## Ruth Ranshoff Will Work Behind Iron Curtain For Church Of Christ

by Polly Middleton

Miss Ruth Ranshoff, who has spent the past nine months in the United States, will sail soon from New York to return to her native Germany where she will be a Church of Christ worker with women and children behind the Iron Curtain. She will be associated with Richard Walker of Texas, who is preaching in an East Berlin church.

Miss Ranshoff has been studying at Abilene Christian college. Her return trip expenses and first month's salary in Germany are being furnished by the Earth Church of Christ. The Earth church will also help toward her support in Germany each month. The congregation decided to contribute \$510 to Miss Ranshoff after a visit here by Otis Gatewood, Church of Christ missionary. Gatewood was the person who influenced Miss Ranshoff in her decision to work with the church.

Born in Berlin Aug. 12, 1924, she was the daughter of a successful bank lawyer and her mother was from a family of politicians. Her mother's father at one time was Secretary of State of the German Republic.

"Due to my father being of Jewish race," Mrs. Ranshoff said, "we were driven out of the country under the Hitler regime. We left Germany, a family of four—my parents, a sister and I—with exactly \$8 and nothing else."

"From April, 1939, we lived in the Dominican Republic (Caribbean). There I finished high school

and graduated as a teacher. I held various jobs; principal of a grade school comprising eight grades and a home economics department; member of the diplomatic corps of the Dominican Republic; social directress of a chain of government-owned hotels; and administrative assistant of Inter-American Geodetic Survey, a department of the U. S. Army."

Miss Ranshoff's family is still in the Dominican Republic. She said that the Americans she met while she was living in the Dominican Republic once served her flapjacks for breakfast, which was one of the Americanisms of which she had never heard.

She said she frequently had discussions over coffee with Americans on such topics as "Do we have freedom of will?"

In 1952 after her sister graduated as an architectural engineer from Dominican Republic university, Miss Ranshoff returned to Germany for a visit with relatives and friends. While in Frankfurt she met Brother Otis Gatewood, Church of Christ missionary and was converted.

She said she plans to have an American kitchen when she returns to Germany because "the Germans have a kitchen to work in, but the Americans have a kitchen to LIVE in."

## Schoolmasters Meet At Olton

The Lamb County school administrators met in Olton Tuesday evening and organized the year's activities. They set up a schedule of meeting places and elected Supt. Ralph Schilling of Littlefield as chairman, and Principal Glenn Reeves of Littlefield as secretary-treasurer.

They also set up a schedule for

use of the audiometer for testing the hearing of the pupils in all the county schools.

Springlake is last on the list for the audiometer and for entertaining the schoolmasters. They will meet here on April 18.

A meal was served to the schoolmasters by the Olton homemaking class.

Mr. and Mrs. Bill Kisinger and daughters, Pam and Pat, were dinner guests of the Ardis Barton's Sunday.

## Mrs. G. Keller Dismissed From Hospital Tuesday

Mrs. G. Keller, who has been a patient in a Littlefield hospital, was dismissed Tuesday. She had been in serious condition, but improved sufficiently to be allowed to return home.

Mrs. Keller is a resident of Dodd community.

## Lineman Will Fill Backfield Vacancy For Injury Ridden Wolverine Gridders

Tonight in the Idalou stadium the Springlake Wolverines, weakened by injuries, take on an Idalou team thirsting for revenge for the three touchdown defeat they suffered here last year, and hoping to prove that their loss to Whitharral last week was a real upset.

Two injuries have knocked a hole in the Wolverine backfield that probably will have to be filled by a lineman. Rex Loftin, the first string fullback, is out for several weeks with a badly sprained knee. His replacement,

Donnie Clayton, sprained a foot in practice this week and probably will not be able to play this week.

Coseh Huffman thinks he will probably start Don Watson in this position. Watson has been playing end this season, was a guard last year.

Both Loftin and Clayton also played as defensive linemen. Still this week's defense may be better than last week's when in one game the Wolverines gave up more than half as many points as were scored on them in a whole season of regular play last year.

The reason is that about three strong defensive players who were out with boils last week will be back in action Friday.

Probably starting lineup will be:  
 Left end Evans  
 Left Tackle Jennings  
 Left Guard Parrish  
 Center Harper  
 Right Guard Green  
 Right Tackle Taylor  
 Right End Neal or Phillips  
 Fullback Watson  
 L. Halfback Lauder  
 R. Halfback K. Parrish or Tunnell  
 Quarterback Hadaway.

## Cotton Growers Must Have Their Marketing Card

All farmers are urged to be sure to have their marketing card available with every truck load of cotton that is brought to the gin.

All ginners are required to have the number of the growers marketing card as well as the county in which it was grown.

## \$300 Damage Done In 2 Car Accident

Henry Henderson and Jean Abila were involved in a two-car accident Thursday night just east of the city limits. No one was injured but about \$300 damage was done to each car.

According to investigating officers, Abila, driving a '52 Nash, drove out on the highway in front of Henderson's car. Both were traveling east. Henderson swerved to miss Abila's car, but sideswiped it, knocking it off the pavement. The impact turned the Henderson car completely around and it traveled about 100 yards west.

Henderson is a painter and Abila is employed at Dents' Farm Supply.

## New Officers Installed For Band Parents

New officers for the Springlake school Band Parents club took office in a meeting Monday night at the school. New president is G. C. Green. Other new officers are J. B. Williams, vice-president; Mrs. E. O. Tunnell, secretary and Mrs. B. Campbell, treasurer. Officers were elected last May.

Elected Monday night were M. W. Messer, finance chairman, and Paul Woods, reporter.

In the business session the group voted to buy a new drum major's hat and to continue the \$1.00 per month fee to each member or \$18 dues for a couple for a year.

Twenty-five members were present. The club meets the second Monday of each month. All parents of A and B band members are urged to attend the meetings.

Out going officers are E. O. Tunnell, president; Mrs. Bud Jones, secretary; and G. C. Green, reporter. Mrs. Campbell was re-elected treasurer.

## Attend Meeting Of Postmasters In Lubbock Saturday

Mr. and Mrs. Marshall Kelly of Earth were among postmasters and their wives from this area who attended the meeting Saturday in Lubbock at Clapp Party House of the Association of Postmasters and Supervisors from the 19th Congressional District.

A business session and election of officers was held during the afternoon at which time Rex Hudson, Levelland, Postmaster, was elected president of the Association.

A barbecue was held later in the evening, at which the wives of the members were guests.

After the barbecue W. B. Weatherford, of Amarillo, District Manager of Regional Operations of the Post Office Department, addressed the group.

## Lorena McNamara Opens Beauty Shop

The Springlake Beauty Salon opened Wednesday under the management of Lorena McNamara.

Doris Barrows of Springlake won the first opening day prize which was a \$15 cold wave. Mrs. W. C. White, of Springlake, was awarded the second prize, a four B's. hair curl.

Third prize, a shampoo and set, went to Mrs. Glen McGeath, also of Springlake.

## Largest Grain Crop In History Being Harvested

What may be the largest grain sorghum harvest in history is getting underway around Earth and Springlake this week. Earth Grain Co. Manager Carrol Blackwell says the grain is pouring into his elevator at the rate of 700,000 to 1,000,000 pounds per day.

## Blair Is Slightly Improved

E. T. Blair of Earth, who is a patient in the Plainview hospital with encephalitis, is reported to be slightly improved.

Blair is the second person to contract the sleeping sickness disease in this area.

## City Shoe Shop To Move Sunday

The City Shoe Shop is scheduled to move into the new building owned by C. O. Taylor and located on West Main Sunday.

As soon as partitions are rearranged in the building now occupied by the shoe shop, the Earth News will be moved into that building.

And it is only the beginning. Most farmers are not beginning to harvest for another two weeks. The danger of having it rejected for a government loan because of more than 12 percent moisture content is causing everyone to make sure his grain is all well matured before he sends the combines into it.

Grain acreage this year is estimated at less than 1250 but more than any year since then. 1950 was the last year before 1954 that cotton acreage quotas were in effect and they were more drastic then. The reason some people think this year's crop may top 1950 even with fewer acres is that there is more irrigation and more fertilization now. Neatly everyone is estimating an average of 2000 pounds per acre, with a few heavily fertilized tracts going as high as 5000 pounds. Dry land feed is making from nothing to nearly 4000 pounds per acre.

Most farmers are either selling their grain in the elevator or getting government loan on it. At present that loan value amounts to about \$2.03 per hundredweight.

The elevators at Earth and Springlake hope to be able to handle about all the grain produced in the area this year. They are trucking it out to California as fast as they can sell the grain they have bought for themselves. And the Earth Grain Co., has expanded its storage space this summer from 50 freight cars to 230 cars.

Asked if being off the railroad hampers his operations much, Blackwell said he honestly could not tell the difference, that it is as easy to ship by truck as by rail these days.

## Faggart Opens Dry Goods Store At Springlake

W. Faggart recently opened a new dry goods store at Springlake.

Faggart formerly owned a dry goods store in Earth several years ago. Then he returned to Lockney where he has owned and operated a dry goods store for the past 20 years and which he still owns.

J. H. Jones will manage the store in Springlake.

## Vogts Move Into Curry Residence

Harry Vogt, Southwestern Public Service's new manager for Earth and Springlake, moved his family to Earth Friday. They are living in the former Homer Curry residence.

The Vogts came here from Clovis, but have been living in Littlefield since school started and

these two communities and will do his own trouble shooting, meter reading, and new installations. Until his telephone is installed Vogt can be contacted by either driving by his home, or phoning the collection office.

The Vogts came to the South Plains from Okemah, Oklahoma. He is the only man servicing

## Enrollment Is Still Increasing

Enrollment in the Springlake schools increased another 28 this week, 20 in the grade school and 8 in the colored school. This brings total enrollment figures to 730, plus 22 in the separate school

## Bonnie Haberer Typifies West Texas With Her Friendliness and Versatility

By Mrs. Ralph Douglas

When one meets Mrs. Bonnie Haberer there is no wondering if she is really "glad to know you." Her hearty handshake is as full of welcome as all of West Texas. And that is just what she typifies. A tall, vital woman who radiates friendliness and a lively interest in the happenings around her, Mrs. Haberer readily admits her Scotch-Irish ancestry, saying "I even have the red hair."

Most important of all to her, Mrs. Haberer quickly says she is a grandmother and then tells of her two sons, Russell and Ted Haberer, both married and living in the Earth area. Both her sons were reared in the same section and attended school at Springlake School.

Since the accidental death of her husband, Herman R. Haberer, in 1950, Mrs. Haberer lives a busy life. She explains that she had just been elected first president of Town and Country Study Club at Earth, after helping to organize the club, when her husband was killed and that she was "glad" to continue working in the club, that she needed it to fill the emptiness after thirty years of marriage to her husband.

Six months later, in addition to her cotton farming activities north of Earth, she started her herd of registered Aberdeen-Angus cattle "to fill time and space." She named her ranch the Bonnie Black Gold Ranch and is an active member of the Texas, New Mexico and National Aberdeen-Angus Associations. Mrs. Haberer takes pride in the fact that when she is exhibiting her prize stock she does her own "feeding and fitting." To those who do not understand what "fitting" cattle means, she explains this is the grooming, training the animal to lead, and all the details that makes for good exhibiting.

Bonnie Haberer (Photo by Taylor Studio) Mrs. Haberer takes an active part in Farm Bureau at Pleasant Valley, her "pride and joy," and says she is what might be called a "chronic member" of Red Cross works. She attends the Baptist church at Earth regularly although

she is not a member. She is a member of the Christian church and says she has never lived where there was such a church, so she always goes to some other.

Mrs. Haberer was a member of Parent-Teacher work in Springlake school for fifteen years and says she is "the very proud possessor" of a Life Membership, which is only given in appreciation for years of service to the organization.

She is at present serving as Chairman of Conservation of the Seventh District of Federated Women's Clubs.

Her wonderful sense of humor and ability to laugh at herself illuminated the years as she recounted early days in the pioneer West. Mrs. Haberer was born Bonnie Angeley (and even has a funny story about her name) and attended high school at Olney. It was also at Olney and Seymour that she attended "normal school," which she explained was made up by taking the best teachers in two or three counties and making up a "summer normal" where prospective teachers were trained.

In 1918 Bonnie Angeley came to West Texas to teach near Hereford. She said she "had always thought the most romantic thing would be to live where there was lots of snow" and that she was inflated one winter there, in a way she never forgot. The snow came that winter in November and stayed on the ground until March, with a death of fourteen inches one time. When she went home for Christmas holidays, the man in whose home she boarded decided to take the railroad train in a "spring board." The intense cold together with the long hours of sitting with her feet hanging without support from the high seat of the wagon, froze her heels. When she returned to her school it was necessary to wear shoes with the heels cut out. She walked a mile and a half each morning through the cold, to her school in time to build a fire in a "jacketed" stove so the building would be

warm for the school children when they arrived.

In 1920 Bonnie Angeley was married to Herman Haberer and moved to the Big Square community, where Springlake school now stands. They took their "honeymoon" in a Model T, the very latest wrinkle.

Haberer had moved to this area in 1910, before there was an Earth. If one wanted to go anywhere, Mrs. Haberer said, they just headed in the general direction to them. At the Pioneer's Reunion in Littlefield, Mrs. Haberer was rated the "oldest" pioneer in this section in point of residence. She was appointed a director of Lamb County Pioneer Reunion Association.

Mrs. Haberer is busy every day and lives a full life. She has always been busy at something. She told of one summer when her husband had an eight-drop shearing plant mounted on an old Ford truck and went all around the country northwest of Hereford, shearing sheep for farmers. She accompanied him to "cook for hands."

Today Mrs. Haberer works with her prized cattle and takes pleasure in a glistering coat, or in her new den added to her home where she displays trophies won. Besides her civic duties, and business, she finds time for growing beautiful iris, church activities, and club work, which must add up to a most satisfying life.

## Growing in Love

Lesson for September 19, 1954

A great deal is said about "love" but not enough has been done about it. Jesus taught that Christians must love even their enemies. He and his great apostles Paul and John had much to say about love and forgiveness. Paul would hardly have given the warnings he gave against quarreling and strife if he had not thought that Christians need these warnings. Few words are used oftener in Christian sermons than "love"; few are more misunderstood. Few ideals are held up oftener by the church; few are violated more often by church members. Love is a clouded theme; some questions may help to clear it up.

### Christian Love

The first question is: What is the difference between Christian love and what usually goes by that name? It should be plain to any one who can read the Bible that when Paul and John and Jesus speak of "love" and urge it as a duty of all of us, they are not thinking of romantic love as between men and women. That is a good, important, happy and sweet kind of love. No life is fully complete without it; but Christian love is a wider thing. All kinds of love except Christian love have limits. You love your family, your country, your friends, people you know and like. Jesus asks us to love even our enemies. A circle of love that will take in enemies must be something extraordinary, and so it is. Ordinary love, then, has limits small or wide; Christian love knows no limits. Again, ordinary love is possessive; it wants the loved one for itself. Christian love is self-giving. Ordinary love is strictly human and can be found in those who do not know God.

Christian love is divine; it is not only like God's love but is found only in the lives of those who have been touched by God's Spirit. Ordinary love is given to the lovable; the divine kind of love, the Christian kind.

### Loving and Liking

Another question is: How can we love those we do not like? And can we like everybody? A clue to the answer is found in what we know of the love of God. Jesus very clearly suggests that we are to be Godlike in our love; indeed our highest Christian growth comes right here, because when we are most truly filled with this kind of love we are most like God. But it is plain that God does not like every one he loves. We read that God loved us "while we were yet sinners." If we could say that God likes murderers, adulterers, traitors, thieves, foul-mouthed and cruel men, we should have to say that God shows very poor taste. But we are nowhere told that God likes sinners, that is to say that he enjoys their company, enjoys what they do and say. Far from it. If he liked them he would never change them. It is written, "Whom the Lord loveth he chasteneth" but it is just as true to say, "Whom the Lord loveth he changeth." Love, in the Christian, God-like meaning, is concern for the true welfare of the loved one. A father may love his son (and God does love his sons), even when he thoroughly disapproves what the son is doing. So we are not expected to like everybody, regardless; that would be rather silly. But as Christians we are expected to have concern for the true welfare of every one.

### Can Love Be Perfect?

A third question is: Can our love ever be perfect? Here Christians differ in their understanding of what Jesus and Paul and John taught, and of what is possible for us. All Christians agree that only one life expressing perfect love, from beginning to end, has ever been seen—the life of our Lord. Some Christians believe that it is possible, sometimes, to act from a motive of unadulterated, unalloyed, unreserved, unqualified Christian love. Other Christians believe that this is never possible for a human being, even a Spirit-blessed Christian. Two things are certain at this point. One is that even if the motive is sometimes absolutely pure, human knowledge is never perfect, our concern may be completely selfless, but not completely wise. The other certainly is that even if the motive is never absolutely pure, nevertheless perfection is always the high goal.

### Weekly Cotton Market Review

Spot cotton prices fluctuated moderately this week, according to the Department of Agriculture. The week's principal market factor was the September cotton crop forecast which was somewhat below general trade expectations. Reported sales increased sharply in the fourteen markets. Harvesting continued to make rapid progress and most farmers were offering current ginnings freely. The volume of cotton ginned prior to September 1 this season was the sixth largest for this period on record. Early ginnings averaged slightly lower in grade and shorter in staple than a year earlier.

Prices for Middling 15-16" cotton averaged 34.07 cents per pound in the fourteen spot markets on Thursday, September 9. This compares with 34.17 cents a week earlier. On the corresponding date a year ago, the ten-market average price for Middling 15-16" was 32.88 cents. Prices rose moderately on Wednesday, September 8, following the release of the cotton crop forecast. On that date, Middling 15-16" advanced about \$1.10 per bale in the fourteen markets. In futures markets, prices for October 1954 futures advanced to the highest level in the history of the contract.

Reported sales in the fourteen markets totaled 244,100 bales compared with 176,200 bales in the preceding week. Farmers in most areas continued to sell current ginnings rather freely. There was a good demand for medium and higher qualities in country markets. Strict Low Middling and higher grades stapling 1" through 1 3/32" were in best demand. Shorter staple cotton which comprised a fairly sizeable proportion of current offerings in some areas was not selling well. Farmers placed more cotton in the Government loan but the volume was light in relation to ginnings. Net loan entries reported in the week ended September 7 totaled 21,400 bales against 9,200 a week earlier. Net entries for the season through September 3 were 34,600 bales compared with last season's gross total to the same date of 79,900 bales. Some shippers were reported to be stocking cotton but most were reluctant to nav the high country basis being asked for the qualities in best demand. Shippers needing cotton to meet nearby commitments were active buyers in country markets. Domestic mill demand strengthened somewhat. Some mills were bidding at higher price levels but shippers' offerings were not large in volume. Mill buying continued active at gin points in the southwestern area. Demand from foreign sources increased. Some cotton was sold for deferred shipment for sales for export consisted mostly of numerous small lots for nearby shipment.

The September cotton crop forecast of 11,832,000 bales of 500 pound gross weight was 848,000 bales smaller than the August 1 forecast and 4,633,000 bales smaller than last season's crop. The indicated yield per acre of 295 pounds is 29 pounds below last year's record high yield. The 1954 acreage for harvest is indicated at 19,285,000 acres, or about 21 percent less than last year. Production of American-Egyptian cotton this season is forecast at 27,600 bales against 22,147,000 a year ago. On the basis of the indicated crop the 1954-55 supply of cotton in the United States would be about 21,400,000 bales. This compares with last season's supply of 22,147,000 bales and the 1953-54 supply of 24,420,000 bales.

HERE ARE A few of the Earth Lions Club members as they manned the location for the "Texas Blind Shops Carnival" last Tuesday downtown. Above are Doug Messer, young son of Lion Messer, Delma McCarty, Lions Club president, a Prospective customer, Mr. Collins, and Lion Marshall Kelley. Products sold were brooms, floor mats etc. (Staff Photo)

### Lions Earn Money For Handicapped

The Earth Lions club broom sale Tuesday grossed \$214. Of this \$183 went to the Texas Blind Steps. The club's share was \$31.

This goes into the Lions' fund for handicapped children in the area. Most of it will probably be used to buy glasses for children who need them but whose parents are unable to buy them.

The plan to canvass every home was abandoned for lack of sufficient workers. All these sales were made on Main Street by Marshall Kelley, Marcus Messer and Delma McCarty.

average of 18,365,000 bales.

Cotton ginned prior to September this season totaled 1,094,000 bales compared with 1,166,000 bales to the corresponding date years ago, according to the Bureau of the Census. Harvesting made rapid progress in most southern parts of the belt and ginnings to the end of August were equivalent to 14 percent of the indicated 1954-55 production. Early ginnings contained a slightly smaller proportion of Middling and higher grades and proportionately more Strict Low Middling than a year earlier. Lower White grades comprised about the same proportion of total ginnings as a year ago but there was some increase in the proportion of Spotted and Gray cotton. The staple distribution of ginnings indicates that the proportion of cotton stapling 29-32" and shorter in ginnings prior to September 1 this season was the highest for this period since the 1951-52 season. The proportion of the lengths 15-16" through 1" in ginnings through August 31 was well above that of a year earlier, while most lengths 1 1/32" and longer comprised much smaller proportions of total ginnings.

Mr. J. B. Inellis and Mr. and Mrs. Vance Estes of Circle left Friday to visit friends in their former home town of Grand Saline. They returned Monday.

Mr. Gerald Inellis and Mrs. W. R. Stockard were in Lubbock on a business trip, Wednesday.

### Party Line..

Mr. and Mrs. Glen D. Taylor and family of Lovington, N. M., spent Saturday night and Sunday visiting Mr. and Mrs. C. O. Taylor and family of Earth. The Taylors are brothers.

Mr. and Mrs. Jack L. Hinson spent the week visiting their son and wife, Private and Mrs. Kenneth Hinson of El Paso. Kenneth is stationed at Ft. Bliss.

Mr. and Mrs. Clyde Goodwin and Mr. and Mrs. C. C. Goodwin and sons, Jimmie and Craig, left Thursday to visit Mrs. Clyde Goodwin's mother, Mrs. T. W. Rutherford, at Sweetwater, Okla. They plan to stay four or five days.

W. R. Stockard and Mr. and Mrs. J. C. Armstrong made a business trip to Amarillo Wednesday.

La Rue Ormand returned home this week from a purchasing trip to Dallas where she attended the Fall Gift showing of Jewelry. She was accompanied by her sister and husband Mr. and Mrs. E. C. Minyard of Sudan.

### Spotlight Bible In Program For WMS Tuesday

A spotlight shone on a Bible as the hymn "Lift Up Thine Eyes," was played on a record player for the highlight of the W. M. S. meeting at the church Tuesday.

The devotional was given by Mrs. Cecil Meadows. Mrs. Dora Terry discussed the Mexican mission work. The Mexican Baptist academy in Brownsville was discussed by Mrs. Travis Jness.

The meeting closed with prayer after an offering was taken for the Mary Hite Davis foreign missionary fund. Eleven members were present.

Bill Beasley and Paul Wood made a business trip to Dallas Tuesday. They are expected home Saturday.

Mr. and Mrs. Gerald Inellis, Mrs. J. B. Inellis and daughter, Mollie, spent Sunday visiting in the James Martin home at Seagraves.

### Ladies Bridge Club Has First Meeting Sept. 8

The Ladies Bridge club was organized Wednesday, Sept. 8, and met for their first meeting that afternoon in the home of Mrs. James Mullis.

One table of bridge was in play. Refreshments of pineapple sherbet, chocolate cake, coffee and cakes were served to Mrs. Ted Haberer, Mrs. Bob Armstrong, Mrs. Ardis Barton and Mrs. Bill McBryde.

### Concussion Ends Football Career

LUBBOCK, Sept. 13 — Elmer Wilson Texas Tech's popular little halfback from Pampa, will play no more football.

After Wilson suffered a concussion in practice last week, doctors ruled that to prevent further injury he must give up the game.

The 5 foot 4 sprinter made a hit with the fans the first time he got his hands on the ball, racing

back a punt 80 yards against the Texas State in 1951. He lettered three years in football and last season in baseball.

Wilson's scholarship continues to effect, and he'll keep up with the Red Raiders as a spotter for the Humble Oil and Refining Company broadcasters.

Mr. and Mrs. Bert Maze of Lubbock spent the week end with their parents, Mr. and Mrs. H. H. Maze.

### PAUL'S RECIPE OF THE WEEK

By Mary Lee Taylor

#### Savory Pork Steaks

- 1 lb. con green beans
- 2 Tablespoons flour
- 1 teaspoon salt
- 1 teaspoon paprika
- 1/2 teaspoon pepper
- 4 slices pork shoulder, 1/2-in. thick (1 lb.)
- 1/2 cup Fat evaporated Milk hot fat
- 2 Tablespoons hot fat
- 1 cup sliced onion

Drain beans and save liquid. There should be 1 cup. If not, add water. Mix flour, salt, paprika and pepper on a piece of paper. Pound flour mixture into both sides of meat with edge of a small plate or saucer. Mix with the milk any flour that is left from pounding meat. Let stand. Brown meat slowly on both sides in hot fat in a skillet. Drain off all fat. Add onion and the 1 cup bean liquid. Cover and cook over medium heat about 45 minutes, or until meat is tender. Put meat on a warm platter. Stir milk mixture and beans into liquid in skillet. Heat slowly 10 minutes. Serve hot with the pork steaks. Makes 4 servings.
