NUMBER 52

## FIFTEENTH ANNUAL CONVENTION COLORADO-TO-GULF TO MEET AT CLARENDON MONDAY-TUESDAY

Plans are being completed in Memphis, according to George A. Sager, secretary chamber of commerce, to send a large delegation from here to the convention of Colorado to Gulf highway association, to be held in Clarendon, June 27 and 28.

Sager says this is the fifth annual convention of this association, and that a wonderful development in the highways in this section of the state has been since its organization.

Members of Memphis are urged to take their cars and go to this two-day convention, Clarendon is preparing to entertain a hundred delegates to meeting and Memphis will be part toward making the convention one of the best ever.

Allen Wikoff of Clayton, N. president of the association now in Clarendon, according to reports, making final arrangements for the meeting.

The program filled with speakers of national repute, includes Congressman Marvin Jones of Amarillo and Congressman John Morley of New Mexico. In addition these speakers will be others coming across the State to hear.

The Clarendon chamber of commerce has arranged a golf tournament, with a fifty dollar prize for the winner, for delegates attending the Colorado Gulf Highway convention. C. H. Walker, president of the association, one of the leading golf men in northern Texas, was the first to believe the golf prize.

The Clarendon chamber of commerce believe the golf prize to be the first ever staged by leading players along the Colorado Gulf highway prize.

### NOTICE BOY SCOUTS

Boy Scouts are requested to every Tuesday and Fridays at the library for Drill.

### ROAD BONDS IN CHILDRESS LOSE; LACK 32 VOTES

Childress, Texas, June 21.—The county road bond election here today resulted in defeat for the bonds, which lacked just 32 votes of the required two-thirds majority. The vote was 758 for, 395 against, with five precincts holding no election.

Kirkland, a community which is on the Colorado-to-Gulf highway which was to have been paved with the proceeds of the bonds, went against the bond issue 81 to 28, this being enough to bring defeat of the proposition. All four Childress boxes went heavily for the bonds.

Success for the bond issue would have assured a hard-surfaced highway from the east line of Donley county to Forth Worth, as all counties except Childress have either paved their portions of the highway or voted bonus for paving.

### WELLINGTON MAN ELECTED ESSAYIST

Mr. and Mrs. Deskins Wells returned Monday from the annual convention of the Texas Press Association which met in El Paso. The next convention will be held in Texarkana. Two Panhandle editors were elected for the coming year. The list of the officers follows: George Neu, Brenham, president; Ed Carlock, Paducah, vice-president; Sam Harben, Richardson, secretary; Ben Har- rigel, La Grange, treasurer; Clarence Gilmore, Austin, attorney; E. G. Senter, Dallas, historian; Deskins Wells, Wellington, essayist; R. H. McCarty, Albany, orator; Mrs. Lee J. Rountree, Bryan, poet.—Wellington Leader.

After attending the annual convention of the Texas Press association at El Paso last Thursday, Friday and Saturday, Mr. and Mrs. J. C. Wells left there for a vacation trip to points in California. Word came today that they were in Los Angeles and would be there until Sunday.

### STEPHENS FUNERAL HELD SATURDAY

The funeral of Hubert B. Stephens, 22 years of age, son of Mr. and Mrs. A. C. Stephens of Lakeview, was held Saturday afternoon at 2:30 at the First Baptist church at Lakeview, the Rev. E. T. Miller, pastor of the First Baptist church of Memphis, conducting the services. Burial was in the Lakeview cemetery.

Mr. Stephens died at Raton, N. M., Thursday, June 16, where he had gone for the benefit of his health about two weeks ago. His body was received in Memphis Saturday morning by the King Undertakers. The young man was known in the Lakeview community, having lived there practically all his life, and had many friends. He is a nephew of Hollis Boren of this city.

Miss Willie Guinn spent last Saturday night and Sunday at Amarillo.

### DELEGATE RETURN

Miss Margaret Milam returned from Austin last Friday where had attended the Grand Assembly of the order of Rainbow. Miss Milam was Grand director and sang two solos meeting while in session.

## THE GREAT AMERICAN HOME

THE MASTER MECHANIC

## FAMILY REUNION HELD; FIRST IN TWENTY YEARS

On Father's Day, at Eli, a family reunion was occasioned, the first reunion of the Rev. and Mrs. J. P. Wheeler in twenty years, and their ten children together with their grandchildren and "in-laws" were present. The children began arriving on June 15, and the family enjoyed many luncheons and dinners together before the occasion Sunday, and several pictures were made of the family.

The Rev. J. P. Wheeler was born in Springfield, Mo., and is 72 years of age, and Mrs. Wheeler is a native born Texan and is 64 years of age. Their children are scattered over four different states, and no death has occurred in the family.

The elderly couple accompanied by their children, attended church at Eli Sunday, where their oldest son, Rev. Henry Wheeler, is pastor of the First Methodist church, and he preached a "Father's Day" sermon, appropriate for the occasion, after which a picnic lunch was enjoyed by the following:

Mr. and Mrs. E. E. Wheeler and two children, Sedalia, Mo.; Mr. and Mrs. C. C. Wheeler, Emboden, Arkansas; Mrs. K. Stephens, Roswell, N. M.; Mr. and Mrs. Harry Jones and two children, Houston, Texas; Mrs. Mervin Burks, McLean, Texas; Rev. and Mrs. Henry Wheeler and two children, Alaska; Mr. and Mrs. Frank Wheeler and three children, Lakeview; Mr. and Mrs. Jim Webster and three children, Mr. and Mrs. Roy Webster and five children, Mrs. Virginia Seals and son, all of Memphis. The following are grandchildren: Mr. and Mrs. Cloyd Messer and daughter, Mr. and Mrs. T. Jeff Messer and daughter, of Friendship. The guests present other than children and grandchildren were: Miss Edith Seals, Mr. and Mrs. C. R. Webster, Mrs. D. P. Webster, W. D. Orr, Othar Fitzjarrald, all of Memphis; Mrs. Lizzie Gay, Charlie, Texas; Mr. and Mrs. Ed McMurry and son, and Mr. and Mrs. Biggers, Plaska, and Earl Alderson, Clarendon.

Sunday afternoon was spent in rehearsing childhood days at home and singing, and the song especially enjoyed by all was, "Dear Old Daddy."

Here is hoping that this aged couple will live many more years.

## FARMERS UNION SUPPLY ROBBED FRIDAY NIGHT

Burglars entered the Farmers Union Supply Co. Friday night and carried off merchandise amounting to about \$300, it is reported. The merchandise missing consists of smoking tobacco, cigarettes, dry goods and other articles. No cash is reported missing.

The thieves gained entrance to building by using a crowbar, breaking two locks. No trace as yet has been found of the burglars.

### RETURNS TO ROSWELL

Mrs. O. K. Stephens returned to her home at Roswell, N. M., Monday after a visit here with her parents, Rev. and Mrs. J. P. Wheeler and other relatives. She was accompanied home by her brothers, Rev. Henry Wheeler and family, Mr. and Mrs. Carl Wheeler. After a visit at Roswell they will go to the mountains in N. M. for an outing and vacation trip.

## TRIP TO CAVE AT CARLSBAD INTERESTING

The following letter describes a trip made by Mr. and Mrs. J. C. Wells to the Carlsbad Cavern, while they were on their way to El Paso to attend the State Press Association:

"Well, here we are back in Roswell after the most strenuous day we ever experienced. We ate breakfast at 9 a. m., got in our car and drove 30 miles southwest of Carlsbad to the Carlsbad Cavern. Struck low range of mountains and started up a draw (the road is a State road and fine) and after going a short distance we began to circle and climb and first thing we knew were making hair-pin turns and each time could see the road above and below; it was like Pikes Peak, only the distance was not a starter; finally came out on top of mountain at end of road. Here stood some 20 cars, and people buying tickets for the Cavern trip. The government has charge of the Cavern and has spent several thousand dollars equipping an electric light machine to light the Cavern, and in making stairways and paths. At 11:30 we, with 100 others with five or six guides started from the station to a gap in the wall some 100 feet below. This opening is as large as the Memphis court-house, shell-shaped and would look more like a than anything else I can describe. Here the head guide to what to

(Continued on page 2)

## SAVE MONEY BY SCHOOLING ILLITERATES

BY SUPT. S. C. MILES

Three million persons now counted as illiterates have lived in the United States during proper school age. Three million native-born and million foreign-born illiterates live within our midst. By some kind of neglect in providing schools or in making education seem worth while, these three million of our native-born population have had no schooling whatever.

Without considering the wider, finer life that would result from an education, it would be a good business investment to educate our illiterates. The time and money would be well spent. Low earnings capacity and low average illiteracy. Education produces wealth. That alone is sufficient argument, though not the only one, why the state should see to it that every child of school age is in school and kept in school until he has acquired at least the rudiments of an education.

High school education has a money value to farmers. Many parents in rural communities are debating whether they should send their boys and girls who completed the courses in the small district schools last spring to a high school this fall. One question they ask is, "Will it pay in dollars and cents?"

The United States Department of Agriculture and the various State agricultural colleges have made a number of investigations of the differences between the incomes of educated and uneducated farmers. All these studies show that in the majority of cases the better-trained farmers receive the better income.

In three representative areas in Indiana, Illinois, and Iowa tenant farmers with a high-school education receive an average income of \$526 a year more than the men with only a common-school education. A college education adds to this average \$433 a year, making the income of college graduates \$979 more a year than the earnings of the men with only a common-school education.

Cornell University has estimated that a high-school education is worth as much to a farmer as \$6,000 worth of bonds bearing five per cent interest, and that a college education is worth twice that amount.

Industrial plants frequently install new types of machinery at great expense to replace other machinery that is by no means worn out. They do this because the new machines are more efficient and reduce costs so that larger dividends are possible. In

(Continued on page 2)

## GREAT INTEREST BEING SHOWN IN BAPTIST REVIVAL; JENKENS PLEASES PEOPLE WITH SERMONS

### METROS SWAMP MEMPHIS WITH BASSETT GOING

The Amarillo Metros got on their hustling clothes Sunday afternoon, and with Memphis showing up with a team not so strong as advance notices would indicate a rather one-sided baseball game, as far as the score is concerned, resulted at Metro park. The Metros won by a score of 13 to 0.

Carter Bassett made what is probably a local record in semi-pro baseball when only 31 men faced him for 27 putouts. Five faced him in the first inning and five in the ninth, with only three in the other seven innings. Memphis only registered six hits.

Richards, who opened the game for the visitors, started out like he was going to have a great day, striking out five men in four innings and holding the Metros scoreless until that frame. But he weakened and was relieved by Sullivan, who had been receiving him.—Amarillo News.

The series of meetings which are being conducted under the Baptist tabernacle, got off to a fine start from the first service. Due to the week of prayer by the members of the church prior to the meeting, which was largely attended and where great interest was shown, the people were ready for the first service. Large congregations attended Sunday's services. Many were out Monday morning.

Dr. Jenkins arrived Monday evening for his first service and spoke to a crowd that filled the tabernacle. Several made professions of faith and joined the church in this first service. Tuesday's services were well attended and the fine interest had grown until others were saved and came into the church at the evening service. More than a hundred people went to church through the rain Wednesday morning. Dr. Jenkins has already captured the people with his warm, gripping, and heart-searching messages. The good people of Memphis are rejoicing that they are to have this great minister and humble man of God to lead them, and speak to them during the meeting.

### GOOD RAIN FALLS AT QUITAQUE SUN.

Quitaque, June 21.—With practically one and one-half inches of rainfall, crop conditions in this section have been decidedly benefited.

According to the wheat raisers the grain crop has practically all been harvested. The yield is much better than was expected thirty days ago.

Many farmers in this section that planted before the rain say they have a good stand of grain sorghum, and will be benefited considerably by the rain.

It is the general opinion of the farmers that there is plenty of time yet for a feed crop to ripen before frost if planted by the first of July. It is the opinion of many that if this country gets a late frost that much cotton will be made if planted by the first of July. No insects of any kind have made their appearance here yet.

### Local Rains

Light rains have fallen over the county since last issue, which has proven very beneficial to growing crops, and helped to bring up stuff that was planted. Reports from various parts of the county say that the wind Monday night blew out quite a few acres of cotton, which necessitated planting some of it over.

Reports from farmers say that cotton and feed stuff is growing rapidly, an with rains scattered along through July and August, the county bids fair to make an average yield.

## FAIR DIRECTORS MEET AND SET FAIR DATES FOR SEPT. 27-29

The directors of the Hall county District Fair met a few days ago and the fair dates were set for September 27, 28, and 29. In order that more interest may be created, it was decided that the Fair would be put over by committees, and the president appointed the following committees:

Catalogue—S. T. Harrison, C. W. Flannery, E. N. Hudgins; Purchasing—R. L. Madden, F. N. Foxhall, T. C. Delaney; Program—M. J. Draper, Jack Figh, Will Kesterson.

The directors of the association are confident that these men will assume the responsibility and will be glad to do their part in making the fair a success, which means so much to the upbuilding of this territory. It is the desire of these

## FIRE MEETING BEST EVER HELD

The Firemen's convention held at San Antonio last week, according to the report brought back by Memphis delegates, was the best that has been held by that organization. There were a four thousand delegates representing 341 towns in State of Texas.

Silas Wood, chief of department, came home enthusiastic over the meeting that the boys attending Memphis were well satisfied. Fire-fighting is not the only discussed in these conventions but fire prevention.

Those attending from here were: Silas Wood, chief; Gerlach, Ossie McCol, Bee, Frank Knight, J. T. son, and Miss Bone sponsor for the Memphis. Most of the delegates turned last Friday.

# JRN TELLS EXPERIENCE AT BARGER TOWN

Since I wrote my last letter to the Democrat I have had a pretty strenuous existence, and I don't mean maybe. The tank business picked up considerably after I got back from my visit home. I have been working "double towers" as they say here in the oil fields and Sunday too.

When these oil company Superintendents and well drillers order a tank they expect for you to deliver it on their locations at the time specified in spite of the hot place, high water or any other weather conditions. Generally three or four of them get in the same notion at the same time, and if tanks could be delivered in an aeroplane that wouldn't be fast enough to suit those birds.

When they get ready to put a well on the beam they build the power house and install all the machinery and in spite of the fact that they can't pump a stroke until they have a big storage tank full of water and connect up with the other machinery nine times out of ten they put off placing their orders for tanks till the very last moment.

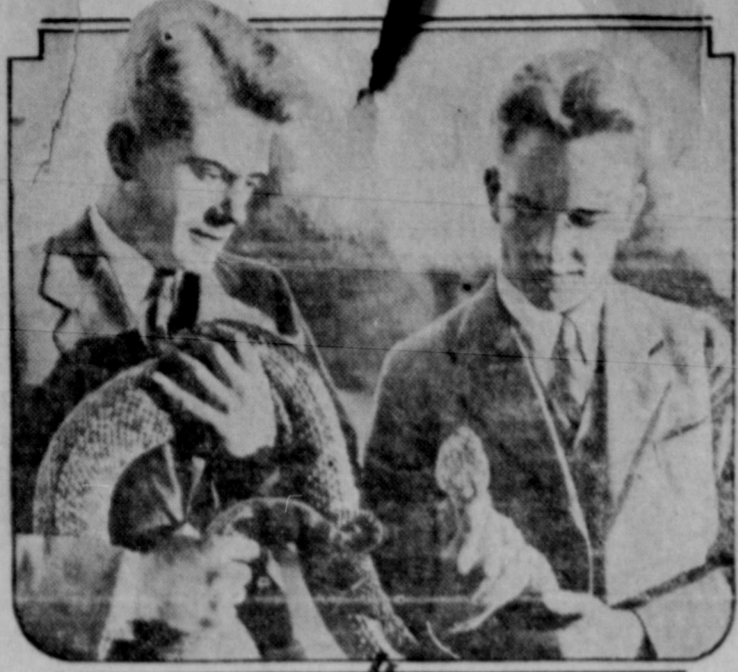

I was under the impression that I had listened in on some pretty artistic cussing in my time before I had to go up against these oil men but I find that I have been living under a life-time delusion. I have often heard of fellows who cussed by the note but I didn't believe it until I headed into this bunch. When a bunch of them get together they swear duets and quartets as well as solos. However, they don't seem to get a real kick out of their cussing unless they can reel about six stanzas of long profanity on some poor old plow or tool dresser, who has to take it like a man or lose his job, which means his bread and butter.

One would have to be well versed in Greek as well as the occult sciences to be able to follow the directions a well superintendant will give you in order to find his location. It would be difficult enough to follow them if there were no natural obstructions in the way, and I find that some of these old hardened Skinners who have been here ever since the first pusher went over the top of theerrick don't know how to go how to get there. I have done my best not to appear about I guess these wise ones found it out anyhow.

At Saturday night the "laws" a little party down in Barger the rear of the City Hall large and very thirsty number of guests. Although plenty of refreshments were in since the crowd failed to show enthusiasm in the proceed- and to all intents and pur- the entertainment was a it's a sad, sad story, mates, I'll have to tell it. The heart- thons of the law uncorked 12,000 bottles of perfectly good beer and poured it into the gutter. Yea, were the heartbreaking and deep-throated "damns" and among the thirsty audience the efferecing beverage foam- and gargled and the tantaliz- dor was wafted on the breeze ment the olfactory nerves of smishing onlookers. These etes are pulled off every on so often here in Barger ver but that they are not ar with a large number of usily inclined Bergerites. Yea, were the heartbreack- and big all well caught Monday evening just west business section of Barger. me it was the Mineboma number 2 which exploded 4:30 and burst into flames. ately the crew had knock- about thirty minutes be- sion and no one was about. It was still going strong last night but I saw by the morning paper that an attempt would be made today to steam it

# The World's Strongest Dairy

Leonard Keeler (left), a junior at Stanford University, runs the world's weirdest dairy at Palo Alto, Calif. In his laboratory Keeler "milks" Texas rattlers twice a month and sells the poison from their fangs to chemists for manufacture into a serum. Here Keeler and his assistant are getting ready to milk one of the queer bosses.

# BUT FEW FARM LOCATED ON GOOD ROADS

In my peregrinations over the oil fields this week I went down to Electric City which is three miles up the river from Phillips. If any of my Memphis friends come to Barger be sure to see Electric City before you leave. It is a perfect gem in the most rugged setting you could imagine. The state highway from Panhandle to somewhere is being built thru Electric City, or rather on the rim-rock high above the town. A large force of men were busy blasting the roadway out of the side of the cliff hundreds of feet above the town. I also went across the river and found a big crew of men carving a roadway out of the sheer face of the bluff over there. Down below this bluff in the mouth of a wide canyon on a sloping hill side is an old Indian burying ground which shows evidence of having been visited by relic hunters. However, some of the graves do not appear to have been disturbed. Some day when I get more time I am going over there and do a little exploring on my own hook.

But to get back to that highway, I want to tell the whole world that it will be a scenic highway second to none in Yellowstone Park, the Ozark mountains or anywhere else. If the engineers who surveyed out this highway and made the blue prints are not already in the asylum they ought to be retired on a pension for life. I very often wonder why people travel thousands of miles to see rugged and beautiful bits of scenery when they could see something possibly better in a day's drive of home. I have been in the beautiful Ozark mountain region of Missouri and Arkansas, particularly along the Gasconade river, and in the mountains of Old and New Mexico and I have yet to see anything more ruggedly beautiful than what should be called the grand Canyon of the Canadian.

I, for one, appreciate it all the more because it is in grand old Texas, and I am getting stronger all the time for the slogan "See Texas First."

The south end of Hutchinson county is now just about the busiest spot in Texas with the building of this highway and the new Rock Island railroad extension from Amarillo to Liberal, Kansas. This, together with the rapid development of the oil and gas fields around Sanford and Oil City makes it a veritable bee hive of action. I was down on the line of the new railroad extension some ten days ago and noticed one place near Sanford where they were preparing to bridge what appeared to be almost a bottomless chasm. I decided right then that if American pluck and ingenuity could construct railroads and highways through, over and around such obstacles as are encountered in this section our civil engineers can accomplish anything. However, I sometimes think as did the old Indian chief when he visited an ice plant for the first time. When shown the process of making ice he was asked what he thought about it. "Umph" he replied, "White man get heap too damn smart, freeze ice, in summertime. God almighty can't do that."

The Barger chamber of commerce is preparing an elaborate program for a big three days celebration on the 2nd, 3rd, and 4th of July, and as the 3rd of July falls on Sunday they propose to make Sunday the biggest day of the three and turn things loose. The preachers and church people of the town have entered a strong protest with the powers that are for the proposed decision. The secretary of the C. of C. and the Methodist and Baptist pastors have been having it up one side and down the other the past week, but so far the protest has been ignored and the powers that seem to have the best of it.

Last Sunday the "Happy Hol-

Although we spend millions annually for improving roads, only about one farm in twelve is located on a hardsurfaced or paved highway. A much larger proportion are near enough to paved thoroughfares to make considerable use of them, but even one intervening mile of muddy road often makes the use of farm automobiles impossible.

Good roads used to be classed as luxuries but such is no longer the case. When the loss of time incurred by rough or muddy unimproved roads is considered, together with the wear and tear on vehicles, paved or hardsurfaced roads are essential and should be built as rapidly as possible. The Department of Agriculture says: "For the movement of every vehicle over a road there is a certain cost, which is less if the road be improved. Logically, therefore, the only limit that should be placed on expenditures for road improvement is the amount that can be saved in vehicular operating cost. The country loses more in increased cost of operating vehicles by not improving roads than it does to improve them. In other words, it pays for improved roads whether it has them or not, and it pays less by having them than by not having them."

A thin waterproof wearing surface is being placed on existing gravel and macadam roads in farming communities with great success and at moderate cost.

### TOURISTS

There's lots of difference in folks. Four motor tourists—two married couples—entered an Amarillo restaurant the other day. They seated themselves at a table, made known their wants to a waitress in loud and important voices, then proceeded to discuss their trip for the benefit of other patrons in the place. They let it be known that they were from a much larger city than Amarillo; that they had been places and seen things; that they weren't very much impressed with Amarillo—in short, that they weren't ordinary stay-at-homes, but worldly travelers. They continued to talk as they ate, with impressive flourishes.

The other day, another tourist made a trip from New York to Paris, in an airplane. His only comment on arriving was a modest, quiet, "Well, here we are." Yes, there's lots of difference in folks.—Amarillo Globe.

In Russian factory schools, out of 8,205 pupils given a medical examination 5,122, or 52 per cent, were found to be sick. Those having tuberculosis numbered 1,347; anemia, 2,502; nervous troubles, 1,102; and so on.

low Swimming Pool was opened just one block south of the Baptist and Methodist churches in Barger with an elaborate program and many side attractions. So you see the "old boy" is right on the job in this town.

I noticed today's (Wednesday) paper that the "Pink Rat Tea Room" is to be opened in Barger in a few days, and the advance notices indicate that the place will be a unique as its name and then some more. If some of you will drop in on me I'll take you down for a glass of tea and a sandwich, but nothing stronger. If the service at the Pink Rat doesn't suit you we can step over to the "Poodle Dog" and have a genuine chop suey.

## SAYS AMERICA WAS IN NEED OF A NEW HERO

BY PHEBE K. WARNER -- Just one month has passed since the world had thrust upon a hundred years, and Columbus discovered America in 1492. But no one found it out for more than a hundred years, and Columbus himself died in poverty and disgrace, May 20, 1506, without knowing what he had done.

Charles Lindbergh of America discovered himself May 20-21 and introduced himself to the world by dropping down from the skies into the outstretched arms of the whole world only a few hundred miles from where Columbus had set sail 435 years before on his perilous, unknown voyage.

It was just 421 years from the day Columbus crossed the River of Death and entered into his first reward for his great daring noble spirit and service to the world that Charles Lindbergh flew to fame across the self same ocean. Columbus waited patiently in his grave for four hundred years before the American people staged a great celebration for him in the form of the World's Fair at Chicago in 1893. But long before that human speck in the sky announced to the world that something that had never been done before was about to happen, the world was standing tip-toe, with its neck and arms stretched upward toward the stars waiting breathlessly to see and receive the greatest Boy Hero in history.

Since that victorious minute in the life of Charles Lindbergh and the new history of the world which his act introduces this American Boy has been the idol of the world.

Every editor and every editorial writer of the masculine type has had their say about this BOY. But so far we have not seen a word from the mind and heart of any woman except what has been expressed in the actions of the women of the world in their enthusiastic welcome to him everywhere.

To say anything new would be impossible for more has been said about Charles Lindbergh in the last thirty days than was ever said about any man on earth in the same length of time. However, the Youth himself, his daring deed, his victory, and its effect on the whole world just naturally touches every human being in a different way and therein lies the multiplied lessons to be learned from Our New Hero. And in the years to come the mere crossing of the Atlantic in an airship will be the least of Charles Lindbergh's service to the world.

The first beautiful lesson that impressed itself on my mind and heart after the story of Lindbergh's victory was flashed around the world was this: Charles Lindbergh was first of all his Mother's SON. And not only that, he was her ONLY son, and so far as any of us have learned he was her only child, which positively blows up the theory that no mother can successfully rear an ONLY CHILD. The next lesson was, that mother's implicit faith in her SON. So sure was she that her boy knew what he was doing; that he was prepared and trained for the risk, that he could take care of himself under every human condition that she worked at her own duties in the school room while he "Sailed On and ON" to victory. Not one mother in a million would have ever consented for her only Son and CHILD to risk his life for such an uncertain service to humanity.

If the Boy had fallen into the Atlantic and never again been seen, his suffering would soon have been over and he would have been almost forgotten by this time by every one except his brave mother. She risked her ALL that her CHILD might try his wings to the full limit. God only knows how many other brave boys have been reared weaklings and babies because of their mother's selfish love and cowardice. Mrs. Lindbergh has a right to

## Why School Teachers Grow Gray

The champion twin community of the world has been found—Mossyrock, Wash., where there are five sets of twins among the 63 pupils attending school. Here they are.

side beside her victorious son with the kings and queens and presidents. He risked his life but she risked her ONLY CHILD who she loved more than her own life. There is a magnificent lesson for us all to learn who have a boy with ambitions and a spirit to do things.

The next great lesson to be gleaned from our Boy Hero is that after all the World LOVES and admires a real BOY. That after all, honesty of purpose, sincerity and simplicity of character, are recognized as the greatest human essentials throughout the world. In honoring Charles Lindbergh no one stopped to ask his nativity. The world had never heard of him until he DID something that will be a blessing to all the world and then it made no difference from whence he came. Pomp and power and glory and honor and wealth and high positions and brass buttons and swords and guns were as nothing in the face of this great boy that just got up and did something for the world because he felt in his heart he could. HE had faith in himself, and he had implicit faith in his mechanical device that was to carry him over. And he understood his business.

Another beautiful lesson was the fact that he was a BOY. The other men that have gone and will follow in a few days will make the same sacrifices. They may be just as brave as Charles Lindbergh. But they are older. America has had many men heroes. But not so many Boy Heroes. Never in the history of our country did our American Boys need a boy hero to come out of the skies of our darkened minds so badly as they did this very hour. Lindbergh's victory will inspire millions of other boys to get busy and do their best and not wait to see what they happen to be when they are old men. There are world records waiting just out there a few years in the distance in every line of endeavor in this world waiting for some brave boy to climb up or fly over and claim them. The fact that Lindbergh is a mere boy in years has already inspired millions of other boys in every nation to do their best and not be content with anything less. He has also proven that you don't have to be a millionaire's son to gain the recognition of the world.

Then there is still another lesson to be learned from our new hero. And who knows? This may prove the greatest lesson of all.

Our American Girls were solely in need of a new type of hero. Sometimes it seemed that the idol of the average American girl had reached the plane where it was not a boy at all. But a jellybean with no backbone or brains. A combination of all the weaknesses and habits of depraved nature. Just anything so it had a fat pocketbook and a good looking car. Charles Lindbergh has demonstrated a new style of hero that will mean a safer world not only for our boys but for our girls.

### GAS SPOILED SLEEP, MADE HER DIZZY

"For years I suffered from gas and constipation. Used to get headaches and dizzy spells. The first dose of Adlerika gave me relief. Now I rest well."—Mrs. B. Brinkley. Just ONE spoonful of Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you tried for your stomach, Adlerika will surprise you. Levertt-Williams Drug company. It

Owing to the strict opposition of the Dutch to the custom of eating, the Borneo tribes, once deemed fresh heads necessary for many uses, now borrow the heads, taking from their neigh-

## CHEVROLETS TO PASS MILLION MARK IN 1927

Indications that Chevrolet production will reach, if not pass, the million mark this year were seen here today, following the announcement by the Chevrolet Motor company that production for the first five months totaled 494,953 units. This is a 60 per cent increase over the corresponding period of last year and testifies to the phenomenal demand that has kept Chevrolet

factories constantly at capacity, since early in the year.

Since January Chevrolet has bowled over production records each month, reaching a new all-time mark in May with an output of 115,623 units, as compared with the record 74,617 units set in May last year.

In an effort to keep pace with the demand Chevrolet factories are now averaging more than 5,000 units a day, working on the heaviest schedule ever undertaken by a manufacturer of gear shift cars.

Chevrolet's production achievements so far this year make certain that a new mark for the production of gear-shift cars will be set this year. The present record now held by Chevrolet,

stands at 728,697 units. This was established in 1926 and was 40 per cent increase over the previous high mark, also set by Chevrolet.

Production of one million Chevrolets this year would shatter the present record again by 40 per cent. The June schedule calls for the building of 112,965 units, which should bring the total for the first six months to 607,918.

Evidence of the remarkable gains made by Chevrolet since the introduction of the "most beautiful Chevrolet" in January is seen in monthly production figures for the year so far, as follows: January, 73,676; February, 85,817; March, 107,900; April, 111,937 and May, 115,623.

### PREVENTS INFECTION

The greatest discovery in flesh healing is the marvelous Borozone, a preparation that comes in liquid and powder form. It is a combination treatment that not only purifies the wound of germs that cause infection but it heals the flesh with extraordinary speed. But wounds or cuts which take weeks to heal with the ordinary liniments mend quickly under the powerful influence of this wonderful remedy. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. # AN INVITATION!

L. A. Stulce

—Is extended to you by the Memphis Baptist Church to attend the Revival Services, going on now at the Baptist Tabernacle.

Dr. Millard A. Jenkins of Abilene, is doing the preaching and Mr. L. A. Stulce of Abilene, has charge of the singing.

Large congregations are attending these services, people are being saved and are joining the church.

A cordial welcome to all to hear the great messages and good music. If you love the GOSPEL in sermon and song, join with the throngs at the First Baptist Church of Memphis.

Dr. M. A. Jenkins

The following is a list of some of the subjects that Dr. Jenkins will use during the meeting:

1. "Paying the fare on the Devil's turnpike."
2. "The soul after death—where it is, and what it is doing."
3. "How an anxious Inquirer was lost."
4. "The Devil threw him down."
5. "The seven wonders of God's love."
6. "Coronation or Armageddon?"
7. "At the foot of the Devil's rainbow."
8. "Is Jesus Christ coming back to this world, if so when, how is He coming, and what will His coming mean?"
9. "How to have a happy home."
10. "If you go away from Jesus, where will you go?"
11. "Breaking the Alabaster Box."
12. "The Devil, who he is, where he is, and what he is doing."
13. "The Sunlet Road."
14. "Our Responsibility to the lost, and how to discharge it."
15. "Religion of the Helping Hand."
16. "Will there be another World War?"
17. "The Death Trail."

You will do well to hear these and other interesting subjects that will be discussed during the meeting.

SHERIFF'S SALE

Notice is hereby given that we will sell at public auction to the highest bidder for cash, at the Court House door in the town of Memphis, Hall county, Texas, on the 25th day of June, A. D. 1927, between the hours of 10 o'clock a. m. and 4 p. m., one Ford roadster, 1926 model, license number 986-851, motor number 13809981, the residence of the owner thereof being unknown, said car having been left with us January 7, 1927 by D. V. Painter, said sale to be made to satisfy a bill of \$5 for materials and repairs on said car and the storage charges on said car amounting to thirty dollars (\$30) and such other charges as may accrue thereon, to said date of sale.

Witness our hands this 2nd day of June, A. D. 1927. CITY GARAGE CO. By C. D. COMBEST.

CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Hall county—Greeting:

You are hereby commanded to summon H. B. Seifert, and U. H. Fillo, (residence unknown) by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Hall county, to be held at the Court House thereof, in Memphis, Texas, on the First Monday in September A. D. 1927, the same being the 5th day of September, A. D. 1927 (then and there to answer a petition filed in said court on the 27th day of May, A. D. 1927 in a suit, numbered on the docket of said court No. 1460, wherein The Long-Bell Lumber Co. are plaintiffs, and W. C. Neely, et al., are defendants, and said petition alleging the nature of plaintiff's demand as follows to-wit:

That plaintiff, Long-Bell Lumber company, a corporation under the laws of the State of Missouri in Texas, complains of W. C. Neely and W. A. Taylor, residents of Wilbarger county, Texas, H. B. Eifert and U. H. Fillo whose residences are unknown, and J. N. Owens who resides in Donley county, Texas, hereinafter called defendants, and for cause of action plaintiff says:

That on and between the 11th and 21st days of October, 1926, it was sold and delivered to W. C. Neely and W. A. Taylor certain goods, wares and merchandise as shown by itemised account attached and made a part of plaintiff's petition in the total sum of \$245.60; that said account is passed due and unpaid and defendants, W. C. Neely and W. A. Taylor, though often requested, have hitherto failed and refused to pay the same or any part thereof, to plaintiff's damage in the sum of \$255; plaintiff further pleads that said lumber and building material mentioned in said account was furnished for and used in the construction and erection of a certain oil and drilling rig and derrick and for other

improvements upon following tracts of land in Hall county, Texas: All of sections Nos. 8, 159, 164, 163, 162, 161, 4, 291, 293, 176, 175, 174, 3, 179, 178, 177, 298, 297, 9, and 295, all in Block S & P said county and state except section 184, located in Hall and Briscoe counties, Texas, and that said materials were furnished defendants, Neely and Taylor, under and by virtue of a contract between them and plaintiff, that defendants, Seifert and Fillo, are owners of oil and gas leases upon said land and owners of said rig and improvements on said land, that heretofore to-wit, on the 14th day of January, 1927, plaintiff filed its materialman's lien in the office of the County Clerk of Hall county, Texas, which is recorded in Volume 4, pages 270 and 271, Mechanical Records of said county, and original lien is attached and made a part of plaintiff's petition and legal notice to defendants, H. B. Seifert, U. H. Fillo, and J. N. Owens, has been given by reason of all of which plaintiff claims a materialman's lien upon the property above described, owned by Seifert and Fillo. Wherefore, plaintiff prays that the sum of its debt with interest against defendants, W. C. Neely and W. A. Taylor, jointly and severally; have judgment for the sum of its debt with interest upon the property above described, have order of sale and all the process of court vesting title in the purchasers at said sale, all in such cases made and provided by law; for cost of suit and for general and special relief.

Wherefore, plaintiff prays that the sum of its debt with interest against defendants, W. C. Neely and W. A. Taylor, jointly and severally; have judgment for the sum of its debt with interest upon the property above described, have order of sale and all the process of court vesting title in the purchasers at said sale, all in such cases made and provided by law; for cost of suit and for general and special relief.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with

**Fort Sam Houston Has Large Number Of Raw Recruits**

SAN ANTONIO, June 20. (UP)—The gates of Fort Sam Houston had inclosed within them today 1,200 raw recruits, most of them Texas high school youths. The recruits formed the largest Citizen's Military Training Camp in the Eighth Corps Area. Although more youths reported, only 1,200 were allowed to remain as the government quota provides for that number only. The others returned to their homes at government expense.

The largest delegation comprised some 200 students from towns in the lower Rio Grande Valley. Physical Condition Good—Military officials at the camp expressed themselves as well pleased with the general physical condition of the youths, saying that only about three out of each 100 were rejected because of physical disability. Arriving students were met at railroad stations by military details and escorted to the Fort. Once "in the army" they did not have to raise the familiar army cry, "When do we eat?" Coffee and sandwiches awaited each delegation as it entered the post. **Drill Starts Saturday**—With enlistment over Friday, actual drilling started Saturday. The principal function of the day was the administration of allegiance to the United States. The oath was led by Brig. Gen. S. D. Rokenbach, camp commander. The first student to repeat was Raoul Lopez, San Antonio, who is attending the camp for the fifth consecutive year. He was only a few minutes ahead of Archie Garner, Palestine, here for his fourth year. During their four weeks of military training, the youths will spend one week on the target ranges at Camp Stanley.

**W. M. S. HOLDS BUSINESS MEET**

The W. M. S. held its monthly business session this afternoon in the auditorium of the First Baptist church. The presence of the president, Henderson Smith, Mrs. Jet occupied the chair, opening with a Scripture reading. Mrs. E. T. Miller led in the reading of the reports, which were approved. Reports from officers and committees were called for, all being with good reports. It was the time for the election of officers, the following officers and leaders were elected for the ensuing year: president, Mrs. Henderson Smith; circle leaders, No. 1, Mrs. J. S. McMurry; No. 2, Mrs. Chas. Webster; No. 3, Mrs. Baldwin; No. 4, Mrs. W. S. ... Mission study teachers, Mrs. Sam Foxhall; No. 2, T. M. Harrison; No. 3, Mrs. L. C. Kinard; No. 4, Mrs. H. Jackson; recording secretary, Sam Hamilton; correspondence secretary, Mrs. E. T. Miller; treasurer, Mrs. B. Davenport; director of music, Mrs. A. Baldwin; wardship chairman, Mrs. Chas. ... Bible study teacher, Rev. T. Miller; Young Peoples' director, Miss Burk; Y. W. A. counselors, Mrs. Jet Fore, Mrs. V. O. Williams; Junior Y. W. A. counselors, Mrs. E. M. Whittington; G. A. counselors, Mrs. Claud Johnson, Mrs. A. W. Howard; R. ... counselors, Mr. and Mrs. Lester Linn; Sunbeam leaders, Mrs. C. Hamilton, Mrs. A. W. Raspe; mission study chairman, Mrs. R. Garrott; chairman, missions, Mrs. Scott Sigler; publicity chairman, Mrs. W. L. Wheat; personal service chairman, Mrs. W. A. ...

**Avoid Anxiety**

Why allow your summer vacation to be marred by anxiety over the safety of your valuables left at your home?

Fortunately the people of Memphis have at their service the positive protective facilities of our modern Safe Deposit Vault and equipment.

Not only do we offer complete protection for your valuable papers, such as: Securities, Mortgages, Bonds and Stocks, Leases, etc., but we are equally equipped to safeguard your silverware, heirlooms and the more bulky articles that you value highly and that cannot be replaced if destroyed by fire, or lost through theft.

Neither fire nor water can reach the contents of our vaults, nor can the cleverest cracksmen or yegg gain entrance.

Safety is what you pay for and is what you get. The cost is so little that it is not worth mentioning.

We invite you most cordially to call and inspect our Safety Deposit Department.

Of course there is no obligation.

**Industries Are Trekking Toward the Smaller Towns**

CONGESTED quarters, high rents, exorbitant taxes and unsatisfactory labor conditions are slowly but surely driving industries from the larger cities to the country.

THOUSANDS of manufacturers, mill owners and big business men yearly are realizing the advantages of quiet, uncrowded, inexpensive living and excellent labor conditions offered by the small town and are trekking in that direction.

THE majority of the small towns in West Texas can have their share of industrial development because they have the necessary facilities, of which none is more important than ample, uninterrupted, economical electric power.

THE WEST TEXAS UTILITIES COMPANY, with its more than 2,000 miles of transmission lines and 70,000 available horsepower of electrical energy, guarantees the industries the same efficient service they have enjoyed in the great cities of the country.

# WHOLESALERS TAKE FIRST HALF

## Foxhall Wins Greenbelt Title At Vernon Thursday

### SHAKE DAVIS BATTLES WITH HERSHEL STUART IN LOSING FIGHT FOR DECIDING GAME

Cubs Make Bold Try Wednesday, But Weak Outfield and Slight Hitting Make Victory Impossible

Fast pitching by Herschel Stuart and Shake Davis, with final honors to Stuart, featured the deciding game of the City League's first half Wednesday when the Wholesalers chalked up a 10-2 victory against the Cubs. The crowd was the largest that has witnessed a City League game since the season opened and interest was high, with sentiment about evenly divided. The result of the game earns a berth for the Wholesalers in the three-game series to be played in August between the winners of the first and second halves to decide the league champion.

Stuart has never been seen loyally in better form. He allowed only three hits, 2 by Jim Ballew and Otis Hart. He kept the balance of Cub batsmen pretty well down in the box.

Davis showed the Wholesalers a type of pitching that earned quite a reputation in this section several years ago. He demoralized conclusively that his ideas are not over. At least 5 or 6 hits charged against him could have been fielded. His stoppage was by no means what it could have been. He secured 7 strikeouts, while Stuart left 11 handing at home plate.

Happy and Pampa defeated in last week-end games. The Wholesalers have been enjoying a good brand of hitting. It drifted decidedly "off" Wednesday. An unusual success in slapping the ball into the outfield for a clean hit.

### Name Lakeview Baseball Club And Win \$5.00

Do you know a good name for the Lakeview baseball club? The Democrat will pay \$5 to the person who submits a suitable title for the Lakeview baseball team that has played "jam up" ball this season and that has performed without a name other than that of the community it represents. The contest is open to everyone. Lakeview baseball officials will determine the winner. You may submit as many names as you please. Mail your suggestions to the Sports Editor, Memphis Democrat, before midnight Friday, June 28. The winning name will be announced in The Democrat of July 5.

### How They Stand

Club	P	W	L	Pct.
Wholesalers	5	4	1	.809
Cubs	5	3	2	.600
Panhandlers	5	3	2	.600
All Stars	4	2	2	.500

### How They Play

Friday—All Stars and Prune Peddlers.  
 Monday—Panhandlers and Cubs.  
 Wednesday—Wholesalers and All Stars.  
 Saturday—Paducah at Lakeview.  
 Sunday—Borger at Lakeview.  
 (Estelline had no games scheduled this week at noon Thursday.)

Send to Clark's for it. tfe  
 TAXI—Day 333 Nite 44. tfe

### RED CAPS TAKE CONTEST FROM PANHANDLERS

Wholesalers Outhit, But McLearn's Support Is Poor  
 Darkness closed a game Friday between the Wholesalers and Panhandlers with the latter team not so very far behind, in spite of the recognized strength of W. J. Hill's red caps. The game was not without excitement, as several close decisions were hotly protested, and twice opposite players almost came to blows. Carl McLearn pitched one of the season's best games, but without support. Undoubtedly he deserved victory. Herschel Stewart, Wholesaler, was in his usual good form. He secured 9 strikeouts.

### Braves Defeated Monday for Fifth Consecutive Time

Claud Kennedy's Braves failed to make the grade Monday against the Panhandlers and tasted defeat for the fifth consecutive time this season. Although they secured 7 hits against their opponents, 3, loose playing in the second, when the Panhandlers scored 9 runs, lost the game for them. Tittle's free hitting of batemen placed too many Panhandlers on base, also. He hit four men in the second inning and one in the fifth. The Panhandlers have some good pitching material in their new twirler, Fisher, who played his first game Monday. Tittle's performance was first rate after he got his arm under control. Lewis pitched the last inning, allowed one base on balls and secured three strikeouts.

### Results

CITY LEAGUE  
 Friday—Wholesalers 13, Panhandlers 8.  
 Monday—Panhandlers 12, Braves 6.  
 Wednesday—Wholesalers 10, Cubs 2.  
 Saturday—Lakeview 11, Happy 9.  
 Sunday—Lakeview 5, Pampa Grays 4.  
 Sat.—Paducah 24, Estelline 0.  
 Sun.—Estelline 20, Lelia Lake 0.

### LAKEVIEW WINS A GAME AND LOSES ONE

Happy Is Taken Into Camp, But Borger Too Strong  
 BY KLEBER WELLS  
 (From Last Week)  
 LAKEVIEW, June 13.—Lakeview split a two-game series away from home last week end, winning 8-2 from Happy, and losing 13-1 to Borger.

### LOCAL STAR WON MATCH FROM LEBUS

Was Greenbelt Driver's First Year  
 Frank Foxhall has hit the mark he has been shooting at for the successive years. Twice medalist of the Greenbelt Golf Association, he is champion, after defeating Roy Bus of Electra in a brilliant match end Thursday. Foxhall won 2-up at the hole. LeBus overcame the tie he shot on at the 27th hole. He led ahead on the third and again 3 up at the 27th hole. He led that lead, winning the championship at the 33rd, and by the title to Memphis for second consecutive year. R. V. West won the cup last year when the association was retained at the Memphis Club.

### Second Half Opens Monday

Doc Hicks' Cubs and Isidore Cohen's Panhandlers will officially open the City League's second half at Fair Park Monday. Both clubs finished the first half of the season with percentages of .600 and the game ought to be interesting. The editor of The Democrat's sports page, however, is through making predictions this season. His guesses haven't been worth the paper they've been made on. We might give you a lot of dope on both teams, but what's the use. The club that scores the most runs will win, and that's that.

### Victorious 9-5

Wholesalers defeated the Hardwoodmen Tuesday in a fast game 9-5. For the first five innings the game looked pretty good as the Cubs led 5-0 in favor of the Hardwoodmen, but the Cubs opened the sixth with a rampage and finally won 9 to 5.

### Wholesalers Victorious 9-5

Wholesalers defeated the Hardwoodmen Tuesday in a fast game 9-5. For the first five innings the game looked pretty good as the Cubs led 5-0 in favor of the Hardwoodmen, but the Cubs opened the sixth with a rampage and finally won 9 to 5.

# CELEBRATE 150th U. S. BIRTHDAY

John K. Warner

It is ever was a year when every citizen of this country should celebrate the Fourth of July. It is this year of 1926. Take a look backward at only the facts and try to picture the future in the eternal plan of the Nation's history.

In 1492 the poet says, "Columbus sailed the ocean blue, and after weary dangerous days and nights on what seemed to be an endless ocean his little band saw a bird in the sky, and then a branch of some kind of a tree floating on the ocean. It gave them new hope and a few days later they saw the first land of a new world. What a great event that was in the history of the world! But how often do any of us stop to think what it meant to those unpaid seamen at that time its significance to us today?

One hundred and fifteen long years passed (115 years) from the time Columbus dared to try to prove his convictions before the first settlement was made at Jamestown in 1607. What do you suppose the world was doing all those years? Looking backward from this day of steam and electricity and airships it seems like a long time. Thirteen years after the Mayflower landed on the Rock with the Pilgrims on board, and the first sites people, white and black, began to try to live in the new world today the greatest Nation in the world was born.

In 1607, the time when the colonists made a settlement in the United States, until the Declaration of American Independence July 4, 1776, it was just a colony. Get that, Boys and Girls of Texas? Time is nothing now, but it will be some day. It takes on a greater value. From the time the Pilgrims landed in 1620 and held their first Thanksgiving celebration until the colonists declared their independence it was 156 years. It took nineteen years longer for the first colony in Virginia to grow into the thirteen colonies and establish their independent government along the Atlantic border than it has taken our thirteen colonies to grow into the greatest Republic the world has ever known. What do you suppose the world was doing all those years? Looking backward from this day of steam and electricity and airships it seems like a long time. Thirteen years after the Mayflower landed on the Rock with the Pilgrims on board, and the first sites people, white and black, began to try to live in the new world today the greatest Nation in the world was born.

When the Jamestown and Plymouth Colonies were founded there were scarcely a hundred souls left in them after the hardships of their first year in a new world. But when Old Glory was first unfurled over the infant Republic she floated over 3,500,000 souls. In the first 169 years of our country's history the people had multiplied from a few hundred to three and a half million. And that was just one hundred and fifty years ago. On July 4, 1926, when our Nation celebrates its 150th birthday that same Old Glory will wave over 110,000,000 inhabitants, scattered across the continent and almost around the world. There is not another Nation in all this world that has grown so gloriously as the U. S. A. There is not another flag in this world that is so loved and so proud as the Stars and Stripes. Take one day of this year for you are and wherever you are, and spend it thinking about your country and what it means to you, what it has done for all the generations of the past, what it means to you today, and what, but most of all, what is our duty today to our country in gratitude for all that has been done for us.

Do not let the day pass without thinking of our duty to our Nation. Today there are more than five million men, women, boys and girls in Texas. More people in Texas today by nearly two million than there were in the whole United States a hundred and fifty years ago when the first settlement was first established. With such a start and such an age of growth and progress, and with all the resources and powers and possibilities within our own State and Nation, Texas be one hundred years from now when our Nation has simply doubled its present age?

What a responsibility to carry on the work of the pioneers of the past and pave the way for greater achievements in the future. Here are some of the biggest problems for Texas, or any other child of America, to ask themselves: Are we doing our people in the same way as our country and its industry? Are we in some cases neglecting the best interests of our children and our people to get a bigger industrial show and more money? What is the Texas' greatest contribution to this year of our hundredth anniversary? Are we getting enough men and women of vision and ability to carry on the future of our

country? Or is our country outgrowing the development of its people? What happens when the wealth and commercial interests of a home, or a Nation outgrows the character of its children? This State and this Nation demands the wisest heads the biggest hearts and the men and women of broadest vision for the future to direct its swift growth. As a big State family are we thinking and working together to make this possible? The Fourth of July, 1926, would be a good day for every community, great and small, to STOP, LOOK, and THINK for a few minutes about our patriotic duty to our homes, our State and our Nation. What will the next hundred and fifty years mean to Texas and America?

### PROPOSED AMENDMENT TO THE CONSTITUTION

SENATE JOINT RESOLUTION NO. 7

Proposing an amendment to the Constitution of the State of Texas by amending Section 33 and Section 40 of Article 16 of the Constitution of Texas so as to permit officers of the National Guard, the National Guard Reserve and the Officers Reserve Corps of the United States, and enlisted men of the National Guard, the National Guard Reserve, and the Organized Reserves of the United States to hold public office in Texas.

Be it Resolved by the Legislature of the State of Texas.

Section 1. That Section 33 of Article 16 of the Constitution of the State of Texas be amended so as to read as follows:

"The accounting officers of this State shall neither draw nor pay a warrant upon the Treasury in favor of any person, for salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust or profit, under this State or the United States; except as prescribed in this Constitution. Provided, that this restriction as to the drawing and paying of warrants upon the Treasury shall not apply to officers of the National Guard of Texas, the National Guard Reserve, the Officers Reserve Corps of the United States, nor to enlisted men of the National Guard, the National Guard Reserve, and the Organized Reserves of the United States."

Section 2. That Section 40 of Article 16 of the Constitution of the State of Texas be amended so as to read as follows:

"No person shall hold or exercise, at the same time, more than one civil office of emolument except that of Justice of the Peace, County Commissioner, Notary Public and Postmaster, officer of the National Guard, the National Guard Reserve, and the Officers Reserve Corps of the United States and enlisted men of the National Guard, the National Guard Reserve, and the Organized Reserves of the United States, unless otherwise specially provided herein. Provided, that nothing in this Constitution shall be construed to prohibit an officer, or enlisted man of the National Guard, or an officer in the Officers Reserve Corps of the United States, or an enlisted man in the Organized Reserves of the United States from holding in conjunction with such office any other office or position of honor, trust or profit, under this State or the United States."

Section 3. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday in November A. D. 1926, at which all ballots shall have printed thereon:

"For the Constitutional amendment permitting officers and enlisted men of the National Guard, and the National Guard Reserve, and officers of the Officers Reserve Corps of the United States, and enlisted men of the Organized Reserves of the United States, to hold other offices or positions of honor, trust or profit under this State or the United States," and:

"Against the Constitutional amendment permitting officers and enlisted men of the National Guard and the National Guard Reserve, and officers of the Officers Reserve Corps of the United States, and enlisted men of the Organized Reserves of the United States, to hold other offices or positions of honor, trust or profit under this State or the United States."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment.

Section 4. The Governor shall issue the necessary proclamation for said election, and have the same published as required by this Constitution and laws of this State. The expense of publication and election for such amendment shall be paid out of proper appropriation made by law.

Approved March 16, 1925.

NOTICE OF SHERIFF'S SALE  
The State of Texas,  
County of Hall.

Notice is hereby given that by virtue of a certain order of sale issued out of the Honorable District Court of Hill County, of the 2nd day of June 1926, by the clerk of said court for the sum of Seventeen Thousand Six Hundred Twenty-one and 12-100 Dollars and costs of suit, under a judgment, in favor of The Farmers National Bank of Hillsboro, Texas vs. S. T. Cheatham et al, placed in my hands for service, I, J. A. Merrick as Sheriff of Hall County, Texas, did, on the 3rd day of June 1926, levy on certain Real Estate, situated in Hall County, Texas, described as follows, to wit:

Being 620 acres of land in Hall County, Texas known as Section 32, Block "H" Certificate 757, A. B. & M. about 21 miles South 15 deg East from Memphis: Beginning at the N W Corner of Section 31, Block "H" A B & M in

Hall County as resurveyed by Deputy Surveyor, Geo. H. Chipman: Thence W 1958.6 vrs; Thence S. 1921.5 vrs; Thence East 1958.6 vrs; Thence N 1921.5 vrs to the place of beginning. Being the same land that was conveyed by deed of date February 2nd, A D 1925, executed by J. C. Harper and wife Altie U. Harper, to W. M. Williams, and recorded in Volume 47, page 338, Hall County Deed Records and levied upon as the property of S. T. Cheatham, H. P. Hill, J. M. Roberson and C. G. Knox, and that on the first Tuesday in July 1926, the same being the 6th day of said month, at the Court House door, of Hall County, in the City of Memphis, Texas, between the hours of 10 a. m. by virtue of said levy and order of sale.

I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said S. T. Cheatham, H. P. Hill, J. M. Roberson and C. G. Knox.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Memphis Democrat, a newspaper published in Hall County.

Witness my hand, this 3rd day of June 1926.  
J. A. Merrick, Sheriff Hall County.

## ON AND OFF THE SQUARE

Lest we forget: Signs are needed at each street intersection of the city and numbers are needed on each residence and business house. Believe the subject has been mentioned a few times, and this is not the last time it will be mentioned either. So Memphis people might as well get busy.

This was convention week in Amarillo and Memphis is quite deserted. However, the convention is now back on the job the last three days of the week. It is hoped that enough attention has been attracted to Memphis at the convention to pay for the time and trouble the citizenship has put into the thing. At least every one in attendance at Amarillo knows that there is such a place as Memphis.

The Memphis Chamber of Commerce Band had the greatest share in putting Memphis on the map. Every where the band played the crowd gathered and listened and favorable comments heard on every hand, such as "That is certainly the best band at the convention," and "Memphis must be a dandy town to support a band as good as that." The band boys dressed in their new uniforms looked very "swell" and attracted attention.

While the first few days of last week were rather hot and disagreeable, the last few days were exceptionally good, following good rains. Cotton did not need the rain, but other crops did, and the people needed the rain to make living more pleasant. Truly this is a great country.

Gas mains are being laid, paving work under way, buildings being constructed, prospects for a great crop growing brighter every day—what more could one ask? Hall county is the leading county

and Memphis the leading city of the great Panhandle country.

Memphis Citizen, would you be willing to pay for numbers on your residence and at least a 4th of the cost of a street sign? If so, the problem is solved.

Wichita Falls boosters said they were glad that Memphis was not trying for the convention for 1927 as Memphis on first honors in everything else the Wichita people were afraid the convention would be secured also by Memphis.

The splendid shower early this morning was welcome, and right in line with all the good things the county has been receiving. Prospects for a banner crop year were never brighter.

ATTENTION I can loan you money at 5½ per cent interest on any of your good land. If interested call or write what you have I will come over and see you. Five, 7 or 10 years times. Can pay off any part or all at any interest date. J. P. Pritchard, Wellington, Tex. 52-tfc

Watch for the opening date of the Colorado at Gulf Service Station, located at 4th and Noel, opposite Cicero Smith Lumber Co., under management of Dennis & Williams. The date will be announced next week. 51-c

FURNITURE REPAIR We want to do your furniture repair work. We repair furniture of all kinds. Also do varnishing, painting and refinishing and upholstering work of all kind. Phone 616. We call for and deliver. B. F. Hardy and Payne's Shop, Memphis. 41-tc

CARD OF THANKS We wish to thank our friends and neighbors for their kindness and help during the illness and death of our loving wife and daughter, Opal.

LEONARD BRACKEEN J. N. STRICKLAND Family DEAR OPAL We have laid her beneath the soil with pale hands on her breast. We return to God our darling and He'll give her peace and rest. Comes the night we dream about her, Comes the day when she's in thought. And through life we'll learn the lesson, That her baby life has taught. Precious darling, she has left us, Left us, yes, for evermore But we hope to meet our darling On that bright and happy shore. Lonely the house and sad the hours Since our darling has gone But O, a brighter home than ours In heaven is now her own. Watch above us, Opal darling, With your angel eyes so sweet, Tho' on earth we ne'er shall see thee, But in heaven we shall meet.

## THINGS SEEN HERE & THERE

A married lady skipping the rope on the sidewalk.

A sign on the rear of a Ford Coupe that stated that the driver stopped for railroad crossings, blonds and brunetts.

A boy playing a French harp in competition to the pipe organ at the picture show.

A banker who advised the Seen Here and There department that a negro had on a pair of sox and had them rolled—he refused to say whether it was a man or a gal.

A certain hardware man walking around the streets with nails in his pocket. He stated that he was advertising his business. He sure believes in advertising.

An old bachelor crossing the street with a young baby in his arms. Wonder whose it was?

One half of Dirty Dozen stacked on a bench in front of a local store.

Tracks where one of our autoists had apparently been trying to drive between two posts and hit the wrong one.

A local business man who said the chicken in his hand had jumped out of a delivery hack and he had picked it up to keep it from getting away.

DEN WEDDING

and Mr. Harry Delaney of Memphis were the first to enter.

Next came the bridesmaids, Miss Helen Thomas of Crafton, Miss Martelle Wickliffe of Chillicothe and Misses Dorothy and Helen Madden, sisters of the bride. Miss Thomas wore a gown of green georgette and pink satin. Miss Wickliffe's gown was of blue georgette, trimmed in silver, Miss Helen Madden was gowned in orchid georgette and Miss Dorothy Madden wore a yellow chiffon dress. The bridesmaids wore silver bandeaux, and carried arm bouquets of sweetpeas and rosebuds, tied with pink maline.

Next came the maid of honor, Miss Oressa Teague of Clarendon, dressed in a model of shell pink chiffon. She wore shell pink tinted satin slippers and a bandeau of silver. Mr. Gaston Foote of White Deer, who acted as best man, met her at the altar. She was followed by little Leta Fern Wells of Wellington, cousin of the bride, as ring bearer, who wore a frock of pink georgette and carried the ring on a white satin pillow. Little Georgene Sexauer, cousin of the bride, was dressed in pink georgette, and scattered rose petals from a basket tied with pink maline.

The bride, wearing a white satin gown beaded with pearls and rhinestones, trimmed in Venetian lace and made in the robe de style, entered upon the arm of her father. She wore a French veil held with a band of pearls, and carried a shower bouquet of brides' roses and lilies of the val-

ley. She was met at the altar by the groom.

During the ceremony, Mrs. L. B. Madden, at the pipe organ, and Miss Shirley Greene, violin, played softly, "Oh, Thou Sublime and Evening Star," by Tannhauser. Mendelssohn's Wedding March was used as the recessional.

Following the ceremony, a reception was held at the home of the bride's parents.

Mr. and Mrs. Hoy left immediately after the reception for a wedding trip to Dallas, St. Louis, and the Ozarks in Missouri. After July 15, they will be at home in Chicago.

The bride's traveling suit was a three piece suit of dark charmeuse and rosewood crepe. She wore a black felt hat and used beige accessories.

The bride is the daughter of Mr. and Mrs. R. L. Madden of Memphis. Mr. Madden is cashier of the Citizens State Bank, where he has long been connected. Mrs. Hoy was graduated from Memphis high school in 1917. She received a Bachelor of Arts degree from Southern Methodist University, Dallas in 1923, and took post graduate work in Northwestern University, Evanston, Ill., in 1924. She taught English in the Memphis High School for three years.

The groom is the son of Mr. and Mrs. O. W. Hoy of Flat River, Missouri. He attended school in Central College, Missouri, in 1916 and received his B. S. degree from Southern Methodist University in 1922. He took his B. D. degree from Northwestern University in 1925. Mr. Hoy served as first lieutenant in the 30th Infantry, Third Division, during the World War. For the past three years he has been associate minister and director of religious education at the Rogers Congregational church, Chicago.

HOY-MADDEN BRIDAL PARTY ENTERTAINED

Mrs. G. W. Sexauer entertained the Hoy-Madden bridal party with a six o'clock dinner Wednesday, June 16.

Garden flowers and fern leaves formed the center piece of the table. Miniature brides marked places for the guests, and little brides and grooms were used as favors.

The following menu was served to twelve guests: Cherry cocktail, fried chicken, creamed potatoes, rolls, olives, celery, tomato and lettuce salad, angel food cake and ice cream.

Those enjoying the dinner were Miss Oressa Teague of Clarendon, Miss Helen Thomas of Crafton, Miss Martelle Wickliffe of Chillicothe, Misses Dorothy and Helen Madden, little Miss Georgine Sexauer of Memphis and Little Miss Leta Fern Wells of Wellington; Mr. Deskins Wells, of Wellington, Mr. Gaston Foote of White Deer, Mr. Charles Lowry of Clarendon, Mr. Avon Steed of Greenville, and Mr. Harry Delaney of Memphis, and Miss Loma Madden and Mr. Jeffrey Hoy.

Watch for the opening date of the Colorado to Gulf Service Station, located at 4th and Noel, opposite Cicero Smith Lumber Co., under management of Dennis & Williams. The date will be announced next week. 51-c

## THE PASSING DAY

WILL H. MAYES  
Former Dean

Department of Journalism  
University of Texas

### A Gift of Appreciation.

Edgar B. Davis, after many years of disappointing efforts to get oil in the Luling field, was at last successful and became immensely rich. He gave a picnic at Luling to which he invited all who wished to attend. There were 10,000 persons present whom he fed and entertained. During the festival he announced he had set aside a half million dollars for a home for destitute children which would be open to all needy children and especially to those of Caldwell and Guadalupe counties. Another half million he stated, would be given to founding an institution for the promotion of crop diversification. He also presented Luling with a public park, which he will improve. If all rich men would endeavor, as Mr. Davis is doing, to make the world a better and happier place for those less fortunate, instead of hoarding much more money than they can ever use, they would get far more pleasure out of their wealth and the masses would rejoice in their prosperity.

### Disgracing Texas' Name

A guard on the Houston city farm is charged by short prisoners on the farm with brutally beating another prisoner to death because he was not doing as much work as the guard thought he should be doing. The physician who attended the dead man swore that the prisoner had received 100 lashes with a plaited bull whip, any one of which would have produced death. After being beaten into a dying condition, according to witnesses, the poor fellow was left in the hot sun for two hours without attention. The cruelty, as related, is an unthinkable brutality, in a civilized country. Men who violate city ordinances are not necessarily criminals, and even if they were the basest villains they are entitled to every legal

protection while in the toils of the law and in charge of officers. Guards who bullwhip prisoners, except in self-defense, are worse than the hardest criminals, for they are law officers sworn to respect law. Texas must stop brutal treatment of prisoners.

### The Joy of Learning

In an address to the graduating class of Rice Institute at Houston, Dr. Amos of John Hopkins University deplored the present tendency to crowd the training of students in preparation for college and after they are in college to exact too much of them in preparation for the professional studies or for graduation. That students are burdened with their studies and with books is evident to those who closely observe our educational system. They scatter over many subjects indifferently instead of learning a few thoroughly. Their purpose is merely to be graduated and not to learn. They acquire only the amount of knowledge necessary to get a coveted degree, and they do this for the degree and not for the love of learning. There should be more time in all our schools for thorough work. The student who leaves school without having acquired such a love of learning as will make him a student for life has not had the right kind of school training. One great object of all our schools should be to create a genuine passion for study, and the degree should indicate that the object has been attained.

### Propagating Texas Flowers

One of the most splendid movements in Texas is that started a few years ago in San Antonio to gather Texas bluebonnet seeds and send them to counties in the state where these flowers are not growing, the idea being to get bluebonnets established in all parts of Texas where this flower will grow. This year special efforts are being made to get Denton and perhaps some other counties seeded to bluebonnets. The movement to gather and distribute Texas flower seed has gradually extended to other flowers than bluebonnets. There is now at San Antonio a club of girls whose purpose is to gather and disseminate throughout Texas the many wild

flowers to be found in the state.

### The Press and its Readers

Will Allen White thinks that the daily press, with its pages of comics its emphasis on crime, its poorly written sex stories, its general light diet, is underestimating the mentality of the reading public which "should be given more of the sentiment and the philosophy and the facts that are pregnant with the fate of human society." The light and even the foolish things of the daily press may be all right in their due proportions, but the press is under obligations to feed the mentality of those who desire better things than these, and who look to the newspapers largely for their intellectual and literary improvement. The press cannot undertake the elevation of public mentality as its sole purpose, but it has obligations in this direction that should not be ignored.

### Unbridle the Railroads

So long as Texas is without sufficient railroad facilities the roads should be allowed the greatest liberty in making extensions into territory they think may prove profitable. No restrictions should be placed around agencies that want to assist in the development of the State other than those that guarantee honesty of purpose and fair treatment of the public. Texas growth has long been hampered by insufficient transportation facilities.

### PROPOSED AMENDMENT TO THE CONSTITUTION

#### SENATE JOINT RESOLUTION NO. 9

A Joint Resolution relating to the amending of Article 16, Section 58 of the Constitution of the State of Texas, abolishing the Board of Prison Commissioners; providing for the supervision and management of the Prison System, under such laws as may be provided for by the Legislature. Be it resolved by the Legislature of the State of Texas:

Section 1. That Article 16, Section 58 of the Constitution of the State of Texas, be amended so as to hereafter read as follows:

Section 58. The Legislature shall have full power and authority to provide by law for the management and control of the Prison System of Texas; and to this end shall have power and authority to place the Prison System under the supervision, management and control of such trained and experienced officer, or officers, as the Legislature may from time to time provide for by law.

Section 2. The above Constitutional amendment shall be submitted to a vote of the qualified electors of this State at a general election to be held November 3, 1926, at which election all voters favoring said proposed amendment shall write or have printed on their ballot the words "For the amendment of Article 16, Section 58, of the Constitution abolishing the Board of Prison Commissioners." And all those opposing said amendment shall write or have printed on their ballot the words "Against the amendment of Article 16, Section 58, of the Constitution, abolishing the Board of Prison Commissioners."

Section 3. The Governor of this State is hereby directed to issue the necessary proclamation for said election and have the same published as required by law.

Section 4. The sum of \$5,000, or so much thereof as may be necessary, is hereby appropriated out

of the funds of the Treasury of the State, and not otherwise appropriated, to pay the expenses of such publication and election.

Approved, April 4, 1925.  
EMMA GRIGSBY MEHARD  
Secretary of State  
(A Correct Copy) 52-4c

### NOTICE BY PUBLICATION OF FINAL ACCOUNT

THE STATE OF TEXAS,  
To the Sheriff or any Constable of Hall County—Greeting:

W. A. McIntosh, administrator of the estate of S. L. Crandal, deceased, having filed in our County Court his final account of the condition of the estate of said S. L. Crandal, deceased, together with an application to be discharged from said administration, you are hereby commanded that by publication of this writ for twenty days in a newspaper regularly published in the County of Hall, you give due notice to all persons interested in the account for final settlement of said estate, to file their objections thereto, if they have, on or before the July term, 1926, of said County Court commencing and to be held at the courthouse of said county, in the City of Memphis on the 19th day of July, A. D. 1926, when said account and application will be considered by said court.

Witness, Edna Bryan, Clerk of the County Court of Hall County. Given under my hand and seal of said court, at my office in the city of Memphis, this 23rd day of June, A. D. 1926.

**STAR PARASITIC REMOVER**  
A GREAT POULTRY REMEDY  
Cures lice, ticks, mites, and other parasites. Its formula is superior and other ingredients known remedies for improving the appetite, purifying the blood, tonic the system and preventing disease. Better prevent than try to cure. Contains no alcohol or poison. Can be given to all ages of chicks, old fowls and turkeys, any kind of weather with good results.  
The cost is very small—only one dollar bottle will treat 100 fowls more than 125 days. The manufacturers are anxious for all country orders in any R. F. D. district. Ask for the following conditions: After using 10 days if your flock has not improved in health, reduced more eggs—free that batch stronger and healthier young chickens back to your flock—he is authorized to refund your money.

## Indigestion

bad spells relieved

"NOTHING can take the place of Theford's Black-Draught with us because we have never found anything at once so mild and so effective," says Mrs. H. Nichols, R. F. D. 4, Princeton, Ky. "When the children have spells of indigestion and upset stomachs, I always straighten them out with a dose or two of Black-Draught."

"Several times I have suffered with bad spells of indigestion myself and found I would soon get relief if I took a course of Black-Draught. I was troubled with a bad accumulation of gas and severe pains across my stomach and lower bowels. Now when I feel a spell of this kind coming on, I head it off by taking Black-Draught—a dose every night for a few nights will prevent the trouble and save me much pain and suffering."

"My whole family uses Black-Draught for biliousness and constipation."

"It is a splendid medicine."  
Sold everywhere. 25 cents.

**PROPOSED AMENDMENT TO THE CONSTITUTION**

**HOUSE JOINT RESOLUTION NO. 9**

A resolution proposing an amendment to Article 7, of the Constitution of the State of Texas by changing Section 3, eliminating the provision authorizing the Legislature to create special districts and making an appropriation therefor.

Be it Resolved by the Legislature of the State of Texas.

Section 1. That Section 3, Article 7, of the Constitution be so changed as to read as follows: (creating new section.)

"Section 3. One-fourth of the revenue derived from the State Occupation taxes and poll tax of one dollar on every inhabitant of the State, between the ages of 21 and 60 years, shall be set apart annually for the benefit of the public free schools; and in addition thereto, there shall be levied and collected an annual ad valorem State tax of such an amount not to exceed thirty-five cents on the one hundred (\$100.00) dollars valuation, as with the available school fund arising from all other sources, will be sufficient to maintain and support the public schools of this State for a period of not less than six months in each year, and it shall be the duty of the State Board of Education to set aside a sufficient amount out of the said tax to provide free text books for the use of children attending the public free schools of this State; provided, however, that should the limit of taxation herein named be insufficient the deficit may be met by appropriation from the general funds of the State and Legislature may also provide for the formation of school districts by general laws; and all such school districts may embrace parts of two or more counties, and the Legislature shall

be authorized to pass laws for the assessment and collection of taxes in all said districts and for the management and control of the public school or schools of such districts, whether such districts are composed of territory wholly within a county or in parts of two or more counties, and the Legislature may authorize an additional ad valorem tax to be levied and collected within all school districts heretofore formed or hereafter formed, for the further maintenance of public free schools and for the erection and equipment of school buildings therein; provided that a majority of the qualified property tax paying voters of the district voting at an election to be held for that purpose shall vote such tax not to exceed in any one year one (\$1.00) dollar on the hundred dollars valuation of the property subject to taxation in such district, but the limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts, nor to independent or common school districts created by general or special law."

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the State on the first Tuesday after the first Monday in November 1926, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words, "For the amendment to the Constitution of the State of Texas eliminating the provision which authorizes the Legislature to create special school districts," and all those opposed shall write or have printed on their ballots the words "Against the amendment to the Constitution of the State of Texas eliminating the provision which authorizes the Legislature to create special school districts."

Section 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and existing laws of the State.

Section 4. That the sum of two thousand (\$2,000.00) dollars, or so much thereof as may be necessary is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated, to pay the expenses of such publication and election.

Approved, April 4, 1925.

# NO-NOX

## MOTOR FUEL

# STOPS KNOCKS

### PUTS CARBON TO WORK

**PUTTING** the old demon, carbon, to work sounds like a paradox—nevertheless that's just what GULF No-Nox Motor Fuel does and here's how it happens: Compression is power. The more compression the more power. Greater compression is secured by reducing the displacement or space in the combustion chamber. Carbon deposits materially reduce this space—old time gasoline would not withstand this added carbon compression—clicks—knocks—pings or detonations of distress quickly following sudden acceleration or heavy pulls.

No-Nox withstands higher compression—stops the knocks or detonations, thereby increasing engine efficiency. GULF No-Nox and Carbon Deposits work together for more power and greater mileage.

**Turns Mountains Into Mole Hills**

his guarantee goes with it: GULF No-Nox Motor Fuel is Non-Noxious, non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no *dope* of any kind—that the color is for identification only—that it positively will not heat the motor, winter or summer.

GULF No-Nox Motor Fuel is priced three cents per gallon higher than ordinary gasoline—and is worth it.

Quit wishing for anything in the grocery line. Just phone 351. If we don't have what you want we will get it if it is in Memphis. Draper Grocery. 50-1tc

Canned beef, abandoned in 1845 by Sir John Franklin, Arctic explorer, was opened by scientists and fed to rats in London. It caused no ill effects.

Nothing but the best is good enough for your car, that's WHY you should stop at PETES PLACE for PENNANT GAS and OILS. 50-1tc

James V. Allred of Wichita falls was here Saturday in behalf of his candidacy for Attorney General of Texas. Jimmie stated that he is the only ex-service man in the race, and was formerly district attorney of the 39th judicial district.

Daring Actress Rides Freight Train as a Man

Long reputed as the most fearless of screen actresses, Anna Q. Nilsson sets up a record for daring in her new picture, "Miss Nobody," a First National release, coming to the Palace Theatre on Tuesday.

Disdaining to allow a "double" to enact the hazardous scenes of this play of hobo life, Miss Nilsson "rides the rods" on a speeding freight train, paces the brakeman's runaway on the top of careening cars, perches on the bounding "bumpers" and actually experiences the rigors of the brakeman's pet device for dislodging tramps clinging to the chassis of cars—the method known as "hanging a coupling iron."

Recording cameras either on top of the moving trains or on platforms projecting from the side of the cars give a graphic picture of actual dangers braved by Miss Nilsson for the sake of realism.

Walter Pidgeon, a recruit of the year from the musical stage, makes his appearance in this film opposite Miss Nilsson. Others featured in the cast are Louise Fazenda, Arthur Stone, Mitchell Lewis and Clyde Cook.

The picture is declared to rank as Miss Nilsson's best work since "Ponjola." By coincidence Miss Nilsson's role in "Miss Nobody" is reminiscent of her role in the former picture. In both she plays the part of a man. But while in "Ponjola" she played the part of an English gentleman, in "Miss Nobody" she is seen as a hobo.

Lambert Hillyer directed "Miss Nobody" which is an adaptation of the celebrated novel "Shebo" by Tiffany Wells.

When Congress refused to build a new post office at St. Mary's, Ohio, the citizens raised \$45,000 by popular subscription to construct the building.

What'll It Be, Heads or Tails?

These are camping days for the boys of the national guard. This group of New York guardsmen is initiating a rookie at Camp Smith, Peekskill, N. Y.

The Diamond Tragedy; or, to Be Continued

The diamonds, which the woman had sought so desperately to gain, lay in a little heap on the table. She gazed at them, covetously, as if hypnotized, then turned towards the man who had outwitted her. He laughed triumphantly. "My lady must acknowledge defeat," he said. "A bitter pill, indeed, for one so seldom beaten."

Old Ideas Revived by Experiments in Diet

Some remarkable cases of fasting have attracted attention lately, but one striking experiment in diet has met with less attention than it deserves.

Inkfish That Blinds Enemies With Light

A cuttlefish that confounds its enemies with light instead of darkness is the interesting creature described by Prof. E. Newton Harvey, a student of what is popularly known as "cold light," who devoted eight months to research in the marine laboratories of Naples and Messina, Italy.

Vanity Cost Job

In the old days in the West, when saloons, instead of being blind pigs, were saloons, a circus magician, down on his luck, obtained a job as bartender. One day a traveling conjurer visited the saloon where the magician was employed, and in exchange for a few drinks did a number of tricks.

Water That Burns

Powder river is a fitting name for the stream which passes through the northeastern section of Wyoming—it burns. "Burning water" exists in several places on the river where natural gas is found bubbling up through water. Some bubbles will ignite when a match is applied.

Origin of Flowers' Names

The purple fox-glove, which blooms in its greatest profusion on Irish hillsides, is so called because it is believed that the fairies use these flowers for gloves during some of their ceremonies. The rosemary, an evergreen shrub of the mint family, is a native of the Mediterranean regions, and takes its name from the Latin word, rosemarina, which means sea-dew.

By a Chinese Humorist

A master was teaching one of his pupils arithmetic. He asked him: "What is 1 plus 1?" The scholar replied, "I don't understand." The teacher said, "You certainly are a blockhead. Let me ask you again. You are one person. Together with me how many people does that make? Do you understand now?"

A Guide Needed

"What do you do when winter breaks up?" asked a man for whom Toofus had been guiding. "I may go to Niagara falls," responded Toofus, "and be a guide."

Uncomplimentary

Little Dolly knew all about the hand organ and its accompanying monkey, for she had been amused by them frequently in the street. When she heard a church organ for the first time she watched the organist long and earnestly. Finally she caught sight of a tower, which was puny background for the organist.

Is It a Fish or Not?

The olm or proteus is a curious, snake-like fish which is totally blind and its eyes would be of little value to it in the subterranean waters which inhabit. The olm is both a lung and a gill breather, lying at the bottom of a stream at times and extracting oxygen through its gills and again rises to the surface and breathes through its lungs.

Shunk's Combat With Crows Unequal Match

How one skunk staged a battle with a flock of crows and was worsted by them on a floating cake of ice in Weiser river is told by a rancher living east of Weiser, Idaho. His attention was attracted by the uproar of the crows and he watched the battle for some time, says the Milwaukee Journal. The birds were apparently excited by the skunk's proximity. Occasionally a crow would lose control of itself and fall into the water and drown. As the ice floated nearer the battle grew in intensity.

NOTICE OF ELECTION STATE OF TEXAS, COUNTY OF HALL

Whereas, on the 23rd day of June, A. D. 1927, a petition was presented to me for an election in common school district No. 19, of this county, to determine whether or not the said common school district No. 19, will be consolidated with common school district No. 10, in Hall county, Texas; and

RUBBERIB IS NEW BATTERY IMPROVEMENT

A patented feature which is unusually successful in lengthening the life and increasing the efficiency of storage batteries has just been announced by the Prest-O-Lite Company, Inc., of Indianapolis, according to Alvis Gerlach, of the Gerlach Battery Station, local Prest-O-Lite distributors.

This new improvement, which has been tested for the past three years in Prest-O-Lite batteries used as standard equipment on Packard motor cars, consists of the use of sturdy, rubberribbed separators between the battery plates, according to Mr. Gerlach. Batteries containing this patented feature are now on the market in the new Prest-O-Lite "Rubberrib" storage battery for all makes of cars.

"Three-fourths of all battery trouble in the past have been due to the fragile nature of the separators, which wore out before the plates, due to the fact that no one had found a satisfactory way to reinforce them to withstand the friction which may result from the plates rubbing against a separator," declared Mr. Gerlach. "In the past," he stated, "efforts have been made to overcome this difficulty, but until the Prest-O-Lite Rubberrib was invented no one had succeeded in so strengthening a wood separator as to make it possible for the separator to last as long as the plates."

"The new Rubberrib battery has separators of candied Port Orford cedar," said Mr. Gerlach, "admittedly the best material for separator use. These are specially treated by a secret Prest-O-Lite process to increase their porosity and durability. They are then strengthened by triple reinforcements of hard, vulcanized rubber at the points which take the wear—and this is an outstanding improvement."

"In keeping with Prest-O-Lite's conservative policy, batteries of this new construction have been in use for three years without the knowledge of the public, and now at the close of this period of successful use, Prest-O-Lite announces that Rubberrib batteries are available for all makes of cars."

Tons of shoe polish are sent from England to Calcutta to meet the demand of the natives, who take the greatest pride in keeping their shoes glistening to the highest degree.

Mrs. L. O. Jameson and daughter Yvonne of Knox City and Mrs. Byron Gist of Amarillo came in Wednesday for a two weeks visit with their parents, Mr. and Mrs. S. A. Bryant.

In a barber shop and beauty parlor for dogs in London, England, the charges for haircut and shampoo vary according to the size of the animal. The charge for the average dog is \$2.50 and for a St. Bernard, \$5.

In Great Britain the feet are used as an aid to identification and it has been shown that the inhabitants of London have long slim feet, those of Wales, low in the arch, and those of Scotland, broad in the sole.

Wood for Newsprint

Since the customary units of wood measurement—cord, log measure or lumber scale—do not represent an exact quantity, the cubic foot solid of wood is used. Even this unit is variable as to pulp yield according to the character of the wood as to the species and rate of growth. However, taking the dry weight of spruce as 24 pounds per cubic foot, the commercial yield of 100 cubic feet would be about 2,300 pounds of mechanical pulp and of sulphite pulp, 1,600 pounds. Commercially, newsprint is made from a mixture of 75 per cent mechanical and 25 per cent sulphite. Consequently, a ton of newsprint would contain 1,500 pounds of mechanical and 500 pounds of sulphite. Then 1,500 pounds of mechanical wood would require 66.2 cubic feet wood; 500 pounds sulphite would require 48.5 cubic feet wood; one ton newsprint would require 113.7 cubic feet or 2,728.8 pounds oven-dry spruce wood.

Disillusioned Barber

Mr. Oliver Lodge, illustrating the light esteem in which scientists are held in some quarters, tells a story of an experience he had while visiting in this country. He arrived at a small town, where he was to address the members of the well-known scientific association. While at the hotel barber was cutting his hair, he made several futile attempts to open a conversation with the great scientist. Finally he said, "What exactly is this association that's meeting here today?" The professor explained that it was a society of learned scientific men.

Why, to Be Sure

It was raining terribly. The playing field was a sea of mud. The players came up out of every scumlike puddle like pulling a diver out of a mudhole. Everything was a mess. The football jerseys had lost their brilliant hues and the white pants of the officials were a dark gray shade. "Isn't it terrible that they should get so dirty? Look at that fellow's shirt. How will they ever get them all clean?" "Say, what do you suppose they got the scrub team for?"—Grinnell Maltesser.

Is It a Fish or Not?

The olm or proteus is a curious, snake-like fish which is totally blind and its eyes would be of little value to it in the subterranean waters which inhabit. The olm is both a lung and a gill breather, lying at the bottom of a stream at times and extracting oxygen through its gills and again rises to the surface and breathes through its lungs. If the olm lives in warm waters it brings forth its young alive, while transplanted to colder waters the same olm will lay eggs and hatch its young.

### TEXAS & TEXANS

By WILL H. MAYES

**Misunderstand Texas Trip**  
The 125 Texans who toured the North and East on a special train for the purpose of making Texas understood by the cities visited appear to have succeeded in making Texas more understood. The party was headed by Governor Dan Moody, and despite that all he and members of the party said to the contrary, the Eastern papers and the Eastern people insisted that the tour was political in purpose and intended to exploit Moody as a prospective candidate for vice president. No effort was made on the part of the Easterners to conceal the fact that they believed the Texans were more interested in Moody's political fortunes than in making Texas better known to them. The newspapers largely ignored any other interpretation of the visit, however much the Texans tried to tell them of the wonderful resources of our great State. In fact a large number of the papers almost ignored the visitors altogether, giving small space and inconspicuous position to the visit. Even the Texas daily papers gave little space to the trip as a Texas constructive news item.

#### Home Missionary Effort

The facts stated in the foregoing paragraph lead to a restatement of an opinion several times expressed in these articles, which is that the greatest field for making Texas understood is right here in Texas. That has all along been the prime purpose of the articles—to bring Texans to knowing more about what is being done through out the State and through that to a greater interest and pride in Texas achievements. Once get the people of Texas to a complete understanding of what we have here and what can be done with our wonderful resources and they will in numerous ways carry the information to the people outside the State. Too many Texans have what is called an "inferiority complex" when it comes to the possibilities right about us. When that is removed through knowing Texas better, and not until then, Texans will become information missionaries carrying the glad tidings to other States.

#### Work of the Texas Press

The removal of this "inferiority complex" will to a large extent have to be the work of the Texas Press, which should use every effort to teach Texas and preach Texas to Texas people. Most newspapers, especially in the smaller cities and towns, become too localized. Often this is because local conditions are such that the papers feel they must spend their efforts to improve these even to the neglect of what near to be outside efforts. This has been removed to Wichita the best way to interest people where they will make their improving local conditions in future.

#### Alaska, for which the United States paid \$7,200,000 in 1867,

exported \$62,223,735 worth of products in 1925 alone.

#### Perfect preservation is guaranteed by the automatic Refrigerators,

sold by McKelvy & Reed Furniture Co. 46-4c

#### The average monthly pay of a farm hand is now \$34.38,

She is a graduate of the Moler College of St. Louis, and believes Memphis is a good place for her line of work.

be classed as modern, comfortable stopping places for tourists. The places that have the best camps are the places that are best pleased with the tourist business.

#### Texas Textile Mills Prosper

Textile mills in the State, of which the number is entirely too small, are prospering, and they have prospered through the "hard times" through which the Northern mills have been going. Textile manufacturing in this State has passed the experimental stage and it has also passed the stage where local capital can be exploited through the construction of local mills, built with the idea that they will soon be allowed to fail, after which the stock will pass into the hands of exploiters who will then make the mills successful. In other words the textile industry in Texas is now built and run on solid, substantial, and approved business lines.

#### Pecan Growers to Meet

The Texas Pecan Growers association will hold a meeting at Gonzales July 12-14, at which every phase of the pecan growing business will be discussed. Pecan growing in Texas has become a business, but it needs to be studied like other business. Last year 350 carloads of pecans were gathered and marketed, bringing something like \$1,750,000, which the growers think was less than half their real value, when compared with other nuts. Marketing of pecans is not systematized and orderly, profitable marketing is now perhaps the most difficult problem confronting growers. Growers receive too little and brokers get too much, is the contention of the industry.

#### Collin County Onions

That South Texas is not the only sections where onions may be grown with profits is shown by reports coming from Collin county, where onion growers have netted from \$200 to 300 an acre on the crop just gathered. Almost every section of Texas where there is a light soil and enough rainfall can grow onions to the profit of the growers.

#### Camp County Potatoes

Camp county farmers have made money this year growing Irish potatoes, Pittsburg having shipped forty-two carloads at prices ranging from \$3 to 4.35 a hundred pounds. One farmer with the use of commercial fertilizer realized \$625 from one acre of spuds. What can be done in Camp can be done in one hundred other counties in Texas.

#### George Neu Passes On

George Neu, who was elected president of the Texas Press association at its recent meeting, died from the stroke of paralysis which he suffered while on the way to the El Paso meeting, and his death has grieved the newspaper people and other friends. He was a good man, faithful to the press, an ideal newspaper worker whose place can never quite be filled.

### TEACHERS MEET COL'GE. STATION

College Station, July 5.—Approximately 75 county school superintendents of Texas are expected here for the fourth annual conference of Texas County School Superintendents July 25-30, according to Prof. W. L. Hughes, head of the department of rural education, who has just announced the completed program for the conference.

The conference will be held this year, as usual, during the Farmers' Short Course Period. Thursday, July 27, has been designated by the short course officials as Rural School Day and this is expected to be a feature day of the county superintendents' meeting. State Superintendent of Public Instruction S. M. N. Marrs is scheduled to be here and Supt. E. S. Richardson, of Webster Parish, La., one of the feature speakers of the superintendents conference, will deliver an address that day on consolidation problems.

The general theme of the superintendents conference will be "Supervision for Growth." Sessions will be held in the Academic Building with Supt. H. L. Gantz, of Comanche County, chairman of the conference, presiding. Mrs. George R. Felter, Travis County superintendent, is secretary.

President T. O. Walton of A. & M. will welcome the superintendents at the opening meeting the morning of July 25 and W. L. Hughes will discuss problems in supervision. Professor Hughes organized the county superintendents conference four years ago and has taken a leading part in its growth and development. In addition to about 150 county superintendents, a number of whom have been invited to attend the coming session.

A standard type of rural school, how to lead the rural community to want a better type of school, consolidation problems, supervisory problems, administrative problems and nature and content of industrial work in the rural schools are some of the topics that will come in for consideration and discussion.

### J. G. CLUBERSON AFTER BIG GAME IN SOUTH AFRICA

Dallas, June 27.—Jack G. Cluberson of Wichita Falls, one time candidate for governor of Texas, in a letter to R. B. Ellifritz, managing director of the Adolphus Hotel, Dallas, told recently of some of his exploits in South Africa's big game hunting preserves. Mr. Cluberson, who has been in Africa for almost a year, has seen some intense activity in the forests where the big beasts roam wild. He announces that he has killed two big bull elephants African variety, so wild and dangerous that never yet has one been domesticated.

"The last one was bad and hard to kill," he said, "I knocked him down on the first shot but he got up and started for me. I knocked him down again and as I was reloading my rifle he was up and coming. My next shot brought him down 20 feet away, which I felt was pretty close."

At this time he was 350 miles in the forest away from white people, with only the natives of the Bulu tribe.

Besides the big elephants, Mr. Cluberson has to his credit as a result of his hunt three hipopotami, one buffalo, two hartebeests, one kudu, twenty odd rillas, monkeys, and

still further ch he is plan to Texas next

### FOR SWIMMING HOLE

Those seeking the recreational advantages offered by the "old swimming hole," should not indulge in its pleasure at improper times, and should be careful in selecting a pool, as polluted water is a grave menace to the health of those bathing in its depths, according to the following statement issued by Dr. J. C. Anderson, state health officer.

"Many cases of typhoid fever are traceable to some swimming hole, whose cool, inviting depths have lured the unwary. Do not take chances on entering a pool of water just because it looks like a good place to swim, as water may be clear and sparkling and yet contain numerous disease germs.

"Each year also adds its toll of accidental drownings, the greater number of which are children. Such tragedies can be prevented if ordinary care is used in the supervision of bathing pools, and installing into the minds of children the danger of venturing into water beyond their depth."

#### Some Rules to Follow

- 1. Do not swim too soon after a hearty meal, it being best to wait two hours after eating before entering the water.
- 2. Do not try to swim when over-heated or tired.
- 3. Do not stay in water so long that you get chilled or exhausted.
- 4. Do not bathe in polluted waters.
- 5. Do not take chances with heavy waves.
- 6. Supervise the bathing of children.
- 7. Do not dive unless you know that the water is sufficiently deep.

### BETTER HEALTH FOR BABIES

During the month of July, a special educational campaign will be conducted by the state department of health in the interest of better health for babies. "Inasmuch as the hot summer months are especially hard on the health of babies," stated Dr. J. C. Anderson, state health officer, "and is the time when digestive disturbances are most frequent, we wish to give instructions to mothers on feeding and caring for their children during these trying days."

"It is very necessary that children be supplied with plenty of wholesome milk, and as ice is absolutely necessary to keep the milk in a safe condition for drinking by young children, it is hoped that the people of the state will contribute liberally to 'milk and ice funds' for children who would otherwise be denied this health sustaining necessity. Literature upon 'Infant Care' will be mailed to any mother upon request to the state department of health."

Eleanor Hayne of Cooperstown, New York, has twelve living grandparents, consisting of two grandmothers, four great-grandmothers, two great-great-grandmothers, two grandfathers and two great-great-grandfathers.

J. G. Gardner and family were visitors in Quanah Sunday and Monday.

### REQUIREMENTS OF THE TEXAS AUTOMOBILE HEADLIGHT LAW

- 1. Two headlamps must be burning.
  - 2. The headlamps must be properly adjusted.
  - 3. The tail light, either red or yellow, must be burning.
- See that your car is equipped accordingly so you will not be

## Why tort your motor?

WHY subject your engine to the abuse which results in knocking? Why shorten its life by running up for yourself unnecessary bills? You can eliminate knocks and longer life for your motor by the simple process of filling the tank with Conoco Ethyl Gasoline. Automotive science worked 10 years to produce Conoco Ethyl the greatest contribution to complete motoring satisfaction. And it costs just 3c more than regular Conoco Gasoline for it at the Conoco sign.

**CHEVROLET IN SEVERE TESTS**

A romance of the General Motors proving ground at Milford, Michigan, comes to light today with the announcement that Chevrolet test car number 112 has been retired from the proving ground service after withstanding the withering strain of 46,150 miles in four and one half months over various types of roads and a wide range of driving conditions.

Number 112 had a standard light delivery panel body on the standard commercial car chassis and had been taken out of regular production at the Flint plant.

When in the course of the usual routine was replaced at the proving ground by another Chevrolet, it still had in it many miles of unused transportation, engineers declared, despite the grueling experience of so many miles of terrific test driving.

Forty miles out of Detroit in the hills and vales of Livingston county, where the great outdoor automobile laboratory is located, this Chevrolet, like others there, underwent supreme tests in the cause of improved automotive transportation. In the course of these tests, the car was called upon to go through all the types of service an automobile may be heir to—and more.

It was kept on test for 135 days, "working" on an average of 341.8 miles a day. There were days when it was driven more than 500 miles in order to try its stamina. In addition to the test work at the proving ground, the car carried mail to Detroit and return each day, permitting of a study and check of the car under actual road traffic conditions.

Engineers and technical men who drove and checked the car at the proving ground had in mind the many difficulties an automobile has to contend with in its lifetime. They thought of the driver who speeds his car over rough, rutted roads; they considered the motorist who rides his clutch; they had in mind the man who habitually tramps on his brakes, another who races a cold motor, another who asks his car to pull out of a mud hole in high, and so on.

Although they realized at the same time that only a very small minority of drivers do these things today, they wanted to study the ability of the Chevrolet to withstand these abuses and to be constantly on the watch for developments that might further improve the product.

Although the Proving Ground boasts some fine stretches of pavement, number 112, during the four and one half months it was on the test there, never left the gravel and dirt roads, except on its trips out of the grounds as a mail car.

Asked why, a Chevrolet engineer replied: "Concrete makes 'too easy!"

Famous men have employed peculiar methods of recreation. Spinoza, world-famous philosopher, joined in the trival conversation of the family with whom he lodged or provoked spiders to fight each other; Socrates played with the children; Balzac amused himself with a collection of crayon portraits; Dr. Samuel Johnson, by jumping over tables and chairs; and Dean Swift by running up and down the steps of the deanery.

Omer E. Johnney returned Sunday morning from San Antonio where he has been on a two weeks vacation.

save her strength after her own family is provided for. The home demonstration work in Texas has reached the point of productivity where it is calling for a genuine business system of marketing. What are we going to do about it?

**Monotony of Waiting Too Much for Billy**

It is hard for grownups to see things from a child's point of view, and to realize that our ideas of politeness must sometimes seem strange to him! The Woman had this fact brought to her notice the other day.

She was visiting a friend who has a small son. Billy had been sitting next his mother when the Woman entered the room, but at his mother's "run and play, dear," he retired to a corner with books and blocks. Presently, however, he returned and slipped into his little chair between the two ladies. The grownups continued to talk, and Billy, holding a book in his fat little hands, looked eagerly from one to the other in the hope that a pause in the conversation would give him a chance. Falling this, he presently laid a hand on the Woman's arm, "Excuse me," he said softly.

"Certainly, dear," replied the Woman, "what is it?" "Nothing, I just wanted to speak to my mother a minute," answered Billy, and turning to her he spoke quickly, before the stream of adult conversation should start again. "I found that story about the Kitten! You keep it, and we can read it when this lady has to go."—New York World.

**Patriotic Action of Foreign-Born Citizens**

Through the efforts of a naturalized Swiss, a naturalized German and a naturalized Frenchman, the United States government once was saved from bankruptcy, writes Sydney Greenlee in Asia Magazine. It was during the War of 1812, a war so unpopular in many quarters that the government's attempt to negotiate a loan of \$16,000,000 for its conduct brought subscriptions of less than \$3,000,000. New England refused to extend any aid, and some persons thought that the colonies were going back to the Mother Country.

The treasury was almost at the end of its rope, lacking both funds and credit, when John Jacob Astor, a native German, and Stephen Girard, a Frenchman, the two richest men in America, came to the rescue and, through Secretary Albert Gallatin of Madison's cabinet, a Swiss, took the remaining \$10,000,000. Astor subscribed for \$2,000,000, and Girard, through his banker, became responsible for \$8,000,000.

**Sign Told the Truth**

The blind mendicant, led by a dog on a string, had been so much in evidence during the last few years, but the other day one of the clan took up a position on Girard avenue near Broad street.

He was fully equipped up to the old-time standard. His clothes were ragged, his tin cup was battered and the dog put on as dull and sleepy an appearance as his master. Fastened about the dog's neck was a placard bearing the appeal: "Please help the blind."

A man in passing attempted to toss a quarter into the cup, but it struck the edge and rolled out over the pavement. The "blind" man promptly made a dive for it and as his hand closed over the coin the surprised business man who had given it exclaimed: "What do you mean? You're an old faker and not blind a bit!" "Never said I was, mister," was the prompt reply. "It's the dog that's blind."—Philadelphia Record.

**Bank Teller Wasn't Fooled**

"They used to try all sorts of tricks on us in the older days," said a bank teller of 50 years ago. "I remember that a brisk and important little fellow came in one day and said: 'Friend of mine has just given me \$50 in small bills. Let me have a \$5 for them.' It is possible that I might have thrown the \$5 to him after flipping over the end of the neat package with its white binder. But I didn't. I unplanned it and went through the lot, bill by bill. They were not neatly arranged under the binder. Some were upside down and when I went through them I found one of the fives was half there, and two of the twos were cut in two and made to do duty at both ends. "Say, give me those bills," said the patron. "I'll find that fellow and smash him up." And he grabbed the bills and rushed away at a great rate."—Cleveland Plain Dealer.

**Not Appreciated**

"My dear fellow," said John Clayton, "I wrote to a man who had sent me an abominable play, and said, 'My dear sir, I have read your play. Oh! my very dear sir! Yours truly, John Clayton.'" "I told this story on many occasions with great success. At last I told it to one who did not laugh. He was my secretary. It seemed to me hard, indeed, that one's own secretary should not laugh at one's funny stories. It appeared to me that he had mistaken his vocation, and I said in a tone of some irritation, "You don't seem to think that funny." Said he, "No, I don't. It was to me, Mr. Clayton wrote that letter."—From "A Player Under Three Reigns," by Sir Johnston Forbes-Robertson.

For the sake of economy many couples in a workmen's quarter in Paris are married en masse. They assemble every Saturday, line up, and the principals and witnesses sign the register as they enter the big wedding saloon in the city hall.

Mrs. City, is sister,

**TO ISSUE SEASONAL REPORTS ON COTTON GRADES AND STAPLES**

Reports on the commercial and staples of cotton ginned in two typical districts of the Cotton Belt will be issued beginning October 1, by the Bureau of Agricultural Economics, United States Department of Agriculture, under authority of an act of the last Congress. Other reports will be made on the first day of November, December, January, March and May, as of the first day of the preceding month. It is planned to make a record of the grade and staple length of the cotton as it is ginned.

The work will be under the general direction of Dr. B. Youngblood, leader of research projects of the Division of Cotton Marketing, W. B. Lanham, formerly connected with the Texas Agricultural Experiment Station, has been appointed Agricultural Economist immediately in charge of the trade and staple studies and reports in the bureau's marketing division.

Mr. Lanham left Washington today for Atlanta, Georgia, where an office of the bureau is to be established on July 1 for carrying on the work in the Atlantic area. A similar office is to be established at Dallas, Texas, about August 1. Arrangements are to be made with a large number of ginners in Georgia and in the dry land cotton sledding areas of Southwest Oklahoma and the Panhandle of Oklahoma. Samples will be obtained representative of the growths of the cottons of these areas. These will form the basis of the bureau's monthly reports.

The reports will carry information on the commercial grades and staple lengths only, but an additional study will also be made of other factors such as color, leaf, trash and other elements of character in cotton lint. Specialists in cotton classing of the Government are to be assigned to this work. The Atlanta classification office is to be in charge of Porter I. Barnes, formerly of Georgia, who is thoroughly familiar with cotton production in the Atlantic area. The personnel of the Dallas office will be announced soon.

The information which these studies will provide has been sought for a number of years by producers, ginners and the trade. The purpose is to procure unbiased Government estimates of the cotton produced by grades and staples. These estimates will indicate to all concerned something more definite as to the spinning utility and market value of the cottons grown each year. It is in response to this demand for more exact information as to the quality of the American cotton crop, together with that of the carry-over on August 1 of each year, that these estimates and studies are being made.

It is believed the system will prove more beneficial alike to producers, manufacturers and consumers of cotton by giving

greater assurance that the market quotations shall represent the true value of cotton as normally determined by supply and demand. It will also encourage growers to study the relative market values of the different grades and staples and, in fact, to produce the grades and staples most desired by the spinning world and which pay best.

Establishment of the Atlanta and Dallas offices is the first step in what it is proposed will develop into a comprehensive system of rating grades for the entire cotton belt. At this time work to the two areas named, which have been selected as representative of typical sections of the Belt, but expansion of the system to other regions will probably be made next year. The ultimate aim is to issue reports on the grades and staples both in the crop and in the carry-over on August 1, the end of the cotton year.

**A loaf of bread and A bag of cement**

Any good cook knows that kneading is an important part of bread-making—that thorough mixing of the moist dough makes baking a real success.

Cement-making is much the same. That is why Lone Star Cement is made by the famous International Wet-Blending Process. Perfect blending and "kneading" of the different raw materials is one reason for the super-quality of this cement. Lone Star uniformity is your assurance of success in concrete work. Let us tell you of many improvements that are easy and inexpensive to make with this new-value cement.
