

The Memphis Democrat

MEMPHIS, HALL COUNTY, TEXAS, THURSDAY, SEPT. 29, 1927.

NUMBER 14

HALL COUNTY DISTRICT FAIR WAS GREAT SUCCESS

BREAKING CROWD DRAWN PART OF HONOR PAGEANT FAIR WEDNESDAY NIGHT

Before has so much interest been manifested as that shown Wednesday night. Thousands of people witnessed the parade following the presentation of the Court of Honor Pageant in a colorful and entertaining manner. Princess from each community participated in the crowning of the Queen of the Hall County District Fair. This was followed by the King Cotton and the Queen, which provided a wedding, surprising the audience. The Ruby Stephenson, daughter of Mrs. Harrell Chapel, was united in marriage to Carl McAbee, an employee of the Denver Memphis Station, Dr. J. H. Mallard, pastor of the First Presbyterian Church of Memphis.

LEG IS BROKEN WHEN TRUCK IS TURNED OVER

Horace Hooks, a driver for a dump truck for E. T. Prater, while hauling for paving work, sustained a broken leg last Friday afternoon when the truck he was driving went into the ditch and turned over near Salisbury.

He was taking a load of cement and gravel to the big mixer and was driving at a fast speed when the truck ran too near the edge of the dump and struck soft ground, causing it to turn over and breaking his leg. The truck was emptied of its load, turned back upright and ran down the road under its own power without a driver until it struck the bank of the barrow pit.

Hooks was brought by the King ambulance to the hospital where the leg was dressed. He is recovering nicely.

ROTARY CLUB TO GIVE ATTENTION TO BOYS' WORK

The Rotary Club of Memphis, through its Boys Work-Committee with T. J. Dunbar as chairman, is now doing some real work among the boys. Boys from 6 to 12 years of age are issued membership cards in the Knot Hole Club. These cards admit them to the Knot Hole section of the fair, and every game of the school, and will be entitled to keep the card as long as their names appear on the honor roll at school. When they fail to make the honor roll the cards will be taken from them.

Tuesday noon the members of the Rotary Club drew names of boys and girls who are away at school for the first time. Each member is to write three letters between now and the holidays to the name drawn, encouraging them in their work, etc. This also was promoted by the Boys Work committee.

Tuesday at luncheon Rev. Mullen of Childress spoke for a few minutes on boys work. Dr. Odum outlined the plan of the Boys Work committee and W. B. Quigley in a short address endorsed the movement of the committee. C. G. McCleary was introduced as a new member of the Rotary Club.

NEW GROCERY FOR SOUTH SIDE OF SQUARE

E. M. Dennis has leased a building on the south side of the square just west of the Clarence Saunders grocery, and will stock same with groceries as soon as the building is ready to receive them. The store will be run by Mr. Boren.

Clarendon Band alternating with Harrell Chapel and Estelline bands, with the Gold Medal band assisting in some numbers. Owing to a death in the Newlin community the Newlin band did not participate.

THE GREAT AMERICAN HOME

HAIL DAMAGES COTTON CROPS NEAR LAKEVIEW

More than an inch of rainfall fell here from Sunday night to Tuesday night, making the roads muddy and slowing up crop gathering. The rain will be of much benefit to late feed, and will enable farmers to do some fall sowing.

The weather was very cool during the cloudy rainy weather and overcoats were very much in evidence.

The bad feature of the rain-storm on Sunday night was that it seemed to center around Lakeview and was accompanied by heavy hail that did a lot of damage to crops around there. In a territory of about four sections crops were badly damaged and adjoining crops damaged more or less.

MRS. SMITH, WIFE OF RANCHMAN, DIES

Mrs. Lydia Annis Smith, aged 57 years, 7 months and 4 days, wife of T. J. Smith, owner of the well-known Smith ranch eight miles east of Newlin, in Childress county, died Sunday night in a Clarendon Hospital, and was buried in Newlin cemetery Tuesday afternoon.

The funeral service was held at Newlin Tuesday afternoon conducted by the Reverend Mullen, pastor of the First Christian church of Childress.

Mrs. Smith was well known and highly esteemed over this section of country, having lived on the Smith ranch for twenty years. Surviving Mrs. Smith are her husband, three sons, Tom, Jim, and Lewis Smith, of Newlin, and three daughters, Mrs. Craver Browner of Memphis; Mrs. Cecil Guthrie of Newlin; and Mrs. Ivan Anderson of Plainview; Mrs. Carrie Brandon, Tuttle, Oklahoma; brother Jack Davis, New Castle, Oklahoma; all of which were present at the funeral.

SECOND HAND STORE OPENED ON MAIN STREET

W. H. Funk has opened a second hand store on Main between 7th and 8th, in the old tin shop building, and will handle new and second hand furniture, gas stoves and coal stoves and heater. The name of the store is Furniture Store. You may visit called to his store, W. B. Deberry this issue.

SOME DECORATE THEIR WINDOWS WITH PRODUCTS

Several stores were decorated this week with farm products secured from farmers, and some real exhibits are thus displayed in town as well as at the fair. The windows are thus decorated nicely and attractively and one or two will win a cash prize for the farmer from whom the exhibit was secured.

Never before has the Hall County District Fair had as good co-operation, and as a result it is proving to be the best fair of any in point of interest. Practically all the stores have been closing during the fair, which is another way of creating interest and showing to the world at large that Memphis is a believer in the fair.

RODEO PROVES DRAWING CARD

The Rodeo being staged at the fair this week is exceptionally good, and many cowboys are here competing for the prizes amounting to about \$2,000. Some good roping, riding, bulldogging is being done by the contestants. The rodeo, under the direction of Roy Mayes, is furnishing some real entertainment for the crowds.

Cowboys are here from different sections of the country, and are doing their best to carry off some of the prizes. In the bulldogging some big longhorned steers are being used, and it takes some real work on the bulldogger's part to throw one of them.

The winners in the Rodeo on Wednesday afternoon were:

Bulldogging, Roy Mayes, first; time 33 1-5 seconds; Tex Slocum, second, time 41 seconds; Jonas DeArman, third, 2 minutes, 4 seconds.

Steer Riding: Tex Slocum, first; Jonas DeArman, second and Floyd DeArman third.

Calf Roping: Jonas DeArman, first, time 26 2-5 seconds; Roy Mayes, second, time 28 2-5 seconds; and R. E. time 31 2-4 seconds.

Bronc Roping: Jonas DeArman, first, time 26 2-5 seconds; Roy Mayes, second, time 28 2-5 seconds; and R. E. time 31 2-4 seconds.

For sale by all druggists. TAKE CARDUI USED BY WOMEN FOR OVER 30 YEARS

NEGRO KILLED AT DEEPLAKE SUNDAY NIGHT

George Thomas, negro, is dead and Ernest Adams, negro, is in jail here as the result of an altercation that occurred on the Tom Evans farm near Deep Lake Sunday night about 10 o'clock.

Thomas was shot twice with a shot gun, one load taking effect in the left side and one in the back of the neck, resulting in instant death. Thomas' body is being held at King's undertaking parlors until word is received from his relatives as to what disposition to make of the body. He leaves a wife and two children.

Deputy Sheriff May brought Adams to town and lodged him in jail. The grand jury has been called into special session to investigate the killing.

NEW GROCERY NEAR THE POST OFFICE

Sloan Baker and O. N. Womack have leased quarters in the Thompson building south of the post office and are installing the Handy-Andy system and will carry a good line of groceries, and fruits at all times. They are about ready for business and will doubtless get a good patronage because of the location and the Handy-Andy system.

NAZARENE TENT MEETING

The revival conducted by the Kansas City Nazarene Evangelistic party continues with splendid interest. There has been a number of professions. The singing and preaching is in the Spirit. The special songs are highly enjoyed by all. There was a large crowd at the Baptist church to hear the converted Catholic boy last Sunday afternoon.

The 11:00 o'clock service has been changed to 2:30 p. m., each day. There will be three services on the Sabbath at 11:00, 3:00 and 7:30 o'clock.

The revival will continue indefinitely, closing only when a well organized church of the Nazarene is established and pastor is called to pastor same.

The public is invited to hear these young people sing and preach the gospel.

Miss Laudice Kersey, an employee of the Gem Theatre undertook an operation for appendicitis, and is improving.

EVERY DEPARTMENT OF THE FAIR REPLETE WITH EXHIBITS THAT EXCEL ALL PREVIOUS FAIRS

More than five thousand people entered the gates of the Hall County District Fair Wednesday and between five and eight thousand witnessed the pageant at night, breaking all previous records for attendance for day and night here. The Seventh Annual fair of Hall County District will be the most successful in the history of the fair, considering the kind of weather that handicapped the beginning.

Monday and Tuesday were rainy days and the roads were in bad condition, preventing many communities and individuals from entering exhibits. Yet in spite of that the exhibits are unusually good in every department even though short in number of entries.

CAR THIEVES GET TWO YEARS EACH IN PEN

Judge C. C. Small tried several criminal cases first of the week and adjourned Wednesday until Friday. He expects to clean up the docket and the jail as near as possible this term of court.

The Fowler case was transferred to Clarendon. Humpy Roberts was given one year in the penitentiary for manufacturing liquor. Jimmy Doyle and John Johnson were given two years each for theft of a Childress car. These men were caught here by local officers a few weeks ago. Lewis Oglesby was fined \$1.00 and costs for driving a car while intoxicated.

The grand jury in session a short while Wednesday found an indictment against the negro who is in jail charged with the murder of another negro at Deeplake on Sunday night.

LYCEUM BOOKED FOR WINTER BY DELPHIAN CLUB

A lyceum course for this winter under the auspices of the Delphian Club was announced this week. The course is offered by the White and Brown Lyceum Co., and includes five numbers of seemingly unusual excellence. The first number will be given Oct. 3 at which time the Artelle Dickson Company, a trio of singers, readers, pianists and violinists, will appear.

George Emerson Francis, a lecturer on subjects of world-wide interest will appear on November 1 and "The Three Wise Fools," which had a long run on Broadway and which has toured the principal cities of the country, will be presented November 18. This successful comedy drama is probably the outstanding feature of the course and a number which alone is worth the price of the entire course.

The Krinksberg Company will appear on December 8. This number consists of a man magician and a woman with a "radio mind."

The concluding number of the course will be given January 5 by Halwoos Robert Manlove, "the man of many faces" and impersonator.

MRS. ROSAMOND DIES

Mrs. E. T. Rosamond, a former resident of Memphis, died at her home at Levelland last Friday afternoon.

The funeral of Mrs. Rosamond was held Saturday afternoon at the First Baptist church at Levelland, conducted by her former pastor, Rev. Chas. T. Whaley of Sweetwater, Texas. Mrs. Rosamond lived in Memphis 14 years and was very active in church and club work and has many friends who will regret to learn of her death.

Besides her husband she leaves an aged mother, four sons, Fred, Frazier, Oliver, Gerald and Winifred Rosamond and a daughter, Mrs. Clinton Martin. All were present and attended the funeral.

Tuesday, the first day of the fair had a small attendance, and very little entertainment due to rain. Wednesday morning dawned bright and clear and proved to be a banner day for the fair. The exhibit halls were crowded with visitors all day, the rodeo in the afternoon was splendid and witnessed by thousands, while the carnival on the midway had a good run all afternoon and night. Thursday has come and will in all probability prove equally as interesting and worth while.

The agricultural department is leading all others. Estelline walked off with first prize in the community contest, while Plaska won second and Weatherly third places. Brown Smith of Eli won first place in individual agricultural exhibit, Mrs. I. W. Thomason of Memphis, second and J. L. Darby, third. Fairview made an excellent showing in the community contest.

Weatherly walked off with the first prize in the sweepstake school exhibits, Lesley won second place. In school display Lesley won first, Parnell second and Weatherly third.

The Woman's Department is well represented in the canning, culinary and floral divisions.

The Club Boys and Girls have splendid entries in every department and the winnings establish the fact that the boys and girls are alive to up-to-date methods.

The poultry division is one of the most interesting features of the fair. Many birds of many varieties are on display and J. R. Mitchell had the grand champion cock of the show, C. A. Williams the grand champion hen and G. A. Sager the grand champion pen.

Some good individuals are on display in the horse and mule department, while in the cattle department is to be found some fine showings. A nice herd of sheep is also on display in this division.

While the swine division is not so full this year, some splendid animals are on display.

Prize awards in some of the divisions have been obtained for this issue and the others will be published next week. These prizes were secured hurriedly and the Democrat will not vouch for their accuracy, and will gladly make corrections if called to our attention.

MEMPHIS BOYS MAKE TEXAS LONGHORN BAND

T. J. Dunbar, Jr., and Holmes McNeely have been chosen as members of the Texas Longhorn band, at the Texas State University. T. J., is one of seventeen making application for the cornet section and he was selected as a solo cornetist. Holmes McNeely was also selected from a large number of applicants. All Memphis is proud of the fact that Memphis boys, through their splendid training with the famous Gold Medal band, were selected in the Longhorn aggregation.

FIRST METHODIST CHURCH

C. E. Jameson, Pastor Preaching at 11:00 a. m., and 7:30 p. m. Special music at the morning service by a splendid choir. My subject Sunday morning will be the Rise and Spread of Methodism. If you know about it the message will refresh your memory and if not you need to know something of the history of our great church. Everyone welcome.

TEXAS & TEXANS

By WILL H. MAYES

Make Them Feel Good

The Weimar Mercury expresses a thought that comes often to every newspaper man in the statement that it makes an editor feel "right good" when someone thanks him for something that appears in the paper, letting him know that his efforts are appreciated. Most people are appreciative but fail to express their appreciation. If something appears that is not liked the editor is sure to hear about it, but there are very few who say anything about the things in the paper they like. Like everyone else a newspaper man can do better work when helped along by a little encouragement. Whether you are a reader of the Weimar Mercury or some other paper, give the newspaper man all the praise you can and you will find him doing his best to make still further improvement.

Practicing the Preachment

I am going to follow my own advice right here by saying that was a fine bit of enterprise the Elgin Courier showed recently in printing a four column picture of the Elgin school faculty on the front page. Doubtless the readers of the paper all liked it, and I am sure the faculty did. I do not know one of them, but I enjoyed studying their faces and concluded that Elgin may well be proud of its faculty and its schools. I wonder how many have said anything to the Courier man and his wife, the capable assistant, about it.

Marble Falls Cheese Factory

Work has begun on a modern cheese factory at Marble Falls. It will have a capacity of 5,000 pounds a day and will give farmers for 15 miles around a good market for whole milk based on butter fat contents. A factory like that at Marble Falls costs only \$5,000. Properly managed, such a factory pays the stockholders and furnishes a steady revenue to surrounding milk producers.

Packing Plants and Canneries

The Texas Citrus Fruit Growers' Exchange has three packing plants in the lower Rio Grande Valley and is preparing to build a combined packing house and canning factory at San Benito at a cost of \$150,000 and \$200,000. The plant is to have all the latest machinery, including fruit marking machine, electric box machine, automatic packers and other equipment of modern type. Approximately 100,000 boxes of citrus fruits were shipped by the exchange last season and the business is growing rapidly.

Bastrop Hatchery

Bastrop has completed plans for establishing a large commercial chicken hatchery to be ready for business January first. The success of the hatcheries in Texas is causing many communities to study closely the advantages of such enterprises, and where study is made, the result is usually early action.

Denver Uses Texas Gas

Denver has accepted a gas rate

The "Bourdon de la Victoire"

In the little church of St. Martin-des-Champs in an obscure quarter of Paris, this two-ton tabor bell had rested for years. The other day it was brought forth to sound its clear note over the tomb of the Unknown Soldier as part of the American Legion exercises in Paris. Now it is to be hung in the chapel marking the cemetery site of Douaumont.

schedule for use of Texas gas that will call for the immediate laying of a big pipe line from the Panhandle gas field to that city. Most Texas cities are now supplied with Texas natural gas and there appears to be enough left to let Colorado have all it may ever need. Texas gas is a source of almost unlimited wealth.

Planting Peanuts Pays

A farmer at Charlotte, Atascosa county, has marketed 1,000 bushels of peanuts from 28 acres, for which he has received \$1,280 and has 1000 bales of fine peanut hay left. His success will cause a number of his neighbors to plant peanuts next year. The peanut crop on the right kind of sandy land seldom fails to prove profitable.

Santa Fe Making Survey

The main line of the Santa Fe from Temple to the northwest is so crowded with traffic that the road is considering an extension of its line from Richland Springs to Coleman Junction to relieve the congestion between Lometa and the Junction near Coleman. Surveys are being made to determine the feasibility of the route and the best terminals for such a line. It indicates the general prosperity of that part of the State.

Seeing the Light

Homer T. Lamp of Tulsa, says that the Pecos oil field is going to prove the "wonder field of the country," that it can be made to produce a million barrels daily, which would "make the Seminole field look like 30 cents." Mr. Lamp also predicts that in the immediate future the biggest pro-

SHIP DEPENDS CHEVY MOTOR FOR EMERGENCY

San Francisco, Sept. 22.—Not satisfied with playing a leading role on land, the automobile motor has now taken up a career at sea.

Away up on the sun deck of the steamship President Lincoln, which sailed recently from San Francisco for the Orient, is an iron cabin, the loftiest place on the ship. It is water proof, water tight and strongly built to protect its contents from sea and weather. Inside and out, the house is neat and shipshape and the chief engineer is the only person on board with a key to its lock.

This cabin, known as the auxiliary room houses an electric plant operated by a Chevrolet motor, for emergency use only.

In case of an accident should everything else on board fail or be

gram of drilling and pipe line laying ever seen will start in that section. He has a great vision of the future of the oil district, but Texas is accustomed to fulfillment of great visions.

Passing the Compliments

John E. Cooke, able editor of the Rockdale Reporter, says:

"You've simply got to hand it to Cameron when it comes to a question of civic improvement." This concession is made by Editor Cooke, whose town is close by Camerous, because Camerous is planning to pave 150 more blocks, the city to pay one third the cost and adjacent property owners the other two-thirds, the banks to lend the city its part of the money. Camerous shows the right spirit in its enterprise and Editor Cooke shows the right spirit in his praise.

Free County Fair

Henderson has had its thirtieth free county fair, which has grown better and more popular every year. There is not as much blow and bluster about the free fair as about some of the others, but where the town and country people unite, as at Henderson, in making a success of the fair, that does not have to make money a neighborly spirit is created that is worth more than gate receipts.

Something to Brag About

Franklin County, Mt. Vernon, the county site, is mighty small for a Texas county, but it makes a mighty big claim when it says it has the largest number of boys and girls club members of any county in the state according to population. Where are those Shelby county boosters and isn't some other county prepared to contest the Franklin claim?

In Sympathy

The Texas Press is in tenderest sympathy with Mr. and Mrs. Sam P. Harben of Richardson Echs in the passing of their fine young son, Carson, who had especially endeared himself to the members of the Texas Press Association while serving as assistant father who has for many been secretary of the Association. Carson was universally loved because of his bright mind, helpfulness and kindness. His death was a great loss to the family.

below water, this motor generates electricity for the wireless set and for lights around the life boats. It is one thing that passengers and crew may depend upon in case of disaster, for as long as there is a spar above water the auxiliary will function. It is entirely independent of the ship's regular machinery and will operate without interruption, supplying current for distress calls, a strong light for launching the small boats.

While in these days the possibility of a disaster at sea is practically nil, the auxiliary gives an added feeling of security. Chief Electrician T. Armstrong of the President Lincoln opens up the little cabin once a week to test the emergency rig.

This feature of modern steamship travel indicates the degree of perfection to which automobile motors have been developed. It is nothing short of marvelous that these faltering pieces of mechanism which first propelled automobiles less than three decades ago, have been so perfected as to be selected now to serve as lifesavers in case all else fails.

LINDBERGH'S FIRST AUTO BOUGHT FROM CHEVROLET DEALER

Col. Chas. A. Lindbergh's first automobile was purchased when he was a boy in Little Falls, Minn., from Charles Farrow, Chevrolet dealer in that city. Mr. Farrow says of him that "As a high school boy 'Lindy' was always interested in getting around the country in the fastest way possible. First he bought a bicycle—then a motorcycle—then an automobile. He al-

ways took good care of his car, showing that he was a natural born mechanic. He learned to drive quickly and when a cloud of dust came down the street we were always sure that young Lindbergh was in the center of it."

When the tire of an automobile blew out as it was passing a pasture in Iowa, six mules stampeded broke through the fence, and kicked the automobile full of holes.

T. Kittinger was a business visitor at White Deer Tuesday.

"Courteous Service Always"

An Open Letter to the Editor From the President of General Motors

LAST SPRING I wrote you that my belief in the country newspaper had led us in General Motors to decide to advertise our products together in the small-city press of the country.

The returns from the series of the messages recently published have justified that faith; and we shall continue to advertise in your community through your newspaper this fall.

It occurs to me, however, that some of your readers may be asking: "What is General Motors?" and "Why is General Motors?" These are fair questions and I should like to answer them as frankly as I can.

General Motors was organized some years ago on the theory that a group of large companies, working together, could render a better service than they could separately. In this we simply applied to industry a principle that is as old as civilization as regards the human family and human progress.

Original members of the General Motors family were Euclid, Cadillac, Chevrolet, Oakland and Oldsmobile, together with the Delco-Light Company and other well-known companies manufacturing automotive equipment. By joining together their resources, we were able to establish great Research Laboratories, a 1245-acre Proving Ground and the GMAC Plan of credit purchase; to effect vast economies in purchase and manufacture and distribution; to assure and maintain the quality of every product in the General Motors family.

Has the General Motors family principle proved itself in practice?

The best answer, I think, is to compare the Chevrolet, Buick, Cadillac, Oldsmobile and Oakland of today with the models of five or ten years ago.

Then add Pontiac, a General Motors creation. Add LaSalle, another General Motors creation. And then consider how General Motors has developed these cars into a complete line, within which any family may find a suitable quality car at the price it plans to pay: "A Car for Every Purse and Purpose."

Another example is Frigidaire, the electric refrigerator. General Motors had the resources to spend millions to develop a satisfactory refrigerator, and then to apply to its manufacture the same processes which have increased the utility and lowered the cost of the automobile.

We believe that this record justifies General Motors as an economic institution. Its products are quality products, first of all. Their prices represent the economies of united effort passed on to the purchaser. In the last year one in each three automobiles chosen by the public has been a General Motors car. The service of Delco-Light electric plants has extended to more than a quarter million homes, while Frigidaire has become the world's largest selling convenience of its kind.

We believe also that the values now offered in the current General Motors products (which are listed below) prove anew that "many minds are better than one" and that a family of companies, working together, can produce results which are decidedly in the public interest and of increasing benefit to the individual family.

Very truly yours,
Alfred P. Sloan, Jr., President
General Motors Corporation

A Couple of Perfect Babies

Mildred Marcia Pinkenfeld, 8 months old, of Brooklyn, has been declared by fifteen specialists America's most perfect baby. When the tot visited Atlantic City the other day she met Miss Lois Eleanor Delander of Joliet, Ill., Miss America of 1927. Here they are.

them from going into a so-called neck moult. Early hatched Leghorn pullets, if forced too much for egg-production will go into a neck moult and stop laying for several weeks just when eggs bring the most money.

Green food of some kind, should by all means be provided. From now on preparations may be made to provide a green oat pasture for the flock. Collards and rape also make good fall green food. Anything that will grow at this season of the year, may be sown as green food. On practically all farms a green oat pasture is easily provided.

Yellow corn is better than white corn, kafir or milo.

Oyster shells are cheap, yet important. Keep a liberal supply before the flock.

More than 2-3 of the egg is water, therefore the importance of providing plenty of fresh drinking water at all times.

Late hatched pullets, may be fed one feeding of wet mash a day, to help hurry them along.

Again we caution you to make sure your flock of pullets are not infested with intestinal worms.

BRICE BREEZES

The Brice school opened Monday morning but due to the weather, and the people working, there was not a very large attendance.

The contest which has been going four weeks between the reds and blues in the Methodist Young People's Sunday School classes, closed last Sunday week and Mrs. C. R. Cross will entertain them at her home next Saturday night.

The Blues went down in defeat but as their color they are true blue and are taking the defeat as good sports always do. Everyone is invited to attend.

We have been having quite a bit of rain the last few days, which has been needed all the year.

There will be preaching service at the Baptist church next Sunday morning and everyone is urged to be present. There will be Sunday school at both churches so please be present at one of the palces.

Mr. and Mrs. Claude Mixon, formerly of Brice, visited at the home of Mr. and Mrs. Murff last Sunday.

John Tidwell won second prize at the old time Fiddlers contest which was held at Leslie last Friday.

Mrs. Evans, who has recently been operated on, is improving and she expects to return to her home the last of the week.

KEEP RECORD PASTURE CROPS SAYS COOLIDGE

In a recent address President Coolidge made the statement that the size of the farms in the vicinity of his old home in Vermont was measured by the number of cows they would maintain, that is, some men had eight cow farms, other men had twelve cow farms and others might have farms that would be known as 20 cow farms. On these farms all the crops produced are marketed through the medium of the dairy cow.

On other farms in other states we find the crops marketed through beef, sheep and hogs as well as dairy cows. In Texas unfortunately we market most of our crops in the raw state, and this brings a return which barely pays the cost of production.

In a survey recently made by the Agricultural Commission of the American Bankers Association it was found that dairy cows, after paying for all the expenses for labor, returned 42 per cent above the farm value of the crops fed. Baby beef returned 41 per cent above the crop value of the crops fed. Fattening lambs returned 155 per cent above the cost of labor and feed, and hogs returned 108 per cent above the farm value of the crops fed.

Texas needs more live stock on the farms, but in order to produce livestock economically the

farms must produce an abundance of pasture, advises Charles E. Alvord, Director of Extension Service, A. & M. College of Texas. Native pastures are good so far as they go, but on the farm they do not go very far and must be supplemented with crops grown for grazing purposes. For winter grazing we have a great variety of crops for pasture purposes. All the winter grains, wheat, oats, rye, barley and spelt will do well in any part of the state, and if sown early in the fall, will produce an abundance of nutritious feed for winter grazing. Sweet clover and alfalfa will furnish pasture twelve months in the year unless the season should become so dry in the summer as to stop the growth.

The Extension Service of the A. & M. College has recently issued a record book for the purpose of enabling farmers to accurately determine the value of winter grazing crops. Anyone interested in keeping a record of the amount of pasture they can obtain with any of these crops will be furnished one of these books free. Application should be made to the County Agent or directly to C. H. Alvord, Director of Extension, College Station, Texas. This book not only furnishes the blanks for keeping the records, but gives some valuable information concerning rate of seeding and kind of crops to plant.

FIRST REPORT SHOWS PATRONS NOT SATISFIED

The people of Wellington are dissatisfied with their telephone service. This is shown by the first returns from the cards sent out by the Chamber of Commerce in an effort to ascertain if the people of this community thought they were receiving good service or had service. Up to Saturday 41 cards of the first 200 sent out have been returned.

Approximately 95 per cent of the customers of the Telephone Service said they did not get good connection. About 50 per cent registered complaints on the question of answering calls promptly. Most of them are satisfied with the matter of the operator ringing the number. And on the other hand 95 per cent of the returns indicated that the customers had received courteous treatment at the hands of the operators.

A space was allowed at the end of each blank for remarks, and the remarks on the cards handed in showed that the telephone cus-

tomers were not all satisfied with the service they were receiving. But most of them seemed to think it was the fault of the equipment and no fault of the local operators. One man who had lived in a number of other counties declared it was the worst service he had ever seen. Three returns indicated excellent service in all departments.

The Chamber of Commerce has sent out a second group of inquiries and will cover the entire telephone system. Each person who receives a card is asked to return it to the Wellington Chamber of Commerce; so that a fair and impartial index of the telephone service may be compiled by the officials.

If the rest of the returns show

as much dissatisfaction as the first 64, a concerted effort will be made to have the service improved even if drastic measures are resorted to.

This move on the part of the Wellington Chamber of Commerce is the result of a letter from the State Telephone System in Lubbock saying that they believed that the service in Wellington was satisfactory and that the people were getting all the service they were paying for. Upon receiving this letter officials of the Chamber of Commerce decided to make a thorough investigation and then if it showed that the people were dissatisfied something would be done to remedy the situation. — Wellington Leader.

Morning Joy Coffee
"Truly the Aristocrat of Coffee"

Was in Misery All Over

"I was in a dreadfully run-down condition," says Mrs. Chase L. Lacroix, of Montgomery, La. "I suffered a great deal of pain. I was in misery all over. I could not sit up and I could not lie down. I couldn't sleep and at times I would have dreadful vomiting spells. The aches and pains seemed to cover my whole body.

"One night my husband brought me home six bottles of Cardui and I began to take it. I could tell that I was improving from the first bottle, but I kept on taking the medicine, for I knew that I needed a tonic that would build me up and strengthen me where I was weak and run-down. That is exactly what Cardui did for me. After I had finished the six bottles I felt fine.

"I feel truly thankful for what Cardui has done for me, for I could not have gone on living in the desperate condition I was in."

For sale by all druggists.

TAKE CARDUI USED BY WOMEN FOR OVER 50 YEARS

ARTELLS DICKSON CONCERT COMPANY

Appearing on our entertainment course this season is the Artells Dickson Concert Company in a versatile program of arias, ballads and negro spirituals, violin solos and pianologues. Mr. Artells Dickson, a Southern singer, who for two years was baritone soloist in a great New York church has a rich, resonant voice of exceptional volume, his personality is attractive, his manner unaffected. The violin solos by Miss Helen Hunt and the pianologues and other entertainment features by Martha Dickson, a charming Southern girl, lend variety and charm to the program. Appearing under the auspices of the Delphian Club Monday evening, October 3.

SLUMBER PARTY

Miss Ova Lee Wood entertained with a slumber party last Friday night at her home on Noel and Eighth Streets. Music, stories, stunts and chatter furnished frolic for the girls, who also enjoyed refreshments at the Coffee Shop. The girls arose early Saturday morning and went to Indian Creek where they enjoyed a sunrise breakfast.

Those enjoying the party were: Misses Cloe Johnson, Almata Gerrald, Lore Duke, Ola Mae Jones, Marietta Martin, Mable Godfrey, Susan Boaz, Nell Grant, Una Vay Bradley, Jeanette Dennis, and Pauline Alexander.

MUSICAL TEA HONORING PRINCESSES

The Princesses were guests of the Hall County District Fair in a very informal social affair at the home of Mrs. Mac G. Tarver on Wednesday afternoon from 5 to 6 with Mrs. Tom C. Delaney as hostess, Misses Verna Crump and George Cooper.

Piano Numbers by Mrs. Elmer S. Shelley and voice numbers by Mrs. Mac G. Tarver were highly appreciated by the guests, during which time they were served with a two course luncheon.

Those present were: Princesses Obbie Crabtree of Clarendon, Pauline McCants of Giles, Mable House of Weatherly, Ruby Winn of Parnell, Mae McClannahan of Harrell Chapel, Ruby Pearl Patterson of Hulver, Frankie Darby of Estelline, Agnes Johnson of Newlin, Grace Fuller of Lakeview, Grace Hickey of Plaska, Jimmie

Cooper of Memphis, and Annie Ruth Johnson of the Memphis American Legion.

MESDAMES FLANNERY AND NOEL ENTERTAIN

Mesdames Gias. Flannery and Thos. E. Noel entertained with 12 tables of bridge Friday evening, Sept. 23 at the home of Mrs. Flannery on North Tenth Street. High score for the ladies went to Mrs. James E. Bass and second high to Mrs. Sam B. Foxall. High score for the gentlemen went to Sam West and second high to Jack Figh. A dainty two course lunch was served.

SENIOR GIRLS' CLUB

The Senior Girls' club held its first meeting at the home of Edna Gerlach, Thursday, September 22. New members were initiated into the club. The officers for the ensuing year were elected, then, refreshments were served. A great time was enjoyed by all.

The officers for the year are: Edna Gerlach, Scope-in-chief; Ina Mae Shannon, Brigade Scope; Maidee Thompson, Secretary-Treasurer; and Jeanette Dennis, Scribe.

HARMONY CLUB MEETS

The Harmony Club held its first meeting of the new Club year Wednesday afternoon at the home of Mrs. M. McNeely on West Main street with Mesdames M. McNeely and L. B. Madden as hostesses. There were thirteen members present and two guests, Mesdames S. S. Montgomery and J. Hardin Mallard. Mrs. Mallard was elected to membership. After the business session the following program was given on Texas Musicians:

Leader—Mrs. Morgan. Roll Call—Texas Composers. Duet—Mesdames Clyde Milam and Mary Robertson.

(a) Poem, 'Blue Bonnets.' (b) Piano, 'Reverie, Blue Bonnets,'—Mrs. M. McNeely. Voice, 'O, Perfumed Wind'—Mrs. Bass.

Piano, 'Western Suite,'—Mrs. Greene. Texas Poems—Miss Cooper. Round Table Discussion Led by Leader.

Chorus, 'The Eyes of Texas are Upon You'—Club. The hostesses served a delicious salad course.

O. E. S. CHAPTER MEETS

Regular meeting of the Memphis Chapter No. 351 meets at Masonic Temple Tuesday evening Oct. 4 at 7:30. All members are urged to be present.

AUDREY NEELY, W. M. NORA TIPTON, Secretary.

BAPTIST W. M. S. SOCIAL

The W. M. S. met in a social meeting at the home of Mrs. Bascom Davenport Monday afternoon. The splendid missionary program rendered on the subject of Medical Missions was as follows:

Devotional—By the Leader, Mrs. Henderson Smith. Prayer for our Missionary Doctors and Nurses, led by Mrs. Geo. Thompson.

The Medicin Misionary—Mrs. A. Baldwin. Hospital Evangelism in China, by Mrs. Scott Sigler.

Our Hospitals in Africa, by Mrs. Claude Johnson. 'Love Her Largest Fee,' by Mrs. Vernon Jones.

A prayer for Home Hospitals, offered by Rev. E. T. Miller. Hospital Evangelism at Home, by Mrs. Sam Foxhall.

Timid Clara's Great Success, told by Mrs. Sam Harrison. Red Cross Work, by Mrs. J. H. Harrell.

Closing Prayer, Mrs. J. S. McMurry. After this very interesting program a pleasant social hour was enjoyed, when a delicious plate lunch, consisting of chicken salad, on lettuce, potatoe chips, tomatoes, olives, hot rolls and coffee was served.

The hostesses who thus so ably entertained were Mesdames Bascom Davenport, Hollis Boren, Joe Webster, A. W. Howard and H. H. Lindsey.

METHODIST MISSIONARY SOCIETY MEETS MONDAY

The Woman's Missionary society of the Methodist church met in business meeting Monday afternoon at the church.

A regular routine of business was transacted and the officers gave their reports.

SENIOR EPWORTH LEAGUE

The Senior Epworth League of Memphis and the Senior League of Plaska will give the following program in Lakeview Sunday evening: Subject: 'Co-operating with Our Volunteers.'

Song Service. Scripture Lesson; Matt. 9:35-38—Clemie Cooper.

Prayer for a vision of World Need and World Responsibility—Rev. H. L. Wheeler. Special Music—Mr. and Mrs. E. H. Martin.

Review of League Missionary Lesson—Wanelle Hoffman. Life of John Caperton—Maude Worsham.

Life of Harry Hughes—Mattie Mae McMaster. What is the Hughes-Caperton Memorial—Fannie Mae Orr.

Growth and Future Plans of the Memorial—Ruby Hoffman. Reading—Mrs. John Lofland. Church-wide Self-Denial Week—Melvin Jones.

League Benediction. Reorganization of Lakeview League.

BAPTIST CHURCH

Last Sunday was a good day with the First Baptist church. The morning congregation was well attended. The evening service was in charge of the young people. They rendered a very impressive program to the inspiration and delight of many despite the heavy rain during the service. One young man found the Lord in the service.

We are preparing for another great day next Sunday. Special music for both services is being arranged. The pastor will baptize at the close of the evening service.

Our regular order of services is as follows: Sunday school, 9:45 a. m. Preaching service, 11:00 a. m. B. Y. P. U., 6:30 p. m. Preaching Service, 7:30 p. m. Prayer meeting, Wednesdays, 7:30 p. m.

HOW TO GET FALL EGGS IS TOLD BY F. W. KAZMEIER

Last Monday the Commission Court of Hutchinson County sold their \$1,250,000 of road bonds to the Brown-Cremmer Co., of Wichita, Kansas at par and a premium of \$15,000.00 besides. They are preparing to go right ahead with their paving, state aid or no state aid and I understand that the contract for the big bridge across the Canadian River at Electric City will be let right away. There is no doubt but that this highway, which begins at Panhandle and runs northwest through Carson, Hutchinson and Hansford counties to the Oklahoma state line will be one of the best and most traveled highways in Texas, not only because it is an attractive scenic route, but because it traverses the greatest oil field in the world.

Hutchinson county has been admittedly moist in spots for some time, but take it from a ring-side spectator, old Jupiter Pluvius has sent Old Sol to the mat for more than any fourteen seconds, after a ten days, or ten round, battle, and this entire section is soggy and groggily wet. I went over to Berger last Friday, the 16th and got caught over there by a toad strangler. I started home after it slacked up and I had negotiated about half of the distance to Phillips at the rate of a mile in five hours when I heard a car honk behind me. I had already been given the high-ball by something like seventy-five cars since leaving Berger and so I began to give this one room as I had done the others, when it began to slow down and after doing the pigeon wing, the figure "8" and several other fancy figures on the slick ground, it came to a stop.

Then I saw it was the Baptist preacher who yelled "Climb A-Board" and I climbed. That two miles and a half of road presented a scene which beggars description. It was literally jammed with cars stuck in the ditch and out of the ditch. However the preacher and I made it to within about half a mile of Phillips where there is an unusually bad stretch of road which was so choked with stranded cars and trucks we couldn't go any farther. The preacher began a frantic

effort to make a safe landing and the little Chevy after doing the Charleston and the Highland Fling finally came to a stop between a big ruck and a car about half in the ditch. "Well, well!" said the parson. "Did you ever see the like?" "Yes," I remarked dryly, "I see a whole lot of folks here in the congregation in the same fix we are." We finally got away from there but I have wished ever since I had been a mind reader so I could have read that preacher's thoughts when he would try to start the car and the hind wheels would Whizz around like an old-fashioned spinning wheel, and then stop. On each recurring failure to pull out he would invariably remark: "Did you ever see the like," or "Don't that beat you."

The sun made a feeble effort to shine the next day but on Sunday morning I was awakened about day break by big drops of rain on the tin roof and crashes of thunder. It was soon coming down in a sluice, which lasted all day. It has rained so many times since then I have lost the count but on Thursday night about the time the returns from the big fight began to come in, Old J. Pluvius put on an extra big show as if he was reserving it for that special occasion.

I do not go strong on prize fights myself, but I have had a good deal of quiet fun at the antics cut by some of the enthusiastic Berger fight fans. In the first place the Berger fans were overwhelmingly for Dempsey and Tunney men were extremely unpopular. For several days before the fight, if one wanted to start a riot all he had to do was to intimate or insinuate that Tunney might win.

I was in Berger the day before the fight and it seemed like everybody had a roll of long green to bet on the fight. The odds were five to one on Dempsey. After making a few observations and deductions I decided that the odds offered by the Dempsey men were governed almost altogether if not quite, by the number of drinks or cold bottles the fan had imbibed or absorbed. Two to one meant he had two

drinks under his belt and five to one indicated that the fan had flushed his inwards with more home brew than was good for him and had probably been mixing his drinks. One fellow, who had evidently about gone the limit, came into the drug store where I was with a roll of green backs clutched tightly in his hand and fell up against the counter saying: "Any Tunneyish monish in here? Whoopee! Five to one!"

Senator Curtis

Dempsh knocksh h—I out of 'im." But the funny part came after the fight was over. I understand that some of the Dempsey men began to collect their money before Tunney got up after being knocked down in the seventh round. For some time after Tunney was given the decision it was dangerous for a Tunney man to be safe in Berger and some Tunney men haven't cashed in on their winnings yet.

A squad of four rangers quietly dropped into Berger a few days ago without asking anybody's permission to do the dropping act. Almost before their presence in the city was known they had rounded up about forty vags and brought in an 85 gallon still together with two men who were operating it. There was considerable dismay and consternation among the denizens of Berger's underworld but they were heartened somewhat by the announcement of Capt. Harrell that this was just a little pop call. Many of the better citizens of the town think that these sudden appearances of the rangers will have a salutary effect upon the evil doers for, as the Bible puts it, "For in such an hour as the evil doers think not" the dreaded rangers will swoop down on them and so make them watch their step.

I am sure that an occurrence like this should not be put down to the discredit of Berger as it is pretty safe to say that a company of rangers could snoop around a little and locate a still in the vicinity of most any other town of any size in the Panhandle. And furthermore it is a safe bet that the number of road hands in the county convict camp would be considerably augmented by a visit from the rangers to most any community.

District Court is still grinding over at Stinnett. One murder case was continued on account of the absence of one of the attorneys for the defense; and another was continued on account of the absence of the defendant who was out on \$7,500 bond. This was the man who killed Roy Martin at Pantex just before I came to Berger.

A young flapper nurse working in the Berger hospital was summoned to appear as a witness in a criminal case which was set for trial at Stinnett last week. When the names of the witnesses were called this young woman was conspicuous by her absence. Judge Willis ordered the sheriff to get a writ of attachment and bring the young woman in forthwith if not sooner. When the sheriff arrived at the court house and ushered the refractory damsel into the august presence of the Court, his honor assumed his most austere judicial mien, probably reserved for such occasions and inquired: "Young lady, why did you not obey the mandate of this court and appear here with the other witnesses in this case?" The young woman replied that the doctors she was working for would not let her come. "Well," continued his honor, "do you realize that you are in contempt of this court, which constitutes a serious offense?" "Oh, no sir," she replied sweetly. "I didn't know I was doing anything like that." "Twenty-five dollars!" snapped the court. "Is that all, Judge?" she asked as she fished a roll of bills out of her handbag, "and may I go now?" "The court will excuse when the testimony in the case has been

taken. You are now placed under the rule and in the custody of the sheriff until you are dismissed," replied the court.

Since I have been writing the last few pages a regular water-spout abs just passed around to the east. I judge from the roaring there was considerable hail MORE—or wind in that cloud. We just got a shower here. By the way, I guess you have noticed in the paper that they are planting the whole Plains country in wheat this fall. I know of one farm in Hemphill county east of here on which 2000 acres of wheat is being sowed. They have been running four tractors and breaking and sowing 200 acres a day.

Speaking of sowing wheat, reminds me that I read in some paper yesterday that the farmers in Alberta and Manitoba, Canada were rushing to get their wheat harvested with five or six inches of snow on the ground.

Night before last, Friday the 23rd, Hutchinson and adjoining counties were rocked by the explosion of 620 quarts of nitroglycerine in a magazine about 4 miles west of Berger and about the same distance southwest of Phillips. I retired about ten o'clock and the explosion occurred at eleven o'clock just after I had fallen asleep. At first, I was not real certain whether the end of the world was coming or that I had been hit by Jack Dempsey. At any rate it was a terrific jolt and buildings shook and the tanks rattled. For a few minutes I was considerably rattled myself. When I finally got back to normal I decided that every boiler in Phillips had blown up at once. The magazine was located about a mile from Electric City and the town was pretty badly wrecked. Parties who have been out there say the explosion tore a hole in the ground as big as the one caused by the explosion six months ago. When a magazine blew up about a mile west of Berger and shattered the town, Herbert Powell said he was driving out that way that night with a man and was within three or four hundred yards of the magazine when it blew up, and they were looking at the building and talking about it. He said that the car felt like it was being jerked to pieces and he thought his time had sure come.

I went to church today (Sunday) and heard a splendid sermon by the Evangelist, Joe Jeffers. He and his party were to have been here last Sunday but the excessive rains and sickness prevented them from getting on the ground until yesterday. I intended to go back tonight but a big cloud came up just before night. We had a hard shower here but they must have had a storm over about Pampa from the looks of the cloud.

J. M. WILLBORN
P. S. I began this letter Friday and am finishing it Sunday night.

GILES GLEAMINGS

Mrs. R. N. Beckham and her daughter, Miss Mildred and son, Doc of Memphis were here Saturday afternoon visiting in the L. A. Hix home.

Mrs. E. M. Glass left Friday night for Kerens where she will visit relatives for several weeks. Bernie Johnson had the misfortune of his Ford roadster catching afire and burning up last Friday afternoon.

Mr. and Mrs. Harvey Stotts and little daughter, Peggy Zo, returned home Friday night from Alford where they visited relatives several days.

Mrs. John Lemmon and son Robert visited relatives in Hedley Saturday afternoon.

L. E. Beckwith was in Wichita Falls last week visiting his son, Rollie Beckwith and family.

Miss Mayme Wood spent the past week end in Clarendon visiting her parents, Mr. and Mrs. A. N. Wood.

Mr. and Mrs. R. M. Ellis and Mr. and Mrs. Earl Ellis and children returned from East Texas last Friday where they had been visiting relatives for several weeks.

Mr. and Mrs. John Evans and Benjamin Kyle of Amarillo are here this week visiting in the J. B. Evans home.

Mr. and Mrs. Frank Simmons, Grandmother Hill and Grandmother Simmons visited Mr. and Mrs. A. L. Simmons Sunday.

Miss Lovell Johnson entertained the young folks of Giles with a party at her home Saturday night.

IT DRIVES OUT WORMS
The surest sign of worms in children is paleness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price 35c. Soled by Leverett-Williams Drug company. 10-5t

Owen Field and Misses Thelma Shankle and Lena McLearn were visitors in Childress Sunday.

Try a sack of American Beauty flour, you get it at Womack's Grocery. 12-1f

SHEEP RAISING

College Station, Texas, Sept. 27.—Evidence that careful breeding of sheep over a long period of time is profitable is found in the California sheep industry, according to J. M. Jones, chief of the division on animal husbandry, Texas Agricultural Experiment Station, who returned recently from Sacramento, Calif., where he attended the California State Fair and officiated as judge of the sheep exhibits.

Mr. Jones reports that some California breeders have been

breeding up their sheep for many years and that the quality of the animals exhibited bears out the profitable results of this practice. He said that one California ram lamb sold at auction for \$2,000 at the National Ram sale at Salt Lake City which he attended.

Mr. Jones also judged the sheep exhibit of the Southern Utah Ram-bouillet Sheep Breeders Association at Parowan, Utah, last month. He says that Texas sheepmen are the best customers of the sheep breeders of Utah and California and that some of the best blood coming to Texas sheep herds is

from those sources.

FOR WOMEN

The best of health is yours when you use Williams' Pink Pills. They feel large and strong and are getting better symptoms night and day. It is just what you need to take a course in health. Price 60c. Sold by Williams Drug Company.

Sale of 38,000 Acres

Another one of the group of Mill Iron Pastures is open for sale on satisfactory terms that the W. E. Hughes Estate has been selling its land in Collingsworth, Cottle, Hall, Motley and Wheeler Counties for a great number of years.

The 38,000-acre block of land is the well known C. V. Pasture, west of Childress, northwest of Dunlap, and a few miles of Tell.

There are hundreds of small farms and small stock ranches to be had on this large pasture.

What an opportunity to pick out a farm or ranch from such a big block of land.

The earlier you make arrangements to make your choice the greater the advantage you will have to choose from.

Complete information and data can be had from

There's... her score or... universities... the continent... "I don't... I good for?"

"I don't know." "What am I going to do after school days are over?" "I don't know." "What is my talent?" "I don't know." "How can I find out?" "I don't know." And your decision this week may probably fix your fate for life. First, upon your decision this week will depend to a very great extent your degree of success or failure. And on your success or failure will depend your happiness or disappointment in life. Somewhere out there in the distance is a PLACE waiting for YOU. It may be a home. It may be a business career. It may be a professional position. It may be some form of social service. It may be the combination of a home and some other work. Marriage and a home is no sure sign of protection. Look at the women around you that have had to take up all kinds of work to hold their homes together in the face of tragedy. The only safe and sure life insurance for any woman in this day is a thorough training to face not only domestic problems but economic problems as well.

A university course should be just like a bank account placed on deposit to draw from on demand. Your college course may cost you anywhere from two to four or six thousand dollars, and a few years of time. But there may come a day in your life when it will be worth a hundred thousand dollars to tide you over a crisis and hold your home together. Who knows. You don't. But it pays to be prepared. Women as well as men. And now the time has come for you to invest a few hundred dollars and a few years of time in your own self to meet that day. In the meantime you will be the better prepared to enjoy life as the years go by.

But how shall I invest my time money in myself? That is the question thousands and thousands of thoughtful girls are asking themselves this week. There has been millions and millions of dollars wasted on education because neither girls or boys knew how to settle this problem. And not only millions of dollars but thousands of years of time in the lives of our young people have been literally thrown away trying to learn the wrong thing. Trying to force youth to master something for which their nature was never intended. Thus wrecking what might have been a beautiful success by forcing young men and women to be miserable failures. All because they got started off on a wrong as well as a domestic door college course.

Will parents, college leaders, university directors and curriculum creators ever learn that it does not make a particle of difference what studies boys and girls take when they go to college just so those studies are unfolding that boy's and girl's best self and leading him or her toward their highest and most useful life? But all this and not a word about how to tell what to choose. That no one knows except yourself. And you don't either if you have never studied yourself.

It's Scientific

Martha Lorber, Broadway stage star, has had several "hats" like this molded out of vitaglass to preserve the vigor of her hair. The glass, you see, keeps the dust off and lets through the sun's ultra-violet rays which doctors say are very beneficial.

STUDEBAKERS TAKE LABOR DAY HONORS

"Labor day was a great day for the Studebaker Commander," said Raymond Ballew, local Studebaker-Erskine distributor. "First came the news that on that day two stock Studebaker Commander Sport Roadsters ran away with the laurels at Atlantic City by placing first and second in the 75-mile stock car race. Ralph Hepburn, piloting the winning car, sped around the mile and a half oval at an average rate of 85.95 miles per hour. He was closely followed by Eddie Hearne in another Commander Sport Roadster who placed second with an average speed of 84.585 miles per hour. Third place went to a Chrysler 72 and fourth to a Buick Master Six. Hudson, Nash Advanced and Chrysler 70 were also entered but failed to finish.

"Now we learn that, also on Labor Day, a stock Commander Sport Roadster, driven by Chuck Meyers of Colorado Springs, took second place in the annual Pike's Peak Hill Climb. The Commander was beaten out of first place by only 48 seconds by a car costing more than double the Commander. "The run started at Crystal Creek bridge on the Peak highway, five miles up the mountain—and finished at the top of the peak. The total distance was 12 miles, plus 2200 feet. The Commander's time was 22 minutes, 47 seconds, or an average of 33.14 miles per hour. The car climbed 4754 feet in the course of the run—starting at 9,355 feet above sea level and finishing at an altitude of 14,109 feet.

"The Commanders in both races were checked by officials of the American Automobile Association and pronounced strictly stock models in every respect. "These two races are even more significant," said Mr. Ballew, "in view of the fact that only three days previously, on September 2, still another Commander—a stock enclosed sedan driven by Ab Jenkins, completed a transcontinental run and lowered the ocean-to-ocean record by driving from Tottenville Ferry, New York City, to Carquinez Bridge, San Francisco, in the elapsed time of 77 hours and 40 minutes—2 hours and 15 minutes under the previous record.

watched yourself, had faith in yourself, invoiced yourself, and found out what your own inclinations are. Perhaps you have some idea what you DON'T want to be. That will help a little. Too often youth looks at somebody else and decides to be like them, instead of being yourself. That's one of the greatest temptations and stumbling blocks in the early development of college students. Look what has happened since Lindbergh flew the Atlantic. Don't copy anybody. Be yourself. Study yourself and then educate your best self. No one knows your innermost life but YOU. You must make your own decision and then head toward your goal.

FOR WORKING PEOPLE The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by Levrett-Williams Drug Co. 10-37

Cooking Chats with 6 Famous Cooks

Carolina and California Meat Recipes which Satisfy

(Editor's Note: This is one of a series of cooking articles by 6 famous cooks.)

"Almost everyone enjoys meat," says Miss Rosa Michaelis, the New Orleans cooking authority. "It's highly nutritious, because of its high protein content. It contains valuable fats, mineral salts, and important vitamins.

MISS ROSA MICHAELIS

Carolina Broiled Steak

"Steak is especially good when prepared Carolina broiled. Be sure to select a tender steak, preferably 1 1/2 inches thick.

"Have the skillet piping hot, and salted. Put in the steak, searing it quickly. Turn often. Use two forks, and try not to puncture the steak. Keep all the juices in.

"Steak should be cooked rare in 10 minutes. Well done in 15. When done as you prefer it, place on a heated platter. Season with pepper and butter, and serve piping hot."

For frying steak you need a very hot fire. If you use an oil stove with long chimney burners, you will get most satisfactory results by turning the flame until yellow tips appear, about 1 1/2 inches high above the blue area.

California Peppers

Mrs. Belle DeGraf, San Francisco home economics counsellor, is very fond of California stuffed peppers and West Coast pot roast.

For the former, select short, plump peppers; cut off tops and remove seeds. Put in a saucepan and cover with boiling water to which has been added a bit of soda the size of a pea. Let peppers stand in water about 10 minutes. Drain and place each pepper in a greased muffin pan. Then fill with the following mixture:

Mix 1 1/4 cups boiled rice with 1 cup of minced ham and 1 cup of savory sauce. Add 2 tablespoons of melted butter to 1/2 cup of dry fine bread crumbs and place on top of filling. Serve with sauce.

West Coast Pot Roast

Select not less than 4 pounds of beef from the round. With a sharp-pointed knife make deep incisions and force in stuffed olives. Make about 15 incisions. Sprinkle meat with salt and pepper then dredge with flour.

Heat 2 or 3 tablespoons of beef drippings and brown meat on all sides. Then add 3 cups of boiling water, 1/2 teaspoon salt and one onion for each person. Stick 2 whole cloves in each onion and add 0 meat.

Cover closely and cook over a low flame under boiling point until meat is tender, about 3 hours for each pound of meat. Keep about the same amount of water in the kettle, adding more as it cooks away. When cooked, remove meat and onions and thicken gravy.

The best oil stoves are designed for woman's convenience and comfort. Their cooking surface is 32 inches from the floor, just like a kitchen table. This makes bending or stooping totally unnecessary.

Veal Birds

Try veal birds once, and you'll want to cook them often in the way suggested by Mrs. Kate Brew Vaughn, director home economics department, Los Angeles Evening Express.

6 slices veal off loin cut thin (1 1/4 lbs.) Flour, salt and pepper to taste 4 tablespoons bread crumbs Savory Dressing 1 tablespoonful lemon juice 1/2 onion 2 tablespoonfuls butter 1/2 cup cream

Brown well on one side. Dredge with flour, salt and pepper and put in the center of each a tablespoonful of bread crumbs seasoned with savory dressing and a few drops of lemon juice and onion (1/4).

Bring the birds together as nearly in the shape of a bird as possible and tie with a strong string. Fry slowly until a golden brown in two tablespoonfuls butter in a pudding pan. Then cover with 1/2 cup cream. Place in hot oven for 20 minutes (450° F.). Remove the cover from the vessel and allow to brown for seven minutes. The drippings in the pan may be used for gravy, if liked.

Ham and Raisin Sauce

Ham with raisin sauce is delicious, and can be cooked in 50 minutes according to Mrs. Vaughn's recipe. 1 slice ham (1 lb. 1/2 oz.) 1 cup brown sugar 2 tablespoons cornstarch 1/2 cup water 1/2 cup vinegar 1/2 cup raisins

Place slice of ham in oven 400 degrees F. in a small baking pan. Mix sugar, cornstarch in saucepan and add water and vinegar slowly, stirring until thick. Add raisins. Cook ham for 40 minutes, pour the raisin sauce over ham and continue to cook for 10 minutes longer.

Mildewed linens may be restored by setting and soaping the spots. Then cover with finely powdered chalk and rub it in well.

(Be sure to read next week's cooking column for more good recipes.)

NO MORE DULL SEASONS

Once an ingenious merchant discovered that the logical time to advertise was when business was slow and in the periodic dull seasons of the year. Ridiculous as it may seem, before that discovery the average business man slowed down in his advertising when business slowed down. He generally ended up the dull seasons with a quarterly sale, but as far as his newspaper advertising was concerned there was no advertising when there was no business.

The modern business man holds a different conception of the purpose and uses of newspaper advertising. When business is not up to his satisfaction he brings it up through increased advertising so that now the merchant, schooled in productive advertising, knows no dull seasons nor diminished business.

There are a few phases of business which have always been known to all business men. Among these are the alternating busy and dull periods of the year, month, week and day. A systematic, effective and economic plan of advertising had to be constructed upon a full knowledge of this business cycle. Business has ever come without coaxing before Christmas, at Easter time, and in the fall. Extensive advertising has been found to be the only remedy for the business depression epidemic between these three rush periods. People have a habit of confining their shopping to the last of the month, the last three

days of the week and the later shopping hours of the day. From experience merchants have learned that newspaper advertising has successfully eliminated the rush periods and spread

the volume of business more evenly over the day, week, month and year. It has prevented congestion, simplified salesmanship and merchandising and increased business.

MORE ECONOMY

—THAT'S WHAT USERS OF NEW METHOD GAS STOVES CLAIM.

"This is the last bucket of coal I haul. Me for GAS."

And we know it's a fact that New Method stoves save consumers 20 to 40 per cent on their gas bills each month.

Let us demonstrate to you ranges that will prepare your meals quicker and in more digestible form, and heaters that will keep you warmer this winter at less cost.

Many different models—a size for every purse.

QUALITY FURNITURE

Steak sears instantly

- Rare—10 minutes
- Medium—12 minutes
- Well-done—15 minutes

Ready in 10 minutes Steaks cook "right to your taste" on the latest Perfection Stove!

Touch a match to the wick. Intense, gas-like heat pours up the long chimney. Heat covers the entire cooking surface of skillet or broiler. It's not focused on one tiny spot. That's why steak is always so well cooked on the newest Perfections. Only 10 minutes to fry a steak 1 inch thick! For best results use a flame with yellow tips 1 1/2 inches high above the blue area.

Perfection Stoves give best results for all kinds of cooking—frying, broiling, toasting, boiling, baking. They burn kerosene, the safe fuel. Ask any dealer to demonstrate.

Miss Rosa Michaelis says— "Steak cooks thoroughly, brown and juicy, on the Perfection Stove." MISS ROSA MICHAELIS New Orleans Cooking Expert

New color combinations, many with porcelain enamel tops. Perfections are priced from \$7.25 for a one-burner stove to \$130 for a five-burner range.

PERFECTION STOVE COMPANY Dallas Branch—825 Trunk Ave.

PERFECTION Oil Stoves & Ovens

WARNING: Use only genuine Perfection stoves on Perfection Stoves. They are stamped with red rectangles. Others will cause trouble.

No smoke, soot or odor with Perfection long chimney burners.
