COUNTY JUDGE G. T. SIDES proclaimed March as Red Cross month and urged all residents of Lamb County to support the organization's Lamb County Chapter month-long drive for volunteers and funds. In issuing the proclamation, Judge Sides said that the Lamb County Red Cross seeks to raise \$8584, "to continue its service-to-military and safety programs here and to contribute its share to National Red Cross programs--some of them world-wide." Looking on are Mrs. Doris Frey, Co-Chairman of Service-to-Military; and Mrs. Ruth Wade, Executive Secretary of Lamb County Chapter.

Judge Proclaims March As Red Cross Month

County Judge, G. T. Sides, proclaimed March as Red Cross Month and urged all residents of Lamb County to give their support to the Lamb County Chapter's drive for volunteers and funds throughout the month. "Whereas, our American Red Cross forged a link between the Nation's Armed Forces one half century ago, providing a tangible bridge of concern between families at home and loved ones at outposts around the world; and WHEREAS, the American Red Cross even now is giving round-the-clock service to our sons who are fighting in Viet Nam, or maintaining U. S. military strengths in other far places;

WHEREAS, Red Cross disaster teams render emergency aid and assist in recovery due major catastrophes--floods, hurricanes and tornadoes;" NOW THEREFORE, I, G. T. Sides, County Judge of Lamb County do proclaim the month of March as RED CROSS MONTH in Lamb County and urge all citizens to give their support to our Red Cross.

In witness whereof, I have hereunto set my hand and seal of Lamb County, Texas, on this 23 day of February in the year of our Lord One Thousand Nine Hundred and Seventy One.

Signed: G. T. Sides
County Judge, Lamb County, Texas

Company business manager; and Mrs. Betty McAlpine, city secretary. Others named to citations were Dallas Clyuch of Dallas and Jerry Kehoe of Littlefield, branch manager for General Telephone.

Additional booklets can be obtained when corrections are made on this first printout. The cost will be \$10.00 per copy.

With the conclusion of the meeting called together by Sheffield, another meeting was held with Elvin J. Schofield of the Industrial Development Division of Southwestern Public Service as spokesman. He told the group that a booth would be set up at the American Apparel Trade Show in Dallas in May and that Earth could participate in this event if they would send two workers to talk with garment manufacturers in attendance there. The only requirement was to have a five acre site of land to offer free to any garment manufacturing concern who would agree to come to Earth and establish a manufacturing plant within 18 months and hire 75 workers for the plant.

The WDC and Chamber did not vote as they felt they should discuss it further before making the decision.

Gil Lamb Speaks To PTA On Drugs, Alcohol

Gil Lamb of Muleshoe met with the Springlake-Earth PTA Tuesday evening and spoke on the dangerous use of alcohol and drugs. He stated "the over use and abuse of alcohol and/or drugs can only end in disaster unless one can find a way out."

He said, "Alcohol is known as a depressant drug. The abuse of marijuana or hard drugs is not as hard hitting as alcohol. Like drugs, alcohol is used as an escape mechanism." Lamb related how he became hooked on alcohol. He felt kids today do the same with drugs. It all started with him when several boys were just trying alcohol for kicks. The same works today with teenagers when they want some kicks just experimenting with drugs in one form or another.

Lamb gave some statistics on the drinking problem including the following: 70% of the adult population drink; one out of every 15 will become alcoholics; 30,000 people die each year from alcoholism. He stated, "If alcoholism was a communicable disease, the whole United States would be under quarantine."

As alcohol is supposedly used for pick-me-ups, drugs are often used for the same reason. Home medicine cabinets are full of amphetamines and sedatives. Housewives use the diet pills for extra energy at times. The problem is the over-activeness and the let down feeling following de-

pression after taking them. A charming program, prior to Mr. Lamb's program, was given by the Springlake-Earth Junior High Choir, led by Mrs. Donna Birkenfield. Selections presented were "This Land Is Your Land," "Wade in the Water," "Jamaica Farewell," "Raindrops Keep Falling on my Head" and "Banana."

They were accompanied by Marlan Dawson and Debbie Wilson.

A nominating committee was selected to consist of present officers and Mrs. Sam Barden and Mrs. Norman Sulser.

May 24 was named as the day for a TB Unit to be held from 8:00 a. m. to 12 p. m. and will be sponsored by the PTA.

Mrs. Ray Joe Riley, president of the PTA, gave a short summary of the state convention attended in Galveston. She spoke of the enthusiasm that the convention seemed to create in all attending.

Mrs. Riley stated the next PTA meeting will be held March 15 at 7:00 p. m. The program is entitled "The New Sexual Morality." She hopes for a large attendance.

Lions Club Broom Sale March 16

The Earth Lions Club will conduct an all-out drive on March 16 to sell quality blind-made products to residents and local businesses, according to an announcement made today by Dale Riggs. The articles are all manufactured by blind workers in the Lighthouses for the Blind which are located throughout the state of Texas. The Lions Club's earnings from this sale will be used for various items including the Crippled Children's Camp at Kingsville and eye glasses for children here.

The entire membership of the Lions Club has been organized to supply friends and neighbors with this quality merchandise delivered right to their homes. Every household can use some type of household cleaning aid and every item sold helps some blind person to help himself.

Sale of blind-made products held by the Earth Lions Club in previous years have been most successful and Lion Riggs expressed his confidence in another successful sale this year.

Jack Brown, father of Gene Brown, was taken to South Plains Hospital at Hale Center suffering from a heart attack. He was reported improved Tuesday.

ASCS Announces Set-Aside Percentages On Cotton-Grain

crambe, guar, mustard seed, plantago ovata, sesame, safflower and sunflower. A flat payment reduction of \$10.00 will be made for each acre of the set-aside devoted to any of these crops.

Acreage planted to soybeans will not be considered planted to cotton, feed grains or wheat in 1971.

cept applications for cost-shares sometime in March.

Farmers are reminded that the sign-up for 1971 Cotton, Feed Grain and Wheat Programs will begin March 1 and end April 9, 1971.

Consumers Want to Know

By MARGARET SPADER
Director of Consumer Affairs
National Association of Manufacturers

Is there a "rule of thumb" way to determine the best size of water heater for a two-bedroom house?

Your hot water needs will depend on the size of your family, the water-using appliances in your home, and the amount of hot water you are likely to use at one time. To estimate your needs, allow between ten and twenty gallons per person per day---add the number of gallons required to operate your clothes washer and/or dishwasher---and total the number of gallons that might be used for personal use and appliances at one time.

Do stretch stockings contain elastic?

The "stretch" in nylon hose is achieved by a special patented technique of twisting and heating to give the yarn enduring stretchability. There is no elastic used.

Final Bale Count For Lamb 119,854

Lamb County's gins processed 119,854 bales of 1970-crop cotton, according to the U. S. Census Bureau.

The total was less than was anticipated by some cotton authorities before an early cold spell cut the crop yield, but this total is still almost 65,000 bales more than the 55,000 bales ginned in the county in 1969.

The Census Bureau statistics

were compiled from ginners' reports through January 15, 1971. The totals were in running bales, with linters not included.

Records for the year show that Texas produced 4,138,909 bales of cotton in 1970, compared with 2,728,578 bales in 1969.

Nationally, 10,058,125 bales of cotton were ginned in 1970, compared with 9,815,018 in

1969, so the Texas increase almost equaled the national increase.

Texas was the biggest cotton state in the U. S., by far. Its closest rivals were Mississippi with 1.6 million (up 300,000 from 1969), California with 1.17 million (down by 16,000 bales), and Arkansas with 1.03 million (110,000 bales less than 1969).

Lubbock County, the state's biggest cotton county with 215,254 bales in 1970, produced more cotton than either New Mexico, Florida, North

Carolina, Oklahoma or South Carolina, and almost as many bales as the state of Missouri.

Here are comparative ginning totals for Lamb and neighboring counties in 1970:

Lamb: 119,854
Hockley: 157,829
Bailey: 54,614
Hale: 139,820
Castro: 37,620
Childress: 14,291
Floyd: 77,696
Lubbock: 215,254
Parmer: 38,373
Swisher: 30,663

Texas Cotton Farmers Can Cash In On '71 Crop

Cotton, the old standby in Texas and one of the State's leading industries, has a chance to make the economy of the State really hum.

An optimistic outlook for cotton appears. Demand outstripped production in 1970 and is carrying on during this year. Buyers and merchants are in the country now contracting for this year's crop, not yet planted.

A new agricultural act will give many of our State's growers an opportunity to take advantage of the situation and plant more cotton. A unique feature in the new law allows a cotton farmer to protect his paying yield against being lowered. This feature will allow him to plant as much cotton as he feels necessary in order to harvest at least as much cotton as the amount on which he will receive payment. Another feature allows

a grower to plant his crop in a two-row skip pattern and comply with set-aside provisions. In many areas this will assist him in improving his yields per acre.

When you consider the Texas cotton crop brought farmers in this state over \$400 million dollars in 1970, which was over two billion dollars to the economy as it moved through the channels of trade and processing, a likely 20% increase could mean over 80 million additional dollars to Texas Cotton farmers this year and hum this State's economy to the tune of over \$400 million additional dollars-----who needs it, we all do!

Vox Populi In '70 Elections About 55%

Apathy has spread across the Nation like wildfire and in its pathway we may someday find the skeleton of a once democratic nation.

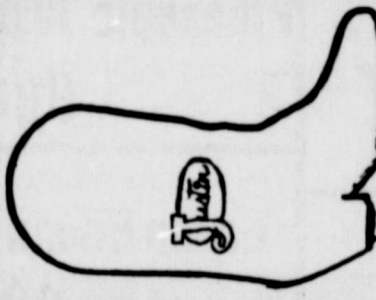

The blood shed for this free nation and to give us the right to vote to settle our affairs through the ballot box seems to have lost its popularity when only 68 million or an estimated 55% of the American population of voting age voted in the November 1970 election according to advance statistics just released from the U. S. Bureau of the Census.

64% of persons 45 to 64 years old reported they had voted. This figure was well above the percentage for younger or older age groups. 26% of those 18 to 20 years of age and 50% of those 74 years of age and over, reported they had cast their ballots.

An interesting corollary is the fact that in both off-year elections, 1966 and 1970, about 59% of the population of voting age cast their ballots. About 82 million persons, or 68% of those eligible on the basis of age, were reported as registered to vote in 1970. Of these persons, about four out of every five reported that they voted.

The figures also show a smaller percentage of women than men, 53% versus 57%. However, women's balloting showed its largest percentages in the 45 to 64 year age group (over 60%), while for those women 65 and over, only 51% voted.

Town and Country Study Club Entertained By Artist

Mrs. Helene Morris McFarland, artist of Happy, was guest speaker at the February 25 meeting of the Town and Country Study Club in the Fellowship Hall of the United Methodist Church. Hostesses for the event were Mrs. H. S. Sanders and her daughter, Aurelia.

Mrs. N. Ray Kelley, vice president, presided at the meeting.

She resumed her college career after her children were grown and following a severe bout with cancer. Together with her husband, Gwen, she is a serious farm operator, also, a dedicated homemaker.

Mrs. McFarland has earned her teaching certificate and Bachelor's Degree in Art Education from West Texas State University in Canyon. She graduated with special honors. Her special research paper on the history of water color, as an art medium through the centuries up to the present time, is outstanding. The paper is slanted toward informing the general public as well as to help artists understand water colors. It is, in fact, book-sized and is currently being evaluated for publication.

Mrs. McFarland's topic of discussion was "A Deeper Awareness of Watercolors." She spoke at length from the context of her research paper, more generally pointing out that watercolor was the most used medium throughout the centuries. She went on to point out that stability of color was superior to other media and the usual vehicle used to carry watercolor in the last

several to four centuries was as durable as linen canvas.

In summing up, she compared the fine watercolors around today with the value of oil paintings of equivalent age and stature favorably. In that the watercolors had retained their brilliance without the care that the oil paintings required. These she indicated were equally regarded by most col-

lectors and authoritative sources and were surely as lucrative as an investment, artistically as well as financially.

Mrs. McFarland exhibited 30 of her watercolors with a few of other media in which she is proficient.

The refreshment tables and room decorations carried out the spring theme. The tablecloths and napkins of white

were enhanced with tulip and daffodil silhouettes in spring colors. The center of each of the three serving tables were decorated with lovely fresh tulips. The podium was banked with pots of fresh red tulips and pink and white hyacinths.

Silver trays adorned with sniffers and arrangements of vegetables and parsley were used to serve several varieties of dainty rolled and shaped sandwiches. Deviled eggs, stuffed celery, relish kabobs and cottage cheese filled prunes were placed on relish plates centered with a fruit kabob made of granished fresh pineapple. Guests served themselves desserts of tiny filled cookies and decorated cake fingers. Pineapple-lemon fizz punch and coffee also graced the refreshment tables.

Approximately 60 members and visitors attended the meeting. Out-of-town guests were from Springlake, Dimmitt, Friona, Muleshoe and Dallas.

GI Loans Available For Mobile Homes

The Veterans Administration announces that the rate of interest on GI loans to buy mobile homes has been set at 10.75 percent.

Purchase of mobile homes under the GI loan program was authorized for the first time by the Veterans Housing Act of 1970, and Administrator of Veterans Affairs Donald E. Johnson says that 20,000 veterans are expected to make purchases during the first year of the program.

Johnson said that two-thirds of the loans would be granted to Vietnam era veterans.

VA will guarantee up to 30 percent of a loan for a mobile home, up to a maximum of \$10,000 for the loan. Once

the loan is paid the veteran is again eligible for a guaranteed loan on a conventional house, a guarantee that may go as high as \$12,500.
