MEDITATIONS

By The Editor

Reports that men who are in position to know the strength of our nation—have issued statements that they are anticipating an end to World War II by next Spring. This is gratifying.

Considering that each day of the war snuffs out the lives of hundreds of men—each day the conflict is shortened preserves the life of someone's loved man or men in service.

In a statement issued this week by Congressman O. C. Fisher, he said:

"If spending money ends the war one day sooner, thousands of lives may be saved. Congress has taken steps to economize on the home front. But it must make sure that our fighting forces get what they need on the far-flung war fronts."

This statement probably will not lessen the worry of raising the July Quota of War Loans on the part of the various chairmen responsible in selling the bonds in amount of \$9,400, but it should give incentive to those persons who are able to buy bonds—causing realization that every time this government spends huge sums in supplying fighting equipment for our men that it is at the same time causing enemy nations to either have to do likewise or suffer double their otherwise equal losses.

As for food conservation ideas, Johnny Isaacs may have revealed this week, a good practice for housewives.

Johnny relates that after his wife made him stay up until the wee hours of the morning helping can certain kinds of vegetables, that he never wants to eat a bite of them.

This labor difficulty suffered by Johnny might carry a two-fold advantage for the housewife. It might help relieve her of some work (of course no worry, as we are sure it is worrisome to get a husband to work), and too, if he won't eat the products it would leave more for children and mothers-in-law.

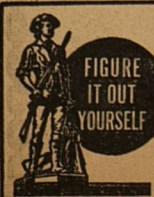

We truly hope our wife does not read this column this week and get any ideas.

We might better apply the tactics of a Scotchman we once heard of to this and bid adieu.

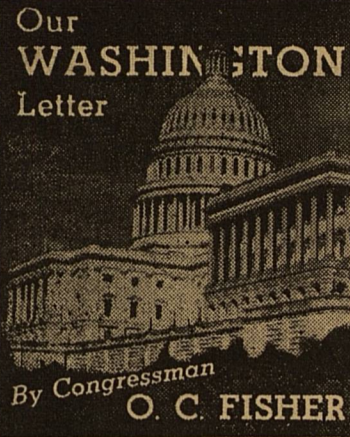

Sandy was attending a celebration. Beverages began to flow, and in a little while he went around shaking hands. The host said:

"Sandy, you aren't going home yet?"

He said, "No, I'm just telling everybody good-bye while I can still recognize them."

Invasion Costs More Money—Up Your Payroll Savings today

Our WASHINGTON Letter

By Congressman O. C. FISHER

Congress Takes A Rest

As this is written, Congress is winding up a momentous and often trying wartime session, preparatory to taking a two-month recess.

During the last six months, Congress has ordered vast appropriations—by far the largest in the world's history—for prosecution of the war to a decision. While some of the money probably will be spent unwisely, I have supported every war bill calculated to carry this winner-take-all battle to the enemy, and speed our victory.

If spending more money ends the war one day sooner, thousands of lives may be saved. This Congress has taken steps to economize on the home front. But it must make sure that our fighting forces get what they need on the far-flung war fronts.

Our airplane and ship construction program staggers the imagination. For example, one Flying Fortress costs \$250,000—and we're turning out 700 a month now. Yes, it will cost us a lot. But, it will cost the axis more. And it will save America and the world.

Plans to Visit District

With the recess here, this will be the last News Letter to be sent out until September. I plan to open an office in the Post Office Building in San Angelo about July 20, so I can be of more direct service to the people of the district. My office in Washington of course also will be kept open.

I intend to visit every county in the district during the summer, and will, so far as practical, make my visits known in advance so those who may want to talk with me about any subject or problem may do so with as little inconvenience to them as possible.

In this connection, let me emphasize that it is always most helpful to have the serial number of the soldier when I am making any inquiry about a boy in the service, his insurance or allotment. The same applies to inquiries about WPB priority applications, etc.

Farmers' Bulletins

In this concluding letter, I again would like to remind that during the last three months we have had more than 2,000 requests for Farmers Bulletins, and that among these, about 60 of the senders overlooked sign their names to the orders. If you haven't received a response, please let me know so the request can be complied with.

Gen. Henri Giraud, com-

W. J. Webb To Be New County Agent

The Commissioners' Court in session Monday of this week, approved application of W. J. (Jack) Welch of Tahoka, Texas as county agent to succeed E. A. Prugel, who has submitted his resignation in order that he may become secretary-treasurer of the National Farm Loan Association comprising a three-county territory in a merge effective July 1, comprising Sutton, Crockett and Schleicher counties.

Mr. Welch was accompanied to Eldorado this week by his family, and were seeking living quarters and expect to move here immediately. Mr. Welch has served the past four years as Supervisor for the Farm Security of Lynn County.

The Welch's have two sons, Jackie, four, and Don, nine months.

SCHLEICHER COUNTY RAM SHOWN ON COVER OF JULY MAGAZINE

Shown on the front cover of the July issue of Sheep and Goat Raisers magazine is an enlarged reproduction of a champion ram in the 1942 San Angelo Stock Show. The Ramboulett sheep was shown in the show by John Sidney Williams, son of Mr. and Mrs. John Williams of Eldorado.

The ram that is shown on the cover sold for \$1,125 to J. W. Owens of Crockett County, also won a show award of \$100.

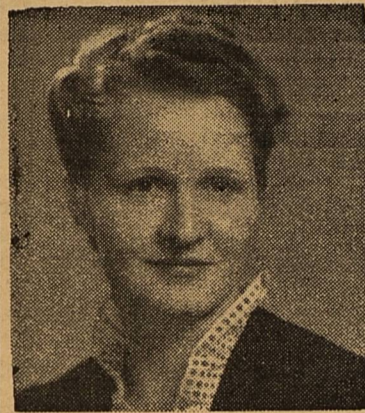

Commander-in-chief of French armies in North Africa, is the latest foreign dignitary to visit Washington. While he reportedly is here on a military mission, his visit doubtless has much to do with the future of the differences between him and Gen. Charles DeGaulle, longtime leader of the Fighting French.

We criticize the French freely over their failure to agree on who will be their actual war leader, military and politically. I can't help but wonder if the French and other peoples among the United Nations don't question sometimes why we in the United States can't maintain a more united home front. Disputes among department heads, disagreements over mine and factory wages and inflation problems, and differences over post-war planning and co-operation—all these injure our unity, and keep us from producing and accomplishing the maximum.

We need more plain, common sense—and less ill-timed promotion of Utopian fancies—in the regulation of private business and livelihood, where such is undertaken by the government. It is to be hoped that the force of public opinion will help bring more acceptable and more effective procedures into being. But in the meantime, and as the war goes on, we must be willing to compromise our personal interests insofar as possible when our nation's existence itself is imperiled.

That's what we're telling the French to do.

Miss Donna Beth McCormick of San Angelo visited her grandmother, Mrs. Rutha Boyer and her aunt, Mrs. J. E. Tisdale last week.

These "Ducks" Show Sheriff Sweatt Thing Or Two On Escape Tactics

After being transported to the local jail here this week, eight ducks maintained the determination they were not going to be held captive by the sheriff.

The young ducks were placed in a sack and then brought by automobile from the Buck Joiner place some one and a half miles away. Upon their first opportunity

they immediately started away in the direction of the Joiner place when they were driven back. However, Tuesday afternoon they made good their escape. Wednesday morning Sheriff Sweatt phoned to the Joiner place to see if they were there and was informed that they were happily paddling in the water trough.

LAND TRANSACTIONS MADE RECENTLY

E. H. Sweatt recently sold to Jack Ratliff his 80-acre farm, known as the old Sid Boothe place, located about a mile from town on the Fort McKavitt highway. Fencing and other improvements are planned by the new owner.

A later transaction reported is that E. H. Sweatt purchased from C. C. McBurnett 60 acres near town and plans to fence and put some of the land into cultivation.

UNEXPLODED BOMBS FOUND ON FARM

Finding of four unexploded bombs on the T. W. Johnson farm by an employee last week was reported to officers stationed on the bombing range. An investigation proved the missels to be exceptional high explosives. Army officials at San Angelo were notified and they ruled that any attempt to remove the bombs would be too hazardous an undertaking and the bombs were exploded on the scene.

VISITING WITH GRANDPARENTS

Billie Terpening of Los Angeles, Calif., is here for a visit with his grandparents, Mr. and Mrs. T. W. Johnson. Billie is 11 years of age and made the trip alone, arriving in Sonora at 2 A. M. Friday. Upon his arrival there in the wee hours of the morning, Billie's first thought was to immediately call his grandparents and have them come after him, but on second thought, he, at the ripe old age of eleven) used his mature thinking qualities and decided it would not be good for his grandparents to awaken them at such an early hour, so he snuggled himself down to rest as best he could to await the proper time to call the relatives. At three o'clock Billie decided that it was almost Grandpa's "getting-up" time. He called them and in less time than it takes to tell, they were on their way after the young man.

Payroll Savings Buys Comfort For Your Fighting Relatives

Not all of your payroll savings and other War Bond purchases are used for tanks, planes and gunpowder. A part of your investment goes for the comfort of your father, brother, son or friend.

Put your war bond buying through your payroll savings plan on a family basis to do the most effective job in providing for the care and safety of your men in the armed forces. Figure it out for yourself how much beyond 10 per cent of the aggregate income of your family you can put into war bonds above the cost of the necessities of life.

Remember a single \$18.75 war bond will buy for a fighting soldier on the front: Two cotton undershirts at 44 cents; two pairs of cotton shorts at 76 cents; two pairs of cotton socks at 34 cents; one pair of shoes at \$4.31; a cotton khaki shirt at \$4.64; pair twill trousers at

\$4.16; one web waist belt at 23 cents; two cotton neckties at 44 cents; 2 khaki caps at \$1.26 and one twill jacket at \$2.16. Total \$18.74.

An \$18.75 war bond should make a marine comfortable for the night with a 23-pound mattress at \$4.20; two blankets at \$13.54; a pillow at 56 cents and two pillow cases at 30 cents. Total \$18.60.

Or he could be provided with a rubber poncho at \$4.77; a helmet with its lining and other items of its assembly at \$5.62; a rifle cartridge belt at \$2.15; a marine corps pack consisting of haversack, knapsack and suspenders at \$5.10; a canteen and its cover at \$1.05. Total \$18.69.

Those of you who worry about the comfort of your boy in service can help insure his comfort by buying war bonds. And 10 years from now you'll take back \$25 for every \$18.75 you put in.

First Lady of the Lone Star State Is Fifth To Be Featured in Cotton's Portrait Series

Mrs. Stevenson's Picture Appears In Mademoiselle

Joins Other First Ladies In Praising Cotton's Serviceability

Memphis, Tenn.—The First Lady of the first state of cotton will be featured in the July presentation of the cotton industry's "Governor's Lady" portrait series.

She is Mrs. Coke Stevenson Jr. and her state is Texas. Her portrait, the fifth to be published in the series being sponsored by the National Cotton Council and Cotton-Textile Institute, will appear in the July issue of Mademoiselle. With Mrs. Stevenson will be shown her two lovely daughters, Scottie Gayle and Linda Fay. All three, of course, will be wearing cottons to show women all over America the lovely-looking, long-lasting garments that can be made of this favorite family fabric.

Made at Mansion
The portrait, taken in front of the stately Governor's Mansion at Austin, was made by Wynn Richards of New York, one of the nation's leading photographers, who has been commissioned to do the portraits of the First Ladies of all the cotton-producing states. For the picture, Mrs. Stevenson selected a smartly tailored dress of white pique, with matching hat. She dressed her daughters in delightful big and little sister costumes of striped chambray, with eyelet ruffle pinafores.

Wearing cotton is nothing new for either Mrs. Stevenson or her daughters. "Cotton is my choice because it is cool as well as cool-looking," Mrs. Stevenson said. "I like its freshness and durability. In fact, my daughters wear nothing else because it's so easy to keep clean."

Mrs. Stevenson, a native of Cleburne, Texas, is a Texan from start to finish. Consequently, she appreciates the value of cotton to her state. She attended the University of Texas where she met and married Coke Stevenson Jr.,

The night services will be at the same hours. M. Y. F. at 8:00 o'clock. Evening worship at 8:45 o'clock.

While in Rockwood, Taylor, Clifton Straughn and the Cozart brothers went fishing in the Colorado River near Brady and Santa Anna Crossing, having what they called "good luck." Their catch was one catfish weighing 44 pounds and another one weighing 26 pounds. Several small ones were caught, weighing from six to 10 pounds.

son of the Governor of Texas. Mr. and Mrs. Stevenson Jr. made their home at Junction, where the Governor's family had settled almost a century ago, until the death of Governor Stevenson's wife last year. The younger Mrs. Stevenson then moved to the 80-year-old mansion at Austin to serve as official hostess for the Governor.

The portrait series, presenting for the first time a typical picture

of the cotton-country as well as the story of cotton's serviceability on the home-front, already has featured the First Ladies of Mississippi, Louisiana, Tennessee and Oklahoma. Next month, Mrs. Ellis Amall of Georgia will be pictured, followed in succeeding months by Mrs. Olin D. Johnston of South Carolina, Mrs. Spessard L. Holland of Florida, and Mrs. J. M. Broughton of North Carolina.

A plea from Frank Scofield to this newspaper this week emphasizes that we, as a morale booster and one of the most thoroughly read publications in this section, stress the fact that previous urges of purchasing at least 10 percent of our earnings in bonds be used now as a minimum low and set our sights far higher for the average purchases.

PHONOGRAPH RECORDS NEEDED FOR SOLDIERS

The Armed Forces want more phonograph records. American Legion and Auxiliary officials have been asked to again secure as many old records as possible so that they may be turned in for use in making new ones.

This is the second nationwide drive for records, and it is hoped citizens will heed the call, turning in an old record or two that they no longer use. New records will afford our boys who are in service some pleasure and they will appreciate any effort put forth on the part of civilian people to obtain these.

Leave your old records with George Long or Mrs. A. J. Mund.

At the regular monthly meeting of the Auxiliary Tuesday of last week the following officers were elected: President, Mrs. W. M. Davis; vice-president, Mrs. A. J. Mund; treasurer, Miss Ena Ford; secretary, Mrs. George Long, re-election; chaplain, Mrs. C. C. West, re-election. Installation of officers will be made at the next meeting to be held on August 3.

Visiting Preachers Deliver Messages At Eldorado

The Fundamental Baptist Church celebrated the Fourth of July with all-day services at the church, states Rev. B. A. Jonas.

Revs. Earl and Earnest Killingsworth, two visiting preachers, both of San Angelo, brought two messages to a good crowd of visitors and members of the church.

Mr. and Mrs. Houston and two children, also of San Angelo, came with the two brothers and their wives and children and enjoyed the services and big barbecue dinner.

Mrs. Mattie Cozzens left Tuesday of this week for Wichita Falls, where she expects to visit her son, Pvt. H. G. Cozzens, stationed at Sheppard Field, Texas.

CLIFF CLUB HAS FIRST IN SERIES OF SAVE FOR VICTORY SCHOOLS

The first Save and Share for Victory School was held in the home of Mrs. Bert Blaylock of the Cliff Community, July 9.

Beans and corn were canned by Miss Virginia Ryan, agent, by pressure cooker method. Pineapple and tomatoes were canned by the hot water bath method. This method is especially recommended for canning tomatoes and fruits, as fruits are over-cooked when processed in a pressure cooker. The different steps in brining were discussed; and finally sulfuring of fruits for drying was demonstrated to the members.

Mrs. C. E. Corbell presided at a short business session at the close of the demonstration. Five members and one visitor were present at this all-day meeting.
