FIFTH WAR LOAN SALES METER

Based on Report of Sales at Close of Business Wednesday Amount today marked

\$185,000.00

\$25,000.00

\$10,000.00

\$5,000.00

Once again it is with pleasure that the Success can print and send "across" the report that the county has definitely gone "over the top" in its bond quota.

Again we want to thank those merchants and individuals who helped sponsor advertising in the columns of this paper at the request of the Treasury Department. According to Mr. Morgenthau no other medium is as effective as the newspaper publicity to get before the people bond purchase publicity.

The sales meter at the top of this column might appear a little over-exaggerated but to go over as large a quota as was assessed deserves to send the indicator on up into higher brackets.

Here's one we recently read:

First Senator: "What did the crowd do when you told them you had never paid a cent for a vote and never would?"

Second Senator: "Well, a half-dozen or so applauded but most of them got up and went out."

Everything is being laid on the war. We note by a Kansas paper where a Wisconsin family habitually paid 50 cents to an Indian for a pail of blueberries. But one day this summer he upped the price to \$1.00. "Why?" they asked. "Heap big war some place," was his laconic reply.

But it is our observation that in these days when a smart shopper says to the clerk: "I want 50 cents of what you got" they are the ones who get the merchandise.

We had guessed the war with Germany might be over before now and are prone to surmise that us poor guessers have little in common—except bank rolls.

Another thing laid to war: Although millions of families move to war jobs and still there is a housing shortage in the towns they left.

Overseas Pilot Believes Lt. Cozzens Safe; Adjutant's Letter Informs of Higher Rank

A communication from Lieut. Robert F. Moore, combat pilot stationed overseas, and former pilot on a plane which Lieutenant Wallis O. Cozzens was assigned before his transfer to another group shortly before he was reported missing over Belgium in a night flight on May 28, informs Mrs. Mattie Cozzens, mother of Lieutenant Cozzens, that he held high hopes for the safe return of her son.

He sent the regret of his crew of Cozzens transfer from them.

The Adjutant General's Department has also informed Mrs. Cozzens by letter, that her son, at the time he was lost was a First instead of a Second Lieutenant.

\$185,000 Fifth War Loan Quota Exceeded

"Going Over the Top" is perhaps a very good phrase to use in describing the raising of Schleicher county's quota in the Fifth War Loan Drive. . . five quotas have been assessed the county on five different occasions, and five times the people have loaned their money to make raising of each quota possible.

At no time, however, has the quota been so great as it was in the drive—the fifth—which has just closed. Very nobly large concerns and limited individuals alike came to the rescue of those in charge of the raising of the \$185,000 over-all quota with liberal purchases to back up the war effort and let the many men from the county in service know that they are being backed up in their struggle by homefolk.

To those who sponsored advertisements in this paper throughout the drive, to those who in any way helped in the selling and purchasing of the bonds goes thanks and appreciation from the local committee chairman, the Treasury Department and, of course, those in service.

At close of business, Monday, July 10 the sales stood as follows:

E Quota: \$60,000.
Raised \$61,887.50

Overall Quota \$185,000
Total raised \$200,787.50

Just at the close of the drive when it looked doubtful of raising the quota, the Santa Fe Railway Company credited the county with \$10,000, which was done earlier by notice of which was not received here until Monday.

Captain McDonald, a veteran of 18 months in the South Pacific, is a holder of the Distinguished Flying Cross, three Oak Leaf Clusters, and the Air Medal, signifying that he had completed 70 missions over enemy territory.

Summer Revival At Methodist Church To Start Sunday, July 23

At an official board meeting of Methodists last week, it was decided to hold a Summer Revival at the local church.

Upon recommendation of the board, Rev. R. T. Breedlove, well-known West Texas minister and pastor of the Dumas, Texas, First Methodist Church was requested to conduct the revival of a one-week duration, commencing Sunday, July 23 and continuing through Sunday, July 30.

Due to illness of the local pastor this week, no definite plans had been worked out as to hours of meeting, following a telegraphic acceptance by Reverend Breedlove. Full details will be carried in next week's paper.

G. H. Davis returned recently to his home after an extended visit with a son, Capt. and Mrs. Paul Davis of Ellington field, Houston. He also visited in Sherman with a daughter.

Two Fire Alarms Tuesday; Telephone System Temporarily Out Of Order

Shortly after an alarm was sounded for control of a grass fire in the north part of town—and just about time both trucks got on the scene to fight the fire—the switchboard at the local telephone office burst into flames and a general "shorting-out" of circuits existed at the board. Mrs. W. C. Doyle, operator on duty at the time received severe electrical shock and withdrew from the electrified board, which was by this time was bursting into flame late Tuesday afternoon.

Quick thinking on the part of C. C. McLaughlin probably saved the company a heavy loss when he gained entrance to the wires inside the board through inspection door and removed lead-in wiring. This, however did not, in any sense of the word eliminate the curiosity of patrons, who persisted in ringing in to inquire either about the fire or as to why their telephones were ringing—the latter being caused by the voltage running through wiring at the board.

As usual telephone customers of the company let curiosity get the best of them and began ringing the operator, thereby causing an overload on the cables at the telephone office which it has been determined were grounded in some manner with an electric wire somewhere in the Eldorado area. Many persons drove downtown to inquire why their telephone bells persisted on ringing, while other drove to the office to find that the short in the line which rendered the town without telephone service some two or more hours was the cause.

Workmen in San Angelo were summoned and service was again resumed, with a major repair job to follow later.

Local fire officials are again pleading with citizens to refrain from ringing in to inquire of fires until congestion is eliminated at the telephone switchboard after a siren is blown. Specific reasons are set out in an editorial on page two of this paper. This practice is growing worse despite former requests to people not to do this.

Barn, Hay Burns In Mid-night Fire

Shortly after midnight Sunday, a small barn at the J. A. Griffin place was destroyed by fire together with several bales of dry peanut hay. The fire had gotten a considerable headway before it was discovered, but quick, alert response by the Eldorado firemen saved a portion of the feed.

Origin of the fire has not been determined. The loss is reported to have been partially covered by insurance through Jack Ratliff, local insurance agent.

Two Candidates Seeking District Judge's Bench

W. S. LESLIE

Two prominent men are in the race for the office of District Judge of the 51st Judicial District, which district comprises Tom Green, Sutton and Schleicher counties. W. S. Leslie, San Angelo attorney and prominent in American Legion work and John F. Sutton, present Judge, are candidates for this post. Both men have previously presented their platforms in this publication, and again this week messages from each of them will be found in another place in this paper.

W. IRL BREEDLOVE, Owner and Publisher

Entered as second class matter at the post office at Eldorado, Texas, under the Act of March 3, 1879. Published every Friday.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Success will be gladly corrected upon same being brought to the attention of the publisher.

ARE YOU OBSTRUCTING FIRE-FIGHTING?

In the interest of safety—to both property and lives—it has been urged that this newspaper again call to the attention of the citizens of Eldorado the impending dangers they are causing, either through unthoughtfulness or disobedience. It is not with pleasure that people have to be repeatedly warned and implored not to block right-of-ways when the fire siren sounds, or rush madly to a fire as if they are trained firemen; nor should they drive to a fire and leave their vehicles parked in an alley-way or in some position that will hinder the removing of the trucks upon a second's notice.

Stop and think with us a second in channels thus: When the siren sounds firemen are supposed to immediately report to fight fire if necessary. The firemen are not paid for this work, so they have businesses or jobs, and sometimes have to drive rapidly in order to get to the truck in order to man the fire-fighting equipment and perhaps save some one's life or maybe YOUR property. If you do not get out, and stay out of the way, you could easily cause a wreck, taking a fireman's life who is risking it for YOUR sake when he drives over 35 miles an hour in this year of 1944—but remember, the fire has no consideration for time.

Won't you let the firemen get to the fire first? AND DON'T ring the telephone operator—PLEASE! You will be notified if it is your property—and if it should be you would want the fire extinguished before you counted your loss—at least the insurance company would. The telephone operator is busy for at least five minutes notifying firemen where to go—or there may be two fires—and there are other innumerable reasons why you should wait FIVE MINUTES AT LEAST!

Three Prominent Texans In Race For Attorney General's Post

In the Attorney General's race are three men who have placed before Success readers heretofore information concerning their candidacy to this office. For the benefit of our readers we are giving a summary of the highlights in their platforms.

The order in which they appear on the ballot is as follows:

Grover Sellers of Hopkins county, Jesse E. Martin of Tarrant county, Fred Erisman of Gregg county.

Facts concerning statements by these men follow:

SELLERS MOVES TO OUST LOAN SHARKS

"Texas must be purged of the loan sharks," declared Attorney General Grover Sellers in the radio speech in Dallas which opened his campaign for his first elective term to that high position.

In his address Mr. Sellers was highly critical of the filibuster in the Senate against passage of the loan shark bill.

"Now that the courts have sustained the injunction law, passage

by the last Legislature, my office is going to make it miserable for those heartless usurers who have grown rich at the expense of thousands of unfortunate citizens," Mr. Sellers declared.

Urging any persons "... in the clutches of these parasites on society" to cease payments to their persecutors, Mr. Sellers declared: "We want information on all of these unscrupulous operators who forcefully take the hard-earned living money of our people. Write me at my office in Austin if you are in trouble and one of our investigators will meet you at your district attorney's office to take quick action to break up this nefarious practice."

When Gerald C. Mann resigned as attorney general in 1943, Mr. Sellers was Gov. Coke Stevenson's choice to fill the vacancy. He had served as first assistant to Mr. Mann for almost four years when he was appointed to the place.

SEN. MARTIN HAS SERVICEMAN PLATFORM

State Senator Jesse E. Martin in a statement issued in Fort Worth yesterday said that when he is elected attorney general he will create a department to deal exclusively with the problems of the returning servicemen, their widows, their orphans or their dependent parents.

"Many will be the perplexing problems that will confront these returning soldiers or their dependents," said Senator Martin, who is the only ex-serviceman in this race. I intend to set up a department to render to them the kind of service they desire. While I will personally direct this department I also will place at the head of it some Texan in whom Texans can place their trust and who they will know will give a square deal to our returned fighters or their dependents."

DIST. ATTORNEY ERISMAN THIRD MAN IN RACE

Fred Erisman, now serving as district attorney of Gregg county for his third term is the third man in the attorney general's race.

Erisman has not released too much publicity in this section, but he is well-known over Texas by lawyers, being president of the County and District Attorney's Association of Texas.

His home is at Longview, Texas, and he states: "I am interested in principles of government—not

HAVE YOU A TRUE PICTURE OF YOUR ELECTRIC BILL?

Many folks don't. They're as far from the real facts as this photo in an amusement park mirror!

Proof? In a nation-wide survey, 42% of the people sharply overestimated the amount of their last electric bill. 59% didn't realize that rates had been reduced in the last fifteen years—and 95% didn't realize how much!

Actually, the average American family gets about twice as much electricity today as it did

fifteen years ago for the same money.

"For the same money." That's the clue. You don't realize that rates are down, because your bill may be as much as it was fifteen years ago—or perhaps even more. But you have more electric appliances now. You're using more electricity—and you get about twice as much for what you pay.

Your BABY

By Lillian B. Storms

Pure milk is essential to baby's health, so you want to be absolutely sure of the purity of your fresh milk supply. If there is any doubt in your mind about its wholesomeness, call your local health board. Your doctor will specify whether he wishes you to use certified, pasteurized, evaporated, or powdered milk. Tell him whether you have a good refrigerator, or no means of keeping the milk cold, for it may make some difference in the choice. Milk offers of bacteria so that exacting cleanliness in the handling of it is an essential safeguard. The containers and utensils you use in the handling of milk should be rinsed first in cold water (never hot) then thoroughly washed in warm soapsuds—using a brush for inaccessible parts such as the inside of bottles. Nipples should be turned inside out. And you will want to boil all articles in a large container for five minutes and allow them to drain dry. Protect them, too, from dust, flies, and unnecessary handling. When you prepare the milk for the baby's use, do not allow your fingers, hot dish holders, or towels, to touch the milk or any surface with which the milk will come in contact. Milk is the most important single food for infants, and one way to serve more of it is to adopt a two-ounce idea—for babies like variety too! Serve ready-to-serve strained oatmeal at one feeding—then prepared cereal food at the next—turnabout!

Prompt Action Vital When Child Is Hurt Nurse Tells Mothers

WHEN accidents happen and you hear the cry "It hurts, Mommie!", don't let your child down. Don't break his faith in you. Learn what to do before the doctor comes. That's the advice to mothers given by Beulah France, R. N., in Capper's Farmer, a magazine read by 1,250,000 farm families. "Upon your actions may depend the seriousness of consequences," she writes. "The first 24 hours are often the most vital. "If a fall leaves a child unconscious or conscious but disinterested and 'stupid' keep him flat on his back, covered warmly, with head lower than feet. He is probably in a state of shock. "Broken bones may be indicated by pain and inability to move them.

"It Hurts, Mommie!"

Be very, very careful not to let the bones' ends rub together or pierce through the skin. Keep the child quiet. Do not move him until the doctor arrives. Cuts that are bleeding badly call for pressure. If you have sterile gauze (do not use sterile cotton) or a clean handkerchief, cover the cut and press hard against it."

ATTENTION! ALL HOME CANNERS!

Before you begin your 1944 canning, Good Housekeeping Magazine advises you: use the boiling water bath method for tomatoes and fruits, only. Can all vegetables except tomatoes by the correct use of pressure cooker to be sure of killing botulinus germs. In the last few years, cases of botulinus poisoning have cropped up in widely different parts of the country. Buy, borrow, share a pressure cooker—but don't can low acid vegetables any other way. If you want further information, write Good Housekeeping Magazine, 959 Eighth Avenue, New York 19, N. Y.

J. A. Enochs Asks To Be "Written In"

J. A. (Jeff) Enochs, Commissioner of Precinct No. Four stated this week that he is seeking a return to the post, and that he feels he is well qualified to fill the place efficiently and co-operatively. Mr. Enochs said that in the face of existing and unavoidable circumstances he was unable, due to lack of time, to qualify and have his name placed on the ballot, and asks the full consideration of the voters in his behalf.

"If the people will write me in on the ticket, I shall continue to give the place my best attention as in the past."

A message from him appears elsewhere in this paper.

Family's Sweet Tooth Is Readily Appeased

Sunshine angel cake, pictured above, is an appetite-tempting dessert that appeases the family's sweet tooth.

Selected from hundreds of recipes from Country Cooking readers of Capper's Farmer, by Marjorie Griffin, home editor, it is easy on sugar ration points.

- | | |
|--------------------------|------------------------|
| White Batter | Yellow Batter |
| 1 c. cake flour | 6 egg yolks |
| 1 1/2 c. sugar | 3/4 tsp. salt |
| 6 egg whites | 1/2 tsp. baking powder |
| 1/4 tsp. salt | 1/4 c. cake flour |
| 1/2 tsp. cream of tartar | 3/4 c. hot water |
| 1 tsp. vanilla | 1 tsp. lemon juice |

Sift flour with 1/2 c. of the sugar 3 times. Beat egg whites and salt until foamy. Add cream of tartar and beat until stiff. Fold in remaining sugar gradually, then flour-sugar mixture in 3 parts. Divide batter in 2 parts. Beat egg yolks until thick. Add sifted dry ingredients alternately with very hot water. Stir in lemon juice. Fold this yellow batter into half of the white. Pour the two batters alternately into an ungreased tube pan. Bake in a moderate oven (325°) for 1 hour.

No frosting is needed for this cake, the Capper's Farmer expert points out. If the home-maker uses level measurements, the methods outlined above and the temperature suggested, she can make a cake that looks just as pretty and tastes just as good as the original pictured above.

**R. J. Nixon Wants
Commissioner Job**

R. J. (Bob) Nixon, seeking election to the office of Commissioner of Precinct One, this week told a Success reporter that he sought the office with the interest of the precinct in mind, feeling that he was qualified to give good, efficient service in the behalf of better roads, and that if elected he would give his best interest to

the office at all times. Nixon is well-known here, and has previously carried his announcement in the columns of the Success. (Pol. Adv.)

**C. L. Meador, Jr.
Expresses Gratitude**

County Judge C. L. Meador, Jr., among those office-holders and who is seeking a return to office without opposition, is this week extending to the people his assurance of appreciation of their support, favors and courtesies in his behalf in the filling of his office, together with work in the war effort. A message from him will be found in another position in this paper, as will be found true of other candidates.

**JUSTICE RICHARD CRITZ
CARRIES ON CAMPAIGN**

Austin.—The attempt of a certain faction in organized labor to pack the state courts with its own judges is a "direct challenge" to the people of Texas and their free institutions, Associate Justice Richard Critz declared today in a stinging rebuke to a "political action committee's" 1944 political bulletin.

"I welcome the support of all laboring people, but so long as I am on this highest court there will be no handing out of special favors, and all cases will be decided on their merits," he stated.

**To The Voters of
Schleicher County:**

It is with pleasure that I have this opportunity to express to the people of Schleicher County, my appreciation for their support and consideration in the past.

In asking for re-election to the office of County Treasurer, I want to say that even though I have no opponent in the coming Primaries, your past courtesies inspire me to exert my very best efforts to the office you have intrusted to my care.

ALEXANDER F. VICTOR

DAVENPORT, IA.—Small towns will have an equal advantage with metropolitan cities in both the variety and scope of education and entertainment through the use of 16 millimeter motion picture projectors and films, Alexander F. Victor, first to design and produce projectors and cameras of this size, declared in a postwar forecast for the industry.

Known as the "father of the 16 mm industry" Mr. Victor, president of the company here bearing his name, said that film libraries on every conceivable subject from all over the world are being built up and will be ready for wide general distribution after the war.

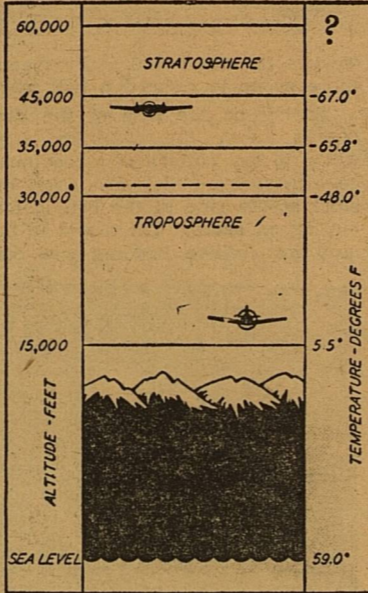

These libraries now contain many thousands of films, and these, in conjunction with the projectors which will be available when war needs are met, will enable the "little red" schools, small civic groups and homes in even the cross roads towns to view an infinitely greater variety of subjects than has been provided heretofore, he said.

Patsy Kinser of Sonora spent last week visiting her grandparents Mr. and Mrs. J. F. Kinser and Mr. and Mrs. C. L. Martin, Sr. She was accompanied to Sonora by Glenda Jo Breedlove, who visited there a few days.

Mrs. Reuben Dickens is visiting this week in San Angelo in the home of a friend, Mrs. H. T. Bird.

PLANE TALK
BY Rowland Burnstan

The atmosphere which surrounds the earth's surface is a vast sea of odorless and colorless gases. Planes fly through this air in the lower levels, relatively close to the earth. This body of air is divided into layers. The troposphere, which extends upward about seven miles, is the layer closest to the earth's surface. In this layer there is a rising and sinking of air, thus the prefix "tropo" meaning "turning of air." Here moisture is present and winds occur.

The second layer is the stratosphere, where there are no up and down movements, only horizontal air currents. Little water vapor appears and strong winds are absent. Because of the rarefied air, at the present time only planes with advanced design can fly through the lower regions of the stratosphere. The temperatures in this area range from 50 degrees below zero and colder.

SUNDAY SCHOOL CLASS GIVES SURPRISE PARTY

Jane Davis was recently honored when her Sunday School class of the Fundamental Baptist Church entertained with a surprise party in the home of Mrs. Doc Kerr. Mrs. Henry Mittel is sponsor of the class.

Games were played with Jane and Ruby Butler winning high score and after a treasure hunt through the house, found a box of gifts as their prize. The gifts were useful articles to be used at the school of nursing, San Angelo, which the two girls entered last week.

Refreshments of cake, ice cream and punch were served to 12 guests and the hostesses.

Miss Billie Bodine and Mrs. Charles Capman of San Antonio, visited a few days here last week with friends. Mrs. Chapman is the former Miss Katherine Bodine and they are former residents of this city.

County Agent News Notes

By JACK WELCH
County Agent, Schleicher County

A good method to control honey dew on vine crops is to use 3 teaspoons Blackleaf Forty and 3 teaspoons household Ammonia per gallon of water as a spray. A 3 percent Nicotinic sulphate dust can also be used. This will not injure the vines. Honey dew is caused by a plant louse and it is necessary to cover the entire plant. Particular attention should be given to the lower surface of the leaves.

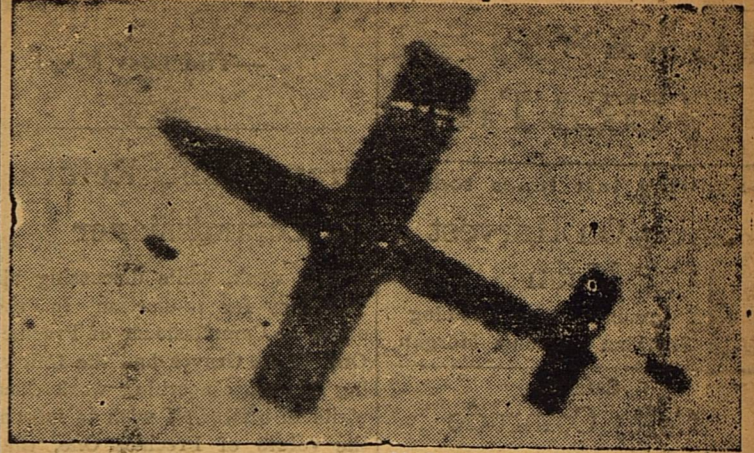

There are several causes of the yellowing of leaves of plants known as chlorosis. A deficiency of iron is usually the cause. Iron Sulphate (coppers) can be used as a spray late in the afternoon at the rate of 2 heaping teaspoons-full in a quart of water to which 1/4 teaspoonful glue is added as a sticking agent or it can be put in holes punched with an iron bar about 1/2 inch in diameter to a depth of 2 feet. The hole is completely filled with coppers or a mixture of coppers and commercial fertilizer. The holes should be placed 1 1/2 feet from shrubs, and a little further from trees. The application should not touch the main root of the plant. Sulphur applied at the rate of 100 to 200 pounds per acre is effective on some soils. Sulphur should be applied two months before it is expected to become effective.

Miss Polly McLaughlin returned Monday from San Antonio where she visited with the Guy Bodine family and with an uncle, Orlin Joiner.

Mrs. Frank Bradley left Thursday of last week for Oakland, Calif., where she is to make an extended visit with a daughter, Mrs. Robert Frost and family.

ELDORADO H. D. CLUB NEWS
Mrs. Palmer West Reporter

A discussion of "Table Manners and Etiquette" was given by Mrs. John Williams when the Eldorado Home Demonstration Club met Friday afternoon, July 30, in the home of Mrs. Jerry Pennington.

The program was opened with a reading by Mrs. Chester Dugger and a group song. Roll call was answered with favorite hobbies.

Mrs. Williams gave a report on the exhibit and Mrs. Dugger was elected as nominee to the State meeting. Mrs. Joab Campbell di-

rected a ten-minute recreational period.

The next meeting will be an all-day meeting with a covered dish luncheon on July 14 at the City Hall. At this time, Miss Virginia Ryan, agent, will inspect cookers.

Present were those mentioned above and Mrs. Frank Van Horn, L. D. Christian, R. C. Spurger and Lum Burk.

Graves Asks Return As Commissioner

This week, while discussing his candidacy for re-election to the office of Commissioner of Precinct One, C. A. Graves had the following to say concerning work done while in office: "I wish to inform the voters of Precinct One, that the right-of-way, and building of fences for the new road just completed through the Thad A. Thomson Est., and Thomson Bros. ranches, did not cost the tax-payers of Scheicher County one penny, as the above owners furnished the county the right-of-way and paid for putting up these fences."

Mr. Graves further stated that he felt that if re-elected to the office he could better fill the place than heretofore, due to his broad experience with the work. (Pol. Adv.)

Finley Thanks Voters of County

Although he has no opponent, H. T. (Dogie) Finley, present County and District Clerk, this week took advantage of the opportunity to express to the voters his deep appreciation for all past courtesies and favors shown him, and for all that may be shown him in the future; thanking the citizens for their co-operation with him in his work. His message appears elsewhere in this week's paper. (Pol. Adv.)

Good Care Makes Bedding Last Longer

BEDDING is too scarce to handle carelessly these wartime days, since civilian supplies of sheets, blankets, mattresses and pillows have been cut to meet military needs. But beds can still be comfortable and neat looking if given good care, Mae Ferris points out in the Rural Home Section of nationally circulated Capper's Farmer.

Ferris is her advice on how Mamma, Dad and the Kids can cooperate: "Pillow fights may be fun, but feathers are scarce. The govern-

ment has duration claim on all good ones such as goose and duck. Mary and John are old enough to understand that beds are made to sleep in. They can romp elsewhere. "Don't keep the wringer running if distracted. Shut it off before attending to Junior's nose or answering the telephone—then sheets have no chance to get twisted. Careful laundering can add months to the life of your linens. Strong soaps and excessive bleaches will

weaken the fibers and make sheets more prone to wear thin and tear. "Sitting on the side of the bed breaks down the mattress side walls, to say nothing of the outside coils in spring units. The chair or stool at the side of the bed is for putting on shoes. The metal to be used for civilian bedding was cut

from 300 thousand to 50 thousand tons last year. What we have must last."

McCormick Asks Support of Voters

Van McCormick, among others in the race for Sheriff, Tax Assessor-Collector, states this week that he feel he is competent and his knowledge of the duties of the office fully qualifies him to discharge the duties in that department if the people see fit to elect him. McCormick stated he has resided here some 43 years and other than being familiar with the office, knows the property owners and their property. A message from him is to be found elsewhere in this paper. (Pol. Adv.)

Mr and Mrs. W. E. Turnbow returned from Girvin Saturday after a 10-day visit with relatives of "Smokey's" and parents of Mrs. Turnbow, Mr. and Mrs. West Pool.

Paul Page, who has been visiting for several days in Dallas with his sister, Mrs. D. E. Kinnamon, and in Paris with his brother, Corp. Wilson Page, returned home this week. He was accompanied home by two nephews, Kenneth and Ronald Kinnamon of Dallas.
