Forty-Second Year

Eldorado, Schleicher County, Texas, June 18, 1943.

NUMBER 23.

## MEDITATIONS

By The Editor

Nowhere could one find an organization more capable of getting a thing done right than those women of the Home Demonstration Clubs did in arranging an entertaining week-end for the service men who visited in Eldorado the past week.

When it comes to spreading a feast, well, the skill and largess of those responsible for the preparing of edibles at the occasion shall also remain unsurpassed. There was everything from an up-side-down pineapple cake to a cheese sandwich there. We could not help but notice some of the local ministers, they were having a bigger time than the soldiers. That chicken was good!

It is our opinion after close observation that the visitors had a "fair" time. At any rate they showed only the highest regards for other persons, joining in all the fun and adding zest anywhere that it was emphasized.

An amateur hour was called for. The dias supported more than mere amateurs during the evening. Joe Kreklow, we failed get to meet him, but understand that he has done plenty radio time, mercilessly hammered the ivory throughout the evening. Then Pvt. Howard Jaxtheimer was put on the boards and attempted to sing the Air Corps song about twice before the right pitch was found between he and the instrument then he really went to town with "Stardust".

However, Pvt. Jaxtheimer, proved his ability when he accepted an invitation to render a solo at a local church Sunday morning, when he touched the heart of the congregation with a beautiful and appropriate number. Other members of the visiting group we understand were presented at other congregations.

It was our pleasure to have Corp. O. A. Harrison and Pvt. Jaxtheimer as visitors to this office. They are both newsmen and had followed it professionally before entering the service. Harrison is Staff Cartoonist for Flight Time official org. for Goodfellow Field. Thanks fellows, for the copy of Flight Time.

## 4-H Encampment Plans Being Made

Plans are now being completed for the 4-H Educational Encampment to be held at Foster Park at Tankersly on July 8th, 9th and 10th. To make final arrangements, it is necessary that they know how many will attend from this County.

"We will arrive the afternoon of the 8th and will break camp after lunch on the 10th. \$1.50 will be charged each person to cover cost of the cook and the food. The training program this year will consist of the Study of Grasses and Weeds; Grub Control in Cattle; Preparation of Wool; and two picture shows on Agriculture. For recreation, there will be ball games, swimming and rifle shooting if ammunition can be secured," stated County Agent A. E. Prugel this week.

Fathers of club boys are encouraged to attend with the youths. Those who plan to attend should notify the County Agent not later than June 17 in order that accommodations may be arranged for each one.

## RUBBER GOVERNORS

C. R. Stevenson John W. Bricker

Two rubber state governors are scheduled to get together June 28, when American Made rubber day is celebrated in Texas. The day has been proclaimed by Governor Coke R. Stevenson and all Texas will join in celebrating the important part Texas is playing in the vital rubber program.

Because most of the rubber is now processed in Ohio the arrangements committee, headed by Thornton Hall, of San Antonio, president of the Texas Newspaper Publishers' association and Deskins Wells, manager of the Texas Press association, has invited Governor John W. Bricker to take part in the ceremonies.

Four of the government-owned plants are being erected in Texas, and more synthetic rubber will be produced in this state than in any other. Occasion of the June 28 celebration is the opening of the Baytown plant, to be operated by The General Tire & Rubber company in association with the General Latex and Chemical company, of Cambridge, Mass.

A nation-wide broadcast on the night of June 28 will tell the nation of Texas' part in the solution of the rubber problem.

## Uniformed Guests Well Entertained

It was indeed a disappointment to many that only a small percentage of expected soldiers arrived from San Angelo Saturday to participate in the entertainment planned for them by members of the Home Demonstration Club women of the county after some 125 had been invited and homes had been offered to the men over the week-end.

"Too bad, for the men not attending," was an expression heard throughout the evening from the visitors. Another thing heard was that the mess Sergeant should have been here for instructions as to how they would like to be fed.

Seriously though, the affair was a grand gesture on the part of the sponsors under the direction of Miss Mary Lewis, Home Demonstration agent. To those who offered lodging and entertainment for the guests they are to be commended for their hospitality and interest in helping the ladies to carry out their plans.

On the program were a number of local citizens including Jean and Dinky Meador, Mrs. Jim Hays, Jean Steward, pianist Joe Kreklow and H. T. Finley as master of ceremonies, who also rendered a tremolo soothing to the tympanum (of some), preceding the sing-song.

The largest crowd was assembled here that has been in evidence for many months. And hope was expressed that the affair could be repeated in the near future and that next time more men might be able to attend and enjoy the Schleicher hospitality.

## WAAC VISITS WITH PARENTS HERE

Auxiliary Jewell Butler Burge, serving with the woman's Army Auxiliary Corp returned to her post at the Aberdeen Proving Station, near Baltimore, Md., Friday of last week after a short visit here with her parents, Mr. and Mrs. J. A. Butler. Aux. Burge likes her work fine after having been in the service for about five months. She drives a 2 1/2 ton munitions truck for the station.

Miss Bell Bratton of Austin and Mrs. G. W. Asher of Roundrock are guests in the home of Mrs. J. T. Jackson this week.

## Congressman Relates Views on Ranch Tax

By Congressman O. C. Fisher

No ranchman or farmer that I know wants to avoid paying his just share of taxes. But income tax-paying livestock owners are facing an unfair charge right now as a result of a change in the Bureau of Internal Revenue rules on figuring income. If the policy change is applied generally, the percentage of stockmen affected will be high, because income tax brackets have been lowered to take in nearly everyone.

In the past, stock owners had been allowed to place fair values on their stock and to set up different bases which would show the true income realized from sale of animals, wool, etc., but which would not class as income or loss of income the year-to-year changes in the value of breeding animals. Breeding animals were part of his capital, as was his land. He kept land and breeding animals and sold their increase, and paid tax on that increase.

Now instructions are out to the agents to collect additional income taxes for 1941 and 1942 on the difference between the stockman's inventory values and the average values estimated by the Department of Agriculture. Thus the owner might be assessed an additional tax on the difference between the \$40 per head he set on his cows and the \$55 which a bureau calculated was an average value then for Texas cows of that type.

I have protested to the Commissioner of Internal Revenue because this policy, arbitrarily applied obviously can be discriminatory and bring about many injustices.

The livestock owner may have to pay taxes on an income he didn't realize. And the basic principle of the whole income tax law is (See "Taxation" last page)

## Man Slightly Wounded Tues.

George S. (Shep) Robinson, highway worker, is being detained in jail here on charge of disturbing the peace following a disturbance Tuesday evening at the home of his father-in-law, L. R. Damron, when he was slightly wounded in the face from a charge by a shotgun fired by Damron, according to a statement by the local sheriff's department.

Reports are that for some time Robinson had been causing a disturbance in the neighborhood of the Damron home and had been warned to stay away from the premises.

Damron was immediately released Tuesday on a \$250 appearance bond.

## MARINES VISITING WITH PARENTS

Pfc. Lloyd and Floyd Spurgers who are stationed at Camp Pendleton, Ocean-side California are here on a visit with their parents, Mr. and Mrs. R. C. Spurgers and family. The boys volunteered into the service some nine months ago and this is their first trip home.

## SUFFERS BROKEN ARM

Tommy, young son of Mrs. T. F. Green, had the misfortune of breaking his arm when he fell from his horse at the farm, recently. The break is healing nicely and little pain has been experienced since the accident occurred, it is reported. Dr. H. Z. Pennington was the attending physician.

## An Open Letter

(To residents of Eldorado and Ranchers of Schleicher County, Texas)

Dear Friends:

It becomes my pleasant duty to express the sincere appreciation of the Goodfellow Field soldiers who were guests in your homes and your community recently.

Morale building is considered to be one of the most important issues in the Army Air Forces training program. We can think of no way in which this all-important task could have been supplemented by civilian cooperation that would have accomplished more than the fine way in which you people chose to entertain us.

There was a richness, a sincerity in your hospitable attitude toward us that touched the heart of every soldier who had the pleasure of being a guest at this most enjoyable occasion.

We join in thanking the Home Demonstration Agencies of Tom Green and Schleicher Counties as well as all of the people who gave so freely of their time and all of the material things that made the "Ranch Party" such a magnificent success.

With fine, friendly, patriotic people like you behind us we are indeed inspired to greater effort in doing our share toward the early conclusion of this war.

Respectfully Yours,  
Pvt. Howard E. Jaxtheimer  
56th Air Base Squadron,  
Goodfellow Field, Texas.

## Rough and Tough is How He Came... This Fellow Shows How To Down Fences, Baffle Ranchers

When "a big black bear" came to the fence on the Joe Tisdale ranch he spent no time pondering just how to cope with the situation of getting on the other side. He evidently, as tracks showed, never slackened his pace, but hit the wires, pushing the staples from the fence, several posts each way, and leaving mud and hair on the wires.

The animal came onto the Tisdale ranch traveling in a southeast direction and crossing Section 33 of the ranch located 12 miles northeast of Eldorado, leaving tracks in the wet soil after recent rains. Tracks were discovered by an employee of Tisdale Friday and immediately Tisdale went to the scene and after conviction that it was a bear's tracks he made a survey of his livestock traps but failed to find evidence of molestation by the brute.

Saturday the rancher was in the Success office and reported that County Agent

Prugel, Johnnie Isaacs, W. H. McClatchey and R. C. Edmiston had been to the place and verified the finding of tracks. Prugel is possessor of hair which was left on the fence by the animal whose tracks measured some five inches across and about six inches long, indicating that he was rather huge in stature.

An account of the presence of the animal in these parts was telephoned to The San Angelo Standard with the view that after Sunday publication ranchers could be on the alert for him, but so far no report has been released of the sight of the animal.

Latest reports are that Tisdale, Bill McWhorter and soldiers visiting here over the week-end, found where the bear had bedded down a short way from where the discovery was made and more hair was found proving definitely that it was "a big black bear."

## Eleven Men In June 21st Quota

Eleven men have been selected to fill the June 21st quota for Schleicher county. They are Milton Hensely, Sam Henderson, George Williams, Jr., Richard Lee Davis, Jose Guerra, Andres Martinez, Rudolph Torrez, Virgil Farris, J. C. Johnson Jr., James Foster Ottaberry, and San Diego DeLeon.

Leaving on the 24th will be William Henry Oglesby, and James Whit Smith.

Five men will be selected to fill the July 29th quota.

## TIRE INSPECTION DATES

Persons holding "A", "B" and "C" books are again reminded by the local Rationing Board that tire inspections must be made from date of last inspection as follows:

On "A" books, every 6 months from date of last inspection.

"B" books, every 4 months from date of last inspection.

"C" books, every 3 months from date of last inspection.

Inspection of tires on pickups and trucks must be made every six months or five thousand miles, whichever occurs first, from date of last inspection.

We were glad to have the good attendance Sunday night in our services. Many of our people were not in attendance but I am sure they found it impossible to come. But we hope by this weekend all can be in every service.

The evening of the 25th is time for our monthly meeting of our Sunday School teachers, Supt., and other officers. I hope all who will and can will begin to make plans to be present.

We are still looking forward for the special emphasis in our Training Union Work. The date will be set later for the Study Course, and Enlargement Campaign.

The W.M.U. met Monday here at the Church for their regular Mission Study. Such meetings are very inspirational, and no doubt all of

us will be helped if we would have special study in the Bible more often.

Will you not come to Church and Sunday School Sunday? There is no argument but what you need the church and the church needs you.

## THESE HORSES HAVE JOINED THE CAVALRY!

The merry-go-round has gone to war!

Like the plants that made refrigerators, stoves, furniture, and many other familiar household items, a plant that made merry-go-rounds is now turning out vital equipment for our fighting forces.

It was the biggest job ever performed by American industry to change over from washing machines to guns, from automobiles to planes and tanks. A job that demanded more machinery, more equipment, more men—and more electric power!

That's part of the story why America clicks, of our amazing ability to get things done. Let's feel proud of our achievement . . . proud that we have more electric power here in America than all the rest of the world combined, and we are using it.

Yes, we have built up in this country more kilowatt-hour output than all the Axis dominated countries combined.

The electric power line is another line the Axis cannot hold.

Lines have been extended to new factories and military training camps ahead of schedule.

It was not an accident that America was power-full.

Electric companies, under business management the West Texas Utilities, had planned ahead. Knowing their business, schooled in emergencies, they saw to it that Uncle Sam had plenty of electric power—wherever and whenever needed!

It's on tap for all civilian needs too—no shortages, no rationing, no increase in cost.

It's an outstanding wartime example of what free men can do. Free enterprise works!

We're fighting this war to hold this freedom. Government bureaucracies should place full emphasis on winning the war and desist from their political endeavors to permanently change our system of government.

**ARE YOU SNEEZING? YOU MAY HAVE IT!**

—Are you sneezing? If so, maybe you're one of the next Texas crop of allergy victims who have suddenly and mysteriously developed hay fever. But here's good news—the University of Texas Medical School is trying to do something about your ailment. Medical school officials

held a conference June 13 of all physicians in the state who are skilled in or interested in allergies, to start the ball rolling in a coordinated program to combat allergic diseases.

Exact cause of the new insurgence of "hay fever" is not known, according to Dr. Chauncey D. Leake, vice president and dean of the medical school, and that's why the conference is being called.

J. H. Hughes, his wife and three sons have moved to Eldorado from Mertzon to make their home. They are living at the John Neill place west of the city. Mr. Hughes is dealer for Watkins Products.

**War Work of a Santa Fe Wheat Car**

*This statement explains why many Santa Fe box cars, built to move wheat during harvest season, are many miles away doing other war jobs.*

★ This year an estimated 75,000,000 bushels of wheat must be moved by the Santa Fe from the wheat states it serves. It will take about 50,000 carloads to handle Santa Fe's big share of this vital job! To move wheat and other grains, Santa Fe has specially built weatherproof box cars—but today, many of these cars are far from the wheat belt. Where are they? What are they doing? The map above will give you an idea—it shows the movement of a wheat car for the past four months.

**A Wheat Car Gets Around**  
Starting at Hutchinson, Kansas, with a load of flour for Boston, this wheat car has been kept rolling with vital war cargoes, including Army shoes, Army clothing, aluminum, lumber, machinery, and has just delivered a carload at San Francisco—far from

the wheat belt where it is needed now! In four months this car has covered 1,439 miles on Santa Fe rails, and 9,749 miles on the other railroads. No rest for a war worker these days, but a fellow sure gets around!

**Every Car in Action**  
Every Santa Fe box car, as well as box cars of all other railroads, is in action today. Some of these cars are too far away to be able to return to the wheat belt in time for use. But guided by the wise direction of the Association of American Railroads, the Office of Defense Transportation, and the Interstate Commerce Commission's Bureau of Service, plus the friendly cooperation of the Army and Navy and war freight shippers, Santa Fe is making every effort to secure as many cars as can be spared from war movements to handle this year's wheat harvest.

Applicants for renewals are reminded that Certificates of War Necessity and expired T books will have to be presented before rations for the next quarterly allotment may be issued.

### RED CROSS KNITERS NEEDED

Red Cross Knitters are urgently needed to knit 20 army sleeveless sweaters that were received Monday. These garments must be made quickly if our boys are to receive them by cold weather. Mrs. T. R. Logan, Tom Green Red Cross Chairman, stresses the fact that all army and navy garments must measure according to instruction or they will not be accepted. She also asked that we discard tape measures and use yard sticks to measure with.

Both the army and navy have definite standards in regard to measurement.

The 33 garments issued May 15 or later were due June 15. Please turn them in at once. Do not crochet the sweater together.

### SALVAGE WORKERS TO MEET IN ANGELO

Workers in voluntary salvage from 12 counties of West Texas will meet in San Angelo June 12 to hear several speakers and a representative of the 8th Service Command, U. S. Army, Dallas, Texas, discuss and give special emphasis on salvage items critical to war production today, in a clinic to begin at 9:30 A. M. at the Cactus Hotel.

This information was released this week by Loy Gandy, Chairman of Tom Green Salvage Committee, and J. C. Culbertson, Secretary. Voluntary workers are invited to be present.

### Taxation—

(Continued from front page)

founded on the proposition that tax is not applied upon income until income actually is realized.

To hold otherwise would be as if an owner of a city business building was called on to pay taxes upon the increase in value of that building, in addition to paying tax on his rental income on the building.

Some buildings in defense cities have risen 50 per cent in value. Some livestock is up 50 per cent. When either one is sold, income tax should be based on the higher sale income.

All the stockmen and farmers ask is that their income taxes be based on realized income, and that they not be penalized for a theoretical increase in paper value of their breeding, dairy and work stock which they didn't sell or even consider selling.

The WPB last week eased up its restrictions on the use of wool. It doubled the allotment of wool going into civilian uses, indicating that the "wool shortage" bugaboo—which was giving all the breaks to the synthetic textiles—was disappearing. Hereafter, mill facilities and mill manpower will be the factors controlling the consumption of wool.

Until now, despite the billion pounds of domestic and imported wools in this country, manufacturers were forced to use heavy proportions of reprocessed wools and synthetic fibres. This scarcity theory and practice created buying runs. Rationing was threatened.

ured, and this surplus accumulating in America and Allied stockpiles, the home front should get more wool.

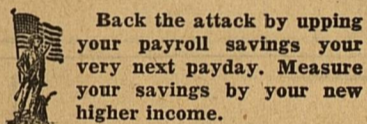

It didn't make sense to order a manufacturer to make a suit half wool and half rayon when we had more than enough wool to permit him to turn out all the 100 per cent wool suits he could make.
