also sent Muleshoe weather conditions the UPI way. Richards is a former co-editor of the Muleshoe Journal and has worked with the State Line Tribune manager at Farwell. Also a former newsmen for a Clovis paper, before going to Dallas and working at UPI there. He was recently married to Doris Faye Bentlow, an Austin School teacher. They are residents of Lubbock now.

Lt. Don R. Watson, presently attending school at Army Air Force Base, Ft. Benning, Ga. is one of the officer trainees under Vietnamese officer. This officer is teaching Lt. Watson some Vietnamese language in return. Watson says the language is really very easily learned. Lt. Watson is mail officer for the Platoon and says recently he handed a Vietnamese letter from Vietnam and the Vietnamese just reached over and kissed him. Letters from home mean so

much to them. Watson is a high school graduate from Lazbuddie and a college graduate from WTSU, Canyon. He was a World History Major and learned the German language to a great measure at WT University.

James Brown, son of Mr. and Mrs. Dee Brown, Lazbuddie area was recently initiated into the Alpha Tau Omega, National College Social Fraternity at WTSU, Canyon. James is a senior agriculture major at the University. He is a Lazbuddie High School graduate.

Lee and Robert Kimbrough accompanied by Ray Griffen and W. M. Pool, Jr., Muleshoe returned the last of the week from a pheasant hunting trip in Western Nebraska. Annie Gargil returned Tuesday of last week from several days visit with her sister and family, the Daily Bishops at New Brunswick.

Mr. and Mrs. Freeman Davis and Mr. and Mrs. Sam Bradley are in Dallas attending the State Convention of the Farmers Union.

Mrs. A. M. Bradley accompanied the Bradleys to Dallas where she is visiting with her son Gene and family while the convention is going on.

Mr. and Mrs. J. C. Redwine and Mr. and Mrs. Clyde Redwine and Denver carried Mrs. J. C. Redwine's mother, Mrs. John Counts, back to her home in Tucuman Sunday. Mrs. Counts had visited the Redwine family for several days.

The Lazbuddie Longhorns took a 30-15 victory over the Happy Cowboys at the Happy field Friday night. Timmy Foster ran a 12 yard end run in the first quarter making the Horns lead 6-0. The Cowboys scored in the second period.

Just before half-time clock ran out, Terry Farham threw a pass to Steve Jones who ran 19 yards for the TD. Raising the score to 18-6 was the results of a three yard dart through the middle by Terry Farham. Happy scored twice in the

third period.

The final period was a thrill for Lazbuddie fans as fullbacks Darrell Matthews went in from the two yard line. Matthews also, making the final touchdown with the picture showing the Longhorns homing the Cowboys with a 12 point win.

At a regular school board meeting on November 14, patrons of the school district are invited to attend and discuss any questions concerning the local school district. School board members extend a welcome to area patrons, not only to attend this meeting but any meeting.

Richard Mitchell, surprised though he was, discovered that Monday about 3:30 p. m. as he approached the Gin lot with a bale of cotton, only to look back and see it smoking. The fire department was called and the fire was quickly extinguished with only slight damage to cotton and trailer.

Local Residents Attend Tex-Ann Performance

Among the many visitors in the gymnasium of South Plains College in Levelland Tuesday night were Mr. and Mrs. Earl Parish and Becky, Sherry McDaniels, and Mr. and Mrs. J. L. Hinson.

The occasion was the first performance of the Tex-Anns a group of 30 girls, trained in rhythmic drill and dance routines.

They gave a superb performance and in orange and white costumes, cow girl hats, and white boots and gloves, they were a most colorful and lovely sight.

Miss Jackie Parish of Springlake is a member of the group.

Americans Want To Reduce Federal Spending

Seven out of ten Americans want to reduce federal government spending to control inflation.

Eight out of ten express concern about inflation.

Two out of three say they have been hurt by it. One-third feel they are worse off financially than a year ago.

These are some of the results released today from a major national opinion survey taken in early October by the Opinion Research Corporation of Princeton, New Jersey. The study was commissioned by the national Association of Manufacturers.

Given a choice between the two, 77% of the respondents favored a cut in federal spending rather than increased taxes (7%).

Compared with earlier surveys, the latest ORC poll also shows that there is growing concern about inflation with its consequent rising prices and reduced purchasing power of the dollar.

Almost half (48%) of the respondents report they are "greatly concerned" and this concern is evident in all segments of the population, regardless of age, occupation, educational level, or where they live.

Six in ten say they are fighting their own private war against inflation by changing shopping habits...cutting down, buying cheaper foods, substituting, designating heretofore "necessities" as luxuries.

"I walk around the store a long time before I buy anything today." (Woman, over 40, Midwest)

"I look for some things to take the place of other things, some things are just too high." (Woman, over 40, West)

The survey also demonstrates that the effects of inflation are being felt more seriously by the elderly and those with lesser education. More than four in ten, 60 years and older, report that they are "worse off today" than a year ago.

Respondents sometimes talk of holding two jobs, even three, in their efforts to stay above the rising tide of prices.

"I have a hard time making it on my salary sometimes. I think I'll need a second job." (Woman, under 40, West)

"I hold two jobs and one is very poorly paid. If things go much higher can I work three jobs?" (Man, under 40, South)

More than twice as many people blame inflation on the government than on any other group. Twenty-eight percent feel government is "most responsible for inflation, compared with 9% blaming business, 10% blaming labor, and 13% the people themselves. A rising 4% admit that they don't know where to lay the blame, although there is much less uncertainty expressed about what to do about it.

Since last spring and reflected in previous ORC opinion surveys, there has been an in-

crease among those favoring federal spending cuts.

MYF Chili Supper Nets \$115

The Senior High MYF of the Earth First Methodist Church sponsored a chili supper Sunday night, immediately following church services.

Approximately \$115 was netted. The proceeds will go to CRCP which is the Christian Rural Overseas Program.

Following the supper, the MYF provided a skit for the group's entertainment. Decorations by the Junior High MYF carried out the Halloween motif.

Springlake Church Women Has Program Baptists in Japan

The WMs of the First Baptist Church of Springlake met Tuesday morning for a Royal Service program and business meeting.

Mrs. Lowell Walden, president, conducted the business session. Mrs. Don Larkin, prayer chairman, was in charge of the call to prayer, and Mrs. P. A. Washington had charge of the program "Baptists of Japan."

Five ladies were present for the meeting.

My Alaskan Tour

By Mrs. Myrtle Clayton
Cont. From Last Week

The Alaska "Juneau" and "Treadwell" Mines started the gold strike that made Juneau the gold producing area that produced millions of dollars worth of gold until 1944. We were conducted on a tour of the famous Juneau Mine. I couldn't keep from thinking what a bargain the U. S. got when it bought Alaska from Russia in 1867 for two cents an acre. The Treadwell Mine produced 87 million dollars of gold before it was closed in 1917, and the Juneau Mine produced 80 million until 1944.

Sunday morning September 11th, we attended services in different churches. Marie visited, and several attended the First Methodist Church. I visited in the First Baptist along with some others. The Haines and Port Chilkoot areas have organized their efforts to preserve the arts and crafts of the Flingit Indians. Skagway, like Sitka, is a shrine of Alaska history. Alaskan lore is found everywhere while Skagway stands as a mute reminder of a once bustling mining community, which served the needs of the miners during the Klondike Gold Rush.

Before we reached Skagway we were forced to stop because of heavy fog, and by the time the fog had lifted the tide had gone out and our vessel had to wait for the tide to come in before we could proceed on. We saw whales spouting water and dolphins playing about. You have to see an Alaskan sunrise and sunset to know what the colors of gold and crimson can portray in beauty.

We visited this afternoon at the "Chapel by the Lake," located on the Glacier highway. In 1924, this site was cleared of trees and muskeg, spruce logs 48 feet long were cut, trucked to the site, peeled and seasoned, and a contract was let for the foundation. The shake-trees were felled and hand splitting began, and walls began to go up, with the driving of drift pins to secure the logs in place. The Spring of 1955 saw the roof beams and roof decking in place. Finish work required sanding and varnishing of logs, with an application of preservative to the exterior of the logs and flooring. Application of shakes and caulking of the logs to seal out dead air space by pounding oakum on the outside and inside of log joints then it was ready for dedication to the glory of God in the Spring of 1956. As you sit and face the front of this rustic structure, you see birds in flight, the lake with various reflections, forested slopes, a massive glacier, mountain meadows, and snow coated peaks, or you may see sun, storm or northern lights, according to the weather. You see the front of the church is all glass. This scene leaves you with the awareness of God's presence so here is where we worshipped again today, in the Chapel by the Lake at Auk Bay, Alaska.

Skagway is the terminal of the White Pass and Yukon Railway which has been running since 1898 between Skagway, Lake Bennett, and Whitehorse, Yukon.

Aboard the White Pass and Yukon seated in view coaches we headed for Lake Bennett, and during the next hours we crossed the Alaskan panhandle, the Northwest corner of British Columbia and entered the Yukon territory - the land of the midnight sun. Points of interest were; the sight of the famous Trail of '98 visible at 300 feet below, a huge ledge of granite that overhangs the track, black cross rock, that weighs over 100 tons under which lies the bodies of two men buried during blasting operations, Bridal Veil Falls, a tunnel through which we pass, 1000 feet above the floor of the gulch, during its construction men were suspended by ropes from the top of the cliff to drill and blast the rock away, gives you a feeling of terror when you actually see how great a sacrifice and danger it takes to conquer nature and build a new country. Inspiration Point, Dead Horse Gulch, white pass summit, Beaver Lake, and Lake Linderman were also points of interest. We enjoyed a family style lunch at Lake Bennett. Mr. and Mrs. Hackney treated us to this delicious meal, featuring moose meat and all the trimmings. Prime beef cannot match the taste of this moose meat. In 1898 over 10,000 sourdoughs stopped here to build rafts and crude boats to carry themselves and their equipment through Bennett to the Yukon River. Upon the hill is the famous old church built during the Klondike Gold Rush, when the 10,000 men were camped by the shores of Lake Bennett. The church was never completed, and Bennett became a ghost town.

Almost everything is shipped to Alaska which explains the high prices, at breakfast my one egg cost 70¢. A two bed

room house, unfurnished rents for \$250 a month and it isn't really in town, so in town it would rent for more, in fact real estate is extremely high. Milk is 75¢ for 1/2 gallon. At Juneau they told us the snow fall is about 100 inches in the winter. They have two divorces to every marriage. They stage a Salmon Derby each year. In hunting season you are allowed one black bear, three brown bears, four deer, and two ducks a day during the season. Forget what they said about moose and elk.

Here we are on the way back down the Inside Passage, making port calls and seeing what we missed before. We saw that iceberg, part of it was green in color. It is fascinating to see a barge pulling a load of logs with a barge at the rear of the logs pushing and also guiding. Boom bars hold the logs together. In each load of logs they told us was enough lumber for about 40 three bed room houses. There are many logging camps along the banks as we travel the passage.

September 14 we arrived back at Prince Rupert aboard the "Matanuska", picked up our bus, and were transferred to a British ferry for a voyage to Kelsey Bay on Vancouver Island.

We made a two hundred and twenty mile drive down the coast to Victoria, British Columbia, where we spent the night at the Empress Hotel.

At Victoria we toured the famous Butchart Gardens at Toad Inlet. The Gardens cover 25 acres on a 130 acre estate, and are the outstanding show-place of the Pacific Northwest.

Friday, September 16, was bragging day. On the fishing boat "lakewood" we were carried out deep sea fishing, just patiently waiting for the pictures to be developed that will take the grin off some faces I know and love. With help I got it loaded on deck. Several people got nice big fish. As I can't remember the exact size of their fish, will not state sizes and names, but Marie also got one.

We did have the fish for dinner that night and really enjoyed it. We were presented "Skookum Club" deep sea membership. We spent the night at the famous Empress Hotel, in the foreground are the World's renowned lamp standards and hanging flower baskets. Inside the dining room are many paintings of Queen Elizabeth in gilded frames. Again we were honored by the pianist who played dinner music. He turned, smiled at us and played "The Eyes of Texas."

Getting used to giving big ole Texas claps by now, and with all the getting ups and setting downs we have been doing on this tour, we really did double duty speed when we heard this song.

Leaving on the Black Ball British Ferry we arrived at Port Angeles. Traveling toward Seattle, we stopped to see the Eaglemont Rockeries, rock hand-crafted wonderland, located at the junction of 104 and 113 Highways overlooking Discovery Bay. This quaint, artistic wonderland is the result of many years of patient building. It was featured on T.V. last year, and was given publicity in several magazines.

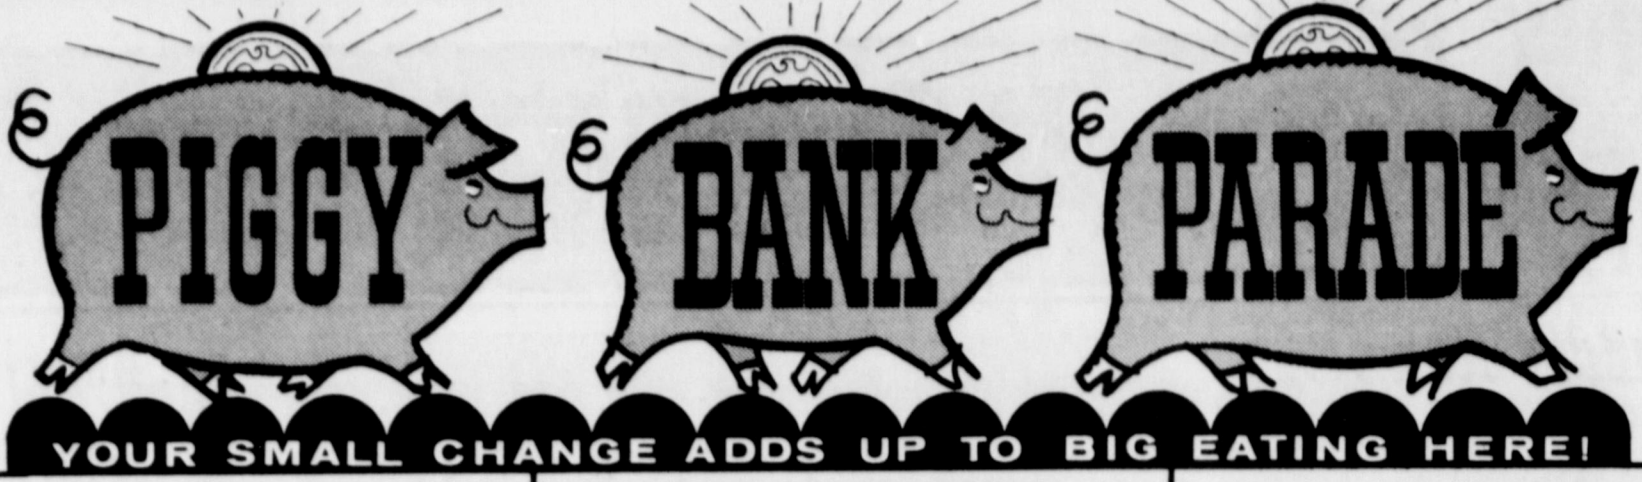

At Seattle we rode the Alweg Monorail, first of its kind in America, from downtown Seattle to the 600 foot space needle, which is another unique attraction. From the space needle we saw the International Fountain at night, this constantly changing water pattern shooting 100 feet in the air as colored lights play over them is beautiful, with the city itself aflame with lights.

The LCC Associates will meet Thursday (today) at 7:30 p.m. in the home of Mrs. C. L. Houchin.

Gifts which were made for the gift fair will be on display and may be purchased by those wishing to do so.
