Forty-Second Year

## MEDITATIONS

By The Editor

"The darkest shadows are those which a man makes when he stands in his own light," was quoted by Henry Sedgwick.

Then George Matthew Adams said "The surest antidote for worry is to keep busy—doing something useful."

Thus, we are inspired to keep moving around these hot days; the hottest, so say oldtime residents of the county, in history. There may have been days as hot as any we have had, but not a continued period as has been experienced the past week or two.

It has been said that: "He is not yet born who can please everybody." This too gives us some encouragement to attempt to write this column again. Perhaps it will please someone.

Samuel Johnson once said: "Attack is the reaction; I never think I have hit hard unless it rebounds." Could be that Ill Duce Mus- has heard of this quotation. He evidently expected the attack hit to be hard and REBOUND.

Another famous saying is: "The only way to be rid of worry about the things we have not done is to do them." Perhaps many of us had better apply this to our bond buying for July and go now and purchase as many as we can afford, thus, relieving the worry of not having helped raise the quota and investing our money that otherwise we might be tempted to cause inflation with by purchasing something we really do not need at a price a little too high.

This scribe might be inclined to discuss further the weather should we not recall another saying that goes something like this. "The man who questions opinion is wise; the man who quarrels with facts is a fool." Since it is a fact that the weather is continuing hotter and drier, this department had better refrain from fussing with the fact.

## SANITARY ASSOCIATION TO MEET IN ELDORADO

At the last regular monthly meeting of The Concho Sanitary Association L. B. Burk extended an invitation for the association to meet in Eldorado in their next meeting to be held August 18.

The meeting will be held at the City Hall and a barbecue supper is slated for the evening, followed by a business session which will deal with waterworks operation and problems. A two-hour instruction course in the meeting will apply toward work on a certificate required before a person may become a waterworks operator.

Ray and Peggy Nell Smith, are visiting their grandmother, Mrs. I. W. Lee in Fredericksburg.

## Molly Pitcher Tag Day, Aug. 4

The modern Molly Pitcher will greet you throughout the nation on August 4th when brigades of Mollys will tag every buyer of War Bonds and Stamps. They will carry on the tradition of the Revolutionary War heroine who has gone down in history because she aided her fighters at the battle of Monmouth in 1778.

## Grass Fires Continue; Truck, Equipment Sought

Continued dry weather and fast drying of grass is increasing the fire hazard on range lands in the county, and especially near the bombing ranges. Three major grass fires up to Wednesday morning had been reported and an estimated report of near three sections of grass land had been burned off.

An alarm was sounded for help Friday of last week to combat a fire on the Davis West Ranch and another was extinguished on the Alton Clark lease by volunteers Monday. About 2:30 a. m. Tuesday Ford Oglesby called his brother Sam, that a fire was raging on his land and was extinguished by a government crew and truck there.

Committeemen working on

the possibility of securing a fire truck to be used for combating fires in the county, Tuesday night reported that they had met with favorable encouragement from ranchers, and citizens generally. Another committee investigating the possibilities conferred with Congressman Fisher in San Angelo, and learned that he favored the movement of securing the truck, realizing the need for such equipment.

A delegation went to San Antonio Thursday to appear before the allocation board in respect to securing priority to purchase a truck and equipment. The general supposition is that there is such equipment available for counties in need of them such as Schleicher.

## NEW COUNTY AGENT, FAMILY ARRIVE HERE

Mr. and Mrs. W. J. (Jack) Welch and two little sons, arrived in Eldorado Saturday of last week and are at home in the Mrs. Cora Miller Jackson home.

Mr. Welch's application for position as county agent of Schleicher County, following resignation of A. E. Prugel, was accepted at the last Commissioners' Court. The Welch's come here from Tahoka, Lynn County, Texas, where he was connected with the Farm Security Administration.

Prugel is secretary-treasurer of the newly formed tri-county National Farm Loan Association with headquarters in Sonora.

Mrs. Harvey Spears is in Galveston this week visiting her sister Mrs. A. J. Gay and family.

## ARMY MEN AND FAMILIES TO ELDORADO

Major E. M. Hay this week stated that six men are to be placed in Eldorado immediately to care for targets and man a fire truck to be stationed here along with other necessary equipment.

Those to be stationed here are Pvt. James Seigert and wife, Pvt. John J. Orland and wife, Pvt. A. A. Cooper and wife, Pfc. Everett Mooney and wife and little son, Pvt. Vinson and wife, and Pvt. Marvin Mirike, whose wife is employed in San Angelo and will remain there for the present.

The men will work in two groups of three each, one group on the truck and the other on maintenance, it was stated.

## Bond Quota For July Falling Short

Unless the people of Schleicher buy more bonds soon, fill their partly-filled stamp albums and turn them in on bonds, the July quota will not be sold. Should this quota not be filled, it will be the first month that the entire monthly quota has not been raised. The Chairmen hope this will not be the case. Reports like the ones of late pertaining to invasions and the disturbing conditions now existing in enemy countries gives added incentive to all to want to support the loan more than ever.

Men who are making the supreme sacrifice, no doubt, will appreciate the buying of the bonds. It is assurance that they will be provided with equipment to carry on their part of the conflict. Many heroic accounts come to our attention daily. In each instance the service men consider their personal sacrifices last, if at all.

Attention is called to only a few instances in another place in this issue of the paper of heroic deeds by our fighting men. This advertisement is sponsored by business firms and individuals of Eldorado and urge you to read the entire ad.

## To Assist In Revival

Shown is Mrs. Veola Short, Wichita Falls, who is, unless unavoidably detained, to be in Eldorado from Sunday, August 8 through August 15 to serve as choir director and young peoples worker in a revival meeting to begin on the former date at the Eldorado Methodist Church.

Mrs. Short, majored in evangelistic singing and formerly was assistant voice instructor in McMurry, Abilene. She is at present senior hostess of the Wichita Falls USO Club, and is making plans to spend a part of a vacation assisting in the local Methodist revival.

## NAVY DESERTER REMOVED THIS WEEK

Edwin Junior Thompson, detained here for the past week by the sheriff's department, this week was removed from the county jail by the Coast Guard Patrol. Thompson, who has been working on the Cecil Meador ranch since early in the year deserted the United States Naval training station in Great Lakes, Michigan, about the first of the year. Going under an assumed name of Bill Anderson, Thompson had been under suspicion for a time and was last week arrested by Sheriff E. H. Sweatt and the FBI notified. A check was made and the identity of the man was learned. He gave his mother's address as Fonda, Iowa, as he was leaving the local jail Tuesday.

This was the second arrest in less than two weeks of deserters. The first was Charles Walton, deserter from the Army at Camp Barkeley, Abilene, arrested here with his 17-year-old wife.

## WORK ON ELDORADO-SONORA HIGHWAY PROGRESSES RAPIDLY

Starting at a distance of 3.6 miles from Eldorado, work is progressing rapidly into Sonora on the Eldorado-Sonora highway in preparing a caliche base to receive an asphalt surface. A special maintenance appropriation of \$66,000 is being used in the construction.

In charge of the projects are S. M. Loeffler, maintenance foreman, H. L. Taylor, general foreman, and Charles Gunn, special foreman.

Mrs. W. M. Whitfield of San Angelo is a guest in the home of Mrs. J. E. Tisdale this week.

## Congressman Fisher Speaks To Lions Club

Accepting an invitation to appear on the program as guest speaker, Eldorado Lions and a few visitors enjoyed an address by Congressman O. C. Fisher here Wednesday noon.

The Congressman praised the efforts and solidness of West Texans in supporting the various war programs that have been carried on for some time. Especially did he praise Schleicher county citizens in their support of bond drives, Red Cross drives, metal and other salvage programs.

Speaking on bureaucracy and agencies in government the former lawyer stressed the fact that any endeavor other than bringing to a close as soon as possible the present conflict was secondary at present. However, he expresses his stand on many issues that have arisen before congress since he became a member of that body. Fisher discussed briefly the subsidy situation. (Continued on last page.)

## YOUTH INJURED BY EXPLODING BULLET

While attempting to remove lead from a .22 calibre bullet Tuesday, S. E. Etheredge, III, 8, was injured by the shell when it exploded, nicking him in the chest and shoulder. The accident occurred when the youth attempted to lock the cartridge in a vise preparatory to removing the lead. He was carried to a San Angelo hospital and released after emergency treatment.

The S. E. Etheredges are here visiting in the Jack Etheredge home. They are from Saragosa.

### HOUSE

"Time doesn't pay" has been the theme of many speeches and editorials—but it does. Crime pays the writers for the true detective magazines.

Your columnist made more out of the Santa Claus bank robbery than the bandits did. They had possession of \$12,000 for about 10 minutes—you figure the interest on that) whereas one of the detective magazines paid me \$300 for an article on the crime.

The most harrowing experience this writer ever had in doing an article for the murder mystery magazines was in connection with the Snow case at Stephenville. Congressman Sam Russell was district attorney in the case and took the lead in solving the riddle which sent a three-time killer to the electric chair.

Congressman Russell spent a quiet Sunday afternoon in outlining the case of the triple murders to me several years after it ended and then, late that afternoon, I went down to the newspaper office and worked well up into the night putting the story on paper in the dark and deserted building—that is, dark except of course for the one light over the typewriter.

The chain of events began with two men who set forth to put out traps. They came to a cellar, partly caved in, beside the ashes of an old farmhouse. They decided the cellar would be a good place to put a trap and one of them clambered down. He noticed in the dimness a tow sack dangling from the rafters. He took it down and carried it outside, opened it and found a

## THE LOW DOWN FROM HICKORY GROVE

I get sorta in a lather about a sales tax every time I see people spending money like it might grow on a tree. A sales tax would cost me some mazuma but in the long run it will cost me and everybody else more, if we don't have a tax now. If Uncle Samuel don't get this surplus dinero, somebody else will. The night spots, or any place that will open up a door, gets business.

A thirsty gent making 100 per week don't give a hoot whether a bottle of hooch is 3 dollars or 4 dollars. Or a dinner at 85 cents, if it was 95 cents by tacking on a 10 per cent tax, would not slow down anybody. You could set up a roulette wheel, and if the police did not get you, you would go to town.

But I am hopeful. Congress is showing a touch of ginger and spunk. They are starting to trim off a few Govt. frills and fancy notions—maybe a sales tax will be next.

Yours with the low down,

pair of eyes peering at him from the sack!  
It contained a man's head.

Well, that was the start. By the time I had written the full story of the three murders and the solution, my nerves were so jumpy that the scurrying of a rat across the floor in the rear nearly caused me to knock over the chair in which I was sitting.

A darkey, asked by the draft board how many dependents he had, replied, "I has foah dependents but I can't depend on none ob dem."

## MAKE WAY FOR (MISS) CASEY JONES

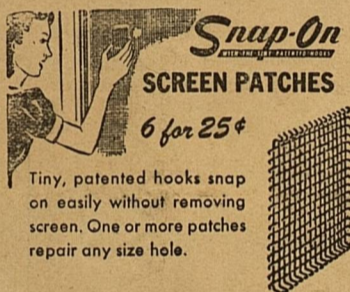

Railroadin' has always been a man's game but since the war some of the toughest jobs have been taken over by women. Among the scores of feminine workers on the Santa Fe, Nell Arkie (lower left) is a locomotive supplier; Georgina Leiker (top) repairs ty writers and Anitra Ortega operates a drill press in one of the railroad's busiest shops.

## SALE OF LIVESTOCK

Tom Smith sold for Jess Roberts, 181 dry ewes to Edwin McCollum of Alpine. The ewes bringing eight dollars around. One hundred and eight pair dry ewes sold for Jess Roberts at 11.00 dollars per pair. These went to the plains.

R. A. Evans sold for Mrs. Will McAngus a house and lot in the Glendale addition and also the lot adjoining, to J. H. Wagley for the sum of \$4,550.00. The adjoining lot being sold for Jeff Enochs. Mr. Wagley and his family have moved here from Dimmit, Texas and expect to make this their home. Mr. Wagley will be engaged in the ranching business.

## REBUILDING BARN

W. R. Nicks who recently lost his barn and its contents by fire is rebuilding this week. Mr. Nicks failed to save any part of his feed supply and lost several prized saddles along with some trunks he had stored in the barn when it burned. He is again getting ready to take care of the feed crops which are now being harvested.

G. H. Shipley of Lamesa is visiting his brother-in-law, Dr. J. R. Paul this week.

## To Our Friends and Customers:

Due to existing conditions brought about by the war and affecting transportation facilities, we are no longer acting as wholesale and retail agents for Shell Products.

Although Shell Products and policies have proven satisfactory in every sense of the word, we were transporting the products to Eldorado by truck, and it becomes necessary to discontinue this practice for the duration.

Effective this week, we have changed our pumps over to Magnolia Products, distributed here by R. T. Crain, Magnolia Dealer.

You will find this product to be among the best—our same service and appreciation of your business will be found at our station. Also, our repair department will continue to function as in the past.

## Who are non-essential travelers?

You are the judge of whether or not your trip is essential—and your judgment is what our government is relying upon.

Please consider these points when you think of traveling on the railroads this summer and for the duration:

1. Your trip may take a Pullman berth or chair car seat needed by men in uniform traveling under orders.
2. Your trip may delay war workers, not in uniform, in reaching their vital jobs.
3. Your trip may deprive men and women in the service of a furlough trip to visit their homefolks. If you do take a trip, plan for it in advance, travel light, consider taking a box lunch to avoid delayed meals in the diners, and make up your mind to put up with certain inconveniences and crowded conditions.

### WHAT ABOUT VACATION TRAVEL?

Vacations should be spread out over the year, not confined to summer months.

A vacation trip should be confined to one round trip only, starting and returning on Tuesday, Wednesday or Thursday.

Travel in chair cars whenever possible, and please carry only one piece of luggage.

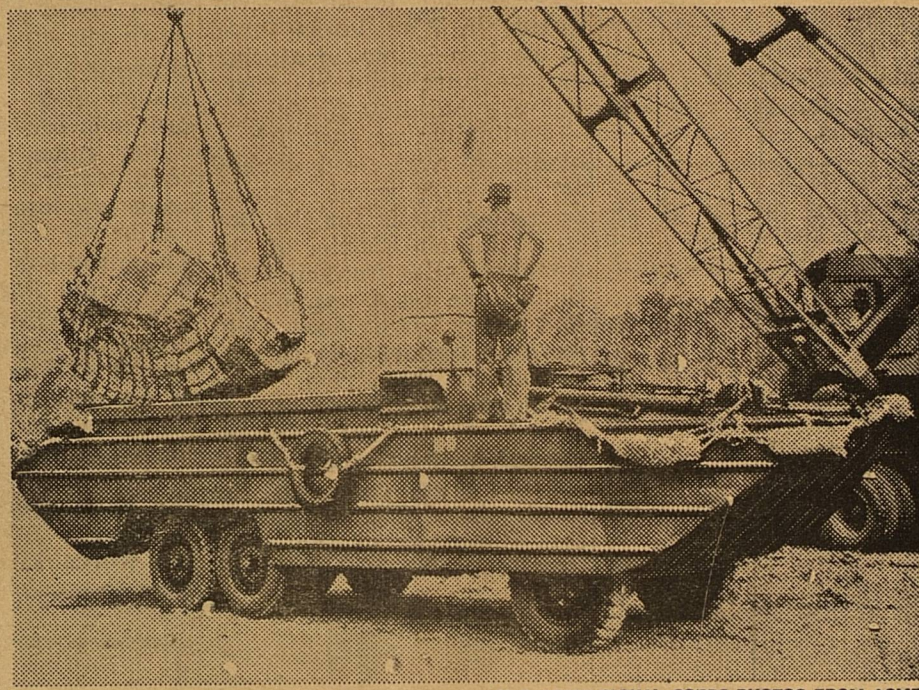

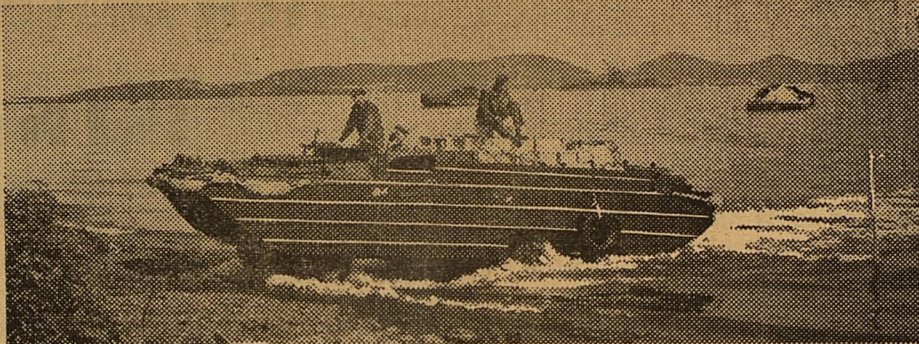

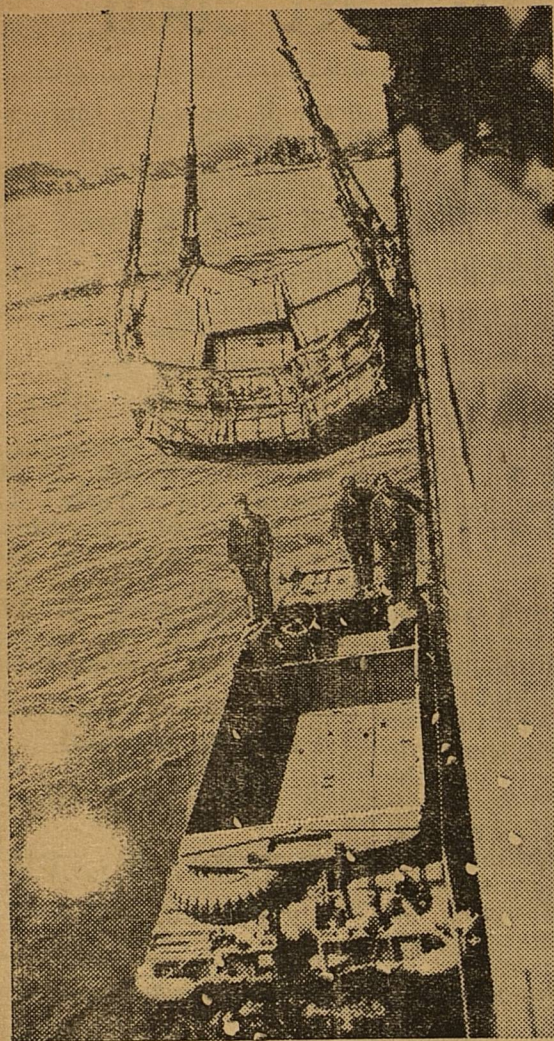

Consult your Santa Fe Agent about your travel plans. You'll find his friendly advice helpful.

## The "Duck"... America's Newest Invasion Vehicle

U. S. ARMY SIGNAL CORPS PHOTOS FROM ACME

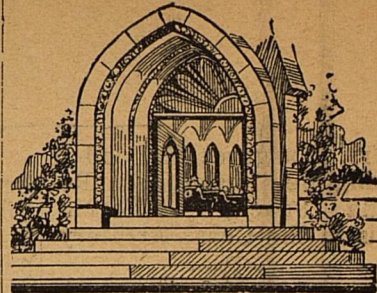

This is the Army's newest, most unique military vehicle . . . the 2½-ton, six-wheel, seagoing truck. Officially known as model DUKW, it has been aptly nicknamed the "Duck" by all who are familiar with its remarkable amphibian performance. While General Motors Truck and Coach factories have been producing quantities of this vehicle for some time, these photographs from New Caledonia in the South Pacific are the first to arrive from the fighting fronts.

*Left*—The "Duck" alongside a freighter is loaded with much-needed supplies for American Forces on New Caledonia.

*Above*—With driving power switched from propeller to wheels, the "Duck" heads for a supply depot inshore.

*Below*—Unloaded by a crane, the "Duck" is ready for another trip to the freighter standing by offshore. In actual tests, these huge amphibian trucks have carried 35 men on land and even more when in the water.

**Boy Scout Building Fund Invested In Bonds; New Drive To Start Soon**

In a recent campaign sponsored by the Lion's Club to raise funds for the improving of the Scout Lodge, some \$800.00 was raised. Due to the existing War conditions, improvement materials could not be bought at the time and it was decided to invest the money in War Bonds until at such a time materials can be purchased to carry out the building plans.

Beginning August 7th, a campaign will be launched for the purpose of raising operating funds for the Boy Scout Ranch District of the Concho Valley Council. Captains have been appointed and every individual will have an opportunity to participate in this drive. This is an annual affair and it is hoped that subscriptions enough will be made at this time to take care of the need, stated W. M. Patterson, Chairman of the local Boy Scout Troop Committee.

**Shell Dealer To Retail Magnolia Products Here**

Clyde Galbreath of Eldorado Motor Company, this week announces that he has changed his pumps and oil stands over to Magnolia products for the duration.

For some time the Eldorado Motor Company has been wholesale and retail dealer for Shell products. The products were trucked here from Big Spring and due to rationed materials, including tires, tubes and trucks, it has been decided to discontinue for the duration this method by the local concern. Galbreath explained that the Shell products and policies were in every sense of the words satisfactory, but that the existing conditions

made it necessary that he use products secured here by other methods of transportation. R. T. Crain is local wholesale dealer for Magnolia products and will furnish the motor company with same.

## Young Adult Bible Class To Enjoy Barbecue Tonight

Members and visitors of the Young Adult Bible Class of the Methodist Church are to enjoy an outing and barbecue at the home of Mr. and Mrs. Sam McGinness tonight, Friday. The occasion is the second entertainment since the class was recently reorganized. Announcement was made Sunday that the time for meeting would be 7:30.

## VISITING PARENTS

Ford Oglesby, Jr., son of Mr. and Mrs. Ford Oglesby, is here for a visit. Young Oglesby has for three years been attending military school in San Antonio. He expects to be called into the Armed Service in September, he stated to a Success representative this week.

Mr. and Mrs. C. A. Reynolds visited Mr. and Mrs. R. L. (Squibb) Carruthers in McCamey recently. Mr. Carruthers is a brother-in-law of Mr. Reynolds and has taught in the Eldorado schools several years. He has recently resigned his school in McCamey to become associated with the Shell Oil Co. at that place.

## ELDORADO HOME DEMONSTRATION CLUB IN ALL DAY MEETING

The Eldorado Home Demonstration Club met at the City Hall for an all day meeting with Miss Virginia Ryan, H. D. Agent directing the "Share and Save For Victory School." The agent demonstrated the canning of chicken, sulphured and dried apples, brined corn, tested and checked pressure cookers, demonstrated the making of kraut, and cold pack canning of whole tomatoes. Bulletins may be secured from the agent for these canning methods.

In giving the demonstrations, Miss Ryan used an elbow length glove that she had made to protect the arms from burns, she explained the use of a corn cutter which speeds the canning of corn.

At the noon hour, a no hostess covered dish luncheon was served.

Mrs. John Williams led a sing-song and the Club Collect was given in unison. Miss Ruth Baker gave a report on the plans for the annual encampment to be held in Christoval, August, 12 and 13.

The Club plans an exhibit for the first two weeks in September, all members are urged to participate.

Miss Ryan reported on the 1943-44 year book.

Those present included guests; Mesdames A. E. Prugel, W. M. Davis, Mollie Baker, Sam E. Jones, W. C. Mund, L. B. Burk, L. D. Christian, Tom Johnson and Misses John Alexander, Chriss Enochs, Riedale West, Martha Dell Williams, and Billie Terpening, of L. A. California; members were Mesdames L. B. Burk, W. H. McClatchey, John Williams, Ben L. Isaacs, John F. Isaacs, Frank Van Horn, E. H. Coulter, G. L. Ballew, Palmer West, R. C. Spurgers, and Misses Ruth Baker and Virginia Ryan, agent.

## PLEA MADE TO TELEPHONE PATRONS DURING FIRE

Chief Palmer West and Telephone Manager C. C. McLaughlin have asked that The Success make a plea to telephone patrons not to telephone the operator about the location of fires for at least five to ten minutes after the alarm is sounded. The lines are needed to be kept open for firemen and too it throws too much work on the operator who cannot answer all the calls at once and does not know which calls pertain to fire location by the volunteer firemen.

Chief West states that it might be your premises on fire and time would be lost in notifying the firemen of the exact location. The department pleads, in the interest of your own safety and the safety of the town, that citizens refrain from calling in immediately after the fire. "Give us time to get the location first," he continued.

## RED CROSS NEWS

Red Cross knitters are urged to get mufflers and sweaters in as soon as possible for shipment to insure early arrival to our boys for winter use. Mrs. Ted Logan, chairman of the Tom Green Chapter, of which Eldorado is a part, states that shipments are being made daily.

Another shipment of yarn is expected soon and knitters are urgently needed to get these garments ready.

## THIS AND THAT FROM YOUR CO. H. D. AGENT

There is a simple explanation and remedy for the tomato that is not as ripe as it appears to be. High temperatures and hot sunshine cause a premature ripening of the tomato on the outside, which is misleading. The bottom part will turn pink or red, while the top part is still green and there is a good deal of green fiber inside. If the fruit is picked and placed in the shade on the back porch for a day or two, it will ripen uniformly and be of top quality.

Harvest time in the vegetable garden also means seed saving time. Squash, cucumbers, tomatoes, beans, okra, pepper, and cantaloupes are ready now. If you save them yourself you are sure of another garden for the coming year.

Following is an estimate of the number of quarts you should get from a bushel of fruit.

### Nationwide Molly Pitcher Tag Day

Washington, D. C.—On August 4th, Molly Pitcher is stepping out of the pages of American history to sell War Bonds and Stamps. The gal who carried water to thirsty soldiers during the blistering Revolutionary Battle of Monmouth and took over her husband's cannon when he was wounded, has long been a symbol of the heroism of American women.

In her honor, brigades of modern Molly Pitchers will take their stands on nation-wide Molly Pitcher Day at street corners, building entrances, and in public places to sell the bonds and stamps that back up our modern fighting men.

A red-white-and-blue Molly Pitcher Tag will be given to everyone who purchases a bond or stamp on that day. Members of the American Legion Auxiliary, and of the Independent Food Distributors Council unit of Molly Pitchers, will aid and augment local Women's War Savings Staffs to make up the volunteer sales force. They will use water pitchers to hold their supplies of tags and War Stamps. The slogan on the tags will read "Fill the Pitcher with Bonds and Stamps on Molly Pitcher Day," and the goal of the sales force will be to "tag" the total population.

### What You Buy With WAR BONDS

Wags!

No quadruped of the K9 contingent used by the Marines, the Army or the Coast Guard is purchased. They're strictly volunteers for the duration, loaned by their masters and mistresses. These dogs are taught to hear and smell and see enemies where humans cannot. They are invaluable at night.

Several K9 training stations are maintained by various branches of our fighting services. You may not have a dog to send to war but you can send your money Buy War Bonds.

War Bonds should mean something more to you than just "a good sound investment." Figure it out yourself.

For printing of distinction Call No. 77. We know how!

### Fire Damages Bath House At Christoval

In about an hour after firemen had returned to town Monday after extinguishing a grass fire on the lease of Alton Clark, which destroyed a reported half-section of grass, a plea was received here from Christoval for firemen to help combat a fire that partially destroyed the Johnson Bath House, one of the best in Christoval.

A San Angelo truck had arrived and had the flame under control when the local men arrived, however. Some local firemen have commended the Christoval people for their efficiency with a "bucket brigade," stating that they did well with it.

Reports are that the fire was caused by the explosion of an oil stove in the kitchen of the bath house. Loss was estimated at several thousand dollars, and reports are that it was covered by insurance.

### New Books At Library

Mrs. Nora Jolly, Librarian, reports the following new books at the Library: "Another Claudia" by Franken; "Into the Valley" by Hershey; "Report From Tokyo" by Grew; "Time of Peace" by Williams; "The Valley of Decision" by Davenport; "Who Is This Girl" by Miller; "The Man Who Went Away" by Harold Bell Wright. "The Secret of the Marshbanks" by Norris; "Where Beauty Dwells" by Loving; "One World" by Wendel Wilke; "The Heart Remembers" by Balwin; "The Tunis Expedition" by Zanuck; "Barriers Down" by Kent Cooper; "John D. Rockefeller" by Allen Nevins and "Cheer Leader" by Janet Singer.

"Report From Tokyo" will be well worth your reading since it is written by Ambassador Grew who after visiting Tokyo and studying the conditions, reveals his ideas on what it will take to subdue the Japanese people.

Practically all the books are new, one's time reading any of these will be well spent.

### FIRE FIGHTERS GET THANKS

Alton Clark, local rancher, who was among those to lose grass by fire, this week wishes to thank all those who in any way helped to control the fire on his lease Monday.

Clark commended the volunteers who lost no time in getting to his place immediately after the alarm was sounded. It is indeed appreciated when fellow citizens use their rationed tires and cars to rush out and help fight these fires, and he wants each one to know that he sincerely thanks them. (1t)

### The 500 Millionth Gallon

Somewhere on one of the global war fronts, or at one of the busy training fields here at home, the 500 millionth gallon of powerful 100-octane aviation gasoline made by the Humble Company has gone into action.

500 million gallons is a tremendous quantity of gasoline! Enough to fuel 200,000 four-engined bombers on a round trip raid deep into enemy territory. No, there aren't that many bombers . . . maybe there never will be . . . but, 500 million gallons will fuel 1,000 of these giants for 200 separate raids against the enemy.

Yes, 500 million gallons is lots of gasoline, and all of it has come from Humble's Baytown refinery which holds the distinction of having produced more of this essential war product than any other plant in the world.

But the Humble Company's war work is not confined to the production of 100-octane gasoline. Humble refineries have also produced millions of gallons of 91-octane gasoline for commercial airliners and training planes, and are currently providing, in addition to aviation gasoline, large quantities of the following petroleum products to ride in the raids with the bombers; toluene (since Pearl Harbor, Humble has produced much more toluene for high explosives than all other sources in the nation combined); aviation engine oils; Univis instrument oils; stratosphere greases, and rust preventives. Humble soon will be producing synthetic rubber for tires, wire insulation, rubber boats, and numerous other essential items needed by the air force.

The Humble Company feels keenly its obligation in the nation's war effort. The same engineering skill, the same refineries which give you Esso and Humble gasoline, Esso, 997, and Velvet Motor Oils for your car and truck, your farm and industrial machinery, have been geared for war production. And 13,000 Humble employees are dedicated to the job of delivering vital war goods in adequate quantities and on time.

**HUMBLE PRODUCTS FOR THE MACHINES OF WAR:** Asphalt, Aviation Gasolines and Aviation Engine Oils, Camouflage Paints, Diesel Fuels, Engine Oils, Univis Instrument Oils, Marine Paints, Navy Symbol Lubricants, Recoil Oils, Rust-Ban Protective Coatings, Stratosphere Greases, Toluene, Torpedo Greases, Waxes, Waterproof Lubricants, and soon, Synthetic Rubber for military uses. **FOR THE MACHINES OF INDUSTRY:** Automotive Lubricants, Cutting Fluids, Cleaners, Diesel Fuels, Gasolines, Industrial Lubricants, Launching Lubricants, Motor Oils, Paints, Petroleum Solvents, Quenching Oils, Rust Preventives, Waxes. **FOR YOUR CAR:** Products and service to help you care for your car for your country.

When our mortars were pounding Maknassy Hill near Sidi Bu-Sid in Africa, Private James Rugolo of Brooklyn, New York, was one of the men bringing up the ammunition. Struck by shrapnel, he kept going until he dropped, was awarded the Purple Heart. On every battlefield men like Rugolo press the attack relentlessly, regardless of personal cost. Are you doing enough to keep our attack rolling through Payroll Savings?

Captain Anthony Hollub manned the top turret guns of his grounded plane to return the fire of the Jap air attack on Clark Field in the Philippines. Exposed to strafing planes, the New Mexico captain ran across the field for more ammunition when it was exhausted. He was ready to sacrifice his life to keep his guns blazing. How much can you invest in Payroll Savings to help heroic fighters like Hollub to keep firing?

After being blown through a window by a bursting shell and stunned by a 14-foot fall during the bombardment of Sand Island, Marine Staff Sergeant Dale Lester Peters of Breckenridge, Michigan, struggled to remove large aerial bombs from nearby burning hangars. He has been awarded the Navy Cross for exceptionally meritorious service and disregard of his own safety during this action. What hardships are you willing to disregard to invest in Payroll Savings?

When Richard Breckenridge's submarine made a hurried dive off Japan, a hatch jammed, but he ignored the order to abandon the rapidly flooding conning tower and remained behind, desperately trying to fasten it. By succeeding, he saved vital equipment for his submarine and became the first enlisted man in the submarine service to win the Navy Cross. He was willing to give his life. How much of your income will you invest in Payroll Savings?

## Don't Fret Over Ration Book 3 Yet

If you have not received your Ration Book No. 3 do not start worrying about it until August 1, J. K. Black, district rationing officer, stated today, as it is probable that you will receive your book between now and August 1.

Numerous inquiries are being received in the district office and at the local board, and uneasy applicants are being reminded that thousands of books have not yet been mailed from the mailing center at Dallas. However, books are being received in San Antonio every day. Yours may be among those not yet mailed. Also, if you have changed your address since making application for the book, that may be the reason you have not received it, as the books cannot be forwarded.

For those who have not received their books by August 1, either because of error in making out applications or for failure to apply at all, all local War Price and Rationing Boards will have supplies of new application form R-129. These forms will not be available, however, before August 1.

Applicants who fail to receive their books may secure the forms at the local boards on August 2; fill them out, and submit them to the board for examination as to completeness and accuracy, and for mailing to the Dallas office.

Mr. Black emphasized the fact that there is nothing the local boards nor the District office can do at this time. There is no need for alarm, he said, as everyone will receive his book in ample time.

Crockett, Glasscock, Howard, Irion, Kimble, Martin, McCulloch, Menard, Midland, Reagan, Runnels, Schleicher, Sterling, Sutton, Tom Green and Upton.

and received rounds of applause, indicating that his beliefs and observations were strictly in harmony with the majority of those in the audience.

In mentioning the recent coal strikes, the speaker stated that he was glad that West Texans had kept themselves informed on the matter. "The situation was one in which the government had to intervene and take over," he continued. Relating how, after a San Angelo, at the time commander of a submarine, he had asked him in Washington, what they (congressmen), were going to do with Lewis, he said he

replied, "If I could take Lewis to West Texas and turn him loose we would not be bothered with him again."

Concluding his talk the congressman forcefully brought to the minds of the audience what the fighting men are going to expect when they return to the States: That they will expect a government of the people and for the people to be in existence. That they were going to expect a peace based on one that would be a lasting one. That the roots of military reign be torn from the European countries in a manner that it would forever be destroyed, and not be a repetition of 25 years ago.
