Forty-Second Year

Eldorado, Schleicher County, Texas, June 11, 1943.

NUMBER 22.

MEDITATIONS By The Editor

Order of the day seems to be shearing, harvesting of grain, cultivating crops after the recent fine rains and rejoicing over the pastures in the area.

In conversing with many ranchmen, they have expressed satisfaction with the turn-out of the wool clip so far. However, they, as are operators of many other industries, are not too jubilant over the future of their business.

Every industry is more or less affected—even the newspapers. Coming to our attention the past few days, has been notice of closing of many newspaper plants over the country. Knox City, in Knox County has lost their paper, publishing its last issue Thursday of last week, as did the McCamey News at McCamey. The Flatonia Argus, Flatonia, Texas, in South Texas, also closed its doors for lack of support, but remained closed only a short while, when merchants realized they had lost one of the community's main boosters, also an institution that earned a livelihood for some six to eight people who spent their money in the town and were always ready to sponsor any civil or other worthwhile drive for the betterment of the community. In the span of a very few days the business heads of the town realized their loss and immediately started a campaign to get the paper re-opened—and they did.

Combining of oats and wheat has been carried on at a rapid pace the last few days and reports are that the crops are not up to average due to the fact that the rains came too late for the developing of the grain, however the yield is fair.

Then of course, there are the anglers, busy as busy can be. Many have reported excellent luck. The local Soil Conservation force returned last week-end from Del Rio with a success story but we saw no evidence.

The best story of the week goes something like this:

A man who lived on the frontier had a nagging wife. One day he was in the little settlement when a boy ran up, out of breath, and said: "Mister, a wildcat has just gone in that cabin where your wife is."

The man stood there.

"Ain't you gonna do anything?" the lad asked.

"Naw, sir," the husband replied. "That wildcat went in there of his own free will and accord—and he'll just have to look out for himself."

Rev. and Mrs. A. T. Nixon and two children, Novella and Stanley, of Lometa are here for a visit with their parents, Mr. and Mrs. A. N. Nixon and Mr. and Mrs. Robert Blaylock. Rev. Nixon is pastor of the Baptist church at Lometa.

Rains Again Fall Over Wide Area

Following widespread rains on Friday night many Schleicher County farmers felt that, barring unexpected disaster, a bumper feed crop is in prospect. Ranchers saw moisture fall which will materially help carry lambs and calves toward production of vitally needed beef and lamb.

Although rainfall was very spotted, as all of the rains have been this year, much of the county received from 1 to 3 inches of moisture. Rainfall was heaviest in the Southwest portion of the county where about 3 inches was reported. Eldorado received 1.85 inches and in the western part of the county about 1 1/2 inches was reported. In general the rainfall was lightest along the northern part and in the northeastern part of the county where approximately one-half inch was reported.

Rainfall reports collected by the local Soil Conservation Service are as follows: H. T. Finley, Mayer, 3.00; Jim O'Harrow, Rudd, .50; J. Forrest Runge,

Cliff	.38
J. F. Kinser, Bailey Ranch	.75
Eldorado	1.85
W. R. Bearce, Alexander	.58
J. F. Oglesby, Kafir	1.50
C. M. Reynolds, Reynolds	2.00

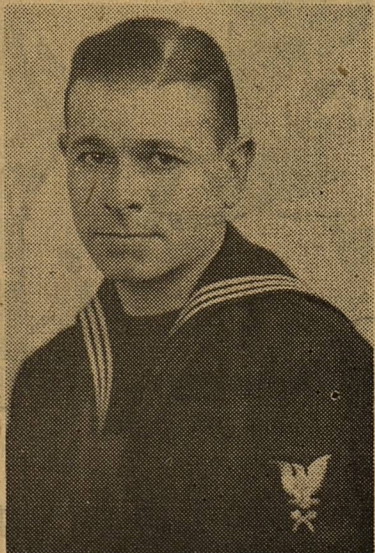

Observations made following the rain indicated that much needed moisture was conserved for production on fields having true contour cultivation and level terraces. Several farmers in the heavier rainfall areas reported terraces holding all of the moisture and storing it in the subsoil for use by crops later in the growing season (when needed moisture for heavy production is normally low).

Considerable runoff was observed on range and pasture land where sufficient cover of vegetation to retard runoff was not present. Ranges in better condition held practically all of the water which will enable them to green up quicker and remain green longer because of the additional moisture and decreased evaporation.

WITH THE MEN IN SERVICE

Visiting Here

Shown above is First Class Petty Officer, Robert Page, who arrived in Eldorado Sunday for a visit with his wife and other relatives. F. C. P. O. Page has been stationed at Vance Basic Depot, Camp Endicott, Rhode Island. He flew from R. I. to Dallas Saturday where he was met by his brother Pvt. Wilson Page, who is in training at Camp Wolters. After a several hour visit in Dallas with his brother, he and his sister Mrs. D. E. Kinnamon traveled by bus to San Angelo where they were met by Mrs. Robert Page early Sunday morning. He is expected to return to his post of duty Sunday.

G. M. 2/c J. W. Yates, Jr. who is stationed at Camp

Indicott, R. I. arrived in Eldorado Tuesday of this week. He was called home on account of the serious illness of his mother, but did not arrive until after she had passed away. This is Yates first trip home since his entering into the service some eight months ago. He is expected to report back to Camp Endicott the 18th.

COMPLETES MECHANICS COURSE AT AMARILLO

Amarillo Army Air Field, Amarillo, Texas.—John R. Conner son of Mr. and Mrs. O. E. Conner, of Eldorado, Texas has completed his course of studies as an aviation mechanic in this school of the Army Air Forces Technical Training Command.

His graduation from this technical school now fits him for airplane maintenance and he will be sent to some air base where he will assist in keeping America's Flying Fortresses in the air for Allied victory.

In addition to completion of the schedule of academic and practical studies as an aviation mechanic, he has been thoroughly drilled in military tactics and defense and a course of physical training that has conditioned him to meet all requirements of an American soldier.

San Angeloans, Service Man and Others Visit Lions

One of the largest attendance in many weeks was present Wednesday noon of this week at the regular weekly meeting of Lions club when a party from San Angelo were guests of the club. Included in the group was Dean Chenoweth, editor of the Standard Times, Prof. Jack Spratt, Pvt. A. B. Cox, former Eldoradoian, Gordon Kinley, another former Eldorado citizen and Olin Fenner.

Principal speaker on the program was Jack Spratt, professor of political science at San Angelo, who chose as his topic "Tariff" and post-war conditions between this nation and others. The address proved very interesting to those present.

Also included on the program was Robert Page, of the Sea Bees, who is here on leave and a former member of the local club. Page, now Petty Officer First Class told something of his training and preparation for active service. This talk also was impressive and enjoyed by his fellow associates and the visitors and club members in general.

Volunteers Are Sought Here For WAACs

In the interest of securing volunteers for the Woman's Auxiliary Corps, Lieut. Frances V. Clary of the San Antonio Division, accompanied by Corp. Charles G. Shoemate, enlisted in the recruiting unit, were in Eldorado Friday of last week and appointed the local post office force to act as recruiting informants on WAACs (Continued on last page)

Mrs. J. W. Yates Sr., Passes

Mrs. Sophronio Eliza Yates, aged 60 years and 4 months, passed away Thursday, June 3, at about 11 p. m. in a San Angelo hospital after a lingering illness, her condition becoming worse some two months ago.

Funeral services were conducted at the First Baptist Church here Friday afternoon of last week with Rev. Jack Skelton of Voss, assisted by Rev. J. M. Hays, local pastor, officiating. The body was laid to rest in the local cemetery.

Mrs. Yates was born in Bell County, Texas, Feb. 14, 1883. She was married to J. W. Yates, Sr., in the year 1900. To this union was born eight children, a 11 whom are living, and all except three were here for the funeral.

Deceased united with the Baptist church early in life and had remained faithful to her belief all through the years; was a devoted wife and mother.

Survivors, other than the husband are Mrs. Jim Burleson, Sheffield; Mrs. Chesterton Burk, San Angelo; Miss Vivian Yates of Eldorado; daughters, Wendell Yates, San Angelo; Dozier Yates, serving with the armed forces in New Guinea; J. W. Jr., stationed at Camp Indicott, R. I. Earl Yates, Hamilton Bermuda, also in the service, and Harold Yates of this place, sons, William Odell, Beaumont, and T. L. Odell, Killeen, brothers. Mrs. A. L. Wheeler, Danberry, Mrs. Bird Wheeler, Bangs, sisters.

Out-of-town relatives and friends here for the funeral included Mrs. D. L. Rutland, Mrs. J. W. Yates Jr., Mr. and Mrs. G. S. Cathey, San Angelo; Margie Burleson, San Angelo; Dorothy and Betty Joe Burleson, Sheffield; Woodrow and Doyle Wheeler, Coleman; Mr. and Mrs. Albert Burleson, Fort McKavett; Jim Burleson, Sheffield; Mrs. Wendell Yates, San Angelo.

Pallbearers were Marvin Logan, Dick Jones, Orland Harris, Jack Halbert, Hop Cheatham, Lum Burk and John Rodgers.

"Everything is in readiness and we are expecting a great time", stated Mrs. John Williams, chairman of the committee on Arrangements for the entertaining of some 125 or 30 men from Goodfellow Field here over the weekend. Everyone is urged to be present for the Amateur program to be put on by the boys and to bring a basket supper and have a good time in general. Every person has an invitation to attend, just bring plenty to eat and lets show them a good time. Remember, they will arrive between 5 and 6 o'clock and will expect their host and hostess to meet them. After the supper and program on the Courthouse lawn the boys will be turned over to the various homes. Each family is urged to take their guests to church Sunday. The boys will have to be back in town by five o'clock Sunday afternoon as that is the time they will have to leave to get back to their camp.

Others serving on the committee with Mrs. Williams are Mrs. C. N. Shaw and Mrs. Jerry Pennington. These ladies have worked hard along with Miss Lewis and others to make this affair a success. Lets do our part to see that their plans are carried out.

DISPLAYS BEAUTIFUL PEACHES THIS WEEK

Dr. H. Z. Pennington was this week showing peaches from his orchard of an early variety that were well-developed, a beautiful color and exceptionally large for a fruit to be grown in this section.

Stating that the tree producing this particular peach bore about 30 to 40 last year and a like number this year, and all were large in size and well formed.

We have never seen a better peach produced in Texas, regardless of soil conditions.

 Our Vacation Bible School closed Monday evening with the commencement exercise. We had a good program and we want to thank the many parents, friends, and neighbors for their presence.

We want to thank all of the Supt. leaders, and workers for their efficient work. And too we want to thank all of the ladies who made possible the refreshments. With the good and splendid co-operation on the part of all we have had a very successful Vacation School.

We are planning a Training Union Clinic and enlargement Campaign in the near future. Just as soon as we can find some good and efficient man in this field to lead us the date will be announced.

Our services were well attended Sunday and Sunday night. We are so grateful for all who make our work and services what they are. These summer months are a good time to neglect our

Church attendance and go other places. I hope it cannot be said of any of our people that they have gone somewhere else when they could have and should have been at their church.

THE LOW DOWN FROM HICKORY GROVE

I see where the boys down at Hot Springs, there in the old Sorebalk state, are putting on the dog. Are they exclusive? Pardner! They are living high—and unbothered. Any common person can barge in and listen or get any idea of what is cooking. A common person, he is to keep his distance—just so he don't get beyond the tax collector's jurisdiction. Somebody has to pay for the affair. And you take just liquor—our U. S. A. State Dept., the paper says, aske Virginia to lift the lid and let in another 2400 bottles. Every person attending had already been permitted to bring in 4 quarts on the hip.

The affair is billed as a "food conference". She looks like somebody slipped, and misnamed the meeting. But it is our own U. S. A. Govt. putting on the show. Sambo is sure showing off. Old Belshazzar couldn't have done better.

Yours with the low down,

"By pushing a button, She's good as a MAN!"

She: And what do you mean, Reddy Kilowatt—"Good as a man"?

Reddy: No offense, lady! Just this: 5 feet 1 from your 4A slippers to your spun-gold hair. You love flower-hats, veils, smooth orchestras—and, maybe, being kissed by a boy now in North Africa. But, man, oh man, how you can handle that big and heavy press!

She: What's strange about that?

Reddy: How can 110 pounds of beauty boss 147,000 pounds of steel? Is it magic?

She: Oh, no, dummy! It's simple. Electricity does the heavy work. Push a button... or flick a switch... or pull a lever. I learned to do that at home... long before the war. Electricity makes it possible for women to do men's work—

Reddy: Then the secret of our great war production is electric power plus woman-power—

She: Certainly. Women are able to work beside men, or replace them, on America's roaring produc-

tion lines because they learned to use electric service in the home. Call it magic if you like. But to me it's just good old common horse-sense!

The West Texas Utilities is helping make America power-full... helping provide this country with the world's greatest supply of electric power... power that enables women to do a man's work just as it has eliminated household drudgery and hard labor from the average West Texas home.

And more and more women are helping us give you the same good, dependable service you got before the war... and at the same low cost and without rationing.

Sixty-seven per cent more women were on our payroll June 1 than in 1940. The continued efficiency and dependability of Electric Service is in no small measure a tribute to woman-power.

Out of a family of nine children, all were home for the first time in eight years with the exception of one, who is serving in the armed forces and was unable to attend.

Mrs. Will Doyle spent several days this week in Ballinger with her son, Claude and family. Claude was injured last week when one of the horses kicked him, breaking two ribs. The injury is painful although not serious.

Mrs. Jud Brannon who recently underwent medical treatment in a San Angelo hospital is recuperating nicely and has returned to Eldorado, it is reported.

Hints to Ranchmen, Poultry Raisers

By
 A. E. Prugel, Co. Agent

Dr. I. B. Baughten, Veterinarian for the Ranch Experiment Station, would like to emphasize to all sheepmen that there is nothing to be gained by drenching grown sheep and goats for the broad white tapeworm. He states that lambs and kids pick up these worms the first summer of their lives and, even if they are not treated, eliminate this infestation from two to four months afterwards. Thereafter they are extremely resistant to reinfection. Dr. Baughten states that there is no known remedy that will remove the fringed

tapeworms when they are located in the gall bladder or in the duct running from the gall bladder to the small intestine. Should lambs be treated for the tape worms he advises that the Copper sulphate-nicotine sulphate drench is the best treatment. The Veterinarian states that by next October they should be in a position to make recommendations as to the mixing of phenothiazine powder with salt. To date they have gotten some promising results with one part of phenothiazine to nine parts of salt. However, before he can draw any definite conclusion he wants to complete some tests that he is running on large ranches. These tests will be terminated this fall.

Poultry raisers should be on their guard against Coccidiosis in chicks between 3 to 8 weeks of age. This disease is more prevalent during or following rainy weather and is characterized by the birds having a ruffled, droopy appearance, loss of appetite, fall off rapidly in weight, show pale skin, and often discharge bloody droppings. This disease is easily controlled by moving the chicks to clean ground and the feeding of sulphur in the mash.

The Experiment Station reports that Pinto Beans should mature on the plant to the point where the pods are beginning to turn brown but while the foliage of the plant is still green. The plants should then be pulled and placed in small stacks so that they will dry in three to four days. Then they should be threshed. Experiments show that if the beans are left on the plant until the plant matures and dies, they will be tough and hard when cooked.

Phenothiazine powder has proved to be the only drug effective against nodular worms in hogs. It also controls Roundworms as effec-

tively as Oil of Chenopodium. The powder should be mixed in the feed and fed when they are hungry. 5 grams are fed to pigs up to 25 lbs. Pigs weighing from 25 to 50 lbs. should be fed 8 grams, and for pigs weighing from 50 to 100 lbs. 12 grams is the dosage. Care should be taken to see that each animal gets his share of the feed so that the dosage will not vary too greatly. Pigs that vary greatly in weight should not be treated together.

The War Food Administration recently advised poultrymen not to make further expansions in broiler production. This order supplemented a previous statement asking hog producers not to increase fall farrowing more than 15 per cent over the 1942 level. These requests were made after a feed survey showed the necessity of adjusting livestock and poultry production to feed supplies.

Mrs. James Page of Brownwood, spent several days last week with her parents Mr. and Mrs. Tom Wilton and other relatives.

Mr. and Mrs. A. J. Roach visited Mrs. Roach's brother, Joe Cloud and family of Rule recently.
