CARRIE BEEN... and her new saddle she won at the Morton Horse Show.

Carrie Been Wins Saddle In Morton Horse Show

Ten 4-H Club members from Springlake-Earth competed in a Horse Show held in Morton on August 7. Competition was divided into four age groups. High point individual in each age group was presented a saddle for their outstanding performances.

Carrie Been, 14 year old daughter of Mr. and Mrs. Marvin Been of Earth was high point individual in the Junior Division. She received a total of 43 1/2 points to win a beautiful saddle. Carrie won 4th in Halter, 9th in Showmanship, 2nd in Western Pleasure, 6th in Reining, 6th in Poles. She tied for 6th place in Barrel racing, was 5th in flags and 6th in goat tying. These outstanding performances won the beautiful saddle she brought home with her.

Belt buckles were presented to first and second place winners in each of the four divisions.

Jeri Paige Been, in the young Junior Class was 10th in goat tying. Age groups consisted of contestants 8 years and under classed in the Pee Wee group, 9 years to 12 years were in the Young Junior Division, 13 and 14 year old contestants were Classed Juniors, and those 15 to 18 years of age competed in the Senior Class.

Others from S-E competing in the Horse Show were Vonda and Sharmen Stephens, Shawndi and Rodney Geissler, Cheryl and Susan Clayton, Carla and Carman Taylor. Some of S-E contestants won in various categories, but at press time the information was unavailable.

B & D Plumbing And Home Improvement Opens

B and D Plumbing and Home Improvement opened this week in Earth, located at 108 Birch Street in the former dental office in the rear of Gary's TV Lab.

Bob Hammon, owner has had 17 years of experience in plumbing and construction work and is qualified to do expert work in both plumbing and carpentry.

Hammon spent 6 years as instructor of plumbing for the U.S. Government. He taught Vocational Tech at Leavenworth for 18 months, teaching prisoners a trade. Other jobs he has held in his profession included 18 months with the American Resort and Development Company, building the Cedar Shore Estate at Lake Whitney.

He also worked for Howard Bailey Plumbing and Heating at Marshall, Missouri. While in service he served as plumber and carpenter at Ft. Leonard Wood, Missouri. In Vietnam he worked in the construction unit. He was sub-contractor in Rolla, Missouri.

He served as foreman for the TMW Construction Company in Milwaukee, Wisconsin. He was employed on a project at Ft. Riley, Kansas building

BOB HAMMON

1001 housing unit for Military Personnel prior to resigning his position in favor of moving to Earth to open a business here. Mr. and Mrs. Hammon are the parents of three children, Lola 7 years of age and is a 2nd grade student, Billy 5, will be in Kindergarten and Aaron is 2 years of age. Mrs. Hammon is employed in the Muleshoe Nursing Home as an aid. Mr. and Mrs. Hammon are affiliated with the Baptist Church.

Canadian Exchange Student Here For 4 Weeks

Sixteen year old Mary Bierschbach of Waterloo Ontario, Canada, a Waterloo Lions Club exchange student, arrived here Saturday, August 7 to spend four weeks in Earth. She is residing in the home of Mr. and Mrs. Troy Blackburn.

Mary, a grade 12 student in the Waterloo School has one brother 21. Her mother is a school principal for students, Kindergarten age through grade 8. Her father owns and operates a men's clothing store in Waterloo, a town of 50,000 population.

When asked the most noticeable differences between Texas and Canada, without hesitation she exclaimed, "The land is flat!" I just can't imagine acre after acre of such flat land, big fields and long rows. Waterloo, she said, is located in the heart of the Ontario Agriculture area of Canada, but there, their fields are not as large as in Texas. In other places in Canada the fields are large but she had never seen them. Wheat and corn are the major crops grown around Waterloo, however large fruit crops were grown around the Niagara sections. Irrigation she explained, was not very necessary there, due to the large amount of rainfall.

She made mention about the large feedlots in the area around Earth and said she had never seen so many cattle penned in feedlots. Their dairy cattle are allowed to run on pasture land.

The economy of Waterloo depends primarily on the town manufacturing. They manufacture tires and auto parts.

Miss Bierschbach is amazed at the number of folks who wear western attire in Texas. Cowboyboots and western hats are never worn in Canada. They do wear jeans, but that is as western as they get in her homeland.

Mary went to the First Baptist Church Sunday with her Texas parents. That was her first time to ever attend a Protestant worship service. She spoke sweetly of the extreme friendliness of the youth and adults alike at the services, and also of all the Texas people she had met thus far. Miss Bierschbach is a Catholic.

When asked if church attendance and christianity as a whole in her homeland was seemingly on the upswing, or was it the reverse, she thought for a moment and replied, "It is on a downward trend, older people attend church as they always have, but so many of the younger set did not attend services."

In and around Waterloo she explained there were lots of Methodists but the most prominent church denomination is Catholic.

In reply to the question regarding dope use in Canada, she divulged the fact that Canada, unfortunately had a dope problem. She explained that undercover agents were working to stop the dope situation and curb the drinking problem that was quite evident in Waterloo. She admitted the fact that Waterloo had many young teachers who felt that drinking was not very bad, and they drink with the students. She stated that she had visited some of her teachers, and though she is only 16 years of age, she was offered a drink by some of her faculty members.

Mary replied very definite and without hesitation, the youth of Canada are seeking an example, a model, rather than a pep talk from anyone, when asked her opinion as to what the youth of today were looking for.

To the question, "Does youth in Canada long for more discipline today?" She said, "No, somehow they have become very strong willed, it's hard to discipline some of our

LIONS CLUB EXCHANGE STUDENT... Miss Mary Bierschbach of Waterloo, Ontario, Canada and her host family, Mr. and Mrs. Troy Blackburn of Earth.

Waterloo is a town where most residence are fairly well to do. Most families have two cars, as they have here. Here families of four have three cars. Mary, a beautiful, blonde, blue eyed girl sweetly implied that she was so proud to have the opportunity to come to Earth and was enjoying her stay here tremendously.

Waterloo is a town where most residence are fairly well to do. Most families have two cars, as they have here. Here families of four have three cars.

Homes in Waterloo are two and three stories high, and their lawns are much smaller than in Earth and areas around. She was amazed at the rambling homes and tremendous lawns.

Waterloo is a town where most residence are fairly well to do. Most families have two cars, as they have here. Here families of four have three cars.

REWARD OFFERED

A Coca-Cola box located in front of the Wolverine Mini Mart was broken Friday or Saturday night, July 30 or 31, and was not discovered by Mini Mart owner, Richard Moore until Sunday when he was told folks were getting free Coca-Colas.

Moore said the prongs that held the soft drinks from coming out were pried open, so that Coca-Colas would come

forward without dropping money to open the prongs. Moore said he estimated the damage and loss in sale of Coca-Colas to be approximately \$50.

Deputy V.L. Smith, Jr. of Orlon and City Marshal Alvin Pittman were called.

Moore has offered \$100 for information leading to the arrest and conviction of the guilty person or persons.

There are some things, of unending importance, that cross the earthly boundaries of time. These things lift us above the man-made affairs of the world, to give us a wisdom of the eternal. These are the same yesterday, today and tomorrow and cannot be improved by history.

Our forefathers founded a nation that was then, and still is unique in the world. Providing each individual with freedom to create his own niche in the world. Yet today, more than ever in the history of the world, it is important to set our footing on the right path, realizing full well there will be pitfalls and snags on every side along the way.

However, we can be assured that if we belong to God, with each temptation, pitfall and snags, He has provided a way out. His Word provides light for our pathway and reveals a detailed roadmap that His children may follow day after day. For He has said, "I will be with you forever, even to the end of the world."

The Bible tells us there will be those who will be followers of Satan and will seek to win others.

God's Word warns us not to be fooled by false doctrines and to be careful not to be led astray by their cunning ways.

As the days for college enrollment draws near, it might be wise for each student to tuck inside his bag a copy of the Holy Bible for use while away at college. For this is a time to have a firm hold on God's Word and a prayer on our lips for God to see us through each day.

For today's youth, temptation is far greater than in days gone by, so be prepared, seek the answers in God's inspired Word and walk close to him so that

you will not be swept off your feet by Santanic worshipers, and false meditations. For God says "I am the Great I am," which simply means I am EVERYTHING you need, the great physician, the light, the comforter and anything else you may need. He has provided for your every need.

NOSIN

This week another new business opened in Earth, and we are indeed glad to have it here.

The B & D Plumbing and Home Improvement firm will be available to do much of the work that we have in the past had to get from out of town.

Bill Hammon, owner, says he is here to settle down in a small town and raise his family. He does not expect to get rich, he hopes only to make a living.

We welcome Bill and Dorothy to town and hope they will be happy in our fine community.

Bookmobile Schedule

The High Plains Bookmobile will be in the area on the following dates.

Thursday, August 19
Springlake 10:30-12:00
Earth 1:15-3:45

Friday, August 20
Pleasant Valley 11:00-12:00

Plain Speaking

Baloney: something that is often disguised as food for thought.

Tomorrow: the greatest labor-saving device ever invented.

Boosters To Meet Tuesday Night

The first meeting of the year for the Springlake-Earth Wolverine Booster Club is set for 8:30 p.m. Tuesday, August 17 in the school cafeteria.

Purpose of the meeting is to re-organize the club and elect new officers for the forthcoming school year.

Everyone interested in the S-E School and in the athletic program is invited to attend and meet the new coaching staff.

Homemade ice cream will be served to those in attendance.

Lions Softball Tourney This Week-End In Earth

A slow pitch softball tournament is slated for August 13-15 in the ball park at the Earth City Park. The event is sponsored by the Earth Lions Club.

The three trophies are now on display at the Wolverine Drive In. The first and second place teams in the tournament will receive trophies also the one who scores the most homeruns.

There are five teams entered in the tournament. They are The Earth Eagles, Wood-Jordan team, Littlefield All-Stars, Tony's Sporting Goods team from Clovis, and the Muleshoe All-Stars.

Play begins at 7:30 p.m. Friday with the Littlefield All-Stars pitted against Tony's Sporting Goods team from Clovis. At 9:00 p.m. the Wood-Jordan team of Earth will play the Muleshoe All-Stars.

A large group of spectators are expected to turn out to observe the sport. All funds will go to charity.

Baker To Meet With Earth

Ernest Baker will meet with members of the Earth First Baptist Church Brotherhood, Saturday morning at 7 a.m. to present a program for the monthly men's breakfast meeting. The meeting will be held in the Fellowship Hall of the Church.

Baker will present a film strip describing the Gideon Memorial Bible display and will explain the Memorial Bible program.

Sunday morning, August 15 Baker will be at the First United Methodist Church in Sudan for the morning worship services at 11 a.m.

The first 15 minutes of the service, Baker will show the film strip on the Gideon Memorial Bible display. The final 30 minutes of the worship hour Baker will deliver the morning message.

S-E DRESS CODE

General agreement among Educators and others in authority, that the appearance of a person indicates the general attitude of a person and will therefore influence his actions, has caused many schools to set up a dress policy. This policy should be in the best interest of the community to assist it's young people in developing into responsible, mature, self-citizens. In order that all may understand what is required of the students and in order that as little misunderstanding as possible will result, the following statement of policy is made: (includes summer program).

STUDENT DRESS AND GROOMING

The dress of our students is important in the academic and extra curricular activities of our school. Students should dress appropriately for the occasion. We as parents too often hear these words, "This is what all the other kids are wearing." Too often we have allowed our children to wear fashions of which we do not really approve or which are not in good taste, simply because we do not know.

There is no doubt that the majority of our students wear clothing which is in good taste and groom themselves appropriately, but regulations are necessary for those few who do not take sufficient pride in themselves and their school. It is not the desire of the school to dictate fashion; however, it is within the jurisdiction of the school to set forth these requirements relative to dress and grooming which it deems necessary to maintain a desirable educational climate.

BOY'S HAIR

1. Boys will be clean shaven, no beards or mustaches.
2. Sideburns will not be worn below the bottom of the ear and must be kept neatly trimmed.
3. The sides of the hair will be cut and neatly trimmed so that the hair does not hang or lay below the bottom of the ear.

4. The hair will be cut and trimmed in the back so that it does not hang over the collar, and in the front so that it does not hang or lay below eye-brow level.

GIRL'S HAIR

1. Girl's hair will be styled to leave all front portions of the face visible.
2. Bangs will not be below eye-brow level.
3. Rollers will not be worn in school.
4. Hats nor head scarfs will not be worn in the classroom.

BOY'S DRESS

1. Men's style shirts with split tails will be worn in school.
2. Shirts with lettering or designs which are unpatriotic, vulgar or profane will not be worn in school. Insignia of other schools may be worn if earned by the individual wearing them.
3. Shirts will be buttoned to leave one button only open at the top. No style shirts will be worn which allow the chest to be exposed. Muscle shirts

and tanktops will not be worn.
4. Footwear will be worn at all times. Socks will be worn with sandals.

GIRL'S DRESS

1. Shorts will not be worn in school. Any other items of dress which do not meet the prescribed length will not be worn.
2. Unusually short dresses will not be worn. Dresses shorter than eight inches from the floor when measured from a kneeling position will not be allowed.
3. Length of pant dresses will be the same requirement as for regular dresses.
4. Men's shirts with split tails will be worn in school. Insignia of other schools may be worn if earned by the individual wearing them.
5. Footwear will be worn at all times.

S-E Football Practice Looks Good For First Day

Springlake-Earth Wolverine two-a-day workouts started with a bang Monday.

Roland Murray, head coach reported that 38 very enthusiastic boys reported for practice on Monday and more were expected to join in as they returned from vacations.

Coach Murray stated that the morning session was a little sluggish, but when the boys reported for evening practice they looked like a different group.

He indicated that he was very enthused with the quickness and speed of the boys and expected the Wolverines to be among the top contenders for the district crown.

One of the strong points, he devulged is, "the depth in the offensive backfield." He indicated, with a proud

voice that all the boys were very enthusiastic and quick to learn the new techniques and plays.

The workouts are at 9 a.m. and 6 p.m. daily. Scrimmage games are scheduled with Sudan, August 19 and Muleshoe, August 27.

The Old Timer

"Taking your money in a shopping bag and bringing your purchase home in your pocket is a sure sign of inflation."

Four Tickets Issued This Week

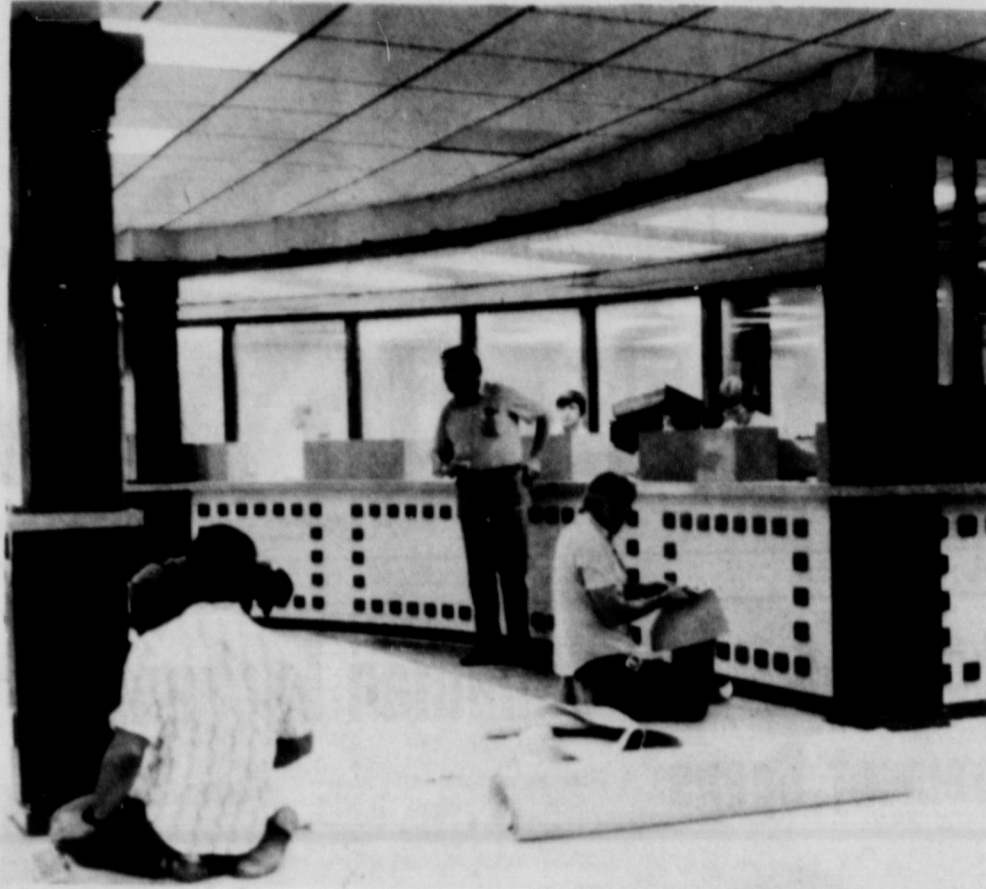

Four tickets were issued this week to three residents of Earth, according to City Marshal Alvin Pittman. Pittman said a 22 year old Earth man was issued a ticket for an improper U-turn (spinning around). A 16 year old boy was picked up for driving without drivers license. Also a 21 year old man was given a ticket for drinking in public and for simple assault. The 21 year old was given the tickets at 5 a. m. Sunday morning. When asked if he thought the traffic problems here would be solved shortly, Marshal Pittman said, "I think they are already doing better." He stated "Adults committed as many traffic violations as the kids, and I feel adults should be more observing of their own

driving and set an example for the kids." This thoughtlessness on the part of the adults is without a doubt fairly accurate. However, no one thoughtlessly drags and hot rods through the night hours without intention and this for sure should be stopped as soon as possible, before a tragedy takes place.

The Old Timer

"Gardening is a contest to see which holds out longer—your enthusiasm or your back."

COMPLETION DATE GETTING NEARER... Everyday at the Citizens State Bank. Workers were busy this week installing the beautiful carpet throughout the bank.

Immunizations Necessary To Enter School

The A/New Jersey (swine) flu immunization program may make parents overlook other immunizations their children need before they can enter Texas schools. State law requires children have an adequate polio, DPT (diphtheria, whooping cough, tetanus,) measles and rubella vaccinations before they can attend school, the Texas Medical Association says. Some school districts have additional requirements such as a small-pox vaccination or a tuberculosis test. In addition to these required procedures, a physician may feel additional inoculations would help a particular person. A doctor also can give advice on whether or not an individual can medically tolerate certain vaccinations. About 5 percent of Texas school children and an estimated 10-20 percent of the preschool population do not have complete immunizations, a Texas Department of Health Resources (TDHR) spokesman says.

Even this relatively high Texas immunization level is only a small margin of protection for the public. About 35 percent of the national preschool population has incomplete immunizations and as a result there has been a recent nationwide outbreak of measles, says John Witte, M.D., the U.S. Center for Disease Control's immunization director. The outbreak, centered mainly in the Midwest, probably can be traced to cut-backs in massive immunization programs two years ago, Dr. Witte says. A similar effect was noted in 1968. Texas immunization standards before a child can enter school include three doses of polio vaccine with at least

one dose given after the fourth birthday. By the time many children are one year old, they have had three doses of polio vaccine and three DPT vaccinations. Texas does not require polio vaccinations for students over age 19. Three doses of DPT vaccine with at least one dose given after the fourth birthday also are necessary. DPT vaccine helps protect against diphtheria, pertussis (whooping cough) and tetanus. The state also requires one measles vaccination and one rubella (German measles) vaccination. Children should be at least one year old before receiving these vaccines. If a child is 12 or older the state

waives the requirement for measles and rubella vaccinations. Parents wondering about their child's immunization records should check their own records if they know they are updated. If there is any doubt contact the physician or health department that gave the last injection. Physicians, local health departments or TDHR also can give general information on necessary injections. For free pamphlets, write: Immunization Division, Texas Department of Health Resources, 1100 West 49th Street, Austin, Texas 78756; or Texas Medical Association, 1801 North Lamar Blvd., Austin, Texas 78701.

Greg Slover Coach At Clarendon High

Greg Slover, son of Mr. and Mrs. Cecil Slover has accepted the position of assistant varsity football coach at Clarendon High School. He will also coach the "B" team football team. Other duties include coaching the girl's junior varsity basketball team. He will teach two reading classes in Junior High. Mrs. Slover will enroll as a sophomore in Clarendon Junior College. She will be majoring in Elementary Education and will minor in Math. Mrs. Slover is the former Darla Dear, daughter of Mr. and Mrs. J. W. Dear of Spring Lake. The couple moved to Clarendon Saturday, and are at home at 1004 Goodnight Street.

For the Future

"The credibility of the United States—our credibility around the world—rests upon our vast resources as much as our defenses. Some nations with other political philosophies have virtually the same tractors and the same combines that our farmers use but their farmers do not have the same incentives. Our farmer earns his income from a free market, not from a government check financed by the taxpayer. We must continue this vigorous market-oriented free enterprise in agriculture and commodities, but more important for the future."

—Gerald L. Parsky
Assistant Secretary
of the Treasury

ENERGY EFFICIENT HOME

SAVE 40%

OR MORE ON YOUR HEATING & COOLING . . .

It has been known for some time that methods existed to insure the building of ENERGY EFFICIENT HOMES. But inexpensive energy in the past made it logical to ignore the extra investment such a home would require. Now with energy costs rising, it becomes more and more important to use effectively every bit of energy we consume. The TOTAL ELECTRIC ENERGY EFFICIENT HOME has construction features which result in savings of 40% or more on heating and cooling costs when compared to previously accepted standards for total electric construction.

Services Held Saturday For Russell White

Services for Russell Ernest White, 54, of Springlake were held at 2:30 p.m. in the First Baptist Church of Springlake. The Rev. Glen Smith, pastor, and the Rev. Bennie Goss of Littlefield officiated. Burial was in Springlake Cemetery under the direction of Parsons Funeral Home. White died Thursday morning in the Lubbock Methodist Hospital following a brief illness. White was a member of the Baptist Church and a lifetime resident of the Springlake area. He was a farmer. Survivors include his step-mother, Mrs. Grace White of Littlefield; two brothers, Charles White of Springlake and Frank White of Littlefield; and two step-brothers, Kenneth Adams of Laytonville, California and Bob Adams of Sonoma, California.

RECKON THEY ARE DONE?... Gary Bulls and Richard Moore, two of the cooks at the annual Earth Volunteer Fire Department family night and cookout.

Services Held Monday For Janie Way

Services for Janie Elizabeth Way, 76, of Springlake were at 4:30 p.m. Monday in First Baptist Church with the Rev. Glenn Smith, pastor, officiating. Burial was in Springlake Cemetery under direction of Parsons Funeral Home of Olton. Mrs. Way died Friday night while visiting in the home of her daughter, Mrs. Ernest Gofforth of Springlake, Olton Justice of the Peace W.G. Finney ruled death due to natural causes. A Tennessee native, Mrs. Way had been a Springlake area resident for 45 years. She was a member of the Baptist Church. She is survived by her daughter, two grandchildren, five great-grandchildren and two great-great-grandchildren.

Farmers Warned Of Possible Swindle

The Texas State Securities Board today warned farmers and others in the agriculture business to be on the lookout for a possible swindle in newly-formed farmers' cooperative associations. The Board asks that this warning be publicized in the hope Texas farmers may be spared the loss of sizeable amounts of money. Beginning this Spring a pattern has emerged, and now farmers in about 20 states in the central United States are discovering that they have been duped. While details of the swindle vary somewhat from state to state, the main characteristics generally are the same. They are as follows: *A new farmers' cooperative is formed, and one or more prominent local citizens are listed as officers or members. These local citizens usually are not aware a swindle is taking place, but their names are used to

draw in other victims. *The farmer is told that if he joins, he'll be able to buy equipment, seed, supplies, etc., at reduced prices. In order to join, he must invest in a 20 year savings certificate or promissory note of the co-op, for which he pays about \$350 per year. When the certificate matures in 20 years, he supposedly will get back all the money he's paid in plus a certain rate of interest compounded annually. He's led to believe that his price saving on any big ticket item (such as a tractor or combine) will more than offset the \$350 annual payment. He's also promised the use of grain elevators and other cooperative facilities. *The promoters and their employees take at least the full first year payment (\$350) as their "commission" for selling the savings certificate to the farmer. *Since the cooperative had no money or assets to begin with, it still has nothing, although \$350 has been paid in by hundreds of farmers. Even if a few farmers elect to pay the full purchase price of the savings certificate in a single payment, the assets of the co-op will still be negligible. The managers of the co-op simply don't have enough money to do anything for the farmers, even if they had intended to do anything in the first place. *Just in case there is any money remaining after the first huge bite for commissions, the promoters usually will have signed, as representatives of the cooperative, a management or consultant contract for some other company to manage the business of the cooperative. The manager-consultant is usually a "sweetheart" company, i.e., it is run by cohorts of the promoters, and its fee is quite large. *The promoters and the "manager" go through the motions (for awhile) of launching the

new enterprise. They show a decided preference for buying things on credit, as opposed to paying cash. When they eventually, but inevitably, leave the scene, they try to avoid the appearance of having "skipped out" with the money. The hoped-for appearance is that things just didn't work out, they tried but just couldn't quite put it all together. This makes it more difficult to prosecute them. Farmers are urged to be very careful about turning over money to strangers purporting to organize a new cooperative. There are, of course, many honest and legitimate cooperative associations serving their members well, and other legitimate ones will be formed in the future. But questionable

cooperatives have been set up recently in states adjacent to Texas, and the Texas Securities Commissioner is concerned that attempts to do the same here are quite likely. Any farmer approached to invest money in a cooperative with the characteristics described above is asked to contact the State Securities Board in Austin at P. O. Box 13167, Capitol Station, Austin 78711; telephone (512) 475-4561. Mr. and Mrs. Earl Walker spent the week-end in New Home visiting their daughter and family, Mr. and Mrs. Eugene Brewer and children.

Imported Fire Ants Continue To Spread

Imported fire ants are now common in virtually all of the eastern half of Texas and are continuing their trek westward. "Although records on the distribution of fire ants are somewhat behind actual field observations, it seems the fire ant has infested counties extending from Cooke County in North Texas all the way down to Kleberg County at the southern end of the state," points out Jack Jackman, an entomologist for the Texas Agricultural Extension Service. "Fire ant infestation also extends as far west as Kerr and Bandera counties in the Texas Hill

County." Jackman says that 74 of the counties that have a fire ant problem are under partial or complete federal quarantine or are labeled suppression areas. This means that soil and earth-moving equipment must be checked when being transported from a quarantined county to one not under quarantine. This is an attempt to prevent transporting the fire ant. Fire ants have been classed as eradicated in Williamson, McLennan, Erath and Henderson counties, says the Texas A&M University System entomologist.

Mirex, a chemical used to control the imported fire ant, continues to undergo careful evaluation by the Environmental Protection Agency. Allied Chemical Corporation discontinued production of the chemical in February, and Mirex is now being produced by the state of Mississippi and is available through the Texas Department of Agriculture. Jackman says farmers and ranchers can obtain the chemical free of charge by requesting it through their County Commissioners Court.

GENERAL REVENUE SHARING

ACTUAL USE REPORT

GENERAL REVENUE SHARING PROVIDES FEDERAL FUNDS DIRECTLY TO LOCAL AND STATE GOVERNMENTS. YOUR GOVERNMENT MUST PUBLISH THIS REPORT ADVISING YOU HOW THESE FUNDS HAVE BEEN USED OR OBLIGATED DURING THE YEAR FROM JULY 1, 1975, THRU JUNE 30, 1976. THIS IS TO INFORM YOU OF YOUR GOVERNMENT'S PRIORITIES AND TO ENCOURAGE YOUR PARTICIPATION IN DECISIONS ON HOW FUTURE FUNDS SHOULD BE SPENT. SCHOOL OPENS SOON

Children are unpredictable-
Safety is your responsibility!
When in doubt... STOP!

School age children are active---apt to dart into or across the street at any time.

Slow down to a safe stopping speed when passing schools. Keep your eyes on the youngsters playing near the street. They might dart into the path of your car at any time, expecting you to be able to stop.

Stop at all school crossings. The sign says "STOP" and they expect you to do this. Be very sure that all youngsters have crossed the street before you drive on your way.

STOP FOR ALL SCHOOL BUSES

TOPS Discuss Nutritive Value Of Vegetables

Texas TOPS 891 met Wednesday in the former Earth Oil and Gas building, for a regular weekly session. Mrs. Fred Clayton presided

over the meeting and led the group in repeating the TOPS Pledge.

Mrs. Bud Jones and Mrs. Henry Randolph tied for Queen of the Week.

There was an interesting discussion concerning the nutritive values of various kinds of vegetables in relation to their caloric content.

The meeting closed with the Serenity Prayer.

Those present were Mrs. Fred Clayton, Mrs. Henry Randolph, Mrs. Bud Jones, Mrs. James Herriage and Mrs. Florence Gover.

Notice

A layette shower honoring Mrs. John Ross and her infant son, Shane Darren is set for Saturday, August 28 in the home of Mr. and Mrs. Macky McCarty. Hours will be from 3:00 to 5:00 p.m.

Anyone wishing to be hostess may call Mrs. McCarty at 257-3929 or Mrs. Gene Templeton at 965-2465.

Party Line

Mr. and Mrs. I.M. Holt of Rosemead, California returned home this week after spending several weeks here visiting relatives. Mrs. Holt is the sister of Mrs. Robert O'Hair.

MRS. JOHN STANLEY KELLEY (nee Shelley Kaye Gaston)

Gaston - Kelley Wedding Saturday

Miss Shelley Kaye Gaston and John Stanley Kelley exchanged nuptial vows at 4:00 p.m. Saturday, August 7 in the Earth United Methodist Church. The Rev. Bill Watson was officiant for the double ring ceremony.

Parents of the couple are Mr. and Mrs. Ernest G. Gaston and Mr. and Mrs. Guy F. Kelley, both of Earth.

With the cross serving as focal point, the altar table was set with a white unity candle surrounded by greenery accented with rainbow-hued variegated satin bows and streamers. Placed on brass tables flanking either side of the altar were baskets of pastel gladioli, spider mums, mums and carnations intermingled with baby's breath and greenery. Standing in front of the

pulpit and the lectern were brass candelabra entwined with English ivy and holding white tapers. The family pews were marked with pastel ribbons and baby's breath. A kneeling bench was used by the couple as the "Lord's Prayer" was recited.

Music for the wedding was furnished by organist Mrs. Bob Belew. Vocal selections by Mrs. Cecil Slover were "The Wedding Song" and "Whither Thou Goest." The processional was the traditional Lohengrin's "Wedding March." The recessional was "Jesu, Joy of Man's Desiring" by Bach.

The bride, presented at the altar by her father, was gowning in a Victorian wedding dress

of moonglow silk organza and heirloom lace. The molded bodice featured a high wedding band neckline encircled in heirloom lace. The deep veed yoke was outlined with the lace in a double ruffle edging. A wide satin ribbon circled the crescent waistline with a lace overlay. From the crescent waistline the A-line skirt fell to form a chapel train. The hemline was bordered with an heirloom lace flounce. The headpiece was a prayer veil of lace-edged silk illusion attached to a matching lace Victorian Capulet. The bridal bouquet was an ivory lace fan backing a cascade of gardenias, stephanotis and baby's breath. For some-

thing old, the bride wore a penny in her shoe; an amethyst pendant from the groom was new; a lace handkerchief borrowed from her mother and the traditional blue garter completed her ensemble.

Miss Paige Gaston, Lubbock, twin sister of the bride, served as maid of honor. Serving as bridesmaids were Roberta Gaston, Lubbock, sister of the

bride, and Kim Kelley, Canyon, sister of the groom. The attendants wore identically-styled formal length gowns of matte jersey in rainbow colors of blue, green and pink, respectively. The bodice was accented by a two-tier V-neckline that fell over the shoulders to give a cape-like effect. The empire waistline featured a matching self-rose. They

carried clutch bouquets designed of pastel-colored daisies, mums, rosebuds and carnations interspersed with baby's breath.

Gary Kelley, Dallas, brother of the groom, served as best man. Groomsmen, also serving as ushers, were Tim Libson, Odessa, and Dyke Gaston, Earth, brother of the bride.

Social Club Makes Plans For PV Fair

Members of the Pleasant Valley Social Club met Thursday in the home of Mr. and Mrs. Oscar Allison for a regular monthly meeting.

Roll call was answered with "My most interesting vacation trip." This made a very interesting program as it included trips to Mexico, Florida, Virginia and West Virginia, Washington, D.C., The New England States, Niagara Falls,

N. West U.S.A. and Beirut, Lebanon.

Plans were finalized for the Pleasant Valley Community Fair, which is scheduled for September 11.

Members present were Mrs. Oscar Allison, Mrs. Lillie Wuerflein, Mrs. Harold Allison, Mrs. Sena Stevens, Mrs. Gerald Allison, Mrs. Roy Taylor, Mrs. John West and Mrs. Bonnie Haberer.

MR. and MRS. WILLIAM F. GOOD (nee Peggy Lee McGowan)

Make Sauerkraut To Preserve Extra Cabbage

Making sauerkraut may be the answer for home gardeners with more cabbage than the family can eat fresh.

Sauerkraut is an economical source of Vitamin C and adds a zesty taste to family meals. Mrs. Sally Coble, a foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System, says,

Select firm, sound heads of cabbage. About one pound of cabbage fills one pint of kraut.

Remove the outside green and dirty leaves. Wash well. If worms are present, soak in four tablespoons salt per gallon of water for 30 minutes. Quarter the head and shred the cabbage finely.

Put five pounds cabbage and two ounces (three and one-

half tablespoons) of salt into a large pan and mix with the hands. Pack gently into the crock with a potato masher. Repeat until crock is nearly full. Cover with a cloth, plate and weight. During the curing process, kraut requires daily attention. Remove scum as it forms and wash and scald the cloth often to keep it free from scum and mold. Fermentation will be complete in 10-12 days, she said.

As soon as kraut is thoroughly cured, pack into sterilized jars, adding enough of the kraut juice, or a weak brine made by dissolving two tablespoons salt to a quart of water, to fill jars to within one-half inch of top. Put on cap, screw band firmly tight. Process in boiling water bath 15 minutes.

— PARTY LINE —

Party Line

Dinner guests Friday night in the home of Mr. and Mrs. Garland Stovall were her aunt and uncle, Mr. and Mrs. Claudio Baca of Lynwood, California, Mr. and Mrs. Donnie Henderson and Justin, Mr. and Mrs. Larry Stovall and Richard Ballesteros of Norwalk, California.

Mrs. Mary Foster, Mrs. Garner Ball, Mrs. Beulah Newton, Mr. and Mrs. Kenneth Sawyer and Mr. and Mrs. James Dutton attended funeral services in Littlefield for Joe Nixon, a long time resident of the Rocky Ford Community and Littlefield areas.

Mr. and Mrs. V.O. Busby dined in Muleshoe Sunday at the Corral Restaurant.

McGowan - Good Vows Read

Miss Peggy Lee McGowan, Springlake and William F. Good, Pennsylvania, exchanged wedding vows at 6:00 o'clock in the evening Saturday, August 7 in the Sunnyside Baptist Church. Rev. Raymond Jones, pastor, officiated the double ring ceremony.

Parents of the couple are Mrs. Aulgia Gerene McGowan, Springlake and Mr. and Mrs. B.F. Good of Pennsylvania.

The ceremony was read as the couple stood before the altar decorated with baskets of multi-colored daisies.

Gary Hamilton, pianist, played the Wedding March as the bride was escorted down the aisle on the arm of her uncle, Curtis Bingham, Kress, who presented her in marriage.

The bride was adorned in a white floor length wedding gown of dotted swiss designed with a three tiered full skirt, each tier was bordered with white lace. The fitted bodice featured a flattering square neckline bordered with matching white lace, and long full sleeves. She carried a bouquet

gay of pastel daisies.

Mike Huntzinger, Clovis, was best man.

Groomsmen were Ronnie McGowan, Springlake, brother of the bride.

Ring bearer was Tommy McGowan, Springlake, brother of the bride.

Flower girl was Mary Comeau, Clovis.

Ushers were Roy McGowan, Springlake, brother of the bride and Wayne Pierce, Clovis. Immediately following the

ceremony a reception was held in the Fellowship Hall of the Church.

The brides table was covered with a white lace cloth and centered with a three-tiered wedding cake iced in white, decorated with blue rosebuds and topped with a miniature bride and groom. Cake and green wedding punch was served by Mrs. D. Beers, Clovis, Ruby Davis, Clovis and Roy McGowan. Silver appointments were used for serving.

For a brief wedding trip to Carlsbad, New Mexico, the bride chose a light lavender dress complimented with a daisy corsage.

Following the wedding trip, the couple will be at home in Clovis.

The bride is a graduate of Springlake-Earth School with the class of 1975 and has been employed at Gibsons in Plainview.

Good is employed as a truck

driver for a trucking company of Amarillo.

Party Line

Mr. and Mrs. Robert O'Hair and Mr. and Mrs. Ed O'Hair returned home Saturday from Melbourne, Florida where they attended funeral services for Herbert O'Hair, brother of the two local men.

Annual Family Night Sponsored By Firemen

23 Earth Volunteer Firemen, their families, also retired members and special guests were present at the city park Monday night, for the annual Firemen's family night. Hamburgers, hot dogs, ice cream and Coke were served to the approximately 65 people attending. Following the delightful dinner, the children played on the playground equipment, and several adults played volleyball while others just enjoyed an evening of fellowship.

Party Line

Mr. and Mrs. F. W. Bearden dined Sunday at the Corral Restaurant.

GASTON - KELLY WEDDING

(continued from page 4)

The groom's attendants were dressed in black tuxedos with shirts matching the bride's attendant's gowns and black velvet bow ties. Candelighters were Miss Connie Beck, Pecos, cousin of the bride, and Miss Lulayne Seay, Lubbock, cousin of the groom. They wore empire styled gowns of mint green and peach, respectively, featuring a square neckline, kimono sleeves, and gathered skirt, all accented with lace and tied at the back with a self-belt. Their corsages were wristlets of pastel daisies, mums, carnations and baby's breath.

Flower girl was Miss Kristi Curtis. Her gown of yellow daeron was accented with lace and tied at the back waistline with a satin ribbon sash. Her ensemble was highlighted with a cape and an overskirt of soft yellow georgette edged in lace. She carried an ivory lace basket filled with nosegays of rainbow-colored daisies, mums, rosebuds, carnations, stephanotis and baby's breath.

Ring bearer was Justin Shobe, Mission Vallejo, California, grandson of Mr. and Mrs. Pat McCord. He wore a black tuxedo, identical to the groomsmen's attire, with a yellow shirt and black velvet bow tie. He carried the rings on an ivory lace and satin pillow.

For her daughter's wedding, Mrs. Gaston wore a light green chiffon gown with matching cape and carried a yellow cymbidium orchid. Mrs. Kelley chose a coral chiffon gown with long sheer sleeves and wore a rust-toned cymbidium orchid. Immediately following the wedding, a reception was held in the fellowship hall of the church. Mrs. Gary Kelley, Dallas, presided at the registry table which was covered

with an embossed white polyester cloth with a deep lace ruffle encircling the hemline. Table decorations were completed with the bride's book, a white plumed pen, and a crystal vase holding an arrangement of pastel spider mums, mums, carnations and baby's breath. Mrs. Mary Kate Below, pianist, played selections during the reception.

The bride's table was laid with a white satin cloth with a white lace double-flounced overlay. It was centered with the white unity candle decorated with the bride's wedding invitation encircling it. The beautiful white four-tiered heart-shaped cake, with silver leaves accent, was topped with a miniature bride and groom. Clear punch, nuts and crystal mints were served from crystal and silver appointments. The groom's table was covered with a round white linen cloth. Chocolate cake with blue flowers and the inscription, "Whither Thou Goest" was served with coffee from silver appointments. Those assisting in serving were Shirley Beck, Southwest Texas, San Marcos, Doris Schwetner, Floydada and Kleta Haber, Earth. During the reception, Miss

Cynthia Curtis distributed pastel colored rice bags from an ivory straw basket. Her gown was of blue nylon enhanced with self-ruffles covering the bodice and cascading down the softly gathered skirt. Her wristlet was designed of pastel daisies, mums, carnations and baby's breath.

For a wedding trip to Colorado Springs, Colorado, the bride chose an ivory gauze dinner dress complemented with an ivory ribbon choker with a cameo brooch, bone accessories and a gardenia corsage.

Mrs. Kelley, a 1973 graduate of Springlake-Earth High School, is a senior special education major at Texas Tech University. Kelley is a graduate of S-E High School and Texas Tech University, where he plans to begin graduate work in civil engineering this fall.

**REHEARSAL DINNER
FRIDAY NIGHT**

Mr. and Mrs. Guy F. Kelley hosted a rehearsal supper for members of their son's wedding party Friday night. The meal was prepared and served by TOPS Club 217 in the fellowship hall of the First Baptist Church, Earth.

Hello World

Sgt. and Mrs. Hal Burba, Jr. proudly announce the birth of their first child, Corey Jason, who was born on July 12 at 11:47 a.m. He tipped the scales at 8 lb. 1 1/2 ounces and was 21 3/4 inches long. Corey was born at the Yokota Air Force Base Hospital in Japan. The family will return to Earth in September. Maternal grandparents are Mr. and Mrs. Doug Ruby of Earth. Paternal grandparents are Mr. and Mrs. Hal Burba of Torrance, California and Mrs. Lelah Lorenz of Crestline, California.

FIX ROOF WHILE SUN SHINES

The Unemployment Compensation system has proven its value during the recession which is only now abating. An estimated \$17 billion was paid out in fiscal 1975 alone, allowing millions of families to maintain a decent standard of living while jobless breadwinners sought new work. But the same economic situation has caused some cracks in the system to show up.

Benefit outlays have soared from \$5.2 billion in fiscal 1974, bankrupting trust funds in more than 20 states and seriously endangering financing of unemployment insurance. This has been caused in part by abuses such as fraud, overpayments and payments to retirees and to those not looking or available for work. For example, the Department of Labor reports that \$78 million in overpayments were detected last year. This is a heavy burden for already hard-pressed state trust funds. Any abuse is unfair to those who do work and who are legitimately entitled to benefits if they become unemployed.

Now, as economic recovery reduces the number of jobless, it's time for employment security agencies to tighten up their processes to minimize abuses. By monitoring job search efforts more carefully and applying suitable work tests, agencies can move a long way toward insuring that benefits go to those who truly need and deserve them.

Mr. and Mrs. J. A. Littleton, Jr. and daughter Becky dined Sunday at the Corral Restaurant in Muleshoe.

Mr. and Mrs. A. P. Latham had dinner Sunday in Muleshoe.

Parasites Can Reduce Livestock Profits

Livestock producers lose millions of dollars each year to parasites. And total losses are even higher when parasite-weakened animals fall victim to various diseases, points out Buddy Logsdon, county agent with the Texas Agricultural Extension Service.

The first step to controlling and eliminating parasites is to understand how they infest livestock.

Parasites are organisms that feed off other living organisms, Logsdon explains. Fleas, lice, ticks and mites are the most common external parasites. Inside the host, roundworms, hookworms and tapeworms cause considerable damage.

Horses, cattle, pigs, sheep, goats, dogs, cats and rabbits may serve as hosts to parasites. And since these animals often live in close confinement and under unsanitary conditions, parasites are often difficult to control.

Young stock are more susceptible to parasites, notes Logsdon. Immature animals may die of anemia caused by blood-sucking worms in the intestinal tract or from severe infestations of lice on the outside.

Other young animals die from damage to vital organs caused by immature forms of roundworms moving through the organs during their life cycle.

As these animals reach maturity, they develop some immunity to the effects of internal parasites and certain external ones. Their natural defenses usually keep parasites under control, except in adverse conditions and times of stress.

The best way to control parasites is to break their life cycle, points out Logsdon. This can be accomplished by preventing infection of the animals by the free-living forms of the parasite through proper

nutrition, pasture rotation, cleanliness and good sanitation. And in areas of intense livestock production, slatted floors for penned animals help prevent reinfection from contaminated wastes.

Most livestock also need regular worming treatments to destroy internal parasites until the animal is old enough to establish immunity. Even then, periodic worming is beneficial when combined with proper management and nutrition.

External parasites are best controlled with recommended sprays and powders.

If you have a serious parasite problem in your livestock consult a veterinarian for a complete control program, adds Logsdon.

Recreation Time Can Be Dangerous

Summertime and recreation just naturally go together, especially under the warm Texas sun. But the Texas Department of Health Resources warns that this year, as in past years, too many Texans will have their fun spoiled by unnecessary accidents.

Whatever type of recreation you choose, there are a few simple precautions you can take to ensure that you enjoy all of your vacation and leisure time.

According to safety experts, water sports offer the most frequent summertime hazards. Last year, more than 630 people drowned in water-related accidents in Texas. Typically, swimming accidents take the largest toll each year, followed closely by fishing accidents. Boating, sailing, water-skiing and canoeing also take their toll.

But not all drownings involve swimmers and boaters. In too many cases, people fall from a place of presumed safety, such as a dock, bridge, or the edge of a swimming pool. When this happens, in many cases the person isn't prepared to swim and can't get himself to safety.

Children are most susceptible to this type of accident, especially very small children playing near a swimming pool or a pond. Two simple safety rules could prevent almost all such tragedies: first, never

leave children without adult supervision; second, make sure everyone in the family knows how to swim. Free or very inexpensive swimming lessons are available in almost every community through American Red Cross programs and local recreation agencies.

Not only children but adults as well should wear an approved life jacket while on a boat or near deep water, just in case of an unplanned dip. Even an expert swimmer won't be able to avoid drowning if he's knocked unconscious by a fall from a boat or by striking a rock underwater.

Always swim in areas you know are safe, either because they're marked for swimming or because you're accompanied by someone who knows the area thoroughly. And that's another good safety rule: don't swim alone. If you get into trouble, your companion can toss you a life jacket or a rope to help you reach safety. Never swim when you're chilled, overly tired, overheated, or you've just finished eating.

Anyone familiar with Texas weather knows that it can change rapidly. If you see thunderclouds building up or lightning in the distance, stay away from the water. Boats make an inviting target for a bolt of lightning, and choppy, wind-blown water can turn a pleasant swim into a potentially

deadly nightmare.

Make sure your boat is in excellent condition and meets all safety regulations, which includes having a Coast Guard-approved flotation device on board for each person. When pulling skiers, boat drivers must be on the watch for swimmers and other watercraft. It's a good idea to have two people in a tow boat, one to drive and the other to watch the skier. It's also a good idea to learn the hand signals developed especially for skiers; it's too hard to hear above the noise of a motor, but a hand signal can get the message across.

Health authorities warn that there are dangers in other kinds of recreational activities, too. Whether it's hang-gliding or golf, jogging or tennis, mountain-climbing or sunbathing, a few simple precautions can save you and your family a lot of grief.

First and foremost, don't get into anything over your head. Know what you're doing; plan and think ahead to avoid possible danger.

Second, don't overdo it. Over-extending yourself on a hot day under the bright sun is a sure way to put yourself in trouble. Exhaustion, sunburn, dehydration, sunstroke, those are the penalties for people who don't know when to take it easy, and they can turn today's play-time into tomorrow's misery.

Third, share your fun with a friend. Whatever your favorite leisure activity might be, it's almost always more enjoyable in another person's company, preferably someone who can help if things go wrong.

Fourth, keep an eye on the children. Don't let their inexperience and immature judgement lead to a spoiled week-end, or a tragically shortened life.

Summertime--it's the favorite time of year for many people. That's why Texas Department of Health Resources safety experts say, "A little bit of caution never spoiled anybody's fun."

Party Line

Visiting in the home of Mr. and Mrs. Garland Stovall this past week-end were her aunt and uncle M., and Mrs. Claudio Baca of Lynwood, California and Mrs. Stovall's son Richard Ballesteros of Norwalk, California.

Smoke-Detector Alarms Protect Homes

For an investment of less than \$50, families can provide an early warning fire detection system in their homes, Lynn Bourland, a family resource management specialist, says.

Smoke-detector alarms are an increasingly popular appliance. Every fire department can relate stories of preventable life and property loss, if they had only discovered the fire sooner, she said.

Miss Bourland is with the Texas Agricultural Extension Service, The Texas A&M University System.

"City ordinances and building codes are being developed and revised to require smoke-detector alarms in new homes, homes approved for VA loans and in some cases, in older homes when placed on the housing market," she added.

Three basic types of smoke-detectors exist.

"Battery-operated models are assured to operate when the fire is electrical or occurs during a blackout. But they require regular battery checks. All provide a warning that sounds when the battery's power reduces. Because a separate electrical circuit is not required, they may be the least expensive type to install.

"Electrical-powered models are of two designs. One plugs into a 110-volt outlet. The other is wired directly to prevent it from being accidentally unplugged and to avoid the use of its outlet for another purpose.

"Installation instructions recommend a separate circuit be used. This prevents overloads and other circuit-breaking events from cutting off power. These models also can be installed easily if adequate power is available," she explained.

Smoke-detectors are different from heat detectors. Smoke-detectors can sense fumes from combustion before smoke may

be visible and before the temperature of the fire is high enough to trigger a heat or flame detector alarm, she explained.

"Another important aspect is that smoke is usually the killer. Fire victims many times are overcome by smoke and toxic fumes before the heat or flames reach the area where the occupants are sleeping," she said.

PARTY LINE

Mr. and Mrs. Ross Middleton, Ted Borum and Mr. and Mrs. Paul Wood dined at the Corral Restaurant in Muleshoe Sunday.

Asthma Cuts School Attendance

"Asthma" is the leading cause of school absenteeism. Parents can do a lot for asthmatic children to help them attend school and pursue other normal activities, the Texas Medical Association says.

Proper diagnosis and treatment is a first important step in asthma treatment. Some respiratory conditions have similar symptoms but different causes and treatments than true asthma does.

Asthma, characterized by gasping, choking and gulping for air in severe attacks, is caused by an allergen. Allergens can be almost anything, foods, furs, feathers, pollens, that cause an allergic reaction. A physician can give tests to tell which substances trigger

such reactions. If a person has asthmatic tendencies, an emotional disturbance or bacterial infection of the throat, nose or sinuses may touch off an asthma attack.

Another important factor to consider with an asthmatic person is exercise. More than 90 percent of asthmatic children can be fully involved in normal physical activity in school, leisure time or athletics. Physical training actually improves asthmatics' health in many cases. Yet asthma can be fatal or make someone an invalid in a minority of cases. A doctor can give the best advice about physical exercise for a particular person.

Preventing asthma attacks can be relatively simple in many cases. Once troublesome allergens are identified, a person can either avoid them or take medication to control the condition. Parents and victims also can learn to spot the early symptoms of an asthma attack and work to prevent it.

Occasionally an asthma patient will be helped by a change of climate but doctors advise proceeding cautiously before making a long distance move. A person may develop a new allergy to things in the new climate. Staying a year or more in a new locale is the best way to determine if relocating permanently would be helpful.

OUR SAVINGS ACCOUNT
IS THREE WAYS BETTER.

Check-Mate

1 The easiest and most efficient way to save is with a regular monthly deposit. Check-Mate can make those deposits for you automatically. Just tell us how much you want to set aside each month. We'll automatically transfer that amount from your bank to your Check-Mate Account.

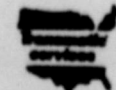

2 With Check-Mate's telephone transfer service, you can make all your money more profitable. A simple phone call will transfer idle funds from your checking account at the bank to your interest-bearing Check-Mate Account at First Federal. When you need the money for checkwriting, another call returns it to your bank account.

3 Check-Mate's automatic mortgage loan payment is a special bonus for Check-Mate savers who also have their mortgage or home improvement loan at First Federal. We'll transfer the exact amount of your loan payment from your bank account on a designated date each month, so you can forget about the bother of making the payment yourself. You'll receive the cancelled Check-Mate draft in your bank statement at the end of each month.

SUNNYSIDE NEWS

By TEENY BOWDEN

Kevin and Jodie Riley won blue ribbons in the Lamb County 4-H Record Books Judging recently in the Junior Division. Kevin also won a first place last Friday in the District II Judging in Lubbock. His record book was on Lamb Production. Jodies was on Poultry.

Dina Jo Hampton won a first place in the District II Record Book Judging in Lubbock last Friday in the senior division. Her report book was on Dog Care and Training.

Jeri Kay Clark won first place in pole bending, first in barrel race and first in flag race in the Progress 4-H playday at the Dimmitt Horse Club.

Gary and Terry Elliott, 17 and 15 year old sons of Mr. and Mrs. Shorty Elliott, former residents of the community, were drowned while swimming in a canal near their home near Muleshoe last Sunday evening. Their sister, Myrna Langford of Dimmitt

flew home after receiving the word to be with her family and attend the funeral services in Oakdale Wednesday afternoon. Several of the children were born in the community. Shorty Elliott worked for Hubert Lilley several years and then returned to California for a few years and came back to work for him again. He also worked for Buford Haydon, Embree Roy Sadler, Roy Pheasant and Roy Cluck.

Ernest (Puny) White passed away in Methodist Hospital in Lubbock Thursday after a short illness. Several from the community attended the funeral services at the Springlake Baptist Church Saturday afternoon. He was born and raised on the farm settled by his father, Shorty White in 1914 on the Lamb-Castro County line.

Mr. and Mrs. Lynn Cox and children and Rev. Raymond Jones attended the funeral services for her aunt, Mrs. Laura Billings of Bakersfield, California in the First Baptist Church in Dimmitt Wednesday after-

noon. Mrs. Larry Odom and children of Hammond, Indiana also attended and visited with the M.B. Odom family in Dimmitt and Leslie Louder here.

Mrs. Paula Gray of Lubbock flew to Hammond, Indiana last week and helped Mrs. Larry Odom and children drive home for a month's vacation. They visited until Sunday with her mother and Paula in Lubbock, then came back to visit here with her father, Leslie Louder and his sister, Mr. and Mrs. Lynn Cox and children and in Dimmitt with his parents, Mr. and Mrs. M.B. Odom and other members of the family. Mr. Odom will fly home the 14th to join them for a weeks visit and to drive them back to school at Hyles-Anderson College.

1.30 inch of rain was recorded for the community Monday afternoon with 2.60 at Sunnyside proper. Another .40 inch was recorded for Tuesday.

Cindy and Susan Sadler, Carrie Sadler, Mrs. David Sadler, Melody and Karla, Mr. and Mrs. Ezell Sadler and Cheryl and Tressa Powell of Dimmitt spent the week at Breckenridge Lake and attended the Henslee Reunion there over the week-end. David Sadler and Karl King of Hereford went down Tuesday morning. Mr. and Mrs. Embree Roy Sadler, Mr. and Mrs. Gale Sadler, Mr. and Mrs. Larry Sadler and Mr. and Mrs. James Powell of Dimmitt went down for the reunion this week-end. The Myles Sadler family of Lubbock did not go to the Sadler reunion last week-end as reported last week, but went to the Henslee Reunion this week-end. Stacy and Laura Sadler came from Waco to the lake Wednesday.

Baptist Men met at the church Tuesday morning for their regular monthly prayer breakfast.

BYW. Mission Friends and G.A.'s met at the church Tuesday afternoon for their regular meetings.

Rev. and Mrs. Ellis Parson and children of Kansas City, Missouri arrived Friday to join their son Edwin for a weeks vacation with his parents, Mr. and Mrs. Thomas Parson. Rev. Parson preached the morning sermon for Rev. Jones Sunday morning. Edwin came home from Muskogee Friday and will return home with his parents after an extended vacation here.

Mr. and Mrs. R.J. Lefevere of Hereford visited Friday night with Mr. and Mrs. L.B. Bowden.

Mr. and Mrs. Gerald Elkins and Chris and Mr. and Mrs. Tom McGill were among those

attending the historical drama at Olton last Friday night, Mr. and Mrs. Mac McGill and children attended Saturday.

Mr. and Mrs. Cliff Brown, Lee and Lynn visited in Lubbock Saturday with Mr. and Mrs. E.R. Brown.

Mr. and Mrs. Martin Lefevere hosted an ice cream supper Sunday night for his parents, Mr. and Mrs. R.J. Lefevere of Hereford and his uncle Jim Zorns of Spokane, Washington, and his grandparents, Mr. and Mrs. S.M. Scott of Gila Bend, Arizona and Mrs. Eula Stewart of Tahoka. Mr. Scott is the father of Mrs. R.J. Lefevere. Mrs. Stewart is the mother of R.J. Lefevere.

Mrs. Larry Odom, Lisa, Kyle and Misty of Hammond, Indiana attended the church services Sunday morning with Mrs. Lynn Cox and children and had dinner Sunday with her father, Leslie Louder to help him celebrate his birthday.

Mr. and Mrs. Neal Parson and family of Muleshoe and Mr. and Mrs. Joe Parson of Clovis attended the Sunday morning services with Mr. and Mrs. Thomas Parson and their guests, Rev. and Mrs. Ellis Parson and family of Kansas City, Missouri.

Laura Parson of Muleshoe was presented her wool worn bookmark for reading 25 books and her liberty bell stick pin for reading 50 books in the summer reading program Sunday morning. She read the books recently while she was vacationing with her grandparents, Mr. and Mrs. Thomas Parson.

Peggy McGowen of Springlake and Bill Good of Clovis were married in a double ring ceremony at the church Saturday night. Rev. Raymond Jones performed the ceremony. The couple will make their home in Clovis. Rehearsal was Friday night.

Mr. and Mrs. Carl Bradley and boys vacationed at Six Flags this week and visited with the Sadler family at Breckenridge Lake on Thursday.

Mr. and Mrs. Mac McGill and children vacationed this week at Six Flags and in South

Texas

Mr. and Mrs. Weldon Bradley of Dimmitt visited with the Sadlers at Breckenridge Lake Friday through Sunday, Mr. and Mrs. Lee Bradley and family visited with them Saturday and Sunday.

Lee and Lynn Brown and Gale Jones attended the circus in Lubbock Saturday night.

L.B. Bowden had an electrocardiogram in the emergency room of Central Plains General Hospital in Plainview Sunday after a night of irregular heart beats. He was not hospitalized as the condition was not dangerous. His temperature and accompanying illness is believed to be side effects from the drug apresoline plus a strep infection in the blood.

Community meeting will be Monday night at 8:30. Bring cookies and your favorite game.

AN IMPORTANT MESSAGE TO EMPLOYERS.

Some of your best people need your help. They're the men and women who serve in local Army Reserve units. They represent an increasingly important part of our national defense.

Employer Support Week of the Guard and Reserve is April 1-6. The American business community is lending their patriotic assistance to some of their best people. And to their Country. Won't you join them?

Just write: Employer Support of the Guard and Reserve, Arlington, Va. 22202. Or contact your nearest Guard or Reserve Unit.

THE ARMY RESERVE.

Cotton Variety Review On Tap For TAES Field Day

LUBBOCK--Officials have started the countdown toward the 67th annual field day of the Texas Agricultural Experiment Station at Lubbock, with the satellite station at Halfway serving as host. The premiere event is set for September 14.

Dr. Bill Ott, resident director of research, and Dr. Bill Lipe, research scientist and field day chairman, say they expect some 1,200 visitors for the September afternoon agricultural exposition.

In past years, separate field days were hosted by the Lubbock and Halfway Stations. Beginning this year, however, the field day will be held jointly, with the stations alternating as host, says Ott.

The Halfway Station is situated on Highway 70, 14 miles west of Plainview. Literally hundreds of crop production, variety and irrigation test plots grace the 350-acre site of choice farm land.

Cotton, corn, sorghum and sunflower crops will be in the spotlight, says Lipe, with irrigation, variety evaluations, weed control and insect pest management specially emphasized.

"We believe our guests will be impressed with research developments at Halfway," Lipe adds. "Among the particular studies dealing with cotton, for instance, field-day

attendants will get a close look at water requirements, seasonal limitations, and newly developed narrow-row varieties and glandless cottons. These studies comprise one of five field tour stops on tap for this year's event.

Dr. Levon Ray, cotton geneticist with the Experiment Station at Lubbock, heads the field day cotton presentation, Lipe says.

Over 50 cotton variety studies will be reviewed by Ray and Dr. Douglas Owen who has supervised the production of tests.

"Less water use by cotton is especially attractive to growers who do not have irrigation water or only a limited supply," Ray says. "Increased energy costs also have caused producers to search for ways to use less water," he adds.

Pointing to other items of interest for field day viewers, Ray says area cotton growers encountering low temperatures and early freezes may be interested in seeing cotton varieties which are a week to 10 days earlier maturing than conventional varieties.

"These varieties, in conjunction with narrow-row planting techniques, can produce a higher yield of more acceptable fiber," Ray explains.

The scientist says he believes the glandless cottons at the cotton variety test site also will draw much attention.

"These glandless types do not have the toxic substance known as gossypol in the seed," he adds. "Newly developed varieties have a great potential for expanding the cottonseed meal market. This would include the higher priced human food market since glandless cottonseed meal could be used as a high protein flour," he says.

All cotton variety research data from tests at the Halfway and Lubbock Experiment Stations are made available on an annual basis to help growers in making cotton variety decisions.

In addition to a comprehensive review of cotton research developments, guests will be able to survey a large display of the latest farm equipment sponsored by area implement dealers.

The event begins at 1:00 p. m., with tours scheduled throughout the afternoon.

You Can Bank on It!

By: MACKY McCARTY
CITIZENS STATE BANK

You Latin students may recall that our word "credit" comes from "credere," to believe or trust, which pretty well describes a process dependent upon mutual confidence.

Having an established credit rating is an asset, almost a necessity in today's world, and having a "good" credit record at your bank is invaluable.

Most of us buy small items on open account, a practice that began on a limited scale during colonial days, but for cars, TVs, refrigerators, we usually borrow from a bank.

Young married couples just starting out will find "bank credit" helpful in easing the strains of establishing a home.

Credit then, in one sense, is an investment in your future.

Protect it, use it, but don't abuse it.

"The more you know about our business, the more we can help you!"

Party Line

Ricky Ballesteros, 3 year old son of Mr. and Mrs. Robert Crofford of Waukomis, Oklahoma, formerly of Earth, is in the Presbyterian Hospital in Oklahoma City where he will undergo surgery this week to have a tumor removed. Ricky is the grandson of Mr. and Mrs. Garland Stovall.

PARTY LINE

Mr. and Mrs. Earl Walker visited Mrs. Faye Carr in the Methodist Hospital in Lubbock Sunday. Mrs. Carr is improving and has been moved into a private room.

Texas Tops In Cattle Slaughter

Texas can now brag about one more distinction of their great state. For the first time in history Texas is number one in cattle slaughter in the U.S.

Dr. Ed Uvacek, a livestock marketing specialist for the Texas Agricultural Extension Service, says this information is based on 1975 statistics and applies only to federally inspected cattle slaughtering plants.

In 1975, Texas had 82 federally inspected slaughtering plants, and 28 of these plants slaughtered more than 50,000 head each. These 28 plants accounted for 11 per cent of the total federally inspected cattle slaughter, says Uvacek.

Thirty slaughtering plants reported a slaughter of between 10,000 and 49,999 cattle while the remaining 24 plants slaughtered under 10,000 head of cattle.

Uvacek notes that Nebraska

FIRST PLACE TEAM... in livestock judging at the Texas Junior Hereford Association field day hosted by West Texas State University, Canyon, was the Gillespie County 4-H composed of (back, left to right) Joy Weinheimer, Stonewall, high overall individual in the contest and Ellen, Jimmie and Larry Eckert, Doss. The Lamb county 4-H team placed second with team members (front, left to right) Bobby McPherson, Silverton, Cary Sawyer, Earth, and Brad and Dean Walden, Littlefield.

(Photograph by American Hereford Association)

Census Bureau To Take Survey

Local representatives of the Bureau of the Census will conduct a survey of employment in this area during the work week of August 16-21, Percy R. Millard, Director of the Bureau's Regional Office in Dallas, announced today.

The survey is conducted for the U.S. Department of Labor in a scientifically designed sample of approximately 70,000 households throughout the United States. Employment and unemployment statistics based on results of this survey are used to provide a continuing measure of the economic health of the Nation.

For example, in June the survey indicated that of the 94.6 million men and women in the civilian labor force, 87.5 million were employed. The Nation's unemployment rate was 7.5 percent, up from 7.3 percent in May but substantially below the recession peak of 8.9 percent reached in the second quarter of 1975.

Information supplied by individuals participating in the survey is kept strictly confidential by law and the results are used only to compile statistical totals.

Interviewer who will visit households in this area is Rosemary McNeese of Amherst.

Attention... MR. FARMER

DO YOU OWN A MASSEY FERGUSON CORN HEADER AND FARM ON 40" ROW CENTERS?

Mills Machine, Inc., Muleshoe, Texas is now extending Massey Ferguson headers from 6-row 38" centers to 6-row 40" centers through the summer months.

We guarantee absolute alignment, neat workmanship and solid reinforcement on extensions.
