

ELDORADO IS ON THE VERGE OF A BOOM

New and Better Homes For Eldorado

By J. A. Whitten

I am glad to announce that we now have sufficient capital through the corporations to take care of every legitimate housing need, new or repair and modernization, in the city.

There are certain requirements necessary in order to qualify for a loan. This information will be gladly furnished by me or by representatives of either of the Lumber Companies in Eldorado.

TO HOLD UNION MEETING HERE THANKSGIVING

There will be a union service at the Methodist Church at ten o'clock on the morning of Thanksgiving Day. In conformity with the original purpose of the day and the proclamation of the President of our country, the people of our community are urged to meet together in this service of thanksgiving. The following tentative program has been arranged:

- Hymn: "America"
- Invocation: Rev. Quinn
- Doxology
- Scripture Reading: Rev. Ratliff
- Hymn
- Prayer of Thanksgiving: Rev. Connell
- Sermon: Rev. Wilkinson
- Hymn
- Closing Prayer

LIONS CLUB ACTIVITIES

Schools To Get Two Days Off Thanksgiving

The Eldorado Public schools will get a two day holiday Thanksgiving, states Mr. R. D. Holt, superintendent of the schools. The schools will let out Wednesday, November 28 and convene again Monday, December 3.

Paramount among the holiday attractions for students and citizens of Eldorado, will be the annual Thanksgiving football game between the Eagles and Sonora. The game this year will be played at Sonora.

Cameron, Davis To Have Charge Of New Show

Mr. F. S. Cameron who has been connected with the H. and H. Theaters for the past several months has come to Eldorado to manage the new Palace Theater. Mr. Cameron has been connected with the show business for the past several years and during this time, he has managed some of the larger houses of the state.

Wallace Davis joins Mr. Cameron as operator at the Palace. The two have been busy for the past few days getting everything in preparation for the opening which was scheduled for last Sunday but was necessarily postponed. A new screen and new equipment have been installed.

Boys' Band Sponsors Show Tonight

"The Last Round Up," sponsored by the Eldorado Boys Band, will be the feature attraction at the Lone Star Theater tonight. The members of the band have been working hard for the past few days in promoting an advance sale of tickets. They get a percentage of the receipts and their portion will go toward the building up a real band for Eldorado.

In "The Last Round Up," the boys are sponsoring a picture which holds much attraction for one and all. The plot is based upon Zane Grey's great novel, the Border Legion. Featured in the cast are Randolph Scott, Monte Blue and Barbara Adams. These headlines are supported by an able supporting cast.

Eldorado is on the verge of the greatest building boom in the history of this city's progress and development, according to live, authentic rumors. Some thirty or more of Eldorado's citizens are planning to remodel or build, and conservative estimates have it that at least a dozen or more of these plans will be carried out.

Reports coming from both of the local lumber yards show that a number of Schleicher County people have been interested in getting estimates on repairs and on building.

Funds for loans under the National Housing Act have recently been made available by both the local lumber companies and it is expected that a number of Schleicher people will take advantage of the opportunity offered.

Eldorado is in position to enjoy a building boom and thus become a more attractive city as well as a larger one. There are no available vacant houses in the city and people moving here are at a loss to find places to stay. Over-building is disastrous to the progress of a community; but for a city to be lacking in adequate housing facilities is even more disastrous. The funds made available by the local lumber companies under the National Housing Act are offering Eldorado's citizens the best of opportunities to better our local housing situation.

GAIN MOMENTUM

Twenty-two members and two visitors enjoyed an unusual program during the regular luncheon of the local Lions club last Wednesday. Cecil Hughes and Wylie Grant, local negroes and versatile musicians, rendered several enjoyable numbers to the club on piano, guitar, and mandolin, equally well.

Club To Sponsor Magician Show
On December 12, Dr. Gaffney, a well known magician is coming to Eldorado under the auspices of the local club. Dr. Gaffney is himself, a member of the Lions International. The show, Black Magic, is to be given in the high school auditorium on the night of December 12 and everybody is invited to see this entertaining show. Admission price is 15 and 25 cents.

Housing and Centennial Committees Report

Judge J. A. Whitten, speaking as chairman of the Centennial committee, urged again the importance of Schleicher County taking part in the 100th birthday of the state of Texas. Lions Davis and Ratliff were appointed to serve on the Centennial committee.

Speaking also as chairman of the housing committee, Lion Whitten pointed out the benefits which Eldorado might derive from the National Housing Act in the way of city development and progress now that funds are available for building and remodeling.

Sign For Aviators To Be Placed On Wool House

A sign to designate the name of the city and to aid as a guide to passing aircrafts is to be placed on the roof of the Eldorado Wool Company's warehouse as soon as the Wool Company completes the re-roofing and painting which is to be begun in the near future. This was the report given by Lion J. C. Carr, chairman of the committee for investigating this particular matter. The Wool Company is to begin re-roofing and repainting in the near future it was stated.

Hill Points Out Importance Of New Highway

Lion E. C. Hill announced that a committee from San Angelo, Sonora, and Rocksprings will meet in Rocksprings at 1:30 this afternoon to discuss plans for the improvement and designation of a new highway from San Angelo to Laredo via

Schleicher Centennial Committee Plans Extensive Program

Parent-Teachers' Discuss Leisure Activities

The Parent-Teacher Association opened its third regular session of the school year on Friday Nov. 16, 1934 with a musical number furnished by pupils of the Fifth (B) class. After the reading of the minutes by Miss Ruth Howell and a treasurer's report by Miss Chris Enochs, an interesting report was given by Miss Willie Allen who is the chairman of the committee on Character Education. During the course of the business meeting, a motion was made and seconded to change the meeting date of the association back to the third Tuesday of each month. When put to a vote the motion carried.

The possibility of a membership drive was mentioned in the meeting. Mrs. George Williams opened the discussion of a very worthwhile subject with a paper on "Joyous Use of Home Leisure." In her talk, Mrs. Williams brought out that good books, motion pictures, and plays given by children all furnish valuable entertainment for the child in his leisure hours.

In a talk on the question, "Is the Home Providing Worthwhile Leisure Activities for the Child?" Mrs. J. E. Hill stated that in some cases the home fails to provide worthwhile leisure activities; therefore the child goes to the streets where he finds entertainment. She further brought out that books should be placed in the hands of children.

"What Vocational Agriculture Means to the School" was discussed next by Mr. R. F. Cook. Mr. Cook opened his discussion by saying that Vocational Agriculture should not only be offered in high school but in the grades also. He gave as its purpose the training of boys for vocational work—farm life. Mr. Cook stated: "In the vocational club each boy has a definite project some of which are feeding lambs, fattening hogs, and caring for gardens. Besides the training along the vocational line that the club offers, it trains the boys to talk before an audience."

After the program, Mrs. Milligan gave a report on a scientific recitation she saw conducted at the University of Texas recently. There being no further business the meeting was adjourned.

Cotton Checks Arrive

One hundred and thirty three cotton checks amounting to \$11,792.08 have been received by the county agent's office. These checks, representing 99 contracts, are on the second rental payment by government under its Cotton Reduction Plan. "Holders of the checks should call at the county agent's office as soon as possible," states C. Snell.

Methodist Ladies To Present Musical Comedy

"Have you a little 'Prognosticator' in your home? The clever show "CUPID UP TO DATE", reveals the comical possibilities that might arise from a machine invented to wipe out the past. The most capable cast gives a unique and interesting interpretation of what might happen if Dan Cupid were dethroned and science made responsible for the joys of the world.

"Ear-catching tunes, eye-catching costumes, heart-catching choruses, beauties, and tickle-box turning situations combined with an allegorical story of rare merit make this production such that no one can afford to miss it.

"Senator Bing of Boston interests people of the earth in her 'prognosticator' which she guarantees to wipe out the past. Father Time and Common Sense are helpless in the face of the situation which develops when Senator Bing's experiment turns her followers into cats, monkeys, and even makes female impersonators out of the male members of the cast. Dan Cupid is forced to return from Mars and re-ascend his throne before people can again be happy.

"The delicious, subtle humor

See Musical Comedy, page 10

Speaking to eleven representatives of various organizations of this city, Judge J. A. Whitten, chairman of the Centennial Advisory Board, said Tuesday night, "It is necessary to begin our plans early and to map them well before we undertake them; that is why we are beginning on plans for the Texas Centennial in Schleicher County now. We are going to do our part to represent this County in the 100th birthday of Texas.

History of County To Be Compiled
"The advisory board wants representatives from each organization in the County to form an auxiliary committee which is to work toward compiling and editing data of Schleicher County's development for the past hundred years," Judge Whitten said. "We want to get these facts in readable form so as to show visitors to this state what we are doing."

Representatives Appointed

Many of the representatives from the various organizations have already been appointed and some ten or twelve were present at the meeting last Tuesday night. Those who have been appointed thus far are: Gene Koy, 4-H Club; Frank Bradley, Presbyterian Church; Don McCormick, Cemetery Committee; Mrs. Frank Spencer, Bailey Ranch Baptist Church; Mrs. V. G. Tisdale, Woman's Club; Miss John Alexander, Home Demonstration Clubs; R. D. Holt, Public Schools; Otto Jones, Newspaper Industry; George W. Long, American Legion; Mrs. Frank Meador, Self-Culture Club.

The duty of these representatives is to gather a complete history of the organizations which they represent since their appearance in Schleicher County to the present time. Representatives of other organizations will be appointed soon.

Advantages of Schleicher

Judge Whitten pointed out several advantages which Eldorado has over cities in neighboring territory. "We have two big jobs," he said. "We are going to compile a history of this County so as to get the facts before the people; and we are going to beautify our County. We are going to make it attractive to visitors. 'This County,' he continued, "offers advantages in cattle breeding, farming, and other resources, water, and climate which cannot be offered by other Counties."

Purpose of Centennial

Judge Whitten said that the Centennial had a three-fold purpose: Patriotic, Advertising the State, and a Financial Harvest. "Billions of dollars are spent each summer in vacationing and Texas is going to bid for her share of that vast sum. People are actually coming to Texas already due to the fact that Centennial plans have been made so far in advance. A number of visitors to the State in 1936 will be included to locate here permanently," Judge Whitten said.

To Beautify City and County

Judge Whitten explained that it was his plan to organize several committees to work in conjunction with the original Advisory Board. A highway committee will be appointed to supervise the beautification of the highway through the County. A County Beautification committee will be appointed to build parks and pleasure resorts. A third committee will be appointed to encourage city beautification. Other committees will also be appointed.

Judge Whitten urged the cooperation of the entire citizenship of the County saying, "Even though there were no Centennial these plans, when carried out, will be well worth our while."

Plans will also be laid for a County Fair and Rodeo during the Centennial. The Fair will contain representative exhibits of Schleicher County. "Attract People To Schleicher County," is to be the motto of the Schleicher County Centennial Committee.

Publicity Committee Named

Tuesday night, Judge Whitten named John Copeland as Chairman of the publicity committee, Allan Douglas to serve with him and a third member of the committee is

More Moisture Aids West Texas

Methodist Hold Annual Meeting In San Angelo

Methodist from the San Angelo District met in San Angelo Wednesday for an all day session, about 125 pastors and Laymembers attended the meeting was opened at 10:30 a.m. with Presiding Elder Dr. L. U. Spellman presiding.

The speakers of the morning were Rev. Wood Patrick and Rev. Horace King of San Antonio, after the opening address of Dr. Spellman.

The speakers for the afternoon service were Mrs. Eugene Slater of Menard, Mrs. H. E. Jackson of San Angelo and Rev. Don Rodmond of Miles.

The speakers of the day all ask for full cooperation of all departments of the church work, one department being as important as the other and that all members of the church were members of each department working with the committees of the various departments.

Lunch was served by the ladies at the noon hour.

Those attending from Eldorado were Rev. Connell, wife and son, Mesdames Rueben Dickens, J. P. Hodges, Harry Rounds, Ben Isaacs, J. F. Isaacs, Bernie Currie, Bertha Shugart and A. T. Wright.

Intermittent showers during the early part of the week augmented the moisture fall of last week in various sections of the County. A number of communities in the County reported heavy showers on Monday. Following the warm days after last week's precipitation, grass and weeds grew rapidly, as much as a half inch in the more moist sections. A sharp drop in temperature, however retarded growth.

The temperature drop Wednesday sent the thermometer down to 33 before daylight Thursday morning. A light frost covered many sections of the County but it was not enough to kill. No ice was reported.

Skies cleared Thursday morning but barometric readings and weather maps indicate that unsettled weather with a probability of more rain is due in this section of the country within the next few days.

Rains and snows were general over the entire state during the early part of the week. The Lubbock territory reported snows ranging from one to four inches in depth. A cold wave has been predicted for the week-end and ranchers are urged to take necessary steps to protect livestock. The first cold snap of the year served advance notice to the people of Texas that it is now time to prepare for winter.

ELDORADO DEFEATS SAN ANGELO IN SCORING CONTEST

Eldorado High School To Play Ozona Tomorrow

Tomorrow's games in District 17-B brings to a close the conference play unless an unexpected defeat is handed the Rock Springs Bulldogs to throw the district into a two way tie.

Coach Dave Williamson and his Eagles will journey to Ozona for a possibly all important game with Ted White's Lions. The Junction Eagles will entertain the potential title bearing Rock Springs eleven at Junction. Menard and Sonora have both concluded their district games.

In event a defeat is administered to Rocksprings, the winner of the Eldorado-Ozona game will go into a tie with the Bulldogs for the district title. Otherwise the Eagles and Lions will be fighting it out for second place in the final district standing.

A Junction win over Rocksprings is considered as highly improbable. Yet, the Junction aggregation has presented a strong defensive team in their games to date and should they get underway with a scoring offensive attack, the outcome could hold the biggest surprise of the season's schedule. Then too, the two teams are bitter enemies and radical foes and the fact that the game is played at Junction seems to give some hope for a big upset.

The Eagles go into the Ozona game as favorites but it is another football game and the outcome cannot be doped out through a comparison of the performances of the two teams to date. Coach Williamson's starting eleven probably reached their zenith in strength in last Saturday's game with the San Angelo Kittens-Bobcats. They came into the game near the end of the first quarter with a handicap of 20 points, yet at the end of the first half they had overcome this lead by rolling up 26 points through some of the most spectacular football that has been displayed in the district this season.

Should the Eagles succeed in stopping the Ozona passing, the outcome is almost sure to be in their favor as a passing attack has been the Lions only effective offense this season. In Parker and Brown, Ozona has a pair of fluky and fast ends who are very adept at the snaggling of passes.

Following tomorrow's game, the Eagles conclude their 1934 football season by playing a non-district Thanksgiving game at Sonora next Thursday.

Coach Tonto Coleman interspersed his San Angelo High School Kittens with Bobcats here last Saturday in hopes of coveting an impressive victory over the Eldorado High School Eagles, but this was to no avail as the Eagles walked away with a 32 to 27 victory.

That first quarter looked dark for the Eldorado boys. And the Kittens-Bobcats were wondering how the Eagles had advanced so far in football this year. The truth of the matter was that Coach Williamson had started his shock troops or reserves against the San Angelo aggregation and being handicapped by facing a strong gale from the south, the second stringers permitted their opponents to pile up a 20 to 0 lead in less than a quarter. The game took on an altogether different aspect when Coach Williamson uncovered his first string eleven and rushed them into the fray in Knute Rockne fashion. The Eagles immediately launched the greatest offensive attack that we have seen this season and by the end of the first half, they were leading 23 to 20.

The second half opened with the second string again in action but the Eagle matter quickly withdrew them when the Kittens-Bobcats threatened to score. This half was marked by the scoring of a touchdown by each side.

The game was featured by a local standpoint by the ball carrying of Bill Smith, Captain Billie Kerr, Ardraip McDaniel and Joe Turner. It was the routing of Smith, a great passing attack and the all around defensive play of a number of Eagles.

Bill Smith was probably the outstanding man on the field. The big halfback rammed and battered the San Angelo line for good yardage. He climaxed his scintillating work near the end of the game by intercepting a pass and running 29 yards for a touchdown. His punting was no less than spectacular. Once, with the wind to his back, he dropped 5 yards behind his own goal line and booted the ball over the end zone at the other end of the field.

Captain Kerr came in for a big offensive play. Near the end of the first quarter he took the ball on a double reverse and raced 35 yards for a touchdown. Once again he came back on the reverse play and shot a long pass to Hext which placed the Eagles in scoring position.

With McDaniel on the receiving end, the Eagle passing attack started out during most of the game. The little halfback took passes from Hext time after time for good yard-

SAUSAGE CAKES AS A SUPPER DISH

Good Addition to Meal on Cool Evenings.

By EDITH M. BARBER

Now that cool days are here the business woman housekeeper adds sausage to her list of quickly prepared meats. While sausage gained its early reputation in its role at the breakfast table, it has been given a place at luncheon and at supper in these days of light breakfasts and commuting.

If you like sausage cakes you will find very good sausage meat usually at a lower price than the sausage links. There are a number of packaged sausage products as well as specialties of individual butcher shops, which you may use habitually because of your special taste in seasoning. Where I use sausage cakes or links, I like to cook them the same way, either in the oven or in a heavy frying pan with a tightly fitting cover. The sausages do not shrink as much when they are cooked this way and it is not necessary to prick the links.

An interesting use for sausage is to cover it with some biscuit dough and to bake it in a hot oven. Apples may be cored and filled with the meat before they are baked. A ring of sausages around a chicken—or even a duck—will make it stretch, as I found to my own great advantage a week or so ago when extra guests walked in for dinner when I was serving duck.

- Quick Meal.**
Hot Bouillon
Baked sausages with apple rings
Baked potatoes
Carrots with brown butter
Pumpkin tarts
Coffee
- Methods of Preparation:** Light oven
Scrub potatoes and bake
Core and slice apples
Bake sausages with apples
Open can of diced carrots, heat and dress
- Open can bouillon and heat
Make coffee**

Savory Sausages.
Cook small sausages until they are light and brown. Remove from pan, pour off all but two tablespoons of fat and add one tablespoon butter, two tablespoons minced celery and one-half cup tomato catsup (to three-fourths pound sausage). Stir until hot and serve with sausages on buttered toast.

- Sausage Biscuits.**
½ cup ground sausage
4 teaspoons baking powder
4 tablespoons shortening
2 cups flour
½ cup milk
1 teaspoon salt

Mix and sift dry ingredients and cut in the shortening. Add milk, handling as little as possible, and roll to one-third-inch thickness. Cut with a good sized biscuit cutter (two and one-half inches in diameter) and crease in the middle with dull edge of a knife. Place a heaped teaspoonful of ground sausage on each half biscuit and turn the other half over it, pinching the two edges together well. Bake twenty minutes in a hot oven (425 degrees Fahrenheit).

- Sausage With Scrambled Eggs.**
6 English muffins
½ pound sausage meat,
6 eggs
1 cup tomato or mushroom sauce

Split the muffins and spread with the sausage. Place under the broiler for five minutes. While broiling poach the eggs and place an egg on each muffin. Pour tomato or mushroom sauce over them and serve at once.

- Special String Beans.**
1 pound string beans
1 onion
½ cup sliced mushrooms
1 egg yolk
¼ cup cream
1 teaspoon minced parsley
1 teaspoon lemon juice
Salt
Paprika
Pepper
Nutmeg

Wash beans and cut into inch pieces.

Add onion and mushrooms, one-quarter cup water and one-quarter teaspoon sugar. Cover and cook over low fire until beans are tender. Beat egg yolk, add cream, parsley and lemon juice. Add this mixture to the beans and stir until hot. Add seasoning to taste. Serve.

Finds Witchcraft Bill in Old Jail

Salem, Mass.—Alfred P. Goodsell, who lives in a house that connects with the old Witch jail, found in a secluded part of the jail, a jailer's bill dating back to 1629.

Eleven persons were accused of witchcraft. Three of them were hanged and another was pressed to death, according to the bill. Two births were also recorded.

Wasserkuppe and the Russian, British and French national gliding camps. A quarter of a century ago the United States led the world in motorless flying.

Work of permanently improving this natural glider area has been undertaken by members of the Three Hundred and Fiftieth company, Civilian Conservation corps.

How It Started

By Jean Newton

That Word "Macaroni"

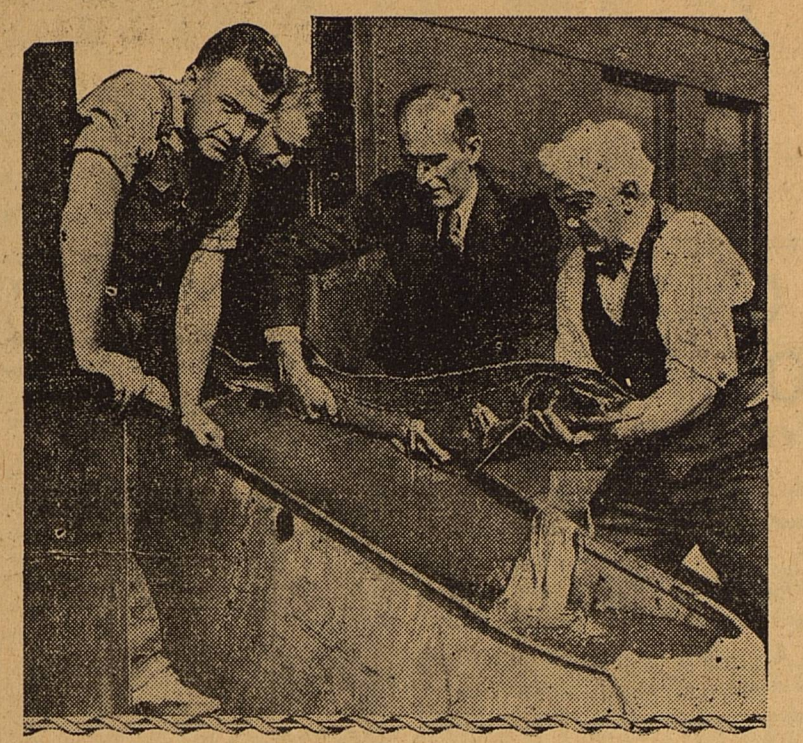

MACARONI may be a favorite dish of the Italian populace, but it is safe to assume that the most extreme macaroni fan would not think of this food of slender tubes, made from a flour paste as associated with something "blessed" or its name as another name for happiness. Yet that is how it started.

The Italian "maccheroni" is derived from the Greek where it meant "blessed," "happiness," and later was applied to a funeral feast. It is inferred that this name was given it from the circumstances that the dish was eaten at such feasts in honor of the dead.

Incidentally, "macaroni" was used in the Eighteenth century to describe a class of traveled young men affecting ways in the sense of "top," a sense derived probably from the fact that macaroni was looked upon as a luxury. Also, during our Revolution, a body of troops from Maryland who wore a showy uniform were so-called.

Wisconsin Guest Reaches Washington

This ninety-pound lake sturgeon, donated by the Wisconsin conservation commission, being lifted on a train into a barrel filled with water, was placed in the bureau of fisheries aquarium in Washington. He replaced "Old Spencer," a favorite inhabitant of the aquarium who died.

Lights of New York

By L. L. STEVENSON

A. M. Anderson, a J. P. Morgan & Co. partner, is one of the very few—and possibly the only—individual who owns a real, honest-to-goodness lighthouse outright. It's a used lighthouse and therefore may not have been a bargain at \$1,150, which was the price he paid the government for it, but still customers for used lighthouses are not many.

For years, the light kept ships off the rocks at Grinnell Point up in Maine. It was still in fairly good condition. But times and aids to navigation changed and it out-lived its usefulness. So the government, with an ever ready use for money, sold it along with eight others.

It seems that Mr. Anderson's interest in lighthouses is confined to this one because it is close to the 60-acre property he owns up there. This assumption is borne out by the fact that having bought it he doesn't intend to make any use of it whatsoever.

Slipping along from lighthouses to pickpockets, there were those three gentlemen of that profession who spent a night in the Forty-seventh street police station. As a cell mate they had a plumber, a rather mussed and drunken plumber who didn't look as if he had done much plumbing lately, and therefore was no prospect at all.

When the plumber faced the judge the next morning and made an offer to pay the policeman, whose uniform he had torn in a little encounter, \$5 damages and to take the pledge, the pickpockets were a bit interested. They were still more interested when the judge accepted the offer and the plumber drew out a roll of \$235 and made payment after he had kissed the Bible and bade farewell to booze for a year.

The pickpockets were released for lack of evidence. They didn't seem to be entirely happy, however.

Moving to another neighborhood in New York is like moving to another city. We found that out when we came down from Washington Heights to Riverside drive and One Hundred and Fourth street. We found it out again recently when we moved over from Riverside drive to Central park West.

Now, instead of looking out on the flashing river, with its continuous traffic and its two-direction ice cakes in the winter—they go either up or down stream, according to the tide—we look out on a mess of big rocks in the park. Also we have encountered a new set of noises. On the drive, it was the constant swish of traffic with now and then the whistle of a train or a boat. Haven't been in the new location long

enough to classify all the disturbances as yet. Right now they are annoying. After a while, they won't be noticed. That's the way with things in New York.

A recent sale of Manhattan real estate was somewhat out of the ordinary. In the first place, the property, a Varick street block valued at \$1,250,000, had been in the possession of but one owner almost two and a half centuries. In the second place, there never had been a mortgage on it. The Trinity Church corporation was the owner and the property, a part of the old Trinity farm, was granted to the church by the British crown in 1697, in the time of William and Mary.

Trinity farm was the original grant of the British crown to Trinity church in its infancy. The boundaries, with a few variations, coincide with those of the lower Manhattan industrial district and a bountiful crop of skyscrapers has grown on land that once was fertile fields. Trinity's holdings are taxed on an assessed valuation of \$18,000,000 and there are \$30,000,000 worth of church properties which are tax exempt.

Flowers Prone to Fever, French Scientist Finds

Paris.—Flowers are apt to be feverish, says a communication to the French Academy of Sciences by Professor Blaringhem, reporting his observations on the temperature of plants.

Some of the flowers that are given to developing abnormal temperatures, he says, are the narcissus, the nasturtium and the dandelion. Most flowers, however, are given to higher temperatures at budding time, sometimes several degrees above the temperature of the surrounding air. This is easily noted in sweetpea buds between 10 o'clock in the morning and noon.

The male flowers of dioecious and monoecious plants are warmer in temperature than the female flowers of the same plant at the same state of development.

Scientists Seek Trace of Prehistoric Life

Lakeview, Ore.—Six scientists from the University of Oregon and Stanford university are exploring for evidences of prehistoric life in the Guano Lake ranch region. They hoped to discover how far north the "Great Basin" culture of prehistoric races was established. A wide variety of Indian rock writings and other signs of prehistoric races have been found in the region.

Plymouth Rock Draws
Plymouth, Mass.—Plymouth Rock, America's birthstone, attracted tourists from 47 states and 43 foreign countries—a total of 10,000—this year. Only New Mexico was unrepresented in the list of states.

If the camp proves successful it is believed the National Park service will create a glider center rivaling the world-renowned German camp in the

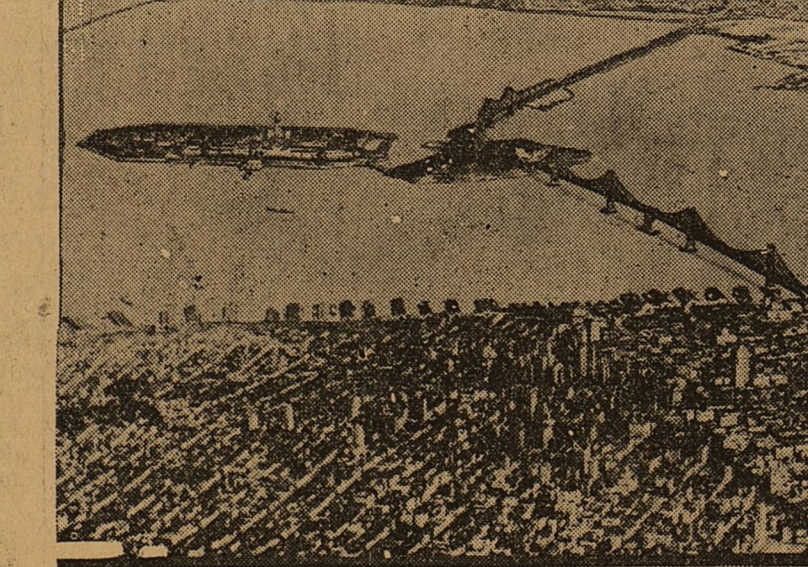

Drouth Disastrous to American Desert Mirage

Dragoon, Ariz.—Drouth apparently is even disastrous to mirages.

One of the greatest mirages of the American desert, four miles east of there, has disappeared. Although the illusion has been seen for as many years as the oldest settler remembers, it has been gone since the first of July.

The mirage, on a transcontinental highway, has attracted thousands of tourists. It was one of the largest in the world, a great "sheet of water" extending for ten miles in length.

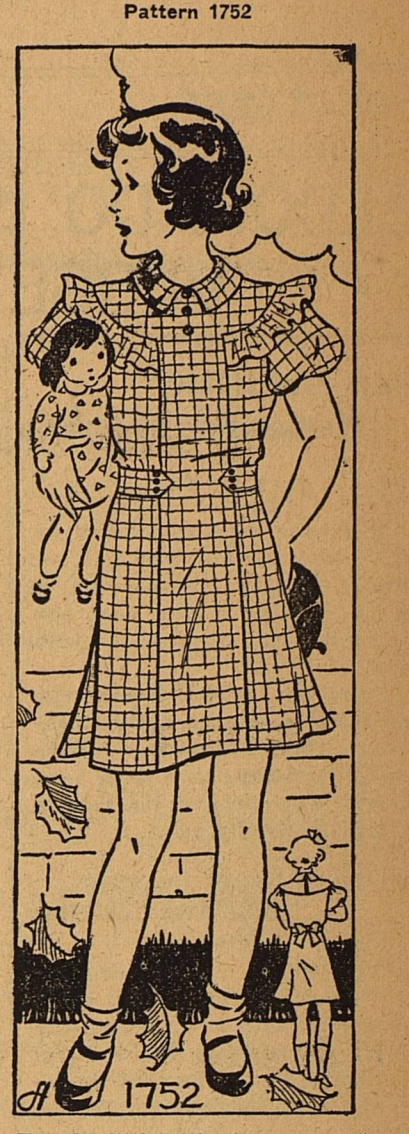

San Francisco Exposition May Be on an Island

It has been proposed that the San Francisco exposition of 1938 be constructed on an island made out of the Yerba Buena shoals. This combined air view and drawing shows how the fair (left center) and the completed San Francisco-Oakland bridge would look, with Berkeley, Oakland and Piedmont in the background.

Just the Thing for Small Girl

Pattern 1752

For the little girl who wears cotton frocks all year round, this design will be charming in a sturdy bright gingham, but the little ruffle will set beautifully in wool as well. Challis is a nice material for a little girl's dress, since it has a slight additional warmth and it washes beautifully. The ruffle at the edge of the yoke is not indispensable, as the back view shows. Any child who wears this frock will look at least an inch taller than she is, because of the long unbroken front panel—and little girls, like their mothers have a yen for that, these days.

Pattern 1752 is available in sizes 4, 6, 8, 10 and 12. Size 8 takes 2 3/4 yards 36 inch fabric. Illustrated step-by-step sewing instructions included.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this pattern. Write plainly name, address and style number. BE SURE TO STATE SIZE.

Address orders to Sewing Circle Pattern Department, 243 West Seventeenth Street, New York City.

SOCIETY AND CLUB ACTIVITIES

Alpha Delta Study Club Meets

The Alpha Delta Study Club had their Federation Day Luncheon at the Presbyterian Church last Friday with the club officers as hostess. Table decorations were carried out with roses and chrysanthemums with orchid chrysanthemums being used as plate favors. A three course luncheon was served.

Following the luncheon, Mrs. W. O. Alexander, representative of the club at the State Convention of State Federated Clubs held in Austin last week, gave a detailed report on the Convention. This was very interesting as well as beneficial. Mrs. H. W. Wiedenmann led the program.

Mrs. A. M. Morgan presided over the meeting of the day. There were twenty members present for the occasion. They were Meses. A. M. Morgan, W. O. Alexander, H. W. Wiedenmann, D. D. DeLong, Ben Isaacs, J. F. Isaacs, Sam Oglesby, Leslie Baker, W. L. McWhorter, W. T. Whitten, George Long, Bruce Dabney, Seth Ramsey, E. M. Reynolds, John Davis, W. A. Mullet, Clarence Knight, Elton Smith, Noe Wilkinson and Mabel Parker.

WEDNESDAY CONTRACT CLUB

Miss Cleone Dabney entertained the Wednesday Contract Club last Wednesday afternoon with three tables of bridge. Mrs. W. E. Cooper won the club prize of the day and Mrs. Hamilton, a visitor from Sonora, won the guest prize.

Sandwiches, cake, and coffee were served.

Those present for the occasion were Meses. W. E. Cooper, G. C. Crosby, R. D. Holt, C. E. Knight, Ed Reynolds, Seth Ramsey, Elton Smith, S. M. Oglesby, A. M. Morgan, L. L. Baker, H. D. Irby; Mrs. Hamilton of Sonora and the hostess.

MERRY MAKERS 42 CLUB

Mrs. O. E. Conner was hostess to the Merry Makers 42 Club at the home of Mrs. Bertha Shugart Tuesday, November 20. Four tables of members and guests were present.

Members attending were Miss Chris Enoch, Miss John Alexander, and Meses. Reuben Dickens, M. Pointer, J. A. Griffin, Ben Isaacs, Doc Kerr, Betty Tubbs, Dottie Edmiston, W. B. Cobb. The guests were Meses L. L. Baker, W. E. DeLong, Mabel Parker, and Jack Davis.

A salad plate was served. The next meeting will be December 3 with Miss John Alexander.

MRS. McWHORTER ENTERTAINS

Mrs. C. M. McWhorter entertained Our Bridge Club recently. Club members present were Mrs. Joe Edens, Mrs. E. C. Hill, Mrs. H. D. Irby, Mrs. W. E. Cooper, Mrs. V. G. Tisdale and Mrs. Joab Campbell. Guests present for the occasion were Mrs. R. D. Holt, Mrs. D. C. Royster, Mrs. Ed Reynolds, and Mrs. Leslie Baker.

A salad course with cake and coffee was served to these present. Mrs. Will Eaton came in for tea.

Mrs. Irby won high club prize, and the guest prize went to Mrs. R. D. Holt.

ELDORADO BRIDGE CLUB

Mrs. Elizabeth Heffley was hostess to the Eldorado Bridge Club last Thursday, November 15. The afternoon's play was featured by a tie for high score honors, Mrs. Lewis Ballew and Mrs. Luke Thompson being the high scorers. Mrs. J. D. Tinning, Jr. of Hutto, Texas who is visiting here won the guest's award for high score.

Those present for the afternoon's play were Meses. H. T. Finley, Otho Bule, A. P. Bailey, Luke Thompson, Ben Hext, Lewis Ballew, J. O. Crosby, Lewis Whitten, and Oscar Martin, members; Meses. J. D. Tinning, Jr. of Hutto, S. D. Harper, Kenneth Garey, Van McCormick, G. C. Crosby, and Georgia Brittan, guests.

CHURCH DIRECTORY

SUNDAY SCHOOL REPORT ANNOUNCEMENTS

Attend Sunday School Next Sunday

Sunday, November 18
A large number of Eldorado people attended Sunday School last Sunday. The number in attendance at the various churches of this city was 332. This number is an increase of 49 over the report for Sunday, November 11. It is only four under the record report and is the second best report on record. This number represents approximately 28 per cent of Eldorado's population.

By churches the report follows:
Baptist 120
Methodist 95
Presbyterian 72
Church of Christ 45

METHODIST CHURCH

Sunday School 10 a. m.
Morning Service 11 a. m.
Young People's Meeting 7:00 p. m.
Morning Subject: "The Peace Maker" Evening Subject: "Nothing But the Good"

FIRST BAPTIST CHURCH

Sunday School 9:45 a. m.
Morning Service 11:00 a. m.
Baptist Training Service 6:30
Evening Service 7:30 p. m.
A. J. Quin, Pastor.
85 attended B. Y. P. U. last Sunday evening.

CHURCH OF CHRIST

Afternoon Service: 2:30
Preaching every second and fourth Sundays. A cordial invitation is extended you to attend each service.

CHURCH OF CHRIST

Sunday School 10:00 a. m.
Communion Service 10:45 a. m.
Preaching Every First and Third Sundays.
Midweek services each Wednesday night at 7:30.

PRESBYTERIAN CHURCH

Sunday School at 10:00
Morning Worship at 11:00
Evening Worship at 7:15
At Sunday School the opening exercises will be in charge of the young people's class.

The pastor will preach at the morning and evening services. A cordial welcome awaits all at the services of this church.
N. P. Wilkinson, Minister.

Elder C. R. McClure, a Primitive Baptist, will preach at the court house, at eleven A. M. Sunday, D. V.
You are invited to attend the service.

W. M. U. PROGRAM

Baptist Church; Nov. 26, 1934; 2:30

Topic: "Clasping hands with our Southern Neighbors."
Song: "All Hail The Power"
Scripture: Psalms 103: 1-13; Mrs. Ira Hudson
Prayer: Mrs. George Williams
Our Southern Neighbors: (Leader) Miss John Alexander
Results of Roman Catholicism: Mrs. J. L. Ratliff
With Cuba: Mrs. W. T. Whitten
With Panama: Mrs. Geo. Anderson
With Mexico: Mrs. J. A. Whitten
With Brazil: Mrs. W. N. Ramsey
With Uruguay: Mrs. Geo. Williams
Song, "The Touch of his Hand": by Mrs. Joab Campbell.
A vision of Hands: Mrs. L. M. Hoover.
Prayer: Mrs. J. A. Whitten

Mr. and Mrs. John Christl of Rankin were visitors in the home of Mr. and Mrs. Sam Roberts and family last Friday and Saturday.

Rube Williams, Cecil Smith, and George Miller, polo players of national recognition and of San Antonio, were in Eldorado Monday.

Alexander News

Mr. and Mrs. T. E. Parson made a business trip to San Angelo Thursday.

Bundy Rushing was absent from school two days last week on account of illness.

Mr. and Mrs. W. J. Steward have returned from a short business and pleasure trip to Northwest Texas and New Mexico. They spent one day with Mr. and Mrs. Charlie Gardner of Lubbock, who will be remembered as former Alexanderites. They went through the Carlsbad cavern but didn't stay long enough to see much of New Mexico otherwise.

Mrs. Belk and Mrs. Faught of Lampasas, who have been visiting their children, H. A. Belk and wife have returned to their home.

Bill McWhorter of Eldorado spent Friday night and Saturday with Marvin McAngus.

Mr. and Mrs. C. P. Chick of Mertzon were visiting her sister Mrs. W. R. Bearce and getting acquainted with the new nephew last week.

Miss Laura McAngus is spending the week with her niece Mrs. Charlie Suddeth of Bailey Ranch.

Our entire community had a nice little shower last week and some more moisture on Monday of this week.

Amigo

INTERMEDIATE B.T.S. PROGRAM

November 25, 1934

Title: A Day of Thanks.
Memory Verse: "O, give thanks unto the Lord for his good forever."
106 Psalm.

Introduction: Cecil Moore.
A needed Spirit: Jim E. Sample
Petition and Thanks: Robert Lee Anderson.

Courting Your Blessings: Minnie B. Sheen

Expressing Gratitude: Milton Spurgers
Continue Thanksgiving: W. C. Spurgers.

ELDORADO HOME DEMONSTRATION CLUB

The Eldorado Home Demonstration Club will meet with Mrs. George Williams on Friday, November 30, instead of meeting at the Presbyterian church.

Non-club members as well as club members are cordially invited to come at eleven A. M. bring a covered dish and spend the day. Subjects and demonstrations for the day will be as follows:

Table Setting and Table Service
Fabric Glove Making
Tests for determining amount of silk in fabrics.

If you would like to secure a glove pattern at this demonstration, you are requested to bring a piece of fabric.

Reporter

DAUGHTER TO MR. AND MRS. JESS DAVIS

Born, Saturday November 17th, at San Angelo, Texas, a seven pound daughter to Mr. and Mrs. Jess Davis of Station A. The daughter is named Sammy Ruth.

Cardui Helped Lady For Nervousness and Run-Down Condition

"I have taken Cardui several times for weak, run-down condition and it has helped me," writes Mrs. Walter M. Coulon, of Forsyth, Ga. "I was nervous and suffering from a weak condition. There were days when I had to lie down during the day. I sent for six bottles of Cardui, as it had helped me before. Cardui gave me strength, stopped the nervousness and helped me in every way." Cardui may be just what you need. It can't do you any harm, so why not try it? Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician. \$1 a bottle, at drug stores.

Modern Thanksgiving Dinner Easy To Prepare

This year make the Thanksgiving dinner something to be thankful for—one which does not leave mother breathless in preparation, nor the rest uncomfortable afterward.

Easy Thanksgiving menus are suggested by Inez S. Wilson, home economist.

Suggested Menus

I
Salad Appetizer
Crown Roast of Lamb with Sage Stuffing
Mashed Potatoes Carrots
Green Beans
Cranberry Relish
Mince Pie
Coffee Mint

Sausage Stuffing
1/4 pound fresh sausage meat
2 cups coarse soft bread crumbs
1 small onion
1/2 cup diced celery
2 tablespoons parsley, finely minced
Salt and pepper, if needed.

Put bread crumbs in a big bowl. Add celery, parsley and onion, minced very fine. If the celery leaves are fresh, chop them with the stalks. Add the fresh sausage and blend thoroughly with the other ingredients. Because the sausage is so well-seasoned, neither salt or pepper is generally needed for this stuffing, but add them if necessary. Pile lightly into crown and roast.

II

Fruit Cocktail
Roast Loin of Pork
Clove-scented Applesauce
Sweet Potatoes
Buttered Brussels Sprouts
Celery Stuffed Olives
Cranberry Salad
Pumpkin Tarts
Coffee

Roast Loin of Pork
You can choose a loin of pork of the desired size—this is a decided advantage when the family group is small, for it eliminates leftovers the rest of the week. Have the bones of the loin frenched at the market. That is have the meat removed from the ends of the rib bones. Season the loin with salt and pepper, place in an open roasting pan so that the rib bones form a rack. In this position, the rib ends are down and will be kept moist by the drippings. Place the uncovered roast in a moderate oven, 350 F. and let roast until done. Allow about thirty minutes per pound for roasting. Decorate the rib ends with paper frills to serve.

Mrs. J. D. Ramsey is visiting with her son, Hal Ramsey and his family in Laredo.

Mrs. Josh Ewing of Donna, Texas, is visiting with her mother, Mrs. George E. Baugh.

Rudd Community

Mr. and Mrs. B. W. Montgomery visited their daughter, Mrs. Burley Burk, of Eden, over the week end.

Bro. Connell filled his regular appointment here Sunday. He was accompanied by Mrs. Pearl Hodges and daughter Omega, Louise O'Harrow, and Mr. A. T. Wright. We were glad to have the visitors.

Mr. and Mrs. Wilson made a business trip to San Angelo Monday returning Tuesday by way of Eldorado.

Mr. Jack Montgomery has been on the sick list this week, but is improving now.

Little Miss Patsy Martin has missed school all week on account of sickness also.

Mark Jones and Bailey Montgomery made a business trip to San Angelo Tuesday.

Alton Williams, accompanied by Miss Minnie Mae Hopper and brother Clem, are in the Davis Mountains hunting "big game" this week.

Mr. Walter King made a business trip to Eldorado Wednesday.

Clem Holstein and Sam Williams made a business trip to Menard Tuesday.

News Review of Current Events the World Over

President Starts His Social Reform Program, Putting Unemployment Insurance First—Visits TVA on Way to Warm Springs.

By EDWARD W. PICKARD
© by Western Newspaper Union.

WITH the election in the background, President Roosevelt is ready to push forward more rapidly his ambitious plans for what he calls "the abundant life" in this country. So he has appointed a large advisory council to aid in formulating and getting through congress his program of social reforms. The chairman is Frank P. Graham, president of the University of North Carolina, who has been serving as vice chairman of the NRA consumers' advisory board. He and his colleagues, all known to be New Dealers or in close sympathy with the New Deal, are asked by Mr. Roosevelt "for advice and counsel in development of a program for unemployment insurance, old age security and adequate health care."

Frank P. Graham

Work on the social program already is well under way and an executive committee has laid the groundwork. Also Miss Frances Perkins, secretary of labor and chairman of that executive committee, has named an advisory committee of physicians and surgeons that, according to advance rumors, will report a program that will be "revolutionary almost to the point of establishing socialized medicine." This medical group is headed by Dr. Harvey Cushing of Yale whose daughter Betsy is the wife of James Roosevelt, son of the President.

Secretary Perkins announced that other committees were being organized to aid in the formation of plans for federal intervention in problems of public health, hospitalization, and dentistry.

WHEN the federal conference on economic security met in Washington, nearly all the members of the advisory committees were present. The President told the delegates that he would present to the coming congress bills to provide for setting up immediately an unemployment insurance program. As to health insurance and old age pensions, he said he was not certain the time had arrived for federal legislation to put these into effect, and he uttered a warning against "organizations promoting fantastic schemes" and arousing hopes "which cannot possibly be fulfilled."

Though Mr. Roosevelt conceded to the separate states the right to decide what type of unemployment insurance they would adopt, he declared that he would reserve to the federal government the right to hold and invest and control all moneys which might be collected.

This was necessary, the President added, because of the magnitude of the funds, and "so that the use of these funds as a means of stabilization may be maintained in central management and employed on a national basis." It is expected that from \$4,000,000,000 to \$5,000,000,000 would be raised in the course of several years.

Mr. Roosevelt insisted that unemployment insurance must be kept entirely apart from the dole, and that it should be managed strictly on an actuarially sound basis. He indicated that he favored legislation along the lines of the Wager-Lewis bill introduced in the last congress, under which a 5 per cent federal tax would be put upon all commercial pay rolls, certain portions of the proceeds being paid back to such states as had adopted legislation for the working of an unemployment insurance program.

Before the conference members went to the White House to hear the President, they indulged in a discussion that brought out all sorts of views on what should be done. Relief Administrator Harry Hopkins and Mayor La Guardia of New York urged immediate establishment of a federal program to include benefits for the 4,200,000 families now on relief. Hopkins said any program not encompassing these destitute "is not worth its salt." La Guardia, in the same vein, said cities cannot hold up under the relief load much longer. This was not in accord with the view expressed a little later by the President, and was an example of the confusion of ideas in the conference.

FOR the purpose of obtaining better co-operation among federal agencies engaged in lending government funds, the President has appointed a committee consisting of the heads of the agencies, with Secretary of the Treasury Morgenthau as chairman. The new organization will report to the President from time to time and its activities will cover the treasury, interior, public works, federal housing, farm credit, Home Owners' Loan corporation, agricultural adjustment administration, export-import banking, commodity credit, federal deposit insurance, the RFC, federal reserve board and public works housing.

In connection with this co-ordinating move, the White House stated that when the present applications of the Home Owners' Loan corporation have been reduced to terms of approval the

original \$3,000,000,000 allotment will have been used up.

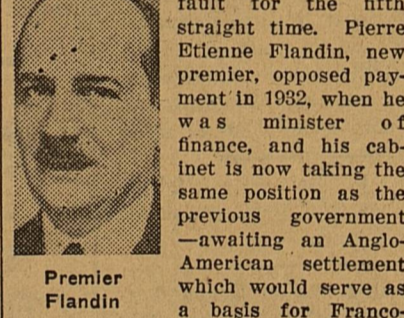

ANOTHER program that is being rapidly prepared by the President's advisers for action by congress has to do with the nation's natural resources, and the necessary legislation is being drafted by the national resources board. It is of utmost importance and in Washington there is a belief that it may lead to government control, and possibly government ownership, of all timber lands, oil reservoirs and coal fields, and government dominion over all existing and future water power developments on the nation's lakes and rivers.

PRESIDENT ROOSEVELT has gone to his winter retreat at Warm Springs, Ga., where he will remain until after Thanksgiving day, and on the way had some interesting experiences. First he traveled to Harrodsburg, Ky., where he helped Gov. Ruby Laffoon and other officials in the unveiling and dedication of a memorial to the men and women who established there the first permanent Anglo-Saxon settlement west of the Alleghenies. The monument, erected by the federal government at a cost of \$100,000, overlooks Pioneer Memorial State park. It depicts an epoch rather than an event, and the only portrait among the many carved figures is that of George Rogers Clark, who there planned his conquest of the old northwest territory.

From Harrodsburg the President went to see the Tennessee valley development which has been well called the laboratory of the "more abundant life." It was with deepest interest that he viewed the work that is being done by about 1,200 men building dams in the Tennessee river and tributaries to provide power, flood control, navigation and new fields of work for persons drawn from unprofitable land.

After a visit to the Hermitage, home of Andrew Jackson at Nashville, Mr. Roosevelt inspected the revived Muscle Shoals plants and the Wheeler and Wilson dams, and then went to Tupelo, Miss., the first town to purchase power from the new federal development.

UNCLE SAM need expect no payment from France on the war debt on December 15, when the next installment is due. It is stated in Paris that France will then default for the fifth straight time. Pierre Etienne Flandin, new premier, opposed payment in 1932, when he was a minister of finance, and his cabinet is now taking the same position as the previous government—awaiting an Anglo-American settlement which would serve as a basis for Franco-American negotiations.

The only idea for revision of the debts that has met with any enthusiasm in French parliamentary circles is a 10 per cent payment to correspond with the reparations relief granted Germany by the Lausanne agreement. Proposals for larger amounts, or "payment in kind," have met with coldness. The chamber of deputies is clinging to the position that France will not pay one cent more than it gets from Germany.

ANDREW MELLON may now have another cause for grievance against the federal Treasury department, for the government has made charges against the Mellon Trust company of Pittsburgh, a Mellon institution, of filing "a false and fraudulent income tax return" for 1930 in a tax action demanding payment of \$218,333 plus a 50 per cent penalty.

In supporting its claim, the government listed eight transactions in 1931 as evidence that all were "a part of a false and fraudulent course of conduct on the part of said Mellon Trust company." Among the 1931 transactions were two "accommodations" deals with Andrew W. Mellon.

FEDERAL JUDGE CHARLES I. DAWSON of Louisville, Ky., overruling an attack on the validity of the Frazier-Lemke farm moratorium act, declared "with regret" that it is constitutional. In his opinion he said: "The legislation, in some of its provisions, is unfair to creditors, and unwise even as to farm debtors, for it inevitably closes to them all private sources of credit."

FREDERICK LANDIS, the only Republican to be elected to congress from Indiana in the recent election, died of pneumonia in his home town, Logansport. He was a brother of Kenesaw M. Landis, national baseball commissioner.

BUDGET requests for 800 new airplanes have been submitted by the army air corps, and if the corps plan is approved the United States will have the largest and most up to date military aerial armada in the world, including eventually 2,400 planes.

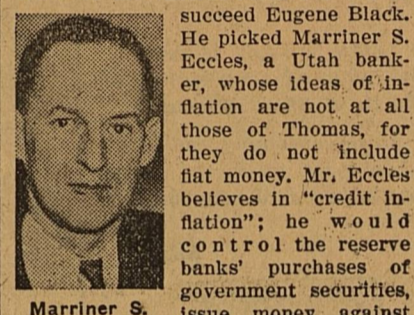

GERMAN Nazis in the Saar, organized as the German Front, assert that the French separatists have been trying to stir up a quarrel for the purpose of inducing Geoffrey Knox, president of the League of Nations commission for the Saar, to call in foreign troops. The accusation was contained in a note sent the League denying that the German organization has gone beyond the law in urging inhabitants of the Saar to vote for return of their land to Germany in the plebiscite to be held January 13.

In its memorial to the league the German Front asserted that it possesses documents to prove that France has sent arms into the Saar and that pro-French groups have been trained in the use of machine guns and inflammable liquids. This is for the purpose of executing a coup d'etat late in November or early in December, the German note said.

TOM MOONEY, who has served 18 years of a life sentence for complicity in the San Francisco Preparedness day bombing in 1916, may yet win release. The United States Supreme court consented to live at least preliminary consideration to his case, and that is a big point in his favor.

The court ordered the warden of San Quentin prison to show cause within 40 days why counsel for Mooney should not be granted leave to file a petition for a writ of habeas corpus. The order of the court does not mean that it will review the case.

SENATOR THOMAS and his fellow inflationists were not pleased with the President's choice of a new governor of the federal reserve board to succeed Eugene Black.

He picked Marriner S. Eccles, a Utah banker, whose ideas of inflation are not at all those of Thomas, for they do not include fiat money. Mr. Eccles believes in "credit inflation"; he would control the reserve banks' purchases of government securities, issue money against these purchases and spend the new money for government bonds, thus creating an endless chain of credit arrangement. So long as this chain were maintained unbroken, the government's credit would be inexhaustible.

Something like fifteen billion dollars, according to Mr. Eccles, should be spent by the government for public works and housing projects, and he thinks this vast sum can be obtained by following out his monetary plans.

THE government has issued an order permitting the free exportation of capital from the United States, and business men take this as a concession to those who demand stabilization of the currency as a prerequisite to business recovery. It does not mean stabilization but is a step toward it and indicated the administration has dropped the idea of bringing about recovery by debasing the dollar. Presumably, if further attempts to cheapen the dollar in foreign exchange were contemplated, the treasury would not leave the doors open for the wholesale flight of American capital abroad.

ARIZONA is determined to prevent the construction of the Parker diversion dam across the Colorado river unless it gets what it considers its share of the hydro-electric power to be developed by that project. Gov. B. B. Moeur declared a "war zone" on the Arizona side of the river at the dam site and sent a detachment of National Guardsmen with rifles and machine guns to halt work there.

The United States bureau of reclamation ordered that work on the Parker dam on the Arizona side be stopped until the dispute is settled, so Governor Moeur called the troops back to Prescott and Phoenix.

"It's a showdown this time," Moeur said, "we are going to get something or we aren't. And if we can't expect anything, we want to know it before this project is farther advanced."

W. P. Whitsett, chairman of the Los Angeles metropolitan water district board of directors, said he "heartily agreed" with Governor Moeur that Arizona should have one-half of the power privilege at the Parker dam.

CELEBRATIONS of Armistice day in the United States and the allied countries of Europe were generally marked by warnings of the dangers of another terrible war in the not distant future. At Arlington national cemetery President Roosevelt quietly laid a wreath of chrysanthemums on the grave of the Unknown Soldier while military detachments stood at attention, and then, as taps sounded, Mrs. Roosevelt stepped forward and placed a single white flower at the foot of the shrine. National Commander Belgrano of the American Legion was one of the speakers at Arlington, and called for adequate defense of the nation against both foreign foes and the forces of unrest that are attacking our institutions.

IN A cablegram to the League of Nations, Chancellor Riart of Paraguay said his government could not accept a truce in the Chaco war in return for international guarantees, as was proposed by the league. Riart insisted that an end to hostilities should come before negotiations are undertaken to solve the war, and to arrange definite terms for peace. However, Paraguay accepted the principle that the conflict proper should be settled by conciliation.

The Chaco consultative committee of the league asked the secretary general to request the United States and Brazil to collaborate in ending the war.

Washington Digest

National Topics Interpreted
by William Bruckart

Washington.—The smoke of battle has cleared away sufficiently since the election to permit an analysis of an analysis already there is a general conclusion discernible as to two things:

(1) The Republican party must undergo a complete reorganization, a complete elimination of the old line leaders and the assumption of power by virulent forward-looking men and women of the newer generations.

(2) President Roosevelt, accorded the greatest vote of confidence ever given a Chief Executive, is confronted with the greatest responsibility ever laid on the lap of one individual in the history of this nation.

Thus, there can be no doubt, according to astute judges, that Mr. Roosevelt and his administration are in real danger because he has too many blind followers. It seems to be generally agreed among political leaders and observers—that is, all political leaders excepting those who refuse to believe a change has come—that the Republican party went into the recent campaign and finished that campaign without any kind of a program. Some critics are saying that Henry P. Fletcher, the Republican national chairman, is to blame. I do not find that criticism supported generally. But in politics some one always must be the goat and apparently Mr. Fletcher is to be made the goat by these Republicans who have been unable or unwilling "to take it."

Mr. Fletcher and his co-workers, Senator Hastings of Delaware, and Representative Bolton of Ohio, are known to have pulled back in their criticisms of the administration. The consensus seems to be, however, that this alone was not sufficient to have resulted in the overwhelming defeat which the party suffered. It was, rather, an entire lack of definite proposals from the Republican leadership, and throughout the country according to well authenticated information, the younger crowd of Republicans was apathetic. They had nothing to encourage them and nothing to offer in argument in the place of the things the New Deal was preaching.

In some quarters it is emphatically insisted that the New Dealers' theories, and all, amounted to a light in the dismal darkness of the economic depression. This school of thought argues that it does not matter whether success has crowned the President's recovery efforts. He at least has maintained a forward-appearing movement and in the absence of anything constructive from the other side, a people downtrodden and with resources exhausted look to him with a hope which they could not pin to any other flag staff.

But, as said above, Mr. Roosevelt has his problems. They are more dangerous than when he took office. With more than a two-thirds majority in each house of congress, the President, it is held generally, must guard himself against too many friends.

The two-thirds majority always has been regarded as a fine asset for an administration in forcing through legislation where it is necessary to apply a gag rule. This is particularly true in the house of representatives which has a tendency to become a maelstrom on too many occasions. Many new members, imbued with the idea of a New Deal mandate, will swallow the President's legislative proposals without question. History shows this to be a most dangerous condition for the Chief Executive. He has no opposition to call attention to mistakes, weaknesses, or vulnerable spots in the programs which he offers.

One official, and a rather high official at that, suggested the other day that he was in favor of "organizing" an opposition bloc in the house and senate. It was his conviction that if there were critics among the Democrats, they would constitute something of a leadership for the Republican minority and that, by these two groups, valuable criticism of administration policies would be available. All through the last session of congress numerous conservative Democrats, mainly from the South, were working under cover to hold the brain trust programs within bounds. Many of the senators, and representatives as well, went about their work quietly but none the less effectively, and I think it is conceded by most persons in a position to know, that these men kept the New Deal from going too far to the left.

One other phase of the Roosevelt problem deserves consideration. The campaign showed Ultra-Radical Threat

to have ideas far beyond the New Deal program. In fact, some of them are ultra-radical. Observers here contend that Mr. Roosevelt is faced with a genuine threat from these personages. In other words, it appears to be within the realm of possibility that he will have to swerve somewhat to the right to insure victory for the policies in which he believes. Legislation always is by compromise. If the President does not desire to go so far to the radical side he may be forced to support certain more conservative propo-

sitions in order that when the radical group makes demands, he can make concessions to them and accomplish the ends sought.

This conjecture, of course, is predicated upon the frequently heard condition that the radical bloc will be larger in congress than heretofore and that they will assert themselves. The President's ability to meet this condition obviously will be tested, but there are many observers who say that the President is the best tight-rope walker the country ever has seen.

Looking into the future, it seems perfectly safe to say that the realignment of parties has taken greater strides than most observers thought possible when Mr. Roosevelt was proposing the New Deal in the 1932 campaign. It was perfectly patent then and became more apparent as he took office, as I reported to you at that time, that Mr. Roosevelt was building a party of his own.

I heard a Washington political writer, a man of forty years' experience, say the other day that it was not impossible for a break-up of the "solid South" to occur within the next six years. He envisioned withdrawal of the conservative South from any party that tied closely into the liberal or radical groups that dominate the Middle West and the Rocky Mountain areas. It presented a picture rather new in the political scene in that it seemed to suggest the possibility of an alignment of the East against the Middle West and the far western sections of the country.

The thought was expressed with two factors in mind. It was pointed out that the bulk of the territory east of the Mississippi river is based in manufacturing industries. In that territory are many large and medium sized cities. Their interests are different from those west of the Mississippi. The condition resolves the question into one of economics.

The second factor to be considered is the fact that the so-called solid South is inherently conservative. That links with the great manufacturing sections of the country. If Mr. Roosevelt has succeeded or does succeed in creating his own party, under whatever name it may eventually be known, this Washington observer told me he foresaw gradual defection of southern Democrats and their alignment with manufacturing interests in a conservative party.

History shows that such developments as are pictured in the above prediction are very slow. Notwithstanding the rapid changes that have come since Mr. Roosevelt became President it is unreasonable to suppose that accomplishment of an entire political revolution can be accomplished in time to affect the result of the 1936 Presidential election. Some students of politics maintain, however, that the development will have been sufficient by 1936 to wield some influence.

From all of the discussion I hear at this time the result in 1936 will be dependent upon whether there has been complete recovery and whether federal money holds out that long. There are few with whom I have talked who disagree with the premise that withdrawal of federal aid, for relief or otherwise, can be accomplished without important political reactions.

This is the story of a man whose name many of you have seen engraved in stone on many post offices throughout the United States. It is the story of a man who grew up in government service and who is now retiring to the rest and recreation which 49 years of government service certainly entitles him.

At the end of this month, James A. Wetmore will close his desk at the treasury where he has served since 1915 as acting supervising architect and from which office he has directed the greatest public building program ever undertaken by any government. Mr. Wetmore is seventy-one years old and he says that he is going to enjoy the rest of his life at play, but he always hastens to explain that he has enjoyed nearly every day of the work he has been doing.

It was almost half a century ago that Mr. Wetmore accepted a job as a stenographer in the treasury. From the day in 1885 when he began work there, his rise has been steady and his ability constantly recognized. Thus it came about that when Oscar Wendt resigned in 1915 Mr. Wetmore was asked "to fill in for a while." That "a while" stretched over a period of 19 years during which Mr. Wetmore persisted in his refusal of the office of supervising architect. You will note wherever his name appears graven on the corner stone of a post office that there is the word "acting" before the rest of the title. The reason is simple. Mr. Wetmore is not an architect and never has been.

Thus a career officially ends, a career about which few of his countrymen knew. While his name appears on hundreds of corner stones, he participated in the ceremonies of the laying of only one. That was at Bath, N. Y., his birthplace. And that is his one corner stone of which he is proud.

Says WILL ROGERS

BEVERLY HILLS—Well all I know is just what I read in the mail. Got an awful lot of Birthday Greetings couple of weeks ago. I was kinder letting the thing slide by, and had even forgotten it, but they want to remind you how old you are getting, and too you would be surprised at the amount of people that was born on that very day, Nov. 4th, '79. Along on that date in '79, must have been quite a day for births.

But I was mighty glad to hear from all of em, and we can console each other on reaching such a ripe old age; I am going to start in demanding a little more respect. You take a dignified fellow that's arrived at 55 years of age, and "Hello, there's Old Bill," and "Look at that old guy Rogers over there." Well that's all got to stop. From now on there is going to be some "Mr Rogers" used. My hair is arriving at a sort of a blend that it deserves respect if nothing else. A greying head is a mark of respect in any land, so you guys cut out this rough uncouth stuff. You are speaking to a gentleman of the old school. The school of '79 sah.

One fellow was telling me, "I think you are kinder spreading some propaganda to get in on this old age pension." You know they are going to have that. That's going to be the very next thing. It advocated by practically everybody and it would be the grandest thing we ever had. It would be a great mental relief to millions and millions of old folks. There is nothing more terrifying than that thought of facing the future with nothing to carry on with.

I don't know where they will get the money. Take it out of increased income tax, ah, there is a thousand taxes that other countries have that we haven't touched yet. Why a match, and a salt tax in many countries are the biggest things they have, India almost has war with England every year over the salt tax. And Luxuries? Why we haven't started taxing them yet. But I didn't write this to get started off on any economic theory. I haven't got any, but I sure do want to see an old age pension. If we have to print the money for it.

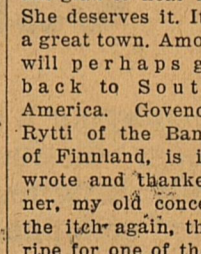

I started in to tell you about my mail here. Here is a awful nice letter from an Ames Agricultural College graduate, that brought out old "Blue Boy" to California and Hollywood. This was a great boy. He is now at Osgate Iowa, working as a county agent. Fine a lad as ever lived. Old "Blue Boy" died last year.

The studio had given him to me and he eat me out of house and home, and I give him to the California Agricultural School at San Luis Obispo.

Here is a letter from Rex Beach. Rex lives down in Florida, and in addition to being one of the most constant best authors in America, he is an expert farmer, got a great celery plantation, does it scientifically. Rex and Professor Hamilton Holt of the famous Liberal College, Rollins College, Winter Park, Florida. Rex is an old Alumn. They want to give me a degree, (a kind of a non paying old age pension). Now what in the world would I be doing with a degree. A lot of guys that earned em don't know what to do with em, much less me that wouldn't know what one was. They gave Fred Stone one. Well he deserved it. I can think of a hundred reasons why he should be knighted.

Talked Finland the other night, and here is a lot of nice letters. Those Finns are the most appreciative people, in fact all the countries are. Here is a banker, J. Rowland, from Youngstown, Ohio, who wrote before this last election and says that it is Roosevelt and not the bankers that are in the "Dog House" as I said. He knows more now that he did before November 6th.

A note from Sam Fordyce, St. Louis pet politician. Amos Carter of Ft Worth Texas sent me a saddle from some South American Republic on his flying trip clear around South America. I hear the next Democratic Convention is to be held in Dallas. I am glad to hear it. She deserves it. Its a great town. Amos will perhaps go back to South America. Governor Rytell of the Bank of Finland, is in this country, and wrote and thanked me. Charley Wagner, my old concert manager, has got the itch again, thinks the Country is ripe for one of those long winded concert tour talks of mine. No, I am going to let the country alone. Its had enough trouble without me adding to it. Thanks for the offer, Charley. Thanks for the wire, Malcolm Stevenson, the international polo player. Here is one telling about the record of the American Airways, from Los Angeles to Ft Worth, and from there to Chicago, with their first new Douglas. They ramble, those babies. I also have the good news here of the terrific hit Fred Stone made in his new show in New York. Things are looking up since election. I tell you if they would just quit having those things we never would have had times.

Automobile Output Increases

New York, Nov. 22.—Production of motor vehicles by companies belonging to the Automobile Manufacturers Association was 24 percent head of their total 1933 output in the first 10 months of this year. Ten months' production was computed at 1,846,017 cars and trucks, a gain of 31 percent over the output of 1,404,311 units for the same period of last year, and 24 percent more than the total output for the year 1933 of 1,491,852. The October output of association members was estimated at 90,377 units, a decrease of 22 percent under the preceding month's total of 116,496 and a decline of 11 percent under the 101,082 units of October of last year. The estimate, which includes the operations of all but one major producer of motor vehicles in the United States, is based upon reports of factory shipments.

Perner Buys Friend Ranch

Stephen Perner, son-in-law of Judge C. C. Doty of this city, became the owner of the Mike Friend ranch in Crockett County, south of Ozona, last week. The deal involved 6,400 acres of land, it was stated; and the transaction is reported to have been made for \$64,000 cash. Mr. Perner will continue to run his ranch between Ozona and Big Lake until July. Perner, who has lived in Crockett County for a number of years, is well known in this County.

Soy Bean Cake Good Substitute For Cottonseed Cake

From a feeding standpoint, soybean cake and meal is equal, if not superior to cottonseed cake and meal. The following comparison is taken from Henry & Morrison's "Feed and Feeding," and was obtained from hundreds of analyses. Cottonseed Meal—Digestible Crude Protein—33.4 per cent; Digestible Fat—7.9 per cent; Digestible Carbohydrates—24.3 per cent; Digestible Total Nutrients—75.5 per cent. Soybean Meal—Digestible Crude Protein—39.7 per cent; Digestible Fat—4.5 per cent; Digestible Carbohydrates—34.7 per cent; Digestible Total Nutrients—84.5 per cent. In each 100 pounds of soybean meal there are 5.3 more pounds of digestible crude proteins, over 10 pounds more digestible carbohydrates and 9 pounds more total nutrients than there is in 100 pounds of cottonseed meal.

Western Railroads To Equip For Air-Conditioning

Chicago, Nov. 22.—Railroads on the western territory will spend more than \$12,000,000 for air-conditioning to lure passengers next summer. H. G. Taylor, chairman of the Western Association of Railway Executives, announced that the roads' program for modernizing trains were practically completed. Taylor said 1,200 cars of a full quota of 2,500 would be air-conditioned. Of these, 700 cars would be Pullmans and 500 coaches.

RAILWAYS PRESENT A UNIFIED FRONT

New Organization Will Work for Interests of Roads and Public.

WASHINGTON.—For the first time in a number of years the railways of the United States have banded together to present a united front in proposing solutions for their problems and for defending against unjust criticism. They have organized the Association of American Railroads. It will soon be functioning as their spokesman, as their representative on all matters affecting the welfare of the rail transport lines, and in the right to use every modern device and method that will improve their service to the public. Development of the new organization, which is formed out of the Association of Railway Executives and the American Railway Association would appear to carry out the suggestion by Joseph R. Eastman, Federal Co-ordinator of Railroads, who several months ago suggested "a more perfect union" among the railroads to deal with matters of common concern. The leaders among railroad managements have been working in this direction for several years, and only last year the managements sponsored a statement through the National Transportation Conference to the effect that the railroads should act jointly and more affirmatively than heretofore has been the case.

Purpose of Organization. It is the indicated purpose of the new association to take an affirmative position at all times on questions relating to the steam railway carriers. It will be directed by men who have courage and vision and who are insistent upon policies among the railroads that will keep abreast of the times. The understanding is that the governing board of the Association will formulate all policies from the railway standpoint and will be prepared at all times to promote them before the proper authorities, whether such authorities be national or state. Member railroads of the Association will be bound to follow the policies thus enunciated and, of course, will support the pronouncements of their authorized spokesmen.

Announcement of the formation of the Association of American Railroads has brought forth much comment in Washington and elsewhere. For the most part, the course the railways have adopted is looked upon with favor, because anything that concerns the railroads concerns individuals wherever they live. In addition, there are more than 910,000 persons who own shares of stock in the railroads, and obviously their interest is concrete. Shippers and patrons of the railroads' passenger service likewise have an interest in this new development because for them it means at last there has been an agency created and equipped with definite powers and responsibilities in meeting the ever arising attacks on the railways.

Creation of an agency of this type has a further significance. There is a very sound and widespread belief that the Association will be able to defer passage of legislation or regulations that has not been well considered. In other words, according to the opinion frequently expressed, organized interferences will not be able to "run away" with legislation or regulations that may have a burdensome result. It appears to be certain that hereafter any federal or state action in dealing with the railroads will not be rushed through the machinery of government without the country as a whole being made acquainted with the ultimate effect.

Means Better Legislation. Since there is to be federal legislation proposed to the next Congress affecting transportation—and early indications are that it will broaden the powers of Federal regulation—observers in Washington are saying that the chances are for a more constructive review of transportation problems than the country has witnessed in a generation. The common expression is that for once the railroads are in a position to aggressively take the field in the face of any onrush by politicians.

It must be remembered, however, that the forthcoming session of Congress probably will be as subservient to President Roosevelt as any session since he entered the White House. It is to be assumed then that, if and when he proposes new rail legislation, he will have the support of his enormous majority in the House and Senate. This would seem to mean easy sailing for the legislation, but many transportation experts are of a different opinion. They believe that they can present whatever valid objections they did to the program submitted and can appeal to a sufficient number of Representatives and Senators to curb provisions they deem too radical. However one may look at this situation the conclusion cannot be avoided that a vigorous fight will take place and out of it will come a desirable clarification of the whole transportation situation.

Time And Weather Make Asbestos Shingles Stronger

A perfect roof is a long stride toward perfect security for the investment in any building, and that is why asbestos shingles are becoming so popular, according to Mr. Clarence Knight of the West Texas Lumber Company, local distributor for Johns-Manville. Not only are they as lasting as time itself, never requiring any upkeep or repairs of any kind, but they are fire-proof and very good-looking, he points out. The first cost is the last, and perfect safety and beauty are enjoyed at the same time.

The durability of asbestos is an important safeguard for the investment in any building. Asbestos shingles will remain weather-proof as long as the building stands. As for their being fireproof, one building was recently examined after a fire, which had blazed for hours under a roof of asbestos shingles placed on the building 15 years before. The shingles were unharmed and were even stronger than when they were placed on the roof.

Because 23 percent of all residential fires start on the roof, the safety of having asbestos shingles is obvious. Not only does a roof protect the entire home from weather and a large share of the fire hazard, but it adds materially to the value of the home and is a tangible asset to be considered if the building is ever sold.

"Home-owners are giving their roofs the appearance test," said Mr. Knight, "now that funds are available for repairs under the National Housing Act and prices are conducive to extensive repairs. The appearance test means standing off about a hundred feet from the building and looking it over the way other people see it as they pass by. If there are any loose shingles in sight, or the roof has a shabby appearance, it needs an examination by an expert, to avoid possible loss through leakage or other damage caused by the weather. The examination costs nothing and is apt to save a loss."

Asbestos brick-siding is also finding favor among home-owners who have the problem of preparing the exterior walls without a large expenditure of money. The brick-type siding is quickly put on over the old siding, and the house is then protected by two walls. Almost over night, a home with a weather-beaten exterior becomes a

handsome brick residence in appearance. The walls are then fire-proof, and cover will need any painting or repairs of any kind. That is the sort of economy that home-owners are finding more profitable than putting up a temporary siding, without fire protection.

BAG TURKEY

V. G. Tisdale and E. C. Hill made a foray on wild game in Kimble County last week-end. Each of the hunters bagged a turkey.

CARD OF THANKS

To our friends who helped us in our time of sadness and grief caused by the untimely death of Dee Jolly we hereby express our thanks and appreciation of their help and sympathy.

THE AMERICAN EPIC

Sinclair was defeated in California, but his plan is living on after him. Instead of Sinclair's EPIC we are just arriving at the verge of the American EPIC. The Federal government is planning on leasing all closed factories and putting the unemployed to manufacturing things for themselves. "Production for use."

The plan may or may not work; The results remain to be seen. One thing, however, is certain: Such a plan can not effect recovery as we now think of recovery. We may get somewhere by following such a plan; but the ultimate end of such a plan will not mean recovery but instead, a complete change in our present economic system. When production for use sweeps the country, production for profit will be eventually pushed from the field.

Of course, emergency is forcing the Federal Government to adopt such a plan; but before the general public lends its support to such a plan, it had better ask itself the question, "Do we really want a change in our economic plan?"

This theory of production for use may or may not be sound. We question it; but its results are quiet obvious.

The TEXAS WEEKLY says of this plan, "It is idle to say that this sort of thing does not compete with private industry and that it does not tend to limit and even reduce employment in private industry. And yet, so long as present conditions continue, the administration has strong arguments in defense of such measures. But where do such measures lead? They certainly do not lead toward recovery, and no matter how much ridicule

may be heaped on the heads of those charged with attempting to damn the plan by calling it a bad name, it cannot be successfully denied that they lead toward socialism."

When once put into practice, such a policy will likely be necessary for years to come; and as we see it, it will eventually destroy private industry. Is this what we want?

BIG BUSINESS JOINS

THE NEW DEAL

An encouraging note is seen in the late turn of affairs in Washington. Industry is seeking to cooperate with the President in bringing about national recovery. Of course this does not mean that business has been working against the President heretofore; but the fact remains that close harmony has not existed between industry and the Recovery Administration.

General recovery cannot be effected without the whole-hearted support of industry in whatever course we may choose to follow. Industry must lead the way to recovery; and if the new alliance between big business and the government means what it seems to mean, business in general is due for an up turn. The alliance, of course, may mean that labor has lost many of the advantages which it has gained in the past few years, but we doubt that such a co-operative move means any such loss to labor. In fact, with the stimulation of business, comes the stimulation of labor. After all, big business does, and always will, realize that it cannot thrive to the hurt and disadvantage of labor.

The chief advantage to be gained from an alliance of industry with

the government in a recovery program is the fact that industry will gain back much of its lost hope and confidence, a thing absolutely necessary to prosperity.

THE PRESIDENT'S IDEALISM

In recent speeches made on the site of the great Tennessee Valley Power project, President Roosevelt declared that the project "is not regimentation. It is community rugged individualism. It means that no longer an individual can do this, that or the other thing that will hurt his neighbors."

The attitude expressed in the President's speech is certainly a most desirable one. We firmly believe in individualism—rugged individualism—but we do not desire any sort of individualism which runs roughshod over lesser fortunate individuals. We do not believe in regimentation, but we are just ideal enough to believe that people could enjoy equal opportunities under our present social and economic order. We know that equal opportunities do now exist, but we believe that they could exist.

We know that some men are more capable than others and we want to see the more capable rewarded proportionately. Some men even persevere longer than others; they, too, should be rewarded. But to see the disadvantaged man down-trodden is not to our liking. A man, when born, has the same right to have his chance at life as you and I have. Of course it is idealism; but we believe that somewhere beneath the sun lies such justice. Yet, only when men learn that 'above all else is humanity,' shall such come to pass.

SENATOR-KINGFISH HUEY

P. LONG

That strange combination of Adolph Hitler and Upton Sinclair

which leads the state of Louisiana is contemplating running for the presidency of the United States on an anti-Roosevelt ticket. Upton Sinclair drew a world of adverse criticism; but as we see it, Upton Sinclair is a very conservative man to the side of Kingfish Long. We had rather have our small dog running for the presidency than the Kingfish and we will accord our dog as much chance of being elected as we will Huey P. Long.

Long's ideal state government which he is perfecting may be all right in Russia but we even doubt that the Russians would think too much of it.

There may be a number of good points to Long's Louisiana program—no doubt there are a few good points—but we prefer less foolishness.

PROFITS AND PROGRESS

Upon a simple but vital principle rests the future economic security of the nation, in the opinion of Paul Shoup, Vice Chairman of the Southern Pacific Railroad. In his words, "Industry must make money. Then will follow the creation of wealth, its conversion into capital, and its use in greater variety and volume of business activities than has existed heretofore."

It has become something of a popular sport these days to denounce the so-called "profit motive" on the grounds that its existence is inimical to humanitarian principles and the welfare of the people. But the lesson of history tells a very different story. Not until profit appeared did civilization as we know it begin. Profit makes jobs. Profit stimulates science and invention. Profit puts money to work where it creates more money and more jobs. Profit, in brief, makes progress.

The last few years have shown us what profitless business means

to a nation.—Industrial News Review.

WHAT CREATES WEALTH?

Government cannot create wealth. It can only spend it.

That economic axiom was recently pointed out by B. C. Forbes, in commenting on the delusion that government has a limitless purse, that it can pull bundles of cash out of a magic hat, that "a day or reckoning never comes."

Every cent spent by political organisms must be supplied by the taxpayer. And that term, "taxpayer," means every person in the country who has a job, any savings, a piece of property, a business, or a dollar to spend. It means the day laborer as well as the bank president—the clerk as well as the executive. In fact, the clerk and the day laborer have the most to lose from tax extravagance and the most to gain from tax economy. Government cannot be supported by taxing men of wealth—there aren't enough of them to make a dent in the budget. The great bulk of its revenue comes from indirect taxes on clothes, food—all the necessities, and luxuries which the average man and woman of small income buys.

Wealth is created when capital is used to provide facilities with which men can work to produce goods and commodities and services that the people need and want. Potential wealth is lost when the burden of taxation makes impossible this capital investment—when it stifles at the source the jobs and opportunities that would otherwise be provided.

Tax reduction is in the interest of every worker, every farmer, every business and professional man. It would produce jobs, develop industries—and make more taxable wealth. And there is only one way we can have tax reduction by spending less tax money.—Industrial

News Review.

NUMBER OF CORPORATIONS INCREASES IN TEXAS

Austin, Texas, Nov. 22.—Capitalization of new charters granted to Texas corporations during October declined sharply, but a moderate increase occurred in the number of corporations, according to the University of Texas Bureau of Business Research.

Capitalization of new charters granted during October totaled \$1,180,000, a drop of 36 per cent from September and 44 per cent from October last year. The number of charters, 111, was 11 per cent above September and 3 per cent above October, 1933.

Charters granted to out-of-State corporations totaled 32, a drop of 11 per cent from September but an increase of 46 per cent over October last year.

Corporations with less than \$5,000 capital increased to 49 from 36 in September and the same number in October, 1933, a gain of 36 per cent. On the other hand, there were only two charters granted to corporations with more than \$100,000 capital, against 44 in September and six in October last year.

BUSINESS FAILURES SHOW

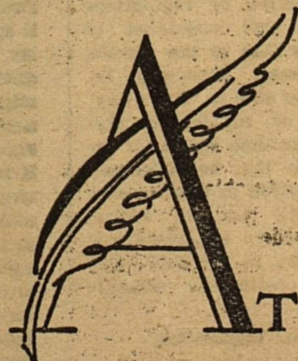

DECLINE OVER LAST YEAR

Austin, Texas, Nov. 22.—A total of nineteen commercial failures was recorded in Texas for October, against eight for September and 34 in October last year, according to the University of Texas Bureau of Business Research. Liabilities totaled \$164,000 in October, compared with \$3,193,000 in October last year, a decline of 95 per cent. In September, 1934, totaled \$8,632,211 per cent greater than in September but 91 per cent below that of October last year.

THE OPEN DOOR

SERVICE

Goes with Everything We Sell

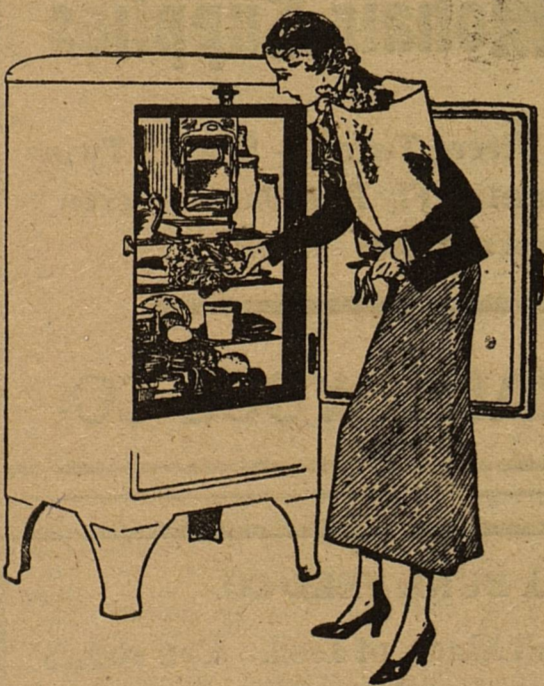

AT ALL Humble Service Stations, you will find products for every car and prices for every purse. The products are honest products and the prices are fair prices under the N R A code for the petroleum industry. You have an open choice of products, but Humble Service goes with what you choose. This service is yours; it has been worked out to be helpful to you; stations have been specially designed and equipped and men carefully trained to render Humble Service. But you are the judge. So we ask you to tell us what you think. We invite criticism; we invite suggestion; the door is open to both.

THE HUMBLE OIL & REFINING COMPANY

You Need Refrigeration Every Day of the Year

There are only a few days each year that the temperature is low enough for the proper refrigeration of foods. Although foods may not spoil during cold Fall weather, the temperature is not low enough to prevent the growth of bacteria, the real danger of poor refrigeration.

The electrical refrigerator's economy and dependability of operation has been proven. The saving on foods alone makes the investment of your money amply repay you.

To protect your family's health, proper refrigeration is a necessity every day of the year. The cost is no greater than obsolete methods of refrigeration.

Low incentive rates make it possible for you to secure the maximum of benefit at the minimum of expense. Buy safe—buy dependable electrical refrigeration.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

West Texas Utilities Company

Thanksgiving the Family Day

THANKSGIVING is a day of glory and substance. Such a day it was in the beginning and it is hoped it ever shall be. Its glory is the spirit of thankfulness that pervades the hearts of us all. The substance is the bountiful supply of food that is ours.

Perhaps these are the reasons that Thanksgiving is particularly a family day, a day in which all of the family are thankful to be gathered under one roof once more. Thanksgiving day, observes a writer in the Kansas City Star, was born in that spirit as the Pilgrims went to church over snowy trails and returned to eat dinner of wild turkey from the forest and cranberries from the nearby marshes.

One may follow the traditional menu for that day or one may improvise, us-

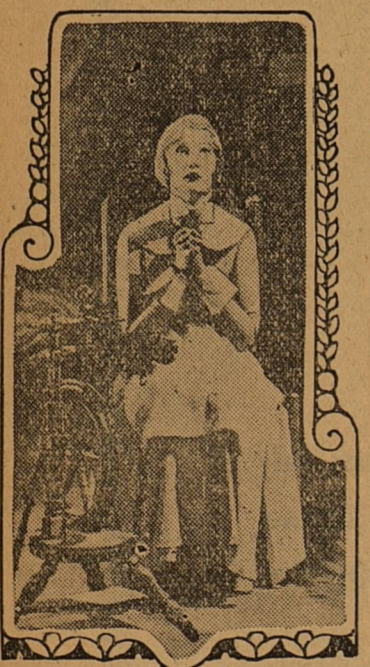

For the Formal Dinner the Bird is Carved in the Kitchen.

ing the turkey for the main theme, building such variations of flavors about it that you may have your own gastronomic symphony so perfectly planned that your guests will remember your Thanksgiving dinner, for the particular harmonies of color and table need not follow too closely the spirit of the day. Your decorations may be thoroughly modern or traditional, as you please. The bowl of fruits as centerpiece is the latter. It may be flanked by such decorations as glass blown herons or silver pheasants.

An Early American Thanksgiving Dinner.
 Roast Turkey Stuffed
 A Pair of Chickens Stuffed and Baked with Cabbage and a Piece of Lean Pork
 A Chicken Pie
 Potatoes, Turnips, Squash, Onions, Gravy and Gravy Sauce, Apple and Cranberry Sauce, Oyster Sauce, Brown and White Bread Plum and Plain Pudding
 With Sweet Sauce Mince, Pumpkin and Apple Pies
 Cheese

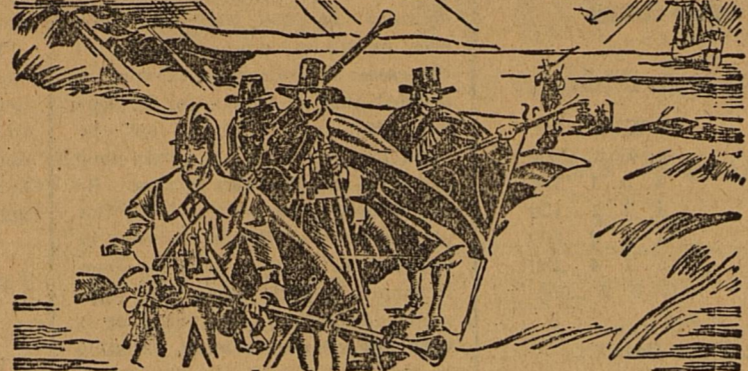

No longer does the table groan with food. The modern hostess places very few viands on the table. For the formal dinner the bird is carved in the kitchen and served from that quarter. For the informal or family dinner the bird may come to the table as the festive dish that graces the board, Turkey or any fowl may be prepared and stuffed well in advance of the dinner. Chicken, duck, goose or any fine roast may be served on Thanksgiving day. Your purse, your appetite and the personal tastes of the family should be considered.

The First Harvest

IT APPEARS that in the year 1621, the Pilgrim Fathers were so overjoyed when their first harvest was gathered in that they held a service of gratitude to God. The New England colonists set apart a day for that specific purpose, and since then similar services have been held annually, the last Thursday in November being the day appointed. In 1864, Sarah Josepha Hale, who is the reputed author of the nursery rhyme: "Mary had a little lamb," advocated the granting of a general holiday throughout the states on Thanksgiving day. This was adopted.

Our Thanksgiving Day

My Puritan grandmother swept
 And prayed to God on Thanksgiving Day;
 Her soul content with a work well done
 And her heart too earnest for pleasures gay.
 But I like to think that her irksome load,
 Travail and labor and urge and goad,
 Was joy—because she was hearing a road
 A road that should be my way.

My Puritan grandmother blazed
 A trail
 And looked to God on Thanksgiving Day,
 And how can I dare to shirk or fail,
 I who have such a debt to pay?
 Teach me, Lord, as I kneel in prayer,
 To lift her torch in my hands, to dare
 To keep unsullied and straight and fair
 The road that she made my way.
 L. MITCHELL THORNTON
 in American Agriculturist

Thanksgiving Indeed

By Ruby Douglas

THE Mortons had moved their big round dining room table into the living room by the fireplace just for the day. "The fire will be so cheerful for our Thanksgiving dinner and then we can sit around and listen to the radio," suggested Corinne, the younger daughter. Mrs. Morton was trying bravely to hide the grief in her heart at the absence, for the first time from their holiday table, of her son, Tom. There was an enforced air of cheerfulness as they all set to work to lay the forks and knives and make the centerpiece of pumpkin and chrysanthemums.

Tom had disappeared more or less mysteriously from the home town and

Arranging the Centerpiece of Pumpkin and Chrysanthemums.

the family circle more than six months before and no one, not even his mother nor his sweetheart, Beth Arden, had heard a line from him. The fact that he was a temperamental lad and had been possessed with the belief that he was a round peg in a square hole had led all those who loved him to believe that he had merely disappeared of his own volition but had not met with accident or foul play.

When the big table was fairly groaning under its weight of food and the turkey lay brown and tempting on the platter in front of Mr. Morton's place there was not a member of the party who did not want to quote the trite old lines, "There is no fireside, housewife defended, but has one vacant chair." But no one said a word about the absent Tom.

"It is so nice to be included in your family party today," said Beth as she took her seat.

"We couldn't think of anything else with your own family so far away," said Mrs. Morton, kindly.

A general discussion of drumsticks and turkey anatomy followed as each of the children tried to be polite and yet make it known to father which part he preferred.

"Tom always liked the part that goes over the fence last," piped up Johnny, the youngest Morton, regardless of the danger of bringing tears to his mother's eyes.

"He did, dear," said his mother with trembling voice. But she smiled.

"How about a little music while we eat, son," said the father after he had helped himself to what was left of the bird.

David, the family radio enthusiast, was only too eager to tune in something and drag forth from the air some of his favorite music.

"Nothing like a little good music to jazz up a family party," he said, turning the dials with masterly hand.

He got a station that advertised a good dinner program and resumed his seat.

One piece of popular music followed another with announcements in between and it was not long before the Morton family had shaken off its haunting loneliness for the absent Tom and was enjoying the program and the dinner.

Suddenly came a voice from the loud-speaker—a voice that startled every member of the family—and Beth. It was, undoubtedly, Tom Morton's voice.

PILGRIMS' FAST DAY

PREVIOUS to the start of the Pilgrims from Leyden, Holland, on their trip to America, a solemn day of fasting was decreed, the day before leaving, the 21st day of July, 1620. After the landing in Plymouth, the Colonists experienced great hardships, and as a means of evidencing their reliance on Almighty God a solemn day of fasting was proclaimed for Wednesday, the 10th day of July, 1623. On this day no food was partaken of from sunrise to sunset, but the entire day was spent in religious observance and prayer.—Washington Star.

"It's Tom!" said every one. "Listen!" said Mr. Morton raising a silencing hand. The voice of the wanderer came clearly into the room.

"In the absence of P.N.D., our announcer for this hour, who wanted to join his family for Thanksgiving turkey, I will make the announcements for W.F.K."

"But what's he doing? How does he happen to be there?" asked the incorrigible Johnny.

"No one knows more than you do, Johnny," said his mother. "Wait and see."

"Anyone wishing to request special numbers from any of our artists may call Shopkins 8888. Tom's voice said after a number of singers had done their bit.

Mr. Morton rose quickly and went to the telephone in the rear hall.

The family seated around the dwindling dinner was breathless with interest and excitement.

By the smile she saw on Mr. Morton's face and the trace of tears in his fine eyes, the mother knew that there was no bad news of her son.

Mr. Morton sat down before he told his story.

Tom, it seems, had become dissatisfied with his slow progress in the home town and was ashamed to keep on moving from one failure to another and, in spite of what he knew was not the right way to do it, he had left to try some work he had always felt would be in his line—managing a sort of spectacular advertising department for a large store.

He had found a berth in a city nearby and had been very successful in conducting a radio studio for his firm. He had waited to let his family hear of him in just this way because he felt

"Listen!" Said Mr. Morton, Raising a Silencing Hand.

that it would make it a real Thanksgiving for every one—most of all for him.

"And he's on his way here now—here in an hour and a half," finished the father.

"And the turkey's tail is gone," lamented Johnny.

"Never mind. My son shall have a wonderful dinner and—oh, Beth, you will help us to try to hold him, now, won't you?"

Beth nodded a little guiltily. Perhaps she had been partly to blame for his disappearance but she would make up for it now. Absence had taught her that she loved Tom.

Our Holidays

Thanksgiving day comes as nearly as any to being a national holiday. The President's proclamation calls upon the entire nation for observance of it. And it is a legal holiday in every state but Utah, where it is nevertheless observed. Holidays are appointed by the state legislatures and not by congress. There are, strictly speaking, no national holidays, although all states observe New Year's day, Fourth of July and Christ-

Why All Blame on "the Woman"?

Age-Old Complaint, Revived, Is Distasteful to Real Intelligence.

The former prime minister of one of the smaller European countries recently made a spectacular public announcement in which he blamed all the country's ills on a woman. And of ills there are many—as in how many other European countries today! Unemployment, poor harvests, political unrest—all the evils of these hard times the ex-premier enumerated, and then—blamed them on one woman!

The woman has for years been known throughout the world as the mistress of the king, who long ago gave up his crown and his loveless marriage to live with her in exile and seclusion. A few years ago he was restored to his throne, and it developed that their separation was less permanent than the king's supporters had hoped it would be. She is back in the country, again the king's close companion. And now all the nation's troubles, from the fall of thirteen cabinets down to everything but drought, is laid at her door.

"As long as Mme. — remains in the country," says the former prime minister, "nobody will be able to accomplish anything. She is responsible for all our evils. I suggest we should hold party meetings all over our country to clear up this scandal."

Far be it from this column to hold any brief for the king's mistress. Whatever her real nature, or the circumstances that brought her into the picture, her existence must be distasteful to us. But in throwing upon this woman the blame for all the ills afflicting a nation there is something no less distasteful to our intelligence, unless it happens to strike first our sense of humor.

How easy it is always to blame things on "the woman in the case!" Women, especially the "woman in the case," can cause a good deal of trouble. But if we look deep enough into these cases where everything is heaped upon a woman, we will usually find some man who is not entirely blameless. Not minimizing the devastating powers of many of our sex, it must be pointed out that most men know very well what they want, and very few allow themselves

to be used by a woman. To blame the ills of a nation on a woman, in this day and age, will strike most of us as just a bit funny.

Favor Women Anglers
 Connecticut and Pennsylvania are the only two states in the Union to set apart one special fishing preserve for the exclusive use of women anglers. A number of women wardens have been engaged to oversee, aid and instruct, on request, the purely feminine clientele.

Carnivores' Fast Day
 All carnivorous animals kept in captivity, such as lions and tigers, must fast one day out of seven if they are to remain in good health.

Mercolized Wax

Keeps Skin Young

Absorb blemishes and discolorations using Mercolized Wax daily as directed. Invisible particles of aged skin are freed and all defects such as blackheads, tan, freckles and large pores disappear. Skin is then beautifully clear, velvety and so soft—face looks years younger. Mercolized Wax brings out your hidden beauty. At all leading druggists.

Powdered Saxolite
 Reduces wrinkles and other age-signs. Simply dissolve one ounce Saxolite in half-pint witch hazel and use daily as face lotion.

Learn From Doctors How to Treat Colds

Four Points to Remember

As colds cause more loss of time and money than any other disease, every one should learn what modern medical science teaches as to their proper treatment. Your doctor has the following objectives:

First—To relieve the congestion in the nose and throat, thus aborting, or lightening the attack and relieving the symptoms caused by the congestion.—Calotabs, the improved calomel compound tablets, accomplish this by attracting the excess blood to the bowels.

Second—To help the kidneys wash out of the blood the cold-poisons which cause the chilly sensation, feverishness, aches, and mean feeling.—Calotabs are diuretic to the kidneys, assisting them in ridding the blood of the poisons.

Third—To expel the germ-laden mucus and toxins from the bowels,

thus preventing their absorption into the blood.—Calotabs accomplish this thoroughly.

Fourth—to keep the bile of the liver flowing freely through and out of the intestines, thus relieving the biliousness and constipation, which attend and aggravate a cold. As Calotabs contain calomel, they promote the flow of bile.

Thus, Calotabs meet these four important objectives of medical treatment for colds. One or two Calotabs at bed time, with a glass of sweet milk or water, is usually sufficient; but should be repeated the third or fifth night if needed. The milk tones down the action, making it milder, if desired.

Why risk doubtful or make-shift remedies? Get a family package of Calotabs, containing full directions, only twenty-five cents; trial package ten cents, at your dealer's. (Adv.)

Why Suffer with Itching, Burning ECZEMA when

Cuticura Soap and Cuticura Ointment so quickly and effectively soothe and heal. Bathe freely with the Soap and warm water, dry gently, and anoint with the Ointment. It is surprising how quickly the irritation and itching stop and how, after a few treatments, the eczema disappears. There is nothing better for all forms of skin troubles.

WHO STARTED OUR LIBRARY?

Raymond Rodgers

The library that is in our high school now has only been there six years. In 1928 when Mr. and Mrs. Holt came here and taught school he saw the need of a library from which students could check books to read for their school work. Before this books were borrowed from some fellow student who might happen to have them.

The first year there were five high school students who were assistant librarians for Mrs. Holt. They were the following: Oma Ford, Una Ford, Jaque Parker, Bill Parker and Lola Davis.

If it weren't for the library now, I don't know what we high school students would do because everyone is supposed to read a certain number of books a year.

BONE TICKLERS

Robert Mather

Mr. Bradley: "What are you running for Pancho?"

Pancho: "I'm trying to keep two boys from fighting."

Mr. Bradley: "Who are the fellows?"

Pancho: "Jack Shugart and me."

"And you, Wilbur," said the mother at the table, "will you have pie or pudding?"

"Pie," said Wilbur promptly.

"Pie, what?" The father broke in sharply to teach him manners.

"Pie first," Wilbur answered.

Guide: "This castle has stood for over 600 years. Not a stone has been touched. Nothing altered, nothing replaced."

Visitor: "Um, they must have the the same landlord that we have."

Mrs. F. B. Gunn who has been on an extended visit to Dallas, Texas and Ardmore Oklahoma, returned home last Saturday and Mr. Gunn is wearing a new smile.

MAGAZINES & PAPERS FOUND IN FRONT OF STUDY HALL

It is surprising how many magazines are to be found in the study hall in the magazine rack. Below are the ones that I can see there now: The Prairie, College Trail, The Lone Star Farmer, Pathfinder, Times, The Golden Book, Literary Digest, Boys Life, Athletic Journal, Occupations of Vocational Agriculture, Readers Digest, Scouting, Review of Reviews, Scholastic, The Optimist, Popular Mechanics, The Balance Sheet, The Round-Up.

— Eagles' Screams —

QUESTIONS AND ANSWERS

1. What dress is bound to last your mother the longest?

Her house dress, because she never wears it out.

2. Is there a word in the English language that contains all of the vowels a, e, i, o and u?

Yes, unquestionably.

3. How can you prove that a horse undoubtedly has six legs?

Because he has forelegs in front and two hind legs.

4. How may an instructor teach bookkeeping in a lesson of three words?

By saying to his students, "Never loan them."

JOURNALISM CLUB

Louis Kerr

There are now 27 enrolled in the Journalism class. This class is sponsored by Mr. Copeland, editor of our town paper. We are very glad to have him sponsor us because he has had much experience in Journalism work.

We have taken up several thinks concerning Journalism. Some of these things are Editorials, News Articles, Feature articles, the column, style, and short stories.

We have learned something of the style of several of the modern writers; and therefore we are able to enjoy more the stories which they write.

As Journalism is the fifth largest profession in the world, we hope that our class will be the best club in school.

The class is now preparing to write a model short story.

SPORT SHOTS

By "Lek"

The Eagles have been having irregular work outs lately on account of rainy weather. But just the same we hope to win the game with Ozona, Saturday.

The Subs still profess themselves to be able to play ball. They said they were just over confident 'er somethin'. We thing it was "er somethin"

It is said that the starting line-up for the Ozona game will not be the same as it was in the San Angelo game.

Paul Davis was absent part of the week on account of the flu. Harold and Felix Susan were also absent because of the mud.

How many of you have heard the legend about Eck Moore's "lucky star", well its lost.

— Eagles' Screams —

IN 'YANDER FIELD

(Parody on In Flander's Field "The Owl")

Out in the field no crops shall grow

For worms and bugs have laid 'em low

While corn and maize proceed to die,

And a hot sun shines from a cloudless sky.

What use is the plough or hoe?

The grass is dead;

Some days ago it lived,

Felt dawn,

Save sunsets glow—

Turned brown and finally died.

Now where it is I do not know.

Put up the plough and the hoe

Give grass and weeds some room to grow.

Lift up your hands unto the sky,

And pray that rain is drawing nigh,

Or that God, his love shall show.

Miss Anice Putman and H. H. Murchison were visitors in San Angelo over the week-end.

Miss Tom Smith spent the week-end on the Baugh ranch, visiting her sister.

Believe It Or Not

Bill Smith, Eagle back, stood 5 yards behind his own goal line in last Saturdays game and booted the ball over the end zone at the other end of the field. A 115 yard kick at the least. Of course he had the wind much in his favor, but it was some kick anyhow. Another time he got away a punt that went for 80 yards to the opponents 7 yard line.

The punting in Saturday's game carries us back to a game we witnessed in Abilene in 1926 between Schreiner Institute and McMurry College. A stiff gale was blowing down the field that day making it ideal for a punting game when you were going the right direction. Big Honk Irving, then of Schriener and now playing professional football with the New York Giants, was doing the punting for the Mountaineers and was he doing it in a big way. Every time he punted the referee would have to call time out to go get the ball. Once Irving stood behind his own goal line and booted a ball which went over the McMurry goal line in the air and rolled fifty or 60 feet further.

This same Irving is he author of one of the best football stories we have ever heard. In a talk with him last summer, he told me about a game that Schriener played at Lubbock one time.

"We made the trip to Lubbock," stated Irving, expecting to encounter some very bad weather. However, on the morning of the day of the game, the sun came out and we decided that it would be a clear day. But just before we left the hotel for the stadium a dark cloud came up and it began raining. By the time we got to the field, the playing part of it was covered in water from ankle to half leg deep. Inasmuch as both teams were there ready for action, we went at it with one of the officials assisting in holding the ball on top of the water while the kick off got underway. The water worked handicaps on players, officials and all, but we managed to pull through it."

This is not my story, but Irving's. Come to see me some time and I'll tell you mine.

Saturday's game was far from a real test to the ability of the second string Eagles. To begin with, they were thrown deep in their own territory when the San Angelo kick-off went over the goal line. Then, they were severely handicapped by the heavy wind to their faces. This made passing and good punting almost impossible. True, they looked rather ragged on the defense, but they were facing a team that would out weigh the first string Eagles.

Texas Tech

The Red Raiders of Texas Tech advanced a big step toward inter-sectional recognition last week, by giving the De Paul University eleven of Chicago a sound trouncing at Lubbock. Tech won by a 48 to 19 score.

New Rule Advocated

There is a great amount of agitation with Coach Lew Hardage of the University of Oklahoma taking the lead, toward changing the football rules to do away with the kick off at the beginning of the second half and putting the ball in play where it was at the close of the initial half. In advocating this innovation, Coach Hardage states that each half as now played is in reality a separate game, and if it is to be kept that away, we should advertise the game as a double

header and have two scores, one for the first half and one for the second half.

This is a very same and sound suggestion. We have always wondered why the kick-off was essential in getting the second half underway. As it is, why not have a kick-off at the beginning of each quarter.

SATURDAY, BUSY DAY FOR

LOCAL MERCHANTS

With football in the air and moisture in the ground, hundreds of Schleicher citizens were in Eldorado doing their shopping last Saturday. Mr. and Mrs. W. F. Wilson of Rudd, Francis Chriseman or Cliff, Dave DeLong of Alexander, Mr. and Mrs. Hensel Mathews, C. O. Bruton, Mr. and Mrs. Eldred Roach and many other Schleicher ranch people were seen on the streets of Eldorado Saturday

LUCKY HUNTERS

Ira Woods and Palmer West returned to Eldorado Saturday from the Davis Mountains with a seven and an eleven point Black Tail bucks.

MR. BUSH VISITOR

A. A. Bush, of Amarillo, and owner of a 640 acre stockfarm near Eldorado, is here this week meeting his many friends and looking after business matters. Mr. Bush spent several years in the Ford Business in our city, after selling out this business he moved to Amarillo where he now resides.

Get All the Facts

Before determining any line of endeavor, it pays to learn all about it that is possible. Your first job is to get the facts—or the facts will get you. And when you get facts, get them right. Else they may get you in wrong.—Grit.

If you tire easily

why not reason out the cause of this unnatural condition?

Your first thought may be, "I must eat more." That's not all. You should enjoy what you do eat. Frequently the blood cells are low... and this, perhaps, is what makes you feel weak. If this is your trouble the stomach may not be calling for sufficient food. Nest to eat may be lacking. But what a difference S.S.S. makes when taken just before meals. Just try it and notice how your appetite and digestion improve. S.S.S. stimulates the flow of gastric juices and also supplies the precious mineral elements so necessary in blood-cell and hemo-globin up-building. Do try it. It may be the rainbow you need to brush away present discouragement over your health condition.

Do not be blinded by the efforts of a few unethical dealers who may suggest substitutes. You have a right to insist that S.S.S. be supplied you on request. Its long years of preference is your guarantee of satisfaction.

the world's great blood medicine

WATCH YOUR KIDNEYS!

Be Sure They Properly Cleanse the Blood

YOUR kidneys are constantly filtering impurities from the blood stream. But kidneys get functionally disturbed—lag in their work—fail to remove the poisonous body wastes.

Then you may suffer nagging headache, attacks of dizziness, burning, scanty or too frequent urination, getting up at night, swollen feet and ankles, rheumatic pains; feel "all worn out."

Don't delay! For the quicker you get rid of these poisons, the better your chances of good health.

Use **Doan's Pills**. Doan's are for the kidneys only. They tend to promote normal functioning of the kidneys; should help them pass off the irritating poisons. Doan's are recommended by users of the country over. Get them from any druggist.

DOAN'S PILLS

When Worlds Collide

By EDWIN BALMER and PHILIP WYLE

Copyright by Edwin Balmer & Philip Wyle WNU Service

CHAPTER IV—Continued

"Glad to see you, Tony. We're going ahead with our plans. I suppose you knew I had been counting on you."
"For what?" Tony asked brusquely.
"For one of my crew. You've the wealth and the mind and the nerve, I think. It's going to take more courage, in the end, than staying here on the world. For we will all leave—we will shoot ourselves up into the sky while the world still seems safe. We leave, of course, before the end; and the end of the world will never be really believed till it comes. So I need men of your steadiness and quality. Can I count on you?"

Tony looked him over. "You can count on me, Mr. Hendron."

"Good. . . . I can guess that Eve has acquainted you with some features of the discipline of the League. I will tell you, in proper time, of others; nothing will be asked of you which will not be actually reasonable and necessary. But now I should advise you to learn something useful. Investment experience and skill in trading will scarcely be an asset on Bronson Beta, whereas knowledge of agriculture and proficiency in manual arts and elementary mechanics may be invaluable. You have time to learn the simple, primary processes by which life is maintained. You will have, I might say, approximately two years to prepare before affairs here become so acute with the approach of the planets on their first passage."

No record could picture a thousandth part of the changes that came in those two years. No single aspect of human enterprise was left undisturbed.

It was now more than a year before the first serious physical manifestations were expected; so a statement that Hendron signed merely read:

"It is still impossible to forecast the entire effect of the approach of the Bronson bodies. Unquestionably they will disturb us greatly. We may anticipate, as a minimum, the following phenomena: tides which will destroy or render uninhabitable all coastal cities and all inland cities within five hundred or more feet of sea level. We have no terrestrial precedent for such tides. The existing sixty-foot rise and fall in the Bay of Fundy will certainly be trifling in comparison. The tides we anticipate will be perhaps several hundreds of feet high, and will sweep overland with a violence difficult to anticipate."

"The second manifestation, which will be simultaneous, will consist of volcanic activity and earthquakes of unpredictable extent and violence."

"The Bronson bodies, if they pass on a parabola, will approach the earth twice. If, however, their course becomes modified into an ellipse, the earth will meet them again in its journey around the sun. Direct collision with one or another of the bodies, or grazing collision due to mutual attraction when in proximity, cannot be regarded as impossible. The succession of tides and earthquakes caused by gravity and resultant stresses may instantly, or in due time, render the surface of this globe wholly uninhabitable; but we cannot say that there is no hope."

"Certain steps must be taken. All coastal cities in all parts of the world must be evacuated. Populaces must be moved to high, non-volcanic regions. Provision for feeding, clothing and domiciling migrated people must be made."

"There remains considerable doubt concerning the origin and nature of the Bronson bodies. Efforts are being made to determine their composition, but determinations are difficult, as they are non-luminous."

"The scientists of the world are in agreement that the course outlined above is the only logical one to pursue. Since the first approach of the Bronson bodies may be expected to take place with effect upon the tides and seaboard and about the end of next summer, general migration should begin at once."

On the morning succeeding the spread of this statement, Tony stood in the vast, populous waiting-room of the Grand Central station. Yesterday there had been issued marching orders for fifteen hundred millions of human beings. If they did not know that it was to be the end of the world, at least they were told that it was the end of the world as it had been.

He listened to fragments of the conversations in progress in his vicinity:

"I tell you, Henry, it's silly, that's all. If anybody expects me to give up my apartment and pack up my duds and move off one Hundred and Eighty-first street just because a few gray-headed school-teachers happen to think there's a comet coming, then they're crazy. . . ."

"It's the end, that's what it is; and I for one am glad to see it. When the sea starts to rise and the earth starts to split open, I'm going to stand there and laugh. I'm going to say: 'Now what's the good of the farm relief? Now who's going to collect my income tax? Now what does it matter whether we have prohibition or not? Good-by, world. That's what I'm going to say. Good-by! Good-bye! I hope it wipes the whole d—n' thing as clean as a billiard ball. . . ."

"Don't hold my hand so tight, Daddy. You hurt me. . . ."

"It's ridiculous. They've been fighting about their fool figures for generations. They can't even tell whether it's going to rain or not tomorrow. How in the h—l can they say this is going to happen? Give a scientist one idea, and

a lot of trick figures, and he goes hay-wire, that's all. . . ."

"I drew it all out and bought gold. I got two revolvers. I filled the house with canned goods. I said: 'Here you are, Sarah. You've been telling me all your life how well you can run things. Take the money. Take the house. Take these two guns. I'm leaving. If we've only got a couple of months left, I'm going to see to it that I have a little fun anyway.' That's what I said to her! And, by G—d, here I am. . . ."

Tony shook his head. He rode through a long dark tunnel and then out to the station at One Hundred and Twenty-fifth street. The train moved past the final outpost tenements into a verdant landscape with the river on one side—the Hudson, in which tides soon would rise to sweep high and far over the Palisades. Tony glanced back, once, toward the teeming city. The first flood would not top those tallest towers etched there; the pinnacles of man's triumphs would, for a while, rise above the tides; but all the rest? Tony turned away and looked out at the river, trying not to think of it.

Settled in a chair, Tony glanced around the comfortable furnishings of the student's room and then gazed at the student himself. A lanky youth with red hair, good-humored blue eyes and a sprinkling of freckles that carried into his attained maturity more than a memory of the childhood he had so recently left.

"Yes," Tony repeated, "I'm from Cole Hendron. The dean told me about your academic work. Professor Gates showed me the thesis on Light which you turned in for your Ph. D. He said it was the finest thing he had had from the graduate school since he'd held the chair of Physics."

Dull red came in the young man's face. "Nothing much. I just happened to have an idea. Probably never get another in my life."

Tony smiled. "I understand you were stroke in the varsity crew two years ago. That's the year you were rowing everybody out of the water, isn't it?"

"There weren't any good crews that year. We just happened to have the least bad ones."

Tony looked at the youth's hands, nervously clenching and unclenching. They were powerful hands, which nevertheless seemed to possess the capacity for minute adjustment. Tony smiled. "No need of being so modest, old fellow. It's just as I said. Cole Hendron in New York is getting together a bunch of people for some work he wants done during the next few months. It's work of a very private nature. I can't tell you what. I can't even assure you that he will accept you, but I'm touring around in the attempt to send him some likely people. You understand that I'm not offering you a job in the sense jobs have been offered in the past. I don't know that any salary is attached to it at all. You will be supplied with a place to live, and provided with food, if you accept."

The tall youth grinned. "I suppose you know that offering a chance to associate with Cole Hendron, to a man like me, is just like offering the job of secretary to St. Peter, to a bishop."

"M-m-m. By the way, why did you stay here at the university when most of the graduate students have left?"

"No particular reason. I didn't have anything better to do. The university is on high ground, so it didn't seem sensible to move for that reason, and I thought I might as well go on with my work."

"His companion hesitated to say what was obviously on his mind, but finally broke the short silence. "Look here, Mr.—Mr.—"

"Drake. Tony Drake."

"Mr. Drake. I can't understand why on earth Hendron would want me. If he's planning to take a group of people to some safe spot in order to preserve scientific knowledge during the next year, he can find hundreds of people, thousands of people, that have more knowledge to save, and a better memory to save it in, than I have."

Tony looked at the good-humored blue eyes and liked the young man. He felt instinctively that here was one person whom Cole Hendron and the committee would surely accept. The name of the man before him, he recalled, was Jack Taylor—his record for a man of twenty-five was startling. He grinned at the youth's speculation. "You're a physicist, Taylor. If you were in Cole Hendron's shoes, and were trying to take a group of people to a place of safety, just where, under the circumstances we anticipate, would you take them?"

The other man was thoughtful for an instant. "That's just what worried me. I can't think of any place on earth that would offer a refuge essentially satisfactory."

"Exactly. No place on earth." Tony emphasized the last two words.

Jack Taylor frowned quickly, and suddenly the freckles on his face stood out because his color had departed.

"God Almighty! You don't mean to suggest—"

Tony lifted his hand and dropped it. "I'm offering you a letter that will give you an interview with Cole Hendron. Do you want to go and see him?"

For a minute Taylor did not answer. Then he said disjunctedly: "Marvelous! My G—d—Hendron's just the man—the only man! To think that anybody would come around to give me a shot at such a thing!" Tears suddenly filled his eyes, and he stood up and walked in two mighty strides to the window.

Tony slapped his back. "See you in New York. Better get going right away. So long, old man."

Deeply moved, proud that any race, any civilization should produce human beings of the temper and fineness of young Taylor, Tony walked out onto the university campus and hurried to keep an appointment with an obscure but talented professor of chemistry whose investigations of colloids had placed his name on the long list furnished to Tony by Hendron and his associates.

Tony, having applied himself for months to acquisition of the primitive proficiencies in growing things and in the manual arts, had found himself appointed by Cole Hendron as his personnel officer. Tony possessed, decidedly, a knack with people; and so Hendron was sending him about to recruit young men for the extraordinary duties of the crew of the Space Ship.

Her father had asked Eve to sug-

left. You and Dad and I are going to have dinner together tonight."

"Anyone else?" asked Tony jealously.

"No; who would there be?"

"Your South African, I thought, probably."

"Not mine, Tony!"

"Your father's, then. He keeps him in the laboratory—for you."

Hendron, wearing his laboratory apron, walked briskly into the front office. "Hello there, Drake! Delighted to see your back. Your candidates have been arriving daily, and we've put them all to work. Dodson and Smith and Greve are enthusiastic about them." He looked at his watch. "Five-fifty. I've got a little work to do here. Then we want you to come up to the house for dinner."

As Tony unlocked his apartment door, Kyoto sprang to his feet.

"I take your presence," Kyoto said, "with extravagant gratitude."

Tony laughed. "A bath, Kyoto, a dinner jacket, something in the way of a highball—I haven't had a drink since I left. Good Lord! It's refreshing to see this digging again. How's my mother?"

"Excellent as to health. Telephoning daily."

"You'd better ring her up. I telegraphed her occasionally, but heaven only knows when I'll see her. She is a darn good sport."

"A person of profound esteemableness."

Tony looked with surprise at the back of the Jap as he started toward the telephone. The approach of the Bronson bodies had made his servant more loquacious than he had ever been before. Aside from that, no change in Kyoto was discernible—nor did Tony anticipate any change. He began to remove his travel-worn clothes, and was in a bathrobe when Kyoto succeeded in completing a telephone connection with his mother's house in Connecticut.

Tony moved with a feeling of incredulity. The Hendron apartment was exactly as it had been. Eve appeared

MOST PRIMITIVE MAN

Sinanthropus, the recently discovered Peking man, is declared by Prof. G. Elliot Smith, British anatomist, to have been the most primitive member of the human family of which skeletal remains have been found. While geological evidence shows that Sinanthropus must have lived early in the Pleistocene or Ice age period, Professor Smith says, shows this creature to have been more generalized and probably closer to the main line of descent of modern man than either Pithecanthropus erectus, the Java man, or the "dawn man," Eoanthropus, found in England. Both these early members of the human family, he points out, may actually have preceded Sinanthropus in time, but they diverged from the main stem while the Peking man remained close to the direct line of descent.—Pathfinder Magazine.

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. *Nor will a mild liquid laxative irritate the kidneys.*

The right dose of a liquid laxative brings a more natural movement, and there is no discomfort at the time, or after.

The wrong cathartic may often do more harm than good.

A properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin brings safe relief from constipation. It gently helps the average person's bowels until nature restores them to regularity. Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child.

Changed Town's Location

Shevlin, Ore., is in a new location, ten miles from where it stood for six years. The entire town with a population of 300 was loaded on railroad cars. The men are employed by a logging company.

STOPPED-UP NOSTRILS

Use Mentholatum to help open the nostrils and permit freer breathing.

MENTHOLATUM

"The Succession of Tides and Earthquakes Caused by Gravity and Resultant Stresses May Instantly or in Due Time Render the Surface of This Globe Wholly Uninhabitable."

gest, provisionally, the women who must go along; and Tony had met some whom Eve had selected.

Strange to think of them standing with you—and with a few other men out of all our world's creation—on the soil of an empty planet! What would they be to each other there?

Stranger still, to gaze at night into the sky, and see a spot of light beside a brighter orb and realize that you might become a visitor to that spot in the sky!

Tony returned, three weeks later, to New York city, where Hendron now spent most of his time. He had workshops and laboratories started in several places, but the advantage of conveniences in New York was so great that he had decided not to abandon his work there until later.

Upon his arrival in the city, late on a July afternoon, Tony went at once to see Hendron and Eve. He had business with Hendron—none with Eve; he merely longed to see her and be with her, more than he dared display. Not much change was observable in the city. The station was a sea of people, as it had been on the day of his departure. The streets were more than normally crowded, and his taxicab made slow progress.

There were three policemen in the front offices of the laboratories, and he was admitted only after a wait. Eve came into the reception room first, and shook hands with him coolly. That is, outwardly it was coolly; but inwardly, Tony felt sure, she was trembling, even as was he.

"Oh, Tony," she said, her voice almost giving way, "I'm so glad to have you back! I've read all your reports." "I've read all your acknowledgements of them," said Tony hoarsely. It was all that had passed between them. Reports and acknowledgements, in lieu of love letters!

"Father will be right out. We've been working steadily ever since you

FROM THE OPENING CHAPTERS

David Ransdell arrives at New York from South Africa, commissioned to deliver a case of photographic plates to Dr. Cole Hendron. Tony Drake calls at the Hendrons' apartment. Ransdell arrives and Eve Hendron, with whom Tony is deeply in love, introduces Tony to Ransdell. Newspapers publish a statement by Hendron saying that Professor Bronson, famous astronomer, has discovered two planets, which have been brought under the attraction of our sun. The result of the inevitable collision with the earth must be the end of our world. The approaching bodies are referred to as Bronson Alpha and Bronson Beta. Bronson Beta will pass, but the other will hit the earth and demolish it. To devise means of transferring to Bronson Beta is what is occupying the minds of the members of the League of the Last Days.

TO BE CONTINUED.

Sheep Buying Completed

One hundred and seventy five head of sheep have been purchased in Schleicher County's last allotment in the government's sheep buying program. This takes up the number that were listed for sale by the Schleicher County ranchers. This concludes the sheep buying in the county, according to County Agent C. Snell, unless others are listed. A total of 41,977 head of sheep have been purchased by the government from this county.

"The last allotment in the cattle buying has almost been completed," states C. L. Meador, Jr. "We will probably be given a one more day run to complete the quota that was given the county."

The last cattle allotment was for 1000 head. Totodate, 830 head have been sold in this allotment, leaving 164 head yet to buy in completing the allotment. A total of 11,458 head of cattle have been sold to the government by Schleicher County ranchers.

Football Boys And Pep Squad Feted

An auspicious occasion indeed. The football players and coaches, the pep squad, the drum and bugle corps, the teachers, a large number of others and even this newspaper reporter were feted to a sumptuous barbecue out at the T.K. Jones ranch last Saturday evening.

The affair was given in honor of the Eagles and the pep squad by the fathers and mothers of all of the players. There were one hundred and sixty in attendance and enough good eats to feed a whole standing army. Barbecued goat with all of the trimmings that anybody could want for any meal spread over a number of large tables. When the gathering was completed about 7:30 o'clock, thanks were offered and Hank Irby announced the manner in which every body should file in line by the tables to fill their plates. Coach Williamson led the procession, followed by the football players, the pep squad, the drum and bugle corps, the teachers and then the other guests. Upon failing to hear where the newspaper men should come in, we tried to get near the head of the list. However this failed to work and finally we found ourselves in the line behind Doc Kerr, Dr. Wiedenmann and Ben Hext. Some line up to be in we thought, when we saw how they were heaping their plates, but, through no fault, of theirs, there was plenty left when our time came. Judge Bradley, we believe, should have won the prize for the longest endurance as he was still eating cake and sipping coffee long after the others had finished. However there was one thing we didn't exactly get clear, that was how Leslie Baker worked in the line as a member of the pep squad.

Following the eating program, a number of yells were given. The football players demonstrated their appreciation for the occasion by giving yells for those who planned and prepared the feast, as did the pep squad girls. The mothers grouped in a circle and gave yells for both Eagles, the coach and the pep squad. We old men were too full to yell for anybody.

The mothers and the fathers of the players and all responsible for the affair are to be highly congratulated.

LIONS

Continued from page 1

Eldorado, Sonora, and Rocksprings. Lion Hill urged that Eldorado also send representatives to Rocksprings to this meeting. It is probable that two or three representatives of this city will be present at the Rocksprings meeting this afternoon.

Lion Hill pointed out the advantages that the new highway will hold for Eldorado. He showed that when the new highway is completed, Eldorado will be in line for for a large increase in tourist trade.

A. A. Bush is Visitor

BOY TO DR. AND MRS. MOORE

An eight pound boy, christened Joseph C., was born to Dr. and Mrs. J. L. Moore at the Shannon Hospital at San Angelo, November 14.

Joseph C. already has a godmother as little Miss Nancy Bean of Los Angeles, California has been given that title.

Humble Closed; Await Fishing Tools

Drilling procedure on Humble No. 1 Ike Honig was stopped last Friday when a 10 1/2 inch pipe was broken off fifteen joints down. Fishing out the pipe has failed todote, but a special fishing tool is expected to arrive from Houston today and officials state that they are confident of getting the job done with this new tool.

The well was at a depth of 5,923 feet when the pipe was broken off. The formation continues to be shale. Humble No. 1 Ike Honig is located 13 miles northeast of Eldorado.

Dr. Moore Repairing Office

Dr. J. L. Moore has had the carpenters busy for the past several days making an extension to his office. A nice addition has been made, giving Dr. Moore more office room as well as a very nice and cozy living quarters.

MUSICAL COMEDY

Continued from page 1

which winds like a delicate thread through the story is priceless; and the ridiculously funny situations make CUPID UP TO DATE a provoker of hearty laughter. Audiences everywhere have pronounced this show superb and add the extremely interesting plot, nicely balanced by, not one but two love stories, and topped by a frothy mixture of sparkling songs, dances and dialogue make CUPID UP TO DATE the most tempting morsel of entertainment possible to offer."

This musical comedy, is to be presented under the auspices of the Woman's Missionary Society of the Methodist church at the local high school auditorium next Monday night, November 26. Three hundred red costume pieces have arrived from the Wayne P. Sewell company of Atlanta Georgia for this production.

The public of Eldorado will have the privilege of seeing a large cast, made up entirely of local talent, perform in this three act farce interspersed with a number of musical and dance numbers. The play is under the able direction of Miss Francis Wicks of the Wayne P. Sewell Company.

The major cast is made up as follows: Dan Cupid—Roslyn Jones; Father Time—Luther Barber; Common Sense—Mrs. P. S. Connell; Dolly Extreme—Herma Lee Hooker; Will Steady—Glenn Ratliff; Domestic—Margaret Bradley; Bully—W.C. Doyle; Senator Bing—Miss Lora Farnsworth; John Scientist—Otha Jones; Cora and Dora—June Hooker and Margaret Powers; Eddie and Freddie—Luther Parker and Joe Moore. 100 chorus children.

An advance sale of tickets is being made through a novel method. A turkey will be given away.

Dr. E. J. Moore is expecting his brother, R. H. Moore of Los Angeles, California, in a few days for an extended visit.

Exemption Certificates Received

Sixty cotton tax exemption certificates which came out of the ten per cent reserve have been received by the County Agent's office. These certificates cover 82,905 pounds of cotton.

"Those who hold these tax exemption certificates should come in by tomorrow and sign the necessary papers as they must be in the pool by November, 26" states County Agent C. Snell.

ELDORADO DEFEATS

Continued from page 1

age. It was in this manner that the Eagles took the lead in the first half. From behind the San Angelo 26 yard line, Hext shot a pass to McDaniel over the goal line for a touchdown.

Joe Turner Hext came in the play by his great passing and as a constant participant in the Eagles successful running attack.

yet to be named.

"Million Centennial Club"

It was stated at the meeting Tuesday night that a number of Schleicher County citizens have already joined the "Million Centennial Club" a club which entails no financial obligations. Judge Whitten stated that he expected to get a membership of several hundred from this County.

To Meet Again

Another meeting of the County Centennial Committee will be held at 8 o'clock, Tuesday, December 4 at Hotel Eldo. Judge Whitten urges that each organization in the County have its representative present at that meeting.

"We want the finest and fullest history possible of each organization and industry in the County from its beginning to the present time, showing the development of our County," Judge Whitten concluded.

Demonstration Club Treasure Chest On Display

See the treasure chest which is to be given to the person who draws the lucky kee. The chest and its contents are now on display in the window of Mr. W. F. Meador's office.

Home Demonstration Club Members who have not made their contribution to this chest are urged to do so at their earliest convenience.

The chest will be given away on Saturday, December 1st. To buy a key, see some member of the committee. The members of the committee are Mrs. Palmer West, Mrs. Eldred Roach, Mrs. Dollie Edmiston and Mrs. John Williams.

Mr. and Mrs. Elton Smith and family spent the past week end in San Angelo visiting Mr. and Mrs. John Smith and Mr. and Mrs. Arthur Sitas.

We wish to express our sincere gratitude and thanks to our many friends in Eldorado for their acts of kindness and words of sympathy during our recent sorrow when Dee Jolly met his untimely death, also for the beautiful floral offerings.

Mrs. Dee Jolly and children Mr. and Mrs. W. W. Jolly, Mr. and Mrs. Bill Jolly, Mr. and Mrs. George Dodge, Mr. and Mrs. Virgil Corn, S. W. Mather and Robert, Sam Mather and family.
