**Resolution of Respect**

Following in humble submission the providential hand of God called in the sad and untimely death of Mrs. J. W. Hamilton feeling deeply the loss of sympathy and loyal encouragement, we, the senior class of Memphis High School for the year 1913-14 offer the following resolution of our sympathy and respect.

First, in the short acquaintance year during her sojourn with us we have learned to know Mrs. Hamilton as one of the truest and most loyal supporters that our school has had.

Second, that in her personal acquaintance with us she has revealed a heart of help and a heart of sympathy and love that will forever be with us the memory of a character that was beautiful and unlike in its fellowship and helpfulness.

Third, that we extend to Mr. Hamilton our beloved Superintendent in this hour of his deepest sorrow our sincerest sympathy words of tender comfort in which the whole school reverently joins.

Death knocks with an imperious and remorseless hand at every door and no life however well lived or purely lived can stay unscathed without the hope and strength of the Christian faith.

Death is earth's greatest sorrow and heaven's venomous sting but under the soft sweet light of Christ's revelation and the resurrection the gradual transition from a time of training and preparation into a well deserved completed sphere. It is but a welcome door that gently opens between the earthly and the home not made hands. Death brings sorrow to the human heart but the revelation of Jesus in the life of the loved one, whom death calls to the cloud away and let's upon us the shining colors of an's rainbow realities.

Feel with deepest sorrow and find revealed again the pain of missing a true, and unselfish friend whose thought was the welfare of the objects of her affection and love irrespective of oil that her life bore as a constant of their success and unful of the sacrifices that she make to realize her wish for the welfare of others. We offer sympathy of loving hearts to who suffer deeper than we know in this experience, yet

## CHAUTAUQUA A BIG SUCCESS

### Large and Enthusiastic Crowds Attend Every Number on Program.

Memphis first Chautauqua opened up Thursday morning with the gathering of the children on the court house lawn. They were marshalled into line by Miss Bradley, the children's supervisor who has charge of the little folks part of the Chautauqua, and marched them to the big tent at the corner of Main and 6th streets. There were 234 children in the lines besides several grownups, Uncle Johnny Noel and Walter Watts bringing up the rear.

The first number presented were the Frontenac Male Quartet, and was greeted by what the platform manager stated to be the largest crowd he had ever seen at the first number where they were holding their first Chautauqua in a town of this size. Everyone hearing them came away well pleased. At night Granville Jones was to have given one of his famous lectures but on account of a wreck on the Denver was not able to reach Memphis in time. Dr. G. F. DeVol, the platform manager, was substituted and gave a lecture using for his subject "Is a Man Better Than a Sheep?" which was pronounced by many to be one of the best lectures ever heard in Memphis.

On Friday afternoon the White Star Concert Company gave a nice entertainment followed by Mr. Max Mahany with his lecture on "Mexico" which was very much enjoyed by all present. At 8:00 o'clock after a prelude given by the White Star Company those present were entertained by Willard Gorton in character sketching, impersonating and clay moulding.

On Saturday afternoon they presented the Tyrolean Alpine singers followed by Dr. James Hedley with his lecture "What is a Man Worth" which was pronounced by those who heard him to be very fine. At night the Alpine Singers and Yodlers which was very well received.

On Sunday afternoon they presented Lo Zito's Italian Band. This band is composed entirely of Italians and was likely the highest price number on the entire Chautauqua program. This music is of the very highest class and was highly complimented by everyone. They also appeared in the evening and were followed by the Panama Pacific Exposition pictures.

On Monday the Cambridge Players in song and drama followed by Seichi E. Ikemoto with his lecture "The Changing Orient," which was also enjoyed very much. At night the entire evening was taken up by the Cambridge players and proved themselves good entertainers in their particular line.

Tuesday the Venitian Singers appeared on the platform and gave a prelude to Congressman Borland of Missouri, who gave his lecture on "Uncle Sam a Christian." At night the Venitian Singers were again presented followed by Mr. James Francis O'Donnell with the drama "The Sign of the Cross" which ended the Chautauqua program for this year.

The children's part of the Chautauqua was enjoyed very much by the little folks. Miss Bradley assisted by some of the

Memphis ladies entertained them for a time every day during the entire six days with story telling, learning new games and giving them some very useful instructions. On Monday morning they enjoyed a picnic breakfast on the court house lawn. Each child bringing their own lunch.

The Chautauqua was a success from every point of view and there was not a dull number on the entire program. For many it was an intellectual feast and was very much enjoyed by all who attended. In fact the Chautauqua spirit is so instilled into the Memphis people that there is not the least doubt but what we will have another Chautauqua next year. In this way we get to see and hear many good things at a very small cost that we could not otherwise get unless we should go to the cities at a cost of much time and expense, which a very small percent of our community can do. We should all feel proud of the fact that we have a bunch of progressive citizens that believe in getting the best things possible to give the people of Memphis and next year we hope to have something even better in the Chautauqua line than this year. Fully seventy-five per cent of the citizens of Memphis will be heartily in favor of a Chautauqua next year.

We were very fortunate in having with us for local manager Dr. G. F. DeVol and two very able assistants, to look after comfort and entertainment of the large crowds which attended every number of the program. On Saturday the crowd was estimated at about eleven hundred with a splendid average for the entire six days.

The following resolution was offered by Rev. R. B. Morgan at the intermission of last number of the Chautauqua program:

Resolved: That we the citizens of Memphis, Texas, express our appreciation of the White & Meyer Chautauqua as given in our city July 9-14, 1914, and that we feel much of its success is due to the efficient and courteous management of Dr. DeVol.

That Miss Bradley's work with the children was especially helpful and much appreciated.

That Dr. DeVol's address "Is a Man Better Than a Sheep?" was one of the very best lectures given during the course and we commend it and him to the public at large most heartily.

Passed unanimously by the audience with the Chautauqua salute.

### Young Lady Commits Suicide.

On last Friday evening the word was quickly passed around that Miss Pearl Bagwell had committed suicide. On investigation by her friends it was found to be a very sad truth. At about 7:15 she had taken a sufficient quantity of carbolic acid to cause death in about one hour after taking the poison. A physician was called in quickly but his efforts were unavailing and she passed away in a very short time. Undertakers King & Hattenbach were called in and embalmed the body and took charge of the funeral.

Miss Bagwell has been employed at the McCrary Dry Goods store for the past several months and was very popular with all of whom she came in contact. She was taking a few days vacation, and had been suffering from a nervous breakdown, and in a moment of despondency took her own life.

Funeral services were held at the residence of her father on West Cleveland street at 10:00 o'clock Sunday morning, conducted by Rev. M. E. Hawkins. The remains, followed by a large concourse of friends and relatives, were tenderly laid to rest in Fairview cemetery.

Pearl Elizabeth Bagwell was born in Hunt county, May 6, 1890. She professed religion and joined the Methodist church when 13 years of age, and was a faithful and devoted member, serving the church in any capacity in which she was called. She was also a faithful and devoted daughter. At the time of her death she was 24 years, 2 months and 4 days old.

She leaves to mourn her sad death a father and mother, Mr. and Mrs. G. W. Bagwell, a brother, W. M. Bagwell, all of Memphis, another sister, Mrs. Harris of Stamford and a brother, Boyd Bagwell of Commerce, all of whom were in attendance at the funeral.

The Democrat joins their many sympathizing friends in extending sympathy to the bereaved relatives.

### To the Voters of Hall County.

Four years ago I announced as a candidate for the office of district attorney of this district and was elected by a large majority. In that election I believe I received the largest majority ever given any candidate for any office. I want to say in this statement that I appreciate to the fullest extent the honor and trust reposed in me by the good people of this community and I have striven and shall continue to strive in the future to show my appreciation by faithfully and fearlessly doing my full duty as your district attorney. Words or action cannot convey to my home people what you did for me in that election. The happiest moments of my life was on the night of the primary when I received a message while in Vernon that I had received all the votes cast in Hall county except one hundred and thirty six. I am again a candidate for re election to the same office and I hope and believe that you have no cause to regret electing me four years ago, and that you will on the 25th day of this month give me the same loyal support you did before. The record I have made as district attorney is one that I am proud of, and one I will compare favorably with any of my predecessors.

I have not had an opportunity to make a personal campaign for the reason I have been tied up in the courts day after day since the first Monday in last September and I hope and trust that no one will condemn me because of my inability to see you in person and solicit your vote and influence. Had I quit my post of duty and devoted my time to electioneering you would have had just cause to criticize me.

In conclusion I want to appeal to you to give me the same loyal support you did four years ago and I assure you I shall appreciate it the longest day I live and strive as I have in the past to do my duty.

HUGH SPENCER,  
District Attorney.

### Death of Aged Citizen

M. M. Richardson was born in Alanta, Ga., in 1834 and at his death was 79 years, 11 months and 27 days old. Was married to Cintha Ann Williamson in 1808. There was born to this union 7 children, 4 boys and 3 girls. Six of them survive him two of them being with him at the time of his death, W. M. Richardson of Memphis and Mrs. Fannie Burke of Electra. He confessed faith in Christ at an early age and joined the Baptist church and lived a faithful and true christian. He was a kind husband and a loving father and was loved by all who knew him. His wife departed this life June 15, 1913.

The Democrat extends sincere sympathy to the bereaved relatives.

#### HOW SOME MEN TREAT THEIR WIVES.

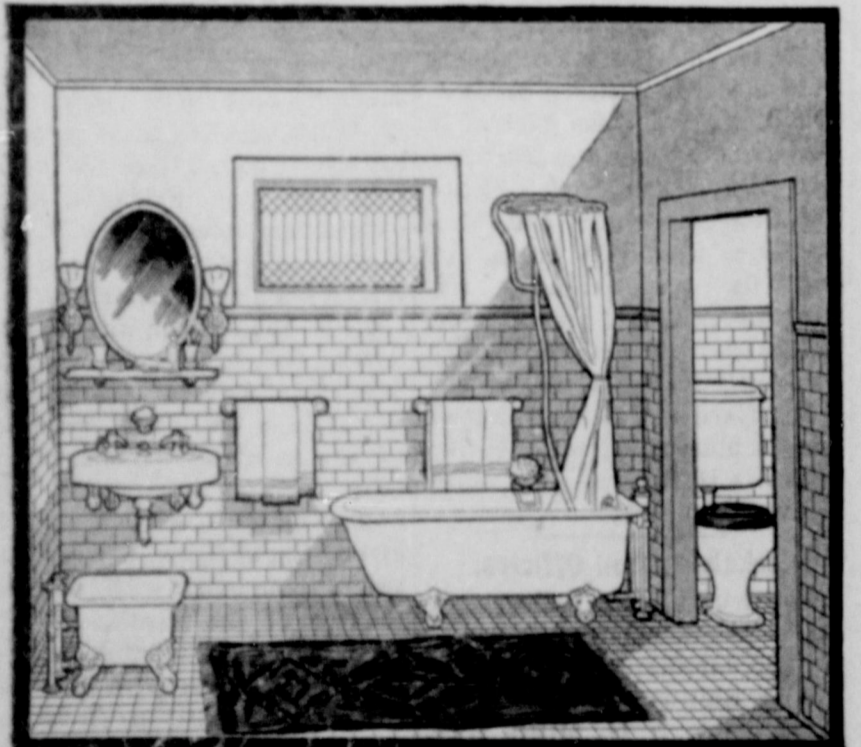

If there is any person we despise it is the man who doles out money to his wife as if she was a pauper and not a partner in his earnings. And yet there are many such men everywhere. They want to be economical and they become brutes. There is no more pitiful sight than to see such a man drive in from the country with his wife. If it is winter he wears a fur overcoat. She wears a thin shawl. The horses are fat and well cared for. The children are thin and half clothed. He refuses the pitiful sum necessary for a new dress, but goes into the grocery store and lays in a supply of tobacco. When we see such a couple in town we say to ourselves, "God have mercy on that woman." The man who refuses the money his wife needs and who spends it upon things of less importance is a more despicable thief than he who simply extracts some fat pocket book from the pocket of some well-to-do man. We know of no more exasperating spectacle than to see the wife of a man in comfortable circumstances, asking for ten cents

with which to buy necessities. You cannot excuse such meanness by the plea that woman does not take care of money. We say it is her husband's fault if she does not know how. How can she learn to take care of what she never has? Such meanness in business circle would be noted everywhere. In a partnership between men, such a state of affairs would not be tolerated. Just because the member of a firm is elected business manager and treasurer, that does not give him the right to appropriate all the money, not by any means. But just because one of the partners in the marriage contract is always a woman, the other member of the firm seems to think that all the profit of the concern belong to him alone. Give the woman a chance to show how economical she is and you will not only be just as well off in the end, but you both will be infinitely happier.

### DOWN TO BRASS TACKS—COST

Cost is the final factor in most plumbing installations. Beauty of design, serviceability, sanitary security, all have potent influence in the purchasing of modern plumbing, but, after all "Can we afford it?" is the main question.

**YOU CAN AFFORD MODERN PLUMBING** as you will admit upon due consideration of our estimate on installing the fixtures you select after seeing the "Standard" catalogue of 1600 illustrations of plumbing fixtures. Suitable fixtures for the most modest as well as the most pretentious of homes.

### C. L. Sloan Plumbing and Heating Co.

I am sometimes tempted to think that men, some men at least, are so infatuated and joined to their idol of pursuit after the world's emoluments or its gilded pleasures they entirely lose sight of the duty they owe to that inmate of the home, without which earth would be a dreary place indeed and home could never be home. They gush a little over us when they want a wife, or an hour in our society, but genuine kindness for their companion, generally speaking, is not in their composition, or else the iniquities that bear down so hard on women would not exist. The righteousness that exalts a nation would not be among the last arts, as it appears to be today, if the lords of creation showed forth more fidelity for her who was destined from the beginning to be queen of the home. Trample the wife into the dust, steep her in poverty; make of her a mere "hewer of wood and drawer of water," break her spirit and humble her pride until she no longer has ambition to dress and look well; make the home as dull and tiresome as the days grow long and dreary, and then what? Not the present form of government, for only men of character are fit to govern themselves. Brave, good men are not born of crushed and cringing womanhood. Look to your wives, good brothers, if you desire long continued prosperity for this country as well as for yourselves.

#### HEARING.

The art of not hearing should be learned by all. There are so many things that are painful to hear, very many of which, if we heard, will disturb the temper, corrupt simplicity and modesty, detract from contentment and happiness. If some people fall into a violent passion, and call us all manner of names, at the word we should shut our ears, and hear no more. If in a quiet voyage of life we find ourselves caught in one of those domestic whirlwinds of scolding, we should shut our ears as a sailor would furl his sail and make all tight, scud before the gale. If a hot, restless person begins to inflame our feelings we should consider what a mischief the fiery sparks may do in our magazine below, where our temper is kept, and instantly close the door. If all the things said of one by heedless or ill-natured ideas were brought home to him, he would be a mere walking pincushion, stuck full of sharp remarks. If we would be happy, when among good people we should open our ears; when among bad people, shut them. It is not worth while to hear what our neighbors say about our children, what our rivals say about our business, our dress or our kin.

\* \* \*

Too little attention is paid to the small courtesies of the home. Fathers, mothers, grandparents and children should remember that happiness is derived from the little kindly acts and words of each member of a family. One alone cannot make a cheerful home if the rest make no effort.

Mr. Harvey, 64 years of age, of Memphis, died Friday night at the home of his daughter, Mrs. S. C. Stone near Hedley, where he and wife had been visiting about three weeks. He was buried Saturday in the Rome cemetery. Rev. C. W. Horschler conducted the funeral.

### HAPPY MOTHERHOOD

The happiness of motherhood is too often checked because the mother's strength is not equal to her cares, while her unselfish devotion neglects her own health. It is a duty of husband or friend to see that she gets the pure medicinal nourishment in Scott's Emulsion, which is not a drug or stimulant but nature's concentrated oil-food tonic to enrich and invigorate the blood, strengthen the nerves and aid the appetite. Physicians everywhere prescribe Scott's Emulsion for overworked, nervous, tired women; it builds up and holds up their strength. Get Scott's at your nearest drug store.

#### LIQUOR ALWAYS A VIOLATOR.

I have given reasonably careful study to the problems of liquor in all the states for many years, and my observation convinces me that the liquor business always violates the law that governs it, no matter how liberal the law may be; and always goes beyond the limit that the law permits; and that whenever a stricter law is passed to check its crimes the law does good.

The real philosophy and reason for the prohibition movement lies in the fact that the liquor dealer is nearly always a law-breaker, his calling the sure aid always of public privilege and wrong, the sure dependence always of the tyrant, and that it makes always for anarchy and crime. In all the records of history the wine shop and the tavern have been the rendezvous of criminals and the recruiting ground where tyranny and public privilege have found the henchmen they would employ to fasten their evil power on the masses of the people, or do the criminal and brutal things that always serve to repress the noble aspirations of the toiling masses.—Hon. Hooper Alexander of Georgia.

#### ALCOHOL NOT AN AID.

The mother of a young child should not touch alcoholic liquor in any form. Alcohol is not a food. It does not supply to women the nourishment of which at certain periods of their lives they are in particular need. On the contrary, the mother of a young child who drinks alcoholic beverages, even in their mildest forms—beer, ale, and stout, for instance—runs the risk of absolutely cutting off the supply of food that nature intended an infant to have. If the supply is not entirely cut off the quality is so impoverished that the health of the infant is ruined.—Dr. J. Wallace Beveridge, Cornell University.

#### SALOONS MAKE WOMEN LABORERS.

Rather a grim bit of evidence concerning liquor selling is furnished by a manufacturer. Seeking in a certain neighborhood for a new situation for his plant, he announced at the start that he would consider only those towns that license the sale of liquor, and would pledge themselves to continue to do so. The reason he gave is that in no-license communities he has found it impossible to get the necessary women and girl laborers. In such communities women do not have to go out to work.—Exchange.

Congressman Stephens Candidate For Re-election

To the Voters of the 12th Congressional District of Texas. Not being able to make a personal canvass of our district on account of Congress being in session, I take this method of calling your attention to some of the legislation secured by me while in congress.

value of real estate and other property.

I was the author and secured the passage of the bill that provided for the settlement of the disputed boundary lines between Texas and New Mexico, and the definite settlement and location of the initial monument at the intersection of the One Hundredth Meridian with Red River gave to Texas an undisputed title to more than 100,000 acres of land, the title to which was formerly claimed by the United State.

When I came to Congress there were no federal buildings in our District, but during any service I have secured six, and now have bills pending for other cities, part of which I hope to have incorporated in the next omnibus public buildings bill passed by the Congress.

Tolerance

The Hillsboro Dispatch hits the nail squarely on the head in the following paragraph: "While we have decided views regarding the present candidates for governor, we accord to each and every man the same prerogative which we claim for ourselves; the right to see both sides of every question and to believe as we see fit. We do not sanction any method of coercion. If you do not vote as we do, we will still be friends. If you don't bow around the same altar of sanctity as we, why, then, we will still be friends. Differ with us in a reasonable manner, but be courteous and gentlemanly about it, and we respect you the more for it."

FEWER FLIES AND MORE BABIES

By Dr. Ralph Steiner, State Health Officer, Austin, Texas.

Flies killed more than a thousand Texas babies last year. We still have more than a half-million babies in Texas, and it is the duty of every citizen to help save their lives. The fly is Baby's worst enemy. He is the forerunner of pestilence and the undertaker's traveling salesman. To save the babies means to swat the flies.

Postmaster General Burleson Comes Out in Support of Tom Ball.

The following is taken from Fridays Dallas News. Being asked today whom he favored for Governor, Mr. Burleson replied "Tom Ball."

be selected as a candidate for Governor. I don't believe in building up faction and cliques within the party, but in unifying and building up the party by discountenancing all disrupting movements within the party.

"I know that Mr. Ball is a prohibitionist, and that an organized element within the party has centered on him its support; nevertheless I am for Tom Ball for Governor. I am supporting him because he is broad minded on all things save only one—the liquor question. He is a big man whose capabilities have been tested and proved by time and his ability and rich experience as a public official equip him for the discharge of the duties of Governor of a big State.

"I served in Congress with Mr. Ball for years and the suggestion that he will be corporate controlled or influenced by the interests is, to one who knows him as well as I do, too absurd for discussion. "Mr. Ball is a progressive Democrat. Of that there can be no question. He was progressive in 1892 and in 1896, and continued so in 1912. He is progressive today, is in full sympathy with the Democratic administration and stands ready to lend a helping hand to carry into effect the progressive policies that it stands for, rather than to seek to block or nullify by meddlesome and insidious interference the splendid record it is making for the Democratic party.

"As I see it, just now it is very important to the welfare of the country as well as our party that Democrats place on guard only those who are in sympathy with what Woodrow Wilson is trying to do. One recalcitrant reactionary who frequently insincerely pretends to be in accord with the Administration can, at a critical time, do great injury. This is true not only of a member of Congress, but also of a Governor. Because of the present trouble in Mexico it is especially important that the Governor of Texas should be in sympathy with the Administration. We all know that Mr. Ball is in entire accord with the splendid work President Wilson is doing for the people.

Packers Say Meat Prices Will Soar.

Chicago, Ill., July 9—Meat prices will rise above the record figures of recent years, despite the huge grain crop, packing house representatives today asserted. They say that the present scarcity of cattle and the effect of day weather on grazing lands will more than offset the enormous grain yield. A beef price of 16c to the butcher was predicted as an early possibility.

The United States Census Bureau reports that in 1913 the 228 mills of Texas crushed 1,156,003 tons of cotton seed, obtaining 174,846 bales of linters. This was something more than one fourth of all the seed crushed in the United States.

Everywhere We Hear Good Reports of Doan's Kidney Pills. Memphis is no exception. Every section of the U. S. resounds with praise of Doan's Kidney Pills. Thirty thousand persons are giving testimony in their home newspapers. The sincerity of these witnesses, the fact that they live so near, is the best proof of the merit of Doan's. Here's a Memphis case. W. D. Morgan, Memphis, Texas, says: "Some months ago I got Doan's Kidney Pills at the Montgomery Drug Co., and they proved most effective in relieving lameness across my back that had annoyed me for a long time. Doan's Kidney Pills acted quickly and removed the annoyance, also restoring my kidneys to a normal condition. Doan's Kidney Pills live up to representations."

Later Mr. Morgan said: "Whenever I have any kidney trouble, I use Doan's Kidney Pills, and they have never failed to help me. You are at liberty to continue using my endorsement." Temperance (Conducted by the National Woman's Christian Temperance Union.) SUFFERING TRADES. (STONG WORDS BY CLINTON M. HOWARD TO WORKING MEN.) What is it that keeps labor unemployed, factories busy, wages high? That is what 150,000 commercial travelers are out for—orders. They represent manufacturers. On what does the manufacturer depend? On the retailer. On what does the retailer depend? On the customer with needs to supply and money to buy. It is the home market and the foreign markets that keep the wheels of industry going round. In what way does the saloon affect the home market? Let Lelf Jones, the English member of parliament, answer that question: "I met the finished product of the saloon. He was lying in the gutter. He had no hat, the hat trade was suffering; his coat was full of holes, the clothing trade was suffering; he had on the remnant of a shirt, the woolen trade was suffering; he had on no socks, the hosiery trade was suffering; he was dirty, the soap trade was suffering; I can hardly mention a useful industry in the country that was not affected by that man's insobriety." Follow this man home and you would find by an inventory of his wife and children that the millinery trade, underwear trade, the dress goods trade, the ribbon trade, and a hundred other trades were suffering. Look about his home, and you would find that the furniture trade, the carpet trade, the picture trade, the dinnerware and cooking utensil trade, and a hundred more were suffering. So with the toy trade and the Christmas tree trade; all suffering because of one man's insobriety. A round million men were arrested for drunkenness and disorderly conduct in this country last year. A million more eluded the watchful eye of our vigilant police, were sobered up in the back room of the saloon, or staggered unmolested "home." Two million makers of the home market knocked out of the market by the saloon! They have needs to supply, but no money to buy. Add their wives and children, the usual average of four with mother, and you have 10,000,000 consumers in the home market impoverished by the American saloon! Let labor close that tremendous leak. Lift his brother from the gutter, send him home to his family sober, and with his pay envelope unbroken, by the robber liquor traffic that gives his customers only sorrow, disease and shame in exchange for labor's wealth, and it would give up a new home market for American-made goods every year equal to our present foreign market around the world! What could be done with that vast sum of money now poured into the lap of the saloon? We could build 300,000 homes at \$2,000 each, put \$1,000 worth of furniture and carpets into every one of the 300,000 homes, \$1,000 worth of clothing and wearing apparel in the closets of every one of the 300,000 homes, 100 tons of hard coal in every cellar, and deposit in the savings bank \$1,000 to the credit of every one of those 300,000 homes; do all of this, next year, and every succeeding year that those saloons were kept closed! A GREAT COMPARATIVE LESSON. Dr. J. H. Kellogg of Battle Creek sanatorium, in a stereopticon lecture, pictures the decay of nations by a series of six trees dying at the top. Bulgaria has the least dead wood, representing the fact that one person in every thousand in that country lives to pass the 100-year mark, and not a few live for half a century longer. The United States comes next, but with only one centenarian in 25,000. Then the record grows worse and worse: Spain 44,000, France 190,000, England 200,000, Germany 700,000. It is not mere accident that the nation whose favorite drink is buttermilk stands at the head, while the nation which of all these countries is most given to beer drinking is lowest in the group. DRINK AND DEATH RATE. English insurance companies investigating the death rate of various classes of people, have pronounced that of 61,215 average people, 1,000 die annually; of 61,215 total abstainers, 560 die annually; of 61,215 liquor drinkers, 1,642 die annually, and in other words, the death rate for the three classes is as follows: Average death rate, 16.33 to the 1,000; total abstainers, 9.14 to the 1,000; liquor drinkers, 26.82 to the 1,000. Kansas is conceded to be the driest state in the Union. The death rate there before the advent of total abstainers was 17 to the 1,000. Now it is 7.5 to the 1,000—the lowest in the world.

What You Should Know About Beaver Board Discription Beaver Board is Pure Wood Fibre wallboard which takes the place of lath, plaster and other wall building materials. Because of its superior surface for decorating, it makes wallpaper unnecessary. It is made from selected woods reduced to fibrous form and pressed into panels three-sixteenths of an inch thick and in a variety of lengths and widths. Application Beaver Board is nailed to the studding (wall and ceiling beams) of new rooms or directly over the lath and plaster of old rooms. The seams formed by the joining of the panels are covered with decorative strips of wood making an artistic panel arrangement. Anyone handy with tools can get a nice Beaver Board job by following instructions. Beaver Board is easily cut with a fine tooth saw, sharp knife or chisel. Uses Beaver Board is used chiefly for walls and ceilings in new houses and over lath, plaster and other materials for remodeling. It is used extensively in residences, public buildings, theatres, offices, factories, etc. It is also used for rest-rooms, telephone booths, consultation closets, display booths at fairs and exhibitions. Barren attics or cellars can be converted into comfortable rooms or may be remodeled for play-rooms, workshops, etc. A Few of Its 41 Advantages Beaver Board does not chip, crack or disintegrate. It makes rooms warmer in winter and cooler in summer. It retards fire; is a sound deadener, withstands shocks, strains and vibrations which crack and bring down plaster. Beaver Board improves with age; never needs repairing or replacing. We want to invite everybody to call and see our new inside wall finish. We have just completed a small room at our office to advertise Beaver Board. This is something new and very attractive. We have this in stock and can furnish you requirements on demand. Wm. "OLD MAID"

Eli Beverities

Eli's big picnic is over. A large crowd was present and we think all enjoyed themselves. One feature of the day was several good speeches made by the different candidates and those who were not candidates as well. Some good speeches were made on Woodcraft. Hon. Harry Mason of Vernon spoke in behalf of Col. Ball for Governor. We think all, except those who are partial to Jim Ferguson enjoyed this speech. The ball game between Lodge and Lakeview was very interesting one and resulted in a victory for Lodge by one score. Withal, the picnic was a very enjoyable affair and we all enjoyed ourselves to the limit.

The Methodist meeting has closed. Several conversions are reported and several additions to the church.

Grover and Clarence Billington left last week for Chillicothe, where they will spend several weeks working in the alfalfa field and other work as well.

B. D. Brown and wife of Lodge took dinner with J. T. Billington and family Sunday.

Marion Craig has found something attractive over east but we have been unable to find just what it is at present.

Farming was in pioneer days a makeshift and looked upon as a means of getting a living where one could not obtain it any other way. Today farming is a business requiring business men of special adaptatien. It is an occupation where intellect counts for much and where industry properly directed brings compensation and the best in life as a special reward.—Farm and Ranch.
