Hall Farmers To Receive Hopper Poisons Free

WPA Will Supply Men to
Mix Poisons; Road Sides and
Creeks Will Be Poisoned

Arrangements are being made to supply Hall County farmers with grass hopper poison free of charge, according to W. B. Hooser, county agent, who states that a car load of bran and a car load of saw-dust are en route to Memphis at present to be used as the base with which the poison, sodium arsenite, is mixed.

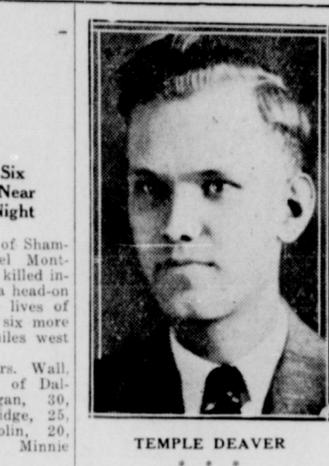

The proportion in which the poison is mixed is 1 part of bran to 3 parts of saw-dust and each 400 pounds of dry ingredients will be mixed with two gallons of the sodium arsenite. Distribution of this free poison will begin when the expected material arrives. It will be distributed from three points, one in Memphis, one in Estelline, and one in Turkey. A fourth distribution point, at Lakeview, may be established if the demand is sufficient, Mr. Hooser explained. Farmers are required to bring their own sack when securing poison. The station in Memphis is located one door west of the Miller & Miller freight depot on Noel street.

TEMPLE DEAVER

Deaver Is Named Treasurer of Bankers Group

Panhandle Association Has
One-Day Meet at Amarillo
Tuesday, Inflation Discussed

Temple Deaver, vice president of the First National Bank, was named treasurer of the Panhandle Bankers Association at the annual convention held Tuesday in Amarillo.

The meeting was the association's thirty-seventh annual convention and the key-note of the entire conclave was the bankers' expression of confidence in the future of the nation, come what may in these troublous times. Registrations ran into the hundreds as bankers from all portions of the Panhandle area poured into Amarillo's Herring Hotel for the one-day meeting.

Wants to Change Name of Streets As Well as Town

Along with the movement recently brought to light in the press to change the name of Memphis, Texas, to some name that will conflict less with Memphis, Tenn., one Memphisian suggests that some of the local streets be renamed too. He suggests that Noel Street be changed to Noel River, Main be known as Tenth Creek, Main as Main Canal, and seventh as Seventh Rapids.

Reunion Plans Nearing Completion This Week

BOOSTERS TO GO
TO HEDLEY NEXT

Good Crowds Are Making
Evening Booster Trips to
Surrounding Communities

The third of a series of booster trips advertising the Old Settlers Rodeo and Reunion will be held Friday night when a caravan of Memphians in full cowboy regalia will invade Hedley for an evening of gaiety and festivity.

The party will leave Memphis from the City Hall at 7:30 o'clock, it was announced, and all citizens are urged to join in and pay a friendly visit to Hedley.

Friday night of last week the boosters went to Lakeview for the first of these evening trips. The program for the evening was presented from a trailer with Carroll Snyers, secretary-manager of the Memphis Chamber of Commerce, as master of ceremonies. Otis F. Jones, chamber of commerce president, gave the invitation to attend the celebration June 17-18 and Mack Graham, and his Cowboy Rustler Band; and Gordon and Edwin Gilliam played instrumental music in typical cowboy fashion, and Othmer Curry sang cowboy songs. T. D. Weatherly and Chas. Williams, rodeo committeemen, spoke in behalf of the rodeo.

Mrs. Davenport, secretary of the Old Settlers Association and long-time resident of Lakeview, responded to the invitation and assured the visitors of Lakeview's cooperation in the celebration. Dorothy Bragg, contestant in the "Queen of the West" contest, told of the drive being made to raise funds through the sale of rodeo buttons.

About 20 cars of Memphis people were in the caravan that made the trip to Lakeview.

At Estelline Tuesday night W. C. Davis, superintendent of the Memphis schools, was master of ceremonies and a similar musical program was presented featuring Mack Graham, the Gilliam Brothers and Othmer Curry. T. D. Weatherly, chairman of the rodeo committee spoke briefly, telling plans made in regard to the four rodeo performances scheduled for the two-day celebration. H. D. Delaney extended the invitation to attend the celebration.

Those attending the convention from Hall County were T. E. Noel, O. L. Helm, Mr. and Mrs. Elmo Whaley, Henderson Smith, Guthrie Bennett, J. M. Duren, B. E. Davenport, and Mr. and Mrs. Temple Deaver.

Memphis Fire Boys Given Instructions

Chief Frank Williams, instructor in the Fireman's Training School conducted by A. and M. College, met with the Memphis Fire Department at the city hall last night for the purpose of demonstration and explanation of the phases of the short course lessons put out by the school.

Each year the City of Memphis sends representatives of the local fire department to the short course at A. and M., which course is designed to be of assistance to the various cities and towns of Texas. Chief Williams makes periodic visits to Memphis, and the fire boys profit much from his instructions, it was pointed out.

RECREATION PROGRAM FINDING FAVOR WITH MEMPHIS PEOPLE

BY MRS. ROY GUTHRIE

According to reports nothing could be counted a greater success than the community recreation program which began in Memphis Monday morning May 25. Since that time each Monday through Friday programs of entertainment and culture and physical development have been held for three hours in the afternoon for the children and youth of the vicinity.

On Monday, Tuesday, and Thursday evenings from 8 to 10 o'clock programs are offered for the adults. On Monday evening games are played in the gymnasium; on Tuesday evening there is community singing in the band house. On last Tuesday evening several special numbers, quartets, duets, and choruses were rendered. Musicians from Plaska and Lakeview helped at the last meeting.

invited to arrange their squares before they come and they may dance any figure that they wish. All participants are urged to arrange for their partners and, if possible, their squares before coming. Single participants are cordially invited. One three or four nights of each week soft ball, tennis, and croquet are played on the brightly lighted campus.

During the first week of the program more than six thousand leisure hours were spent in the center; about one-third of which were spent by boys; more than one-sixth by girls in actual participation in games. Men and women added less percentage, while spectators marked up more than one-third of the total.

The recreation center is being operated by the Work Projects Administration under the sponsorship of the Memphis Public Schools. (Continued on page 4)

New Prizes Are
Added To Rodeo
List This Week

Several new prizes have been added to the list offered for participation in events during the Old Settlers Reunion and Rodeo, according to announcement made by reunion officials this week.

In the relic division, with Mrs. H. D. Stringer chairman of a committee in charge, \$7.50 will be offered as first prize and \$5 as second for the best decorated window. The windows will be decorated by the various clubs of Memphis.

Prizes are being offered for the best rodeo and pioneer costume, \$5 being offered for first prize and \$2.50 for second. Mrs. W. J. Bragg is in charge of this division of the celebration.

In the parade the best decorated bicycle will receive a prize of \$3 and \$2 will be given the second place winner. The best business enterprise entry will be given \$7.50. W. V. Coursey is in charge of the parade.

Sponsor's Contest
Of Memphis Rodeo

Practice Sessions Have
Begun; Miss Thornberry
To Represent Clarendon

Initial practice for the local sponsors for the rodeo June 17-18 was held last Monday evening, according to Mrs. Murray Dodson, sponsor director, at the practice grounds south of the rodeo stadium.

Mrs. Dodson stated that the barrels had been set up and that practice sessions would be held regularly during this week and next. The sponsors' headquarters has been set up at the Memphis Hotel in the office formerly occupied by the Western Union.

Mrs. Dodson stated that the local sponsors' regalia had been ordered and would probably be received in Memphis the forepart of next week. This year's regalia consists of the conventional levis, red satin shirts, white ties, and belts.

In addition to the nine girls entering the sponsors' contest announced last week, the following six entries have been listed with Mrs. Dodson, bringing the total to 15: Barbara Bell, riding for the (Continued on page 4)

Russell Goes to
DeKalb Last Week

W. B. Russell has resigned his position as secretary-treasurer of the Memphis Production Credit Association to accept a position as president of the DeKalb State Bank at DeKalb. He left here Friday, going by Decatur for his family and for a short visit, and assumed his duties as president of the bank Monday, June 2.

Mr. and Mrs. Russell and daughter, Margaret, have made their home here for some three years.

FAMED HORSES
IN RODEO SHOW

Gulf Sound Equipment and
"Red" Waldon, Announcer,
To Be at This Year's Fete

Plans for the rodeo to be held June 17-18 in connection with the Old Settlers Reunion here are taking definite shape, according to a statement made this week by members of the rodeo committee.

Word has been received that "Toots" (Betisell) Brown, the woman bronc rider who starred in last year's performance, will be on this year's program. Mrs. Brown sent word that rodeo horses didn't come too tough for her to tackle and that she was ready to give the crowds at the Memphis rodeo a real performance, it was stated.

In contracting for Lyons' rodeo stock of Byars, several famous bucking were included in the list of stock to be brought to Memphis for the four rodeo performances. Notable among these horses are "Amarillo Boy," "Honest John," "Red Whiskey," and the one and only "Hitler," the killer of the rodeo arena. A new Brahma steer has been added to the stock, it was announced, one that has never been ridden. Cowboys appearing in the Memphis rodeo June 17-18 will have an opportunity to attempt to ride this steer.

Announcement was made this morning that the services of Winks Adams and his trained horse "Dago" have been secured to perform at each of the four rodeo shows June 17-18. This spectacular act was a feature of last year's rodeo show, it will be remembered.

The Gulf sound equipment that has been used at the last two rodeos in Memphis will be here for this year's show with the same (Continued on page 4)

May Rainfall Is Heaviest Ever Recorded Here

Records Back to '07 Reveal
May as Wettest Month; 1.45
Inches Falls Thursday A.M.

Rainfall this morning amounted to 1.46 inches between 7:30 and 12 o'clock, according to J. J. McMickin, local weather observer, bringing the total for the first five days of June to 3.69 inches. Rainfall reported since last publication has been 4 inches, Mr. McMickin stated, with a total of 19.50 to date.

Mr. McMickin's records revealed that in January .55 inches of rain fell, February 1.83, March 1.27, April 3.42, and May 9.03.

This 9.03 rainfall for the month of May is the highest recorded rainfall for any one month for the past 34 years, the records available to The Democrat going back only until 1907.

For the past 17 years the rainfall for the month of May has been: 1925—4.79; 1926—2.80; 1927—1.52; 1928—7.13; 1929—4.30; 1930—2.53; 1931—0.59; 1932—4.68; 1933—none; 1934—6.50; 1935—7.20; 1936—none; 1937—3.90; 1938—none; 1939—4.30; 1940—0.88; 1941—9.03.

Annie Ruth Thompson Becomes Bride of A. R. King May 31

Miss Annie Ruth Thompson, daughter of Mr. and Mrs. E. P. Thompson of Memphis, became the bride of A. R. King, son of Mr. and Mrs. A. H. King of Gypsum, Kans., Saturday evening at 8:30 at the Memphis Hotel.

The nuptial vows were spoken by Rev. S. F. Martin, pastor of the First Baptist Church, before only members of the family and intimate friends of the couple. Two large white baskets of pink double larkspur placed before double windows draped with ivy formed an improvised altar.

A reception was held after the ceremony. The bride's table was laid with lace and ornamented with pink roses, from which the three-tiered wedding cake was served.

Mrs. King is a graduate of Memphis High School and Plainview Nurses School. This year she was elected the most popular and the most professional student in the school.

Mr. King is a graduate of Gypsum High School, Dague Business University of Wichita, Kans., and William Institute of Embalming in Kansas City, Mo.

After a wedding trip to Kansas and Colorado, the couple will be at home in Plainview where Mr. King is employed with the Woods Funeral Home.

Out of town guests for the wedding included Mr. and Mrs. James Boney of Plainview, Mr. and Mrs. John Schropshire of Plainview, Mrs. Hugh Franks of Dalhart, and Miss Irene Paschall of Plainview.

Gayle Cayce Weds Denton Girl in Sunday Ceremony

The nuptial service uniting Miss Bonnie Mae Ramsey of Denton and Gayle Cayce of Memphis in marriage was performed last Sunday in Denton by the Rev. Frank Weedon, pastor of the First Baptist Church of that city, who performed the ring ceremony.

The bride was a student in NTSTC at Denton at the time of her wedding, and was given in marriage by her roommate, Miss Leola Snell. A dusty red redingote with white accessories made up the bride's wedding ensemble.

The rites were read in the presence of a few friends of the bride and groom. Mr. Cayce, who is employed by the West Texas Utilities Company in Memphis, is a former student of John Tarleton College in Stephenville and McMurry College in Abilene.

Mr. and Mrs. Cayce will make their home in Memphis at the Roberts apartments.

Baptist W.M.U. Has Missionary, Social Meeting

The W.M.U. of the First Baptist Church met Monday afternoon for the regular missionary and social program.

Current Book Review Club Has Patriotic Tea and Book Review

The Current Book Review Club brought to a close their spring meetings by entertaining with a patriotic tea on May 28, at 3 o'clock at the American Legion Hall with Mesdames R. C. Walker, A. Anisman, and Seth Palmeyer as acting hostesses.

The hall was beautifully decorated with flags and cut flowers in the chosen colors of red, white, and blue.

The guests were received by the officers of the club and members of the social committee. Favors of miniature fans concealing an open book were presented to each guest as they arrived.

The program for the afternoon opened with the flag salute led by Mrs. Winfred Wilson. Following this, members and guests sang "America." Mrs. D. J. Morgensen, president, welcomed the guests and introduced the reviewer, Mrs. R. C. Holland.

Mrs. Holland gave a moving review of the book "This Above All," a novel by Eric Knight about England today. This novel is a phenomenon of the crisis of England. Bristling with timeliness, it was a novel of a British soldier today and of Britain under the bombs. The story is hedged by its crisis, its span is that month in the fall of 1940 when war came to England out of the sky. "This Above All" is remarkably contrived not only as intense and stirring narrative but as a vehicle for probing some of the most vital of contemporary questions, questions with which youth everywhere is surely wrestling as desperately as did the characters of this novel.

During intermission Mrs. L. B. Madden and Mrs. Tom Draper were in charge of the music and presented Temple Deaver, Jack Miller, Bailey Gilmore, and Thomas Pyle in a clarinet quartet, accompanied by Miss Muffet Merrill, and followed by a saxophone solo by Thomas Pyle.

Tea was served to 180 guests and members of the club. The refreshments carried out the patriotic motif in colors of red, white and blue. The center table was decorated with balanced crystal scales, representing fiction and non-fiction. The tables on either side were identical with crystal appointments of candelabrum, crystal bowl in center of table with red, white, and blue, flowers. Small crystal boats with American and British flags completed the decoration.

Two Draft Calls Are Made in Texas

State Selective Service headquarters this week announced the Army's 16th and 17th calls on Texas' 351 local boards for 2,319 trainees to be delivered for induction during the period June 11 through June 19.

General J. Watt Page, state director, said that 214 Negroes have been selected to meet the 16th call on June 11, and on the 17th call 2,105 white men will be inducted between June 12 and June 19.

When these two calls have been completed, Texas will have 29,704 men in training under the Selective Service Act. Texas is credited with 825,429 men registered last October, and the quota assigned by the War Department for the first year of the program ending June 30 is approximately 33,213 trainees.

General Page said that Texas leads the nation in number of men furnished the armed forces. In addition to the 29,704 men called under Selective Service, Texas has more than 80,000 men—all volunteers—serving in the Army, Navy, Marine Corps, National Guard, and Coast Guard.

Mrs. May Bishop Says Hoyt's Has Restored Health

Mrs. May Bishop, 420 Patterson, Wichita Falls, Texas, states:

MRS. MAY BISHOP

"I want to thank Hoyt's Compound for the relief I have received from it. I have been in a nervous, run-down condition for the past four years, suffering from indigestion, gas, bloating, nervous headaches after meals, and aches and pains in my neck, back, and arms. I was also very constipated.

"I read about Hoyt's Compound in the paper, and I tried it. It gave me wonderful results. The pains, headaches, gas, belching, and bloating are gone, and my bowels are regular. I hope others may find the same relief, for Hoyt's has been a blessing!"

Hoyt's Compound is recommended and sold by the Tarver's Pharmacy, and by all other druggists in this area.

Cemetery Working Club Work to Be Set for June 13

Announcement has been made this week of an all-day cemetery working at the Fairview Cemetery on Friday, June 13. Those who have lots in the cemetery or are interested in the beautification of Fairview are urged to bring their shovels, hoes, rakes, and other implements and put in a day's work toward cleaning up the grass and weeds that have grown rank since the recent rains, the announcement stated.

Although no definite plans have been announced, if those attending this working desire, they may bring their lunch and stay all day. Those who work are urged to clear the rubbish off the lots and remove it from the cemetery and not pile it on other lots, it was pointed out.

It was further stated that those who want their lots clean and cannot attend in person may hire someone to do the work for them or make donations so that someone can be hired. People who live away from Memphis and would like to have their lots cleaned are urged to send money to H. B. Estes, secretary of the cemetery association, who will take care of the matter for them.

It was pointed out that the cemetery has fallen into a bad state of repair since the recent rains have promoted the growth of weeds and grass and numerous graves have fallen in. During the American Legion service last Friday it was difficult to locate graves in the tall grass and weeds, it was stated.

on behalf of the Memphis people. J. D. Ballard, long time resident of Estelline, responded to the invitation. Mrs. Roy Fultz spoke in behalf of the regalia committee, urging cooperation in this phase of the celebration. Wendell Harrison spoke on the rodeo prizes and Mrs. Sid Baker told of the part the old settlers would play in the celebration. About 20 cars of Memphians made the trip to Estelline.

Club Work to Be Carried on Here

Work in the 15 4-H clubs in Hall County will be carried on during the summer in individual projects, W. B. Hooser, Hall County agent, stated this week. These clubs have been meeting every 1st and 3rd week of each month, Mr. Hooser pointed out, but during the summer months these meetings will not be held.

Individual projects of 4-H club members will be given regular inspections and the work will be carried on much the same as though the regular club sessions were being held, Mr. Hooser said.

and all people of Memphis and its trade territory of all ages, from pre-school up, are urged to attend the programs.

It has been pointed out that in addition to the pleasure and relaxation that the program is affording to the citizenship of Memphis, by the time it gets under full way, it will provide a thousand-dollar-a-month pay-roll, much of which will be spent with Memphis merchants.

popular announcer, "Red" Waldon, at the microphone. One of the features of this year's rodeo performance will be a square dance on horseback. Riders who are to participate in this event, which will open each rodeo performance, are practicing daily so as to have their routine perfected in time for the celebration. Jess Dennis is in charge of this phase of the show and will direct the unique square dance.

An additional prize of a \$12.50 pair of bronc riding spurs was announced Thursday morning by the rodeo committee for the best calf roping time in any one of the four rodeo performances June 17-18 for local riders. In order to participate in this special contest the contestant must live in Hall County or within twenty miles of Memphis in adjoining counties.

The Will Rogers Range Riders of Amarillo, made up of 25 or 30 horsemen will be in Memphis for the two-day celebration and ride in the parade. They will bring a sponsor with them for the out-of-town sponsors contest.

According to Mrs. W. J. Bragg, chairman of the regalia committee for women, a meeting of the group was held Wednesday afternoon with the presidents of the Memphis clubs. The club pledged their support to the plans of the regalia committee it was reported.

The committee in charge of securing pledges to underwrite the rodeo has completed its work this week and reports that approximately \$1,200 has been subscribed to this fund. Workers on this committee include Tomie M. Potts, Roy R. Fultz, Jess Rosenwasser, Temple Deaver, H. D. Delaney, Ernest McMurry, Byron Baldwin, and Allen Dunbar.

wide will be placed on a 24 foot width gravel base. The new pavement will be 4 feet wider than the present paving. The safety and comfort of this added width and improved alignment will be especially felt by motorists when passing other vehicles, Mr. Bailey pointed out.

Highway 287 is a part of the military highway system designed by the war department and the improvements meet all military requirements and specifications. The project was authorized in keeping with the highway department's policy of concentrating available funds on the military system.

Comments

(Continued from page 1)

have an opportunity to experience just such an event Friday the 13th in Fairview Cemetery, when an all-day working will take place.

Bring tools, and stay all day, work your own lots and help clean lots of others who are not present. Let's make our cemetery look like a burial place—not like a neglected, run-down and forgotten location. If our loved ones could speak to us from their graves, do you think they would thank us for keeping their resting places looking presentable, or would they tell us that we have forgotten them?

One person this week remarked that she wants to run an advertisement in the lost column of The Democrat concerning Fairview. Another said: "I am ashamed of myself and my friends every time I visit the cemetery. It makes me sad and I can't keep from crying."

Just when the farmers were getting all set to plant crops, that big rain had to come this morning to set them back another week. There is plenty of time yet to plant, but some of the farmers are wondering how to get the weeks out of the way when the ground dries enough to plant.

Jobs Open CIVIL SERVICE

With the national defense program of the United States opening up large numbers of jobs of varied types almost daily, the Civil Service Commission is asking for applications, Glynn Thompson, local secretary of the board of examiners, has announced.

Here's a listing of a few of the jobs for which applications are now being taken (further information may be obtained from Thompson at the Memphis post office):

The Civil Service Commission has announced the need for men with experience in the operation, maintenance and repair of caterpillar tractors, gradlines or gasoline power shovels, adjustable blade road graders, power driven blade graders, gasoline road rollers or bulldozers, to fill vacancies in the position of Road Equipment Operator, \$1860 a year in the War Department, Quartermaster Corps, at various camps throughout the State of Texas.

Applications may be filed with the Manager, Tenth U. S. Civil Service District, Customhouse, New Orleans, Louisiana, until further notice. Copies of the announcement and application forms may be obtained from the Secretary, Board of U. S. Civil Service Examiners, at any first- or second-class post office in the State of Texas, or from the Manager, Tenth U. S. Civil Service District, Customhouse, New Orleans, Louisiana. Civil service examinations for the positions described below have

been announced by the U. S. Civil Service Commission. Applications will be accepted at the Commission's Washington office not later than the closing dates specified. The salaries are subject to the usual 3 1-2 per cent retirement deduction.

Landscape architect, various grades with salaries from \$2,000 to \$5,600 a year. Applicants must have completed a 4-year college course with major study in landscape architecture, engineering, or design. For the junior grade, a 4-year general college course plus the completion of the work leading to an advanced degree in the fields listed above or in city planning will be accepted. For all but junior grade professional experience in landscape architecture is required. Applications must be filed not later than June 26, 1941.

To fill the needs in various Government agencies for nurses for hospital and public health nursing, medical technicians, and laboratory workers, two new examinations in these fields and a revised type of examination for junior graduate nurse have been announced. They are:

Public health nursing consultant, \$2,600 and \$3,200 a year. Completion of a 4-year college course including or supplemented by at least 1 year of study in Public Health Nursing, graduation from an accredited school of nursing, and experience as public health nursing supervisor are required. SAFER TIRES

9.1% Stronger Cords after 5-million mile test

Back and forth, up and down, with every roll of your tires, the cords are constantly flexing... until sometimes they break because of flexing-fatigue.

There is one way to prevent or reduce this type of tire failure. That is to strengthen the cords, which is exactly what Lee has done!

After the famous 5-million mile Florida Road Test, Lee cords averaged 9.1 per cent stronger than the average of the other tire cords.

This extra safety... and extra miles, too... cost nothing extra in first-line Lee DeLuxe Tires. They sell for less than you guess!

Many Pick Lawson Little To Retain His Open Title

BY ART BRONSON

MANY golf experts pick Lawson Little to win again in the 1941 National Open Golf Championship. He holds a record unequalled in golf history. The National Open will be held on June 5, 6, and 7 at Fort Worth, Texas.

The burly Californian won the American and British amateur titles two years in a row, '34 and '35. Against the world's toughest amateur competition, he won 31 consecutive match-play contests.

Little won the National Open at Canterbury in Cleveland last year, defeating Gene Sarazen in a play-off. He shot a 70 to Sarazen's 73.

LITTLE presents a striking figure. He's 5 feet 10 and weighs about 200 pounds. He has black curly hair and a winning smile. He's 30 years old. His powerful swing has a rhythm and grace that's a pleasure to watch.

The Californian turned pro in 1936, having conquered the amateur field. By last year he had hit his full stride. He won the Los Angeles Open with a finishing round of 65.

Lawson Little

Little is one of the longest hitters in the game. On the putting green, too, he hits with deadly accuracy.

Golf experts think he has a good chance to repeat as National Open Champion this year. He's the man they're watching.

That Reminds Me

BY RALPH HERBERT

ARE you interested in "Life in America, in the spring of 1941"? Take a walk through any city park on a bright Sunday afternoon, and make your own observations.

You'll know there's a war going on. Not only do the trainees in army or navy uniforms stroll arm in arm with their girl friends, but the youngsters wear brilliantly colored suits, dresses, and capes in the military manner. Girls of high school age have taken to military styles for spring, complete with decorative insignia.

A few years ago, you saw an occasional camera, mostly of the box type, pointed at a particularly beautiful tree or a shy youngster. Now almost everyone has a camera in the park. They range all the way from tiny candid to big affairs mounted on tripods, and to movie cameras picturing scenes in full color. The park is heaven to amateur photographers on Sunday.

THE radio enthusiast doesn't intend to miss his favorite Sunday program just because he's going for a walk through tree-shaded lanes. He takes his portable radio with him, and doesn't miss a single news-cast.

A sign in the park says "This is your park. Peanuthulls scattered around do not improve its appearance." It's surprising how well the public responds to signs like these, and to the simply worded "please" on plots of grass reserved for beauty.

TO young mothers, parks are a great blessing. They proudly wheel their youngsters around the little lakes and through the gardens. Mothers need no introduction to each other to start a conversation about their babies. Each is interested in the age, crying ability, and behaviorisms of the other's offspring. Long-lasting friendships are easily formed.

You can't find an accurate picture of American life in the snobbish night clubs. You can see American democracy in the parks.

The Voice of The People

(Editor's note—this space is open to all readers of The Democrat for the purpose of expressing their opinions on any and all subjects. All signed letters will be printed here upon request, so long as they carry clear, unambiguous, material. The following should be considered the opinion of the writer, in no manner reflecting on the editorial policies of the news paper.)

A new Era began when the President of the United States of America closed the old era with a smashing blow of a speech, the evening of May 27, 1941, that left little doubt that old things have now passed away and new things are beginning.

This New Era, we hope, will be even a better one than that of the old American way. It began with the sun shining bright and a clear outline of duty. We MUST and we WILL face the fact that there is a lot of debris to clean up. It will take a lot of hard earnest workers, some of whom may get badly hurt, and naturally sometime will have elapsed before the clean up is complete. And after this a Bigger and Better World, with human understanding, a beginning of brotherly love which will be nurtured and tended by all men of all nations, and will rapidly grow, from which will come from men's hearts filled with the Divine Love.

Righteousness, health and happiness for all mankind.
Mrs. Dorsha B. Hancock.

CARD OF THANKS
We wish to express our sincere appreciation and gratitude to the many friends who made the sorrows of the passing of our mother so much lighter by your many deeds of kindness and expressions of sympathy. We shall long remember and love each of you for your real help, comfort, and love at this time when we needed you most.

MASONS TO MEET

Members of the A. F. and A. M. Lodge No. 729 are urged to be present at a called meeting to be held Monday night at 7:30 in the Masonic Hall in Memphis for the purpose of work in the first degree, according to an announcement made by Morgan Baker, worshipful master. Out-of-town visitors are expected to be present and two degrees are to be conferred, it was stated.

During the depression years of 1931-33 ten out of every 100 automobiles in the United States were forced off the highways because their owners could not afford to run them.

The Choice and Management of an Electric Range for the Farm

Health and health are enhanced when meals are cooked electrically.

By IRA MILLER
Electric Range Bureau

Correct management will result in properly-cooked foods with the minimum consumption of electricity. Five of the most effective means of saving electricity when cooking are:

1. Use the high wattage of a surface unit only to bring foods to boiling. As soon as boiling begins, turn the switch to low or, if that position will not maintain boiling, to medium.
2. Shorten the time required to start boiling by putting a cover on the pan and by using very little water to boil vegetables—one-half to one cup is usually enough.
3. Always use a pan that completely covers the heating surface of the unit—one with straight sides and flat bottom is preferable.
4. Do as much of the cooking as possible while the heating units and oven are hot.
5. Plan to cook more than one food in the oven each time it is heated.

Before purchasing any electric range, talk about and look at the various makes until familiar with the advantages and disadvantages of each. Then check the following points with your farm friends who have electric ranges: What difficulties, if any, they have had with the oven or surface units; how often replacement of heating units and necessary; what new heating units or parts cost; how promptly replacements or repairs are made; and what features of the range they particularly like or dislike.

New Foods Added To Stamp Plan for June Consumption

Some Items Are Dropped From Commodity List Sold for Blue Stamps in May

Surplus foods which will be available during the June 1 through 30 period to families taking part in the Food Stamp Plan in the Hall County area, were announced today by Wynn S. Goode, local Stamp Plan representative. These are the surplus foods available at local stores in exchange for the blue food stamps.

Fresh cabbage and snap beans have been added to the list of foods which will be available nationally during June, while butter and fresh carrots, obtainable during May in all areas, are not included on the June list.

With these revisions, the complete list of blue stamp foods for June in all stamp areas, is as follows: fresh grapefruit, oranges, apples, cabbage, snap beans, Irish potatoes, raisins, pork lard, all pork (except that cooked or packed in metal or glass containers), corn meal, shell eggs, dried prunes, hominy (corn) grits, dry edible beans, wheat flour, and whole wheat (Graham) flour.

FORMER CCC COMMANDER PROMOTED TO MAJOR

Captain F. W. Maxwell, former commander of the Memphis CCC Camp, now serving with the general staff of the Third Army in San Antonio, has been promoted to the rank of major.

The Maxwell family moved from Memphis to Denton where he was in charge of the CCC Camp for several months before being called to army service.

New Oil a Life-Giver. 5-quart fill—None Added—Lasted 13,398 Miles

More than Twice the mileage averaged by 5 other big-name oils in fiendish Destruction Test... Impartial... CERTIFIED

THIRST killed gold-feverish Forty-Niners in Death Valley. You can stand there today on our Hemisphere's bottom, 279 feet below sea level. And some of the worst heat on U.S. Weather Bureau records will be drying you up.

... America's hotspot! ... where 6 identical everyday cars scorched along, testing 6 different motor oils, till 6 new engines were junk. Every condition was the same for all. Qualified authorities eyed every move. Speed: 57 miles an hour for all. The Referee had bought 5 of the oils right off the market; millions know their names well. The other oil was decidedly new. And this new oil that authentically delivered more than twice the mileage averaged by the others is named

CONOCO Nth MOTOR OIL
 —Now on Sale here for Your Car

How could one fill of this popular-priced Conoco Nth oil keep lasting—without one added drop—for an official total of 13,398.8 miles? How could

Conoco Nth oil outlast them all by 5,683 miles or more, even outlasting one "rival" by 8,268 miles! ... Certified.

New SYNTHETIC in Conoco Nth

You know of vitamin synthetics... man-made... replacing Nature's life-givers sacrificed in some modern food processing. Similarly, the latest refining methods steal life-giving elements from motor oils. But more than making up for that today—in popular-priced Conoco Nth oil—is *Thialkene inhibitor*... man-made. (Conoco Patent 2,218,132.) It inhibits or checks the effect of foul leftovers created by the normal engine explosions. Thus Conoco Nth stays more like its own good self... helps the engine keep fit—good way to save quarts.

oil patent—still makes Nth oil give your engine OIL-PLATING... lubricant that can't all quickly drain down from inner parts. Instead, it's able to stay plated up... on guard against wear in advance, while you're using Conoco Nth oil. In addition you get the latest life-giving aid that foiled Death Valley... that eclipsed other oils tested... that made one 5-quart fill of new Conoco Nth oil last 13,398 miles. Certified.

That's like a mad extreme—beyond the utmost allowed by authorities on the subject. You'd never make your own car stand such proving-ground torture. But you want as wide a margin of engine protection and oil economy as your money will buy this Summer, and Conoco Nth has nailed up plain evidence. Ask today for Conoco Nth at Your Mileage Merchant's Conoco station. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

IMPARTIAL The 6 new cars were broken-in alike, after engines had been taken apart for the Referee, to check uniformity. All cars tuned alike. Same desert route for all. Handling evened up by alternating drivers. One 5-quart fill per car and no more... engines under lock.

A triumph matching Conoco OIL-PLATING

Another wondrous synthetic—long in use under the famed Germ Processed

CERTIFIED

I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

HITLER CANNOT WIN

ADOLPH HITLER and his Nazi regime in Germany is probably one of the most powerful political units ever built in the history of the world. Its force is so great that in the past few years there has hardly been a civilized family in existence that has not felt its influence either directly or indirectly. Yet it is impossible for Hitler to win this war. Figures might indicate that his air strength is far superior to that of England and the allies, that his submarines are sinking shipping tonnage at a rate equal to the production of both naval building programs of America and Eng-land.

Yet Hitler cannot and will not win this war!

For more than two decades Hitler has been building a war machine that encompasses the entire nation of Germany. Every man, woman, and child in the nation has been assigned a task that, when performed in accordance with the instruction of the Nazi rule, will further the end of German world supremacy. These people of Germany have been denied all personal privilege—German womanhood has been required to reproduce without the benefits of marriage, or without question, to feed the war machine with fighting men—German religion has been wiped aside and in the place of God the German nation has been set up as the supreme deity and Hitler is its crown prince—the first fruits of all production goes into the war machine, the leavings and scraps, if any, go to the population of Germany, the slaves of Nazism whose efforts and blood have made this machine possible.

Yet Hitler cannot and will not win this war!

The pages of history are strewn with the wrecks of men and political units who have attempted to conquer the world by might—Attila, Napoleon, Alexander, the Ceasars, who have met their end by the same symbol by which they lived—the sword.

Hitler cannot win because he, like those who have tried and failed before, has overlooked the fact that loyalty and devotion cannot be purchased at the price of power and blood, but must be won by kindness and love, because personal freedom and personal privilege are the elements on which a lasting nation can survive.

Hitler cannot win because the guiding hand that rules the destiny of the world has decreed that might does not make right—and that love, loyalty, and tolerance are born of peace and security and cannot be held by a contract written in blood with the point of a sword.

0000000 A JOB TO DO

DURING THE NEXT TWO WEEKS Memphis has a job to do. It isn't the kind of a job that a committee can be appointed to take care of, but a job that requires the personal attention of every man, woman, and child in the entire community. It is the job of assuring success to the Old Settlers Reunion and Rodeo that will be staged here June 17-18.

The foundation work of the celebration has been laid, mechanically it is ready to click. Capable workers have given liberally of both time and means to see that every detail has been cared for. Yet this entire work, this tremendous effort, can be of no avail if one element is lacking—and that element is the spirit in which the citizenry of Memphis co-operate.

The success of a community or a community enterprise depends entirely on the manner in which community activities are received by the people themselves. Be not a knocker—let's uphold the reputation established for successful community making this year's Old Settlers Reunion and Rodeo the outstanding celebration ever held in Texas.

Press Paragraphs

CULLED FROM THE DEMOCRAT'S EXCHANGES

Appropriations
The Lubbock Morning-Avalanche: If there is to be any criticism of the President in slicing the proposed WPA appropriation, it should not be because of the largeness, but because of the smallness of the amount he proposes to lop off.

Courtesy
Virginia Anderson in the Shamrock Texan: We have developed the most oxnoxious habit of thanking people when we do them a favor. We greatly fear we are turning into a Casper Milquetoast and all of the best authorities claim newspaper women should carry a snarl and a sneer.

The other morning a lady came into the office asking for a few copies of Monday's papers. We gave them to her and chirped, "Thank you very much." It left her without an answer. She grasped the point at once that it would be very silly to reply, "You're welcome," and what else could one say. She muttered something and walked out, baffled.

Inflation
The Munday Times: Inflation is the greatest danger of any such gigantic national effort as we are now undertaking, produces. Inflation means the death of democracy—as the history of Germany so vividly and grimly proves. We must make great sacrifices if we are to prevent it—but no sacrifices could be more worth while.

Modern Jonah
The Amarillo Globe: Science, proclaims a breathless newspaper article, has at last affirmed that a whale really could have swallowed Jonah.

It seems that a Dr. Eugene Maximilian Karl Geiling, professor of pharmacology, having little to do one dull day, crawled thru the gullet of a (dead) whale. He found it slimy, but definitely roomy.

If this unpalatable feat had been performed by Joe Doakes, fisherman, it would have proved just as much about the Jonah-capacity of whales. But it wouldn't have justified that delectable headline, "Science says—"

Anyway, it's nice to think that in these days, which are grim and getting grimmer by the clock, somebody has the time and inclination to go crawling into whales' gullets.

Vacation
The Ochiltree County Herald: If the management and workmen in our industries, and all those who have a stake in building this nation's defenses, can give less thought to the pleasures of a summer in the mountains or on the beach, there is at least one point they will not forget. It is privileges like these that they are working harder now in order to render secure. And any liberty is only a thing of worth and dignity if those who enjoy it are willing to make sacrifices to insure against its being taken away.

That is the vacation spirit of Americans in these difficult times.

Public Opinion
The Moore County News: President Roosevelt is far too good at handling public opinion to allow Lindbergh, Nye, and a host of others, to beat him to the draw in crystallizing public opinion as they have, without blasting them from the public stump, if he himself, has determined on our entry into this struggle.

Modern Hats
Douglas Meador in the Matador Tribune: Every purchaser of a modern creation in men's head-wear could prove himself a gentleman by apologizing to each

David and Goliath

woman he meets. First, for the remarks he has spoken or kept to himself regarding the impressions left by the designs in women's hats. Second, for stealing the plans of a nightmare to cover his own pate.

Utilities
The Wheeler Times: Private utilities grew to large size before there were any government-owned plants, because, it was definitely proved that large systems could provide cheaper, better, and more dependable electric service. Small plants could not command the facilities that are vital to first-class electric service.

The attack on private systems as being excessively large, in the light of the fact that the government's projects are larger still, seems but a subterfuge to accomplish their disintegration and advance the dubious cause of state Socialism. At a time when the full effort of all industry is needed to consummate the defense program, this is a sorry spectacle.

No Rush
E. E. Hayley in the Saint Jo Tribune; Kent Bellah's wife is gone to Hedley for a visit with her parents, but Kent is getting along fine with his batching. At any rate he has sent his wife photographic proof that he is. Said photo "accidentally" revealed an assortment of breakfast food boxes, empty cans, bottles of all kinds, and a sink filled with dirty pots, pans, and dishes. The message with the photo read something like this, "No need for you to rush home before you finish your visit. I'm making it fine."

Defense Bonds
The Briscoe County News: Uncle Sam is going at this defense bond business in a little different way than he did in the first World War. Then they concentrated drives, and by one means or another, THEY SOLD bonds. They sold them whether you wanted them or not. If a man didn't buy, he was a pro-German and a slacker until he did. Many folks were bull-dozed into buying far more than they could afford.

The ROAD AHEAD

Old Man Texas is today looking ahead and planning.

Beside the great farming and ranching country which Texans have built, he sees a new industrial empire here.

Already the start has been made. Some industries, such as petroleum, are now showing what can be done to utilize Texas' vast natural resources. Today this industry refines with Texas labor over four-fifths as much oil as the State produces. Its

products make up nearly one-half of all Texas manufacturing. Altogether petroleum provides the living for almost one-sixth of our people.

But this is only a beginning.

Texas has many other raw materials, unexcelled by any other State. Texas has in oil and gas the cheap and dependable fuel supply essential to industry. Texas is the gateway to Latin America, our new foreign market.

Each new industry means more jobs. It makes added tax values for our State and local governments, bigger payrolls for our workers, and greater prosperity for you and every other Texan.

Vacation Bible School Here.
A vacation Bible school will begin at the Methodist Church Monday afternoon at 2 o'clock, with the pastor, Rev. Cole and Mrs. Cole in charge of the study, singing, and recreation, and hand-craft classes. This is the first school of this kind to be held here and is expected to draw a large number of children.

Children's day will be observed here Sunday with a program at the Baptist church.

Hail Storm Sunday Afternoon.
A light hailstorm fell here Sunday afternoon, followed by one-half inch of rain. The hailstones were small and did very little, if any, damage. One inch of moisture fell here Saturday night damaging the recently planted cotton crops, with almost the entire community having to replant. Two showers fell at night through the week which brings the total precipitation for the year to 22 inches, according to an official gauge in the community.

Phillips-Nelson Marriage
Miss Juanita Phillips, daughter of Mr. and Mrs. S. P. Phillips of the Hulver community, became the bride of Royce Lee Nelson in a quiet ceremony performed at the Baptist parsonage by the pastor, Rev. L. J. Crawford, Friday evening, May 30. The bride is a graduate of Estelline High School with the class of '37 and has made her home in this and the Gilpin community most of her life. Mr. Nelson is the son of Mrs. R. Q. Nelson and is a graduate of Estelline High School and attended Texas Tech at Lubbock. The young couple will make their home here.

Swimming Party Almost Tragic
With every swimming hole in the vicinity filled to the brim, they will without doubt prove a source of much pleasure to the boys hereabouts. A group of 6 or 8 boys met one afternoon last week to swim in a tank whose depth is somewhat over 16 feet, when a small lad of 12 dived from the dam without being able to swim, and had gone down three times when his predicament was discovered by his companions, who rescued him with some difficulty. It was found that he could not cry for help because of his fright and having his mouth full of 'blow' gum. His name is withheld so that his swimming will not be stopped, but boys DO be careful.

8th Year Students Return
Mr. and Mrs. C. H. Cheves and daughter Betty, accompanied by the 8th graders, returned Saturday afternoon from a 12-day trip, covering 3,610 miles. A full account of the trip may be found in this paper next week.

Visitors
Mrs. Odie Franklin and Mrs. Bebe Lehman came Friday after their mother, Mrs. W. H. Rowell, who has been ill for the past few weeks. She was taken to the home of her daughter, Mrs. Sari Owens, at Dallas where she will recuperate for a few weeks before returning home.

Nels Helm and sons Junior, Hank, and Ralph, Otis Cobb and Frank Skinner drove to Wichita Falls Thursday where they visited their mother and grandmother, Mrs. Alice Helm, who is ill in a hospital. Several of them donated blood which was used for transfusions for Mrs. Helm. Nels and Hank returned to Wichita again Saturday for other transfusions. Mrs. Helm is some improved.

Mrs. W. M. McBrayer and daughter Ethlyn are visiting their son and brother Odell McBrayer at Clarendon.

Mrs. Ray Bailey and children, Patsy and Frances, of Memphis are visiting their parents and grandparents, Mr. and Mrs. E. V. Wheeler. Mr. Bailey left last week for California where Mrs. Bailey will join him shortly. Mrs. John Sims of Hedley is visiting her son and family, Mr. and Mrs. A. M. Sims, here.

Doctor Locates At Estelline
Dr. J. R. Cunningham of Lamesa has recently moved to Estelline and set up his practice in that city. He will have his office at the Wallace Pharmacy on the west side of the square in that city. Dr. Cunningham is an osteopathic physician and will carry on a general practice in the Estelline territory. Mrs. Cunningham and their two sons, Sammy Ray and Lowell Clay, came to Estelline with Dr. Cunningham and they will make their home there.

Elsewhere in this issue of The Democrat Dr. Cunningham has inserted an advertisement announcing his practice.

Shelterbelts Make Ideal Picnic Spots

"Shelterbelts are serving as ideal picnic spots in many areas of the Panhandle," stated Wm. S. (Bill) Greene of the U. S. Department of Agriculture's Forest Service office in Memphis, recently. After the long siege of rainy weather, farm and town folks alike are seeking the shade of the long green lanes of shelterbelts for their outings.

Greene declared that hot, sunny days following continual rainy spells have made the cool interiors of the green shelterbelts particularly inviting. The temperature differences vary as much as twenty degrees. When the thermometer reads 90 degrees in the sun, the green canopy often cools the temperature to 70 degrees under the tree.

Many of the belts planted in 1936-38 make ideal spots. The cottonwood and some of the Chinese elm trees reach 15 to 30 feet up. Many of the other species are also rapidly increasing in height. The green protective walls of the shrub and field rows keep the hot wind out, making the interior of shelterbelts ideal for picnics.

WHAT'S YOUR SCORE ON THIS QUIZ ?

Like to know more about Your Electric Servant? Run through this quiz... it's full of facts and explains why Electric Service is GOOD... and CHEAP... in West Texas.

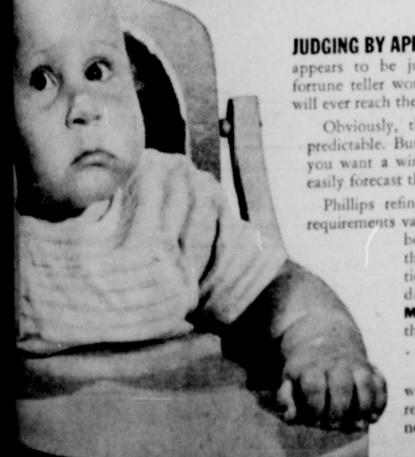

- Q. How much more light do you get for your money now than you got 10 years ago?
- A. You get, for about the same money, two or three times as much Electric Service as you did then. And bulbs today give about twice as much light with the same amount of electricity. Twice as much service for twice-as-good bulbs means four times as much light for your money!
- Q. How much per day do most families spend for electric service?
- A. The majority of our customers pay us less than 10 cents a day (the cost of a shoe shine or a good cigar), using, say, lights, vacuum cleaner, radio, toaster, and refrigerator.
- Q. What do you say to a husband (or wife) who fusses at you for letting a 100-watt light burn all night?
- A. "Don't get excited, dear. Believe it or not, it costs only about a nickel—and maybe it scared a burglar away!"
- Q. Who owns Your Electric Servant?
- A. You do. Every family who has a bank account or a life insurance policy is part owner. The money you put in the bank, or pay to an insurance company, is invested in various businesses, including electric utilities. This makes you one of the millions who have a stake in the American system of private initiative and enterprise.
- Q. Just how dependable is electric service in West Texas?
- A. Equally as good as any in the nation! And better than in any foreign country!

Yes, electric service has constantly improved and rates have steadily gone down. Remember that this BETTER SERVICE at LOWER COST to you has been brought about by our trained and experienced organization of over 1,000 men and women, working under a system of private initiative and enterprise... the only kind of system ever to bring better living conditions to ALL the people.

West Texas Utilities Company

HERE'S THE OFFER
Send your old electric bill to our nearest local office. If yours is the oldest we receive by June 15, it is worth \$50 to you—if one of the 10 next oldest, we will pay \$5 for it. It must be for service in the home, dated 15 or more years ago, and must be accompanied by a letter, 100 words or less, telling something about the kind of service and the cost at the time the bill was paid. All present customers of the West Texas Utilities, or its predecessors in this community, (excepting employees) are eligible.

WILL HE COME FROM High Chair TO High Bench ?

It's HARD to tell... but EASY to pick a winning oil

JUDGING BY APPEARANCES this young man appears to be judging, but only a foolish fortune teller would try to guess whether he will ever reach the Supreme Court.

Obviously, this wide-eyed baby's future is unpredictable. But you can pry into the future when you want a winning oil for your motor. You can easily forecast the high quality of your choice. How?

Phillips refines many oils because car owners' requirements vary as much as their cars and pocket-books. But when you want our best oil, there is no room for doubt or hesitation. Phillips speaks out plainly and directly. Tells you that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer.

When you replace winter-worn oil with fresh summer grade, or make the regular 1,000-mile change, pick a winner: ask for Phillips 66 Motor Oil.
