### ALLRED, RUNGE LED SCHLEICHER

James V. Allred carried Schleicher County by 24 votes in a heated race here last Saturday. The total vote Allred 385; Hunter, 361. Hunter carried Mayer, Vermont, Alexander and Cliff boxes.

For Lieutenant Governor Walter Woodul of Houston carried this county and state. The total vote in Schleicher was Woodul 438; Moore 257. Moore carried the Kaffir box 18 to 17 for Woodul.

In the race for Attorney General, Walter Woodward carried this county by 180 votes. Total vote was Woodward 448, McCraw 268. McCraw carried the state with about 75000 votes over Woodward.

For State Railroad Commissioner Lon A. Smith beat Juhn Pundt to a tune of 492 to 189 here. Smith also won in the state.

For Associate Justice of Supreme Court Lattimore led Sharp 370 to 293; however Sharp led Lattimore in State returns.

In the Congressman race Carl Runge led C. L. South of Coleman only 84 votes here, evidently losing his commanding lead over South in first primary. Adams and Alexander went for the new Congressman, C. L. South. Total vote here Saturday on this race was: South 331; Runge 423.

In the County Treasurer race Mrs. Mabel Parker led Mrs. Mattie Cozzens in Eldorado, Adams, Veimont, Kaffir, Cliff and Reynolds. Total county vote, Parker 429; Cozzens 327.

### SCHLEICHER NEEDS GENERAL RAIN

While heavy showers of drouth-breaking proportions fell in parts of the county during last week-end and the early part of this week, the desperate need of Schleicher county is still "rain." The north and east sections of the county received heavy showers while the south and west sectors went almost dry. The rain was spotted, being heavier in some sections than in others.

While good prospects for additional rain were in view during the earlier part of the week, no moisture came; and Thursday, the prospects had disappeared.

What Schleicher county needs most of all is a good general rain.

### ELDORADO TO ENTER SOFT BALL TOURNAMENT

A team representing Eldorado will enter the first annual West Texas Softball Tournament at San Angelo today and Saturday. Other towns to enter teams are Del Rio, favorites to cop the tournament, Sonora, Verbest, Miles, Bronte, Eden, Rankin; and there is a possibility of teams entering from Winters, Robert Lee, Big Spring, and McCamey. And of course, teams from San Angelo who have been playing an elimination tournament will enter.

### Business Conditions Continue Favorable

Austin, Texas, Aug. 30. —Average dollar sales in the 95 retail establishments reporting to The University of Texas Bureau of Business Research, were 13.4 per cent above those in July last year, according to reports of this July. For the first seven months of this year aggregate sales were 26 per cent greater than in the corresponding period in 1933. The decline in sales from June to July was, however, slightly greater than the average seasonal decline for the preceding seven years.

"Collections again made a favorable showing compared with last year. The percentage outstanding accounts collected by 66 reporting stores was 32.1 per cent against 28.8 in July last year."

#### NOTICE

All persons who have sheep to sell to the government see Snell, County Agent at once.

### FORMER SCHLEICHER CITIZEN DIES AT KERRVILLE

Funeral services for Mrs. N. Burrus who died at Kerrville on Tuesday, August 21, were held at 4:00 p. m. Wednesday of last week. The services were held at the grave of the deceased with Rev. Tennyson Nixon, former Eldorado pastor, in charge of the services. The burial took place at the Ingram cemetery near Kerrville.

Mrs. Burrus was about 63 years of age at the time of her death. She has lived in Schleicher county for a number of years prior to making her home at Kerrville. Mrs. Burrus was born in Henry County, Missouri, March 23, 1871.

Surviving the deceased are her husband, two sons, J. T. Burrus of Kerrville and W. J. Burrus of Eldorado, and seven grandchildren.

### Livestock Shipments Show Large Increase

Austin, Texas, Aug. 30.—The efforts to stock raisers in cooperation with the Government to salvage as much as possible from the ravages of the drouth and to conserve the limited feed and pasturage for coming months were reflected in livestock shipments in Texas during July, according to Dr. F. A. Buechel, assistant director of The University of Texas Bureau of Business Research.

"The unprecedented total of 8,381 cars was shipped to Fort Worth and against 3,366 cars during the similar month a year ago," he said. "These figures do not include shipments to markets within the State other than Fort Worth or the cattle purchased by the Government and processed by canning plants for emergency relief. Contributing further to the disappearance of livestock from Texas ranges are unusually high death losses and the destruction of diseased and emaciated animals by the Government."

"Cattle and calf shipments accounted for practically all of the increase, although there was a slight increase in the number of sheep, while shipments of hogs were only half as large."

"The hog statistics for the month deserve special notice. During July this year the receipts of hogs into Texas from outside states exceeded shipments to the states by 112 cars, whereas in July, 1933, shipments from Texas outside states exceeded receipts from out of State points by almost exactly the same number of cars. Moreover, this disparity is likely to increase in future months as the Government program of hog reduction last year did not get well under way until about August. The sharp rise in hog prices which promises to reach a still higher level in coming months intensifies the outflow of money from Texas for live hogs, to say nothing of the added amounts of dressed pork, of which there is at present no record."

Mr. and Mrs. H. H. Hooker and daughters, Bob and June, returned Sunday from a week's pleasure trip to the coast.

### TO CONDUCT REVIVAL HERE

W. W. LEAMONS (See Story Below)

### Revival Meeting At Church of Christ

The Protracted Meeting of the Church of Christ in Eldorado will begin Saturday evening, September 1st. Evangelist Walter W. Leamons, minister of the Church of Christ at Junction, will do the preaching. He is in the prime of life, and his services as an evangelist are much in demand. During the current year he has had successful meetings in Oklahoma, Louisiana, Arkansas and Texas.

Mr. Kittrell G. Durst, evangelistic singer of exceptional ability, has been engaged to assist in the meeting. Mr. Durst has conducted song services in many revivals and crowds go to hear him...no trouble to get the congregation to sing under his leadership.

Evening services will begin promptly at eight o'clock. On both Sundays of the meeting there will be preaching at 11 a. m. Come at 10 a. m. for Bible School.

Conditions seem ripe for a very interesting and successful meeting, and the members of the Church of Christ unite in inviting you to attend every service. Now is the time to begin making you plans to that end.

### My Trip To Washington

Cecil Moore

Last January 29th, I received a letter from Mr. E. C. Martin, our State Club leader, that I was selected as one of the two 4-H Club boys of Texas to attend the National 4-H Club Camp at Washington, D. C.

As time came nearer I became more anxious to get started on our trip. On June 7th, I left my home town and went to San Angelo, where I rode a train to Dallas, where I met Mr. and Mrs. Martin and the other Texas boys who was, Jimmy Hajjowsky.

We made the entire trip by automobile and I believe this was the best way to travel because you could take your time and see all the interesting things.

Our first stop was Hot Springs, Arkansas. We spent the night there and the next morning we got up and went through the park and visited the most interesting places.

We left Hot Springs and went from there to Savannah, Tennessee, where we spent the night and from here we went to Chattanooga, Tennessee, where we spent a night and day visiting the many different interesting places as Lookout Mountain and Signal Hill.

We went from here to Johnson City where we just spent the night. From there we went to Charlottesville where we spent the night. The next morning we visited the homes of Thomas Jefferson, Patrick Henry and James Monroe. This was our last stop until we drove into the City of Washington, D. C. We found the 4-H Club Camp, and were given our tents and supplies.

Mrs. Matthews' condition has been critical and is still serious; but her recent improvement indicates a speedy recovery.

#### FUEL FOR NEEDY

Austin, August 29.—County Administrators today were asked to conduct a survey relating to the problem of fuel for relief clients during the coming winter.

The survey will ascertain the cost of fuel last winter and the estimated cost of fuel necessary to furnish during October, November, December, January, and February next. Administrators also were requested to estimate the average cost of fuel per family and the number of families for whom fuel will have to be provided.

Results will be compiled and forwarded to Washington, C. Z. Cain, director of Commodities distribution, said. The survey is expected to determine on what basis fuel will be supplied during the winter.

### Fair Will Have 16 Day Stock Show

Dallas, Texas, Aug. 30.—A full showing of livestock for 16 days at the 1934 State Fair of Texas, Oct. 6-21, has been planned and the best herds of beef and dairy animals will be on exhibit as a master demonstration of the stability of Texas agriculture even under the most advance conditions and as a forecast of her rich future. It has been announced by A. L. Ward, general superintendent of the Livestock Department.

"Many fine cattle have been permitted to get poor and weak and have been killed or sold," Mr. Ward said, "but the best of our herds have been well cared for and at the State Fair this year, the people of Texas will see not only the choice breeding stock of beef and dairy herds, but they will have an opportunity to meet the owners and exhibitors of livestock who have the hardihood and courage to meet emergencies and who have the resourcefulness and the vision to use difficulties and obstacles as building stones."

Mr. Ward announced that more than \$25,000 would be awarded the prize winners in classes of livestock on exhibit here this year and also that prize money in horse classes had been increased.

Mr. and Mrs. Van McCormick and son spent Monday in Junction attending a meeting of county administrators.

### CATTLE BUYING PRACTICALLY DONE

With cattle buying in Schleicher county at a virtual standstill, ranchmen of this county are signing applications to sell sheep and goats this week. Thursday afternoon, 115 applications had been signed, and by the end of next week some three hundred applications will be signed, it is expected. The contracts signed up to yesterday afternoon involved 3,323 goats and 36,854 sheep.

Sheep and goat buying will probably get under way by September 10, it is thought. The applications must be sent to Denver and returned to Eldorado passing through the hands of officials at A & M college both ways. The exact date allotted for buying in this section is not known.

\$63,341 had been received in the mails at noon Thursday in payment of contracts in the cattle buying program. 141 contracts have been paid in full; 50 contracts are in the mail; and 24 contracts yet remain to be sent in. A total of 215 contracts were made on the cattle buying program. Approximately \$40,000 is yet due to Schleicher county on the cattle program.

C. Snell, county agent for Schleicher county, urges all ranchmen to come in and sign the applications for selling sheep and goats as soon as possible.

### CANNERY OPERATING ONLY PART TIME

The cannery has been operating only part time lately due to a lack of material to can. Officials in charge of the cannery report that the cannery will continue to operate at irregular intervals unless more material is supplied.

### SCHLEICHER VOTERS SOMETIMES CHANGE THEIR MINDS

Election is over and winners are declared.

Schleicher county turned tables and voted for Allred in the second primary. Allred's lead in the state is approximately 45,000.

By a majority of more than 4,500 Judge Charles L. South, district attorney of the 35th district, rides into the position of first congressman from the new 21st district. South carried Gillespie county by one vote over his opponent Judge Carl Runge of Mason. Runge carried Schleicher county. There was a difference of only two votes in the congressman's race in Coke county, South getting the better end of the bargain. Runge carried 14 of the 27 counties in the district, but South carried the more populous counties, except Tom Green, by a huge majority. His vote in Brown county, despite the opposition of the Brownwood Bulletin, was 4-1 and was almost 4-1 in Coleman county.

Other winners in the state races were Woodul for lieutenant governor, McCraw for attorney general; Smith for Railroad commissioner; Sharp for supreme court.

### OTHO JONES NEW BUSINESS MANAGER OF SUCCESS

He has been connected with newspaper work for a number of years, having worked on the editorial staff of the Daniel Baker Collegian, the Daniel Baker Year book, the Texas Longhorn and the Texas University year book. ## DAINGEROUS PARKING

The parking habits of the majority of Eldorado citizens are becoming too careless to go unnoticed and unmentioned. Eldorado has good wide streets, but there is no parking space down the center of the street, and consequently no room to park there. Our city has some parking laws, but they go terribly abused and unobserved. It should be a matter of civic pride that we observe the parking laws. We shouldn't like to see our town look like a hick village on "nigger" day.

Nor is it altogether a matter of civic pride. There is danger in unlicensed parking, especially when the streets

are crowded and it seems that it is just such a time that people like most to park in the middle of the street. Saturday, the day of all days in the week, is characterized by worse traffic disorder than any other day. Week by week, there is less and less observance of traffic order.

With a town filled with good citizens who should have a deep regard for human life, our traffic violations are uncalled for and inexcusable. Human life is worth hundreds of times the trouble it takes to drive and park decently. As long as we are "getting by" without killing someone, we feel that there is little necessity to be careful; but it has been our experience that when a city's traffic becomes lax,

the end thereof is the death of some respected citizen. Generally, when such tragedies have occurred, a city tightens down on traffic for a while, but it is too late to tighten down after the tragedy has occurred. The tightening should come before the tragedy, not after it.

With a town full of good, law abiding citizens, it would be somewhat of a disgrace for Eldorado to be forced to hire a traffic cop to round up and corral a herd of traffic violators. We should have enough regard for the lives of our fellowmen, their safety in driving, their right to the street, that we would not endanger the lives and the automobiles of people who have as much right on the street as we do. The street was made to drive in and not to park in.

And what if you aren't endangering your fellowman's life by careless, negligent parking. You are at least hindering his progress up and down the street, a right which is as much his as yours. **HE THAT TREADETH ON THE RIGHTS OF HIS FELLOW-MAN IS NOT A FIT SUBJECT FOR CITIZENSHIP IN OUR DEMOCRACY.** Take it, or leave it, its true.

## THE CENTENNIAL SITE

Much has been said about the location of the Texas Centennial, the future greatest exposition of the world. Many statements and remarks have been based on prejudice and anomus rivalry; but we feel that the Centennial should be staged for the whole state, not just one town. We understand that the major attractions are to go to the highest bidder, some large town, probably Dallas or Ft. Worth or both.

Now we have no objections to Dallas or Ft. Worth. We think they are nice towns and we like them both, particularly Dallas; but millions of the estimated twenty or thirty million people who visit Texas during the Centennial will come no further into Texas than Dallas should the Centennial be located there (most of the visitors will come from the North and East); whereas if the Centennial were located at Houston or San Antonio, most of our visitors will travel through the entire state, thereby causing several million extra dollars to flow into the coffers of Texas business.

Because San Antonio is the most historic large city in Texas, we see no particular reason for debating the site of the Centennial or allowing it to go to the highest bidder. Every loyal Texan should have a desire to see the entire state participate in and enjoy the Centennial as well as profit by it. We can and should all cooperate to make the Centennial ALL TEXAS.

And while we are on the subject, let us pass this general thought around: If we wish to make the Centennial a success, worthwhile, and in the spirit in which it was conceived, we had better drop the mercenary attitude that most of us are beginning to take toward it. Couldn't we accomplish something just every once in a Blue Moon without a thought of material gain. **SUCCESS IS NOT MEASURED IN GOLDEN GAIN BUT BY THE HEIGHTS OF SERVICE WHICH WE ATTAIN.**

## THE HOUSING BILL

We are greatly disappointed in the Government's housing program. It does not live up to advance notice. A well-to-do individual may remodel his home... may even build a new one on the housing program. We poor folk still have to rent or live in a shack, barn, or what have we. If the government meant to spend a lot of money like that, why couldn't it give the little man who is earning \$80 to \$90 per month (and paying \$30 of that for rent) a chance to own his own home. By making the loans on a long term basis, the \$80 a month laborer could, by paying the loan off at the rate of \$20-\$25 per month much as he necessarily has to pay his rent, own his own home. And the pride that goes with home ownership is one of the big factors in keeping the American standard of living high above world levels.

But, no, before a man gets a thousand or so dollars for remodeling his old place or building a new home, he must be a property owner with an established credit at the bank. Why, if we had that established credit, we would borrow the money and build without government aid.

And again, we are given as long as three whole years in which to pay off the loan made to us on the housing program. How in the name of heck (pardon the expression) can we pay off a two thousand dollar loan in three years when we don't make more than two thousand dollars in three years and canceled notes so hard to digest?

## EDITORIAL PARAGRAPHS

We still maintain that if the government can advance 12¢ on cotton, it can advance 25¢ on wool.

When America cut acreage, other nations increased acreage with the hope of taking our trade.

The surest, most logical, and most natural way of raising commodity prices is to discover means of increasing consumption. A job awaits some smart man there. Maybe it is your job.

We still maintain that our agricultural control bill should be one of crop rotation and diversification rather than crop reduction.

This is a cruel old world for an idealist. He dreams of a world as he would have it and he sees the world as it is. There is a difference all right.

Can an idealist have practical notions? Just ask yourself if ideas are ever practical. You have your answer.

## ALL IN FUN

Editor Jim White of the Brownwood Bulletin rode ten miles to see a monkey according to his own testimony. We have been wondering just why he didn't stay at home and save the trouble.

We recently discussed the circulation of the dollar and later one good lady dropped in to tell us that she enjoyed our articles so much because she earned so much. She stated that she had never known before that the dollar had a circulation. "Oh, yes, Lady," we said, "but it is sometimes hard to find its pulse."

"I would like to get my picture in the paper," one of our patrons announced as she bustled into the office. "Do you have a cut?" we asked. "Oh, no," she cried. "It healed long ago."

The office boy rushed breathlessly into the office yesterday morning. "Gosh, I just saw a man turn a corner on two wheels," he cried. "He must have been going to a fire," we commented. "No," the office boy replied; "he was riding a bicycle."

## CARD OF THANKS

I wish to express my sincere appreciation to my friends for their support in the recent primary.

To those who actively worked for me, I have a deep feeling of gratitude; and to those who did not give me their support, I hold no malice.

Life is too great to be downcast or feinthearted by small reverses.

Sincerely yours,  
Mrs. Mattie Cozzens

## TO THE VOTERS OF PRECT. FOUR

I wish to thank the good people for their cordial support. Altho', many may win in public, yet they're easily defeated in "Spirit."

An election is nothing more than the selection of a servant who determines the "Spirit" in which the people are served, and after all, our government is just what the people make it.

Sincerely,  
Henry Mittel

## MY TRIP TO WASHINGTON

(Continued from page 1)

Camp opened Thursday morning, June 14th, 1934.

In the morning all of the 4-H Club delegates would go to the conferences which were held in the Natural History buildings. These conferences would last to about 11:30 each morning and after these conferences we would go on different tours in Washington.

The first tour, which was on Tuesday, we went to Animal Husbandry Experimental Farm at Beltsville, Md. We spent the afternoon there and returned back to camp, where he had our camp fire.

On Wednesday afternoon we went through the White House and then we were taken to the American League park, where we saw a baseball game between Washington and Chicago. That night we were taken to a picture show in the new U. S. D. A. Building.

Saturday afternoon we visited the different places, as the St. Albans Cathedral, The Folger Shakespeare Library and the Capitol. In the Capitol we saw the U. S. Supreme Court, Senate, Statuary Hall, and the House of Representatives.

On Sunday morning there were no conferences and we were allowed to go to any church we cared to. Some of the boys and girls attended the Old Church at Alexandria, Virginia.

That afternoon we went to the Ar-

lington Experiment Farm, at Arlington, Va. From there we went to the Arlington Cemetery, where we laid a wreath on the Unknown Soldier.

On Monday afternoon we visited many different interesting places as the Washington Monument, the Bureau of Engraving and Printing Building. That night we had a party in the Chamber of Commerce Building of the United States.

On Tuesday afternoon we visited the following places. The Corcoran Gallery of Art, The Pan American Building and Lincoln Memorial.

Wednesday was the last day and the most interesting of all. That morning we went to the Smithsonian Institution, The Aircraft building, and the Arts and Industries Building. That afternoon we visited Mount Vernon by a steam boat. That night we had the Candle lighting ceremony and this ended the Eighty National 4-H Club Camp.

We left Washington and went from there to Chicago where we visited the Worlds Fair & Century of Progress. We stayed four days at the Fair and started on our way home.

Much time had been spent on this trip so we had to come home, but we did spend one day in Oklahoma City. I really enjoyed this trip more than any other trip of my life.

Anyone could not help enjoying themselves when having Mr. and Mrs. Martin and Jimmy along, and I really enjoyed traveling with them.

I also want to thank those that had something to do with my getting this trip and providing for it. I hope that everyone else that makes this great trip will get as much out of it as I have.

**SCHLEICHER MAN HAS MARVELOUS BIRD DOG**

Here's the story told by Sid Stapp, owner of a marvelous bird dog, and corroborated by Leonard Isaacs: "After hunting birds all day with no luck, we gave up and started home, followed by the bird dog. Just before we reached the house we were attracted by the dog's bark. Turning around, we saw the dog standing with one paw over a hole and motioning for us to come back with the other paw. We ran back to the spot to see what the dog had found. The dog would lift his paw from over the hole and out would fly a bird. The dog's paw would cover the hole again until we had killed the bird and the incident would be repeated. We killed 64 or 68 birds, we forget which," the two men said. And those listening passed the cake over to the two men.

able organizations in the county, and it is our intention to work to that end.

We mention in passing, in order that the people of this county might know that we are gaining publicity in the state for Eldorado and Schleicher county, that the Eldorado Success has been recently quoted in several important papers and magazines over the state.

Over fifty new names have been added to our subscription list within the last three months. Watch us grow to the benefit of Eldorado and Schleicher county.

**STORY OMITTED**  
Due to lack of space, necessitated by preparations for a change in management of The Success, the story and several features have been omitted from this issue of the Success. They will resume their regular appearance next week, however, and the Success will be as good and as big as ever.

**Eldorado To Get Lower Rail Fares**

The railroads have decided to extend until Sept. 30, 1935, the present low passenger fares, based on three cents per mile for first class tickets, and two cents per mile for coach travel, according to announcement made by Mr. T. B. Gallaher, General Passenger Agent, Santa Fe Lines, Amarillo, Texas.

Round trip first class tickets cost two cents per mile traveled when the limit is ten days, or two and one half cents per mile traveled when the limit is six months. The round trip coach tickets with limit of ten days in addition to date of sale, cost but one and eight tenths cents per mile, a most remarkable fare for individual travel. These rates are not applicable to points in territory east of Chicago and St. Louis, however, through passengers are given benefit of the low fares up to these points.

Convention travel, is accorded, when reduced fares are arranged for specific meetings, rates based on one and one third of the first class fare, which nets two cents per mile traveled in western or southeastern territory, but slightly higher to points east of Chicago and St. Louis.

It is reported that these low fares are appealing to the traveling public, causing many people formerly using private autos, to again travel by rail.

**CLUB WOMAN REFINISHES WORN FLOOR**

"I didn't know that the appearance of an old floor could be so much improved," said Mrs. Marlon Wade, bed room cooper in the Country Women's Club.

In refinishing a floor which was badly worn, Mrs. Wade planed off much of the worn places. She then cleaned the floor and allowed it to dry thoroughly. Hot linseed oil and turpentine was next applied with a brush and allowed to dry. The floor was given a coat of ground color foundation paint, and when this dried, Mrs. Wade put a finishing coat of varnish stain on.
